

Russian delegation to the Fifth Committee

Second resumed part of 66th session

Closure of the session – June 12, 2012

Comments before adopting draft resolution on UNMISS (South Sudan)

Russian delegation has supported the consensus draft resolution.

However, we would like to specially note paragraph 14 of the ACABQ report on UNMISS which highlighted unrealistic nature of the Mission's objectives and indicators of achievement. We would also like to note huge growth of costs of civilian personnel and its support. We assume that the Secretariat - in its preparation of next year budget proposals for the Mission - will abide more strictly by the relevant Security Council mandate.
