I. Background	2
II. Longer-term objectives of the Organization	2
III. Priorities	11

* [A/77/50](#).

** In keeping with paragraph 11 of resolution [72/266 A](#), the part consisting of the plan outline is submitted through the Committee for Programme and Coordination for the consideration of the General Assembly.

I. Background

1. In keeping with guidance received from the General Assembly, the longer-term objectives of the Organization set out in the present document reflect the legislative mandates of Member States in all areas of the activities of the United Nations. Mandates are referenced in parts II and III of each programme budget section. They collectively form the basis for the preparation of the proposed programme budget, which translates legislative mandates into long-term priorities and objectives and work programmes. The plan outline (part I) and programme plan (part II) are the principal policy directives of the United Nations and serve as the basis for programme planning, budgeting, evaluation and monitoring (General Assembly resolution [72/266 A](#)).

II. Longer-term objectives of the Organization

2. The longer-term objectives of the Organization continue to be grounded in the Charter of the United Nations and its Articles and revolve around the mandates established by Member States. On the promotion of sustained economic growth and sustainable development, climate change and environmental issues, these include the 2030 Agenda for Sustainable Development (General Assembly resolution [70/1](#)), the decade of action and delivery for sustainable development (resolution [74/4](#)), the Addis Ababa Action Agenda of the Third International Conference on Financing for Development (resolutions [69/313](#) and [75/322](#)), Agenda 21: Programme of Action for Sustainable Development (resolution [73/227](#)), the Beijing Declaration and Platform for Action (resolutions [50/42](#) and [76/142](#)), the Doha Programme of Action for the Least Developed Countries (resolution [76/258](#)), the Mauritius Declaration and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (resolution [59/311](#)), the Monterrey Consensus (resolution [56/210 B](#)), the New Urban Agenda (resolution [71/256](#)), Our ocean, our future: call for action (resolution [71/312](#)), the Paris Agreement (FCCC/CP/2015/10/Add.1, as referenced in resolution [71/228](#)), the protection of global climate for present and future generations of humankind (resolution [73/232](#)), the SIDS Accelerated Modalities of Action (SAMOA) Pathway (resolutions [69/15](#) and [76/203](#)), the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014–2024 (resolutions [69/137](#) and [76/217](#)) and the repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review (resolution [72/279](#)). On the maintenance of international peace and security, they include the Security Council resolution on developing a comprehensive and integrated performance policy framework for United Nations peacekeeping operations (resolution [2436 \(2018\)](#)), peacebuilding and sustaining peace (Assembly resolutions [70/262](#), [72/276](#) and [75/201](#) and Council resolution [2282 \(2016\)](#)), the review of the United Nations peacebuilding architecture (Assembly resolution [70/262](#)), women and peace and security (Council resolution [1325 \(2000\)](#)) and youth and peace and security (Council resolution [2535 \(2020\)](#)). On the development of Africa, they include Agenda 2063: The Africa We Want of the African Union (as recognized in Assembly resolution [71/254](#)), the New Partnership for Africa's Development: progress in implementation and international support (resolution [75/322](#)), the Framework for a Renewed United Nations-African Union Partnership on Africa's Integration and Development Agenda 2017–2027 (resolution [71/254](#)) and the implementation of the recommendations contained in the report of the Secretary-General on the promotion of durable peace and sustainable development in Africa (resolution [75/327](#)). On the promotion of human rights, they include the Vienna Declaration and Programme of Action, including its principles and recommendations, adopted by the World Conference on Human Rights and

subsequently endorsed by the Assembly in resolution 48/121. On the effective coordination of humanitarian assistance, they include strengthening the coordination of emergency humanitarian assistance of the United Nations and international cooperation on humanitarian assistance in the field of natural disasters (resolutions 46/182, 75/124 and 75/127), the Sendai Framework for Disaster Risk Reduction 2015–2030 (resolutions 69/283 and 76/204), the Global Compact on Refugees (resolution 73/151) and the Global Compact for Safe, Orderly and Regular Migration (resolution 73/195). On the development of international justice and international law, they include Articles 13, 98, 102, 104, 105 and other relevant provisions of the Charter. On disarmament, they include weapons of mass destruction, combating the illicit trade in small arms and light weapons and analysis of emerging issues, including new technologies (the first special session devoted to disarmament (resolution S-10/2)). On drugs control, crime prevention and combating international terrorism in all its forms and manifestations, they include the outcome document entitled “Our joint commitment to effectively addressing and countering the world drug problem” (resolution S-30/1), the Kyoto Declaration on Advancing Crime Prevention, Criminal Justice and the Rule of Law: Towards the Achievement of the 2030 Agenda for Sustainable Development (resolution 76/181) and the United Nations Global Counter-Terrorism Strategy (resolution 75/291). On the effective functioning of the Organization, they include shifting the management paradigm in the United Nations (resolution 72/266 B). Finally, they also include Our Common Agenda as a basis for further consideration by Member States (resolution 76/6).

Promotion of sustained economic growth and sustainable development

3. The 2030 Agenda is the plan of action for Member States to “promote higher standards of living, full employment, and conditions of economic and social progress and development” (Article 55 of the Charter). While Member States are progressing towards many of the 17 Sustainable Development Goals (E/2018/64), the compounded crisis of the coronavirus disease (COVID-19) pandemic, climate change, the assault on natural systems and evolving global situations has added an urgent dimension to the Secretary-General’s call for all sectors of society to mobilize for a decade of action to eradicate poverty and deliver the Goals, including through accelerated action in 10 critical action areas committed to by Member States at the high-level political forum on sustainable development in 2019 (General Assembly resolution 74/4).

4. The Organization will continue to focus on repositioning the United Nations development system to better support Member States in the implementation of the 2030 Agenda (General Assembly resolution 72/279). Building on guidance from the quadrennial comprehensive policy review (resolution 75/233) and the review of the resident coordinator system (resolution 76/4), the United Nations development system, with the reinvigorated resident coordinator system at its centre, will help countries to accelerate progress towards the 2030 Agenda, in alignment with national priorities, as set out in the United Nations Sustainable Development Cooperation Frameworks (resolution 72/279). This will continue to be realized through the shifts brought about by the reforms to deliver more cohesive and integrated policy and programmatic support to host Governments, supported by adequate resources and partnerships; enhanced alignment with national priorities; increased transparency and accountability for system-wide results; more effective and efficient United Nations country teams with a needs-based tailored country presence; and open and inclusive dialogue with Member States on the Organization’s support for the implementation of the 2030 Agenda.

5. The Organization will complement support in realizing the 2030 Agenda with follow-up to the Paris Agreement, the Sendai Framework, the Addis Ababa Action

Agenda, Agenda 21, the Beijing Declaration and Platform for Action (General Assembly resolution [S-23/2](#)) and the New Urban Agenda. Furthermore, it will continue its assistance to countries with the highest needs, support the implementation and mainstreaming of the Doha Programme of Action for the Least Developed Countries and lead preparations for the third United Nations Conference on Landlocked Developing Countries (resolution [76/217](#)) and the fourth International Conference on Small Island Developing States (resolution [76/203](#)).

6. The Organization will continue to bolster its efforts to assist Member States in leaving no one behind and reaching the furthest behind first (General Assembly resolution [73/246](#)). It will support Member States in addressing the multidimensional nature of development and poverty, all forms of inequality, as well as the mobilization of national resources, international public finance, global economic governance and global financial and macroeconomic stability (resolutions [69/313](#) and [76/218](#)). The Organization will also support Member States in giving due consideration to the issue of agriculture development, food security and nutrition (resolutions [72/239](#) and [73/253](#)). It will continue to assist Member States in addressing the challenges and opportunities arising from international trade, finance, technology and investment to ensure that their benefits are widely shared (resolution [76/190](#)).

7. The Organization will support Member States in addressing the threat posed by climate change and environmental degradation, recognizing that the global nature of climate change calls for the widest possible international cooperation to accelerate the reduction of global greenhouse gas emissions, address adaptation to the adverse impacts of climate change and close the gap between aggregate mitigation pledges and aggregate emission pathways (General Assembly resolution [73/232](#) and [FCCC/CP/2015/10/Add.1](#)).

8. The Organization will continue to assist Member States in advancing the global environmental agenda, strengthen coherence within the United Nations system and serve as an authoritative advocate for the global environment (General Assembly resolution [73/260](#)). It will also support Member States in adopting innovative pathways to achieve sustainable consumption and production (United Nations Environment Assembly resolution [4/1](#)) through, inter alia, sustainable resources, including the environmental dimension of a sustainable, resilient and inclusive post-COVID-19 recovery, innovative technology (Environment Assembly resolution [5/10](#)) and circular economy approaches (Environment Assembly resolution [5/11](#)). The Organization will support efforts to implement immediate actions towards the sound management of chemicals and waste (Environment Assembly resolution [5/7](#)), the long-term elimination of plastic pollution in marine and other environments (Environment Assembly resolution [5/14](#)) and the conservation and sustainable use of biological diversity and the fair and equitable sharing of benefits arising from the use of genetic resources (General Assembly resolution [57/260](#)).

9. Given that gender equality and the empowerment of women and girls are intrinsic to sustainable development, including financing for development, the Organization will support Member States in promoting the leadership, economic empowerment and participation of women in decision-making at all levels, including by accelerating gender mainstreaming (General Assembly [76/142](#)) and addressing all forms of discrimination and violence against women and girls, in particular by improving strategies for prevention (resolution [69/147](#)).

10. The Organization will continue to work closely with Member States in promoting international cooperation to address the impact of demographic trends in the context of sustainable development, including changes in population growth or decline, age structures, urbanization and international migration (General Assembly resolutions [49/128](#), [S-21/2](#), [65/234](#) and [73/195](#)). The Organization will also assist

Member States in addressing the way in which cities and human settlements are planned, designed, financed, developed, governed and managed (resolution [71/256](#)).

11. Capitalizing on the repositioning of the United Nations development system, the Organization will help to strengthen regional and subregional efforts to promote sustainable development, including through cross-border collaboration, strengthen regional cooperation and facilitate knowledge-sharing and peer-to-peer learning and resource mobilization (General Assembly resolution [75/233](#)). Multi-stakeholder platforms, regional road maps for the implementation of the 2030 Agenda, rapid response facilities to assist Member States and innovative policy tools to strengthen planning and economic governance will play a critical role in this context (resolution [72/279](#)).

Maintenance of international peace and security

12. The prevention and peaceful settlement of disputes are among the purposes of the United Nations (Article 1 of the Charter), and the Organization arose from conflict to “save succeeding generations from the scourge of war” (Preamble to the Charter). Its Member States have been determined to establish a just and lasting peace all over the world in accordance with the purposes and principles of the Charter (General Assembly resolution [60/1](#)). Armed conflict continues to have a high human cost and cause suffering, and the world is facing a significant number of simultaneous security and humanitarian crises (resolution [70/262](#)). Member States recognize that a whole range of threats require urgent, collective and more determined responses (resolutions [60/1](#), [70/262](#) and [75/201](#)).

13. In the pursuit by Member States of the 2030 Agenda, a key focus of the United Nations will be to better serve nations in sustaining peace (General Assembly resolution [70/262](#) and Security Council resolution [2282 \(2016\)](#)). As national Governments and authorities exercise their primary responsibility in this regard, the United Nations will support and complement their efforts to prevent the outbreak, escalation, continuation and recurrence of conflict, addressing root causes of conflict, assisting parties to conflict to end hostilities and ensuring national reconciliation (Council resolution [2594 \(2021\)](#)). In this context, the Organization will also work with Member States to strengthen the peacebuilding architecture and its partnership with the World Bank and other international financial institutions in crisis-affected situations, in line with Assembly resolution [70/262](#) and Council resolution [2282 \(2016\)](#) and subsequent requests (Assembly resolutions [72/276](#) and [75/201](#) and Council resolution [2558 \(2020\)](#)). The Organization will also continue to advance international cooperation in the peaceful uses of outer space (Assembly resolutions [1472 \(XIV\)](#) and [76/76](#)).

14. The primacy of politics will be the hallmark of the United Nations approach to conflict resolution, including through mediation, good offices, the monitoring of ceasefires and assistance in the implementation of peace accords ([S/PRST/2018/10](#)). Recognizing the important role that special political missions play as a flexible tool for the maintenance of international peace and security, the Organization will continue to work to strengthen the role of these missions in mediation, conflict prevention, conflict resolution and peacebuilding and sustaining peace, in partnership with regional and subregional organizations and other relevant stakeholders (General Assembly resolution [76/83](#)).

15. The Organization will continue to focus on improving its peacekeeping capabilities and enhancing the effective and efficient deployment of its peacekeeping operations (General Assembly resolution [72/304](#)). Recognizing that peacekeeping benefits from collective engagement, the Organization will work with all partners and stakeholders – including through priorities to accelerate the implementation of the

Action for Peacekeeping initiative set out in Action for Peacekeeping Plus – to adapt peacekeeping operations to today’s complex and high-risk environments (S/PRST/2018/10 and Council resolution 2436 (2018)), in particular by strengthening safety and security (resolution 2518 (2020)), the performance of uniformed personnel in United Nations peacekeeping operations (resolutions 2382 (2017) and 2436 (2018)), security sector governance (resolution 2553 (2020)), system-wide coherence in justice and rule of law support (resolution 2447 (2018)), regional and subregional partnerships (resolution 2457 (2019)) and proper conduct with zero tolerance for all forms of sexual exploitation and abuse (Assembly resolution 72/312 and Council resolution 2272 (2016)), as well as to strengthen the planning and management of transition processes and to further enhance organizational learning and guidance on transitions (Council resolution 2594 (2021)).

16. In all its efforts to support the maintenance of international peace and security, the United Nations will continue to promote the protection and rights of women and their participation in conflict prevention, resolution of armed conflict, peacebuilding and post-conflict situations (Security Council resolution 2242 (2015)), the similarly important role of young people (resolutions 2419 (2018) and 2535 (2020)), the protection of children in armed conflict (resolution 2427 (2018)) and action against conflict-related sexual violence (resolutions 1820 (2008) and 2467 (2019)).

17. In contributing to the achievement of Member State objectives, the Organization will sustain its focus on the goals of the reform and restructuring of the peace and security pillar, including focusing on preventing and sustaining peace, enhancing the effectiveness and coherence of peacekeeping operations and special political missions, achieving a “whole-of-pillar” approach and aligning the peace and security pillar more closely with the Organization’s development and human rights work (General Assembly resolutions 72/199 and 72/262 C).

Development of Africa

18. The development of Africa will continue to be a priority for the United Nations. In the coming years, efforts will be focused on recovery from the COVID-19 pandemic (General Assembly resolution 74/306) and supporting the deep transformations in energy, food systems and digitalization, with a strong focus on gender equality and leaving no one behind, required to achieve the Sustainable Development Goals, as well as on effective transitions from conflict and crisis to sustainable development and strengthening overall resilience (resolution 75/233). The Organization will support Member States to reduce disaster risk (resolution 69/283), strengthen climate mitigation and adaptation (resolution 76/205), increase energy access (resolution 76/210) and enhance innovation, access to digital technologies (resolution 76/213) and the industrialization of Africa (resolution 75/231), including by advancing the African Continental Free Trade Area, strengthening health, social protection and education systems, promoting strong and efficient institutions and ensuring the sustainability of development financing through enhanced national resource mobilization and the implementation of the Addis Ababa Action Agenda (resolutions 69/313 and 75/322) to accelerate implementation of the Goals (resolution 74/4).

19. In line with General Assembly resolution 76/236, the United Nations will continue to support the implementation of Agenda 2063, through the joint African Union-United Nations Framework for the Implementation of Agenda 2063 and the 2030 Agenda for Sustainable Development and the joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security (General Assembly resolution 72/311 and S/2021/763). The Organization will promote a coherent and integrated approach to the international community’s support for Africa with the aim of achieving sustainable development and durable peace in the continent

(resolution [75/327](#)), including in the Sahel – a priority region for the United Nations – through the operationalization of the United Nations integrated strategy for the Sahel (Security Council resolution [2391 \(2017\)](#)).

Promotion of human rights

20. Promoting and encouraging respect for human rights and for fundamental freedoms for all without distinction as to race, sex, language or religion is a purpose of the United Nations set out in its Charter and anchored in the Universal Declaration of Human Rights (General Assembly resolution [217 \(III\)](#)). The responsibility of all Member States to respect, protect and promote human rights is reaffirmed in the 2030 Agenda. The Organization will continue to support Member States and treaty bodies in advancing these objectives, including promoting the right to development, advancing knowledge, awareness and understanding of human rights, combating discrimination and inequalities and strengthening the rule of law and democratic institutions (Assembly resolutions [41/128](#), [48/141](#), [66/3](#), [67/1](#), [70/1](#) and [73/157](#) and Human Rights Council resolution [43/1](#)).

21. In support of Member States, the Organization will continue to help to rationalize, adapt, strengthen and streamline the United Nations human rights machinery, with a view to improving its efficiency and effectiveness (General Assembly resolution [48/141](#)). In this context, the Organization will support Member States in building the capacity to implement their treaty obligations and will provide, in this regard, advisory services, technical assistance and capacity-building (resolution [68/268](#)). The Organization will also continue to facilitate and support the Human Rights Council, including during the undertaking of universal periodic reviews (resolutions [60/251](#) and [65/281](#)). In this context, the Organization will, on the basis of consultations, continue to inform the Council on a regular basis of the practical applications of prevention in the promotion and protection of human rights (Council resolution [33/6](#)).

Effective coordination of humanitarian assistance efforts

22. Over the past years, an unprecedented number of people have been affected by humanitarian emergencies. In 2021, the number of people targeted through United Nations-led humanitarian response plans reached 174 million.¹ Member States have recognized that complex trends – including armed conflicts, the COVID-19 pandemic and epidemics, natural hazards, climate change, environmental degradation, financial and economic crises, food and energy insecurity, food crises and risk of famine, water scarcity, unplanned urbanization, gender-based violence, violence against children and acts of terrorism – are increasing the vulnerability of people while reducing their ability to cope with humanitarian crises (General Assembly resolutions [70/165](#) and [76/124](#)).

23. Given the unprecedented number of people affected by humanitarian emergencies, the effective coordination of humanitarian assistance is a long-term priority of the United Nations, as is fast, predictable and flexible humanitarian financing through the Central Emergency Response Fund and humanitarian country-based pooled funds (General Assembly resolutions [46/182](#) and [76/124](#)). The Organization will continue to enhance the coordination, effectiveness and efficiency of humanitarian assistance and strengthen preparedness and response efforts, including in support of national and regional capacities, in line with humanitarian

¹ Office for the Coordination of Humanitarian Affairs, *Global Humanitarian Overview 2022* (Geneva, 2021).

principles (Assembly resolutions 76/124 and 76/128 and Economic and Social Council resolution 2021/17).

24. The Organization will strengthen efforts to integrate disaster risk reduction into its work (General Assembly resolution 75/233). It will support Member States in developing and implementing national and local disaster risk reduction strategies supported by comprehensive disaster risk reduction financing strategies, including through the midterm review of the Sendai Framework (resolution 76/204), and will support Member States in applying the Sendai Framework to promote a sustainable recovery from the COVID-19 pandemic (E/HLS/2021/1).

25. The Organization will also promote closer cooperation, collaboration and coherence in humanitarian, development and other efforts to ensure complementary responses that meet urgent humanitarian needs and tackle the root causes of need, risk and vulnerability (General Assembly resolution 76/124). This contributes to the 2030 Agenda and to leaving no one behind, including internally displaced persons and refugees (resolutions 70/1, 76/78, 76/143, 76/144 and 76/167).

26. Challenges for humanitarian efforts are expected to continue, including disregard for international humanitarian law, violence and attacks and threats against humanitarian and medical personnel, which underscore the importance of ensuring their safe and unhindered access and of respecting and protecting them (General Assembly resolutions 76/124 and 76/127). The Organization will thus strengthen efforts to enhance its security management system and the stay-and-deliver strategy and mobilize partners to support the effective and principled delivery of humanitarian assistance and to finance humanitarian response (resolutions 76/124 and 76/127).

Promotion of justice and international law

27. The Organization will continue to act in conformity with the principles of justice and international law and assist in the settlement of international disputes by peaceful means, including through judicial settlement. It will also continue to support Member States in the progressive development of international law and its codification.

28. In the broader context of the 1993 Vienna Declaration and Programme of Action, the 2005 World Summit Outcome and the 2030 Agenda, as well as other relevant conventions and resolutions, the Organization will continue to support Member States in maintaining, administering and strengthening international legal frameworks in such areas as international peace and security, international trade, human rights, international humanitarian law, counter-terrorism and international crimes. In this context, the Organization will also assist Member States in strengthening and promoting the international treaty framework, including by improving the effective dissemination of and access to treaties (General Assembly resolution 73/210) through the use of electronic resources.

29. The Organization will continue to provide support to intergovernmental processes on oceans and the law of the sea and sustainable fisheries (General Assembly resolutions 76/71 and 76/72), such as the intergovernmental conference on the development of an international legally binding instrument under the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction (resolution 72/249).

30. In support of the peaceful settlement of disputes, the Organization will continue to cooperate with international courts and tribunals and accountability mechanisms, in line with General Assembly and Security Council resolutions.

Disarmament

31. The Organization will continue its long-standing support for multilateral efforts dedicated to disarmament and non-proliferation (General Assembly resolution [S-10/2](#)), including for weapons of mass destruction. Nuclear weapons, in particular, continue to be a source of primary concern, given their destructive power and existential threat to humanity. The United Nations will also continue to work on addressing the use of chemical weapons (resolutions [75/265](#) and [76/29](#)), the regulation and limitation of conventional weapons, including small arms and light weapons (resolution [76/232](#)), and the humanitarian consequences of various categories of conventional weapons (resolution [76/64](#)), as well as report on current developments in science and technology and their potential impact on international security and disarmament efforts (resolution [76/24](#)).

32. The United Nations will also continue to promote the universalization and implementation of multilateral disarmament, non-proliferation and arms control instruments and support regional approaches to disarmament and non-proliferation through dialogue and confidence-building (General Assembly resolutions [75/54](#), [76/41](#) and [76/43](#)). Through these tasks, Securing Our Common Future: an Agenda for Disarmament will continue to facilitate the internal integration of disarmament issues into the Organization's work, especially in the area of prevention, thereby laying the groundwork for new partnerships and greater collaboration and effectiveness.

Drug control, crime prevention and combating international terrorism in all its forms and manifestations

33. Alongside the trade in illicit drugs, trafficking in persons, corruption and transnational organized crime (General Assembly resolutions [76/187](#) and [76/188](#)), terrorism constitutes a serious threat to peace and security by undermining the security, stability, governance and social, economic and cultural development of affected States (Assembly resolution [60/288](#) and Security Council resolution [2617 \(2021\)](#)). The United Nations will continue to support Member States by providing comprehensive, innovative and tailored initiatives to challenges posed by drugs, crime, corruption and terrorism (Assembly resolutions [75/291](#) and [76/184](#)).

34. The Organization will continue to provide coordinated and evidence-based assistance to Member States, at their request, in support of a comprehensive, integrated and balanced approach to addressing and countering the world drug problem (General Assembly resolution [76/188](#)). It will sustain its support for preventing and countering transnational organized crime, including trafficking in persons (resolution [76/186](#)), the use of information and communications technologies for criminal purposes (resolution [75/282](#)), crimes that affect the environment and have a negative impact on economies, public health, human safety, food security, livelihoods and habitats, including the illegal trade in wildlife, as well as corruption and money-laundering related to such crimes (resolution [76/185](#)). The Organization will also promote international and multisectoral cooperation in preventing and countering corruption (Assembly resolutions [S-32/1](#) and [58/4](#), Conference of the States Parties to the United Nations Convention against Corruption resolution [9/2](#) and Economic and Social Council resolution [2006/24](#)) and in combating illicit financial flows and strengthening good practices on asset recovery (Assembly resolution [75/194](#)).

35. The Organization will continue, at the request of Member States, to assist justice, law enforcement and corrections institutions in promoting and reinforcing the rule of law, crime prevention and reform efforts for accessible, effective, fair, humane, transparent and accountable criminal justice systems that contribute to the promotion of peaceful and inclusive societies that empower women and young people for

sustainable development (General Assembly resolution [76/187](#) and Security Council resolution [2447 \(2018\)](#)).

36. The Organization, through the Office of Counter-Terrorism (General Assembly resolution [71/291](#)), will continue to assist Member States, at their request, in implementing the United Nations Global Counter-Terrorism Strategy (resolution [75/291](#)). These efforts will include preventing the misuse of the Internet and other information and communications technologies for terrorist purposes, preventing, detecting and investigating terrorist offences and related travel, promoting sports to prevent violent extremism and supporting victims of terrorism (Assembly resolutions [73/305](#), [74/175](#) and [75/291](#) and Security Council resolutions [2396 \(2017\)](#) and [2617 \(2021\)](#)). The United Nations Global Counter-Terrorism Coordination Compact will continue to strengthen a common-action approach to coordination and coherence in the work of the United Nations system to prevent and counter terrorism and to strengthen support for Member States, at their request (Assembly resolution [75/291](#)).

Effective functioning of the Organization

37. With support of Member States for ongoing reforms (General Assembly resolution [75/1](#)), the Secretary-General will continue to improve the ability of the Organization to deliver on its mandates (resolution [72/266 B](#)). He will strengthen the implementation of results-based management, programme monitoring and reporting; increase the use of data to inform decision-making; improve the culture of accountability; use strategic communications to support Organizational objectives (resolution [76/84 A-B](#)); and continue to make efforts to ensure a workplace in which discrimination, harassment, including sexual harassment, and abuse of authority are not tolerated, perpetrators are held accountable and staff feel safe to report misconduct (resolution [74/271](#)).

38. The Organization will continue to ensure that the strategic and operational aspects of human resources management adequately and effectively support the delivery of programmes and the implementation of mandates (General Assembly resolution [73/281](#)). The Organization will continue efforts towards the goal of reaching a 50/50 gender balance throughout the United Nations system by 2028 (resolution [76/142](#)) and towards ensuring the attainment of equitable geographical distribution in the Secretariat (resolution [71/263](#)).

39. Through integrated end-to-end supply chain management, more agile, responsive, efficient and effective client-oriented services will be provided within the Organization (General Assembly resolution [72/266 B](#)), giving due consideration to best value for money; fairness, integrity and transparency; effective international competition, including intensifying efforts to promote procurement from developing countries and countries with economies in transition (resolution [69/273](#)); and the interest of the United Nations (Financial Regulations and Rules of the United Nations, regulation 5.12, approved by the Assembly in section IV of resolution [67/246](#)).

40. The Organization will promote geographical diversity and rejuvenation (General Assembly resolution [76/240](#)) and continue to pursue multilingualism as a means of promoting, protecting and preserving the diverse character of the United Nations workforce in terms of languages and cultures globally, as well as of improving the efficiency, performance and transparency of the Organization (resolution [73/346](#)).

41. Across its conferencing support functions, the Organization will further optimize the utilization of conference service resources, enhance their integrated global management, continue to leverage technology and preserve and enhance the quality and scope of conference services (General Assembly resolution [76/237](#)).

III. Priorities

42. It is recalled that, for the periods 1998–2001, 2002–2005, 2006–2007, 2008–2009, 2010–2011, 2012–2013, 2014–2015, 2016–2017 and 2018–2019, the General Assembly identified eight priority areas that covered the bulk of the substantive activities of the Organization. Given that the conditions that led to those priorities persist, the Assembly may wish to consider reaffirming or amending, as appropriate, the following priorities:

(a) Promotion of sustained economic growth and sustainable development in accordance with the relevant resolutions of the General Assembly and recent United Nations conferences;

(b) Maintenance of international peace and security;

(c) Development of Africa;

(d) Promotion of human rights;

(e) Effective coordination of humanitarian assistance efforts;

(f) Promotion of justice and international law;

(g) Disarmament;

(h) Drug control, crime prevention and combating international terrorism in all its forms and manifestations.

General Assembly

Overview of resources for the regular budget

1.1 The proposed regular budget resources for 2023 for all policymaking organs and entities under section 1, including the breakdown of resource changes, as applicable, are reflected in tables 1.1 to 1.3 and the summary of resources by source of fund is contained in annex IV. Detailed information on the proposed programme budget for 2023 is provided under each policymaking organ and entity. The proposed resource level under section 1 provides for the full, efficient and effective implementation of mandates of all respective entities and offices.

^a Includes 11 temporary posts (1 USG, 2 P-5, 2 P-4, 3 P-3, 1 GS (PL), 2 GS (OL)).

I. Policymaking organs

- 1.2 The resources proposed under this component would provide for requirements relating to the General Assembly, the Advisory Committee on Administrative and Budgetary Questions, the Committee on Contributions, the Board of Auditors, the United Nations Joint Staff Pension Fund (United Nations share), the Committee for Programme and Coordination and the Independent Audit Advisory Committee. Table 1.4 provides information and related resource requirements under the regular budget.

Part I Overall policymaking, direction and coordination

**Table 1.4
Policymaking organs**

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2022 appropriation</i>	<i>2023 estimate (before recosting)</i>
1. General Assembly				
(a) Travel of representatives of Member States that are least developed countries	Provides for the travel (excluding subsistence allowance) of up to 5 representatives of each of the Member States that are considered least developed countries when attending a regular session of the General Assembly and 1 representative or alternate representative to attend a special or emergency session of the Assembly	Mandate: General Assembly resolutions 1798 (XVII) and 41/213	1 336.2	1 336.2
(b) Presidents of the General Assembly	Supplements the level of support provided to the President of the General Assembly and ensures that the President shall have full authority to use funds provided in the budget for the office	Mandate: General Assembly resolutions 52/220 , 32/214 and 54/249 and the report of the Secretary-General (A/52/303 , para. IB.10) Seventy-seventh resumed and seventy-eighth main sessions	218.2	218.2
(c) Department for General Assembly and Conference Management backstopping of the Presidents of the General Assembly	Provides for general temporary assistance and overtime to cover additional direct support provided by the Department for General Assembly and Conference Management to the Presidents of the General Assembly. The resources would provide for the continuation of 5 positions (2 D-2, 1 D-1, 1 P-5 and 1 GS (OL)), as well as for an overlap period of 1 month for each of the 4 positions (2 D-2, 1 D-1 and 1 P-5) to maximize the use of the transition period for incoming Presidents. Three posts (1 P 4, 1 P-3 and 1 P-2) would be made available from within the existing resources of the Department in support of the Presidents	Mandate: General Assembly resolutions 58/126 , 59/313 , 68/246 and 72/261 Seventy-seventh resumed and seventy-eighth main sessions	1 228.1	1 228.1
2. Advisory Committee on Administrative and Budgetary Questions (including its secretariat)	Responsible for the examination of and reporting on the proposed budgets, performance reports and administrative issues submitted by the Secretary-General to the General Assembly. The activities of the secretariat of the Advisory Committee on Administrative and Budgetary Questions include the	Mandate: rules 155 to 157 of the rules of procedure of the General Assembly and Assembly resolutions 14 (I) and 74/267 (amending the rules of procedure of the Assembly) Membership: 21 experts Number of sessions in 2023: 3	6 562.7	6 633.7

Section 1 Overall policymaking, direction and coordination

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2022 appropriation</i>	<i>2023 estimate (before recosting)</i>
	provision of substantive, technical and administrative advice and support to the Advisory Committee			
3. Committee on Contributions	Provides advice to the General Assembly on the apportionment of the expenses of the Organization among its members, in accordance with Article 17, paragraph 2, of the Charter of the United Nations	Mandate: General Assembly resolution 14 (I) and rules 158 to 160 of the rules of procedure of the Assembly Membership: 18 experts Number of sessions in 2023: 1	341.7	341.7
4. Board of Auditors (including its secretariat)	Performs the audit of the accounts of the United Nations and its funds and programmes, including all its trust funds and special accounts, and submits the related reports to the General Assembly for its consideration The secretariat of the Board of Auditors provides substantive, technical and administrative support to the Board, its Audit Operations Committee and the Panel of External Auditors and its Technical Group	Mandate: General Assembly resolution 74 (I) , as amended pursuant to resolution 55/248 Membership: 3 experts Number of sessions in 2023: 4	3 943.4	3 784.8
5. United Nations Joint Staff Pension Board (including United Nations participation in the costs of the secretariat of the United Nations Joint Staff Pension Fund)	The resources would provide for travel of representatives ^a of the United Nations to meetings of the United Nations Joint Staff Pension Board and the regular budget share of the cost of Pension Fund-related services provided by the Fund to the United Nations, in accordance with the cost-sharing arrangement as approved by the General Assembly in its resolution 74/263	Mandate: General Assembly resolution 248 (III) Membership: 33 experts Number of sessions in 2023: 1	5 410.0	5 378.4
6. Committee for Programme and Coordination	Payment of travel expenses (economy class airfare) and subsistence allowance (at the standard rate established for Secretariat officials plus 15 per cent) to the members of the Committee for Programme and Coordination as a special exception to the basic principles contained in paragraph 2 of General Assembly resolution 1798 (XVII)	Mandate: General Assembly decision 42/450 and resolutions 31/93 and 76/236 Membership: 34 Member States Number of sessions in 2023: 1	438.2	544.0
7. Independent Audit Advisory Committee (including its secretariat)	Responsible for advising the General Assembly on the scope, results and effectiveness of audit and other oversight	Mandate: General Assembly resolutions 60/248 and 61/275 and decision 62/413 Membership: 5 experts	511.7	511.7

Figure 1.1
Distribution of proposed resources for 2023 (before recosting)

(Thousands of United States dollars)

Extrabudgetary resources

- 1.8 As reflected in table 1.8 (2), the Office expects to receive extrabudgetary contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources (cash contributions) of \$2,989,600, reflecting an increase of \$1,054,100, are expected to be received, which would provide for additional temporary assistance capacity to support the work of the Office of the President of the General Assembly. The increase mainly represents funding for the fellowship programme established in 2021 and travel requirements for resumed engagements of the President of the General Assembly and in-person meetings. Extrabudgetary resources represent 93.2 per cent of the total resources for the Office.
- 1.9 The extrabudgetary resources under this section are subject to the oversight of the Department for General Assembly and Conference Management, which has delegated authority from the Secretary-General.
- 1.10 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.9. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

Table 1.9
Compliance rate
 (Percentage)

	<i>Actual 2019</i>	<i>Actual 2020</i>	<i>Actual 2021</i>	<i>Planned 2022</i>	<i>Planned 2023</i>

Air tickets purchased at least 2 weeks before the commencement of travel	8	35	53	100	100

(c) Department for General Assembly and Conference Management backstopping of the Presidents of the General Assembly

1.11 The proposed regular budget resources for 2023 are reflected in table 1.10 and reflect no change in the resource level compared with the appropriation for 2022.

Table 1.10
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes				2023 estimate (before recosting)	
			Technical adjustments	New/expanded mandates	Other	Total		Percentage
Other staff costs	1 151.6	1 228.1	–	–	–	–	–	1 228.1
Total	1 151.6	1 228.1	–	–	–	–	–	1 228.1

1.12 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.11. Non-compliance travel for the Office of the President of the General Assembly is due to delays in the processing of travellers’ details and documentation, and due to travel restrictions related to the coronavirus disease (COVID-19). The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

Table 1.11
Compliance rate

(Percentage)

	Actual 2019	Actual 2020	Actual 2021	Planned 2022	Planned 2023
Timely submission of documentation	50	50	33	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	68	75	25	100	100

Impact of the pandemic

1.13 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the ability to conduct fully in-person meetings of the General Assembly. The Assembly carried out its work through alternate means to guarantee business continuity and mitigate the spread of the disease. The adjustments in the modality of meetings reflected risk assessments and advice provided by the occupational safety and health committee of the Crisis Operations Group, host city and state guidance, the current phase of the COVID-19 reintegration plan for the Headquarters complex, and an up-to-date understanding of the risks posed by the pandemic to delegates and United Nations personnel. To the extent possible, in-person meetings were conducted, as was the case during the seventy-sixth session of the Assembly. A limited number of meetings of the Assembly and other related meetings had to be postponed or cancelled. The changes in the programmes of some high-level or informal meetings that were held in a virtual or hybrid format included adjustments that resulted in two hours for each morning meeting and two hours for each afternoon meeting, in the light of the availability of remote simultaneous interpretation for only two hours at a time.

1.14 In addition, in order to support Member States on issues related to the COVID-19 pandemic, within the overall scope of the objectives, the President of the General Assembly conducted regular meetings on COVID-19-related business continuity issues and preparations for the high-level week of the seventy-sixth session, which provided an option for pre-recorded statements from high-level representatives of Member States and observers. In-person attendance at the General Assembly

remained limited, but representatives of observers were invited to attend the Assembly meetings in person, in the General Assembly Hall. The Assembly also adopted new resolutions and decisions related to the pandemic and its impact on conducting the meetings of the Assembly, including resolution 76/175, entitled “Ensuring equitable, affordable, timely and universal access for all countries to vaccines in response to the coronavirus disease (COVID-19) pandemic”. The Assembly also adopted decisions on participation in a number of formal meetings of the Assembly, including decisions 76/503, entitled “Participation in formal plenary meetings of the General Assembly at its seventy-sixth session”; 76/511, entitled “Participation in the high-level meeting of the General Assembly on the appraisal of the United Nations Global Plan of Action to Combat Trafficking in Persons”; 75/558, entitled “Participation in formal plenary meetings of the General Assembly at its seventy-fifth session”; 75/562, entitled “Special session of the General Assembly against corruption”; and 75/573, entitled “General debate of the seventy-sixth session”. Other initiatives adopted by the Assembly relating to the impact of the pandemic included resolutions 76/184, entitled “Strengthening criminal justice systems during and after the coronavirus disease (COVID-19) pandemic”; 76/174, entitled “Implementing the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms through providing a safe and enabling environment for human rights defenders and ensuring their protection, including in the context of and recovery from the coronavirus disease (COVID-19) pandemic”; 76/133, entitled “Inclusive policies and programmes to address homelessness, including in the aftermath of the coronavirus disease (COVID-19)”; and 75/313, entitled “Strengthening the links between all modes of transport to ensure stable and reliable international transport for sustainable development during and after the coronavirus disease (COVID-19) pandemic”.

2. Advisory Committee on Administrative and Budgetary Questions (including its secretariat)

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.15 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.12 to 1.14.

1.16 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 1.15 to 1.17 and figure 1.II.

1.17 As reflected in tables 1.15 (1) and 1.16 (1), the overall resources proposed for 2023 amount to \$6,633,700 before recosting, reflecting an increase of \$71,000 (or 1.1 per cent) compared with the appropriation for 2022. Resource changes result from new and expanded mandates.

Figure 1.II
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

New/expanded mandates

1.18 As reflected in tables 1.15 (1) and 1.16 (1), the increase of \$71,000 relates to the proposed upward reclassification of three posts, namely, two posts of Administrative Officer (from P-4 to P-5), and one Meetings Assistant (from General Service (Other level) to General Service (Principal level)), pursuant to General Assembly resolution 76/245 (see annex III).

Other assessed resources

- 1.19 As reflected in tables 1.15 (2) and 1.16 (2), projected other assessed resources for 2023 of \$801,200 would provide for three posts (1 P-5 and 2 P-4) and would be utilized to support the secretariat of the Advisory Committee on matters related to peacekeeping operations. This reflects an increase of \$14,500 compared with the estimate for 2022, owing mainly to updated salary costs, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 (A/76/725). Other assessed resources represent 10.8 per cent of the total resources for the Committee.
- 1.20 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.18.
- 1.21 The compliance rate for travel of the members of the Advisory Committee to their countries of origin was affected by the restrictions in travel resulting from the COVID-19 pandemic in 2021. As a result of changes in national policies, the advance travel planning that the secretariat of the Committee usually undertakes was affected and travel plans needed to be changed without the required notice period. Efforts to manage the factors that previously affected the work of the Committee and the resulting compliance rate continue in tandem with COVID-19-related considerations, including workload considerations and the scheduling of complex reports for the consideration of the Committee.

Table 1.18
Compliance rate
 (Percentage)

	<i>Actual 2019</i>	<i>Actual 2020</i>	<i>Actual 2021</i>	<i>Planned 2022</i>	<i>Planned 2023</i>
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	60	59	59	100	100

Impact of the pandemic

- 1.22 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the ability to conduct in-person meetings by the Advisory Committee. To ensure business continuity in 2021, the Committee continued to use a combination of virtual and hybrid formats to conduct its meetings. Notwithstanding a number of staffing vacancies, which the secretariat of the Committee has been working to fill throughout the reporting period, the secretariat of the Committee continued to provide enhanced levels of support, including by extending its operating hours and modifying its operating procedures and processes, to ensure the timely delivery of planned activities. With the easing of some COVID-19-related travel restrictions, the Committee was able to undertake a field mission to several United Nations offices and peacekeeping missions based in Europe and the Middle East in September 2021. This required additional planning and support from the secretariat of the Committee, in particular with regard to the processing of travel, including visa applications, programme coordination with United Nations offices and peacekeeping missions, logistics and travel protocols in the light of the pandemic.

3. Committee on Contributions

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.23 The proposed regular budget resources for 2023 are reflected in table 1.19 and reflect no change in resource level compared with the appropriation for 2022.

Table 1.19
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes				2023 estimate (before recosting)
			Technical adjustments	New/ expanded mandates	Other	Total Percentage	
Travel of representatives	249.8	341.7	–	–	–	–	341.7
Total	249.8	341.7	–	–	–	–	341.7

1.24 Information on compliance with the advance booking for air travel is reflected in table 1.20. The office will continue its 100 per cent compliance with the advance booking of air travel policy.

Table 1.20
Compliance rate

(Percentage)

	Actual 2019	Actual 2020 ^a	Actual 2021	Planned 2022	Planned 2023
Air tickets purchased at least 2 weeks before the commencement of travel	100	–	58	100	100

^a No travel was undertaken by the Committee owing to COVID-19 travel restrictions.

Impact of the pandemic

1.25 During 2021, the COVID-19 pandemic had an impact on the activities of the Committee, including its secretariat. At its eighty-first session, the Committee met, using a hybrid modality of virtual and in-person meetings, in New York from 7 June to 2 July 2021, as several of its members could not attend in person. It was important to have the full participation of its members, as it was the year the Committee reviewed the scale of assessments for the period 2022–2024. The Committee managed to cover its full agenda despite members joining remotely from their home countries, the differences in time zones, and the limited availability of interpretation in all official languages of the United Nations.

1.26 As meeting facilities at United Nations Headquarters were limited and restrictions relating to travel and quarantines were still in effect, all members were required to use the virtual platform during parts of the session. Based on lessons learned from its previous session, the Committee structured its agenda to accommodate limitations related to COVID-19 in order to ensure in-person meetings were held for the sessions related to Article 19 of the Charter of the United Nations. In-person meetings were also held for the drafting of the report of the session and for its adoption. The Committee will continue to build on lessons learned with regard to its future sessions.

4. Board of Auditors (including its secretariat)

B. Proposed post and non-post resource requirements for 2023

Overview

1.27 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.21 to 1.23.

Table 1.21

1.28 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 1.24 to 1.26 and figure 1.III.

Section 1 Overall policymaking, direction and coordination

1.29 As reflected in table 1.24 (1), the overall resources proposed for 2023 amount to \$3,784,800 before recosting, reflecting a net decrease of \$158,600 (or 4.0 per cent) compared with the appropriation for 2022. Resource changes result from other changes.

Figure 1.III
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.30 As reflected in tables 1.24 (1) and 1.25 (1), resource changes reflect a net decrease of \$158,600, owing mainly to lower provisions for audit fees, in line with recent expenditure patterns. The reduction is offset in part by the proposed reclassification of one post of General Service (Other level) to General Service (Principal level) (see annex III).

Other assessed and extrabudgetary resources

- 1.31 As reflected in table 1.24 (2), projected other assessed resources for 2023 would amount to \$3,863,700 and would provide for the audits of active peacekeeping missions. Other assessed resources represent 27.7 per cent of the total resources for this section.
- 1.32 As reflected in tables 1.24 (3) and 1.25 (2), the Board expects to continue to receive cash contributions, which would complement regular budget resources. For 2023, extrabudgetary resources are estimated at \$6,288,800 and would provide for one post (General Service (Other level)). Extrabudgetary resources represent 45.1 per cent of the total resources for the Board.
- 1.33 Extrabudgetary resources provide for the audit of technical cooperation projects undertaken by the Department of Economic and Social Affairs, trust fund-related audits included in United Nations entities and the full range of activities, entities and programmes falling under the auspices of the Secretariat (see [A/76/5 \(Vol. I\)](#)), including the Office for the Coordination of Humanitarian Affairs, the International Trade Centre, the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), the strategic heritage plan of the United Nations Office at Geneva, the United Nations University, the United Nations Development Programme (UNDP), the United Nations Capital Development Fund, the United Nations Children's Fund (UNICEF), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), the Provident Fund of UNRWA, the Microfinance and Microenterprise Programme of UNRWA, the United Nations Institute for Training and Research, the Office of the United Nations High Commissioner for Refugees, the United Nations Environment Programme (UNEP), the United Nations Population Fund, the United Nations Human Settlements Programme (UN-Habitat), the United Nations Office on Drugs and Crime (UNODC), the United Nations Office for Project Services, the International Residual Mechanism for Criminal Tribunals, the United Nations Joint Staff Pension Fund, the United Nations Framework Convention on Climate Change, the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, the United Nations Compensation Commission, the United Nations Interregional Crime and Justice Research Institute, the United Nations System Staff College, the United Nations Research Institute for Social Development, the UNDP trust fund for the Global Environment Facility and the Global Environment Facility trust fund (UNEP), the Economic Commission for Latin America and the Caribbean, the Economic Commission for Europe, the Economic Commission for Africa, the Economic and Social Commission for Asia and the Pacific, the Economic and Social Commission for Western Asia, the Office of the United Nations High Commissioner for Human Rights (OHCHR) and the United Nations Conference on Trade and Development.
- 1.34 The extrabudgetary resources under this section are subject to the oversight of the Board, which has delegated authority from the Secretary-General.
- 1.35 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.27. The Board of Auditors secretariat will continue its 100 per cent compliance with the advance booking of air travel policy.

Table 1.27
Compliance rate
 (Percentage)

	<i>Actual 2019</i>	<i>Actual 2020^a</i>	<i>Actual 2021^a</i>	<i>Planned 2022</i>	<i>Planned 2023</i>
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	100	–	–	100	100

^a No travel was undertaken by the Board owing to COVID-19 travel restrictions.

Impact of the pandemic

- 1.36 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the ability of the Board to conduct its audits fully on-site. The Board had to cancel on-site visits and conduct its audits through virtual platforms. The use of the remote audit methodology led to an increase in the utilization of auditor weeks. Auditor weeks utilized from 1 January to 31 December 2021 were 5,166.8 weeks, or 3.1 per cent higher than the 5,011.6 weeks utilized during the same period in 2020. Remote audits have been possible owing to the operation of the United Nations enterprise resource planning system. The pandemic notwithstanding, the Board and its audit teams, the Executive Secretary and the Audit Operations Committee were able to adapt and perform their duties remotely, to the full satisfaction of the Board and in accordance with auditing standards.

5. United Nations Joint Staff Pension Board (including United Nations participation in the costs of the secretariat of the United Nations Joint Staff Pension Fund)

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.37 The United Nations Joint Staff Pension Fund was established by the General Assembly in 1949 to provide retirement, death, disability and related benefits to the staff of the United Nations and such other organizations as might be admitted to its membership. In accordance with the regulations adopted by the Assembly, the Pension Fund is administered by the United Nations Joint Staff Pension Board, a staff pension committee for each member organization and a secretariat of the Pension Board and each such committee.
- 1.38 The expenses incurred by the staff pension committee in the administration of the regulations of a member organization are met by the general budget of that organization. However, given that the central secretariat of the Pension Fund grew out of the secretariat of the United Nations Staff Pension Committee, it continued to handle pension administration for the United Nations by special arrangement with the Pension Board. For those services, the United Nations reimburses the Pension Fund in accordance with the cost-sharing arrangement, as approved by the General Assembly in its resolution [75/246](#).
- 1.39 At the time that the present report was being prepared, the proposed budget of the Pension Fund for 2023 had not been finalized. The estimates will be subject to further revision in accordance with the administrative budget of the Pension Fund for 2023 and action taken by the General Assembly at its seventy-seventh session on the basis of the recommendations the Pension Board may make in 2022 with respect to that budget. A statement of administrative and budgetary implications will be submitted to the Assembly at its seventy-seventh session should the Pension Board's recommendations involve resources different from those estimated in the present report.
- 1.40 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in table 1.28.

Section 1 Overall policymaking, direction and coordination

Table 1.28
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Total	4 895.9	5 410.0	–	–	(31.6)	(31.6)	(0.6)	5 378.4

1.41 Additional details on the distribution of the proposed resources for 2023 are reflected in table 1.29 and figure 1.IV.

1.42 As reflected in table 1.29 (1), the overall resources proposed for 2023 amount to \$5,378,400 before recosting, reflecting a decrease of \$31,600 (or 0.6 per cent) compared with the appropriation for 2022. Resource changes result from other changes.

Table 1.29
Evolution of financial resources by source of funding and component

(Thousands of United States dollars)

(1) *Regular budget*

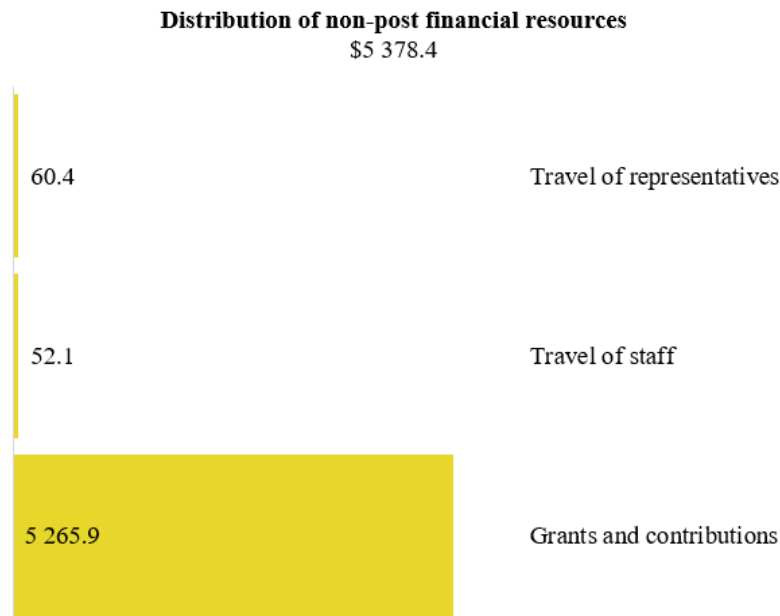

Component	2021 expenditure	2022 appropriation	Changes				2023 estimate (before recosting)

Total	8 006.0	8 648.6	(31.6)	(0.4)	8 617.0

Figure 1.IV
Distribution of proposed resources for 2023 (before recosting)

(Thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.43 As reflected in tables 1.28 and 1.29 (1), resource changes reflect a decrease of \$31,600 owing mainly to the planned reduction in the number of days of in-person meetings of the Pension Board in 2023 that will be complemented with virtual sessions.

Extrabudgetary resources

- 1.44 As reflected in table 1.29 (2), the Board expects to continue to receive extrabudgetary resources (cash contributions), which would complement regular budget resources. For 2023, extrabudgetary resources are estimated at \$3,238,600 and would provide for the share of the funds and programmes of the Pension Fund. Extrabudgetary resources represent 37.6 per cent of the total resources for the Board.
- 1.45 The extrabudgetary resources under this section are subject to the oversight of the Pension Fund, which has delegated authority from the Secretary-General.
- 1.46 Information on compliance with the advance booking for air travel is reflected in table 1.30. Efforts have been made to enhance travel compliance by reminding travellers of the compliance requirements and the mandatory justification on non-compliance. The office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

Table 1.30
Compliance rate

(Percentage)

	Actual 2019	Actual 2020 ^a	Actual 2021 ^a	Planned 2022	Planned 2023
Air tickets purchased at least 2 weeks before the commencement of travel	66.7	–	–	100	100

^a No travel was undertaken owing to COVID-19 travel restrictions.

Impact of the pandemic

- 1.47 The continuation of the COVID-19 pandemic into 2021 has elevated economic uncertainties that have the potential to negatively affect the Pension Fund’s financial position, operations and cash flows. The Pension Fund continued to closely monitor the financial situation of its portfolio. In the first quarter of 2022, the value of the portfolio declined in line with the market downturn. The estimated unaudited market value of the total investments of the Pension Fund, net of the Fund secretariat’s cash and cash equivalents, as at 15 April 2022 was approximately \$85.4 billion. As the COVID-19 pandemic continues, the Fund expects that market volatility may persist. To keep clients informed, the weekly financial performance update is made available on the Pension Fund’s website.¹
- 1.48 The Pension Fund’s staff in New York, Geneva, Bangkok and Nairobi transitioned to remote working methods when those office locations were closed as a result of measures taken by the United Nations, in line with the guidance of local authorities, to mitigate the spread and impact of the pandemic. In-person visits by plan participants and in-person Pension Board meetings remained suspended throughout 2021, although the latter are expected to resume in July 2022. While the Pension Fund experienced a substantial decline in pension entitlement cases in 2020 as member organizations deferred separations owing to the pandemic, a reversal of this trend emerged in the second half of 2021, with indications of an increase in workload for the United Nations Staff Pension Committee for 2022 and 2023.

6. Committee for Programme and Coordination

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.49 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in table 1.31.

Table 1.31
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes			Total	Percentage	2023 estimate (before recosting)
			Technical adjustments	New/ expanded mandates	Other			
Travel of representatives	216.6	438.2	–	105.8	–	105.8	24.1	544.0
Total	216.6	438.2	–	105.8	–	105.8	24.1	544.0

¹ See <https://oim.unjspf.org/investments-at-glance/weekly-fund-performance>.

Part I Overall policymaking, direction and coordination

- 1.50 As reflected in table 1.31, the overall resources proposed for 2023 amount to \$544,000 before recosting, reflecting an increase of \$105,800 (or 24.1 per cent) compared with the appropriation for 2022. Resource changes result from new and expanded mandates.

Explanation of variances by factor

Overall resource changes

New/expanded mandates

- 1.51 As reflected in table 1.31, the increase of \$105,800 relates to provisions for the travel of representatives for the additional week of meetings approved for the Committee for Programme and Coordination pursuant to General Assembly resolution 76/236.

Other information

- 1.52 Information on compliance with the advance booking for air travel is reflected in table 1.32. The secretariat of the Committee will continue to implement measures to improve the compliance rate regarding the advance purchase of air tickets by raising the awareness of travellers and requesting them to finalize travel arrangements as soon as possible.

Table 1.32
Compliance rate
(Percentage)

	<i>Actual 2019</i>	<i>Actual 2020^a</i>	<i>Actual 2021</i>	<i>Planned 2022</i>	<i>Planned 2023</i>
Air tickets purchased at least 2 weeks before the commencement of travel	56	–	85	100	100

^a No travel was undertaken by the Committee owing to COVID-19 travel restrictions.

Impact of the pandemic

- 1.53 In 2021, the Committee for Programme and Coordination continued to adapt its work to the safety and health protocols at United Nations Headquarters in the light of the ongoing COVID-19 pandemic, including the continued use of online platforms to conduct its meetings. One in-person meeting was held to adopt draft reports of the Committee at the end of its session.

7. Independent Audit Advisory Committee

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.54 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.33 to 1.35.

Air tickets purchased at least 2 weeks before the commencement of travel	54	67	–	100	100

^a No travel was undertaken owing to COVID-19 travel restrictions.

Impact of the pandemic

- 1.58 During 2021, the COVID-19 pandemic had an impact on the planned activities of the Committee. The Committee continued to hold the majority of its meetings virtually, with the exception of one meeting when the Chair introduced the report on the activities of the Committee. These challenges continued to have an impact on the modus operandi of the Committee's deliberations, including the much earlier start and end times of the sessions (8 a.m. to 12 p.m. EST). This meant that the number of topics covered at each session was lower than usual, leading to ad hoc meetings whenever practical, and also affected the interpretation services. Those challenges notwithstanding, the Committee was able to issue its two reports on the budget of the Office of Internal Oversight Services and its annual report on the activities of the Committee for the period ending 31 July 2021 in a timely manner.

II. Secretary-General

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.59 In accordance with Article 97 of the Charter of the United Nations, the Secretary-General, who is appointed by the General Assembly on the recommendation of the Security Council and who, in turn, appoints the staff, is the Chief Administrative Officer of the Organization. The Secretary-General also has an important political function by virtue of Article 99 of the Charter and a role in all United Nations meetings and such other functions as are entrusted to him by other principal organs of the Organization, as provided for in Article 98.
- 1.60 As the Chief Administrative Officer of the Organization, the Secretary-General is entrusted with a broad range of responsibilities under the Charter. Within the sphere of competence of the office, the Secretary-General takes action, on his own initiative, on a wide range of political, economic, social and humanitarian questions, reporting to and requesting guidance from the General Assembly and the Security Council, as appropriate. He uses his best efforts to assist in settling disputes between States and may bring to the attention of the Council any matter that may threaten the maintenance of international peace and security. Moreover, the Secretary-General plays a key role in efforts to ensure the observance of human rights. He provides policy direction to the departments, offices and other organizational units of the Secretariat in the execution of their functions and guidance and coordination to the programmes and other elements of the Organization. In addition, as Chair of the United Nations System Chief Executives Board for Coordination (CEB), the Secretary-General has a coordinating function in relation to the entire United Nations system of organizations. The activities of the Secretary-General in 2023 will be directed towards the achievement of the priorities of the Organization.
- 1.61 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.38 to 1.40.

Table 1.38

1.62 Additional details on the distribution of the proposed resources for 2023 are reflected in table 1.41 and figure 1.VI.

1.63 As reflected in table 1.41, the overall resources proposed for 2023 amount to \$927,200 before recosting and reflect no change in the resource level compared with the appropriation for 2022. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

(Thousands of United States dollars)

III. Executive direction and management

1.64 The proposed resources under executive direction and management would provide for the Executive Office of the Secretary-General and the offices of the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi. Those offices provide support to the Secretary-General in his capacity as Chief Administrative Officer of the United Nations under Article 97 of the Charter of the United Nations by assisting in: (a) the establishment of general policy and in the exercise of executive direction in relation to the work of the Secretariat, the United Nations funds and programmes and other entities within the Organization; (b) the supervision and coordination of the work of the Organization pursuant to the decisions of the Secretary-General and to the relevant directives of the intergovernmental bodies concerned; (c) relations with the press and the public;

(d) inter-agency coordination functions in relation to the United Nations system of organizations, regional organizations and non-governmental organizations (NGOs); (e) relations with the principal organs of the United Nations and host Governments; and (f) contacts with Governments and delegations pursuant to Articles 98 and 99 of the Charter. Further details are provided under the relevant components. The proposed resource level provides for the full, efficient and effective implementation of mandates.

1. Executive Office of the Secretary-General

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.65 The Executive Office of the Secretary-General provides assistance to the Secretary-General in the establishment of general policy, in the executive direction, coordination and expeditious performance of the work of the Secretariat and of the programmes and other elements of the Organization, and in contacts with Governments, delegations, the press and the public. It provides further assistance to the Secretary-General in strategic planning, the preparation of the annual report of the Organization, political, economic and inter-agency affairs, liaison and representation functions and the fulfilment of the priorities and mandates set out by the General Assembly. The resources of the Office also provide for the post of Deputy Secretary-General, whose functions and responsibilities are defined in paragraph 1 of Assembly resolution [52/12 B](#).
- 1.66 The Executive Office functions as an integrated office, with reporting lines through the Deputy Secretary-General, Chef de Cabinet and the Under-Secretary-General for Policy to the Secretary-General. The Assistant Secretary-General will undertake assignments and perform functions in support of the Secretary-General's mandate. During 2022, the Secretary-General has continued to improve the structure of his Office through internal redeployments and changes in reporting lines, as reflected in the organization chart (see annex I), to ensure the maximum utilization of existing resources and to support the Secretary-General in the execution of his mandate. The units within the Executive Office work as a team to support the Secretary-General and the activities of the principals regardless of their direct reporting lines. The resources for the Office provide for post and non-post resources in support of the activities of the Secretary-General. The overall level and number of posts approved for 2023 remain unchanged.
- 1.67 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Executive Office is integrating environmental management practices into its operations. In 2021, as the COVID-19 pandemic situation lingered, the Office leveraged the changes it initiated in 2020 with regard to streamlined correspondence and document processing workflows, resulting in the elimination of much printing that otherwise would have been required.
- 1.68 The Executive Office strives to make the reports of the Secretary-General issued by the Office accessible to persons with disabilities. For example, the reports of the Secretary-General on the work of the Organization and on "Our Common Agenda" included several accessibility formats, including ePub, eBook and Easy Read. In 2023, the Executive Office will continue its efforts to facilitate the issuance of reports of the Secretary-General in disability-inclusive formats where feasible.

Deputy Secretary-General

- 1.69 The Deputy Secretary-General, whose functions and responsibilities are defined in paragraph 1 of General Assembly resolution [52/12 B](#), will place special focus on sustainable development, including the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development

commitments. In this regard, particular attention will be paid to financing for development, climate action and environmental protection, jobs and social protection, global health, education and the humanitarian-development nexus, as well as the links to peacebuilding, transitions from crisis and conflict to sustainable development, migration and development, and the chairing of the United Nations Sustainable Development Group, including the oversight of the Development Coordination Office and the continued implementation of the repositioning of the United Nations development system. The Deputy Secretary-General oversees the work of the Executive Office on gender equality, climate action, development finance and the implementation of the disability strategy. The Deputy Secretary-General directly oversees the work of the Sustainable Development Unit.

Chef de Cabinet

- 1.70 The Chef de Cabinet supports the Secretary-General in the execution of his political role and engagements. The Chef de Cabinet acts as an interface with Member States and, on behalf of the Secretary-General, primarily with the General Assembly and the Security Council. In addition, the Chef de Cabinet oversees the administrative and management portfolio, senior appointments and the implementation of the management reforms, peace and security reforms, and other reforms as requested by the Secretary-General, as well as the alignment of the various reform streams. The Chef de Cabinet also oversees the efforts of the Organization to advance equitable geographical distribution and gender parity, to prevent sexual exploitation and abuse and to address racism within the Organization. The Chef de Cabinet chairs the Management Committee, the Management Performance Board, the High-level Steering Group on preventing sexual exploitation and abuse and the Senior Emergency Policy Team. The Chef de Cabinet also oversees the work of and substantive support provided to those bodies and the Standing Principals' Group. The Chef de Cabinet provides direction and oversees the overall management of the Executive Office of the Secretary-General and directly oversees the Political, Peacekeeping, Humanitarian and Human Rights Unit, the Strategic Communication and Speech Writing Unit, the Office of the Spokesperson and the Management and Administrative Unit.

Under-Secretary-General for Policy

- 1.71 The Under-Secretary-General for Policy supports the Secretary-General in maintaining a holistic overview and strategic oversight of policy matters across all pillars of the work of the United Nations, including leading and coordinating the follow-up to Our Common Agenda and the Secretary-General's Call to Action for Human Rights. The Under-Secretary-General initiates and leads horizontal and vertical integration for system-wide coherence on conflict prevention policies, tools and operations; monitors emerging global issues and brewing crises and advises the Secretary-General on appropriate options and responses; and ensures that fresh thinking and outside perspectives are introduced. The Under-Secretary-General oversees the follow-up to the High-level Panel on Internal Displacement. The Under-Secretary-General is the Secretary of the Senior Management Group and the Executive Committee, and chairs the Deputies Committee and coordinates closely on matters related to CEB. The Under-Secretary-General also directly oversees the Strategic Planning and Monitoring Unit, the Rule of Law Unit and the Our Common Agenda team (which has been placed in the Under-Secretary-General's office), and ensures strategic coordination and coherence in the work of the Strategic Planning and Monitoring Unit, the Rule of Law Unit, the Our Common Agenda team, the Political, Peacekeeping, Humanitarian and Human Rights Unit, which reports to the Chef de Cabinet, and the Sustainable Development Unit, which reports to the Deputy Secretary-General.

Office of the Secretary-General

- 1.72 The Office of the Secretary-General provides support and assistance to the Secretary-General. The Office liaises with the Deputy Secretary-General, the Chef de Cabinet and the Under-Secretary-General for Policy, and conveys the Secretary-General's guidance. It reviews and clears documentation, correspondence, notes, letters, reports and statements. The Office oversees the scheduling of meetings and events, the preparation of scenarios and the travel of the Secretary-

General, and is responsible for preparation for scheduled activities, including consolidating background notes, key messages, remarks and speeches, and liaising with permanent missions.

Management and Administrative Unit

- 1.73 The Management and Administrative Unit provides support to the Secretary-General and the Executive Office in the areas of human resources, financial and budgetary management and general administration. In addition, the Unit carries out advisory and liaison functions with regard to matters related to management, oversight, conference support, safety and security, legal affairs, ethics and discipline. The Unit, which includes the Central Records Unit, also ensures the effective management of correspondence for the Secretary-General and the Executive Office.

Office of the Spokesperson

- 1.74 The Office of the Spokesperson for the Secretary-General provides information to the media on the work of the Secretary-General and the United Nations system as a whole through daily briefings, direct responses to media enquiries, press conferences, background briefings and interviews with the Secretary-General, the Deputy Secretary-General and other senior officials. The Office provides advice on media relations to the Secretary-General, the Deputy Secretary-General and United Nations officials. Personnel of the Office travel with the Secretary-General, keep him abreast of breaking news, interact with media to ensure coverage of the activities of the Secretary-General, and ensure that all statements made are placed on record.

Political, Peacekeeping, Humanitarian and Human Rights Unit

- 1.75 The responsibilities of the Political, Peacekeeping, Humanitarian and Human Rights Unit include working closely with the relevant line departments to provide situational awareness, trend analysis and advice on emerging and ongoing issues of interest and concern across the political, peacekeeping, humanitarian and human rights portfolios; supporting senior management decision-making on country situations and relevant thematic files; ensuring effective and coordinated United Nations system analysis, reporting and response on situations of interest and concern; ensuring policy oversight and quality assurance of various communications and reports of the Secretary-General on political, peacekeeping, humanitarian or human rights issues; providing high-quality and well-coordinated input to public and private communications; and ensuring that human rights concerns are adequately reflected in the above-mentioned work.

Rule of Law Unit

- 1.76 The Rule of Law Unit serves as the focal point in the Executive Office for legal questions, the rule of law, counter-terrorism and the prevention of violent extremism, international justice and accountability and organized crime and drugs, and provides support for the system-wide coordination, coherence and quality of rule of law activities of the United Nations. It is working towards furthering a strategic approach to the work of the Organization on the rule of law and in promoting the fundamental importance of the rule of law for dialogue and cooperation among Member States. Moreover, the Unit provides support to the Rule of Law Coordination and Resource Group in carrying out and implementing the tasks set out in the related report of the Secretary-General ([A/61/636-S/2006/980](#)).

Scheduling and Travel Unit

- 1.77 The Scheduling and Travel Unit oversees the scheduling of meetings, events and travel of the Secretary-General, handling requests for invitations and individual meetings in consultation with departments, offices and units. The responsibilities of the Unit include preparation for scheduled activities (meetings, events and travel), including the consolidation of briefing materials, the preparation of scenarios and the organization of the travel of the Secretary-General.

Strategic Communication and Speech Writing Unit

- 1.78 The Strategic Communication and Speech Writing Unit is responsible for providing communications advice to the Secretary-General regarding his priorities/work and the wider mission of the United Nations. This work includes drafting speeches, op-ed articles, messages and other materials for delivery by the Secretary-General, Deputy Secretary-General and other senior officials; working in tandem with communications colleagues and others across the United Nations system on long-term planning and day-to-day challenges; and ensuring that communications and speeches of the Secretary-General are disseminated on all platforms, including social media.

Strategic Planning and Monitoring Unit

- 1.79 The Strategic Planning and Monitoring Unit provides support for strategic decision-making, priority-setting, forward planning, analysis, risk management, coordination and alignment, and ensuring strategic direction and coherence in planning frameworks; supports analyses, reviews, assessments and plans for integrated United Nations response efforts, with a focus on crisis-affected and fragile settings, including the preparation of strategic considerations and options based on information from the United Nations system. The Unit translates the guidance of the Secretary-General into strategic directives that set out overall parameters for potential United Nations engagement, and supports the efforts of the Secretary-General to develop new capabilities that promote agility, integration and cohesion across the system and to offer relevant and system-wide solutions to the challenges of the twenty-first century.

Sustainable Development Unit

- 1.80 The Sustainable Development Unit supports the strategic engagement on sustainable development, guided by the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development commitments, paying particular attention to issues relating to financing for development, environmental protection, jobs and social protection, global health, education, the humanitarian-development nexus and transitions from crisis and conflict to sustainable development, migration and development, and the reform of the United Nations development system. In a context marked by the COVID-19 pandemic and setbacks to the achievement of the Sustainable Development Goals, the Sustainable Development Unit supports the Secretary-General and the Deputy Secretary-General with regard to mobilizing ambition and action, and achieving policy breakthroughs, to end the pandemic, reverse deteriorating trends related to the Goals and unlock transformative change through a repositioned United Nations development system and expanded multistakeholder engagement and partnerships. The Unit also provides substantive input to the Chef de Cabinet and the Under-Secretary-General for Policy, thus contributing to the preparations for, and the integrated analysis of the material discussed during, the meetings of the Executive Committee.

Impact of the pandemic

- 1.81 Since the onset of the COVID-19 pandemic, some of the work of the Executive Office has continued to be performed effectively and efficiently through remote means by leveraging advanced communications, teleconference and information technology systems. However, given the nature of the Office, many functions have been conducted at the Office to ensure effective support for the work of the Secretary-General and other principals. A hybrid model has also been applied to meetings, which have been conducted both in person and virtually, depending on the circumstances. International in-person meetings of the Secretary-General with dignitaries and delegates have also been resumed, resulting in an increased level of travel comparable to pre-pandemic levels.
- 1.82 The Executive Office instituted the streamlining of correspondence and document processing workflows. These new best practices enabled remote operations and review and clearance processes within the units of the Office.

Part I Overall policymaking, direction and coordination

- 1.83 Best practices and lessons learned from dealing with and addressing the COVID-19 pandemic will continue to be implemented across the Secretariat and the United Nations system. The Executive Office will continue to lead and support close and strong collaboration across all offices, departments and field entities within the Secretariat and in the United Nations system to ensure business continuity and support to Member States in their recovery efforts. The various central decision-making forums, such as the Senior Emergency Policy Team, the Management Committee, the Executive Committee and the Senior Management Group, will continue to serve as forums for convening entities and for advancing collaboration across the Organization.
- 1.84 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.42 to 1.44.

Table 1.42

1.85 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 1.45 to 1.47 and figure 1.VII.

1.86 As reflected in table 1.45 (1), the overall resources proposed for 2023 amount to \$16,869,700 before recosting and reflect no change in the resource level compared with the appropriation for 2022. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.VII
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 1.87 As reflected in tables 1.45 (2) and 1.46 (2), projected other assessed resources for 2023 of \$1,238,400 will be utilized to provide for five posts (1 D-1, 2 P-5 and 2 General Service (Other level)) under the support account for peacekeeping operations. This reflects an increase of \$23,800, owing to updated salary costs, compared with the estimates for 2022. Further details on the resource changes are reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 (A/76/725). Other assessed resources represent 2.5 per cent of the total resources for the Executive Office.
- 1.88 As reflected in tables 1.45 (3) and 1.46 (3), the Executive Office expects to receive extrabudgetary contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$31,436,100 and would provide for

28 posts (1 D-2, 7 P-5, 9 P-4, 5 P-3, 2 P-2/1, 1 General Service (Principal level) and 3 General Service (Other level)). The resources would be used to support the Secretary-General in his responsibilities and would support Office activities in all regions of the world, providing support for financing of activities related to the maintenance of international peace and security, and providing for special projects to be undertaken by the Office. Extrabudgetary resources represent 63.4 per cent of the total resources for the Office.

- 1.89 The extrabudgetary resources under this section are subject to the oversight of the Executive Office, which has delegated authority from the Secretary-General.
- 1.90 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.48. The vast majority of the travel undertaken in the Executive Office is in connection with the formal delegations of the Secretary-General and of the Deputy Secretary-General. The official visits of the Secretary-General and of the Deputy Secretary-General involve complex preparation and logistical arrangements with regard to the agenda and scheduling with numerous high-level government officials. Therefore, such preparations are, in many cases, finalized close to the departure date and are subject to last-minute changes. Furthermore, the official visits, in most cases, involve multiple consecutive meetings in different countries and regions in order to save financial resources that would have been otherwise incurred had the travel been to a single destination with a round trip to New York. Hence, the coordination of these multiple-leg trips with numerous high-level participants is more complex and involves additional extensive preparations that may include unforeseen circumstances. It should be noted that the Office often works directly with the Travel Unit in the Facilities and Commercial Activities Service of the Department of Operational Support and reserves the tickets on the basis of a preliminary itinerary to secure the tickets at a low price, before the formal actions are recorded in Umoja, which are then completed at a later stage, once final information is confirmed. The Office is mindful of and takes the utmost efforts to achieve improved compliance with the advance booking of air travel policy.

2. Office of the Director-General, United Nations Office at Geneva

Foreword

The world continues to address the consequences of the COVID-19 pandemic while at the same time it experiences various humanitarian, economic and environmental crises. The United Nations Office at Geneva supports the international community in overcoming these challenges through its unique convening capacity – whether physical or virtual – and by providing infrastructure, services and assistance for multilateral diplomacy.

The Office works across the spectrum of the mandate of the United Nations, which includes the Secretary-General’s reform agenda, peace and security, disarmament, human rights, humanitarian relief, sustainable development and more. It undertakes outreach and communications initiatives and provides political, protocol and diplomatic liaison functions and advice. The Office also facilitates cooperation among “International Geneva” actors – the unique range of organizations that work together for peace, rights and well-being. As the designated United Nations official for security for Switzerland, the Director-General oversees the safety and security of United Nations staff and property.

The United Nations Office at Geneva embraces innovation, collaboration and sustainability, and the strategic heritage plan is an example of its modernization. The Office is also incorporating lessons learned from the COVID-19 pandemic to ensure flexibility, inclusivity and accessibility for all, while at the same time identifying and implementing measures to be more resilient and cost-effective.

The United Nations Office at Geneva will continue to be a service provider of excellence and an operational hub of the United Nations system in 2023 and beyond, supporting the United Nations, its Member States and the wider international community to find lasting solutions to complex challenges.

(Signed) Tatiana **Valovaya**
Director-General, United Nations Office at Geneva

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.91 The Office of the Director-General of the United Nations Office at Geneva provides executive support to the Director-General in her functions as the representative of the Secretary-General in Switzerland, as executive head of the United Nations Office at Geneva and as the designated official for security for Switzerland, as mandated and described in the Secretary-General's bulletin on the organization of the United Nations Office at Geneva ([ST/SGB/2000/4](#)). The functions of the Office of the Director-General are to:
- (a) Provide executive support to the Director-General and assist the Director-General in the overall direction and management of the United Nations Office at Geneva and the coordination of the activities of its units;
 - (b) Liaise with the Executive Office of the Secretary-General and other Secretariat units at Headquarters and other duty stations;
 - (c) Maintain contact with permanent and observer missions, including coordinating information to them;
 - (d) Provide advice and support to the Director-General in relation to communications, public relations and outreach activities;
 - (e) Provide advice and support to the Director-General in the discharge of political and representational functions with Member States and regional and other intergovernmental organizations, and liaise with relevant Headquarters departments in this area;
 - (f) Organize the observance of mandated and selected international days;
 - (g) Maintain and develop cooperation with Geneva-based United Nations entities, including arranging consultations between the Director-General and the heads of the funds, programmes and specialized agencies in Geneva, and facilitating inter-agency cooperation;
 - (h) Support the Director-General in building partnerships in support of the work of the Organization, including with civil society, the academic and research community, and the private sector; liaising with relevant Headquarters departments in this area; and liaising with NGOs, first and foremost with those in consultative status with the Economic and Social Council, and facilitating their participation in United Nations activities;
 - (i) Maintain and develop cooperation with research and academic institutions, civil society, think tanks and the private sector, including organizing joint events;
 - (j) Represent the United Nations Legal Counsel at Geneva, assist the Director-General in all legal matters, provide legal advice to substantive departments and services at the United Nations Office at Geneva and to funds and programmes at Geneva, and liaise with the host country and other authorities concerning privileges and immunities, the implementation of Headquarters agreements and other questions affecting United Nations agreements;
 - (k) Carry out protocol and diplomatic liaison functions with permanent and observer missions and authorities of the host country, provide protocol advice to United Nations entities at Geneva and advise the Geneva Diplomatic Committee in its work;
 - (l) Support the implementation of the 2030 Agenda through communication and outreach activities, capitalizing on the presence in Geneva of a diversity of stakeholders directly involved in the achievement of the Sustainable Development Goals, by acting as convenor, facilitator and connector among actors in Geneva and other duty stations;
 - (m) Lead the United Nations Office at Geneva as it adapts to new realities and challenges following the COVID-19 pandemic, such as hybrid conferencing, and maintain business continuity at the

Section 1 Overall policymaking, direction and coordination

Palais des Nations during the strategic heritage plan renovation project while ensuring an efficient transition to new ways of working through the #NewWork initiative.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.95 As reflected in tables 1.52 (2) and 1.53 (2), the Office of the Director-General expects to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, projected extrabudgetary resources are estimated at \$486,300 and would provide for three posts (General Service (Other level)), as presented in table 1.53 (2). The resources would be used to support the Office’s work in the Legal Affairs Section and the Political Affairs and Partnerships Section. Extrabudgetary resources represent 12.7 per cent of the total resources for the Office.
- 1.96 The extrabudgetary resources under this section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.
- 1.97 Information on compliance with the advance booking for air travel is reflected in table 1.55. The Office of the Director-General will continue to plan its travel in order to maintain 100 per cent compliance with the advance booking of air travel policy.

3. Office of the Director-General, United Nations Office at Vienna

Foreword

The United Nations Office at Vienna is proud of its role in enabling the United Nations family to fulfil its mandates and maintain business continuity throughout the pandemic. Thanks to its dedicated staff and their capacity for innovation, the Office supported hybrid, virtual and in-person meetings at the Vienna International Centre, including key meetings of the Vienna-based United Nations intergovernmental bodies, allowing them to continue their dialogue throughout the pandemic. Important intergovernmental decisions would not have been reached without the vital support provided by the Office through its human resources, procurement, finance, information technology and communications and other administrative services.

The United Nations Office at Vienna will strive to ensure that Member States can continue to count on the home of the United Nations in Vienna as a sustainable, powerful and efficient platform from which to address global challenges, and to do so while respecting and contributing to the values that shape the United Nations and define its agenda. The Office remains committed to reducing its carbon footprint and will also continue to support wider United Nations reforms through the streamlined delegation of authority, strengthened internal controls and improved risk management.

The host country and the city of the United Nations Office at Vienna remain essential partners in these endeavours, and I am grateful for their steadfast support. Communicating the values of the United Nations in Austria and Vienna, as well as the value of hosting the United Nations as one of only four global headquarters, are priorities for me as Director-General. The Office will continue to demonstrate and advocate for the importance of multilateralism through its work and its public outreach.

Through its values, the commitment of staff and the strength of its partnership with the Member States and the host country, the United Nations Office at Vienna will work to ensure that the United Nations family in Vienna is well-placed to support the world in overcoming the challenges of our time and getting back on track to achieving the Sustainable Development Goals in the decade of action.

(Signed) Ghada Waly
Director-General, United Nations Office at Vienna

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.98 The Office of the Director-General of the United Nations Office at Vienna provides executive support to the Director-General in her functions as the representative of the Secretary-General in Austria, as executive head of the United Nations Office at Vienna, including the United Nations Information Service, and as a designated official for security for Austria. The Office of the Director-General also maintains liaison with the host Government and other Governments and intergovernmental organizations and NGOs in Vienna. The responsibilities of the Director-General are combined with those of the Executive Director of UNODC. The Office of the Executive Director is integrated with that of the Director-General and is supported by UNODC resources. The functions of the Office of the Director-General, as outlined in the Secretary-General's bulletin on the organization of the United Nations Office at Vienna ([ST/SGB/2004/5](#)), are to:
- Provide assistance to the Director-General in the executive direction and management of the United Nations Office at Vienna and in the coordination of the activities of its units;
 - Cooperate with the host Government and provide protocol services to the United Nations offices in Vienna, including processing letters of credentials for the heads of permanent missions in Vienna and maintaining liaison with NGOs in consultative status with the Economic and Social Council;
 - Represent the United Nations Legal Counsel in Vienna and provide assistance to the Director-General on all legal matters and legal services for entities of the Secretariat in Vienna;
 - Arrange for representation of the United Nations at meetings and conferences held in Vienna;
 - Coordinate with the United Nations Industrial Development Organization, the International Atomic Energy Agency and the Preparatory Commission of the Comprehensive Nuclear-Test-Ban Treaty Organization on common policy matters affecting the entities based in Vienna;
 - Maintain liaison with the Executive Office of the Secretary-General and other Secretariat units at Headquarters.
- 1.99 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.56 to 1.58.

4. Office of the Director-General, United Nations Office at Nairobi

Foreword

The United Nations Office at Nairobi, established in 1996, is the youngest of the United Nations offices away from Headquarters. It remains the only United Nations headquarters in Africa and in the global South.

As the representative of the Secretary-General, the Director-General of the United Nations Office at Nairobi provides the Secretary-General with advice on and support for a broad range of political, diplomatic and cross-cutting issues in the region, and undertakes special political and representation assignments.

In 2023, the Office of the Director-General will continue to represent the Secretary-General in relations with permanent missions to the United Nations (Nairobi) and regional organizations and act as the main interlocutor with the host Government on all matters relating to the functioning of the offices of the United Nations and its separately administered organs and programmes in Kenya. The Director-General also serves as the designated official for the security and safety of the United Nations system in Kenya, with overall responsibility for the security and safety of all United Nations staff and their dependants throughout the country. The Office will support the Director-General in all her functions, including her efforts to further raise the profile of the Office and upgrade its infrastructure and facilities, in the light of the duty station's increasing importance as a global and dynamic United Nations centre, including by transitioning administrative support functions for other United Nations entities to the Office.

Nairobi is one of the United Nations system's most unique duty stations, containing a mix of global headquarters, regional and country offices, special political missions and peace support operations. Collectively, the activities of these Nairobi-based United Nations entities make significant contributions to advancing United Nations goals and values in Kenya, in the region and around the world.

The United Nations Office at Nairobi provides quality administrative and support services to a wide range of United Nations programmes and intergovernmental processes and is undertaking critical activities in support of UNEP, UN-Habitat and the resident coordinator offices globally. Throughout 2023, the Office will continue to strive to serve its clients, providing exceptional services in support of the delivery of their critical mandates and the advancement of the Sustainable Development Goals.

(Signed) Zainab Hawa **Bangura**
Director-General, United Nations Office at Nairobi

B. Proposed post and non-post resource requirements for 2023

Overview

1.103 The functions of the Office of the Director-General of the United Nations Office at Nairobi are outlined in the Secretary-General's bulletin on the organization of the United Nations Office at Nairobi (ST/SGB/2009/3). The Director-General is responsible for all activities of the Office, serves as the representative of the Secretary-General and performs representation and liaison functions with the host Government, permanent missions and intergovernmental organizations and NGOs based in Nairobi. The responsibilities also include the executive direction and management of the United Nations Office at Nairobi, including the programmes of administration and conference services, other support and common services and the United Nations Information Centre in Nairobi. The functions of the Office of the Director-General are to:

- (a) Provide assistance to the Director-General in all functions, including ad hoc responsibilities assigned by the Secretary-General;
- (b) Cooperate with the host Government and provide protocol services for the United Nations Office at Nairobi, including processing letters of credentials for the heads of permanent missions in Nairobi;
- (c) Provide legal advisory services for the United Nations Office at Nairobi, UNEP and UN-Habitat;
- (d) Maintain liaison with the Executive Office of the Secretary-General and Headquarters-based Secretariat units.

1.104 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.61 to 1.63.

Table 1.61

Evolution of financial resources by object of expenditure

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.107 As reflected in tables 1.64 (2) and 1.65 (2), the Office of the Director-General expects to receive extrabudgetary resources, which would complement regular budget resources for the delivery of its mandates. For 2023, projected extrabudgetary resources are estimated at \$283,700 and would provide for one post (Local level). The resources would be used to support the implementation of the activities of the Office, including serving as the representative of the Secretary-General and performing representation and liaison functions with the host Government, permanent missions and intergovernmental organizations and NGOs based in Nairobi. Extrabudgetary resources represent 24.7 per cent of the total resources for the Office.
- 1.108 The extrabudgetary resources under this section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.
- 1.109 Information on compliance with the advance booking for air travel is reflected in table 1.67. The Office of the Director-General works closely with the Travel, Shipping and Visa Unit to reserve tickets in advance, on the basis of the preliminary itinerary, in order to secure the tickets, before the formal actions are recorded in Umoja. There have been cases in which the preparations were finalized close to the departure date and were subject to last-minute changes. The Office will endeavour to minimize this and increase efforts to achieve 100 per cent compliance with the advance booking of air travel policy.

Table 1.67

IV. Office of the Special Representative of the Secretary-General for Children and Armed Conflict

Foreword

Children are disproportionately affected by armed conflict: they are recruited, forced to work, raped, killed, injured, abducted and denied education, health care and access to humanitarian aid. They are also revictimized through stigmatization and a lack of reintegration opportunities. Reporting on violations against children and engaging to stop and prevent violations is the core of the Office's mandate. Engagement can lead to the removal of children from danger, release, and prevention.

Together with partners in the field, the Office will redouble its efforts to promote the signing of action plans and commitments with parties to end and prevent violations against children, and engage with affected Member States to put in place legislation to criminalize the six grave violations. The Office will provide capacity for the implementation of protection and prevention plans, as required by the Security Council in its resolution [2427 \(2018\)](#), and other preventive measures, including measures to ensure equal access to education and the continuation of education during armed conflict, in line with the request of the Council in its resolution [2601 \(2021\)](#). Practical guidance for mediators with regard to protecting children in situations of armed conflict will ensure the systemic inclusion of protection language in peace processes. The conduct of research and the development of guidelines for improved monitoring, reporting and engagement will continue to be prioritized. Prevention partnerships with regional and subregional bodies will be reinforced. Efforts led by my Office and UNICEF to collect best practices on the reintegration of released children will continue to generate support for child reintegration programmes.

The twenty-fifth anniversary of the mandate in 2022 will draw public attention to the plight of children in armed conflict. The study on the evolution of the mandate conducted on this occasion has shown that the nature of armed conflict has evolved, and demonstrated that children today face different protection challenges depending on age, gender and disability. I want to invest in data analysis capacity to better inform protection and prevention responses, improve advocacy and support national and regional partners in enhancing protection and prevention capacities.

(Signed) Virginia **Gamba**
Special Representative of the Secretary-General for Children and Armed Conflict

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.110 The Special Representative of the Secretary-General for Children and Armed Conflict is responsible for the protection of children affected by armed conflict and for advocating to prevent the six grave violations against children identified by the Security Council from occurring in the first place. These six grave violations are the denial of humanitarian access for children (resolution 1261 (1999)); the recruitment and use of children (resolution 1379 (2001)); the killing and maiming of children (resolution 1882 (2009)); rape and other forms of sexual violence against children (ibid.); attacks on schools and hospitals (resolution 1998 (2011)); and the abduction of children (resolution 2225 (2015)). The Office works primarily in those situations of armed conflict or of concern identified in the annual report of the Secretary-General on children and armed conflict. The Office of the Special Representative covers 21 situations in 4 geographic regions and promotes enhanced monitoring and reporting at the subregional level in the Lake Chad basin region, in accordance with the report of the Secretary-General on children and armed conflict in 2021 (A/75/873-S/2021/437).
- 1.111 The mandate derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions 51/77 and 58/245. The key elements of the mandate of the Special Representative are to: (a) provide political leadership and high-level advocacy for the improved protection of children affected by armed conflict; (b) lead the collection of information and reporting on the plight of these children; (c) advocate, build awareness of and give prominence to ending and preventing grave violations; (d) work with United Nations partners, Member States, civil society, and pertinent intergovernmental bodies to propose ideas, undertake research and facilitate discussions on the best approaches to enhance the protection response for children in situations of armed conflict, including through improved accountability processes; (e) undertake diplomatic engagement with parties to armed conflict and affected Member States in order to secure commitments to end and prevent violations against children; and (f) facilitate the work of operational child protection actors on the ground through the development and promotion of best practices, such as ensuring that child protection issues are included in peace processes, appropriate release procedures are in place, reintegration programmes are strengthened to avoid re-recruitment opportunities, child protection expertise and capacity are reinforced, and regional and national prevention plans and policies against the six grave violations are promoted.
- 1.112 By its resolution 76/147, the General Assembly extended the mandate of the Special Representative for an additional period of four years, until 2025.

Programme of work

Objective

- 1.113 The objective, to which the Office contributes, is to eradicate the six grave violations committed against children in situations of armed conflict through strengthened mechanisms for the protection of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect children in situations of armed conflict, including by ensuring that children are placed at the centre of peace negotiations and securing optimal conditions for the release and reintegration of children, thereby avoiding re-recruitment.

Strategy and external factors for 2023

- 1.114 To contribute to the objective, the Office will strengthen mechanisms for the protection of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect conflict-affected children. Specifically, the Office will:
- (a) Monitor and report on violations against children in situations of armed conflict through the reinforcement of existing child protection capacities on the ground and facilitate information exchanges to identify and mitigate trends in the use and abuse of children in, for and by armed conflict;
 - (b) Enhance its diplomatic engagement, including through direct dialogue and/or country visits by the Special Representative, with parties to armed conflict to promote ending and preventing the use and abuse of children, and continue to advocate for the protection of children affected by conflict and the prevention of grave violations against them through analysis, public outreach and targeted reintegration support, as well as the development of groups of friends of the mandate in affected States and regions;
 - (c) Develop community, national, subregional and regional prevention plans, as well as other preventive measures, guided by Security Council resolutions [2427 \(2018\)](#) and [2601 \(2021\)](#), while promoting the adoption of international norms and standards for the protection of children by Member States;
 - (d) Analyse the best practices emerging from ongoing activities to stop grave violations committed against children and promote the continued roll-out of specific public awareness campaigns, including the “Act to Protect Children Affected by Armed Conflict” campaign, in all countries and regions where there is active armed conflict and, whenever possible, in all official languages of the United Nations;
 - (e) Develop curricula with partners, conduct training for defence and security personnel and assist in capacity-building for governing structures, academics and civil society;
 - (f) Undertake research into the six grave violations, provide guidelines to assist in their monitoring, promote the comprehensive discussion of reintegration needs through the Global Coalition for Reintegration of Child Soldiers and promote the inclusion of child protection issues in peace processes and the use of the related “Practical guidance for mediators to protect children in situation of armed conflict” to that end;
 - (g) Organize and participate in seminars, workshops, conferences and other relevant meetings to raise awareness of child protection and prevention best practices and proposed best international standards on the protection and release of children who are victims of the six grave violations;
 - (h) Monitor the impact of the COVID-19 pandemic on children in situations of armed conflict, exchange information and promote dialogue at the national and regional levels regarding the consequences of the pandemic on children in armed conflict, and raise public awareness on this impact and suggest mitigation measures to better protect children and to prevent their use and abuse in, for and by armed conflict, as well as reinforce the capacity of country task forces on the ground to address these consequences;
 - (i) Enhance data analysis and information management capacity to better capture the differentiated protection needs of children, including on the basis of age, gender and disability, and whether they are on the move, internally displaced, refugees or victims of cross-border trafficking, and the factors that can exacerbate their vulnerability, such as climate change, poverty and inequality, the proliferation and illicit trafficking of arms, the impact of landmines, explosive remnants of war and improvised explosive devices, and the impact of new technologies.
- 1.115 The planned deliverables and activities are expected to help Member States make progress towards the achievement of the Sustainable Development Goals, including Goals 3, 4, 5, and 8, in particular

target 8.7 on the eradication of child labour, including the recruitment and use of child soldiers, and Goal 16, in particular target 16.2 on ending abuse, exploitation, trafficking and all forms of violence against and torture of children.

- 1.116 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 will continue to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme stemming from the COVID-19 pandemic. Examples of lessons learned and best practices include the support for country task forces for monitoring and reporting in the field through the redoubled engagement of the Special Representative; capacity-building initiatives at the technical level; and the provision of data analysis and policy guidance to inform responses to the challenges posed by the pandemic and adapt working methods, including through the publication of a study entitled “Impact of the COVID-19 pandemic on violations against children in situations of armed conflict” in 2021 and a similar follow-up study on the mid- and long-term impact of the pandemic to be published in 2022. The recommendations will continue to be implemented in 2023. At the same time, it is assumed that those operational conditions have improved and would allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuit of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.117 The above-mentioned work is expected to result in:
- (a) A decrease in the number of violations committed against children in armed conflict and an increase in the number of children released by armed forces and groups and reintegrated, including through repatriation and removal from situations of armed conflict, in line with the commitments agreed to in action plans, handover and release protocols, other commitments and mutually agreed practices;
 - (b) Stronger national and regional protection systems and accountability mechanisms through justice, remediation and reparation processes, involving Member States, to address gaps in knowledge, common standards and procedures for dealing with children under threat;
 - (c) The strengthening of efforts to protect children, including those threatened by intercommunal violence and the emergence of new parties to armed conflict;
 - (d) An increased mitigation capacity of Governments to prevent violations and ensure equal access to and the continuation of education in conflict;
 - (e) Alternative strategies, through tailored, systematic and sustainable reintegration, for children and communities to break the cycle of violence;
 - (f) An international political consensus that long-term and sustainable reintegration support should be provided to all released children, including those repatriated or removed from armed conflict zones, and that child protection issues should be included in all peace processes;
 - (g) An enhanced capacity of Member States and United Nations country task forces for monitoring and reporting, and their equivalents in countries where there is no monitoring and reporting mechanism in place, to support children and vulnerable communities on the ground;
 - (h) An improved understanding of the long-term consequences of the pandemic on the situation of children in armed conflict and on the monitoring of grave violations by country task forces to allow for the adoption of targeted measures to better protect conflict-affected children.
- 1.118 With regard to the external factors, the plan for 2023 is based on the following planning assumptions:
- (a) The political environment would continue to be supportive for the improved measures put in place to end and prevent violations committed against children in situations of armed conflict in all situations of the children and armed conflict agenda;
 - (b) The dynamics of contemporary armed conflict in which children are normally victimized allow for access to monitor and assist in the implementation of these measures;

- (c) Negotiators and mediators in peace processes and national dialogue ensure the inclusion of provisions to protect children in situations of armed conflict and to place children at the heart of the peace processes.
- 1.119 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. Analysing the gender dimension of grave violations against children is crucial for the implementation of its mandate. The gender perspective is particularly relevant as girls and boys each face particular risks in conflict, requiring gender-sensitive approaches and responses. In this regard, rape and other forms of sexual violence remain a significantly underreported grave violation and disproportionately affect girls. Increasing attacks on schools and the abduction of children from schools and along school routes compounds the vulnerability of girls, since girls are usually the first to drop out of school and find it more difficult to return to school. Gender-sensitive approaches and responses also require a full understanding of the risks and vulnerabilities to grave violations and other abuses of boys, and the ways in which these may differ from those experienced by girls.
- 1.120 In 2023, the Office will strengthen the collection and analysis of data on rape and other forms of sexual violence against children, including through enhanced data analysis capacity in its Office and support for the capacity-building activities of its field partners. It will strengthen its cooperation with the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict through more systematic collaboration on improving information-sharing between the monitoring and reporting mechanism on grave violations against children in situations of conflict and the monitoring, analysis and reporting arrangements on sexual violence in conflict. In addition, the Office will investigate the interlinkages of rape and other forms of sexual violence with other grave violations, such as the recruitment and use of children for forced marriage and forced labour, including sexual slavery. To that end, the Office will further strengthen its partnership with the International Labour Organization in the framework of the Alliance 8.7, a global partnership to eradicate, among other forms of forced labour, child labour, including the recruitment and use of children in armed conflict. Following up on the in-country study and guidance developed by the Office on the reintegration of boy victims of sexual violence in conflict, the Office intends to continue this initiative and expand the research to another situation on the children and armed conflict agenda in order to strengthen its data and better support its advocacy in this field. Finally, the Special Representative will continue her advocacy for the protection of girls' education from attacks, including within the framework of the endorsement and implementation of the Safe Schools Declaration.
- 1.121 In line with the United Nations Disability Inclusion Strategy, the Office has strengthened its efforts on issues related to children with disabilities, given that they are disproportionately affected by armed conflict. For children with disabilities, barriers to full participation in daily life are further intensified and compounded when infrastructure is destroyed and services and systems are compromised and made inaccessible because of armed conflict. This often results in a loss of access to schooling, health-care and psychosocial support. When systems and services break down and safe spaces shrink, children with disabilities are also more likely to fall victim to grave violations. For children who sustain injuries during armed conflict as a result of grave violations such as recruitment and use, maiming or sexual violence, such injuries can lead to long-term impairments and different forms of disability, posing additional challenges to their recovery and reintegration. The COVID-19 pandemic has exacerbated these threats to children with disabilities and made them even more vulnerable. To adequately analyse the impact of armed conflict on children with disabilities, understand their specific needs and inform protection and prevention responses, it would be important to consider disability, as well as factors that intersect with it, in the framework of the monitoring and reporting mechanism, resources permitting.
- 1.122 In 2023, the Office will advocate with its partners in the Monitoring and Reporting Mechanism Technical Reference Group to develop a guidance note that will describe ways to better collect, verify and analyse data on grave violations against children with disabilities in armed conflict, with the objective of disaggregating data by disability. The Office will also strengthen its advocacy efforts

to raise awareness of the plight of children with disabilities in armed conflict and continue the implementation of its disability inclusion strategy.

Evaluation activities

- 1.123 The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
- (a) Office of Internal Oversight Services (OIOS) biennial report entitled “Strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives”;
 - (b) OIOS triennial review of the implementation of the recommendations from the programme evaluation of the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict, on Sexual Violence in Conflict and on Violence against Children.
- 1.124 The results and lessons of the OIOS biennial report referenced above have been taken into account for the proposed programme plan for 2023. For example, to address the recommendations, an entity-specific evaluation policy was developed and a focal point for evaluation was nominated, with clear terms of reference, to track evaluation and self-evaluation cycles, coordinate reporting efforts, and facilitate the implementation of recommendations and mainstream them into the proposed programme plan for 2023.
- 1.125 The results and lessons of the OIOS triennial review referenced above have also been taken into account for the proposed programme plan for 2023, including: (a) enhancing communication strategies; (b) strengthening headquarters coordination task forces; (c) incorporating lessons-learned mechanisms into work programmes; (d) adding regular risk assessments and strategic planning to work programmes; and (e) enhancing coordination and cooperation between the three offices.

Programme performance in 2021

Stabilization of the number of grave violations committed against children

- 1.126 In 2021, the overall number of grave violations committed against children stabilized, despite deteriorating political and security environments in several situations on the children and armed conflict agenda and the impact of the COVID-19 pandemic on children affected by armed conflict. This reflects the critical role that the children and armed conflict mandate has played in contributing to protecting children from grave violations and preventing these violations before they occur. The Office’s sustained engagement with parties to conflict, as well as advocacy at the international, regional and national levels, led to the signature and implementation by armed forces and armed groups of action plans, prevention plans and other commitments to end and prevent grave violations in their operations, and contributed to mitigating the impact of conflict on children. The apparent decrease in the number of violations in 2021 should be considered with due regard to the access challenges faced by entities that monitor and report grave violations in some situations on the children and armed conflict agenda, and should therefore be regarded as a stabilization rather than a decrease.
- 1.127 Progress towards the objective is presented in the performance measure below (see figure 1.XI).

Figure 1.XI
Performance measure: number of grave violations committed against children (annual)

Impact of the pandemic

- 1.128 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates; in particular, it increased the vulnerability of conflict-affected children and placed additional burdens on ground operations and on the Office's activities and deliverables. The pandemic made engagement with parties to conflict more difficult owing to access constraints with regard to United Nations operations on the ground. Related activities such as training, awareness-raising, screening exercises, advocacy and the speedy implementation of child legislation and action plans were hampered. The Office's field missions had to be postponed, and its events and capacity-building activities, including with parties to conflict, were held virtually when logistics permitted.
- 1.129 In addition, in order to support Member States and United Nations partners in the field on issues related to the COVID-19 pandemic, within the overall scope of the objectives, the Office provided data and policy guidance to illuminate field responses, including through the conduct of a study on the impact of the COVID-19 pandemic on violations against children in situations of armed conflict, launched in a Security Council Arria-formula meeting in 2021.

Planned results for 2023

Result 1: children recruited and used by parties to armed conflict

Programme performance in 2021 and target for 2023

- 1.130 The Office's work contributed to a decrease of 700 children recruited compared with 2020, which did not meet the planned target of a decrease of 1,700 recruitments compared with 2020. The target was not met owing to the deteriorating political and security situations and the negative impact of the pandemic on conflict-affected children, operations on the ground and the Office's activities and deliverables. Safety concerns and the pandemic increased the vulnerability of children, placing additional burdens on child protection actors. The Office's field missions had to be temporarily postponed, leading to the need for events, meetings and engagement with parties to conflict for the signature and/or implementation of action plans to be undertaken virtually, if at all.
- 1.131 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 1.XII).

Figure 1.XII
Performance measure: number of children recruited and used by parties to armed conflict (annual)

Result 2: increase in the signature of new action plans and other commitments between the United Nations and parties to armed conflict to end and prevent violations against children, including new comprehensive action plans covering all six grave violations

Proposed programme plan for 2021 and target for 2023

- 1.132 The programme’s work contributed to 40 joint action plans and other commitments, including comprehensive action plans, covering all six grave violations, which met the planned target.
- 1.133 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 1.XIII).

Figure 1.XIII
Performance measure: number of joint action plans and other commitments, including comprehensive action plans, covering all six grave violations (cumulative)

Result 3: increase in the signature of prevention plans, including national, regional and subregional prevention plans, and other measures to prevent grave violations against children and ensure equal access to and the continuation of education in conflict

Proposed programme plan for 2023

- 1.134 In line with Security Council resolution [2427 \(2018\)](#), the Office has offered assistance to Member States and regional and subregional organizations in the development of prevention measures since 2018. The Office assisted in the development of a national prevention plan in the Philippines and promoted the adoption of prevention plans in the Central African Republic, Mali and the Sudan. The Security Council requested, in its resolution [2601 \(2021\)](#), that preventive measures be undertaken to ensure equal access to education and the continuation of education in armed conflict and recognized the essential role of education for the prospects of peace and security.

Lessons learned and planned change

- 1.135 The lesson for the programme was the need to strengthen preventive actions and early warning mechanisms, including at the regional and subregional levels, as well as the need to promote a sustained approach that included the full ownership of signatories on the need to prevent violations against children in the first place. In applying the lesson, the Office will prioritize the signature of prevention plans and other preventive measures with parties to conflict and redouble its engagement with regional organizations and subregional organizations, in particular the Economic Community of Central African States and the Economic Community of West African States (ECOWAS). The Office will continue to discuss the signature of commitments to implement prevention measures to better protect children against all six grave violations and in doing so contribute to building and sustaining peace. In addition, the Office has taken note of and will take action to implement the request of the Security Council to promote preventive measures for equal access to and the continuation of education in conflict, in accordance with its resolution [2601 \(2021\)](#).
- 1.136 Expected progress towards the objective is presented in the performance measure below (see figure 1.XIV).

Figure 1.XIV

Performance measure: number of prevention plans and other preventive measures to prevent grave violations against children in conflict and/or ensure equal access to and the continuation of education in conflict (cumulative)

Legislative mandates

- 1.137 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

51/77	The rights of the child	76/147	Rights of the child
58/245	Office of the Special Representative of the Secretary-General for Children and Armed Conflict		

Security Council resolutions

1261 (1999)	1998 (2011)
1314 (2000)	2068 (2012)
1379 (2001)	2143 (2014)

Deliverables

1.138 Table 1.68 lists all deliverables of the programme.

Table 1.68

Office of the Special Representative of the Secretary-General for Children and Armed Conflict: Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	14	13	14	14
1. Annual report to the General Assembly	1	1	1	1
2. Annual report to the Security Council	1	1	1	1
3. Annual report to the Human Rights Council	1	1	1	1
4. Global horizontal notes to the Security Council Working Group on Children and Armed Conflict	4	4	4	4
5. Reports to the Security Council Working Group on Children and Armed Conflict in specific situations	7	6	7	7
Substantive services for meetings (number of three-hour meetings)	4	5	5	5
Meetings of:				
6. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
7. The Fifth Committee	1	1	1	1
8. The General Assembly	1	1	1	1
9. The Security Council	1	1	1	1
10. The Human Rights Council	–	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	10	10	10	10
11. Training for child protection actors and country task forces on monitoring and reporting mechanisms	10	10	10	10
Publications (number of publications)	–	2	2	2
12. Studies, reports and other publications related to children and armed conflict	–	2	2	2

Section 1 Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
Technical materials (number of materials)	–	–	1	1
13. Technical guidelines on the six grave violations against children	–	–	1	1
Fact-finding, monitoring and investigation missions (number of missions)	3	–	6	8
14. Field missions to situations on the children and armed conflict agenda	3	–	6	8

C. Substantive deliverables

Consultation, advice and advocacy: briefings and consultations with Security Council Member States (15 Member States) and some 20 other Member States; briefings and consultations with some 4 regional and subregional organizations that play a role in the prevention of grave violations against children; briefing materials and guidance tools; expert advice on policy matters to national government and regional officials dealing with child protection issues; advocacy field missions (5 locations).

D. Communication deliverables

Outreach programmes, special events and information materials: keynote speaker or presenter at an annual average of 80 high-level events, NGO and civil society events, retreats, symposiums, round tables and forums on issues relating to children and armed conflict; multimedia communications materials, including informational brochures, targeting national government and regional officials, as well as the general public, at the global, regional and national levels.

External and media relations: press releases and press conferences; interviews; recorded statements.

Digital platforms and multimedia content: content for websites and social media accounts.

B. Proposed post and non-post resource requirements for 2023

Overview

1.139 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.69 to 1.71.

Table 1.69
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Figure 1.XV
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.142 As reflected in tables 1.72 (2) and 1.73 (2), the Office expects to continue to receive extrabudgetary contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary contributions are estimated at \$1,344,700 and would provide for four posts (2 P-4 and 2 General Service (Other level)). The resources would be used to carry out various activities, including knowledge-sharing and research; systematic outreach to Member States and civil society groups to raise global awareness; capacity-building and technical consultations; participation in fact-finding missions and/or commissions of inquiry in emerging situations of concern; and the further strengthening of engagement with regional and subregional political and military organizations for increased awareness and mainstreaming of child protection policies. The increase of \$35,800 reflects mainly the cost of one additional post and additional travel costs. Extrabudgetary resources represent 36.8 per cent of the total resources for the Office.
- 1.143 Anticipated in-kind contributions would provide for use of office space, with an estimated value of \$45,500.
- 1.144 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.145 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.75. While the Office makes every effort to follow the advance booking of air travel policy, it is not always possible to comply owing to unforeseen circumstances, such as receiving invitations to high-level events hosted by Member States or regional organizations less than three weeks before the event. In addition, owing to the nature of the mandate, political opportunities and openings arise unexpectedly that require staff to travel at short notice in order to seize such opportunities and advance the implementation of the mandate. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

V. Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict

Foreword

History is replete with examples of how, in times of conflict and in its aftermath, rape and other forms of sexual violence are used as a strategic weapon to punish, control, humiliate, dominate and instil fear in populations, to target specific groups on the basis of ethnicity, religious identity or political affiliation, or to forcibly displace civilians from locations deemed strategically important. Sexual violence is used as a weapon in global conflicts precisely because it is so effective: it devastates the victim, families and communities. It diminishes the prospects of reconciliation and durable peace.

In the past decade, we have witnessed a paradigm shift in how conflict-related sexual violence is understood and addressed. The problem is now recognized as a threat to the maintenance of international peace and security that requires a security and justice sector response. The Security Council, through a series of resolutions, has established infrastructure to address sexual violence and a compliance regime to prevent it. In its landmark resolution [2467 \(2019\)](#), the Council articulated for the first time a “survivor-centred approach” in all aspects of the operational and programmatic response. Indeed, survivors remain the moral compass of this mandate and inform the strategic priorities that I have established for my Office.

Notwithstanding the progress of the past decade, there are unprecedented challenges on the horizon, including enforcing the compliance of non-State actors. The new prevention strategy that the Office is developing will focus on fostering national ownership and reinforcing justice and accountability. However, even as we enhance prevention efforts, continued advocacy for increased support for survivors is essential, as is addressing the root causes of the violence, which include structural barriers to gender equality and discrimination. The execution of this mandate is integral to the achievement of Sustainable Development Goals 5 and 16 in particular. In the short term, it will also be necessary to mitigate the unique challenges brought about by the ongoing COVID-19 pandemic.

(Signed) Pramila **Patten**

Under-Secretary-General and Special Representative of the Secretary-General

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.146 The Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict is responsible for providing coherent and strategic leadership on preventing and addressing sexual violence as a weapon of war and tactic of terrorism and for engaging with justice and security sectors, all parties to armed conflict, civil society and the survivors of such crimes.
- 1.147 The mandate derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolution [65/259](#), by which the Assembly established the Office, following the establishment of the mandate of the Special Representative pursuant to Security Council resolution [1888 \(2009\)](#). In accordance with resolution [1888 \(2009\)](#) and recognizing that conflict-related sexual violence remains underreported and insufficiently addressed, the role of the Special Representative and that of the Office is, among other things: (a) to give victims and affected communities a voice; (b) to mobilize the political will and action of the international community, in particular to address the impunity of perpetrators of violations; (c) to foster collaboration and partnerships and broaden the circle of stakeholders on the issue; (d) to coordinate advocacy and programmatic responses, in particular in the United Nations system; (e) to ensure more reliable and comprehensive data on sexual violence in conflict as a basis for action at all levels; and (f) to disseminate information/knowledge on approaches and best practices to address sexual violence in conflict.
- 1.148 The mandate derives from the priorities established in relevant Security Council resolutions, including [1820 \(2008\)](#), [1888 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#) and [2467 \(2019\)](#), as well as relevant country-specific and sanctions resolutions that make explicit reference to sexual violence in conflict and the mandate of the Special Representative. Furthermore, the adoption of Council resolutions [2331 \(2016\)](#) and [2388 \(2017\)](#) extends the scope of work of the Office to the areas of counter-terrorism, anti-trafficking efforts and related security and justice sector engagement.

Programme of work

Objective

- 1.149 The objective, to which the Office contributes, is to prevent and eradicate sexual violence as a tactic of war and terrorism and improve the provision of multisectoral services for survivors.

Strategy and external factors 2023

- 1.150 To contribute to the objective, the Office will continue to:
- (a) Engage with parties to conflict and other relevant stakeholders on preventing conflict-related sexual violence, with a priority focus on justice and accountability for such crimes as a key element of deterrence and prevention, including through engagement with justice and security actors in countries of concern;
 - (b) Engage with Member States at the global level, including in the Security Council and the General Assembly, and foster national ownership, leadership and responsibility in situations of concern;
 - (c) Adopt a survivor-centred approach in the implementation of all aspects of the mandate, in line with Security Council resolution [2467 \(2019\)](#) and in coordination with survivors of sexual

violence, civil society, regional organizations and United Nations peace operations and other relevant United Nations entities, in particular at the country level;

- (d) Strive to expand the circle of stakeholders and encourage concerted and coordinated action among a broad range of actors at the international, regional and national levels, including through the United Nations Action against Sexual Violence in Conflict network consisting of 21 United Nations entities, and the Team of Experts on the Rule of Law and Sexual Violence, which work under the strategic direction of the Special Representative;
 - (e) Focus advocacy on ensuring the adequate allocation of donor resources for the implementation of prevention strategies and multisectoral services for survivors, which continue to be detrimentally affected by the COVID-19 pandemic.
- 1.151 Reflecting importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. For example, various communications tools and platforms have been used to strengthen communities of practice and expertise in this substantive area of work, including by more regularly linking conflict-related sexual violence experts working in different priority countries. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.152 The above-mentioned work is expected to result in:
- (a) Concrete and timebound commitments to prevent and address incidents, patterns and trends of sexual violence in conflict, in particular through an enhanced security and justice sector response;
 - (b) Improved access to appropriate and good-quality services, including health care, psychosocial support, legal services, reparations and livelihood support for all survivors, as well as children born of conflict-related sexual violence.
- 1.153 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Continued high level of political will on the part of all stakeholders to work towards preventing sexual violence and ending the impunity of persistent perpetrators in situations of armed conflict and other situations of concern;
 - (b) Member States and other key stakeholders see a convergence between their strategic interests and priorities and upholding the international protection framework that has been established to prevent conflict-related sexual violence.
- 1.154 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will deepen its engagement with regional and subregional actors and multilateral institutions, including the African Union, the League of Arab States, the European Union, the Economic Community of West African States, the International Conference on the Great Lakes Region, the International Organization of la Francophonie, the Inter-Parliamentary Union and the African Development Bank, including through formal frameworks of cooperation, to prevent and address sexual violence in conflict.
- 1.155 With regard to inter-agency coordination and liaison, the Office will continue to work through United Nations Action against Sexual Violence in Conflict, which has a membership of 21 United Nations entities and is chaired by the Special Representative, to improve monitoring, reporting and information-sharing and to strengthen system-wide analysis and response programming. Coordination on justice and accountability dimensions of the mandate will be conducted through the Team of Experts on the Rule of Law and Sexual Violence in Conflict, which carries out work under

the strategic direction of the Special Representative and comprises the Office, OHCHR, UNDP and the Department of Peace Operations as the co-lead entities.

- 1.156 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, political commitments negotiated with parties to conflict (e.g. joint communiqués, cooperation frameworks and implementation plans) will continue to integrate engagement with women's civil society organizations and the meaningful participation of women and girls in countries where they are often absent in decision-making processes, including peace processes. Prevention strategies and response programming will reflect a tailored approach to address sexual violence against both female and male survivors. Information, including on incidents of conflict-related sexual violence, continue to be systematically disaggregated by sex in order to offer a gender-sensitive analysis for the Security Council.
- 1.157 In line with the United Nations Disability Inclusion Strategy, the Office will incorporate considerations related to disability inclusion into policy and key substantive aspects of its work, including programming in priority situations. The NGO-civil society advisory group of the Office includes entities representing individuals with disabilities and, through this modality, the Office will continue to engage with individuals with disabilities and with relevant associations during the course of field missions in priority countries. The Office, in its staffing, includes those with explicit human rights expertise related to the rights of persons with disabilities and their targeting with sexual violence in situations of armed conflict.

Evaluation activities

- 1.158 The OIOS triennial review of the implementation of the recommendations from the programme evaluation of the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict, on Sexual Violence in Conflict and on Violence against Children, completed in 2021, has guided the proposed programme plan for 2023.
- 1.159 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023, including (a) enhancing communication strategies; (b) strengthening headquarters coordination task forces; (c) incorporating lessons learned mechanisms into work programmes; (d) regular risk assessment and strategic planning in work programmes; and (e) enhancing coordination and cooperation between the three offices.
- 1.160 The following evaluations are planned for 2023:
- (a) Review of the 2020–2025 strategic framework of United Nations Action against Sexual Violence in Conflict;
 - (b) Review of the five-year joint programme of the Team of Experts on the Rule of Law and Sexual Violence in Conflict.

Programme performance in 2021

Strengthened national ownership and action to prevent and respond to conflict-related sexual violence

- 1.161 Conflict-related sexual violence in the Democratic Republic of the Congo remained widespread in the provinces of North Kivu, South Kivu, Ituri and Tanganyika, with violations perpetrated by both State and non-State parties to conflict. Survivors faced overwhelming stigma, in particular those with children born of sexual violence, and they continued to encounter obstacles in access to life-saving services. The United Nations assisted hundreds of survivors through the provision of services in women's shelters and one-stop centres that continued to receive the support of United Nations entities, including the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo, the United Nations country team and the Office of the Special Representative. Enhanced engagement of the justice sector, including military justice institutions, resulted in more

high-level prosecutions in 2021, including of former armed group commanders. Military justice authorities also successfully prosecuted members of the Armed Forces of the Democratic Republic of the Congo, including senior officers, for crimes of sexual violence as part of the efforts of national authorities to implement the commitments expressed in the Joint Communiqué between the Government of the Democratic Republic of the Congo and the United Nations on the Fight Against Sexual Violence in Conflict, of 2013, and its addendum. In her capacity as champion for the fight against sexual violence in conflict, as nominated by the Special Representative, the First Lady of the Democratic Republic of the Congo initiated efforts to adopt critical national legislation to combat conflict-related sexual violence and support survivors, such as a law on victims and witness protection and on reparations, with the intention of establishing a national reparations fund and programme.

1.162 Progress towards the objective is presented in the performance measure below (see table 1.76).

Table 1.76
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Adoption of the addendum to the Joint Communiqué between the Government of the Democratic Republic of the Congo and the United Nations on the Fight Against Sexual Violence in Conflict	Adoption of an implementation plan for the addendum to the Joint Communiqué, leading to further strengthening of accountability processes and increased prosecutions	Ongoing implementation of the addendum to the Joint Communiqué, leading to high-profile convictions of commanders of armed groups and officers of the Armed Forces of the Democratic Republic of the Congo
Increased prosecution of crimes of sexual violence by national justice authorities	Appointment by the Special Representative of the First Lady of the Democratic Republic of the Congo as champion for the fight against sexual violence in conflict, leading to strengthened national leadership and ownership	Establishment of a national consultative process with survivors, civil society and other stakeholders for the drafting and adoption of legislation to address conflict-related sexual violence and the establishment of a national reparations fund and programme

Impact of the pandemic

1.163 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the postponement of eight planned missions of the Special Representative and the technical teams, which resulted in reduced high-level political engagement and technical support to national authorities and institutions in priority countries. The Office also postponed an expert consultation on strengthening the engagement of non-State actors, as requested by the Security Council in its resolution [2467 \(2019\)](#), which delayed the development of a strategy. Direct engagement with front-line service providers and survivors of conflict-related sexual violence, which is a critical aspect of the implementation of the mandate, was also not possible. Nonetheless, the Office was able to utilize communications technologies to provide remote support to United Nations field teams in priority countries to facilitate continued engagement with national authorities in the implementation of action plans to prevent and respond to conflict-related sexual violence. The Special Representative continued advocacy with Member States through remote high-level engagement and participation in virtual events and conferences, including briefings to Security Council sanctions committees.

Planned results for 2023

Result 1: national authorities fulfil the needs of a diverse range of survivors through a survivor-centred approach

Programme performance in 2021 and target for 2023

- 1.164 The Office's work contributed to the capacity of national authorities to fulfil the needs of a diverse range of survivors through a survivor-centred approach and access to support for survivors through the operation of one-stop centres in Nigeria and Somalia, which did not meet the planned target of Governments implementing survivor-centred measures, in line with commitments undertaken in the framework of Security Council resolution [2467 \(2019\)](#). The target was not met owing to a series of military takeovers that disrupted the functioning of judicial and social services in several countries under the agenda of the mandate. Moreover, the takeovers took place against the backdrop of the ongoing pandemic, which limited travel and in-person engagement critical to advancing progress on the ground in this area.
- 1.165 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 1.77).

Table 1.77

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
For the first time, Security Council calls for survivor-centred approach, in resolution 2467 (2019)	Adoption of formal agreements and/or related implementation plans in priority situations, including Bangladesh, the Central African Republic, Mali, Myanmar, Somalia, and the Sudan	Enhanced capacity of national authorities to fulfil the needs of a diverse range of survivors through a survivor-centred approach and access to support for survivors through the operation of one-stop centres in Nigeria and Somalia	Governments continue to implement their commitments More Governments adopt formal commitments in situations of concern, in line with resolution 2467 (2019)	Governments strengthen engagement with and allocate greater resources to justice, security and service sectors

Result 2: strengthened accountability of parties to conflict as a key aspect of the prevention of sexual violence crimes

Programme performance in 2021 and target for 2023

- 1.166 The Office's work contributed to engagement by national authorities on strengthening accountability for conflict-related sexual violence, including in Mali where a wide range of actors engaged with the Team of Experts on delayed judicial processes, which did not meet the planned target of formal agreements and action plans to prevent and address conflict-related sexual violence with three countries. The target was not met owing to the ongoing pandemic, which curtailed the Office's engagement with national authorities and judicial institutions, in particular with respect to actors operating in remote and rural areas most in need of support in this regard.
- 1.167 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 1.78).

Table 1.78
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Formal agreements and action plans to prevent and address conflict-related sexual violence with 5 countries (Central African Republic, Mali, Myanmar, Somalia and Sudan)	Implementation plan to prevent and address conflict-related sexual violence with 1 country (South Sudan)	Engagement by national authorities on strengthening accountability for conflict-related sexual violence, including in Mali	Formal agreements and action plans to prevent and address conflict-related sexual violence with 5 countries	Increased engagement of United Nations sanctions regimes on conflict-related sexual violence, resulting in listings of perpetrators

Result 3: enhanced prevention through the implementation of strategies by national security and justice sector institutions

Proposed programme plan for 2023

- 1.168 The Office supported the training of prosecutors and judges in several priority countries to enable them to address sexual violence crimes. Training was also provided to the national armies of the Democratic Republic of the Congo and Somalia, among others, to enable them to consistently enforce accountability measures for breaches of command orders on sexual violence.

Lessons learned and planned change

- 1.169 The lesson for the Office was the need for a strengthened focus on the prevention of conflict-related sexual violence, considering that, to date, there has been a greater resource investment in response efforts than in prevention. In applying the lesson, the Office will place greater emphasis and resources on the development and implementation of prevention strategies and measures while continuing to scale up response programmes, including service provision for survivors. The Office will engage the United Nations system through the Special Representative to develop a prevention strategy that articulates specific measures that may be taken in the justice, security and service sectors, as well as resource mobilization for the implementation of prevention measures. The Office will further support national authorities, with its recently developed model legislative guidance and through its framework of cooperation with the Inter-Parliamentary Union, in bringing legislation in line with international norms and standards. The Office will also support international and regional accountability measures through international jurisdiction efforts by third countries and United Nations sanctions regimes.
- 1.170 Expected progress towards the objective is presented in the performance measure below (see table 1.79).

Table 1.79
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	Strengthened justice sector response in priority countries such as the Central African Republic and the Democratic Republic of the Congo, with accountability for sexual violence crimes as a central aspect of deterrence and prevention	United Nations strategy on the prevention of sexual violence in conflict developed through a broad consultative process with key stakeholders, including United Nations partners, survivors and civil society	Implementation plans and/or specific measures taken by Governments or non-State actors on the basis of the prevention strategy

Legislative mandates

1.171 The list below provides all mandates entrusted to the programme.

General Assembly resolution

65/259 Questions relating to the programme budget for the biennium 2010–2011 (sect. V)

Security Council resolutions

1820 (2008)	2331 (2016)

Deliverables

1.172 Table 1.80 lists all deliverables of the programme.

Table 1.80
Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Report of the Secretary-General on conflict-related sexual violence to the Security Council, including listing of parties to the conflict	1	1	1	1
2. Country-specific and/or thematic report on conflict-related sexual violence	1	1	1	1

Section 1 Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
Substantive services for meetings (number of three-hour meetings)	10	23	10	10
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
4. Meetings of the Fifth Committee	1	1	1	1
5. Briefings to the Security Council	5	18	5	5
6. Briefings to human rights treaty bodies	2	2	2	2
7. Special Committee on Peacekeeping Operations	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	–	18	39	32
8. Training of national police and/or military forces on prevention of and response to conflict-related sexual violence	–	6	20	15
9. Training of national justice sector (prosecutors and judges) on investigation into and prosecution of conflict-related sexual violence	–	9	15	15
10. Workshop with Women’s Protection Advisers on emerging threats and challenges of conflict-related sexual violence	–	3	4	2
C. Substantive deliverables				
Good offices: engagement and dialogue with parties to conflict listed in the annex to the report of the Secretary-General, including as it relates to the adoption and implementation of prevention and response measures.				
Consultation, advice and advocacy: consultations and reporting on conflict related sexual violence trends and patterns in 15 countries.				
Databases and substantive digital materials: digital library serving as a knowledge hub of academic, think tank and civil society publications on sexual violence in conflict; digital book compiling survivor testimonies of conflict-related sexual violence that has occurred since 1992.				
D. Communication deliverables				
Outreach programmes, special events and information materials: online and in-person events on conflict-related sexual violence that include survivors, Member States, activists, experts and practitioners; United Nations Action against Sexual Violence in Conflict “Stop Rape Now” campaign.				
External and media relations: annual press statements, and news media content such as television and newspapers interviews.				
Digital platforms and multimedia content: website and social media content on prevention of sexual violence.				

B. Proposed post and non-post resource requirements for 2023

Overview

1.173 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.81 to 1.83.

Table 1.81
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Figure 1.XVI
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.176 As reflected in tables 1.84 (2) and 1.85 (2), the Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$3,914,300 and would provide for 16 posts (1 D-1, 2 P-5, 6 P-4, 3 P-3, 1 P-2/1 and 3 General Service (Other level)). The resources would support the Office in carrying out various activities, including the engagement of the Team of Experts on the Rule of Law and Sexual Violence in Conflict, mandated pursuant to Security Council resolution 2467 (2019), and support the secretariat of United Nations Action against Sexual Violence in Conflict network chaired by the Special Representative. The increase of \$941,400 reflects costs for the four new posts. Extrabudgetary resources represent 68.6 per cent of the total resources for this section.
- 1.177 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.178 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.87. The majority of travel for the Office is related to the high-level engagements of the Special Representative with priority countries and technical missions to follow up on the formal agreements reached between the Special Representative and national authorities. While every effort is made to ensure advance planning for all official travel, the finalization of travel requests for such missions depends on visa approvals and confirmations of missions and meetings with government interlocutors by the national authorities. Managers are asked to implement preventive and monitoring corrective measures. Compliance rates are monitored, and statistics and trends are distributed to managers on a quarterly basis.

VI. Office of the Special Representative of the Secretary-General on Violence against Children

Foreword

Ending violence against children cannot wait. Even before the arrival of COVID-19, half the world's children experienced some form of violence every year. Two years into the pandemic, violence against children and gender-based violence have increased and also become less visible.

