Sustainable fisheries, in particular measures to prevent, deter and eliminate illegal, unreported and unregulated (IUU) fishing:

International instruments

- Ratify, accept, accede to, and fully implement the provisions of all relevant international fisheries instruments to include: UN Law of the Sea, Fish Stocks Agreement, Compliance Agreement, and the FAO Code of Conduct for Responsible Fisheries (see: p270 of Riddle, KW. "Illegal, Unreported, and Unregulated Fishing: Is International Cooperation Contagious?" (2006) 37(3) *Ocean Development & International Law* 265-297.
- Vessel monitoring systems is one tool used in the monitoring, control and surveillance of fishing vessels (FAO), <http://www.fao.org/fishery/topic/13691> and integrated fisheries monitoring (FAO), <http://www.fao.org/fishery/topic/14772>
- At the national level countries are implementing measures to deny access to known IUU fishing vessels to ports, taking steps to strengthening real-time monitoring, control and surveillance (MCS) and raising public awareness about the long-term impacts of IUU fishing. (Illegal, Unreported and Unregulated Fishing (FAO) <http://www.fao.org/fishery/topic/3195>
- Some Regional Fisheries Management Organizations (RFMOs) have moved to develop catch certification schemes as means of discouraging IUU fishing. (Illegal, Unreported and Unregulated Fishing (FAO) <http://www.fao.org/fishery/topic/3195>
- Griggs, L. and Lugten G., "Veil over the nets (unravelling corporate liability for IUU fishing offences)" (2007) 31 *Marine Policy* 159–168.

Enforcement tools
