

APPROVED 1540 COMMITTEE MATRIX

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to inter-governmental organizations. The matrices are prepared under the direction of the 1540 Committee.

The 1540 Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council Resolution 1540.

The matrices are not a tool for measuring compliance of States in their non-proliferation obligations but for facilitating the implementation of Security Council Resolutions 1540 (2004), 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) and 2325 (2016). They do not reflect or prejudice any ongoing discussions outside of the Committee, in the Security Council or any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution 1540 or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution 1540 (2004) and its successor resolutions. Thus:

An “X” in any data field signifies only that the 1540 Committee considers that a State has taken the steps required, and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An “X” against any data field does not necessarily signify that a State has met in full its 1540 obligations for that data field.

A “?” in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A “NA” (Not Applicable) in any data field signifies that the data field is not applicable to that State where through legally binding instruments States specified that they do not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an “X” or “?” against a particular data field.

State:	Federative Republic of Brazil
Date of Report:	29 October 2004
Dates of Additional Reports:	22 September 2005 22 September 2005 (Corr.1) 17 March 2006 17 December 2007 (National Submission) 11 May 2020 (National Submission)
Date of Approval:	16 December 2020

I. OP 1 and related matters from OP 5, OP 8 (a), (b), (c) and OP10

Adherence to legally binding instruments, membership of organisations, participation in arrangements and statements made.	Relevant information (i.e., signing, deposit of instrument of accession, ratification, etc)	Remarks (information refers to the page of the English version of the national report or an official web site)
1 Nuclear Non-Proliferation Treaty (NPT)	Deposit 18 September 1998	
2 Nuclear Weapons Free Zone/ Protocol(s)	Treaty of Tlatelolco: Deposit 29 January 1968	
3 International Convention for the Suppression of Acts of Nuclear Terrorism	Deposit 25 September 2009	
4 Convention on Physical Protection of Nuclear Material (CPPNM)	Deposit 17 October 1985	
5 2005 Amendment to the CPPNM

VIII. OP 7 and 8 (d) - Assistance, Work with and inform Industry and Public, and other Information

1	Assistance offered	In response to specific requests, the Brazilian Government is ready to provide assistance as appropriate to States in the Latin American and Caribbean region and other developing countries lacking the legal and/or regulatory infrastructure and implementation experience required to implement the provisions set forth by the Security Council Resolution 1540.
2	Assistance Point of Contact (for assistance providers only)	Division of Disarmament and Sensitive Technologies (DDS/MRE), Ministry of Foreign Affairs dds@itamaraty.gov.br
3	Assistance requested	
4	Action taken to work with and inform industry	General Coordination for Sensitive Items, within the Ministry of Science Technology and Innovations (CGBS/ASSIN/MCTI) and the National Commission of Nuclear Energy (CNEN) are in constant interaction with industry and the companies involved in activities related to sensitive goods and technologies as well as with their representative associations. "Project Sciences", further nominated "National Program for Integration State Enterprise in the sensitive Areas (Pronabens)", carried out by CGBS/MCTI and by the Brazilian Intelligence agency (ABIN) intends to inform private and governmental sectors: outreach-activities to chemical and biological industries, nuclear-related industry and missile-related industry. It aims at expanding its activities to all industries and governmental institutions that work with sensitive technologies. Currently, outreach activities are focusing on laboratories, research facilities and governmental institutions related to biological, nuclear and missile areas. Efforts in the chemical area are focused on academia. In 2019, the System for Protection of the Brazilian Nuclear Programme (SIPRON) conducted the first periodical Nuclear Security Exercise in Ports (ESFPORTO – 2019), in Santos, Sao Paulo, along with 23 agencies and port authorities.
5	Action taken to work with and inform the public	Relevant web sites are open to the public domain. On the CGBS website there is information about the legislation of the Brazilian System for Export Control of Sensitive Items.
6	Point of Contact	Division of Disarmament and Sensitive Technologies (DDS/MRE), Ministry of Foreign Affairs dds@itamaraty.gov.br