The pandemic has revealed and exacerbated social inequalities. The socioeconomic impact of the pandemic has amplified children's vulnerability to different forms of violence, including child labour, child marriage, online sexual exploitation, trafficking, smuggling and enrolment in criminal and violent groups. Violence has a devastating impact on children's physical and mental health, with long-lasting and intergenerational effects. Violence undermines human capital development, social cohesion and the achievement of the Sustainable Development Goals.

The pandemic, ongoing conflicts and humanitarian emergencies have severely tested the capacity of States, communities and families to ensure the protection and well-being of children. Although many States have taken measures to address these challenges, much more must be done.

Ending violence against children is possible. Effective evidence-based prevention strategies exist. However, a paradigm shift is needed to move from a siloed approach to a people-centred, life cycle approach. Spending on integrated services for children and their caregivers – including child protection, health, mental health, education, justice and social protection – must be seen as a key investment for building inclusive, peaceful, just and resilient societies, leaving no one behind.

Most importantly, children must be part of the solution and empowered as agents of positive change in action to end violence.

(Signed) Najat Maalla **M'jid**
Special Representative of the Secretary-General on Violence against Children

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.179 The Special Representative of the Secretary-General on Violence against Children is responsible for mobilizing action and political support to prevent and eliminate all forms of violence against children. The mandate of the Office of the Special Representative derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions [62/141](#), [67/152](#), [73/155](#) and [76/147](#). While noting substantial progress achieved since establishing the mandate of the Special Representative, the Assembly has recognized the urgency of pursuing further action to ensure the protection of children from violence.

Programme of work

Objective

- 1.180 The objective, to which the Office contributes, is to accelerate action to end all forms of violence against children by 2030.

Strategy and external factors for 2023

- 1.181 To contribute to the objective, the Office will:
- (a) Promote the achievement of the Sustainable Development Goals related to addressing all forms and drivers of violence against children and gender-based violence by undertaking high-level advocacy at the global, regional and national levels in collaboration with Member States, the United Nations system, regional organizations, civil society and faith-based organizations, to invest in enabling environments that keep children safe, with specific attention given to the most vulnerable;
 - (b) Engage and support political, legislative, programmatic and monitoring processes at the global, regional, national and local levels to accelerate action to end violence; conduct country visits in close cooperation with United Nations resident coordinators and regional or country teams; provide technical and practical guidance to Member States; share context-specific promising practices; use social media and other communications tools to support its advocacy; and increase the attention given to violence against children in the United Nations system, including through leading the Inter-Agency Working Group on Violence against Children and participation in the core group developing a system-wide guidance note on the mainstreaming of child rights;
 - (c) Promote, as Chair of the United Nations task force on the global study on children deprived of liberty, the use of the detention of children only as a measure of last resort; work towards prevention, rehabilitation and community-based alternatives to deprivation of liberty; undertake joint advocacy with key partners; and gather and report on promising practices regarding alternatives to detention and institutionalization, to be shared with Member States;
 - (d) Promote the role of children as agents of change through inclusive child participation in decision-making processes and the documentation and dissemination of child-led and peer-to-peer initiatives;
 - (e) Promote investment in integrated, cross-sectoral services for children and their caregivers (including child protection and welfare), child- and gender-sensitive justice, education and

digital learning, physical, mental and reproductive health services, family support and sustainable social protection, as part of the recovery from the pandemic and ongoing conflicts and humanitarian crises.

- 1.182 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include retaining a greater use of online means than before the pandemic to advocate with and support Member States and key stakeholders, as well as to follow up on in-person country missions, high-level national policy dialogues and other stakeholder consultations. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.183 The above-mentioned work is expected to result in:
- (a) Action to prevent and respond to violence against children mainstreamed into law, policy and practice, as well as into duly resourced national development plans;
 - (b) Sustained investment in cross-sectoral services for children and their caregivers to prevent and respond to violence against children and gender-based violence;
 - (c) Adoption and effective implementation of prevention measures, rehabilitation and community-based alternatives to the deprivation of liberty of children;
 - (d) More effective and systematic involvement of children in decision-making processes, including through an increase in safe and empowering pathways provided by States.
- 1.184 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Governments have the political commitment to accelerate action to prevent and end violence against children, in the framework of the decade of action for the Sustainable Development Goals;
 - (b) United Nations agencies, civil society and the private sector are committed to working together for and with children.
- 1.185 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to strengthen cooperation with intergovernmental regional and subregional bodies in Africa, the Americas and the Caribbean, Asia and the Pacific, Europe, and the Middle East and North Africa. The Office will pursue its strong collaboration with civil society and faith-based organizations, including through formal networks. The most important work on violence against children occurs at the local and national levels. Country visits will therefore remain a key element of the advocacy strategy of the Office. The visits will always be planned and implemented in close cooperation with Member States and United Nations country teams, and a joint road map will be agreed upon and disseminated with all key stakeholders at the end of each visit to ensure effective follow-up.
- 1.186 With regard to inter-agency coordination and liaison, the Office continues to promote and strengthen collaboration within the United Nations system on ending violence against children, including with the members of the Inter-Agency Working Group on Violence against Children, the members of the United Nations task force on the global study on children deprived of liberty, the Special Representative of the Secretary-General for Children and Armed Conflict, the Special Representative of the Secretary-General on Sexual Violence in Conflict, the special procedures of the Human Rights Council, the human rights treaty bodies, the Special Adviser to the Secretary-General on the Prevention of Genocide, the Special Adviser to the Secretary-General on Africa, the Envoy of the Secretary-General on Youth, the Department of Economic and Social Affairs and United Nations regional commissions, the United Nations resident coordinators and regional or country team

members, the United Nations Global Counter-Terrorism Coordination Compact, the Permanent Forum on Indigenous Issues, the Inter-Agency Coordination Group against Trafficking in Persons, the United Nations Network on Migration, the High-level Steering Group on preventing sexual exploitation and abuse, and the Working Group on the issue of human rights and transnational corporations and other business enterprises. The Special Representative also has a leading role in the governance of the Global Partnership to End Violence against Children.

- 1.187 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including by employing a gender perspective in its advocacy to highlight how different forms of violence affect boys and girls differently and how this must inform and shape responses. Addressing gender discrimination and harmful social norms, as well as connections between violence against women and violence against children, is crucial to preventing and responding to violence against children and will continue to constitute an integral part of the Office's work.
- 1.188 With regard to disability inclusion, leaving no child behind puts the emphasis on addressing some of the most vulnerable and neglected children, among whom are children with disabilities. Children with disabilities are often institutionalized, and this puts many of these children at a heightened risk of becoming victims of violence. Promoting policies and strategies for alternative means of care and inclusion will continue to be at the core of the Office's advocacy.

Evaluation activities

- 1.189 The OIOS triennial review of the implementation of the recommendations from the programme evaluation of the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict, on Sexual Violence in Conflict and on Violence against Children, completed in 2021, has guided the proposed programme plan for 2023.
- 1.190 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023, including (a) enhancing communication strategies; (b) strengthening headquarters coordination task forces; (c) incorporating lessons-learned mechanisms into work programmes; (d) regular risk assessment and strategic planning in work programmes; and (e) enhancing coordination and cooperation between the three offices. In addition, the Office's internal evaluation framework and performance dashboard will track progress in incorporating a gender and a disability perspective into the Office's advocacy activities, communications, data collection and dissemination. The Office's forthcoming knowledge platform will strengthen the evidence-based advocacy of the mandate and will bring together information on trends in violence against children and promising practices that will facilitate regional, subregional and cross-regional cooperation.
- 1.191 An evaluation of the Office's programmatic activities, including midterm and end-of-year reviews of the Office's annual workplan in line with the internal evaluation framework, is planned for 2023.

Programme performance in 2021

Increased use of alternatives to child immigration-related deprivation of liberty

- 1.192 In her role as Chair of the United Nations task force on the global study on children deprived of liberty, the Special Representative steered the process of achieving a common position among United Nations entities on ending the immigration-related detention of children. In close collaboration with the task force, the United Nations Network on Migration, civil society partners and others, the Special Representative promoted the sharing of good practices and the implementation of alternatives to the detention of children for migration-related reasons over the course of 2021 through her country missions, high-level advocacy and technical support to Member States.
- 1.193 Progress towards the objective is presented in the performance measure below (see table 1.88).

Table 1.88
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	–	Alternatives to detention of children for migration-related reasons are in place in more than 60 countries

Impact of the pandemic

1.194 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of the mandate, in particular the postponement of planned country visits and other high-level in-person advocacy opportunities. The Office adapted its planned activities to support Member States through virtual advocacy activities, awareness-raising events, consultations and high-level policy dialogues at the global, regional and national levels with key stakeholders, including Governments, local authorities, United Nations entities, regional organizations, donors, financial institutions, civil society organizations, faith-based organizations, community and religious leaders and academic institutions, as well as young people and children themselves.

Planned results for 2023

Result 1: supporting the decade of action to end violence against children by 2030

Programme performance in 2021 and target for 2023

1.195 The programme’s work contributed to the adoption by all Member States presenting voluntary national reviews of responses to violence against children and gender-based violence across the full range of social services provided to children and their caregivers, including child protection and welfare, child- and gender-sensitive justice, education and digital learning, physical, mental and reproductive health services, family support and sustainable social protection, which met the planned target.

1.196 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 1.89).

Table 1.89
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Governments are reporting on different forms of violence against children in the voluntary national reviews	Member States highlighting action to address violence against children and its drivers in their voluntary national reviews	Adoption by all Member States presenting voluntary national reviews of responses to violence against children and gender-based violence across the full range of social services provided to children and their caregivers	50 per cent of voluntary national reviews highlight duly resourced policies, legislation, strategies and other measures for preventing and responding to violence against children	70 per cent of voluntary national reviews highlight duly resourced policies, legislation, strategies and other measures for preventing and responding to violence against children

Result 2: children as part of the solution to achieve the Sustainable Development Goals**Programme performance in 2021 and target for 2023**

- 1.197 The programme's work contributed to 61 voluntary national reviews developed with meaningful input of children and highlighting the active participation of children in achieving the Sustainable Development Goals, which exceeded the planned target of 60.
- 1.198 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 1.XVII).

Figure 1.XVII

Performance measure: voluntary national reviews developed with meaningful input of children and that highlight active participation of children in achieving the Sustainable Development Goals (cumulative)**Result 3: sustained financing of cross-sectoral child protection and violence prevention services****Proposed programme plan for 2023**

- 1.199 Spending on integrated, cross-sectoral services for children and families, including child protection, health, mental health, education, justice and social protection, is a key investment for building inclusive, healthy, peaceful, just and resilient societies. It has a high economic return for Member States and is essential for human capital development. The Special Representative partnered with other stakeholders to gather evidence and promising examples of Member States that assessed the cost of violence against children and gender-based violence, as well as the returns from delivering integrated services for children and families.

Lessons learned and planned change

- 1.200 The lesson for the programme was that advocacy for investment in integrated, cross-sectoral services for children and their caregivers can be more effective when accompanied by evidence on the costs and returns of such investments. In applying the lesson, the Special Representative will support more States in undertaking such assessments, including through sharing evidence and promising examples of States that have already assessed the return on investing in integrated, cross-sectoral services for children and families and through facilitating peer learning among States in this field, with an emphasis on South-South cooperation.
- 1.201 Expected progress towards the objective is presented in the performance measure below (see table 1.90).

Table 1.90
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	–	Member States have access to promising practices and practical guidance for assessing the high return on investment in cross-sectoral child- and gender-sensitive protection and violence prevention services	10 countries have undertaken cost-benefit analyses of financing cross-sectoral child- and gender-sensitive protection and violence prevention services

Legislative mandates

1.202 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

62/141, 67/152, 69/157, 70/137, 72/245, 73/155, 76/147	Rights of the child	71/176, 75/166 75/185	Protecting children from bullying Human rights in the administration of justice
--	---------------------	--------------------------	--

Deliverables

1.203 Table 1.91 lists all deliverables of the programme.

Table 1.91
Office of the Special Representative of the Secretary-General on Violence against Children: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	2	2	2
1. Annual reports to the General Assembly	1	1	1	1
2. Annual reports to the Human Rights Council	–	1	1	1
Substantive services for meetings (number of three-hour meetings)	2	4	4	4
Meetings of:				
3. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
4. The Fifth Committee	1	1	1	1

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	2	2	–	–
7. Voluntary national review lab and the impact of violence on children’s mental health	2	2	–	–
Publications (number of publications)	4	4	5	4
8. Voluntary national reviews: analytical review	–	1	1	1
9. Children as agents of positive change: a mapping of children’s initiatives	–	1	1	1
10. Practical guidance on justice for children	–	–	1	–
11. Publications on priority issues related to violence against children	4	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: high-level advocacy with Member States, regional organizations and other key stakeholders, including by undertaking country missions to at least 10 Member States across all regions; organization or co-organization of 10 high-level events to raise awareness, share promising practices and advocate for stronger action on ending violence against children; expert advice and tools on policy matters for Member States and other key stakeholders; and consultations with approximately 1,000 children.				
Databases and substantive digital materials: global interactive database of child participation initiatives to map children’s initiatives across regions.				
D. Communication deliverables				
Outreach programmes, special events and information materials: communication products and information materials for targeted audiences and goals to raise awareness of the work of the mandate, provide updated information on trends and topical issues and highlight progress achieved.				
External and media relations: at least five press conferences and five press releases, including opinion pieces and expert articles.				
Digital platforms and multimedia content: social media campaign to raise awareness and mobilize action on the protection of children from violence; multimedia material produced and uploaded in the six official United Nations languages on the Office’s website; communication material uploaded daily on all four of the Office’s social media accounts.				

B. Proposed post and non-post resource requirements for 2023

Overview

1.204 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.92 to 1.94.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.207 As reflected in tables 1.95 (2) and 1.96 (2), the Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$476,900 and would provide for one post (P-3), as presented in table 1.96 (2). The resources would be used to support the Office in carrying out various activities and to enhance its impact and outreach, strengthen the implementation of its programme of work and increase the provision of technical advice and support to Member States, regional organizations and other partners. Extrabudgetary resources represent 17.0 per cent of the total resources for this section.
- 1.208 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.209 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.98. The Office is making the utmost efforts to achieve 100 per cent compliance with the advance purchasing of air tickets by reviewing upcoming planned trips in the weekly staff meeting and by strategically strengthening its work planning. However, owing to unforeseen circumstances such as receiving late invitations and the late receipt of meeting agendas, the Office would not always be able to comply with the advance booking of air travel policy.

VII. Office of the Victims' Rights Advocate

Foreword

Pursuant to the Secretary-General's strategy set out in his 2017 report entitled "Special measures on protection from sexual exploitation and abuse: a new approach" (A/71/818), the Victims' Rights Advocate will continue to institutionalize a victim-centred approach to United Nations system-wide efforts to prevent and respond to sexual exploitation and abuse. Supported by the Office, the Victims' Rights Advocate will intensify advocacy to introduce and implement policies and programmes to elevate the rights and dignity of victims, give them visibility, acknowledge the impact that sexual exploitation and abuse have on their lives and address the stigmatization and discrimination that they often face.

The Victims' Rights Advocate will continue to meet victims personally so that their views inform United Nations efforts; support them in accessing all possible assistance, including with respect to paternity claims, and rebuilding their lives; reiterate the importance of United Nations partnership with Member States, civil society and other stakeholders in entrenching a victims' rights approach to the prevention of and response to sexual exploitation and abuse; and ensure that they are respected, heard and listened to, that their cases are taken seriously and that the perpetrators are sanctioned.

The work of the Office is reflected on the ground by four Senior Victims' Rights Officers who are the main contact for all victims and seek to integrate a victim-centred, gender- and child-sensitive and non-discriminatory approach into all activities to support and assist them. The Victims' Rights Advocate champions the designation of other advocates or focal points in all peacekeeping, humanitarian and development contexts.

(Signed) Jane Connors
Victims' Rights Advocate

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.210 The mandate of the Victims' Rights Advocate was created as part of the strategy set out in the 2017 report of the Secretary-General entitled "Special measures on protection from sexual exploitation and abuse: a new approach" (A/71/818). The mandate derives from the priorities established in General Assembly resolutions and/or decisions, including resolutions [62/214](#), [71/278](#), [71/297](#) and [75/321](#). The centrepiece of the strategy is to put the rights and dignity of victims at the centre of the work to prevent and respond to sexual exploitation and abuse across the United Nations system. The Victims' Rights Advocate has a system-wide role, with her advocacy and action extending to peacekeeping, humanitarian and development settings. At Headquarters, she is supported by the Office of the Victims' Rights Advocate. In the field, her mandate is operationalized through Senior Victims' Rights Officers in the Central African Republic, the Democratic Republic of the Congo, Haiti and South Sudan.

Programme of work

Objective

- 1.211 The objective, to which the Victims' Rights Advocate contributes, is to ensure that the rights and dignity of victims of sexual exploitation and abuse are prioritized in all efforts of the United Nations system to prevent and respond to sexual exploitation and abuse by its personnel, uniformed or civilian, in peacekeeping, humanitarian and development settings and by non-United Nations troops serving under a Security Council mandate.

Strategy and external factors for 2023

- 1.212 To contribute to the objective, the Victims' Rights Advocate will:
- (a) Continue sustained advocacy with Member States, United Nations entities, agencies, funds and programmes, other intergovernmental bodies, national Governments and State structures, civil society and others to amplify awareness of the negative impact that sexual exploitation and abuse have on victims and the work of all parts of the United Nations system, and foster an integrated response with regard to the victims' rights to assistance, in line with the annex to General Assembly resolution [62/214](#);
 - (b) Continue to operationalize the imperative of placing the rights and dignity of victims at the centre on the ground, through a network of Senior Victims' Rights Officers and focal points for victims' rights, who serve as the main point of contact for all victims of sexual exploitation and abuse, and ensure that victims receive assistance and support, accompanying them through the investigation and consideration of their complaints and providing them with follow-up information, including on the progress of paternity/child support claims;
 - (c) Support Member States' implementation of the 2030 Agenda, in particular the achievement of Goal 5 in the public and private spheres, including in relation to trafficking and sexual and other types of exploitation, and Goal 16, which is intended, among other things, to end the abuse and exploitation of, trafficking in, all forms of violence against and torture of children;
 - (d) Continue to engage with United Nations actors across the system to develop policy and offer practical advice, including to embed a victim-centred approach in the provision of assistance

- to victims, and provide guidance to the Senior Victims' Rights Officers, the focal points for victims' rights and other actors in the field;
- (e) Provide guidance on the potential of the COVID-19 pandemic to heighten risks of sexual exploitation and abuse and have a negative impact on the delivery of assistance to victims so that they benefit from preventive actions and continue to receive timely services and support;
 - (f) Seek to strengthen complaints mechanisms and contribute to creating an environment that encourages victims to come forward, in order to counter COVID-19 and related constraints that have a negative effect on victims' capacity to report misconduct and access assistance and services.
- 1.213 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the conduct of virtual meetings, where feasible, which would increase engagement with Member States, civil society and other stakeholders. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.214 The above-mentioned work is expected to result in:
- (a) Victims assisted in accordance with their individual needs;
 - (b) A deepened understanding of how to prioritize the rights and dignity of victims across the United Nations system, implementing partners and beyond;
 - (c) Creation and maintenance of an environment of trust between victims and the United Nations on the ground, encouraging them to come forward with complaints of misconduct, confident they will be respected and receive support, assistance and protection;
 - (d) Stronger system-wide collaboration on accountability processes, including the resolution of paternity/child support claims, and access to services for victims.
- 1.215 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) New cases of sexual abuse and exploitation perpetrated by United Nations and related personnel will become known to the Victims' Rights Advocate, the Office and the Senior Victims' Rights Officers;
 - (b) Cases reported earlier might not be resolved;
 - (c) Measures to prevent sexual exploitation and abuse integrate a system-wide victim-centred approach;
 - (d) Victims of sexual abuse and exploitation will require ongoing support and assistance to rebuild their lives;
 - (e) The urgency of establishing strong partnerships focusing on a victim-centred approach will be acknowledged more extensively outside the United Nations system.
- 1.216 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to work with the Development Assistance Committee of the Organisation for Economic Co-operation and Development. It will continue to support the Multilateral Organisation Performance Assessment Network in implementing its indicators that measure progress in the prevention of sexual exploitation, sexual abuse and sexual harassment in multilateral organizations. The Office will sustain its engagement with the Global Alliance of National Human Rights Institutions in advocacy, training and capacity for national actors and support for victims across States and national jurisdictions.

- 1.217 With regard to inter-agency coordination and liaison, the Office will continue to collaborate with the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment to integrate a strong victim-centred focus into the implementation of its plan to accelerate protection from sexual exploitation and abuse in the national humanitarian response. It will accelerate work on ways to facilitate legal aid and assistance to victims. The Victims' Rights Advocate will continue to collaborate with the CEB Task Force on Addressing Sexual Harassment within the Organizations of the United Nations System on the development and implementation of a victim-centred approach to this misconduct, aligning this work with that on sexual exploitation and abuse.
- 1.218 The Office will continue its cooperation with the Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse. It will collaborate with the Department of Management Strategy, Policy and Compliance and the Office of Legal Affairs to facilitate more timely and effective resolution of outstanding paternity/child support claims arising from sexual exploitation and abuse, including through the possible development of a harmonized procedure for handling such claims. The Office will continue to collaborate with the Department to facilitate the submission of project proposals to the trust fund in support of victims of sexual exploitation and abuse. The Office will cooperate with the Development Coordination Office and resident coordinators on their roles and responsibilities with respect to victims' rights and assistance in line with the management and accountability framework of the United Nations development and resident coordinator system.
- 1.219 The Office integrates a gender perspective in its policy and operational activities, deliverables and results, as appropriate. The majority of victims of sexual exploitation and abuse are women and girls, and most perpetrators are men. The Victims' Rights Advocate acknowledges that entrenched discrimination against women and girls, manifested in laws and policies, power imbalance and gender inequality, lie at the heart of this misconduct. The Victims' Rights Advocate understands that men and boys, especially in vulnerable situations, may be victims of sexual exploitation and abuse and face barriers to reporting. The Victims' Rights Advocate emphasizes that victims may experience hurt, harm, fear, reprisals, abandonment, exclusion from their community and stigma. She urges that interventions and responses be conceptualized, designed and implemented to promote the empowerment of victims and their inclusion in all issues that concern them.
- 1.220 The Victims' Rights Advocate stresses the importance of tailoring responses, as each victim is different and may be affected by intersecting, interconnected and multiple forms of discrimination, including on the basis of race, sex, gender, sexual orientation, age, minority and/or migration status or disability, in line with the United Nations Disability Inclusion Strategy. The Senior Victims' Rights Officers will continue to serve as the main contact for all victims and take steps to ensure that a victim-centred, gender- and child-sensitive and non-discriminatory approach is integrated into all activities to support and assist victims.

Evaluation activities

- 1.221 The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
- (a) Results and lessons learned related to the survey to gather information on victims' services, capacities and approaches in the 13 countries included in the pilot mapping project, which was completed in May 2020 and updated in 2021, showed that some progress had been made, but significant gaps remain;
 - (b) OIOS evaluation of the prevention, response and victim support efforts against sexual exploitation and abuse by United Nations Secretariat staff and related personnel ([A/75/820](#)).
- 1.222 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2023. For example, in its 2021 report, OIOS recommended that the Office of the Victims' Rights Advocate develop, together with the Department of Management Strategy, Policy and Compliance, the Department of Peace Operations and missions, a procedure for

handling paternity claims, from reporting to outcome, including follow-up procedures for communicating with victims.

- 1.223 An evaluation of the work and impact of the Office since its establishment in January 2019 is planned for 2023.

Programme performance in 2021

Development of principles on advancing a common understanding of a victim-centred approach to sexual harassment within the United Nations

- 1.224 The Victims’ Rights Advocate, with representatives of the World Bank, co-led a workstream of the CEB Task Force on Addressing Sexual Harassment within the Organizations of the United Nations System aimed at supporting a coherent and victim-centred approach to sexual harassment, taking into account the current work environment, including increased remote and online working arrangements. This work resulted in a policy document entitled “Advancing a common understanding of a victim-centred approach to sexual harassment within the organizations of the United Nations system”, which included general principles endorsed by the High-Level Committee on Management in July 2021. A survey to collect victims’ experiences of approaching institutional mechanisms to address sexual harassment to assist entities in improving the implementation of a victim-centred approach was also developed.
- 1.225 Progress towards the objective is presented in the performance measure below (see table 1.99).

Table 1.99
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
–	–	The High-Level Committee on Management endorsed the core principles on advancing a common understanding of a victim-centred approach to sexual harassment within the United Nations

Impact of the pandemic

- 1.226 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of the mandate, in particular the ability to conduct in-person meetings with victims on the ground and advocating for them. Although the Office used virtual means to conduct meetings as necessary, this mode was not as effective as conducting in-person meetings with victims. Notwithstanding, a joint event co-hosted by the Victims’ Rights Advocate and the Global Alliance of National Human Rights Institutions on strengthening the United Nations victim-centred response to sexual exploitation and abuse through partnerships with national human rights institutions, co-sponsored by several Member States, was undertaken. As restrictions eased, the Victims’ Rights Advocate visited Kenya in late 2021. The Political Affairs Officer visited the Central African Republic in October 2021 as part of a multi-disciplinary team that assessed the factors that may have contributed to increased allegations of sexual exploitation and abuse.

Planned results for 2023

Result 1: enhancement of a system-wide victim-centred approach²

Programme performance in 2021 and target for 2023

- 1.227 The programme's work contributed to enhanced implementation of a system-wide victim-centred approach, including through the designation of victims' rights focal points in Guatemala and Nepal and the deployment of Senior Victims' Rights Officers in the Central African Republic, the Democratic Republic of Congo and South Sudan, which did not meet the planned target of the adoption of an overarching policy on the meaning of the victims' rights approach in respect of sexual exploitation and abuse and the formulation of its implementation guidelines. The target was not met as further system-wide discussion was required to secure acceptance of the draft.
- 1.228 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 1.100).

Table 1.100

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Two Field Victims' Rights Advocates and two Senior Victims' Rights Officers consolidate their work	Understanding by all the United Nations system entities and other stakeholders of the importance of deployment of dedicated advocates for victims of sexual exploitation and abuse on the ground	Deployment of four dedicated Senior Victims' Rights Officers in the Central African Republic, the Democratic Republic of Congo and South Sudan Two Victims' Rights Focal Points designated in Guatemala and Nepal	Adoption of a network of Senior Victims' Rights Officers/field victims' rights advocates and victims' rights focal points created, consolidating a victim-centred approach in the field	Expansion of the network of Senior Victims' Rights Officers and victims' rights focal points in peace, humanitarian and development settings

Result 2: victims know their rights and how to claim them

Programme performance in 2021 and target for 2023

- 1.229 The programmes's work contributed to raising victims' awareness of their rights and how to claim them, which did not meet the planned target of: (a) the endorsement of the victims' rights statement by the High-level Steering Group on preventing sexual exploitation and abuse; (b) guidelines for United Nations personnel to accompany the statement developed; and (c) methodology to seek feedback from victims about their experiences of receiving assistance and support developed. The targets were not met because consultations on the statement by the High-level Steering Group continued in 2021 with a view to finalization in 2022.
- 1.230 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 1.101).

² As reflected in the proposed programme budget for 2021 (A/75/6 (Sect. 1)).

Table 1.101
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Workshop on best practices and lessons learned organized with national and regional experts on victims' rights and first draft of victims' rights statement developed	Consultations with nominated representatives of United Nations system-wide entities result in consensus on revised draft victims' rights statement Development of methodology to seek feedback from victims about their experiences receiving assistance and support initiated	Increased awareness of victims of their rights and how they can claim	Increased awareness by victims of their rights and how to claim them Adoption by United Nations system actors of revised guidance and practices on the provision of assistance that incorporate in full victims' perspectives and priorities	Adoption by United Nations system of revised guidance and practices on the provision of assistance that incorporate victims' perspectives and priorities

Result 3: realizing victims' rights to accountability and remedies

Proposed programme plan for 2023

- 1.231 Within her mandate, the Victim's Rights Advocate contributes to ensuring that victims receive the assistance that they need, including access to medical and legal services, and benefit from skills training that can help them to rebuild their lives. She facilitates the resolution of paternity/child claims related to United Nations personnel in order to realize the rights and dignity of the victims and children involved. These claims often involve several jurisdictions, requiring the Victims' Rights Advocate to work with Member States on ways to facilitate, within their competence, the pursuit of claims related to paternity and child support.
- 1.232 Paternity recognition and obligations for child support are pursuant to the national laws of the Member State of the nationality of the father and/or mother, whether through national courts or other judicial forums, in judgments, agreements or other legal decisions. The present role of the United Nations is limited to facilitating and supporting a process of individual accountability (for the purported father, normally) in accordance with the United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel (General Assembly resolution 62/214, annex) and national structures, laws and related institutions of the Member State. The Office has held consultations with the Office of Legal Affairs regarding the creation and maintenance of a roster of lawyers.

Lessons learned and planned change

- 1.233 The lesson for the Office was that victims of sexual exploitation and abuse by United Nations personnel continue to face obstacles in accessing legal support and receiving assistance on legal matters involving multiple jurisdictions, including in relation to paternity/child maintenance and support claims in the country of jurisdiction. In applying the lesson, the programme will establish and maintain a roster of lawyers and legal aid organizations able to offer pro bono legal assistance to victims of sexual exploitation and abuse by United Nations and related personnel in administrative, civil and/or criminal proceedings based on the methodology developed through system-wide consultations in 2021. The methodology will be implemented in 2022 and piloted in countries with Senior Victims' Rights Officers in 2023.

Part I Overall policymaking, direction and coordination

1.234 Expected progress towards the objective is presented in the performance measure below (see table 1.102).

Table 1.102
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	Technical consultation with UNICEF and OHCHR on legal aid for victims of sexual exploitation and abuse	Proposal of the Victims' Rights Advocate to create and maintain a roster of lawyers in consultation with the Office of Legal Affairs	Launch of the roster of pro bono lawyers and legal aid organizations to assist victims in countries where the United Nations operates	Victims in four countries with Senior Victims' Rights Officers benefit from legal support provided by lawyers and legal aid organizations included in the roster

Legislative mandates

1.235 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

62/214	United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel (annex)	71/297 75/321	Special measures for protection from sexual exploitation and abuse United Nations action on sexual exploitation and abuse
71/278	United Nations action on sexual exploitation and abuse		

Deliverables

1.236 Table 1.103 lists all deliverables of the programme.

7. Concept notes on challenges to victims of sexual exploitation and abuse	2	–	2	2

C. Substantive deliverables

Consultation, advice and advocacy: briefings to Members States and webinars with universities and academic institutions. Sustained advocacy by the Victims' Rights Advocate, including through her attendance at the humanitarian coordinators' annual retreat, cooperation with humanitarian country teams and participation in the Inter-Agency Standing Committee external review of protection from sexual exploitation and abuse, strengthened prioritization of the rights and dignity of victims in humanitarian action.

Regular engagement with resident coordinators, national and regional protection from sexual exploitation and abuse networks, including through Victims' Rights Advocate country visits.

Databases and substantive digital materials: legal aid roster.

D. Communication deliverables

Outreach programmes, special events and information materials: awareness-raising and educational materials on victims' rights; collaboration with OHCHR, the International Organization for Migration and the CEB Task Force to begin development of a training module for United Nations staff, non-staff personnel system-wide and implementing partners.

External and media relations: media interviews, opinion pieces, press releases and expert articles.

Digital platforms and multimedia content: website and social media content on areas of work.

B. Proposed post and non-post resource requirements for 2023

Overview

1.237 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.104 to 1.106.

Table 1.104

Extrabudgetary resources

1.240 As reflected in table 1.107 (2), the Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$478,500 and would be used to support the Office in carrying out various activities and to enhance its impact and outreach, strengthen the implementation of its programme of work and increase the provision of technical advice and support to Member States, regional organizations and other partners. The decrease of \$57,500 mainly reflects the completion of some projects in 2022. Extrabudgetary resources represent 36.1 per cent of the total resources for this section.

1.241 Information on compliance with the advance booking for air travel is reflected in table 1.110. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

VIII. Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse

Foreword

The Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse has worked intensively over five years to raise awareness, identify risks, develop tools and institutionalize processes system-wide to prevent and effectively respond to instances of sexual exploitation and abuse. Although significant progress has been made, given the large scale of United Nations humanitarian, peace and other operations globally and the structural vulnerability linked to economic and social disparities exacerbated by the multifaceted impacts of the COVID-19 pandemic, it is foreseeable that United Nations personnel may be in circumstances in which there is a heightened risk of such misconduct because of their close interaction with those in vulnerable situations. The continuation of the work of the Office is required to further embed this progress, reinforce the lessons learned to date and address challenges collectively within the United Nations system.

Leaders set the tone for acceptable behaviour and are responsible for the transmission of unambiguous messages, in words and action, that sexual exploitation and abuse will not be tolerated and that perpetrators will be held to account. Initiatives and policies alone, without unambiguous leadership at every level and in every context, in particular in environments in which the United Nations is mandated to protect, aid and serve, will be insufficient. Leaders must emphasize our common responsibility to report and act against sexual misconduct, including through embedded responsibility in performance agreements and management evaluation.

The high turnover of personnel, in particular in field leadership positions, demands that awareness of policies on sexual misconduct be reinforced constantly. The Special Coordinator, in consultation with the heads of United Nations entities, will examine how routine visits to United Nations operational presences can sustain awareness of the standards of conduct and identify how the United Nations system can bolster leadership and provide other support.

In the face of persistent and widespread sexual exploitation and abuse, we must persevere in our efforts to address these wrongs. The Secretary-General intends to bolster prevention of these acts through a more proactive approach, including through the appointment of a full-time dedicated Under-Secretary-General to carry out the role of Special Coordinator to ensure dedicated support to the United Nations system-wide and to explore the integration of protection from sexual exploitation and abuse as a requirement in all United Nations activities and programmes.

(Signed) Jane Holl **Lute**
Special Coordinator

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.242 The Office was established in February 2016, when the Secretary-General appointed the Special Coordinator to work across the United Nations system's offices, departments and agencies to strengthen the United Nations response to sexual exploitation and abuse, wherever it might occur, from Headquarters locations to the most remote field bases. The General Assembly, in its resolution [70/286](#), and the Security Council, by in resolution [2272 \(2016\)](#), welcomed the appointment of the Special Coordinator and the Secretary-General's continued efforts to implement and reinforce the United Nations zero tolerance policy on sexual exploitation and abuse, in particular to strengthen the Organization's prevention, reporting, enforcement and remedial action in order to promote greater accountability. In its resolution [71/278](#), the Assembly welcomed the continued efforts of the Secretary-General to combat sexual exploitation and abuse, including the appointment of a Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse and the establishment of a high-level task force to develop, as a matter of urgency, a clear, game-changing strategy to achieve visible and measurable improvements in the Organization's approach to preventing and responding to sexual exploitation and abuse. The Assembly also expressed its support to the Secretary-General, the Office and all relevant departments in their efforts to implement the zero-tolerance policy, in particular to strengthen the Organization's prevention, reporting, enforcement and remedial action in order to promote greater accountability, and in that regard requested the Secretary-General to continue to work in close consultation with Member States for the effective implementation of the policy.
- 1.243 The Special Coordinator drives and oversees the United Nations response to sexual exploitation and abuse efforts across the United Nations system to align approaches and enhance coordination, cooperation and coherence system-wide through the development of aligned mechanisms and procedures, standardized protocols and tools.

Programme of work

Objective

- 1.244 The objective, to which this programme contributes, is to strengthen the United Nations response to sexual exploitation and abuse and ensure sustained high-level attention to the prevention of and response to sexual exploitation and abuse through a victim-centred lens.

Strategy and external factors for 2023

- 1.245 To contribute to the objective, the Office will:
- (a) Coordinate with United Nations entities, departments and offices to ensure aligned strategies to prevent and respond to sexual exploitation and abuse by developing initiatives to mitigate the risks of sexual exploitation and abuse across the three pillars (peace, development and humanitarian) of the United Nations system;
 - (b) Promote the implementation of the Secretary-General's strategy to combat sexual exploitation and abuse across the system's 30 affiliated funds, programmes and specialized agencies and act as the secretariat of the Secretary-General's institutionalized standing bodies for protection against sexual exploitation and abuse, such as the High-Level Steering Group on preventing

- sexual exploitation and abuse, which oversees the implementation of the Secretary-General's strategy;
- (c) Review and address the policy and operational gaps in the United Nations handling of sexual exploitation and abuse by all categories of United Nations personnel, both uniformed and civilian, and by non-United Nations actors;
 - (d) Consult with international, regional and subregional organizations, Member States, United Nations independent human rights experts, civil society organizations, national human rights institutions, academic institutions and think tanks, as appropriate, to ensure that policies and operational efforts across the United Nations system reflect best practice;
 - (e) Coordinate the Secretary-General's public reporting mechanism for allegations of sexual exploitation and abuse;
 - (f) Support an effective system-wide communications strategy to ensure a coordinated public message with respect to the United Nations response to sexual exploitation and abuse;
 - (g) Work closely with leadership across the United Nations system to provide strategic support and guidance to help in designing comprehensive strategies to combat sexual exploitation and abuse and strengthen joint United Nations programming on prevention initiatives.
- 1.246 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the continued use of virtual and/or hybrid platforms to conduct meetings and advocacy to prevent and address sexual exploitation and abuse. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.247 The above-mentioned work is expected to result in:
- (a) Development and implementation of system-wide policies and initiatives to prevent and respond to sexual exploitation and abuse in a cohesive and coordinated manner;
 - (b) Aligned awareness and understanding among United Nations personnel of standards of conduct and the purpose of mission of the United Nations to advance cultural change and address the underpinnings of sexual exploitation and abuse, including gender imbalances and the abuse of authority due to power differentials;
 - (c) Improved ability of United Nations personnel to adapt and innovate, including through the use of technology, to strengthen the prevention of and response to sexual exploitation and abuse.
- 1.248 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Measures to prevent sexual exploitation and abuse are to be aligned across the United Nations system;
 - (b) Staff at all levels prioritize the eradication of sexual exploitation and abuse within United Nations operations;
 - (c) The need for collective independent investigation capacity in high-risk contexts is recognized and appropriate organizational structures are put in place to respond.
- 1.249 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to strengthen cooperation with regional and other international organizations and civil society to align minimum standards on protection from and the response to sexual exploitation and abuse. In addition, the Office will work towards strengthening the leadership and organizational culture of gender equality and intolerance of sexual misconduct, create a global

framework for cooperation with Member States on prevention and enhance engagement with and support to communities, especially women's groups and grass-roots actors.

- 1.250 With regard to inter-agency coordination and liaison, the Office will continue to work with agencies, funds and programmes, including the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment, to ensure alignment with relevant mandates and a coherent and consistent response. The Office will continue its close cooperation with the Office of the Victims' Rights Advocate, the Department of Management Strategy, Policy and Compliance and other relevant entities within the United Nations system to align messages relating to the prevention of and response to sexual exploitation and abuse when communicating externally. Furthermore, the Office will work closely with the Development Coordination Office and resident coordinators on their roles and responsibilities in line with the management and accountability framework of the United Nations development system and resident coordinator system. The Office continues to serve as the secretariat of the Secretary-General's circle of leadership on the prevention of and response to sexual exploitation and abuse in United Nations operations, which is made up of global leaders who actively support combating sexual exploitation and abuse. Informal expert meetings with Heads of State or Government and members of the circle of leadership to ensure political momentum of the Secretary-General's strategy to prevent sexual exploitation and abuse will be held.
- 1.251 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, gender imbalances with associated power asymmetries lead to systematic unwelcomed sexual behaviour. The Special Coordinator recognizes that the majority of victims of sexual exploitation and abuse are women and girls and that most perpetrators are men. The Special Coordinator acknowledges that entrenched discrimination against women and girls, manifested in laws and policies, power imbalance and gender inequality, lie at the heart of this misconduct.

Evaluation activities

- 1.252 The OIOS evaluation of the prevention, response and victim support efforts against sexual exploitation and abuse by United Nations Secretariat staff and related personnel ([A/75/820](#)), completed in 2021, has guided the proposed programme plan for 2023.
- 1.253 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023. For example, OIOS emphasized the importance of an accountability framework and institutional mechanisms to ensure continuous engagement and cohesion across the United Nations system, as well as the importance of capacity-building necessary for the efficient use of the sexual exploitation and abuse risk management toolkit, especially for entities with field operations.

Programme performance in 2021

A strengthened and cohesive system-wide approach to the prevention of and response to sexual exploitation and abuse at both the strategic and operational levels

- 1.254 The Office continued to drive a strengthened and cohesive system-wide approach to the prevention of and response to sexual exploitation and abuse at both the strategic and operational levels, ensuring awareness of the prohibitions of such behaviour and advocating for constant vigilance among all United Nations personnel. Working with relevant entities, the Office compiled and analysed available system-wide data to address the policy and operational gaps in the United Nations handling of sexual exploitation and abuse. The Office supported the Secretary-General in guiding and assisting the integrated work of the High-Level Steering Committee on sexual exploitation and abuse, in particular through the development and implementation of policies on integrated coordination, covering the prevention of sexual exploitation and abuse, the response to allegations and timely and appropriate follow-up strategies, including assistance for victims. The Office engaged

Section 1 Overall policymaking, direction and coordination

actively and regularly with United Nations personnel in field locations to assist with efforts to prevent and address sexual exploitation and abuse.

1.255 Progress towards the objective is presented in the performance measure below (see table 1.111).

Table 1.111

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
–	–	Increased awareness and understanding among United Nations personnel of the standards of conduct and the purpose of mission of the United Nations in order to advance cultural change and address the underpinnings of sexual exploitation and abuse, including gender imbalances and abuse of authority due to power differentials 191 strategic and operational plans by heads of United Nations entities and United Nations country teams included policies and standards of conduct on the prevention of sexual exploitation and abuse

Impact of the pandemic

1.256 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the ability of staff of the Office to travel to field locations and the conduct of in-person meetings. The Office resorted to the use of virtual platforms to conduct advocacy, coordination and training sessions when travel was not possible.

Planned results for 2023

Result 1: risks of sexual exploitation and abuse across the pillars of the United Nations system (peace, development and humanitarian) mitigated and managed

Proposed programme plan for 2023

1.257 Despite clear gains over the past five years to strengthen measures for protection from sexual exploitation and abuse, allegations implicating United Nations personnel regrettably continue to emerge. In 2021, allegations relating to United Nations peacekeeping personnel in the Central African Republic led to the repatriation of a military contingent. An independent commission established by the World Health Organization reported on cases concerning personnel responding to the tenth Ebola virus epidemic in the Democratic Republic of the Congo. Those reports demonstrate that much remains to be done and efforts must be strengthened, given the large scale of United Nations humanitarian, peace and other operations globally.

1.258 The United Nations is a system comprising more than 30 affiliated programmes, funds and specialized agencies with their own membership, leadership and budgets and is not “self-coordinating”. It requires an embedded mechanism to identify areas for greater collaboration and the implementation of aligned and coordinated approaches on preventing sexual exploitation and abuse.

Lessons learned and planned change

- 1.259 The lesson for the Office was that the high turnover of personnel in operational settings, including leadership positions, demands constant reinforcement of policies and initiatives to ensure cohesive implementation. In applying the lesson, the Office will examine how routine visits to United Nations operational presences can sustain awareness of the standards of conduct and identify how the United Nations system can bolster leadership and provide other support. Recognizing the heightened risks of sexual exploitation and abuse in operational settings, the Office will support the development of risk management frameworks and an impact statement on the prevention of sexual exploitation and abuse for all newly considered United Nations field-based activities, to ensure that foreseeable risks are identified and planned for.
- 1.260 Sexual exploitation and abuse are an ever-present risk in the context of United Nations operations. Understanding and analysing trends and patterns of such behaviour and the associated risks of its occurrence will enable the United Nations to put in place measures to mitigate those risks. The Office will increase its efforts to find intersectoral approaches to risk management and will invest in additional efforts to promote the implementation of aligned and coordinated approaches across the system's more than 30 affiliated programmes, funds and specialized agencies, and will strengthen its engagement with the Inter-Agency Standing Committee, United Nations entities and external partners to identify areas for greater collaboration.
- 1.261 Expected progress towards the objective is presented in the performance measure below (see table 1.112).

Table 1.112

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	–	An impact statement on the prevention of sexual exploitation and abuse is developed for use in all United Nations field-based activities, to ensure that foreseeable risks are identified and planned for	Strengthened leadership capacity of senior and middle-level commanders to manage risks related to sexual exploitation and abuse, foster effective conduct and discipline and the prevention of response to misconduct

Legislative mandates

- 1.262 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

59/300	Comprehensive review of a strategy to eliminate future sexual exploitation and abuse in United Nations peacekeeping operations	61/267 B	Comprehensive review of a strategy to eliminate future sexual exploitation and abuse in United Nations
		62/63	Criminal accountability of United Nations officials and experts on mission

Section 1	Overall policymaking, direction and coordination		
62/214	United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel	71/297	Special measures for protection from sexual exploitation and abuse
		72/312	United Nations action on sexual exploitation and abuse
71/278	United Nations action on sexual exploitation and abuse		
<i>Security Council resolutions</i>			
2272 (2016)	Sexual exploitation and abuse	2436 (2018)	United Nations peacekeeping performance

Deliverables

1.263 Table 1.113 lists all deliverables of the programme.

Table 1.113

Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)		1	1	1
1. Report of the Secretary-General on special measures for protection from sexual exploitation and abuse		1	1	1
Substantive services for meetings (number of three-hour meetings)		–	4	4
Meetings of:				
2. The Advisory Committee on Administrative and Budgetary Questions		–	2	2
3. The Fifth Committee		–	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)		–	5	5
4. Training events with international and regional organizations and regional and national coordinators for protection from sexual exploitation and abuse		–	5	5
Technical materials (number of materials)		–	–	1
5. Manual on protection against sexual exploitation and abuse		–	–	1
C. Substantive deliverables				
Consultation, advice and advocacy: briefings to Members States; webinars with universities and academic institutions.				
D. Communication deliverables				
Outreach programmes, special events and information materials: awareness-raising, training and educational materials, including system-wide fact sheet on the Secretary-General's initiatives to prevent and respond to sexual exploitation and abuse; outreach initiatives.				
External and media relations: media interviews, opinion pieces, press releases and expert articles.				
Digital platforms and multimedia content: update and maintenance of website and social media on areas of work.				
E. Enabling deliverables: Bimonthly sexual exploitation and abuse working group meetings that include approximately 30 entities/departments/offices within the United Nations system; annual system-wide survey on facts and perceptions of United Nations personnel (civilian, police and military) to gain information on their awareness of the standards of conduct and behaviour to prevent and respond to sexual exploitation and abuse.				

B. Proposed post and non-post resource requirements for 2023

Overview

1.264 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.114 to 1.116.

Table 1.114

Figure 1.XX
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

1.267 As reflected in tables 1.117 (1) and 1.118 (1), the resource changes reflect an increase of \$936,900 owing to the proposed conversion of four posts (1 Under-Secretary-General, 1 P-5, 1 P-4 and 1 General Service (Other level)) and respective non-post resources for the Office that were previously funded from extrabudgetary resources (see annex III). The proposed conversion follows a review of the current funding arrangements, including the anticipated decline in extrabudgetary resources and the need to ensure sustained funding to support the Office and the important role played by the Special Coordinator in improving the United Nations response to sexual exploitation and abuse.

Extrabudgetary resources

- 1.268 As reflected in table 1.117 and 1.118 (2), the Office expects to continue to receive extrabudgetary contributions that would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$277,400 and would be used to support the Office in carrying out various activities, including the development of a manual on protection against sexual exploitation and abuse, to cover official travel of staff, namely to the field, and provide for contractual services and general operating costs for gratis personnel. The decrease of \$1,050,000 compared with 2022 estimates mainly reflects the proposed transfer of the four posts funded from extrabudgetary resources to the regular budget. Extrabudgetary resources represent 22.8 per cent of the total resources for this section.
- 1.269 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.270 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.120. The Office will strive to continue to improve the planning of its travel in order to maintain 100 per cent compliance with the advance booking of air travel policy.

IX. Office of the United Nations Ombudsman and Mediation Services

Foreword

The United Nations is expected to address a range of challenging situations, from peace and security, environment and health, global finance and sustainable development to human rights and humanitarian assistance. Staff members of the Organization find themselves increasingly exposed to hardship, security risks and physical and psychological health risks as they adapt to changes in their work environment. In such a challenging and diverse workplace, many situations arise in which real or perceived differences in views, behaviours or communication can easily result in conflict.

The United Nations Ombudsman will continue to support a positive and enabling work environment for all United Nations staff so that they can do their work with minimal interruption and maximum attention in delivering the mandates entrusted to them by Member States.

On the basis of the principles of informality, independence, neutrality and confidentiality, the Office addresses conflicts in meaningful ways: discussion of options, shuttle diplomacy, facilitating dialogue, conflict coaching and mediation. The Office will continue to make available confidential services of impartial and independent persons to address work-related issues by providing staff members with a safe space, a confidential ear, a neutral listener and an independent person to help to identify options for solutions. This is all the more important as staff continue to adjust to new ways of working. We stand ready to help staff and the Organization to stay effective and productive.

For 2023, the Office will continue to respond to all requests for informal conflict resolution in a timely manner, through various avenues maximizing the use of resources and finding innovative ways to serve United Nations staff around the globe.

(Signed) Shireen L. **Dodson**
United Nations Ombudsman

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

- 1.271 The Office of the United Nations Ombudsman and Mediation Services is responsible for providing confidential, impartial and independent conflict resolution services to address work-related issues of staff members, upon request. In doing so, the United Nations Ombudsman makes an essential contribution to making the Organization a productive, healthy and enabling workplace.
- 1.272 The mandate of the Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [55/258](#) and [56/253](#). The Office was further strengthened by the Assembly, pursuant to its resolutions [61/261](#) and [62/228](#), to create an integrated and geographically decentralized Office. In paragraph 16 of its resolution [73/276](#), the Assembly requested the Secretary-General to establish, within existing resources, a pilot project to offer access to informal dispute resolution services to non-staff personnel. In paragraph 19 of its resolution [75/248](#), the Assembly encouraged the Secretary-General to continue the pilot project whereby non-staff personnel are offered access to services provided by the Office within its existing resources, and requested the Secretary-General to report thereon in his next report.

Programme of work

Objective

- 1.273 The objective, to which this Office contributes, is to ensure the effective functioning of the Organization by enhancing harmony in the workplace through an efficient and effective option for staff to seek redress to grievances.

Strategy and external factors for 2023

- 1.274 To contribute to the objective, the Office will:
- (a) Provide conflict resolution services to United Nations personnel globally in three core areas: case intervention; systematic feedback; and conflict prevention through capacity-building aimed at managing conflict effectively;
 - (b) Provide greater access to conflict resolution services to personnel, irrespective of location, including through the provision of services in all six official languages of the United Nations, ensuring access for all staff members to the informal pillar of the administration of justice;
 - (c) Deliver Dignity through Civility workshops in support of the civility initiative of the Secretary-General;
 - (d) Promote and facilitate dialogue among staff, in support of the Secretary-General's initiative against racism in the workplace and the implementation of the strategic action plan of the Task Force on Addressing Racism and Promoting Dignity for All in the United Nations.
- 1.275 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the Office owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the continued use of virtual or hybrid modalities as needed in addition to in-person meetings. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.

- 1.276 The above-mentioned work is expected to result in:
- (a) A more harmonious work environment for United Nations personnel;
 - (b) More productive and more effective functioning of the Organization;
 - (c) Improved understanding by staff and managers of the importance of resilience and flexibility in promoting a harmonious workplace.
- 1.277 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Staff members, including those in supervisory functions, avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;
 - (b) Staff members observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
 - (c) Caseload trends remain stable.
- 1.278 With regard to cooperation with other entities and inter-agency coordination and liaison, the Office will continue to cooperate with the ombudsmen and mediators of the United Nations system so as to contribute to improved system-wide cohesion and impact in the area of conflict resolution in the workplace. The Office will also focus on building stronger collaboration with the formal system of the administration of justice and to explore opportunities for more referrals from the formal to the informal pillar.
- 1.279 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office will continue to integrate a gender perspective into the provision of conflict resolution services and the identification of systemic issues to provide feedback on gender inequities, as observed in cases brought forward. The Office also compiles gender-disaggregated data.
- 1.280 In line with the United Nations Disability Inclusion Strategy, the Office will work on ensuring that it takes into account the needs of persons with disabilities, facilitating their full and effective participation in the activities of the Office whenever applicable. The Office will work on increasing the accessibility of its services, in particular ensuring that the relevant content, such as information conveyed through its online platforms, is available to persons with disabilities.

Evaluation activities

- 1.281 The evaluation of client satisfaction, completed in 2021, has guided the proposed programme plan for 2023.
- 1.282 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023. For example, the Office will continue to offer skill-building activities related to dignity for all with civility cafés and civility, communication and community (C3) workshops to promote harmonious work environments in line with the Secretary-General's initiative against racism in the workplace and the work of the Task Force on Addressing Racism and Promoting Dignity for All in the United Nations.
- 1.283 An evaluation on client satisfaction is planned for 2023.

Programme performance in 2021

Increased informal conflict resolution through virtual means

- 1.284 The continuation of the pandemic into 2021 made it difficult to re-establish the on-site (in-person) mediation activities of the Office. In response, the Office held most of its activities, including

discussions with parties, mediation sessions and mission visits, through virtual platforms. This solution ensured that staff members had the opportunity to receive informal conflict resolution services when in-person activities could not be delivered owing to the COVID-19 pandemic.

1.285 Progress towards the objective is presented in the performance measure below (see figure 1.XXI).

Figure 1.XXI

Performance measure: number of virtual mediation activities conducted

Impact of the pandemic

1.286 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular through the cancellation of in-person conflict resolution services. When travel could not take place, in-person meetings had to be cancelled. This resulted in an increase in the use of virtual platforms to handle individual cases. However, some staff were reluctant to use the platform to discuss their concerns. The use of virtual means was effective to an extent, but their utility is limited owing to the sensitive and confidential nature of conflict resolution. In addition, virtual platforms presented technical difficulties for implementation in some regions with lower Internet coverage.

Planned results for 2023

Result 1: improved access to mediation services

Programme performance in 2021 and target for 2023

1.287 The programme’s work contributed to improved access to mediation services, which met the planned target of 135 mediations done through a decentralization of services.

1.288 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 1.XXII).

Figure 1.XXII

Performance measure: number of mediations done through a decentralization of services (cumulative)

Result 2: increased access of services to field-based staff

Programme performance in 2021 and target for 2023

- 1.289 The programme’s work contributed to increased access to services for field-based staff, which resulted in 681 informal conflict resolution cases in field missions, which did not meet the planned target of 1,000. The target was not met owing to the continuation of the pandemic, which restricted travel and in-person meetings in the field. Furthermore, limited access to virtual platforms in some areas restricted the option of conducting virtual informal conflict resolution meetings.
- 1.290 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 1.XXIII).

Figure 1.XXIII

Performance measure: number of informal conflict resolution cases in field missions

Result 3: increased awareness and skill sets to promote dignity through civility in the workplace

Proposed programme plan for 2023

- 1.291 About 40 per cent of the workplace conflicts brought to the attention of the Office have an underlying behaviour relating to a lack of civility in areas such as lack of respect and poor treatment, issues of communication, a toxic team climate and low morale. The Office contributed to the roll-out of two initiatives, Dignity through Civility and Addressing Racism and Promoting Dignity for All, complemented by a global website, training and communication activities aimed at helping to increase awareness among staff.

Lessons learned and planned change

- 1.292 The lesson for the Office was that, as a neutral facilitator, it can add value to the Secretary-General’s special initiative on addressing racism, complementing the initiative on civility. In applying the lesson, the programme will support the implementation of the strategic action plan of the Secretary-General on addressing racism and promoting dignity for all in the United Nations by increasing the awareness of staff to uphold the principle of dignity, while also expanding the outreach of the Dignity through Civility initiative. In particular, the Office will increase its offerings of civility café activities and C3 workshops.
- 1.293 Expected progress towards the objective is presented in the performance measure below (see table 1.121).

Table 1.121
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Consensus in the Organization to make civility a priority	Increased awareness and skill sets to foster civility in the workplace	Roll-out of global team site (online collaboration tool) with toolkits and communication materials	Increase awareness of staff to uphold the principle of dignity, outlined in the Charter of the United Nations, in their daily interaction and their performance output	Expansion of dignity through civility initiatives, by continuing to raise awareness and build skills that promote dignity

Legislative mandates

1.294 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

55/258	Human resources management	62/228; 73/276;	Administration of justice at the United Nations
56/253	Questions relating to the proposed programme budget for the biennium 2002–2003	74/258; 75/248; 76/242	
65/290	Strengthening the capacity of the United Nations to manage and sustain peacekeeping operations		

Deliverables

1.295 Table 1.122 lists all deliverables of the programme.

Table 1.122
Office of the United Nations Ombudsman and Mediation Services: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned

---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

E. Enabling deliverables

Capacity-building of staff through the Dignity through Civility workshops and Addressing Racism and Promoting Dignity for All.

Internal justice and oversight: in-person and remote informal dispute resolution services for staff; analysis of the root causes of conflict and the provision of upward feedback on systemic issues for an improvement in workplace conditions; awareness-raising and conflict competence-building activities, including information sessions, thematic and interactive panel discussions and workshops; and maintenance of a website in all United Nations official languages and the distribution of printed resource materials on conflict resolution.

B. Proposed post and non-post resource requirements for 2023

Overview

1.296 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.123 to 1.125.

Table 1.123
Evolution of financial resources by object of expenditure

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 1.299 As reflected in tables 1.126 (2) and 1.127 (2), projected other assessed resources for 2023 of \$2,761,100, including nine posts (3 P-5, 1 P-4, 2 P-3, 2 Field Service and 1 General Service (Other level)), will be utilized to provide conflict resolution services to peacekeeping personnel in the field and to carry out a broad review and analysis of systemic issues arising from the peacekeeping missions. This reflects an increase of \$116,200 compared with the estimate for 2022, owing mainly to the adjustments in the standard costs for posts, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 (A/76/725). Other assessed resources represent 39.6 per cent of the total resources for this section.
- 1.300 As reflected in table 1.126 (3), the Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$310,000 and would be used to provide conflict resolution services to International Court of Justice, World Meteorological Organization and Development Cooperation Office staff in accordance with the memorandum of understanding. Extrabudgetary resources represent 4.4 per cent of the total resources for this section.
- 1.301 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.302 Information on compliance with the timely submission of documentation and advance booking of air travel is reflected in table 1.129. Efforts undertaken by the Office to further enhance the rate of compliance with the advance booking of air travel policy are the preparation of travel plans on a semi-annual basis and closely monitoring advance booking for each instance of travel by air.

Table 1.129

X. Office of Administration of Justice

Foreword

Throughout 2023, the Office of Administration of Justice will continue to coordinate the proper functioning of the elements of the internal justice system and ensure that it operates in a fair, efficient and transparent manner.

The United Nations is staffed by individuals committed to its mission and who want to contribute to fulfilling the aims and aspirations in the Charter of the United Nations. Every member of our workforce, regardless of duty station, function or title, should come to work each day feeling a sense of joy, pride and purpose in what we do, knowing that each of us can make a difference for the peoples of the world.

In a work environment such as the United Nations, which brings together diverse cultures and personalities and different working methods, communication styles and organizational structures, it is not unusual for misunderstandings or grievances to arise. If not managed properly, workplace disputes destroy trust, create unhealthy working relationships and demoralize and demotivate staff. In addition, grievances that are not addressed can adversely affect mandate implementation.

The United Nations is committed to implementing the mandates set by the Member States. The impact of the COVID-19 pandemic has been vast and global, and the Office of Administration of Justice, like many others, has had to adapt to ensure that the Organization can continue to deliver on its mandates and support Member States in their response and recovery efforts. To this end, the Organization requires highly engaged staff with access to a well-functioning internal justice system that adequately addresses employment-related disputes. An effective administration of the justice system will provide timely delivery of high quality of justice and ensure respect for the rights and obligations of staff and the accountability of staff and managers alike, as envisaged by the General Assembly. This helps the United Nations to fulfil its promise to humankind.

(Signed) Alayne **Frankson-Wallace**
Executive Director, Office of Administration of Justice

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

- 1.303 The Office of Administration of Justice is responsible for the overall coordination of the system of administration of justice and contributing to its functioning in a fair, transparent, and efficient manner. The mandate of the Office derives from relevant General Assembly resolutions, including resolutions [61/261](#), [62/228](#), and [63/253](#), which established a new, independent, transparent, professionalized, adequately resourced, and decentralized system of administration of justice, and placed an emphasis on the need to ensure the fair and just treatment of United Nations staff and the accountability of managers and staff alike.

Programme of work

Objective

- 1.304 The objective, to which the Office contributes, is to ensure access to justice, in particular to jurisprudence, and respect for the rights and obligations of staff members and the accountability of managers and staff members alike through the efficient and effective functioning of the internal justice system.

Strategy and external factors for 2023

- 1.305 To contribute to the objective, the Office will continue to:
- (a) Provide easy access to jurisprudence through the website of the United Nations internal justice system, the improved searchable digest of case law and outreach means;
 - (b) Provide legal advice and assistance and, where appropriate, legal representation to staff;
 - (c) Enhance the case management systems and provide substantive, technical, and administrative support to the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
 - (d) Provide increased awareness of and access to workplace dispute resolution mechanisms, with a focus on field missions and offices, in furtherance of Assembly resolutions [73/276](#), [74/258](#) and [75/248](#).
- 1.306 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the use of remote training and engagements where applicable to ensure business continuity. At the same time, it is assumed that those operational conditions would have improved and allow for mandate implementation through established approaches. Any modifications to planned deliverables would, in pursuance of the objectives, strategies and mandates, be reported as part of the programme performance information.
- 1.307 The work as mentioned above is expected to result in:
- (a) Improved decision-making by managers;
 - (b) Increased access to information on when and how to pursue a claim before the Tribunals;
 - (c) Effective dispute resolution;
 - (d) More expedient processing of cases.

- 1.308 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Staff members avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;
 - (b) Staff members observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the Tribunals;
 - (c) Caseload remains stable;
 - (d) Staff members in remote locations have internet connectivity to file electronically.
- 1.309 The Office integrates a gender perspective in its operational activities, deliverables, and results. The Office will continue to identify any systemic issues concerning gender inequality in access to the internal justice system and recommend remedial action. The Office also has a gender team that will continue to support implementation of the system-wide strategy on gender equality and empowerment of women and an enabling work environment for all staff, regardless of gender.
- 1.310 In line with the United Nations Disability Inclusion Strategy, the Office will work with the Office of Information and Communications Technology to ensure that the future iteration of the website of the internal justice system includes accessibility features that benefit users with temporary or long-term disabilities.
- 1.311 With regard to inter-agency coordination and liaison, the Office launched a comprehensive outreach strategy to provide staff with improved access to information and resources to resolve workplace grievances. To continue to implement this strategy and reach out to the largest number of staff members possible, particularly in locations away from Headquarters, the Office intends to work collaboratively with several entities and the separately administered funds and programmes. The Office will also continue to coordinate the preparation of the report of the Secretary-General on the functioning of the internal justice system and report on trends and observations.

Evaluation activities

- 1.312 The following evaluations completed in 2021 have guided the programme plan for 2023:
- (a) Administration of justice at the United Nations: report of the Secretary-General ([A/76/99](#));
 - (b) Administration of justice at the United Nations: report of the Internal Justice Council ([A/76/124](#)).
- 1.313 The results and lessons of the evaluations referenced above have been considered for the programme plan for 2023. For example, those recommendations of the Internal Justice Council that have been endorsed by the General Assembly are implemented. In 2022, the General Assembly requested the Secretary-General to provide views on the Council's recommendation on the length of appointment of the respective Presidents of the Tribunals with a view to increasing the Tribunals' efficiencies. The Secretary-General's views will be submitted to the Assembly at its seventy-seventh session, and any further action will be taken in line with the Assembly's decision.
- 1.314 The following evaluations are planned for 2023:
- (a) Administration of justice at the United Nations: report of the Secretary-General;
 - (b) Administration of justice at the United Nations: report of the Internal Justice Council.

Programme performance in 2021

Reduction of the backlog of judgment summaries

- 1.315 To improve access to the jurisprudence of the Tribunals, the Office developed a jurisprudence database in line with the mandate set out in General Assembly resolution [75/248](#), which increased

the searchability and facilitated the dissemination of jurisprudence. To eliminate the barriers that prevent staff from understanding and exercising their rights and observing their obligations, the Office broadened the scope of the database to add to each judgment a legal summary, improving the user experience and reducing the terminological complexity of the legal texts. The Office developed a plan with the support of the registries to prepare legal summaries, which was implemented throughout 2021. This involved summarizing all the Tribunals' judgments prior to 2021 and, going forward, a summary would be prepared immediately after judgment is issued, to avoid the creation of a backlog.

1.316 Progress towards the objective is presented in the performance measure below (see figure 1.XXV).

Figure 1.XXV

Performance measure: number of summarized judgments available (cumulative)

Impact of COVID-19

1.317 The continuation of the COVID-19 pandemic had an impact on the implementation of mandates, in particular, the ability to conduct in-person hearings and sessions of the Tribunal. The Office continued to implement business continuity measures from in-person working methods of the Tribunals to virtual, to ensure continuity of services. Staff continued to make themselves available outside regular hours to support judges, some of whom reside in time zones up to 18 hours ahead of Headquarters. The Office, as well as other participants in the internal justice system, continued to apply new working methods and addressed any challenges in order to provide services to staff. The Office Staff Legal Assistance continued to meet with clients remotely and assist them in all facets of their cases, including representing them virtually before the Tribunals. While these functions can be done virtually, that method is not suitable in all cases. There are instances where access to justice may be more effectively fostered in an in-person context.

Planned results for 2023

Result 1: support the United Nations Dispute Tribunal in the implementation of the case disposal plan

Programme performance in 2021 and target for 2023

1.318 The Office's work contributed to reducing the backlog of cases with the implementation of a real-time case-tracking dashboard that facilitated the review of cases that were pending for more than 400 days, which resulted in the United Nations Dispute Tribunal issuing 237 judgements, which exceeded the planned target of 160 judgements.

1.319 Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 1.XXVI).

Figure 1.XXVI

Performance measure: number of judgments issued by the United Nations Dispute Tribunal (annual)*

* The 2022 and 2023 targets are based on the average number of cases received yearly by the United Nations Dispute Tribunals and the ratio between judgments issued and cases disposed per year.

Result 2: access to remote sessions of the United Nations Appeals Tribunal enabled for all judges

Programme performance in 2021 and target for 2023

- 1.320 The Office’s work contributed to the effective transition from in-person sessions at its seat in New York to virtual sessions to overcome travel restrictions resulting from the COVID-19 pandemic; the provision of training to judges on the use of information technology resource; and the availability of staff to service the different time zone challenges, which supported the Tribunal in adjudicating 121 cases in 2021, which did not meet the planned target of 135 cases. The target was not met as the number is dependent on the number of cases/appeals received
- 1.321 Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 1.XXVII).

Figure 1.XXVII

Performance measure: number of cases adjudicated by the United Nations Appeals Tribunal (annual)

Result 3: increased access to the internal justice system through enhanced information and communications technology initiatives

Proposed programme plan for 2023

- 1.322 The Office has improved its court case management system and created the web-based case-intake solution for the Office of Staff Legal Assistance.
- 1.323 The court case management system is a database of court filings, judgments and orders of the Tribunals that allows the registries to manage the cases filed, during the complete life cycle of the

case from the filing of the application to judgment issuance. The upgrade of the system now provides a clear presentation for the e-Filing of parties to disputes and, for the registries, the ability to track case timelines, and also provides insights into the functioning of the internal justice system.

- 1.324 The Office's web-based case-intake solution through which potential clients of the Office Staff Legal Assistance can submit information and supporting documents and is used to solicit further information from the client, as well as view, update and analyse case data from any one of the five offices of the Office Staff Legal Assistance. The portal has resulted in effective management of the Office's cases, which carries over into efficient case processing by the Tribunals in a timely and effective manner.

Lessons learned and planned change

- 1.325 The lesson learned for the Office was the significance and impact that the information and communications technology initiatives have on the quality of the services provided, and the necessity to further invest in order to enhance the accessibility of staff to the justice system, enhance coordination among the components of the United Nations internal justice system and improve knowledge-sharing. In applying the lesson, the Office will improve its knowledge management systems, to unify the classification and ease the sharing of information. The Office will invest in a new website of the internal justice system, in line with the United Nations design, to enhance the user experience for staff and stakeholders.
- 1.326 Expected progress towards the objective is presented in the performance measure below (see table 1.130).

Table 1.130

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
	Effective management of Office Staff Legal Assistance cases through the deployment of the Office and increased confidence by staff that cases are being managed timely and effectively	Availability of new court case management system for all staff and other stakeholders, and improved insights by staff into the functioning of the internal justice system	Improved user access through an enhanced court case management system, to include French as an official working language for the registry module, the drafting and editing of case law summaries and the connection to the jurisprudence database. Enhanced view and external reporting using the data from the system	Increased outreach through the availability of web content in all the official languages of the United Nations in the newly designed website, increasing usability and compliance with cybersecurity, design, accessibility and multilingualism guidelines

Legislative mandates

- 1.327 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

59/283, 61/261, Administration of justice at the United Nations 66/106
 62/228, 63/253,
 73/276, 74/258,
 75/248, 76/242

Code of conduct for the judges of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal

Deliverables

1.328 Table 1.131 lists all programme deliverables.

Table 1.131

Office of Administration of Justice: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	3	2
1. Report of the Secretary-General to the General Assembly	1	1	1	1
2. Report of the Internal Justice Council to the General Assembly	1	1	2	1
Substantive services for meetings (number of three-hour meetings)	24	24	34	24
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	4	2	4	4
4. Meetings of the Fifth Committee	7	4	7	7
5. Meetings of the Sixth Committee	3	8	3	3
6. Meetings of the Internal Justice Council	10	10	20	10
C. Substantive deliverables				
Databases and substantive digital materials: electronic court case management system, Office of Staff Legal Assistance database and the jurisprudential search engine.				
D. Communication deliverables				
Outreach programmes, special events and information materials: outreach campaigns to raise awareness of the system of administration of justice and disseminate information about the system.				
Digital platforms and multimedia content: United Nations internal justice system website.				
E. Enabling deliverables				
Legal services: legal assistance and, in cases with reasonable chance of success, representation to staff members through the Office of Staff Legal Assistance.				
Internal justice and oversight: applications and appeals, including motions, received by the United Nations Dispute Tribunal and the United Nations Appeals Tribunal for processing; substantive, technical and administrative support to the Tribunals in issuing decisions; and assistance to the Internal Justice Council.				

B. Proposed post and non-post resource requirements for 2023

Overview

1.329 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.132 to 1.134.

Table 1.132
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes				2023 estimate (before recosting)	
			Technical adjustments	New/expanded mandates	Other	Total		Percentage

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.332 As reflected in tables 1.135 (1) and 1.136 (1), resource changes represent a net increase of \$44,500, relating to:
- (a) A reduction of \$52,000 resulting from the proposed redeployment of one Administrative Assistant (General Service (Other level)) to Nairobi (Local level) (see annex III);
 - (b) An increase of \$95,100 under other staff costs, due mainly to the proposed establishment of one temporary position of Administrative Officer (P-3), that would provide administrative support to the Office, and ensure the institutional independence of the internal justice system. While the Office has the capacity to discharge its substantive mandate, it does not have sufficient internal administrative and budgetary capacity, as the staffing composition of the Office mainly comprises lawyers. There is no internal capacity that could be redeployed in whole or in part to undertake the full-time functions of an Administrative Officer. The incumbent of the position would support the Executive Director in managing the administration of personnel, as well as on budgetary and operational matters. An additional provision of \$1,400 under other non-post objects of expenditure would provide for supplies, materials and information technology and communication services to support the P-3 position.

Other assessed and extrabudgetary resources

- 1.333 As reflected in tables 1.135 (2) and 1.136 (2), projected other assessed resources for 2023 of \$242,700, including one post of Legal Officer (P-3), will be utilized to provide legal assistance to staff in peacekeeping missions. This reflects an increase of \$8,900 compared with the estimate for 2022, owing mainly to adjustments in the share of standard costs for posts, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 (A/76/725). Other assessed resources represent 1.9 per cent of the total resources for this section.

Part I Overall policymaking, direction and coordination

- 1.334 As reflected in table 1.135 (3), the Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$2,381,400, reflecting a decrease of \$295,300, and would be used to support the Office in the provision of legal assistance to staff. The decrease reflects mainly the discontinuation consultants and reduced general temporary assistance requirements. Extrabudgetary resources represent 19.2 per cent of the total resources for this section.
- 1.335 The extrabudgetary resources under this section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.336 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.138. For travel requests by external members of the Internal Justice Council, the Office requested them to provide information on travel needs four weeks in advance of travel so that the Office could submit their travel requests through Umoja in a timely manner. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

Table 1.138

XI. Ethics Office

Foreword

As the COVID-19 pandemic persists, the United Nations, as the rest of the world, continues to adapt its working methods. The Ethics Office continues to successfully deliver on its mandate of assisting the Secretary-General in enhancing the Organization's culture of ethics, transparency and accountability, using available technology and other resources. In 2023, it will continue to transition its internal ways of working to adjust during the recovery period, as needed.

The Ethics Office will step up its collaboration with entities within and outside the Secretariat to address new and intensified ethical challenges, brought on by the prolonged pandemic and its social and psychological effects, building on recent experiences of its leadership dialogue in the past few years in collaboration with other departments in the Secretariat. A reminder of the fundamental United Nations values and principles, also re-examined within the context of ongoing management reforms, can assist staff in better responding to these ethical challenges.

The Office will strengthen its partnerships and will continue to address new professional and ethical challenges recently identified by the ethics community of practice during the 2022 sessions of the Ethics Network of Multilateral Organizations, such as use of personal social media and increased engagement with external entities.

Despite the uncertainties that the pandemic and other challenges may bring in 2023, the Ethics Office will continue to stay focused on its core mission of upholding ethical standards in the United Nations.

(Signed) **Elia Yi Armstrong**
Director, Ethics Office

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 1.337 The Ethics Office was established as an independent Secretariat office and is responsible for assisting the Secretary-General in ensuring that all staff members perform their functions consistent with the highest standards of integrity, as required under the Charter of the United Nations. The mandate of the Ethics Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [60/1](#) and [60/248](#). The Ethics Office also assists the Secretary-General in reporting annually to the Assembly on the implementation of ethics policies in response to Assembly resolution [60/254](#) and on the activities of the Ethics Panel of the United Nations pursuant to Assembly resolution [63/250](#). Further to Assembly resolution [70/305](#), the Ethics Office has been mandated to participate in providing an induction briefing to all Presidents of the General Assembly and their offices, to review the financial disclosures of those Presidents and to vet all private contributions to the Office of the President of the General Assembly. As provided for in Assembly resolution [71/263](#), the Ethics Office aims to do its part in the swift and effective implementation of the revised policy on protection against retaliation and to cultivate an organizational culture in which staff feel free to speak up.

Programme of work

Objective

- 1.338 The objective, to which the Ethics Office contributes, is to achieve and sustain an organizational culture of integrity, accountability and transparency, wherein all staff members observe and perform their functions consistent with the highest standards of integrity required under the Charter of the United Nations.

Strategy and external factors for 2023

- 1.339 To contribute to the objective, the Ethics Office will:
- (a) Provide independent and preventive ethics advice, guidance and briefings to staff and management to ensure that ethical standards are well understood, support ethics standard-setting and promote policy coherence within the Secretariat and among the Organization's separately administered organs and programmes;
 - (b) Deliver its services in line with its terms of reference outlined in the relevant Secretary-General's bulletin ([ST/SGB/2005/22](#)), through the administration of the annual financial disclosure programme, the provision of guidance and confidential ethics advice (including pre-appointment disclosure reviews for senior appointments and through the ethics helpline), the conduct of ethics briefings and outreach, and the fulfilment of the Ethics Office's responsibilities regarding the protection against retaliation policy, and by ensuring policy support and coherence of ethical standards;
 - (c) Clarify staff engagement in "outside activities and interests", particularly the personal use of social media, and their potential impact on the Organization;
 - (d) Foster a shared understanding of the common standards of conduct for the international civil service through the CEB-based agencies affinity group of the Ethics Network of Multilateral Organizations;

- (e) Support the Organization's overall strategy on risk management, including identifying and mitigating personal and organizational conflicts of interest through the financial disclosure programme and the provision of advice and, upon request, work with the various owners of the risks identified in the enterprise risk registry in updating and implementing their response plans;
 - (f) Highlight the importance of demonstrating United Nations values, as defined in the recently introduced United Nations Values and Behaviours Framework, by continuously working with the Office of Human Resources of the Department of Management Strategy, Policy and Compliance on training and outreach activities in order to continuously foster public trust in the Organization.
- 1.340 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the coronavirus disease (COVID-19) pandemic. Examples of lessons learned and best practices include remote outreach through online platforms with more tailored contents, addressing new challenges. In addition, there is a need to respond to other types of conflicts-of-interest concerns that had not occurred before, such as those resulting from working-from-home arrangements. In view of the increased positive feedback on virtual outreach, the Office will expand its efforts to deliver key information to all staff on various digital platforms on offer, in 2023. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.341 The above-mentioned work is expected to result in:
- (a) Greater public trust in the integrity of the Organization through the financial disclosure exercise, retaining the foundational defence for the Organization from personal conflicts of interest and potential reputational damage;
 - (b) Awareness among a greater number of staff of ethical standards and practices;
 - (c) Enhanced organizational culture of integrity, transparency and accountability.
- 1.342 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Staff continue to avail themselves of the services provided by the Ethics Office;
 - (b) Financial disclosure statements from staff are submitted to the Ethics Office in a timely manner;
 - (c) All necessary documentation is provided by staff when seeking protection against retaliation;
 - (d) The security and public health situations in duty stations will allow for in-person outreach missions, when required.
- 1.343 With regard to cooperation with other entities at the global, regional, national and local levels, the Office expects to participate in the 2023 annual meeting of the Ethics Network of Multilateral Organizations.
- 1.344 With regard to inter-agency coordination and liaison, the Director of the Ethics Office will continue to chair and provide functional leadership to the Ethics Panel of the United Nations to increase coherence in the work of member ethics offices, as reflected in Secretary-General's bulletins [ST/SGB/2007/11](#) and [ST/SGB/2007/11/Amend.1](#). The Office will continue to engage with the Ethics Network of Multilateral Organizations member entities affiliated with CEB in the interest of ethics policy coherence in the United Nations System. It will also continue to administer the financial disclosure requirements of those System entities that have opted to outsource this requirement to the Secretariat's Ethics Office. It will further continue to review contested matters by the staff of the separately administered organs and programmes of the Ethics Panel.

- 1.345 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. It disaggregates its service data by gender, where possible. The Office has received more inquiries from women consistently over the years and the Office responded to them. As a practice, and when funds allow, outreach mission teams of the Ethics Office will continue to be in pairs and gender-balanced. Subject to demand from requesting entities, the Office will provide gender-disaggregated information.

Evaluation activities

- 1.346 The evaluation by the Joint Inspection Unit on the review of the ethics function in the United Nations system, completed in 2021, has guided the proposed programme plan for 2023.
- 1.347 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023. For example, the Office continues to engage with Member States on the proposals made by the Secretary-General for strengthening the independence of the Ethics Office ([A/73/89](#), [A/74/78](#), [A/75/82](#), [A/76/76](#) and [A/77/75](#)).
- 1.348 An evaluation of programmes of the Office is planned for 2023.

Programme performance in 2021

Enhanced vetting process of interests and outside activities of When Actually Employed staff

- 1.349 The Organization benefits from short-term or voluntary services of high-profile staff members, serving as special representatives and envoys on when-actually-employed contracts (including \$1/year), to undertake short-term or sensitive assignments. Pursuant to the Secretary-General’s bulletin [ST/SGB/283](#), when-actually-employed contract holders have the status of a United Nations staff member subject to the United Nations Staff Regulations and Staff Rules on the days they provide service to the United Nations. The past practice of seeking permission each time for their outside activities has been replaced by a streamlined procedure of declaring outside interests prior to issuance of contracts. The new procedure was achieved as a result of consultations initiated by the Ethics Office with other relevant offices. In this manner, public trust is preserved in the integrity of these high-profile senior officials while the disclosure of their outside interests is streamlined.
- 1.350 Progress towards the objective is presented in the performance measure below (see table 1.139).

Table 1.139
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Staff on when-actually-employed contracts are required to seek permission for the approval of each outside activity and disclose outside interests	Staff on when-actually-employed contracts are required to seek permission for the approval of each outside activity and disclose outside interests	Staff on when-actually-employed contracts are required to disclose outside interests, including activities, for which mitigation measures are proposed if posing a potential conflict of interest

Impact of the pandemic

- 1.351 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular as the Office continued to provide remote outreach sessions using the available technology in response to continued travel restrictions that prevented the conduct of in-person outreach sessions. In 2021, the Office provided advice on matters that had been brought up increasingly during the pandemic, such as use of personal social media, and supported the

development of online training materials. The Office continued to provide remote advisory services for staff across different duty stations in lieu of in-person consultations. The Office continued to hold or participate in virtual town hall meetings and other learning sessions, at which it addressed current conflicts-of-interest concerns.

- 1.352 Reflecting the importance of innovation and responding to staff preferences in receiving information, the Office will mainstream lessons learned and best practices related to digital adjustments and adapt those parts of its programme to the post-COVID-19 conditions. While in-person visits are essential for trust-building and more responsive services to staff serving in remote duty stations, the Office will continue to use virtual and in-person outreach visits, where feasible, particularly to United Nations entities in field locations.

Planned results for 2023

Result 1: towards more staff awareness in the protection against retaliation

Programme performance in 2021 and target for 2023

- 1.353 The Office’s work contributed to staff awareness regarding protection against retaliation through the review and provision of advice on 128 enquiries under the protection against retaliation policy (ST/SGB/2017/2/Rev.1), which did not meet the planned target of 150 enquiries. The target was not met owing to no matters being referred to the Ethics Office by OIOS in 2021 for proactive prevention action and as a result of increased targeted outreach on the subject matter.
- 1.354 Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 1.XXIX).

Figure 1.XXIX

Performance measure: number of enquiries related to whistle-blower protection (annual)

Result 2: strengthened ethical awareness in a complex and changing work environment

Programme performance in 2021 and target for 2023

- 1.355 The Office’s work contributed to access to 191 tailored outreach sessions, customized briefings and issue-specific workshops and training, and thus strengthened ethical awareness, and fostered an organizational culture of ethics and integrity, which met the planned target.
- 1.356 Progress towards the objective and target for 2023 are presented in the performance measure below (see table 1.140).

Table 1.140
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Participation in the annual Leadership Dialogue increased	Access to ethics outreach sustained and enhanced during the COVID-19 pandemic through online remote sessions	Strengthened ethical awareness of staff through 191 outreach sessions (a 63 per cent increase compared with 2020), including issue-specific workshops and training based on specific identified needs, with a 100 per cent satisfaction rating of “excellent” or “good” by participating staff	Strengthened ethical awareness in a complex and changing work environment	Mitigated ethical risks of personal use of social media through increased awareness of staff

Result 3: coherent ethical standards and their consistent application

Proposed programme plan for 2023

1.357 In line with the Office’s mandate to support ethics standard-setting and promote policy coherence within the Secretariat and among the separately administered organs and programmes, the Office has engaged with Secretariat and outside entities to support a unified set of ethical standards and promote consistent application of them.

Lessons learned and planned change

1.358 The lesson learned to date by the Ethics Office through participation in inter-agency forums such as the Ethics Panel of the United Nations and the Ethics Network of Multilateral Organizations is that they serve as useful venues to address new challenges and share good practices, especially during unforeseen global events such as pandemics. In applying this lesson, the Ethics Office will pursue greater engagement with the United Nations common system entities through these inter-agency forums to further harmonize good practices and share lessons learned. Such an engagement is expected to foster a more common approach in ethical standard-setting throughout the United Nations system and harmonize practices.

1.359 Expected progress towards the objective is presented in the performance measure below (see table 1.141).

Table 1.141
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Increased awareness of Secretariat staff on the ethical standards and related policies through strengthened outreach	Enhanced consistency in ethics-related provisions, through a review of the key relevant Secretary-General's bulletins, such as ST/SGB/2017/2/Rev.1	Increased understanding of United Nations system entities on the application of ethical standards and practices	Enhanced consistency in ethics-related policies through a review of the standards of conduct for the international civil service and other relevant policies	Strengthened coherence in the development and application of ethical standards in the Secretariat and other United Nations entities of the Ethics Panel of the United Nations

Legislative mandates

1.360 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

60/1	2005 World Summit Outcome (para. 61 (d))	63/250	Human resources management
60/248	Special subjects relating to the proposed programme budget for the biennium 2006–2007	70/305	Revitalization of the work of the General Assembly
60/254	Review of the efficiency of the administrative and financial functioning of the United Nations	71/263	Human resources management

Deliverables

1.361 Table 1.142 lists all deliverables of the Office.

Table 1.142
Ethics Office: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Secretary-General to the General Assembly on the activities of the Ethics Office	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	6	6	6	6
2. Meetings of the Advisory Committee on Administrative and Budgetary Questions	3	3	3	3
3. Meetings of the Fifth Committee	3	3	3	3
C. Substantive deliverables				
Consultation, advice and advocacy: expert advice, guidance and technical assistance to staff on the United Nations standards of conduct and ethics issues.				

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach campaigns to raise awareness of the work of the Office and information on ethics-related matters, booklets and presentations.

Digital platforms and multimedia content: website and social media.

E. Enabling deliverables

Internal justice and oversight: management of financial disclosure and declaration of interest statements at a 100 per cent compliance rate and coordination for assessment under the financial disclosure programme; expert advice to staff on the United Nations standards of conduct and ethics issues; and protection of staff members against retaliation for reporting misconduct or cooperation in duly authorized audits or investigations.

B. Proposed post and non-post resource requirements for 2023

Overview

1.362 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 1.143 to 1.145.

Table 1.143

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes				2023 estimate (before recosting)

Figure 1.XXX
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.365 As reflected in tables 1.146 (1), resource changes reflect an increase of \$60,000 to provide for additional filers for the United Nations Financial Disclosure Programme, which is estimated to grow from 1,124 in 2021 to 1,300 in 2023.

Other assessed and extrabudgetary resources

- 1.366 As reflected in tables 1.146 (2) and 1.147 (2), projected other assessed resources for 2023 of \$1,091,400, including three posts (1 P-5, 1 P-3 and 1 General Service (Other level)), will be utilized to provide support to staff in the field to achieve full compliance with expected standards of conduct. This reflects an increase of \$16,200 compared with the estimate for 2022 due to the updated salary costs, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 ([A/76/725](#)). Other assessed resources represent 25.0 per cent of the total resources for this section.
- 1.367 As reflected in table 1.146 (3), the Ethics Office expects to continue to receive cash contributions, which would complement regular budget resources and support the delivery of its mandates. For 2023, extrabudgetary resources are estimated at \$1,100,000 and would cover the administration of the financial disclosure programme for staff funded from extrabudgetary resources. Extrabudgetary resources represent 25.2 per cent of the total resources for this section.
- 1.368 The extrabudgetary resources under this section are subject to the oversight of the Ethics Office, which has delegated authority from the Secretary-General.
- 1.369 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 1.149. The Ethics Office will continue its 100 per cent compliance with the advance booking of air travel policy.

Explanation of variances by factor

Overall resource changes

Technical adjustments

1.371 As reflected in table 1.150, resource changes reflect a decrease of \$115,100 relating to the removal of non-recurrent requirements for consultancy services to be undertaken during 2022 for the investigation into the conditions and circumstances resulting in the tragic death of Dag Hammarskjöld and of the members of the party accompanying him, pursuant to General Assembly decision 75/542.

XIII. Resident coordinator system

Foreword

Since the establishment of the resident coordinator system, countries have been witnessing more effective and integrated United Nations responses that go beyond sectoral approaches and draw better on expertise from across the United Nations system to address complex, interconnected Sustainable Development Goals-related challenges.

The resident coordinator system at all levels has successfully responded to the COVID-19 emergency and its socioeconomic impacts to accelerate the 2030 Agenda, including by combating climate change, transforming food systems, and in-country, regional and cross-regional collaboration.

A new generation of Resident Coordinator leadership has emerged, with half of the Resident Coordinators recruited after 2019 and a fully redesigned selection system rolled out in 2021. Greater leadership and capacity are facilitating more consistent and coherent United Nations engagement with Governments and a diverse range of partners on the ground, including international financial institutions.

Moving forward, resident coordinator system staff at all levels will continue to bring United Nations teams together to respond and recover better from COVID-19, including by advancing vaccine equity and fostering a sustainable and inclusive recovery. The system will also boost efforts to accelerate the Sustainable Development Goals, further tailoring its support to contexts, scaling up the engagement of all partners and building greater synergies across development, humanitarian and peacebuilding interventions, while prioritizing efforts for efficiency gains.

To deliver on expectations, adequate, predictable and sustainable funding for the Resident Coordinator system is essential. The 2021 review of the functioning of the system recognized the returns on investments and Member States committed to providing sufficient funding. We are thankful for Member States' allocations through the regular budget and count on Member States' support in ensuring the full capitalization of the special purpose trust fund.

(Signed) **Robert Piper**
Assistant Secretary-General for Development Coordination

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

- 1.372 General Assembly resolution [72/279](#) on the repositioning of the United Nations development system and the Economic and Social Council segment on operational activities for development guide the scope and implementation of the activities of the resident coordinator system. In line with resolutions [72/279](#) and [76/4](#), the substantive mandates of the resident coordinator system are derived from the 2030 Agenda for a more prosperous world for people and the planet. The management of the resident coordinator system rests with the Development Coordination Office, with resident coordinators reporting directly to the Secretary-General. Resident coordinators are the designated representatives of the Secretary-General for development operations at the country level. At the heart of the resident coordinator system are 130 resident coordinators leading 132 United Nations country teams operating in 162 countries and territories.

Programme of work

Objective

- 1.373 The objective, to which the resident coordinator system contributes, is to accelerate Member States' progress towards achieving the Sustainable Development Goals through strengthened United Nations development leadership, robust coordination mechanisms, tools and frameworks, the effective management of joint resources and improved transparency of results to improve the impact, efficiency and effectiveness of operational activities for development at the country, regional and global levels.

Strategy and external factors for 2023

- 1.374 To contribute to the objective, the resident coordinator system will scale up partnerships-driven development support to national Governments in order to achieve the 2030 Agenda for Sustainable Development by strengthening the design and implementation of United Nations Sustainable Development Cooperation Frameworks. Specifically, the resident coordinator system will:
- Continue to increase the availability of information on and awareness of United Nations development system efforts and activities to support the 2030 Agenda and the decade of action for the Sustainable Development Goals at the global, regional and national levels by continuing to work with United Nations country teams to release quality and timely annual United Nations results reports;
 - Continue to roll out a revamped UN-Info as the central platform for transparency and data relating to results achieved in implementing United Nations Development Assistance Frameworks and United Nations Sustainable Development Cooperation Frameworks, including results from the COVID-19 socioeconomic response and enhancements of automation of data from UN-Info to publicly showcase crucial data in country and global websites;
 - Accelerate the implementation of business operations strategies and the consolidation of local operational functions into common back offices and off premises into common premises to ensure greater efficiencies at the national level;
 - Provide substantive and operational support to the United Nations Sustainable Development Group and its subsidiary groups and task teams with developing global policy and guidelines;
 - Support United Nations country teams in delivering individual and collective results, with the support of Development Coordination Office global and regional offices to equip them with the capacities and resources required;

- (f) Continue to leverage catalytic funding provided by the Joint Sustainable Development Goals Fund to expand opportunities under its two primary domains of changes in integrated policy accelerators and in Sustainable Development Goals financing ecosystems and catalytic investments. Aligned with these two domains, the Fund will also explore additional thematic priorities with cross-organizational and cross-sectoral synergies for the 2030 Agenda, including potentially food systems, just and sustainable transitions, durable solutions for internal displacements and digital connectivity under the leadership of the resident coordinators and based on the specific needs of the United Nations country teams;
 - (g) Support Member States by anchoring the socioeconomic response to COVID-19 firmly within the United Nations Sustainable Development Cooperation Frameworks, to be implemented by United Nations country teams. These plans will complement the Office for the Coordination of Humanitarian Affairs-led humanitarian response in countries, where relevant, and World Health Organization-led global strategic plan on public health preparedness and response focused on a direct health response.
- 1.375 Reflecting the importance of continuous improvement and responding to the needs of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include a strengthened and streamlined system for monitoring of system-wide results, drawing from members of the United Nations Sustainable Development Group, the United Nations Sustainable Development Group-owned UN-Info system, as well as the launch of a development emergency window under the Joint Sustainable Development Goals Fund to streamline the United Nations response for future crises. This also incorporates lessons from the COVID-19 Response and Recovery Fund. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 1.376 The above-mentioned work is expected to result in:
- (a) A strengthened cadre of United Nations country team leaders at the national level, fully equipped to help countries to leverage partnerships and deliver on the decade of action for the Sustainable Development Goals;
 - (b) Increased support for countries through more efficient United Nations operations management at the country level;
 - (c) The operationalization of joint policies and programmatic guidance to regional and country entities;
 - (d) The scaling up of integrated policy solutions and innovative financing solutions to leave no one behind, while attracting and leveraging public and private financing for the Sustainable Development Goals;
 - (e) The safeguarding of lives and livelihoods by continuing to address the socioeconomic and human rights impacts of the pandemic, with attention given to those hit hardest, through the effective implementation of more coherent and joined-up programming to operationalize the priorities of the United Nations Sustainable Development Cooperation Frameworks and other relevant strategies in country;
 - (f) Strengthened synergies across development, humanitarian and peacebuilding actors;
 - (g) A coherent approach to development operations at the national, regional and global levels, including consistent implementation of system-wide priorities, policies and approaches across United Nations Sustainable Development Group entities.
- 1.377 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Adequate donor funding for the resident coordinator system, as well as for the Joint Fund for the 2030 Agenda for Sustainable Development and other key pooled funds;

- (b) Continued engagement on the funding compact and the implementation of related commitments to ensure that the quality and quantity of funding allows the United Nations development system to maximize its comparative advantages and further incentivize United Nations coherence and unity of purpose;
 - (c) Continued engagement and policy investment by United Nations Sustainable Development Group entities at the global, regional and country levels.
- 1.378 The resident coordinator system integrates a gender perspective in its operational activities, deliverables and results, as appropriate. Sixty-four per cent of United Nations Sustainable Development Cooperation Frameworks have a dedicated outcome on gender equality, and 61 per cent of United Nations country teams use the gender equality marker to track cross-cutting impacts to advance Goal 5.
- 1.379 In line with the United Nations Disability Inclusion Strategy, the resident coordinator system will launch and implement an entity-specific disability inclusion strategy, including a commitment to integrate the rights of persons with disabilities across all areas of the system.
- 1.380 With regard to cooperation with other entities, the resident coordinator system works closely with Member States, United Nations development entities, Secretariat entities, international financial institutions and civil society partners to advance the Sustainable Development Goals and the 2030 Agenda.
- 1.381 With regard to inter-agency coordination and liaison, the resident coordinator system serves as the secretariat to the United Nations Sustainable Development Group and actively coordinates member United Nations entities at the principal, director and technical levels. The resident coordinators lead United Nations country teams in supporting national plans and priorities.

Evaluation activities

- 1.382 The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
- (a) A total of 40 evaluations under the United Nations Development Assistance Framework and United Nations Sustainable Development Cooperation Framework were conducted in 2021, including 18 in the Africa region, 2 in the Arab States region, 9 in the Asia and Pacific region, 5 in the Europe and Central Asia region and 6 in the Latin America and Caribbean region;
 - (b) An OIOS evaluation of the resident coordinator system was conducted in 2021 with a focus on programming at the country level. It was noted that country-level integration of non-resident entities was still evolving, and improved programming coherence had not yet resulted in the fully coordinated delivery of operational activities at the country level, including on developing and providing more integrated policy support for the implementation of the Sustainable Development Goals.
- 1.383 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2023. For example, to enable greater alignment of incentives, policies and systems across entities, the Development Coordination Office is developing tools to strengthen oversight of the governing bodies of individual entities of the United Nations development system, to further promote the sharing of good practices, knowledge management and the integration of cross-cutting issues in country-level programming, identifying opportunities for streamlining with reporting requirements and leading the reporting on system-wide results.
- 1.384 Eight United Nations Development Assistance Framework and United Nations Sustainable Development Cooperation Framework evaluations, including four in the Africa region, one in the Arab States region, one in the Europe and Central Asia region and two in the Latin America and Caribbean region, are planned for 2023.

Programme performance in 2021

Integrated and responsive United Nations development system support to countries anchored in the United Nations Sustainable Development Cooperation Frameworks

1.385 The programme continued to leverage United Nations development system expertise for more integrated and responsive United Nations country team programming, anchored in the United Nations Sustainable Development Cooperation Frameworks. In 2021, COVID-19 socioeconomic response plans were fully incorporated in all 68 existing Cooperation Frameworks and the remaining United Nations Development Assistance Frameworks to ensure a recovery supportive of countries' Sustainable Development Goals priorities. In addition, the resident coordinator system led the start of the implementation of 31 Cooperation Frameworks and increased the number of joint workplans for collective implementation from 64 in 2020 to 111 in April 2022.

1.386 Progress towards the objective is presented in the performance measure below (see figure 1.XXXI).

Figure 1.XXXI

Performance measure: number of Cooperation Frameworks implemented

Impact of COVID-19

1.387 The continuation of the pandemic into 2021 affected the implementation of mandates, in particular those pertaining to reporting on system-wide support and results towards achieving the Sustainable Development Goals, given the additional reporting requirements on the pandemic response. However, system-wide reporting on the pandemic response offered valuable lessons as to how best to lead and improve inter-agency efforts for system-wide reporting. This will inform the refinement of the reporting on the contribution of the United Nations to the advancement of the Sustainable Development Goals, including incorporating all country-level COVID-19 socioeconomic responses under the umbrella of the Cooperation Frameworks as of 2022. With COVID-19 affecting every element of the development landscape, the regular multi-year sustainable development programming cycle now takes into account how COVID-19 has affected a country's development trajectory towards the 2030 Agenda and identifies adequate development solutions.

Planned results for 2023

Result 1: scaling up delivery on the decade of action for the Sustainable Development Goals through strengthened resident coordinator leadership for more joined-up support to Governments

Programme performance in 2021 and target for 2023

1.388 The work of the Development Coordination Office contributed to strengthened resident coordinators, identified through an integrated talent management system, leading United Nations country teams in an increasing number of leadership management interventions supporting Governments across all

regions, and in the implementation of strategies of the Secretary-General (e.g., on women, young people and disability), which met the planned target.

- 1.389 Progress towards the objective and target for 2023 are presented in the performance measure below (see table 1.151).

**Table 1.151
Performance measure**

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Launch of the new United Nations Sustainable Development Cooperation Framework at the country level, allowing for a robust dialogue between United Nations country teams and the host Government, facilitated by the strengthened resident coordinator system and the launch of the management and accountability framework	Strengthened leadership talent pipeline and gender-balanced appointments of the resident coordinators, to better respond to the sustainable development needs of Governments	Strengthened resident coordinators, identified through an integrated talent management system, led United Nations country teams in an increasing number of leadership management interventions supporting Governments across all regions, and in the implementation of strategies of the Secretary-General (e.g., on women, young people and disability)	Resident coordinators, identified through an integrated talent management system, effectively lead United Nations country teams in working with partners and supporting Governments across all regions in implementing the 2030 Agenda and other intergovernmental agreements	Resident coordinators, identified and supported through an integrated talent management system, effectively lead United Nations country teams in delivering a scaled-up, integrated response to countries' sustainable development needs and priorities

Result 2: countries enabled to mitigate the effects of COVID-19

Programme performance in 2021 and target for 2023

- 1.390 The work of the Development Coordination Office contributed to the development and continued implementation by United Nations country team of 122 socioeconomic response plans, covering 140 countries, and the subsequent reintegration of all of these plans into the joint workplans of the Cooperation Framework/United Nations Development Assistance Frameworks, which met the planned target.
- 1.391 Progress towards the objective and target for 2023 are presented in the performance measure below (see table 1.152).

Table 1.152
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	The resident coordinator effectively leads the United Nations emergency development offer to Governments during the COVID-19 pandemic through United Nations socioeconomic response plans and analysis. These plans cover a short-to medium-term development response, paving the way for a more sustainable recovery towards achieving the Sustainable Development Goals	The resident coordinator and the United Nations country team implemented socioeconomic response plans, in alignment with the longer-term United Nations programming frameworks, adjusting programming across country contexts to ensure that COVID-19 recovery is an integral part of a country’s development and Sustainable Development Goal strategy and, by the end of 2021, the response is folded into the joint workplans of the Cooperation Framework (or United Nations Development Assistance Frameworks, where appropriate)	The resident coordinator and the United Nations country team provide effective support to Governments on COVID-19 recovery and the Sustainable Development Goals through effective implementation of adjusted programmatic frameworks. An integrated focus brings together progress in COVID-19 recovery with other key intergovernmental commitments concerning the 2030 Agenda, the Paris Agreement and the Addis Ababa Action Agenda	The resident coordinator and the United Nations country team provide effective support to Governments on achievement of the Sustainable Development Goals by including COVID-19 recovery into newly developed or adjusted ongoing Cooperation Frameworks, with an increasing focus on foresight and proactive risk management and prevention, in line with intergovernmental commitments

Result 3: countries access integrated advice on most transformational policy levers for achievement of the Sustainable Development Goals from the United Nations and relevant partners

Proposed programme plan for 2023

- 1.392 The Office enhanced the capacities of Resident Coordinators and United Nations country teams – through, inter alia, policy guidance, systems and skills development – to use joined-up programming processes and joint programmes as tools for increased joint, coherent and cross-sectoral work by the United Nations, while also leveraging all relevant stakeholders and resources for accelerated progress towards achievement of the Sustainable Development Goals.

Lessons learned and planned change

- 1.393 As highlighted by the OIOS evaluation, the lesson for the Office was that improved programming coherence has not yet resulted in fully coordinated delivery of operational activities at the country level. Progress on developing and implementing joint work plans was moderate, while joint programmes were not consistently seen as the most feasible mode of coordinated programme delivery. Among others, reasons include lack of collaboration incentives, insufficient interoperability of systems, which can duplicate work, and increased transaction costs. In applying the lesson, the Office will increase its support to Resident Coordinators and United Nations country teams to develop joint work plans in the UN-Info platform, make them publicly available on the country teams’ websites and on the new United Nations Sustainable Development Group data portal, and use joint programmes more strategically for greater impact. The Development Coordination Office will work with United Nations entities to enable interoperability of agency systems with UN-Info to simplify data entry, as part of a bigger effort to promote incentives for United Nations Sustainable Development Group entities and country teams to share and use information for ongoing collective planning, implementation, monitoring and course correction, and to position the United Nations strategically within the broader context of development stakeholders at the country level.
- 1.394 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXXII).

Figure 1.XXXII

Performance measure: percentage of programme country Governments that “agree” that the United Nations development system provides integrated policy advice tailored to national needs and priorities

Legislative mandates

- 1.395 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

70/1	Transforming our world: the 2030 Agenda for Sustainable Development	74/238	Operational activities for development of the United Nations system
71/243	Quadrennial comprehensive policy review of operational activities for development of the United Nations system	75/233	Quadrennial comprehensive policy review of operational activities for development of the United Nations system
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system	76/4	Review of the functioning of the reinvigorated resident coordinator system, including its funding arrangement

Economic and Social Council resolution³

2019/15; 2020/23 Progress in the implementation of General Assembly resolution 71/243 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system

Deliverables

1.396 Table 1.153 lists all deliverables of the programme.

Table 1.153

Resident coordinator system: deliverables for the period 2021–2023, by category and subcategory

Consultation, advice and advocacy: consultation with Member States, regional organizations and the private sector on common action in support of development cooperation frameworks; substantive briefings to Member States (6).				
D. Communication deliverables				
Digital platforms and multimedia content: UN-Info for use by partners as the central platform for transparency and data relating to the United Nations Development Assistance Framework and Cooperation Framework results.				
E. Enabling deliverables				
Administration: occupational health and safety for United Nations personnel and dependents; support for the design and implementation of common back offices and common premises; timely issuance of Secretary-General's delegation of authority to newly appointed Resident Coordinators and monitoring of accountability key performance indicators.				
Legal services: negotiation and conclusion of the legal framework to create an authorizing environment for the reinvigorated resident coordinator system with host countries.				

³ The Economic and Social Council resolutions derived from the Council's segment on operational activities for development also continue to guide the resident coordinator system. The most recent such resolution is 2020/23.

B. Proposed post and non-post resource requirements for 2023

Overview

- 1.397 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in table 1.154.

Table 1.154

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2021 expenditure	2022 appropriation	Changes				Total	Percentage	2023 estimate (before recosting)
			Technical adjustments	New/expanded mandates	Other				
Grants and contributions ^a	13 571.8	13 442.5	–	–	–	–	–	13 442.5	
Total	13 571.8	13 442.5	–	–	–	–	–	13 442.5	

^a Represents the Secretariat share of the cost-sharing arrangement in the United Nations Sustainable Development Group, to be disbursed as a grant.

- 1.398 Pursuant to General Assembly resolution [72/279](#), the resident coordinator system is funded through a 1 per cent coordination levy on tightly earmarked non-core contributions to United Nations system development-related activities, a cost-sharing arrangement among the entities of the United Nations Sustainable Development Group and voluntary contributions. In 2023, the Secretariat share of the cost-sharing arrangement for entities of the Sustainable Development Group will remain at \$13,442,500, proposed to be funded from the regular budget. This amount represents no change compared with the appropriation for 2022.
- 1.399 The methodology for the calculation of the participating entity share and the amount for each participating entity is reflected in the report of the Secretary-General on revised estimates relating to the resident coordinator system under section 1, Overall policymaking, direction and coordination ([A/73/424](#)). As requested by the General Assembly in its resolution [72/279](#), the cost-sharing methodology was reviewed in 2021 as part of a comprehensive review of the reinvigorated resident coordinator system, including its funding arrangements.
- 1.400 For 2023, resources for the resident coordinator system include the special purpose trust fund and the locally mobilized resources. Under the special purpose trust fund, the resident coordinator system expects to collect a total of \$281.8 million of pooled funding, comprising \$155 million from voluntary contributions, \$77 million from the cost-sharing arrangement and \$50 million from the 1 per cent coordination levy. Under the locally mobilized resources, the resident coordinator system anticipates \$9.2 million of earmarked contributions to be received at the country level for activities financed by third parties that are mobilized locally for functions that go beyond the core focus of the special purpose trust fund. The distribution of the resources, which amounts to \$291,043,700 is reflected in tables 1.155 and 1.156.

Overview of resources of the resident coordinator system

Total	206 670.0	291 043.7	–	–	291 043.7

- 1.401 The overall resource requirements for 2023 include \$281.8 million for the special purpose trust fund for the resident coordinator system and \$9.2 million for locally mobilized resources.
- 1.402 Resource requirements of \$281.8 million under the special purpose trust fund for 2023 are maintained at the same level as 2022 and include the cost-neutral redeployments among the objects of expenditure. The redeployments mainly reflect an increase of \$3.3 million under furniture and equipment, due mainly to the acquisition of vehicles for the resident coordinator offices; an increase of \$2.0 million under general operating expenses to cover increased costs of rental, utilities and maintenance of facilities; an increase of \$1.8 million under travel of staff in the light of the easing of global travel restrictions. These are offset by decreases in other objects of expenditures, primarily under contractual services (\$4.5 million), as a result of efficiencies created by streamlined systems

Part I Overall policymaking, direction and coordination

including the phased transition of operational services from UNDP to Secretariat entities, in line with the management reform agenda of the Secretary-General, and reduced provisions of \$2.1 million for other staff costs reflecting the increased recruitment and onboarding of staff.

- 1.403 The locally mobilized resources in the amount of \$9.2 million are distributed across the following objects of expenditure: other staff costs (\$4.6 million), consultants (\$2.8 million), travel of staff (\$0.9 million), and operating expenses (\$0.9 million).
- 1.404 The estimated number of posts for the special purpose trust fund in 2023 is reflected in table 1.157. The estimated number of posts reflects a net increase of 20 posts compared with the 2022 estimates. The estimates for post resources are based on UNDP standard costs. The Secretariat will, in the next budget cycle, apply United Nations-specific standard costs.

Executive direction and management

1.405 The proposed resources under executive direction and management would provide for the Office of the Assistant Secretary-General for Development Coordination. This Office provides strategic planning for the resident coordinator system, supports the Chair, Vice-Chair, principals and working mechanisms of the United Nations Sustainable Development Group and monitors strategic aspects of quadrennial comprehensive policy review implementation and progress tracking. In addition, it is responsible for managing strategic partner relations and coordinating the engagement of the United Nations development system with the Executive Committee/Deputies Committee mechanism and for providing oversight and strategic leadership of the Office of the Sustainable Development Group. The Assistant Secretary-General is responsible for the oversight of the 132 resident coordinator offices and the work of 123 Development Coordination Office staff. One P-3 post was added to further strengthen the coordination, tasking and liaison functions between the Office of the Assistant Secretary-General, other departments, and other agencies, funds and programmes. The distribution of resources is reflected in tables 1.159 and 1.160.

1.406 The extrabudgetary resources under this component are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

Global coordination

1.408 Under global coordination, branches and sections of the Development Coordination Office at Headquarters work with entities and mechanisms of the United Nations Sustainable Development Group to improve the strategic and operational coherence of operational activities for development by fostering system-wide approaches and providing coordinated and, where relevant, integrated policy and strategic guidance to United Nations country teams. Responsibilities under global coordination are implemented by two branches and two sections: the Policy and Programming Branch, the Resident Coordinator System Leadership Branch, the Country Business Strategies Section and the Communications and Results Reporting Section. The following three posts were added in the Policy and Programming Branch to further strengthen the existing capacities: two P-4 posts to provide an integrated analytical framework on the system-wide reporting requirement on the sustainable development goals and to provide support on the climate and food systems, and one P-3 post in support of the country-level pooled funds approach and strategies.

1.409 The distribution of resources for global coordination is reflected in tables 1.163 and 1.164.

Regional coordination

1.410 The regional coordination function of the resident coordinator system focuses on overseeing and supporting the coherent and effective delivery of operational activities for development by resident coordinators and United Nations country teams through integrated policy programming and operational support, together with the regional teams of the United Nations Sustainable Development Group and the United Nations regional economic and social commissions. To support the increasing coordination and liaison activities of the offices in the regions, six posts were added: five posts (1 D-1, 1 P-4, 1 P-3 and 2 LL) in the regional office for Africa and one P-4 in the regional office for Asia and the Pacific.

1.411 The distribution of resources for regional coordination is reflected in tables 1.165 and 1.166.

Country coordination

1.412 Country coordination consists of the work that resident coordinators undertake with the support of resident coordinator offices in leading United Nations development system support for the implementation of the 2030 Agenda at the country level. This is carried out in line with national priorities, needs and planning frameworks under the ownership and leadership of programme countries, in a coherent, coordinated and, where possible, integrated manner to maximize impact and sustainable development results. The number of posts has increased by eight, reflecting the net effect of the addition of four P-5 and five P-4 posts and the reduction of one National Professional Officer post, in accordance with the alignment of the staffing table with the standard post structure for each office.

1.413 The distribution of resources for country coordination is reflected in tables 1.167 and 1.168.

Programme support

1.414 Programme support services are provided by the Resident Coordinator System Business Management Branch in the Development Coordination Office, with the overall objective of managing the operations of the resident coordinator system to ensure full accountability for and oversight of the system. The Branch serves as the Executive Office of the Development Coordination Office and provides daily business services and administrative support to the Office at the global level, including on human resources, information technology, finance, travel, procurement and systems platform management. It is responsible for the development and oversight of and reporting on the Office's headquarters budget. The Branch manages the operational relationship with the service providers of the resident coordinator system. It advises and provides backstopping support on business services to the Office's regional desks and resident coordinator offices. It coordinates and oversees resident coordinator system results-based budgeting and regular reporting, including to the Fifth Committee. It is responsible for financial management and financial reporting on all sources of funds for the resident coordinator system. The Branch is also responsible for policy guidance on management accountability and oversight support for the Office in coordination with other offices within the Secretariat. Two posts were added to the Branch, including one P-4 post to support increasing oversight and reporting requirements, as well as the management of the trust fund for locally mobilized resources, and one P-3 post to provide policy support for conduct and discipline matters and on the performance management of the resident coordinator system.

1.415 The distribution of resources for programme support is reflected in tables 1.169 and 1.170.

^a The chart reflects only posts to be funded through the special purpose trust fund for the resident coordinator system during 2023. All posts at the D-1 level and above are subject to concurrence of the Advisory Committee on Administrative and Budgetary Questions.

Annex II

Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies

Advisory Committee on Administrative and Budgetary Questions (including its secretariat)

Brief description of the recommendation

Action taken to implement the recommendation

General Assembly resolution on the proposed programme budget for 2022 (resolution [76/245](#))

Takes note of paragraph I.15 of the report of the Advisory Committee, and requests the Secretary-General to examine the need to reclassify the three posts, in close consultation with the Advisory Committee, and to report thereon in the next budget proposal (para. 36).

The proposed budget for the Advisory Committee includes the request to reclassify the three posts.

Resident coordinator system

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions ([A/76/7](#))

The Advisory Committee trusts that the Secretary-General will provide an update regarding the status of expenditure for the resident coordinator system to the General Assembly at the time of its consideration of the proposed programme budget for 2022. The Committee reiterates its recommendation that the Assembly request the Secretary-General to provide supplementary information on expenditure, by object of expenditure, for the full budget of the resident coordinator system, along with the explanation of variances in the context of future budget submissions (see also [A/75/7](#), para. I.27) (para. I.20).

The information on expenditure by object of expenditure is included in the present report under tables 1.156, 1.160, 1.162, 1.164, 1.166, 1.168 and 1.170.

The Advisory Committee notes the shift of resources away from country-level coordination and is of the view that greater efforts should be made to enhance the country-level presence. The Committee trusts that further justifications will be provided to the General Assembly at the time of its consideration of the present report and an update will be included in the next budget submission (see also paras. I.27, I.28 and I.35 below) (para. I.24).

The \$4.7 million reduction in the country coordination component in the 2022 budget fascicle was a net effect of an increase of \$11.3 million under posts and a decrease of \$16.0 million under non-posts that was due primarily to the reduction in the cost of “contractual services” and “consultants” and reduced demand for travel globally. The nature of the Development Coordination Office regional teams is to provide country-level support, and the increased posts in Programme Support and the Executive Direction and Management components at Headquarters also largely support country-level operations and the resource mobilization efforts for the whole resident coordinator system. Therefore, the net reduction does not mean a shift in focus or the priorities of the resident coordinator system, which continues to

The Advisory Committee notes that a standardized approach has been taken as regards the staffing of each resident coordinator office irrespective of country needs or regional coverage and the presence of other entities on the ground. The Committee is of the view that the resident coordinator system should also leverage the administrative and technical support services of the United Nations headquarters and offices away from headquarters on a cost recovery basis and trusts that additional information regarding the approach of the resident coordinator system, and the cooperation with the headquarters and other entities, will be provided in the context of the next programme budget submission (see para. I.35 below) (para. I.27).

The Advisory Committee recommends that the General Assembly request the Secretary-General to take further measures to ensure an equitable representation of Member States in the resident coordinator system at the global, regional and national levels. The Committee also recommends that the Assembly request the Secretary-General to ensure the equal treatment of internal and external candidates in recruitment

coordinate and leverage the United Nations development system to support programme countries in the implementation of the 2030 Agenda.

The vision of the Secretary-General for the United Nations development system reform, as outlined in his report on repositioning the United Nations development system to deliver on the 2030 Agenda (A/72/684-E/2018/7), cites the need for a minimum capacity of five substantive staff members in each resident coordinator office, including experts in coordination and strategic planning, economics, tailored policy support, results monitoring and evaluation, and strategic partnerships.

As noted in the same report, the Secretary-General proposed that an integrated communications structure be formed by co-locating and merging the country offices of the United Nations information centres with resident coordinator offices in nearly 50 countries. Since the reform, 44 such centres have been integrated with resident coordinator offices, where the communications and advocacy functions of the resident coordinator offices are performed by United Nations information centre staff. This has enabled the resident coordinator offices to leverage the substantial experience and extensive networks of the United Nations information centres and good linkages to national-level stakeholders and United Nations Headquarters without recruiting separate resident coordinator offices communications officers.

In addition, the resident coordinator system has been leveraging the administrative support services of political missions in 16 in situ pilot countries and of the United Nations Office at Nairobi since 2020, and of the United Nations Office at Geneva, the Economic and Social Commission for Western Asia (ESCWA), the Economic and Social Commission for Asia and the Pacific (ESCAP), the Economic Commission for Latin America and the Caribbean (ECLAC) and the Global Service Centre in Brindisi, Italy, since 2021, for a range of human resources, financial, travel, property and operational services for resident coordinator offices on a cost recovery basis.

The Development Coordination Office attaches great importance to achieving and maintaining a diverse workforce of the resident coordinator system. As of the end of March 2022, 107 nationalities were represented within the 365-person core international professional workforce of the resident coordinator system.

Section 1 Overall policymaking, direction and coordination

Brief description of the recommendation

processes, in accordance with General Assembly resolutions and the United Nations rules, regulations and processes governing the recruitment of staff. The Advisory Committee will review recruitment matters further in the context of its forthcoming reports on human resources management (para. I.29).

The Advisory Committee notes the transition process from service provision by UNDP and trusts that information regarding the costs recovered by the Secretariat will be provided to the General Assembly at the time of its consideration of the proposed programme budget for 2022. The Committee also recommends that the Assembly request the Secretary-General to provide, in his next budget submission, an update regarding the global memorandum of understanding with UNDP, and comprehensive and more transparent information on the different cost recovery arrangements with different entities, including the Secretariat, the resources required for delivering those services and any savings and efficiencies achieved (para. I.31).

Action taken to implement the recommendation

Internal and external candidates have always been treated equally in both the system inherited from the United Nations Sustainable Development Group and the revamped resident coordinator selection system. In May 2020, the Development Coordination Office launched a consultation process with the United Nations Sustainable Development Group entities, on how to enhance the resident coordinator selection system while ensuring continued alignment with the Staff Regulations and Rules of the United Nations. The results of this process have been encapsulated in a new policy ([ST/AI/2022/1](#)) specifically focused on resident coordinator selection. The new policy continues to treat internal and external candidates equally when they apply for membership in the resident coordinator pool.

In January 2022, the revised service level agreements were concluded and signed with all service providers for the next phase service transition, including UNDP, the United Nations Office at Nairobi, the United Nations Office at Geneva, ESCWA, ESCAP and ECLAC. This new phase will be the deepest transition in terms of changing the status quo for the financial and people management processes of the resident coordinator offices. It also represents an additional reduction of the volume of UNDP services to a projected \$42 million in 2022, down from the \$60.2 million in 2021, with an expected completion in the transition of human resources, procurement and other non-location dependent operational services by early July 2022.

The service transitions from UNDP to Secretariat service providers resulted in savings and cost avoidance of an estimated \$11 million for the resident coordinator system's special purpose trust fund resources in 2021, up from \$4.6 million in savings in 2020.

In 2021, an estimated \$2.3 million in resources was required by United Nations Secretariat service providers to provide administrative support to the resident coordinator system.

Brief description of the recommendation

The Advisory Committee notes that although resources are destined to remain within the programme budgets at the country level and to be used for additional activities under the programme in the host country, there is a reduction of \$4.7 million under country coordination, and trusts that further justifications will be provided to the General Assembly during the consideration of the present report (see para. I.24 above). The Committee recommends that the General Assembly request the Secretary-General to provide, in the next programme budget submission, updated information on the coordination efforts of the resident coordinator system, including efforts to enhance efficiency gains at the regional and national levels, in particular from business operations and common resource provision (para. I.35).

Action taken to implement the recommendation

The business operations strategy, common back offices and global service centres all form part of the United Nations global shared service architecture, each covering a distinct set of services: the business operations strategy and common back office target in-country, local shared services that must be executed locally. Global shared service centres, meanwhile, target global services that can be provided from anywhere in the world.

The resident coordinator system's mandate is focused on delivering the 2030 Agenda at the country level. As such, the resident coordinator system engagement is primarily focused on the country level initiatives such as the business operations strategy, common premises and common back offices, and less so on the global shared service centres.

The United Nations retains the commitment to the original intent of achieving annual efficiency gains of \$310 million, while also acknowledging that the experience and evidence gathered show a need to simplify and adjust the prioritization of targets for some of the projects, such as the local shared service centres and common premises projects. This includes a need to adjust the timelines of these two projects to adjust for delays incurred due, in large part, to the pandemic and more fully include additional reform efforts, such as those related to global support services, to fully capture the efficiency gains of the system. Furthermore, executive-level engagement and support for the implementation of the projects remain crucial if the objectives of these efficiency initiatives are to be achieved within the time frames identified.

Examples of initiatives being explored to achieve greater efficiency include scaling of the following global shared services: passenger mobility, carpooling, accommodation, and medical services provided through the United Nations booking hub (a platform for requesting and managing services); supply chain services, including placing, receiving and managing requests utilizing the service marketplace platform; human resource services, including onboarding and offboarding, leveraging the One United Nations human resources centre in Bonn, Germany; supplier/vendor creation sourcing and management of central database; and procurement services, exploration of broader usage of the UNOPS "Web Buy" platform for procurement sourcing.

Annex III

Summary of proposed changes in established and temporary posts, by component

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Advisory Committee on Administrative and Budgetary Questions (including its secretariat)	(2) 2 (1) 1	P-4 P-5 GS (OL) GS (PL)	Reclassification of 2 posts of Administrative Officer (P-4) to Senior Administrative Officer (P-5) Reclassification of 1 post of Meetings Services Assistant (GS (OL)) to Senior Meeting Services Assistant (GS (PL))	The proposed reclassification is in line with the request of the General Assembly contained in its resolution 76/245 , and reflects the outcome of consultations with the Advisory Committee wherein in it was determined that the proposals were valid and appropriate given the increase in workload complexity, breadth of analyses and expanded administrative support requirements necessary to service the work of the Committee. The Committee continues to consistently experience longer and more complex executive sessions requiring an enhanced level of technical expertise and preparation by the Secretariat, both in terms of preparatory analysis on a broad range of issues and meetings services. The reclassifications of the P-4 posts thus reflect primarily the requirement for a higher level of experience and knowledge to provide enhanced drafting outputs and preparatory analysis, substantive and technical advice and support to the deliberations of the Committee, on matters of increased complexity, including requests for resources, reform proposals, policy proposals and cross-cutting issues. The reclassification of the Meetings Services Assistant post is in support of the logistic and administrative capacity required to support the work of the Advisory Committee, reflecting the additional complexity of coordination in scheduling and servicing the meetings of the Committee.
Board of Auditors (including its secretariat)	(1) 1	GS (OL) GS (PL)	Reclassification of 1 post of Administrative Assistant (GS (OL)) to Senior Administrative Assistant (GS (PL))	The proposed reclassification would strengthen the secretariat's support to the Board of Auditors. The upward reclassification reflects the increased requirements for administrative support to the Board of Auditors, in particular in the processing and submission of the Board's reports, being the focal point for all of the technology needs of the office and for information technology access issues, to support the Executive Secretary in the preparation, implementation and monitoring of the Office's budget, and for recruitment activities and other administrative support to the sessions of the Board.
Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse	4	USG; 1 P-5, 1 P-4 and 1 GS (OL)	Conversion of 4 posts of Special Coordinator (USG); 1 Senior Political Affairs Officer (P-5); 1 Political Affairs Officer (P-4) and 1 Administrative Assistant GS (OL)	The proposed conversion of the four posts, previously funded from extrabudgetary resources to the regular budget, follows a review of the current funding arrangements, the anticipated decrease in extrabudgetary funds and the need to ensure a more sustainable funding arrangement. The conversion would also ensure continuity of the important role played by the Special Coordinator and his/her Office on strengthening the United Nations response to sexual exploitation and abuse.
Office of Administration of Justice	(1) 1	GS (OL) LL	Redeployment of 1 post of Staff Assistant from New York to Nairobi	The proposed redeployment would support the Office of Staff Legal Assistance in Nairobi in dealing with the increased workload and servicing of staff in the region.

Foreword

In 2023, the conference management operations in New York, Geneva, Vienna and Nairobi will build on the lessons learned within the business continuity environment over the past three years, in line with their mandates, and will support the intergovernmental processes in a coordinated way, focusing on the optimization and standardization of workflows and ensuring the sustainability of the efficiencies achieved.

In order to stabilize and maintain the innovative solutions that have allowed the Department for General Assembly and Conference Management to manage its workload and to ensure business continuity as well as the highest quality standards mandated by the Member States, while decreasing the level of required resources and addressing challenging external factors, its dispersed technological capabilities will be consolidated and enhanced as described in the section on programme support of the present budget proposal, in partnership with the Office of Information and Communications Technology.

These measures – reinvesting in the linguistic and other conference management tools that help uphold multilingualism and support the innovative ways of working developed by the Department’s talented and dedicated staff – will ensure the continuity of the solutions created by the Department, which are geared specifically towards the needs of the United Nations and its intergovernmental mechanisms.

The Department will continue to maintain, develop and invigorate its human resources base by enhancing and enriching the skill packages of the current staff and external contributors. Training and outreach, as well as efficient and timely recruitment and selection, will ensure the rejuvenation of the talent pool, which is being challenged by projected retirements over the next several years.

(Signed) **Movses Abelian**
Under-Secretary-General for General Assembly and Conference Management

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 2.1 The mandates of the Department for General Assembly and Conference Management derive from the relevant rules of procedure and resolutions of the principal organs of the United Nations, including General Assembly resolutions [43/222 A–E](#), [50/11](#), [73/346](#), [74/303](#) and [76/237](#). The Department is responsible for:
- (a) The facilitation, through the provision of procedural and technical secretariat support and authoritative advice, of the orderly and effective conduct of the deliberations and follow-up actions of the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and various subsidiary organs, the Economic and Social Council and most of its subsidiary bodies, and special United Nations conferences;
 - (b) Assistance in the revitalization efforts of the Assembly and other United Nations bodies, including through the substantive servicing of meetings of the Ad Hoc Working Group on the Revitalization of the Work of the General Assembly and the intergovernmental negotiations on the question of equitable representation on and increase in the membership of the Security Council and other matters related to the Council;
 - (c) Substantive and technical secretariat support to the Committee on Conferences and high-quality conference-servicing support, including multilingual meeting and documentation services, to all intergovernmental and expert bodies meeting at Headquarters and at the United Nations Offices at Geneva, Vienna and Nairobi, and other conferences and meetings held under the auspices of the United Nations at other locations, under shared responsibility with the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, taking into account the principle of equal treatment to be applied to all official languages in each organ of the Organization;
 - (d) Protocol services for the Secretary-General, the Deputy Secretary-General and visiting high-level dignitaries, as well as host country liaison services for Member States and Permanent Observers and the provision, upon request, of protocol services to the President of the General Assembly.
- 2.2 In addition, pursuant to General Assembly resolution [69/250](#), the Under-Secretary-General for General Assembly and Conference Management is responsible for Secretariat-wide coordination of multilingualism, a core value of the United Nations, and serves as system-wide lead entity on this matter in collaboration with the secretariat of the United Nations System Chief Executives Board for Coordination.
- 2.3 In accordance with General Assembly resolution [57/283 B](#), the Under-Secretary-General for General Assembly and Conference Management sets the policies, formulates standards and guidelines, manages resources under section 2 of the programme budget and oversees operations at Headquarters, while the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi are responsible for ensuring the implementation of those policies, standards and guidelines and for managing day-to-day operations at their respective duty stations. Furthermore, the Secretary-General has promulgated the establishment of a framework for delegation of authority (see [ST/SGB/2019/2](#)). The Secretary-General's bulletin on the organization of the Department ([ST/SGB/2021/3](#)) reflects the intergovernmental mandates confirming the division of responsibilities among the Under-Secretary-General and the Directors-General at Geneva, Vienna and Nairobi for delivering conference services in a standardized and integrated manner.

Strategy and external factors for 2023

- 2.4 The 2023 programme plan is guided by a strategy of continuous modernization and improvement in all areas. The Department will optimize the provision of high-quality services that are timely, cost-effective and sustainable, while minimizing environmental impact and enabling long-term business continuity, in support of multilingualism. The strategy will benefit from the lessons learned, skills developed and best practices established during the coronavirus disease (COVID-19) pandemic in 2020 and 2021.
- 2.5 The Department will contribute to the implementation of the Secretary-General's strategic priorities, specifically in such areas as improving digital cooperation; upgrading the United Nations conference services through digital business transformation and using technologies to create and support data assets and digital public goods; boosting partnerships; and maintaining business readiness. In the area of the provision of technical secretariat services to its intergovernmental clients, the e-deleGATE platform will be further upgraded and connected with other conference management systems, allowing for the provision of additional support to the digital version of the multilingual *Journal of the United Nations* year-round. The Protocol and Liaison Service will continue to improve the digital tools available to permanent missions to enhance service-delivery modalities and quality.
- 2.6 In the area of meetings management, the Department will continue to improve the gMeets system in response to operational requirements, with the active involvement of all duty stations. At the enterprise system level, improvements will include all stages of planning, sourcing and the delivery and billing of conference services through an automated single digital bill, which will replace several manual steps and strengthen the Department's transparency to clients and its oversight by Member States.
- 2.7 The Department will provide higher-quality and more reliable analytical data to facilitate performance monitoring and evaluation based on its new gData 2.0 system. The vital statistics aggregated and analysed in the system, as well as the analysis of feedback from Member States, will guide the Department's support of the intergovernmental and expert bodies.
- 2.8 With the active involvement of the United Nations Offices at Geneva, Vienna and Nairobi, Headquarters in New York will continue to lead global innovation projects in areas related to documentation, including gText and gDoc 2.0, as well as knowledge management and training tools. All duty stations will continue to maintain and enhance the multilingual UNTERM portal used by staff, language experts, Member States and the general public. UNTERM is gradually becoming the United Nations terminology portal thanks to its adoption by other organizations of the United Nations system. A specific eLUNa interface for editors will be deployed, supplemented by platforms to support the training and development activities of language staff. Documentation services will expand the scope of its machine-readability project to cover new categories of documents.
- 2.9 All four duty stations will continue to build on and further modernize their digital infrastructures, including by supporting the integration of speech-to-text technology into publishing workflows and expanding digital document distribution. In collaboration with the Office of Information and Communications Technology, the Department will continue to assess new and emerging technologies that enable the provision of interpretation services for virtual and hybrid meetings within the framework of the business continuity requirements, should it be requested by Member States.
- 2.10 The proactive analysis of client needs and feedback will continue to guide the Department's activities in supporting the work of the intergovernmental and expert bodies. The Department will continue to use structured surveys to gain insights into its clients' business requirements.
- 2.11 The Department will coordinate measures to enhance multilingualism in the Organization in accordance with the terms of reference of the Coordinator for Multilingualism ([A/71/757](#), annex II).
- 2.12 For 2023, the Department's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include, for example, the increased adoption of new tools (subprogramme 1); the introduction of the One-Stop Shop platform (as part of gMeets) to Member States so they are able to request meetings and conference services (subprogramme 2, New York); the provision to Member States of access to individual General Assembly decisions in the official languages through the e-deleGATE platform (subprogramme 3, New York); and the further refinement of contingency solutions with universally

accessible meeting and interpretation services that guarantee sustainable delivery in all working modalities (subprogramme 4 at all duty stations).

- 2.13 Reflecting the importance of continuous improvement and of responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme that have resulted from the COVID-19 pandemic. The Department will maintain the capability to adjust rapidly to changing circumstances and deploy teleworking methods fully or in part as a mainstream service provision with regard to documentation and meeting services. At the same time, it is assumed that those operational conditions will have improved and will allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.
- 2.14 With regard to cooperation with other entities, the Department will continue to engage with the network of 23 universities that have concluded memorandums of understanding with the United Nations on the training of candidates for competitive examinations for language positions, associated membership agreements and remote practicum agreements.
- 2.15 With regard to inter-agency coordination and liaison, the Department will continue to provide substantive and technical secretariat support and serves as the permanent Chair of the International Annual Meeting on Language Arrangements, Documentation and Publications, an international forum and network of managers of international organizations that employ conference and language service providers.
- 2.16 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
 - (a) Information on changes to the calendar of conferences and meetings, as well as to the programmes of work of intergovernmental and expert bodies, is made available in a timely manner and in conformity with the applicable rules of procedure;
 - (b) The number of non-calendar meetings does not exceed that of 2019, which was used as the basis for formulating the current budget assumptions and resource requirements, owing to a number of meetings having been postponed, rescheduled and cancelled during 2021;
 - (c) Extraordinary meetings, including special and emergency special sessions, will be scheduled with sufficient notice;
 - (d) The current policy of providing meeting services to the regional and other major groupings of Member States on an “if available” basis will remain unchanged;
 - (e) Unforeseen high-priority documentation will be minimal;
 - (f) Stakeholders will fulfil their responsibilities and obligations in accordance with established rules for the submission of documentation and meeting requests in a predictable manner to allow for the planning and engagement of language capacity;
 - (g) Developments in technology and related industries will continue to occur and support the delivery of conference services, thus enabling efficient operational processes at the enterprise level;
 - (h) Global supply chains, including contractual translation services, computer hardware and technological solutions, for example, are functioning, thus making possible the international and timely sourcing of goods and services.
- 2.17 The Department integrates a gender perspective in its operational activities, deliverables and results, as appropriate.
- 2.18 In line with the United Nations Disability Inclusion Strategy, and guided by General Assembly resolutions [73/341](#) and [74/253](#), the Department will continue to adjust and refine its registration systems, conference management platforms, workflows, seating arrangements and requirements for conference services with a view to assisting delegates and participants with disabilities to contribute on equal terms to the work of the United Nations.

Programme performance in 2021

Impact of the pandemic

- 2.19 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular by requiring a shift in approach to the planning and coordination of meetings and documentation across all subprogrammes. Meeting schedules had to be frequently and rapidly adjusted to the evolving situation and to safety guidelines, resulting in adjustments to documentation submission schedules, which often left limited time to realign translation capacity to deal with fluctuations in the incoming workload. While the submission of unplanned documents affected the timing of processing, staff leveraged the web-based tools developed by the Department, in particular eLUNa, to ensure the timely delivery of all documents.
- 2.20 In addition, within the overall scope of the objectives and in order to support Member States on issues related to the COVID-19 pandemic, the Department assisted in the implementation of mandates by providing interpretation, meetings services, verbatim reporting and publishing services adjusted for remote and hybrid settings to supplement the well-established on-site service delivery. As conditions evolved in 2021, the subprogrammes aligned their working methods to support both remote and on-site formats.

Legislative mandates

- 2.21 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

43/222 A–E ; 76/237	Pattern of conferences	74/303	Revitalization of the work of the General Assembly
50/11 ; 73/346	Multilingualism		

Conference management, New York

General Assembly mandates

A/520/Rev.18	Rules of procedure of the General Assembly (rule 56)
------------------------------	--

Economic and Social Council mandates

E/5715/Rev.2	Rules of procedure of the Economic and Social Council (rule 32)
------------------------------	---

Security Council mandates

96/Rev.7	Provisional rules of procedure of the Security Council (rule 41)
--------------------------	--

Conference management, Geneva

General Assembly resolutions

174 (II)	Establishment of an International Law Commission	34/83 L	Review of the implementation of the recommendations and decisions adopted by the General Assembly at its tenth special session: Committee on Disarmament
1166 (XII)	International assistance to refugees within the mandate of the United Nations High Commissioner for Refugees	48/189	
1722 (XVI)	Question of disarmament		United Nations Framework Convention on Climate Change
S-10/2	Final Document of the Tenth Special Session of the General Assembly	60/184 60/251 ; 63/160	International trade and development Human Rights Council

Part I Overall policymaking, direction and coordination

62/193; 66/201	Implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa	68/1	Review of the implementation of General Assembly resolution 61/16 on the strengthening of the Economic and Social Council
63/263, sect. VI	Questions relating to the programme budget for the biennium 2008–2009; revised estimates resulting from the entry into force of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto	68/268	Strengthening and enhancing the effective functioning of the human rights treaty body system
66/134; 69/153; 71/171	Enlargement of the Executive Committee of the Programme of the United Nations High Commissioner for Refugees	69/9; 71/11	Cooperation between the United Nations and the League of Arab States

Conference on Disarmament mandates

CD/8	Rules of procedure of the Conference on Disarmament
------	---

Economic and Social Council resolutions

36 (IV)	Economic Commission for Europe
2006/38	Workplan on reform of the Economic Commission for Europe and revised terms of reference of the Commission

Conference management, Vienna*General Assembly resolutions*

913 (X)	Effects of atomic radiation	58/4	United Nations Convention against Corruption
1472 (XIV) A; 69/85	International cooperation in the peaceful uses of outer space	68/1	Review of the implementation of General Assembly resolution 61/16 on the strengthening of the Economic and Social Council
1145 (XII)	Agreement governing the relationship between the United Nations and the International Atomic Energy Agency	72/192	Follow-up to the Thirteenth United Nations Congress on Crime Prevention and Criminal Justice and preparations for the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice
2152 (XXI)	United Nations Industrial Development Organization		
2205 (XXI)	Establishment of the United Nations Commission on International Trade Law	74/247	Countering the use of information and communications technologies for criminal purposes
40/243	Pattern of conferences		
50/245	Comprehensive Nuclear-Test-Ban Treaty		
55/25	United Nations Convention against Transnational Organized Crime	76/229	Report of the United Nations Commission on International Trade Law on the work of its fifty-fourth session
55/255	Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime		

Economic and Social Council resolutions and decisions

9 (I)	Commission on Narcotic Drugs	1988/15	Meetings of Heads of National Drug Law Enforcement Agencies: Asia and the Pacific, Africa, and Latin America and the Caribbean
1985/11	Cooperation for the control of illicit drug trafficking and drug abuse in the African region	1990/30	Establishment of a Meeting of Heads of National Drug Law Enforcement Agencies, European Region
1987/34	Meeting of Heads of National Drug Law Enforcement Agencies, Latin America and Caribbean Region	1991/39	Functioning of the Commission on Narcotic Drugs and provisional agenda for its thirty-fifth session
1988/14	Enlargement of the Subcommission on Illicit Drug Traffic and Related Matters in the Near and Middle East	1992/1	Establishment of the Commission on Crime Prevention and Criminal Justice

Section 2 General Assembly and Economic and Social Council affairs and conference management

1993/36	Frequency of and arrangements for meetings of Heads of National Drug Law Enforcement Agencies, Europe	Decision 2011/259	Joint meetings of the reconvened sessions of the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice
Decision 2009/251	Frequency and duration of the reconvened sessions of the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice		

International Narcotics Control Board

Deliverables

2.22 Table 2.1 lists all cross-cutting deliverables of the programme.

Table 2.1
Cross-cutting deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	1	1
1. Report of the Secretary-General on the pattern of conferences	1	1	1	1
2. Report of the Secretary-General on multilingualism	1	1	–	–
Substantive services for meetings (number of three-hour meetings)	23	8	22	22
Meetings of:				
3. The General Assembly related to multilingualism	1	–	–	–
4. The Committee on Conferences, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee on the item on the pattern of conferences	16	4	16	16
5. The Committee for Programme and Coordination, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee related to programme planning and the budgetary process	6	4	6	6
C. Substantive deliverables				
Consultation, advice and advocacy: International Annual Meeting on Language Arrangements, Documentation and Publications with an estimated 60 entities; development of a strategic policy framework on multilingualism at the United Nations Secretariat level.				
D. Communication deliverables				
Outreach programmes, special events and information materials: six language days, two internationally recognized language celebrations and other related observances on multilingualism in accordance with General Assembly guidance; eighth “MoU Conference” to be hosted in 2023 by an MoU Network university, with guidance from the Office of the Under-Secretary-General.				
External and media relations: meetings with language groupings or other relevant international organizations upon request and in line with the role of the Coordinator for Multilingualism.				
Digital platforms and multimedia content: multilingual content for websites and social media accounts of the Department for General Assembly and Conference Management, including on outreach to universities and on multilingualism.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services (110 non-parliamentary documents); correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with Member States.				

Evaluation activities

- 2.23 The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
- (a) An evaluation on language and desktop publishing and text-processing across all four duty stations of the Department (subprogramme 3);
 - (b) An evaluation on editorial productivity in New York (subprogramme 3);
 - (c) An evaluation on monitored self-revision in Geneva (subprogramme 3).
- 2.24 The results and lessons of the evaluations referenced above have been considered for the programme plan for 2023. For example, the global evaluation on language and desktop publishing and text-processing recommended that a rationalized and simplified list of work assignments containing definitions should be created for the use of all duty stations.
- 2.25 The following evaluations are planned for 2023:
- (a) Conference management, New York: workflow management of General Assembly resolutions;
 - (b) Division of Conference Management, Geneva: evaluation of the impact of such things as other duties, leave and sick leave on workload standards in interpretation;
 - (c) Conference Management Service, Vienna: evaluation of PaperSmart and document distribution;
 - (d) Division of Conference Services, Nairobi: evaluation of report-writing services.

Programme of work

Subprogramme 1

General Assembly and Economic and Social Council affairs

Objective

- 2.26 The objective, to which this subprogramme contributes, is to ensure efficient and effective deliberation and decision-making processes of intergovernmental and relevant expert bodies and United Nations conferences.

Strategy

- 2.27 To contribute to the objective, the subprogramme will:
- (a) Provide technical secretariat services to and coordinate substantive support for intergovernmental bodies, including the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and its various subsidiary and ad hoc bodies; the Economic and Social Council and its forums and subsidiary and ad hoc bodies; the Trusteeship Council; and conferences and other ad hoc and extraordinary meetings held under the auspices of the United Nations;
 - (b) Provide procedural advice and substantive, analytical and historical information;
 - (c) Strengthen its core software tools in response to requests from Member States, including e-deleGATE, which will be available in the official languages of the United Nations and will be able to capture interactions among various intergovernmental bodies.
- 2.28 The above-mentioned work is expected to result in:
- (a) The smooth conduct of meetings of the intergovernmental bodies serviced;
 - (b) Expanded availability and accessibility of secretariat support to the delegations;
 - (c) Improved user experience for delegations on the e-deleGATE portal.

Programme performance in 2021

Pre-recorded statements enabled more Heads of State and Government to participate in the general debate of the seventy-sixth session of the General Assembly in spite of COVID-19

- 2.29 In its decision 75/573, the General Assembly decided, without setting a precedent for future general debates, that each Member State, observer State and the European Union might submit a pre-recorded statement of its Head of State, Vice-President, Crown Prince or Princess, Head of Government, Minister or Vice-Minister, to be played in the General Assembly Hall during the general debate of the Assembly at its seventy-sixth session after an introduction by their representative physically present in the Assembly Hall. The subprogramme advised the President of the General Assembly on the preparation of the draft decision, and assisted the President as well as each Member State, observer State and the European Union in the implementation of the decision. By facilitating the submission of pre-recorded statements, the subprogramme assisted in ensuring that all Member States had the opportunity to participate in the general debate despite the pandemic.
- 2.30 Progress towards the objective is presented in the performance measure below (see table 2.2).

Table 2.2
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Number of statements by: Head of State: 81 Vice-president, crown prince or crown princess: 6 Head of Government: 42 Total number of statements: 129	Number of statements by: Head of State: 102 Vice-president, crown prince or crown princess: 1 Head of Government: 55 Total number of statements: 158	Number of statements by: Head of State: 99 Vice-president, crown prince or crown princess: 3 Head of Government: 51 Total number of statements: 153
Comprising no pre-recorded statements	Comprising no pre-recorded statements	Inclusive of pre-recorded statements by: Head of State: 40 Vice-president, crown prince or crown princess: 1 Head of Government: 31 Total number of pre-recorded statements: 72

Result 1: delegations used new e-deleGATE portal services

Programme performance in 2021 and target for 2023

- 2.31 The subprogramme’s work contributed to the effective and efficient deliberation and decision-making processes of intergovernmental and relevant expert bodies, in line with its mandate, through the assistance provided during meetings as well as the provision of additional modules/services provided to delegations through the e-deleGATE portal, resulting in a 100 per cent satisfaction rate, which met the planned target.
- 2.32 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.I).

Figure 2.I
Performance measure: continued satisfaction by bureau members and representatives of Member States
(Percentage)

Note: Performance in 2021 is also evidenced by letters received from subsidiary bodies that indicated benefits from the use of e-deleGATE and the adoption by the General Assembly of resolution 75/325, in which it requested the Secretariat to continue to improve, harmonize and unify e-services provided to Member States under e-deleGATE with a view to creating a full-fledged delegates’ online workplace in all six official languages in order to save costs, reduce environmental impact and improve the distribution of documents.

Result 2: enlarged procedural toolkit for intergovernmental meetings

Programme performance for 2021 and target for 2023

- 2.33 The subprogramme’s work contributed to the continuation of both in-person as well as remote intergovernmental meetings through the addition of new tools and methods to the standard service toolkit of the subprogramme, which met the planned target.
- 2.34 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2.3).

Table 2.3
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021(actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Existing modalities for intergovernmental meetings	Emergence of new tools at the request of Member States	Member States use new tools, including for pre-recorded statements, electronic receipt of draft resolutions and virtual informal consultations on draft resolutions	New tools mainstreamed in intergovernmental proceedings	Increased adoption of new tools and positive feedback from Member States

Result 3: increased meeting efficiency through concurrent use of time suspended for election ballot counting

Proposed programme plan for 2023

- 2.35 When secret ballots are held for the elections of intergovernmental bodies supported by the subprogramme, the meetings are normally suspended, in some instances for more than one hour, to count the ballots. During the seventy-fifth session of the General Assembly, the subprogramme began to use, when possible, the time used to count ballots for the consideration of other matters, rather than suspending the meeting. For example, during the counting of the ballots for the election of the President of the General Assembly, meetings of the main committees were held. During the counting of the ballots for the by-election of members of the Economic and Social Council, the Assembly considered agenda items 7, Organization of work, adoption of the agenda and allocation of items: reports of the General Committee, and 111, Crime prevention and criminal justice.

Lessons learned and planned change

- 2.36 The lesson for the subprogramme was that the consideration of other matters while ballots were counted allowed the subprogramme to support intergovernmental meetings in a manner that enhanced the effective use of the delegates’ time and the resources of the subprogramme. In applying the lesson, the subprogramme will apply this arrangement to ensure a more effective experience for the delegates of Member States.
- 2.37 Expected progress towards the objective is presented in the performance measure below (see figure 2.II).

Figure 2.II
Performance measure: time used for consideration of other matters while counting the ballots for the first round of balloting of the elections of non-permanent members of the Security Council and of 18 members of the Economic and Social Council, in minutes

Note: The suspensions of the seventy-third session in 2019 were for 45 and 70 minutes, respectively, for the two ballot counts, and a secret ballot was held without a plenary meeting in 2020, pursuant to decision 74/557.

Deliverables

2.38 Table 2.4 below lists all deliverables of the subprogramme.

Table 2.4
Subprogramme 1: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	255	199	263	197
Documents of:				
1. The General Assembly and its subsidiary bodies	175	102	175	102
2. The Economic and Social Council and its subsidiary bodies	75	86	75	90
3. United Nations conferences	4	10	12	5

Conference management, New York

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.39 The objective, to which this subprogramme contributes, is to ensure efficient, effective, multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.40 To contribute to the objective, the subprogramme, leveraging the enterprise conference management tools (gMeets and gDoc) and data, will:
- (a) Optimize capacity for meetings and documentation services in a globally coordinated manner by addressing user requirements across duty stations and by managing, monitoring and evaluating conference services in an integrated manner;
 - (b) Provide technical and substantive support to the Committee on Conferences through the expanded use of the e-deleGATE portal;
 - (c) Continue to centrally coordinate evaluation activities and risk management and provide high-quality and reliable data to facilitate informed managerial decision-making and performance monitoring. The subprogramme plans to implement business continuity in all activities.
- 2.41 The above-mentioned approach is expected to result in:
- (a) The addressing of Member States needs with more responsive, timely, efficient and user-friendly conference services;
 - (b) Smooth deliberations in the intergovernmental process;
 - (c) Well-established and mature standard operating procedures complemented by information technology systems applied to all services for Member States;
 - (d) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2021

One-Stop Shop: addressing new business requirements in the context of the COVID-19 pandemic

- 2.42 In 2021, the subprogramme focused on the implementation of business continuity measures related to the management of virtual and hybrid meetings in the context of the pandemic. Clients were provided new features in One-Stop Shop that allowed them to request those new modes of meetings and events efficiently and easily, thus enabling business continuity of the intergovernmental processes. Clients were able to access a new option to book virtual rooms at Headquarters and across all duty stations, while conference officers received access to new planning and management features for virtual and hybrid meetings, enabling them to identify meeting requests that needed remote simultaneous interpretation. The new features were linked to gMeets metadata to allow the timely global monitoring and reporting of meeting data. Clients were also able to continue with their meeting activities related to the intergovernmental processes during unexpected situations resulting from the COVID-19 pandemic. In 2021, the One-Stop Shop portal processed a total of 2,175 virtual meetings and 180 hybrid meetings.
- 2.43 Progress towards the objective is presented in the performance measure below (see figure 2.III).

Figure 2.III

Performance measure: number of virtual and hybrid meetings requested using One-Stop Shop

Planned results for 2023

Result 1: improved availability of multilingual documents for Member States

Programme performance in 2021 and target for 2023

- 2.44 The subprogramme's work contributed to a rate of timely issuance of documents in all official languages of 94 per cent, which did not meet the planned target of 100 per cent. The target was not met as the continued uncertainty of meeting dates owing to the ongoing pandemic led to sudden peaks in the incoming workload, and subsequent changes to meeting dates resulted in the reprioritization of incoming and existing workloads to ensure that all reports were issued prior to the start of the new session dates.
- 2.45 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.IV).

Figure 2.IV
Performance measure: timely issuance of parliamentary documents

(Percentage)

Result 2: comprehensive, well-tested, fail-safe business continuity readiness in all areas of conference management

Programme performance in 2021 and target for 2023

- 2.46 The subprogramme’s work contributed to 84 per cent of programmed meetings held, which did not meet the target of 100 per cent. The target was not met owing mainly to the pandemic, as the meeting schedules had to be rapidly adjusted to the evolving situation, and organizers cancelled a number of meetings.
- 2.47 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.V).

Figure 2.V
Performance measure: percentage of programmed meetings held

Result 3: efficiency gains and enhanced accountability for conference and event management services

Proposed programme plan for 2023

- 2.48 The subprogramme is contributing to a Department-wide project aimed at facilitating the business readiness of the four key enterprise systems in the conference and event management cluster of Umoja Extension 2: gMeets, eAPG, gDoc and Indico.UN. Currently those services are delivered through an informal supply chain, spanning several teams that coordinate the planning, resourcing, delivery and billing of conference services. To produce the final service bill, users process the same data sets using separate systems, which results in duplication of effort and potentially inconsistent data. The project is intended to integrate disparate financial processes to improve usability, efficiency and monitoring capabilities across all areas in meetings and documentation services, with a focus on accessing data from the source systems.

Lessons learned and planned change

- 2.49 The lesson for the subprogramme was that the large number of stakeholders affected and the wide project scope required a structured change management process, leading to formalized and streamlined workflows and data governance arrangements for the Department’s enterprise systems. In applying the lesson, the subprogramme will engage with stakeholders to collect user and business requirements, which is expected to result in data connection and harmonization among different systems. Automated single billing will replace several manual steps that are currently performed for cost recovery and invoicing, resulting in coherent, faster and more transparent service.
- 2.50 Expected progress towards the objective is presented in the performance measure below (see table 2.5).

**Table 2.5
Performance measure**

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	Analysis of existing supply chain and stakeholders	Areas of interoperability among conference and event management systems are determined through the identification of master, transactional and reference data to support improved business processes and access to simplified and harmonized data structures within those systems and with Umoja and Inspira	Efficient and integrated issuance of a single bill, which reduces errors and manual processing, is available to all duty stations Increased oversight and transparency for Member States through enhanced traceability of financial transactions

Deliverables

- 2.51 Table 2.6 lists all deliverables of the subprogramme.

Table 2.6
New York, subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

C. Substantive deliverables				
Consultation, advice and advocacy: consultations with 5 Bureau members on issues related to the Committee on Conferences, including membership and the composition of the Bureau, the programme of the substantive session and requests for intersessional departures; Bureau meetings and briefing for the 20 members of the Committee on Conferences.				
Databases and substantive digital materials: One-Stop Shop platform (as part of gMeets) for Member States to request meetings and conference services.				
D. Communication deliverables				
Digital platforms and multimedia content: website of the <i>Journal of the United Nations</i> (daily <i>Journal</i> provided for 251 working days) and calendar of conferences and meetings website, available in all six official languages and accessible from mobile devices.				

Subprogramme 3 Documentation services

Objective

- 2.52 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.53 To contribute to the objective, the subprogramme will continue, in coordination with the other duty stations, to:
- (a) Deliver multilingual documentation services, including translation, editing, desktop publishing and correspondence services, while improving quality and timeliness by leveraging technologies, optimizing workflows, matching workload with capacity and developing staff skills through training;
 - (b) Implement new systems to manage its workload and workforce and continue to review job profiles so that they better reflect technological developments;
 - (c) Strengthen performance management and quality assurance mechanisms, enhance outreach to universities and improve recruitment methods, including through remote competitive examinations;
 - (d) Lead global innovation projects in areas related to documentation, including gText and gDoc 2.0, as well as projects on knowledge management and training tools to improve the ability of the subprogramme to plan and process multilingual documentation within established time frames and to support the skills of linguists to meet the mandate on quality;
 - (e) Maintain and enhance the UNTERM portal, which contains official terminology and is publicly accessible online;
 - (f) Convert categories of documents into machine-readable format with an eye to developing further information services that will leverage the wealth of the Organization's knowledge.
- 2.54 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) The provision of machine-readable documents.

Programme performance in 2021

Sustainability, timeliness and quality of documentation services in the official languages

- 2.55 In its resolution [75/252](#), the General Assembly decided to increase the workload standards for the translation services from 5 to 5.8 pages, given the evolution of working methods and technologies since the pre-computer era. To implement this mandate, the subprogramme, in collaboration with the documentation subprogrammes in the other duty stations, reviewed the background documentation on workload standards since 1948 and the innovative technologies currently in use and established coefficients for translation, self-revision and revision, taking into consideration the new approach to revision as an evaluation and training tool for junior staff. It also established measures to help staff make a smooth transition to this new requirement, taking into account in particular the pandemic and related disruptions. The increased workload standards enhanced the subprogramme's ability to leverage the capacity of its internal teams, which contributed to maintaining timeliness and quality and facilitated the simultaneous issuance of documentation in the official languages.
- 2.56 Progress towards the objective is presented in the performance measure below (see figure 2.VI).

Figure 2.VI
Performance measure: simultaneous issuance of documentation in the official languages
 (Percentage)

Planned results for 2023

Result 1: innovation in action in the documentation services through machine readable documents

Programme performance in 2021 and target for 2023

- 2.57 The subprogramme’s work contributed to the issuance of resolutions of the Security Council and the Economic and Social Council in a machine-readable format in line with the Akoma Ntoso standard, which met the planned target.
- 2.58 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2.7).

Table 2.7
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Pilot issuance of resolutions adopted by the General Assembly at its seventy-fourth session in machine-readable format in line with the Akoma Ntoso standard for the United Nations	Issuance of resolutions adopted by the General Assembly at its seventy-fifth session in machine-readable format using the Akoma Ntoso standard for the United Nations and their display in interactive reports that enabled data visualization in graphs and charts	Resolutions of the Security Council and the Economic and Social Council issued in machine-readable format	Machine-readable documents and other data sources used to further automate processes, including the production of individual documents and compilations	Member States have access to individual General Assembly decisions in the official languages through the e-deleGATE portal

Result 2: quality in motion**Programme performance in 2021 and target for 2023**

- 2.59 The subprogramme's work contributed to ensuring the quality of multilingual parliamentary documentation, as demonstrated by the 100 per cent satisfaction rate of Member States, which met the planned target.
- 2.60 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.VII).

Figure 2.VII

Performance measure: percentage of Member States satisfied with quality of documentation**Result 3: versatility and multilingualism: parliamentary documentation delivered within the mandated time frames****Proposed programme plan for 2023**

- 2.61 The quality of translation in the official languages depends upon the quality of the original language submission. English accounts for some 89 per cent of the original submissions processed by the subprogramme. Editors, located in the English Translation and Editorial Service, ensure that the original documents submitted for translation are clear, accurate, logical and consistent. They are supported by tools such as the online Editorial Manual and a customized interface of eLUNa. As the workload is very high, English translators in the Service are required to help with the editing workload during peak periods. Current workflow systems, however, do not facilitate such assignments. Accordingly, the subprogramme's introduction of gDoc 2.0, planned for 2022, will remove that barrier: as from 2023, staff of the Service will be able to perform a mixture of editing, précis-writing and translation assignments seamlessly according to operational needs. A new job profile, English Linguist, will reflect that multifunctionality, while the competitive examinations to fill translator/précis-writer, editor and verbatim reporter positions already assess skills in those areas of work.

Lessons learned and planned change

- 2.62 The lesson for the subprogramme was that there were opportunities to further leverage a wide range of skills already available in the Service to meet demands during workload peaks. In applying the lesson, the subprogramme will, through a new workflow system and a fresh look at the operations of the Service, have staff increasingly perform a mixture of assignments, which is expected to ensure that documents can continue to be processed internally and meet deadlines across the six official languages.
- 2.63 Expected progress towards the objective is presented in the performance measure below (see figure 2.VIII).

Figure 2.VIII
Performance measure: timely processing of parliamentary documentation
 (Percentage)

Deliverables

2.64 Table 2.8 lists all deliverables of the subprogramme.

Table 2.8
New York, subprogramme 3: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	340	130	223	223
Summary records of:				
1. Meetings of the Security Council	20	9	18	18

8. Other documents	3 200 ^a	5 842	2 050	2 050
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM, which comprises some 400,000 records.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services for some 36 clients (edited, translated and published non-parliamentary documents with more than 5 million words); correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with all Member States.				

^a The figure contained in [A/76/6 \(Sect. 2\)](#) contained a typographical error, which has been rectified here.

Subprogramme 4 Meetings and publishing services

Objective

- 2.65 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.66 To contribute to the objective, the subprogramme will:
- (a) Provide meetings and publishing services, including interpretation, verbatim reporting and publishing in the official languages, and meetings servicing at Headquarters, as well as for conferences and meetings held away from Headquarters. Mandated services will be delivered by relying on modern technologies, such as computer-assisted documentation processing, speech-to-text solutions and remote service provision and remote participation for business continuity purposes;
 - (b) Maximize the utilization of its in-house capacity and temporary assistance resources by refining its capacity-planning and workload-matching methods in close coordination with subprogramme 2 and by implementing the eAPG 2.0 tool, which is expected to result in the higher overall utilization of interpretation capacity;
 - (c) Continue to implement good practices related to sustainability and accessibility for meeting and publishing services, including the implementation of relevant international standards and the expansion of the use of electronic tools and processes in conference-servicing operations in a sustainable and accessible manner;
 - (d) Ensure the readiness of a broader array of service delivery modalities, including those related to remote participation in meetings and the provision of remote services in the context of business continuity, continue to issue verbatim records in the six official languages as mandated and increase the accessibility of publications.
- 2.67 The above-mentioned work is expected to result in:
- (a) More effective utilization of the Organization's meetings servicing and publishing resources;
 - (b) The conduct of the Organization's deliberations in a more inclusive manner while leaving a smaller environmental footprint;
 - (c) Better business continuity readiness to provide services to Member States.

Programme performance in 2021

Agile and responsive multilingual servicing ensured business continuity

- 2.68 The subprogramme maintained business continuity measures in 2021 by providing support to on-site, virtual and hybrid meetings. To mitigate risks related to the pandemic, the subprogramme adjusted its existing tools – such as the remote simultaneous interpretation platforms – and initiated the deployment of the next generation of platforms. In the area of meeting support, the subprogramme leveraged its digital solutions to transition to remote operations, increasing the skills of its staff to enable new processes.
- 2.69 Several major United Nations conferences were held away from Headquarters through the provision of remote meeting services, in collaboration with other duty stations, using a hybrid arrangement for participation, including the Fourteenth United Nations Congress on Crime Prevention and Criminal

Justice organized in Kyoto, Japan. For the first time, combined interpretation teams were assigned from New York and Vienna to provide interpretation remotely to the Congress (see also para. 2.152). A similar arrangement was employed for the second United Nations Global Sustainable Transport Conference, held in Beijing, for which the team from Vienna provided remote interpretation services. Furthermore, the Security Council benefited from 88 virtual sessions and 167 in-person plenaries, while the 120 plenaries of the General Assembly and its special sessions exceeded the 2019 baseline.

2.70 Despite connectivity problems, the inefficiencies of remote servicing platforms and the challenges of audio and video quality, teams were successful in servicing conferences that would not otherwise be held. Valuable lessons on how to organize and support such conferences were learned from these and other meetings held in 2021. To address the challenges of poor sound quality for interpreters, remote participants were encouraged to properly equip and ensure stable high-speed Internet connections. In many cases, these requirements were not complied with. To mitigate the added stress on interpreters, workload standards were reduced for virtual meetings and hybrid meetings that had significant remote participation.

2.71 Progress towards the objective is presented in the performance measure below (see figure 2.IX).

Figure 2.IX

Performance measure: number of verbatim records of meetings of the Security Council and General Assembly, and number of S/2021 letters in lieu of such records processed in 2021

Planned results for 2023

Result 1: demand for interpretation services is increasingly met

Programme performance in 2021 and target for 2023

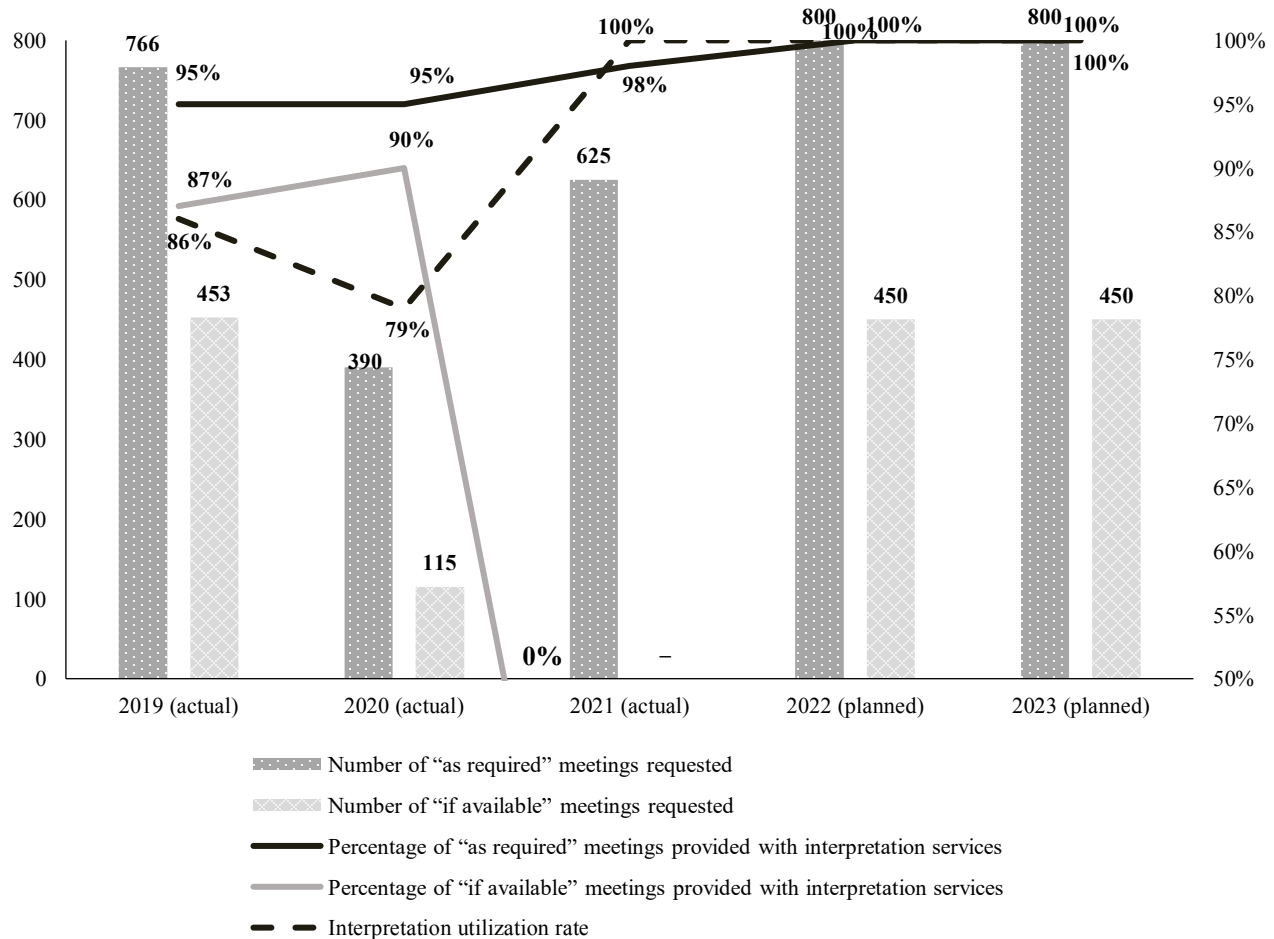

2.72 The subprogramme's work contributed to providing interpretation to 98 per cent of meetings planned on an "as required" basis, and to the interpretation utilization and provision of interpretation services to 625 intergovernmental and expert body meetings "as required" and zero "if available". This did not meet the planned target of the provision of interpretation services to 100 per cent of meetings planned on an "as required" basis, and to the interpretation utilization and provision of interpretation services to 800 meetings on an "as required" basis and to 450 meetings on an "if available" basis.

The targets were not met owing to the cancellation of a large number of meetings by their organizers, which was beyond the control of the subprogramme.

2.73 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.X).

Figure 2.X

Performance measure: overall interpretation utilization and provision of interpretation services to intergovernmental and expert bodies meeting “as required” or on an “if available” basis

Note: Owing to the challenges posed by the pandemic, no meetings in 2021 could be planned on an “if available” basis. Interpretation services, when provided, had to be confirmed in advance.

Result 2: multilingual deliberations supported by interpretation and publishing services with robust business continuity tools

Programme performance in 2021 and target for 2023

2.74 The subprogramme’s work contributed to the servicing of 83 per cent of programmed meetings with interpretation and therefore did not meet the planned target of 100 per cent, owing to the cancellation of a large number of meetings by their organizers, which was beyond the control of the subprogramme.

2.75 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XI).

Figure 2.XI

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2022 and 2023, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 3: contingency plans for maintenance of a broad array of sustainable, universally accessible conference-servicing modalities

Proposed programme plan for 2023

- 2.76 The subprogramme has a mandate to provide reliable and effective conference servicing support to the intergovernmental and expert bodies. During the pandemic, new methods to deliver in a remote, technology-driven environment, while operating in business continuity mode, were needed. New requirements, such as remote simultaneous interpretation and remote participation, made proper logistical set-up a critical component of successful virtual and hybrid meetings.

Lessons learned and planned change

- 2.77 The lesson for the subprogramme was that, to meet the new requirements, corresponding business continuity protocols and standard operating procedures needed to be developed, tested and implemented. In applying the lesson, the subprogramme will use contingency plans that integrate operational adjustments that were tested and mainstreamed during the pandemic. The subprogramme will optimize both its technological and human resources capacities to ensure effective service delivery and to mitigate risks to business continuity. In terms of technology, the subprogramme will maintain readiness for the quick deployment of sustainable, universally accessible conference services that include the effective use of language technologies and participation tools and methods. To meet the evolving needs of human resources capacities, the subprogramme will leverage temporary assistance to complement its in-house capacities of interpreters, verbatim reporters, revisers and production editors and expand the respective language rosters. For this purpose, further

Part I Overall policymaking, direction and coordination

outreach, mentoring and internship efforts will be pursued, with an emphasis on reaching out to qualified language professionals in Africa, Latin America and the Caribbean.

2.78 Expected progress towards the objective is presented in the performance measure below (see table 2.9)

**Table 2.9
Performance measure**

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	The subprogramme, together with other Secretariat entities, introduced, and organizers started actively using, options for remote participation and remote simultaneous interpretation to ensure business continuity during the pandemic	Organizers benefited from fully deployed remote participation and remote simultaneous interpretation options to ensure business continuity during the prolonged pandemic	Tools/solutions deployed during the pandemic will remain available for contingencies so that organizers can benefit from universally accessible meeting and interpretation services that have been integrated with tools and solutions tested during the pandemic	Organizers can benefit from contingency solutions that have been further refined with universally accessible meeting and interpretation services that guarantee sustainable delivery in all working modalities

Deliverables

2.79 Table 2.10 lists all deliverables of the subprogramme.

**Table 2.10
New York, subprogramme 4: deliverables for the period 2021–2023, by category and subcategory**

19. Other requesters	4 400	526	4 400	4 400

E. Enabling deliverables

Correspondence and documentation services: edited and proofread publications, official records (approximately 2,600 verbatim records per year) and other materials in all official languages for both hard copy and digital distribution; a projected number of 20,000 parliamentary documents printed, bound and distributed; 160 projected publications and other materials in hard copy; materials available in digital format.

Conference management, Geneva

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.80 The objective, to which this subprogramme contributes, is to ensure efficient, effective and multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.81 To contribute to the objective, the subprogramme will:
- (a) Facilitate the optimum utilization of capacity for meetings and documentation services in a globally coordinated manner, which will be achieved through the effective planning of activities, the leveraging of technology and the provision of high-quality and reliable data and solutions;
 - (b) Mitigate reduced capacity and other constraints resulting from renovation works under the strategic heritage plan of the United Nations Office at Geneva by optimizing the utilization of the limited number of available conference facilities and the temporary conference structure on the Office's grounds, and completing and dynamically managing advance workload projections for the period of the renovation, which is expected to be completed by the end of 2024;
 - (c) Maintain robust business continuity capacities to ensure the agility of conference services through the provision of sustainable support for meetings that use remote participation, with or without interpretation, and digital conference support for intergovernmental processes, in

cooperation with the strategic heritage plan, the administration in Geneva (section 29E) and the United Nations Information Service in Geneva (section 28).

- 2.82 The above-mentioned work is expected to result in:
- (a) Improved conference services and simplified procedures;
 - (b) Participants experiencing a conference that is comparable in quality to fully in-person meetings if the necessity for virtual or hybrid meetings were to arise, and the full, effective and efficient delivery of all mandated calendar meetings in 2023;
 - (c) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2021

Delivery of mandated accessibility services remotely

- 2.83 The Division of Conference Management in Geneva is mandated to provide accessibility services to the Committee on the Rights of Persons with Disabilities, which includes sign language interpretation that had previously been provided on site.
- 2.84 Faced with COVID-19 restrictions, the subprogramme enabled the remote provision of sign language interpretation. The subprogramme planned, coordinated and implemented the service provision with stakeholders and partners and ensured that the accredited sign language interpreters worked from remote studios with appropriate equipment and high-speed Internet connections. This resulted in the high-quality visual output required by Committee members and necessary for participants with hearing impairments.
- 2.85 This new arrangement enabled the business continuity of mandated sign language interpretation support in 2021, in particular for the twenty-fourth and twenty-fifth sessions of the Committee on the Rights of Persons with Disabilities, for panels of the Human Rights Council at its forty-sixth to forty-eighth sessions and for the fourteenth session of the Expert Mechanism on the Rights of Indigenous Peoples. Attendees at more than 60 meetings successfully participated in these sessions and benefited from enhanced remote accessibility services.
- 2.86 Progress towards the objective is presented in the performance measure below (see figure 2.XII).

Figure 2.XII

Performance measure: number of meetings with remote sign language interpretation

Planned results for 2023

Result 1: satisfying conference mandates and needs of Member States during the renovation of the Palais des Nations under the strategic heritage plan

Programme performance in 2021 and target for 2023

- 2.87 The subprogramme's work contributed to 100 per cent delivery of the requested services for calendar meetings, which met the planned target.
- 2.88 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XIII).

Figure 2.XIII

Performance measure: delivery of requested services for calendar meetings

(Percentage)

Result 2: reliable business continuity system to ensure the implementation of conference-servicing activities during periods of uncertain capacity

Programme performance in 2021 and target for 2023

- 2.89 The subprogramme's work contributed to the delivery of 86 per cent of programmed meetings, which did not meet the planned target of 100 per cent of programmed meetings held. The target was not met owing to the cancellation of a large number of meetings by the organizers.
- 2.90 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XIV).

Figure 2.XIV
Performance measure: percentage of programmed meetings held

Result 3: enhancing delegates' experience in obtaining conference services – lessons from applied innovations

Proposed programme plan for 2023

- 2.91 In response to the request of Member States to analyse and integrate lessons learned during COVID-19, the subprogramme reinstated an initiative, previously undertaken in 2018–2019, now entitled “Conferencing Today and Tomorrow – 2”. The initiative’s key goals are to: (a) gather lessons learned to understand how stakeholders experienced the implementation of business continuity measures; and (b) identify the elements they may wish to keep and how they envision conferencing in the post-COVID-19 environment. The subprogramme engaged with its clients during the information-gathering phase in December 2021, which consisted of an online survey, short on-the-spot interviews with meeting participants, in-depth discussions with substantive secretariats and Member States, and two workshops with Geneva-based delegates. Preliminary analysis of client feedback shows that the subprogramme’s business continuity measures are perceived as responsive and user-oriented.

Lessons learned and planned change

- 2.92 The lesson for the subprogramme was that maintaining business continuity capacity for remote participation requires an ongoing investment in staff training and business process engineering. In applying the lesson, the subprogramme will conduct a horizon scan and analysis of complementary technological solutions, in conjunction with the Office’s administration and the United Nations Information Service. This will enable the identification of business continuity approaches that would best meet client needs. In addition, the subprogramme will assess the improvements and enhancements to technical capacity, including the cross-training of staff to enable a nimbler and more responsive workforce. In doing so, the subprogramme will ensure the continued delivery of mandated services and further enhance the experience of conference organizers with regard to obtaining the requested meeting services.
- 2.93 Expected progress towards the objective is presented in the performance measure below (see figure 2.XV).

Figure 2.XV

Performance measure: overall client satisfaction with the provision of conference services

(Percentage)

Deliverables

2.94 Table 2.11 lists all deliverables of the subprogramme.

Table 2.11

Geneva, subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	11 900	5 298	12 000	12 000
1. Meetings of intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	3 700	1 680	3 750	3 750
2. Meetings of intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	2 000	1 234	2 000	2 000
3. Meetings of intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	1 900	1 015	1 950	1 950
4. Meetings of intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	700	353	700	700
5. Other meetings	3 600	1 016	3 600	3 600
B. Generation and transfer of knowledge				
Technical materials (number of materials)	304	304	304	304
6. Annual calendar of conferences and meetings in Geneva	1	1	1	1
7. Daily “master final” programme of meetings of intergovernmental bodies	251	251	251	251
8. Weekly programme of meetings of intergovernmental bodies	52	52	52	52
C. Substantive deliverables				
Consultation, advice and advocacy: informational session for 70 permanent missions.				
D. Communication deliverables				
Outreach programmes, special events and information materials: language-day celebrations for the six official languages, the International Day of Sign Languages and International Mother Language Day.				
External and media relations: press conferences and public briefings.				

Subprogramme 3 Documentation services

Objective

- 2.95 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.96 To contribute to the objective, the subprogramme will continue, in coordination with the other conference-servicing duty stations and in addition to the activities mentioned in paragraph 2.53 above, to:
- (a) Fully participate in the global innovation projects of the Department, including gDoc 2.0 and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Geneva-specific reference material for in-house and external language professionals;
 - (b) Reinforce global communication to ensure that terminology creation standards remain aligned during the onboarding of new organizations in UNTERM and in collaboration with Headquarters. The subprogramme will lead efforts to provide training and guidance to users and producers of terminology to harmonize terminology across the portal;
 - (c) Continuously improve recruitment methods for temporary language staff and individual language contractors and continue the transition to the diamond-shaped translation services staffing structure.
- 2.97 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2021

Expansion of services for Member States: provision of summary records for Human Rights Council meetings

- 2.98 In its decision 47/114, adopted in 2021, the Human Rights Council requested summary records for meetings at which it adopted the report of the session and other decisions and resolutions. The Council wished to have an official record of the voting, statements and positions taken at those meetings.
- 2.99 The subprogramme provided this expanded service to the Human Rights Council as of its forty-eighth session, using technological solutions to deliver the records remotely to mitigate the impact of the COVID-19 pandemic. An eStatements tool was developed and used to share the texts of draft resolutions, statements and other documents with the précis-writers who draft the summary records and with the interpreters and press officers who cover the meetings. The new approach allowed summary records to be finalized within a month after the session and then translated. As a result, official records of the voting, statements and positions taken at those meetings were available in all official languages.
- 2.100 Progress towards the objective is presented in the performance measure below (see figure 2.XVI).

Figure 2.XVI
Performance measure: number of summary records available for Human Rights Council meetings at which the report, decisions and resolutions were adopted

Planned results for 2023

Result 1: high-quality and timely specialized documentation services in the face of fluctuating requirements

Programme performance in 2021 and target for 2023

- 2.101 The subprogramme’s work contributed to a 94 per cent client satisfaction rate with linguistic quality of documentation, which did not meet the planned target of 100 per cent. The target was not met owing to the changes in the external environment and reduced opportunities to hire freelance staff following the 2020 liquidity crisis, which had negatively affected freelance recruitment in 2021, making it challenging to deliver documentation that was of a consistently high quality.
- 2.102 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XVII).

Figure 2.XVII
Performance measure: rate of client satisfaction with the linguistic quality of documentation
 (Percentage)

Result 2: accurate terminology on emerging concepts and subject matters, including gender-inclusive language, in United Nations documentation

Programme performance in 2021 and target for 2023

- 2.103 The subprogramme’s terminology work contributed to the accurate rendering of emerging concepts and subject matters in documents translated by staff, which did not meet the planned target of 100 per cent satisfaction of Member States with the use of accurate terminology on emerging concepts and subject matters, including gender-inclusive language. The target was not met because the survey conducted in 2021 did not measure client satisfaction with the use of official terminology on

emerging concepts; as a consequence, the subprogramme’s performance in 2021 on the planned target could not be evaluated.

2.104 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XVIII).

Figure 2.XVIII
Performance measure: rate of Member States’ satisfaction with the use of official terminology on emerging concepts in United Nations documents

(Percentage)

Result 3: documentation needs of Member States met through succession planning

Proposed programme plan for 2023

2.105 The subprogramme is facing a wave of retirements in the coming years (approximately 40 per cent of staff over the next 10 years) and will need to put in place a focused and dynamic succession plan. The subprogramme has developed a dashboard to track the number of retirements by grade, nationality and gender up to 2032 and to quantify the expected capacity requirements year-on-year.

Lessons learned and planned change

2.106 The lesson for the subprogramme was that, to allow for the transfer of knowledge to the next generation, it needed to pinpoint the specific skills and knowledge gaps associated with the retirements and institute a succession plan. In applying the lesson, the subprogramme will conduct a skills inventory among staff and leverage knowledge-management tools, training and other modalities to build capacity, especially in areas where specialized knowledge is required.

2.107 Expected progress towards the objective is presented in the performance measure below (see figure 2.XIX).

Figure 2.XIX
Performance measure: timely issuance compliance for documents that were submitted on time and within the word limit

(Percentage)

Deliverables

2.108 Table 2.12 lists all deliverables by the subprogramme.

Table 2.12

Geneva, subprogramme 3: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	550	401	550	550
Summary records of:				
1. Meetings of intergovernmental and expert bodies on human rights	490	332	490	490
2. Meetings of intergovernmental and expert bodies on legal affairs	35	56	35	35
3. Other meetings	25	13	25	25
Documentation services for meetings (thousands of words per entity/theme)	77 000	70 230	73 000	73 000
4. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	46 100	40 716	42 250	42 250
5. Translation and desktop publishing of documents for intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	16 000	16 095	16 000	16 000
6. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on legal affairs, including the International Law Commission	4 800	3 034	4 850	4 850
7. Translation and desktop publishing of documents for intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	3 500	3 081	3 500	3 500
8. Translation and desktop publishing of documents for intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change and the Conference of the Parties to the United Nations Convention to Combat Desertification	2 300	2 631	2 400	2 400
9. Editing, translation and desktop publishing of documents for other intergovernmental and expert bodies	4 300	4 673	4 000	4 000
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services; approximately 300 non-parliamentary documents provided to 13 client departments edited, translated and published; mandated publications for the International Law Commission produced, edited and proofread in all six official languages.				

Subprogramme 4 Meetings and publishing services

Objective

2.109 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.110 To contribute to the objective, the subprogramme will:
- (a) Continue to provide meetings and publishing services, including interpretation, verbatim reporting and publishing, in the official languages at the United Nations Office at Geneva, as well as for conferences and meetings held away from the Office, ensuring harmonization of governance in the publishing area and coordination with other duty stations;
 - (b) Expand its range of services to increase the accessibility of meetings and publications using specialized expertise and technology;
 - (c) Improve remote participation in meetings for contingencies and business continuity purposes, which will require the use upon demand of remote simultaneous interpretation platforms, which are expected to evolve to provide improved quality;
 - (d) Provide digital documentation to delegates in a structured and integrated way.
- 2.111 The above-mentioned work is expected to result in:
- (a) Greater access for meeting participants and end users of publishing services to maximize their engagement with the intergovernmental process;
 - (b) The improved quality of remote participation for meetings in the context of business continuity;
 - (c) The increased availability of digital documents.

Programme performance in 2021

Agile and responsive multilingual servicing maintained through business continuity

- 2.112 Remote participants face many challenges when connecting to online conferencing platforms. Problems such as Internet connectivity, difficulties with equipment for video or audio, or other technical issues, if left unresolved, often result in lost time and reduced effectiveness. To support participants in these challenges, interpretation, design, printing and communication teams within the subprogramme jointly prepared educational and informative media and tools that promoted best practices for successful online meetings. Numerous outreach and advocacy activities included online tutorials; 12 short videos on the use of microphones and equipment, speaking during meetings and the pre-recording of video messages; a dedicated web page outlining best practices for remote meetings with interpretation; and briefings to and guidance documents for remote participants. In 2021, remote participants at more than 1,300 hybrid and virtual meetings with interpretation were better positioned to employ best practices.
- 2.113 Progress towards the objective is presented in the performance measure below (see table 2.13).

Table 2.13
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
–	Participants were able to connect to remote meetings after being provided with brief guidelines	The preparedness and experience of remote participants was enhanced through the provision of comprehensive guidance and best practices on remote meetings

Planned results for 2023

Result 1: increased availability of accessible publications online: publications “born accessible”

Programme performance in 2021 and target for 2023

- 2.114 The subprogramme’s work contributed to the production of 52 publications that were fully accessible online, which exceeded the planned target of 50 publications.
- 2.115 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XX).

Figure 2.XX

Performance measure: increase in the number of accessible online publications (annual)

Result 2: multilingual deliberations ensured by interpretation services with robust business continuity tools

Programme performance in 2021 and target for 2023

- 2.116 The subprogramme’s work contributed to the servicing of 93 per cent of programmed meetings with interpretation, which did not meet the planned target of 100 per cent. The target was not met owing to a number of meetings that were cancelled by the organizers.
- 2.117 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXI).

Figure 2.XXI

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2022 and 2023, as shown in the present figure, reflects projections based on information made available by meeting organizers. There is a possibility that the availability of conference facilities may be reduced owing to the impact of renovations related to the strategic heritage plan at the United Nations Office at Geneva.

Result 3: contingency plans for maintenance of a broad array of sustainable, universally accessible conference-servicing modalities

Proposed programme plan for 2023

- 2.118 The subprogramme launched its online virtual kiosk in April 2020 to provide delegates and meeting participants with an option to receive documentation in a digital format. Owing to the public health measures instituted during the COVID-19 pandemic, the distribution of paper documentation was eliminated. The virtual kiosk platform is available to participants online and provides digital products categorized as “pre-session”, “in-session” and “post-session” documentation, and includes other practical information, for example on public transportation. The current maintenance process for the platform, however, is labour-intensive and relies heavily on staff expertise.

Lessons learned and planned change

- 2.119 The lesson for the subprogramme was that a need to find a sustainable long-term solution for the online distribution of documents must be met by leveraging modern technological solutions. In applying the lesson, the subprogramme will build an integrated solution for the virtual distribution of documents through an existing meeting participants management system, Indico.UN, which is in use across the United Nations Secretariat, including at the regional commissions. The solution will apply machine-learning techniques to gradually automate the collection process of digital products. The virtual distribution of documents will be complemented by other online multimedia formats, including audio recordings of the meetings in all official languages of the United Nations, and the automated generation of transcripts as non-official meeting records. In addition, print-on-demand functionality will still allow participants to request documentation in paper format. The new system is expected to provide fully digital document distribution services and will be gradually rolled out to all Geneva-serviced calendar meetings in consultation with United Nations Secretariat entities and conference organizers.
- 2.120 Expected progress towards the objective is presented in the performance measure below (see figure 2.XXII).

Figure 2.XXII

Performance measure: percentage of calendar meetings with virtual document distribution

Deliverables

- 2.121 Table 2.14 lists all deliverables for the subprogramme.

Table 2.14
Geneva, subprogramme 4: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	3 200	2 177	3 200	3 200
Meetings with interpretation for:				
1. Intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	1 530	1 121	1 530	1 530
2. Intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	50	61	50	50
3. Intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	860	554	860	860
4. Intergovernmental and expert bodies on disarmament	240	183	240	240
5. Other meetings	520	258	520	520
E. Enabling deliverables				
Correspondence and documentation services: design and layout of publications, multimedia products, web pages, outreach materials and other products in all official languages, formatted for both hard-copy and digital distribution to over 50 client entities based in Geneva and upon request for entities outside of the Geneva client group as part of workload-sharing.				

Conference management, Vienna

Subprogramme 2 Planning and coordination of conference services

Objective

- 2.122 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.123 To contribute to the objective, the subprogramme will:
- (a) Optimize capacity for meetings and documentation services in a globally coordinated manner;
 - (b) Engage in continuous dialogue and regular consultations with Member States and substantive and technical secretariats to respond early to any changing conference-servicing and documentation needs of all Vienna-based international organizations;
 - (c) Continue to develop innovative processes and best practices to meet the evolving needs of global conference servicing and leverage new technologies.
- 2.124 The above-mentioned work is expected to result in:
- (a) The cost-effective use of conference service resources in the implementation of the mandated meetings of the client bodies;
 - (b) Responsive conference services that provide a broader range of client service modalities;
 - (c) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2021

Enhanced range of United Nations conference modalities in response to requirements of stakeholders

- 2.125 Following the predominance in 2021 of hybrid and virtual meetings as a result of the pandemic, the subprogramme further adapted and refined both types of operations and the roles of servicing staff, including through the acquisition of new skills such as platform management, thus facilitating the use of virtual meetings and associated technical platforms.
- 2.126 As nearly all meetings were held in a hybrid/virtual format, the enhancing of in-house capacity to perform technical functions that simultaneously supported both in-person and remote participants enabled intergovernmental bodies to conduct their work successfully amid continuously changing pandemic conditions. The enhanced scope of conference support provided to Member States facilitated increased options for virtual and hybrid meetings.
- 2.127 The progress towards the objective is presented in the performance measure below (see figure 2.XXIII).

Figure 2.XXIII

Performance measure: percentage of calendar meetings held in virtual/hybrid mode in relation to all calendar meetings held

Planned results for 2023

Result 1: One-Stop Shop: Member States accessed conference services through one common platform

Programme performance in 2021 and target for 2023

- 2.128 The subprogramme's work contributed to the deployment of the One-Stop-Shop portal, which did not meet the planned target of reducing the iterations of the cost-estimation cycles for permanent missions and intergovernmental bodies from an average of four to one. The target was not met owing to the postponement in the deployment of the application.
- 2.129 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXIV).

Figure 2.XXIV
Performance measure: average number of iterations during cost-estimate cycle

Result 2: business continuity in all areas of conference services, including documentation services

Programme performance in 2021 and target for 2023

- 2.130 The subprogramme’s work contributed to the timely issuance of documentation for the consideration of Member States in support of the work of intergovernmental bodies, with 93 per cent of documentation in 2021 issued in a timely manner, which did not meet the planned target of 94 per cent. The target was not met owing to new and conflicting in-session priorities related to the conduct of virtual/hybrid meetings.
- 2.131 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXV).

Figure 2.XXV
Performance measure: percentage of timely issuance of parliamentary documents

Result 3: harmonized documentation and tools for stakeholders, including Member States

Proposed programme plan for 2023

- 2.132 Since 2019, and through the continued close engagement of global documentation areas, the subprogramme participated in the development of gDoc 2.0, a global tool and workflow for United Nations documentation. The deployment of this project will have a positive impact on the timely processing and issuance of documentation. Owing to the magnitude of the endeavour, modules of the tool were deployed on a rolling basis, with some modules already in use by the end of 2021.

Lessons learned and planned change

- 2.133 The lesson for the subprogramme was that a positive impact on client document requirements can be achieved through global harmonization projects that ensure economies of scale and increase the

Part I Overall policymaking, direction and coordination

global standardization of documentation. In applying the lesson, the subprogramme will fully leverage the capabilities of the gDoc 2.0 tool locally.

2.134 Expected progress towards the objective is presented in the performance measure below (see table 2.15).

Table 2.15
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
In-person meetings of duty station focal points to determine business requirements for publication, pre-forecast, forecast, request, language and issuance modules	Publication process and entitlement review streamlined for clients at all offices through the deployment of publication and pre-forecast modules	Documentation planning streamlined for clients at two duty stations through the deployment of the documentation planning module, with testing at the two remaining offices	One global entry point for all documentation needs for clients at all offices through the deployment of client request, documentation management and language modules	Timely processing and issuance of documentation for clients at all offices through the deployment of issuance and distribution modules

Deliverables

2.135 Table 2.16 lists all deliverables of the subprogramme.

Table 2.16
Vienna, subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	5 400	2 510	5 500	5 770
1. Meetings of the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice, the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime and the ad hoc committee of the General Assembly to elaborate an international convention on the misuse of information technologies, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	3 000	798	2 800	2 880
2. Meetings of the International Narcotics Control Board	110	118	110	110
3. Meetings of the Committee on the Peaceful Uses of Outer Space and its subcommittees	560	191	560	560
4. Meetings of the United Nations Commission on International Trade Law and its working groups	120	283	220	220
5. Meetings of the United Nations Scientific Committee on the Effects of Atomic Radiation	50	35	90	90
6. Meetings of the United Nations Industrial Development Organization	270	240	430	450
7. Meetings of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 060	436	1 060	1 060
8. Other meetings	230	409	230	400
B. Generation and transfer of knowledge				
Technical materials (number of materials)	252	252	252	252
9. Annual calendar of conferences and meetings in Vienna	1	1	1	1
10. Daily “master final” programme of meetings of intergovernmental bodies	251	251	251	251

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: informational session for 152 permanent missions in Vienna covering the six official languages.

D. Communication deliverables

Outreach programmes, special events and information materials: language day celebrations of all six official languages.

**Subprogramme 3
Documentation services**

Objective

- 2.136 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.137 To contribute to the objective, the subprogramme will continue, in coordination with the other conference-servicing duty stations and in addition to the activities mentioned in paragraph 2.53 above, to:

- (a) Fully participate in the global innovation projects of the Department, including gDoc 2.0 and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Vienna-specific reference material for in-house and external language professionals;
- (b) Pursue dialogue with substantive secretariats and Member States to respond to their needs, requirements and priorities, and rigorously plan and coordinate documentation workflows and capacity;
- (c) Promote the versatility of language professionals with regard to processing highly complex legal and technical documents by providing further substantive training, including by organizing briefings with substantive secretariats;
- (d) Manage the quality of internally and externally processed documents by applying rigorous quality control standards;
- (e) Review job profiles so that they better reflect technological developments.

- 2.138 The above-mentioned work is expected to result in:

- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
- (b) The consistent use of official terminology in the official languages;
- (c) The provision of machine-readable documents.

Programme performance in 2021

Seamless documentation services for the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice: Member States in times of COVID-19

- 2.139 Postponed from 2020 owing to the pandemic, the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice was held in Kyoto, Japan, in March 2021. The event was remotely

serviced by translators in Vienna. To ensure that documents were issued simultaneously and in a timely fashion, regardless of the time differences and the dispersed mode of operation, the subprogramme fully leveraged its web tools to act swiftly on daily and hourly updates from the conference secretariat and adjust capacity in real time. The subprogramme prepared the Kyoto Declaration on Advancing Crime Prevention, Criminal Justice and the Rule of Law: Towards the Achievement of the 2030 Agenda for Sustainable Development in the official languages in advance, keeping translators on standby to incorporate last-minute edits before the opening of the Congress, and responded promptly to requests for documentation at short notice. The subprogramme delivered high-quality sensitive documents on time and simultaneously in all languages, facilitating the adoption of the Declaration and of the report of the Congress by Member States.

2.140 Progress towards the objective is presented in the performance measure below (see figure 2.XXVI).

Figure 2.XXVI

Performance measure: simultaneous issuance of documentation in the official languages

(Percentage)

Planned results for 2023

Result 1: enhanced adherence to the principle of parity among all official languages of the United Nations by harmonizing quality control procedures

Programme performance in 2021 and target for 2023

2.141 The subprogramme's work contributed to the positive feedback received on the improved consistency of the quality of documentation available to Member States, which did not meet the planned target of positive feedback on the improved consistency of the quality of documentation available to Member States made possible through the adoption of a standard operating procedure on quality control. The target was not met because the standard operating procedures were drafted but not adopted in 2021, as the working group needed more time to take into account the impact of the new workload standards.

2.142 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2.17).

Table 2.17
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Preparation by the Department of a report on key performance indicators confirming the necessity of a global approach to quality control	Working group on the harmonization of quality control began data collection across all duty stations	Positive feedback on the improved consistency of the quality of documentation made available to Member States, made possible through the analysis of data and the drafting of standard operating procedures on quality control	Positive feedback on the improved consistency of the quality of documentation made available to Member States, made possible through the adoption of a standard operating procedure, a list of best practices and common standards across all duty stations	Continued positive feedback from Member States on the quality of documentation through compliance with the new standard operating procedure

Result 2: operational resilience through staff training that facilitates work-sharing

Programme performance in 2021 and target for 2023

- 2.143 The subprogramme’s work contributed to the overall processing compliance rate of 96 per cent within the mandated time frame, which exceeded the planned target of 86 per cent.
- 2.144 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXVII).

Figure 2.XXVII

Performance measure: overall processing compliance in accordance with the mandated time frame

(Percentage)

Result 3: sustainable quality for the benefit of intergovernmental processes

Proposed programme plan for 2023

- 2.145 The subprogramme implemented a new structure in 2021 that meant that a high percentage of translators now work in self-revision mode. Prior to 2021, the subprogramme based its internal quality assurance on a rigorous performance management system and the revision of documents processed initially by less-experienced translators. The new structure ensured the delivery of high-quality documentation, which was appreciated by Member States. As staff are now working mainly in self-revision mode, the time devoted to revising translators’ output has decreased.

Lessons learned and planned change

- 2.146 The lesson for the subprogramme was that the increase in workload standards, combined with the decrease in the revision of translators’ output, called for new solutions to continue to monitor quality by further developing the internal quality control of self-revisers’ output. In applying the lesson, the subprogramme will adjust its quality assurance mechanism, in collaboration with the other duty stations, by establishing a consistent approach to monitoring and evaluating the quality of translations produced by self-revisers.
- 2.147 Expected progress towards the objective is presented in the performance measure below (see table 2.18).

**Table 2.18
Performance measure**

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	Increase in translation workload standards mandated in General Assembly resolution 75/252	Increase in translation workload standards implemented	Establishment of a consistent methodology to assess and maintain quality of self-revision	Consistent satisfaction of Member States with documentation quality by piloting the methodology

Deliverables

- 2.148 Table 2.19 lists all deliverables of the subprogramme.

**Table 2.19
Vienna, subprogramme 3: deliverables for the period 2021–2023, by category and subcategory**

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	24 700	24 080	24 660	24 400
1. Editing, translation and desktop publishing of documents for the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	10 300	10 005	10 300	10 300
2. Editing, translation and desktop publishing of documents for the International Narcotics Control Board	3 540	3 299	3 600	3 600
3. Editing, translation and desktop publishing of documents for the Committee on the Peaceful Uses of Outer Space and its subcommittees	2 400	2 088	2 400	2 400
4. Editing, translation and desktop publishing of documents for the United Nations Commission on International Trade Law and its working groups	6 000	6 316	6 000	6 000
5. Editing, translation and desktop publishing of documents for the United Nations Scientific Committee on the Effects of Atomic Radiation	60	210	60	100
6. Translation and desktop publishing of documents for the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 000	655	1 000	1 000
7. Translation and desktop publishing of documents for the United Nations Industrial Development Organization	1 400	1 507	1 300	1 000
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM, which currently holds 24,677 United Nations Office at Vienna records.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services of more than 5 million words of non-parliamentary documents and publications edited, translated and published (desktop publishing) in the official languages.				

Subprogramme 4 Meetings and publishing services

Objective

- 2.149 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.150 To contribute to the objective, the subprogramme will:
- (a) Continue to provide interpretation and publishing services for United Nations entities and governing bodies operating from Vienna, as well as for other Vienna-based organizations, such as the United Nations Industrial Development Organization (UNIDO), the Comprehensive Nuclear-Test-Ban Treaty Organization and the International Atomic Energy Agency (IAEA);
 - (b) Continue to develop ways to ensure maximum responsiveness to client needs, including by increasing the pool of freelance interpreters and maintaining close links with other duty stations in order to coordinate staff loans where possible;
 - (c) Ensure the readiness of a choice of service modalities and improve the quality of remote participation in meetings for contingencies and business continuity purposes. This will require the use of remote simultaneous interpretation platforms upon demand, which are expected to evolve to provide improved quality;
 - (d) Continue to provide an expanded array of e-publishing products.
- 2.151 The above-mentioned work is expected to result in:
- (a) Optimized interpretation services for the increasingly fast-paced world of conference services;
 - (b) Member States receiving content that is processed more effectively and with minimal environmental impact.

Programme performance in 2021

Major United Nations congress provided with fully remote interpretation for the first time

- 2.152 In 2021, a dual challenge emerged for the subprogramme, namely: (a) the number of meetings with interpretation rebounded to pre-pandemic levels; and (b) in addition to those meetings and the regular 2021 workload, the subprogramme also serviced the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice, which had originally been scheduled to be held in Kyoto in 2020 but had been postponed to 2021 owing to the global pandemic. The subprogramme adjusted to the rigorous COVID-19 restrictions, including strict local curfews, by establishing two remote interpreting hubs in Vienna and New York. The subprogramme leveraged time zone differences and was able to draw on its specialized technical staff on site in Kyoto to utilize remote interpretation platform technology in order to successfully provide remote interpreting services for the scheduled meetings from Vienna and New York. The above-mentioned work contributed to the objective, as demonstrated by the smooth operation of all interpreting services at the Congress.
- 2.153 Progress towards the objective is presented in the performance measure below (see table 2.20).

Table 2.20
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	–	Postponed Fourteenth United Nations Congress on Crime Prevention and Criminal Justice successfully held in March 2021 with fully remote interpreting from hubs in Vienna and New York, benefiting more than 5,000 participants from all over the world. A record 152 Member States were represented at the Congress, along with 114 non-governmental organizations, 37 intergovernmental organizations, 600 individual experts and several United Nations entities and institutes

Planned results for 2023

Result 1: maintenance of 100 per cent success rate in meeting mandated interpretation requirements

Programme performance in 2021 and target for 2023

- 2.154 The subprogramme’s work contributed to successfully addressing a spike in interpretation requests caused by meetings postponed from 2020 or reassigned from other duty stations, as well as additional unplanned meetings requested at short notice, including by leveraging the newly created global freelance interpreter roster, resulting in 100 per cent of requests for servicing of multilingual meetings fulfilled, which met the planned target.
- 2.155 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXVIII).

Figure 2.XXVIII
Performance measure: percentage of timely requests for meetings with interpretation services fulfilled

Result 2: multilingual deliberations ensured by interpretation services with robust business continuity tools

Programme performance in 2021 and target for 2023

- 2.156 The subprogramme's work contributed to the facilitation of multilingual deliberations by continuing to implement advanced business continuity solutions, including by ensuring closer alignment between the hybrid conference-servicing environment and technical interpretation requirements, which did not meet the planned target of 100 per cent of programmed meetings held with interpretation. The target was not met owing to the cancellation of numerous programmed meetings as a result of public health measures and travel restrictions.
- 2.157 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXIX).

Figure 2.XXIX

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2022 and 2023, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 3: contingency plans for maintenance of a broad array of sustainable, universally accessible conference-servicing modalities

Proposed programme plan for 2023

- 2.158 While Member States continue to express a need for traditional print publications, the increase in online events, presentations and meetings during the COVID-19 lockdown spurred a significant growth in data presentation formats. The subprogramme has responded to this new demand by seeking out specialized training and identifying appropriate information technology and other requirements. In addition, meetings were held with substantive secretariats to discuss more responsive and accessible visual formats for presenting data to Member States.

Lessons learned and planned change

2.159 The lesson for the subprogramme was that presenting technical data in a more modern, client-responsive format can greatly facilitate beneficiaries’ understanding of relevant issues and emerging trends. In applying the lesson, the subprogramme will pilot e-publishing solutions to meet beneficiaries’ needs in this area, promoting staff training and specialization and engaging in client outreach. The goal is to offer high-quality data presentation formats across all the subprogramme’s range of services, ensuring improved comparability of data and thus benefiting more than 19 secretariats and all Member States.

2.160 Expected progress towards the objective is presented in the performance measure below (see table 2.21).

**Table 2.21
Performance measure**

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	Initial meetings held with substantive secretariats of Vienna-based organizations to present modern formats for conveying data to Member States	Modern data-presentation formats (e.g. infographics, data animation over timelines) are piloted and fine-tuned based on feedback from beneficiaries	Broader spectrum of client-responsive formats is available for presenting technical data to Member States

Deliverables

2.161 Table 2.22 lists all deliverables of the subprogramme.

**Table 2.22
Vienna, subprogramme 4: deliverables for the period 2021–2023, by category and subcategory**

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	696	611	678	815
Meetings with interpretation for:				
1. The Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	302	153	303	340
2. The International Narcotics Control Board	59	58	60	60
3. The Committee on the Peaceful Uses of Outer Space and its subcommittees	60	60	60	60
4. The United Nations Commission on International Trade Law and its working groups	80	139	70	130
5. The United Nations Scientific Committee on the Effects of Atomic Radiation	10	5	10	10
6. The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	60	55	60	60
7. The International Atomic Energy Agency	100	88	85	100
8. The United Nations Industrial Development Organization	25	53	30	55

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

E. Enabling deliverables

Correspondence and documentation services: preparation and processing through eCorrespondence of correspondence for seven United Nations entities; layout and design of publications, multimedia products, web pages, outreach materials and other products in the six official languages for both hard-copy and digital distribution provided to the Vienna client group, and upon request for entities outside of the Vienna client group as part of workload-sharing.

Conference management, Nairobi

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.162 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.163 To contribute to the objective, the subprogramme will:
- (a) Continue to provide substantive and organizational support to the main intergovernmental bodies headquartered in Nairobi, and to other non-calendar intergovernmental bodies, such as those for the multilateral environmental agreements falling under the substantive coordination of the United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat);
 - (b) Achieve optimum utilization of capacity for meetings and documentation services in a globally coordinated manner through the yearly review and confirmation of the calendar of meetings and the monitoring of intersessional departures from the calendar for approval by the Committee on Conferences, as well as focus on the advance planning and management of established calendar requests for conference services and aligning capacity with expected output in an agile manner;
 - (c) Continue to centrally coordinate risk management, assessment and evaluation and provide high-quality and reliable data to facilitate informed managerial decision-making and performance monitoring;
 - (d) Streamline workflows to fulfil the conference service requests of clients through a two-pronged approach, the timeline of which has been adjusted as a result of the COVID-19 crisis and remains crucial to the subprogramme's strategy: (i) the piloting of One-Stop Shop as the Office's principal online event planning tool, which will provide event requestors with interactive functionality with regard to event requirements prior to the generation of an actual meeting request in 2022, and the full implementation of the tool in 2023; and (ii) the extension of this tool to include a functionality for the management of invoices at the Office in 2023;
 - (e) Implement business continuity in all activities.
- 2.164 The above-mentioned work is expected to result in:
- (a) An increased number of meetings of intergovernmental bodies provided with adequate conference services;

- (b) An enhanced user experience and improved deliberations and decision-making processes of the bodies and organs serviced;
- (c) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2021

Improved provision of available capacities enabled the servicing of additional intergovernmental deliberations

- 2.165 The provision of conference services for meetings of “if available” bodies, such as regional and other major groupings of Member States, is one of the recurrent mandates of the subprogramme. However, in the case of the United Nations Office at Nairobi, most requests coincide with main intergovernmental meeting dates, when established capacity prioritizes official meetings. Noticing the drop in demand for meetings during the current virtual and hybrid meetings environment, the subprogramme, in close coordination with secretariats of intergovernmental bodies serviced by the Office, identified in advance time slots when “if available” bodies could be provided with interpretation services for their deliberations, in order to successfully conclude the formal processes required by the Member States involved in those bodies. As a result of this improved approach to the planning of meetings, Member States were able to increase the number of meetings serviced with interpretation in this category.
- 2.166 Progress towards the objective is presented in the performance measure below (see figure 2.XXX).

Figure 2.XXX

Performance measure: interpretation received by Member States for meetings of regional and other major groupings

(Number of meetings)

Planned results for 2023

Result 1: towards an efficient user experience in event planning and execution

Programme performance in 2021 and target for 2023

- 2.167 The subprogramme’s work contributed to the effective and agile scheduling of meetings and document planning in an uncertain year, at a time when meetings and related documentation were rescheduled and postponed, with some mandates resuming in 2022. The percentage of Member States reporting satisfaction with conference services provided was 97 per cent, which exceeded the planned target of 90 per cent.

2.168 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXXI).

Figure 2.XXXI
Performance measure: Member States’ overall satisfaction with conference services
 (Percentage)

Result 2: conference management business continuity measures to sustain the intergovernmental process

Programme performance in 2021 and target for 2023

2.169 The subprogramme’s work contributed to the continuity of the intergovernmental process, with the percentage of meetings programmed versus meetings held at 95 per cent, which did not meet the planned target of 100 per cent. The target was not met as a result of the continued unpredictability of the calendar of meetings and conferences and its impact on the planning activities of the subprogramme, owing to the effects of COVID-19, as some in-person meetings were planned but not held.

2.170 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXXII).

Figure 2.XXXII
Performance measure: percentage of programmed meetings held

Proposed programme plan for 2023**Result 3: planning process for meetings and events automated and simplified to improve user experience**

- 2.171 The subprogramme receives conference service requests through gMeets. The subprogramme manually consolidates requirements and gives service instructions to other providers, such as facilities, security and medical services. The cost estimates and invoicing are also completed manually, resulting in a time-consuming and complex process for clients.

Lessons learned and planned change

- 2.172 The lesson for the subprogramme was that the existing handling of conference service requests requires significant manual intervention, which increases workload and results in lengthy interactions with clients when processing those requests. In applying the lesson, the subprogramme will establish an automated self-service tool that will assist clients in effectively refining their plans prior to the submission of formal meeting requests. The subprogramme will launch the tool in 2023 and expects the number of meeting/event planning and costing iterations with clients to decrease from the current six iterations to four. The subprogramme will also pilot a gMeets/One-Stop Shop interface in 2022 and integrate it in 2023. The goal of both processes will be to reduce the turnaround time for clients from the initial request to its approval.
- 2.173 Expected progress towards the objective is presented in the performance measure below (see table 2.23)

Table 2.23

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	Identification of areas for automation in the process prior to the submission of meeting requests	Development of a pre-meeting-request planning tool for clients and meetings/events planners Availability of a pilot single gMeets/One-Stop Shop interface for end users	Improved user experience and feature enhancements for implementation of the automated scenario planning tool available to event and meetings requestors, reducing time requirements and the number of iterations for requests from six to four Integration of a single gMeets/One-Stop Shop interface to automate meeting requests and related service orders to other United Nations Office at Nairobi service providers, as well as their invoicing

Deliverables

2.174 Table 2.24 lists all deliverables of the subprogramme.

Table 2.24

Nairobi, subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	4 836	599	3 236	3 275
1. Meetings of the United Nations Environment Assembly and subsidiary bodies	423	71	254	75
2. Meetings of the UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	124	41	66	50
3. Meetings of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	70	20	–	20
4. Meetings of the UNEP ad hoc open-ended expert meeting on marine litter and microplastics	–	10	–	–
5. Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	143	40	113	50
6. Meetings on the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal	55	4	30	35
7. Meetings on the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade	56	10	8	35
8. Meetings on the Stockholm Convention on Persistent Organic Pollutants	65	12	10	35
9. Meetings of the UNEP Global Meeting of Montevideo focal points	–	3	10	–
10. African Ministerial Conference on the Environment	30	6	25	10
11. Conference of the Parties to the Minamata Convention on Mercury	70	17	–	20
12. Conference of the Parties to the Convention on Biological Diversity	–	8	20	10
13. Meetings of the UNEP Global Pact for the Environment	–	6	–	–
14. Meetings of regional and other groupings of Member States	500	83	200	200
15. Meetings of other intergovernmental or expert bodies and on programme delivery facilitation	3 300	268	2 500	2 735
C. Substantive deliverables				

Consultation, advice and advocacy: informational services and advice to the Bureau of the UN-Habitat Executive Board, the Committee of Permanent Representatives to UNEP and the United Nations Environment Assembly on COVID-19 restrictions for hybrid meetings and on options available for effective deliberations of upcoming meetings and conferences; orientation sessions for new members of the Committee of Permanent Representatives to UNEP; notification letter for the United Nations Environment Assembly specifically on COVID-19 measures; guidelines for the hosting of in-person meetings with an emphasis on COVID-19 prevention.

Subprogramme 3 Documentation services

Objective

2.175 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.176 To contribute to the objective, the subprogramme will continue, in coordination with the other conference-servicing duty stations and in addition to the activities mentioned in paragraph 2.53 above, to:
- (a) Fully participate in the global innovation projects of the Department, including gDoc 2.0 and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Nairobi-specific reference material for in-house and external language professionals;
 - (b) Modernize the generic job profiles of language staff to better suit the new technological environment, strengthen performance management and quality control mechanisms, enhance outreach to universities and continuously improve recruitment methods;
 - (c) Process and issue, in a timely manner, mandated parliamentary documentation of the main intergovernmental bodies headquartered in Nairobi, and of other non-calendar intergovernmental bodies, while assisting meeting secretariats in drafting official records of the meetings;
 - (d) Use performance monitoring dashboard tools, including the pipeline visualization tool, for the advance mapping of forecasted documentation volume, in real time, to respond more efficiently to the demands of Member States and other clients.
- 2.177 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) The provision of machine-readable documents for the United Nations.

Programme performance in 2021

Flexible provision of documentation for “resumed” meetings

- 2.178 Owing to pandemic-related calendar changes, the secretariats of meeting bodies were compelled to split meetings into several iterations, which resulted in an increased need for documentation. The subprogramme responded to that need with increased flexibility, consulting the secretariats regarding revised timelines for the delivery of both slotted and unslotted documents. While the average document processing times increased, as capacity was stretched to the limit to deal with the unplanned increase in documentation needs, the subprogramme successfully absorbed the resulting workload, enabling secretariats to conduct their business with greater agility.
- 2.179 Progress towards the objective is presented in the performance measure below (see figure 2.XXXIII).

Figure 2.XXXIII
Number of resumed meetings

Planned results for 2023

Result 1: consistent simultaneous distribution of documents

Programme performance in 2021 and target for 2023

- 2.180 The subprogramme’s work contributed towards efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and United Nations conferences, with 100 per cent of parliamentary documentation distributed simultaneously in all six official languages, which met the planned target of 100 per cent.
- 2.181 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure XXXIV).

Figure 2.XXXIV
Performance measure: percentage of documents distributed simultaneously in the official languages

Result 2: a robust virtual workplace to support integrated global management

Programme performance in 2021 and target for 2023

- 2.182 The subprogramme’s work contributed to the development of a common document management system, harmonized documented practices to foster collaboration among duty stations and increased workload-sharing among the four duty stations, which met the planned target.
- 2.183 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2.25).

Table 2.25
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Documentation processing business continuity plans limited to in-session when servicing meetings away from Nairobi	Documentation processing business continuity plans included remote servicing of meetings away from Nairobi Formal submission for workload-sharing followed informal agreements between the four duty stations	Formal submission for workload-sharing followed formal agreements between the four duty stations With increased workload-sharing among the four duty stations, Member States benefited from the efficient and timely delivery of documentation	Increase in the number of documents processed through workload-sharing	Fully established workload-sharing arrangements between the four duty stations will make for a more rational use of documentation resources, enhancing the agility of meeting-related services

Result 3: new mastheads for templates available to secretariats of meeting bodies on an online platform

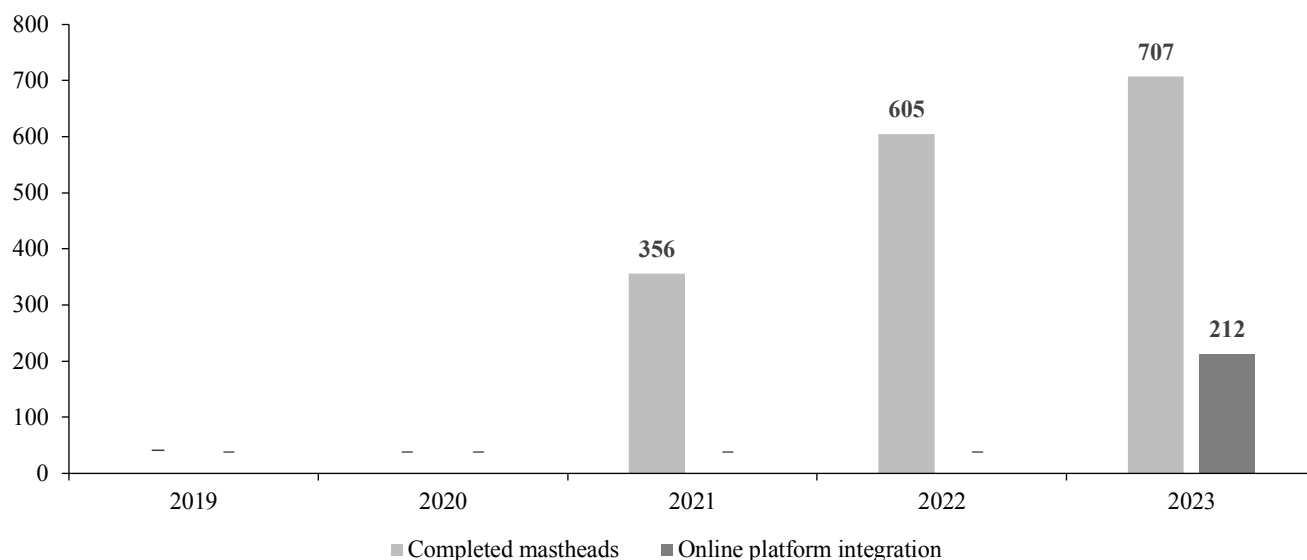

Proposed programme plan for 2023

- 2.184 Consistent mastheads improve the quality of official documentation and reduce drafting times. The subprogramme is reviewing the official documentation issued by the secretariats of meeting bodies within its purview, with a view to implementing an online platform through which templates approved after consultation with the secretariats can be made available to drafters of meeting documents. The subprogramme is working with the technical services at the United Nations Office at Geneva to integrate its online platform with gDoc 2.0. This will create an additional layer of quality assurance and ensure the availability of consistent and up-to-date document formats in a public repository, making full use of new technologies and affording secretariats more user-friendly access to templates. Drafting time will be significantly reduced as communication regarding masthead elements will be greatly curtailed or, in some cases, eliminated.

Lessons learned and planned change

- 2.185 The lesson for the subprogramme was that the absence of consistent and harmonized masthead elements was delaying document processing and delivery times. In applying the lesson, the subprogramme will increasingly collaborate with other duty stations to develop online tools that will support harmonized masthead elements.
- 2.186 Expected progress towards the objective is presented in the performance measure below (see figure 2.XXXV)

Figure 2.XXXV
Performance measure: number of mastheads available on online platform

Deliverables

2.187 Table 2.26 lists all deliverables of the subprogramme.

Table 2.26
Nairobi, subprogramme 3: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	8 810	10 652	5 720	8 000
Editing, translation and desktop publishing of documents for:				
1. The United Nations Environment Assembly and subsidiary bodies	1 500	887	800	500
2. The UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	500	1 082	900	1 500
3. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	800	577	–	700
4. The Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	1 200	1 201	1 000	1 200
5. The Conference of the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal	650	345	250	500
6. The Conference of the Parties to the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade	650	453	90	500
7. The Conference of the Parties to the Stockholm Convention on Persistent Organic Pollutants	900	513	100	500
8. The African Ministerial Conference on the Environment	110	74	80	100
9. The Conference of the Parties to the Minamata Convention on Mercury	900	1 133	–	1 000
10. Other intergovernmental bodies	1 600	4 387	2 500	1 500

Subprogramme 4 Meetings and publishing services

Objective

- 2.188 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.189 To contribute to the objective, the subprogramme will:
- (a) Continue to provide meetings and publishing services, including interpretation and publishing in the official languages, to the main intergovernmental bodies headquartered in Nairobi, such as the United Nations Environment Assembly and the UN-Habitat Assembly and their subsidiary bodies, and to other non-calendar intergovernmental bodies, such as multilateral environmental agreements falling under the substantive coordination of UNEP, or any other secretariat of a multilateral body requesting interpretation and publishing services;
 - (b) Ensure the readiness of a broader array of service delivery modalities, in particular, fully virtual remote simultaneous interpretation for intergovernmental or expert meetings, by relying on modern technologies, such as remote service provision and remote participation for contingencies and business continuity purposes;
 - (c) Maximize the use of its in-house capacity and temporary assistance resources by refining its capacity planning.
- 2.190 The above-mentioned work is expected to result in:
- (a) A more effective utilization of the Organization's global meetings servicing and publishing resources;
 - (b) The conduct of the Organization's deliberations in a more inclusive manner while leaving a smaller environmental footprint;
 - (c) More reliable business continuity readiness to enable the provision of services to Member States.

Programme performance in 2021

Agile and responsive multilingual servicing maintained through business continuity

- 2.191 Remote interpretation services deployed for business continuity under COVID-19 pandemic conditions were essential to the servicing of United Nations conferences. The subprogramme experienced increased demand for remote meetings and publishing support and increased the skills of its staff to leverage the new technologies available for the provision of remote interpretation services.
- 2.192 Working methods for the remote servicing of meetings were adjusted to mitigate the risk of meeting cancellation or postponement, which are inherent risks in business continuity conditions. The subprogramme provided remote meeting services and supported 264 UNEP and UN-Habitat conferences held in hybrid mode, at Nairobi and in other locations, thus benefiting all meeting participants who were unable to travel or meet in-person as result of the pandemic.
- 2.193 Progress towards the objective is presented in the performance measure below (see figure 2.XXXVI).

Figure 2.XXXVI

Performance measure: total number of annual meetings (on-site, hybrid or fully virtual)

Planned results for 2023

Result 1: high-quality interpretation regardless of the location

Programme performance in 2021 and target for 2023

- 2.194 The subprogramme’s work contributed to the provision of high-quality interpretation regardless of the location, resulting in an absence of complaints regarding interpretation services, which met the planned target.
- 2.195 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2.27).

Table 2.27
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
No complaints about interpretation services	No complaints about interpretation services	No complaints about interpretation services	No complaints about interpretation services	No complaints about interpretation services

Result 2: multilingual deliberations ensured by interpretation services with robust business continuity tools

Programme performance in 2021 and target for 2023

- 2.196 The subprogramme’s work contributed to multilingual deliberations ensured by interpretation services with robust business continuity tools, with 96 per cent of meetings programmed versus meetings held, which did not meet the planned target of 100 per cent. The target was not met as a result of late cancellations, over which the subprogramme had no control.
- 2.197 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 2.XXXVII).

Figure 2.XXXVII

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2022 and 2023, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 3: contingency plans for maintenance of a broad array of sustainable, universally accessible conference-servicing modalities

Proposed programme plan for 2023

- 2.198 Before the pandemic, the subprogramme provided services to in-person meetings at the United Nations Office at Nairobi and abroad. However, none of these meetings allowed for remote participation or remote interpretation. During the pandemic, all meetings at the Office were serviced in fully remote interpretation mode under business continuity arrangements. The subprogramme was therefore heavily involved in the testing and evaluation of remote interpretation platforms and in the training of both permanent and freelance interpreters in the utilization of these platforms.

Lessons learned and planned change

- 2.199 The lesson for the subprogramme was that there is a growing demand for hybrid meetings from all serviced entities for contingencies and business continuity purposes that involve fully remote interpretation services. This creates a need for a greater number of interpreters who are skilled at using remote simultaneous interpretation platforms and an improvement in the quality of these platform. In applying the lesson, the subprogramme will continue to train staff and freelance interpreters in the utilization of the platforms and will involve the users in testing and improving them.
- 2.200 Expected progress towards the objective is presented in the performance measure below (see figure 2.XXXVIII)

Figure 2.XXXVIII

Performance measure: number of freelance interpreters trained in the use of remote simultaneous interpretation platforms for contingencies and business continuity purposes

Deliverables

2.201 Table 2.28 lists all deliverables of the subprogramme.

Table 2.28

Nairobi, subprogramme 4: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	505	264	269	460
Meetings with interpretation for:				
1. The United Nations Environment Assembly and subsidiary bodies	35	13	24	10
2. The UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	18	13	14	30
3. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	18	16	–	20
4. The Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/ Vienna Convention for the Protection of the Ozone Layer	23	22	23	23
5. The Conference of the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal	8	2	8	15
6. The Conference of the Parties to the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade	8	2	–	7

2.203 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 2.32 to 2.34 and figure 2.XXXIX.

2.204 As reflected in tables 2.32 (1) and 2.34, the overall resources proposed for 2023 amount to \$343,036,700 before recosting, reflecting a net decrease of \$2,727,900 (or 0.8 per cent) compared with the appropriation for 2022. Resource changes result from three factors, namely: (a) technical adjustments; (b) new and expanded mandates; and (c) other resource changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

- 2.205 As reflected in tables 2.32 (1) and 2.34, resource changes reflect a net decrease of \$6,034,200, as follows:
- New York, subprogramme 2, Planning and coordination of conference services.** The decrease of \$2,250,600 under other staff costs relates to the removal of non-recurrent provisions in support of new and expanded mandates from the General Assembly for 2022;
 - New York, subprogramme 4, Meetings and publishing services.** The increase of \$80,400 relates to the annual provision for one post of Russian Interpreter (P-3) established in 2022 pursuant to Assembly resolution [76/245](#), which was subject to a 50 per cent vacancy rate in accordance with the established practice for new posts;
 - Geneva, subprogramme 2, Planning and coordination of conference services.** The decrease of \$3,576,500 relates to the removal of non-recurrent provisions for 2022 related to the resolutions and decisions adopted by the Human Rights Council at its twenty-eighth through thirtieth and fortieth through forty-eighth sessions;
 - Vienna, conference management.** The decrease of \$291,600 under grants and contributions relates to the removal of a non-recurrent provision for 2022 relating to Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes;
 - Nairobi, subprogramme 2, Planning and coordination of conference services.** The decrease of \$39,700 under other staff costs relates to the removal of a non-recurrent provision for 2022 in support of the implementation of the outcome of the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) and strengthening of UN-Habitat (Assembly resolution [71/235](#)), specifically for the quadrennial report of the Secretary-General on progress in the implementation of the New Urban Agenda, which is submitted every four years;

- (f) **Programme support.** The increase of \$43,800 relates to the annual provision for one post of Senior Information Technology Assistant (General Service (Principal level)) reassigned pursuant to Assembly resolution [76/245](#), which was subject to a 50 per cent vacancy rate in accordance with the established practice for reassigned posts.

New and expanded mandates

2.206 As reflected in tables 2.32 (1) and 2.34, resource changes reflect an increase of \$3,435,800, as follows:

- (a) **New York, subprogramme 2, Planning and coordination of conference services.** The increase of \$1,026,500 under other staff costs relates to additional requirements in support of new and expanded mandates from the General Assembly for 2023 on:
- (i) Youth, disarmament and non-proliferation (\$33,900; resolution [76/45](#));
 - (ii) Nuclear disarmament verification (\$223,500; decision [76/515](#));
 - (iii) Strengthening cooperation for integrated coastal zone management for achieving sustainable development (\$27,100; resolution [76/212](#));
 - (iv) Inclusive policies and programmes to address homelessness, including in the aftermath of the coronavirus disease 2019 (COVID-19) (\$27,100; resolution [76/133](#));
 - (v) Sustainable fisheries, including through the 1995 Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks, and related instruments (\$294,600; resolution [76/71](#));
 - (vi) The revitalization of the work of the General Assembly (\$85,000, resolution [75/325](#));
 - (vii) The scope, modalities, format and organization of the high-level meeting on universal health coverage (\$33,000; resolution [75/315](#));
 - (viii) Programme planning (\$78,000; resolution [76/236](#));
 - (ix) Further modalities of the Fifth United Nations Conference on the Least Developed Countries (\$171,500; resolution [76/251](#));
 - (x) The Doha Programme of Action for the Least Developed Countries (\$52,800; resolution [76/258](#));
- (b) **Geneva, subprogramme 2, Planning and coordination of conference services.** The increase of \$2,243,300 under other staff costs relates to additional requirements for 2023 pursuant to resolutions adopted by the Human Rights Council, as follows:

Resolutions from the forty-sixth to forty-eighth sessions (2021) (\$732,000)

- (i) Resolution [46/13](#), Promoting mutually beneficial cooperation in the field of human rights (\$27,700);
- (ii) Resolution [46/11](#), The negative impact of the non-repatriation of funds of illicit origin to the countries of origin on the enjoyment of human rights, and the importance of improving international cooperation (\$34,800);
- (iii) Resolution [46/7](#), Human rights and the environment (\$27,700);
- (iv) Resolution [46/17](#), Situation of human rights in the Democratic People's Republic of Korea (\$27,700);
- (v) Resolution [47/24](#), Human rights and climate change (\$27,700);
- (vi) Resolution [47/25](#), Preventable maternal mortality and morbidity and human rights (\$27,700);
- (vii) Resolution [47/4](#), Menstrual hygiene management, human rights and gender equality (\$27,700);
- (viii) Resolution [47/23](#), New and emerging digital technologies and human rights (\$51,900);

- (ix) Resolution 47/11, The contribution of development to the enjoyment of all human rights (\$64,900);
- (x) Resolution 47/8, Elimination of harmful practices related to accusations of witchcraft and ritual attacks (\$27,700);
- (xi) Resolution 47/1, Situation of human rights of Rohingya Muslims and other minorities in Myanmar (\$55,400);
- (xii) Resolution 47/21, Promotion and protection of the human rights and fundamental freedoms of Africans and of people of African descent against excessive use of force and other human rights violations by law enforcement officers through transformative change for racial justice and equality (\$169,400);
- (xiii) Resolution 48/6, Child, early and forced marriage in times of crisis, including the COVID-19 pandemic (\$27,700);
- (xiv) Resolution 48/7, Negative impact of legacies of colonialism on the enjoyment of human rights (\$27,700);
- (xv) Resolution 48/2, Equal participation in political and public affairs (\$39,800);
- (xvi) Resolution 48/11, Human rights and indigenous peoples (\$55,400);
- (xvii) Resolution 48/9, Question of the death penalty (\$11,100);

Resolutions from previous years (before 2021) (\$153,300)

- (xviii) Resolution 26/2, The question of the death penalty (\$35,100);
- (xix) Resolution 27/21 and 27/21/Corr.1, Human rights and unilateral coercive measures (\$35,100);
- (xx) Resolution 43/17, Regional arrangements for the promotion and protection of human rights (\$27,700);
- (xxi) Resolution 43/19, Promotion and protection of human rights and the implementation of the 2030 Agenda for Sustainable Development (\$27,700);
- (xxii) Resolution 45/9, The role of good governance in the promotion and protection of human rights (\$27,700);

Full-year requirements relating to mandates extended into 2023 during its forty-ninth session and expected to be extended into 2023 during its fiftieth and fifty-first session (\$1,358,000)

- (xxiii) Resolution 49/3, Promotion and protection of human rights in Nicaragua (\$34,000);
- (xxiv) Resolution 49/26, Situation of human rights in Belarus in the run-up to the 2020 presidential election and in its aftermath (\$27,100);
- (xxv) Resolution 49/27, Situation of human rights in the Syrian Arab Republic (\$634,600);
- (xxvi) Resolution 49/2, Advancing human rights in South Sudan (\$34,000);
- (xxvii) Resolution 49/35, Technical assistance and capacity-building for South Sudan (\$27,100);
- (xxviii) Resolution 49/1, Situation of human rights in Ukraine stemming from the Russian aggression (\$68,000);
- (xxix) Technical assistance and capacity-building in the field of human rights in the Democratic Republic of the Congo (\$61,100);
- (xxx) Situation of human rights in the Bolivarian Republic of Venezuela (\$61,100);

- (xxxi) Resolution [49/31](#), Combating intolerance, negative stereotyping and stigmatization of, and discrimination, incitement to violence and violence against, persons based on religion or belief (\$27,100);
 - (xxxii) Resolution [49/7](#), Cultural rights and the protection of cultural heritage (\$24,600);
 - (xxxiii) Resolution [49/8](#), Commemoration of the thirty-fifth anniversary of the Declaration on the Right to Development (\$38,700);
 - (xxxiv) Resolution [49/9](#), Prevention of genocide (\$40,100);
 - (xxxv) Resolution [49/23](#), Situation of human rights in Myanmar (\$54,200);
 - (xxxvi) Resolution [49/11](#), Right to work (\$27,100);
 - (xxxvii) Resolution [49/4](#), Human rights situation in the Occupied Palestinian Territory, including East Jerusalem, and the obligation to ensure accountability and justice (\$27,100);
 - (xxxviii) Resolution [49/19](#), Promoting and protecting economic, social and cultural rights within the context of addressing inequalities in the recovery from the COVID-19 pandemic (\$106,300);
 - (xxxix) Resolution [49/20](#), Rights of the child: realizing the rights of the child and family reunification (\$11,600);
 - (xl) Resolution [49/21](#), Role of States in countering the negative impact of disinformation on the enjoyment and realization of human rights (\$27,100);
 - (xli) Resolution [49/25](#), Ensuring equitable, affordable, timely and universal access for all countries to vaccines in response to the coronavirus disease (COVID-19) pandemic (\$27,100);
- (c) **Vienna, conference management.** The increase of \$166,000 under grants and contributions relates to the additional requirements for 2023 arising from General Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes.

Other changes

2.207 As reflected in tables 2.32 (1) and 2.34, resource changes reflect a net decrease of \$129,500, as follows:

- (a) **New York, subprogramme 3, Documentation services.** A decrease of \$175,500 under posts reflects the proposed outward reassignment of one post of Editor, English (P-3) to the Global Technical Team under programme support as an Information Systems Officer (P-3), as explained in annex III;
- (b) **New York, subprogramme 4, Meetings and publishing services.** A decrease of \$86,400 under posts reflects the proposed outward reassignment of one post of Publishing Assistant (General Service (Other level)) to the Business Analysis Section under programme support as an Information Technology Assistant (General Service (Other level)), as explained in annex III;
- (c) **Geneva, subprogramme 4, Meetings and publishing services.** A decrease of \$384,200 under posts reflects the proposed outward redeployment of one post of Chief of Service, Conference Services (D-1) and one post of Documents Distribution Assistant (General Service (Other level)) to programme support in New York and Geneva respectively, as explained in annex III;
- (d) **Programme support.** The increase of \$516,600 under posts reflects: (a) the proposed inward redeployment of one post of Chief of Service, Conference Services (D-1) and one post of Documents Distribution Assistant (General Service (Other level)) from subprogramme 4 in Geneva; (b) the proposed inward reassignment of one post (P-3) from subprogramme 3 in New York as an Information Systems Officer (P-3) in the Global Technical Team; and (c) the proposed inward reassignment of one post (General Service (Other level)) from subprogramme 4 in New York as an Information Technology Assistant (General Service (Other level)) in the Business

Analysis Section, as explained in annex III. The costing of the reassigned posts is subject to a 50 per cent vacancy rate in accordance with the established practice for reassigned posts.

Extrabudgetary resources

- 2.208 As reflected in tables 2.32 (2) and 2.33 (2), the Department for General Assembly and Conference Management expects to continue to receive extrabudgetary resources. In 2023, extrabudgetary resources are estimated at \$23,878,100, and would provide for 88 posts, as presented in table 2.33 (2). Post and non-post resources would be used mainly to carry out extrabudgetary activities, including meetings support, publishing and documentation, as well as the provision of conference management applications. This reflects an increase of \$340,600 compared with the estimate for 2022, owing to increased operating requirements and the increase in demand for meetings and documentation services projected for 2023. Extrabudgetary resources represent 6.5 per cent of the total resources for this section.
- 2.209 The authority to oversee the use of extrabudgetary resources rests with the Department for General Assembly and Conference Management, in accordance with the delegation of authority by the Secretary-General.
- 2.210 Extrabudgetary resources include the trust fund for German language translation, established in 1984 to provide resources to issue in German the resolutions and decisions of the General Assembly, as well as the other supplements to its official records, and the resolutions and decisions of the Security Council and the Economic and Social Council.

Policymaking organs

- 2.211 The resources proposed under this component would provide for requirements relating to standing intergovernmental organs, the technical servicing of which is the responsibility of the Department for General Assembly and Conference Management. Table 2.35 provides information on the standing intergovernmental organs, related mandates and proposed financial resource requirements under the regular budget. With regard to the Economic and Social Council, resources for technical secretariat support and conference services for meetings are provided for under conference management, New York.

Part I Overall policymaking, direction and coordination

**Table 2.35
Policymaking organs**

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2023 estimate (before recosting)</i>	
			<i>2022 appropriation</i>	<i>2023 estimate (before recosting)</i>
General Assembly	Discusses any questions or any matters within the scope of the Charter of the United Nations or relating to the powers and functions of any organs provided for in the Charter and makes recommendations as provided in the Charter	Mandate: Articles 10 to 17 of the Charter of the United Nations	175.0	175.0
Trusteeship Council	Assists the General Assembly and the Security Council in carrying out their responsibilities with respect to the international trusteeship system	Mandate: Article 7 of the Charter of the United Nations	–	–
Economic and Social Council	Promotes international cooperation on economic, social and cultural issues and coordinates efforts to achieve internationally agreed goals, including the Sustainable Development Goals	Mandate: Articles 62 to 66 of the Charter of the United Nations	–	–
Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples	Exclusively devoted to the issue of decolonization, it was established with the purpose of monitoring the implementation of the Declaration	Mandate: Declaration on the Granting of Independence to Colonial Countries and Peoples, adopted by the General Assembly in its resolution 1514 (XV)	174.1	174.1
Total			349.1	349.1

2.212 The proposed regular budget resources for 2023 amount to \$349,100 and reflect no change compared with the appropriation for 2022. Additional details on the distribution of resources for 2023 are reflected in table 2.36 and figure 2.XL.

**Table 2.36

(Thousands of United States dollars)

**Executive direction and management**

- 2.213 The executive direction and management component comprises the Office of the Under-Secretary-General and the Protocol and Liaison Service. The Under-Secretary-General for General Assembly and Conference Management is responsible for all the activities of the Department, as well as its administration, and represents the Secretary-General in meetings related to the functions of the Department and in intergovernmental organs and expert bodies, as required. The Under-Secretary-General is also responsible for guiding integrated global conference management involving Headquarters and the United Nations Offices at Geneva, Vienna and Nairobi, which includes managing the conference-servicing resources at Headquarters and providing policy guidance with regard to the utilization of the conference-servicing resources, the authority for which has been subdelegated to the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, with a view to achieving the highest possible level of cohesion, synergy and efficiency. The Under-Secretary-General chairs the International Annual Meeting on Language Arrangements, Documentation and Publications.
- 2.214 The Protocol and Liaison Service provides protocol support to the Secretary-General, the Deputy Secretary-General and, upon request, the President of the General Assembly. It also supports the protocol requirements of high-level dignitaries participating in United Nations meetings and conferences, whether in person at United Nations Headquarters, at conferences away from Headquarters or in hybrid or virtual meetings. The Service ensures the timely registration of both mission personnel and conference participants, liaises with the host country and permanent missions and observer offices and provides protocol guidance on the United Nations system.
- 2.215 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Department is integrating environmental management practices into its operations. In 2019, the Department maintained International Organization for Standardization (ISO) 14001 certification for its publishing operations in Geneva, Nairobi and Vienna. In 2020, the Department initiated the ISO certification process at Headquarters; however, the disruption caused by the pandemic halted the process. The Department resumed the ISO certification process at Headquarters in 2022.

Part I Overall policymaking, direction and coordination

2.216 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 2.37. The Department will continue to implement measures to improve the compliance rate through the advance purchasing of air tickets, the advance planning and nomination of travellers, advance planning for the onboarding of staff with contingencies in place and communicating with staff and managers to raise awareness of the requirement. The cases in which advance booking requirements could not be met were due to circumstances outside the control of the Department.

Table 2.37
Compliance rate
(Percentage)

	<i>Actual 2019</i>	<i>Actual 2020</i>	<i>Actual 2021</i>	<i>Planned 2022</i>	<i>Planned 2023</i>

Extrabudgetary resources

2.220 Extrabudgetary resources for the subprogramme are estimated at \$187,500 and would provide for non-post resources. Extrabudgetary resources would be used mainly to provide for temporary assistance for meetings related to the planning and coordination of conference services for the non-calendar meetings of extrabudgetary clients. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

Subprogramme 3 Documentation services

2.221 The proposed regular budget resources for 2023 amount to \$90,617,000 and reflect a net decrease of \$175,500 compared with the appropriation for 2022. The proposed decrease is explained in paragraph 2.207 (a). Additional details on the distribution of resources for 2023 are reflected in table 2.41 and figure 2.XLIV.

Extrabudgetary resources

2.222 Extrabudgetary resources for the subprogramme are estimated at \$5,476,700 and would provide for 10 posts (1 D-1, 1 P-5, 3 P-4, 2 P-3, 1 General Service (Principal level) and 2 General Service (Other level)) within the German Translation Section. Non-post resources would be used mainly to provide for temporary assistance for meetings related to documentation services for the non-calendar meetings of extrabudgetary clients. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

**Subprogramme 4
 Meetings and publishing services**

2.223 The proposed regular budget resources for 2023 amount to \$49,442,100 and reflect a net decrease of \$6,000 compared with the appropriation for 2022. The proposed changes are explained in paragraphs 2.205 (b) and 2.207 (b). Additional details on the distribution of resources for 2023 are reflected in table 2.42 and figure 2.XLV.

Extrabudgetary resources

2.224 Extrabudgetary resources for the subprogramme are estimated at \$1,870,200 and would provide non-post resources for temporary assistance for meetings related to interpretation services and publishing, reproduction and distribution services related to the non-calendar meetings of extrabudgetary clients. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

Conference management, Geneva

Subprogramme 2

Planning and coordination of conference services

2.225 The proposed regular budget resources for 2023 amount to \$35,294,000 and reflect a net decrease of \$1,333,200 compared with the appropriation for 2022. The proposed changes are explained in paragraphs 2.205 (c) and 2.206 (b). Additional details on the distribution of resources for 2023 are reflected in table 2.43 and figure 2.XLVI.

Extrabudgetary resources

2.226 Extrabudgetary resources for the subprogramme are estimated at \$777,700 and would provide for non-post resources, which would be used mainly to provide temporary assistance for meetings related to meeting coordination services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

Subprogramme 3 Documentation services

2.227 The proposed regular budget resources for 2023 amount to \$55,610,500 and reflect no change compared with the appropriation for 2022. Additional details on the distribution of resources for 2023 are reflected in table 2.44 and figure 2.XLVII.

Geneva, subprogramme 3: distribution of proposed resources for 2023 (before recosting)
(Number of posts)

Extrabudgetary resources

2.228 Extrabudgetary resources for the subprogramme are estimated at \$1,115,000 and would provide for non-post resources for temporary assistance for meetings related to documentation services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

**Subprogramme 4
Meetings and publishing services**

2.229 The proposed regular budget resources for 2023 amount to \$30,268,300 and reflect a net decrease of \$384,200 compared with the appropriation for 2022. The proposed decrease is explained in paragraph 2.207 (c). Additional details on the distribution of resources for 2023 are reflected in table 2.45 and figure 2.XLVIII.

Figure 2.XLVIII
Geneva, subprogramme 4: distribution of proposed resources for 2022 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.230 Extrabudgetary resources for the subprogramme are estimated at \$1,435,000 and would provide for non-post resources for temporary assistance for meetings related to interpretation services and publishing, reproduction and distribution services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

Conference management, Vienna

2.231 The General Assembly, in its resolution [49/237](#), requested the Secretary-General to establish a unified conference-servicing facility at the Vienna International Centre under the management of the United Nations. Accordingly, the Conference Management Service in Vienna provides services not only to the United Nations Office at Vienna and the United Nations Office on Drugs and Crime, but also to IAEA, UNIDO and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization. Under the terms of a memorandum of understanding among the organizations based at the Vienna International Centre, IAEA provides printing services for all organizations based at the Centre.

2.232 For 2023, the servicing of the above-mentioned non-Secretariat client organizations is estimated to account for approximately 26 per cent of the interpretation workload, 26 per cent of the meeting-servicing workload and 8 per cent of the documentation-servicing workload, including translation, editing and desktop publishing.

United Nations share (net budget)

2.233 The requirements of the conference services at Vienna are budgeted on a net basis, whereby the appropriation under the United Nations programme budget is made for the United Nations share of respective activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for consideration and approval by the

Part I Overall policymaking, direction and coordination

General Assembly. Thus, the estimates that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.46.

Table 2.46

Vienna, programme of work: evolution of requirements on a gross and net basis

(Thousands of United States dollars)

	2021	2022	2023 estimate (before recosting)

Overall resource changes, Vienna (gross budget)

Technical adjustments

2.235 As reflected in table 2.47, resource changes reflect a decrease of \$291,600 under subprogrammes 2 and 3, as follows:

- (a) **Vienna, subprogramme 2, Planning and coordination of conference services.** The decrease of \$116,100 relates to the removal of a non-recurrent provision in 2022 for the planning and coordination of conference services related to General Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes;
- (b) **Vienna, subprogramme 3, Documentation services.** The decrease of \$175,500 relates to the removal of a non-recurrent provision in 2022 for documentation services related to Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes.

New and expanded mandates

2.236 As reflected in table 2.47, resource changes reflect an increase of \$166,000 under subprogramme 4, as follows:

Vienna, subprogramme 4, Meetings and publishing services. The increase of \$166,000 relates to an additional non-recurrent provision in 2023 for interpretation services related to General Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes.

Other changes

2.237 As reflected in table 2.47, proposed cost-neutral changes under subprogrammes 3 and 4 are as follows:

- (a) **Vienna, subprogramme 3, Documentation services.** The decrease of \$98,700 relates to the proposed outward redeployment of one post of Editorial and Desktop Publishing Assistant (General Service (Other level)) to subprogramme 4 in Vienna, as explained in annex III;
- (b) **Vienna, subprogramme 4, Meetings and publishing services.** The increase of \$98,700 relates to the proposed inward redeployment of one post of Graphic Design Assistant (General Service (Other level)) from subprogramme 3 in Vienna, as explained in annex III.

**Subprogramme 2
Planning and coordination of conference services**

2.238 The proposed resources on a gross basis for 2023 amount to \$5,941,000 and reflect a decrease of \$116,100 compared with the approved level for 2022. The decrease is explained in paragraph 2.235 (a) above. Additional details on the distribution of resources for 2023 are reflected in table 2.48 and figure 2.XLIX.

Table 2.48

 (Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.239 Extrabudgetary resources for the subprogramme are estimated at \$100,000 and would provide for non-post resources. The resources would be used mainly to provide temporary assistance for servicing meetings. The expected increase of \$8,000 is attributable to the anticipated increase in the number of meetings of extrabudgetary clients to be serviced without interpretation in 2023.

**Subprogramme 3
 Documentation services**

2.240 The proposed resources on a gross basis for 2023 amount to \$15,749,300 and reflect a decrease of \$274,200 compared with the approved level for 2022. The decrease is explained in paragraphs 2.235 (b) and 2.237 (a). Additional details on the distribution of resources for 2023 are reflected in table 2.49 and figure 2.L.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 2.241 Extrabudgetary resources for the subprogramme are estimated at \$1,400,000 and would provide for non-post resources. The resources would be used mainly to provide temporary assistance and contractual services related to the provision of documentation services. The expected increase of \$87,600 is attributable to the anticipated increase in documentation services for extrabudgetary clients in 2023.

**Subprogramme 4
Meetings and publishing services**

- 2.242 The proposed resources on a gross basis for 2023 amount to \$10,675,200 and reflect an increase of \$264,700 compared with the approved level for 2022. The increase is explained in paragraphs 2.236 and 2.237 (b). Additional details on the distribution of resources for 2023 are reflected in table 2.50 and figure 2.LI.

Extrabudgetary resources

2.243 Extrabudgetary resources for the subprogramme are estimated at \$350,000 and would provide for non-post resources. The resources would be used mainly to provide temporary assistance related to interpretation services. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.

Conference management, Nairobi

**Subprogramme 2
 Planning and coordination of conference services**

2.244 The proposed regular budget resources for 2023 amount to \$2,597,200 and reflect a decrease of \$39,700 compared with the appropriation for 2022. The decrease is explained in paragraph 2.205 (e). Additional details on the distribution of resources for 2023 are reflected in table 2.51 and figure 2.LII.

Extrabudgetary resources

2.245 Extrabudgetary resources for the subprogramme are estimated at \$2,626,400 and would provide for 32 posts (1 P-5, 3 P-4, 1 P-3 and 27 Local level), as well as associated non-post resources. The resources would be used mainly for meetings and documents planning and coordination services provided to clients serviced on a reimbursable basis. The expected increase of \$77,100 is attributable mainly to the anticipated increase in the number of meetings to be serviced in 2023.

**Subprogramme 3
 Documentation services**

2.246 The proposed regular budget resources for 2023 amount to \$4,464,300 and reflect no change compared with the appropriation for 2022. Additional details on the distribution of resources for 2023 are reflected in table 2.52 and figure 2.LIII.

Extrabudgetary resources

2.247 Extrabudgetary resources for the subprogramme are estimated at \$2,819,400 and would provide for 21 posts (Local level), as well as associated non-post resources. The resources would be used mainly for the provision of documentation services on a reimbursable basis. The expected increase of \$50,900 is attributable mainly to the anticipated increase in documentation for 2023.

Subprogramme 4
Meetings and publishing services

2.248 The proposed regular budget resources for 2023 amount to \$4,158,500 and reflect no change compared with the appropriation for 2022. Additional details on the distribution of resources for 2023 are reflected in table 2.53 and figure 2.LIV.

 (Number of posts)

Extrabudgetary resources

2.249 Extrabudgetary resources for the subprogramme are estimated at \$2,806,300 and would provide for 22 posts (Local level), as well as associated non-post resources. The resources would be used mainly for meetings and publishing services provided on a reimbursable basis. The expected increase of \$68,000 is attributable mainly to the anticipated increase in the level of meetings requiring interpretation and publishing services in 2023.

Programme support

2.250 The programme support component comprises the Executive Office of the Department for General Assembly and Conference Management based in New York, as well as the Global Technical Team based in Vienna, which provides the enterprise conference management solutions to all conference

management operations in the four duty stations and United Nations entities, which also benefit from the innovative technologies developed by the Department to support complex global conference management operations. The component also includes the Business Analysis Section based in New York, which services New York-based clients; the Information Technology and Business Analysis Unit based in Geneva, which contributes to the development of the enterprise conference management solutions while also servicing local operations; and the Information Technology Units in Vienna and Nairobi that service local operations.

- 2.251 The Executive Office provides central administrative services and policy advice to the Department in the areas of resource planning, human resources management, financial management, contracts and general administration. In the context of the integrated global management of conference services, the Executive Office is responsible for standardizing and harmonizing the administrative and budgetary methodologies of the conference-servicing components at all four conference-servicing duty stations and for coordinating workforce planning and performance management.
- 2.252 The Information Technology and Business Analysis Unit in Geneva and the Information Technology Units in Vienna and Nairobi are responsible for maintaining, enhancing, supporting and advancing enterprise technology solutions that are specific to conference management, consistent with the Department's strategic priorities and operational needs and in support of the mandate implementation.
- 2.253 The Global Technical Team comprises core staff, general temporary assistance and contractors. It is responsible for maintaining enterprise technology products, which cover the three primary domains of meetings, documents and translation. The gMeets and gDoc systems, developed and maintained by the Team, have become part of the enterprise conference management solutions, and gText facilitates efficient document processing.
- 2.254 The Business Analysis Section located in New York will continue to analyse business needs with a view to simplifying processes. On the basis of such analysis, the Section will continue to design, develop and deploy innovative information technology solutions for delegates in New York, provide timely and critical responses to the needs of Member States and maintain up-to-date information and communications technology platforms in an agile and client-oriented way.
- 2.255 As explained in annex III, the function of dedicated senior-level leadership, which drives innovation and data management initiatives at the D-1 level, through the inward redeployment of the post of Chief, Conference Services, will ensure consolidation of the efforts of the Department to streamline, harmonize and integrate the applications that link conference services with enterprise systems, including Umoja and Inspira, in line with the vision of the Secretary-General and the information and communications technology strategy. The Chief would represent the Department at meetings of enterprise governance bodies such as the Umoja Change Board and coordinate with other stakeholders on strategic integration efforts. The Chief would lead data management and reporting initiatives and oversee a consolidated technology and innovation team to inform the monitoring and evaluation of key performance indicators established by the General Assembly for the Department globally, at the duty station and service levels.
- 2.256 The proposed regular budget resources for 2023 amount to \$17,375,000 and reflect an increase of \$560,400 compared with the appropriation for 2022. The proposed increase is explained in paragraphs 2.205 (f) and 2.207 (d). Additional details on the distribution of resources for 2023 are reflected in table 2.54 and figure 2.LV.

Table 2.54

Extrabudgetary resources

- 2.257 **New York.** Extrabudgetary resources are estimated at \$2,428,600 and would provide for non-post resource requirements. The resources would be used for extrabudgetary administrative and information technology requirements to service the conference services requirements of extrabudgetary clients. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.
- 2.258 **Geneva.** Extrabudgetary resources are estimated at \$36,700 and would provide for information technology support for extrabudgetary meetings on a reimbursable basis. The estimated resource level for 2023 reflects no change compared with the estimate for 2022.
- 2.259 **Vienna.** Extrabudgetary resources are estimated at \$110,000 and would be used for substantive and technical training.

Part I Overall policymaking, direction and coordination

2.260 **Nairobi.** Extrabudgetary resources are estimated at \$338,600 and would provide for three posts (Local level) as well as associated non-post resources related to support for meetings, documents and publishing services on a reimbursable basis. The expected increase of \$54,500 is attributable mainly to an increase in meetings requiring information technology support in 2023.

United Nations share (net budget): information technology support, Vienna

2.261 The requirements relating to information technology support for the conference services in Vienna are budgeted on a net basis, whereby the appropriation under the programme budget is made for the United Nations share of those activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for the consideration and approval of the General Assembly. Thus, the estimates for information technology that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.55.

Table 2.55

Information technology support, Vienna: evolution of requirements by gross and net budget

(Thousands of United States dollars)

	2021	2022	2023 estimate (before recosting)
Conference services, Vienna (gross budget)	1 238.9	1 334.1	1 334.1
Reimbursement by IAEA, UNIDO and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization	149.1	240.5	240.5
United Nations (net budget)	1 089.8	1 093.6	1 093.6

2.262 As shown in table 2.55, the regular budget resource requirements for 2023 are estimated at \$1,093,600 and reflect no change compared with the 2022 appropriation.

Resource requirements (gross budget): information technology support, Vienna

2.263 The proposed resources on a gross basis for 2023 amount to \$1,334,100 and reflect no change compared with the approved level for 2022. Additional details on the distribution of resources for 2023 are reflected in table 2.56 and figure 2.LVI.

Annex II**Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies**

*Brief description of the recommendation**Action taken to implement the recommendation*

Advisory Committee on Administrative and Budgetary Questions[A/76/7](#)

The Advisory Committee considers that the information provided regarding the costs of the different types of meetings lacks clarity and detail. The Committee trusts that the Secretary-General will provide, to the General Assembly at the time of its consideration of the present report, comprehensive information on the types of the meetings; the services provided by duty stations, including the information and communications technical support and cost recovery arrangements; and the comparative analysis of any associated costs and other resources required for delivering in-person, hybrid and virtual meetings in the six official languages. The Advisory Committee recommends that the General Assembly request the Secretary-General to provide updated information on the above-mentioned issues in his next budget submission (para. I.69).

The Advisory Committee trusts that detailed information on the cost-recovery mechanism and the amounts recovered will be presented to the General Assembly at the time of its consideration of the present report and that an update will be included in the next budget proposals (para. I.74).

Updated information recommended by the Advisory Committee on Administrative and Budgetary Questions will be included in the report of the Secretary-General on the pattern of conferences.

Matters in relation to cost recovery are included in the present budget proposal. Amounts recovered are incorporated into the paragraphs on extrabudgetary resources in the present budget proposal.

Annex III

Summary of proposed post changes, by component and subprogramme

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Level</i>	<i>Description</i>	<i>Reason for change</i>
New York: subprogramme 3, Documentation services	(1)	P-3	Reassignment of Editor, English, as Information Systems Officer	To support the development of innovative information technology solutions in the Global Technical Team for the integrated global conference management of documentation services
Programme support	1	P-3		
New York: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Reassignment of Publishing Assistant as Information Technology Assistant	To ensure advance planning of acquisitions and a continuous information technology asset management function for the Department for General Assembly and Conference Management, and compliance with the internal control framework of the Secretariat
Programme support	1	GS (OL)		
Geneva: subprogramme 4, Meetings and publishing services	(1)	D-1	Redeployment of Chief of Service, Conference Services	The Department's pursuit of improvement and innovation in the past few years has resulted in the development of efficient and effective information technology platforms (such as eAPG, gMeets, gDoc and gText) and other tools (e-deleGATE and Indico.UN) used to provide client-oriented services to Member States. The increased use of technologies enables further efficiencies in planning, distributing, managing and monitoring language capacities across all four duty stations as well as ensuring business continuity during periods of disruption
Programme support	1	D-1		As the demand for conference services and the complexity of their delivery continues to increase, the importance of leveraging the newest technologies and adapting working methods has proven ever more critical to implementing the Department's core mandate to provide high-quality, timely, cost-effective, sustainable and accessible conference management services
				In addition, as mandated by the General Assembly, the need for the integration of conference management software with enterprise systems in support of the Secretariat-wide information and communications technology strategy requires a change in the management of these resources. To truly achieve integrated global management and coherence among the duty stations as well as integration with enterprise systems, it is proposed that the architecture and governance of the capabilities currently dispersed across many organizational units and duty stations be centralized
				Thus, it is proposed that one post (D-1) be redeployed from subprogramme 4 in Geneva to the Department's shared programme support component to create a dedicated capacity of Chief, Conference Services, at the D-1 level, to lead and oversee the innovative data management initiatives and technologies that enable conference services. The Chief will assume oversight of the information technology resources in this regard in a globally integrated manner and report directly to the Assistant Secretary-General of the Department

Part I Overall policymaking, direction and coordination

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Level</i>	<i>Description</i>	<i>Reason for change</i>
Geneva: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Redeployment of Documents Distribution Assistant	To strengthen the provision of information technology services for conference-related applications, services and tools, including the increased electronic distribution of documents, and to align the organizational structure with operational requirements
Programme support	1	GS (OL)		
Vienna: subprogramme 3, Documentation services	(1)	GS (OL)	Redeployment of Editorial and Desktop Publishing Assistant as Graphic Design Assistant	To accommodate the increasing demand for specialized data visualizations in electronic publishing and align the organizational structure with operational requirements
Vienna: subprogramme 4, Meetings and publishing services	1	GS (OL)		

Abbreviation: GS (OL), General Service (Other level).

I. Department of Political and Peacebuilding Affairs

Foreword

As the global coronavirus disease (COVID-19) pandemic continues, ongoing conflicts and tensions have not ceased to exist. The takeover by the Taliban in Afghanistan caused one of the biggest political, economic, humanitarian and refugee crises that the world has recently seen. Ceasefires continued to hold in Libya and the South Caucasus, but situations elsewhere saw dangerous escalations, including in Ethiopia, the Sudan, Ukraine and Yemen. In a number of contexts, we have witnessed a series of unconstitutional changes of government, notably in Guinea, Mali, Myanmar and the Sudan. Uncertainty in the context of the pandemic has also fostered the spread of misinformation and hate speech, aggravating political tensions and instability.

Considering these trends, the work of the Department of Political and Peacebuilding Affairs has remained critical to promoting conflict prevention and sustaining peace. The Department continues to render assistance to political and peace processes around the world and to support Member States as well as the Secretary-General in their efforts. Although the pandemic continues to make diplomacy more difficult, we have adapted, combining virtual and in-person engagements to fulfil our mandates to advance peace processes, de-escalate crises and prevent conflict.

As we look ahead to 2023, the Department will continue to deploy and better leverage its capacities for prevention and improve its support to Member States in upholding international peace and security.

(Signed) Rosemary A. DiCarlo
Under-Secretary-General for Political and Peacebuilding Affairs

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 3.1 The Department of Political and Peacebuilding Affairs is responsible for all Secretariat matters related to the prevention, management and resolution of conflicts at the global level. The Department is the lead entity of the United Nations for good offices, political analysis, mediation, electoral assistance, peacebuilding support and political guidance as they relate to the Organization's efforts towards, inter alia, preventive diplomacy, peacemaking, peacebuilding and sustaining peace. The Department oversees the work of missions under its responsibility, including special envoys and regional offices. It also provides support to peacekeeping operations in the areas of mediation, electoral assistance and peacebuilding, as well as to resident coordinators working in complex political situations. It provides substantive support and secretariat services to the Security Council and its subsidiary bodies, as well as to relevant subsidiary organs of the General Assembly, including the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Committee on the Exercise of the Inalienable Rights of the Palestinian People. The Department also provides strategic, substantive and technical support to the work of the Peacebuilding Commission, manages the Peacebuilding Fund on behalf of the Secretary-General and draws together the expertise of the United Nations system to facilitate coherent system-wide action in support of peacebuilding and sustaining peace.
- 3.2 The mandate of the Department derives from the Charter of the United Nations and the priorities established in relevant General Assembly resolutions and decisions, including resolution [46/232](#), in which the Assembly established the Department of Political Affairs, and more recently resolution [72/262](#) C, in which the Assembly established the Department of Political and Peacebuilding Affairs. The proliferation of the number and intensity of conflicts over the past few years and their immense human and material cost confirms the importance of conflict prevention and resolution through inclusive political solutions, peacebuilding and sustaining peace.

Strategy and external factors for 2023

- 3.3 The Department has global responsibility for political and peacebuilding issues and manages a spectrum of tools and engagements across the conflict continuum to ensure a coherent and effective approach to conflict prevention and resolution, electoral assistance, peacebuilding and sustaining peace. Given its global mandate for conflict prevention and peacemaking, the Department will play a lead role within the United Nations in formulating and implementing comprehensive regional strategies that address cross-boundary issues, in cooperation with regional and subregional organizations.
- 3.4 In order to achieve these goals, the Department will rely on its expertise at Headquarters and its network of field presences, in particular, special political missions, regional offices, and liaison presences with regional and other organizations, and the capacities of the United Nations peace and security pillar, which has been restructured since 2019.
- 3.5 The Department will continue to provide advice and substantive services to the Security Council, its subsidiary organs and the Military Staff Committee; assist and support the Peacebuilding Commission; provide advice and substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, as well as to other relevant intergovernmental bodies; and continue to provide support to the Committee on the Exercise of the Inalienable Rights of the Palestinian People.

- 3.6 For 2023, the Department's planned deliverables will support Member States in their ongoing management of and recovery from the coronavirus disease (COVID-19) pandemic. Such planned deliverables and activities include providing technical and substantive advice to the Peacebuilding Commission, including on addressing the impact of COVID-19 on peacebuilding, and working collaboratively, through the Peacebuilding Fund, on programmes that mitigate any continued risks of violent conflict arising from the pandemic and that support conflict-sensitive recovery efforts.
- 3.7 Reflecting the importance of continuous improvement and responding to the needs of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include adopting flexible workflows to enable agile and innovative responses to a changing environment in order to preserve the predictability of the work of intergovernmental bodies and maintain the participation of Member States. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.
- 3.8 With regard to cooperation with other entities at the global, regional, national and local levels, under Chapter VIII of the Charter, the Department, through its special political missions and its liaison offices, will continue to strengthen partnerships with regional and other organizations in the field of peace and security. The Department is also expanding its partnerships with other relevant actors, including civil society, in particular in support of women and young people.
- 3.9 With regard to inter-agency coordination and liaison, the Department will continue to participate in the Executive Committee established by the Secretary-General and chair a number of inter-agency task forces to coordinate and increase the coherence of United Nations system engagement in specific countries or regions, in accordance with entities' mandates, as well as various thematic inter-agency mechanisms. The Peacebuilding Fund, by nature a cross-pillar tool of financial support, will continue to work with and through agencies, funds and programmes in-country and at Headquarters. Under the United Nations-World Bank Partnership Framework for Crisis-Affected Situations, the Department will continue to work to strengthen partnerships with the World Bank and other international financial institutions to make international engagement in crisis-affected situations more coherent, effective and sustainable. The Department will maintain the Humanitarian-Development-Peacebuilding and Partnership Facility to support field teams' joint data, analysis and operational collaboration with the World Bank Group.
- 3.10 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Unity among Member States, in particular the Security Council, including in critical situations in which the United Nations is engaged;
 - (b) Existence of entry points for United Nations engagement to mitigate tensions and prevent conflict;
 - (c) Commitment of the parties to a conflict to engaging in a process towards the peaceful settlement of disputes.
- 3.11 The Department integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Department's 2019 policy on women and peace and security builds on good practices across the Department and special political missions and is intended to ensure that priorities are integrated into the daily work of the Department and special political missions. These priorities, in line with the mandates entrusted to the Organization in the area of women and peace and security, encompass gender-sensitive analysis, promoting the inclusion of women in all peacemaking, peace-sustaining and peacebuilding efforts, and their participation in electoral and political processes. The policy also addresses such issues as preventing and assessing conflict-related sexual violence and post-conflict planning and financing. In addition, the Department supports the efforts of the

Peacebuilding Commission to mainstream a gender perspective in all aspects of its work, including through the implementation of the Commission's gender strategy and by keeping track of progress through the submission of annual reports. The strategy of the Peacebuilding Fund also prioritizes women's engagement.

- 3.12 In line with the United Nations Disability Inclusion Strategy, the Department will implement a joint Department of Political and Peacebuilding Affairs-Department of Peace Operations action plan for disability inclusion with a view to reinforcing an organizational culture that supports the inclusion of persons with disabilities and further advancing disability inclusion in strategic planning and management, knowledge and information management. The Department will also foster engagement with government counterparts and civil society organizations to promote the inclusivity of political processes, including in addressing the needs of people with disabilities.

Programme performance in 2021

Impact of the pandemic

- 3.13 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular, reduced meetings and training events, as some events could not be carried out through virtual platforms. Substantive servicing of the work of the Security Council and its subsidiary bodies and other intergovernmental bodies, including various political engagements, was carried out through virtual meeting platforms or hybrid settings. For example, as the Security Council partially resumed its pre-pandemic regular working methods, the Department facilitated the participation of Member States in in-person meetings in various formats through written statements and observing the sessions remotely, as described in subprogramme 3. Some electoral missions had to be cancelled or postponed, as reflected in subprogramme 2, and some capacity development initiatives and training events for regional organizations and their Member States had to be cancelled or postponed, as reflected in subprogrammes 1 and 5.
- 3.14 In addition, in order to support Member States on issues related to the COVID-19 pandemic, within the overall scope of the objectives, some planned deliverables and activities were modified and new activities were added. These included the efforts by subprogramme 2 to address new requests for electoral assistance through remote and in-person needs assessments based on specific contexts and health requirements, as well as support to electoral authorities in amending operational planning and ensuring the business continuity of electoral operations, including in mitigating COVID-19 related risks. They also included efforts by subprogramme 5 to enhance technical abilities for digital advocacy via virtual events, and the development of e-booklets to disseminate publications. These activities contributed to the results in 2021, as described in the programme performance under subprogrammes 1 to 3 and subprogramme 5.

Legislative mandates

- 3.15 The list below provides all mandates entrusted to the programme.

Charter of the United Nations

Articles 33 and 99

General Assembly resolutions

46/232	Revitalization of the United Nations Secretariat	61/230 ; 69/291 ; 75/327	Implementation of the recommendations contained in the report of the Secretary-General on the causes of conflict and the promotion of durable peace and sustainable development in Africa
57/296	Causes of conflict and the promotion of durable peace and sustainable development in Africa		

Section 3 Political affairs

Deliverables

3.16 Table 3.1 lists all cross-cutting deliverables of the programme.

Table 3.1
Cross-cutting deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
Meetings of the:				
1. Fifth Committee	1	1	1	1
2. Committee for Programme and Coordination	1	1	1	1
3. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with regional and subregional organizations; and support for field operations, including provision of mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States, regional and subregional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases, manuals and guides on international peace and security issues.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exhibits and other communications products about the work of the Department.				
External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products about the work of the Department.				

Evaluation activities

- 3.17 The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
- (a) Office of Internal Oversight Services (OIOS) evaluation of the Department of Political and Peacebuilding Affairs ([E/AC.51/2021/3](#));
 - (b) Peacebuilding Fund portfolio evaluations (Burundi and Madagascar);
 - (c) Independent evaluation to identify entry points to promote richer departmental debate and analysis.
- 3.18 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2023. For example, the OIOS evaluation of the Department concluded that the Department had made effective use of its mediation and preventive diplomacy tools and effectively contributed to conflict prevention when key enabling factors such as strong political will, leadership and cohesive international support were in place. In order to address the OIOS recommendations related to regional division integration, work processes and knowledge management, the Department will continue to prioritize the strengthening of management culture and communications. Furthermore, in Burundi, the Peacebuilding Fund portfolio evaluation found that engaging local communities through women- and youth-led initiatives was an effective way of maintaining engagement and supporting peacebuilding efforts at a time when working more centrally was becoming challenging. In Madagascar, the evaluation found that mainstreaming a gender perspective helped to drive women's inclusion in dialogue processes related to security sector reform, governance and human rights. Both approaches have been considered in more recent programming efforts.
- 3.19 The following evaluations are planned for 2023:
- (a) OIOS biennial assessment on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives;

- (b) Peacebuilding Fund portfolio evaluation (Chad);
- (c) Peacebuilding Fund country strategic review (Guinea);
- (d) Peacebuilding Fund midterm strategy review (global);
- (e) Peacebuilding Fund evaluation of projects under \$1.5 million (global).

Programme of work

Subprogramme 1

Prevention, management and resolution of conflicts

Objective

- 3.20 The objective, to which this subprogramme contributes, is to advance the prevention, management and resolution of conflicts by peaceful means.

Strategy

- 3.21 To contribute to the objective, the subprogramme will:
- (a) Support the pacific settlement of disputes, under Chapter VI of the Charter, through the use of the tools of preventive diplomacy, peacemaking, peacebuilding and sustaining peace;
 - (b) Work in close cooperation with a wide array of actors, in particular regional and subregional organizations, including under Chapter VIII of the Charter;
 - (c) Promote a more effective and cohesive response to help to prevent, mitigate, manage and resolve conflicts by:
 - (i) Responding in a timely manner to conflict situations;
 - (ii) Providing timely and accurate information, analysis and policy options;
 - (iii) Formulating recommendations on measures that could be undertaken by the United Nations system;
 - (iv) Making available and providing substantive and technical support to the good offices of the Secretary-General, including through formal mediation, where appropriate;
 - (v) Providing substantive, political and technical support to the Secretary-General in the discharge of his functions and in his relationships with Member States;
 - (vi) Building the capacity of regional and subregional organizations;
 - (vii) Providing substantive support and guidance to special political missions;
 - (viii) Strengthening the Department's capacity, expertise and partnerships with other United Nations and subregional, regional and international organizations in order to address peace and security challenges more effectively;
 - (ix) Undertaking monitoring and evaluating the impact and the cost-effectiveness of key conflict prevention and mitigation initiatives;
 - (x) Developing coherent strategies for crisis prevention and peacebuilding, linking diplomatic, security, humanitarian and development efforts by the United Nations system and other international and regional actors;
 - (xi) Enhancing political and operational links with the wider United Nations system, in particular on peacebuilding issues;

- (xii) Operationalizing the women and peace and security and the youth and peace and security agendas to promote the full, equal and meaningful participation of women and young people in political and peacebuilding processes.

3.22 The above-mentioned work is expected to result in the improved capacity and capability of Member States to identify, prevent and address conflict situations.

Programme performance in 2021

Enhanced participation in consultations through digital dialogues

3.23 Responding to the Secretary-General’s call to accelerate innovative methods and strategic foresight, the subprogramme is integrating approaches such as digital dialogue initiatives. Complementing other good offices and mediation efforts, the subprogramme continued to explore the use of innovative technology for mediators and relevant actors to hold real-time consultations with large groups of individuals in languages spoken in a given conflict or post-conflict setting. Building on initial successes in Yemen and Libya in 2020, the subprogramme designed and facilitated digital dialogues in Bolivia (Plurinational State of), Iraq and Libya in 2021, providing a platform for large groups of participants from diverse backgrounds, including young people and women, to exchange views on trust-building, reconciliation and the future of the respective peace and reconciliation processes. The dialogue outcomes helped to inform the work of the United Nations in the Plurinational State of Bolivia, the electoral and post-electoral support strategy for Iraq and critical engagement within the Libyan Political Dialogue Forum.

3.24 Progress towards the objective is presented in the performance measure below (see table 3.2).

Table 3.2
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	Strengthened understanding of various perspectives on trust-building, reconciliation and the future of peace and reconciliation processes in Yemen and Libya	Strengthened understanding of various perspectives on trust-building, reconciliation and the future of peace and reconciliation processes in Bolivia (Plurinational State of), Iraq and Libya

Planned results for 2023

Result 1: enhanced peace and security collaboration

Programme performance in 2021 and target for 2023

- 3.25 The subprogramme’s work contributed to the United Nations mission transition in the Sudan, which continued in 2021 in a coordinated and integrated manner according to Security Council timelines, ensuring continued support to the Government and meeting the planned target.
- 3.26 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.3).

Table 3.3
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Discussions by external actors, such as regional and subregional organizations, with United Nations entities on comprehensive regional strategies for a number of regions or subregions	Transition in Guinea-Bissau with the adaptation of the regional work to the new United Nations presence in the country, leading to greater harmonization of action by regional and subregional organizations and other stakeholders	United Nations mission transition in the Sudan ensured continued support to the Government	Transitions from one field configuration to another are carried out within the timing indicated by the Security Council and in a coordinated and integrated manner	Transitions from one field configuration to another are carried out within the timing indicated by the Security Council and in a coordinated and integrated manner

Result 2: reduced threats to peace and security

- 3.27 The subprogramme’s work contributed to continued good offices and mediation efforts in virtual, hybrid and in-person formats, leading to the reopening of the coastal road and the adoption of the 5+5 Joint Military Commission Action Plan in Libya, as well as advances in transitional justice processes in Colombia, which met the planned target.
- 3.28 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.4).

Table 3.4
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	The Libyan Political Dialogue Forum was held	Reopening of the coastal road and adoption of the 5+5 Joint Military Commission Action Plan in Libya Advances made in transitional justice processes in Colombia	Increased opportunities for Member States to prevent, manage and resolve conflict through access to virtual tools and remote modalities to prevent, manage and resolve conflict	Enhanced ability of Member States to prevent, manage and resolve conflicts and mitigate the impact of the COVID-19 pandemic

Result 3: improved responses for countering hate speech and incitement to violence

Proposed programme plan for 2023

- 3.29 Guided by General Assembly resolution [75/309](#) and the Secretary-General’s Strategy and Plan of Action on Hate Speech, the subprogramme stepped up its support to Member States in identifying and applying preventive approaches and responsive mechanisms to combat hate speech at various levels. The subprogramme partners with the Department of Peace Operations through the Department of Political and Peacebuilding Affairs-Department of Peace Operations Joint Action Plan on Hate Speech and coordinates with the Office of the Special Adviser to the Secretary-General

on the Prevention of Genocide and other stakeholders. In 2021, the subprogramme established a community of practice for United Nations entities in South and South-East Asia to exchange knowledge and best practices on supporting Member States in countering hate speech. The subprogramme also developed a new technological tool to monitor online hate speech trends.

Lessons learned and planned change

- 3.30 The lesson for the subprogramme was that the spread of hate speech as a contributing factor to violence in conflict and post-conflict settings requires dedicated responses for the prevention, management and resolution of conflicts, including through the provision of targeted guidance and good practices to address the spread of hate speech. In applying the lesson, the subprogramme will develop new guidance and tools and build the capacity of United Nations personnel in agencies, funds and programmes on monitoring hate speech, identifying trends and critical challenges and designing effective counter-strategies. This will enable improved responses by Member States for combating hate speech and incitement to violence in conflict and post-conflict settings.
- 3.31 Expected progress towards the objective is presented in the performance measure below (see table 3.5).

Table 3.5
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	Inter-agency exchange of knowledge and best practices on countering hate speech through the community of practice in South and South-East Asia Strengthened hate speech monitoring through new technologies for the analysis of open-source information	Guidance on addressing hate speech in conflict or post-conflict settings available to Member States Strengthened capacity for advocacy and outreach in 3 regions to counter hate speech	Special political missions incorporate good practices and lessons learned into hate speech-related work Strengthened capacity for advocacy and outreach in 5 regions to counter hate speech

Deliverables

- 3.32 Table 3.6 lists all deliverables of the subprogramme.

Table 3.6
Subprogramme 1: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	68	68	70	68
Reports of the Secretary-General:				
1. On cooperation between the United Nations and regional and other organizations for the General Assembly	–	–	1	–
2. On matters related to peace and security for the General Assembly	16	16	16	16
3. Pursuant to Security Council resolution 2240 (2015) for the General Assembly	–	–	1	–
4. On matters related to peace and security for the Security Council	50	50	50	50
5. On regional confidence-building measures for the United Nations Standing Advisory Committee on Security Questions in Central Africa	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	105	102	105	105
6. Meetings and/or informal consultations of the General Assembly and its subsidiary organs	16	16	16	16
7. Meetings and/or informal consultations of the Security Council and its subsidiary organs	80	80	80	80
8. Meetings and/or informal consultations of the United Nations Standing Advisory Committee on Security Questions in Central Africa	4	4	4	4
9. High-level side events on issues relating to the prevention and resolution of conflicts during the General Assembly	5	2	5	5
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	195	150	195	195
10. Seminars, training events and academic meetings on advancing preventive diplomacy, peacemaking and peacebuilding	195	150	195	195
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with more than 20 regional organizations; and strategic assessment missions and support for 22 special political missions, including mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States from all regions, international and regional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases on international peace and security issues.				
D. Communication deliverables				
External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products about the work of the Department.				

Subprogramme 2 Electoral assistance

Objective

- 3.33 The objective, to which this subprogramme contributes, is to strengthen the existing capacity of requesting Member States to organize and conduct inclusive, transparent and peaceful elections that enjoy public confidence and that contribute to stability and security, especially in transitional and post-conflict situations.

Strategy

- 3.34 To contribute to the objective, the subprogramme will:
- (a) Continue to provide timely electoral support to Member States upon their request or pursuant to a mandate from the General Assembly or the Security Council, in close coordination with other relevant United Nations entities;
 - (b) Deploy technical experts and various types of electoral missions in support of requesting Member States, including on designing and establishing election management bodies, designing or reforming electoral frameworks and systems, developing voter education and voter registration activities and promoting the participation of women, young people and persons with disabilities in electoral and political processes;
 - (c) Develop partnerships and provide capacity development support to regional organizations, including co-organizing (with regional partner organizations) training events for Member States in various regions, including on gender equality and elections, enhancing the credibility and integrity of electoral processes and preventing election-related violence;
 - (d) Update existing United Nations internal policies on electoral assistance and develop new policies or update the existing ones in close cooperation with other relevant United Nations entities, to ensure consistency, coordination and coherence within the United Nations system on electoral assistance activities;
 - (e) Maintain the United Nations single roster of electoral experts and the United Nations electoral institutional memory;
 - (f) Enhance COVID-19-related electoral support to Member States, including supporting electoral officials in managing risks to public health and safety during electoral processes.
- 3.35 The above-mentioned work is expected to result in:
- (a) Strengthened election management bodies;
 - (b) More effective electoral frameworks and systems;
 - (c) Enhanced voter education and voter registration activities;
 - (d) Increased participation of women, young people, persons with disabilities, other underrepresented groups and those who are marginalized (General Assembly resolution [76/176](#)) in electoral and political processes;
 - (e) Peaceful and inclusive elections and more credible electoral processes;
 - (f) Strengthened electoral capacity of regional organizations;
 - (g) Minimized COVID-19-related risks to voters, electoral officials and candidates, while preserving the integrity of the electoral process.

Programme performance in 2021

Enhanced capacity of requesting Member States to conduct safe elections amidst the COVID-19 pandemic

- 3.36 The outbreak of the COVID-19 pandemic in 2020 had a notable impact on the plans of many Member States to conduct timely elections. Given the importance of timely, genuine and periodic elections in strengthening democratic processes, the subprogramme ensured that the Organization adapted its processes and mechanisms to be able to continue electoral support to Member States and took immediate measures to assist in addressing the challenges posed by the pandemic in organizing elections. These measures included developing practical guidelines on supporting Member States in conducting elections in the pandemic context and adding COVID-19 mitigation measures to United

Nations electoral support projects, where necessary. In 2021, the subprogramme continued those efforts by assisting Member States that conducted elections with specific measures aimed at mitigating the COVID-19 risks to voters, candidates and electoral officials, while preserving the integrity of the electoral process. Such measures included enhancing voter education and awareness-raising activities on COVID-19-related matters and providing some electoral commissions with the materials, training and equipment necessary to ensure the safety of voters, candidates and electoral officials, particularly on election day, and supporting national efforts in identifying and addressing challenges facing underrepresented groups and those who are marginalized in electoral processes during the pandemic. Despite the continued pandemic, the number of electoral events supported by the United Nations in the past three years has increased.

3.37 Progress towards the objective is presented in the performance measure below (see figure 3.I).

Figure 3.I

Performance measure: number of countries that conducted elections with support from the United Nations (presidential and parliamentary elections as well as referendums)

Planned results for 2023

Result 1: increased capacity of Member States to conduct inclusive, transparent and peaceful elections and increased support to regional organizations

Programme performance in 2021 and target for 2023

3.38 The subprogramme’s work contributed to the conduct of 16 electoral capacity development initiatives for partner regional organizations and their Member States, which exceeded the planned target of 15 initiatives.

3.39 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.II).

Figure 3.II
Performance measure: number of regional electoral capacity development initiatives in which regional organizations and their Member States participate (annual)

Result 2: increased participation of women in electoral and political processes

Programme performance in 2021 and target for 2023

- 3.40 The subprogramme’s work contributed to reaching the average of 25.3 per cent of women in parliaments in countries receiving United Nations electoral assistance, which exceeded the planned target of 25 per cent.
- 3.41 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.III).

Figure 3.III
Performance measure: women in parliaments in countries receiving United Nations electoral assistance (cumulative)

(Percentage)

Result 3: Member States receive timely responses to requests for electoral assistance

Proposed programme plan for 2023

- 3.42 Upon receiving requests for electoral support from Member States, the subprogramme coordinates with other United Nations entities and national, regional and international partners on the most effective response, followed by a needs assessment exercise. The subprogramme has taken continuous steps to ensure that a timely initial response is provided to the requesting Member States.

Lessons learned and planned change

- 3.43 The lesson for the subprogramme was that providing an official response requires extensive consultations with both relevant United Nations entities and Member State authorities to determine the appropriate electoral support required, the availability of key stakeholders and the timing of the mandatory needs assessment exercise. In applying the lesson, the subprogramme will enhance coordination with Member States and relevant United Nations entities, including by using the existing Inter-Agency Coordination Mechanism for Electoral Assistance, to be able to more systematically provide an initial response within four weeks of receiving a request for electoral support. In addition to official letters, the subprogramme will use a range of communication channels, including in-person meetings, virtual meetings and email communications, to inform requesting Member States on the status of their request and provide initial feedback, while the necessary coordination and other arrangements, including assessments, are being conducted. Following the assessments, a detailed official response on the scope of United Nations support would be provided.
- 3.44 Expected progress towards the objective is presented in the performance measure below (see figure 3.IV).

Figure 3.IV

Performance measure: percentage of Member States receiving an initial response within four weeks of a request for technical electoral assistance

Deliverables

- 3.45 Table 3.7 lists all deliverables of the subprogramme.

Table 3.7

Subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	–	1
1. Report of the Secretary-General to the General Assembly on strengthening the role of the United Nations in enhancing periodic and genuine elections and the promotion of democratization	1	1	–	1
Substantive services for meetings (number of three-hour meetings)	1	1	–	1
2. Plenary of the General Assembly	1	1	–	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	26	28	30	31
3. For the deployment of international election observers at the request of Member States and other organizations	1	1	1	1
4. On electoral assistance to Member States	25	27	29	30
Seminars, workshops and training events (number of days)	19	21	20	22
5. Training events and workshops for electoral administrators and staff at the regional and national levels on key electoral matters, including gender equality and elections, elections and violence, and election observation	19	21	20	22
Technical materials (number of materials)	5	6	6	6
6. Technical guidelines and reference materials on electoral processes, the electoral legal framework and the organization and administration of elections	5	6	6	6
Electoral missions (number of missions)	30	24	25	30
7. Technical, advisory and review missions for electoral processes	30	24	25	30
C. Substantive deliverables				
Consultation, advice and advocacy: technical advice for electoral processes in approximately 50 Member States, particularly in the areas of electoral systems and frameworks, mainstreaming a gender perspective, voter registration and electoral operations; and advice on the establishment and enhancement of electoral databases for at least 2 regional organizations.				
Databases and other substantive digital materials: United Nations single electoral roster of experts; and records on the provision of electoral assistance for preserving United Nations electoral institutional memory.				

Subprogramme 3

Security Council affairs

Objective

- 3.46 The objective, to which this subprogramme contributes, is to ensure the effective discharge by the Security Council of its responsibility for the maintenance of international peace and security.

Strategy

- 3.47 To contribute to the objective, the subprogramme will facilitate the full, complete and timely execution of the work of the Security Council and its subsidiary bodies, including by:
- (a) Assisting the monthly presidency of the Council in carrying out its official functions, particularly the preparation and conduct of the Council's monthly programme of work, and providing procedural and substantive advice to the monthly presidency, Council members and other Member States regarding the conduct of meetings and Council activities;

- (b) Coordinating the timely and accurate issuance of the official documentation of the Council, including its outcomes and other documents, as well as other correspondence from the Secretariat, Member States and entities;
 - (c) Supporting the work of the subsidiary bodies of the Council, including sanctions committees, other committees and working groups, as well as their associated monitoring teams, groups and panels, including by providing procedural and substantive advice to Chairs and other Council members;
 - (d) Supporting missions of the Council and Chairs of its subsidiary bodies to countries and regions in connection with matters on the Council's agenda;
 - (e) Supporting the design and implementation of the Council's sanctions regimes, including by conducting assessments of regimes upon the Council's request;
 - (f) Organizing training sessions for incoming members of the Council, and Chairs and members of sanctions committees, and engaging with the broader United Nations system and Member States to enhance the effective functioning of sanctions committees as well as to promote deeper understanding and implementation of Council sanctions;
 - (g) Disseminating the United Nations Security Council Consolidated List to Member States, the United Nations system, other regional and international organizations and the private sector immediately following the adoption of Council and sanctions committee listing and delisting decisions;
 - (h) Providing to Member States specialized research and analyses regarding the practice and procedures of the Council, through publications such as the *Repertoire of the Practice of the Security Council*, the *Highlights of Security Council Practice* and other information and data resources on specific areas of practice of the Council;
 - (i) Responding to specific requests for research and advice from Member States and convening dedicated information sessions, upon request; and contributing to the publicly available joint Department of Political and Peacebuilding Affairs-Department of Peace Operations Peace and Security Data Hub.
- 3.48 The above-mentioned work is expected to result in:
- (a) The Security Council being able to fulfil its responsibilities under the Charter of the United Nations;
 - (b) The Council and its sanctions committees being able to implement targeted sanctions;
 - (c) Member States being able to rely on up-to-date and comprehensive information concerning the practice and procedures of the Council, allowing them to be better equipped to participate in the work of the Council and to actively contribute to its effective functioning.

Programme performance in 2021

Uninterrupted participation of Member States in Security Council meetings during the COVID-19 pandemic

- 3.49 As the COVID-19 pandemic situation in the host country improved in the first half of 2021, the Security Council partially resumed its pre-pandemic regular working methods, including through in-person meetings instead of temporary virtual platforms. Safety precautions necessitated limits on the number of participants from Council delegations and the broader United Nations membership. The subprogramme devised the following measures to enable the uninterrupted participation of Member States in Council meetings and activities in a safe manner: (a) the introduction of "hybrid" open debates that afforded Member States the opportunity either to attend in person or contribute written statements as part of a published compilation, ensuring the continued engagement and inclusion of Member States in Council deliberations; (b) the establishment of a secure observer link to enable the

remote viewing of private meetings and closed consultations by Council members; and (c) the projection, in the Security Council Chamber, of closed consultations conducted in the Consultations Room, to enable Council delegations to follow and support sensitive discussions without overcrowding the very limited space available in the smaller Consultations Room. The subprogramme continued to refine the alternative workflows in response to a changing environment to preserve the predictability of the work of the Council and take steps so that the participation of the broader United Nations membership would not be negatively affected.

3.50 Progress towards the objective is presented in the performance measure below (see figure 3.V).

Figure 3.V

Performance measure: number of participants from Member States in Security Council open debates (annual)

- Number of United Nations Member States participating in Security Council open debates and videoconference open debates through written statements
- Number of in-person United Nations Member State participants in Security Council open debates

Planned results for 2023

Result 1: Council members receive timely information on the implementation of sanctions measures

Programme performance in 2021 and target for 2023

- 3.51 The subprogramme’s work contributed to 75 per cent of expert panel proposals being received by sanctions committees within two weeks of the renewal of a mandate or within six weeks of the establishment of a new mandate, which did not meet the planned target of 100 per cent. The target was not met owing to various delays, including related to attempts to achieve gender balance on one expert panel as well as attempts to achieve geographical representational balance in other panels.
- 3.52 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.VI).

Figure 3.VI
Performance measure: expert panel proposals received by sanctions committees within two weeks of the renewal of a mandate or within six weeks of the establishment of a new mandate

(Percentage)

Result 2: enhanced annual induction workshop for incoming members of the Security Council

Programme performance in 2021 and target for 2023

- 3.53 The subprogramme’s work contributed to building the capacity of incoming members of the Security Council, which met the planned target of 100 per cent of participants expressing a high degree of satisfaction in the annual induction workshop for incoming Security Council members.
- 3.54 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.VII).

Figure 3.VII
Performance measure: percentage of participants in the induction workshop for incoming Security Council members expressing satisfactory, good or excellent degrees of satisfaction (annual)

Result 3: Member States have access to up-to-date and contemporaneous analytical information on the practice and work of the Security Council

Proposed programme plan for 2023

3.55 Recent years have shown a growing demand from Member States for more up-to-date analytical information concerning the Security Council. The subprogramme enhanced the amount and scope of research and analytical products on the Council’s activities, building on the existing data available on its website and the work on the publication of the *Repertoire of the Practice of the Security Council*, including by launching a monthly newsletter. The subprogramme reaffirmed its commitment to bringing innovation to the Council’s functioning in line with the Data Strategy of the Secretary-General for Action by Everyone, Everywhere and contributed to the publicly available Peace and Security Data Hub, a joint Department of Political and Peacebuilding Affairs-Department of Peace Operations initiative, by providing data sets relevant to the work of the Council.

Lessons learned and planned change

3.56 The lesson for the subprogramme was that the format and scope of research and analytical products could be expanded and made more accessible and user-friendly for beneficiaries. In applying the lesson, the subprogramme will enrich the dedicated space on the Security Council website for such products by enabling subscriptions to the monthly newsletter and providing access to past editions previously delivered via email. The subprogramme will also expand its contribution to the Peace and Security Data Hub and visualize its products using relevant tools.

3.57 Expected progress towards the objective is presented in the performance measure below (see figure 3.VIII).

Figure 3.VIII
Performance measure: number of visits to the Security Council data sets available on the Peace and Security Data Hub (annual)

Deliverables

3.58 Table 3.8 lists all deliverables of the subprogramme.

Table 3.8

Subprogramme 3: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	54	54	54	54
1. Notifications under Article 12 (2) of the Charter of the United Nations	1	1	1	1
2. Lists of communications from private individuals and non-governmental bodies pursuant to paragraph A of the appendix to the provisional rules of procedure of the Security Council	1	1	1	1
3. Summary statement on matters of which the Security Council is seized and of the stage reached in their consideration	52	52	52	52
Substantive services for meetings (number of three-hour meetings)	400	389	400	400
4. Meetings of the Security Council and its subsidiary bodies and related deliberations, including support to the issuance of resolutions, presidential statements, press statements and other outcomes/decisions of the Council and its subsidiary bodies	400	389	400	400
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	4	10	8	10
5. Orientation of new Security Council members with respect to the evolving practices, procedures and working methods of the Council and its subsidiary organs	4	10	8	10
Publications (number of publications)	2	1	2	2
6. <i>Repertoire of the Practice of the Security Council</i>	1	1	1	1
7. Volume of <i>Resolutions and Decisions of the Security Council</i>	1	–	1	1
Technical materials (number of materials)	29	28	29	29
8. Compendium of mandates relating to active peacekeeping and special political missions authorized by the Security Council	1	1	1	1
9. Compendium of Security Council mandates and reports to the Council	12	11	12	12
10. Compendium of mandates relating to cross-cutting issues; women and peace and security; children in armed conflict; and protection of civilians in armed conflict	3	3	3	3
11. <i>Highlights of Security Council Practice</i>	1	1	1	1
12. Statistics of Security Council deliberations	12	12	12	12
C. Substantive deliverables				
Consultation, advice and advocacy: consultation, advice and advocacy to the Security Council in the preparation of the report of the Security Council for the General Assembly; and tailored research for Member States on Security Council practice and procedure, current and historic.				
Databases and substantive digital materials: database of Council procedures, practices and working methods, including data on over 200 public meetings convened annually, covering approximately 50 agenda items; roster of experts for Council subsidiary bodies, and the United Nations Security Council Consolidated List of sanctions in all official languages provided to Member States, the private sector and other stakeholders; interactive dashboards on representation of women at the Council, membership of the Council and Chairs and Vice-Chairs of its subsidiary organs; and data sets related to the work of the Council published on the Peace and Security Data Hub.				
D. Communication deliverables				
Digital platforms and multimedia content: website of the Security Council and its subsidiary bodies in the six official languages of the United Nations for Member States and the wider public; and social media posts and articles linking the activities of the Council to relevant constitutional and procedural aspects captured in the <i>Repertoire of the Practice of the Security Council</i> .				

Subprogramme 4 Decolonization

Objective

- 3.59 The objective, to which this subprogramme contributes, is to promote the decolonization process in accordance with the Charter and relevant resolutions of the General Assembly of the 17 Non-Self-Governing Territories so as to bring about the complete eradication of colonialism.

Strategy

- 3.60 To contribute to the objective, the subprogramme will:
- (a) Provide substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Fourth Committee, including the preparation of Secretariat working papers and mandated reports of the Secretary-General, and inputs for the annual report of the President of the Economic and Social Council on the implementation of the Declaration by the specialized agencies and the international institutions associated with the United Nations;
 - (b) Provide advice, briefing materials and substantive support to the meetings, annual regional seminars and visiting missions of the Special Committee, and meetings of the Fourth Committee and the Economic and Social Council, in close coordination with the Department for General Assembly and Conference Management;
 - (c) Maintain contact with the representatives of the Non-Self-Governing Territories and United Nations agencies, funds and programmes and work with the Department of Global Communications, the Department for General Assembly and Conference Management and the Office of Information and Communications Technology in disseminating information on decolonization, including through the enhancement of the United Nations and decolonization website;
 - (d) Provide the Special Committee with comprehensive information on the ongoing impact of COVID-19 in the Non-Self-Governing Territories, as part of its annual working papers prepared pursuant to Article 73 *e* of the Charter and relevant General Assembly resolutions.
- 3.61 The above-mentioned work is expected to result in:
- (a) Advancement of specific proposals to bring about an end to colonialism;
 - (b) Programmes of work developed on a case-by-case basis for the decolonization of the Non-Self-Governing Territories;
 - (c) Timely and informed decision-making by the Special Committee when considering the situation in the Non-Self-Governing Territories.

Programme performance in 2021

Enhanced multilingualism and accessibility in the dissemination of information on decolonization

- 3.62 The General Assembly has reiterated the importance of dissemination of information as an instrument for furthering decolonization, underlined the responsibility of the Secretariat in the mainstreaming of multilingualism within existing resources and reaffirmed the need to achieve full parity among the six official languages on all United Nations websites. To increase accessibility to information on decolonization, the subprogramme developed and disseminated versions of the video *United Nations and Decolonization: Past to Present* in Arabic, Chinese, French, Russian and

Spanish, with subtitles, in compliance with the relevant resolutions addressing multilingualism and accessibility for persons with disabilities.

3.63 Progress towards the objective is presented in the performance measure below (see table 3.9).

Table 3.9
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	The video <i>United Nations and Decolonization: Past to Present</i> is available in English. Following this, the website registered a new record of 27,700 users in October, which is double the number of users in October in the previous year	The video <i>United Nations and Decolonization: Past to Present</i> is available in all official languages with subtitles. In July 2021, following the launch of the translated animation videos, the website registered 15,032 users, a 91.5 per cent increase compared with July 2020

Planned results for 2023

Result 1: increased number of United Nations entities and international organizations providing information on the Non-Self-Governing Territories

Programme performance in 2021 and target for 2023

3.64 The subprogramme’s work contributed to the receipt of information from eight entities, which did not meet the planned target of 17 United Nations entities and international organizations providing information on the Non-Self-Governing Territories. The target was not met despite outreach efforts given that some entities indicated, as in past years, that they did not have any information to submit on the issue. Consequently, their responses could not be counted as a contribution.

3.65 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.IX).

Figure 3.IX

Performance measure: number of United Nations entities and international organizations that provide information on the Non-Self-Governing Territories (annual)

Result 2: diversified and comprehensive information on the Non-Self-Governing Territories, including on the impact of the COVID-19 pandemic

Programme performance in 2021 and target for 2023

- 3.66 The subprogramme’s work contributed to the Special Committee having access to timely, diversified and comprehensive information on the situation in the Non-Self-Governing Territories, as part of the publicly available working papers, including on the impact of COVID-19 and the assistance provided by the administering Powers to affected Territories to reduce the impact of COVID-19 and support recovery, which met the planned target.
- 3.67 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.10).

Table 3.10
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	The Special Committee had access to timely and comprehensive information on the situation in the Non-Self-Governing Territories, including on the impact of COVID-19 and the assistance provided by the administering Powers	The Special Committee has access to a more comprehensive picture of the long-term impact of COVID-19 and assistance provided by the administering Powers to affected Non-Self-Governing Territories	The Special Committee has access to updated information on the continued economic and social impact of COVID-19, post-pandemic economic reactivation and assistance provided by the administering Powers

Result 3: increased reach and awareness on decolonization through new multilingual content

Proposed programme plan for 2023

- 3.68 In line with its resolution [76/104](#), the General Assembly considers it important to continue and expand the efforts to ensure the widest possible dissemination of information on decolonization, as a means of furthering the aims of the Declaration on the Granting of Independence to Colonial Countries and Peoples, and has requested the Secretary-General to further enhance the information provided on the United Nations decolonization website. Since 2019, the subprogramme has been maintaining the United Nations decolonization website, seeking to improve the quality of its content within existing resources.

Lessons learned and planned change

- 3.69 The lesson for the subprogramme was the need to enhance the information provided on the website through the production of interactive, visual and topic-focused content in all official languages. In applying the lesson, the subprogramme will further improve the website, including through multilingual visual content.

3.70 Expected progress towards the objective is presented in the performance measure below (see table 3.11).

Table 3.11
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	Availability of content on the website in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations

Deliverables

3.71 Table 3.12 lists all deliverables of the subprogramme.

Table 3.12
Subprogramme 4: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	22	22	22	22
1. Report of the Secretary-General on information from Non-Self-Governing Territories transmitted under Article 73 <i>e</i> of the Charter of the United Nations to the General Assembly	1	1	1	1
2. Report of the Secretary-General on offers by Member States of study and training facilities for inhabitants of Non-Self-Governing Territories to the General Assembly	1	1	1	1
3. Report of the Secretary-General on the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations to the General Assembly	1	1	1	1
4. Report prepared by the Rapporteur of the Special Committee on Puerto Rico for the Special Committee	1	1	1	1
5. Working papers on each of the 17 Non-Self-Governing Territories for the Special Committee	17	17	17	17
6. Report of the President of the Economic and Social Council on information submitted by the specialized agencies and other organizations of the United Nations system on their activities with regard to the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	63	42	63	63
7. Plenary meeting of the General Assembly	1	1	1	1

12. Meetings of the Bureau of the Special Committee with the Secretary-General	1	1	1	1
13. Informal consultations of the Special Committee	5	2	5	5
14. Meetings of the Economic and Social Council	2	1	2	2
B. Generation and transfer of knowledge				
Fact-finding, monitoring and investigation missions (number of missions)	1	–	1	1
15. Missions to the Non-Self-Governing Territories pursuant to relevant General Assembly resolutions	1	–	1	1
D. Communication deliverables				
Digital platforms and multimedia content: the United Nations decolonization website in all official languages of the United Nations, for the benefit of the 17 Non-Self-Governing Territories, Member States and the general public.				

Subprogramme 5 Question of Palestine

Objective

- 3.72 The objective, to which this subprogramme contributes, is to ensure the effective and efficient implementation of the programme of work of the Committee on the Exercise of the Inalienable Rights of the Palestinian People to promote the realization of the inalienable rights of the Palestinian people.

Strategy

- 3.73 To contribute to the objective, the subprogramme will:
- (a) Organize Committee and Bureau meetings, observances of the International Day of Solidarity with the Palestinian People and other advocacy and awareness-raising activities, events and international conferences;
 - (b) Develop and expand the digital advocacy of the Committee, including the website and social media channels, and the online United Nations Information System on the Question of Palestine and publications;
 - (c) Liaise and cooperate with civil society and parliamentarians on the question of Palestine;
 - (d) Implement the Committee's capacity-building activities for Palestinian officials, with a focus on strategic communications and diplomatic protocol.
- 3.74 The above-mentioned work is expected to result in:
- (a) Mobilization of the diplomatic community, through the work of the Committee, in support of the realization of the two-State solution and a just, comprehensive and lasting solution to the question of Palestine;
 - (b) The general public, civil society and the media being informed about the question of Palestine and the work of the Committee;
 - (c) Stronger institutional capacity of the Government of the State of Palestine in areas such as strategic communications and diplomatic protocol.

Programme performance in 2021

Increased public awareness on the question of Palestine

- 3.75 The subprogramme supported the Committee in implementing its outreach and awareness-raising mandate. As 2021 witnessed an escalation of violence, the subprogramme responded to significant growth in worldwide public interest during the conflict by increasing the dissemination of United Nations information via electronic means, including through the United Nations Information System on the Question of Palestine. The Information System has been developed and updated by the subprogramme in response to successive General Assembly mandates. The digital repository contains a collection of texts of current and historical United Nations material concerning the question of Palestine as well as additional material related to the Israeli-Palestinian conflict and the search for peace. The dissemination of information reached a wider international audience, increasing public awareness on the question of Palestine in all its aspects.
- 3.76 Progress towards the objective is presented in the performance measure below (see figure 3.X).

Figure 3.X

Performance measure: number of United Nations Information System on the Question of Palestine page views (annual)

Planned results for 2023

Result 1: improved engagement of the Committee with the general public

Programme performance in 2021 and target for 2023

- 3.77 The subprogramme's work contributed to strengthened engagement of the Committee with the general public through interactive advocacy materials, leading to an increase in the number of Twitter impressions (views) from a low of 25,900 per month in early 2021 to 104,000 per month at the end of 2021, which met the planned target.
- 3.78 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.13).

Table 3.13
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Improvement in engagement and the reach of the Committee’s social media posts by beginning to implement best practices	Enhanced outreach to new international audiences and an increase in engagement and followers in the social media channels of the Committee in 2020, including harnessing multilingualism on social media, resulting in the increase in the number of Twitter impressions (views) from a low of 10,000 per month in early 2020 to a high of 168,000 per month at the end of 2020	Strengthened engagement of the Committee with the general public through interactive advocacy materials, leading to an increase in the number of Twitter impressions (views) from a low of 25,900 per month in early 2021 to 104,000 per month at the end of 2021	Strengthened digital advocacy on the question of Palestine among Committee membership, the diplomatic community and other influencers	Improved awareness on the question of Palestine among the general public and the diplomatic community

Result 2: advancement of the Committee’s vision and more effective promotion of the rights of the Palestinian people

Programme performance in 2021 and target for 2023

- 3.79 The subprogramme’s work contributed to increased engagement by the Committee with members of the Security Council and the Middle East Quartet on the question of Palestine, and 100 per cent of the Committee members were satisfied with the subprogramme’s support, which met the planned target.
- 3.80 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.14).

Table 3.14
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	The Committee has access to a survey to shape the operations of the Committee and strengthen the alignment of the activities of the subprogramme with the vision of the Committee	Increased engagement by the Committee with members of the Security Council and the Middle East Quartet on the question of Palestine 100 per cent of Committee members satisfied with the subprogramme's support	More effective promotion of the realization of the inalienable rights of the Palestinian people and high level of Committee satisfaction with subprogramme support for the implementation of the programme of work's outreach to Member States	Expanded Committee outreach to Member States, with high level of Committee satisfaction with subprogramme support for the implementation of the programme of work's outreach to Member States

Result 3: strengthened engagement between the Committee and civil society

Proposed programme plan for 2023

3.81 The subprogramme has been supporting the Committee in strengthening its outreach to key stakeholders, including civil society. In 2021, while travel restrictions limited in-person or hybrid meetings, the Committee held a higher number of virtual briefings and events throughout the year, facilitating the participation of the general public, including by women, young people and civil society organizations. Such meetings and interactions allowed the Committee to be informed about the concerns and actions of key stakeholders and to share information about the Committee's mandate and activities with them. Those exchanges helped to further enrich the discussions and bring perspectives gathered from the ground to the attention of the international community and the general public.

Lessons learned and planned change

3.82 The lesson for the subprogramme was that key stakeholders who share the objectives of the Committee, other than Member States, can help to raise international awareness on the political, human rights and humanitarian developments in the Occupied Palestinian Territory. In applying the lesson, the subprogramme will support the Committee by strengthening its partnerships with civil society during conferences and at meetings with regional organizations. The subprogramme, in accordance with the Committee's programme of work, will also increase periodic Committee consultations with civil society organizations, extend invitations to participate in Committee activities to new organizations and expand efforts to increase women's participation as speakers in such events and consultations. This will be done in parallel with expanding relations with international actors and regional organizations to complement the political outreach at Headquarters.

3.83 Expected progress towards the objective is presented in the performance measure below (see figure 3.XI).

Figure 3.XI
Performance measure: strengthened engagement between the Committee and civil society

Deliverables

3.84 Table 3.15 lists all deliverables of the subprogramme.

D. Communication deliverables				
Outreach programmes, special events and information materials: International Day of Solidarity with the Palestinian People and other special events at the discretion of the Committee reaching all Member States and the public at large; annual Palestinian exhibit or cultural event in connection with the International Day of Solidarity at United Nations Headquarters reaching all Member States and the public at large; briefings for United Nations officials, visitors, non-governmental organizations and others; and information-sharing, outreach efforts and participation in meetings of civil society.				
External and media relations: communiqués, press statements, press conferences and other communication materials for the media and other external entities before, during and after the Committee’s activities.				
Digital platforms and multimedia content: website of the subprogramme/Committee and its social media accounts.				
Library services: United Nations Information System on the Question of Palestine.				

Subprogramme 6 Peacebuilding Support Office

Objective

- 3.85 The objective, to which this subprogramme contributes, is to strengthen the effective role of the Peacebuilding Commission in bringing attention to peacebuilding needs, convening key actors and proposing peacebuilding strategies; and to strengthen country- and region-owned and -led peacebuilding efforts and United Nations system-wide coherence on the ground through the Peacebuilding Fund, and strengthen partnerships with international financial institutions in support of efforts to build and sustain peace.

Strategy

- 3.86 To contribute to the objective, the subprogramme will:
- (a) Organize visits of the Chair of the Peacebuilding Commission, provide technical and substantive advice in the Commission meetings and advance partnerships between the Commission and international financial institutions and regional and subregional organizations, civil society and the private sector;
 - (b) Through the Peacebuilding Fund, support peacebuilding programmes, prioritizing transition contexts, subregional and cross-border contexts and the empowerment of women and young people;

- (c) Spearhead policy development related to peacebuilding and lead relevant coordination and integration mechanisms within the United Nations system and with the World Bank and other international financial institutions;
 - (d) Provide technical and substantive advice to the Peacebuilding Commission to address the impact of COVID-19 on peacebuilding and, through the Peacebuilding Fund, support violence reduction efforts through programmes to mitigate risks of violence arising as a result of the pandemic and support conflict-sensitive recovery efforts.
- 3.87 The above-mentioned work is expected to result in:
- (a) A deeper commitment to sustained peace by Member States and regional and international partners, including international financial institutions;
 - (b) Synergistic, coordinated and effective national peacebuilding priorities;
 - (c) Improved alignment of policy responses for peacebuilding needs, with increased involvement of international financial institutions;
 - (d) Coordinated responses with Member States, regional and international partners prioritizing transition contexts, subregional and cross-border contexts and the empowerment of women and young people.

Programme performance in 2021

Increased investments in building and sustaining peace at national and local levels

- 3.88 Ensuring adequate, predictable and sustained financing for peacebuilding activities through programmatic support by United Nations and national actors is important in order to continue to support peacebuilding. The subprogramme, through the Peacebuilding Fund, has continued to expand its reach in support of national peacebuilding priorities, providing investment and programmatic guidance to United Nations agencies, funds and programmes, with investments of \$195.1 million in 31 countries in 2021, recovering from a reduction in total investments in 2020 due largely to COVID-19. This was complemented by substantive and technical support for 29 meetings of the Peacebuilding Commission, resulting in enhanced peacebuilding support for 13 countries and regions under its consideration in 2021 and 39 submissions to other intergovernmental bodies and peacebuilding forums, a significant increase from the 14 submissions in the previous year. The participation rate of women peacebuilders in the Commission's meetings increased from 67 per cent in 2020 to 74 per cent in 2021, and that of young peacebuilders increased from 5.4 per cent in 2020 to 44.4 per cent in 2021. Strong collaboration with international financial institutions and the African Union continued, including through regular exchanges and joint meetings.
- 3.89 Progress towards the objective is presented in the performance measure below (see figure 3.XII).

Figure 3.XII
Performance measure: increased investments in peacebuilding by the Peacebuilding Fund

(Millions of United States dollars)

Planned results for 2023

Result 1: continued attention to and resourcing for electoral and peacebuilding needs amid severe security and humanitarian challenges

Programme performance in 2021 and target for 2023

- 3.90 The subprogramme’s work contributed to (a) enhanced international attention in support of the 2020–2021 electoral process through the Peacebuilding Commission’s engagement with the Central African Republic on national peacebuilding priorities, including presidential and legislative elections, the implementation of the Political Agreement for Peace and Reconciliation, synergies with the National Recovery and Peacebuilding Plan, and strengthening the rule of law; (b) informed advice by the Peacebuilding Commission to the Security Council ahead of the renewal of the mandate of the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic; and through the Peacebuilding Fund, (a) an improved understanding and participation of local communities in the implementation of the Political Agreement and to manage local conflicts; and (b) the appointment of 11 new commissioners (five women) to the Truth, Justice, Reparation and Reconciliation Commission, which met the planned target.
- 3.91 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.16).

Table 3.16
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Enhanced international attention to and resources in support of the peacebuilding priorities of the Central African Republic after the signing of the Political Agreement for Peace and Reconciliation on 6 February 2019	Enhanced international attention to and resources in support of the Central African Republic electoral process for 2020–2021 Progress by national stakeholders on the Political Agreement for Peace and Reconciliation to support an environment conducive to the planned electoral process Informed advice from the Peacebuilding Commission to the Security Council on mission mandate renewal	Enhanced international attention in support of the 2020–2021 electoral process Informed advice by the Peacebuilding Commission to the Security Council on mission mandate renewal Improved understanding and participation of local communities in the implementation of the Political Agreement and to manage local conflicts Appointment of 11 new commissioners (5 women) to the Truth, Justice, Reparation and Reconciliation Commission	Peacebuilding gains are sustained, the Political Agreement for Peace and Reconciliation is adhered to and progress on achieving the Sustainable Development Goals continues, notwithstanding challenges due to COVID-19	Further peacebuilding gains are made, the Political Agreement for Peace and Reconciliation is adhered to and there is continued progress on achieving the Sustainable Development Goals

Result 2: more attention on and resourcing for transition between United Nations configurations amid peacebuilding challenges

Programme performance in 2021 and target for 2023

- 3.92 The subprogramme’s work contributed to increased funding for transitions of United Nations configurations with 39 per cent of Peacebuilding Fund funding dedicated to mission transitions, which exceeded the planned target of 25 per cent.
- 3.93 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.17).

Table 3.17
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
30 per cent of Peacebuilding Fund funding dedicated to mission transitions	18 per cent of Peacebuilding Fund funding dedicated to mission transitions	39 per cent of Peacebuilding Fund funding dedicated to mission transitions	Increased funding for transitions of United Nations configurations Enhanced international awareness of mission transition settings, to address financing gaps during transitions, providing more predictability for partner countries and the United Nations while preparing the ground for longer-term financing	Increased funding for transitions of United Nations configurations Enhanced international awareness of mission transition settings, to address financing gaps during transitions, providing more predictability for partner countries and the United Nations while preparing the ground for longer-term financing

Result 3: increased attention on and resourcing for women and youth in peacebuilding

Proposed programme plan for 2023

- 3.94 Building and sustaining peace, including mitigating risks of violence from the pandemic and supporting violence-reducing recovery efforts, requires the advancement of gender equality and the empowerment of women and recognition of the role that young people play in peacebuilding. The Peacebuilding Fund Strategy 2020–2024 prioritizes the promotion of engagement by young people and women. In addition to regular programming, the Fund’s Gender and Youth Promotion Initiative ensures dedicated investment and programmatic guidance, having yielded 38 projects totalling \$51.5 million in 2021. The Peacebuilding Commission will continue efforts to ensure progress in implementing its gender strategy and action plan and its strategic action plan for youth and peacebuilding.

Lessons learned and planned change

- 3.95 The lesson for the subprogramme was the need to manage the high demand for investment. In 2020, the Gender and Youth Promotion Initiative received 312 proposals from 22 countries, totalling \$331 million, for which \$36.6 million was available. The Initiative’s approval rate constituted only 11 per cent of total requests, a signal that demand for critical peacebuilding financing continues to outpace Fund resources. Another lesson for the subprogramme was the need for core operational support to women’s organizations and for approaches that go beyond increasing the participation of women in existing forums and processes. In applying the lessons, the subprogramme will enhance its fundraising endeavours. Such efforts will build on the high-level meeting of the General Assembly on financing for peacebuilding as well as the Secretary-General’s report to the General Assembly on assessed contributions to the Peacebuilding Fund and will include visits to potential and current donor capitals as well as donor visits to programme countries. The subprogramme will also pilot a new approach to the Initiative to provide funds to United Nations country team applicants to strengthen their partnership and core support for smaller, local organizations, in order to offset

the financial operational challenges that local organizations face and encourage women’s meaningful engagement and leadership in peacebuilding processes.

3.96 Expected progress towards the objective is presented in the performance measure below (see figure 3.XIII).

Figure 3.XIII

Performance measure: support by the Peacebuilding Fund for women and youth in peacebuilding through the Gender and Youth Promotion Initiative

(Millions of United States dollars)

Deliverables

3.97 Table 3.18 lists all deliverables of the subprogramme.

Table 3.18

Subprogramme 6: deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	3	2
Reports of the:				
1. Peacebuilding Commission for the General Assembly and the Security Council	1	1	1	1
2. Secretary-General on the Peacebuilding Fund for the General Assembly	1	1	1	1
3. Secretary-General on peacebuilding and sustaining peace	–	–	1	–
Substantive services for meetings (number of three-hour meetings)	54	29	53	37
4. Meetings of the Peacebuilding Commission	50	27	50	35
5. Joint meetings of the Peacebuilding Commission with the General Assembly, Security Council and the Economic and Social Council	4	2	3	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	3	3	2	2
6. Induction training of new members of the Peacebuilding Commission	1	1	1	1
7. Regional training for prospective recipients, including ministries and other United Nations stakeholders, on the Peacebuilding Fund as a tool for peacebuilding	2	2	1	1

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: guidance and advice to country-level and regional recipients of funding from the Peacebuilding Fund on priority-setting and programming; promotion of partnerships in the form of regular dialogue, operational and strategic consultation between the United Nations and the World Bank, the International Monetary Fund and other international financial institutions; consultation, advice and advocacy with regional and subregional organizations, civil society organizations, think tanks, academia and the private sector on peacebuilding issues; strategic guidance and advice in support of the delivery of the mandate of the Peacebuilding Commission and the formulation and delivery of the priorities and the workplan of the Peacebuilding Commission; submissions by the Peacebuilding Commission to other intergovernmental bodies and peacebuilding forums; information-sharing, guidance and strategic advice to Member States, the United Nations system and key stakeholders on policy issues related to the implementation of the sustaining peace framework; and policy support and advice to members of the Peacebuilding Commission and Peacebuilding Fund donors and recipient Governments on peacebuilding and sustaining peace and on women and young people in peacebuilding.

D. Communication deliverables

External and media relations: press statements of the Peacebuilding Commission; and partner newsletters.

Digital platforms and multimedia content: the Peacebuilding Commission and Peacebuilding Fund websites and social media platforms; and multimedia content, including short videos highlighting the results and impact on the ground.

Subprogramme 7 Cooperation between the United Nations and the League of Arab States

Objective

- 3.98 The objective, to which this subprogramme contributes, is to strengthen cooperation between the United Nations and the League of Arab States (LAS).

Strategy

- 3.99 To contribute to the objective, the subprogramme will:
- (a) Identify areas of work of joint interest and strengthen relationships with LAS through the pursuit of the common goals and objectives of the League and the United Nations;
 - (b) Contribute to efforts by LAS and its member States to make progress on achieving Sustainable Development Goal 16 and their commitments to building effective, accountable and inclusive institutions at all levels;
 - (c) Promote the Charter of the United Nations, in particular Chapter VIII;
 - (d) Deliver capacity-building exercises and staff exchanges and increase channels of communication.
- 3.100 The above-mentioned work is expected to result in:
- (a) Enhanced partnership and expanded outreach with LAS in the area of international peace and security, including conflict prevention, peacemaking and peacebuilding;
 - (b) Improved capacity of LAS on issues such as conflict prevention, peacemaking and peacebuilding;
 - (c) Improved coordination with LAS on cooperation activities.

Programme performance in 2021

Strengthened engagement on peace and security

- 3.101 In 2021, the subprogramme revitalized its engagement with LAS and its member States through in-person meetings in Cairo and virtually. The subprogramme held over 100 in-person meetings in Cairo focusing on peace and security issues, including political developments in the Arab region, the women and peace and security agenda, the youth and peace and security agenda, disarmament, countering violent extremism, and elections. The subprogramme attended, as an observer, the ordinary session of the LAS Council of Arab Ministers for Foreign Affairs in September 2021 and joined the Special Envoys of the Secretary-General for Yemen, Syria and Libya in their meetings with the LAS Secretary-General. Owing to COVID-19, the general cooperation meeting between the United Nations and LAS had to be postponed to July 2022.
- 3.102 Progress towards the objective is presented in the performance measure below (see table 3.19).

Table 3.19

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
The liaison office is established and there are improved consultations and information-sharing between the United Nations and LAS	Strategic ties between the United Nations and LAS deepened through regular consultations and increased coordination between the secretariats	Strengthened partnership between the United Nations and LAS through increased open dialogue, the exchange of analysis on peace and security mandates, support for advanced engagement by LAS on youth and peace and security, increased opportunities for LAS for knowledge-sharing on women and peace and security, and knowledge-building on disarmament issues through the staff exchange programme

Planned results for 2023

Result 1: enhanced peace and security cooperation

Programme performance in 2021 and target for 2023

- 3.103 The subprogramme's work contributed to regular meetings between the Special Envoys and Special Representatives of the Secretary-General and the LAS Secretary-General on regional political developments, including on Yemen, the Syrian Arab Republic, Libya and the Middle East peace process, enabling cooperation between LAS and special political missions; strengthened engagement between LAS and the United Nations Integrated Transition Assistance Mission in the Sudan in support of good offices on the Sudan; and improved knowledge and information-sharing between LAS and the United Nations on disarmament through staff exchanges, which met the planned target.
- 3.104 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.20).

Table 3.20
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Opening and staffing of the United Nations liaison office to LAS	Strengthened relationship, a common approach to issues and increased high-level engagement	Meetings of Special Envoys and Special Representatives of the Secretary-General with LAS on Yemen, the Syrian Arab Republic, Libya and the Middle East peace process, enabling cooperation between LAS and special political missions Strengthened engagement between LAS and the United Nations Integrated Transition Assistance Mission in the Sudan in support of good offices on the Sudan Improved knowledge- and information-sharing between LAS and the United Nations on disarmament through staff exchange	Strengthened institutionalization of dialogue between the United Nations and LAS in pursuit of the common goals and objectives of the 2 organizations Deepening of exchanges that leverage institutional knowledge of the 2 organizations	Meetings of Special Envoys and Special Representatives of the Secretary-General with LAS, contributing directly to United Nations-LAS cooperation on political and peace efforts Strengthened institutional dialogue on peace and security in the Arab region Deepened exchanges on mediation and peacebuilding that leverage the institutional knowledge of the 2 organizations

Result 2: advancement of the women and peace and security agenda and strengthened institutional relations

Programme performance in 2021 and target for 2023

- 3.105 The subprogramme’s work contributed to enhanced cooperation between the United Nations and LAS on the women and peace and security agenda, including through the identification of areas of support on women’s participation in electoral processes, in coordination with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), as well as enhanced awareness and knowledge of LAS on the youth and peace and security agenda by organizing regional consultations and conducting training of trainers, which met the planned target.
- 3.106 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.21).

Table 3.21
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	Enhanced coordination on the women and peace and security agenda, including through the identification of areas of support on women’s participation in electoral processes, in coordination with UN-Women Enhanced awareness and knowledge of LAS on the youth and peace and security agenda by organizing regional consultations and conducting training of trainers	Improved regional capacities for women’s effective and meaningful participation in peacemaking, peacebuilding and conflict prevention in the Arab region	Enhanced regional capacities for cooperation with the United Nations and other regional organizations for effective and meaningful participation of women and youth in peacemaking, peacebuilding and conflict prevention

Result 3: strengthened engagement with the secretariat of the League of Arab States and the League’s member States

Proposed programme plan for 2023

3.107 The subprogramme will strengthen engagement with various sectors at LAS to monitor and report on political developments, including good offices to advance peace and security in the Arab region. Where possible, the subprogramme will provide advice and guidance on the Organization’s positions and approach on issues of mutual interest. The subprogramme will work with the relevant sectors at the League to identify areas of cooperation. The subprogramme will also engage with the League’s member States, the United Nations and other partners, such as civil society organizations, to explore ways to coordinate activities between the two organizations.

Lessons learned and planned change

3.108 The lesson for the subprogramme was the need to recognize in advance any intra-institutional misalignments on timing and priorities that might impact the agenda for cooperation and could be further exacerbated by COVID-19-related delays of in-person consultations. In applying the lesson, the subprogramme will engage with LAS to jointly identify areas of cooperation that need support from the United Nations with greater lead time to allow flexibility and changes of schedule.

3.109 Expected progress towards the objective is presented in the performance measure below (see table 3.22).

Table 3.22
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	<p>Enhanced mutual understanding and analysis on political developments in the Arab region and issues related to elections, disarmament, women and peace and security, youth and peace and security, and counter-terrorism through 50 meetings with LAS officials</p> <p>Improved political coordination with Arab permanent representatives to LAS and other Arab diplomats on political developments in the region and ways to support the League on peace and security issues through 17 meetings</p> <p>Strengthened cooperation between LAS and United Nations entities on issues of mutual concern and areas of cooperation related to peace and security through 39 meetings</p>	<p>Enhanced mutual understanding and analysis on political developments in the Arab region, as well as other issues of mutual concern, through 15 meetings with LAS officials</p> <p>Improved political coordination through 6 meetings with representatives of the diplomatic community, United Nations entities and other partners</p>	<p>Enhanced mutual understanding and analysis on political developments in the Arab region, as well as other issues of mutual concern, through 20 meetings with LAS officials</p> <p>Improved political coordination through 10 meetings with representatives of the diplomatic community, United Nations entities and other partners</p>

Deliverables

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.114 As reflected in tables 3.27 (2) and 3.28 (2), the Department of Political and Peacebuilding Affairs expects to continue to receive cash contributions, which would complement regular budget resources. In 2023, projected extrabudgetary resources are estimated at \$33,539,600 and would provide for 81 posts, as presented in table 3.28 (2). The resources would be used mainly to support substantive activities, including in the areas of preventive diplomacy, conflict resolution, mediation, peacemaking, electoral assistance missions and political analysis in support of the good offices of the Secretary-General. They would also support the multi-year appeal programme, the overall management of the Peacebuilding Fund and the annual regional seminar on decolonization, as well as visiting missions to the Non-Self-Governing Territories. Extrabudgetary resources represent 41.3 per cent of the total resources for the Department.

3.115 The authority to oversee the use of extrabudgetary resources rests with the Department of Political and Peacebuilding Affairs, in accordance with the delegation of authority from the Secretary-General.

Policymaking organs

3.116 The resources proposed under this component provide for the servicing of standing intergovernmental organs and expert bodies, special sessions of the General Assembly and intergovernmental processes. Table 3.30 provides information on the standing intergovernmental organs and related resource requirements under the regular budget.

Table 3.30
Policymaking organs

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2022 appropriation</i>	<i>2023 estimate (before recosting)</i>
Security Council	The Security Council, one of the principal organs of the United Nations under Article 7 of the Charter of the United Nations, is charged with the primary responsibility for the maintenance of international peace and security. As specified in Article 28 of the Charter, the Council is to be so organized as to be able to function continuously. In addition to regular meetings, the President of the Security Council can call meetings of the Council any time that he or she deems it necessary, as well as at the request of any member of the Council and in the context of Articles 11, 35 and 99 of the Charter. The Council is authorized, under Article 29 of the Charter, to establish such subsidiary organs as it deems necessary for the performance of its functions.	Mandate: Article 7 of the Charter of the United Nations Membership: 15 government officials Number of sessions in 2023: continuous	80.4	80.4
Committee on the Exercise of the Inalienable Rights of the Palestinian People	The Committee meets throughout the year, as required, and submits an annual report to the General Assembly. In discharging its mandate to exert all efforts to promote the realization of the inalienable rights of the Palestinian people (subprogramme 5), the Committee participates in meetings, sends delegations on missions and invites, as necessary, prominent personalities or experts. Its mandate, which has been expanded over the years, was most recently reaffirmed by the Assembly in its resolution 74/12.	Mandate: General Assembly resolution 3376 (XXX) Membership: 26 government delegations and 21 observers Number of sessions in 2023: 7	28.3	28.3
Military Staff Committee		Mandate: Article 47 of the Charter Membership: 5 Number of sessions in 2023: continuous	–	–

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2022 appropriation</i>	<i>2023 estimate (before recosting)</i>
Peacebuilding Commission	The Peacebuilding Commission is a subsidiary organ of the General Assembly and the Security Council and an intergovernmental advisory body that supports peace efforts in countries in armed conflict. It enhances the capacity of the international community to support countries in the endeavour to build and sustain peace. The Commission is composed of 31 Member States, elected from the Assembly, the Security Council and the Economic and Social Council. The top financial contributing countries and the top troop-contributing countries to the United Nations system are also members.	Mandate: General Assembly resolution 60/180 Membership: 31 government delegations and 55 experts Number of sessions in 2023: continuous	–	–
Total			108.7	108.7

3.117 The proposed regular budget resources for 2023 amount to \$108,700 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of proposed resources for 2023 are reflected in table 3.31 and figure 3.XV.

(Thousands of United States dollars)

Executive direction and management

- 3.118 The executive direction and management component comprises the Office of the Under-Secretary-General for Political and Peacebuilding Affairs, Chief of Office, and focal points for regional and thematic divisions, the coordination and oversight of planning and budgets for special political missions, the coordination of briefing materials for the leadership of the Organization, and monitoring and evaluation.
- 3.119 The overall responsibilities of the component include the following functions:
- (a) Provide the overall direction, supervision and management of the Department in the implementation of its mandates and its approved programme of work;
 - (b) Provide the Secretary-General with advice and support on all political matters in coordination with the Under-Secretary-General for Peace Operations, as necessary;
 - (c) Oversee and provide political guidance and instructions to special political missions under the Department's purview, including special and personal envoys and representatives of the Secretary-General;
 - (d) Direct and manage, on behalf of the Secretary-General, diplomatic activities relating to the prevention, control and resolution of conflicts and disputes, including preventive diplomacy, political mediation, peacemaking, peacebuilding and sustaining peace;
 - (e) Act as the United Nations focal point for all matters related to electoral assistance and direct the provision of substantive support and secretariat services to the Security Council (including on special political missions in thematic cluster II, which includes sanctions monitoring teams, groups and panels, and other entities and mechanisms), the General Assembly and relevant subsidiary organs;
 - (f) In close consultation with the Under-Secretary-General for Peace Operations, the Under-Secretary-General for Political and Peacebuilding Affairs provides direction and strategic guidance to the Assistant Secretaries-General with regional responsibilities on matters under the purview of the Department.
- 3.120 The component also includes small teams that handle strategic communications and donor relations. In line with requests from the United Nations system, the component provides direction to ensure

close cooperation and coordination with Secretariat entities, agencies, funds and programmes in the area of peace and security.

- 3.121 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. In 2023, the Department will continue to reduce its greenhouse gas emissions by delivering capacity-building activities for field personnel in their immediate region, relying more systematically on electronic records and communications to reduce printing and photocopy paper and more frequently on videoconferences as a possible replacement for travel. The Department also plans to improve e-waste management to facilitate the environmentally friendly disposal of expendable e-waste.
- 3.122 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 3.32. With regard to the advance booking for air travel, the performance for 2021 has been affected by the COVID-19 pandemic. Notwithstanding this, the Department will continue to standardize and streamline the processes for requesting and approving official travel so that air tickets can be purchased through a less time-consuming process, while maintaining the appropriate levels of authorization and certification. Specifically, the certification of travel has been decentralized to the divisions, and ongoing workshops are organized to raise the awareness of travellers on the advanced booking policy and to train travellers and certifying officers on travel-related best practices and policies. The Department has continued efforts to sensitize staff through various forms of communication on the importance of early planning for travels and complying with the advance purchase policy. Managers are required to implement preventive and corrective measures. With respect to executive direction and management, owing to the nature of senior leadership travel, which is linked closely to conflict prevention, good offices and crisis response, the plans for such travel often take place shortly before the departure or require last-minute cancellations or changes of itinerary or destination.

Table 3.32
Compliance rate
 (Percentage)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.124 Extrabudgetary resources for this component are estimated at \$3,648,200 and would provide for nine posts (2 P-5, 4 P-4, 1 P-3, 1 General Service (Principal level) and 1 General Service (Other level)), as well as non-post resources. The resources would be used to complement regular budget resources, strengthen outreach and fund the donor relations capacity that also manages the multi-year appeal mechanism for fundraising. The resources would cover the costs of programmatic aspects and day-to-day extrabudgetary resource management for the Department, including grant management of contributions, donor reporting and programmatic oversight of the Department’s extrabudgetary portfolio.

Programme of work

**Subprogramme 1
Prevention, management and resolution of conflicts**

3.125 The proposed regular budget resources for 2023 amount to \$24,629,100 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.34 and figure 3.XVII.

Table 3.34

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.126 Extrabudgetary resources for the subprogramme are estimated at \$22,950,700 and would provide for 44 posts (1 D-1, 7 P-5, 16 P-4, 14 P-3, 2 P-2 and 4 General Service (Other level)), as well as non-post resources. The resources would be used to support activities in the areas of preventive diplomacy, conflict resolution, mediation and peacemaking, including through the provision of political analysis, deployments and technical advice of the Department’s standby team of senior mediators to support crucial negotiations on process design, constitution-making, power-sharing and security arrangements. This also includes the Department’s support for the High-level Advisory Board on Mediation of the Secretary-General. Extrabudgetary resources would also allow the Department to extend the good offices of the Special Representatives and Special Envoys of the Secretary-General to advance political solutions, including in Mozambique, Myanmar, the Sudan, the Syrian Arab Republic, Yemen and other countries, and ensure that regional offices in Central Asia, West Africa and the Sahel, and Central Africa remain essential platforms for preventive diplomacy.

**Subprogramme 2
Electoral assistance**

3.127 The proposed regular budget resources for 2023 amount to \$3,876,900 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.35 and figure 3.XVIII.

Subprogramme 2: distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.128 Extrabudgetary resources for the subprogramme are estimated at \$1,508,000 and would provide for three posts (1 D-1, 1 P-4 and 1 General Service (Other level)), as well as non-post resources. The resources would provide for assessment missions to be undertaken in response to requests for electoral assistance, and urgent electoral missions related to conflict prevention or mission start-up. The resources would also support, among others, critical electoral activities as new needs arise in the course of an electoral assistance programme, a knowledge management system that includes research on important policy issues and the development of guidelines, post-election assessments and coordination with system-wide post-conflict peacebuilding and/or democratization efforts. The funds would also be used to support the subprogramme’s participation in and/or lead global electoral events, engagement in joint electoral initiatives with regional and intergovernmental organizations and the provision of capacity development support to non-United Nations partner organizations.

**Subprogramme 3
 Security Council affairs**

3.129 The proposed regular budget resources for 2023 amount to \$7,134,500 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.36 and figure 3.XIX.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.130 Extrabudgetary resources for the subprogramme are estimated at \$350,000 and would provide for non-post requirements. The resources would be used to meet the increasing demand from Member States for support, expert analysis and reporting on the work of the Security Council and the concurrent demand for information and training on the work of the Council and its subsidiary bodies.

Subprogramme 4 Decolonization

3.131 The proposed regular budget resources for 2023 amount to \$834,300 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of proposed resources for 2023 are reflected in table 3.37 and figure 3.XX.

Extrabudgetary resources

3.132 Extrabudgetary resources for the subprogramme are estimated at \$60,000 and would provide for non-post resources. The resources would be used to provide substantive support to the annual regional seminar on decolonization and mission visits to the Non-Self-Governing Territories

undertaken by the Special Committee. Resources would also be used to maintain the United Nations decolonization website to further enhance the dissemination of information on the topic.

Subprogramme 5 Question of Palestine

3.133 The proposed regular budget resources for 2023 amount to \$2,722,700 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.38 and figure 3.XXI.

Extrabudgetary resources

3.135 Extrabudgetary resources for the subprogramme are estimated at \$2,402,400 and would provide for 10 posts (1 D-1, 2 P-5, 3 P-4, 1 P-3, 1 General Service (Principal level) and 2 General Service (Other level)), as well as non-post resources. The resources would support the Financing for Peacebuilding

Branch staff and its operational costs in the overall management of the Peacebuilding Fund, including setting the direction and guiding the use of Fund resources and monitoring and reporting on Fund activities, which span more than 34 countries and 186 projects. The Branch ensures that the funds focus on empowering women and young people.

Subprogramme 7 Cooperation between the United Nations and the League of Arab States

3.136 The proposed regular budget resources for 2023 amount to \$291,400 and reflect no change in resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.40 and figure 3.XXIII.

(Number of posts/thousands of United States dollars)

Programme support

3.137 The programme support component comprises the Executive Office of the Department. The Executive Office provides the central administrative and programme support functions necessary for the implementation of the mandated activities of the Department. It assists the Under-Secretary-General in the preparation of the programme plans, the preparation and monitoring of the implementation of the programme budget, the management of trust funds and extrabudgetary resources, relevant support services for the efficient utilization of human resources and the planning, control and coordination of requirements related to general office administration. In addition, it provides administrative and logistical support to a number of special representatives and envoys of the Secretary-General, including some special political missions grouped under thematic clusters I and II. The Executive Office also provides logistical support to the Department, including on property management, office space management and user applications.

3.138 The proposed regular budget resources for 2023 amount to \$2,837,400 and reflect no change in the resource level compared with the appropriation for 2022. Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.41 and figure 3.XXIV.

Table 3.41

Total		12	–	–	–	–	12

Figure 3.XXIV

Programme support: distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.139 Extrabudgetary resources for programme support are estimated at \$2,620,300 and would provide for 15 posts (1 P-5, 1 P-4, 3 P-3, 2 General Service (Principal level) and 8 General Service (Other level)), as well as non-post resources. The resources would enable the Executive Office to provide administrative support to projects funded by extrabudgetary resources.

II. Special political missions

Resource requirements: \$767,075,300

3.140 The proposed resource requirements for the 38 special political missions for 2023 amount to \$767,075,300, which would be supplemented by extrabudgetary resources, estimated at \$16,478,000. The proposed resource requirements for 2023 includes preliminary estimates for the United Nations Assistance Mission in Afghanistan (UNAMA), pending the finalization of the budget for 2023. These resources would provide for the full, efficient and effective implementation of the mandates for the special political missions. Further details on the proposed resources for 2023 are contained in the relevant reports of the Secretary-General on the special political missions ([A/77/6 \(Sect. 3\)/Add.1-6](#)).

III. Office of the United Nations Special Coordinator for the Middle East Peace Process

Foreword

The Office of the United Nations Special Coordinator for the Middle East Peace Process is mandated to support negotiations to achieve a comprehensive peace based on the vision of a region where two democratic States, Israel and Palestine, live side by side in peace with secure and recognized borders, with Jerusalem as the capital of both States. The Office also coordinates the work of the United Nations system to adequately respond to the needs of the Palestinian people and mobilize international assistance.

The context remains deeply challenging amidst the absence of a political horizon and the persistence of the occupation, which is becoming further entrenched owing to daily violence, settlement expansion, demolitions and seizures of Palestinian-owned structures, as well as ongoing militant activity, continued intra-Palestinian division and a post-pandemic fiscal and socioeconomic crisis, including the precarious financial situation of the United Nations Relief and Works Agency for Palestine Refugees in the Near East, all of which push the prospect for a political solution to the conflict further away.

In such a context, the Office will focus on upholding the viability of the two-State solution, preventing unilateral actions and further escalations and bolstering the Palestinian economy, while working to establish the enabling conditions for a return to meaningful negotiations. The Office will also support Palestinian institutions, elections and reconciliation. It will continue to pursue those goals through preventive diplomacy, mediation and engagement with international and regional partners, including in the Middle East Quartet.

Our goal remains to overcome the political impasse and continue to focus on returning the parties to meaningful negotiations, with the goal of a just, lasting and comprehensive resolution to the Israeli-Palestinian conflict based on the two-State solution and achieving progress on humanitarian and development priorities, including on the 2030 Agenda for Sustainable Development.

(Signed) Tor **Wennesland**

United Nations Special Coordinator for the Middle East Peace Process

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 3.141 The Office of the United Nations Special Coordinator for the Middle East Peace Process is responsible for serving as the Organization's focal point for the Middle East peace process, for ensuring the coordinated work of the United Nations system for an adequate response to the needs of the Palestinian people and for mobilizing financial, technical and economic assistance. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including Assembly resolutions [48/213](#) and [49/88](#) and Security Council resolutions [1860 \(2009\)](#) and [2334 \(2016\)](#). The unresolved Israeli-Palestinian conflict remains at the core of the prevalent instability in the Middle East and continues to threaten international peace and security. As violence and tensions continue to simmer in Gaza and the rest of the Occupied Palestinian Territory, the Office continues to engage diplomatically to mitigate and prevent armed conflict, address the humanitarian and development challenges and engage the parties and the international community with a view to making political progress towards a two-State solution.

Programme of work

Objective

- 3.142 The objective, to which the Office contributes, is to achieve a comprehensive, just and lasting resolution to the Israeli-Palestinian conflict based on the two-State solution and to improve the socioeconomic conditions of the Palestinian people.

Strategy and external factors for 2023

- 3.143 To contribute to the objective, the Office will:
- (a) Intensify engagement with regional and international actors, including through the Middle East Quartet, to work towards a resolution of the Israeli-Palestinian conflict;
 - (b) Increase engagement with the parties, including on the dire Palestinian fiscal situation and on the economic and institutional stability of the Palestinian Authority;
 - (c) Encourage both Israel and the Palestinian Authority to work together to update their economic and administrative relationships and enact policy reforms;
 - (d) Continue preventive diplomacy efforts, in particular in Gaza;
 - (e) Continue to work with the parties to uphold their obligations under United Nations resolutions and international law, including reporting to the Security Council on resolution [2334 \(2016\)](#);
 - (f) Support Egyptian-led efforts to re-establish Palestinian national unity and encourage Palestinian parties to overcome outstanding differences;
 - (g) Support the Palestinian Authority in advancing its State-building agenda and strengthening its institutions, including the preparation and conduct of local council, legislative, presidential and Palestinian National Council elections;
 - (h) In collaboration with the United Nations country team, continue to coordinate the delivery of assistance programmes that respond to short-, medium- and long-term development needs in the West Bank and Gaza, including engaging with relevant international and regional

development institutions on coordinated fundraising, priority-setting and the precarious financial situation of the United Nations Relief and Works Agency for Palestine Refugees in the Near East.

- 3.144 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the coronavirus disease (COVID-19) pandemic. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 3.145 The above-mentioned work is expected to result in:
- (a) Advancement of meaningful negotiations aimed at resolving the Israeli-Palestinian conflict on the basis of the two-State solution and internationally recognized parameters on the final status issues;
 - (b) Prevention of violence across the Occupied Palestinian Territory and a resumption of armed conflict, especially in Gaza, and the continued implementation of comprehensive conflict prevention activities;
 - (c) Improvement of the economic and institutional stability of the Palestinian Authority and mitigation of the effects of the dire fiscal situation;
 - (d) Reduction of future Palestinian humanitarian needs and acceleration of progress towards sustainable development outcomes, including the recovery from COVID-19;
 - (e) Advancement of intra-Palestinian reconciliation, towards reuniting Gaza and the occupied West Bank under a single, democratic, national government;
 - (f) Advancement of effective Palestinian governance based on the rule of law, notwithstanding political and serious fiscal constraints.
- 3.146 With regard to external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The two-State solution remains viable, in line with relevant United Nations resolutions and bilateral agreements;
 - (b) All parties retain the political will to maintain a ceasefire in Gaza and support de-escalation efforts led by the Office;
 - (c) Israeli and Palestinian interlocutors and regional and international stakeholders continue to engage in meaningful dialogue and cooperation with the Office and the United Nations country team in the performance of their functions;
 - (d) There is adequate political support from Member States and financial support from donors;
 - (e) The security situation in the area is favourable, including in Gaza, to allow for the implementation of humanitarian and development programmes;
 - (f) There is positive progress towards Palestinian national unity and reconciliation;
 - (g) The parties begin to take tangible steps to improve the situation on the ground, as outlined in the recommendations of the Quartet report of 1 July 2016 ([S/2016/595](#), annex).
- 3.147 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office continues to strive to engage more systemically with women's and youth groups in its outreach to civil society, in order to support the integration of a gender perspective in peacebuilding and development efforts at the grass-roots level and in support of the implementation of Security Council resolution [1325 \(2000\)](#). The Office will continue to participate in high-level dialogue on women and peace and security with civil society organizations, Member

States and United Nations agencies. The Office will also encourage and support greater membership, contribution and participation of women in Palestinian institutions, including through advocacy on women's participation as candidates for planned elections and through support to programmes implemented by UN-Women and other United Nations agencies.

- 3.148 With regard to cooperation with other entities at the global, regional, national and local levels, as the only envoy based on the ground, the Special Coordinator represents the Secretary-General in the Quartet, promoting greater information-sharing and coordination among international and regional partners. The Office will continue to promote the Quartet's role in helping to re-establish meaningful negotiations on final status issues, in line with relevant United Nations resolutions, international law and bilateral agreements. The Office will remain an active participant in the Ad Hoc Liaison Committee for the Coordination of the International Assistance to the occupied Palestinian territory and will continue to coordinate with other Committee members to ensure the efficacy of the forum in recommending tangible actions to both parties. Lastly, the Office will strive to maintain the multilateral cooperation established with other international partners in its coordination of the response to the COVID-19 pandemic in the West Bank and Gaza.
- 3.149 With regard to inter-agency coordination and liaison, the Office will continue to lead the coordination of more than 20 United Nations resident and non-resident agencies, funds and programmes in responding to the development and humanitarian needs of the Palestinian people. The Office's leading role will continue to encompass facilitating inter-agency collaboration to maximize impact through meetings of the United Nations country team, identifying opportunities for joint programming and actively promoting and participating in sectoral and thematic working groups. The Office will coordinate with regional United Nations entities, for example, the regional Development Coordination Office, the regional offices of United Nations agencies, funds and programmes, and the Economic and Social Commission for Western Asia, to leverage available expertise and identify opportunities for collaboration.

Evaluation activities

- 3.150 The evaluation of the relevance and effectiveness of the Office's advocacy and communications efforts during an escalation in violence in May 2021, completed in 2021, has guided the proposed programme plan for 2023.
- 3.151 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023. For example, the evaluation found that communications operations during periods of escalation were relatively ad hoc and business continuity protocols could be improved, including with a view to more clearly defining communication roles and responsibilities among staff and improving consistency in public messaging when business continuity measures were enacted. Consequently, the Office will develop a specific crisis media strategy that supports appropriate business continuity measures to strengthen strategic communications in case of a future violent escalation or other crisis situation.
- 3.152 In 2023, the Office will conduct an evaluation of the effectiveness of its engagement with Palestinian and Israeli authorities towards mitigating the consequences of the dire Palestinian fiscal situation.

Programme performance in 2021

Strengthened cessation of hostilities following the May 2021 escalation in Gaza

- 3.153 In 2021, against the backdrop of tensions in Jerusalem, violence erupted between Israel and Palestinian armed groups based in the Gaza Strip, leading to the worst escalation of armed hostilities since 2014, many deaths and widespread destruction of infrastructure. Throughout the hostilities, the United Nations used its good offices to engage with all sides to restore calm and take immediate steps to de-escalate the situation and prevent any further loss of life, including through the Office's briefings to the Security Council and consultations with international and regional stakeholders.

The escalation continued until both sides announced a cessation of hostilities on 21 May. Subsequently, the Office held intensive consultations with the parties and other relevant actors, including the Middle East Quartet, on actions and measures to de-escalate tensions, mobilize resources and stabilize the fragile cessation of hostilities. It also co-led various damage and needs assessments and coordinated international efforts to implement the humanitarian response and recovery and reconstruction efforts, while advocating for improved access and movement into and out of Gaza.

3.154 Progress towards the objective is presented in the performance measure below (see table 3.42).

Table 3.42
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	–	Reduction in the number of security incidents in Gaza, including air strikes, rocket and mortar fire, incendiary devices and exchanges of fire across the perimeter fence, after the May cessation of hostilities until the end of 2021

Impact of the pandemic

3.155 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates; in particular, the ability of the Special Coordinator to hold face-to-face discussions with regional and international partners was reduced, although virtual meetings were organized. The Ad Hoc Liaison Committee met in a virtual format in February and July and was forced to delay and relocate the fall ministerial meeting rather than convene on the margins of the General Assembly. Overall, given the complexity and sensitivity of many of the subject matters discussed with interlocutors, changing to a virtual format presented numerous challenges.

3.156 In addition, the Office provided support on issues related to the COVID-19 pandemic, within the overall scope of the objective, including by mobilizing international and donor support to supply vaccines to the Palestinian population; negotiating continued access to the West Bank and Gaza; ensuring coordination between Israeli and Palestinian authorities and international agencies to support COVID-19 response measures; and supporting the Palestinian Government in mitigating and recovering from the longer-term socioeconomic impacts. Reflecting the acute emergency, the Office increased its meetings, donor outreach, and coordination efforts.

Planned results for 2023

Result 1: an environment conducive to the return to negotiations to resolve the Israeli-Palestinian conflict

Programme performance in 2021 and target for 2023

3.157 The Office’s work contributed to:

- (a) Preparedness of the Palestinian Central Elections Commission to hold elections and the successful holding of 165 local council elections in December 2021, which did not meet the planned target of Palestinian legislative and presidential elections taking place. The target was not met owing to the indefinite postponement of legislative and presidential elections;

- (b) Intensified dialogue between the factions in the context of the planned elections, which did not meet the planned target of reunification of Gaza and the West Bank. A lack of political agreement and the overall political context resulted in the target not being met.
- 3.158 The planned target of reducing unemployment in Gaza to under 42 per cent for 2021 was not met, as the average unemployment rate for 2021 was 47 per cent. The continuation of the COVID-19 pandemic, escalating hostilities in May 2021 and the dire fiscal situation were contributors to worsening employment prospects, which were partially mitigated by the Office’s work.
- 3.159 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.43).

Table 3.43
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	Central Elections Commission is prepared for the Palestinian elections	Technical preparedness of the Central Elections Commission to conduct elections 165 local council elections took place in December 2021 Intensified dialogue took place in the context of the planned elections between the parties	Preparations for Palestinian elections take place Intra-Palestinian dialogue towards Gaza and the West Bank unification is further advanced	Palestinian legislative and presidential elections take place Intra-Palestinian dialogue towards Gaza and the West Bank unification is further advanced
Unemployment rate in Gaza at 46 per cent	Unemployment rate in Gaza at 46.6 per cent	Unemployment rate in Gaza at 47 per cent	Unemployment rate in Gaza below 42 per cent	Reduction in the unemployment rate in Gaza

Result 2: revitalization of the broader peace process and strengthening the Palestinian State-building agenda

Programme performance in 2021 and target for 2023

- 3.160 The Office’s work contributed to increased engagement by the Quartet related to the revitalization of the broader peace process, work by Arab and international partners to support the cessation of hostilities in Gaza and identification by the Ad Hoc Liaison Committee of concrete steps to address socioeconomic challenges in the Occupied Palestinian Territory, which met the planned target.
- 3.161 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.44).

Table 3.44
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
	Envoys of the Middle East Quartet explore the possibilities of advancing Israeli-Palestinian peace and discussing the most recent developments on the ground	Increased engagement by the Middle East Quartet and release of joint statements Arab and international partners worked to support the cessation of hostilities in Gaza The Ad Hoc Liaison Committee identified concrete steps to address socio-economic challenges in the Occupied Palestinian Territory	Formulation of joint proposals from the Quartet and strategies, together with Arab and international partners, in conjunction with the parties, aimed at establishing a meaningful political process that will achieve a negotiated two-State solution	Active engagement by the Quartet and its partners, in conjunction with the parties, aimed at establishing a meaningful political process that will achieve a negotiated two-State solution

Result 3: improved social and economic linkages across the Occupied Palestinian Territory**Proposed programme plan for 2023**

- 3.162 The Palestinian socioeconomic geography is fragmented between the West Bank, including East Jerusalem, and the Gaza Strip, and within the West Bank. In addition to contributing to social and political fragmentation that undermines the prospects for peace, these fissures impede economic growth and progress on the Sustainable Development Goals and the 2030 Agenda. The Office has consistently advocated for free movement and access for people and goods across the Occupied Palestinian Territory, for strengthening services that bridge these different geographies, such as the East Jerusalem hospital network, and for building linkages across civil society.

Lessons learned and planned change

- 3.163 The lesson for the Office was that its micro- and macroeconomic analysis could be further leveraged to provide meaningful data-driven insights to improve social and economic linkages across the Occupied Palestinian Territory. In applying the lesson, the Office will strengthen data analysis capacities and technical capacity development to identify promising local Gaza and West Bank economic and social sectors and areas where an easing of movement and access restrictions would improve economic and social outcomes. To help realize the potential of these sectors, the Office will increase advocacy with the relevant Israeli and Palestinian authorities, strengthen collaboration with the United Nations country team on programmatic interventions for these sectors and mobilize additional funding. This will contribute to improved linkages across the Occupied Palestinian Territory.
- 3.164 Expected progress towards the objective is presented in the performance measure below (see figure 3.XXV).

Figure 3.XXV
Performance measure: number of trucks carrying goods exiting Gaza

Legislative mandates

3.165 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

48/213; 76/126	Assistance to the Palestinian people	76/11	The Syrian Golan
49/88	Middle East peace process	76/81	The occupied Syrian Golan
76/10	Peaceful settlement of the question of Palestine		

Security Council resolutions

1860 (2009)	2334 (2016)
-------------	-------------

Deliverables

3.166 Table 3.45 lists all deliverables of the Office.

9. On the implementation of the United Nations Development Assistance Framework 2018–2022 (monitoring and evaluation report)	1	1	1	–
C. Substantive deliverables				
Good offices: good offices visits to countries in the region to seek support for political initiatives				
Consultation, advice and advocacy: consultations with and advocacy to Governments and their accredited representatives, relevant parties, non-governmental and civil society organizations, academia and think tanks on the political, socioeconomic and humanitarian situation; consultations with the parties and other relevant actors on actions and measures to de-escalate tensions and mobilize resources; advocacy in the Middle East Quartet in its efforts to advance the negotiations and the two-State solution; advice to Israeli and Palestinian interlocutors on the implementation of the Gaza Reconstruction Mechanism and on the implementation of the package of humanitarian and economic interventions for Gaza approved by the Ad Hoc Liaison Committee; and advice to the Palestinian Central Elections Commission.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exchange of information and partnerships with some 80 civil society organizations, academic institutions and non-governmental organizations, and civil society organizations in Israel and the Occupied Palestinian Territory.				
External and media relations: daily press reviews, press conferences in the presence of some 35 international media outlets (television, radio and print); and online public statements and press releases for more than 1,500 stakeholders, including diplomatic missions, civil society organizations, think tanks and media personnel.				
Digital platforms and multimedia content: the Office’s website, intranet and social media accounts.				

B. Proposed post and non-post resource requirements for 2023

Overview

3.167 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 3.46 to 3.48.

Table 3.46

Overall: evolution of financial resources by object of expenditure

(Thousands of United States dollars)

3.168 Additional details on the distribution of the proposed resources for 2023 are reflected in table 3.49 and figure 3.XXVI.

3.169 As reflected in table 3.49, the overall resources proposed for 2023 amount to \$10,887,500 before recosting, reflecting a net increase of \$27,400 (or 0.3 per cent) compared with the appropriation for 2022. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Table 3.49

Figure 3.XXVI
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

3.170 As reflected in table 3.46, resource changes reflect an increase of \$27,400, under posts, related to the proposed upward reclassification of one Liaison Officer at the P-4 level to Senior Liaison Officer at the P-5 level in the Office of the Special Coordinator (see annex III).

Other information

3.171 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Office of the Special Coordinator is integrating environmental management practices into its operations. The Office is planning to install a hybrid solar system in 2022 and commission the system in 2023, to reduce greenhouse gas emissions given that the sole source of energy at headquarters in Gaza is diesel generators.

3.172 Information on compliance with advance booking for air travel is reflected in table 3.50. The actual compliance for advance booking for air travel in 2021 reflects the challenges relating to official travel being subject to the availability of high-level officials and interlocutors for meetings, which are often confirmed with limited advance notice, and the impact of COVID-19 and related travel restrictions in 2021. The Office continues to raise awareness among staff and emphasize the importance and need to comply with the advance purchase rule. Managers are asked to implement preventive and monitoring corrective measures while monitoring the compliance rate.

IV. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

Foreword

I am pleased to report that the United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory has made significant progress in the implementation of its mandate. While certain aspects of the Office of the Register of Damage's operations, such as travel, continued to be impacted owing to the coronavirus disease (COVID-19) pandemic and its related restrictions, claims intake and outreach activities in the Occupied Palestinian Territory continued. Substantial progress was made in the processing of collected claims, and therefore the further reduction in the gap between collected and unprocessed claims has been achieved.

In 2023, the Office of the Register of Damage will continue to focus on the processing and review of the previously collected claims. A small presence of the Register of Damage in the Occupied Palestinian Territory will also continue to collect public resource claims and residual claims presented by natural persons, in line with General Assembly resolution [ES-10/17](#).

While the main purpose of the Register of Damage is to record the material damage caused by the construction of the wall, the information and data contained in the Register may also contribute to the Israeli-Palestinian peace process, in particular in the search for solutions to the most contentious problems, such as land and the border.

(Signed) Leonid **Frolov**
Executive Director, Office of the United Nations Register of Damage Caused
by the Construction of the Wall in the Occupied Palestinian Territory

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 3.173 The United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory is responsible for recording, in documentary form, the damage caused to all natural and legal persons concerned as a result of the construction of the wall by Israel in the Occupied Palestinian Territory, including in and around East Jerusalem. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolution [ES-10/17](#). The Assembly, in its resolution [ES-10/17](#), called for the Register of Damage to remain open for registration for the duration of existence of the wall in the Occupied Palestinian Territory, including in and around East Jerusalem.
- 3.174 Since 2008, when the Office of the Register of Damage became operational and commenced outreach and claim intake in the Occupied Palestinian Territory, work has been completed in 267 communities located along the completed constructed section of the wall, touching the lives of more than 1.5 million Palestinians in the West Bank, and work is in progress in the remaining communities. As at 31 December 2021, 73,034 claim forms had been collected. More than two terabytes of impartial and verified information documents the material losses sustained by the Palestinian people.

Programme of work

Objective

- 3.175 The objective, to which the Office of the Register of Damage contributes, is to establish and maintain a Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory, thus contributing to the protection of the legal rights of the Palestinian natural and legal persons affected by the construction of the wall.

Strategy and external factors for 2023

- 3.176 To contribute to the objective, the Office will continue to:
- (a) Process and review the previously collected but not processed claims, of which there are more than 29,000;
 - (b) Undertake outreach and claim intake activities in the Occupied Palestinian Territory in relation to public resource claims and residual claims of natural persons, by maintaining a presence in the area of operation;
 - (c) Streamline the process of rectifications of incomplete and deficient claims;
 - (d) Work on promoting the rule of law at the national and international levels, helping Member States to ensure equal access to justice for all claimants in the Occupied Palestinian Territory and make progress towards achieving Sustainable Development Goal 16.
- 3.177 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the establishment of alternative ways of claims processing. The Office implemented an offline solution by which confidential data are stored in a physical, encrypted data carrier, enabling remote and secure claims processing. This allowed for

the continued processing of claims while respecting the need for alternative and flexible working arrangements, ensuring business continuity. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

- 3.178 The above-mentioned work is expected to result in:
- (a) An increased number of efficiently processed claims, leading to a reduction in the gap between collected and unprocessed claims;
 - (b) An increased number of institutional, residual and potential new claimants;
 - (c) A reduced turnaround time in obtaining rectifications of incomplete or deficient claims.
- 3.179 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) There is political will and cooperation on the part of all parties concerned;
 - (b) Extrabudgetary resources are available for maintaining a needed presence on the ground;
 - (c) The overall security situation in the West Bank and the region remains stable and conducive to carrying out the mandate of the Register of Damage.
- 3.180 With regard to inter-agency coordination and liaison, the Office will continue to cooperate closely with the United Nations Office for Project Services, which is the key provider of logistical, human and financial resources services in the implementation of outreach and claims collection activities funded by extrabudgetary resources. In addition, the Office will continue its close cooperation with the Department of Political and Peacebuilding Affairs and the Office for the Coordination of Humanitarian Affairs.
- 3.181 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, in the course of the outreach campaign, all female mayors and Chairs of local councils are invited to training events organized by the Office. In addition, consultations will be conducted with local women's committees in all communities in which outreach and claim intake activities are planned. The Office will continue to pay special attention to informing potential female claimants of the possibility of and requirements for submitting claim forms and will provide them with assistance and guidance in the preparation of their claims.
- 3.182 In line with the United Nations Disability Inclusion Strategy, the Register of Damage will continue to make special arrangements for the intake of claims from claimants with disabilities. These arrangements include on-site support of claimants, which allows claimants with disabilities to file their claims without having to travel.

Programme performance in 2021

Increased number of rectified claims

- 3.183 In 2021, the Office placed a focus on the rectification of incomplete or deficient claims. A system was put in place to ensure that claimants would be contacted swiftly to solicit outstanding information required for the review of submitted claims. The Office faced challenges such as the unavailability of claimants and officials in the Occupied Palestinian Territory due to COVID-19-related lockdowns. To counter those challenges, the Office employed a dual approach by which relevant claimants were contacted by telephone and/or e-mail by the Office in Vienna and subsequently assisted by Office personnel in the Occupied Palestinian Territory for further support and collection of revised claims and documents, which proved most effective and led to an increased number of rectified claims.
- 3.184 Progress towards the objective is presented in the performance measure below (see figure 3.XXVII).

Figure 3.XXVII

Performance measure: number of incomplete or deficient claims rectified (cumulative)

Impact of the pandemic

3.185 The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular the Office not being able to hold in-person confidential meetings of the Board of the Register of Damage in Vienna, in view of travel restrictions. Therefore, while virtual meetings with the Board were held to discuss strategy, the Board was unable to review claims and decide on the inclusion of processed damage claims in the Register. In addition, the planned training of mayors and other officials of affected communities had to be cancelled owing to travel restrictions. As a contingency measure, the Office updated/enhanced its virtual training programme with a focus on educating potential claimants of public claims.

Planned results for 2023

Result 1: gradual reduction of the backlog of the unreviewed collected claims

Programme performance in 2021 and target for 2023

3.186 The work of the Office contributed to a reduction in the gap between unreviewed and collected claims to 29,131 which did not meet the planned target of reducing the number of unreviewed collected claims to 27,260. The target was not met owing mainly to the impact of the COVID-19 pandemic, during which alternative, secure ways of reviewing and processing claims had to be conceptualized, as well as the subsequent implementation and optimization of the alternative ways of reviewing claims, the complexity of nature of claims reviewed and the collection of more new claims (816) in 2021 than projected (500).

3.187 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.XXVIII).

Figure 3.XXVIII

Performance measure: Register of Damage number of unreviewed claims**Result 2: enhanced process for complex claims considered****Programme performance in 2021 and target for 2023**

- 3.188 The work of the Office contributed to the enhanced process for complex employment loss claims, which did not meet the planned target of the Board deciding on 80 per cent of employment claims presented for its decisions. The target was not met because the Board was unable to convene in person in Vienna in view of the travel restrictions due to the COVID-19 pandemic.
- 3.189 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.51).

Table 3.51

Performance measure^a

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
204 employment claims decided by the Board	–	Identification of further issues on employment loss claims to be decided by the Board, affecting approximately 121 claims	Approval of improved guidelines by the Board covering 80 per cent of the employment loss scenarios identified to date	The Board will decide on 85 per cent of employment loss claims presented for its decision

^a Using employment claims as an example.

Result 3: optimized damage claims review process for faster servicing of claimants**Proposed programme plan for 2023**

- 3.190 A main focus of the work of the Office remains the processing and legal review of collected claims. On the basis of the available resources and the nature and complexity of claims, it is estimated that 3,200 claims will be reviewed and presented to the Board of the Register of Damage for decision annually. The Office expects that this will lead to a continuous gradual reduction in the gap between collected and claims pending review by the Board.

Lessons learned and planned change

- 3.191 The lesson for the Office was that, in order to exceed the target of 3,200 claims annually, it needs to channel available existing capacities towards the processing and review of claims. In applying the lesson, the Office has reviewed its staffing structure to strengthen capacities for claims-processing, translation, preliminary review and filing. These actions are expected to increase the processing capacity of the Office by 800 claims annually, thus better addressing the needs of claimants.
- 3.192 Expected progress towards the objective is presented in the performance measure below (see figure 3.XXIX).

Figure 3.XXIX

Performance measure: number of damage claims processed by the Office of the Register of Damage

Legislative mandates

- 3.193 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

- [ES-10/17](#) Establishment of the United Nations Register of Damage of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

Deliverables

- 3.194 Table 3.52 lists all deliverables of the programme.

3.196 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 3.56 and 3.57 and figure 3.XXX.

3.197 As reflected in tables 3.56 (1) and 3.57, the overall resources proposed for 2023 amount to \$2,892,400 before recosting, reflecting a net decrease of \$68,600 (or 2.3 per cent) compared with the appropriation for 2022. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXX
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

3.198 As reflected in table 3.56 (1), resource changes reflect a net decrease of \$68,600, comprising a decrease under posts (\$94,400) and an increase under non-posts (\$25,800), as follows:

- (a) **Posts.** The net decrease of \$94,400 under posts reflects the proposed abolishment of one post of Coordination Officer (P-4) and the proposed establishment of one post of Legal Officer (P-3), subject to a 50 per cent vacancy rate. The proposal includes the redeployment (cost-neutral) of

one General Service (Other Level) post from the Community Outreach Unit to the Claims processing Unit (see annex II to the present report);

- (b) **Non-posts.** The increase of \$25,800 reflects:
- (i) the proposed increase of \$11,000 under other staff costs to support the increase in the number of sessions and days that the Board of the Register of Damage convenes to decide on the inclusion of damage claims in the Register of Damage. In accordance with resolution [ES-10/17](#) the Boards convenes in Vienna at least four times annually. Owing to the COVID-19 pandemic, the Board did not meet in 2020 and 2021, which has further increased the number of backlog claims. As part of its efforts to increase the number of damage claims decided by the Board, it is proposed that five sessions be held in 2023 instead of four. This would substantially increase the yearly number of decided damage claims by the Board and reduce the gap between collected claims by the Office and decided claims by the Board;
 - (ii) The proposed increase of \$14,800 under travel of staff would cover the daily subsistence allowance and travel costs for the Board members to attend the additional session of the Board and support the Office's efforts to address the backlog and increase the number of damage claims decided by the Board in 2023.

Extrabudgetary resources

- 3.199 As reflected in table 3.56 (2), the Office expects to continue to receive cash contributions, which would complement regular budget resources. In 2023, extrabudgetary resources are estimated at \$200,000. The resources would enable the Office to maintain a small presence in the Occupied Palestinian Territory to perform claim intake, outreach and rectification activities. Two Claims Intakers would provide assistance to claimants with the completion of claims forms, outreach by informing potential claimants of the possibility of and requirements for filing a claim, and follow-up with existing claimants if and when additional information is required. The extrabudgetary resources represent 6.5 per cent of the total resources for the Office.
- 3.200 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Other information

- 3.201 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Office is integrating environmental management practices into its operations. The Office moved a step closer to becoming a paperless environment by adapting electronic signature solutions, where feasible, under the Register of Damage's strict confidentiality requirements. In addition, staff have been made aware of individual responsibilities towards environmental responsibility. In 2023, the Office will strive to tighten environmental management practices.
- 3.202 Information on compliance with the timely submission of documentation and advance booking for air travel is reflected in table 3.58. The Office ensures a high rate of compliance by planning air travel carefully and setting realistic schedules and timelines. In addition, the Office cooperates constructively with its service provider, the United Nations Office at Vienna, thus ensuring an efficient workflow in relation to official travel.

V. United Nations Office to the African Union

Foreword

Over the course of 2023, the United Nations Office to the African Union will continue efforts to further strengthen the strategic partnership with the African Union in order to effectively address the complex and dynamic peace and security challenges in Africa. The United Nations and the African Union will continue to leverage their comparative advantages towards achieving the common objectives of enhancing peace and security, the promotion and protection of human rights and good governance, and implementing Agenda 2063: The Africa We Want and the 2030 Agenda for Sustainable Development. They will also continue to collaborate with other key stakeholders and entities, including the regional economic communities and regional mechanisms. The strategic partnership between the United Nations and the African Union has grown in depth and scope, premised on the Joint United Nations-African Union Framework for an Enhanced Partnership in Peace and Security and the African Union-United Nations Framework for the Implementation of Agenda 2063 and the 2030 Agenda for Sustainable Development.

The Office's efforts will include continuous political engagement with African Union organs, in particular the Permanent Representatives Committee and the Peace and Security Council; facilitation of statutory engagements between the Security Council and the Peace and Security Council, and the United Nations Secretariat and African Union Commission; support for joint initiatives between the United Nations and the African Union such as joint field visits and joint briefings to the Security Council and the Peace and Security Council; facilitation of and support for joint or coordinated statements and messaging on emerging and ongoing crises; good offices missions and support for political transitions; joint undertakings to promote the participation of women and young people in peace, security and development opportunities; greater engagement with the African Union to operationalize an international human rights and international humanitarian law compliance framework for peace support operations, and other areas of collaboration outlined in Security Council resolutions [2320 \(2016\)](#) and [2378 \(2017\)](#); and continued support for the African Union in strengthening its management of ongoing peace support operations. The Office will continue to prioritize strengthening collaboration with the African Union in advancing the implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security, building on achievements in recent years.

(Signed) Parfait **Onanga-Anyanga**
Special Representative of the Secretary-General to the African Union
and Head of the United Nations Office to the African Union

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 3.203 The United Nations Office to the African Union was established on 1 July 2010 pursuant to General Assembly resolution [64/288](#). The Office integrated the former United Nations Liaison Office at Addis Ababa, the African Union Peacekeeping Support Team, the United Nations planning team for the African Union Mission in Somalia (AMISOM) and the support elements of the Joint Support and Coordination Mechanism of the African Union-United Nations Hybrid Operation in Darfur.
- 3.204 The mandate of the Office is to enhance the partnership between the United Nations and the African Union in the area of peace and security; provide coordinated and consistent United Nations advice to the African Union on long-term capacity-building and short-term operational support matters; and streamline the United Nations presence in Addis Ababa to enhance coherence and efficiency in delivering United Nations assistance to the African Union. In its resolutions [2033 \(2012\)](#), [2167 \(2014\)](#), [2320 \(2016\)](#), [2378 \(2017\)](#) and [2457 \(2019\)](#), the Security Council called upon the United Nations to strengthen the cooperation between the United Nations and the African Union, including in the areas of mediation, capacity-building and, in particular, the operationalization of the African Peace and Security Architecture and implementation of the Silencing the Guns initiative.
- 3.205 The Office's main areas of work are to: (a) further develop and implement the strategic partnership between the United Nations and the African Union in the area of peace and security; and (b) partner with the African Union in efforts to enhance capacities to jointly address challenges to peace and security in Africa. The Office provides an improved mechanism for cooperation at the regional level, primarily with the African Union and subregional organizations throughout Africa. It seeks to build a common United Nations-African Union understanding of the causes and drivers of armed conflicts and potential armed conflicts, from which collaborative initiatives to prevent, manage and resolve armed conflicts can be developed. The Office works closely with United Nations peacekeeping operations and special political missions on the continent and, in so doing, enhances collaboration in peace and security relations with the African Union. Furthermore, the Office provides support to United Nations good offices initiatives in southern and eastern Africa, in coordination with the African Union and the respective subregional organizations. The Office works with the African Union to develop and implement joint approaches to preventing and addressing armed conflicts in Africa, and to ensure greater collaboration between the African Union and the various United Nations field missions throughout the continent.
- 3.206 The Office seeks to consolidate the partnership with the African Union in the planning and management of peace operations and the development of institutional capacities to strengthen the partnership in initiatives geared towards preventing, managing and resolving armed conflicts. To consolidate a "one United Nations" approach in the partnership with the African Union in peace and security, the Office coordinates its work with other United Nations entities, in particular through the opportunities and issue-based coalitions. The Office also participates in various mechanisms in Addis Ababa that coordinate donors and other partners.

Programme of work

Objective

- 3.207 The objective to which the office contributes, is to strengthen the United Nations-African Union partnership for peace and security in Africa.

Strategy and external factors for 2023

3.208 To contribute to the objective, the Office will:

- (a) Support the implementation of the priorities of the African Peace and Security Architecture and the African Governance Architecture, namely, conflict prevention, crisis/conflict management, post-conflict reconstruction and peacebuilding, strategic security issues, and coordination and partnership;
- (b) Engage with the African Union at senior and operational levels on political and operational priorities through the United Nations-African Union annual conference, the United Nations-African Union Joint Task Force on Peace and Security and the annual United Nations-African Union consultative meeting on prevention and management of conflicts (desk-to-desk);
- (c) Support engagements at the member State level, including the annual joint consultative meeting of members of the Security Council and the Peace and Security Council, the monthly consultative meetings between the President/Chairperson of the two Councils, informal engagements between the two Councils, meetings of the Political Counsellors of the Security Council and the Peace and Security Council Committees of Experts, and the annual joint meeting of the Peacebuilding Commission and the Peace and Security Council;
- (d) Regularly engage the policy organs of the African Union, including the Peace and Security Council and the Permanent Representatives Committee, through both formal and informal interaction;
- (e) Conduct good offices missions to address peace and security challenges, when requested by United Nations Headquarters, and maintain regular interaction between the United Nations and the African Union, regional economic communities and regional mechanisms, as well as with member States, on thematic and country specific situations, and seek to develop a common understanding and, where possible, common positions, so as to build on mutual interests;
- (f) Strengthen coordination mechanisms among United Nations entities and other key partners, such as the regional economic communities and regional mechanisms and the European Union;
- (g) Strengthen strategic coordination and partnerships throughout the conflict cycle by providing support in addressing ongoing armed conflicts in Africa, including operationalization of the African Peace and Security Architecture, through joint activities carried out primarily with the African Union Commission;
- (h) Support efforts to strengthen the capacities of the African Union in critical areas of expertise so as to effectively plan and manage responses to ongoing and future armed conflicts;
- (i) Undertake various initiatives to build the institutional capacities of the African Union Commission to prevent, manage and respond to armed conflicts in Africa and address root causes of conflict, including by strengthening the African Union's mediation capacity, including through support for the African Union Mediation Support Unit;
- (j) Support efforts to advance implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security and the inclusion of women in all aspects of conflict prevention, conflict management and conflict resolution, including support for training and rostering exercises of female officers in peace support operations, and in addressing the root causes of conflict;
- (k) Support the implementation of the African Union Continental Framework for Youth, Peace and Security, which is the outcome of six subregional consultations, including the priority activities identified in its Ten-Year Implementation Plan for 2020–2029.

3.209 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19

pandemic. Examples of lessons learned and best practices include the importance of enhanced coordination and collaboration with other United Nations entities, including those with development and humanitarian mandates. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.

- 3.210 The above-mentioned work is expected to result in:
- (a) Strengthened capacity of the African Union, the African Union Commission, the regional economic communities and the regional mechanisms with regard to conflict prevention, management and resolution, including enabling the African Union to plan and manage its ongoing and future peace operations;
 - (b) Synergized collaboration in addressing threats to peace and security and the root causes of conflicts in Africa.
- 3.211 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) There is continued political will and commitment among the United Nations and the African Union in promoting cooperation with regional and subregional organizations in peace and security;
 - (b) Extrabudgetary funding is available;
 - (c) The African Union will continue to develop the human and financial capacity necessary to effectively deliver on mandates to address peace and security challenges in Africa.
- 3.212 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to maintain effective relationships with a variety of partners, including external partners and stakeholders. This cooperation will take into consideration African Union priorities and aspirations as expressed in Agenda 2063 and relevant policy documents, as well as the 2030 Agenda. The Office will further maintain regular interaction on thematic and country-specific issues and seek common positions for the United Nations and the African Union, while enhancing coordination and synergies between key partners, such as the European Union, regional economic communities and regional mechanisms.
- 3.213 With regard to inter-agency coordination and liaison, the Office will continue to lead or support coordination mechanisms with United Nations entities to ensure synergy and coherence in delivering assistance to the African Union. The Office will also engage, as necessary, with various opportunities and issue-based coalition working groups to promote a coordinated United Nations approach in the partnership with the African Union Commission.
- 3.214 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office will assist in harmonizing and streamlining United Nations and African Union efforts to institutionalize gender-responsive policymaking and programming; support efforts for the increase in equal participation, representation and full involvement of women in preventive diplomacy, mediation and sustaining peace, including through support for the Network of African Women in Conflict Prevention and Mediation and the African Women Leaders Network; enhance the mainstreaming of the women and peace and security agenda into joint activities with the African Union Commission and the Intergovernmental Authority on Development on preventing and addressing conflict and peacebuilding, including through the conduct of capacity-building activities; and support knowledge and experience-sharing initiatives for women and youth peacebuilders. The Office will work with the African Union, regional economic communities, regional mechanisms and member States to build the capacity of women leaders in countries in situations of conflict and post-conflict countries through training and mentorship programmes.

Evaluation activities

- 3.215 An independent evaluation of the partnership agreement between the Norwegian Ministry of Foreign Affairs and the United Nations regarding support to the United Nations Office to the African Union is planned for 2023.

Programme performance in 2021

Strengthened African Peace and Security Architecture

- 3.216 The challenges posed by COVID-19 notwithstanding, the Office has continued to support the strengthening of the African Peace and Security Architecture pillars, including the African Standby Force. The Office supported the African Union in developing the civilian, police and military standby capabilities of the Force, for example, in the design, development and delivery of civilian foundation courses and police and military predeployment courses targeting the regional standby forces, enabling them to deploy in operations on the continent. The Office also provided support for the development of policy and guidance documents such as the guidelines and standard operating procedures for the selection, deployment and rostering of police officers. The Office and the African Union also collaborated in joint planning, review and assessment processes, as well as the development and delivery of 58 training programmes and workshops in subject areas such as the monitoring and evaluation of African Union peace support operations, the linkages between humanitarian affairs, development and peace and security, child protection, protection of civilians, mainstreaming a gender perspective into peace support operations, and leadership. Those activities contributed to the strengthening of the African Peace and Security Architecture mechanisms.
- 3.217 Progress towards the objective is presented in the performance measure below (see table 3.59).

Table 3.59
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	<ul style="list-style-type: none"> • Strengthened capacity of African Union personnel on mainstreaming a gender perspective into African Union peace support operations and leadership • Standardized police, military and civilian predeployment training, and related capacity development packages approved by the African Union Commission • Enhanced capabilities of African Union personnel deployed or preparing to deploy to field missions 	<ul style="list-style-type: none"> • Strengthened capacity of African Union personnel on monitoring and evaluation of African Union peace support operations, the linkages between humanitarian affairs, development and peace and security, child protection, protection of civilians, mainstreaming a gender perspective into peace support operations, and leadership • Enhanced capabilities of African Union personnel deployed or preparing to deploy to field missions • Improved African Union guidance and standard operating procedures for the selection, deployment and rostering of police officers

Impact of the pandemic

- 3.218 The continuation of the COVID-19 pandemic had an impact on the implementation of mandates, in particular the ability to engage directly in joint assessments and field missions. The provision of technical advice and expertise to the African Union Commission was provided virtually, while some joint predeployment assessments continued as permitted, COVID-19-related restrictions notwithstanding. The Office engaged in more frequent virtual joint meetings with the African Union and other partners to support early warning and conflict prevention, and policy development. However, virtual interaction has limitations in building working relationships, and technological challenges due to internet connectivity interruptions had an impact on programme delivery.

Planned results for 2023

Result 1: enhanced capacity of the African Union Mission in Somalia

Programme performance in 2021 and target for 2023

- 3.219 The Office's work contributed to the development of the concept of operations for the reconfiguration of AMISOM into the new African Union Transition Mission in Somalia (ATMIS) and the African Union-United Nations joint proposal on the strategic objectives, size and composition of a reconfigured African Union mission in Somalia, authorized by the Peace and Security Council and the Security Council in March 2022, which did not meet the planned target, owing to the focus on supporting the transition from AMISOM to ATMIS.
- 3.220 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.60).

Table 3.60

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Implementation of phase I of the Transition Plan and reconfiguration of AMISOM, including the drawdown	Finalization of security arrangements for elections to be overseen by Somali security forces, with insurgencies further reduced in population centres	Concept of operations and joint proposal for the new African Union transition mission in Somalia developed	Election security is maintained and government elected, with post-election security maintained	Downsizing of ATMIS and corresponding progressive takeover of security responsibilities by Somali security forces in line with Security Council resolution 2628 (2022)

Result 2: strengthened African Governance Architecture

Programme performance in 2021 and target for 2023

- 3.221 The Office's work contributed to the strengthened capacity of the African Union on governance, democratization and human rights, in particular, the African Union Mediation Support Unit and the Continental Early Warning System, which met the planned target.
- 3.222 Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3.61).

Table 3.61
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Enhanced triangular cooperation between the African Union, the United Nations and the regional economic communities and regional mechanisms in peace, security, governance and human rights issues	Conclusion of an African Union-United Nations human rights framework	Strengthened African Union capacity on governance, democratization and human rights, in particular the African Union Mediation Support Unit and the Continental Early Warning System	Implementation of the African Union governance, democratization and human rights instruments at the regional and national levels	Enhanced triangular cooperation on African Union governance, democratization and human rights instruments at the regional and national levels

Result 3: strengthened implementation of the women and peace and security agenda**Proposed programme plan for 2023**

- 3.223 The Office works with the African Union Commission, regional economic communities and regional mechanisms to strengthen implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security. The Office has been working with its key interlocutors towards strengthening capacity and increasing the representation of women at all decision-making levels in national, regional and international institutions and mechanisms for the prevention, management and resolution of armed conflict. In recent years, the Office has provided technical and advisory support to the African Union, provided training for African Union Commission experts on mediation and gender-sensitive conflict analysis, developed training materials for the African Union and conducted training-of-trainers on violence against women and girls. The Office has also raised public awareness of the women and peace and security agenda through various knowledge and communication products.

Lessons learned and planned change

- 3.224 The lesson for the subprogramme was the need to increase collaboration among regional bodies and civil society, to strengthen implementation of relevant Security Council resolutions on women and peace and security. In applying the lesson, the Office will work with the African Union Commission, regional economic communities, regional mechanisms, the Network of African Women in Conflict Prevention and Mediation and the African Women's Leaders' Network to integrate the women and peace and security agenda across the continent and promote greater representation of women in peace processes, enhancing existing capacities of women and women's organizations, and documenting best practices. In addition, the Office will strengthen its communications and outreach in implementation of the women and peace and security agenda and enhance coordination with other United Nations entities working with the African Union on peace and security matters through the Africa Regional Collaborative Platform and its opportunities and issue-based coalitions.
- 3.225 Expected progress towards the objective is presented in the performance measure below (see table 3.62).

Table 3.62
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Enhanced capacity of women experts and leaders in the Network of African Women in Conflict Prevention and Mediation and the Africa Women Leader’s Network on mediation and peacebuilding	<ul style="list-style-type: none"> Increased awareness of the women and peace and security agenda through the publication of the book “She Stands for Peace” Enhanced capacity of the African Union to engage and support member States in mainstreaming a gender perspective and promoting digital inclusion and women’s participation in mediation 	<ul style="list-style-type: none"> Increased public awareness of the women and peace and security agenda through the “She Stands for Peace” podcast series (22 episodes) Improved capacity of the African Union to provide training on violence against women and girls Enhanced capacity of African Union Commission experts on mediation and gender-sensitive conflict analysis 	Implementation of Security Council resolution 1325 (2000) in the area of women’s active participation in political and peace processes through capacity development and communications support	Implementation of Security Council resolution 1325 (2000) in the areas of protection, prevention, and recovery and resolution through mentorship, training and communications support

Legislative mandates

3.226 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

52/220	Questions relating to the proposed programme budget for the biennium 1998–1999	65/274; 67/302	Cooperation between the United Nations and the African Union
60/268	Support account for peacekeeping operations	71/270	Review of the United Nations Office to the African Union
64/288	Financing of the United Nations Office to the African Union		

Security Council resolutions

1744 (2007)	2167 (2014)
1769 (2007)	2320 (2016)
1772 (2007)	2378 (2017)
1863 (2009)	2457 (2019)
2033 (2012)	

Deliverables

3.227 Table 3.63 lists all deliverables of the Office.

Table 3.63

United Nations Office to the African Union: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Secretary-General to the Security Council on strengthening the partnership between the United Nations and the African Union on issues of peace and security in Africa, including the work of the United Nations Office to the African Union	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	15	15	15	15
2. Annual joint consultative meeting of the Security Council and the African Union Peace and Security Council	2	2	2	2
3. Periodic coordination meetings of the Security Council and the African Union Peace and Security Council	10	10	10	10
4. Meetings of the Fifth Committee	1	1	1	1
5. Meetings of the Committee for Programme and Coordination	1	1	1	1
6. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	58	103	103	116
7. United Nations-African Union training course on conflict analysis and mediation	5	26	26	28
8. Training events for the African Union Mediation Support Unit on current methods and trends in mediation	5	7	7	9
9. Training events for the secretariat of the African Union Peace and Security Council on current issues and trends in peace and security	5	5	5	5
10. Media workshop on the Peace and Security Framework for press attaches and local/regional/international media practitioners	1	6	6	6
11. Training events for African Union peace support operations on military, police and civilian strategic support concepts	28	40	40	48
12. Seminars and workshops for experts and officials of African Union member States on mediation, post-conflict reconstruction and development, security sector reform, disarmament, demobilization and reintegration, election, and border programmes of the African Union	14	19	19	20
Technical materials (number of materials)	9	13	13	13
13. Joint United Nations-African Union technical review of and assessment reports on African Union peace support operations	3	6	6	6
14. Policies and guidance documents in support of the African-led peace support operations	4	5	5	5
15. Peace and security-related policies and guidelines in support of the implementation of the African Peace and Security Architecture and conflict prevention, management and resolution	2	2	2	2
C. Substantive deliverables				
Good offices: support for the African Union in terms of mediation and conflict prevention; and regional visits for conflict analysis and early intervention.				

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

Consultation, advice and advocacy: advice, in collaboration with the African Union Commission, to five regional economic communities and regional mechanisms on the development and harmonization of the African Peace and Security Architecture; technical advice, expertise and support, including on human rights, to the African Union and three regional economic communities and regional mechanisms on the planning, management and sustainment of peace support operations; advice to the African Union and five regional economic communities and regional mechanisms on the African Standby Force; advice to the African Union Commission on the promotion of common training standards for the African Union and three regional economic communities, including advice on best practices and lessons learned; advice to the African Union Partners Group to develop a strategy for multidimensional support by the partners for African Union initiatives; consultation and advice to the United Nations-African Union horizon scanning teams on country and regional early warning contexts; advice to African Union civilian and force generation processes on the implementation of the mandate of the peace support operations of the African Union and the regional economic communities and regional mechanisms; and advice and advocacy to the Open-ended Group of Friends of the United Nations-African Union partnership.

D. Communication deliverables

Outreach programmes, special events and information materials: International Women’s Day, International Youth Day, Africa Day, International Day of United Nations Peacekeepers and International Day of Peace; and information materials, flyers, roll-up banners, infographic documents and e-newsletter with approximately 5,400 readers.

Digital platforms and multimedia content: website and social media accounts; online photograph database showcasing United Nations-African Union partnership activities; and podcast series on women and peace and security in Africa reaching a wide audience across Africa, including partners in the African Union, regional economic communities and regional mechanisms, academic and research institutions, continental women-led organizations, young people, media and the wider public.

B. Proposed post and non-post resource requirements for 2023

Overview

3.228 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 3.64 to 3.66.

Table 3.64

Overall: evolution of financial resources by object of expenditure

(Thousands of United States dollars)

3.229 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 3.67 to 3.69 and figure 3.XXXI.

3.230 As reflected in tables 3.67 (1) and 3.68 (1), the overall resources proposed for 2023 amount to \$950,900 before recosting, reflecting no change in resource level compared with the appropriation for 2022. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Total		6	–	–	–	–	–	6	

Figure 3.XXXI
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

3.231 As reflected in tables 3.67 (2) and 3.68 (2), other assessed resources are estimated at \$8,884,400, including 50 posts (2 D-1, 2 P-5, 20 P-4, 3 P-3, 8 Field Service, 1 National Professional Officer and 14 Local level). The resources would support the Office in carrying out its mandate. The increase of \$248,500 reflects mainly increased provisions for posts, due to updated salary costs, as reflected in the budget for the support account for peacekeeping operations for the period from 1 July 2022 to 30 June 2023 (A/76/725). Other assessed resources represent 85.2 per cent of the total resources for the Office.

Extrabudgetary resources

3.232 As reflected in tables 3.67 (3) and 3.68 (3), the Office expects to receive voluntary contributions, which complement regular budget resources and continue to be vital for the delivery of its mandates. In 2023, extrabudgetary resources are estimated at \$592,500 and would provide for three posts (1 P-4, 1 General Service (Other level) and 1 National Professional Officer). Post and non-post resources would support the Office in advancing the women and peace and security agenda. The projected net increase of \$150,000 for 2023 reflects the anticipated additional funding for two additional posts. Extrabudgetary resources represent 5.7 per cent of the total resources for the Office.

3.233 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Other information

3.234 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office is integrating environmental management practices into its operations. The Office will continue to integrate environment-friendly management practices by continuing to deploy printers comprising energy-efficient technological capacity and levels, thus providing a low energy footprint, and by installing software on printers for monitoring printing levels.

Section 3 Political affairs

3.235 Information on compliance with the advance booking for air travel is reflected in table 3.70. The majority of official travel by the Office is in support of joint initiatives with the African Union, the regional economic communities and other partners. Notification or approval of such travel is often not received within time frames that would comply with the United Nations stipulations on travel. The Office will continue to endeavour to ensure that notification or approval of travel in support of joint activities with strategic partners is received within timelines that would enable compliance with the stipulated requirements.

VI. Office of Counter-Terrorism

Foreword

Terrorism remains a significant, evolving and complex threat to international peace and security, and continues to be an affront to the values enshrined in the Charter of the United Nations and the Universal Declaration of Human Rights. It is a direct threat to the lives of innocent people, undermining human rights, gender equality and the rule of law, polarizing societies and setting back sustainable development.

Globally, the growing interplay between terrorism, weak governance and armed conflict presents enormous challenges to Member States' efforts to defeat this scourge. Dynamics associated with the COVID-19 pandemic have exacerbated existing fragilities and revealed vulnerabilities to new and emerging forms of terrorism, such as the misuse of digital technologies, cybersecurity risks to critical infrastructure and the threat of terrorist use of biological weapons and materials. Member States, the United Nations, regional and subregional organizations and civil society have all recognized that this common threat requires a multilateral and connected response.

In 2023, the Office of Counter-Terrorism will implement its strategic plan and programme framework for the period 2022–2025, intended to operationalize the mandate given to the Office by the General Assembly in its resolution [71/291](#) and in successive reviews of the United Nations Global Counter-Terrorism Strategy. The Office has further adopted a new resource mobilization strategy for raising extrabudgetary resources in a coordinated and coherent manner, in support of the mandate of the Office and the implementation of the strategic plan and programme framework.

(Signed) Vladimir **Voronkov**
Under-Secretary-General, Office of Counter-Terrorism

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

- 3.236 Pursuant to General Assembly resolution [71/291](#), the Office of Counter-Terrorism is responsible for five main functions: providing leadership for the General Assembly counter-terrorism mandates entrusted to the Secretary-General for action across the United Nations system; enhancing coordination and coherence across the United Nations system to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; strengthening delivery of United Nations counter-terrorism capacity-building assistance to Member States; improving the visibility of, and advocacy and resource mobilization for, United Nations counter-terrorism efforts; and ensuring that due emphasis is placed on counter-terrorism across the United Nations system and that the work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy. The General Assembly also recognized the important work of the United Nations Counter-Terrorism Centre within the Office.
- 3.237 The United Nations Global Counter-Terrorism Strategy (General Assembly resolution [60/288](#)) is composed of four pillars, in the form of measures to: address the conditions conducive to the spread of terrorism; prevent and combat terrorism; build States' capacity to prevent and combat terrorism and to strengthen the role of the United Nations system in that regard; and ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism. The mandate of the Office derives from the priorities established in the Strategy and subsequent review resolutions adopted by the General Assembly, including resolution [75/291](#), and other relevant General Assembly and Security Council resolutions, including Security Council resolution [2617 \(2021\)](#).
- 3.238 The Office acts as secretariat for the United Nations Global Counter-Terrorism Coordination Compact. The Global Compact promotes action-oriented collaboration within the United Nations system, and serves as a platform for joint programming, coherent monitoring and evaluation, and facilitation of joint resource mobilization and outreach to donors. This enhanced coordination, cooperation and coherence supports the Secretary-General's "all-of-United Nations" approach.

Programme of work

Objective

- 3.239 The objective, to which the Office contributes, is to prevent and counter terrorism in all its forms and manifestations, as well as violent extremism as and when conducive to terrorism, in compliance with international law.

Strategy and external factors for 2023

- 3.240 To contribute to the objective, the Office, guided by its strategic plan and programme framework for the period 2022–2025, will:
- (a) Provide leadership for the General Assembly counter-terrorism mandates entrusted to the Secretary-General for action across the United Nations system, convene high-level international and regional conferences and provide a platform for Member States to exchange information, expertise and resources, develop partnerships and collectively address a range of critical counter-terrorism issues;

- (b) Enhance coordination and coherence across the United Nations Global Counter-Terrorism Coordination Compact entities in support of Member States, including by strengthening the response to technical assistance needs identified by the Counter-Terrorism Committee Executive Directorate;
 - (c) Provide technical assistance to requesting Member States, including through its presences away from Headquarters, to transfer knowledge and deliver capacity-building assistance in an integrated manner, and reinforce resource mobilization activities with donors;
 - (d) Conduct research, identify and disseminate new and innovative programme management methodologies, best practices and lessons learned, and embed evidence-informed delivery as a foundation for its technical assistance work;
 - (e) Strengthen the capacity of Member States to ensure respect for human rights and the rule of law while countering terrorism, in accordance with the fourth pillar of the United Nations Global Counter-Terrorism Strategy;
 - (f) Support and build the capacity of parliamentarians in their efforts to counter terrorism, and strengthen outreach to civil society organizations, including youth and women's organizations, to promote a whole-of-society approach to preventing and countering terrorism and violent extremism conducive to terrorism;
 - (g) Facilitate South-South cooperation through the sharing of knowledge and good practices, in line with the recommendations of the United Nations system-wide strategy on South-South and triangular cooperation for sustainable development.
- 3.241 Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plan for 2023 continues to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. Examples of lessons learned and best practices include the increased use of remote training and engagement, and the development of a new online "Connect & Learn" platform to consolidate the Office's expertise, advocacy and programmatic activities into one far-reaching and easily accessible online portal. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objective, strategy and mandates and would be reported as part of the programme performance information.
- 3.242 The above-mentioned work is expected to result in:
- (a) Multilateral cooperation, partnerships with Member States and regional organizations and the inclusion of civil society and private sector stakeholders related to countering terrorism and violent extremism conducive to terrorism;
 - (b) Enhanced capacity of Member States in implementing relevant General Assembly and Security Council resolutions related to countering terrorism and violent extremism conducive to terrorism, including by building greater resilience and reinforcing responses to terrorist threats and attacks;
 - (c) Policy leadership and enriched policy discourse on preventing and countering the evolving threat of terrorism and violent extremism conducive to terrorism;
 - (d) In requesting Member States, integration of human rights norms and standards in relevant measures taken in the context of preventing and countering terrorism and violent extremism conducive to terrorism.
- 3.243 With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States will continue to request support from the United Nations in preventing and countering terrorism and violent extremism conducive to terrorism;
 - (b) Extrabudgetary resources for capacity-building support for Member States will be available;

- (c) Member States, supported by the Office of Counter-Terrorism, will grant the necessary official approvals and access to enable implementation and delivery of this support.
- 3.244 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to cooperate with the Global Counterterrorism Forum and international and regional organizations. The Office will continue to implement existing partnership frameworks and memorandums of understanding and develop new partnership frameworks to support joint approaches and collaboration to promote the implementation of the United Nations Global Counter-Terrorism Strategy and regional counter-terrorism strategies.
- 3.245 With regard to inter-agency coordination and liaison, the Office leads the United Nations Global Counter-Terrorism Coordination Compact, which includes 43 member or observer entities. The Global Compact represents one of the largest coordination frameworks across the three pillars of work of the United Nations: peace and security, sustainable development, and human rights and humanitarian affairs. The Compact comprises eight working groups specialized in priority areas relating to preventing and countering terrorism and violent extremism conducive to terrorism, aligned with the four pillars of the United Nations Global Counter-Terrorism Strategy. The Office will continue to strengthen the coordination of counter-terrorism efforts through consultative inter-agency efforts with the United Nations country teams and resident coordinators, in cooperation with respective host countries, and use its coordination role to strengthen existing partnerships and initiate new ones for multi-stakeholder collaboration at the national, regional and global levels. The Office will continue to advocate an approach that prioritizes joint programming with other United Nations partners to maximize the use of resources and deliver more coherent and expert capacity-building activities, including in the field, in close coordination with the resident coordinator system.
- 3.246 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In December 2021, the Office adopted its gender mainstreaming policy and action plan, which enables the establishment of the appropriate mechanisms to prevent and counter terrorism and violent extremism conducive to terrorism, informed by gender-sensitive analysis. The current policy framework ensures that the work of the Office is aligned with the women and peace and security agenda.
- 3.247 In line with the United Nations Disability Inclusion Strategy, efforts will be made to improve inclusion for persons with disabilities, with an internal policy that is planned for development in 2022 being rolled out in 2023 to guide staff on the implementation of the Strategy.

Evaluation activities

- 3.248 The independent meta-synthesis of evaluations under the United Nations Global Counter-Terrorism Strategy, completed in 2021, has guided the proposed programme plan for 2023.
- 3.249 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2023. For example, the independent meta-synthesis highlighted the varied evaluation capacities in Global Compact entities and the need for those capacities to be improved. The Office will lead the coordination in strengthening evaluation, including a community of practice on countering terrorism and preventing violent extremism as and when conducive to terrorism. The Office will also enhance its efforts to engage in joint programming with other Global Compact entities, in particular with regard to capacity-building for Member States.
- 3.250 Evaluations of selected projects and programmes to assess the results and impact of the capacity-building assistance and support provided by the Office to Member States are planned for 2023.

Programme performance in 2021

Improved Member State responses to the challenges and opportunities of new technologies in countering terrorism

- 3.251 The General Assembly¹ and the Security Council,² through their resolutions, have both expressed deep concern over the use of the Internet and other information and communications technologies for terrorist purposes and called for the international community to work together to prevent terrorists from exploiting new technologies for terrorist acts. The Office, through its global counter-terrorism programme on cybersecurity and new technologies, supports requesting Member States in preventing the increasing and rapidly evolving misuse of the Internet and other information and communications technologies, including social media platforms, by terrorist groups, as well as using these technologies as powerful tools in counter-terrorism and in preventing and countering violent extremism as and when conducive to terrorism.
- 3.252 In response to the increased use of information and communications technologies by terrorists during the COVID-19 pandemic, in 2021 the Office expanded the provision of tailored training to conduct counter-terrorism investigations online, including social media, dark web and cryptocurrency investigations, to bring terrorists to justice, with full respect for human rights and the rule of law, extract forensic evidence from digital devices and respond to terrorist cyberattacks against critical infrastructure in an integrated manner. The Office also developed five knowledge products, which were made available to the international community. This work increased Member States' knowledge about countering terrorism online and enhanced their capacities to prevent and respond to terrorist cyberattacks on critical infrastructure and to investigate terrorist offences by collecting evidence online and from other digital sources.
- 3.253 Progress towards the objective is presented in the performance measure below (see figure 3.XXXII).

Figure 3.XXXII

Performance measure: number of Member States and officials with strengthened capacity to counter terrorism online

Impact of the pandemic

- 3.254 The continuation of the COVID-19 pandemic had an impact on the implementation of mandates, in particular the delivery of the Office's training programmes. The dynamics associated with the pandemic have revealed vulnerabilities to new and emerging forms of terrorism, such as the misuse of digital technologies, cyberattacks against critical infrastructure and the threat of bioterrorism. The programme benefited from lessons learned in the delivery of technical assistance since the start of the pandemic and delivered tailored and improved support to Member States through training on artificial

¹ See resolutions [60/288](#), [72/284](#) and [75/291](#).

² See resolutions [2341 \(2017\)](#), [2370 \(2017\)](#), [2396 \(2017\)](#), [2462 \(2019\)](#) and [2617 \(2021\)](#).

intelligence, cybersecurity, digital forensics and online investigations, including dark web, virtual assets and cryptocurrency investigations, as described under programme performance in 2021.

Planned results for 2023

Result 1: detection and countering of terrorists’ travel using travel data

Programme performance in 2021 and target for 2023

- 3.255 The Office’s work contributed to the deployment of the goTravel software and the implementation of the United Nations Countering Terrorist Travel Programme by 10 additional Member States, resulting in a cumulative number of 33 Member States implementing the Programme, which exceeded the planned target of 26.
- 3.256 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.XXXIII).

Figure 3.XXXIII
Performance measure: number of Member States implementing the Countering Terrorist Travel Programme (cumulative)

Result 2: improved security of major sporting events and prevention of violent extremism conducive to terrorism through sport and its values

Programme performance in 2021 and target for 2023

- 3.257 The Office’s work contributed to the engagement of 120 national focal points from 82 Member States to promote the use of sport and its values as a tool for preventing violent extremism as and when conducive to terrorism, which exceeded the planned target of 110 national focal points but did not meet the target of 90 Member States. The target was not met because of reprioritization by some Member States to focus on national health in the context of COVID-19.
- 3.258 The Office’s work also contributed to the engagement of 123 national focal points from 90 Member States to promote the development and adoption of advanced policies and practices to enhance the security of major sporting events, which exceeded the planned target of 110 national focal points and met the target of 90 Member States.
- 3.259 Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure 3.XXXIV).

Figure 3.XXXIV

Performance measure: number of Member States and national focal points for the two programmatic pillars of the global sport and security programme (cumulative)

^a The global programme will end in 2022.

Result 3: enhanced protection and assistance for victims of terrorism

Proposed programme plan for 2023

- 3.260 Developments at the international, regional and national levels have demonstrated that support to victims has moved beyond symbolic solidarity towards a more robust engagement to advance their rights and needs. This increased support is reflected in the establishment of a Member State-driven Group of Friends of Victims of Terrorism and in two recent milestone resolutions dedicated to victims of terrorism (General Assembly resolutions [72/165](#) and [73/305](#)). In 2018, the Office of Counter-Terrorism launched the global Victims of Terrorism Support Programme, which is the only programme dedicated specifically to addressing the rights and needs of victims of terrorism across the United Nations system. The Programme aims to strengthen victims' voices and their role in preventing and countering violent extremism as and when conducive to terrorism, to establish stronger mechanisms to provide practical resources to victims, and to strengthen the capacity of Member States and civil society organizations to assist and support victims of terrorism in upholding their rights and needs.

Lessons learned and planned change

- 3.261 The lesson for the Office was that increased direct engagement with victims' associations and victims strengthened the Office's existing network of victims of terrorism and enabled Member States to better support progress on victims' rights and needs. In applying the lesson, the Office will expand the scope of its work at the national, regional and international levels to provide increased opportunities for victims to raise their concerns, combined with capacity-building and technical assistance for Member States to develop comprehensive national assistance plans to support victims of terrorism.
- 3.262 Expected progress towards the objective is presented in the performance measure below (see table 3.71).

Table 3.71
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Group of Friends of Victims of Terrorism established with 35 Member States	Report of the Secretary-General on progress made by the United Nations system in supporting Member States in assisting victims of terrorism (A/74/790) issued, in which all Member States were called upon to establish national frameworks to strengthen support to victims of terrorism	Increased awareness of Member States on the importance of anchoring national plans into legal frameworks to ensure holistic and victim-centric approaches in counter-terrorism efforts	First United Nations Global Congress of Victims of Terrorism to review existing practices and make recommendations to better protect victims' rights and needs Increased capacity in two Member States to develop national comprehensive assistance plans for victims anchored in legal frameworks	Increased capacity in two additional Member States to develop national comprehensive assistance plans for victims anchored in legal frameworks

Legislative mandates

3.263 The list below provides all mandates entrusted to the Office.

General Assembly resolutions

60/288 ; 62/272 ; 64/297	United Nations Global Counter-Terrorism Strategy	71/291	Strengthening the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy
64/235	Institutionalization of the Counter-Terrorism Implementation Task Force	72/165	International Day of Remembrance of and Tribute to the Victims of Terrorism
66/10	United Nations Counter-Terrorism Centre	73/305	Enhancement of international cooperation to assist victims of terrorism
66/282 ; 68/276 ; 70/291 ; 72/284	The United Nations Global Counter-Terrorism Strategy Review	75/291	The United Nations Global Counter-Terrorism Strategy: seventh review
70/254	Secretary-General's Plan of Action to Prevent Violent Extremism		

Security Council resolutions

2341 (2017)	2396 (2017)
2368 (2017)	2462 (2019)
2370 (2017)	2482 (2019)
2395 (2017)	2617 (2021)

Deliverables

3.264 Table 3.72 lists all deliverables of the Office.

Table 3.72

Office of Counter-Terrorism: deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	2	4
Report of the Secretary-General to:				
1. The General Assembly on the implementation of the United Nations Global Counter-Terrorism Strategy by the United Nations system	–	1	–	1
2. The Security Council on the threat posed by Islamic State in Iraq and the Levant (ISIL, also known as Da'esh)	2	2	2	2
3. The General Assembly on a world against violence and violent extremism	1	–	–	–
4. The General Assembly on progress made by the United Nations system in supporting Member States in assisting victims of terrorism	–	–	–	1
Substantive services for meetings (number of three-hour meetings)	15	39	17	42
5. Meeting of the General Assembly on the biennial review of the United Nations Global Counter-Terrorism Strategy	–	26	–	26
6. Briefings to the General Assembly on the United Nations Global Counter-Terrorism Coordination Compact	4	4	4	4
7. Briefings to the Security Council	2	2	2	2
8. Briefings to the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism (Counter-Terrorism Committee)	2	2	4	2
9. Briefings to the Advisory Board of the United Nations Counter-Terrorism Centre	4	2	4	5
10. Meetings of the Fifth Committee	1	1	1	1
11. Meetings of the Committee for Programme and Coordination	1	1	1	1
12. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	257	509	284	545
13. High-level conference on issues relating to counter-terrorism	2	7	–	7
14. Regional conferences on technical issues relating to counter-terrorism	12	11	4	32
15. Capacity-building training and workshops on technical thematic issues	243	491	280	506
Technical materials (number of materials)	5	19	5	11
16. On lessons learned, best practices and thematic topics in implementing the United Nations Global Counter-Terrorism Strategy	5	19	5	11
C. Substantive deliverables				
Consultation, advice and advocacy: advocacy initiatives; consultations with Member States on global, regional and national priorities and strategies; quarterly briefings to Member States; Counter-Terrorism Week.				
Databases and substantive digital materials: United Nations Global Counter-Terrorism Coordination Platform, connecting approximately 900 focal points from 43 United Nations Global Counter-Terrorism Coordination Compact entities and 131 Member States; “Connect & Learn” platform, with online training and communities of practice for approximately 800 members.				
D. Communication deliverables				
Outreach programmes, special events and information materials: special commemorative events, launch events, promotional materials, brown bag meetings, side events, regional conferences and exhibitions.				
External and media relations: communiqués, press statements, press conferences and other engagement with media.				
Digital platforms and multimedia content: content for the Office’s website and social media accounts.				

B. Proposed post and non-post resource requirements for 2023

Overview

3.265 The proposed regular budget resources for 2023, including the breakdown of resource changes, as applicable, are reflected in tables 3.73 to 3.75.

Table 3.73

Overall: evolution of financial resources by object of expenditure

(Thousands of United States dollars)

3.266 Additional details on the distribution of the proposed resources for 2023 are reflected in tables 3.76 to 3.78 and figure 3.XXXV.

3.267 As reflected in tables 3.76 (1) and 3.77 (1), the overall resources proposed for 2023 amount to \$5,988,200 before recosting, reflecting a net increase of \$4,242,000 (or 242.9 per cent) compared with the appropriation for 2022. Resource changes result from two factors, namely: (a) technical adjustments; and (b) new and expanded mandates. The proposed level of resource provides for the full, efficient and effective implementation of mandates.

Table 3.76

Figure 3.XXXV
Distribution of proposed resources for 2023 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 3.268 As reflected in table 3.73, resource changes reflect the removal of non-recurrent requirements of \$158,900 under consultants that supported the Office of Counter-Terrorism in the implementation of the request of the General Assembly, in its resolution [75/291](#), to conduct an assessment of methodologies and tools for a results framework to ensure comprehensive, balanced and integrated implementation of the United Nations Global Counter-Terrorism Strategy by the entities subordinate to the Assembly.

New and expanded mandates

- 3.269 In paragraph 85 of its resolution [75/291](#), the Assembly emphasized the need to continue to seek appropriate funding sources for the integrated and balanced implementation of all the pillars of the Strategy across the United Nations system, in an efficient manner, and in that regard welcomed the continuation of voluntary contributions by Member States. The Assembly also recalled its resolution [71/291](#), in which it emphasized the need to ensure that the Office of Counter-Terrorism is provided with adequate capacity and other resources for the implementation of its mandated activities, and in that regard invited the Secretary-General to carefully assess the finances of the Office and to provide budgetary recommendations, if necessary and on the basis of the technical assessment, to the General Assembly in 2022. The Secretary-General informed the Assembly that the Office would undertake a technical assessment in the second half of 2021 and, subject to the outcome of the assessment, would present any budgetary implications for the programme budget in the proposed programme budget for 2023.
- 3.270 The technical assessment included a review of the Office’s mandates, operations and financial situation, including the requirements to consolidate the United Nations counter-terrorism architecture in a more sustainable manner and to position the Office to better help Member States to address existing and emerging threats. The assessment highlighted the increasing requests for the Office’s services and support in the areas of, inter alia: (a) technical assistance and capacity-building

programmes for requesting Member States; (b) assistance on counter-terrorist financing measures, including the sharing of best practices to prevent terrorist attacks on vulnerable targets, infrastructure and public places; and (c) the need to enhance coordination and coherence across the United Nations Global Counter-Terrorism Coordination Compact entities. The assessment also identified existing vulnerabilities, including the lack of predictable and regular funding. At the time of the assessment, extrabudgetary resources constituted 97 per cent of the Office's overall budget, with the remaining 3 per cent from the regular budget. In terms of staffing, of the 176 staff on-board, 8 posts (4.5 per cent) were funded from the regular budget and the remaining 168 positions (95.5 per cent) were funded from extrabudgetary resources. While the voluntary funding stream has had positive effects on programme delivery, including by facilitating the growth of operational activities to meet the increasing demand for the Office's support, predominant dependency on such a model poses considerable challenges to the sustainability of mandate implementation. The donor base for voluntary contributions to the Office that are unearmarked is very limited, which carries inherent vulnerabilities for the continued delivery of the institutional mandate. The assessment further identified the need to strengthen programme governance, monitoring and evaluation and information management.

- 3.271 The recommendation from the technical assessment included the proposed conversion of 49 core positions (fully or in a phased manner over 2023 and 2024) that are funded from voluntary contributions to regular budget funding. The 49 positions identified are critical in ensuring the continued implementation of the Office's five main functions,³ notably to: (a) provide leadership on the General Assembly counter-terrorism mandates entrusted to the Office from across the United Nations system; (b) enhance coordination and coherence across the 38 Counter-Terrorism Implementation Task Force entities to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; (c) strengthen the delivery of United Nations counter-terrorism capacity-building assistance to Member States; (d) improve visibility, advocacy and resource mobilization for United Nations counter-terrorism efforts; and (e) ensure that due priority is given to counter-terrorism across the United Nations system and that the important work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy. The conversion would also allow for the mainstreaming of functions related to human rights and gender equality and ensure the balanced implementation of the fourth pillar of the Strategy, namely, measures to ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism, as called for in General Assembly resolution [75/291](#).
- 3.272 The Secretary-General plans to implement the recommendations contained in the assessment in a phased manner, with the proposed conversion of 25 extrabudgetary positions to regular budget posts in 2023, and the conversion of the remaining 24 positions to posts to be proposed in the context of the proposed programme budget for 2024, subject to the decisions of the General Assembly.
- 3.273 As reflected in table 3.73, resource changes reflect an increase of \$4,400,900, comprised of \$4,134,000 under post resources and \$266,900 under non-post resources, as follows:
- (a) **Post.** The proposed increase of \$4,134,000 reflects the proposed conversion of 25 positions that are funded from voluntary contributions to posts with regular budget funding (see annex III);
 - (b) **Non-post.** The proposed increase of \$266,900 reflects: (i) \$192,300 to cover official travel requirements of the 25 positions proposed for conversion; and (ii) non-post resources associated with these 25 positions (\$37,800 under general operating expenses, \$7,500 under supplies and materials and \$29,300 under furniture and equipment).

³ The General Assembly, in its resolution [71/291](#), established the Office of Counter-Terrorism in accordance with the five functions set out in the report of the Secretary-General on the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy ([A/71/858](#)).

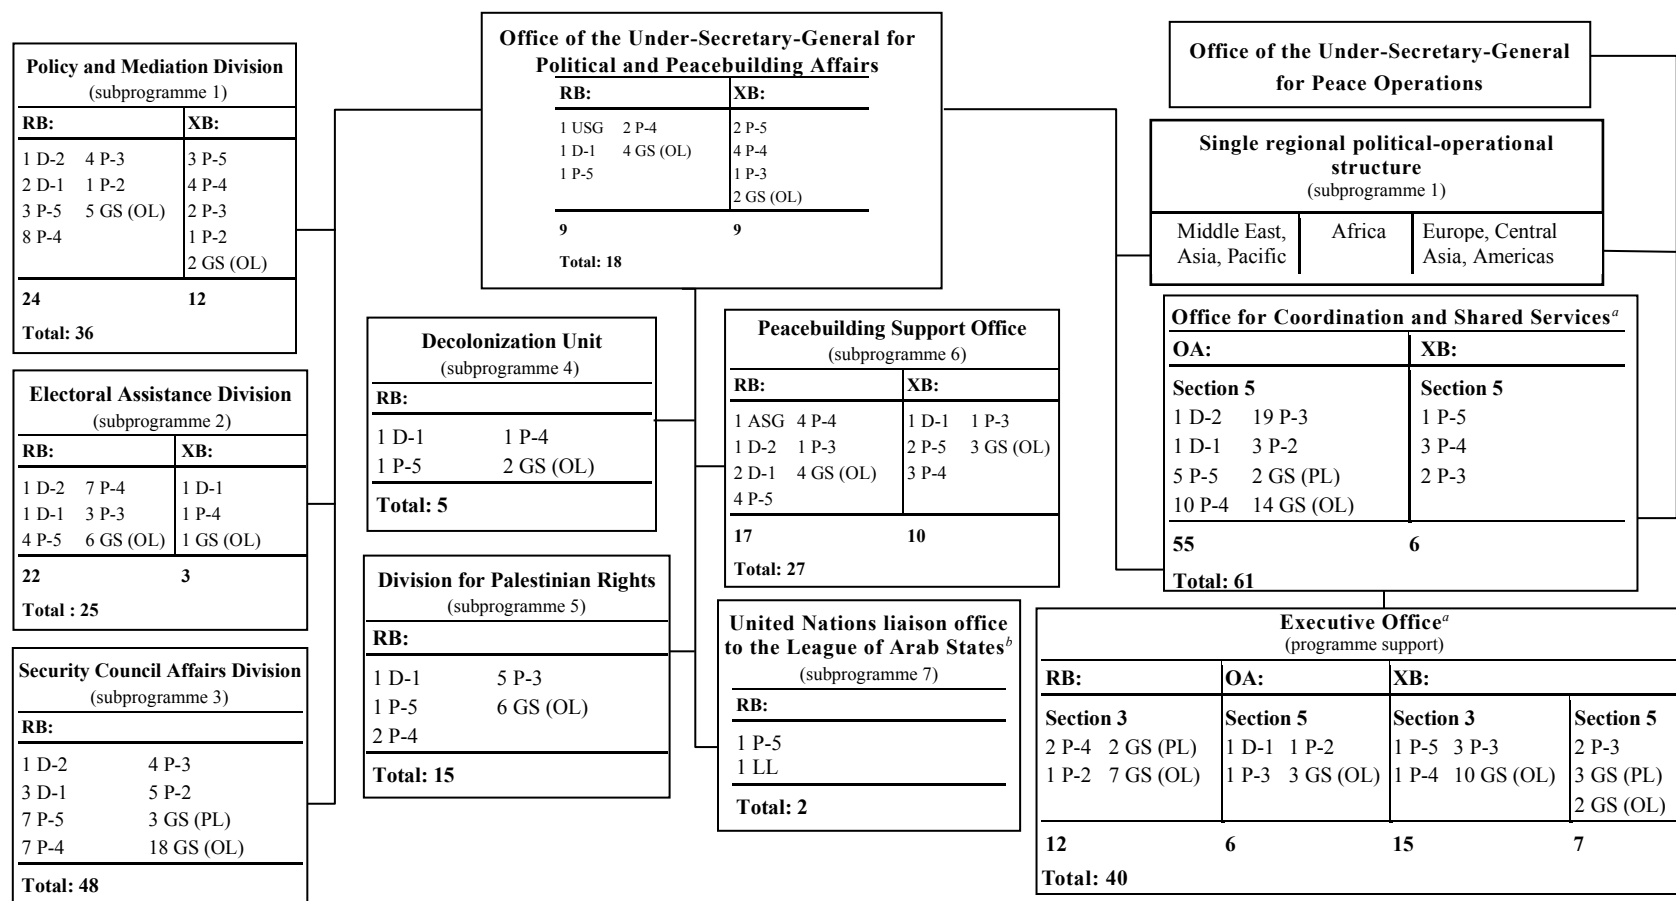

Extrabudgetary resources

- 3.274 As reflected in tables 3.76 (2) and 3.77 (2), the Office receives extrabudgetary contributions, which complement regular budget resources and continue to be vital for the delivery of its mandates. For 2023, projected extrabudgetary resources of \$61,603,700, including for 165 positions, are expected to be received in support of mandated activities. The estimates reflect a decrease of \$4,400,900 compared with the estimates for 2022 owing to the proposed conversion of 25 positions to regular budget posts in 2023. The Office will continue to use extrabudgetary resources to strengthen its field presence and support to Member States and will continue to develop innovative ways to deliver capacity-building assistance to Member States. Estimated extrabudgetary resources represent 91.1 per cent of the total resources for the Office in 2023.
- 3.275 The Office also receives in-kind voluntary contributions, including for office space, furniture and equipment, parking and operational services, with an approximate value of \$520,500.
- 3.276 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Annex I

Organizational structure and post distribution for 2023

A. Department of Political and Peacebuilding Affairs

^a In line with General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the General Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources in section 5 is provided for information purposes.

^b The office is located in Cairo and reports to the Under-Secretary-General for Political and Peacebuilding Affairs through the Director of the Middle East Division.

B. Single regional political-operational structure^a

^a In line with General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the General Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources in section 5 is provided for information purposes.

^b 1 P-3 and 1 LL are based in Nairobi.

C. Office of the United Nations Special Coordinator for the Middle East Peace Process

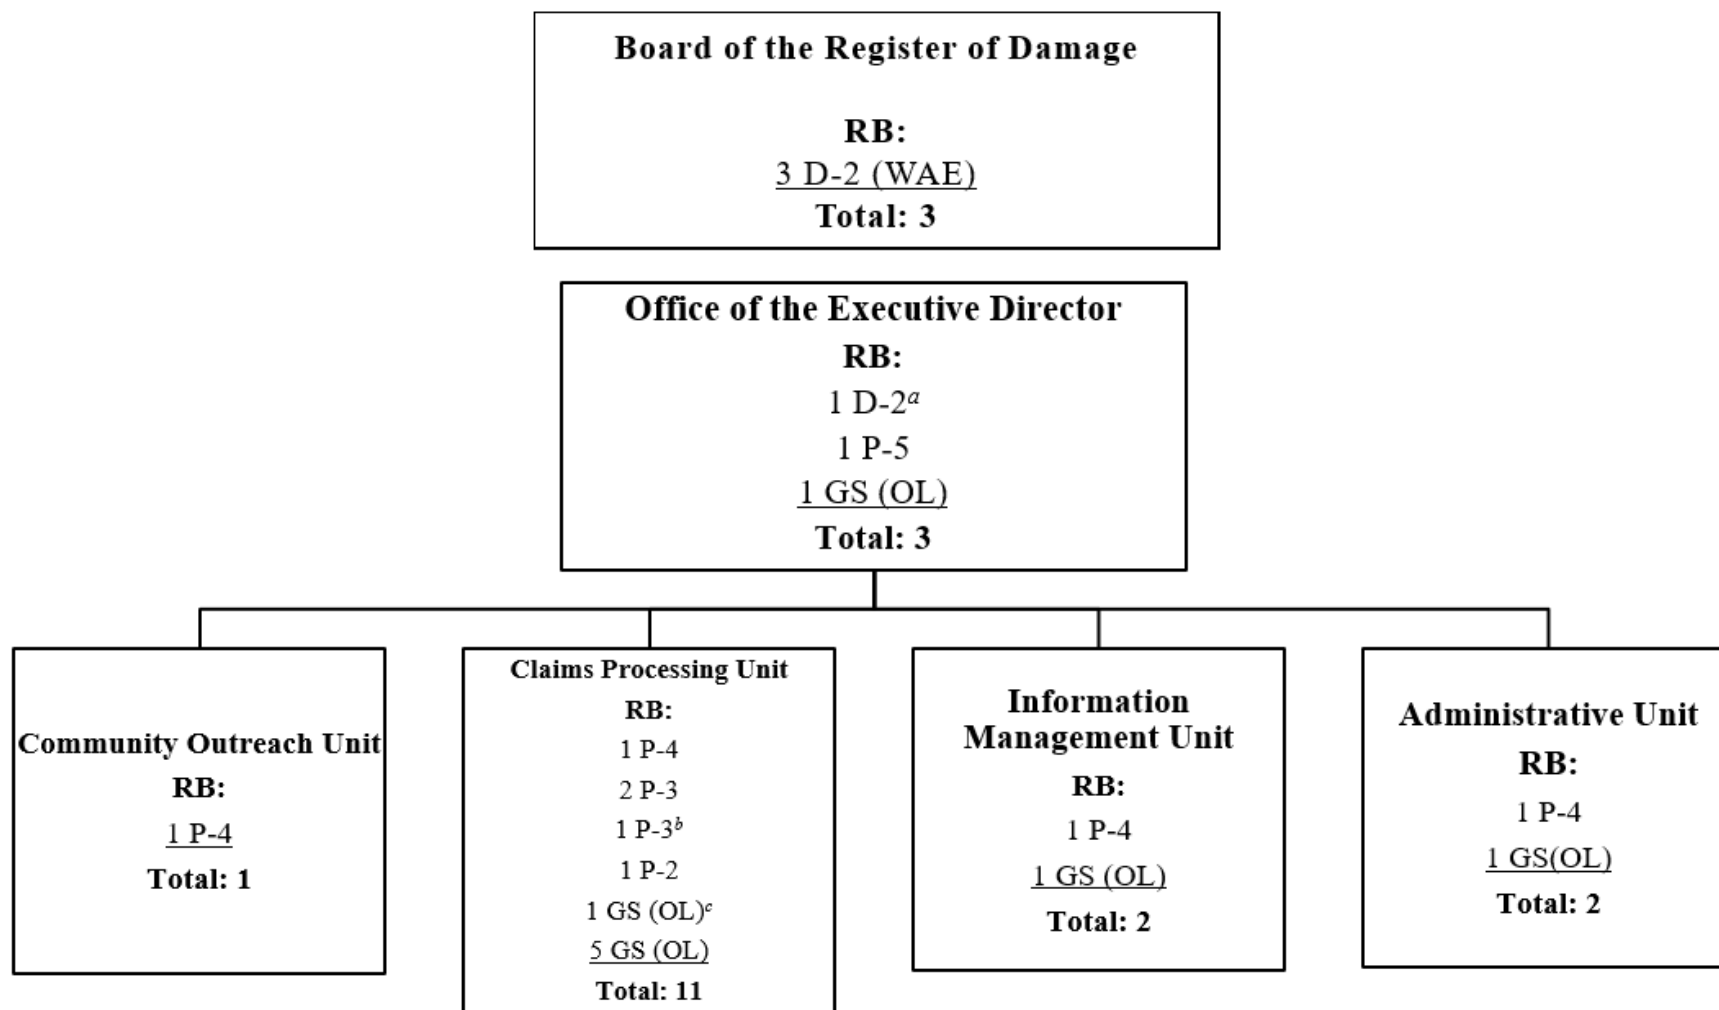

^a Upward reclassification from Liaison Officer (P-4) to Senior Liaison Officer (P-5).

^b The joint UNTSO and UNSCO Chief of Mission Support position is budgeted under the structure of UNTSO.

^c Post is cost-shared at 50 per cent between the Office of the Special Coordinator and the Development Coordination Office.

D. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

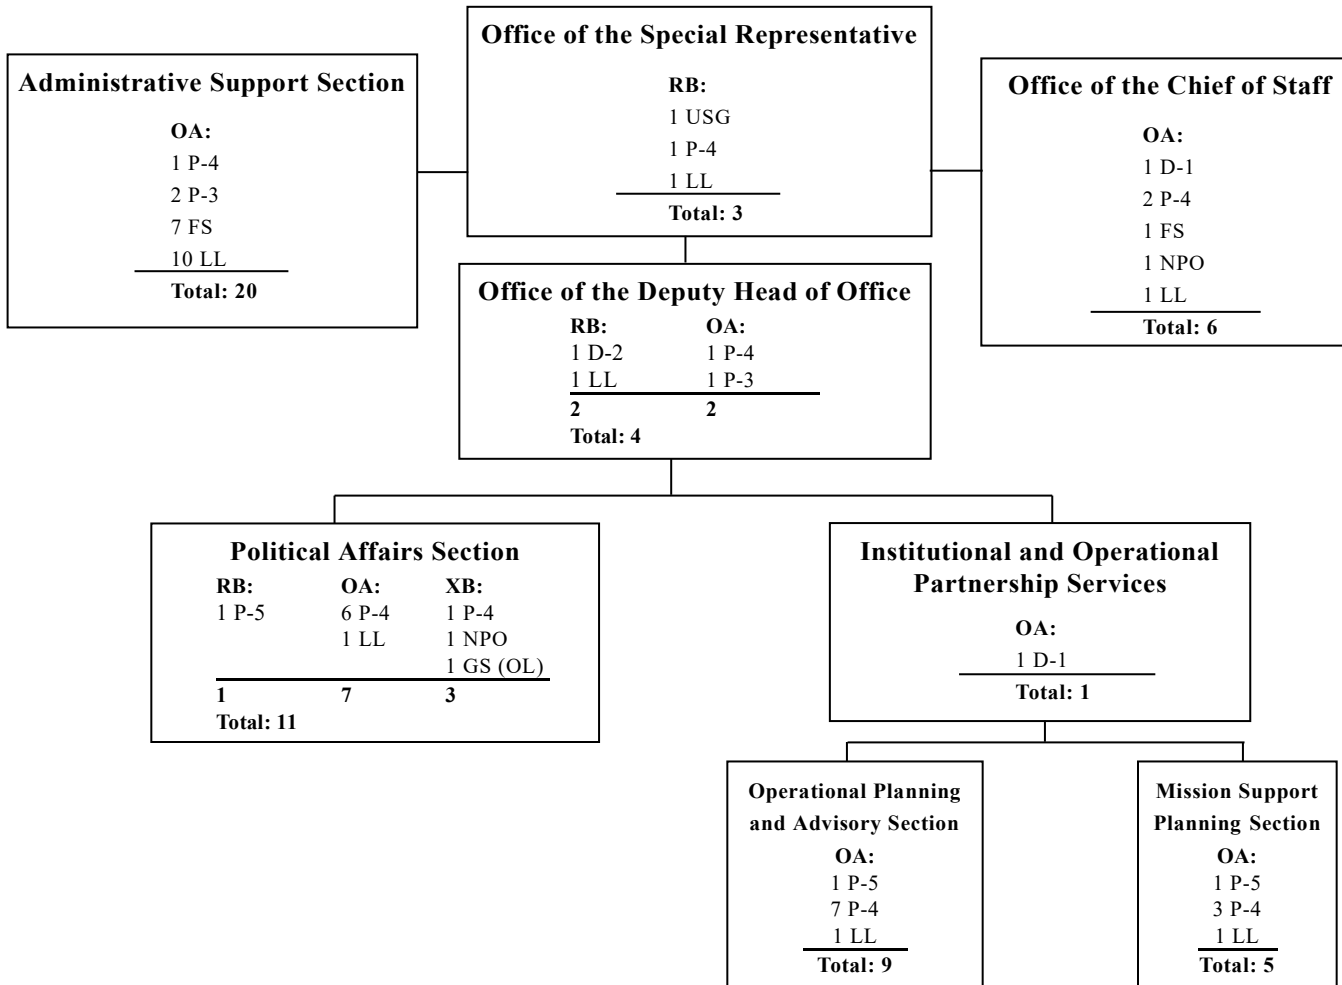

^a The Executive Director of the Office of the Register of Damage acts as ex officio member of the Board.

^b Establishment of one Legal Affairs Officer (P-3).

^c Redeployment from the Community Outreach Unit.

E. United Nations Office to the African Union

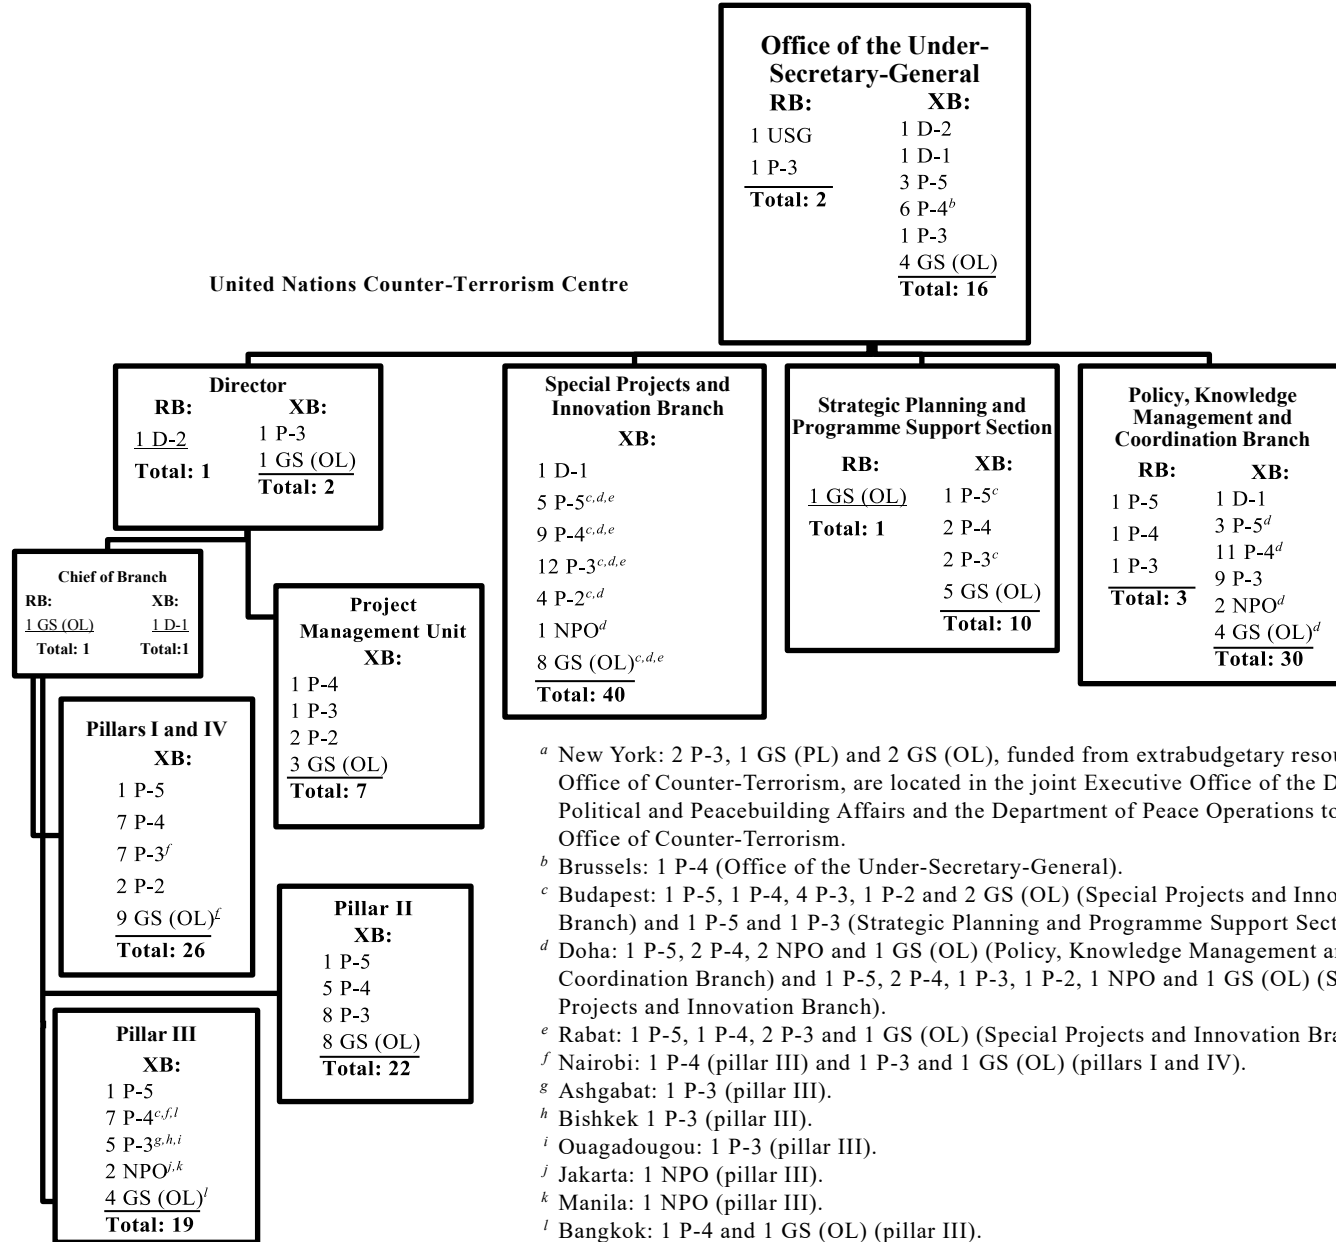

F. Office of Counter-Terrorism

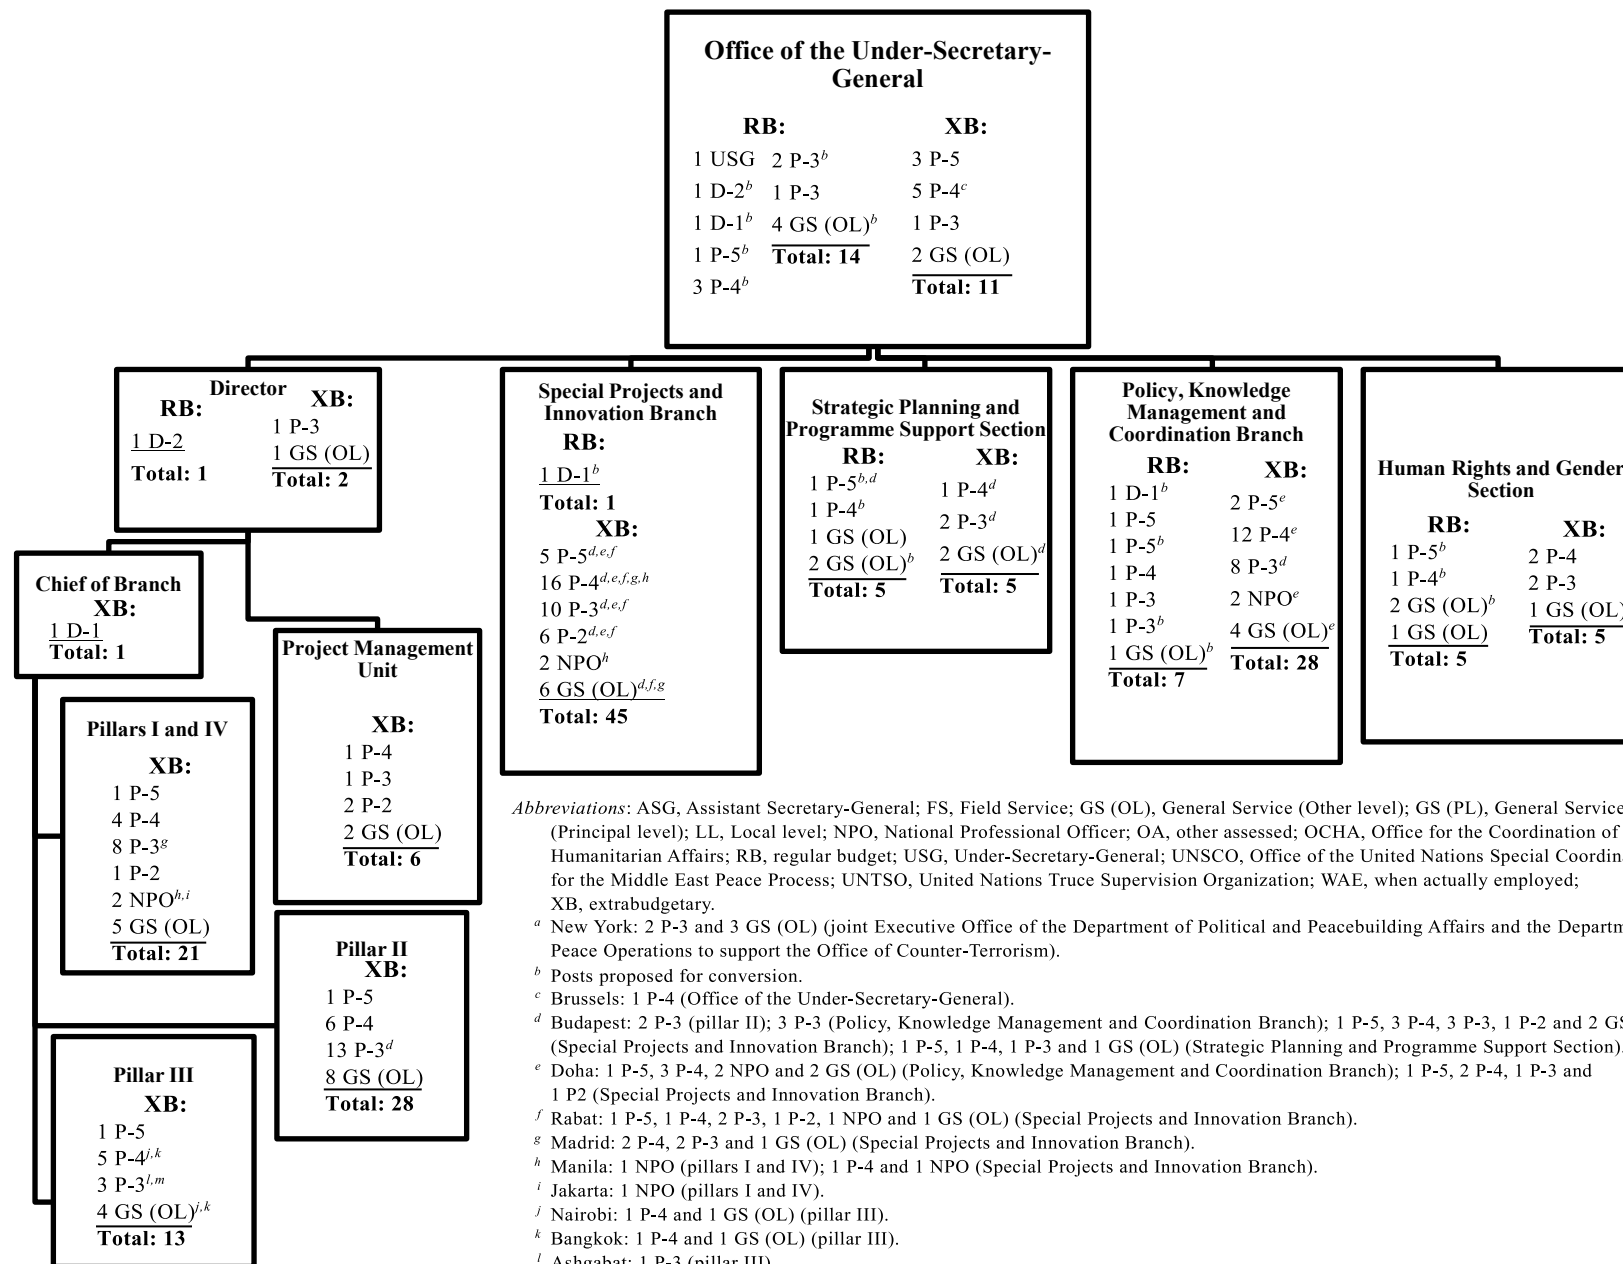

Two charts showing the organizational structure of the Office of Counter-Terrorism are presented below. Chart 1 reproduces the approved organizational structure for 2022, as contained in document [A/76/6 \(Sect. 3\)](#) and [A/76/6 \(Sect. 3\)/Corr.1](#). Chart 2 presents the proposed organizational structure for 2023.

Justification for the proposed changes

The proposed creation of a Human Rights and Gender Section is in line with the recommendations from the technical assessment. The section would enable the Office to mainstream human rights and a gender perspective into its areas of work and support entities of the United Nations Global Counter-Terrorism Coordination Compact and Member States to effectively implement the fourth pillar of the United Nations Global Counter-Terrorism Strategy.

2. Proposed organizational structure and post distribution for 2023^a

Annex II

Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

A/76/7 and A/76/7/Corr.1

The Advisory Committee trusts that updated information on the sustainability model will be included in the next budget submission (para. II.66).

Four years after its establishment, the Office of Counter-Terrorism is now moving from its consolidation phase to a sustainability model to fulfil its multifaceted functions in the most agile and results-oriented manner, including through field presences that help to bring coordination and programmes closer to, and provide greater impact for, their beneficiaries. It will sustain the gains resulting from an expanded toolbox developed during the pandemic to ensure business continuity through innovative and virtual solutions, to engage and partner with Member States, to lead the United Nations Global Counter-Terrorism Coordination Compact and to provide efficient support to requesting Member States, through integrated and global capacity-building programmes in partnership with its Global Compact partners, in order to address the most urgent counter-terrorism challenges.

The Office has developed a new four-year strategic plan with strategic objectives that inform its work on the basis of its mandate and the priorities in the United Nations Global Counter-Terrorism Strategy and its review resolutions and other relevant General Assembly and Security Council resolutions on counter-terrorism, as well as a new programme framework and results framework to guide its capacity-building work. The strategic plan is accompanied by a solid communications and visibility strategy and a resource mobilization strategy to support the Office's programme and activities by raising sustainable, diversified and predictable funding.

The Advisory Committee trusts that updated information on the evaluation of the United Nations Counter-Terrorism Centre will be included in the next budget submission (para. II.68).

The Office has invested significantly in developing its programme of work and institutional capacity to fulfil its mandated functions, based on the counter-terrorism priorities stipulated by the General Assembly, including through its 2018 and 2021 reviews of the United Nations Global Counter-Terrorism Strategy. The Office has streamlined its working processes and procedures and strengthened its monitoring and evaluation capacity, including through the development and implementation of internal governance and guidance materials (i.e. internal policies, standard operating procedures and guidelines), in line with the wider organizational regulations, rules and good practices and in response to the recommendations in audit and evaluation reports.

Annex III

Summary of proposed post changes, by component

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Office of the United Nations Special Coordinator for the Middle East Peace Process	(1) 1	P-4 P-5	Reclassification of one Liaison Officer (P-4) as Senior Liaison Officer (P-5)	The proposed reclassification follows the escalation in May 2021 and the need to maintain the cessation of hostilities. The Office has intensified its engagements with armed groups, senior military and security officials and representatives of regional States. The Office's Liaison Officer is expected to lead negotiation efforts with the parties, represent the Special Coordinator in meetings and talks and provide strategic advice on the mission's strategy, communications, engagements and programme of work. The complexity and sensitivity of these processes, as well as the need to maintain regular contacts with senior government officials and representatives of armed groups and political movements, requires senior-level experience, Arabic language and substantial knowledge and experience in the region. The proposed reclassification of the post of Liaison Officer (P-4) as Senior Liaison Officer (P-5) would ensure more effective engagement on behalf of the Special Coordinator with the representatives of relevant parties and governments in the region.
United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory	(1) 1	P-4 P-3	Abolishment of one Coordination Officer (P-4) in the Office of the Executive Director Establishment of one Legal Officer (P-3) in the Claims Processing Unit	To support the efforts of the Office of the Register of Damage to process and review the backlog of claims for submission to the Board of the Register of Damage and reduce the gap between the collected and processed claims, including the more complex claims for the Board, the Office reviewed its staffing structure and, while the role of the Coordination Officer (P-4) had been important at the outset of the Office's activities, the need for this post has gradually decreased with the advancements made in the implementation of its mandate. At the current level of maturity of the Office's operations, it is proposed that the coordination and fundraising activities be absorbed by existing capacities. In exchange, the Office proposes to establish a Legal Officer post at the P-3 level, which would strengthen its existing capacity responsible for the review and processing of collected claims that will be presented to the Board of the Register of Damage for decision. The review and processing of claims by the Legal Officer would increase the annual output of processed claims by 800, thus reducing the recurrent gap between collected and processed claims substantially.
	–	GS (OL)	Redeployment of one Language Reference Assistant (GS (OL)) from the Community Outreach Unit to the Claims Processing Unit	The proposed redeployment (cost-neutral) is in line with efforts of the Office of the Register of Damage to strengthen its existing capacity responsible for the review and processing of collected claims that will be presented to the Board of the Register of Damage for decision.

Part II Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Office of Counter-Terrorism				<p>The proposed conversion of 25 posts funded from voluntary contributions to regular budget funding reflect the recommendations of the technical assessment that was conducted pursuant to General Assembly resolution 75/291, as summarized in paragraphs 3.269 to 3.273 of the present report.</p>
			<p>Conversion of 12 posts in the Office of the Under-Secretary-General, as follows:</p>	<p>The proposed conversion of 12 posts would provide continued support to the Under-Secretary-General and his Office in the implementation of the core mandate of the Office of Counter-Terrorism pursuant to General Assembly resolution 71/291. The Office of the Under-Secretary-General comprises the Deputy to the Under-Secretary-General, the Counter-Terrorism Committee Executive Directorate Liaison Section, the Field Coordination Section, the Communications Unit, the Resource Mobilization and Donor Relations Section and the Evaluation and Compliance Unit. The proposed conversion would ensure the continuity of functions in the areas of strategic advice and direct substantive support for the effective execution of the mandates of the Office of Counter-Terrorism; policy guidance and leadership, coordination, capacity-building, advocacy and resource mobilization; quality control and assurance of the Office's products and services; coordination and coherence of internal and external communications; strengthened liaison with the Counter-Terrorism Committee Executive Directorate; and strengthened accountability, internal controls and evaluations of the Office's programme plan. The functions of the 12 posts are reflected below.</p>
	1	D-2	Director, Programme Management	<p>Serves as Deputy to the Under-Secretary-General and plays a critical role in supporting the Under-Secretary-General and his Office in the daily management of the operations of the Office of Counter-Terrorism, including quality control of reports, talking points, statements and communications prepared by the Office, liaising with Member States to strengthen advocacy, resource mobilization, and discussing programme planning matters for counter-terrorism efforts; supporting the Under-Secretary-General in his interactions with the Security Council, the General Assembly and other intergovernmental bodies; and providing leadership and strategic planning in the execution of policy, coordination and operations of the Office.</p>
				<p>The proposed conversion of 12 posts would provide continued support to the Under-Secretary-General and his Office in the implementation of the core mandate of the Office of Counter-Terrorism pursuant to General Assembly resolution 71/291. The Office of the Under-Secretary-General comprises the Deputy to the Under-Secretary-General, the Counter-Terrorism Committee Executive Directorate Liaison Section, the Field Coordination Section, the Communications Unit, the Resource Mobilization and Donor Relations Section and the Evaluation and Compliance Unit. The proposed conversion would ensure the continuity of functions in the areas of strategic advice and direct substantive support for the effective execution of the mandates of the Office of Counter-Terrorism; policy guidance and leadership, coordination, capacity-building, advocacy and resource mobilization; quality control and assurance of the Office's products and services; coordination and coherence of internal and external communications; strengthened liaison with the Counter-Terrorism Committee Executive Directorate; and strengthened accountability, internal controls and evaluations of the Office's programme plan. The functions of the 12 posts are reflected below.</p>
	1	D-1	Principal Programme Management Officer	<p>Supports the Office of the Under-Secretary-General in the management of the Front Office and Communications Section, the Donor Relations and Resource Mobilization Section and the Evaluation and Compliance Unit. Functions include serving as a core member of the Programme Review Board; chairing the Working Group on Resource Mobilization and Monitoring and Evaluation within the United Nations Global Counter-Terrorism Coordination Compact, which enhances coordination and coherence across the United Nations system; leading the development of systems aimed at strengthening accountability, evaluations and internal control; and identifying areas</p>

Section 3 Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
				for improvement and ensuring that lessons learned and best practices are shared systematically to drive continual improvement and foster a culture of accountability.
	1	P-5	Senior Political Affairs Officer	Serves as Head of the Front Office, located in the Office of the Under-Secretary-General, who oversees the programme of work of the immediate Office of the Under-Secretary-General and communications team. Functions include formulating strategies and proposing policy directives and plans of action on relevant political issues and advising on programmes and projects requiring interdepartmental and/or inter-agency participation. The Front Office also includes the Public Information Unit.
	1	P-4	Political Affairs Officer	Oversees the programme of work of the immediate Office of the Under-Secretary-General and communications team; formulates strategies; proposes policy directives and plans of action for political problems; advises on programmes and projects requiring interdepartmental and/or inter-agency involvement and participation; oversees the development and implementation of the visibility and communication strategy of the Office of Counter-Terrorism; and develops and maintains relations with senior government officials.
	1	P-4	Programme Planning Officer	Supports the Front Office of the Office of the Under-Secretary-General. Functions include providing advice on counter-terrorism developments and events relating to specific geographic and thematic areas, including the collection and analysis of information on counter-terrorism; supporting the identification and development of counter-terrorism technical assistance needs within Member States in line with the implementation of the United Nations Global Counter-Terrorism Strategy and its seventh review resolution (General Assembly resolution 75/291); identifying resource mobilization opportunities with Member States, taking into account, where possible, the assessments of the Counter-Terrorism Committee of the Security Council, and the balanced implementation of the Global Counter-Terrorism Strategy
	1	P-4	Public Information Officer	Serves as head of the Public Information Unit located in the Front Office of the Office of the Under-Secretary-General. Functions include being the focal point for the long-term implementation of the fourth element in the mandate of the Office of Counter-Terrorism, with regard to “improving visibility of the activities of the Office and United Nations counter-terrorism efforts”; developing, monitoring and overseeing the implementation of the Office’s communications strategy, including maintenance of social media platforms and websites; designing and producing communications and audiovisual tools, publications and newsletters; managing media relations, thematic campaigns and major events; countering misinformation; providing guidance to the Office’s staff and senior management to ensure coherent, politically sensitive and efficient strategic communications approaches; and coordinating with

Part II Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
				<p>communication counterparts within the Office and the United Nations Global Counter-Terrorism Compact, as well as with the Department of Global Communications of the Secretariat and other communications counterparts in the United Nations system.</p>
	2	P-3	Programme Management Officers (1 for evaluation and compliance)	<p>The first post supports the Front Office of the Office of the Under-Secretary-General by serving as a focal point in the development of internal standard operating procedures; collects and analyses information on counter-terrorism relating to specific geographic and thematic areas, including related correspondence and communication on the work of the Office of Counter-Terrorism; reviews cooperation agreements and instruments and prepares analytical reports and written outputs on sensitive matters for the Under-Secretary-General and senior management; and coordinates with the branches and sections of the Office of Counter-Terrorism to deliver the Under-Secretary-General's materials and liaises with relevant internal and external parties.</p> <p>The second post is located in the Evaluation and Compliance Unit to support the long-term functions to promote accountability, learning and increased transparency of the Office's mandate to provide capacity-building activities to Member States through evaluations.</p>
	2	GS (OL)	Programme Management Assistants	<p>The two posts support the Deputy to the Under-Secretary-General and the Deputy's Special Assistant. Functions include administering internal correspondence mechanisms; creating and maintaining files and records; organizing meetings and round tables; supporting the travel arrangements of the Deputy; drafting or providing technical edits to routine correspondence; providing general office assistance and responding to incoming queries, including from permanent missions and other internal and external stakeholders; and scheduling of the Deputy's meetings and other official engagements, undertaking representational duties on behalf of the Deputy, serving as a point of contact with senior officials internally and externally, and supporting the Deputy in discharging his functions as the Chair of the Programme Review Board at its monthly review meetings.</p>
	2	GS (OL)	Staff Assistants	<p>The two posts directly support the Under-Secretary-General in scheduling his meetings and other official engagements, serve as points of contact with senior officials internally and externally, and support the Under-Secretary-General in presentations to intergovernmental bodies and other meetings. The function also supports the Office of the Under-Secretary-General in researching issues, contributing to finalizing briefing notes and gathering relevant documentation, screening and prioritizing all incoming and outgoing correspondence, and providing general office assistance; setting up and maintaining files and records; organizing meetings and workshops; and responding to incoming queries, including from permanent missions and other internal and external stakeholders.</p>

Section 3 Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
			Conversion of four posts in the Policy, Knowledge Management and Coordination Branch	The proposed conversion of four posts would ensure continued support to the Policy, Knowledge Management and Coordination Branch in the delivery of its mandate. The Branch is responsible for providing strategic counter-terrorism policy advice and analysis on country and regional engagement and key thematic issues; drafting and coordinating the preparation of reports of the Secretary-General on counter-terrorism, as mandated by the General Assembly and the Security Council; promoting coordination and coherence in the work of the United Nations system to prevent and counter terrorism and violent extremism conducive to terrorism, including through the United Nations Global Counter-Terrorism Compact; developing and strengthening relations with Member States and partnerships with international, regional and subregional organizations; supporting relevant intergovernmental processes as mandated, including the biennial review of the United Nations Global Counter-Terrorism Strategy; and supporting the conceptualization, planning and organization of major policy events of the Office of Counter-Terrorism. The functions of the four posts are detailed below.
	1	D-1	Chief of Service, Political Affairs	Serves as the Chief of the Branch. Functions include management of the activities of the whole branch, comprising of 25 posts; advice to the Under-Secretary-General and his Deputy on policy and coordination issues related to preventing and countering terrorism and violent extremism conducive to terrorism; and serving as Secretary to the United Nations Global Counter-Terrorism Coordination Compact and its Coordination Committee, promoting coordination with entities participating in the Global Compact and coordinating the activities and efforts of eight inter-agency working groups under the Global Compact.
	1	P-5	Senior Political Affairs Officer (Chief, Regional Support Section)	Heads the Regional Support Section. Functions include formulating political strategies for engagement with Member States and regional organizations on issues related to preventing and countering terrorism and violent extremism conducive to terrorism; coordinating regional policy support to engage with Member States and regional organizations on preventing and countering terrorism and violent extremism conducive to terrorism, including the preparation of briefing notes, talking points and statements for the Secretary-General and the Under-Secretary-General, Office of Counter-Terrorism; developing and maintaining relations with senior government officials; identifying emerging issues pertaining to the mandates of the Office, providing related analysis and making recommendations on possible strategies and measures; and proposing policy directives and plans of action for immediate and long-term solutions to political problems in general and in specific geographical areas in relation to preventing and countering terrorism and violent extremism conducive to terrorism.

Part II Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	1	P-3	Political Affairs Officer	Functions include reviewing and analysing key policy and strategic developments and emerging peace and security trends, in particular those related to preventing and countering terrorism; reviewing and monitoring developments in specific thematic policy areas and priorities identified in the United Nations Global Counter-Terrorism Strategy and relevant Security Council resolutions, including through intergovernmental processes within the United Nations system and international and regional organizations and forums, as well as strategies, policies, programmes and research pursued by Member States and non-governmental actors (civil society, academia and the private sector); assessing trends and analysing political and related events in assigned area of counter-terrorism expertise; providing up-to-date information and recommending solutions/possible action by the United Nations to senior officials with respect to assigned counter-terrorism issues; and preparing analytical reports and papers on sensitive and high-profile matters of concern regarding counter-terrorism to the General Assembly, Security Council or other bodies.
	1	GS (OL)	Programme Management Assistant	Serves as assistant to the Chief of Branch, and facilitates the timely flow of documents, communications and messages to and from the Chief of Branch. Functions include maintenance of the calendar of the Chief of Branch; processing administrative arrangements and forms related to the official travel of staff and other administrative requirements; assisting with the official correspondence processed through the Branch; developing and maintaining filing recording system; and assisting with the planning and logistical and administrative preparation of meetings, events and other related activities organized by the Branch, including quarterly briefings for Member States and regional high-level conferences.
			Conversion of one post in the Special Projects and Innovation Branch	The proposed conversion would ensure continued support to the Special Projects and Innovation Branch in the delivery of its mandate. The Branch is responsible for leading the conceptualization, development and implementation of special technical assistance programmes that require increased coordination and partnership with other Counter-Terrorism Compact entities and the United Nations Counter-Terrorism Centre; developing the Office's surge capacity to better assist Member States; forging partnerships, including with the private sector, academia and public sector organizations; and designing, developing and implementing, in close collaboration with the United Nations Counter-Terrorism Centre, innovative and technological solutions for preventing and countering terrorism in areas such as countering terrorist travel, protection of critical infrastructure and soft targets, sport, investigative capacity and parliamentary engagement. The functions of the post proposed for conversion are reflected below.

Section 3 Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	1	D-1	Chief of Branch, Programme Management	<p>Serves as the Chief of the Special Projects and Innovation Branch and the Deputy Director of the United Nations Counter-Terrorism Centre. The Office of the Chief comprises one Chief of Branch (D-1), one Programme Management Assistant (General Service (Other level)), and one Political Affairs Officer (P-3). Functions include management of the External Partnerships Section, the Special Projects Section and the Countering Terrorist Travel Section. The Chief oversees the programmatic and administrative tasks necessary for the functioning of the whole Branch; supervises the work of the External Partnerships Section in building a counter-terrorism network, including with stakeholders from the public and private sectors, civil society organizations, academia and interregional organizations; selects and supports projects with external partners, initiated by the External Partnerships Section, to foster innovative solutions for preventing and countering terrorism and violent extremism conducive to terrorism; and oversees the development and implementation of innovative and technological solutions applied for preventing and countering terrorism, including in the area of countering terrorist travel and aviation security, and the development of the Office's surge capacity to respond to evolving terrorist threats.</p>
			<p>Conversion of four posts in the Strategic Planning and Programme Support Section</p>	<p>The proposed conversion of four posts would ensure continued support to the Strategic Planning and Programme Support Section in the delivery of its mandate. The Section is responsible for strategic longer-term planning of the Office's activities; prioritization and allocation of resources; coordination with legislative, governing and oversight bodies of the United Nations; development of the regular budget and project budget proposals of the Office; risk assessment and risk mitigation plans; coordinating the Office's activities with the Department of Safety and Security of the Secretariat and in accordance with the United Nations security management system; providing human resources services to the organizational units of the Office; facilitating administration of delegation of authority through policy advice; and supporting the Office of the Under-Secretary-General in ensuring compliance with United Nations rules and regulations, as well as policies, standard operating procedures, directives and instructions of the Office of Counter-Terrorism. The functions of the four posts are detailed below.</p>
	1	P-5	Senior Programme Management Officer	<p>Serves as Head of Section. The functions include providing the Office with security, risk management and administrative services, including prioritization and allocation of resources; coordination with legislative bodies of the United Nations; development of the regular budget and project budget proposals for the Office; integrating and coordinating activities of the Office in accordance with the United Nations security management system; setting up the Office's field presences and field offices; and administering service level agreements and operational level agreements with all counterparts.</p>

Part II Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	1	P-4	Finance and Budget Officer	The function supports the Head of Section in all financial and budgetary matters, including the preparation of other assessed and extrabudgetary resources budgets and the monitoring of performance and preparation of related reports.
	1	GS (OL)	Finance and Budget Assistant	Supports the Head of Section and the Finance and Budget Officer in all financial and budgetary matters, including the review, analysis and preparation of cost estimates, ensuring compliance with the medium-term plan and other legislative mandates.
	1	GS (OL)	Team Assistant	The function provides the Office with administrative and information technology services; assists the Section with relevant procedures and practices, including, but not limited to, the onboarding of staff, interns, individual contractors, consultants and United Nations Volunteers; assists in the preparation of presentation materials using appropriate technology and software; maintains the calendar and schedules; and monitors changes and communicates relevant information to appropriate staff inside and outside the immediate work unit.
			Conversion of four posts in the Human Rights and Gender Section	The proposed conversion of four posts would ensure continued support to the Human Rights and Gender Section in the delivery of its mandate and conduct of its functions. The proposed conversion would support the calls by the General Assembly for the Secretary-General to assess the need to further enhance the integration of the rule of law, human rights and gender, as cross-cutting elements of the United Nations Global Counter-Terrorism Strategy, in the counter-terrorism efforts of the United Nations system in order to strengthen their effectiveness, including the need for internal advisory or monitoring and evaluation capacity. The Section is responsible for mainstreaming a human rights and gender perspective into all of its work areas. Its functions include the provision of leadership required to support entities of the United Nations Global Counter-Terrorism Coordination Compact and Member States to effectively implement the fourth pillar of the Strategy. The functions of the four posts are detailed below.
	1	P-5	Senior Programme Management Officer	Serves as Chief of Section to ensure that the Office of Counter-Terrorism is able to support Global Compact entities and Member States to effectively implement the fourth pillar of the United Nations Global Counter-Terrorism Strategy.
	1	P-4	Political Affairs Officer (Gender Affairs Officer)	Serves as Head of the Gender Unit. Functions include providing policy advice to the Under-Secretary-General and the Office of Counter-Terrorism on gender as it relates to the implementation of the mandate of the Office; leads coordination efforts with UN-Women, the Office of the United Nations High Commissioner for Human Rights, the Counter-Terrorism Committee Executive Directorate and other United Nations agencies in all matters related to gender; maintains up-to-date knowledge of developments and events relating to the wider women and peace and security agenda, in general, and conflict-related sexual violence in particular, as they affect the countries and thematic mandates for which the Office of Counter-Terrorism is responsible.

Section 3 Political affairs

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	2	GS (OL)	Programme Management Assistants	The two posts support the Chief of Section. Functions include facilitating the timely flow of documents, communications and messages to and from the Chief of Section; organizing meetings; preparing, processing and following up on administrative arrangements and forms related to the official travel of staff and other administrative processes; and assisting with the official correspondence processed through the Section, including drafting routine correspondence, checking and clearing for format, presentation and accuracy, logging and routing.

Abbreviation: GS (OL), General Service (Other level).

Item 139 of the preliminary list*

Proposed programme budget for 2023

Proposed programme budget for 2023

Part II

Political affairs

Section 3

Political affairs

Special political missions

Estimates in respect of special political missions

Summary

The present report relates to actions taken by the General Assembly and/or the Security Council regarding special political missions, including good offices and preventive diplomacy and post-conflict peacebuilding missions, on the basis of requests from Member States and/or recommendations of the Secretary-General.

The present report is the first addendum to the report of the Secretary-General on the proposed programme budget for 2023 under section 3, Political affairs, and contains information on the overall resource requirements of 38 special political missions authorized by the General Assembly and/or the Security Council. Detailed information in respect of each special political mission is contained in five addenda to section 3, Political affairs ([A/77/6 \(Sect. 3\)/Add.2](#), [A/77/6 \(Sect. 3\)/Add.3](#), [A/77/6 \(Sect. 3\)/Add.4](#), [A/77/6 \(Sect. 3\)/Add.5](#) and [A/77/6 \(Sect. 3\)/Add.6](#)).

The overall proposed resource requirements of special political missions included under section 3, Political affairs, of the proposed programme budget for 2023 amount to \$767,075,300 (net of staff assessment). The overall requirements include \$2,144,300 to provide for the share of special political missions for the financing of the budget of the Regional Service Centre in Entebbe, Uganda, for the period from 1 July 2022 to 30 June 2023.

I. Introduction

1. The present report contains the overall proposed resource requirements of 38 special political missions for 2023, in connection with actions taken or expected to be taken by the General Assembly and/or the Security Council on the basis of requests from Member States and/or recommendations of the Secretary-General.
2. The overall resource requirements of special political missions continue to be included under section 3, Political affairs, of the proposed programme budget. Following the adoption of resolution [72/266 A](#) and the endorsement of the recommendations of the Advisory Committee on Administrative and Budgetary Questions on the earlier submission of proposals and the alignment of budget proposals for the special political missions with the rest of the regular budget (see [A/72/7/Add.24](#), para. 59), the overall resource requirements are now derived from the resource requirements of the individual missions and are included as addenda 1–6 to section 3.
3. Any additional requirements emanating from additional mandates or changes in mandates will be presented to the General Assembly as reports of the Secretary-General on estimates resulting from such mandates or change of mandates.
4. The overall proposed resource requirements of the 38 continuing special political missions for 2023 amount to \$767,075,300. These resources would be supplemented by projected extrabudgetary resources amounting to \$16,478,000.

A. Status of the extension or renewal of mandates

5. Of the 38 continuing special political missions, 12 missions have open-ended mandates, 12 missions have mandates extended into 2023 or later and 14 missions have mandates expiring in 2022 that are expected to be renewed or extended into 2023 or later by the General Assembly or the Security Council, as listed below:
 - (a) Special political missions with open-ended mandates:
 - (i) Office of the Special Adviser to the Secretary-General on Cyprus;
 - (ii) Office of the Special Adviser to the Secretary-General on the Prevention of Genocide;
 - (iii) Personal Envoy of the Secretary-General for Western Sahara;
 - (iv) Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution [1559 \(2004\)](#);
 - (v) United Nations Representative to the Geneva International Discussions;
 - (vi) Office of the Special Envoy of the Secretary-General for Syria;
 - (vii) Office of the Special Envoy of the Secretary-General for the Horn of Africa;
 - (viii) Office of the Special Envoy of the Secretary-General for the Great Lakes Region;
 - (ix) Office of the Special Envoy of the Secretary-General for Yemen;
 - (x) United Nations Regional Centre for Preventive Diplomacy for Central Asia;
 - (xi) United Nations support for the Cameroon-Nigeria Mixed Commission;
 - (xii) Office of the United Nations Special Coordinator for Lebanon;
 - (b) Special political missions with mandates renewed or extended into 2023 or later:
 - (i) Panel of Experts on the Sudan;
 - (ii) Panel of Experts on Yemen;

- (iii) Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities;
- (iv) Panel of Experts on Mali;
- (v) Office of the Ombudsperson established pursuant to Security Council resolution [1904 \(2009\)](#);
- (vi) Implementation of Security Council resolution [2231 \(2015\)](#);
- (vii) Counter-Terrorism Committee Executive Directorate;
- (viii) United Nations Office for West Africa and the Sahel (UNOWAS);
- (ix) United Nations Regional Office for Central Africa (UNOCA);
- (x) United Nations Assistance Mission in Afghanistan (UNAMA);
- (xi) United Nations Assistance Mission for Iraq (UNAMI);
- (xii) United Nations Integrated Transition Assistance Mission in the Sudan (UNITAMS);
- (c) Special political missions with mandates expiring in 2022 that are expected to be renewed or extended into 2023 or later:
 - (i) Office of the Special Envoy of the Secretary-General on Myanmar;
 - (ii) Group of Experts on the Democratic Republic of the Congo;
 - (iii) Panel of Experts on the Democratic People's Republic of Korea;
 - (iv) Panel of Experts on Libya;
 - (v) Panel of Experts on the Central African Republic;
 - (vi) Panel of Experts on South Sudan;
 - (vii) Panel of Experts on Somalia;
 - (viii) Support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction;
 - (ix) United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD);
 - (x) United Nations Assistance Mission in Somalia (UNSOM);
 - (xi) United Nations Support Mission in Libya (UNSMIL);
 - (xii) United Nations Verification Mission in Colombia;
 - (xiii) United Nations Mission to Support the Hudaydah Agreement (UNMHA);
 - (xiv) United Nations Integrated Office in Haiti (BINUH).

B. Organization of the reports on the requirements of special political missions

6. Pursuant to General Assembly resolution [72/266 A](#), the reports of the Secretary-General on the requirements of special political missions for 2023 continue to be presented in thematic clusters, while the requirements of UNAMA and UNAMI are presented individually, in separate reports. For 2023, the requirements of missions are presented in the following reports, each of which constitutes an addendum to section 3, Political affairs, of the proposed programme budget for 2023:
 - (a) Thematic cluster I: special and personal envoys, advisers and representatives of the Secretary-General ([A/77/6 \(Sect. 3\)/Add.2](#));

- (b) Thematic cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms (A/77/6 (Sect. 3)/Add.3);
 - (c) Thematic cluster III: regional offices, offices in support of political processes and other missions (A/77/6 (Sect. 3)/Add.4);
 - (d) UNAMA (A/77/6 (Sect. 3)/Add.5);
 - (e) UNAMI (A/77/6 (Sect. 3)/Add.6).
7. Pursuant to General Assembly resolution 72/266 A, and in accordance with established budgetary procedures, the reports on the proposed resource requirements for special political missions will comprise two parts: (a) the 2023 programme plan and 2021 performance information; and (b) the post and non-post resource requirements, to be submitted through the Advisory Committee on Administrative and Budgetary Questions for consideration by the Assembly.

C. Performance information

8. In 2021, special political missions continued to play a critical role in supporting Member States in the prevention, management and resolution of conflicts amid the coronavirus disease (COVID-19) pandemic, including providing assistance to Member States in their response to the pandemic. Across different operational environments, including many characterized by volatile security situations and fragile peace agreements, special political missions have continued to be called upon by the Security Council and the General Assembly to implement a wide range of mandates that contribute to the maintenance of international peace and security.
9. The Taliban takeover in Afghanistan caused one of the biggest political, economic, humanitarian and refugee crises the world has seen in recent times. In this context, UNAMA continued to discharge its mandate amid challenging circumstances and provided vital support. The ceasefire achieved in October 2020 continued to hold in Libya, although elections envisaged for December 2021 were ultimately delayed. A temporary truce in Yemen was brokered in April 2022. Situations elsewhere saw dangerous escalations, including in Ethiopia and the Sudan. A series of unconstitutional changes of government, including in contexts where special political missions operate or engage, also had an impact on shaping the political environment nationally, regionally and globally.
10. The various special envoys and advisers appointed by the Secretary-General, presented under thematic cluster I, continued to offer good offices and to facilitate negotiations, including through greater use of technologies, with a view to brokering peace agreements. In addition to providing good offices, the Special Envoy of the Secretary-General for Syria expended efforts towards regularly convening the Constitutional Committee facilitated by the United Nations and the International Syria Support Group ceasefire task force and humanitarian task force. On increasing gender inclusivity, the Special Envoy continued efforts towards engaging with Syrian women representatives, including through regular meetings of the Syrian Women's Advisory Board and other civil society groups. The Office of the Special Envoy of the Secretary-General for Yemen continued to conduct shuttle diplomacy to resume the political process and bring the parties to the conflict to an arrangement that would lead to a comprehensive peace agreement that ends the war in Yemen. The Office of the Special Envoy of the Secretary-General for the Great Lakes Region spearheaded the implementation of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region through its action plan adopted in July 2021. Similarly, the Special Envoy of the Secretary-General for the Horn of Africa is working to advance implementation of the comprehensive regional prevention strategy during a particularly challenging moment in the region, in close consultation with the Intergovernmental Authority on Development.
11. The various sanctions monitoring teams, groups and panels, presented under thematic cluster II, continue to provide substantive support to the Security Council in the implementation of its respective sanctions regimes. In its resolution 2624 (2022), the Council renewed the mandate of the Panel of Experts on Yemen and requested the Panel to include information in its mandated reports

about the recent trend in the illicit transfer and diversion of conventional weapons. The Panel of Experts on Libya continued to monitor, investigate and identify violations and non-compliance regarding the arms embargo by using maritime and air delivery profile indicators to assist in determining the likelihood of such violations. The final report of the Panel in 2021 documented violations and cited owners, operators and agents of vessels and aircraft for arms embargo violations, as well as private military companies. In 2021, the Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities submitted four reports providing information and analysis on global terrorism threats posed by those groups. In December 2021, the Council extended the mandate of the Monitoring Team in connection with the threat posed by ISIL, Al-Qaida and associated individuals and entities until June 2024. The Team's mandate relating to the Taliban was extended until December 2022.

12. Included under thematic cluster III, the United Nations Verification Mission in Colombia continues to support the transitional justice system to put innovative measures in place to attain peace, reconciliation and truth and protect the lives of former combatants and communities. Over 13,000 former combatants continued the process of reintegration in rural and urban communities. Reintegration projects are yielding results, benefiting not only former combatants but also the most vulnerable communities, and there have been resolute and substantial steps toward reconciliation. In March 2022, elections in 16 special transitional electoral districts for peace took place, in what constituted an exercise of political inclusion derived from the Final Agreement for Ending the Conflict and Building a Stable and Lasting Peace. The Verification Mission continued to support the signatory parties to the Final Agreement in its implementation.
13. In Libya, UNSMIL continued to facilitate an inclusive Libyan-led and Libyan-owned political dialogue process to reach an agreement on a constitutional framework that is in accordance with international standards. UNSMIL provided support to national efforts for a peaceful political transition, reconciliation and the consolidation of democratically elected institutions. Technical support was extended for the preparation and conduct of elections, including at the local level. UNSMIL continued its advocacy for the unification of the Libyan security institutions, which contributed to the establishment of a joint Libyan security force to operate along the coastal road. UNSMIL also initiated the phased, scalable and incremental deployment of the Libyan Ceasefire Monitoring Mechanism, comprising international monitors, and supported the launch of a national centre for transitional justice for training national actors, strengthening national capacities and preparing laws on transitional justice. The Mission's technical support also led to the establishment of a committee in the Libyan Bar Association composed of 20 experienced women lawyers to strengthen the Association's focus on women's rights.
14. In the Sudan, the military coup of 25 October 2021 and the ensuing political crisis forced UNITAMS to adapt and refocus its efforts in order to continue to implement its mandate. UNITAMS adjusted its focus to concentrate on the promotion of dialogue and coordination of Sudanese-led mediation efforts aimed at reaching a negotiated political settlement to restore constitutional order and a path to democratic transition. UNITAMS assumed the role of Chair of the Permanent Ceasefire Committee foreseen under the Juba Agreement for Peace in the Sudan, focusing on operationalizing the Committee and security arrangements. UNITAMS also supported the launch of the Sudan Partnership Forum to foster coordination on planning and delivery of development assistance in line with national priorities. UNITAMS regularly consulted with women's rights actors to support further inclusion of women in all decision-making processes shaping the future of the country. The Mission's work also contributed to building the capacity of Sudanese stakeholders on the protection of civilians and human rights.
15. In Iraq, UNAMI continued to provide mediation and good offices across a wide range of areas, including to address the post-electoral negotiations on government formation. UNAMI also advocates a regular, structured and institutionalized dialogue between Baghdad and Erbil in order to identify sustainable solutions. UNAMI further continues to monitor, document and publicly report on human rights violations, providing specific and concrete recommendations to the federal

Government and the Kurdistan Regional Government, legal authorities and security forces for remedial and pre-emptive action.

16. Similar to other regional special political missions in Central Africa and Central Asia, UNOWAS continues to see high demand for preventive diplomacy in West Africa and the Sahel. It provides a platform that allows the United Nations to engage early with national authorities to prevent emerging crises from escalating and to address cross-border challenges. Working side by side with the Economic Community of West African States (ECOWAS) and with the African Union, the political engagement of UNOWAS in Burkina Faso, Guinea and Guinea-Bissau, among others, points to the added value of the United Nations regional presences.
17. As Afghanistan has entered a new phase with the turn of events since 15 August 2021, UNAMA confronted new challenges to continue implementing its mandate, which was recently extended until March 2023. UNAMA engaged continuously with the de facto authorities to advocate the protection of fundamental rights and freedoms, the formation of an inclusive administration that reflects the diversity of the Afghan people and resolute action to counter the threat of terrorism. UNAMA has also engaged with provincial level de facto officials on the safety and security of United Nations premises, assets and personnel, as well as on matters related to fundamental rights, in particular the right of girls to education and the right of women to participation. UNAMA continued to maintain contacts with political and civil society stakeholders, including the Civil Society Joint Working Group and a number of women's organizations. UNAMA continued to convene high-level discussions with humanitarian and development donors to encourage the financing of essential services to address the basic human needs of the Afghan people while fully respecting existing sanctions regimes.

D. Operational environment and key policy issues related to special political missions

1. Implications of the COVID-19 pandemic for special political missions

18. The COVID-19 pandemic and the emergence of new variants have continued to affect the operational environment for special political missions in 2021 and early 2022. Their operational postures have been constantly adjusted amid evolving policy frameworks and measures applied to manage the spread of the virus. Travel restrictions have in some contexts continued to make it difficult for missions to support outreach and dialogue and to carry out preventive diplomacy and peacemaking and impeded the ability of sanctions monitoring teams, groups and panels to conduct field visits and investigations on sanctions violations. Special political missions continued to be deployed in some of the most volatile security contexts and are mandated to confront a number of complex peace and security challenges, further underlining the need for efforts to mitigate the challenges imposed by COVID-19.
19. Special political missions continued to be guided by four key objectives: (a) support national authorities in their response to COVID-19; (b) protect mission personnel and their capacity to continue critical operations; (c) ensure that United Nations personnel are not a vector of contagion; and (d) help to assist vulnerable communities and continue to implement mission mandates. In order to support special political missions, as well as other United Nations operations, the Department of Political and Peacebuilding Affairs, the Department of Peace Operations and the Department of Operational Support maintained their joint coordination mechanism established in 2020 to offer guidance and assistance.
20. Special political missions continued working with national authorities to provide the required support efforts to respond to the pandemic. UNAMI, for example, offered good offices assistance with community leaders, while United Nations entities provided technical support to the Government's vaccination rollout. The Mission also initiated public outreach campaigns to reduce stigma and discrimination against persons diagnosed with COVID-19, preventing domestic violence and increasing outreach to marginalized communities to enhance their understanding of the virus and preventive measures.

21. There remains a significant risk that the socioeconomic impacts of COVID-19 will accentuate the long-term concentration of extreme poverty in conflict-affected countries, which could fuel rising social discontent and political volatility. Such effects have been seen in countries facing conflicts and complex emergencies, as well as in those grappling with post-conflict recovery. In Lebanon, the ongoing economic crisis has been further compounded by the pandemic. Public demonstrations and incidents of violence in Lebanon that began with a nationwide protest movement in October 2019 have continued since the outbreak of the pandemic. In Haiti, the pandemic has created additional socioeconomic burdens affecting the country's efforts to achieve the Sustainable Development Goals and compounded the already debilitating impact of almost two years of political unrest on the country's economy.
22. In the context of the COVID-19 pandemic, special political missions found innovative ways to undertake their work and promote digital inclusion and online engagement. Technology has made it possible to reach out to communities while adhering to physical distancing rules. Building on initial successes in Yemen in 2020, UNAMI and UNSMIL provided a platform for diverse groups, including youth and women, to exchange views on building trust, reconciliation and the future of the respective peace and reconciliation processes. Dialogue outcomes helped to inform the electoral and post-electoral support strategy for Iraq and critical engagement within the Libyan Political Dialogue Forum.

2. Women and peace and security

23. More than 20 years after the adoption of Security Council resolution [1325 \(2000\)](#) and the women and peace and security agenda, special political missions continue to play a key role in opening doors to women's participation in peace and political processes and supporting gender-responsive conflict prevention, peacemaking, peacebuilding and sustaining of peace efforts. Gender advisers and gender focal points based in special political missions provide advice and support to the mission leadership and the Secretary-General's special envoys and special representatives on ways to promote women's political participation, make peace processes and prevention efforts more inclusive and incorporate a gender perspective into the political work of the United Nations. The deployment of dedicated gender expertise has had a catalytic impact on the capacity of special political missions to effectively mainstream a gender perspective into their work.
24. As reflected in the Secretary-General's report in 2021 on women and peace and security ([S/2021/827](#)) and in line with Security Council resolution [2493 \(2019\)](#), supporting positive, proactive measures to increase women's participation in peace processes and political transitions remained a priority aimed at achieving sustainable peace and women's de facto equality. Inclusive measures, bold targets and incentives have also been key to broader inclusion in peace processes, from the Geneva International Discussions to Libya to the Syrian Arab Republic. Special political missions will continue to advocate and advise on a meaningful representation of women during peace negotiations.
25. Missions are working to pave the way for more inclusive and gender-responsive peacemaking and peacebuilding across the range of their activities. In Lebanon, for example, the Office of the United Nations Special Coordinator for Lebanon is supporting the implementation of the country's national action plan on Security Council resolution [1325 \(2000\)](#) and promoted greater political participation of women, both as voters and as candidates, in the 2022 elections. In Central Asia, the United Nations Regional Centre for Preventive Diplomacy for Central Asia launched the first-ever caucus of women political leaders in the region. This informal coalition works towards promoting and fostering the role of women in supporting regional peace and security and in advancing sustainable development.
26. Special political missions are increasingly using technology to reach out to various stakeholders, including women and civil society groups, and to remain actively engaged with parties to peace negotiations and other processes. These dialogues, as described in paragraph 22, helped the missions to better understand the views and aspirations of women and youth and to reflect them in their work. New technologies lowered access barriers for groups that are traditionally excluded from decision-making.

3. Youth and peace and security

27. Almost seven years after the adoption of Security Council resolution [2250 \(2015\)](#), crucial contributions to peace by young people are yet to be systematically recognized, promoted and embraced. Council resolution [2535 \(2020\)](#) included a call for special political missions, among others, to coordinate and increase their engagement in the youth and peace and security agenda. Special political missions are accordingly strengthening their engagement with young women and men to ensure their meaningful participation in peace and political processes and to harness their potential as agents of peaceful change.
28. In Libya, as part of its efforts to ensure the full participation of youth and other components in the process of the Libyan Political Dialogue Forum, UNSMIL supported the Libyan youth track, bringing together male and female participants from various political, ethnic and tribal backgrounds in Libya. In Iraq, UNAMI continued a series of youth workshops across the country on the theme “Iraqi youth: pioneers for dialogue and stability”, bringing together young women and men from 14 governorates to exchange perspectives on building social peace and stability, strategies for inclusive conflict prevention and youth inclusion in political processes.
29. In Somalia, UNSOM partnered with other stakeholders to support youth through training and networking and by convening intergenerational dialogues on participation in electoral processes. In the Syrian Arab Republic, the Civil Society Support Room, established by the Office of the Special Envoy of the Secretary-General for Syria, encourages young people to share their views and perspectives during civil society consultations.
30. In Central Asia, the United Nations Regional Centre organized a series of dialogues between senior government officials of Central Asian States and graduates from the Preventive Diplomacy Academy, a regional project aimed at fostering a culture of preventive diplomacy and conflict resolution among young people of the region.

4. Safety and security

31. Most special political missions operate in complex and often highly volatile and unpredictable security environments. Compounded by the effects of the COVID-19 pandemic, as well as the impact of crises both near and far, special political missions implement their mandates while mitigating risk related to high-intensity military conflict, insurgency, social unrest and terrorist activities. UNAMA, UNAMI, UNMHA, UNSMIL and UNSOM, for example, illustrate well the security challenges that are faced on a daily basis. In some contexts, even if the country situation is stable overall, specific areas where special political missions are mandated to operate present significant safety and security challenges.
32. The personnel of special political missions face a considerable risk that they could become a collateral target, in addition to the security risks to which assets and premises are exposed. For example, the United Nations compound in Mogadishu has been repeatedly targeted by indirect fire and multiple mortar rounds have detonated on the premises or in its immediate vicinity. These incidents illustrate the concrete threats that very high-risk contexts may entail, directly challenging the missions’ ability to stay and deliver on their mandates. The threats must therefore be assessed and, where identified, be factored into the overall staffing and operational requirements of special political missions, requiring continuous attention and proactive prevention and mitigation measures. While the United Nations relies primarily on host Governments to guarantee the security of mission personnel, in some contexts they have insufficient capacity to deliver security services. The Department of Political and Peacebuilding Affairs and the leadership of special political missions engage continuously with the Department of Safety and Security to review risk management strategies so as to adapt and minimize any possible impact on mandate delivery for all missions, including panels or groups of experts supporting Security Council committees.
33. In order to operate in such environments, special political missions have had to employ significant security mitigation measures, which are identified and enhanced through a continuous risk management process. Such measures include the deployment of United Nations armed civilian

security personnel, the deployment of guard units provided by Member States and the employment of armed private security companies, where such requirements were identified by the security risk management processes and in accordance with relevant General Assembly resolutions.

5. Electoral assistance

34. Special political missions also respond to the evolving nature of electoral mandates. For example, in 2021 special political missions provided electoral support in Afghanistan, Haiti, Iraq, Libya, Somalia and the Sudan. In particular, the Under-Secretary-General for Political and Peacebuilding Affairs, as the focal point for electoral assistance matters mandated by the General Assembly, received requests for targeted, medium- and long-term expert assistance aimed at supporting and strengthening the existing capacities of national electoral institutions. Assessment of requests for electoral support had to accommodate pandemic restrictions on travel and necessitated virtual engagement with in-country interlocutors to define the parameters of United Nations support. United Nations technical assistance and capacity-building activities were provided, in an integrated manner, and in many cases alongside preventive diplomacy and other conflict prevention activities to foster consensus in establishing electoral legal frameworks, focusing on inclusion and non-discrimination and encouraging broad participation. Special political missions that have electoral mandates continue to ensure that all electoral assistance policies, projects and activities take into consideration the key guiding principles of respect for sovereignty, national ownership and sustainability and promote the political participation of women, youth, people with disabilities and other marginalized groups. For instance, in Haiti, despite delays in already overdue elections due to the assassination of the country's president and a powerful earthquake, BINUH, jointly with the United Nations Development Programme (UNDP), continued to provide support for the electoral management body in improving its capacity to better manage data and prevent electoral violence, as well as in advising the authorities on options that would increase women's electoral participation.
35. In Somalia, the joint UNSOM-UNDP Integrated Electoral Support Group continued to provide technical, logistical and financial support to the electoral committees for the 2021–2022 federal parliamentary elections, alongside the good offices by the UNSOM leadership. In parallel, capacity-building support continues to be provided to the constitutionally mandated National Independent Electoral Commission in preparation for the 2025 one-person-one-vote elections. In Libya, the UNSMIL-led integrated electoral assistance has continued to support the High National Elections Commission in building its readiness to administer and implement national elections through institutional capacity-building, legal, operational and technical advice, including supporting an update of the national voter registry, assistance with ongoing discussions on the electoral and constitutional road map, coordination of international electoral assistance, as well as support for women and marginalized groups. In addition, UNSMIL continues to provide support for local elections through the Central Committee for Municipal Council Elections.
36. In Iraq, in line with Security Council resolution [2576 \(2021\)](#), UNAMI provided enhanced electoral support for the early legislative elections held on 10 October 2021. The Mission adopted a multilayered approach to promote a conducive environment for credible and inclusive elections, without fear or intimidation. UNAMI supported and advocated the development of, and adherence to, an electoral code of conduct and provided advice, technical support and capacity-building to the Independent High Electoral Commission to improve all stages of the electoral process. In addition, the Mission organized the deployment of 150 United Nations international experts to monitor the elections in all of Iraq's 18 governorates and coordinated the provision of logistical and security support to third-party international observers with the Government of Iraq. A strategic messaging campaign and support for the Electoral Commission's communications strategy were delivered to inform Iraqi voters of electoral preparations and United Nations support for them. Following the elections, the Mission advocated the use of the appropriate legal channels for electoral complaints and respecting the final, certified results. Throughout the electoral process, the Mission focused on promoting women's political participation and electoral representation. UNAMI will continue to provide technical advice and capacity-building to the Iraqi electoral institutions, so as to consolidate gains and support future election processes.

E. Evaluation activities

37. The Department of Political and Peacebuilding Affairs continued to improve its overall role in planning for new and continuing missions, based on the recommendations of the lessons learned study on special political mission start-ups, providing support in the development of the Secretary-General's mission planning directives and guiding missions in planning their strategic priorities in the context of annual programme planning and budgeting processes.
38. While a self-evaluation of the implementation of delegation of authority was planned, it was decided to defer a comprehensive evaluation in light of the evaluation by the Office of Internal Oversight Services (OIOS) of the accountability system in the United Nations Secretariat, which was initiated in 2020 and finalized at the end of 2021, and the OIOS audit of the implementation of the single political operational structure established under the peace and security pillar reform, to be finalized in 2022, to avoid duplication and overburdening stakeholders.
39. In 2023, special political missions, with a coordinating role played by the Department of Political and Peacebuilding Affairs, will support the OIOS biennial assessment on strengthening the role of evaluation and the application of evaluation findings to programme design, delivery and policy directives.
40. As indicated in the relevant budget fascicles, separate evaluations will also be conducted, as relevant and applicable, in individual mission contexts, including by OIOS.

F. Lessons learned from the transfer of functions of closed missions

41. In accordance with Security Council resolution [2512 \(2020\)](#), the United Nations Integrated Peacebuilding Office in Guinea-Bissau (UNIOGBIS) completed its mandate on 31 December 2020.
42. In line with the statement by the President of the Security Council of 4 December 2020 ([S/PRST/2020/12](#)), the Office of the Special Envoy of the Secretary General for Burundi closed on 31 May 2021 and its responsibilities were transferred to the United Nations country team in Burundi, led by the Resident Coordinator.
43. In line with the recommendations of the Advisory Committee on Administrative and Budgetary Questions, (see [A/76/7Add.1](#), para. 26), which were endorsed by the General Assembly, the lessons learned on the transfer of functions of these two closed missions to the resident coordinator system are provided below.

Continuity of leadership

44. The UNIOGBIS Deputy Special Representative of the Secretary-General and Resident Coordinator was responsible for managing the Mission's transition under the leadership of the Special Representative of the Secretary-General. Following the closure of UNIOGBIS, the Resident Coordinator continued to lead the transition process. Implementing a transition process under such a continuous leadership (in this case, the Resident Coordinator) helped to ensure continuity and accelerated the transition process. The involvement of United Nations country team members, through the Deputy Special Representative and Resident Coordinator, in UNIOGBIS decision-making on transition planning also helped to increase awareness and prepare the United Nations agencies, funds and programmes for the tasks ahead.

Continuity in engaging with stakeholders

45. The United Nations country team in Burundi continued to work in close coordination with all stakeholders, including international, regional and other partners, towards consolidating social cohesion, stability and the achievement of the Sustainable Development Goals in Burundi, in the spirit of the Arusha Peace and Reconciliation Agreement for Burundi.

Integration of the mission's core functions into the United Nations Sustainable Development Cooperation Framework

46. Incorporating peacebuilding priorities, identified by UNIOGBIS in its conflict analysis and further validated by the Government of Guinea-Bissau, into the United Nations Sustainable Development Cooperation Framework was crucial for ensuring that the UNIOGBIS core functions linked to peacebuilding priorities became part of the strategic planning for the United Nations country team in Guinea-Bissau.
47. Investments made by the Peacebuilding Fund have contributed to building more peaceful communities in Burundi. The transfer of portfolio management from the Peacebuilding Fund to the Resident Coordinator Office will enable the Government to develop a peacebuilding strategy aligned with national plans and to be included in the new Sustainable Development Cooperation Framework, which is to be finalized by the end of 2022.

Role of the regional special political missions

48. Following the closure of UNIOGBIS, UNOWAS assumed the good offices and political engagement functions in Guinea-Bissau. During the transition, a tripartite coordination mechanism between ECOWAS, UNIOGBIS and UNOWAS was established on political and security matters to facilitate engagement by UNOWAS in the country. After the closure of UNIOGBIS, the Resident Coordinator replaced UNIOGBIS in this mechanism, which continued to discuss political and security matters, including support for the reform agenda and political stability. Related to this, the Resident Coordinator Office supports UNOWAS in its reporting functions. Likewise, the Resident Coordinator replaced the Special Representative of the Secretary-General in the meetings of the group of five international partners represented in Guinea-Bissau (the African Union, the Community of Portuguese-speaking Countries, ECOWAS, the European Union and the United Nations, now represented by the Resident Coordinator), which brings together relevant political stakeholders to promote dialogue, including on current efforts to reconcile the two constitutional review processes.
49. Close alignment with the Special Envoy of the Secretary-General for the Great Lakes Region was equally an important factor in ensuring a smooth transition in Burundi.

G. Reporting requirements related to special political missions emanating from the General Assembly and from the recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

1. Contribution of extrabudgetary resources to mandate implementation in special political missions

50. Extrabudgetary resources continued to be used for backstopping, surge requirements for good offices, crisis situations and other activities related to the mandates of special political missions. The resources have also been critical for support for inter-mission activities and for visits by desk officers and senior officials to missions. Extrabudgetary resources are estimated at \$16.5 million for 2023, compared with an estimated \$21.5 million in 2022. Mission-by-mission details are provided in annex IV to the present report.
51. Extrabudgetary resources have been important in enabling special political missions to implement targeted projects in pursuit of implementation of their mandates. In the Great Lakes region, the Office of the Special Envoy of the Secretary-General for the Great Lakes Region utilizes extrabudgetary resources to support the effective implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region through various projects under different thematic areas in the region. In Central Asia, the United Nations Regional Centre for Preventive Diplomacy in Central Asia utilizes extrabudgetary resources to support relaunching of a project for Central Asian regional cooperation on transboundary water management, with a renewed scope of activities; for support for the Central Asian Women Leaders' Caucus to

provide influential leadership within and among the countries of the region; to support the annual meeting of Central Asian Deputy Ministers for Foreign Affairs; and for activities under the Preventive Diplomacy Academy project. The United Nations support for the Cameroon-Nigeria Mixed Commission continues to utilize extrabudgetary resources to support land boundary demarcation and to implement socioeconomic projects for the benefit of populations in the vicinity of the demarcation exercise. UNITAMS utilizes extrabudgetary resources for logistics, equipment and capacity-building support for the Permanent Ceasefire Committee and to build local capacities for conflict resolution, enhance women's meaningful participation in the Sudan's transition and facilitate the Mission's good offices in support of the ongoing peace processes, implementation of the Juba Peace Agreement and deployments to defuse tensions locally.

52. Extrabudgetary resources have also been used to provide adequate backstopping capacity at United Nations Headquarters and enable personnel from Headquarters to visit special political missions in the field, thereby enabling the development of closer working collaboration. The visits have enabled personnel from Headquarters to meet with United Nations and non-United Nations interlocutors and to develop a better understanding and analysis of the context in which missions are operating and how they can be better supported to implement their mandates.
53. Extrabudgetary resources have been used to fund specific initiatives carried out by the missions. The Office of the Special Envoy of the Secretary-General for Syria utilizes extrabudgetary resources in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition and civil society, including women's groups and regional and international stakeholders. The Office of the Special Envoy of the Secretary-General on Myanmar utilizes extrabudgetary resources to support activities and initiatives aimed at promoting the implementation of General Assembly resolution [76/180](#) and to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar. The Counter-Terrorism Committee Executive Directorate has used funds to organize several new and follow-up workshops in various regions of the world in accordance with the work programme approved by the Counter-Terrorism Committee; conduct research on strategic, political, legal, institutional and security matters related to countering terrorism and support international cooperation to counter terrorism. UNITAD utilized funds to enable the continuation of the Investigative Team's specialized activities, including the digitization and digital extraction of evidentiary material held by the authorities of Iraq, comprehensive investigations into mass graves containing the remains of victims of Da'esh, investigations into gender-based crimes and crimes against children committed by Da'esh, capacity development with the authorities of Iraq in building cases and the use of digital forensics and leveraging information systems and advanced technology to deliver accountability.

2. Regional Service Centre in Entebbe

54. The Regional Service Centre in Entebbe, Uganda, established in July 2010, currently supports six peacekeeping missions and one support office, nine special political missions and the United Nations Office to the African Union.
55. In 2023, nine Africa-based special political missions will receive support from the Regional Service Centre: the Office of the Special Envoy of the Secretary-General for the Great Lakes Region, the Office of the Special Envoy of the Secretary-General for the Horn of Africa, the Panel of Experts on Somalia, UNITAMS, United Nations support for the Cameroon-Nigeria Mixed Commission, UNOCA, UNOWAS, UNSMIL and UNSOM.
56. In the proposed budget for the Regional Service Centre for the 2022/23 period ([A/76/685](#)), which is under consideration by the General Assembly at the second part of its resumed seventy-sixth session, the Secretary-General proposes resources in the amount of \$43,185,600 for the maintenance of the Regional Centre for the period from 1 July 2022 to 30 June 2023, to be apportioned on a pro rata basis among the budgets of the Centre's active client peacekeeping operations, as well as special political missions to be financed under section 3, Political affairs, of the regular budget. Towards

this end, an amount of \$2,144,300 has been included in the proposed programme budget for 2023 representing the share of the special political missions. This provision will be subject to a final adjustment to be made in accordance with the decision to be taken by the Assembly in the context of the budget of the Regional Service Centre for the 2022/23 period, which is expected by the end of June 2022.

3. Kuwait Joint Support Office

57. In its resolution [65/259](#), the General Assembly noted the intention of the Secretary-General to establish a support office in Kuwait for UNAMA and requested him to explore possibilities for cost-sharing between UNAMA and UNAMI. Following a period of assessment, in October 2012 the Secretary-General informed the Assembly that the Kuwait Office would include a Kuwait Joint Support Office, which would integrate UNAMA and UNAMI functions in the areas of finance and human resources (see [A/67/346/Add.4](#)). The Kuwait Joint Support Office was launched in December 2012 as the back office to provide mission support services on a shared basis to UNAMA and UNAMI.
58. Reflecting its growing importance in the landscape of support to field operations, the client base of the Kuwait Joint Support Office has gradually increased over time. It currently supports eight field missions¹ with transactional services related to finance and human resources, while 10 other field missions² receive more limited dedicated support only for processing education grants and payroll. As a back office for the various clients, it offers a stable operating environment while providing transactional non-location-dependent services in finance and human resources, leveraging process standardization and centralizing time-sensitive processes such as payroll and education grant processing for all of its client missions.
59. The Kuwait Joint Support Office currently serves as a back-office structure that reports to the Department of Operational Support, which provides strategic guidance and management oversight through a joint steering committee chaired by the Assistant Secretary-General for Support Operations since 2019.
60. The funding structure of the Kuwait Joint Support Office remains under review in the light of the expansion of the number of client missions and the evolution of the support model of the Office during the past decade since its establishment in 2012. Currently, funding for the staffing costs of the Office come from 8 of its 18 client missions, comprising peacekeeping, special and regular budget missions, with UNAMA and UNAMI providing 87 per cent of the staffing resources of the Office. These positions remain on the staffing table of the respective client missions, while operationally they are deployed to the Kuwait Joint Support Office and work under the supervision of the head of the Office.
61. Table 1 below details the contribution of staffing resources to the Kuwait Joint Support Office by the eight contributing missions, including three special political missions, UNAMA, UNAMI and BINUH, as approved for 2022.

¹ BINUH, Office of the Special Envoy of the Secretary-General for Syria, Office of the Special Envoy of the Secretary-General for Yemen, UNAMA, UNAMI, UNITAD, United Nations Regional Centre for Preventive Diplomacy for Central Asia and UNMHA.

² Office of the United Nations Special Coordinator for the Middle East Peace Process, Office of the United Nations Special Coordinator for Lebanon, United Nations Disengagement Observer Force, United Nations Interim Force in Lebanon (UNIFIL), United Nations Disengagement Observer Force (UNDOF), United Nations Logistics Base at Brindisi, Italy, United Nations Military Observer Group in India and Pakistan, United Nations Mission in Kosovo (UNMIK), United Nations Peacekeeping Force in Cyprus (UNFICYP), United Nations Truce Supervision Organization (UNTSO) and United Nations Verification Mission in Colombia.

Table 1
Current staffing contribution to the Kuwait Joint Support Office, by client mission

<i>Mission</i>	<i>Number of positions funded from mission budget</i>

BINUH	2
Peacekeeping operations/logistics base	
UNIFIL	3
UNDOF	1
United Nations Logistics Base at Brindisi, Italy	2
UNMIK	2
UNFICYP	1
Total	83

62. The scale of the clients of the Kuwait Joint Support Office continues to evolve as their mandates change over time. Of note, UNAMA and UNAMI staffing levels continue to evolve on a downward trend. On the other hand, other client field missions had been established in recent years, including the Office of the Special Envoy of the Secretary-General for Yemen, UNITAD and UNMHA, which have gradually increased their share of the workload of the Office. In tandem with the ebb of staffing changes in its client base, the need to rebalance the staff contributions among client missions has become a pressing concern. To address this, under the leadership of the Department of Operational Support, a revised allocation of the current post contributions is proposed, taking into account the reduced staffing levels in UNAMA and UNAMI and recognizing the significant additional impact of other client missions.
63. While a longer-term funding model for the Kuwait Joint Support Office requires a more comprehensive proposal for consideration by the General Assembly, an immediate solution seeking a more balanced contribution of staffing costs is proposed for 2023 as a first step towards achieving a better balance among the sources of funding.
64. Based on the assessment of the workload generated by various transactional processes from the Kuwait Joint Support Office, it is proposed that a total of six positions (three positions each from UNAMA and UNAMI) be abolished under the two missions, and that the same number of positions (with no change in the functional titles or grade levels) be established under four other client missions: the Office of the Special Envoy of the Secretary-General for Yemen, UNITAD, the United Nations Verification Mission for Colombia and UNMHA. In addition, it is proposed to redeploy one existing position (Field Service) within the Office of the Special Envoy of the Secretary-General for Syria to the Joint Support Office to supplement the staffing capacity of the back office.
65. Table 2 below shows the proposed distribution of staffing resources among the client missions in 2023.

Table 2
Proposed staffing resource contributions to the Kuwait Joint Support Office in 2023, by client mission

<i>Mission</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>Total international</i>	<i>LL</i>	<i>Total national</i>	<i>Total</i>

Abbreviations: FS, Field Service; LL, Local level.

^a Reflects the staffing contribution after the proposed abolishment of a total of six positions, comprising three in UNAMA (1 Field Service and 2 Local level) and three in UNAMI (1 Field Service and 2 Local level).

^b Reflects the staffing contribution after the proposed establishment of a total of six positions, comprising one position (Field Service) in the Office of the Special Envoy of the Secretary-General for Yemen, one position (Local level) in UNITAD, one position (Local level) in the United Nations Verification Mission for Colombia and three positions (1 Field Service and 2 Local level) in UNMHA.

^c Reflects the staffing contribution after the proposed redeployment of one position (Local level) from the existing staffing table of the Office of the Special Envoy of the Secretary-General for Syria to the Kuwait Joint Support Office.

^d No changes are proposed.

4. Nationalization of positions

66. In line with the request of the General Assembly in its resolutions [61/276](#) and [66/264](#) for greater utilization of national staff, special political missions have reviewed functions performed by international staff in the Professional and Field Service categories and by United Nations Volunteers that would provide an opportunity to contribute to national capacity-building and have proposed the conversion of relevant positions to the National Professional Officer and Local level categories commensurate with the requirements of the missions and their respective mandates. Furthermore, during the planning process, efforts are being made to ensure that national positions are included to the greatest extent possible in the staffing proposals of missions.
67. Encouraging the use of national capacities has been a core area of focus in human resources management in special political missions and workforce planning guidelines on nationalization in special political missions have been developed and promulgated to missions. To provide a consistent approach, an overarching framework has been formulated to set out the principles and provide tools to support the use and development of national staff capacities in special political missions. Special political missions utilize several categories of personnel: international staff, locally recruited staff, United Nations Volunteers and other, non-staff, capacities, such as government-provided personnel, consultants and individual contractors. Special political missions rely heavily on internationally recruited staff, particularly during the start-up, emergency and downsizing phases, but as missions

evolve the aim becomes to improve the mix between international and locally recruited staff to contribute to national capacity-building and nationalization.

68. In December 2021, the Department of Operational Support issued a guide on planning nationalization of the workforce. The guide builds on the guidelines on nationalization in peace operations issued by the former Department of Field Support in October 2018 and includes updated guidelines on nationalization that support peacekeeping operations and special political missions not only in scaling and optimizing human resources, but also in developing workforce plans to build organizational capabilities and seeking networked cooperation with local stakeholders to enhance local talent acquisition. The guide provides practical information for conducting nationalization in the context of operational workforce planning at the entity level and aims to set consistent standards and approaches on nationalization across entities. The Department provides operational workforce planning support to peacekeeping operations and special political missions, upon request, that are interested in initiating such a review.
69. In recent years, special political missions have made steady progress in nationalization of positions. Twelve positions were nationalized in 2016, one in 2017, two in 2018, five in 2019, seven in 2020, four in 2021 and 19 in 2022. For 2023, a total of nine positions are proposed to be nationalized, comprising:
 - (a) One position in the Office of the Special Envoy for Yemen, reflecting the conversion of one Political Affairs Officer from the P-3 level to National Professional Officer;
 - (b) One position in UNITAD, reflecting the conversion of one Facilities Management Assistant (Field Service) in mission support to Associate Facilities Management Officer (National Professional Officer);
 - (c) One position in the Office of the United Nations Special Coordinator for Lebanon, reflecting the conversion of one position of Administrative Assistant from Field Service to Local level;
 - (d) Six positions in UNAMI, reflecting the conversion and reassignment of one Political Affairs Officer from the P-3 level to National Professional Officer, one Vehicle Technician (Field Service) to Assistant Transport Officer (National Professional Officer), one position of Transport Assistant from Field Service to Local level, one Movement Control Assistant (Field Service) to Assistant Movement Control Officer (National Professional Officer), one Supply Assistant (Field Service) to Associate Supply Officer (National Professional Officer) and one Human Resources Assistant (Field Service) in Baghdad to Associate Human Resources Officer (National Professional Officer).
70. Lastly, special political missions are committed to building national staff capacity through increased training and career support. For instance, UNSOM approved a special measure in 2018 and extended it in 2019 to reduce work experience requirements to attract potential candidates, increasing opportunities for employment and skills-building as part of national capacity-building that will enable the future nationalization of additional positions. UNOCA, in line with the drive for nationalization and building existing staff capacity, is for the first time proposing to have a training budget aligned with a needs assessment conducted with all units. In addition, missions have increased collaboration with national stakeholders. UNITAD engaged with its national counterparts, notably the national coordinating committee, to identify potential candidates for national positions. The mission organized a workshop for such candidates in 2021 to familiarize them with the application procedures of the United Nations, which yielded a number of potential candidates that UNITAD could consider for upcoming vacancies. Another workshop, specifically targeting female candidates, will be considered for 2022.

5. Gender parity and equitable geographical representation

71. Improving the gender parity and equitable geographical representation in their staffing is a priority for special political missions.

72. To accelerate progress on increasing the representation of civilian women in field missions, the Secretariat has been conducting proactive and tailored outreach to Member States and national women's professional and academic networks. The Office of Human Resources has developed action plans to ensure that United Nations entities remain on track to achieve their targets. Based on these action plans, the Office is leading outreach to specific entities to provide them with tools to support efforts to achieve their parity goals and to support them in addressing specific cases. The goal is to reach all entities in the field, while prioritizing those furthest from their parity goals. One such tool is the United Nations talent pool, which is designed to reach qualified internal and external applicants globally, including qualified female candidates in United Nations agencies, funds and programmes. To promote, build and sustain an inclusive, enabling work environment for women, the Secretariat will continue to take steps to implement the system-wide strategy on gender parity and the UN-Women Enabling Environment Guidelines for the United Nations System.
73. To accelerate efforts to achieve equitable geographical representation, the Secretariat conducts proactive engagement, creating networks and leveraging technology to inform its activities. This includes leveraging various partnerships and networks, including the United Nations information centres and the resident coordinators, to identify sources of talent and use the most effective outreach tools depending on locality. Furthermore, job openings for all positions in the Professional and higher categories are proactively disseminated to the focal points in the permanent missions of Member States, in unrepresented and underrepresented Member States and to professional associations in Member States and women's organizations around the globe.
74. To ensure that special political missions are well positioned to deliver on the mandates in the future, the guidance issued by Headquarters to all regular budget entities, including special political missions, for the preparation of their budgets in 2023 included strategic workforce planning considerations to highlight opportunities to strengthen priority workforce capabilities such as in data analysis, digital transformation and innovation through rejuvenation and by bringing in young talent from unrepresented and underrepresented Member States. Efforts to identify and highlight future needs through these exercises will ensure that the workforce in special political missions is future-proof through rejuvenation and equitable geographical representation.
75. Efforts continue to ensure that human resources policies are responsive to the needs of entities with a field presence. Specifically, the Office of Human Resources remains actively engaged in the work of the Human Resources Network Standing Committee on Field Duty Stations, which monitors matters related to the conditions of service of staff in the field, including rest and recuperation, hardship classification and non-family designation of duty stations. As part of the Office's participation in the discussions of the International Civil Service Commission (ICSC), ongoing reviews are carried out for key field entitlements, including hardship allowance, non-family service allowance, danger pay and the mobility incentive. A number of key policies that affect service in the field have recently been updated, such as danger pay, mission subsistence allowance and special entitlements for staff members serving at designated duty stations.
76. Special political missions are committed to advancing progress in these respects. Many missions periodically circulate the latest demographic statistics concerning gender parity and regional group staff as part of their human resources reporting to mission leadership. These statistics are made available to hiring managers so as to inform outreach to potential candidates for recruitment. Some missions have working groups to track progress, adopting the use of tailored templates for selection memorandums in which hiring managers are required to provide justification if the recommended recruitment would not improve gender parity and/or geographical representation. Some missions, through collaboration with their public information units, have conducted campaigns, for example on International Women's Day, to showcase female leadership and how a gender perspective is incorporated in their work.
77. Annexes XVI and XVII of the present report provide the gender distribution of civilian staff and experts and geographical representation of international civilian staff and experts, respectively, as at 30 April 2022.

6. Development coordination in integrated missions

78. The staffing complement of seven special political missions, namely BINUH, the Office of the United Nations Special Coordinator for Lebanon, UNAMA, UNAMI, UNITAMS, UNSMIL and UNSOM, includes a Deputy Special Representative of the Secretary-General, or a Deputy Special Coordinator, who also serves as resident coordinator and/or humanitarian coordinator in complex, multidimensional contexts. In structurally integrated missions, the Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator serves as the link between the political and other work of the special political mission and the development and humanitarian work. In their resident coordinator capacity, they are responsible for coordinating the United Nations country team and United Nations development operations and plans. The Resident Coordinator Office on the ground supports the coordination of recovery and development activities. In their humanitarian coordinator capacity, they are responsible for coordinating humanitarian plans and operations and for maintaining links with Governments and other parties, donors and the broader humanitarian community. The salaries and common staff costs related to those positions are budgeted at 50 per cent of the total cost in the budgets of the respective special political missions, with the other 50 per cent funded from the budget of the resident coordinator system.
79. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 23 of its report on the revised estimates relating to UNSMIL ([A/76/7/Add.38](#)), recommended that the General Assembly request the Secretary-General to review the overall funding arrangements and provide a sustainable and more equitable arrangement in the context of the next report on estimates in respect of special political missions, as appropriate.
80. During the preparation of the proposed budget for 2023, the Secretary-General, involving the Department of Political and Peacebuilding Affairs, the Department of Peace Operations, the Office for the Coordination of Humanitarian Affairs, and the Development Coordination Office, has reviewed the overall funding arrangements pertaining to the financing of multi-hatted deputy special representatives of the Secretary-General and comparable positions in special political missions, as well as peacekeeping operations, with a view to establishing a sustainable and equitable arrangement.
81. The Secretary-General recalls that in its resolution [59/296](#) the General Assembly first established the principle that the position of deputy special representative of the Secretary-General, resident coordinator and humanitarian coordinator in an integrated mission setting (in some missions there are Deputy Special Coordinators and in some contexts the integration is dual-hatted as the deputy special representative and resident coordinator, without the humanitarian component) should be financed under a 50/50 cost-sharing model between the mission budget and the resident coordinator system. This principle has been applied in both peacekeeping operations and special political missions.
82. The Secretary-General had consciously retained this cost-sharing funding model with the repositioning of the development system since 2019 as the most equitable and sustainable funding arrangement for multi-hatted positions.
83. The Secretary-General's review has found that the existing cost-sharing arrangement continues to fundamentally reflect the notion that the position of the multi-hatted deputy special representative, resident coordinator and humanitarian coordinator straddles special political missions/peacekeeping operations and the development system, thereby personifying the integrated nature of missions where mandated and applicable. If financed exclusively under mission budgets or under the development system, these positions would no longer reflect the integrated nature of the mission to the same extent and, therefore, the incentive for integration could be weakened. Because both sides contribute to the funding of the position, the deputy special representative, resident coordinator and humanitarian coordinator truly reflects and brings together the peace, security and other mandates of a mission and the broader development objectives pursued by the country team, integrating the capacities and activities of the United Nations in keeping with the logic of the integrated nature of the particular special political missions and peacekeeping operations.

84. The Secretariat also reviewed the staffing and capacities in the offices of triple-hatted deputy special representatives, resident coordinators and humanitarian coordinators in the integrated special political missions to ensure that they are justified, required, aligned and relevant to the delivery of mandates in the respective integrated missions, where these capacities carry out mandated work in support of the deputy special representative, resident coordinator and humanitarian coordinator. The review found that these capacities continue to be required in order to respond to country-specific needs and to the mandated tasks that the legislative bodies have entrusted to the missions in the area of development coordination, international assistance and facilitation of humanitarian work. These capacities are therefore required and complementary to the core capacities of the new resident coordinator system that are financed through a dedicated special purpose trust fund predominantly funded by extrabudgetary resources.
85. In summary, notwithstanding that the funding source of the 50 per cent share of the cost of the multi-hatted deputy special representative, resident coordinator and humanitarian coordinator has moved from UNDP to the resident coordinator system managed by the Development Coordination Office as part of the Secretariat, the cost-sharing concept, principle and arrangement has not only remained valid and relevant, but is also an equitable, sustainable and effective way to ensure that the intents and purposes of the integrated mission concept are manifested and achieved.

7. Mine action activities

86. In 2023, the Mine Action Service will continue to be the service provider for four special political missions (UNITAMS, UNMHA, UNSMIL and UNSOM) and will be funded from each mission's assessed budget. In addition, on the basis of Security Council resolution [2626 \(2022\)](#), the Mine Action Service will also provide services to UNAMA, supporting the delivery of the Mission's mandate to improve the overall security situation in Afghanistan through assessments of the explosive ordnance threat and its impact on civilians, including children, and the provision of advice and coordination of explosive ordnance threat mitigation measures in support of humanitarian and development initiatives.
87. The Mine Action Service has taken significant steps to address the findings of the Board of Auditors ([A/75/5 \(Vol. II\)](#), para. 175) by which the Board called on the Mine Action Service to reduce dependency on the United Nations Office for Project Services (UNOPS), increase its field-based presence and knowledge, increase efforts to directly implement aspects of the mine action programmes and evaluate the UNOPS partnership to ensure that it is cost-effective. As of the 2022 budget, the mine action field programmes in special political missions have been led by mission staff members (comprising one D-1 in UNSOM, one P-5 in UNSMIL, one P-4 in UNMHA and one P-4 in UNITAMS, all approved as general temporary assistance positions), ensuring that the Mine Action Service directly leads in threat assessment, programme design and monitoring and representation with mission leadership and government stakeholders and partners.
88. The continuation of these four general temporary assistance positions in the mission staffing tables is reflected in the proposed budgets for 2023 for the four special political missions. The Mine Action Service continues to improve its monitoring and evaluation system and has put in place measures to strengthen project performance monitoring, strengthened its financial control environment and established a review committee to ensure the thorough review of programme strategies, work plans and budgets, donor proposals and financial agreements with UNOPS. The Service works closely with mission leadership to ensure that mission resources are used to deliver mandates in the most efficient manner possible.
89. The Mine Action Service engaged a consulting firm to undertake an independent review of the cost-effectiveness of the mine action delivery model, which will be concluded in September 2022. As the Service is the service provider to all Secretariat entities on mine action, the review will cover peacekeeping and special political missions and non-mission settings and will identify the cost-effectiveness of the current Mine Action Service-UNOPS partnership and opportunities for improvement and alternative delivery models using the current performance as the baseline. The findings of the review will be presented to the General Assembly at its seventy-seventh session.

90. As requested by the Advisory Committee on Administrative and Budgetary Questions (A/76/7/Add.1, para. 29), the mine action programmes in the four special political missions, including their staffing requirements and management levels, have been reviewed by the review committee. The review committee is a multidisciplinary body comprised of representatives from United Nations Headquarters and the missions concerned. The committee included organizational design and human resources experts from the Human Resources Services Division in the Department of Operational Support. The review committee endorsed the proposed resources in the current 2023 budget submissions for the four missions, which were deemed appropriate to deliver the mission mandates efficiently, effectively and accountably.
91. For UNSOM, the review committee confirmed that the staffing requirements were appropriate and that the Chief of the Mine Action Programme (D-1) was at the correct level to manage both the three posts recruited through UNOPS and funded under the UNSOM operations budget, as well as the full mine action programme delivered through the United Nations Support Office in Somalia, which includes another 129 UNOPS-recruited personnel.
92. For UNSMIL, the review committee endorsed the budget for the Mission's operational costs under other supplies and services, which includes five international personnel, three national personnel and two consultants, which are recruited by UNOPS and supervised by the Chief of the Mine Action Section (P-5), which is a general temporary assistance position.
93. For UNMHA, the review committee agreed that the Programme Management Officer (P-4) responsible for mine action, a general temporary assistance position on the Mission's staffing table, would continue to be required to provide advisory support to UNMHA on matters related to mine action. There is no requirement for resources for mine action foreseen under the Mission's budget for operational costs.
94. For UNITAMS, the review committee endorsed the continuation of the Programme Management Officer (P-4) general temporary assistance position on the Mission's staffing table to lead the mine action component, which is composed of one international and five national personnel recruited by UNOPS and funded from the Mission's budget for operational costs under other supplies and services, as well as personnel recruited by UNOPS with funding from the Mine Action Service.

8. Backstopping support at Headquarters

95. Special political missions rely on Headquarters for backstopping support for a wide range of functions. In 2022, the Department of Political and Peacebuilding Affairs is leading and providing substantive backstopping to 34 of the 38 special political missions, ensuring regular and effective communication between missions and the United Nations entities in New York, regular liaison with Member States through their permanent missions to the United Nations and preparation of a wide range of substantive material, including briefing material for the Security Council and regular reports of the Secretary-General, among a wide range of functions. In 2023, similar support and guidance will continue to be provided to the same missions by the Department. In 2022, administrative support is being provided by the joint Executive Office of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to 15 of these missions.
96. Special political missions also benefit from operational support and advisory services in the areas of human resources and supply chain management provided by the Department of Operational Support, budgetary and financial services, asset and property management policy support and assistance with accountability systems provided by the Department of Management Strategy, Policy and Compliance and information technology support delivered by the Office of Information and Communications Technology. Special political missions also rely on support from United Nations Headquarters in thematic and operational areas such as constitution-making, electoral assistance, mediation, best practices, military and police planning/force generation, the rule of law and security institutions. In 2023, similar support will continue to be provided to the same missions by Headquarters.

97. As requested by the Advisory Committee on Administrative and Budgetary Questions (see [A/73/498](#), para. 46, and [A/72/7/Add.10](#), para. 53), annex III to the present report contains consolidated information on positions at Headquarters for backstopping support funded from special political mission budgets proposed for 2023, including the total number of backstopping positions approved for different departments, along with the functional titles of the positions. Annex III also includes information on proposed changes in positions in 2023 compared with 2022. In 2022, a total of 50 such positions (1 D-1, 9 P-5, 21 P-4, 8 P-3, 1 P-2 and 10 General Service (Other level)) are funded from special political missions. For 2023, it is proposed that 49 positions for backstopping support at Headquarters continue to be funded from the budgets of special political missions. The decrease of one position results from the redeployment of one backstopping position of Legal Officer (P-4) from New York to Baghdad in UNITAD, in order to meet the increasing demand for legal advice relating to the development of a legal framework to domesticated international crimes in the current penal code and to provide other legal advice.
98. While the resources included in the budgets of special political missions for backstopping support are fundamental for the Secretariat to provide support to special political missions, provision of adequate support often also depends on the regular budget and extrabudgetary resources of the Department of Political and Peacebuilding Affairs. Similarly, the regular budget and extrabudgetary resources of the Office for Disarmament Affairs provide administrative support for the mission for support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction.

9. Ratios for vehicles and information technology equipment

99. Ordinarily, vehicle holdings should directly and proportionally reflect the number of staff, whereas operational requirements should be prioritized on the basis of supporting mileage, frequency of use and usage patterns. This forms the principal guidance from United Nations Headquarters to field missions on the management of an efficient vehicle fleet. As part of its efforts to further improve vehicle fleet management, the Secretariat has promulgated a standard ratio for light passenger vehicles for peacekeeping missions, to be applied when assessing ground transportation needs. In addition, the Secretariat monitors vehicle acquisition by missions to ensure efficiency gains by using cost-efficient vehicles from systems contracts newly established by the Secretariat through a collaborative exercise with United Nations system entities. Such deliberate actions allow for the implementation of the intent of the guidance without putting missions at risk with regard to their operational needs.
100. The vehicle and information technology equipment holdings of the special political missions have been reviewed and aligned by each mission, where possible, in accordance with the standard ratios promulgated in the Standard Cost and Ratio Manual issued by the Department of Operational Support. The missions continue to monitor excess holdings of vehicles and expect to dispose of vehicles when they meet the criteria in terms of life expectancy and write-off or to recommend inter-mission transfers where feasible and cost-efficient.
101. In the above context, the holdings of vehicles and information technology equipment are proposed on the basis of the anticipated personnel incumbency levels planned for 2023, as opposed to the full authorized level of personnel. Table 3 provides the ratios on vehicles for all special political missions that have vehicle holdings, while table 4 provides the ratios for information technology equipment for all special political missions.

UNAMA and UNAMI					
UNAMA	497	464	99	161	62.6
UNAMI	400	368	116	161	38.8
Total	3 065	2 605	758	921	21.5

^a Includes United Nations international staff, National Professional Officers, United Nations Volunteers, military and police personnel (military observers, military police and civilian police officers), government-provided personnel and contractors.

^b Includes armoured vehicles, except those earmarked or required for the exclusive use of close protection and certain security tasks. Excludes guard-forces-carrying and utility vehicles, buses and electric carts.

^c Based on standard equipment as outlined in the Standard Cost and Ratio Manual.

102. The total proposed vehicle holdings for special political missions are 21.5 per cent above the standard allocation based on the Standard Cost and Ratio Manual. Explanations for vehicle holdings that are higher than the standard allocation in specific missions are as follows:

- (a) The vehicle holdings for the United Nations Representative to the Geneva International Discussions are 33.3 per cent, or one vehicle, higher than the standard allocation, and reflect the operational needs both in Tbilisi and Zugdidi, Georgia;
- (b) The vehicle holdings at UNITAD are higher than the standard allocation by 70.0 per cent, which reflects the operationalization of the Dahuk office and the planned expansion of investigative activities in Erbil, the unique nature of the mission's field-based investigative activities and the security requirements in Iraq;
- (c) The vehicle holdings at UNSOM are 19.6 per cent higher than the standard allocation, which is attributable to the operational requirement for a pool of 19 vehicles to support staff movement necessitated by the security requirements of the Mission;
- (d) The vehicle holdings for the United Nations support for the Cameroon-Nigeria Mixed Commission are higher than the standard allocation by 233 per cent, which reflects the need for dedicated transportation to support the movement of the joint technical teams and their security personnel along with all their logistics equipment while in the field. The presence of these vehicles allows for flexibility and the ability to move freely within the areas of operation. These areas, which are isolated and hard to reach and have limited infrastructure and poor security, drive the need for dedicated, ever-present transportation means and resources;
- (e) The vehicle holdings at the Office of the United Nations Special Coordinator for Lebanon are 9.1 per cent, or one vehicle, higher than the standard allocation, and reflect the operational needs and security requirements of the mission;
- (f) The vehicle holdings for UNSMIL are 34.0 per cent higher than the standard allocation, which is attributable to the requirement for 13 vehicles to support the United Nations Guard Unit, as provided in the memorandums of understanding;
- (g) The vehicle holdings at BINUH are 37 per cent higher than the standard allocation, which is attributable to: (i) the requirement for teams to travel to remote regions in support of mandate delivery; (ii) the higher-than-normal wear and tear due to road conditions and the age and mechanical condition of vehicles; and (iii) the operational requirement for a pool of vehicles to support dispatch services in light of the high mobility of mission personnel and the frequent maintenance and repair caused by the poor condition of the vehicles, which affects the amount of time they are in operation;
- (h) The vehicle holdings at UNAMA are 62.6 per cent higher than the standard allocation, which is attributable to the operational requirement for a pool of 50 vehicles for Kabul dispatch transportation of all staff throughout the Mission and airport shuttle services, as well as 12 driver testing vehicles;
- (i) The vehicle holdings at UNAMI are 38.8 per cent higher than the standard allocation, which is attributable to the operational requirement for a pool of 20 vehicles to support the United Nations Guard Unit, 23 to support airport shuttle services and 2 driver testing vehicles, as well as the need for reserves to support the various regions in Iraq.

^a Includes international and national staff, United Nations Volunteers, United Nations police, United Nations military observers, government-provided personnel, military staff officers, international contractors and duty station-based experts.

^b Includes desktop computers, laptops and netbook computers.

^c Based on standard requirements as outlined in the Standard Cost and Ratio Manual.

103. The total proposed computing device holdings for special political missions are 1.9 per cent higher than the standard allocation. Explanations for computing device holdings that are higher than the standard allocation in specific missions are as follows:
- The computing device holdings at the Office of the Special Envoy of the Secretary-General for the Great Lakes Region are 11.8 per cent, or four devices, higher than the standard allocation, and relate to equipment needed for training;
 - The computing device holdings at the Office of the Special Envoy of the Secretary-General for Yemen are 7.4 per cent, or seven devices, higher than the standard allocation, and relate to the requirement for the mission training room;
 - The computing device holdings at UNOWAS are 15.1 per cent higher than the standard allocation owing to additional holdings required to provide for training purposes and for the CarLog system;
 - The computing device holdings at UNSMIL are 27.2 per cent higher than the standard allocation, which is attributable to requirements for individual contractors and service contractors, CarLog systems and servers.
104. The holdings are influenced by factors such as the need to provide equipment for consultants and individual contractors, training facilities, Internet booths, information technology maintenance services, CarLog systems, programming of radios and fieldwork. Furthermore, based on the lessons

learned during the pandemic, which saw a substantial increase in the use of virtual communications and remote working, it is critical to ensure the reliability of information technology equipment and infrastructure and their accessibility to all personnel, both staff and non-staff, to enable business continuity, mandate delivery and the safety and security of staff members, especially in the harsh environments that many special political missions operate in.

10. Air operations

105. In paragraph 33 of its report on estimates in respect of special political missions contained in document [A/69/628](#), which was endorsed by the General Assembly in its resolution [69/262](#), the Advisory Committee on Administrative and Budgetary Questions requested improvement in the presentation of information on air operations, including flight hours and costs under previous and current contracts. Accordingly, annex VII to the present report provides, by mission, information on appropriations and expenditure for 2021, the approved budget for 2022 and the proposed resources for 2023 for air operations, as well as actual flying hours for 2021 and budgeted flying hours for 2022 and planned hours for 2023.
106. In 2022, the total resources approved for air operations amount to \$49.1 million, with planned utilization of approximately 8,635 flight hours (4,675 for fixed-wing aircraft and 3,960 for rotary-wing aircraft). In 2023, \$55.7 million is proposed for a total of 10,168 flight hours (6,256 for fixed-wing aircraft and 3,912 for rotary-wing aircraft).
107. This represents an increase of 1,533 flight hours proposed for 2023 compared with 2022 as the result of: (a) a nominal increase of 1,462 flight hours for UNAMA, reflecting a zero baseline for comparison as there is no approved budget for 2022; (b) an increase of 471 flight hours in UNSMIL and the United Nations Verification Mission in Colombia; and (c) a decrease of 400 flight hours in the Office of the Special Envoy of the Secretary-General for Yemen, UNMHA and UNAMI.
108. If UNAMA were excluded, the proposed resources for air operations in 2023 would represent a reduction of \$1.8 million, or 3.7 per cent, compared with 2022. Of the missions with air operations resources proposed for 2023, six missions (Office of the Special Envoy of the Secretary-General for Yemen, UNSOM, United Nations Verification Mission in Colombia, UNMHA, UNITAMS and UNAMI) reflect reduced resource requirements compared with 2022. Financial resources for air operations and flight hours remain essentially unchanged for three missions (Office of the Special Envoy of the Secretary-General for the Great Lakes Region, UNOWAS and United Nations support for the Cameroon-Nigeria Mixed Commission) compared with 2022. Four missions (Office of the Special Envoy of the Secretary-General for Syria, UNITAD, UNOCA and UNSMIL) reflect increased resources for 2023 compared with 2022.
109. In the revised budget for UNAMA for 2022 ([A/76/6 \(Sect. 3\)/Add.9](#)), resources of \$9.97 million are proposed for air operations, with planned utilization of approximately 1,263 flight hours. In the proposed budget for UNAMA for 2023 ([A/77/6 \(Sect. 3\)/Add.5](#)), resources of \$8.46 million are proposed for air operations, with planned utilization of approximately 1,462 flight hours.
110. Resource requirements for air operations in eight missions (UNOWAS, UNSOM, UNSMIL, United Nations Verification Mission in Colombia, UNMHA, UNITAMS, UNAMA and UNAMI) represent 96.6 per cent of the overall resource requirements under air operations in 2023.

11. Travel

111. In line with the recommendations of the Advisory Committee on Administrative and Budgetary Questions ([A/71/595](#), paras. 30 and 32), which were endorsed by the General Assembly, annex XIII to the present report sets out information on the approved resources for 2022 and proposed resources for 2023 for official travel, including a summary explanation for the variances. The total resources proposed for official travel amount to \$14.6 million, reflecting an increase of 18.4 per cent compared with the approved budget of \$12.3 million for 2022. This is because there is no appropriation for UNAMA for 2022; hence a zero baseline of resources was used for comparison for official travel, pending the consideration and approval by the Assembly of the proposed revised budget for 2022.

If UNAMA were excluded, the total resources proposed for official travel would amount to \$13.5 million, reflecting an increase of 10.1 per cent compared with the approved budget of \$12.3 million for 2022.

112. During the pandemic, while the interactions at Headquarters have predominantly been virtual or hybrid, in missions some meetings and visits have taken place, particularly where the security and climatic conditions allowed for outdoor encounters and movements. When feasible, staff have continued to visit locations and meet communities, while respecting national protocols. In other contexts, missions had access only to virtual liaison with host authorities and other stakeholders.
113. Modifications such as virtual consultations, virtual meetings with stakeholders, shifts to smaller-group formats for in-person meetings in view of physical distancing requirements and collaboration with partners regarding early warning and monitoring have allowed the missions to continue implementing their respective mandates during the pandemic. However, these adaptive measures cannot completely replace in-person interactions, given that communities without access to virtual means of communication were inadvertently marginalized or excluded from reconciliation and mediation processes. There were also no real alternatives to in-person interactions for sensitive issues such as conflict-related violence or to build trust with interlocutors and key stakeholders. In addition, the organization of smaller format gatherings would still lack the economies of scale associated with the organization of larger gatherings once conditions allow.
114. For 2023, the travel plans are based on the overarching principle that official travel would be only undertaken when it cannot be substituted by other means of communication, including videoconferencing. For the panels of experts, the proposed budget for official travel of staff for 2023 takes into account the frequency of travel by the chairs of sanctions committees to countries relevant for sanctions regimes and the region, which require assistance by Secretariat staff, as well as the conducting of sanctions assessment missions under mandates from the Security Council. As a result, travel has been harmonized across all sanctions panels of experts not based in New York for one trip to the region and two trips to assist the group or panel during the drafting of interim/midterm and final reports.
115. As countries around the globe continue to relax pandemic-induced travel restrictions, there has been a further resumption in 2022 of the multitude of engagements and interactions with national and local authorities, communities and stakeholders that had to be cancelled or postponed in 2020 and 2021. Such resumption in 2022 and the anticipated continuation of the increase in official travel into 2023 are necessary to sustain the political and peacebuilding efforts in many mission contexts, for which face-to-face discussions on politically sensitive and confidential issues remain the most effective way to achieve higher impact and yield better results.
116. The programme plans and lessons learned, including the impact of the pandemic on mandate delivery, as contained in the thematic cluster fascicles ([A/77/6 \(Sect.3\)/Add.2](#), [A/77/6 \(Sect.3\)/Add.3](#), [A/77/6 \(Sect.3\)/Add.4](#), [A/77/6 \(Sect.3\)/Add.5](#) and [A/77/6 \(Sect.3\)/Add.6](#)), provide further information on how special political missions have incorporated good practices and the increased use of technology into their work, while also reflecting upon the challenges experienced where technology meets its limits and where in-person travel is needed to meet pent-up demands and to fill coverage gaps. Travel to provide good offices and mediation, conduct fact-finding and monitoring activities, verify compliance and conduct outreach, as well as provide training or capacity-building to national and local partners, remains an indispensable tool in carrying out the work of the special political missions in 2023.
117. With respect to the rates of compliance of special political missions with the policy of 16-day advance booking of tickets, the missions are fully aware of the observations and recommendations of the Advisory Committee on Administrative and Budgetary Questions with respect to the need to put measures in place. In this regard, missions have taken the following actions: (a) broadcasting of messages and continuous sensitization of all personnel on the mandatory requirement to submit travel requests at least 21 calendar days prior to the commencement of travel; (b) requiring the provision of justification with supporting evidence for travel requests that did not meet the mandatory deadline of

21 calendar days prior to travel; (c) following up actively with various stakeholders (such as Governments and United Nations country teams) to receive confirmation of the schedule and participant lists in meetings and conferences in a timely manner; and (d) encouraging approving officers to reduce the processing time of travel requests as much as possible.

118. In addition, some missions have assigned dedicated travel and shipment approvers in the Office of the Chief of Mission Support to oversee travel matters, including increased engagement with the travel unit in regional service centres, where applicable. Some missions have also developed travel projection sheets, which are reviewed regularly by heads of units for early clearance and planning purposes.
119. Full compliance with the policy also depends on external factors. Such factors encompass the frequent shifts in mission security and political environments; the necessity to respond to sudden or escalating crises; interruptions arising from distinct logistical arrangements for travel that requires special flights or escorts, leading to last-minute bookings for commercial travel; last-minute requests for revisions to meeting schedules and participant lists with multiple stakeholders, such as governments in the region, intergovernmental partners and civil society organizations, outside the control of missions and often at short notice; and late notifications from the organizers of training and learning activities. In addition, during the pandemic, lockdowns and the restriction of air travel have made the availability of air tickets extremely limited and air routes highly unpredictable, with cancellations and changes being frequent, thereby limiting the ability of missions to achieve higher compliance rates, despite all the aforementioned efforts.
120. Annex XIV provides information on the rates of compliance of special political missions with the policy of 16-day advance booking of tickets.

12. Expert panels for recruitment against generic job openings

121. The Advisory Committee on Administrative and Budgetary Questions requested that information be provided on the expert panels for recruitment for special political missions (A/71/595, para. 57). Expert panels established pursuant to [ST/AI/2010/3](#), [ST/AI/2010/3/Amend.1](#), [ST/AI/2010/3/Amend.2](#) and [ST/AI/2010/3/Amend.3](#) would continue to convene in 2023 to assess and recommend candidates who have applied for generic job openings for positions in field missions in order to reduce the administrative burden on individual hiring managers and enhance the quality and integrity of the recruitment process by centralizing the assessment. In particular, efforts are being made by the Department of Operational Support to add women to the rosters in all occupational groups, in keeping with the agenda of the Secretary-General to achieve gender parity in the Secretariat. To that effect, it is anticipated that financing from both the peacekeeping missions and the special political missions will be required for the recruitment and rostering process. The resources will provide for the costs of panel members and occupational group managers. Each mission would include resources reflecting its share of the contribution. The proposals of special political missions for 2023 include provisions in a total amount of \$216,000 for this purpose, which have been apportioned on the basis of the number of applicable authorized international positions of the respective missions in 2022.

II. Analysis of resource requirements for special political missions

122. The total proposed resource requirements for 2023 relating to the 38 continuing special political missions covered in the present report amount to \$767.1 million net of staff assessment and inclusive of the provision for the share of special political missions in the budget of the Regional Service Centre. Overall, the resource level for 2023 reflects an increase of \$161.9 million compared with the appropriation for 2022.
123. Details of the requirements by cluster, by mission and by expenditure component are presented in tables 5 to 8 below.
124. The proposed resource requirements for 10 special political missions presented under thematic cluster I would amount to \$50.8 million, representing a net increase of \$0.9 million (1.8 per cent)

compared with the appropriation for 2022. The overall increase reflects the increases in civilian personnel costs of \$0.7 million (2.1 per cent) owing to the application of the latest salary scale and vacancy rates based on the actual incumbency in 2021, as well as the application of average within-grade step levels and common staff costs based on 2021 expenditure patterns, and increases in operational costs of \$0.2 million (1.2 per cent), mainly under air operations, communications and information technology and other supplies, services and equipment, offset by decreases under facilities and infrastructure, medical and ground transportation.

125. The proposed resource requirements for the 15 missions under cluster II for 2023 would amount to \$63.2 million, representing a net increase of \$1.65 million (2.7 per cent) compared with the appropriation for 2022. The overall increase reflects principally the increased requirements for: (a) the 13 groups and panels of experts, attributable to the updated salary scales and application of the latest percentage of common staff costs, as well as updated experts' fees; (b) the Counter-Terrorism Committee Executive Directorate, mainly attributable to the updated higher salary rates; and (c) UNITAD, attributable to the application of lower vacancy rates for civilian personnel, updated higher salary rates for national staff and the establishment of a local level position in the Kuwait Joint Support Office, higher requirements for official travel, construction of overhead protection for prefabricated offices, new cost-sharing arrangements for air transportation provided by UNAMI, and higher requirements for maintenance of communications and information technology equipment and support services.
126. The proposed resource requirements for the 11 special political missions presented under cluster III would amount to \$420.2 million, representing an overall increase of \$26.0 million (6.6 per cent) compared with the appropriation for 2022. A predominant reason for this increase is that the appropriation for 2022 (as shown in table 5 below), in accordance with standard practice, does not include the commitment authority in the amount of \$17,945,500 approved by the General Assembly in its resolution [76/246 B](#). The overall increase of \$26.0 million under this cluster hence reflects the net result of the following four main factors: (a) an increase of \$19.2 million in UNSMIL, reflecting the continuation of the ceasefire monitoring component in the Mission, inclusive of 99 new positions approved by the Assembly in resolution [76/246 B](#), which remain essential to ensure effective implementation of the mandates including those contained in Security Council resolutions [2542 \(2020\)](#) and [2570 \(2021\)](#), as well as seven additional positions proposed for 2023, taking into account the renewal of the mandate in Council resolution [2629 \(2022\)](#), together with increases in operational costs, mostly under facilities and infrastructure, communications and information technology and air operations; (b) an increase of \$10.2 million in UNITAMS due mainly to the application of a lower vacancy rate of 25 per cent compared with 45 per cent in 2022, reflecting the continued scaling up of the operations of the Mission following its initial start-up period in 2020 and 2021; (c) a decrease of \$5.1 million in UNMHA, mainly under facilities and infrastructure for the exclusion of a provision for the airport headquarters and non-availability of additional office and accommodation premises in Hudaydah; and (d) an increase of \$1.7 million in all other missions reflecting the increases in staffing costs due to the application of the latest salary scale and common staff costs based on actual expenditure patterns, offset by decreases in operational costs mostly under air operations based on latest contractual rates.
127. The proposed resource requirements for UNAMA are in the amount of \$133.6 million, reflecting the maintenance level compared with the revised proposed budget for 2022 submitted for the consideration of the General Assembly ([A/76/6 \(Sect.3\)/Add.9](#)), in which resources of \$133.6 million are proposed. Should comparison be made to the 2021 appropriation of \$136.9 million, which was the last period for which an appropriation is available, the proposed level of resources for both 2022 and 2023 represent a reduction of \$3.3 million, or 2.4 per cent. For 2022, given that the Assembly has yet to approve an appropriation for UNAMA pending the consideration of the proposed revised budget for 2022, no provision is included as the 2022 appropriation in table 5 below, in accordance with standard practice, except for an amount of \$44,900, which is the portion for UNAMA of the additional resources appropriated for all regular budget entities in the context of the decisions and recommendations contained in the report of ICSC, as approved by the Assembly in resolution [76/246 A](#) (section XIV).

128. The proposed resource requirements for UNAMI are lower than the appropriation for 2022 by \$0.5 million (0.6 per cent). The decrease is mainly attributable to: (a) a decrease of \$0.2 million for the United Nations Guard Unit due to a lower cost for the catering contract; (b) a decrease of \$3.6 million in civilian staff costs, due mainly to the proposed abolishment of 31 positions, the conversion of six positions from international to national positions, and lower national staff costs resulting from the application of a lower percentage of common staff costs; and (c) an increase of \$3.3 million in operational costs due to higher requirements for facilities and infrastructure in connection with the planned renovation of the Kuwait office and of facilities related to the Guard Unit, ground transport due to the planned replacement of two medium-sized armoured buses, and official travel due to an increase in the number of in-person meetings, especially for travel within the Mission where a physical presence is needed to effectively carry out mandated activities.
129. The share of special political missions for the cost of the Regional Service Centre reflects an increase of \$0.3 million, attributable to: (a) the increase in the costs of international staff for the Centre for the 2022/23 period due to the reduction of the vacancy rate for international staff from 11 per cent to 8 per cent, the application of updated salary rates and an increase in common staff costs from 89.5 per cent to 92.4 per cent; (b) the increase in the costs of national staff due to the application of a higher within-grade step level to reflect the actual average and an increase in common staff costs from 32 per cent to 36 per cent based on historical trends; and (c) the increase in the share of special political missions of the costs of the Centre from 4.3 per cent in the 2021/22 period to 5.1 per cent in the 2022/23 period.

Table 5
Summary of estimated requirements for 2023

(Thousands of United States dollars)

	2022 appropriation ^a	2023 requirements	Variance	
			Amount	Percentage
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)
Cluster I	49 899.0	50 779.4	880.4	1.8
Cluster II	61 570.9	63 223.8	1 652.9	2.7

UNAMA ^c	44.9	133 609.9	133 565.0	–
UNAMI	97 673.2	97 104.5	(568.7)	(0.6)
Subtotal (net)	603 377.0	764 931.0	161 554.0	26.8
Provision for the share of special political missions for the Regional Service Centre	1 820.2	2 144.3	324.1	17.8
Total (net)	605 197.2	767 075.3	161 878.1	26.7

^a The 2022 approved resources of \$605,197,200 include:

- (a) An amount of \$604,867,900 for 37 special political missions and the share of the Regional Service Centre in Entebbe for 2022, approved in Assembly resolution [76/246 A](#) (sect. X, paras. 4 and 6);
- (b) An amount of \$329,300 related to the decisions and recommendations contained in the report of ICSC, as approved in Assembly resolution [76/246 A](#) (section XIV).

^b In its resolution [76/246 B](#), the Assembly approved a commitment authority for UNSMIL for 2022 in an amount of \$17,945,500. No appropriation for 2022 has yet been made and in accordance with established practice the resources for 2022 reflected in table 5 do not include that amount.

^c In its resolution [76/246 A](#), the Assembly approved a commitment authority for UNAMA for 2022 in an amount of \$107,636,800. No appropriation for 2022 has yet been made and in accordance with established practice the resources for 2022 reflected in table 5 do not include that amount. A proposed revised budget for 2022 for UNAMA is contained in document [A/76/6 \(Sect.3\)/Add.9](#) and upon approval by the Assembly the final amount will be included as part of the 2022 appropriation. The amount of \$44,900 shown in table 5 relates to the UNAMA share of the amount of \$329,300 approved in the context of the decisions and recommendations contained in the report of ICSC, which has been apportioned to all special political missions.

Table 6
Summary of variances between approved resources for 2022 and proposed resources for 2023

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
Cluster I					
1. Office of the Special Adviser to the Secretary-General on Cyprus	2 955.0	3 050.7	95.7	3.2	The increase is attributable to increased requirements under civilian personnel costs due to the application of the latest salary scale to the cost of international positions and the application of the latest operational rate of exchange to the cost of national positions.
2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide	2 698.3	2 820.4	122.1	4.5	The increase is attributable to increased requirements under civilian personnel costs, resulting from factors that include the full provision for one position for which only six months of funding was provided in the 2022 approved budget, the proposed establishment of one position and the application of a higher percentage of common staff costs based on recent expenditure patterns.
3. Personal Envoy of the Secretary-General for Western Sahara	476.5	477.5	1.0	0.2	The increase is attributable to additional requirements under facilities and infrastructure and under communications and information technology for the Office of the Personal Envoy of the Secretary-General in Brussels, offset in part by reduced requirements for common staff costs for international staff, based on recent expenditure patterns.
4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	338.6	376.6	38.0	11.2	The increase is attributable to the application of a higher percentage of common staff costs, based on recent expenditure patterns.
5. United Nations Representative to the Geneva International Discussions	2 045.0	1 987.9	(57.1)	(2.8)	The decrease is attributable to the application of a lower percentage of common staff costs, based on recent expenditure patterns, offset in part by increased requirements under official travel due to increased requirements for within-mission travel.
6. Office of the Special Envoy of the Secretary-General for Syria	16 132.6	15 565.7	(566.9)	(3.5)	The decrease is attributable to the application of a higher vacancy rate for international staff and the proposed abolishment of three international positions, and lower operational costs due to a new lower-cost contract for rental of office space in Damascus. The decrease is offset in part by increased requirements under: (a) air operations, due to a new requirement for charter air service to transport members of the Constitutional Committee; and (b) maintenance of communications and information technology equipment.
7. Office of the Special Envoy of the Secretary-General for the Horn of Africa	1 763.6	1 921.0	157.4	8.9	The increase is attributable to additional requirements under: (a) civilian personnel costs, due to the application of the latest salary scales; and (b) operational costs, due to the requirement for rental of office premises at the United Nations Office at Nairobi and non-recurrent requirements to replace one of the mission's two United Nations-owned vehicles that has reached the end of its operational life.

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region	5 133.9	5 740.4	606.5	11.8	The increase is attributable mainly to additional requirements under: (a) civilian personnel costs, resulting from the delayed impact of three positions approved in 2022 for which a vacancy rate of 50 per cent was applied in the previous period; and (b) other services, owing to increased requirements under translation, interpretation and conference management services.
9. Office of the Special Envoy of the Secretary-General for Yemen	17 202.0	17 430.6	228.6	1.3	The increase is attributable to increased requirements for civilian personnel costs, resulting from the revised salary scales and proposed establishment of one international position, and higher costs for rental of premises, increased requirements for maintenance of communications and information technology equipment, an additional requirement for mandatory training for safety and security staff and higher prices for generator fuel in Yemen. The increase is partly offset by reduced requirements for operational costs, resulting from a reduced cost-sharing ratio for the rental and operation costs of one fixed-wing aircraft with UNAMI and reduced requirements for freight.
10. Office of the Special Envoy of the Secretary-General on Myanmar	1 153.5	1 408.6	255.1	22.1	The increase is attributable to increased requirements under civilian personnel costs, resulting from the application of the revised salary scales and the fixed-term contract of the Special Envoy, compared with the previous incumbent who was on a when-actually-employed contract.
Subtotal, cluster I	49 899.0	50 779.4	880.4	1.8	
Cluster II					
11. Group of Experts on the Democratic Republic of the Congo	1 419.5	1 524.2	104.7	7.4	The increase is attributable to higher requirements under civilian personnel costs due to the application of a higher percentage of common staff costs based on recent expenditure patterns and updated salary rates, as well as higher requirements for the experts' fees.
12. Panel of Experts on the Sudan	1 073.1	1 120.4	47.3	4.4	The increase is attributable to higher requirements for the experts' fees due to a higher average monthly rate for the fees resulting from changes in the composition of the Panel, partially offset by lower requirements under civilian personnel costs attributable mainly to the application of a lower percentage of common staff costs.
13. Panel of Experts on the Democratic People's Republic of Korea	3 094.5	3 110.6	16.1	0.5	The increase is attributable to higher requirements for the experts due to a higher average monthly rate for the fees resulting from changes in the composition of the Panel, partially offset by lower requirements under civilian personnel costs attributable to the application of a lower percentage of common staff costs.
14. Panel of Experts on Libya	1 431.5	1 410.4	(21.1)	(1.5)	The decrease is attributable to lower requirements for the experts' fees resulting from a lower average monthly rate for the fees resulting from a change in the composition of the Panel, partially offset by higher requirements under civilian personnel costs attributable to the application of a higher percentage of common staff costs based on recent expenditure patterns.

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors		
			(1)	(2)		Amount	Percentage
						(3)=(2)-(1)	(4)=(3)/(1)
15. Panel of Experts on the Central African Republic	1 163.8	1 193.2	29.4	2.5	The increase is attributable to higher requirements for experts' fees resulting from a change in the composition of the Panel, as well as higher requirements under civilian personnel costs resulting from the application of a higher percentage of common staff costs based on recent expenditure patterns and updated, higher salary rates.		
16. Panel of Experts on Yemen	2 302.2	2 210.0	(92.2)	(4.0)	The decrease is attributable to lower requirements under civilian personnel costs resulting from the application of a lower percentage of common staff costs for international staff positions based on recent expenditure patterns, partially offset by higher salaries for international staff due to the application of a lower vacancy rate, and the decreased requirements for experts' fees due to lower average monthly fees resulting from a change in the composition of the Panel.		
17. Panel of Experts on South Sudan	1 253.8	1 257.6	3.8	0.3	The increase is attributable to higher requirements under civilian personnel costs, resulting from the revision of average staff costs based on the within-grade steps of the current incumbents, partially offset by lower requirements for the experts' fees resulting from a change in the composition of the Panel.		
18. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	5 871.5	5 854.9	(16.6)	(0.3)	The decrease is attributable to lower requirements under civilian personnel costs due primarily to the application of a lower percentage of common staff costs based on recent expenditure patterns, offset in part by higher requirements due to the application of a lower vacancy rate.		
19. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	668.1	617.3	(50.8)	(7.6)	The decrease is attributable to lower requirements under civilian personnel costs resulting from the application of a lower percentage of common staff costs based on recent expenditure patterns, partially offset by updated, higher salary rates and the higher monthly fee for the new Ombudsperson appointed in 2022.		
20. Implementation of Security Council resolution 2231 (2015)	1 392.6	1 533.5	140.9	10.1	The increase is attributable to higher requirements under civilian personnel costs, resulting from the application of a higher percentage of common staff costs, based on recent expenditure patterns as well as updated, higher salary rates.		
21. Panel of Experts on Mali	1 144.7	1 194.1	49.4	4.3	The increase is attributable to higher requirements under civilian personnel costs, resulting from the revision of the average staff costs based on the within-grade steps of the current incumbents, as well as increased requirements under experts' fees resulting from a change in the composition of the Panel.		
22. Panel of Experts on Somalia	1 878.2	1 858.9	(19.3)	(1.0)	The decrease is attributable to lower requirements for experts' fees due to a change in the composition of the Panel, partly offset by the higher requirements for national staff due to the application of an assumption of full incumbency.		

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
23. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	3 137.7	3 135.5	(2.2)	(0.1)	The decrease is attributable to lower requirements under civilian personnel costs due to the application of a lower percentage of common staff costs based on recent expenditure patterns, partly offset by higher requirements for experts' travel and the cost for the development of an online database, as well as for a web collaboration space with the Office for Disarmament Affairs.
24. Counter-Terrorism Committee Executive Directorate	11 278.7	11 570.9	292.2	2.6	The increase is attributable to higher requirements under civilian personnel costs due to the application of the updated salary rates.
25. UNITAD	24 461.0	25 632.3	1 171.3	4.8	The increased requirements are attributable mainly to: (a) additional requirements under civilian personnel costs due to the application of lower vacancy rates for all categories of civilian personnel except government-provided personnel, updated salary rates for national staff and the establishment of a Local level position in the Kuwait Joint Support Office; (b) higher requirements for official travel; (c) construction of overhead protection for prefabricated offices pursuant to the security risk assessment and the installation of solar panels; (d) cost-sharing of one fixed-wing aircraft provided by UNAMI; and (e) higher requirements for maintenance of communications and information technology equipment and support services. The increased requirements are partly offset by reduced requirements for: (a) mission subsistence allowance for government-provided personnel; (b) consultants and consulting services, due to the increased in-house capacity; (c) non-acquisition of vehicles; and (d) medical services, due to estimated fewer aeromedical evacuations and hospitalization.
Subtotal, cluster II	61 570.9	63 223.8	1 652.9	2.7	
Cluster III					
26. UNOWAS	14 658.6	14 835.2	176.6	1.2	The increase is attributable to: (a) increased requirements for international staff due to the increase in post adjustment in Senegal; (b) increased share of the costs for the new United Nations House in Dakar, in which the mission will be accommodated from 2023; and (c) the acquisition of laptops to replace those due for replacement in 2023 and the costs for the transition of communications and information technology services from the previous premises to the new United Nations House, offset by a decrease in requirements for national staff due to the application of a lower percentage of common staff costs based on recent expenditure patterns.
27. UNSOM	98 507.2	97 045.5	(1 461.7)	(1.5)	The decrease is attributable to lower requirements for operational costs under: (a) air operations, due mainly to lower guaranteed costs of the fleet as a result of the new fleet contract, as well as lower operational costs and maintenance fees; (b) lower requirements for petrol, oil and lubricants due to the exclusion of a one-time mobilization fee for petrol, oil and lubricants that was incurred in 2022 with the new contract; and (c) facilities and

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
					infrastructure, due to lower security services costs as a result of increased cost-sharing with the United Nations country team for the armed mobile protection convoys. The reduced requirements for operational costs are offset in part by increased requirements under civilian personnel costs, due mainly to (a) increased costs for United Nations Volunteers; (b) higher salary costs for international staff; and (c) the proposed establishment of three international staff positions, one National Professional Officer position and one United Nations Volunteer position.
28. United Nations Regional Centre for Preventive Diplomacy for Central Asia	2 894.2	3 292.7	398.5	13.8	The increase is attributable to higher requirements for civilian personnel costs due to: (a) the increase of the post adjustment multiplier in Turkmenistan; and (b) the application of a higher percentage of common staff costs for national staff, based on recent expenditure patterns, offset by reduced requirements for operational costs under ground transportation due to the exclusion of a provision for the acquisition of vehicles.
29. United Nations support for the Cameroon-Nigeria Mixed Commission	3 525.0	3 781.3	256.3	7.3	The increase is attributable to: (a) additional requirements for civilian personnel costs due to the application of a higher percentage of common staff costs for international staff based on expenditure patterns and on the increase of the post adjustment multiplier in Senegal; and (b) additional requirements for operational costs under communications and information technology, replacement of obsolete equipment and acquisition of public information and publication services with respect to the broadcasting and dissemination of information, offset by decreases in military and police personnel costs due to the application of the new mission subsistence allowance rates.
30. Office of the United Nations Special Coordinator for Lebanon	9 558.4	10 200.1	641.7	6.7	The increase is attributable to increased requirements under civilian personnel costs due to the application of the latest salary rates, including the increase in the post adjustment multiplier for international staff.
31. UNOCA	8 530.1	9 074.1	544.0	6.4	The increase is attributable to: (a) higher requirements for international staff due to the application of a lower vacancy rate compared with the rate applied in the approved 2022 budget; (b) the proposed establishment of one new United Nations Volunteer position and one Local level position for 2023; and (c) the replacement of obsolete communications and information technology equipment.
32. UNSMIL	69 262.0	88 432.2	19 170.2	27.7	The increase is attributable to: (a) the continuation of the ceasefire monitoring component into 2023, inclusive of the 99 positions established in accordance with resolution 76/246 B, to ensure no disruption to and the continued implementation of the ceasefire monitoring mandate, for which a commitment authority was approved but no appropriation has yet been made for 2022; (b) higher requirements for civilian personnel costs resulting mainly from the updated salary scales and the proposed establishment of eight new positions (2 P-5, 1 P-4, 4 P-3 and 1 National Professional Officer), offset by the abolishment of 1 D-1 position, in 2023; and (c) higher requirements for operational costs under: (i) facilities and infrastructure, resulting from the application of the latest contractual prices for rental of premises and maintenance services; (ii) communications and information technology for the replacement of equipment that has passed its life expectancy; and (iii) air operations, due to higher requirements as a result of the increase in the price of fuel.

Mission	2022 appropriation	2023 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
33. United Nations Verification Mission in Colombia	66 800.6	67 454.7	654.1	1.0	The increase is attributable to: (a) additional requirements for civilian personnel costs due to the delayed impact of 43 positions approved in 2022 for new mandated activities, offset by (a) decreased requirements for military and police personnel costs, owing to the application of the new mission subsistence allowance rates; and (b) air operations, due to the establishment of a new contractual agreement for the rental and operation of the fixed-wing aircraft instead of additional rotary-wing aircraft as previously planned.
34. UNMHA	42 292.0	37 193.0	(5 099.0)	(12.1)	The decreased requirements are attributable to: (a) no provision for the airport headquarters; (b) non-availability of additional office and accommodation premises in Hudaydah; (c) no requirement for additional security enhancement and construction works for the existing premises; (d) reduced number of flight hours; (e) no requirement for level II hospital services in Djibouti; and (f) a reduced requirement for freight costs due to the lower level of acquisitions. The reduced requirements are partially offset by: (a) a new requirement for operational and security services for a new office and accommodation premises in the southern districts; (b) a new requirement for quick-impact projects; (c) the proposed establishment of three new positions (1 Field Service and 2 Local level) in the Kuwait Joint Support Office; (d) increased costs under international staff due to the application of the latest salary scales and under national staff due to higher salary rates based on actual average within-grade steps of existing staff, as well as the increase in the salary scales for national staff based in Amman and the application of the higher percentage of common staff costs; and (e) an increased requirement for backup satellite Internet in Hudaydah.
35. BINUH	21 841.3	22 342.5	501.2	2.3	The increase is attributable mainly to: (a) the application of a lower vacancy rate, and higher hardship allowances resulting from the reclassification of Haiti duty stations from class D to class E; (b) new requirements for consultants and consulting services to provide short-term services in the areas of corrections and police reforms, the constitution, justice and the election process; (c) the acquisition of five vehicles to replace the ageing fleet and higher costs due to the increase in the price of fuel; and (d) the acquisition of information technology equipment to replace obsolete stock, higher requirements for centralized support services and software licences and fees, partly offset by decreased requirements for national staff as a result of the devaluation of the local currency and the application of a lower percentage of common staff costs, as well as lower requirements for mission subsistence allowance for United Nations police due to the application of updated mission subsistence allowance rates.
36. UNITAMS	56 319.6	66 562.1	10 242.5	18.2	The increase is attributable to: (a) higher requirements for police and civilian personnel due to the application of lower vacancy rates compared with 2022; (b) higher requirements for individual consultants with expertise in the areas of peace consolidation and protection of civilians; (c) higher requirements for official travel reflecting the expanded level of engagement of the mission, the need to undertake essential within-mission and outside-mission travel activities, and mandatory training requirements that were not reflected in 2022; (d) higher requirements for ground transportation related to the planned replacement

					of ageing vehicles transferred from the African Union-United Nations Hybrid Operation in Darfur; (e) higher requirements in communications and information technology services due mainly to the higher number of personnel for deployment in 2023 compared with 2022, offset in part by reduced requirements due to equipment being acquired in the previous period; (f) higher requirements in medical services to cater to the increase in demand for aeromedical evacuation services; and (g) higher requirements for other supplies, services and equipment related to the facilitation of meetings.

UNAMA and UNAMI					
37. UNAMA	44.9	133 609.9	133 565.0		– For 2022, given that the General Assembly has yet to approve an appropriation for UNAMA pending consideration of the proposed revised budget for 2022, no provision is included as the 2022 appropriation, except for an amount of \$44,900, which is the portion for UNAMA of the additional resources appropriated for all regular budget entities in the context of the decisions and recommendations contained in the report of ICSC, as approved in Assembly resolution 76/246 A (section XIV).
38. UNAMI	97 673.2	97 104.5	(568.7)	(0.6)	The decrease is attributable mainly to: (a) lower requirements for rations due to lower catering contract costs; and (b) decreased requirements for civilian personnel due to the proposed abolishment of 31 positions, as well as lower national staff costs resulting from the application of the lower percentage of common staff costs based on recent expenditure patterns. The decreased requirements are offset by increased requirements under operational costs, mainly under: (a) facilities and infrastructure in connection with the planned renovation of the Kuwait office and of facilities related to the Guard Unit; (b) ground transport, due to the planned replacement of two medium-sized armoured buses; and (c) official travel, due to the anticipated increase in in-person meetings and activities required to support effective mandate implementation.
Subtotal, UNAMA and UNAMI	97 718.1	230 714.4	132 996.3	–	
Provision for the share of special political missions for the Regional Service Centre	1 820.2	2 144.3	324.1	17.8	The increase is attributable to: (a) the increase in the costs of international staff for the Centre for the 2022/23 period due to the reduction of vacancy rates for international staff from 11 per cent to 8 per cent, the application of updated salary rates and an increase in common staff costs from 89.5 per to 92.4 per cent; (b) the increase in the costs of national staff due to the application of a higher within-grade step level to reflect the actual average, and an increase in common staff costs from 32 per cent to 36 per cent based on historical trends; and (c) the increase in the share of special political missions in the cost of the Centre, from 4.3 per cent in the 2021/22 period to 5.1 per cent for the 2022/23 period.

Positions

130. The number of civilian personnel proposed for 2023 reflects an overall decrease of 39 positions, from 4,661 to 4622, as a result of a reduction of 27 positions in UNAMA, 31 positions in UNAMI and one position in cluster I, offset by an increase of one position in cluster II and 19 positions in cluster III.
131. For UNSMIL, the staffing table for 2022 includes 99 new positions approved by the Assembly in resolution [72/266 B](#).
132. For UNAMA, the staffing as contained in the proposed revised budget for 2022 ([A/76/6 \(Sect. 3\)/Add.9](#)) is used to enable consolidation of the 2022 overall staffing. The proposed staffing of UNAMA for 2022 is subject to approval by the General Assembly.
133. The total number of civilian positions by cluster is summarized in table 9. The number, category and level of civilian positions for each mission are provided in table 10. A breakdown by mission of the proposed changes in the number, level, location, organizational unit and functional titles of civilian positions is provided in annex XVIII to the present report.

Table 9

Summary of proposed civilian staffing

	2022	2023	Variance	
			Amount	Percentage
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)
Cluster I	281	280	(1)	(0.4)
Cluster II	264	265	1	0.4
Cluster III ^a	2 112	2 131	19	0.9
UNAMA ^b	1 200	1 173	(27)	(2.3)
UNAMI	804	773	(31)	(3.9)
Total	4 661	4 622	(39)	(0.9)

^a Includes 99 new positions established pursuant to General Assembly resolution [72/266 B](#).

^b Reflects the staffing as contained in the proposed revised budget for 2022 ([A/76/6 \(Sect. 3\)/Add.9](#)), which is subject to approval by the Assembly.

Methodology for the calculation of standard salaries for special political missions

134. With regard to international staff costs, the budgetary rates for net salary and staff assessment for 2023 were determined for each grade level and for each special political mission according to the following methodology:
- The salary rates were updated using the revised base salary scale for Professional and higher categories, as approved by the General Assembly in its resolution [76/240](#), effective 1 January 2022. The scale reflects a 0.92 per cent adjustment to be implemented by increasing the net base salary and commensurately decreasing post adjustment multiplier points, resulting in no loss/no gain in net take-home pay. The net base salary scale for staff in the Field Service category has also been revised effective 1 January 2022 (see [ST/IC/2022/3](#));
 - The within-grade step levels selected for each grade are based on the actual average step levels for each mission as at 31 December 2021, using actual incumbency data for international staff;
 - The post adjustment multiplier for each duty station for January 2022 was applied to the net base salary rates.

135. In addition, the actual expenditure for common staff costs and net salaries (including post adjustment but net of staff assessment) for the period from 1 January to 31 December 2021 was used to calculate the percentage of common staff costs applied to the proposed resource requirements for 2023.
136. In accordance with standard practice for the proposed resource requirements for special political missions, the estimates of national staff costs are based upon the actual level and step for salaries and historical expenditure for common staff costs in a particular duty station.
137. Annex XV provides the comparison of budgeted and actual vacancy rates, by personnel category, of each mission.

Vacancies

138. In line with the recommendations of the Advisory Committee on Administrative and Budgetary Questions, as endorsed by the General Assembly (A/71/595, para. 46 (b)), information on the approved vacancy rates for 2022 and the proposed vacancy rates for 2023, as well as actual vacancy rates for 2021, are provided in annex XV to the present report. The proposed vacancy factors take into account the most recent vacancy rates, current fiscal year-to-date average vacancy rates, historical incumbency patterns and proposed changes in the composition of staff, as applicable. In general, the proposed rates for 2023 reflect the actual average vacancy rate for the period from 1 January to December 2021. In some cases, they also take into account the increase in recruitment in 2022 and the anticipated onboarding of additional staff before the end of the year. In cases where the average vacancy rate for civilian staff positions in 2021 was nil, a rate of 5 per cent is usually proposed, taking into account the possible turnover of existing staff.
139. Special political missions are fully cognizant of the recommendations of the Advisory Committee on Administrative and Budgetary Questions (A/76/7/Add.1, para. 35) that vacant posts and positions should be filled expeditiously. From the beginning of 2020 until May 2021, liquidity constraints resulted in mitigation measures that placed on hold recruitment activities under the regular budget, which allowed the Organization to pay salaries and entitlements to its personnel and to settle payments to vendors, by controlling hiring and adapting commitments based on collections. Since May 2021, recruitment activities have resumed, but in a gradual manner owing to the remaining uncertainty. Efforts have, however, accelerated in 2022 to fill vacant positions, especially long-vacant positions. Moreover, missions have also taken opportunities in the preparation of the 2023 budget to critically review these positions with a view to abolishing vacant positions that can be covered by other staff.
140. In keeping with the practice for other sections of the programme budget, information on positions that have been vacant for more than two years and positions encumbered through special post allowances for more than one year, as at 30 April 2022, is included in the supplementary information for each thematic cluster, which provides details on the vacancy or special post allowance start date, level and functional title of the position, the organizational unit and the current status of recruitment.

Abbreviations: ASG, Assistant Secretary-General; NPO, National Professional Officer; UNV, United Nations Volunteers; USG, Under-Secretary-General.

^a The Under-Secretary-General is on a when-actually-employed contract.

^b The Assistant Secretary-General is on a \$1-a-year contract.

^c Includes one P-4 position approved as a general temporary assistance position for six months in the 2022 budget.

^d The Under-Secretary-General is on a \$1-a-year contract.

^e Includes 1 general temporary assistance position (Local level).

^f One position is funded at 50 per cent and cost-shared with the Development Coordination Office.

^g Includes one general temporary assistance position (D-1).

^h The staffing table of UNSMIL for 2022 includes 311 positions approved in resolution 76/246 A and 99 positions approved in resolution 76/246 B.

ⁱ Includes one general temporary assistance position (P-5).

^j Includes one P-4 and one P-3 approved as general temporary assistance positions.

^k Includes five general temporary assistance positions (1 D-1, 1 P-5, 1 P-4 and 2 General Service (Other level)).

^l Includes one general temporary assistance position (P-4).

^m For UNAMA, the staffing table as contained in the proposed revised budget for 2022 (A/76/6 (Sect.3)/Add.9) is used in the present table to enable consolidation of 2022 total staff positions, given that, unlike other missions, there is no approved staffing table for 2022 at the time of finalizing the present report. The proposed staffing of UNAMA for 2022 is subject to approval by the Assembly.

Annex I

Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Advisory Committee on Administrative and Budgetary Questions (A/76/7/Add.1), as endorsed by the General Assembly in its resolution 76/246 A

The Advisory Committee notes that the United Nations Assistance Mission in Somalia (UNSOM) has a total of 12 support staff working in the Office of the Deputy Special Representative of the Secretary-General (Resident Coordinator/Humanitarian Coordinator), compared with a capacity ranging from 2 to 5 such staff in other integrated missions. The Advisory Committee trusts that the Mission will assess the related support staff capacity and report on it in the next budget submission. The Committee discusses the matter further in its related report (A/76/7/Add.4) (para. 24).

The Advisory Committee trusts that information, including lessons learned, on transfer of functions of closed missions to the resident coordinator system will be provided in the context of future budget submissions (para. 26).

The Advisory Committee therefore recommends that the General Assembly approve the four positions of mine action programme managers under general temporary assistance for 2022 and request the Secretary-General to review the mine action programmes in the four special political missions, including their respective staffing requirements and appropriate management levels, with a view to improving accountability and efficiency, and report the outcome in the proposed programme budget for 2023 (para. 29).

The Committee recalls that, further to its resolutions 61/276 and 66/264, the General Assembly, in its resolution 74/263, requested the Secretary-General to continue his efforts to promote the nationalization of positions, whenever appropriate, as well as to build local capacity within the special political missions and to report thereon in the context of future budget submissions (para. 31).

The 12 staff working in the Office of the Deputy Special Representative of the Secretary-General (Resident Coordinator/Humanitarian Coordinator) of UNSOM are not all support staff. Of the 12, 10 are substantive staff working in the New Partnership for Africa's Development Support Unit (3 staff members), the Community Recovery and Extension of State Authority and Accountability Unit (6 staff members), and the Preventing and Countering Violent Extremism Unit (1 staff member).

The support staff of the Office of the Deputy Special Representative currently comprise only 1 P-4 and 1 Field Service staff member. Such support capacity is in line with the support capacities in other integrated missions.

The lessons learned on the transfer of functions of closed missions to the resident coordinator system are presented in paragraphs 41 to 49 of the present report.

Information on the review of the mine action programmes in the four special political missions is presented in paragraphs 86 to 94 of the present report.

Additional measures continue to be taken in missions to promote nationalization. For instance, the special measures approved for UNSOM by the Office of Human Resources in 2018 and extended in 2019 reduced work experience requirements to attract potential candidates, increasing opportunities for employment and skills-building as part of national capacity-building that will enable the future nationalization of additional positions. However, the Mission found that special measures alone did not compensate for the scarcity of skilled resources. As a

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Upon enquiry, the Advisory Committee was informed that the updates were still being finalized, as the Department had tried to incorporate inputs from stakeholders to develop a richer product with more added value, but in doing so, the review process had extended beyond the original timeline foreseen. It was expected that the updated guidelines would be promulgated by the end of the third quarter. The Advisory Committee trusts that information on the issuance and implementation of the updated guidelines will be provided in the context of the next budget submission of the special political missions (para. 32).

While it notes the slight increase in the number of missions with higher rates of compliance for 2020, the Advisory Committee recalls that the General Assembly, in its resolution [74/262](#), expressed concern at the low rate of compliance with the advance purchase policy directive and requested the Secretary-General to make stronger efforts to further enhance the rate of compliance with the advance purchase policy directive across all travel categories, taking into account the patterns and nature of official travel and the reasons for non-compliance by each department, office and field mission (para. 41).

The Advisory Committee reiterates the importance of upgrading obsolete information and communications technology (ICT) equipment, and trusts that the Secretary-General will provide consolidated information on the status of the upgrading of such equipment in the context of the next proposed programme budget. The Committee looks forward to further consideration of consolidated information on the

result, UNSOM and United Nations Support Office in Somalia (UNSOS) leadership authorized increased funding for training and career support activities for national staff.

Measures were also taken to increase collaboration with national stakeholders. For example, the United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD) engaged with its national counterparts, notably the national coordinating committee, to identify potential candidates for national positions. The mission organized a workshop for such candidates in 2021 to familiarize them with United Nations application procedures, which yielded a number of potential candidates that UNITAD could consider for upcoming vacancies. Another workshop, specifically targeting female candidates, will be considered for 2022.

Information on the updated guidelines is presented in paragraphs 66 to 70 of the present report.

Sustainable advance travel planning has remained a challenge for many missions in the face of, at times, ad-hoc COVID-19 restrictions and challenges, notably with the spread of new, easily transmissible variants. Furthermore, the missions have found it important to remain flexible in order to take advantage of the availability of witnesses for interviews and to be able to respond to Government counterparts' requests for meetings and support. In addition, the volatile political and security environment has further challenged proper travel planning.

The Office of Information and Communications Technology is currently reviewing the status of hardware, equipment and enterprise applications, including cybersecurity, across the Organization and the estimated capacity requirements for the next 5- to 10-year period, including in respect of technological obsolescence, innovation, the growing footprint of ICT operations and the hybrid on-premise/cloud

status of upgrading obsolete ICT equipment in the capital investment plan at the seventy-seventh session (see [A/76/7](#), para. VIII.56) (para. 46).

The Advisory Committee reiterates that, as requested by the General Assembly in its resolution [74/263](#), the Secretary-General will continue to ensure that actual allocations of vehicles and information technology equipment will be regularly reviewed and aligned with the standard ratios, and that specific justification for higher allocations by missions will be provided in the context of future budget submissions (para. 49).

The Advisory Committee reiterates its expectation that consolidated information on backstopping positions at Headquarters will continue to be provided in future budget submissions. The Committee continues to believe that the existing backstopping positions at Headquarters should be reviewed annually in order to realign the capacities when changes in the mandates of the missions occur, with a view to achieving more efficiency in backstopping support (see [A/75/7/Add.2](#), para. 48) (para. 52).

The Advisory Committee trusts that information on positions at the D-1 and D-2 levels and at the levels of Under-Secretary-General and/or Assistant Secretary-General will be included under separate groups in the gender distribution of staff in the context of future budget submissions (para. 63).

The Advisory Committee notes that, inconsistent with the provision of information on gender in annexes I and XVI (see [A/76/6 \(Sect. 3\)/Add.1](#) and para. 65 below), no such information on geographical representation is provided in the report and trusts that related information will be included in future budget submissions (para. 64).

The Committee reiterates that the Assembly should request the Secretary-General to take measures, including through the recruitment of new staff and by strengthening the accountability framework of the managers, to improve geographical representation and gender balance in all the special political missions and provide an update in future budget submissions, including on geographical representation by nationality (para. 65).

architecture landscape of applications and services, as well as the related requirements for infrastructure capacity and technology upgrades as a result. A capital investment plan report will be submitted to the General Assembly at the main part of its seventy-seventh session (see [A/76/7](#), para. VIII.56).

Information on the allocation of vehicles and information technology equipment is presented in paragraphs 99 to 104 and tables 3 and 4 of the present report.

Information on backstopping positions at Headquarters is consolidated and presented in paragraphs 95 to 98 and annex III of the present report.

In keeping with the spirit of this recommendation, information on gender and geographical distribution of civilian staff in special political missions in annexes XVI and XVII of the present report has been presented with staff at the Under-Secretary-General and Assistant Secretary-General levels, and those at the D-1 and D-2 levels, reflected under separate groups.

Annexes XVI and XVII of the present report provide details on the latest gender and geographical distribution of staff as at 30 April 2022.

Information on efforts to improve gender and geographical representation of civilian staff is presented in paragraphs 71 to 76 of the present report. Annexes XVI and XVII of the present report provide details on the latest gender and geographical distribution of staff as at 30 April 2022.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

The Advisory Committee expects that the missions will refine the formulation of the planning assumptions to ensure more consistency in the reflection of their operational environment (para. 68).

Special political missions have mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the changing operational environment. The planning assumptions are based on a systematic analysis of the lessons learned in past years, and the expected results for 2023 are expressed to best reflect the missions' experience of the local operational environment.

Planning assumptions have been coordinated with missions in the region, but remain separate and distinct, reflecting the separate and distinct mandates of the missions in the same operational environment. In addition, planning assumptions are consistent with the local operational environment, and due consideration is given to requirements with respect to facilities and infrastructure, ICT, and safety and security.

While noting the improvement made, the Advisory Committee trusts that efforts will be continued to further improve the format and presentation of the budget reports in respect of special political missions, such as the inclusion of an organization chart in an annex to a budget report (rather than in the supplementary information) with clear denotation of staffing changes proposed, as well as the quality of responses provided to the Committee (see also [A/72/7/Add.10](#), para. 51; [A/70/7/Add.10](#), para. 46) (para. 69).

The recommendation is implemented. Beginning with the proposed budget for 2023, the organization charts for all special political missions are included as annex II of each thematic cluster fascicle. Efforts continue to be made by the Secretariat to further enhance the presentation of information in the reports as well as in the written responses provided to the Committee.

The Advisory Committee looks forward to receiving information on a more comprehensive assessment of the implementation of the delegation of authority by the special political missions in the context of the proposed programme budget for 2023 (para. 70).

Information in this respect is presented in paragraphs 38 and 39 of the present report.

Advisory Committee on Administrative and Budgetary Questions ([A/76/7/Add.38](#)), as endorsed by the General Assembly in its resolution [76/246 B](#)

The Committee also, taking into consideration the multitasking nature of the multi-hatted roles of the positions of Deputy Special Representative of the Secretary-General (Resident Coordinator/Humanitarian Coordinator) across field missions, involving many United Nations entities, recommends that the General Assembly request the Secretary-General to review the overall funding arrangements and provide a sustainable and more equitable arrangement in the context of the next report on estimates in respect of special political missions, as appropriate (para. 23).

The Secretariat has conducted the review, the results of which are reported in paragraphs 79 to 84 of the present report.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Advisory Committee on Administrative and Budgetary Questions (A/75/7/Add.8), as endorsed by the General Assembly in its resolution 75/253 A

The Advisory Committee recommends that the General Assembly request the Secretary-General to include systematically in the context of future proposed programme budgets, a detailed breakdown, with the status of incumbency, of all positions at the D-1 and higher levels funded through extrabudgetary resources, including those authorized by the Committee and those established by the Secretary-General (para. 15).

There is currently no position at the D-1 and higher levels funded through the extrabudgetary resources of special political missions.

Annex II

Lead department and mandates of special political missions

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates and expiry dates</i>
Thematic cluster I: special and personal envoys, advisers and representatives of the Secretary-General		
Office of the Special Adviser to the Secretary-General on Cyprus	DPPA	Security Council resolutions 186 (1964) , 367 (1975) , 1250 (1999) , 1475 (2003) , 1758 (2007) , 1818 (2008) , 1873 (2009) , 1930 (2010) , 1986 (2011) , 2026 (2011) , 2058 (2012) , 2114 (2013) , 2135 (2014) , 2168 (2014) , 2197 (2015) , 2234 (2015) , 2263 (2016) , 2300 (2016) , 2338 (2017) , 2369 (2017) , 2398 (2018) , 2430 (2018) , 2453 (2019) , 2483 (2019) , 2506 (2020) , 2537 (2020) and 2561 (2021) ; open-ended
Office of the Special Adviser to the Secretary-General on the Prevention of Genocide		Security Council resolution 1366 (2001) ; S/2004/567 and S/2004/568 ; open-ended
Personal Envoy of the Secretary-General for Western Sahara	DPPA	S/1997/236 , S/2005/497 , S/2005/498 , S/2009/19 , S/2009/20 , S/2017/462 and S/2017/463 ; Security Council resolutions 1813 (2008) , 2099 (2013) and 2468 (2019) ; open-ended
Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	DPPA	Security Council resolution 1559 (2004) ; S/PRST/2006/3 ; open-ended
United Nations Representative to the Geneva International Discussions	DPPA	S/2009/254 , S/2010/103 , S/2011/279 , S/2018/665 and S/2018/666 ; open-ended
Office of the Special Envoy of the Secretary-General for Syria	DPPA	General Assembly resolution 66/253 ; Security Council resolutions 2118 (2013) , 2254 (2015) , 2268 (2016) and 2336 (2016) ; open-ended
Office of the Special Envoy of the Secretary-General for the Horn of Africa	DPPA	S/2011/474 , S/2011/475 , S/2016/258 , S/2016/259 , S/2018/955 and S/2018/979 ; open-ended
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	DPPA	Security Council resolutions 2098 (2013) , 2147 (2014) , 2211 (2015) , 2277 (2016) , 2348 (2017) , 2409 (2018) , 2502 (2019) and 2556 (2020) ; open-ended
Office of the Special Envoy of the Secretary-General for Yemen	DPPA	S/2016/488 and S/2016/489 ; Security Council resolutions 2216 (2015) , 2266 (2016) , 2342 (2017) , 2402 (2018) , 2451 (2018) , 2452 (2019) , 2456 (2019) and 2505 (2020) ; open-ended
Office of the Special Envoy of the Secretary-General on Myanmar	DPPA	General Assembly resolutions 72/248 and 76/180
Thematic cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms

Cost-sharing arrangements in special political missions

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Entities</i>
Cluster I		
Office of the Special Envoy of the Secretary-General for Syria	Cost-sharing arrangements with the United Nations country team on the local security budget and WHO clinics	UNDP, United Nations country team
Office of the Special Envoy of the Secretary-General for the Horn of Africa	Contribution to the United Nations Health Care Centre for joint medical services, based on the number of staff, in accordance with the memorandum of understanding, and security services	United Nations Office at Nairobi
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	The mission's budget includes its portion of common services under the locational support services provided by the United Nations Office at Nairobi, in accordance with the service-level agreement	United Nations Office at Nairobi
Office of the Special Envoy of the Secretary-General for Yemen	<p>Cost-sharing arrangement with UNMHA for the sharing of office premises in Amman and Sana'a and office and accommodation premises in Aden</p> <p>Cost-sharing arrangement with UNAMI for the rental and operational cost of one fixed-wing aircraft, with a share of 25 per cent</p> <p>Cost-sharing arrangement with the United Nations country team for the local security cost-shared budget of DSS for Yemen and Jordan</p> <p>Cost-sharing arrangement with the United Nations country team for joint medical clinics in Yemen</p> <p>Cost-sharing arrangement with the United Nations country team for joint response to the coronavirus disease (COVID-19) pandemic in Yemen</p> <p>Cost-sharing arrangement with IOM for joint response to the COVID-19 pandemic in Jordan</p> <p>Cost-sharing arrangement with the United Nations country team for accommodation in Sana'a</p> <p>Cost-sharing arrangement with the United Nations country team for a recreation facility in Aden</p>	UNMHA, UNAMI, DSS, UNDP, IOM, United Nations country team

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Entities</i>
Office of the Special Envoy of the Secretary-General on Myanmar	Cost-sharing agreement with UNDP for services on the ground, such as security, medical, local transportation, ground coordination and custom clearance, and with ESCAP for administrative services	UNDP, ESCAP
Cluster II		
Panel of Experts on Yemen	The mission's budget includes only its portion(s) of one or more types of costs shared among a number of participating entities, paid to UNDP, the entity providing the shared services/premises. These include office space and accommodations, and security and medical services	UNDP
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD)	Cost-sharing arrangement with UNAMI for shared office premises, cleaning and maintenance services, security services (including the United Nations Guard Unit), UNAMI aircraft services, medical services, fuel and transportation	UNAMI
Cluster III		
United Nations Office for West Africa and the Sahel	<ul style="list-style-type: none"> • Electricity distribution fees • Water distribution fees, garbage, waste disposal or fumigation services • Gardening services • Maintenance and repair for generators • Maintenance and repair (security main gate) • Air operations • Others (if needed or in an emergency) 	Cameroon-Nigeria Mixed Commission
United Nations Assistance Mission in Somalia (UNSOM)	UNSOM logistical and related support is provided by UNSOS, and the related costs are included in the UNSOM budget. The range of services provided by UNSOS includes office and residential accommodation, medical support, fuel, travel on UNSOS aircraft on a seat-available basis, airport security services and ground passes. The cost of three fixed-wing and two rotary-wing aircraft will be shared at a ratio of 30:70 between UNSOM and UNSOS. For ICT resources, UNSOM has its own equipment, and UNSOS provides the back-end and some end-user equipment when required. Common ICT services are shared at a ratio of 30:70 between UNSOM and UNSOS	UNSOS

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Entities</i>
United Nations Regional Centre for Preventive Diplomacy for Central Asia	Under a cost-sharing arrangement, the Regional Centre rents office space from UNDP in the four Central Asian capitals: Nur-Sultan, Bishkek, Dushanbe and Tashkent. The cost-sharing arrangement is based on an existing memorandum of understanding between the Regional Centre and UNDP	UNDP
Office of the United Nations Special Coordinator for Lebanon	<p>Cost-recovery arrangements are in place between the Office and UNIFIL under a memorandum of understanding that covers support in such areas as property management, fuel, supplies and air operations</p> <p>The Office has maintained a cost-sharing arrangement with DSS since 2011 for the rental of office space, ICT-related costs and facility services such as cleaning, building maintenance and utilities</p> <p>The Office maintains office space at the ESCWA premises to support the mobility of the Special Coordinator and his political team, for which the Office reimburses ESCWA for the facility services for the area occupied by its staff</p>	UNIFIL, DSS, ESCWA
United Nations Support Mission in Libya (UNSMIL)	UNSMIL cost-sharing arrangements, subject to capacity and the prevailing security environment, comprise: ground and air transportation, medical services and medical evacuation and other support (use of radio network, telephone service, videoconference and printer and security support (personnel and property)). UNSMIL and other United Nations agencies, funds and programmes share an office in Benghazi. UNSMIL contributes its share of the total costs of the premises in Benghazi to WFP, which signed the lease for the office	WFP, UNDP, UNICEF, WHO, UNFPA, UNHCR, Office for the Coordination of Humanitarian Affairs
United Nations Verification Mission in Colombia	In accordance with the Inter-Agency Security Management Network guidance and the discussion by the Security Management Team for Colombia, the security budget addresses the following authorized activities: (a) identification programme; (b) security operational support; (c) communications structure; (d) security training; (e) crisis coordination centre; (f) guard force; (g) psychosocial support; and (h) vehicle requirements	United Nations country team

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Entities</i>
	The Mission provides travel services to OHCHR under the service-level agreement, and the cost for the services is included in accordance with the existing UNDP universal price list. UNDP also provides service contracts for the Mission's drivers under the service-level agreement on a cost-reimbursement basis	OHCHR
United Nations Mission to Support the Hudaydah Agreement	<p>Cost-sharing arrangement with the Office of the Special Envoy of the Secretary-General for Yemen for the sharing of office premises in Amman and Sana'a and office and accommodation premises in Aden</p> <p>Cost-sharing arrangement with the United Nations country team for the local cost-shared security budget of DSS for Yemen Jordan, and Djibouti</p> <p>Cost-sharing arrangement with the United Nations country team for joint response to the COVID-19 pandemic in Yemen</p> <p>Cost-sharing arrangement with IOM for joint response to the COVID-19 pandemic in Jordan</p> <p>Cost-sharing arrangement with UNDP for joint security services for accommodation in Sana'a</p> <p>Cost-sharing arrangement with UNDP for the sharing of office premises in Djibouti</p> <p>Cost-sharing arrangement with the United Nations country team in Yemen for the use of regular and special flights</p> <p>Cost-sharing arrangement with the United Nations country team for a recreation facility in Aden</p>	Office of the Special Envoy of the Secretary-General for Yemen, DSS, UNDP, IOM, United Nations country team
United Nations Integrated Office in Haiti	Cost-sharing arrangement with DSS for the local security cost-shared budget	DSS
United Nations Integrated Transition Assistance Mission in the Sudan	<p>Co-location in El Geneina, Zalingei, Nyala, Kadugli and Kassala</p> <p>United Nations clinic, COVID-19 clinic</p> <p>Local security cost-shared budget and radio communication support</p>	<p>WFP, UNDP, UNISFA</p> <p>UNDP, WFP, UNICEF</p> <p>DSS</p>

UNAMA and UNAMI

^a For UNAMA, given that the General Assembly has yet to approve an appropriation for 2022, pending the consideration of the proposed revised budget for 2022 (A/76/6 (Sect. 3)/Add.9), no provision for air operations for 2022 is included in the present annex. In the proposed revised budget for 2022, resources of \$9,966,200, with planned utilization of 1,263 flight hours, are proposed under air operations, subject to the consideration and approval of the Assembly.

Annex VIII

Special flights for special political missions, 2021–2023

(Thousands of United States dollars for costs/number of hours for duration)

Mission	2021 actual			2022 actual (January–March)			2023 estimated
	Costs	Duration	Justification	Costs	Duration	Justification	Costs
Office of the Special Envoy of the Secretary-General for Yemen	81.7	31.4	The flights were undertaken to support important movements for peace consultations and negotiations	18.0	8.5	The flight was undertaken to support important movements for peace consultations and negotiations in support of the mission's mandate	904.0
United Nations Assistance Mission in Somalia	675.7	176.4	Special flights in support of the Mission's mandate when there were no regular flights available	–	–	–	–
United Nations Regional Office for Central Africa (UNOCA)	245.7	52.0	Very low availability of commercial flights in the subregion	19.0	4.3	The flight was undertaken owing to the unavailability of commercial flights from Malabo to Libreville for a UNOCA–DPPA joint trip to Chad and Cameroun. UNOCA had to request a special flight to enable the Special Representative of the Secretary-General to return to Libreville and subsequently travel to Cameroun	159.0
United Nations Support Mission in Libya	922.5	230.2	Flights were required to support senior leadership and medical evacuations	252.1	52.7	Flights were required to support senior leadership and medical evacuations	1 000.0
United Nations Verification Mission in Colombia	154.8	619.0	The special flights were undertaken to support the movement of personnel and cargo from the main hubs, such as Bogotá and Medellín, to other large urban centres. Helicopters can then be used for subsequent trips to isolated, remote and difficult-to-access places in support of the activities and programmes required under the Mission's mandate	–	–	–	–
United Nations Mission to Support the Hudaydah Agreement	167.5	33.3	To support important movements for peace and redeployment coordination consultations and repatriation requirements, including for the United Nations country team, owing mainly to travel restrictions related to the coronavirus disease (COVID-19) pandemic and to airport closures due to the air strikes in Sana'a	49.0	8.3	To support important movements for peace and redeployment coordination consultations, including request from the Office of the Special Envoy of the Secretary-General for Yemen and the United Nations country team	243.6

<i>Mission</i>	<i>2021 actual</i>			<i>2022 actual (January–March)</i>			<i>2023 estimated</i>
	<i>Costs</i>	<i>Duration</i>	<i>Justification</i>	<i>Costs</i>	<i>Duration</i>	<i>Justification</i>	<i>Costs</i>
United Nations Assistance Mission in Afghanistan			Chartered flights for WFP, DSS, a private security company, the Mine Action Service, the Embassy of China and the President of the General Assembly; flights in support of UNAMA	444.7	86	Flights in support of the United Nations Humanitarian Air Service, a private security company, UNAMA and UNICEF	
United Nations Assistance Mission for Iraq	365.6	214.0	Special flights facilitate travel for senior leadership at short notice within Iraq for political and humanitarian/development consultations or dialogue, United Nations Guard Unit rotations and medical evaluation/casualty evacuation	77.8	48.3	Special flights facilitate travel for senior leadership at short notice within Iraq for political and humanitarian/development consultations or dialogue. They were occasionally also required for the United Nations Guard Unit rotations and medical evaluation/casualty evacuation	320.0

Note: A special flight is an unscheduled flight, which requires special authorization from the Chief of Mission Support, according to the United Nations Aviation Manual.

Abbreviations: DPPA, Department of Political and Peacebuilding Affairs; DSS, Department of Safety and Security; UNICEF, United Nations Children's Fund; WFP, World Food Programme.

Annex IX**Resources for acquisition of satellite imagery for special political missions, 2022 and 2023**

(Thousands of United States dollars)

<i>Mission</i>	<i>Approved 2022</i>	<i>Proposed 2023</i>	<i>Justification</i>
Office of the Special Envoy of the Secretary-General for Yemen	8.8	–	No provision for cartography items and maps in 2023
Group of Experts on the Democratic Republic of the Congo	3.0	1.8	The provisions under all the panels of experts provide for the acquisition of satellite imagery and related services used to better document the implementation of the Security Council mandate
Panel of Experts on the Sudan	3.0	2.6	
Panel of Experts on the Democratic People's Republic of Korea	253.5	230.2	
Panel of Experts on Libya	6.1	6.2	
Panel of Experts on the Central African Republic	3.0	2.6	
Panel of Experts on Yemen	3.0	3.0	
Panel of Experts on South Sudan	3.0	2.6	
Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	3.0	1.5	
Panel of Experts on Mali	3.0	3.0	The provision is to support the Mission's situational awareness with geospatial information, which will be used as early warning in situations within the mission area and to aid mission leadership in monitoring and strategic planning
Panel of Experts on Somalia	3.0	2.9	
United Nations Support Mission in Libya	–	1.0	The provision is to support the Mission's situational awareness with geospatial information, which will be used as early warning in situations within the mission area and to aid mission leadership in monitoring and strategic planning
United Nations Mission to Support the Hudaydah Agreement	150.0	90.0	The Mission requires satellite images for its operations and deployment areas that are currently focused on the hotspots within the Hudaydah Governorate, as defined by the Liaison and Coordination Mechanism and Joint Operations Centre. The provision also includes updating the patrol maps, movement control maps and engineering and facilities management maps
United Nations Integrated Transition Assistance Mission in the Sudan	–	1.0	The provision is made to enable the Mission to access geospatial satellite imagery services necessary for capturing and documenting human rights and ceasefire activities, which are core issues in the Mission's mandate

United Nations Mission to Support the Hedaydah Agreement	<ol style="list-style-type: none"> 1. Forward surgical and medical evacuation teams 2. Joint medical clinic in Yemen 3. Joint response to the COVID-19 pandemic in Yemen and Jordan 4. Level II medical facility in Djibouti 5. Mortuary services 	<ol style="list-style-type: none"> 1. Private service provider 2. UNDP 3. UNDP in Yemen and IOM in Jordan 4. Djibouti hospital 5. Private service provider 	<ol style="list-style-type: none"> 1. The Mission is using the services of contracted forward surgical team and health-care personnel in Hedaydah and an aeromedical evacuation team in Djibouti, provided by private contractors selected using the United Nations solicitation and procurement process, which was open to all eligible international and national vendors. Criteria for the selection of the service provider are developed in coordination with the Division of Healthcare Management and Occupational Safety and Health and the Procurement Division 2. Cost-shared budget with the United Nations country team 3. Cost-shared budget with the United Nations country team 4. Letter of agreement 5. Established contract 	3 778.0	3 751.6
United Nations Integrated Office in Haiti	Aeromedical evacuations, specialist consultation services, specialist X-ray and laboratory services, hospitalization in non-mission hospitals, mortuary services	Private service providers	Established contracts	197.6	197.6
United Nations Integrated Transition Assistance Mission in the Sudan	<ol style="list-style-type: none"> 1. Aeromedical evacuations 2. Specialist consultation, X-ray and laboratory services 3. Hospitalization 4. Mortuary and forensic services 5. United Nations clinic and COVID-19-related cost-sharing with the United Nations country team 	<ol style="list-style-type: none"> 1. Private service providers through the Strategic Air Operations Centre 2. Mission clinic 3. Government hospitals 4. Government mortuary 5. UNDP, WFP and UNICEF 	Service providers and hospitals are contracted on the basis of the quality and availability of services at the local level. Services are also provided through arrangements with the United Nations country team, including the United Nations clinic operated by UNDP and WFP and the COVID-19 clinic run by UNICEF	554.9	868.1
United Nations Assistance Mission in Afghanistan	<ol style="list-style-type: none"> 1. Aeromedical evacuations 2. Specialist consultation services 3. Additional medical capacity in 2022 	Private service providers	The Joint Medical Services in Afghanistan run a level I clinic in Kabul and forward medical posts in field offices. No specialist consultations are provided and, although there is some capacity within the Mission, referrals for specialist consultations and evacuations often take place outside of the Mission using its air assets, commercial airlines or air ambulance services provided	1 209.0 ^a	643.4

<i>Mission</i>	<i>Type of medical service</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2022</i>	<i>Proposed 2023</i>
	4. COVID-19 polymerase chain reaction (PCR) testing		through a memorandum of understanding with a hospital		
United Nations Assistance Mission for Iraq	Hospitalization in non-mission hospitals, specialist consultation, scan, laboratory and mortuary services, aeromedical evacuations and dental treatment	Private service providers, medical facility of the Department of State of the United States of America	The UNAMI clinic is a level I facility. The service providers are delivering level II, III and IV care to all United Nations personnel that need a higher level of treatment according to international standards Both national and international medical providers are given consideration for medical services to the Mission. The Mission has two types of medical service providers for casualty evacuation/medical evacuation requirements, with criteria focused primarily on accessibility, availability and urgency. Currently, there are one national and one international medical service provider, mainly providing medical evacuation and referral centres	324.5	334.9

Panel of Experts on Somalia	22.6	22.6	–	–	–
Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	88.0	131.2	43.2	49.1	The increase is attributable primarily to the estimated increase in official travel of staff of the Committee for outreach activities and for participation in regional meetings and Committee retreats to assist Member States in fulfilling their obligations under resolution 1540 (2004)
Counter-Terrorism Committee Executive Directorate	835.5	836.0	0.5	0.1	–
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant	390.6	599.7	209.1	53.5	The increase is attributable mainly to higher requirements for official travel (non-training), as the mission has resumed its mandate-related travel activities as a result of the easing of COVID-19 travel restrictions, as well as travel for training in connection with mandatory security and close protection training that requires in-person attendance
Subtotal	1 799.5	2 052.3	252.8	14.0	
Thematic cluster III: regional offices, offices in support of political processes and other missions					
United Nations Office for West Africa and the Sahel	774.2	774.2	–	–	–
United Nations Assistance Mission in Somalia	1 102.4	1 249.8	147.4	13.4	The increase is attributable mainly to the increased need for within-mission travel of staff to Mogadishu and the sectors for continuous support and engagement with federal member states and increased requirements for in-person training in the political, electoral, gender affairs and security areas
United Nations Regional Centre for Preventive Diplomacy for Central Asia	173.0	184.0	11.0	6.4	The increase is attributable mainly to additional requirements for high-level conferences, visits and meetings with political counterparts outside Central Asia, which are expected to be extensive and frequent in the post-pandemic period
United Nations support for the Cameroon-Nigeria Mixed Commission	208.4	202.3	(6.1)	(2.9)	The decrease is attributable to decreased travel for political consultations and field assessment missions
Office of the United Nations Special Coordinator for Lebanon	174.8	170.0	(4.8)	(2.7)	–

<i>Mission</i>	<i>Approved 2022</i>	<i>Proposed 2023</i>	<i>Variance amount</i>	<i>Variance percentage</i>	<i>Explanation for variance</i>
	<i>(1)</i>	<i>(2)</i>	<i>(3)=(2)-(1)</i>	<i>(4)=(3)/(1)</i>	
United Nations Regional Office for Central Africa	557.3	566.4	9.1	1.6	The increase is attributable mainly to increased requirements for training-related travel, as part of the mission's new approach to building the capacity of staff
United Nations Support Mission in Libya	846.5	1 010.4	163.9	19.4	The increase is attributable mainly to the continuation of requirements related to the ceasefire monitoring component in 2023 as well as increased requirements for training-related travel for mandatory training
United Nations Verification Mission in Colombia	1 495.6	1 500.6	5.0	0.3	The increase is attributable to travel requirements for mandatory training
United Nations Mission to Support the Hudaydah Agreement	775.6	759.5	(16.1)	(2.1)	The decrease is mainly attributable to the reduction in training-related travel owing to an increased focus on online training courses
United Nations Integrated Office in Haiti	181.3	181.3	–	–	–
United Nations Integrated Transition Assistance Mission in the Sudan	624.6	922.4	297.8	47.7	The increase is attributable mainly to the enhancement of the Mission's engagement and the widening of the scope of activities as staff deployment progresses and travel requirements for mandatory training, which were almost entirely excluded in 2022
Subtotal	6 913.7	7 520.9	607.2	8.8	
UNAMA and UNAMI					
United Nations Assistance Mission in Afghanistan	–	1 010.9	1 010.9	–	For 2022, given that the General Assembly has yet to approve an appropriation for UNAMA pending the consideration of the proposed revised budget for 2022, no provision for official travel for 2022 is included in the present annex In the proposed revised budget for 2022 (A/76/6 (Sect. 3)/Add.9), an amount of \$1,042,000 is proposed for official travel, subject to consideration and approval by the Assembly
United Nations Assistance Mission for Iraq	773.0	1 133.0	360.0	46.6	The increase is attributable mainly to a reduction in travel restrictions in areas where a physical presence is needed for the Mission to effectively carry out its mandated activities
Subtotal	773.0	2 142.9	1 370.9	177.3	
Total	12 299.2	14 557.4	2 258.2	18.4

2. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2022 or 2023.

II. Special political missions

Cross-cutting information

Gender perspective

3. Special political missions are guided by Security Council resolutions 1325 (2000), 1820 (2008), 1888 (2009), 1889 (2009), 1960 (2010), 2106 (2013), 2122 (2013), 2242 (2015), 2467 (2019) and 2493 (2019), which together constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution 75/100 on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
4. Specific examples of how special political missions integrate a gender perspective into their operational activities, deliverables and results are given under the individual missions in the present report.

Disability inclusion

5. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

6. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

Impact of the pandemic

7. The continuation of the coronavirus disease (COVID-19) pandemic into 2021 had an impact on the implementation of mandates in the special political missions. Specific examples are provided under the individual missions in the present report.
8. Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plans for the special political missions for 2023 continue to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

1. Office of the Special Adviser to the Secretary-General on Cyprus

(\$3,050,700)

Foreword

In December 2021, I assumed the function of Deputy Special Adviser to the Secretary-General on Cyprus. The Greek Cypriot and Turkish Cypriot leaders both expressed to me their wish for continued engagement and their support for confidence- and trust-building activities. To that end, their agreement in January 2022 on the action plan on ways to ensure women's full, equal and meaningful participation in the settlement process/an eventual settlement process in Cyprus was an encouraging development, as was their agreement on several other matters since the beginning of the year.

The technical committees have continued to achieve practical improvements in the daily lives of Cypriots, even in the absence of active peace talks. The Technical Committee on Health, for example, was instrumental in achieving harmonization of restrictions related to COVID-19 at the crossing points and the exchange of pandemic-related information. I see prospects for further positive achievements of the technical committees that can help to create conducive conditions for reaching common ground towards bringing the peace process back on track, and I will continue exploring opportunities to bring the two communities together on the island, as well as press for more measures that have a positive impact on people's lives and build confidence between the two sides.

However, the passage of time continues to complicate efforts to find a mutually acceptable solution in Cyprus. The Secretary-General held several meetings in 2021 that kept communication lines open. In 2023, I will also continue my engagement as Deputy Special Adviser with the two Cypriot leaders and their teams, civil society and the international community to maintain continuous contact and dialogue with all parties in support of the Secretary-General's efforts towards finding a lasting settlement in Cyprus.

(Signed) Colin **Stewart**
Deputy Special Adviser to the Secretary-General on Cyprus

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

9. The mandate of the Office of the Special Adviser to the Secretary-General on Cyprus derives from the priorities established in relevant Security Council resolutions and decisions and an exchange of letters between the Secretary-General and the President of the Security Council (S/2008/456 and S/2008/457). In resolution 1818 (2008), the Council welcomed the intention of the Secretary-General to appoint a Special Adviser at the appropriate time. In a letter dated 10 July 2008 addressed to the President of the Security Council (S/2008/456), the Secretary-General announced his intention to appoint his Special Adviser on Cyprus as from 14 July 2008. Relevant Security Council resolutions from which the mandate derives include resolution 186 (1964) and subsequent Council resolutions, including resolutions 367 (1975), 1250 (1999), 1475 (2003), 1758 (2007), 1818 (2008), 1873 (2009), 1930 (2010), 1986 (2011), 2026 (2011), 2058 (2012), 2114 (2013), 2135 (2014), 2168 (2014), 2197 (2015), 2234 (2015), 2263 (2016), 2300 (2016), 2338 (2017), 2369 (2017), 2398 (2018), 2430 (2018), 2453 (2019), 2483 (2019), 2506 (2020), 2537(2020), 2561 (2021), 2587 (2021) and 2618 (2022).
10. In its resolution 2618 (2022), the Security Council noted with regret the lack of progress made towards restarting formal negotiations, fully supported the Secretary-General's ongoing engagement with the sides and encouraged further rounds of informal talks. The Council urged the sides to engage actively and with an increased sense of urgency with the Secretary-General and his team, including by reaching an agreement regarding the proposal of the Secretary-General to appoint a United Nations envoy.
11. The Secretary-General, in his latest report (S/2021/1109), stressed that without decisive action, continuing dynamics in and around Cyprus and electoral timelines could render future efforts to reach a mutually agreeable settlement to the Cyprus issue unattainable. The Secretary-General urged the parties to engage constructively on finding and building common ground, with a view towards a resumption of meaningful peace talks. He noted that a United Nations envoy to lead that engagement could provide critical support in that respect and that the efforts of the United Nations continued to ascertain the modalities that would best support the search for a way forward.

Programme of work

Objective

12. The objective, to which this mission contributes, is to achieve a comprehensive settlement of the Cyprus problem.

Strategy

13. To contribute to the objective, the Office will:
 - (a) Use its best endeavours with the two leaders and the guarantor powers to promote a peaceful solution and to assist them, should they jointly agree, in the conduct of full-fledged negotiations;
 - (b) Regularly conduct bilateral meetings and facilitate joint meetings between the leaders, negotiators/representatives and their teams, working groups and experts;

- (c) Intensify its support for the implementation of confidence-building measures and the work of the technical committees to help both sides make progress towards promoting just, peaceful and inclusive societies.
14. For 2023, the mission's planned deliverables will also support, as needed, ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include continued engagement with the leaders of the two communities, facilitation of meetings of their representatives and continued support for the technical committees, specifically the Technical Committee on Health to strengthen cooperation between the sides on epidemiological issues, including harmonized measures, the exchange of COVID-19-related information and access to COVID-19 vaccines. Efforts will also be extended to encouraging continued dialogue between the sides to reduce the socioeconomic disparity between the two Cypriot communities, which has been widened by the longer-term effects of the pandemic.
15. The above-mentioned work is expected to result in:
- (a) Continuation of dialogue towards an enduring, comprehensive and just settlement of the Cyprus problem. Should significant progress be achieved, the United Nations may be called upon to intensify its support, possibly also by convening the stakeholders to address substantive issues;
 - (b) Implementation of confidence-building measures;
 - (c) Empowerment of the work of the technical committees.

External factors for 2023

16. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Continued and sustained political commitment of the parties to the political process and the implementation of confidence-building measures;
 - (b) Continued and sustained international support for the peace process.
17. With regard to cooperation with other entities at the global, regional, national and local levels, the mission, if so requested by the sides, will continue to coordinate the engagement of international financial institutions in support of the process, in particular, the European Central Bank, the International Monetary Fund and the World Bank. In addition, the mission cooperates and coordinates activities with the European Commission as relevant to its support for the peace process.
18. With regard to inter-agency coordination and liaison, the mission, the United Nations Peacekeeping Force in Cyprus (UNFICYP) and the United Nations country team will continue to operate in an integrated way to maximize synergies and ensure coherent and effective support for United Nations peace efforts.
19. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Office supports activities by both sides, the work of the Technical Committee on Gender Equality and women's civil society platforms in both communities to advance gender-related issues and provides support for greater civic engagement towards a more inclusive peace process. In accordance with best practice, the mission will support the involvement of underrepresented groups, including women, minorities, youth and persons with disabilities, in discussions pertaining to the Cyprus issue and in any resumed negotiations.

Programme performance in 2021

Consistent engagement, conflict prevention and efforts to reach common ground towards resuming peace talks

20. In 2021, the mission continued its engagement with the Greek Cypriot and the Turkish Cypriot leaders and their teams and supported the Secretary-General and United Nations senior officials in their engagements.
21. From 27 to 29 April 2021, the Secretary-General convened an informal five-plus-one meeting in Geneva, with the participation of the Greek Cypriot and Turkish Cypriot leaders, the Ministers for Foreign Affairs of Greece and Turkey and the Foreign Secretary of the United Kingdom of Great Britain and Northern Ireland. While sufficient common ground could not be found to allow for the resumption of formal negotiations, it was agreed to continue the dialogue, with the objective of moving in the direction of reaching common ground, so as to allow for the start of formal negotiations.
22. On 27 September 2021, the Secretary-General hosted an informal lunch for the two leaders in New York to discuss the state of play in efforts to reach common ground. Both leaders lent their support to his efforts to appoint an envoy to pursue the search for common ground and indicated an interest in continued engagement. In the third quarter of 2021, Jane Holl Lute concluded conducting consultations on behalf of the Secretary-General.
23. On 14 December 2021, both leaders attended an end-of-year reception in Nicosia.
24. The mission continued to facilitate the meetings and the work of the technical committees and the implementation of confidence-building measures and also engaged with civil society, political parties, academia and the international community. Progress towards the objective is presented in the performance measure below (see table 2).

Table 2
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>

Impact of the pandemic

25. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates in the following areas: (a) the restrictions put in place by both sides increased political tensions and posed practical challenges to movement across the divide and, while the harmonization of restrictions at crossings was an important step, the number of bicomunal contacts and trust-building activities on the island has not been restored to pre-COVID-19 levels; (b) despite the change from in-person meetings to virtual meetings, fewer meetings were held between the sides and between the mission and the leaders and their teams, and there were fewer meetings of the technical committees; (c) in-person meetings that required more than a very limited number of people were cancelled or held virtually with losses in the quality of discussions given the nature, complexity and

confidentiality of the interactions around the Cyprus issue; (d) travel to meetings outside Cyprus was severely reduced in 2021 and replaced by virtual contacts when possible and appropriate with reduced quality because of the lack of opportunity for in-depth discussion; and (e) travel to training and in-person training opportunities was severely reduced. The mission continued to implement alternative work arrangements in the office and strengthened its business continuity plan in accordance with COVID-19 regulations in Cyprus and United Nations policies. In addition, to support the communities on issues related to COVID-19, within the overall scope of the objectives, the mission engaged in dialogue with representatives of both sides and the Technical Committee on Health to strengthen cooperation on epidemiological issues, including harmonized measures related to crossing points, the exchange of COVID-19-related information and statistics and access to COVID-19 vaccines.

Planned result for 2023

Continued dialogue to assist in the search for common ground

Programme performance in 2021 and target for 2023

26. In 2021, the mission's work contributed to the holding of 93 bilateral and joint meetings with the leaders and their teams and 268 meetings of the technical committees and working groups, which did not meet the planned target of 135 bilateral and joint meetings with the leaders and their teams and 400 meetings of technical committees and working groups. This was because of the absence of active negotiations and COVID-19 related measures in 2021.
27. In 2023, the mission will continue its engagement with the sides and the guarantor powers to support efforts to find and build common ground with a view towards a resumption of meaningful peace talks. Should significant progress be achieved, the United Nations may be called upon to intensify its efforts, including by convening meetings of the stakeholders to address substantive issues. The requirement to coordinate technical work in preparation for settlement implementation may also increase. Efforts will include shuttle diplomacy and bilateral meetings, the facilitation of joint meetings and meetings of the sides' teams and working groups. The mission will also continue its support for the implementation of confidence-building measures and the work of the technical committees, with a particular focus on assisting the sides to follow up on the recommendations of the stocktaking exercise on the activities of the technical committees and the action plan for equal and meaningful participation of women in the peace process. The mission will engage in and support greater civic engagement, including with women, minorities, youth and persons with disabilities, to support a more inclusive peace process.

Lessons learned and planned change

28. The lesson for the mission was that the enhanced use of information technology for virtual meetings provided a time-effective alternative, but certain in-person meetings are indispensable owing to the nature, complexity and confidentiality of the interactions and thus could not be successfully conducted virtually. Another lesson learned marked the importance of the work of the technical committees to build trust, reduce tensions, avoid possible conflicts and improve the lives of Cypriots, in particular during a period when the fully fledged negotiations are in abeyance.
29. In applying the lesson, the mission will continue to utilize both in-person and virtual meetings, while ensuring the quality of the discussion and the necessary confidentiality, and will continue to engage with the sides to further empower the work of the technical committees. Ongoing dialogue will also be geared towards engaging with the two communities, resolving issues of conflict between them and exploring common ground towards possible peace talks. Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure I).

Figure I
Performance measure: number of bilateral and joint meetings with key stakeholders and number of meetings of working groups and technical committees

Deliverables

30. Table 3 lists all deliverables of the mission.

Table 3
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	2
1. Reports of the Secretary-General to the Security Council	3	3	3	2
Substantive services for meetings (number of three-hour meetings)	3	3	2	2
2. Meetings of the Security Council	3	3	2	2
C. Substantive deliverables				
Good offices: provision of good offices through engagement and bilateral and joint meetings with the Greek Cypriot leader and the Turkish Cypriot leader and other stakeholders in both communities as well as the three guarantor powers towards a settlement of the Cyprus problem. Conduct and facilitation of bilateral and joint meetings with the leaders and their teams and facilitation of the technical committees and working groups, which, in 2021, resulted in the adoption of the action plan, as requested by the Security Council.				
Consultation, advice and advocacy: provision of advice on procedural, legal, technical and substantive issues towards a settlement of the Cyprus issue; coordination, management and facilitation of advisory meetings on issues related to the peace process; and advocacy on gender equality and encouragement of participation in and public support for the peace process. In 2021, the mission held 226 meetings with international and national stakeholders, including representatives of Cypriot civil society and political parties, women's and youth groups, academia, trade unions and religious leaders. The mission also engaged with members of the Security Council and other United Nations Member States, bodies of the European Union and representatives of the World Bank and cooperated closely with UNFICYP and other members of the United Nations country team.				
D. Communication deliverables				
External and media relations: interviews and press releases to inform the public about the peace process. The mission regularly posts on social networking sites, such as Facebook, Twitter and Instagram, issued several press releases and published a number of articles on its website.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 4

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021	2022	2023		Variance
	Expenditure	Appropriation	Total requirements	Non-recurrent	2023 vs. 2022 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(3)-(2)

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.^b The Under-Secretary-General is on a when-actually-employed contract.

31. The proposed resource requirements for 2023 for the Office of the Special Adviser to the Secretary-General on Cyprus amount to \$3,050,700 (net of staff assessment) and would provide for salaries and common staff costs (\$2,608,100) for the continuation of 21 positions (1 Under-Secretary-General, 1 D-1, 3 P-5, 5 P-4, 1 P-3, 4 Field Service, 1 General Service and 5 Local level), as well as operational costs (\$442,600), comprising costs for consultants and consulting services (\$31,800), official travel (\$111,500), facilities and infrastructure (\$100,500), ground transportation (\$41,100), communications and information technology (\$74,900), medical (\$300) and other supplies, services and equipment (\$82,500).
32. In 2023, no change is proposed to the number and levels of the positions.
33. A vacancy rate of 12.5 per cent has been applied to all international positions. Proposed resources for national positions are based on the assumption of full incumbency.
34. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to increased requirements under civilian personnel costs, resulting from the application of the latest salary scale and post adjustment multiplier to the cost of international positions and the application of the latest operational rate of exchange to the cost of national positions.

2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide

(\$2,820,400)

Foreword

Prevention of genocide remains one of the key challenges facing the world. In 2021, we continued witnessing the impact of division and intolerance on vulnerable societies, which in the most serious cases can lead to the commission of genocide or related crimes. I remain alarmed at such dynamics, which challenge our collective resolve and capacity to prevent such crimes. While this is more visible where populations are at imminent risk, effective action also requires addressing long-term risk factors and preventing them from escalating to such crisis points.

The past two years have underscored the importance of technology for the work that we do. While attention has been focused on social media as deepening division, technology can enhance prevention as an outreach participatory tool. We must strive to harness technology in genocide prevention while strengthening women's participation and all-round community engagement.

The Office will continue to prioritize action against Holocaust and genocide denial and the glorification of war crimes and criminals. The universal ratification of the Convention on the Prevention and Punishment of the Crime of Genocide remains a key priority of the Office. Other priorities of the Office include strengthening early warning and monitoring capacity, provision of technical assistance and capacity-building for Member States, regional organizations and civil society actors, including in the implementation of the United Nations Strategy and Plan of Action on Hate Speech. The Office will also aim to realign its structure and personnel skillset to emerging needs and challenges.

(Signed) Alice Wairimu **Nderitu**
Special Adviser on the Prevention of Genocide

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

35. The Office of the Special Adviser to the Secretary-General on the Prevention of Genocide is mandated to collect information, in particular from within the United Nations system, on massive and serious violations of human rights and international humanitarian law of ethnic and racial origin that, if not prevented or halted, may lead to genocide; to act as a mechanism of early warning to the Secretary-General and, through him, to the Security Council, by bringing to their attention situations that could potentially result in genocide; to make recommendations to the Council, through the Secretary-General, on action to prevent or halt genocide; and to liaise with the United Nations system on activities for the prevention of genocide and on work to enhance the capacity of the United Nations to analyse and manage information regarding genocide or related crimes.
36. The mandate derives from the invitation of the Security Council to the Secretary-General in its resolution [1366 \(2001\)](#) to refer to the Council information and analysis from within the United Nations system on cases of serious violations of international law, including international humanitarian law and human rights law. The Special Adviser on the Prevention of Genocide was appointed through an exchange of letters between the Secretary-General and the President of the Security Council ([S/2004/567](#) and [S/2004/568](#)). The mandate was reaffirmed in Council resolution [1674 \(2006\)](#), a further exchange of letters between the Secretary-General and the Council ([S/2007/721](#) and [S/2007/722](#)) and resolutions of the General Assembly, the Commission on Human Rights and the Human Rights Council, including Assembly resolutions [60/1](#) and [63/308](#), Commission on Human Rights resolution 2005/62 and Human Rights Council resolutions [7/25](#), [22/22](#), [28/34](#), [33/19](#), [37/26](#) and [43/29](#).
37. With regard to the responsibility to protect, the General Assembly, in paragraphs 138 and 139 of its resolution [60/1](#) on the 2005 World Summit Outcome, addressed the responsibility of Member States and the international community to protect populations. This was reaffirmed by the Security Council in the context of its resolutions [1674 \(2006\)](#) and [1706 \(2006\)](#). Through an exchange of letters ([S/2007/721](#) and [S/2007/722](#)), the Special Adviser on the Responsibility to Protect was appointed and charged with the conceptual, institutional and operational development of the principle. The Assembly, in resolution [75/277](#), included the item on responsibility to protect on its agenda and requested the Secretary-General to report annually on that item.
38. The prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, together with the realization of the Sustainable Development Goals (especially Goals 10 and 16, on reduced inequalities and on peace, justice and strong institutions, respectively) remains a key part of the broader prevention strategy of the Secretary-General as well as of his call to action for human rights of 24 February 2020. The rise in hate speech, racism and xenophobia has continued and, in many situations, was exacerbated by the impact of the COVID-19 pandemic. Civilians continue to be targeted in armed conflict, and ensuring accountability remains a challenge. In addition, there are increasing concerns over trends of denial of past instances of genocide, war crimes, ethnic cleansing and crimes against humanity, even in situations where there have been international tribunals and verdicts affirming these crimes. These developments demonstrate again the importance of remaining vigilant concerning the indicators of risk and the early warning signs of these crimes.

Programme of work

Objective

39. The objective, to which this mission contributes, is to advance national, regional and international efforts to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity and their incitement

Strategy

40. To contribute to the objective, the Office will:
- (a) Raise awareness of the causes and dynamics of genocide through predictive and action-oriented analysis, enhanced by the collection and sharing of information from field missions and regional offices in accordance with the early warning mandate of the Office;
 - (b) Alert relevant actors where there is a risk of genocide, through the implementation of the United Nations Strategy and Plan of Action on Hate Speech launched by the Secretary-General in June 2019, capacity-building and advocacy, including providing timely recommendations on situations of concern. This includes implementing the Plan of Action for Religious Leaders and Actors to Prevent Incitement to Violence that could lead to genocide, war crimes, ethnic cleansing and crimes against humanity;
 - (c) Advocate and mobilize for appropriate action through engagement within the United Nations and with external partners;
 - (d) Strengthen community-level efforts for prevention, including by assisting locally led initiatives aimed at bringing communities together;
 - (e) Harness technology to enhance prevention as an outreach participatory tool;
 - (f) Increase female participation and more women in decision-making roles and provide knowledge and skills to women to enable national and community efforts to improve genocide prevention and response;
 - (g) Prioritize action against Holocaust and genocide denial and the glorification of war crimes and criminals;
 - (h) Support the universal ratification of the Convention on the Prevention and Punishment of the Crime of Genocide.
41. For 2023, the Office's planned deliverables will include early warning, technical assistance and capacity-building support for Member States and regional organizations, among other partners, focusing on building capacity and structures for analysis, early detection and response to the risk factors of genocide, war crimes, ethnic cleansing and crimes against humanity.
42. Reflecting the importance of continuous improvement and responding to the needs of Member States, the Office has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. This includes maximizing the use of virtual engagement in situations where physical presence may not be specifically required. Largely, the Office has learned that in some cases general advocacy and capacity-building engagement can be conducted virtually. However, for its work related to assessment and analysis, visits to specific locations and meetings with country-level counterparts, including populations at risk, remain critical for the implementation of the mandate. The Office's work in advancing the implementation of the United Nations Strategy and Plan of Action on Hate Speech has provided equivalent lessons.
43. The above-mentioned work is expected to create conducive conditions for increased action by United Nations intergovernmental bodies, Member States and regional and subregional organizations to

prevent and mitigate, or to contribute to prevention or mitigation of, the risk of genocide, war crimes, ethnic cleansing or crimes against humanity, including their incitement.

External factors for 2023

44. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
 - (a) Continued commitment on the part of Member States, as well as the Security Council and other intergovernmental bodies, to engage with the Office on Genocide Prevention and the Responsibility to Protect to advance the prevention of genocide and enhance efforts aimed at conceptualizing the principle of the responsibility to protect;
 - (b) Active engagement of Member States and regional and other organizations to develop preventive capacity and take appropriate action for the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement.
45. The Office will continue to work with the Department of Peace Operations, the Office for the Coordination of Humanitarian Affairs, human rights mechanisms, including the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of Legal Affairs, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict, the Office of the Special Representative of the Secretary-General on Violence against Children and the Office of the Special Representative of the Secretary-General for Children and Armed Conflict. The Office of the Special Adviser on the Prevention of Genocide will also continue to work closely with and support United Nations country teams on the implementation of the United Nations Strategy and Plan of Action on Hate Speech.
46. With regard to inter-agency coordination and liaison, the Office of the Special Adviser will work in close collaboration with the United Nations Children's Fund, the United Nations Development Programme (UNDP), the United Nations Educational, Scientific and Cultural Organization and the Office of the United Nations High Commissioner for Refugees (UNHCR), in particular in relation to the collection of information for early warning purposes, policy development and activities aimed at the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity.
47. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. This includes reflecting the gender dynamics in its monitoring and analysis and striving for the equal participation of women in its capacity-building events and workshops.
48. In line with the United Nations Disability Inclusion Strategy, the Office continues to review and examine the Strategy and Plan of Action on Hate Speech with a view to further advancing disability inclusion, including in its programmatic and policy activities, and to review and develop a guidance note on hate speech that draws on the Strategy.

Programme performance in 2021

Collecting information, raising awareness and developing capacities to prevent and respond to genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement

49. In 2021, the Office, pursuant to its mandate, issued seven advisory notes to the Secretary-General and 10 public statements. The Special Adviser undertook four country visits and six field missions. As a result of the Special Adviser's visits to the Western Balkans, countries in the region prioritized initiatives to address accountability gaps and denial of genocide, as well as to support intercommunal reconciliation through local governments and civil society organizations. This was complemented by the development of country-specific action plans on hate speech. In addition, the Office launched two initiatives, in Africa and the Asia-Pacific region, to raise awareness and build capacity on the prevention of genocide through education. In Africa it launched the Africa genocide scholars forum

to develop curricula for genocide studies for universities, and in the Asia-Pacific region it developed teaching materials and curricula for schools and universities on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing. These curricula are currently being piloted in universities in the region.

50. As the United Nations focal point on hate speech, the Office supported advocacy that led to the adoption by the General Assembly of its resolution [75/309](#), proclaiming 18 June annually as the International Day for Countering Hate Speech. It organized 30 training and briefing sessions for Member States and United Nations country teams on the United Nations Strategy and Plan of Action on Hate Speech and supported eight United Nations country teams and peace operations to develop context-specific action plans. It also organized two webinars with faith-based actors on the interlinkages between COVID-19 and hate speech and genocide, war crimes, crimes against humanity and ethnic cleansing, and six webinars with the Higher Education Commission of Pakistan on countering hate speech.
51. The above-mentioned work contributed to the advancement of national, regional and international capacities and efforts to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity and their incitement on the basis of timely and relevant analysis, recommendations and training provided by the Office of the Special Adviser, which met the planned target. Progress towards the objective is presented in the performance measure below (see figure II).

Figure II

Performance measure: action for the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity taken at the national, regional or international levels as a result of training and technical assistance provided by the Office of the Special Adviser on the Prevention of Genocide

Impact of the pandemic

52. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, resulting in the postponement of activities planned to be conducted in person in various countries. Whenever practical, especially in the field of equipping country teams with the tools to advance implementation of the United Nations Strategy and Plan of Action on Hate Speech, the Office reconfigured seminars, workshops and training events to allow for their delivery online and provided technical assistance through webinars and other online means.

Planned result for 2023

Collecting and processing information, providing early warning, raising awareness, building capacities and making recommendations to Member States and regional and subregional organizations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement

Programme performance in 2021 and target for 2023

53. The Office's work contributed to the advancement of national, regional and international capacities and efforts to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity, and their incitement, and met the planned target of 19 follow-up actions taken by Member States and regional and subregional organizations to prevent or mitigate the risk of genocide, war crimes, ethnic cleansing or crimes against humanity on the basis of timely and relevant analysis and recommendations provided by the Office.
54. In 2023, the Special Adviser and her Office will continue to collect and process information from United Nations sources to provide early warning and advice on the prevention of genocide and related crimes. The Office will conduct country visits, both technical and high-level, collect relevant information on political, human rights, humanitarian, social and economic developments in countries worldwide with the aim of identifying early warning signs of genocide, war crimes, ethnic cleansing and crimes against humanity. The Office will also provide tailored training and technical assistance to Member States, regional and subregional organizations and civil society on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity.

Lessons learned and planned change

55. The lesson for the Office was that partnerships are crucial for the implementation of the mandate of the Office, especially considering the absence of a field presence, whether in relation to the United Nations entities, government institutions or others. Effective coordination with United Nations field entities, country teams and peace operations is instrumental in strengthening and projecting the Office's assessment and response capacity and deepening its understanding of the degree of presence of risk factors for genocide and related crimes in multiple locations. The Office uses a combination of field missions and remote monitoring for its assessment and response initiatives and these cannot be implemented effectively without partnerships with counterparts in the field. With respect to non-United Nations partners, the Office was able to reach more Member States through regional organizations and coalitions of civil society actors, thus generating bigger ripple effects for its technical cooperation support. This in turn permitted the development of multilayered operational partnerships, including with regional, national and community actors, to apply the Office's risk assessment methodologies and discuss the result of this work for the purposes of advancing prevention.
56. In applying the lesson, the Office will intensify its efforts to build the capacity of the United Nations country teams and peace operations on the elements relevant to the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity. The Office will also prioritize working through regional organizations and coalitions of civil society actors to reach more Member States and civil society actors, including at the community level, where prevention action will remain paramount. Expected progress towards the objective and the target for 2023 are presented in the performance measure below (see figure III).

Figure III

Performance measure: number of follow-up actions taken by Member States, regional and subregional organizations and civil society actors to prevent genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement, as a result of early warning and recommendations provided by the Office of the Special Adviser on the Prevention of Genocide

Deliverables

57. Table 6 lists all deliverables of the mission.

Table 6

Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Consultation, advice and advocacy: advice on the risk of genocide, war crimes, ethnic cleansing and crimes against humanity and on preventive measures; advocacy and consultations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity; briefings on country situations and thematic areas relevant to prevention.

Fact-finding, monitoring and investigation missions: country-specific assessment missions. The Special Adviser on the Prevention of Genocide undertook 4 country visits and 6 field missions in 2021.

D. Communication deliverables

Outreach programmes, special events and information materials: commemoration of the International Day of Commemoration and Dignity of the Victims of the Crime of Genocide and of the Prevention of This Crime; anniversary of the adoption of the Convention on the Prevention and Punishment of the Crime of Genocide; commemoration of the International Day for Countering Hate Speech.

External and media relations: public statements by the Special Adviser; media briefings; editorial opinions (op-eds). The Special Adviser issued 10 public statements in 2021 on situations of concern and conducted several media engagements.

B. Proposed post and non-post resource requirements for 2023**Resource requirements (regular budget)**

	Professional and higher categories									General Service and related categories			National staff			
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service ^a	Total inter- national	National Professional Officer	Local level	United Nations Volunteer	Total
Approved 2022	1	1 ^b	–	–	2	4 ^c	2	–	10	–	2	12	–	–	–	12
Proposed 2023	1	1 ^b	–	–	2	4	2	1	11	–	2	13	–	–	–	13
Change	–	–	–	–	–	–	–	1	1	–	–	1	–	–	–	1

^a Other level, unless otherwise stated.

^b The Assistant Secretary-General is on a \$1-per-year contract.

^c Includes one P-4 position approved as a general temporary assistance position for six months in the 2022 budget.

58. The proposed resources for 2023 for the Office of the Special Adviser to the Secretary-General on the Prevention of Genocide amount to \$2,820,400 (net of staff assessment) and would provide for salaries and common staff costs (\$2,261,900) for the continuation of 12 positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 2 P-5, 4 P-4, 2 P-3, 1 P-2 and 2 General Service), the proposed conversion of 1 position at the P-4 level from a general temporary assistance position to a regular position and the creation of 1 additional position at the P-2 level, as well as operational costs (\$558,500), comprising costs for consultants and consulting services (\$39,600), official travel (\$245,100), facilities and infrastructure (\$206,600), ground transportation (\$3,600), communications and information technology (\$36,800) and other supplies, services and equipment (\$26,800).
59. For 2023, the following changes to the staffing complement are proposed:
- (a) Conversion of one position of Political Affairs Officer (P-4) from general temporary assistance to a regular position to enable the Office to continue its support for the implementation of the United Nations Strategy and Plan of Action on Hate Speech, which was launched by the Secretary-General in 2019. The conversion from general temporary assistance for six months in 2022 to a regular position in 2023 would allow the Office to provide sustained assistance in response to requests from Member States, regional organizations and United Nations field presences for technical assistance and capacity-building in the development and implementation of context-specific action plans to address and counter hate speech. Such sustained assistance would include the deployment of this position to support these actors and to serve as a dedicated focal point for the establishment of a repository of good practices. It would also sustain the support for and engagement with field presences once action plans have been developed and are being implemented. While the Office partners with the Development Coordination Office and Department of Global Communications, which are also members of the United Nations Working Group on Hate Speech, the technical expertise and focal point responsibility for the implementation of the Strategy lies with the Office. The implementation of the 13 commitments of the Strategy necessitates a multisectoral approach linking addressing hate speech to broader United Nations prevention efforts, for which the coordination provided by a dedicated focal point located in the Office remains essential;
 - (b) Establishment of one position of Associate Political Affairs Officer (P-2) to strengthen the analytical capacity within the Office and support campaigns by the Office on Holocaust denial, countering hate speech and ratification of the Genocide Convention. These are linked to General Assembly resolutions [76/250](#) and [75/309](#) on Holocaust denial and commemoration of the International Day for Countering Hate Speech, respectively, and resolution [43/29](#) of the Human Rights Council on support for States on the implementation of the Genocide Convention and observance of the International Day of Commemoration and Dignity of the Victims of the Crime of Genocide and of the Prevention of This Crime. The Office is the only United Nations entity that undertakes analysis of genocide, war crimes, crimes against humanity and ethnic cleansing and advises United Nations organs, including the Security Council, the General Assembly, the Secretariat and mechanisms such as the Human Rights Council and related bodies on the potential risks of genocide, war crimes, ethnic cleansing and crimes against humanity and measures to address them. With the risk factors and cases of such crimes on the ascendancy, the staffing of the Office requires strengthening. The new position will help in strengthening the analytical capacity within the Office, which is at the core of its role in early warning and prevention.
60. A vacancy rate of 5 per cent has been applied to the estimates for the continuing positions based on recent incumbency and projected recruitment and a vacancy rate of 50 per cent has been applied for the position proposed for establishment.
61. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to increased requirements under civilian personnel costs, resulting from factors that include the full provision for one position for which only six months of funding was provided

in the 2022 approved budget, the proposed establishment of one P-2 position and the application of a higher percentage of common staff costs, based on recent expenditure patterns.

Extrabudgetary resources

62. In 2022, extrabudgetary resources amounting to approximately \$882,000 are estimated to be utilized mainly to provide for the staff costs of four positions (3 P-3 and 1 General Service), the Office's capacity-building and technical assistance programme and the preparation of the 2022 report of the Secretary-General on the responsibility to protect.
63. For 2023, extrabudgetary resources in the estimated amount of \$447,000 would provide for the continuation of four positions (3 P-3 and 1 General Service) and the Office's capacity-building and technical assistance programme.
64. The decrease in the estimated extrabudgetary resources to be utilized in 2023 as compared with 2022 is due to projections of donor support linked to the current global economic situation.

3. Personal Envoy of the Secretary-General for Western Sahara

(*\$477,500*)

Foreword

Further to the announcement by the Secretary-General on 6 October 2021 of my appointment as his Personal Envoy for Western Sahara, the Security Council, in its resolution [2602 \(2021\)](#), welcomed the appointment and urged the constructive resumption of the political process.

I took up my functions at the beginning of November 2021 and undertook my first visit to the region from 12 to 20 January 2022, travelling to Algiers and Tindouf, Algeria, Nouakchott and Rabat. I was well received at all my stops and engaged in serious discussions with all concerned, which gave me a valuable opportunity to hear their positions as well as their views on how to make progress towards a constructive resumption of the political process on Western Sahara.

Since the visit, I have continued with a proactive approach, engaging in further consultations, including with members of the Security Council and members of the Group of Friends on Western Sahara.

I have taken up my assignment faced with new challenges and setbacks on the ground. It will be essential for me to continue to rely on strong and united support from the international community and the appropriate resources to carry out my mandate.

(Signed) Staffan **de Mistura**
Personal Envoy of the Secretary-General for Western Sahara

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

65. The Personal Envoy of the Secretary-General for Western Sahara is responsible for assisting the parties, Morocco and the Frente Popular para la Liberación de Saguía el-Hamra y de Río de Oro (Frente POLISARIO), in finding a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations.
66. The mandate derives from the communications between the Secretary-General and the President of the Security Council dated 17 March 1997 (S/1997/236), 1 October 2021 (S/2021/851) and 5 October 2021 (S/2021/852), as well as from the priorities established in relevant Security Council resolutions, including resolutions 1813 (2008), 2099 (2013), 2468 (2019), 2494 (2019) and 2548 (2020). In its resolution 2602 (2021), the Council welcomed the appointment of Staffan de Mistura as the Personal Envoy of the Secretary-General for Western Sahara and urged the constructive resumption of the political process. The Council expressed its full support for the Secretary-General and his Personal Envoy to facilitate the negotiating process. The Council called upon the parties to resume negotiations under the auspices of the Secretary-General without preconditions and in good faith, as well as to demonstrate political will and work in an atmosphere propitious for dialogue in order to advance the negotiations. The Council reaffirmed its commitment to assist the parties to achieve a just, lasting and mutually acceptable political solution, based on compromise, which would provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations, and noted the role and responsibilities of the parties in that respect.

Programme of work

Objective

67. The objective, to which this mission contributes, is to advance the parties' efforts to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara.

Strategy

68. To contribute to the objective, the mission will:
 - (a) Encourage the parties to continue the discussion on the question of Western Sahara in order to identify elements of convergence, through bilateral consultations, including with the neighbouring countries of Algeria and Mauritania, conduct visits to the region to meet with key interlocutors and engage in shuttle diplomacy and other activities deemed useful in that regard;
 - (b) Consult with members of the Security Council and the Group of Friends on Western Sahara, both in their capitals and in New York, as well as with regional organizations, towards a solution;
 - (c) Work toward organizing two international meetings on Western Sahara.

69. The above-mentioned work is expected to result in:
- (a) Building additional trust and strengthening involvement by the parties in the political process;
 - (b) Maintaining support by the international community for the political process.

External factors for 2023

70. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The parties continue to show willingness to meet for direct negotiations;
 - (b) The security situation will remain conducive to the mission's objective for the region.
71. With regard to cooperation with other entities, the mission will regularly meet with representatives of regional organizations and other relevant stakeholders to exchange views on the United Nations-led political process.
72. With regard to inter-agency coordination and liaison, the mission will continue to receive support for visits and information on developments in Western Sahara from the United Nations Mission for the Referendum in Western Sahara, as well as coordinate and liaise with UNHCR with respect to visits to the refugee camps and on confidence-building measures and maintain close contact with OHCHR in Geneva on issues related to the human rights situation in its area of responsibility.

Programme performance in 2021

Resumed process on Western Sahara

73. Following the announcement of the appointment of Staffan de Mistura as the Personal Envoy of the Secretary-General on 6 October 2021, the process on Western Sahara resumed through the diplomacy of the Personal Envoy, who consulted representatives of concerned stakeholders in the course of his introductory meetings in New York, as well as members of the Security Council and Group of Friends and other interlocutors, ahead of the continuation of his efforts in 2022. Until the appointment of the Personal Envoy, the Secretary-General had continued to maintain contact with the parties.

Planned result for 2023

Advancing the process on Western Sahara

Programme performance in 2021 and target for 2023

74. The mission's work contributed to maintaining contact with the parties, which did not meet the planned target of advancing the political process owing to the absence of a personal envoy until October 2021.
75. In 2023, the mission will continue to build on past work to advance the political process through consultations with all concerned, visits to the region to meet key interlocutors, including representatives of civil society and women's organizations, and other measures deemed useful in this regard. It will also continue to hold consultations with Member States in their capitals and in New York, as appropriate. In addition, the mission will continue to liaise with relevant United Nations entities in Geneva and other locations to discuss various aspects related to the conflict. The mission will also meet regularly with representatives of relevant regional organizations to exchange views on the United Nations-led political process.

Lessons learned and planned change

76. The lesson for the mission was to maintain the momentum in the political process. In applying the lesson, the mission will continue to engage regularly with the parties and neighbours to resume the discussion on the question of Western Sahara in order to identify elements of convergence, with a view to achieving a mutually acceptable political solution to the question of Western Sahara. Expected progress towards the objective and the target for 2023 are presented in the performance measure below (see table 9).

Table 9
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
One roundtable meeting	No face-to-face meetings	Resumed engagement between the parties and neighbours	Continued engagement between the parties and neighbours	Two international meetings

Deliverables

77. Table 10 below lists all deliverables of the mission.

Table 10
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Report of the Secretary-General to the Security Council	1	1	1	1
2. Report of the Secretary-General to the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
3. Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				
Good offices: provision of good offices for high-level dialogue involving the stakeholders concerned; good offices for informal negotiations between concerned stakeholders in the context of the political process on Western Sahara.				
Consultation, advice and advocacy: consultations through bilateral discussions on the political process on Western Sahara; engagement with women's groups and civil society groups.				
Fact-finding, monitoring and investigation missions: fact-finding missions to the region to improve the understanding of the situation on the ground and to improve coordination with United Nations partners and other stakeholders.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 11

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021		2022		2023		Variance 2023 vs. 2022 Increase/(decrease)
	Expenditure	Appropriation	Total requirements	Non-recurrent			
	(1)	(2)	(3)	(4)	(5)=(3)-(2)

Civilian personnel costs	14.3	301.3	285.6	–	–	–	(15.7)
Operational costs	95.3	175.2	191.9	–	–	–	16.7
Total (net of staff assessment)	109.6	476.5	477.5	–	–	–	1.0

Table 12

Positions

	Professional and higher categories									General Service and related categories		National staff				Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service	Total inter- national	National Professional Officer	Local level	United Nations Volunteer	
Approved 2022	1 ^a	–	–	–	–	–	1	–	2	–	–	2	–	–	–	2
Proposed 2023	1 ^a	–	–	–	–	–	1	–	2	–	–	2	–	–	–	2
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a when-actually-employed contract.

78. The proposed resource requirements for 2023 for the Personal Envoy of the Secretary-General for Western Sahara amount to \$477,500 (net of staff assessment) and would provide for salaries and common staff costs (\$285,600) for the continuation of the two positions in the mission (1 Under-Secretary-General, on a when-actually-employed contract, and 1 P-3), as well as operational costs (\$191,900), comprising costs for consultants and consulting services (\$22,700), official travel (\$74,700), facilities and infrastructure (\$53,000), ground transportation (\$1,000), communications and information technology (\$11,400) and other supplies, services and equipment (\$29,100).
79. In 2023, no change is proposed to the number and levels of the positions. A vacancy rate of 5 per cent has been applied to the positions.
80. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to requirements under facilities and infrastructure and under communications and information technology for the Office of the Personal Envoy of the Secretary-General in Brussels, offset in part by reduced requirements for common staff costs for international staff, based on recent expenditure patterns.

4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)

(\$376,600)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

81. On 14 December 2004, the Secretary-General appointed his Special Envoy for the implementation of Security Council resolution 1559 (2004) to enable him to report to the Council every six months on the implementation of Council resolution 1559 (2004), as requested by the Council in its presidential statement of 19 October 2004 (S/PRST/2004/36). In carrying out this mandate, the mission consults with political interlocutors in Lebanon, the Council and other Member States to prepare the semi-annual reports of the Secretary-General. The mandate derives from the priorities established in relevant Council resolutions and decisions, including resolution 1559 (2004), and the statement by the President of the Security Council dated 19 October 2004 (S/PRST/2004/36). In addition, the mission has worked towards strengthening the response by relevant Member States in the implementation of the remaining provisions of Council resolution 1680 (2006).
82. On 17 May 2006, in response to the third semi-annual report of the Secretary-General on the implementation of resolution 1559 (2004) (S/2006/248), the Security Council adopted resolution 1680 (2006), in which it reiterated its call for the full implementation of the provisions of resolution 1559 (2004). Through that resolution, the Council also strongly encouraged the Government of the Syrian Arab Republic to respond positively to the request made by the Government of Lebanon, in line with the agreements of the Lebanese national dialogue, to delineate their common border, especially in those areas where the border was uncertain or disputed.
83. On 11 August 2006, the Security Council adopted resolution 1701 (2006), in which it emphasized the importance of the extension of the control of the Government of Lebanon over all Lebanese territory in accordance with the provisions of resolutions 1559 (2004) and 1680 (2006), and of the relevant provisions of the Taif Accords. The Council requested the Secretary-General to develop, in liaison with relevant international actors and the parties concerned, proposals to implement the relevant provisions of the Taif Accords and resolutions 1559 (2004) and 1680 (2006), including with respect to disarmament and the delineation of the international borders of Lebanon. It also requested the Secretary-General to report to the Council on a regular basis on the implementation of resolution 1701 (2006).
84. In resolution 2236 (2015) and all subsequent resolutions on Lebanon, including, most recently, resolution 2591 (2021), the Security Council continued to urge all parties to make tangible progress towards all outstanding issues in the implementation of resolutions 1701 (2006), 1680 (2006) and 1559 (2004), and other relevant Council resolutions. On 4 February 2022, the Council issued a press statement to reaffirm the Council's strong support for the stability, security, territorial integrity, sovereignty and political independence of Lebanon, consistent with Council resolutions 1701 (2006), 1680 (2006), 1559 (2004) and 2591 (2021), as well as other relevant Council resolutions and statements of the President of the Security Council on the situation in Lebanon. In 2016, the Under-Secretary-General for Political Affairs was tasked by the Secretary-General with assuming the responsibility of reporting on the implementation of resolution 1559 (2004), an arrangement that has been maintained to date.
85. In October 2019, large-scale peaceful protests began countrywide, as a broad cross section of Lebanese society called for governmental change, just reforms, good governance, accountability for

corruption, better management of the economy, the end of sectarian patronage and early parliamentary elections. In subsequent protests in the first half of 2020, some groups called for, among other things, the implementation of Security Council resolution 1559 (2004). The COVID-19 pandemic, the 4 August 2020 explosion in the Port of Beirut and the government vacuum that followed compounded the effects of the socioeconomic crisis in the country. In September 2021, a new Government was formed and one of its priorities was to hold parliamentary elections in May 2022.

Programme of work

Objective

86. The objective, to which this mission contributes, is to ensure full implementation of Security Council resolution 1559 (2004) and all subsequent related resolutions of the Council.

Strategy

87. To contribute to the objective, the Office will:
- (a) Explore ways to foster consensus on a Lebanese-led and Lebanese-owned national dialogue, which is expected to result in progress on addressing the maintenance of weapons outside State authority. Past results in this area include the holding of a national dialogue by Lebanese political decision makers;
 - (b) Produce two semi-annual reports of the Secretary-General to the Security Council on developments of relevance to the implementation of Security Council resolution 1559 (2004). The reports will address a number of key issues, such as the sovereignty, territorial integrity, unity and political independence of Lebanon; the extension of control of the Government of Lebanon over all Lebanese territory; and the disbanding and disarmament of Lebanese and non-Lebanese militias. Reporting on these categories, the Secretary-General will inform the Council on political and security developments during the reporting period, violations of Lebanese sovereignty and the maintenance of weapons by Lebanese and non-Lebanese militias.
88. The above-mentioned work is expected to result in informed Security Council deliberations on possible opportunities for Lebanon to make progress on the outstanding provisions of Council resolution 1559 (2004).

External factors for 2023

89. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Government formation after the elections will be challenging and the current economic and financial crisis remains a source of instability and social unrest;
 - (b) The tense and volatile regional environment affects Lebanon's internal stability and security;
 - (c) There is limited political will on the part of the parties concerned to address the disbanding and disarmament of Lebanese and non-Lebanese militias;
 - (d) The political goodwill of Member States has limited influence on the parties concerned;
 - (e) Tensions between Lebanon and other States in the region are somewhat eased.
90. With regard to inter-agency coordination and liaison, the Office of the Special Envoy coordinates and works closely with the Office of the United Nations Special Coordinator for Lebanon, in

particular in the process of developing the reports of the Secretary-General ahead of and during the visits to Lebanon by the staff of the Office of the Special Envoy.

Programme performance in 2021

Enhanced understanding of Security Council members on developments of relevance to the implementation of resolution 1559 (2004)

91. The Office undertook one trip to Lebanon in September 2021, which informed the October 2021 report of the Secretary-General on the implementation of resolution 1559 (2004). The Office also produced the April 2021 report of the Secretary-General.
92. The above-mentioned work contributed to the understanding of Security Council members on developments of relevance to the implementation of the outstanding provisions of Council resolution 1559 (2004).

Impact of the pandemic

93. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, including the cancellation of one trip to Lebanon for consultations prior to the production of the April 2021 report of the Secretary-General on the implementation of Security Council resolution 1559 (2004). This limited the number and depth of consultations with actors from across the political spectrum.

Planned result for 2023

Informed Security Council deliberations through analytical reports of the Secretary-General Programme performance in 2021 and target for 2023

94. The Office's work contributed to informing Security Council deliberations on developments of relevance to the implementation of the outstanding provisions of Council resolution 1559 (2004). It partially met the planned target of Council discussions on the two semi-annual reports to reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority. This was mostly because the focus of Lebanese actors was overwhelmingly on the economic and financial crisis, the after-effects of the 4 August 2020 explosion in Beirut and the challenges related to forming a Government that followed. No discussions were held on the national defence strategy. The cancellation of a trip to Lebanon due to restrictions related to COVID-19 also limited the number and depth of consultations with actors from across the political spectrum.
95. In 2023, the Office will continue to report to the Security Council semi-annually on progress in the implementation of the resolution, in particular the disbanding and disarmament of Lebanese and non-Lebanese militias.

Lessons learned and planned change

96. The lesson for the Office is that in-person consultations are necessary to contribute to the achievement of results. In applying the lesson, the Office will further leverage engagement with United Nations entities both at United Nations Headquarters and among the United Nations country team in Lebanon, in addition to maintaining its network of interlocutors in the country. Expected progress towards the objective and the target for 2023 are presented in the performance measure below (see table 13).

Table 13
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Discussions on the two semi-annual reports to reflect the outcome of consultations on positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which did not reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports to reflect the outcome of consultations on the positions of Lebanese actors, which were only partially articulated, vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which reflect the outcome of systematic consultations surveying the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which reflect the outcome of systematic consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority

Deliverables

97. Table 14 below lists all deliverables of the mission.

Table 14
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of consultations)	–	2	2	2
2. Meetings of the Security Council on resolution 1559 (2004)	–	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: consultations to gain an understanding of the political, socioeconomic and humanitarian situation in Lebanon, as well as its regional environment, as it may influence the implementation of resolution 1559 (2004) ; consultations on the positioning of actors vis-à-vis the maintenance of weapons outside State authority.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 15

Financial resources

(Thousands of United States dollars)

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.^b The Under-Secretary-General is on a \$1-per-year contract.

98. The proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004) amount to \$376,600 (net of staff assessment) and provide for salaries and common staff costs (\$287,100) for the continuation of three positions (1 Under-Secretary-General, 1 P-4 and 1 General Service), as well as operational costs (\$89,500), comprising costs for official travel (\$43,500), facilities and infrastructure (\$34,500), ground transportation (\$2,000), communications and information technology (\$7,700) and other supplies, services and equipment (\$1,800).
99. In 2023, no change is proposed to the number and level of positions. A vacancy rate of 5 per cent has been applied to the positions.
100. The increase in requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to the application of a higher percentage of common staff costs to salary costs of 41.3 per cent compared with 26.9 per cent applied to the 2022 approved budget, based on recent expenditure patterns.

5. Office of the United Nations Representative to the Geneva International Discussions

(\$1,987,900)

Foreword

In 2021, despite the COVID-19 pandemic, the Office of the United Nations Representative to the General International Discussions, with the co-chairing organizations, the European Union and the Organization for Security and Cooperation in Europe (OSCE), organized all planned four rounds of the Geneva International Discussions, in March, June, October and December. The Co-Chairs conducted four regular pre-round visits to Tbilisi and Moscow, as well as Sukhumi and Tskhinvali, and held consultations with the participants. In October, they held consultations in Washington, D.C., and in New York. The Co-Chairs had two retreats: one online in February, and one in Stockholm in September. In November, the Co-Chairs provided an in-person briefing to the OSCE Permanent Council about the Geneva International Discussions.

As the Chair of the joint Incident Prevention and Response Mechanism in Gali, suspended since June 2018, I undertook active negotiations with the participants, with the aim of resuming the meetings. Consultations are continuing and there is hope that the meetings will be resumed based on the ground rules and existing principles.

In further implementation of the Co-Chairs' joint strategy and action plan on women and peace and security in the framework of the Geneva International Discussions, I will persistently advocate for gender equality and promote the role of women in the peace process and peacebuilding.

In 2023, together with my Co-Chairs, I will pursue revitalization of the Geneva International Discussions to achieve concrete results. As the United Nations Representative, I will undertake bilateral consultations with participating groups to bring a lasting solution to the conflict.

(Signed) Ayse Cihan **Sultanoğlu**
United Nations Representative to the Geneva International Discussions

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

101. The Office of the United Nations Representative to the Geneva International Discussions is mandated to support the Geneva International Discussions and the Incident Prevention and Response Mechanism under United Nations auspices in Gali, Georgia, by facilitating the participation of the United Nations in the international discussions in Geneva and in the Gali Incident Prevention and Response Mechanism, and by liaising and coordinating with the relevant actors. The mission is also responsible for preparing, convening and facilitating, in consultation with the other Co-Chairs (European Union and OSCE), the sessions of the Geneva International Discussions as well as the periodic meetings of the Gali Incident Prevention and Response Mechanism.
102. The United Nations has continued to support the Geneva International Discussions on security and stability and the return of internally displaced persons and refugees, which commenced on 15 October 2008 in Geneva in accordance with the six-point agreement of 12 August 2008 and the implementing measures of 8 September 2008, mediated by the French Presidency of the European Union, following the hostilities of August 2008 (see [S/2009/254](#)). In its resolution [1866 \(2009\)](#), the Security Council welcomed the beginning of the discussions and requested the Secretary-General, through his Special Representative, to continue to fully support the process. The Secretary-General addressed a letter on this matter to the Minister for Foreign Affairs of Georgia on 29 September 2009 and the Minister for Foreign Affairs of Georgia replied to the Secretary-General on 28 October 2009.
103. Against the background of the “Proposals for joint incident prevention and response mechanisms”, agreed to in Geneva on 18 February 2009, the Secretary-General, on 28 September 2009, addressed a letter to the President of the Security Council in which he updated the members of the Council on the progress in the Geneva International Discussions and the convening of the joint Incident Prevention and Response Mechanism under United Nations auspices in Gali (*ibid.*, paras. 5 and 6). The Secretary-General also stated that, following consultations with the relevant stakeholders, the United Nations would continue to support the Geneva International Discussions and the Mechanism through a limited number of personnel with the task of facilitating the United Nations participation in the international discussions in Geneva and in the Mechanism, and liaising and coordinating with the relevant actors.
104. In a letter dated 28 December 2009 addressed to the President of the Security Council, the Secretary-General noted that, given the important role of the Geneva International Discussions and the Mechanism in stabilizing the situation and building confidence, and in the light of the broad support, including from the main stakeholders, for a continued and effective United Nations engagement beyond 31 December 2009, the United Nations would continue to provide support for the Geneva International Discussions and the work of the Mechanism. In a letter dated 25 February 2010 addressed to the President of the Security Council ([S/2010/103](#)), the Secretary-General conveyed, following consultations, his intention to appoint a United Nations Representative responsible for United Nations support for the Geneva International Discussions and the Mechanism. In a letter dated 2 May 2011 ([S/2011/279](#)), the President of the Security Council informed the Secretary-General that the members of the Security Council had taken note of his intention and of the information contained in his letter of 25 February 2010. In a letter dated 2 July 2018 addressed to the President of the Security Council ([S/2018/665](#)), the Secretary-General conveyed, following consultations, his intention to appoint Ayşe Cihan Sultanoğlu as the United Nations Representative. In a letter dated 5 July 2018 ([S/2018/666](#)), the President of the Security Council informed the Secretary-General that the members of the Council had taken note of the intention expressed in his letter of 2 July 2018.

Programme of work

Objective

105. The objective, to which this mission contributes, is to advance the main agenda items of the Geneva International Discussions, including the non-use of force/international security arrangements and addressing the issue of internally displaced persons and refugees, in the context of the Discussions and the Gali Incident Prevention and Response Mechanism.

Strategy

106. To contribute to the objective, the mission, in close partnership with the offices of the other Co-Chairs, will continue to step up efforts to support the revitalization of the Geneva International Discussions and the resumption of the regular meetings of the Mechanism as result-oriented platforms for dialogue and conflict prevention, which is expected to result in contributing to the ultimate goal of transitioning the Discussions from a conflict management to a conflict transformation and resolution process. Emphasis will be placed on addressing and making progress on central issues, including the non-use of force/international security arrangements and internally displaced persons and refugees.
107. In 2023, the mission's planned deliverables will support Member States' objectives through close cooperation with the Resident Coordinator Office in Georgia and the United Nations country team in their efforts in the ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include advocacy for and facilitation of technical, material and financial support for the population who reside in Abkhazia, Georgia. Such assistance will be implemented by the United Nations specialized agencies, funds and programmes. The mission will also engage with relevant Member States in advocacy of assistance related to the COVID-19 pandemic in 2023.
108. Reflecting the importance of continuous improvement and responding to the needs of Member States, the mission adapted its working methods drawing on lessons learned during the pandemic, including through the efforts of the Resident Coordinator Office in Georgia and the country team to mainstream good practices.
109. The above-mentioned work is expected to result in:
- (a) Contributing to the ultimate goal of transitioning the Discussions from a conflict management to a conflict transformation and resolution process;
 - (b) Addressing and making progress on central issues, including the non-use of force/international security arrangements and internally displaced persons and refugees.

External factors for 2023

110. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) All stakeholders will continue to support the International Discussions in Geneva and the Gali Incident Prevention and Response Mechanism and the continued engagement of the United Nations;
 - (b) All relevant stakeholders and participants in the Geneva International Discussions will continue to support efforts to help to revitalize the Discussions and enhance their effectiveness;
 - (c) The three organizations that serve as Co-Chairs will continue to collaborate closely to fulfil the mandate of the Discussions.

111. Regarding cooperation with other entities, the mission adopts a proactive approach to ensure close and regular coordination and information-sharing with the European Union and OSCE Co-Chairs and their teams. The mission will also continue to maintain close contact with the European Union Monitoring Mission in Georgia and OSCE, which jointly chair the Ergneti Incident Prevention and Response Mechanism. In addition, the mission will continue to pursue contacts with international non-governmental organizations and think tanks in the fields of conflict resolution, mediation and women and peace and security.
112. With regard to inter-agency coordination and liaison, the mission will continue to cooperate closely with the United Nations agencies, funds and programmes, such as the Resident Coordinator Office in Georgia, UNHCR, UNDP, the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), OHCHR, the World Health Organization (WHO) and other actors so as to coordinate and strengthen the role and contribution of the United Nations within the framework of the Geneva International Discussions and the Gali Incident Prevention and Response Mechanism.
113. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including engaging in advocacy for gender equality and promoting the participation of women in the peace process, as well as their direct involvement in development programmes. In close cooperation with the other Co-Chairs and their focal points on women and peace and security, the mission continues to promote the role of women in conflict resolution and peacebuilding and works closely with the respective headquarters of the other Co-Chairs for that purpose and in the framework of the Co-Chairs joint strategy and action plan adopted in 2019. In 2023, the Co-Chairs will continue their engagement initiated in 2019 to take advantage of the synergies between the women and peace and security and the youth and peace and security agendas.

Programme performance in 2021

Continuation of efforts to achieve concrete results on key issues on the agenda of the Geneva International Discussions

114. The mission, in cooperation with the European Union and OSCE, continued its initiatives towards revitalizing the Geneva International Discussions despite the restrictions imposed by the COVID-19 pandemic during 2021. The planned four in-person rounds of the Geneva International Discussions and pre-round meetings were held, and the mission engaged closely and regularly with the other Co-Chairs and all participants virtually and in person. The mission substantively increased the number of regular senior-level and working-level virtual interactions with all participants to keep the platform for dialogue active and continue enabling result-oriented discussions in a consistent and uninterrupted manner. The mission continued to work on a strategic approach to the information sessions that would be aimed at sharing international practices and lessons learned, with a view to help make greater progress on the core issues of the agenda. Two successive information sessions on “Comprehensive/human dimensions of security” were held in 2021, as well a technical meeting of medical experts on COVID-19 and a sub-working group on the topic “Freedom of movement and other related aspects”. The Co-Chairs met with the representatives of young people in Zugdidi, Tbilisi and Tskhinvali as part of their outreach to civil society.
115. The above-mentioned work contributed to maintaining dialogue with the participants of the Geneva International Discussions with a view to making progress on key agenda items and to resolve emerging issues. However, it did not manage to achieve such progress on the non-use of force/international security arrangements and internally displaced persons/refugees owing to the hardening positions of the participants and the overall regional and global geopolitical context. The Co-Chairs’ initiatives to engender concrete discussions on the subjects did not gain traction among the participants. The mission effectively contributed to improving the living conditions of conflict-affected populations by facilitating the opening of humanitarian corridors for the people living in Abkhazia, and advocated for the same in the Tskhinvali region/South Ossetia, Georgia. Thanks in part to these efforts the former was fully opened in two locations from September 2021 onwards. Progress towards the objective is presented in the performance measure below (see table 17).

Table 17
Performance measures

2019 (actual)	2020 (actual)	2021 (actual)
More result-oriented discussions on the substantive Geneva International Discussions issues, such as the non-use of force/international security arrangements and the issues related to internally displaced persons and refugees, including with the support of the dedicated expert-level information sessions	Due to the COVID-19 pandemic, only one round of the Geneva International Discussions took place. Participants resumed engagement on the key agenda items in both Working Group I and II. No information session was organized	Four in-person rounds of the Geneva International Discussions took place Two information sessions on “Comprehensive/human dimension of security,” one technical meeting of medical experts on COVID-19 and a sub-working group on the topic “Freedom of movement and other related aspects” were organized

Impact of the pandemic

116. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, as the regular missions of staff members to the region were curtailed, except for pre-round visits of the Co-Chairs of the Geneva International Discussions in which essential team members were included.

Planned result for 2023

Revitalizing the Geneva International Discussions to achieve practical results

Programme performance in 2021 and target for 2023

117. The mission’s work contributed to the firm commitment of all participants of the Geneva International Discussions to continue engagement to prevent a resumption of hostilities, which met the planned target for 2021. In relation to the Gali Incident Prevention and Response Mechanism, it has not been possible to resume it since its suspension in June 2018. After the mission’s active and continuous negotiations, in June 2021 one of the participants took the initiative to resume the meetings but with one precondition. Consultations to solve this issue are ongoing.
118. If the Gali Incident Prevention and Response Mechanism meetings fail to be resumed in 2022, in 2023 the mission will continue to make every effort to work with the participants to ensure the resumption of the meetings of the Mechanism. In close cooperation with the European Union and OSCE, the mission will facilitate engagement as appropriate between the relevant participants with a view to avoiding disruptions of the Discussions and the meetings of the Mechanism and closure of the crossing points.

Lessons learned and planned change

119. The lesson for the mission was the need to adapt to alternative (virtual) modes of engagement with the participants of the Geneva International Discussions and the participants of the Gali Incident Prevention and Response Mechanism. While mission staff were able to work efficiently under such arrangements, the effectiveness and frequency of engagement with the local actors was sometimes reduced owing to the lack of face-to-face meetings. In applying the lesson, the mission will continue using virtual and alternate methods as appropriate in its engagement with the participants of the Discussions, especially with the participants of the Gali Incident Prevention and Response Mechanism. Expected progress towards the objective and the target for 2023 are presented in the performance measure below (see table 18).

Table 18
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Result-oriented discussions on the substantive Geneva International Discussions issues, such as the non-use of force/international security arrangements and other issues, including related to internally displaced persons, including with the support of the dedicated expert-level information sessions	One round of the Geneva International Discussions took place. No progress was made on substantive agenda items	Four rounds of the Geneva International Discussions took place. No progress was made on substantive agenda items. No meetings of the Gali Incident Prevention and Response Mechanism took place during the period	Progress achieved by the stakeholders on the substantive issues of the Geneva International Discussions agenda and in the work of the Gali Incident Prevention and Response Mechanism to promote peace and stability on the ground	Progress achieved by the stakeholders on the substantive issues of the Geneva International Discussions agenda and in the work of the Gali Incident Prevention and Response Mechanism to promote peace and stability on the ground

Deliverables

120. Table 19 lists all deliverables of the mission.

Table 19
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	16	4	16	10
1. Rounds of the Geneva International Discussions	4	4	4	4
2. Meetings of the Gali Incident Prevention and Response Mechanism	12	–	12	6
B. Generation and transfer of knowledge				
Technical materials (number of materials)	2	2	2	2
3. Thematic non-papers prepared by the Co-Chairs on non-use of force, freedom of movement, internally displaced persons and other issues related to the Geneva International Discussions agenda	2	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: consultations on thematic issues on the Geneva International Discussions agenda related to peace and security and humanitarian issues; advice through information sessions on specific thematic issues on the agenda for participants in the Geneva International Discussions; advocacy through information sessions on areas of interest to the participants related to the Geneva International Discussions agenda.				
D. Communication deliverables				
External and media relations: press communiqués of the Co-Chairs after each round of the Geneva International Discussions; press releases and summary conclusions of the Chair after each meeting of the Gali Incident Prevention and Response Mechanism. While in 2021, as planned, four press communiqués were issued by the Co-Chairs, there were no press releases and summary conclusions of the Chair of the Gali Incident Prevention and Response Mechanism owing to the non-resumption of the Mechanism's meetings.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 20

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021	2022	2023		Variance
	Expenditure	Appropriation	Total requirements	Non-recurrent	2023 vs. 2022 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(3)-(2)
Military and police personnel costs	–	–	–	–	–
Civilian personnel costs	1 493.0	1 584.9	1 488.4	–	(96.5)
Operational costs	264.8	460.1	499.5	–	39.4
Total (net of staff assessment)	1 757.8	2 045.0	1 987.9	–	(57.1)

Table 21

Positions

	Professional and higher categories								General Service and related categories			National staff				
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service ^a	Total inter- national	National Professional Officer	Local level	United Nations Volunteer	Total
Approved 2022	–	1	–	–	1	2	2	–	6	–	1	7	–	–	–	7
Proposed 2023	–	1	–	–	1	2	2	–	6	–	1	7	–	–	–	7
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

121. The proposed resource requirements for 2023 for the Office of the United Nations Representative to the Geneva International Discussions amount to \$1,987,900 (net of staff assessment) and would provide for salaries and common staff costs (\$1,488,400) for the continuation of six positions based in Geneva (1 Assistant Secretary-General, 1 P-5, 2 P-4, 1 P-3 and 1 General Service) and one position based in Zugdidi, Georgia (P-3), as well as for operational costs (\$499,500), comprising costs for consultants and consulting services (\$8,900), official travel (\$246,700), facilities and infrastructure (\$127,700), ground transportation (\$23,400), communications and information technology (\$47,800) and other supplies, services and equipment (\$45,000).
122. In 2023, no change is proposed to the number and levels of the positions. The resource requirements are based on the assumption of full incumbency of the positions, based on the actual average vacancy rate in 2021.
123. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to the application of a lower percentage of common staff costs to salary costs of 36.1 per cent compared with 46.4 per cent applied to the 2022 approved budget, based on recent expenditure patterns, offset in part by increased requirements under official travel, owing to increased requirements for within-mission travel in Georgia.

6. Office of the Special Envoy of the Secretary-General for Syria

(\$15,565,700)

Foreword

As the conflict in the Syrian Arab Republic enters its twelfth year, marking another grim milestone, Syrians continue to suffer in profound ways and the hardship is only deepening. We see growing humanitarian needs and the continued effects on the Syrian people of the destruction of the country and the collapse of the Syrian economy.

Beyond the humanitarian sphere, there is much else that could be done to build trust and confidence. After all, it is clear that no one actor or existing group of actors in the Syrian Arab Republic can determine the outcome of this conflict. A military solution is an illusion.

That is why I continue to engage with the Government of the Syrian Arab Republic, the opposition Syrian Negotiations Commission and the men and women of the Syrian Arab Republic as widely as I can, as well as with all key international actors, to promote the full implementation of Security Council resolution [2254 \(2015\)](#), something that is perfectly doable if the political will is there.

With frontlines frozen, there is every reason to try to build a true nationwide ceasefire. Likewise, the parties share an interest and a duty to cooperate against listed terrorist groups. Any credible attempt to build trust must include serious steps forward on the plight of the detained, the abducted and the missing. There is much that can be done to address the real concerns of Syrian refugees. It is clear that all this will require progress on the core political issues in resolution [2254 \(2015\)](#) that are still unaddressed, including governance and elections.

My sincere appeal to the Syrian parties and all key international actors is to work with the United Nations in order to help advance this shared goal.

(Signed) Geir O. Pedersen
Special Envoy of the Secretary-General for Syria

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

124. On 16 February 2012, the General Assembly, in its resolution [66/253 A](#), requested the Secretary-General and all relevant United Nations bodies to support the efforts of the League of Arab States aimed at promoting a peaceful solution to the conflict in the Syrian Arab Republic, including through the appointment of a special envoy.
125. The Office of the Special Envoy of the Secretary-General for Syria is responsible for facilitating an inclusive, comprehensive and credible Syrian-owned and led political solution to the conflict in the Syrian Arab Republic that will meet the legitimate aspirations of the Syrian people for dignity, freedom and justice based on the principles of equality and non-discrimination. The mandate derives from the priorities established by the Security Council in resolutions [2118 \(2013\)](#), [2254 \(2015\)](#), [2268 \(2016\)](#) and [2336 \(2016\)](#), as well as by the General Assembly in resolution [66/253 A](#).
126. The conflict in the Syrian Arab Republic, now entering its twelfth year, has caused enormous humanitarian suffering, a record number of refugees and internally displaced persons and vast destruction in the country. Amid the continued presence of foreign armies in the Syrian Arab Republic, the conflict continues to pose significant risks to regional and international security. Accordingly, it is critical to continue to work towards an inclusive, credible and comprehensive political solution to the conflict that sees the full implementation of Security Council resolution [2254 \(2015\)](#).

Programme of work

Objective

127. The objective, to which this mission contributes, is to advance the full implementation of all the relevant General Assembly and Security Council resolutions, including Assembly resolution [66/253 A](#) and Council resolutions [2118 \(2013\)](#), [2254 \(2015\)](#), [2268 \(2016\)](#) and [2336 \(2016\)](#), towards an inclusive, credible, comprehensive Syrian-owned and led political solution to the conflict in the Syrian Arab Republic that meets the legitimate aspirations of the Syrian people for dignity, freedom and justice, based on the principles of equality and non-discrimination and with the full and meaningful participation of women.

Strategy

128. To contribute to the objective, the Office will:
 - (a) Continue to engage with national, regional and international stakeholders; deepen the discourse with the Government of the Syrian Arab Republic and the opposition; intensify efforts on the issue of detainees, abductees and missing persons; and work to create the conditions for a safe, calm and neutral environment conducive to advancing an inclusive, comprehensive and credible political settlement of the Syrian conflict in line with Security Council resolution [2254 \(2015\)](#);
 - (b) Focus on improving international cooperation to help international parties deepen their own dialogue in new formats towards the common purpose of a sustainable political settlement of the Syrian conflict that can enjoy international legitimacy and encompasses all elements of Security Council resolution [2254 \(2015\)](#). The Office will continue to convene and facilitate the work of the Constitutional Committee to catalyse a wider positive dynamic to move the political process forward, including working to create the conditions for inclusive, free and fair elections administered under United Nations supervision.

129. Reflecting the importance of continuous improvement and responding to the needs of Member States, the Mission has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. This includes meetings of the Civil Society Support Room and meetings of the Special Envoy with regional and international stakeholders that took place online. The Office will continue to avail itself of alternative modes for such meetings and discussions where feasible and appropriate. The Office recognizes the explicit wish of all actors to return to in-person meetings where and when possible, owing to the intricate, delicate and sensitive nature of the issues at hand that are discussed in such meetings.
130. The above-mentioned work is expected to result in:
- (a) Sustained, regular and substantive negotiations and discussions among relevant stakeholders on all issues outlined in Security Council resolution [2254 \(2015\)](#);
 - (b) Enhanced trust and confidence among the parties;
 - (c) Strengthened international consensus to advance the political process across all elements of Council resolution [2254 \(2015\)](#), notably the establishment of a credible, inclusive and non-sectarian governance, the setting of a schedule and process for drafting a new constitution, as well as free and fair elections, pursuant to the new constitution, to be administered under United Nations supervision and to the highest international standards of transparency and accountability, with all Syrians, including members of the diaspora, eligible to participate.

External factors for 2023

131. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) All national, regional and international stakeholders will cooperate with the Special Envoy;
 - (b) International consensus with regard to the Syrian Arab Republic will continue to be difficult to achieve and sustain;
 - (c) The security situation will remain volatile in 2023, posing a threat to regional and international peace and security;
 - (d) The conflict will continue to severely affect civilians, especially women and children, risking high levels of civilian casualties and other human rights violations. Lack of accountability for grave human rights violations will hamper genuine reconciliation among the parties.
132. With regard to cooperation with other entities, in line with its mandate, the Office will continue to partner with the international community and international non-governmental organizations to facilitate and support the work of the Civil Society Support Room and the Syrian Women's Advisory Board. The Office will also continue to liaise with specialized international organizations (for example, the International Committee of the Red Cross) in the context of its work on the file of detainees, abductees and missing persons.
133. With regard to inter-agency coordination and liaison, cooperation will continue with the resident coordinators and the agencies, funds and programmes of the United Nations operating in the Syrian Arab Republic and the region, including through the Office's presence in Damascus. In addition, agencies working in the Syrian Arab Republic are represented within the Inter-Agency Task Force on the country, which ensures the coordination and coherence of United Nations political, humanitarian, human rights and other efforts in the country.
134. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and will continue to consult regularly with the Syrian Women's Advisory Board and diverse women representatives from civil society to hear their perspectives on a sustainable and inclusive political solution.

Programme performance in 2021

Advancement of the implementation of the road map as outlined in resolution 2254 (2015) for the political process in the Syrian Arab Republic

135. The Special Envoy carried out the Secretary-General's good offices to advance towards the full implementation of Security Council resolution 2254 (2015). He prioritized engaging with the Government of the Syrian Arab Republic and the opposition in substantive negotiations. He also consulted broadly with national, regional and international stakeholders to end the violence and create the conditions for an inclusive, credible and comprehensive political solution.
136. The Special Envoy expended significant efforts towards facilitating the work of the Constitutional Committee. After the agreement of the Government and the Syrian Negotiation Commission to a package deal on the agenda, methodology and schedule of meetings, the members of the Committee started submitting proposed constitutional texts.
137. The Special Envoy also advocated progress on full, safe and unhindered humanitarian access. He emphasized the issue of detainees, abductees and missing persons and stressed the need to pursue meaningful action at scale. Furthermore, the Special Envoy continued to engage with Syrian women's representatives. Throughout 2021, the mission held regular meetings with the Syrian Women's Advisory Board and other civil society groups to ensure inclusivity and gender mainstreaming in the political process. Progress towards the objective is presented in the performance measure below (see table 22).

Table 22

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Composition of the Constitutional Committee and its terms of reference and core rules of procedures negotiated and agreed, followed by its launch in Geneva	Constitutional Committee meetings in Geneva, in tandem with international engagements on other elements of the political process, in accordance with Council resolution 2254 (2015), to improve conditions on the ground, build trust and confidence and open a path to credible negotiations	Constitutional Committee started discussions, based on its terms of reference, to find agreement on basic constitutional principles, while international engagements on other elements of the political process, in accordance with Council resolution 2254 (2015), were deepened

Impact of the pandemic

138. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandate as health protocols and travel limitations posed challenges to the format of political engagements. The Special Envoy continued to engage with national, regional and international stakeholders in face-to-face meetings to the extent possible owing to the sensitive nature of the discussions.

Planned results for 2023

Establishing and advancing a credible, inclusive and comprehensive political process to advance on all elements of Security Council resolution 2254 (2015)

Programme performance in 2021 and target for 2023

139. The mission's work contributed to the Constitutional Committee making progress in its discussions by securing the agreement of the parties to start submitting constitutional draft texts, which met the planned target of the Constitutional Committee making progress.

Lessons learned and planned change

140. The lesson for the mission was the need to continue to expand its engagement beyond the traditional interlocutors, including international stakeholders, firstly to broaden national ownership over the political process, and secondly to expand the scope of issues that are addressed in the political process. In applying the lesson, the mission will further broaden its scope and work with a wider range of stakeholders to ensure a comprehensive and holistic approach towards the implementation of Security Council resolution [2254 \(2015\)](#). Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 23).

Table 23
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Constitutional Committee launched in Geneva, facilitated by the United Nations, and discussions on other elements of the political process	Continuation of the work of the Constitutional Committee in tandem with progress on the broader political process in accordance with Security Council resolution 2254 (2015)	Constitutional Committee makes progress in its discussions, based on its terms of reference, in tandem with progress on the broader political process in accordance with Council resolution 2254 (2015)	Constitutional Committee produces tangible results in tandem with sustained and substantive negotiations between the Government of the Syrian Arab Republic and the opposition to advance the full implementation of Council resolution 2254 (2015)	Constitutional Committee continues producing tangible results in tandem with sustained negotiations and consultations to advance the full implementation of Council resolution 2254 (2015)

Deliverables

141. Table 24 below lists all deliverables of the mission.

Table 24
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	160	50	160	144
1. Meetings of the Security Council	12	12	12	12
2. Meetings of the Task Force on the Ceasefire of the International Syria Support Group	12	1	12	–
3. Meetings of the Task Force on Humanitarian Access of the International Syria Support Group	24	20	24	20
4. Meetings of the large body of the Constitutional Committee	12	–	12	12
5. Meetings of the small body of the Constitutional Committee	100	17	100	100
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	8	16	8	8
6. Workshops for all Syrian stakeholders on topics relating to the peace talks, such as governance, constitution, elections, security governance/counter-terrorism and confidence-building measures	8	16	8	8

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Good offices: provision of good offices to facilitate an inclusive Syrian-led and owned political solution to the Syrian conflict, which will meet the legitimate aspirations of the Syrian people to dignity, freedom and justice based on the principles of equality and non-discrimination.

Consultation, advice and advocacy: consultation, advice and advocacy in support of the political process with Member States and regional and international organizations; consultations and advice as a member of the Working Group on the release of detainees/abductees, the handover of bodies and the identification of missing persons; consultations in support of the political process with representatives of civil society organizations; consultations in support of the political process with women's representatives and women organizations.

D. Communication deliverables

External and media relations: press statements, interviews, video messages and briefings stressing the importance of political dialogue, the end of violence, human rights violations, humanitarian access and the role of women in the peace process.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Change	–	–	–	–	–	–	(3)	–	(3)	–	–	(3)	–	–	–	(3)

^a Other level, unless otherwise stated.

142. The proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General for Syria amount to \$15,565,700 (net of staff assessment) and would provide for salaries and common staff costs (\$8,406,100) for the continuation of 88 positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 1 D-2, 3 D-1, 8 P-5, 14 P-4, 11 P-3, 10 Field Service,

8 General Service and 31 Local level), as well as operational costs (\$7,159,600), comprising costs for consultants and consulting services (\$142,400), official travel (\$1,141,100), facilities and infrastructure (\$3,502,200), ground transportation (\$367,700), air transportation (\$356,000), communications and information technology (\$396,400), medical (\$7,800) and other supplies, services and equipment (\$1,246,000).

143. For 2023, the following changes are proposed to the staffing complement:
- (a) Abolishment of two P-3 positions in combination with the establishment of one P-4 position. It is proposed that one Political Affairs Officer (P-3) and one Finance and Budget Officer (P-3), both based in Geneva, be abolished, in combination with the proposed establishment of one Administrative Officer (P-4) in Geneva. The proposal will allow the Mission to widen its candidate pool to those competent in a wide range of functions including finance, budget and administrative matters, and to streamline its support for the Constitutional Committee and the overall mandate of the Special Envoy;
 - (b) Abolishment of two long-vacant positions in Damascus: 1 Military Adviser (P-4) and 1 Field Interpreter (P-3);
 - (c) Redeployment of one existing Finance Assistant position (Field Service) within the mission to the Kuwait Joint Support Office to supplement the staffing capacity of the back office.
144. A vacancy rate of 35 per cent has been applied to estimates for continuing international positions based on the average vacancy rate in 2021. A vacancy rate of 50 per cent has been applied to the position proposed to be established. Resource requirements for national positions were estimated on the assumption of full incumbency.
145. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to lower requirements under civilian personnel costs owing to the application of a higher vacancy rate of 35 per cent for international positions as compared with 27.6 per cent in the approved 2022 budget, as well as the proposed abolishment of long-vacant positions. The reduced requirements under civilian personnel are offset partly by increased requirements under operational costs, attributable mainly to additional requirements under air operations for charter air service due to the lack of commercial flights between Geneva and Damascus to transport members of the Constitutional Committee, partly offset by lower requirements under facilities and infrastructure due mainly to a new lower-cost contract for rental of office space in Damascus.

Extrabudgetary resources

146. In 2022, extrabudgetary resources of \$500,000 under the purview of the Office of the Special Envoy for Syria are supporting the Office of the Special Envoy in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition, civil society, including women's groups and regional and international stakeholders, as well as other activities.
147. For 2023, extrabudgetary resources of \$500,000 under the purview of the Office of the Special Envoy for Syria are projected to support the Office of the Special Envoy in its role of facilitating the Constitutional Committee.

7. Office of the Special Envoy of the Secretary-General for the Horn of Africa

(\$1,921,000)

Foreword

The establishment of the Office of the Special Envoy of the Secretary-General for the Horn of Africa in 2018 was largely driven by dynamic changes in the region. The Office is mandated to support the Horn of Africa region in sustaining gains in peace and security, encompassing all the countries of the Intergovernmental Authority on Development (IGAD), including Eritrea. While new trends and challenges have emerged since 2018, and others have resurfaced, the Office has worked with partners to identify entry points for engagement to best address these challenges.

Over the course of 2023, the Office of the Special Envoy will adjust to the new challenges in the region, while continuing to coordinate and enhance the coherence of the collective work of the United Nations in the region, and focus on the prevention of crises affecting human security through joined-up action in support of Member States' national and regional strategies in the pursuit of lasting peace and sustainable development. In this regard, I will provide political leadership and coordinated implementation of the comprehensive regional prevention strategy for the Horn of Africa, with a focus on supporting regional peace, security and long-term stability; building resilience and promoting socioeconomic development; promoting inclusive and responsive governance; and supporting sustainable natural resources management and climate resilience. In addition, I will work closely with the African Union and IGAD to support their efforts in achieving a more peaceful and prosperous Horn of Africa. I look forward to representing the Secretary-General in this effort.

(Signed) Hanna **Tetteh**
Special Envoy of the Secretary-General for the Horn of Africa

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

148. The overall objective of the mission is to work closely with and support IGAD member States, in line with the framework for cooperation between the United Nations and IGAD signed in Djibouti on 17 November 2015, and other regional organizations in promoting peace and security across the Horn of Africa. This primarily involves enhancing subregional capacities for conflict prevention and mediation and addressing cross-cutting issues. On this basis, the mission supports the good offices of the Secretary-General. The mission has been tasked with enhancing linkages in the work of the United Nations and other partners in the Horn of Africa region, with a view to promoting a joined-up regional approach, including through facilitating coordination and information exchange within the United Nations system.
149. The mandate of the mission derives from an exchange of letters between the Secretary-General and the President of the Security Council ([S/2018/955](#) and [S/2018/979](#)), when the remit of the mandate of the Special Envoy of the Secretary-General for the Sudan and South Sudan was expanded to cover the entire Horn of Africa region, following previous exchanges of letters (including [S/2016/258](#) and [S/2016/259](#)). In line with the letters of 2018, the mission also continues to carry out the functions previously performed by the Special Envoy for the Sudan and South Sudan relating to the maintenance of good and peaceful neighbourly relations between the Sudan and South Sudan, established pursuant to the exchange of letters between the Secretary-General and the President of the Security Council in 2011 ([S/2011/474](#) and [S/2011/475](#)). The mandate includes cooperation with the African Union High-level Implementation Panel in efforts to implement Security Council resolution [2046 \(2012\)](#), in which the Council called upon the Sudan and South Sudan to reach an agreement on critical issues, including: (a) the full and urgent advancement of all outstanding issues from the Comprehensive Peace Agreement; and (b) the easing of tensions and the facilitation of the resumption of negotiations on post-secession relations and the normalization of their relations.
150. The Horn of Africa region has long been a focus of United Nations engagement and investment. The region faces major challenges, including long-standing civil conflicts and unrest, poverty and vulnerability to climate change. The region also possesses significant opportunities, however, including rapid economic growth in several countries, a young and dynamic population and new momentum for regional cooperation. Realizing the region's enormous potential requires a collective approach, tackling shared challenges in a coordinated manner. The task of the mission is to support the region at this critical juncture and ensure that it benefits from the full range of the expertise and capacities of the United Nations.

Programme of work

Objective

151. The objective, to which this mission contributes, is to establish and maintain good and peaceful neighbourly relations between the countries of the Horn of Africa region, encompassing Djibouti, Eritrea, Ethiopia, Kenya, Somalia, South Sudan, the Sudan and Uganda, with a view to consolidating and sustaining gains in peace and security and enhancing regional conflict prevention.

Strategy

152. To contribute to the objective, the Office will:
- (a) Promote regional peace and security, resilience and socioeconomic development, inclusive and responsive governance and sustainable natural resources development and climate resilience. This will be done by providing political leadership for the United Nations engagement in these areas and ensure joined-up action and system-wide ownership of outcomes through the comprehensive regional prevention strategy for the Horn of Africa;
 - (b) Support IGAD in strengthening the link between early warning and early response, increasing its capacity to respond to and resolve conflicts, including through mediation and improving information-sharing and knowledge management by learning from good practices in the region and beyond. This will be done by deploying the Secretary-General's good offices and leveraging the collective influence of IGAD member States to support dialogue and joint initiatives among the countries;
 - (c) Work closely with and support the African Union, the African Union High-level Implementation Panel and other relevant regional organizations in addressing recent and emerging security threats. This will be done by information-sharing, the convening of regular meetings with relevant partners and other special envoys in the Horn of Africa region and the development of appropriate messages and approaches for supporting regional peace and security.
153. For 2023, the mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include continuing its enhanced partnership with IGAD and supporting IGAD in its regional response to the pandemic. Following the assistance that the mission provided to IGAD in 2020 by mobilizing United Nations experts to provide substantive support in finalizing the IGAD regional response strategy to address COVID-19, the mission will continue to support the implementation of the strategy, as needed and when requested.
154. Reflecting the importance of continuous improvement and responding to the needs of Member States, the mission has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. This includes incorporating the issue of the impact of COVID-19 in the comprehensive regional prevention strategy and assessing the pandemic's impact in analytical reports and code cables.
155. The above-mentioned work is expected to result in:
- (a) Strengthened subregional capacities and improved relations and enhanced mutual trust and confidence between countries of the region to address the root causes of conflicts. More specifically, these actions are expected to result in strengthened synergies between partners in the region and the alignment of interventions and responses with the respective strategic frameworks of the United Nations, IGAD and the African Union;
 - (b) Operationalizing the Secretary-General's vision of prevention through further implementing the action plan of the comprehensive regional prevention strategy;
 - (c) Strengthened partnership with IGAD and the African Union.

External factors for 2023

156. With regard to the external factors, the overall plan for 2023 is based on the following assumptions:
- (a) Opportunities exist to address long-standing sources of tension, particularly through shuttle diplomacy;
 - (b) IGAD and the African Union continue to be fully engaged in the maintenance of peace and security in the region, paying special attention to Ethiopia, Somalia, the Sudan and South Sudan;

- (c) States in the region continue to engage constructively with the Special Envoy and continue to work with the United Nations in the area of capacity-building, in particular in the area of mediation and conflict prevention and resolution;
 - (d) South Sudanese parties, with support from the region, progressively show commitment to the implementation of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan and are prepared to consolidate gains;
 - (e) The relationship between the Sudan and South Sudan remains constructive, enabling direct negotiations between the two countries on outstanding bilateral issues, including the situation of Abyei and its final status.
157. Where feasible, the programme plan for 2023 continues to incorporate novel approaches to implement mandates that were put in place in response to the changed operational conditions associated with the COVID-19 pandemic. At the same time, the programme plan for 2023 assumes that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.
158. With regard to cooperation with other entities, in order to capitalize on the opportunities for closer cooperation on peace and security in the Horn of Africa, the mission will continue to work closely with IGAD and its member States and other organizations such as the African Union and the European Union. Support will be provided to address the regional dimensions of crises and conflicts in the Horn of Africa, with a particular focus on their cross-border and regional implications. The mission will also cooperate with the African Union High-level Implementation Panel to support the bilateral negotiations between the Sudan and South Sudan to resolve outstanding issues, including finding a settlement to the issue of the final status of Abyei. In addition, the mission will continue to work closely with the African Union, IGAD, the troika and other Member States supporting political cooperation in the region. The mission will continue to provide technical and advisory support for the IGAD secretariat, part of which will include supporting the implementation of the updated regional action plan on women and peace, and security in support of the implementation of Security Council resolution [1325 \(2000\)](#) and regional commitments by Member States.
159. With regard to inter-agency coordination and liaison, the mission will engage with special representatives of the Secretary-General, resident coordinators and peace and development advisers in the countries of the region, and with United Nations agencies, funds and programmes that are active in the areas identified as collective priorities by the United Nations system.
160. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and good offices and planned missions will include gender-sensitive and focused activities. With regard to seminars and workshops, gender-related aspects are included in the agenda of those events. Much of the Horn of Africa region's potential hinges on the meaningful involvement of women and youth in its efforts to promote stability and prosperity. With this in mind, the Special Envoy will continue to work with relevant stakeholders to promote inclusive messaging to enhance the participation of women in all political and peace processes. The Special Envoy will actively engage in regional and global meetings to lobby for the acceleration of the implementation of the women and peace and security agenda.

Evaluation activities

161. The following evaluations completed in 2021 have guided the programme plan for 2023: two biannual review reports on the implementation of the comprehensive regional prevention strategy and the United Nations-IGAD Secretariat-to-secretariat meeting reporting on implementation of the joint matrix.

162. The results and lessons of the evaluations referenced above have been taken into account for the programme plan for 2023. For example, the priority activities in the implementation matrix of the comprehensive regional prevention strategy have been adjusted to meet current trends and challenges in the Horn of Africa, including for example on climate security and the impact of COVID-19.
163. The following evaluations are planned for 2023: two biannual review reports on the implementation of the comprehensive regional prevention strategy and the annual United Nations-IGAD Secretariat-to-secretariat meeting reporting on implementation of the joint matrix.

Programme performance in 2021

Enhanced collective action in implementing the prevention agenda in the Horn of Africa and deepened partnership in the region through collaboration with the Intergovernmental Authority on Development

164. During 2021, the mission continued to coordinate the implementation of the comprehensive regional prevention strategy, encouraging collective action by United Nations entities in the Horn of Africa. Regular meetings were held with participation from across the United Nations family to review the status of the strategy's implementation and make adjustments on priority activities. Furthermore, in July 2021, the mission convened a workshop with the special representatives of the Secretary-General in the region to discuss developments in the Horn of Africa and identify areas of engagement for the United Nations. In addition, the mission continued its efforts to support regional peace, security and long-term stability, including for the crisis in Ethiopia and the relations between the Sudan and South Sudan. Collaboration with the IGAD Special Envoys, the African Union and the African Union High-level Implementation Panel deepened, which resulted in improved regional approaches to the prevention of crisis and conflict.
165. In line with the IGAD-United Nations joint framework for cooperation on peace and security, the mission supported the implementation of the matrix of joint activities and worked with IGAD units and programmes. In June, the mission and IGAD co-hosted the Secretariat-to-secretariat meeting, which brought together relevant United Nations entities and IGAD divisions to review activities proposed in the matrix. In addition, the Special Envoy for the Horn of Africa continued consultations with IGAD counterparts, including the IGAD Executive Secretary, to coordinate efforts for peace and stability in the region, including support for the IGAD Special Envoy for South Sudan on issues related to the peace process, and held consultations with leaders in the region. Progress towards the objective is presented in the performance measure below (see table 27).

Table 27

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Secretariat-to-secretariat meeting to translate the broad areas of collaboration into priority actions; and operationalization and implementation of joint activities	The capacity of IGAD to provide early warning and policy advice on conflict response measures to its member States was strengthened through the implementation of the joint framework for cooperation through joint initiatives and regular engagement	IGAD capacity to address cross-border and cross-cutting issues was strengthened, creating the conditions for joint action taken by IGAD member States on the prevention of conflict and on regional initiatives to reduce vulnerability and address the root causes of crises

Impact of the pandemic

166. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular in the following areas: (a) the cancellation of in-person consultations with South Sudanese authorities and stakeholders in preparation for the Security Council briefing on resolution 2046 (2012); (b) the cancellation of the annual IGAD-United Nations high-level dialogue on peace and security; and (c) the postponement of the in-person biannual meeting on the implementation of the comprehensive regional prevention strategy. As a result of the continuation of the pandemic, the mission employed alternative methods, including conducting and attending virtual meetings. Other meetings that could not be held virtually were cancelled or postponed.

Planned result for 2023

Enhanced collective action in implementing the prevention agenda in the Horn of Africa

Programme performance in 2021 and target for 2023

167. The mission's work contributed to the maintenance of good and peaceful neighbourly relations between the countries in the Horn of Africa region and enhanced regional conflict prevention, as well as deepened collaboration in addressing peace and security issues between IGAD, the African Union and the United Nations, which met the planned target of enhancing regional capacity to address and prevent conflict.
168. In 2023, the mission will continue to provide the Secretary-General's good offices and will provide increased support for the IGAD Special Envoys, the African Union and the African Union High-level Implementation Panel, including by undertaking joint missions and messaging on conflict prevention and resolution in the Horn of Africa. This is expected to result in improved regional approaches to the prevention of crises and conflict by strengthening the capacity of the IGAD secretariat in conflict prevention, negotiation and mediation. This is also expected to deepen the collaboration between the African Union, IGAD and other regional and subregional organizations in supporting the implementation of existing peace agreements. Furthermore, the mission will continue to coordinate implementation of the United Nations comprehensive regional prevention strategy, encompassing peace and security issues, socioeconomic development, governance challenges and climate risks and resilience.

Lessons learned and planned change

169. The lesson for the mission was the need to adjust the implementation matrix to include new and emerging threats as well as to enhance implementation. In applying the lesson, the mission will continue to engage with United Nations entities and review the membership of the pillars to ensure that implementation of the strategy continues apace and that the strategy reflects an all-of-United Nations approach. In addition, in response to the biannual reviews of implementation, the activities in the implementation matrix of the prevention strategy will continue to be revised and updated to reflect priority engagements and realities on the ground. Expected progress towards the objective and the target for 2023 are presented in the performance measure below (see table 28).

Table 28
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
The executive committee established by the Secretary-General endorses the prevention strategy; the Office of the Special Envoy for the Horn of Africa convenes a workshop to kick-start the implementation of the strategy	Implementation of the action plan through collective actions and messaging on conflict prevention	Regional capacity to address and prevent conflict and crisis in the region enhanced	Implementation of the action plan through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union	Revision and implementation of the prevention strategy through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union

Deliverables

170. Table 29 below lists all deliverables of the mission.

Table 29
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				
Good offices: provision of good offices through engagement, including shuttle and quiet diplomacy, on issues related to peace consolidation and conflict prevention, including the implementation of bilateral agreements and the completion of negotiations on outstanding bilateral issues. This includes engagements with the authorities in the Sudan and South Sudan on their bilateral relations, as well as other leaders, officials and stakeholders in the region regarding regional peace and security issues.				
Consultation, advice and advocacy: consultations and advice on consolidating recent gains in peace and security in the Horn of Africa region; advice on enhancing subregional capacities to address cross-border and cross-cutting issues. Consultations will be undertaken with IGAD member States and the IGAD secretariat, civil society organizations and partners working in or on the IGAD region. Engagement with the African Union, including the African Union High-level Implementation Panel, will also continue.				
D. Communication deliverables				
External and media relations: social media outreach and briefings to raise awareness of key developments and promote support for addressing challenges to peace and security in the region. Social media outreach and briefings will target United Nations entities working in the region, United Nations Headquarters, partners and IGAD member States.

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

171. In response to the new challenges and dynamics in the Horn of Africa, for 2023 it is proposed to reconfigure the Office of the Special Envoy by increasing its presence in the region through redeploying some of its staff to Nairobi, in line with the Office's regional mandate and to strengthen its engagement across the subregion. This reconfiguration will be implemented within the existing approved staffing resources.
172. Nairobi constitutes an important diplomatic hub in the Horn of Africa's dynamics. It provides a constructive centre for ongoing peace and mediation processes in the region, including those pertaining to Ethiopia, Somalia, South Sudan and the Sudan. By redeploying key staff resources to Nairobi, the Office will be able to engage on pertinent initiatives without having to incur additional expenses in the medium to long term. Furthermore, the synergies of joint work with the United Nations Environment Programme and the regional office of the United Nations Office on Drugs and Crime, both based in Nairobi, could also be enhanced with respect to regional climate security and environmental risks, as part of the comprehensive regional prevention strategy.
173. In view of the above, the following staffing changes are proposed for 2023:
- (a) Redeployment of three international positions from Addis Ababa to Nairobi, comprising the Special Envoy of the Secretary-General (Under-Secretary-General), one position of Principal Political Affairs Officer (D-1) and one position of Special Assistant, Political Affairs (P-3). The proposed redeployment will facilitate the direct engagement of the Office in regional initiatives on relevant matters by increasing its regional reach. The Office will also benefit from the proximity to other regional offices based in Nairobi with which it is mandated to work

and access to the regional platform, facilities and support of the United Nations Office at Nairobi;

- (b) Redeployment of one position of Political Affairs Officer (P-4) from Addis Ababa back to Khartoum, where the position was initially established in 2011 and where it was based until 2018 when the mandate of the Office of the Special Envoy for the Sudan and South Sudan was expanded to cover the entire Horn of Africa. In line with the above-proposed reconfiguration of the Office and its regional mandate, this position will return to its original location in Khartoum;
 - (c) Abolishment of two national positions in Addis Ababa, consisting of one Administrative Assistant (Local level) and one Driver (Local level), and re-establishment of these positions in Nairobi. While facilities, communications and information technology and logistical support will be provided by the United Nations Office at Nairobi, there is a need to ensure the continued availability of a dedicated capacity of an Administrative Assistant and a Driver to support the operations of the Office.
174. With the above proposed relocation and reconfiguration, there will be four positions that retain their original duty stations, consisting of two positions of Political Affairs Officer (1 P-4 and 1 National Professional Officer) in Khartoum and two positions of Political Affairs Officer (1 P-4 and 1 National Professional Officer) in Juba, all reporting directly to the Principal Political Affairs Officer (D-1) to be based in Nairobi. The Office will continue to maintain a strong presence in Addis Ababa utilizing extrabudgetary resources. The Office will put in place measures to enhance continuously the close coordination between its three teams deployed to the Sudan, South Sudan and Ethiopia and the team based in Nairobi, including through regular communication and joint missions in the Horn of Africa region.
175. Reflecting the above proposals, the proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General for the Horn of Africa amount to \$1,921,000 (net of staff assessment) and would provide for salaries and common staff costs (\$1,657,900) for the nine positions (1 Under-Secretary-General, 1 D-1, 2 P-4, 1 P-3, 2 National Professional Officer and 2 Local level), as well as operational costs (\$263,100), comprising costs for official travel (\$110,200), facilities and infrastructure (\$27,400), ground transportation (\$64,600), communications and information technology (\$41,200), medical (\$1,900) and other supplies, services and equipment (\$17,800).
176. A vacancy rate of 3 per cent has been applied to the five international positions (comprising three to be redeployed to Nairobi and two that will be based in Khartoum and Juba, respectively) based on recent incumbency. The proposed resources for the two National Professional Officer positions that will continue to be based in the Sudan and South Sudan are calculated on the assumption of full incumbency based on actual incumbency. For the two Local level positions proposed to be re-established in Nairobi, a vacancy rate of 35 per cent is applied, according to standard budgeting practice, to take into account the time required for recruitment.
177. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to: (a) an increase of \$76,100 under civilian personnel costs due to application of the latest salary scales; and (b) an increase of \$81,300 under operational costs due mainly to the requirement to provide for rental of office premises at the United Nations Office at Nairobi and the non-recurring requirement to replace one of the mission's two United Nations-owned vehicles that has reached the end of its operational life.

Extrabudgetary resources

178. In 2022, extrabudgetary resources amounting to approximately \$1,064,400 are being utilized to provide for five positions (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level), for consultancy services and for temporary administrative support.

179. In 2023, extrabudgetary resources in the estimated amount of \$1,100,000 will be utilized to provide for the continuation of five positions (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level), as well as for consultancy and temporary administrative support services.
180. The increase in the estimated extrabudgetary resources to be utilized in 2023 as compared with 2022 is due to the anticipated resumption of in-person events.

8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region

(\$5,740,400)

Foreword

The signatory countries of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region have further intensified diplomatic outreach and bilateral cooperation in various areas, notably political and security cooperation and economic integration. Despite the important progress that has been made, several challenges persist, such as the threat of armed groups, the illicit exploitation and trade in natural resources, human rights violations and humanitarian crises. All actors in and beyond the Great Lakes region must therefore remain firm in their support and commitment to sustain the progress achieved thus far and resolve remaining challenges.

The United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region ([S/2020/1168](#)) and its action plan, adopted in October 2020 and July 2021, respectively, have chartered a clear path for United Nations action in the region over the next few years, in support of the objectives of the Peace, Security and Cooperation Framework for dialogue, durable peace and development.

In 2023, I will therefore continue working towards the implementation of the Strategy and its action plan, with a particular emphasis on good offices to promote greater trust and the normalization of relations between countries in the region. Strengthening partnerships with subregional, regional and international partners will remain central to these efforts, from political, security, economic and judicial cooperation to matters related to the women and peace and security and youth and peace and security agendas. In this regard, I count on Member States' continued support to advance the implementation of the mandate of my Office, in support of a peaceful, stable, inclusive and prosperous Great Lakes region.

(Signed) Huang Xia
Special Envoy of the Secretary-General for the Great Lakes Region

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

181. Established in 2013, the Office of the Special Envoy of the Secretary-General for the Great Lakes Region is responsible for supporting the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, which was signed on 24 February 2013 by Angola, Burundi, the Central African Republic, the Congo, the Democratic Republic of the Congo, Rwanda, South Africa, South Sudan, Uganda the United Republic of Tanzania and Zambia, as well as representatives of the United Nations, the African Union, the International Conference on the Great Lakes Region and the Southern African Development Community (SADC), acting as guarantors. On 31 January 2014, Kenya and the Sudan also signed the Framework. The Framework outlines key national, regional and international commitments required to end the recurring cycles of violence in eastern Democratic Republic of the Congo and address the root causes of conflict in the region.
182. The mandate of the mission derives from Security Council resolution [2098 \(2013\)](#) and subsequent Council resolutions and documents, including resolutions [2147 \(2014\)](#), [2211 \(2015\)](#), [2277 \(2016\)](#), [2348 \(2017\)](#), [2502 \(2019\)](#), [2556 \(2020\)](#) and [2612 \(2021\)](#). Recently, in a press statement of 28 April 2022, the Council reaffirmed its full support for the Special Envoy and encouraged further engagement with the region to address the remaining challenges in the implementation of the Peace, Security and Cooperation Framework and to promote peace and stability in the region. The Council further welcomed the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region ([S/2020/1168](#)) and its action plan.
183. Since early 2019, a positive momentum has emerged to reinvigorate cooperation towards peace, stability and development in the region. Against this backdrop, on 22 October 2020 the Secretary-General approved the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region, which was prepared by the mission and published on 4 December 2020. The Strategy, developed following extensive consultations, is designed to provide the political and operational framework for United Nations action to support the implementation of the commitments under the Peace, Security and Cooperation Framework. It is structured around three pillars: peace, security and justice; sustainable development and shared prosperity; and resilience to longstanding and emerging challenges. The action plan to implement the Strategy, covering policy and programmatic priority activities for the period from 2021 to 2023, was adopted by the senior policy group for the strategy in July 2021.
184. In 2023, the Office will support the implementation of the Strategy and its action plan, including through the sustained engagement of the Governments of the signatory countries and key partners to seize and consolidate the positive momentum in the region. Through the Secretary-General's good offices, the Office will maintain its efforts towards easing tensions, building confidence and encouraging political dialogue between countries. The Office will also continue to support the regional priorities identified by the countries of the Great Lakes region in efforts to implement the Peace, Security and Cooperation Framework, including on security, economic and judicial cooperation and the rule of law. In the area of security, the Office will further step up its support for regional efforts aimed at putting an end to the persistent threat posed by armed groups in the eastern Democratic Republic of the Congo, including with a view to the recent resurgence of the Mouvement du 23 mars and the continued activities of the Allied Democratic Forces. In doing so, the Office will also support, as appropriate, the decisions taken at the second conclave summit, which brought together Burundi, the Democratic Republic of the Congo, Kenya, Rwanda and Uganda on 21 April 2022 in Nairobi, and at which it was agreed that the Government of the Democratic Republic of the Congo would pursue political consultations with local armed groups active in the eastern Democratic Republic of the Congo, the first phase of which took place from 23 to 27 April. It was also agreed at the summit that a regional force would be deployed to engage militarily those local armed groups unwilling to partake in the political consultations, as well as foreign armed groups that failed to disarm and return to their

countries of origin immediately and unconditionally. Finally, the Office will continue its efforts to support the women and peace and security agenda, as well as promote the economic empowerment and inclusion and the political participation of youth in matters of regional relevance.

Programme of work

Objective

185. The objective, to which this mission contributes, is to advance the effective implementation of the Peace, Security and Cooperation Framework by supporting and facilitating political, security and economic engagements among and between the signatory countries, while ensuring coherent and coordinated support from regional and international organizations and other partners, in line with the United Nations Strategy for the Great Lakes Region and its action plan.

Strategy

186. To contribute to the objective, the Office will:
- (a) Deploy the Secretary-General's good offices, including discreet and shuttle diplomacy, collaborate closely with the co-guarantors of the Peace, Security and Cooperation Framework and reinforce coordination with international partners, including the International Contact Group for the Great Lakes Region and international financial institutions;
 - (b) Support the implementation of a regional non-military approach against negative forces; facilitate confidence-building consultations between the chiefs of military and civilian intelligence and security services from concerned countries; help strengthen existing security cooperation mechanisms, taking into account the decisions of the second conclave summit and related follow-up efforts by countries in the region, as applicable; and promote the repatriation and reintegration of former combatants, in line with international standards;
 - (c) Promote cross-border investments and responsible trade projects, including by furthering the implementation of the recommendations and decisions of the high-level workshop on natural resources held in 2021 in Khartoum and of the Great Lakes Investment and Trade Conference, rescheduled to 2022 owing to COVID-19;
 - (d) Promote the rule of law and regional judicial cooperation, as well as the protection of human rights, including by supporting targeted initiatives towards supporting Member States in implementing the 2019 Nairobi Declaration on Justice and Good Governance;
 - (e) Advocate for and support the effective participation of women and youth in political and peace processes.
187. For 2023, the mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include engaging with international partners, including international financial institutions, to support resource mobilization efforts for COVID-19 recovery plans for the region; continuing to advocate for the Secretary-General's policy brief on COVID-19 and human rights of April 2020 and his call for a global ceasefire, as echoed in Security Council resolution [2532 \(2020\)](#); and working with civil society organizations to promote inclusive approaches to recovery programmes.
188. The above-mentioned work is expected to contribute to:
- (a) Enhanced mutual trust between countries of the region;
 - (b) Improved relations, including concrete steps taken by countries to address issues of contention among them;
 - (c) Increased resort to regional mechanisms to address impunity and the upholding of the rule of law in the fight against serious crimes with a transborder dimension;

- (d) Increased mobilization and harmonization of support from the Peace, Security and Cooperation Framework guarantor institutions, international partners and other stakeholders;
- (e) Enhanced cooperation among concerned countries to neutralize negative forces and increase support for regional disarmament, demobilization, repatriation, resettlement and reintegration initiatives through the activities of the contact coordination group and its operational cell on non-military measures;
- (f) Joint initiatives on comprehensive regional non-military measures against negative forces, including the role of civil society organizations, women and youth in the peace-building processes;
- (g) Increased bilateral and multilateral economic cooperation and support for concrete initiatives to curb the illicit exploitation of and trade in natural resources;
- (h) Strengthened regional judicial cooperation through the Great Lakes Judicial Cooperation Network as the main mechanism for cross-border cases;
- (i) A decrease of human rights violations in the region and an increase in the number of perpetrators held accountable.

External factors for 2023

189. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Political will among the signatory countries of the Peace, Security and Cooperation Framework to implement national and regional commitments for enhanced regional cooperation and the stabilization of the eastern Democratic Republic of the Congo and the region;
 - (b) Continued security challenges in the eastern Democratic Republic of the Congo linked to the activities of local and foreign armed groups;
 - (c) The situation in the region is conducive to continued political dialogue among countries and effective collaboration with relevant regional organizations;
 - (d) Continued support for and focus on the Great Lakes region by Member States and international partners, including coordinated action and support for signatory countries.
190. With regard to cooperation with other entities, the Office cooperates with and supports signatory countries of the Peace, Security and Cooperation Framework on priority political, security and socioeconomic initiatives aimed at ensuring the implementation of national and regional commitments under the Framework. In an effort to promote the alignment of approaches and a strengthening of partnerships as outlined in the United Nations Strategy for the Great Lakes Region, the Special Envoy also encourages joint and/or harmonized initiatives by the co-guarantor institutions of the Framework. He also participates in the International Contact Group and engages in regular exchanges with other special envoys for the Great Lakes region. In support of the Framework's economic focus, the Special Envoy also cooperates with financial institutions, including the World Bank Group, the African Development Bank and other relevant partners.
191. With regard to inter-agency coordination and liaison, the Office works closely with the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), including in the context of the joint strategy of MONUSCO and the Government of the Democratic Republic of the Congo on a progressive and phased drawdown of MONUSCO, in support of efforts by the Government of the Democratic Republic of the Congo to achieve its national commitments under the Peace, Security and Cooperation Framework. The senior policy group, which is chaired by the Special Envoy, along with its implementation support mechanism, both established to facilitate the implementation of the United Nations Strategy for the Great Lakes Region, will continue to ensure alignment among United Nations missions and offices in the region, including, among others, the United Nations Regional Office for Central Africa, MONUSCO and the United

Nations Office to the African Union, in addition to regional coordinators and representatives of the Office for the Coordination of Humanitarian Affairs, OHCHR, UNHCR, the Economic Commission for Africa and other United Nations agencies, funds and programmes.

192. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In addition to high-level advocacy meetings and missions by women leaders throughout the region, the Office supports the Advisory Board for Women, Peace and Security in the Great Lakes Region in its efforts to advocate for women's participation and representation in peacebuilding, political and electoral processes, to strengthen the monitoring and evaluation capacities of the mechanisms on sexual and gender-based violence of the International Conference on the Great Lakes Region and to support cross-border communities in the prevention and resolution of conflict and election-related violence.

Programme performance in 2021

Support for an institutional framework to implement non-military measures

193. In 2021, the Office supported countries in the region in their efforts to establish the institutional framework for implementing non-military measures against negative forces, notably through the operationalization of the Contact and Coordination Group, which included the adoption of the Group's two-year action plan and the development of the terms of reference and modalities of work of its operational cell, based in Goma, Democratic Republic of the Congo. The Office also initiated resource mobilization efforts to support the implementation of the aforementioned action plan and to build and enhance disarmament, demobilization and reintegration capabilities in the five States members of the Group (Burundi, Democratic Republic of the Congo, Rwanda, Uganda and United Republic of Tanzania). Those States appointed delegates to the operational cell and the cell's coordinator, recruited by the Office of the Special Envoy, took up his duties in November 2021.
194. Concurrently, the Office supported efforts at the national and regional levels to advance the implementation of the Nairobi Declaration on Justice and Governance, adopted in 2019, and to promote the effective functioning of the Great Lakes Judicial Cooperation Network. In addition to building the capacities of national human rights institutions, the Office facilitated agreement among countries in the region on harmonized procedures for mutual legal assistance in criminal matters. Progress towards the objective is presented in the performance measure below (see table 32).

Table 32

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Initial confidence-building meeting among security agencies of the countries concerned	Participation in regular confidence-building meetings among security agencies of the countries concerned and agreement on priority initiatives on the negative forces	Operationalization of the Contact and Coordination Group and its operational cell
Adoption by the Ministers of Justice of the States members of the International Conference on the Great Lakes Region of the Nairobi Declaration on Justice and Good Governance	Effective implementation of the Nairobi Declaration on Justice and Good Governance	Strengthening of national human rights institutions through regional capacity-building workshops, in line with the Nairobi Declaration
Operationalization of the Great Lakes Judicial Cooperation Network, including cooperation among judiciaries in between the meetings of the Network	Progress in facilitating cross-border judicial cooperation, including through capacity-building on remote access to justice for members of the Great Lakes Judicial Cooperation Network	Agreement among members of the Great Lakes Judicial Cooperation Network on recommendations for harmonizing procedures concerning mutual legal assistance in criminal matters

Impact of the pandemic

195. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, including: (a) the postponement of the tenth Summit of the Regional Oversight Mechanism of the Peace, Security and Cooperation Framework; (b) the postponement of the Great Lakes Investment and Trade Conference; and (c) the postponement of selected conferences, workshops, training events and technical missions that could not be conducted using other means or delivered online. Wherever practical, the Office reconfigured workshops and training events to allow for their delivery online.

Planned result for 2023**Strengthened relations among countries of the Great Lakes region****Programme performance in 2021 and target for 2023**

196. The Office's work contributed, inter alia, to: (a) ongoing dialogue efforts between countries in the region through the Special Envoy's discreet and shuttle diplomacy; (b) further confidence-building between countries and consensus on the way forward towards a comprehensive approach to security, comprising military and non-military measures; (c) agreement on a set of recommendations to curb the illicit exploitation of and trade in natural resources; and (d) capacity-building of key stakeholders, including women, youth and national human rights institutions, which met the planned target of the continuation of incremental dialogue between Burundi and Rwanda, including information exchange at the technical level, such as on security along the common border and the return of refugees, as well as initiatives taken by regional and subregional organizations and signatory countries of the Peace, Security and Cooperation Framework to support peace and inclusive and credible political and electoral processes. As outlined above, the target of holding in 2021 the tenth Summit of the Regional Oversight Mechanism, organized by the Democratic Republic of the Congo with the support of the Office, was not met, owing mainly to pandemic-related concerns. The Summit was instead held on 24 February 2022. The resumption of dialogue between Rwanda and Uganda and the implementation of related decisions taken under the quadripartite process, facilitated by Angola and the Democratic Republic of the Congo, started in January 2022, and not, as envisaged, in 2021.
197. In 2023, the Office will further increase its political engagements, including discreet and shuttle diplomacy, in favour of good neighbourly relations and the resolution of contentious bilateral and multilateral issues. The good offices efforts will be bolstered by enhanced joint analysis among United Nations presences and with regional stakeholders, as well as tailored interventions on technical aspects, such as the provision of technical support for existing regional security, economic cooperation and rule of law mechanisms, among others. Support for regional efforts to address the persistent threat posed by armed groups in the eastern Democratic Republic of the Congo and the region will also remain a priority and will be further stepped up in the context of the Contact and Coordination Group on non-military measures, as well as in view of the decisions taken at the second conclave summit, as applicable.

Lessons learned and planned change

198. A principal lesson for the Office was the imperative of regional ownership and political will for efforts to promote lasting peace and stability. In applying the lesson, the Office will continue to strengthen its interactions with stakeholders from the region at all levels, including civil society, women and youth, to further bolster the Special Envoy's engagement at the political level. The multilayered approach already adopted, combining security with human rights and inclusion concerns, among others, will be further reinforced. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 33).

Table 33
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)

Deliverables

199. Table 34 below lists all deliverables of the mission.

Table 34

Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	5	3	5	5
2. Meetings of the Security Council, the Security Council Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo and the Peacebuilding Commission	5	3	5	5
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	3	3	3	3
3. Projects on economic cooperation, land and conflict	2	2	2	2
4. Projects to promote cross-border trade and investment	1	1	1	1
Seminars, workshops and training events (number of days)	4	8	2	9
5. Workshop on exchange of lessons learned from elections and political processes	1	1	–	1
6. Workshop on economic cooperation, land and conflict	–	2	–	3
7. Workshops on resolving existing challenges in the implementation of the Peace, Security and Cooperation Framework	2	3	2	2
8. Workshop on youth employment and engagement on peace and security	1	1	–	1
9. Advisory Board for Women, Peace and Security in the Great Lakes Region annual meetings to support national/regional-level initiatives to empower women and achieve 30 per cent women's representation	–	1	–	2
C. Substantive deliverables				

Good offices: provision of good offices through engagement, including shuttle and discreet diplomacy, as well as through the facilitation of direct exchanges with regional leaders and senior representatives of signatory countries and co-guarantors of the Peace, Security and Cooperation Framework to advance the implementation of the Framework and address challenges to peace and security, including impunity for gross human rights violations; provision of good offices to the follow-up mechanism on the repatriation of disarmed combatants in line with international standards; good offices to enhance coordination and cooperation against the armed groups in eastern Democratic Republic of the Congo; good offices to sustain international support for the implementation of the United Nations Great Lakes Strategy and its action plan.

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

Consultation, advice and advocacy: consultations to gain a shared regional and international assessment of the situation in the region; consultation and advice to gain a shared vision of regional human rights and humanitarian trends in the Great Lakes region; consultation and advice on delinking negative forces from natural resources revenues; advocacy to facilitate political conversation and agreement on regional integration with natural resources as a driver of shared prosperity; advocacy to advance gender equality in the region; advocacy to promote a concerted approach on the way forward in the region.

Fact-finding, monitoring and investigation missions: fact-finding mission on women's political participation; monitoring missions with the follow-up mechanism on the repatriation of disarmed combatants; fact-finding and monitoring missions of the Technical Support Committee on priorities determined by the signatory countries.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 35

Total (net of staff assessment)	4 202.4	5 133.9	5 740.4	–	606.5

Table 36

Positions

	Professional and higher categories								General Service and related categories			National staff			Total	
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service ^a	Total inter- national	National Professional Officer	Local level		United Nations Volunteer
Approved 2022	1	–	1	1	5	7	5	–	20	1	1	22	1	7	–	30
Proposed 2023	1	–	1	1	5	7	5	–	20	1	1	22	1	7	–	30
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

200. The proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General for the Great Lakes Region amount to \$5,740,400 (net of staff assessment) and would provide for salaries and common staff costs (\$4,838,300) for the continuation of 30 positions (1 Under-Secretary-General, 1 D-2, 1 D-1, 5 P-5, 7 P-4, 5 P-3, 1 Field Service, 1 General Service, 1 National Professional Officer and 7 Local level), as well as operational costs (\$902,100), comprising costs for consultants and consulting services (\$25,100), official travel (\$260,300), facilities and infrastructure (\$61,600), ground transportation (\$39,000), air operations (\$68,600), communications and information technology (\$153,100), medical (\$14,000) and other supplies, services and equipment (\$280,400).

201. A vacancy rate of 5 per cent has been applied to estimates for the international positions. Resource requirements for national positions are estimated on the assumption of full incumbency.
202. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to: (a) civilian personnel costs, resulting from the delayed impact of three positions approved in 2022 for which a vacancy rate of 50 per cent was applied in the previous period; and (b) other services, owing to increased requirements under translation, interpretation and conference management services.

Extrabudgetary resources

203. In 2022, the mission projects that extrabudgetary resources in the amount of \$1.3 million will be utilized to support the mission in its implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
204. In 2023, the mission projects that extrabudgetary resources in the amount of \$1.6 million will be utilized to support the mission in its implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
205. The increase in the estimated extrabudgetary resources to be utilized in 2023 as compared with 2022 is due to: (a) increased support provided to the signatory countries and co-guarantor institutions (African Union, International Conference on the Great Lakes Region and SADC) of the Peace, Security and Cooperation Framework in implementing the resolutions of the Heads of State at the tenth Summit of the Regional Oversight Mechanism, held in Kinshasa; (b) scaled-up engagement by the Office of the Special Envoy in leading and coordinating the United Nations system's efforts on the implementation of the priority initiatives of the action plan of the United Nations Strategy for the Great Lakes Region for 2022 and 2023.

9. Office of the Special Envoy of the Secretary-General for Yemen

(*\$17,430,600*)

Foreword

The year 2021 ended on a tragic note for Yemen, where millions struggle with poverty, hunger and severe restrictions on their freedom of movement. The armed conflict continued unabated, its complexities making the quest for peace both more challenging and urgent. However, in early April 2022, the continued engagement of my Office with the Government of Yemen, the Saudi-led coalition and the Houthis resulted in an agreement on a two-month nationwide, renewable truce in Yemen. While implementation of its various components is still ongoing and remains challenging, the truce has initially resulted in a significant reduction in violence and civilian casualties across the country and relative improvements in the freedom of movement of people and goods, as well as some reduction in regional tensions. Furthermore, if successful, the truce may serve as an opportunity to launch a multitrack political process to find a negotiated settlement to the conflict.

The significance of such a step could not be overemphasized. The parties to the conflict have not directly discussed a broader set of issues since 2016, let alone a comprehensive settlement, and armed conflict has continued for over seven years. Civilians, including many women and children, have been killed, displaced and impoverished. Yemen's war continues also in the economic arena, with the warring sides battling over resources, trade flows and monetary policy, which affects the entire population. These elements have left Yemenis in an indefinite state of war.

It is long overdue for the parties to the conflict to engage in peaceful dialogue with one another under United Nations facilitation. My conviction remains that a structured and focused approach that does not shy away from the fundamental and complex challenges is required. For too long Yemenis have been without a political process and without hope that this conflict can end. Through initiating a structured process that tries to address the key elements of the conflict, hope for an end to the devastating military, political and economic battles can be restored.

My Office will do its utmost to establish a multitrack process that can produce durable solutions to this conflict, while seeking further opportunities for immediate de-escalation and consolidating recent gains. My ambition is for immediate as well as long-term political, security and economic priorities to be addressed within a multitrack process under United Nations auspices. I will also work to ensure the meaningful participation of women in all aspects of our engagement and to integrate gender perspectives across all issues. It is incumbent that the international community support Yemenis to charter a new, peaceful way forward.

(Signed) Hans **Grundberg**
Special Envoy of the Secretary-General for Yemen

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

206. The Office of the Special Envoy of the Secretary-General for Yemen is responsible for carrying out the good offices of the Secretary-General to enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition process that meets the legitimate demands and aspirations of the Yemeni people, including women and youth, for peaceful change and meaningful political, economic and social reform, as set out in the Initiative of the Gulf Cooperation Council and its implementation mechanism and the outcomes of the comprehensive National Dialogue Conference. The mandate derives from Security Council resolution 2014 (2011) and from subsequent Council resolutions, including resolutions 2051 (2012), 2140 (2014), 2201 (2015), 2216 (2015), 2266 (2015), 2342 (2017), 2402 (2018), 2451 (2018), 2452 (2019), 2456 (2019), 2481 (2019) and 2505 (2020), as well as exchanges of letters between the Secretary-General and the President of the Security Council (S/2012/469 and S/2012/470, S/2016/488 and S/2016/489 and S/2018/126 and S/2018/127).
207. To ensure the full and effective implementation of Security Council resolutions 2014 (2011) and 2051 (2012), together with the political transition agreed in November 2011 under the Initiative of the Gulf Cooperation Council and its implementation mechanism for the political transition process in Yemen, the Secretary-General established the Office of the Special Adviser to the Secretary-General on Yemen, in accordance with an exchange of letters with the President of the Security Council in June 2012, which was then subsumed into the Office of the Special Envoy (S/2012/469 and S/2012/470; see also S/2015/283 and S/2015/284 and S/2018/126 and S/2018/127).
208. In line with Security Council resolution 2216 (2015), as well as other Council resolutions on Yemen, including resolutions 2014 (2011), 2051 (2012), 2140 (2014), 2201 (2015), 2451 (2018) and 2452 (2019), and the letter from the Secretary-General addressed to the President of the Security Council (S/2016/488), the Special Envoy of the Secretary-General for Yemen will continue to mediate between the parties with a view to ending the conflict. The mission will provide facilitation and technical advice on the negotiation and design of interim security arrangements, the restoration of State institutions and preparations for the resumption of political dialogue, including on finalizing and adopting a draft constitution and an electoral road map and on national reconciliation and transitional justice.
209. The mission also participates in the mediation of the political, security and economic arrangements to end the current conflict between the Government of Yemen and the Houthi movement and in supporting the resumption of the political transition, which began in 2011 and was interrupted by the current conflict. Against this backdrop, the two-month nationwide, renewable truce agreed by the parties in Yemen in April 2022 presents a very positive development and an important first step towards resuming an inclusive political process to reach a negotiated settlement to the conflict. In the delivery of these efforts, the mission shares its support component with the United Nations Mission to Support the Hudaydah Agreement (UNMHA), which also reports to Headquarters through the Special Envoy.

Programme of work

Objective

210. The objective, to which this mission contributes, is to achieve a negotiated political settlement between the parties to end the conflict in Yemen and enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition that will lead Yemenis towards a path of sustainable peace.

Strategy

211. To contribute to the objective, the mission will:
- (a) Utilize negotiations, consultations and shuttle diplomacy to achieve an agreement between the parties to end the conflict in Yemen and resume the political transition;
 - (b) Support the Yemen peace process by providing political, technical and logistical support, including in supporting the parties to identify long-term measures and immediate priorities related to political, security and economic issues to resume the political process, implement the Stockholm Agreement and de-escalate the conflict at the local, national and regional levels;
 - (c) Work on a consultative process, which will include, among others, women, civil society and youth, including assessing the sentiments, views and recommendations of Yemenis through direct outreach and engagement or indirect and virtual methods and integrating gender-responsiveness and youth-engagement in its multitrack diplomacy and peace negotiations on the peace agreement and post-transition process;
 - (d) Foster international engagement in resolving the conflict in Yemen, notably through awareness-building and frequent dialogue and information exchange;
 - (e) Continue to adapt its posture and positioning to respond to the changing and evolving political context and operational environment in order to strengthen mandate implementation, with a focus on the mission's balanced representation and capacity in the territories controlled by each side.
212. For 2023, the mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include logistical arrangements in support of planned vaccination delivery programmes for Yemen-based staff and logistical and administrative support for possible medical evacuations.
213. Reflecting the importance of continuous improvement and responding to the needs of Member States, the mission has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. This includes regularly updating the COVID-19 mitigation measures in line with WHO and governmental advice, while focusing on operational efficiencies where possible. This has been particularly important when implementing guidance on contact tracing and isolation protocols.
214. The above-mentioned work is expected to result in:
- (a) A peace agreement with the parties to determine interim security and political arrangements for a sustainable, peaceful and inclusive transitional period;
 - (b) The development of an inclusive participatory mechanism for diverse political and social Yemeni stakeholders, including women and youth, to inform the track 1 United Nations-facilitated political process;
 - (c) Increased confidence of the parties and engagement in the United Nations-facilitated political process towards a resumption of political talks;
 - (d) Increased confidence of the parties towards a resumption of political talks, including through focusing on political, security and economic elements;
 - (e) Refined security governance options at both the national and local level;
 - (f) Effective and transparent implementation of negotiated transitional security arrangements;
 - (g) Prioritized work with community safety partners to support dialogue between communities and security actors;
 - (h) Development of an inclusive transitional agenda that will be informed by women's and gender perspectives and will include implementation mechanisms and bodies;

- (i) Continued implementation of the Stockholm Agreement, including the uninterrupted flow of commercial imports, including fuel, into the Hudaydah ports, and further prisoner exchanges;
- (j) Women's and gender perspectives informing all substantive areas, agreements, arrangements and implementation mechanisms, when relevant.

External factors for 2023

- 215. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
 - (a) The parties to the conflict will engage in the peace process in the form of successive rounds of peace consultations under the auspices of the Special Envoy, with the aim of reaching a comprehensive negotiated political settlement;
 - (b) The Yemeni Women's Technical Advisory Group will continue to exist and contribute to the process by advising the mission and the peace process on women's concerns and perspectives;
 - (c) The mission will have greater access to key Yemeni stakeholders, albeit with some restrictions imposed by the parties and the security situation on the ground;
 - (d) The mission will strengthen its presence inside Yemen, including with women and youth, and will expand its outreach to Yemeni constituencies inside and outside the country through digital tools and specific outreach missions and visits.
- 216. With regard to cooperation with other entities, in the implementation of the good offices mandate the Special Envoy and his Office will continue to engage closely with Member States and the Security Council, as well as international and regional organizations, including the League of Arab States, the Gulf Cooperation Council, the European Union and other international partners. Furthermore, the Office will continue to pursue joint efforts with international financial institutions to facilitate joint response strategies for post-agreement planning, including recovery and peacebuilding activities.
- 217. With regard to inter-agency coordination and liaison, the mission will continue its cooperation with the Resident/Humanitarian Coordinator and the United Nations country team in Yemen. In addition, United Nations agencies working in Yemen are represented in the Inter-Agency Task Force on Yemen at Headquarters, which ensures the coordination and coherence of United Nations political, humanitarian, human rights and other efforts in Yemen.
- 218. The mission will continue to consult and coordinate closely with the Department of Political and Peacebuilding Affairs and special political missions in the region, as appropriate. In line with Security Council resolution [2452 \(2019\)](#), the mission closely coordinates with UNMHA, which reports to Headquarters through the Special Envoy and the Under-Secretary-General for Political and Peacebuilding Affairs, and shares an integrated support structure with UNMHA.
- 219. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Office will continue to engage with initiatives at the national and local levels that promote women's political participation and representation, their full citizenship rights and the incorporation of women's human rights, security needs and concerns in the planning and preparation for the transition and early recovery, conflict resolution and peacebuilding processes.

Programme performance in 2021

Building momentum towards a comprehensive political solution

- 220. During 2021, the mission continued its efforts to resume the political process and bring the parties to an arrangement that would lead to a comprehensive peace agreement and end the war in Yemen. The mission conducted a wide range of meetings with the parties and regional actors through shuttle

diplomacy in Yemen, regional capitals and other locations outside the region. Achieving progress was challenging as military escalation occurred alongside a prolonged economic crisis.

221. To address these issues, the former Special Envoy focused on supporting efforts for the parties to resume an inclusive political process under United Nations auspices from January to July 2021 by pursuing a four-point proposal that focused on a nationwide ceasefire, facilitating the opening of Sana'a International Airport, ensuring the unhindered flow of fuel and other commodities into Yemen through Hudaydah ports, and the resumption of the political process.
222. The former Special Envoy left the mission in July 2021 to begin his appointment with the Office for the Coordination of Humanitarian Affairs and the newly appointed Special Envoy, Hans Grundberg, began his appointment in September 2021. He continued to pursue engagements with the parties to the conflict and expanded his visits to Yemen to include Aden, Ta'izz and Mukha'. These visits allowed the mission to gather diverse views on the current situation, the future of the country and viable modalities to reach a final resolution of the conflict.
223. The mission is initiating a structured process to address the key elements of the conflict by developing a framework to articulate its plan to move towards an inclusive political process by focusing on three tracks: political, security and economic.
224. The above-mentioned work contributed to building momentum towards a comprehensive political solution, however, it did not meet the target of the adoption of joint outcome documents and the formation of specific mechanisms to implement the agreements reached in consultations and negotiations. This was owing to diverging viewpoints, particularly on certain economic and humanitarian aspects of the text, and a lack of sufficient momentum to reduce the level of military confrontation. A meeting on prisoners, held in January 2021, was unsuccessful despite four weeks of consultations as the parties did not reach a new agreement to release more detainees; however, the parties did agree to continue discussing pending lists of detainees and committed to reach a resolution over disputed names. Progress towards the objective is presented in the performance measure below (see table 37).

Table 37
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Talks on transitional political and security arrangements initiated; inclusivity (the south and women) enhanced; and implementation of confidence-building measures in progress	Joint outcome documents arising from the consultations and negotiations not agreed; and formation of specific mechanisms to implement the agreements not achieved	Implementation of joint outcome documents, including specific mechanisms that involve diverse Yemeni perspectives

Impact of the pandemic

225. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, including postponement of in-person meetings and some planned travel to Yemen and the region. The mission utilized digital tools and virtual platforms to engage with the parties to the conflict and other Yemeni actors. Whenever practical, the Special Envoy travelled to meet with the parties to the conflict and other Yemeni actors, with a limited delegation and following necessary health procedures. The mission increased its use of information technology to organize virtual meetings and workshops, including with civil society representatives, women and youth. While some adaptation was possible, there were losses in terms of the quality of the discussions given the nature and complexity of the conversations. Additional challenges were found when the discussion required interpretation into or from local languages, particularly for larger meetings and workshops.

Planned results for 2023

Result 1: expanding political engagements and consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace

Programme performance in 2021 and target for 2023

226. The mission's work contributed to broadening inclusion in the peace process, including consultations and meetings with civil society actors, women, youth and various political actors. The target was not met because conflict escalated at an alarming rate, along with the economic crisis. The gap in trust between the parties to the conflict remained wide and grew. The parties also focused on the sequencing of possible interim steps, which overshadowed the need to begin discussing the parameters for an overall political settlement of the conflict. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 38).

Table 38
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Talks on transitional political and security arrangements initiated; inclusivity (the south and women) enhanced; and implementation of confidence-building measures in progress	The 2020 objective of adopting joint outcome documents from consultations and negotiations was not achieved	Despite progress in consultations, the 2021 objective of implementing joint outcome documents, including specific mechanisms that involve diverse Yemeni perspectives, was not yet achieved	Expanding the mission's political engagements and consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace	Continued expansion of the mission's political engagements across the spectrum of pertinent actors, including through consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace

Result 2: mobilize the international community in support of implementing a Yemeni-led, inclusive peace process

Proposed programme plan for 2023

227. The Special Envoy has emphasized that while the conflict in Yemen requires a peace process that is led by Yemenis, it is critical that the international community support these efforts. The mission has consistently involved the international community in efforts to identify ways to engage with Yemenis and move towards a sustainable peace process. As the conflict escalated, including with attacks on regional neighbours, the mission continued to hold regular and open dialogues with the international community to support its mandate implementation. The international community's endorsement of the mission's strategy is essential to the implementation of the mission's mandate and to having a collaborative approach towards ending the conflict. Most recently, the continued coordinated and collective support of the international community, and in particular that of regional partners, has proved to be key in leveraging support for the agreement on a two-month truce and its subsequent implementation. The international community can explore alternative dialogues with Yemeni actors that will feed into the peace process, as seen with the Riyadh Agreement. While the mission will lead the work with Yemenis to develop a peace process, the international community's support is crucial at all stages.

Lessons learned and planned change

228. The lesson for the mission was that the international community can strengthen the path towards a Yemeni-led peace process by establishing a variety of complementary communication channels with a broad range of Yemeni interlocutors in support of the mission. In applying the lesson, the mission will strengthen its engagement with the international community at all levels through the mission's focus on political, military/security and economic tracks. Strengthening the international community's engagement on Yemen will help to establish an inclusive political process that can provide a viable foundation for peace. At times, the mission has experienced limited access to Yemeni actors beyond the political parties. Working closely with the international community, including Track 1 and Track 2 actors, will allow the mission to work collaboratively to foster dialogue on finding a durable solution to the conflict. The international community can further support Yemenis by partnering with the mission to discuss and build consensus on peaceful and stable solutions. Expected progress towards the objective is presented in the performance measure below (see table 39).

Table 39

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
–	–	–	–	Mobilize the international community to identify ways to engage with Yemenis and move towards a sustainable peace process

Deliverables

229. Table 40 below lists all deliverables of the mission.

Table 40

Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	17	14	12	12
Meetings of the Security Council	17	14	12	12
C. Substantive deliverables				
Good offices: provision of good offices to end the conflict.				
Consultation, advice and advocacy: consultations and advice on political and security proposals aimed at mediating an agreement to end the conflict and enable the completion of the political transition.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 41

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021	2022	2023		Variance
	Expenditure	Appropriation	Total requirements	Non-recurrent	
	(1)	(2)	(3)	(4)	(5)

Operational costs	6 098.7	5 909.5	5 713.0	–	(196.5)
Total (net of staff assessment)	16 726.3	17 202.0	17 430.6	–	228.6

Table 42

Positions

	Professional and higher categories									General Service and related categories			National staff			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service	Total inter- national	National Professional Officer	Local level	United Nations Volunteer	
Approved 2022	1	–	1	1	6	15	11	–	35	25	1	61	11	29	–	101
Proposed 2023	1	–	1	1	6	15	10	–	34	26	1	61	13	28	–	102
Change	–	–	–	–	–	–	(1)	–	(1)	1	–	–	2	(1)	–	1

230. The proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General for Yemen amount to \$17,430,600 (net of staff assessment) and would provide for salaries and common staff costs (\$11,717,600) for 102 positions (1 Under-Secretary-General, 1 D-2, 1 D-1, 6 P-5, 15 P-4, 10 P-3, 26 Field Service, 1 General Service (Other level), 13 National Professional Officer and 28 Local level), including the proposed establishment of 1 Field Service position in the Kuwait Joint Support Office, as well as operational costs (\$5,713,000), comprising official travel (\$456,500), facilities and infrastructure (\$2,697,000), ground transportation (\$284,500), air operations (\$904,000), communications and information technology (\$789,400), medical (\$298,900) and other supplies, services and equipment (\$282,700).
231. In 2023, the following changes to the staffing structure are proposed: the establishment of two positions, the abolishment of one position, the reassignment of one position and the conversion of one position, as detailed below:
- Conversion of one position of Political Affairs Officer in the Political Affairs Section in Sana'a from the P-3 level to National Professional Officer to ensure the representation of national staff at an appropriate level and to strengthen the liaison and coordination function with officials of the Government of Yemen as well as national political actors and interlocutors, including women in Sana'a and other parts in the north;
 - Abolishment of one position of Human Resources Assistant (Local level) in the Human Resources Unit in Amman. After careful review of the human resources workflow, the Mission plans to enhance its capabilities for coordination of staff training and capacity-building activities, particularly for national staff, in addition to the routine operational human resources

functions for which the Human Resources Unit is responsible. As a result, new functions will be needed, which will require different and more advanced skills sets. It is therefore proposed to abolish one position of Human Resources Assistant (Local level) in the Human Resources Unit;

- (c) Establishment of one position of Assistant Human Resources Officer (National Professional Officer) in Amman, in combination with the abolishment of the position of Human Resources Assistant (Local level), to coordinate staff training and capacity-building activities, particularly for national staff, in addition to the routine operational human resources functions of the Human Resources Unit;
 - (d) Reassignment of one Movement Control Assistant (Field Service) as a Logistics Assistant (Field Service) to perform asset and inventory management functions;
 - (e) Establishment of one position of Finance Assistant (Field Service) in the Kuwait Joint Support Office as part of an effort of the Secretariat to align the funding sources of the Support Office to better reflect the workload and the client base that the Support Office services. Such an exercise aims to achieve a more balanced distribution of the workforce of the Support Office among the special political missions, with proposals being made to reduce a total of six positions from the United Nations Assistance Mission in Afghanistan and the United Nations Assistance Mission for Iraq (UNAMI) and to establish those positions in four special political missions, including the Office of the Special Envoy for Yemen.
232. A vacancy rate of 15 per cent has been applied to estimates for continuing international and national positions.
233. The increase in requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to increased requirements for civilian personnel costs, resulting mainly from the proposed establishment of one Field Service position, and the revised salary scales for international positions and national positions, as well as increased requirements for operational costs, resulting mainly from: (a) the additional requirement for new office premises in Aden; (b) the additional requirement for increased Internet services in Sana'a and Aden; (c) an increased requirement for mandatory training of safety and security staff; and (d) an increase in fuel prices in Yemen, offset in part by reduced requirements for operational costs, resulting mainly from: (e) the reduced cost-share ratio of the rental and operation costs of one fixed-wing aircraft with UNAMI, from 30 per cent in 2022 to 25 per cent in 2023; and (f) the reduced requirements for freight cost owing to reduced acquisitions.

Extrabudgetary resources

234. In 2022, the mission projects that extrabudgetary resources in the amount of \$381,300 will be utilized to support economic advisory consultancies and political affairs expertise for the Special Envoy's economy and political tracks.
235. No extrabudgetary resources are projected for 2023 owing to the expected conclusion of the consultancies in 2022 required for advising the Special Envoy on the economic and political tracks.

10. Office of the Special Envoy of the Secretary-General on Myanmar

(\$1,408,600)

Foreword

Since my appointment in late 2021, I have engaged with all stakeholders in Myanmar to understand the challenges of different communities and their unprecedented vision for a just, inclusive and peaceful future for their country in the wake of the tremendous vulnerabilities since the military takeover. I took office at a time of heightened violence and brutality and a humanitarian crisis exacerbated by COVID-19. The crisis has affected national and regional stability, further compounding the desperate situation of Rohingya and ethnic minorities.

I will continue to focus my mandate delivery on building cooperation with national and regional stakeholders to facilitate a Myanmar-led process as the only viable solution to the conflict. I will work in partnership with the Association of Southeast Asian Nations (ASEAN) Special Envoy with a view to delivering urgently needed assistance, building trust through de-escalation of violence and facilitating the safe and unhindered access to affected communities through all channels, and in close coordination with the United Nations country team. Through the initiation of an ASEAN-United Nations women and peace and security platform I hope to bring forward the voices of the most marginalized women and advance their protection agenda at the local level.

Helping to address the root causes of the disenfranchisement of the Rohingya and ethnic minorities and ensuring their safe, dignified, voluntary and sustainable return will remain at the centre of my mandate. In advancing these objectives, I will promote a coherent and coordinated system-wide approach in regular liaison with the Security Council and the General Assembly.

(Signed) Noeleen **Heyzer**
Special Envoy of the Secretary-General on Myanmar

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

236. The Office of the Special Envoy of the Secretary-General on Myanmar is responsible for the provision of the Secretary-General's good offices through discussions involving all relevant stakeholders and assistance to Myanmar. The mandate was defined by the General Assembly in its resolution [72/248](#) and renewed in its resolutions [73/264](#), [74/246](#), [75/238](#) and [76/180](#). On 16 December 2021, the Assembly extended the mandate to 31 December 2022 in its resolution [76/180](#). The next extension of the mandate will be considered by the Assembly at its seventy-seventh session.
237. The Office of the Special Envoy will continue to provide the good offices of the Secretary-General in the broadened conflict environment since the military takeover on 1 February 2021, which has compounded pre-existing challenges facing vulnerable communities like the Rohingya, by supporting a Myanmar-led process to find a viable solution to the conflict, addressing underlying issues and striving to create conducive conditions for the safe, voluntary, dignified and sustainable return of refugees and forcibly displaced persons to their place of origin or choice and facilitating unhindered humanitarian access to populations in need. Accountability for those responsible for mass atrocities and human rights violations and abuses, the promotion of human rights more broadly and the meaningful participation of women in all decision-making processes will remain a cross-cutting focus. This will require the Special Envoy to work in close and trusted partnership with all stakeholders, including local communities and civil society, neighbouring countries and regional partners, notably the Government of Bangladesh and ASEAN, while keeping the broader membership of the United Nations informed of the Special Envoy's activities and their impact.

Programme of work

Objective

238. The objective, to which this mission contributes, is to support Myanmar-led democratic and peaceful nation-building.

Strategy

239. To contribute to the objective and address the deterioration of the situation in Myanmar, the Office will:
- (a) Implement a multitrack approach, including strengthening cooperation between the United Nations and ASEAN to address humanitarian and other critical needs on the ground without discrimination. In close partnership with the ASEAN Special Envoy, the Special Envoy of the Secretary-General will seek to facilitate the delivery of assistance to affected communities through all existing channels and address the multiple priority needs of the people across the country, including civilian protection, food security, socioeconomic resilience and humanitarian and COVID-19 assistance. The Special Envoy will complement regional efforts towards and support effective implementation of the five-point consensus of the ASEAN Leaders' Meeting in alignment with the will of the people of Myanmar;
 - (b) Advocate a Myanmar-led process towards a peaceful, democratic and inclusive future. In support of this, the Special Envoy will mobilize a coherent international approach based on regional unity. She will facilitate initiatives to support a gradual return to civilian rule and advance the implementation of democratic and human rights norms towards a path of democratic consolidation and reform. The Special Envoy will initiate inclusive and participatory approaches

with minorities, youth and women whose voices and empowerment are critical to developing a viable way out of the current political crisis and in line with the will of the people;

- (c) Continue efforts to create a conducive environment for the voluntary, safe, dignified and sustainable return of the forcibly displaced Rohingya in Bangladesh to Rakhine State. To that end, the Special Envoy will continue promoting a political solution in consultation with the Rohingya and other key stakeholders to improve the conditions of Rohingyas on the ground in line with recommendations of the Advisory Commission on Rakhine State, while soliciting greater regional and international support towards Rohingyas and the Bangladeshi host communities in a spirit of shared responsibility.
240. For 2023, the mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include supporting United Nations country team efforts to facilitate the delivery of lifesaving assistance and COVID-19 vaccines through all channels and for all vulnerable communities, especially conflict-affected populations and internally displaced persons.
241. The above-mentioned work is expected to result in:
- (a) Improved conditions for the safe, voluntary, dignified and sustainable return of forcibly displaced populations;
 - (b) Creating conducive conditions for a de-escalation of violence and an increase in trust among communities;
 - (c) Greater international and regional political support towards improved humanitarian assistance for populations in need, whose conditions have dramatically worsened countrywide since the military takeover;
 - (d) The initiation of a Myanmar-led process with key stakeholders to advance discussions on restoring democratic and human rights norms as part of a negotiated political solution. Ending the disproportionate use of force by the Tatmadaw will be an essential step and pre-requisite.

External factors for 2023

242. With regard to external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The current high level of violence since the military takeover, numerous human rights violations, the scale of repression and the need for civilian protection will continue to present a significant challenge in securing a coherent policy, notably for narrowing the trust deficit towards national reconciliation;
 - (b) The plight of the Rohingya refugees will continue to require concrete actions for their safe, dignified, voluntary and sustainable return and reintegration in Myanmar; illicit activities and related financial flows, closely linked to conflict in Myanmar and the downfall of the formal economy, will continue to hamper conflict resolution and impede the strengthening of rule of law, institution-building, socioeconomic and development efforts.
243. With regard to cooperation with other entities, the Office works in partnership with ASEAN, especially the ASEAN Special Envoy, other key regional organizations especially the Organization of Islamic Cooperation (OIC) and the European Union, neighbouring countries and international donors to mobilize constructive support to initiate a humanitarian pause, support dialogue among all concerned parties and facilitate refugee returns.
244. With regard to inter-agency coordination and liaison, the Special Envoy will continue to coordinate closely with the United Nations system through established inter-agency channels, in close consultation with the Resident Coordinators in Myanmar and Bangladesh. The Special Envoy continues to carry out the good offices mandate in close cooperation with the United Nations country

team and specialized offices at Headquarters, as well as various human rights mechanisms on Myanmar mandated by the Human Rights Council.

245. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and will co-facilitate with key relevant regional leaders an ASEAN-United Nations women and peace and security platform to amplify the voices of the most marginalized women and advance their protection agenda.

Programme performance in 2021

Safe, dignified and voluntary repatriation

246. The mission maintained close contact with all stakeholders, including local communities in Rakhine State, throughout 2021, while progress in Myanmar was curtailed by the 1 February 2021 military takeover. The Special Envoy continued to engage with civil society, community leaders and other key stakeholders in Myanmar, with a view to building on and consolidating newly established horizontal lines of social cohesion among communities, including with the Rohingya minority. The Special Envoy continued her close consultation with Rohingya groups and engagement with key Member States to support the creation of conditions conducive to the safe, dignified and sustainable return of the Rohingya population to Myanmar in a rapidly changing political context. She mobilized constructive support from international and regional partners, ASEAN and OIC towards addressing the root causes of conflict in Rakhine State to enable returns, including through her participation in a side-event of the General Assembly at its seventy-sixth session convened by Bangladesh on the Rohingya crisis. However, the conflict spreading throughout Myanmar, the broad humanitarian crisis and the significant economic downturn following the military takeover undermined reconciliation and repatriation efforts. In this context, the Special Envoy continued her close engagement with key ethnic armed organizations and other stakeholders with a view to promoting an inclusive Myanmar-led process out of the ongoing crisis and in line with Security Council's pronouncements calling for United Nations-ASEAN complementarity. Progress towards the objective is presented in the performance measure below (see table 43).

Table 43

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Creation of enabling conditions for a smooth repatriation process	Return of refugees in a more enabling environment was not realized; efforts continued nevertheless	Preparation for repatriation was disrupted by the military takeover and the interventions had to be reformulated taking into consideration the changing political dynamics

Impact of the pandemic

247. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, but the Office continued to mitigate the impact of COVID-19 on operational activities by actively pursuing online engagement with all relevant stakeholders, including virtual briefings to the Security Council, online convening with key partners, including the informal women's advisory platform and the Rohingya community, as well as regular bilateral engagement online with all national and international actors. When conditions allowed, the Special Envoy was able to conduct in-person discussions, including during her visits to the region, which allowed for more effective discussions and follow-up on proposed initiatives.

Planned result for 2023

Progress towards improved humanitarian conditions and a Myanmar-led inclusive, democratic and peaceful nation-building process

Programme performance in 2021 and target for 2023

248. In 2021, the mission's work contributed to creating conditions for the safe, voluntary, sustainable and dignified return of Rohingya refugees, including through regular consultation with Rohingya groups and with key regional stakeholders, but efforts towards achieving the planned target were disrupted by the military takeover and deterioration of security conditions in Myanmar.
249. In 2023, the Office, in close cooperation with ASEAN, will concentrate its efforts on improving the security and humanitarian situation in Myanmar in line with the ASEAN five-point consensus, reducing violence against civilians and enabling a Myanmar-led process to identify a political solution to the current crisis and build an inclusive, democratic and peaceful country.
250. The Office will continue to focus on improving the conditions of Rohingyas remaining in Rakhine State by engaging with key stakeholders to build confidence and improve the reintegration prospects of the returning refugees. These efforts will be supported by enhanced coordination among agencies providing support to Rohingyas, as well as improved support towards displaced Rohingyas and Bangladeshi host communities as a gesture of shared responsibility.

Lessons learned and planned change

251. The lesson for the mission was that strengthening cooperation with ASEAN, especially the ASEAN Special Envoy, was important to garner regional support and engage effectively with stakeholders. In applying the lesson, the mission will formalize cooperation arrangements with ASEAN and other regional actors, including joint platforms, to advance key policy areas on expanding humanitarian access and the women and peace and security agenda. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 44).

Table 44
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Bilateral discussions between Myanmar and Bangladesh on a repatriation framework continued	The Special Envoy advocated for tangible commitments from the Government of Myanmar on the implementation of the recommendations of the Advisory Commission on Rakhine State	The military takeover and ensuing broader conflict and humanitarian crisis forced the Special Envoy to reformulate her strategy on Rohingya repatriation	The mission facilitates local initiatives in support of social cohesion	The Special Envoy engages with key actors towards a cessation of violence and improved humanitarian conditions, including in Rakhine State to support the return of refugees

Deliverables

252. Table 45 below lists all deliverables of the mission.

Table 45

Deliverables for the period 2021–2023, by category and subcategory

<i>Deliverables</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Reports of the Secretary-General to the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	4	10	4	4
2. Meetings of the Security Council	2	8	2	2
3. Meetings of the General Assembly	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops, and training events (number of days)	–	–	–	6
4. Workshops supported by the mission on social cohesion and anti-discrimination, women's political empowerment, power-sharing arrangements, strengthening of the rule of law and accountability for serious human rights violations, fundamental freedoms, and implementation of the recommendations of the Advisory Commission on Rakhine State	–	–	–	6
C. Substantive deliverables				
Good offices: 200 good offices engagements with the Government, political parties, civil society, ethnic armed organizations and countries in the region in support of a return to democratic reforms, peace and stability at the national, subnational and local levels, humanitarian access to help support the 14 million people in need of assistance in Myanmar and the voluntary, safe, dignified and sustainable repatriation of the Rohingya and durable solutions and reintegration of forcibly displaced persons.				
Consultation, advice and advocacy: 200 consultations with the Government, civil society and the international community, including all ASEAN member States, on electoral and constitutional issues, options for power-sharing arrangements, federalism, accountability for serious human rights violations and cooperation with international accountability mechanisms, good governance and the strengthening of the rule of law, and human rights issues, including fundamental freedoms, civilian protection, child rights, the elimination of discrimination and violence against minorities, the promotion of gender equality and the involvement of women and youth in peace initiatives.				
D. Communication deliverables				
Outreach programmes, special events and information materials: 20 outreach activities with local communities, government partners, opinion leaders, the media, civil society and other agents of change to support the implementation of the Office's mandate.				
External and media relations: press conferences, statements, advisories, backgrounders, interviews and other media engagements related to the Office's objective; development of additional communication capacities, including a special political mission website.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 46

Financial resources

(Thousands of United States dollars)

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

253. The proposed resource requirements for 2023 for the Office of the Special Envoy of the Secretary-General on Myanmar amount to \$1,408,600 (net of staff assessment) and would provide for salaries and common staff costs (\$1,116,600) for the continuation of five positions (1 Under-Secretary-General, 1 D-1, 1 P-5, 1 P-4 and 1 Local level), as well as operational costs (\$292,000), comprising costs for official travel (\$150,700), facilities and infrastructure (\$52,600), ground transportation (\$4,800), communications and information technology (\$14,000), medical (\$1,000) and other supplies, services and equipment (\$68,900).
254. For 2023, no change is proposed to the number and levels of the positions. A vacancy rate of 5 per cent has been applied to international positions. Proposed resources for one national position are based on the assumption of full incumbency.
255. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to increased requirements for civilian personnel costs, resulting from the application of the revised salary scales and the fixed-term contract of the Special Envoy compared with the when-actually-employed contract of the previous incumbent.

Extrabudgetary resources

256. In 2022, the mission projects that extrabudgetary resources estimated in the amount of \$850,000 will be used to support activities and relevant initiatives aimed at promoting the implementation of General Assembly resolution [76/180](#) and provide for three positions (1 P-5, 1 P-3 and 1 National Professional Officer). These activities and initiatives include: (a) support towards the return of

Rohingya refugees and internally displaced persons; (b) intercommunal dialogues; (c) anti-discrimination and countering hate speech; and (d) national reconciliation.

257. In 2023, extrabudgetary resources in the estimated amount of \$850,000 are projected to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar.

Annex I

Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/76/7/Add.2](#)

Office of the Special Adviser to the Secretary-General on the Prevention of Genocide

The Advisory Committee notes that the proposed position would provide support on hate speech for the United Nations system, and is of the view that the justifications provided for the systemwide funding of the functions lack clarity, and trusts that the Secretariat will undertake a review of the appropriate funding mechanism for these functions (para. 12).

As United Nations systemwide focal point on hate speech and chair of dedicated inter-agency arrangements on this topic, the Office plays a key policy development and leading operational and coordination role, which requires the dedicated capacity this P-4 position would provide. While the theme of hate speech relates to a number of mandates within the system, the leading and coordinating responsibilities lie with the Office of the Special Adviser on the Prevention of Genocide. The P-4 position is also instrumental in supporting the Office in delivering on its assistance to United Nations country teams and peace operations in the implementation of the United Nations Strategy and Plan of Action on Hate Speech.

The Secretariat will continue to pursue opportunities to seek funding from other funds, programmes and agencies to supplement such efforts.

Office of the Special Envoy of the Secretary-General for Yemen

The Advisory Committee recalls that, in the context of the proposed programme budget for 2020, the Secretary-General proposed seven redeployments between Amman, Sana'a and Aden. In the context of the proposed programme budget for 2021, the Secretary-General proposed the redeployment of five positions from Sana'a to Amman. For 2022, seven more redeployments are being proposed. The Committee expresses concern about the continual redeployments between mission locations and is of the view that the concept of operations and deployment plan should be included in the context of next year's proposed budget, as well as a detailed explanation of the continual need for redeployments (para. 18).

The mission support concept developed for the Office of the Special Envoy for Yemen foresaw that the mission support component would execute its activities in Amman, Sana'a and Aden, as well as throughout the region. Mission support services are provided by a mission support component integrated between the Office of the Special Envoy and the United Nations Mission to Support the Hudaydah Agreement (UNMHA). The integrated support structure concept was reviewed in March 2021. A copy of the mission support concept document and the deployment plan will be provided as supplementary information to the Advisory Committee.

According to the mission support concept, the passenger booking function is centralized in the Movement Control Team in Sana'a for passenger road and air movements, while cargo movements are arranged by the Movement Control Unit in Amman, utilizing the missions' air and ground transportation assets. The Unit based in Amman is also responsible for customs clearance-related operations and tax exemption requests, starting by

*Brief description of the recommendation**Action taken to implement the recommendation*

requesting the required clearances from the relevant authorities, to clearing shipments and getting them delivered to end locations.

Based on this mission support concept, the Amman movement control operations are separate from those in Sana'a and need dedicated resource to interact with local and international counterparts in support of clearances and shipments through Amman.

Other matters

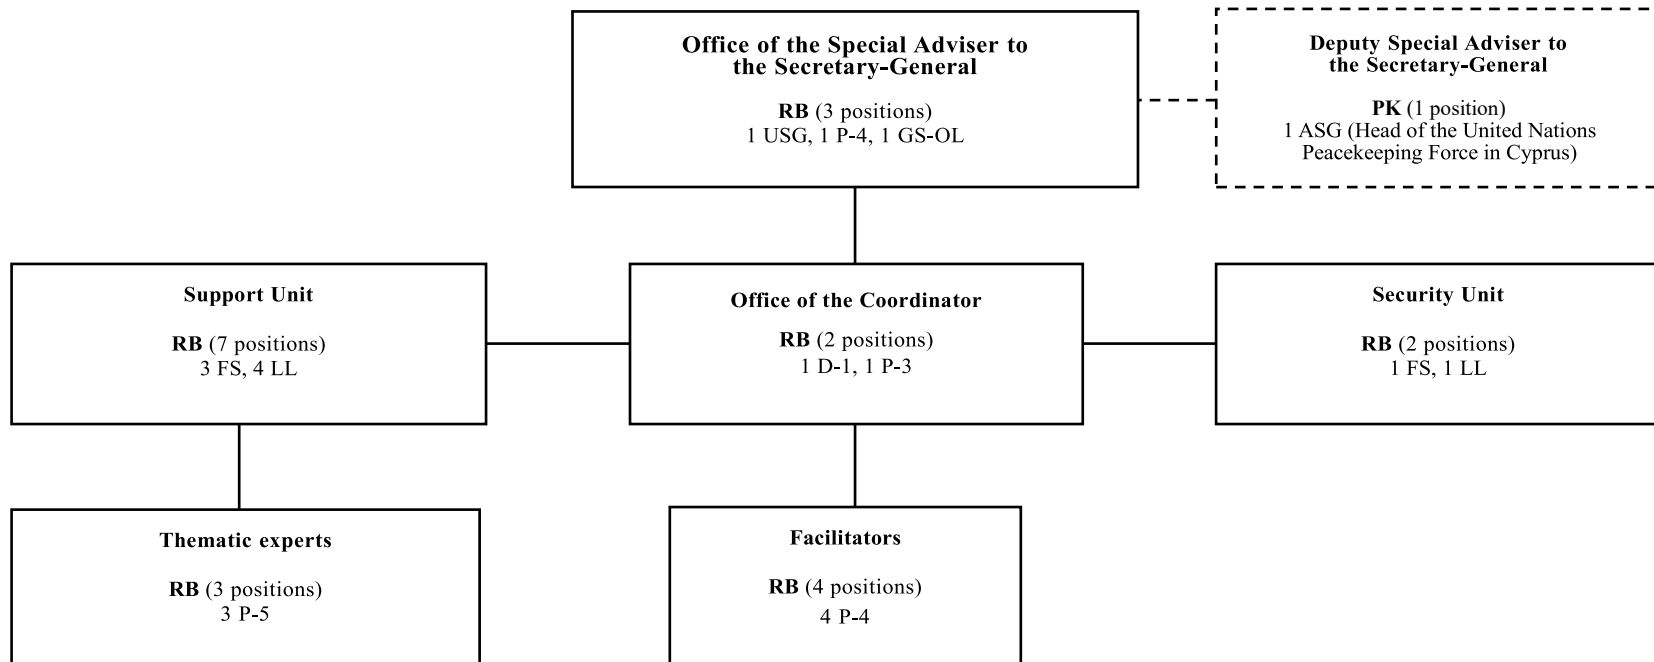

In paragraph 111 of the report, planning assumptions are set out regarding external factors for the overall plan for 2022 of the Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution [1559 \(2004\)](#). The Advisory Committee notes that the assumptions differ from those set out in respect of the Office of the United Nations Special Coordinator for Lebanon. The Advisory Committee recalls that it previously noted the differences in the planning assumptions for two missions operating in the same country and reiterates that missions should ensure more consistency in the reflection of their operational environment (para. 29).

Planning assumptions for the Office of the Special Envoy for the implementation of Security Council resolution [1559 \(2004\)](#) have been coordinated with missions in the region, including the Office of the Special Coordinator for Lebanon, but remain separate and distinct, reflecting the separate and distinct mandates of the two missions, which are both related to the same operational environment. The Secretariat believes there is consistency in how both missions view the operational environment; the Office of the Special Envoy for the implementation of Security Council resolution [1559 \(2004\)](#) is not based in Lebanon, and its planning assumptions are indicated reflecting the specific mandate of the mission.

Total	54 330.9	61 570.9	63 223.8	–	1 652.9

2. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2022 or 2023.

II. Special political missions

Cross-cutting information

Gender perspective

3. Special political missions are guided by Security Council resolutions 1325 (2000), 1820 (2008), 1888 (2009), 1889 (2009), 1960 (2010), 2106 (2013), 2122 (2013), 2242 (2015), 2467 (2019) and 2493 (2019), which together constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including the special political missions. The missions are also guided by General Assembly resolution 75/100 on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
4. The sanctions monitoring teams, groups and panels, and the mission for the implementation of Security Council resolution 2231 (2015) integrate a gender perspective into their operational activities, deliverables and results, as appropriate, and as guided by the relevant Security Council resolutions. Gender balance is taken into consideration in the recruitment and rostering of experts and the Ombudsperson, as well in the recruitment of related staff. The terms of reference for experts in sanctions monitoring teams, groups and panels indicate that experts should incorporate gender perspectives into their substantive areas of responsibility. These missions are also guided by the gender strategy of the Department of Political and Peacebuilding Affairs, including in the provision of available gender training to staff and sanctions-specific gender training to all experts.

Disability inclusion

5. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

6. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

Impact of the pandemic

7. The continuation of the coronavirus disease (COVID-19) pandemic into 2021 had an impact on the implementation of mandates. Even as travel gradually increased throughout the year, in instances, sanctions monitoring teams, groups and panels continued to face challenges in connection with travel of experts to some countries to gather information on the implementation of the sanctions regimes. Similarly, the Office of the Ombudsperson and the mission in support of the implementation of Security Council resolution 2231 (2015) were able to undertake only limited travel in the context of interviewing petitioners and consulting Member States, respectively. The missions could not always meet interlocutors and discuss or draft the reports in person. To overcome those challenges, the missions maintained virtual engagement with interlocutors through means of telecommunication and by relying more closely on desk research, including United Nations-procured databases and subscriptions. The missions ensured the continued confidentiality of their work by utilizing secure

communication platforms offered by the Office of Information and Communications Technology and utilizing alternative methods, including hand delivery. Such cost-effective practices could be viewed as valuable lessons learned and best practices and as such, where applicable, could be utilized going forward.

8. Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plans for the special political missions for 2023 continue to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

1. Group of Experts on the Democratic Republic of the Congo

(\$1,524,200)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

9. The Group of Experts on the Democratic Republic of the Congo is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and transport and customs measures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [1533 \(2004\)](#), [1596 \(2005\)](#), [1649 \(2005\)](#), [1698 \(2006\)](#), [1807 \(2008\)](#), [1857 \(2008\)](#), [1896 \(2009\)](#), [1952 \(2010\)](#), [2021 \(2011\)](#), [2078 \(2012\)](#), [2424 \(2018\)](#), [2478 \(2019\)](#), [2528 \(2020\)](#) and [2582 \(2021\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Democratic Republic of the Congo through, for example, predatory acts by armed groups against artisanal miners and the communities surrounding mines.

Programme of work

Objective

10. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic Republic of the Congo, which includes an arms embargo, an asset freeze and a travel ban.

Strategy

11. To contribute to the objective, the Group of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1533 \(2004\)](#) concerning the Democratic Republic of the Congo.
12. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

13. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
 - (a) Member States comply with the resolutions of the Security Council and cooperate with the Group of Experts;
 - (b) The security situation allows the Group of Experts to conduct missions, as needed.
14. With regard to cooperation with other entities at the global, regional, national and local levels, the Group of Experts cooperates with, among others, Member States, the International Conference on the Great Lakes Region and private entities to request information relevant to its investigations into

the implementation and/or violations of the sanctions regime concerning the Democratic Republic of the Congo.

15. With regard to inter-agency coordination and liaison, the Group of Experts cooperates with, among others, the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict and on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Group of Experts cooperates with MONUSCO, the Department of Safety and Security of the Secretariat and the United Nations Development Programme (UNDP).

Programme performance in 2021

Enhanced implementation of the sanctions regime concerning the Democratic Republic of the Congo

16. The Group of Experts reported on armed groups in the Democratic Republic of the Congo benefiting from the illicit exploitation of natural resources and on violations by several armed groups of human rights and international humanitarian law, including sexual violence in conflict. The Group recommended to the Government of the Democratic Republic of the Congo that it strengthen its intelligence and investigate armed attacks in Beni and in Ituri and that it prosecute those responsible for serious violations of human rights and international humanitarian law.
17. The mission delivered on the objective notwithstanding that the appointment of the Group of Experts was delayed. The Security Council adopted its resolution [2582 \(2021\)](#) on 29 June 2021, in which it renewed the Group's mandate from 1 July 2021 to 1 August 2022. The Committee approved the appointment of the Group on 18 November 2021 and the Secretary-General appointed the Group of Experts on 2 December 2021.
18. The above-mentioned work contributed to the Security Council and the Committee receiving updated information from the Group of Experts on the illicit exploitation of natural resources and violations of human rights and international humanitarian law, which met the planned target. Progress towards the objective is presented in the performance measure below (see table 2).

Table 2

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Committee takes action to address the activities of armed groups in the eastern Democratic Republic of the Congo	Committee adds individuals and/or entities to the sanctions list	Security Council/Committee receives updated information on illicit exploitation of natural resources, recruitment by armed groups and sexual violence

Planned result for 2023

Enhanced understanding by the Security Council of the illegal exploitation of natural resources in the Democratic Republic of the Congo

Programme performance in 2021 and target for 2023

19. The mission's work contributed to the full implementation of this sanctions regime, which met the planned target of the Committee receiving updated information on illicit exploitation or trafficking of natural resources.

Lessons learned and planned change

20. The lesson for the Group of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Group will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
21. This work is expected to further contribute to increased reporting and recommendations by the Group of Experts on the illicit exploitation of natural resources, and follow-up by the Security Council and the Committee on those recommendations, which may result in the Committee adjusting the designations of individuals and entities. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 3).

Table 3
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Security Council/Committee has limited first-hand sanctions-related information on the illicit exploitation of natural resources	Security Council/Committee receives more first-hand sanctions-related information on the illicit exploitation of natural resources	Security Council/Committee continues to receive updated sanctions-related information on the illicit exploitation of natural resources	Committee considers information on individuals who have supported armed groups or criminal networks involved in destabilizing activities in the Democratic Republic of the Congo through the illicit exploitation or trafficking of natural resources	Committee considers adjusting list entries of individuals and/or entities in connection with illicit exploitation or trafficking of natural resources

Deliverables

22. Table 4 lists all deliverables of the mission.

Table 4
Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>

^a Other level, unless otherwise stated.

23. The proposed resource requirements for the Group of Experts on the Democratic Republic of the Congo for 2023 amount to \$1,524,200 (net of staff assessment) and would provide for the salaries and common staff costs (\$388,700) for the continuation of two positions (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,135,500) comprising expert fees (\$735,000) and travel (\$264,600) of the six members of the Group, official travel of staff (\$24,000) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$111,900).
24. For 2023, no change is proposed to the number and level of positions for the Group of Experts. A five per cent vacancy rate has been applied to the staff costs.
25. The increase in the requirements for 2023 compared with the appropriation for 2022 is attributable primarily to higher requirements under civilian personnel costs, owing to the application of a higher percentage of common staff costs based on recent expenditure patterns and updated salary rates, as well as higher requirements for the experts' fees owing to a higher average monthly rate based on changes in the composition of the Group.

2. Panel of Experts on the Sudan

(\$1,120,400)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

26. The Panel of Experts on the Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate is defined in Security Council resolution [1591 \(2005\)](#). The sanctions regime is one of the tools used by the Council to address the conflict in Darfur and is aimed at preventing and containing threats to the stability of Darfur and the region and a peaceful settlement of the conflict in Darfur. The Secretary-General submitted on 31 July 2021 his report requested by the Council in its resolution [2562 \(2021\)](#) providing a review of the situation in Darfur and recommending benchmarks to assess the measures in Darfur ([S/2021/696](#)). The report contained information relating to the situation in Darfur and provided recommendations for benchmarks that could serve in guiding the Council in reviewing the measures on Darfur.

Programme of work

Objective

27. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Sudan, which includes an arms embargo, an asset freeze and a travel ban, as well as to report on the possible threats to the peace and stability of Darfur.

Strategy

28. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1591 \(2005\)](#) concerning the Sudan.
29. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the Sudan sanctions regime.

External factors for 2023

30. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.
31. With regard to cooperation with other entities at the global, regional, national and local levels, the Panel of Experts cooperates with, among others, Member States and the African Union.
32. With regard to inter-agency coordination and liaison, the Panel of Experts on the Sudan cooperates with, among others, the United Nations Integrated Transition Assistance Mission in the Sudan

(UNITAMS), the Office for the Coordination of Humanitarian Affairs, the United Nations Children's Fund and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, UNITAMS, UNDP and the World Food Programme.

Programme performance in 2021

Further reporting on Darfuri armed group operations in Libya

33. The Panel focused on the implementation of the Juba Peace Agreement as well as on investigating Darfuri armed groups, their financing and their role in destabilizing the country and the region. In that context, the Panel reported that while some progress had been made in implementing the Agreement, the implementation of the security arrangements had been negligible, especially as they related to the return of the Darfuri armed groups from Libya.
34. Through its reporting, the Panel kept the Security Council and the Committee abreast of the regional activities of Darfuri armed groups. The Committee held a meeting with the Sudan's neighbouring States to discuss the presence of Darfuri armed groups in Libya and South Sudan, as well as a common approach to address the issue. The Panel also investigated the emergence of new armed groups. Progress towards the objective is presented in the performance measure below (see table 7).

Table 7

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Committee receives reporting from the Panel of Experts on increasing alliances between Darfuri armed groups and Libyan armed actors	Committee receives reporting from the Panel of Experts on activities, structures and motivations of Darfuri rebel groups operating in Libya	Committee receives updated information regarding the peace process and Darfuri armed groups, their financing and their role in destabilizing the country and the region. With this information, the Committee issues guidance to Member States on the implementation of the sanctions regime and convenes a meeting with the Sudan and regional States on the implementation of the sanctions measures

Planned result for 2023

Committee receives updated information on Darfuri armed groups in Darfur and Libya and their integration in security forces in accordance with the Juba Peace Agreement

Programme performance in 2021 and target for 2023

35. The mission's work contributed to enhancing the Committee's and the Security Council's understanding of possible threats to the peace and stability of Darfur.

Lessons learned and planned change

36. The lesson for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will

increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.

37. This work is expected to contribute to the Committee's increased awareness of the operations of Darfuri armed groups. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 8).

Table 8
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Committee receives reporting from the Panel of Experts on how Darfuri armed groups consolidated their presence in Libya	Committee receives reporting from the Panel of Experts on increasing alliances between Darfuri armed groups and Libyan armed actors	Committee receives reporting from the Panel of Experts on activities of Darfuri armed groups in Libya and the Sudan	Committee receives updated information on the integration of Darfuri rebel groups into the Sudanese armed structures	The Committee receives updated information on the Darfuri armed groups in Darfur and Libya and their integration

Deliverables

38. Table 9 lists all deliverables of the mission.

^a Other level, unless otherwise stated.

39. The proposed resource requirements for the Panel of Experts on the Sudan for 2023 amount to \$1,120,400 (net of staff assessment) and would provide for the salaries and common staff costs

(\$147,800) for the continuation of one position (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$972,600) comprising expert fees (\$668,200) and travel (\$235,000) of the five members of the Panel, official travel of staff (\$15,900) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$53,500).

40. For 2023, no change is proposed to the number and level of positions for the Panel of Experts. A five per cent vacancy rate has been applied to the staff costs.
41. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to higher requirements for experts' fees owing to a higher average monthly rate for the fees based on changes to the composition of the Panel. The increase is offset in part by lower requirements under civilian personnel costs attributable mainly to the application of a lower percentage of common staff costs.

3. Panel of Experts on the Democratic People's Republic of Korea

(\$3,110,600)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

42. The Panel of Experts on the Democratic People's Republic of Korea is responsible for monitoring the implementation of the sanctions regime with regard to the Democratic People's Republic of Korea, including an arms embargo and an embargo related to nuclear, ballistic missile and other weapons of mass destruction programmes, sectoral bans on coal, minerals and fuel, a ban on the export of luxury goods, a travel ban and/or asset freeze on designated individuals and entities, a ban on the provision of financial services, a ban on specialized teaching and training in disciplines that could contribute to prohibited activities and programmes, and cargo inspection and maritime procedures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in the relevant Security Council resolutions, including resolutions [1718 \(2006\)](#), [1874 \(2009\)](#), [2087 \(2013\)](#), [2094 \(2013\)](#), [2270 \(2016\)](#), [2321 \(2016\)](#), [2356 \(2017\)](#), [2371 \(2017\)](#), [2375 \(2017\)](#) and [2397 \(2017\)](#). The sanctions regime is aimed at ensuring that the Democratic People's Republic of Korea abandons all nuclear weapons and its existing nuclear programme and acts strictly in accordance with the obligations applicable to parties under the Treaty on the Non-Proliferation of Nuclear Weapons and the terms and conditions of the Agreement of 30 January 1992 between the Government of the Democratic People's Republic of Korea and the International Atomic Energy Agency for the Application of Safeguards in Connection with the Treaty on the Non-Proliferation of Nuclear Weapons.

Programme of work

Objective

43. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic People's Republic of Korea, which includes an arms embargo, an embargo related to nuclear, ballistic missile and other weapons of mass destruction programmes, an asset freeze, a travel ban, maritime and financial measures, a ban on petroleum products and crude oil, a coal ban and sanctions measures in other sectoral areas.

Strategy

44. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1718 \(2006\)](#).
45. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

46. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States will comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.
47. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates, among others, with Member States, the European Union, the Association of Southeast Asian Nations, the Financial Action Task Force, the Comprehensive Nuclear-Test-Ban Treaty Organization, the International Atomic Energy Agency (IAEA) and the Organisation for the Prohibition of Chemical Weapons.
48. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates, among others, with other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

Programme performance in 2021

Committee members receive updated information regarding the illicit ballistic missile programmes of the Democratic People's Republic of Korea

49. Together with the ban on the development by the Democratic People's Republic of Korea of nuclear and other weapons of mass destruction, a central aim of the Security Council's sanctions regime has been to prohibit the country's development and testing of its ballistic missile programme. Since 2006, the Council has adopted increasingly stringent sanctions measures to combat the ability of the Democratic People's Republic of Korea to obtain relevant goods, materiel and know-how. However, the Democratic People's Republic of Korea has continued to conduct ballistic missile launches demonstrating technological enhancements. A significant focus of the Panel of Experts has been to track and alert the Council and the Committee to those new developments. In 2021, following further missile launches by the Democratic People's Republic of Korea, the Panel of Experts expeditiously provided the Committee with an incident report detailing its latest observations.
50. The above-mentioned work contributed to the Committee's enhanced understanding of the trajectory of the ballistic missile programme of the Democratic People's Republic of Korea in a timely manner. This enabled appropriate action, including alerting Member States on potential sanctions evasion. Progress towards the objective is presented in the performance measure below (see table 12).

Table 12
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Panel of Experts reports to the sanctions committee and the Security Council on the ballistic missile development by the Democratic People's Republic of Korea	Panel of Experts reports to the sanctions committee and the Security Council on the ballistic missile development by the Democratic People's Republic of Korea	Sanctions committee receives updated Panel of Experts analysis regarding the ballistic missile technology of the Democratic People's Republic of Korea through an ad hoc incident report, as well as through the Panel's regular midterm and final reports

Planned result for 2023

Member States continue to receive updated information and reporting on evasion techniques and assistance to improve sanctions implementation

Programme performance in 2021 and target for 2023

51. The mission's work contributed to ensuring the full implementation of this sanctions regime, which met the planned target of improved implementation at the national and regional levels, more comprehensive national implementation reports and increased ability of the Security Council to address sanctions evasion techniques used by the Democratic People's Republic of Korea.

Lessons learned and planned change

52. The lesson learned for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
53. This work is expected to contribute to the Security Council and the Committee being better informed and thus better able to address sanctions evasion. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 13).

Table 13

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Continued outreach with European Union countries and assistance to Member States in improving implementation	Continued systematic regional outreach and Member State visits for targeted assessment and assistance	Improved implementation at the national and regional levels, more comprehensive national implementation reports, and increased ability of the Security Council to address sanctions evasion	Security Council and the sanctions committee are better informed and better able to address sanctions evasion and provide guidance to Member States	Security Council and the sanctions committee are better informed and better able to address sanctions evasion and provide guidance to Member States

Deliverables

54. Table 14 lists all deliverables of the mission.

Table 14
Deliverables for the period 2021–2023, by category and subcategory

^a Comprising one Principal level and two Other level.

55. The proposed resource requirements for the Panel of Experts for 2023 amount to \$3,110,600 (net of staff assessment) and would provide for salaries and common staff costs (\$775,000) for the continuation of six positions (1 P-4, 2 P-3 and 3 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$2,335,600) comprising expert fees (\$1,574,700) and travel (\$144,200) of the eight members of the Panel, official travel of staff (\$17,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$599,400).
56. For 2023, no change is proposed to the number and level of positions for the Panel of Experts. A 13 per cent vacancy rate has been applied to the staff costs.
57. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to higher requirements for the experts owing to a higher average monthly rate for the fees based on changes to the composition of the Panel. The increase is offset in part by lower requirements under civilian personnel costs attributable mainly to the application of a lower percentage of common staff costs.

4. Panel of Experts on Libya

(\$1,410,400)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

58. The Panel of Experts on Libya is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and measures in relation to attempts to illicitly export petroleum, and for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [1973 \(2011\)](#), [2009 \(2011\)](#), [2017 \(2011\)](#), [2040 \(2012\)](#), [2095 \(2013\)](#), [2144 \(2014\)](#), [2146 \(2014\)](#), [2213 \(2015\)](#), [2292 \(2016\)](#), [2362 \(2017\)](#), [2441 \(2018\)](#), [2509 \(2020\)](#) and [2571 \(2021\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Libya, including obstructing or undermining the successful completion of the political transition. On 28 April 2022, following a request by the Security Council in its resolution [2578 \(2021\)](#), the Secretary-General submitted a report on the implementation of the arms embargo on the high seas off the coast of Libya ([S/2022/360](#)).

Programme of work

Objective

59. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Libya, which includes an arms embargo, an asset freeze, a travel ban and measures in relation to attempts to illicitly export petroleum.

Strategy

60. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and to the Security Council Committee established pursuant to resolution [1970 \(2011\)](#) concerning Libya.
61. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

62. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions in the field.
63. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates, among others, with Member States and the European Union, in particular its military operation in the Mediterranean.

64. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Support Mission in Libya (UNSMIL), the International Maritime Organization, the World Bank and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, UNSMIL and UNDP.

Programme performance in 2021

Improving the effectiveness of the arms embargo

65. The Panel of Experts on Libya continued to monitor, investigate and identify violations and non-compliance regarding the arms embargo by using maritime and air delivery profile indicators to assist in determining the likelihood of such violations. The final report of the Panel of Experts in 2021 documented violations by Member States directly supporting the parties to the conflict and cited owners, operators and agents of vessels and aircraft for arms embargo violations, as well as private military companies. The final report contained one recommendation aimed at enhancing the effectiveness of the arms embargo. The Panel also separately provided information to the Council on individuals and entities determined by the Panel to have violated the arms embargo. Progress towards the objective is presented in the performance measure below (see table 17).

Table 17

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Panel of Experts provides the Committee with mandated reports and presentations, and additional briefings and ad hoc updates on instances of non-compliance with the arms embargo, as well as information on individuals meeting the sanctions designation criteria for their involvement in arms embargo violations	On the basis of information provided by the Panel of Experts, the Security Council and the Committee call upon Member States to respect the arms embargo and list individuals and entities involved in arms embargo violations	Committee continues receiving information of instances of non-compliance with the arms embargo and provides further information on individuals and entities acting in violation of the arms embargo from the Panel of Experts

Planned result for 2023

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo

Programme performance in 2021 and target for 2023

66. The mission's work contributed to the implementation of this sanctions regime, meeting the planned target of provision of information on individuals and entities acting in violation of the arms embargo. This enabled the Security Council and the Committee to call upon Member States to respect the arms embargo and would enable the Council to consider the listing of individuals and entities.

Lessons learned and planned change

67. The lesson learned for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions. The Panel's travel to Libya remains crucial to its mission and should be given priority by all the stakeholders involved. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 18).

Table 18
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Committee receives mandated reports and presentations covering instances of non-compliance with the arms embargo from the Panel of Experts	Committee receives mandated reports and presentations, and additional ad hoc updates on instances of non-compliance with the arms embargo from the Panel of Experts	Committee continues to receive information on instances of non-compliance with the arms embargo from the Panel of Experts	Based on the information provided by the Panel of Experts, the Committee takes follow-up action on reported arms embargo violations, including adjusting the listing of entities and individuals	Based on the information provided by the Panel of Experts, the Committee takes follow-up action on reported arms embargo violations, including considering listings

Deliverables

68. Table 19 lists all deliverables of the mission.

Table 19
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	7	11	7	7
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	7	11	7	7
Substantive services for meetings (number of three-hour meetings)	3	5 ^a	3	3
2. Meetings of the sanctions committee	3	5 ^a	3	3
Conference and secretariat services for meetings (number of three-hour meetings)	3	5 ^a	3	3
3. Meetings of the sanctions committee	3	5 ^a	3	3
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	6	5	5
4. Induction seminar for new members of the Panel of Experts	5	6	5	5
Publications (number of publications)	1	–	1	1
5. Implementation assistance notice and guidance document	1	–	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.				
Fact-finding, monitoring and investigation missions: missions and requests for information relating to compliance with the sanctions regime.				
Databases and substantive digital materials: archives of documents collected by the Panel of Experts.				

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

^a In the light of the challenges posed to the Committee's usual procedures by the COVID-19 pandemic, including the limitations on holding in-person meetings, and in order to ensure the continuity of its work, the members of the Committee agreed, on an exceptional basis, to hold two virtual meetings in the form of closed videoconferences.

B. Proposed post and non-post resource requirements for 2023**Resource requirements (regular budget)**

Table 20

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021	2022	2023	Variance	
	Expenditure	Appropriation	Total requirements	Non-recurrent	2023 vs. 2022
	(1)	(2)	(3)	(4)	Increase/(decrease)
	(5)=(3)-(2)				
Military and police personnel costs	–	–	–	–	–
Civilian personnel costs	223.0	222.6	234.0	–	11.4
Operational costs	873.0	1 208.9	1 176.4	–	(32.5)
Total (net of staff assessment)	1 096.0	1 431.5	1 410.4	–	(21.1)

Table 21

Positions

	Professional and higher categories								General Service and related categories			National staff				
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Sub-total	Field/ Security Services	General Service ^a	Total inter-national	National Professional Officer	Local level	United Nations Volunteer	Total
Approved 2022	–	–	–	–	–	–	1	–	1	–	1	2	–	–	–	2
Proposed 2023	–	–	–	–	–	–	1	–	1	–	1	2	–	–	–	2
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

69. The proposed resource requirements for the Panel of Experts on Libya for 2023 amount to \$1,410,400 (net of staff assessment) and would provide for salaries and common staff costs (\$234,000) for the continuation of two positions (1 P-3 and 1 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,176,400) comprising expert fees (\$746,100) and travel (\$333,800) of the six members of the Panel, official travel of staff (\$16,800) and other operational and logistical support requirements,

including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$79,700).

70. For 2023, no change is proposed to the number and level of positions for the Panel of Experts on Libya. A five per cent vacancy rate has been applied to the staff costs.
71. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to lower requirements for the experts' fees resulting from a lower average monthly fee owing to a change in the composition of the Panel. The decrease is offset in part by higher requirements under civilian personnel costs, resulting from the application of a higher percentage of common staff costs based on recent expenditure patterns.

5. Panel of Experts on the Central African Republic

(\$1,193,200)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

72. The Panel of Experts on the Central African Republic is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [2127 \(2013\)](#), [2134 \(2014\)](#), [2149 \(2014\)](#), [2196 \(2015\)](#), [2262 \(2016\)](#), [2339 \(2017\)](#), [2399 \(2018\)](#), [2454 \(2019\)](#), [2488 \(2019\)](#), [2507 \(2020\)](#), [2536 \(2020\)](#) and [2588 \(2021\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Central African Republic. On 15 June 2021, following a request by the Security Council in its resolution [2536 \(2020\)](#), the Secretary-General provided an update on progress achieved by the authorities of the Central African Republic on key benchmarks ([S/2021/573](#)). In its resolution [2588 \(2021\)](#), the Council requested the Secretary-General to conduct no later than 15 June 2022 a further assessment of the progress achieved by the Central African Republic authorities on the key benchmarks established in the statement of the President of the Council of 9 April 2019 ([S/PRST/2019/3](#)).

Programme of work

Objective

73. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Central African Republic, which includes an arms embargo, an asset freeze and a travel ban.

Strategy

74. To contribute to the objective, the Panel of Experts will continue to provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2127 \(2013\)](#) concerning the Central African Republic.
75. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

76. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

77. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates, among others, with Member States, the African Union, the European Union CSDP Advisory Mission in the Central African Republic, the Economic Community of Central African States, the International Conference on the Great Lakes Region and the Central African Economic and Monetary Community.
78. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates, among others, with the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA), the United Nations Institute for Disarmament Research, the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict and on Sexual Violence in Conflict, and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, MINUSCA and UNDP.

Programme performance in 2021

Better understanding by the Security Council and the Committee of the trafficking of natural resources

79. The Panel of Experts provided the Security Council with comprehensive information on illicit exploitation and trafficking of natural resources from the Central African Republic to the neighbouring States. The Panel reported on the trafficking of gold and diamonds into neighbouring countries and on individuals and entities involved in illicit exploitation of natural resources in western Central African Republic. The Panel of Experts made recommendations to enhance efforts to counter cross-border trafficking and submitted new and updated statements on cases regarding individuals and entities that violated the sanctions measures.
80. The mission delivered partially on the objective. The Security Council adopted its resolution [2588 \(2021\)](#) on 29 July 2021, in which it renewed the mandate of the Panel of Experts from 1 September 2021 to 31 August 2022. The Panel was not appointed for the remainder of 2021, which narrowed the comprehensiveness of its reporting.
81. The above-mentioned work further contributed to the Committee receiving new statements on cases regarding violators of the sanctions regime related to the illicit exploitation of and trafficking in natural resources, which met the planned target. Progress towards the objective is presented in the performance measure below (see table 22).

Table 22

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Committee receives first-hand and detailed information on cases of illegal exploitation of natural resources in the Central African Republic by armed groups	Committee receives first-hand and detailed information on cases of illegal exploitation of natural resources in the Central African Republic by armed groups	Security Council/Committee receives evidence on violations of the sanctions measures and considers designating individuals and entities for natural resources trafficking

Planned result for 2023

Better understanding by the Security Council and the Sanctions Committee of the illicit exploitation of and trafficking in natural resources

Programme performance in 2021 and target for 2023

82. The mission's work contributed to the full implementation of the sanctions regime concerning the Central African Republic, which met the planned target of Member States having a better understanding of the illicit exploitation of and trafficking in natural resources from the Central African Republic.

Lessons learned and planned change

83. The lesson for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
84. This work is expected to contribute to the Security Council and the Committee having relevant information on the illicit exploitation of and trafficking in natural resources from the Central African Republic and providing guidance to Member States on how to stem it. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 23).

Table 23

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Security Council/Committee receives information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council/Committee receives detailed information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council/Committee receives more detailed information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council/Committee receives comprehensive information on the illicit exploitation of and trafficking in natural resources, with recommendations for action	Security Council/Committee has relevant information on the illicit exploitation of and trafficking in natural resources and acts on the Panel's recommendations

Deliverables

85. Table 24 lists all deliverables of the mission.

Table 24
Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>

^a Other level, unless otherwise stated.

86. The proposed resource requirements for the Panel of Experts on the Central African Republic for 2023 amount to \$1,193,200 (net of staff assessment) and would provide for salaries and common staff costs (\$241,000) for the continuation of two positions (1 P-3 and 1 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$952,200) comprising expert fees (\$584,000) and travel (\$248,500) of the five members of the Panel, official travel of staff (\$19,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$100,400).
87. For 2023, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of five per cent has been applied to the positions.
88. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to higher requirements for experts' fees resulting from a change in the composition of the Panel, as well as higher requirements under civilian personnel costs, resulting from the application of a higher percentage of common staff costs based on recent expenditure patterns and updated higher salary rates.

6. Panel of Experts on Yemen

(\$2,210,000)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

89. The Panel of Experts on Yemen is responsible for monitoring the implementation of the asset freeze, travel ban and targeted arms embargo on designated individuals and entities, as well as for providing information relevant to the potential designation of such individuals and entities. The mandate is defined in Security Council resolution [2140 \(2014\)](#), as modified by resolution [2216 \(2015\)](#) and updated in resolution [2511 \(2020\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security or stability of Yemen, such as obstructing or undermining the successful completion of the political transition.

Programme of work

Objective

90. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Yemen, which includes a targeted arms embargo, an asset freeze and a travel ban.

Strategy

91. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2140 \(2014\)](#).
92. The above-mentioned work is expected to result in the enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

93. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.
94. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates, among others, with Member States, the Combined Maritime Forces and the International Criminal Police Organization (INTERPOL).
95. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates, among others, with the World Bank, the International Monetary Fund (IMF), the World Food Programme, the International Organization for Migration, the United Nations Verification and Inspection Mechanism and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety,

security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, the Office of the Special Envoy of the Secretary-General for Yemen and UNDP.

Programme performance in 2021

Increased awareness of the use of commercial components in military applications and action by the Security Council to fight impunity

96. The Panel of Experts further increased awareness among customs and export control authorities about the use of commercially available components by the Houthi forces in the manufacturing of unmanned aerial vehicles and waterborne improvised explosive devices. The Panel reported that such components had continued to flow into Houthi-controlled areas, allowing the proliferation of weapon systems within Yemen. In 2019, the Panel recommended establishing a list of commercially available components used to construct weapons systems and annexed such a list to its 2021 final report (S/2021/79) based on a series of arms inspections conducted by the Panel in various countries. In 2021, the Committee designated two high-ranking political and military Houthi officials for their involvement in military campaigns threatening the peace, security and stability of Yemen and one official for the trafficking of arms and related materiel and violations of human rights and international humanitarian law, including torture, sexual violence and rape.
97. The above-mentioned work contributed to the Security Council and the Committee receiving detailed information from the Panel on violations of the arms embargo and violations of human rights and international humanitarian law, which met the planned target. Progress towards the objective is presented in the performance measure below (see table 27).

Table 27

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Committee receives information from the Panel of Experts on the increased use of commercial components in military applications	Security Council tasks the Panel of Experts with continuing to report on commercially available components used in certain military applications in Yemen	Security Council receives detailed information from the Panel of Experts on the commercially available components used to assemble weapon systems and on violations of human rights and international humanitarian law

Planned result for 2023

Further enhanced awareness of the trafficking of arms and components

Programme performance in 2021 and target for 2023

98. The mission's work contributed to the full implementation of the sanctions regime concerning Yemen, which met the planned target of the Security Council receiving detailed information on the trafficking of arms and of commercially available components used in certain military applications.

Lessons learned and planned change

99. The lesson for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.

100. This work is expected to contribute to the Security Council having comprehensive information on the trafficking of arms and of commercially available components used in certain military applications and to the Council providing guidance on how to counter the transfer of those components. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 28).

Table 28
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Committee receives information from the Panel of Experts on the trafficking of arms and the increased use of commercial components in military applications	Security Council receives information from the Panel of Experts on the trafficking of arms and of commercially available components used in certain military applications in Yemen	Security Council receives detailed information on the trafficking of arms and of commercially available components used in certain military applications in Yemen	Enhanced knowledge of Member States on the trafficking of arms and related materiel in Yemen results in enhanced vigilance	Security Council receives comprehensive information from the Panel of Experts on the trafficking of arms and related materiel

Deliverables

101. Table 29 lists all deliverables of the mission.

Table 29
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	3	2	2
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	2	3	2	2
Substantive services for meetings (number of three-hour meetings)	3	7 ^a	3	4
2. Meetings of sanctions committee	3	7 ^a	3	4
Conference and secretariat services for meetings (number of three-hour meetings)	3	7 ^a	3	4
3. Meetings of sanctions committee	3	7 ^a	3	4
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	5	5	5
4. Induction seminar for new members of the Panel of Experts	5	5	5	5
Publications (number of publications)	2	1	1	1
5. Implementation assistance notice and guidance document	2	1	1	1
C. Substantive deliverables				

Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

Fact-finding, monitoring and investigation missions: missions and requests for information relating to compliance with the sanctions regime.

Databases and substantive digital materials: archives of documents collected by the Panel of Experts.

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

^a In the light of the challenges posed to the Committee's usual procedures by the COVID-19 pandemic, including the limitations on holding in-person meetings, and to ensure the continuity of its work, the members of the Committee agreed, on an exceptional basis, to hold three virtual meetings in the form of closed videoconferences.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 30

Financial resources

(Thousands of United States dollars)

<i>Category of expenditure</i>	<i>2021</i>	<i>2022</i>	<i>2023</i>		<i>Variance</i>

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

102. The proposed resource requirements for the Panel of Experts on Yemen for 2023 amount to \$2,210,000 (net of staff assessment) and would provide for the salaries and common staff costs (\$956,900) for the continuation of eight positions (1 P-3, 5 Field Service and 2 Local level) to

provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,253,100) comprising expert fees (\$631,700) and travel (\$232,400) of the five members of the Panel, official travel of staff (\$48,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical, and other supplies, services and equipment (\$340,700).

103. For 2023, no change is proposed to the total number of positions for the Panel.
104. A five per cent vacancy rate has been applied to international staff costs, while national staff costs are based on the assumption of full incumbency.
105. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to lower requirements under civilian personnel costs, resulting from the application of a lower percentage of common staff costs for international staff positions based on recent expenditure patterns. The decrease is offset in part by the higher salaries for international staff owing to the application of a lower vacancy rate of five per cent compared with the seven per cent applied in 2022 and by the increased requirements for experts' fees resulting from higher average monthly fees owing to a change in the composition of the Panel.

7. Panel of Experts on South Sudan

(\$1,257,600)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

106. The Panel of Experts on South Sudan is responsible for monitoring the implementation of the arms embargo, assets freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [2206 \(2015\)](#), [2428 \(2018\)](#), [2521 \(2020\)](#) and [2577 \(2021\)](#). The sanctions regime is aimed at, but not limited to, targeting spoilers of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan, which was signed on 12 September 2018. On 31 October 2020, following a request by the Security Council in its resolution [2521 \(2020\)](#), the Secretary-General provided a report assessing the role of the arms embargo in facilitating the implementation of the Revitalized Agreement and articulating options for the elaboration of benchmarks ([S/2020/1067](#)). Furthermore, on 31 March 2021, following a request dated 16 December 2020 (see [S/2020/1277](#)) from the President of the Security Council, the Secretary-General provided the Council with recommendations on benchmarks to assess the arms embargo measures (see [S/2021/321](#)). On 29 April 2022, following the request in resolution [2577 \(2021\)](#), the Secretary-General provided the Security Council with an assessment of the progress achieved on the benchmarks established by that resolution (see [S/2022/370](#)).

Programme of work

Objective

107. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning South Sudan, which includes an arms embargo, an asset freeze and a travel ban.

Strategy

108. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2206 \(2015\)](#) concerning South Sudan.
109. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

110. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

111. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the African Union and the Intergovernmental Authority on Development (IGAD).
112. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Mission in South Sudan (UNMISS), the Office of the United Nations High Commissioner for Human Rights (OHCHR), the offices of the Special Representatives of the Secretary-General for Children and Armed Conflict and on Sexual Violence in Conflict, and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel of Experts cooperates with UNMISS, the Department of Safety and Security and UNDP.

Programme performance in 2021

Reporting on human rights violations, including sexual and gender-based violence, as a means of ensuring the full implementation of the peace process in South Sudan

113. The Panel reported that the forces under the command and control of a senior military official had committed serious violations of human rights and international humanitarian law, including sexual and gender-based violence. Also, the Panel recommended that the Security Council include as a stand-alone designation criterion for sanctions any actions or policies that threaten or undermine the implementation of the transitional justice mechanisms pursuant to the Revitalized Agreement.
114. The mission delivered partially on the objective owing to the delayed appointment of the Panel of Experts, which narrowed the comprehensiveness of its reporting. On 28 May 2021, the Security Council adopted its resolution [2577 \(2021\)](#) renewing the mandate of the Panel from 2 July 2021 to 1 July 2022. The Committee approved the appointment of the Panel of Experts on 11 January 2022 and the Secretary-General appointed the Panel of Experts on 20 January 2022.
115. The above-mentioned work contributed to the enhanced capacity of the Security Council and the Committee to receive more information from the Panel of Experts on human rights violations, including sexual and gender-based violence, as a means of ensuring the full implementation of the peace process in South Sudan. Progress towards the objective is presented in the performance measure below (see table 32).

Table 32

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Committee receives a statement on cases for potential sanctions designation based on human rights violations, including sexual and gender-based violence	Committee receives a statement on cases for potential sanctions designation based on human rights violations, including sexual and gender-based violence	Committee considers sanctions on individuals and entities that violated human rights, including sexual and gender-based violence

Planned result for 2023

Committee members receive an update on progress achieved in the implementation of the Revitalized Agreement and on actions that threaten the peace, security and/or stability of South Sudan

Programme performance in 2021 and target for 2023

116. The mission's work contributed to the full implementation of the sanctions regime concerning South Sudan, which met the planned target of receiving updated information on individuals and entities involved in human rights violations, including sexual violence in conflict and gender-based violence.

Lessons learned and planned change

117. The lesson for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
118. This work is expected to contribute to the Security Council being better informed about the implementation of the Revitalized Agreement and being able to review the arms embargo measures based on the progress made by the South Sudan authorities in implementing the established key benchmarks. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 33).

Table 33
Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
Security Council receives updated information on the implementation of the Revitalized Agreement	Security Council considers reviewing the arms embargo subject to the implementation of the Revitalized Agreement	Security Council receives updated information on the progress achieved in implementing the Revitalized Agreement and establishes benchmarks to review the arms embargo	Security Council receives information on the progress achieved on the established key benchmarks and considers the review of the arms embargo	Security Council reviews the arms embargo based on updated information regarding progress achieved on the established key benchmarks

Deliverables

119. Table 34 lists all deliverables of the mission.

Table 34
Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>

Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

120. The proposed resource requirements for the Panel of Experts on South Sudan for 2023 amount to \$1,257,600 (net of staff assessment) and would provide for salaries and common staff costs (\$308,700) for the continuation of three positions (1 P-3 and 2 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$948,900) comprising expert fees (\$569,700) and travel (\$267,400) of the five members of the Panel, official travel of staff (\$21,800) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$90,000).
121. For 2023, no change is proposed to the number and level of positions for the Panel of Experts. A 5 per cent vacancy rate has been applied to the staff costs.
122. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to higher requirements under civilian personnel costs, resulting from the revision of average staff costs on the within-grade steps of the current incumbents. The increase is offset in part by lower requirements for the experts' fees resulting from a change in the composition of the Panel.

8. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities

(\$5,854,900)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

123. The Analytical Support and Sanctions Monitoring Team, which supports the work of both the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, and the Security Council Committee established pursuant to resolution 1988 (2011), is responsible for assisting in and reporting on the implementation of the asset freeze, travel ban and arms embargo on designated individuals and entities. The mandate is derived from the priorities established in the relevant Security Council resolutions, including resolutions 1267 (1999) 1526 (2004), 1988 (2011), 1989 (2011), 2253 (2015), 2255 (2015), 2368 (2017), 2501 (2019), 2557 (2020), 2610 (2021), 2611 (2021) and 2615 (2021). The sanctions regimes are aimed at strengthening the Council's response to threats to international peace and security caused by terrorist acts and at contributing to the peace, stability and security of Afghanistan.

Programme of work

Objective

124. The objective, to which this mission contributes, is to ensure the full implementation of sanctions regimes concerning Da'esh, Al-Qaida and the Taliban, which include arms embargoes, asset freezes and travel bans.

Strategy

125. To contribute to the objective, the Monitoring Team will provide updated information to the Security Council, the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities and the Security Council Committee established pursuant to resolution 1988 (2011).
126. The above-mentioned work is expected to result in an enhanced capacity of the Council and the Committees to take follow-up action on alleged violations of the sanctions regimes.

External factors for 2023

127. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Monitoring Team;

- (b) The security situation allows the Monitoring Team to conduct missions, as needed.
128. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Monitoring Team cooperates with, among others, Member States, the International Air Transport Association, the International Civil Aviation Organization (ICAO), the World Customs Organization, the Financial Action Task Force and INTERPOL.
129. With regard to inter-agency coordination and liaison, the Monitoring Team cooperates with, among others, the Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism, the Group of Experts assisting the Security Council Committee established pursuant to resolution 1540 (2004), the Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009), the United Nations Office on Drugs and Crime (UNODC), the United Nations Assistance Mission in Afghanistan (UNAMA), the United Nations Assistance Mission for Iraq (UNAMI) and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Monitoring Team cooperates with the Department of Safety and Security, United Nations field missions and UNDP, as appropriate.

Programme performance in 2021

Enhanced analysis of an evolving terrorist threat

130. In 2021, the Monitoring Team submitted four reports providing information and analysis on the evolving global terrorism threat posed by Da'esh and Al-Qaida and on the threat posed by the Taliban to peace and stability in Afghanistan. In December 2021, the Security Council extended the mandate of the Monitoring Team in connection with the threat posed by Da'esh, Al-Qaida and associated individuals and entities for a period of 30 months, until June 2024.
131. In the first half of 2021, the Monitoring Team continued its engagement with the Government of Afghanistan on issues pertaining to sanctions measures imposed on the Taliban. The situation in the country evolved significantly in the second half of 2021. Acknowledging the need for further reporting on the activities of the Taliban and those individuals and entities listed under the 1988 sanctions regime, the Security Council extended the mandate of the Monitoring Team relating to the Taliban for a year, until December 2022.

Table 37

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Security Council/Committees have more detailed information and data from the Monitoring Team on the evolution of the terrorist threat in various regions after the final fall of the Islamic State in Iraq and the Levant (Da'esh) "caliphate"	Security Council/Committees have comprehensive information and data from the Monitoring Team on the evolution of the terrorist threat in various regions and on the evolution of Islamic State in Iraq and the Levant (Da'esh) and Al-Qaida	Committees consider exemptions to current sanctions measures, amendments to existing entries on the sanctions lists, and new designations of individuals and entities

Planned result for 2023

Enhanced analysis to follow an evolving threat

Programme performance in 2021 and target for 2023

132. Through its engagement with Member States and with other stakeholders, the Monitoring Team met the planned target of contributing to the implementation of the sanctions regimes and enabled the

Committees to take appropriate action. In 2021, four individuals and one entity were added to the ISIL (Da'esh) and Al-Qaida sanctions list and three individuals were removed from the list. The Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities approved amendments to the existing entries of nine individuals on its sanctions list. In 2021, the Committees also approved exemptions from existing sanctions measures.

Lessons learned and planned change

133. The lesson for the Monitoring Team was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Monitoring Team will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.

Table 38

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>

Databases and substantive digital materials: implementation, dissemination and maintenance of the enhanced data model and archives of documents collected by the Monitoring Team.				
D. Communication deliverables				
Outreach programmes, special events and information materials: outreach programmes to report on the work of the Monitoring Team; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committees/Monitoring Team.				
External and media relations: press releases on the activities of the sanctions committees/Monitoring Team.				
Digital platforms and multimedia content: dissemination of information on the activities and mandates of the sanctions committees/Monitoring Team through their websites.				

^a In the light of the challenges posed to the Committee's usual procedures by the COVID-19 pandemic, including the limitations on holding in-person meetings, and to ensure the continuity of its work, the members of the Committee agreed, on an exceptional basis, to hold five virtual meetings in the form of closed videoconferences.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 40

Financial resources

(Thousands of United States dollars)

Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	

^a Other level, unless otherwise stated.

135. The proposed resource requirements for the Monitoring Team for 2023 amount to \$5,854,900 (net of staff assessment) and would provide for salaries and common staff costs (\$2,638,500) for the continuation of 19 positions (1 P-5, 4 P-4, 6 P-3 and 8 General Service) to provide substantive and administrative support to the sanctions regimes, and operational costs (\$3,216,400) comprising expert fees (\$1,925,800) and travel (\$401,700) of the 10 members of the Monitoring Team, official travel of staff (\$89,200), and other operational and logistical support requirements, including the rental of premises, communications and information technology services, and other supplies, services and equipment (\$799,700).
136. For 2023, no change is proposed to the number and level of positions for the Monitoring Team. A 10 per cent vacancy rate has been applied to the staff costs.
137. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to lower requirements under civilian personnel costs primarily owing to the application of a lower percentage of common staff costs based on recent expenditure patterns. The decrease is offset in part by higher requirements owing to the application of a lower vacancy rate of 10 per cent compared with the 13 per cent applied in 2022.

9. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)

(\$617,300)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

138. The Office of the Ombudsperson to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities is responsible for reviewing delisting requests from individuals or entities inscribed on the related sanctions list. The mandate is defined in Council resolution 1904 (2009), as modified by subsequent resolutions (1989 (2011), 2083 (2012), 2161 (2014), 2368 (2017) and 2610 (2021)).

Programme of work

Objective

139. The objective, to which this mission contributes, is to provide an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list. In doing so, the Office ensures that listed individuals, entities and undertakings have access to fair and clear procedures for the administration of requests for removal (delisting) from the sanctions list.

Strategy

140. To contribute to the objective, the Office of the Ombudsperson will fairly and expeditiously consider and process all requests for delisting and travel to interview each petitioner in person in their country of residence whenever possible.
141. The above-mentioned work is expected to result in informed decision-making by the Committee on the Ombudsperson's recommendation on the delisting request contained in a comprehensive report on each case.

External factors for 2023

142. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Office of the Ombudsperson;
 - (b) The security situation allows the Office of the Ombudsperson to conduct missions, as needed.
143. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Office of the Ombudsperson cooperates with, among others, Member States, the European Union, academic institutions, think tanks and international law associations.

144. With regard to inter-agency coordination and liaison, the Office of the Ombudsperson cooperates with, among others, UNDP, OHCHR, the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism and the Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities. In the context of safety and security, information technology security and logistics, the Office cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

Programme performance in 2021

Regaining previous numbers of delisting petitions

145. The mission advanced the consideration of all petitions before the Office, which included the presentation of three cases to the Committee, the submission of five comprehensive reports and five interviews with petitioners. The mission also undertook extensive inquiries and independent research for the purpose of gathering information on each petition, including among Member States and United Nations offices. Furthermore, the mission conducted extensive outreach activities to raise awareness about the Office, including interactions with Member States, regional organizations, academic institutions, think tanks and international law associations. The above-mentioned work contributed to the Committee receiving comprehensive reports from the Ombudsperson in a timely manner and being able to take informed and timely decisions on delisting requests.
146. The number of reports received and the timelines for consideration are outside of the Ombudsperson's control: it is the petitioner's initiative to submit a delisting request, and the timeline for consideration of each petition is precisely defined in annex II to resolution 2368 (2017) and renewed in annex II to resolution 2610 (2021). Seven new petitions were accepted by the Office of the Ombudsperson in 2021, bringing the total number of petitions accepted by the Office since its inception to 100. This reflects an increased awareness among petitioners of the existence and effectiveness of the Ombudsperson procedure. The number of petitions received is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of petitions accepted by the Ombudsperson

Planned result for 2023

Ensuring fair and expeditious review of delisting requests

Programme performance in 2021 and target for 2023

147. The Ombudsperson's work contributed to an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list, which met the planned target of five comprehensive reports of the Ombudsperson on the delisting requests submitted to the Committee and thus informing decision-making by the Committee.

Lessons learned and planned change

148. The lesson for the Ombudsperson was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Ombudsperson will increase the use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
149. This work is expected to contribute to an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list, as demonstrated by five comprehensive reports of the Ombudsperson on the delisting requests informing decision-making by the Committee. Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure II).

Figure II

Performance measure: number of comprehensive reports submitted to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities by the Ombudsperson

Deliverables

150. Table 42 lists all deliverables of the mission.

Table 42
Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies

Proposed 2023	-	-	-	-	-	1	-	-	1	-	1	2	-	-	-	2
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

151. The proposed resource requirements for the Office of the Ombudsperson for 2023 amount to \$617,300 (net of staff assessment) and would provide for salaries and common staff costs (\$261,500) for the continuation of two positions (1 P-4 and 1 General Service) to provide substantive and administrative support to the Office, and operational costs (\$355,800) comprising fees (\$216,400) and travel (\$28,400) of the Ombudsperson, official travel of staff (\$25,700) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology, and other supplies, services and equipment (\$85,300).
152. For 2023, no change is proposed to the number and level of positions for the Office. A five per cent vacancy rate has been applied to staff costs.
153. The decrease in requirements proposed for 2023 compared with the appropriation for 2022 is attributable to decreased requirements under civilian personnel costs resulting from the application of a lower percentage of common staff costs, based on recent expenditure patterns. The decrease is offset in part by updated higher salary rates and increased requirements for expert's fees attributable to the higher monthly fee for the new Ombudsperson appointed in 2022.

10. Implementation of Security Council resolution 2231 (2015)

(\$1,533,500)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

154. The mission is responsible for supporting the work of the Security Council and its Facilitator in relation to the implementation of resolution 2231 (2015) and as set forth in the note by the President of the Security Council of 16 January 2016 (S/2016/44). In its resolution, the Council endorsed the Joint Comprehensive Plan of Action, urged its full implementation and called upon all Member States and regional and international organizations to support its implementation.
155. In addition, the restrictions established in annex B to resolution 2231 (2015) are aimed at improving transparency and creating an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action. In October 2020, the first two of the specific restrictions contained in annex B expired (arms-related transfers to/from the Islamic Republic of Iran and travel ban), while the other restrictive measures are set to expire no later than October 2023 (ballistic missile-related transfers and activities, and asset freeze) and October 2025 (nuclear-related transfers and activities (procurement channel)). In October 2025, provided that the provisions of the previous Security Council resolutions on the Iranian nuclear issue have not been reinstated in the interim, all the provisions of resolution 2231 (2015) shall be terminated and the Council will have concluded its consideration of the Iranian nuclear issue.

Programme of work

Objective

156. The objective, to which this mission contributes, is to ensure the full implementation by all Member States and regional and international organizations of resolution 2231 (2015), including the restrictive measures established in annex B to the resolution.

Strategy

157. To contribute to the objective, the mission will continue to support the work of the Security Council and its appointed Facilitator and to report regularly, as mandated, to the Council on the implementation of the resolution.
158. The above-mentioned work is expected to result in improved transparency, an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action and an increase in cooperation on alleged actions inconsistent with annex B restrictions.

External factors for 2023

159. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
 - (a) The swift and successful conclusion of diplomatic efforts by participants in the Joint Comprehensive Plan of Action to ensure that all participants remain committed to its full and effective implementation;

- (b) The Joint Comprehensive Plan of Action, its implementation and that of resolution 2231 (2015) continue to enjoy the full support of the broader international community.
160. With regard to cooperation with other entities at the global, regional, national and local levels, the mission liaises and cooperates with, among others, Member States and the Procurement Working Group of the Joint Commission established in the Joint Comprehensive Plan of Action for the processing of nuclear and nuclear-related dual-use proposals through the procurement channel. The mission also cooperates with Member States on various issues related to the implementation of resolution 2231 (2015), including alleged actions inconsistent with its annex B restrictions. In addition, the mission liaises and cooperates with IAEA.

Programme performance in 2021

Maintaining the continuous implementation of resolution 2231 (2015)

161. The mission continued to promote information related to resolution 2231 (2015), including the restrictive measures established in its annex B, through the reports of the Secretary-General and briefings to the Security Council. Unlike the previous year, there were some opportunities for the mission to participate in virtual outreach events to sensitize relevant stakeholders on the restrictive measures of annex B to the resolution. On monitoring and reporting on the implementation of resolution 2231 (2015), the mission continued to utilize some of the practices established in the previous year, namely, virtual consultations, as well as some in-person consultations with certain Member States.
162. The above-mentioned work contributed to the Security Council, Member States and international organizations being informed about the status of implementation of resolution 2231 (2015), as well as to the preparation of reports of the Secretary-General and briefings to the Security Council. This enabled the mission to meet the planned target of a better understanding and effective implementation of the resolution by all relevant stakeholders.

Table 45

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), including through reporting to the Security Council and the use of the procurement channel

Planned result for 2023

Maintaining the continuous implementation of resolution 2231 (2015)

Programme performance in 2021 and target for 2023

163. The mission's work contributed to the implementation of resolution 2231 (2015), which met the planned target of regular reporting by the Secretary-General and support for the work of the Facilitator, and continuous use of the procurement channel. The mission's work promoted information related to resolution 2231 (2015), including the restrictive measures established in its annex B. The mission was able to participate in several in-person and virtual consultations and visits to Member States.

Lessons learned and planned change

164. The lesson for the mission was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Mission will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.
165. This work is expected to contribute to the continuous implementation of resolution 2231 (2015) through regular reporting by the Secretary-General and support for the work of the Facilitator. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 46).

Table 46

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

167. The proposed resource requirements for the implementation of Security Council resolution 2231 (2015) for 2023 amount to \$1,533,500 (net of staff assessment) and would provide for salaries and common staff costs (\$1,339,800) for the continuation of seven positions (1 P-5, 2 P-4, 2 P-3 and 2 General Service), and operational costs (\$193,700), which includes official travel of staff (\$41,000), and other operational and logistical support requirements, such as the rental of premises, communications and information technology, and other supplies, services and equipment (\$152,700).

168. For 2023, no change is proposed to the number and level of positions for the mission. A 5 per cent vacancy rate has been applied to the staff costs.
169. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to higher requirements under civilian personnel costs resulting from the application of a higher percentage of common staff costs, based on recent expenditure patterns as well as updated higher salary rates.

11. Panel of Experts on Mali

(\$1,194,100)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

170. The Panel of Experts on Mali is responsible for monitoring the implementation of the asset freeze and the travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in Security Council resolution [2374 \(2017\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security or stability of Mali and the region.

Programme of work

Objective

171. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Mali, which includes an asset freeze and a travel ban.

Strategy

172. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2374 \(2017\)](#) concerning Mali.
173. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

174. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.
175. With regard to cooperation with other entities at the global, regional, national and local levels, the Panel of Experts cooperates with, among others, Member States and regional and subregional organizations, including the Economic Community of West African States, the African Union and the European Union.
176. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel of Experts cooperates with the Department of Safety and Security, MINUSMA and UNDP.

Programme performance in 2021

Potential links between armed groups and terrorist groups

177. In 2021, the Panel of Experts on Mali submitted two reports to the Security Council. The reports provided detailed findings on challenges to the implementation of the Agreement on Peace and Reconciliation in Mali. For instance, the Panel reported on the impact of human trafficking on women and children working in gold mines in northern Mali. It also elaborated on the control of gold mines by armed groups with links to terrorist groups. In that connection, the Panel also submitted information to the Committee in relation to acts that fell under the designation criteria to enable the Committee to consider new sanctions designations.
178. The mission delivered partially on the objective owing to the delayed appointment of the Panel of Experts, which narrowed the comprehensiveness of its reporting. The Security Council adopted its resolution [2590 \(2021\)](#) on 30 August 2021, in which it renewed the mandate of the Panel from 1 October 2021 to 30 September 2022. The Committee approved the appointment of the Panel on 14 December 2021 and the Secretary-General appointed the Panel of Experts on 6 January 2022.
179. The above-mentioned work contributed to the Committee being enabled to consider possible new sanctions designations, which met the planned target. Progress towards the objective is presented in the performance measure below (see table 50).

Table 50

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Committee is provided information by the Panel of Experts, enabling it to increase the number of designations of individuals and/or entities on the Committee's sanctions list (5 individuals under travel ban and asset freeze), in support of the implementation of the Agreement	Security Council/Committee is provided information by the Panel of Experts, enabling it to adjust the sanctions regime and/or increase the number of designations of individuals and/or entities on the Committee's sanctions list, in support of the implementation of the Agreement	Committee is enabled to consider adjustments to sanctions designations, including on the potential links between armed and terrorist groups

Planned result for 2023

Strengthening efforts for the implementation of the Agreement on Peace and Reconciliation in Mali

Programme performance in 2021 and target for 2023

180. The mission's work contributed to the implementation of the sanctions regime by providing the Committee with relevant information for the potential designation of individuals and/or entities, including on those pertinent to potential links between armed groups and terrorist groups.

Lessons learned and planned change

181. The lesson for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.

182. This work is expected to contribute to the full implementation of this sanctions regime. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 51).

Table 51
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Committee is provided information by the Panel of Experts, enabling it to increase the number of individuals and/or entities on the Committee's sanctions list	Committee is provided information by the Panel of Experts, enabling it to adjust the sanctions regime	Committee is provided information by the Panel of Experts, including on the potential links between armed groups and terrorist groups, enabling it to adjust the sanctions regime	Committee is provided information by the Panel, enabling it to adjust the sanctions regime, in support of the implementation of the Agreement	Committee is provided information by the Panel, enabling it to consider new designations of individuals and/or entities

Deliverables

183. Table 52 lists all deliverables of the mission.

Table 52
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	2	3	3
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	3	2	3	3
Substantive services for meetings (number of three-hour meetings)	6	3 ^a	5	5
2. Meetings of sanctions committee	6	3 ^a	5	5
Conference and secretariat services for meetings (number of three-hour meetings)	6	3 ^a	5	5
3. Meetings of sanctions committee	6	3 ^a	5	5
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	7	5	6
4. Induction seminar for new members of the Panel of Experts	5	7	5	6
Publications (number of publications)	2	2	2	2
5. Implementation assistance notice and guidance document	2	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.				
Fact-finding, monitoring and investigation missions: missions and requests for information relating to compliance with the sanctions regime.				
Databases and substantive digital materials: archives of documents collected by the Panel of Experts.				

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

^a In the light of the challenges posed to the Committee's usual procedures by the COVID-19 pandemic, including the limitations on holding in-person meetings, and to ensure the continuity of its work, the members of the Committee agreed, on an exceptional basis, to hold two virtual meetings in the form of closed videoconferences.

B. Proposed post and non-post resource requirements for 2023**Resource requirements (regular budget)**

Table 53

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

184. The proposed resource requirements for the Panel of Experts on Mali for 2023 amount to \$1,194,100 (net of staff assessment) and would provide for salaries and commons staff costs (\$139,100) for the continuation of one position (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,055,000) comprising expert fees (\$529,200) and travel (\$187,000) of the four experts, official travel of staff and travel of five Security

Officers from various United Nations offices (\$143,500), and other operational and logistical support requirements, including the rental of premises, security support, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$195,300).

185. For 2023, no change is proposed to the number and level of the position for the Panel of Experts. A 5 per cent vacancy rate has been applied to the staff costs.
186. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable to higher requirements under civilian personnel costs resulting from the revision of the average staff costs based on the within-grade steps of the current incumbent, as well as increased requirements under experts' fees resulting from a change in the Panel's composition.

12. Panel of Experts on Somalia

(\$1,858,900)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

187. The Panel of Experts on Somalia is responsible for monitoring the implementation of the asset freeze, the travel ban and the targeted and territorial arms embargoes, the charcoal ban and the improvised explosive device components ban. The Panel of Experts is also responsible for providing information relevant to the potential designation of individuals and entities based on listing criteria delineated in various Security Council resolutions. Its mandate is referenced in Council resolutions [2444 \(2018\)](#), [2498 \(2019\)](#), [2551 \(2020\)](#) and [2607 \(2021\)](#). The sanctions regime is aimed at supporting the efforts of the Somali authorities to deliver stability and security in Somalia; to prevent any flows of weapons and ammunition to Somalia in violation of the arms embargo; and to disrupt activities of Al-Shabaab, including its finances. In its resolution [2607 \(2021\)](#), the Security Council requested the Secretary-General to provide a technical assessment of Somalia's weapons and ammunition management capability and recommendations to improve it further and to articulate options for clear, well-identified and realistic benchmarks that could serve in guiding the Council in its review of the arms embargo measures in the light of progress achieved to date and compliance with the resolution, and particularly its consideration of possible modification, suspension or lifting of those measures.

Programme of work

Objective

188. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Somalia, which includes an asset freeze, a travel ban, targeted and territorial arms embargoes, a charcoal ban and an improvised explosive device components ban.

Strategy

189. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee pursuant to resolution [751 \(1992\)](#) concerning Somalia.
190. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

External factors for 2023

191. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.
192. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member

States, INTERPOL, IGAD, the African Union, the European Union and the European Organization for the Safety of Air Navigation. The Panel of Experts has also cooperated with the African Union Military Observer Mission in Somalia in the past and will cooperate with the African Union Transition Mission in Somalia going forward.

193. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates, among others, with the World Bank, IMF, ICAO, the United Nations Assistance Mission in Somalia (UNSOM), the United Nations Support Office in Somalia (UNSOS), the United Nations Office at Nairobi, UNODC and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel of Experts cooperates with the Department of Safety and Security and security teams of the United Nations Office at Nairobi, UNSOM, UNSOS and UNDP.

Programme performance in 2021

Analysis of the revenue sources of Al-Shabaab

194. In 2021, the Panel continued to investigate Al-Shabaab's revenue sources, including through taxation and extortion. For the first time, the Panel was able to obtain information from Somali mobile-money operators and banks used by Al-Shabaab to move and store its financial resources. This enabled the Security Council to further focus the Somalia sanctions regime on degrading Al-Shabaab by targeting its illicit finances.
195. The above-mentioned work contributed to the Security Council adjusting the sanctions regime, which met the planned target of the Council being enabled to take informed follow-up action on alleged violations of the sanctions measures, particularly the asset freeze. Progress towards the objective is presented in the performance measure below (see table 55).

Table 55
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Panel starts investigations of Al-Shabaab's revenue sources, as tasked by the Security Council	Security Council receives a comprehensive overview of Al-Shabaab's revenue sources from the Panel of Experts	Security Council refines the sanctions regime, with a particular focus on degrading Al-Shabaab, including by targeting its illicit finances

Planned result for 2023

Enhanced capacity of the Security Council, the Sanctions Committee and Member States to counter Al-Shabaab financing

Programme performance in 2021 and target for 2023

196. The mission's work contributed to the implementation of the sanctions regime concerning Somalia, which met the planned target of the Council receiving the information needed to adjust the sanctions regime, with the aim of reducing Al-Shabaab's revenues.

Lessons learned and planned change

197. The lesson learned for the Panel of Experts was the need to adapt its information-gathering and investigative working methods owing to COVID-19 travel restrictions. In applying the lesson, the Panel will increase its use of relevant communication technologies to conduct research, including by using United Nations-procured databases and subscriptions.

198. This work is expected to contribute to ensuring the full implementation of the sanctions regime concerning Somalia. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 56).

Table 56
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Panel starts investigations of Al-Shabaab's revenue sources, as tasked by the Security Council	Security Council receives a comprehensive overview of Al-Shabaab's revenue sources from the Panel of Experts	Security Council receives a detailed analysis of Al-Shabaab's revenue sources and specific recommendations on how to reduce the revenues of Al-Shabaab, as part of a "disruption plan" developed with the Federal Government of Somalia and UNODC; and the Council receives the information needed to adjust the sanctions regime	Security Council adjusts the sanctions regime to counter Al-Shabaab financing and refines the Panel's mandate in this area, based on recommendations from the Panel, as well as the plan to disrupt Al-Shabaab's finances	The Panel focuses on Al-Shabaab's use of Somalia's banking system and the Committee designates individuals involved in the financing of the group

Deliverables

199. Table 57 lists all deliverables of the mission.

Table 57
Deliverables for the period 2021–2023, by category and subcategory

Proposed 2023	-	-	-	-	-	-	1	-	1	-	1	2	-	4	-	6	
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	

^a Other level, unless otherwise stated.

200. The proposed resource requirements for the Panel of Experts on Somalia for 2023 amount to \$1,858,900 (net of staff assessment) and would provide for salaries and common staff costs (\$400,600) for the continuation of six positions (1 P-3, 1 General service and 4 Local level) to provide substantive, administrative, security and logistical support in relation to the sanctions regime; and operational costs (\$1,458,300) comprising expert fees (\$987,700) and travel (\$208,900) of the six members of the Panel, official travel of staff (\$22,600) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical, and other supplies, services and equipment (\$239,100).
201. For 2023, no change is proposed to the number and level of positions for the Panel of Experts on Somalia. A five per cent vacancy rate has been applied to international staff costs, while national staff costs are based on the assumption of full incumbency.
202. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to lower requirements for experts' fees owing to a change in the composition of the Panel. The decrease is offset in part by the higher requirements for national staff owing to the application of the assumption of full incumbency compared with the five per cent applied in 2022.

13. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction

(\$3,135,500)

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

203. The special political mission in support of the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction is responsible for the provision of substantive, administrative and logistical support to assist the Committee in achieving the aims of the resolution. The mandate derives from Security Council resolution 1540 (2004) and from subsequent Council resolutions, including resolutions 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012), 2325 (2016) and 2572 (2021). The Committee's mandate was extended until 30 November 2022 in Council resolution 2622 (2022).
204. The Security Council has repeatedly reaffirmed that the proliferation of nuclear, chemical and biological weapons, as well as their means of delivery, constitute a threat to international peace and security. By its resolution 1540 (2004), acting under Chapter VII of the Charter of the United Nations, the Council decided that all Member States should refrain from providing any form of support to non-State actors that attempt to develop, acquire, manufacture, possess, transport, transfer or use nuclear, chemical or biological weapons and their means of delivery. In addition, all States, in accordance with their national procedures, were requested to adopt and enforce appropriate effective laws that prohibit any non-State actor from engaging in such activities, in particular for terrorist purposes, and to take and enforce effective measures to establish domestic controls to prevent the proliferation of nuclear, chemical or biological weapons and their means of delivery, including by establishing appropriate controls over related materials.
205. The mission considers that Member States' national efforts to implement resolution 1540 (2004) are the cornerstone of the 1540 architecture. In cooperation with the Committee and relevant international, regional and subregional organizations, the mission continues, as its top priority, to assist interested Member States in their national implementation efforts through country-specific visits and dialogues, national round tables and peer reviews, with the objective of building capacity, facilitating technical assistance and identifying and disseminating effective practices for the implementation of resolution 1540 (2004).
206. The mission supports the activities of the Committee relating to the implementation of resolution 1540 (2004) through the organization of regional and subregional workshops on the implementation of the resolution and through country-specific missions and activities; by strengthening the cooperation between international and regional bodies through the organization of joint meetings on cooperation in promoting the aims of the resolution; and by facilitating effective partnerships with civil society and the private sector.
207. In its resolution 1977 (2011), the Security Council encouraged the Committee to enhance cooperation and information-sharing with relevant international, regional and subregional organizations on technical assistance and all other issues of relevance for the implementation of resolution 1540 (2004). The mission promotes such cooperation by working together with these organizations to exchange information and identify synergies that can enhance implementation of the resolution for the benefit of their respective Member States.

208. Security Council resolution [1540 \(2004\)](#) is an integral element of the international non-proliferation regime. It strengthens the regime by making important requirements of other relevant international instruments applicable to all Member States with respect to actions by non-State actors. It also requires Member States to implement robust domestic controls on materials related to weapons of mass destruction and their means of delivery in a manner absent from other international instruments.

Programme of work

Objective

209. The objective, to which this mission contributes, is to prevent non-State actors from developing, acquiring, manufacturing, possessing, transporting, transferring or using nuclear, chemical or biological weapons and their means of delivery.

Strategy

210. To contribute to the objective, the mission will:
- (a) Facilitate assistance to Member States, upon their request, which includes, inter alia, support for national reviews of the status of implementation of resolution [1540 \(2004\)](#), support for the development of national implementation action plans, capacity-building of government officials and national outreach activities to sensitize key stakeholders relevant to the implementation of resolution [1540 \(2004\)](#);
 - (b) Promote regional cooperation on the implementation of resolution [1540 \(2004\)](#) by conducting regional and subregional activities including, inter alia, regional training for points of contact for resolution [1540 \(2004\)](#), peer review exercises relating to the resolution, and regional outreach workshops for Governments and civil society, which will be delivered in cooperation with relevant regional and subregional organizations as the mission continues to support the Committee's efforts to strengthen its relations with these organizations, as directed in resolution [1977 \(2011\)](#);
 - (c) Follow up on the result of the comprehensive review of the status of implementation of resolution [1540 \(2004\)](#). The review, mandated by the Security Council in its resolution [1977 \(2011\)](#), is aimed at assessing the implementation of the obligations under resolution [1540 \(2004\)](#) and providing recommendations for the Council to consider when renewing the mandate of the Committee established pursuant to resolution [1540 \(2004\)](#). The review, which was originally planned to be completed in 2020, was postponed to 2022 owing to the COVID-19 pandemic. The mission will conduct outreach activities to raise visibility of the outcome of the review, develop projects supporting the implementation of the recommendations of the review and mobilize resources to effectively support the renewed mandate of the Committee.
211. The above-mentioned work is expected to result in:
- (a) Enhanced national capacity to implement the obligations under resolution [1540 \(2004\)](#);
 - (b) An increased number of reports and national implementation action plans submitted to the Committee;
 - (c) Increased awareness and visibility of resolution [1540 \(2004\)](#) and the risks posed by non-State actors acquiring access to weapons of mass destruction and their means of delivery;
 - (d) Increased cooperation between regional peers in implementing resolution [1540 \(2004\)](#);
 - (e) The successful implementation of the recommendations adopted in the Committee's report on its comprehensive review of the status of implementation of resolution [1540 \(2004\)](#).

External factors for 2023

212. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The proliferation of weapons of mass destruction and their means of delivery to non-State actors remains a threat to international peace and security;
 - (b) The political environment in the Security Council continues to enable the Committee to reach consensus on the implementation of planned activities;
 - (c) Member States continue to cooperate with the Committee;
 - (d) Member States will have increased need for assistance to comply with their obligations under resolution 1540 (2004).
213. With regard to cooperation with other entities at the global, regional, national and local levels, the mission cooperates with various Governments, international, regional and subregional organizations and civil society organizations on organizing outreach activities, including industry and academia, to raise awareness of the requirements of resolution 1540 (2004) and to facilitate assistance to Member States upon their request to build capacity and to draft legislation to enhance the implementation of the resolution.
214. With regard to inter-agency coordination and liaison, the mission works closely with other relevant United Nations organizations and agencies, such as UNODC, the Office of Counter-Terrorism, the United Nations Interregional Crime and Justice Research Institute and IAEA, to exchange information on activities relevant to resolution 1540 (2004), to plan and organize joint outreach and capacity-building events and to facilitate assistance to Member States upon their request. The mission also cooperates with the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism and its Executive Directorate, as well as the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning the Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities and the Analytical Support and Sanctions Monitoring Team supporting that Committee.
215. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and is guided by the gender policy of the Office for Disarmament Affairs. It recognizes that different segments of population are affected differently by weapons, including weapons of mass destruction. Disarmament, arms control and non-proliferation efforts are strengthened when they are analysed through a gender lens. Diversity, inclusion and the equal, full and effective participation and leadership by women and men in disarmament are crucial components for international peace and security and the effective operation of the disarmament machinery.
216. Guided by the disability inclusion action plan of the Office for Disarmament Affairs, the mission, in support of the Security Council Committee established pursuant to resolution 1540 (2004), promotes diversity and inclusion and ensures inclusive programming throughout its work, including, inter alia, the inclusion of disability perspectives. The mission promotes an inclusive work environment that enables all stakeholders to participate fully and effectively in disarmament forums and processes. The mission takes an intersectional approach to disability inclusion that considers other related and reinforcing factors, such as gender and age.

Programme performance in 2021

Technical cooperation to enhance the capacity of States to fully implement resolution 1540 (2004)

217. In 2021, the mission continued to support Member States implementing the resolution by facilitating technical assistance, capacity-building and outreach activities. Main projects included activities to match assistance requests by States with offers of assistance by prospective assistance providers, the organization of national capacity-building events and workshops in support of the development of

national implementation action plans and first or additional implementation reports to the Committee. Furthermore, the mission conducted outreach activities to raise awareness of the ongoing comprehensive review for Member States and relevant international, regional and subregional organizations, encouraging them to participate in the discussions and submit inputs to the Committee.

218. The above-mentioned work contributed to the submission of five additional national reports to the Committee in 2021, one of which was a first report. At the end of 2021, 185 out of 193 Member States had submitted at least one national report, as required by resolution [1540 \(2004\)](#). A total of 44 voluntary national implementation action plans were submitted by Member States to the Committee, which did not meet the planned target of 46 action plans. The target was not met despite continued efforts by the mission to provide assistance through virtual platforms and desk-based support, owing to changing national priorities and reallocation of resources of Member States. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: submission of voluntary national implementation action plans by Member States to the Committee

Impact of the pandemic

219. The continuation of the pandemic into 2021 had an impact on the implementation of mandates. National workshops and regional consultations that were planned to take place in 2021 to support the comprehensive review of the status of implementation of resolution [1540 \(2004\)](#) were postponed or cancelled. As a result, the Security Council, in its resolution [2622 \(2022\)](#), decided that the Committee would continue to conduct and complete the review before the expiry of the Committee's extended deadline, 30 November 2022.

Planned result for 2023

Enhanced regional cooperation on implementing resolution [1540 \(2004\)](#)

Programme performance in 2021 and target for 2023

220. The mission's work contributed to the conduct of five regional workshops in which experts of the mission participated and promoted a regional approach towards the full implementation of resolution [1540 \(2004\)](#). This exceeded the planned target of two workshops, originally planned for 2021.

Lessons learned and planned change

221. The lesson for the mission was that ensuring adequate support and follow-up to all Member States' efforts proved crucial in maintaining political will and interest. In applying the lesson, the mission will focus on strengthening its provision of support to regional and subregional organizations and working through regional coordinators to oversee regional cooperation in implementing resolution [1540 \(2004\)](#). Expected progress towards the objective is presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of regional workshops supporting the implementation of resolution 1540 (2004)

Deliverables

222. Table 60 below lists all deliverables of the mission.

Table 60

Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	1	2	2
Security Council:				
1. Annual programme of work of the Committee	1	–	1	1
2. Annual review of the implementation of resolution 1540 (2004)	1	1	1	1
3. Final document on the comprehensive review of the status of implementation of resolution 1540 (2004)	1	–	–	–
Substantive services for meetings (number of meetings)	12	5	10	8
4. Meetings of the Committee	4	5	4	4
5. Meeting of the working groups of the Committee	8	–	6	4
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	15	13	13	13
6. National workshops	12	6	10	10
7. Regional workshops	2	5	2	2
8. Civil society outreach and engagement	1	2	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: full-membership open consultations of the Security Council on resolution 1540 (2004); and advice on the implementation of resolution 1540 (2004) upon request by Member States				
Databases and substantive digital materials: maintenance of database on list of points of contacts, assistance requests received by the Committee, submitted national reports, national implementation action plans and other documentation				
D. Communication deliverables				
Outreach programmes, special events and information materials: organization of and presentations at outreach events on preventing non-State actors from acquiring weapons of mass destruction in the context of resolution 1540 (2004), including addressing civil society, such as academia and industry				
Digital platforms and multimedia content: updates to and maintenance of the website of the Committee				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 61

Financial resources

(Thousands of United States dollars)

Category of expenditure	2021	2022	2023		Variance
	Expenditure	Appropriation	Total requirements	Non-recurrent	2023 vs. 2022 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(3)-(2)

Operational costs	1 705.6	2 237.5	2 369.7	–	132.2
Total (net of staff assessment)	2 508.5	3 137.7	3 135.5	–	(2.2)

Table 62

Positions

	Professional and higher categories								General Service and related categories			National staff				Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service ^a	Total inter-national	National Professional Officer	Local level	United Nations Volunteer	
Approved 2022	–	–	–	–	1	–	2	–	3	–	2	5	–	–	–	5
Proposed 2023	–	–	–	–	1	–	2	–	3	–	2	5	–	–	–	5
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

223. The proposed resource requirements for the mission for 2023 amount to \$3,135,500 (net of staff assessment) and would provide for salaries and common staff costs (\$765,800) for the continuation of five positions (1 P-5, 2 P-3 and 2 General Service) to provide substantive and administrative support to the Committee; and operational costs (\$2,369,700) comprising expert fees (\$1,692,800) and travel (\$157,900) of the nine experts of the Committee, official travel of the members of the Committee and staff (\$131,200), facilities and infrastructure (\$241,000) and communications and information technology (\$146,800).
224. For 2023, no change is proposed to the number and levels of the positions for the mission. A 5 per cent vacancy rate has been applied to the staff costs.
225. The decrease in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable mainly to the lower requirements under civilian personnel costs, owing to the application of a lower percentage of common staff costs based on recent expenditure patterns. The decreased requirements were offset in part by higher requirements for experts' fees owing to a higher average monthly rate based on changes in the composition of the Group as well as for the official travel of Committee staff for outreach activities and for participation in regional meetings and the Committee retreat to assist Member States in fulfilling their obligations under resolution 1540; and higher requirements under communications and information technology to purchase software and hire specialized personnel for the development of an online-based database, as well as for a web collaboration space with the Office for Disarmament Affairs to incorporate materials relating to resolution 1540 (2004) into the Office's disarmament and non-proliferation education dashboard.

Extrabudgetary resources

226. In 2022, extrabudgetary resources in the amount of \$700,000 will be used to organize or support a number of activities in support of resolution [1540 \(2004\)](#), including country visits, the facilitation of the participation of Member States in events related to the resolution and other country-specific activities.
227. In 2023, extrabudgetary resources in the amount of \$1,000,000 are projected to be used to organize or support activities relating to resolution [1540 \(2004\)](#), including country visits, the facilitation of the participation of Member States in events related to the resolution and other country-specific activities.
228. The increase in the estimated extrabudgetary resources to be utilized in 2023 compared with 2022 is due to: (a) an expected increase in Committee activities upon completion of the comprehensive review of the status of implementation of resolution [1540 \(2004\)](#) in 2022 and the adoption of a new resolution extending the mandate of the Committee into 2023; and (b) the recruitment of regional coordinators in Africa and Asia taking the lead in implementing projects in their respective regions.

14. Counter-Terrorism Committee Executive Directorate

(*\$11,570,900*)

Foreword

In 2023, the Counter-Terrorism Committee Executive Directorate will continue to provide tailored, evidence-driven support to the Counter-Terrorism Committee in its efforts to assist Member States to achieve full implementation of the relevant Security Council resolutions on terrorism.

In December 2021, the Security Council unanimously adopted its resolution [2617 \(2021\)](#), in which it renewed the mandate of the Executive Directorate as a special political mission under the policy guidance of the Counter-Terrorism Committee. In adopting the resolution, the Council underscored that the neutral, expert assessment of the implementation of its numerous counter-terrorism resolutions was the core function of the Executive Directorate and stressed several priority thematic focus areas.

On the basis of its assessments, the Executive Directorate harnesses its knowledge of Member States' implementation gaps and challenges to facilitate the provision of technical assistance by its many United Nations and other partners. This work serves not only to strengthen States' implementation of Council resolutions on terrorism but also to promote the global dissemination of good counter-terrorism practices.

The technical expertise of the Executive Directorate enables it to work on a broad spectrum of thematic issues, including, inter alia, law enforcement and border management, human rights, gender, legal and criminal justice, countering the financing of terrorism and countering the use of information and communication technologies for terrorist purposes. Through its engagement with experts of Member States, international and regional organizations, the private sector, academia and civil society, the Executive Directorate also promotes the implementation of Council resolutions on terrorism and identifies key trends and challenges.

As the global terrorism threat has been compounded and complicated by the coronavirus disease (COVID-19) pandemic, the Executive Directorate has been at the forefront of efforts to monitor and assess the impacts of the pandemic on terrorism, counter-terrorism and countering violent extremism, which is conducive to terrorism. Throughout the pandemic, the Executive Directorate has been able to adapt to the changing circumstances in order to ensure business continuity. As the international community continues to prepare for the post-pandemic world and the "next normal", the Executive Directorate remains ready to identify and respond to any shifts, challenges and risks that may arise, as well as to identify forward-looking opportunities, acting in accordance with the One UN approach.

(*Signed*) Weixiong **Chen**

Acting Executive Director, Counter-Terrorism Committee Executive Directorate

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

229. The Counter-Terrorism Committee Executive Directorate is mandated to support the Counter-Terrorism Committee in its work to monitor, promote and facilitate the implementation by Member States of the relevant Security Council resolutions on terrorism. The mandate derives from Council resolution 1373 (2001) and its successor resolutions, including 1377 (2001), 1535 (2004), 1566 (2004), 1624 (2005), 1787 (2007), 1805 (2008) 1963 (2010), 2017 (2011), 2129 (2013), 2133 (2014), 2160 (2014), 2161 (2014), 2170 (2014), 2178 (2014), 2185 (2014), 2195 (2014), 2220 (2015), 2242 (2015), 2253 (2015), 2309 (2016), 2322 (2016), 2331 (2016), 2341 (2017), 2354 (2017), 2368 (2017), 2370 (2017), 2388 (2017), 2395 (2017), 2396 (2017), 2462 (2019), 2482 (2019) and 2617 (2021). In addition, the United Nations Global Counter-Terrorism Strategy sets forth several tasks for the Executive Directorate with respect to facilitating the delivery of technical assistance and promoting good counter-terrorism practices. By its resolution 2617 (2021) on threats to international peace and security caused by terrorist acts, the Council extended the mandate of the Executive Directorate until 31 December 2025.
230. Terrorism has remained a significant threat to international peace and security, even as its scope and intensity have fluctuated and its geographical centre has continued to shift. The loss of territorial control and military decline sustained by Da'esh in the Syrian Arab Republic and Iraq has coincided with the emergence or resurgence of Da'esh and Al-Qaida affiliates in South Asia, South-East Asia, the Sahel region, the Lake Chad Basin and Southern and Eastern Africa. Recent developments in South Asia, particularly in Afghanistan, raise significant concerns about future terrorist threats, including the risk that new safe havens will emerge. The phenomenon of foreign terrorist fighters also remains a significant counter-terrorism challenge for the international community, notwithstanding that the nature of the challenge has evolved significantly. The continued presence, in camps located in the Syrian Arab Republic, of thousands of women and children associated with Da'esh risks fuelling future grievances, given that the women and children have limited access to basic services and are subjected to violence, other human rights abuses, and exposure to Da'esh narratives, as Da'esh seeks to regroup in Iraq and the Syrian Arab Republic. Terrorist networks also continue to be capable of motivating, inspiring and directing actors who are unable to travel to conflict zones to carry out small-scale attacks in their native countries and retain the capacity to strengthen connections with affiliates worldwide.
231. The challenges posed by those who engage in violent extremism conducive to terrorism, including on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief, have also become more complex and increasingly transnational over recent years. There is strong evidence that such groups and individuals are building networks, sharing narratives and seeking ideological inspiration, both online and offline. The Internet has played a major role in their operations by facilitating recruitment, radicalization to violence, and fundraising. Many of these actors draw on a range of interconnected and overlapping international networks, ideas, and personalities and often draw inspiration from the actions and tactics of other attackers with similar motivations. As a consequence of those trends and the more recent impacts of the COVID-19 pandemic, the world is faced with an increasingly diverse, diffuse and decentralized terrorist landscape.
232. Around the globe, terrorists and terrorist groups continue to raise funds through the abuse of legitimate sources, including the exploitation of charitable giving and the proceeds of criminal activity (for example, kidnapping for ransom, extortion and illicit trade and trafficking in cultural property, persons, drugs and small arms and light weapons). Those funds are moved either by "traditional" methods (for example, formal banking systems, informal financial networks, and cash couriers), through the use of emerging payment methods (for example, prepaid cards, mobile wallets and virtual assets, or increasingly, through a sophisticated combination of both methods).

233. Analysis by the Executive Directorate suggests that terrorists continue to seek ways to exploit pandemic-related social and travel restrictions, economic downturns and political instability in order to expand their influence. Terrorist groups continue to seek to exploit this altered threat landscape, notably by disseminating their propaganda over virtual platforms, utilizing alternative funding sources and seeking to fuel social divisions.

Programme of work

Objective

234. The objective, to which this mission contributes, is to enhance and consolidate Member States' counter-terrorism policies, institutions and operations by ensuring the full implementation of Security Council resolution [1373 \(2001\)](#) and other relevant Council resolutions by Member States and to inform the efforts of the United Nations to provide related capacity-building and technical assistance.

Strategy

235. To contribute to the objective, the Executive Directorate will:
- (a) Assist Member States in identifying and addressing implementation and capacity gaps in accordance with the requirements of resolution [1373 \(2001\)](#) and subsequent Security Council resolutions on terrorism, both through assessment visits and through assessment tools such as the electronic detailed implementation survey (e-DIS) and the overview of implementation assessment, and make technical recommendations to Member States on ways to strengthen their implementation of the relevant resolutions. The Executive Directorate will engage closely with the Office of Counter-Terrorism and other partners to facilitate the delivery of technical assistance aimed at implementing the recommendations of the Counter-Terrorism Committee;
 - (b) Identify the short-term and long-term impacts of the COVID-19 pandemic on the ability of Member States to implement resolution [1373 \(2001\)](#) and subsequent Council resolutions on terrorism. This work will be mainstreamed into the Executive Directorate's regular assessment work, which will identify any technical assistance needed by Member States to respond to the ways in which terrorists have exploited the pandemic to further their purposes;
 - (c) Strengthen and build partnerships with the member entities of the United Nations Global Counter-Terrorism Coordination Compact, international and regional organizations, academia, civil society and the private sector. The Executive Directorate will also continue to prioritize relations and partnerships with other relevant United Nations entities, using its comparative advantage as the expert assessment body for the Security Council and the Counter-Terrorism Committee. The Directorate's technical expertise will contribute to the overall capacity-building efforts of the United Nations system;
 - (d) Draft analytical materials, reference tools and guidelines and promote the relevant international standards and codes and best practices.
236. The above-mentioned work is expected to result in the strengthening of Member States' capacities to:
- (a) Combat terrorism and achieve the full implementation of resolution [1373 \(2001\)](#) and other relevant resolutions;
 - (b) Build resilience to terrorism and violent extremism, which is conducive to terrorism among all sectors of society;
 - (c) Operationalize their obligations pursuant to resolution [1373 \(2001\)](#) by facilitating acceptance and understanding of the international best practices, techniques and tools available to combat terrorism.

External factors for 2023

237. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The consent of Member States to receive assessment visits;
 - (b) The ability to organize and conduct visits in accordance with United Nations safety and security measures.
238. With respect to cooperation with other entities at the global, regional, national and local levels, the Executive Directorate will continue to develop or strengthen partnerships aimed at assisting States to, inter alia, counter the financing of terrorism; counter online terrorist content; protect critical infrastructure and “soft” targets against terrorist attacks; and deploy biometric capabilities. The Executive Directorate will also continue to leverage its Global Counter-Terrorism Research Network in order to bring together policymakers and researchers from around the world and will continue to engage and enhance its partnerships with international, regional and subregional organizations, civil society organizations, think tanks and academic organizations in order to assist the Committee in identifying national, regional and thematic challenges, developments and trends.
239. With respect to inter-agency coordination and liaison, the Executive Directorate will continue to work closely with other United Nations entities, including within the framework of the United Nations Global Counter-Terrorism Coordination Compact, to facilitate, through its expertise and recommendations, the effective delivery of technical assistance and capacity-building to Member States. The Directorate will continue to collaborate with the Office of Counter-Terrorism and the UNODC on relevant issues, including assisting States in developing and implementing strategies for the prosecution, rehabilitation and reintegration of suspected terrorists, including foreign terrorist fighters and associated individuals; strengthen their border management and law enforcement capabilities, including by developing critical tools such as terrorist watch lists, biometrics, advance passenger information and passenger name records systems; prevent terrorists from accessing weapons and explosives; facilitate the use and admissibility of information obtained by the military as evidence; strengthen their international judicial cooperation; strengthen their capacity to counter the financing of terrorism; and enhance their capacities to address challenges relating to data protection and counter-terrorism. The Executive Directorate will continue to work closely with other Security Council subsidiary bodies and their expert groups to enhance information-sharing; plan and organize joint special meetings and coordinate visits to Member States; and cooperate in other ways to assess Member States’ implementation of the relevant Council resolutions. The Directorate will also continue to strengthen its coordination with regional organizations such as the Organization for Security and Cooperation in Europe and the Commonwealth of Independent States, as well as with specialized bodies such as the Financial Action Task Force, Financial Action Task Force-style regional bodies, ICAO and INTERPOL.
240. The Executive Directorate continues to strengthen its focus on the gender dimensions of counter-terrorism. This includes focusing on women and girls as victims of terrorism; women as perpetrators, facilitators and supporters of terrorism; women as agents in preventing and countering terrorism and violent extremism; and the differential impact of counter-terrorism strategies on women and women’s rights. It should also be stressed that incorporating the gender perspective means focusing not only on the roles of women but also on the roles of men, masculinities and structural gender inequality. The Executive Directorate publishes focused reports on the gender dimensions of terrorism and also integrates the gender perspective into country assessment activities conducted on behalf of the Counter-Terrorism Committee. In some cases, this has been done through the participation of the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) in the assessment team. The Directorate also co-chairs the United Nations Global Counter-Terrorism Coordination Compact Working Group on Adopting a Gender-Sensitive Approach to Preventing and Countering Terrorism.

Programme performance in 2021

Assessing and monitoring Member States' implementation of resolution 1373 (2001) and subsequent resolutions on counter-terrorism

241. In 2021, the Executive Directorate, acting on behalf of the Committee, conducted 13 virtual components of hybrid visits to Member States, against a planned target of 15 visits, to assess their implementation of resolution 1373 (2001) and subsequent Security Council resolutions on terrorism. During 2021, two additional Member States (Poland and the Philippines) briefed the Committee on their efforts to implement the recommendations contained in the Committee's visit reports. The Executive Directorate also conducted the first of the new round of desk-based assessments using the new e-DIS tool, submitting 10 files to the Committee in 2021. During the first half of the year, the Directorate used the detailed implementation survey data from the previous round of stocktaking, completed in 2020, to produce the two global implementation surveys.
242. In 2021, the Executive Directorate issued seven publications as part of its efforts to identify trends relating to terrorism and counter-terrorism and provide guidance on practical ways for Member States to implement the relevant Security Council resolutions. The publications covered a broad range of topics, including the impacts of the COVID-19 pandemic on terrorism, counter-terrorism and countering violent extremism, and biometrics and counter-terrorism. Both the visit reports and the desk-based assessments include recommendations on ways for Member States to strengthen their implementation of the relevant resolutions and also identify technical assistance needs. To facilitate the delivery of technical assistance by its implementing partners, the Executive Directorate shared a further five country visit reports with its partners. Moreover, at the end of 2021, a total of 705 high-priority technical assistance needs from 42 recently visited States had been uploaded into the Global Compact matrix. Progress towards the objective is presented in the performance measure below (see figure V).

Figure V

Performance measure: country assessment reports and detailed implementation surveys and overviews of implementation assessments

Impact of the pandemic

243. The continuation of the pandemic into 2021 had an impact on the implementation of mandates, affecting the ability of the Executive Directorate to conduct in-person assessment visits on behalf of the Counter-Terrorism Committee. In response to those challenges, the Directorate continued to perform its assessment function virtually in accordance with the "Procedures for conducting hybrid assessment visits to some Member States pro tempore", which were adopted by the Committee in November 2020 and revised in June 2021. The Executive Directorate was thus able to conduct the virtual components of hybrid visits to 13 Member States in 2021. The total number of assessment visits conducted compares favourably with the total of 15 assessment visits conducted in 2018 and the total of 16 visits conducted in 2019. The in-person physical components of the hybrid visits will be conducted when circumstances permit. The Directorate's other assessment work, such as its publication of analytical briefs and trends reports, continued during the pandemic. However, the data

upon which this technical and analytical work depends rely on the Directorate's assessments and its ability to engage in dialogue with Member States within the framework of on-site visits. The resumption of on-site assessment missions will therefore be critical to ensuring that the Directorate's data remain accurate and up to date.

Planned results for 2023

Result 1: assisting Member States in identifying and addressing implementation and capacity gaps related to resolution 1373 (2001) and subsequent Security Council resolutions on counter-terrorism

Programme performance in 2021 and target for 2023

244. The Executive Directorate's work contributed to the identification of capacity gaps in the implementation of resolution 1373 (2001) and subsequent Security Council resolutions by the 13 Member States that hosted the virtual components of hybrid visits and the 10 Member States that were subject to the new e-DIS assessment tool. This did not meet the planned target of 15 assessment visits in 2021. The Executive Directorate fell just short of the target owing to the complex challenges involved in organizing the virtual components of the visits. Although some States enthusiastically embraced the experimental hybrid methodology, others expressed a preference to defer their assessments until in-person visits once more became possible.
245. The Executive Directorate reported in the previous budget fascicle that more realistic planning was necessary for the completion of desk review assessments, in view of the growing number of counter-terrorism-related resolutions adopted by the Security Council in recent years and the consequential increase in substantive questions included in the assessments. As a result, the Directorate's new e-DIS assessment tool has been designed as a "living document". After the initial assessment has been completed, the e-DIS can be updated periodically as circumstances require, thereby ensuring that the Directorate's empirical data remain up to date. The new tool also better reflects the additional data acquired from visited States and more seamlessly integrates the recommendations made during on-site assessment visits. Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure VI).

Figure VI

Performance measure: number of Member States receiving assessment visits

Result 2: better alignment of United Nations technical assistance and capacity-building with implementation and capacity gaps identified by the Counter-Terrorism Committee Executive Directorate, supporting balanced implementation of the United Nations Global Counter-Terrorism Strategy

246. The Executive Directorate's work contributed to balanced implementation of the United Nations Global Counter-Terrorism Strategy, which exceeded the planned target of 22 capacity-building workshops, meetings and events to which the Directorate contributed expertise, reaching an actual

total of 25. The virtual nature of work conducted during 2021 allowed the Directorate to participate in more workshops, meetings and events than initially anticipated.

247. In view of the expected gradual return to in-person meetings and the continuation of hybrid or virtual meetings, the Executive Directorate expects its work in this area in 2023 to continue along a similar trajectory. Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure VII).

Figure VII

Performance measure: number of capacity-building workshops, meetings and events to which the Counter-Terrorism Committee Executive Directorate contributed expertise

Result 3: identification of trends and provision of advice on practical ways for Member States to implement resolution 1373 (2001) and subsequent Security Council resolutions

248. The mission's work contributed to the provision of advice to the Counter-Terrorism Committee on practical ways for Member States to implement resolutions [1373 \(2001\)](#), [1624 \(2005\)](#), [2178 \(2014\)](#) and other relevant resolutions. Seven publications were issued, which exceeded the planned target of five guiding principles, compendiums of best practices or other practical guides developed for Member States to help strengthen their compliance with their obligations pursuant to the relevant Security Council resolutions on terrorism.

Lessons learned and planned change

249. The lesson for the Executive Directorate was the need to integrate more regional diversity into its data sources in order to better understand and analyse counter-terrorism and terrorism-related issues and developments around the world. The Executive Directorate has strengthened its data sources by incorporating more regions, country visits and partner organizations, but recognizes that there remains room for improvement. In applying the lesson, the Directorate will continue to develop a systematic approach in identifying counter-terrorism and terrorism trends, issues and developments, while simultaneously expanding its geographical outreach in order to further strengthen its data sources.
250. This work is expected to contribute to the identification of trends and the provision of practical guidance through the development of 10 Executive Directorate publications, guiding principles, compendiums of good practices or other practical guides to help Member States strengthen their compliance with their obligations pursuant to the relevant Security Council resolutions. Expected progress towards the objective is presented in the performance measure below (see figure VIII).

Figure VIII

Performance measure: number of technical materials providing guidance to Member States on the implementation of relevant Security Council resolutions

Deliverables

251. Table 63 below lists all deliverables of the Executive Directorate.

Table 63

Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies

^a Comprising one Principal level and seven Other level.

252. The proposed resource requirements for the Counter-Terrorism Committee Executive Directorate for 2023 amount to \$11,570,900 and would provide for salaries and common staff costs (\$9,613,100) for the continuation of 52 positions (1 Assistant Secretary-General, 1 D-2, 2 D-1, 9 P-5, 20 P-4, 8 P-3, 3 P-2 and 8 General Service) to provide substantive support to the Executive Directorate, and operational costs (\$1,957,800) comprising official travel of staff of the Executive Directorate (\$836,000), facilities and infrastructure (\$904,200), information and communication technologies (\$206,900), and other supplies, services and equipment (\$10,700).
253. For 2023, no change is proposed to the number and levels of the positions for the Executive Directorate. A vacancy rate of 5 per cent has been applied to the staff costs.
254. The increase in the requirements proposed for 2023 compared with the appropriation for 2022 is attributable primarily to higher requirements under civilian personnel costs owing to the application of the updated higher salary rates.

Extrabudgetary resources

255. In 2022, extrabudgetary resources in the estimated amount of \$1,134,600 will be used to support the activities and relevant initiatives aimed at promoting the implementation of resolutions [1373 \(2001\)](#), [1624 \(2005\)](#), [2178 \(2014\)](#), [2396 \(2017\)](#), [2462 \(2019\)](#), [2482 \(2019\)](#) and [2617 \(2021\)](#).

256. In 2023, extrabudgetary resources in the estimated amount of \$781,000 will be used to organize several new and follow-up workshops in various regions of the world in accordance with the work programme approved by the Counter-Terrorism Committee; conduct research on strategic, political, legal, institutional and security issues relating to information and communications technology (ICT) and counter-terrorism; and support international cooperation in counter-terrorism.
257. The decrease in the estimated extrabudgetary resources to be utilized in 2023 compared with 2022 is due to the completion of three projects in 2022.

15. United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant

(\$25,632,300)

Foreword

In 2021, the United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD) fully resumed its field activities, leading to the accomplishment of several key strategic and operational milestones, including the completion of three case briefs in relation to core investigative priorities linked to crimes committed by Islamic State in Iraq and the Levant (ISIL) in Sinjar, Tikrit and Badush. The team also continued to augment and diversify its evidence holdings, notably through the widespread implementation of the digitization and archiving of digital and documentary materials relating to ISIL crimes, in cooperation with the Iraqi judiciary and security services. The team also increased its mass grave excavation and DNA collection activities with the Government of Iraq.

The 2023 budget seeks to reflect the next phase of the Team's investigative work: case-building and enhancing support to domestic authorities in proceedings relating to crimes committed by ISIL (Da'esh). The focus in 2023 will be on using evidence holdings to ensure that those most responsible for these crimes are held accountable. In this regard, the Investigative Team is directing its support efforts more intensively towards the Iraqi judiciary to practically apply international criminal and humanitarian law in case-building efforts.

Throughout, the Investigative Team's engagement with the Iraqi judiciary and several branches of the Government of Iraq, survivor groups, religious authorities and community leaders remains at the heart of its work. Their message remains clear: accountability for crimes committed by Da'esh is paramount and impunity must not persist.

(Signed) Christian **Ritscher**
Special Adviser and Head of the United Nations Investigative Team to
Promote Accountability for Crimes Committed by Da'esh/
Islamic State in Iraq and the Levant

A. Proposed programme plan for 2023 and programme performance in 2021

Overall orientation

Mandates and background

258. The United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD) is responsible for supporting domestic efforts to hold Da'esh accountable for acts that may amount to war crimes, crimes against humanity and genocide by collecting, preserving and storing evidence in Iraq. The mandate is defined in Security Council resolution [2379 \(2017\)](#), which further provides that the Investigative Team must conduct its investigative activities to the highest possible standards, to ensure the broadest possible use before national courts, and complementing investigations being carried out by the Iraqi authorities, or by authorities in third countries upon their request.
259. In addition, the Security Council underlined, through paragraph 3 of its resolution [2379 \(2017\)](#), that the Special Adviser and Head of the Investigative Team will also promote throughout the world, accountability for acts that may amount to war crimes, crimes against humanity or genocide committed by Da'esh, and work with survivors, in a manner consistent with relevant national laws, to ensure that their interests in achieving accountability for Da'esh are fully recognized.
260. In mid-2021, the Investigative Team returned to pre-pandemic working modalities despite persistent challenges owing to COVID-19. In parallel, the practices adopted over the previous year, including the use of technology to overcome constraints posed by the pandemic, such as a web-based application supporting the submission of evidence by survivors and members of affected communities, were institutionalized to ensure that the Team retained the ability to rapidly adjust its approach in the face of future uncertainty. Field-based activities accelerated over this period, resulting in the completion of initial case briefs linked to the Team's investigative work in Sinjar, Tikrit and Mosul (Badush) and the presentation of its findings to the Security Council by the Special Adviser. In cooperation with Iraqi national authorities, the Investigative Team supported mass grave excavations around Sinjar, Ramadi and Badush, as well as the return to and dignified burial of 139 identified remains in Kojo in February and December 2021. Further support was provided to Iraqi authorities through the implementation of the initiative to digitize and archive evidence relating to ISIL as well as the delivery of a five-month training programme to 29 Iraqi investigative judges, prosecutors and investigators in the area of international criminal and humanitarian law.
261. On 18 September 2021, in its resolution [2597 \(2021\)](#), the Security Council, at the request of the Government of Iraq, decided unanimously to extend the mandate of the Investigative Team until 17 September 2022, renewing its endorsement of the unique partnership developed among national authorities, the international community and affected communities in pursuit of accountability.

Programme of work

Objective

262. The objective, to which the Investigative Team contributes, is to hold members of Da'esh accountable for acts that amount to war crimes, crimes against humanity or genocide, as proved in fair and independent criminal proceedings.

Strategy

263. To contribute to the objective, the Investigative Team will:
- (a) Continue to collect documentary, forensic and testimonial evidence, in line with its investigative strategy, and in accordance with Security Council resolution 2379 (2017), as reaffirmed in Council resolution 2597 (2021) and the terms of reference regarding the activities of the Investigative Team in Iraq;
 - (b) Further engage with survivors, affected communities, key Iraqi national authorities and other relevant partners in order to identify evidentiary material relevant to its mandate and ensure its effective incorporation into the central evidence management system of the Investigative Team;
 - (c) Further incorporate innovative approaches and the use of technology into the evidence-collection and analysis activities and expand its capacity to digitize, process and analyse large quantities of a wide range of battlefield evidence;
 - (d) Expand the support provided to key national authorities, including the Iraqi judiciary, security services, the Mass Graves Directorate of the Martyrs Foundation and the Medico-Legal Directorate of the Ministry of Health of Iraq. Assistance will also be provided to relevant authorities of the Kurdistan Regional Government;
 - (e) Strengthen its ability to engage with the most vulnerable witnesses and survivors of crimes committed by Da'esh;
 - (f) Ensure that evidence-collection activities continue to support three mutually supportive outputs: thematic case briefs; case files supporting individual prosecutions; and the provision of rapid and targeted support to ongoing national proceedings;
 - (g) Increase capacity to provide analytical and investigative support to third countries that request assistance in their national investigations and prosecutions relating to Da'esh.
264. The above-mentioned work is expected to result in:
- (a) The increased availability of evidence collected by the Investigative Team in line with international standards for use in domestic proceedings brought against Da'esh members for crimes committed in Iraq;
 - (b) Continued expansion of the evidentiary data lake of the Investigative Team, which will allow for the further strengthening of cases files in relation to individual members of Da'esh;
 - (c) Harnessing an advanced evidence analysis platform to analyse large volumes of electronic and multimedia data, enabling facial detection and recognition across large volumes of image and video data, machine translation, image and video indexing and automatic voice recognition;
 - (d) Increased collection of forensic evidence from mass grave sites in Iraq in accordance with international standards;
 - (e) The collection of further testimonial evidence from those who have not previously come forward with their accounts to any accountability mechanisms.

External factors for 2023

265. With regard to the external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) The international community continues to support the mandate and activities of the Investigative Team;

- (b) The Government of Iraq and the Kurdistan Regional Government continue to provide strong cooperation and support with respect to the work of the Investigative Team, as facilitated by the national coordinating committee designated by the Government;
 - (c) The Investigative Team continues to receive strong support for its work among religious actors, community leaders and survivor groups;
 - (d) Da'esh remains a security threat within Iraq notwithstanding that the security situation remains broadly permissive with respect to the field investigative activities of the Investigative Team, allowing access to affected populations, key stakeholders and crime scenes, with appropriate security measures taken;
 - (e) Sociopolitical developments will continue to inform planning assumptions and the Team will adapt its activities as necessary.
266. With regard to inter-agency coordination and liaison, UNAMI will remain an important operational partner for the Investigative Team in 2023. The Investigative Team will also continue to expand its cooperation with other key United Nations entities in order to ensure complementarity of effort and coherence of approach. This will include cooperation with United Nations entities in order to obtain information and material relevant to its investigative priorities, such as the Security Council Committee pursuant to resolutions [1267 \(1999\)](#), [1989 \(2011\)](#) and [2253 \(2015\)](#) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, OHCHR and the United Nations Institute for Training and Research, in particular the Operational Satellite Applications Programme.
267. In order to strengthen its ability to align its work in the field of accountability with the activities of other United Nations entities, the Investigative Team will continue to engage proactively with the Counter-Terrorism Committee and Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism, UNODC, the Office of the Special Adviser to the Secretary-General on the Prevention of Genocide, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict and the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict. The Investigative Team will also continue to draw on the knowledge and expertise of the Mine Action Service.
268. With regard to cooperation with other entities at the global, regional, national and local levels, the Investigative Team will also continue to prioritize the development of relationships with international and regional organizations capable of providing support to the implementation of its mandate. Focus will be placed on entities that may serve as an effective entry point for cooperation with relevant national authorities that are in a position to provide information of relevance to its mandate, as well as those that are best placed to provide appropriate legal assistance and capacity-building to the Government of Iraq in order to strengthen its courts and judicial system, pursuant to paragraph 9 of resolution [2379 \(2017\)](#). Key entities in that regard will include the European Union, the African Union, the League of Arab States, the Organization of Islamic Cooperation, INTERPOL and the International Commission on Missing Persons.
269. In accordance with the terms of reference approved by the Security Council regarding its activities in Iraq, the Investigative Team will also continue to strengthen relationships with non-governmental organizations and private sector bodies, with a view to benefiting from their expertise, gaining access to relevant evidentiary material and ensuring that the voices of all relevant parties are heard.
270. The Investigative Team integrates a gender perspective in its operational activities, deliverables and results, as appropriate, in two ways:
- (a) Through the gender parity working group, which was established to work on internal issues related to gender parity, from recruitment to a conducive work environment and an empowering work culture. The working group includes members from all sections and levels of UNITAD and meets on a monthly basis to track the progress under the gender parity strategy. The Team will focus on closing the gender parity gap for levels with high discrepancy;

- (b) Through the Gender Crimes and Children Unit, which is part of the Office of Field Investigations and is a thematic team that focuses on sexual and gender-based violence and crimes against children. The Unit integrates a gender perspective in the work of every investigation unit, therefore informing analysis, investigations and the drafting of case briefs with a gender perspective. This allows it to engage and cooperate at all stages of the investigation and gain an in-depth understanding of how Da'esh has used gender-based violence and violence against children, as well as how its crimes have affected men, women and children from different communities.
271. In line with the United Nations Disability Inclusion Strategy, the Investigative Team has a disability inclusion strategy in place that is tailored to its mandate and working environment in Iraq. The strategy is reflected in section workplans, all strategic planning documents and strategic planning indicators. Recruitment activities include outreach and consultations with Iraqi disability organizations. As such, the strategy has seen implementation in the area of accessibility of facilities, notably at the headquarters in Baghdad, through ramps, elevators and accessible bathrooms. Furthermore, the Team is currently exploring collaboration with the International Organization for Migration in Iraq, which published a report on the barriers, challenges and priorities of persons with disabilities and the organizations that represent them in Iraq. UNITAD is also actively reaching out to groups representing persons with disabilities to encourage potential candidates to apply for vacancies.

Evaluation activities

272. The Investigative Team commenced preparations in the fourth quarter of 2021 for a UNITAD strategic retreat, which was held in the first quarter of 2022, with a view to assessing progress against the mandate and deliberating on the approach going forward to ensure that lessons learned and best practice are incorporated into an integrated investigative approach. The retreat, which included consultations with staff, informed the 2023 budget process and programme plan. The Investigative Team also held two workshops with national counterparts in 2021. The first one was held in June with the national coordinating committee with a view to facilitating the work of UNITAD in Iraq, and with the Mass Graves Directorate and the Medico-Legal Directorate, to look at the lessons learned from over one year of joint excavation activities. At the second workshop, which was held with the national coordinating committee, the mechanism of collaboration was reviewed and additional areas of cooperation were identified to establish enhanced information exchange practices.
273. The Office of Internal Oversight Services conducted an audit of the Investigative Team's data governance and privacy management in the fourth quarter of 2021 and will conduct an audit of ICT operations and security in 2023, which will include an in-depth review of the supporting ICT infrastructure.

Programme performance in 2021

International-standard evidence available to support domestic proceedings with respect to crimes committed by Da'esh

274. In 2021, UNITAD continued to implement the agreed mass graves investigations strategy with the national coordinating committee, guiding collective work in this area. In coordination with Iraqi authorities, the Investigative Team supported the assessment, exploration and excavation of the Badush Prison and northern Ramadi mass grave sites, bringing the total number of excavated sites supported by UNITAD to over 30.
275. The Team continued to build upon the extensive collection of testimonial evidence in line with its initial investigative priorities and witness protection strategy. It expanded the collection of witness testimony in new priority areas, including crimes committed against the Christian and Sunni communities as well as victims and witnesses linked to chemical weapon attacks launched by Da'esh.

276. Based on both its extensive independent evidence-collection practices and its provision of support to Iraqi authorities in the collection of evidence in line with international standards, the Investigative Team was able to consolidate a diverse range of evidence collected to complete three case briefs in 2021. In parallel, the Team continued to strengthen its ability to provide support to ongoing domestic proceedings in a total of 14 States that requested the Team's assistance with respect to ongoing investigations. In particular, this support helped German authorities in their successful prosecution of a Da'esh member for genocide, the first such prosecution worldwide. Progress towards the objective is presented in the performance measure below (see table 66).

Table 66

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>
Initial forensic, testimonial, digital and documentary evidentiary material and evidentiary analyses made available for use by domestic authorities and used to fill evidentiary gaps in domestic proceedings	Domestic proceedings taken forward in Member States with respect to Da'esh crimes, on the basis of international-standard evidentiary material and comprehensive analyses produced by the Investigative Team	Completion of initial draft case briefs linked to initial investigative priorities; and presentation of findings to the Security Council and sharing for use in domestic proceedings in third countries. Initiation of field-based activities for remaining investigative priorities, resulting in the independent collection of additional evidence

Impact of the pandemic

277. The continuation of the pandemic into 2021 had an impact on the implementation of mandates. Meetings and workshops, such as round tables with non-governmental organizations and specific training, continued to be conducted online. Other meetings and capacity-building activities, which included a strong practical aspect or significant engagement with Government counterparts, such as the two workshops mentioned under evaluation activities, or on-site technical training during excavations, were conducted in person in line with preventative measures. While the Investigative Team has remained flexible and innovative to overcome the impact, achieving sustainable advance planning of travel and in-person meetings with a larger participation has remained a challenge in the face of ad hoc restrictions, notably with the spread of new and easily transmissible variants. On the other hand, remote witness interviews were discontinued as much as possible in preference to in-person interviews owing to the sensitive nature of the interviews and also to ensure that effective psychosocial support could be provided on-site. Field-based activities were accelerated with the increased footprint, which allowed for a number of excavations supported by UNITAD, as well as the second return to and dignified burial in the Sinjar village of Kojo in December 2021.

Planned results for 2023**Result 1: finalization of comprehensive thematic case briefs across all investigative priorities****Programme performance in 2021 and target for 2023**

278. The Investigative Team's work contributed to the development of independent investigative case briefs and established clear and convincing evidence that genocide was committed by Da'esh against the Yazidi as a religious group as reported to the Security Council in May 2021. In cooperation with domestic authorities, the Team is providing support to assist such entities in prosecuting members of Da'esh for war crimes, crimes against humanity and genocide. The Team is shifting its focus towards the development of case files, building on completed case briefs. Progress towards the objective and the target for 2023 is presented in the performance measure below (see table 67).

Table 67

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Initial forensic, testimonial, digital and documentary evidentiary material and evidentiary analyses made available for use by domestic authorities and used to fill evidentiary gaps in domestic proceedings	Domestic proceedings taken forward in Member States with respect to Da'esh crimes, on the basis of international-standard evidentiary material and comprehensive analyses produced by the Investigative Team	Completion of draft case briefs linked to initial investigative priorities; and initiation of field-based activities for remaining investigative priorities, resulting in the independent collection of additional evidence	Increased number of proceedings taken forward by domestic authorities seeking to prosecute acts of Da'esh members in Iraq such as war crimes, crimes against humanity and genocide	Finalization of case briefs across all investigative priorities and increased number of proceedings taken forward by domestic authorities Finalization of case files for initial investigative priorities; and case files for remaining investigative priorities are initiated

Result 2: furthering international accountability for members of Da'esh for crimes committed in Iraq through assistance to and information-sharing with third countries and their domestic proceedings

Proposed programme plan for 2023

279. In cooperation with third countries, the Investigative Team is increasingly assisting domestic authorities in their requests for support linked to specific persons of interest or suspects in their investigations and prosecutions. To date, the Investigative Team has processed over 30 requests for assistance or information from 14 Member States and is currently working on 60 active requests.

Lessons learned and planned change

280. The lesson for the mission was that the Investigative Team has the opportunity to support global efforts to hold Da'esh accountable for its crimes committed in Iraq through its evidence holdings. It has become evident that both the opportunity and demand for the provision of targeted support by the Investigative Team is high. Expected progress towards the objective is presented in the performance measure below (see table 68).

Table 68

Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	–	Support to 14 third countries requesting assistance or information related to evidence of international crimes committed by Da'esh in Iraq	Increased processing of requests for information and assistance from third countries in order to contribute to domestic proceedings to hold members of Da'esh accountable for international crimes committed in Iraq	Fully operationalized mechanism for sharing information and providing assistance to third countries that contribute to domestic proceedings holding members of Da'esh accountable for international crimes committed in Iraq

Deliverables

281. Table 69 lists all deliverables of the mission.

Table 69

Deliverables for the period 2021–2023, by category and subcategory

<i>Category and subcategory</i>	<i>2021 planned</i>	<i>2021 actual</i>	<i>2022 planned</i>	<i>2023 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Special Adviser and Head of the Investigative Team for the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	8	13	16	20
3. Seminars aimed at sharing relevant knowledge and technical assistance with national authorities and enhancing their cooperation with the Investigative Team	8	13	16	20
Technical materials (number of materials)	25	23	30	35
4. Reports outlining detailed evidence-based understanding of potential responsibility of members of Da'esh leadership for atrocity crimes, for potential sharing with national authorities and use in criminal proceedings conducted by competent domestic courts	25	23	30	35
C. Substantive deliverables				
Consultation, advice and advocacy: consultation on ensuring complementarity of investigations with those of 7 key judicial criminal courts and 6 national security services; advocacy with 7 primary victims' groups to ensure that the interests of survivors are reflected in accountability efforts; and consultations with witnesses and victims' groups to ensure that they are fully engaged in the work of the Investigative Team.				
Fact-finding, monitoring and investigation missions: investigation missions to collect testimonial, forensic, digital, documentary and other physical evidence; and investigation missions into sexual and gender-based violence.				
Databases and substantive digital materials: centralized evidentiary database.				
D. Communication deliverables				
Outreach programmes, special events and information materials: direct outreach with 12 Member States on Government-provided personnel deployments to support UNITAD in the implementation of its mandate, focusing on the deployment of personnel with specific expertise in forensic genetics, criminal analysis, and investigations, with Arabic-speaking professionals as a particular priority.				
External and media relations: comprehensive media strategy aimed at providing a counter-narrative to online messaging by Da'esh.				
Digital platforms and multimedia content: 2 multimedia evidence visualizations and accompanying videos on 2 of the investigative priorities of UNITAD. These will include the Badush prison massacre in Mosul and the crimes committed by Da'esh against Christian communities across the Ninawa plains.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Table 70

Financial resources

(Thousands of United States dollars)

Change	–	–	–	–	–	–	–	–	–	(1)	–	(1)	2	–	–	1

282. The proposed resource requirements for the Investigative Team for 2023 amount to \$25,632,300 (net of staff assessment) and would provide for salaries and common staff costs (\$18,600,800) for 149 positions (1 Assistant Secretary-General, 2 D-1, 5 P-5, 15 P-4, 17 P-3, 4 P-2, 43 Field Service, 25 National Professional Officers, 29 Local level and 8 United Nations Volunteers) and requirements for 25 Government-provided personnel, as well as operational costs (\$7,031,500) comprising costs for consultants and consulting services (\$77,000), official travel (\$599,700), facilities and infrastructure (\$1,982,800), ground transportation (\$228,300), air operations (200,000), communications and information technology (\$2,599,300), medical (\$154,000), and other supplies, services and equipment (\$1,190,400).
283. Drawing on the experience gained by the Investigative Team through the conduct of its activities in Iraq to date, the Team continues to assess its structure and operations, with a view to ensuring the effective delivery of its mandate with respect to the investigation of Da'esh crimes in a manner consistent with the highest possible standards as required pursuant to paragraph 2 of Security Council resolution 2379 (2017). While cognizant of the comment in paragraph 23 of the report of the Advisory Committee on Administrative and Budgetary Questions (A/76/7/Add.3) in the context of the UNITAD budget for 2022, the following changes are proposed following a detailed workforce planning exercise that was conducted in conjunction with the drafting of the mission concept following the appointment of the new Special Adviser and Head of UNITAD in September 2021.
284. For 2023, the organizational structure and staffing complement reflect the proposed establishment of the Erbil satellite office (establishment of Field Investigation Units 4 and 5) through existing staffing resources, the establishment of two positions, the abolishment of one position, the

reassignment of two positions, the redeployment of seven positions and the conversion of one position.

Office of the Special Adviser

- (a) Redeployment of one backstopping position of Legal Officer (P-4) from New York to Baghdad in the front office of the Office of the Special Adviser in order to meet the increasing demand for legal advice relating to the development of a legal framework to domesticate international crimes in the current penal code and also to provide legal opinion on the increasing number of third-party requests for information from Member States;

Office of Field Investigations

- (b) Redeployment of one position of Investigator (P-4), one position of Investigator (P-3) and one position of Associate Investigator (P-2) from Field Investigation Unit 3 in Dahuk to the newly established Field Investigation Unit 4 in Erbil to support the investigation of crimes committed by Da'esh against the Shabak, Turkmen and Kaka'i ethno-religious minorities, with an additional focus on Da'esh recruitment and use of chemical and biological weapons;
- (c) Redeployment of one position of Associate Investigator (P-2) from Field Investigation Unit 1 in Dahuk to the newly established Field Investigation Unit 5 in Erbil to support the investigation of crimes committed by Da'esh against the Christian community;

Office of the Chief of Staff

- (d) Reassignment of one position of Associate Field Interpreter (National Professional Officer) in Baghdad to an Associate Protocol Officer (National Professional Officer) in Erbil within the Language Services Unit, as a result of the operational expansion of UNITAD into areas in the Kurdistan Region of Iraq, as well as the increased demands in regard to the engagement and liaison with Government counterparts, including the national coordinating committee and the National Operations Centre, which are two of the key counterparts of UNITAD for facilitating operations;
- (e) Abolishment of one position of Human Resources Assistant (Local level) in the Human Resources Unit. After careful review of the human resources workflow and particularly the increased needs, UNITAD plans to enhance the human resources metrics and reporting tools to increase overall efficiency and, in particular, to develop and implement an automatic reporting system tailored to the operational demands. As a result, new functions will be needed, which will require different and more advanced skill sets. It is therefore proposed to abolish one position of Human Resources Assistant (Local level) in the Human Resources Unit;
- (f) Establishment of one position of Associate Human Resources Officer (National Professional Officer) in Baghdad, in combination with the abolishment of the position of Human Resources Assistant (Local level), to enhance the ability of the Human Resources Unit to provide richer human resources metrics and data analytics to senior management, which will enhance its support workforce planning and recruitment strategies, as well as other human resources strategies;
- (g) Conversion of one position of Facilities Management Assistant (Field Service) in mission support to Associate Facilities Management Officer (National Professional Officer) in Baghdad to contribute to the development of local capacity and reap sustainable benefits of local market and technology knowledge;

Kuwait Joint Support Office

- (h) Establishment of one position of Finance Assistant (Local level) in Kuwait as part of an effort of the Secretariat to align the funding sources of the Kuwait Joint Support Office to better reflect the workload and the client base that the Support Office services. Such an exercise is aimed at achieving a more balanced distribution of the workforce of that Support Office among

the special political missions, with proposals being made to abolish six positions at UNAMA and UNAMI and to establish those positions in four other missions, including UNITAD.

Security Section

The proposed staffing changes under the Security Section relate to the proposed establishment of the satellite office in Erbil, which requires additional security posture to meet operational demands, as outlined below.

- (i) Reassignment of one position of Security Information Analyst (Field Service) in the Operations Unit to Security Officer (Field Service) and subsequent redeployment from Baghdad to Erbil;
 - (j) Redeployment of one position of Security Officer (Field Service) in the Administration and Support Unit from Baghdad to Erbil;
 - (k) Redeployment of one position of Field Security Assistant (Local level) in the Administration and Support Unit from Dahuk to Erbil.
285. Vacancy rates of 12 per cent for international positions, 22 per cent for National Professional Officers and 15 per cent for Local level positions have been applied to staff costs. Vacancy rates of 6 per cent and 30 per cent have been applied to the estimates for United Nations Volunteers and Government-provided personnel, respectively.
286. The increased requirements proposed for 2023 compared with the appropriation for 2022 are attributable mainly to: (a) additional requirements under civilian personnel costs owing to the application of lower vacancy rates for all categories of civilian personnel except Government-provided personnel based on the recent incumbency patterns, updated salary rates for national staff and the establishment of a Local level position in the Kuwait Joint Support Office; (b) higher requirements for official travel as the mission has resumed its mandate-related travel activities as a result of the easing of COVID-19 travel restrictions; (c) higher requirements under facilities and infrastructure with respect to the construction of overhead protection for prefabricated offices in accordance with the security risk assessment, and the installation of solar panels; (d) higher requirements under air operations related to the cost-sharing of one fixed-wing aircraft provided by UNAMI; and (e) higher requirements for the maintenance of communications and information technology equipment and support services, as well the acquisition of mandate-critical software. The increased requirements are offset in part by the reduced requirements owing to: (a) lower requirements for the mission subsistence allowance for Government-provided personnel; (b) lower requirements for consultants and consulting services owing to the increased in-house capacity resulting from recent recruitments; (c) the non-acquisition of vehicles given that the mission acquired vehicles in 2021; and (d) reduced requirements for medical services owing to estimated fewer aero-medical evacuations and hospitalization.

Extrabudgetary resources

287. In 2022, it is anticipated that extrabudgetary resources in an amount totalling \$6,650,000 will be utilized to enable the continuation of the Investigative Team's specialized activities in support of the implementation of its mandate. This will include the digitization and digital extraction of evidentiary material held by the Iraqi authorities, comprehensive investigations into mass graves containing the remains of victims of Da'esh, investigations into gender-based crimes and crimes against children committed by the group, capacity development with the Iraqi authorities in case-building and the use of digital forensics, and leveraging information systems and advanced technology to deliver accountability.
288. In 2023, extrabudgetary resources are forecasted to amount to \$3,785,000 and are expected to support the excavation of mass graves and forensic anthropology activities, capacity-building to deliver accountability collaboratively with the Government of Iraq, and investigations into the financing of the international crimes of Da'esh. Additional funding will also be sought in 2022 to ensure the continuation of investigations into crimes against minority groups and the Investigative

Team's witness protection and support services. Fundraising will also be undertaken to allow the Investigative Team to expand into additional areas relevant to its mandate, such as the investigation of cultural heritage crimes and the use of chemical weapons by Da'esh.

289. The decrease in the estimated extrabudgetary resources in 2023 compared with 2022 reflects the substantial resources utilized in the digitization and digital extraction of evidence in 2022, which will not be maintained at the same level in 2023.

Annex I

Summary of follow-up action taken to implement the decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions (A/76/7/Add.3)

The Advisory Committee notes the planned adjustments to the structure of UNITAD, recalls the recent restructuring exercise undertaken at UNITAD in the context of the 2021 programme budget and trusts that there should be a period of stability before further proposals which should be presented with the appropriate level of justifications (para. 23).

The United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/ Islamic State in Iraq and the Levant (UNITAD) anticipates a period of stability in its structure and staffing and remains cognizant of the observations of the Advisory Committee in that regard. Since the submission of the 2021 programme budget, the posture of UNITAD has developed in line with the dynamic investigative environment in which it operates. Of particular note in that regard is the establishment of offices in both Dahuk and Erbil in response to investigative opportunities in northern Iraq coupled with the movement in the focus of the mission from the collection of evidence towards the development of case brief work with the Iraqi judiciary to advance the successful prosecution of crimes committed by Da'esh in Iraq. These and other elements of this dynamic environment, including the engagement of UNITAD with the national coordinating committee, informed the recent workforce planning exercise conducted by the mission, which in turn informs the mission's structure

Proposed programme budget for 2023

Proposed programme budget for 2023

Part II Political affairs

Section 3 Political affairs

Special political missions

Thematic cluster III: regional offices, offices in support of political processes and other missions

Summary

The present report contains the proposed resource requirements for 2023 for 11 special political missions grouped under the thematic cluster of regional offices, offices in support of political processes and other missions.

The proposed resource requirements for 2023 for special political missions grouped under this cluster amount to \$420,213,400 (net of staff assessment).

* A/77/50.

Abbreviations: BINUH, United Nations Integrated Office in Haiti; UNITAMS, United Nations Integrated Transition Assistance Mission in the Sudan; UNOWAS, United Nations Office for West Africa and the Sahel; UNSMIL, United Nations Support Mission in Libya; UNSOM, United Nations Assistance Mission in Somalia.

^a Does not include an amount of \$17,945,500 related to the commitment authority for UNSMIL as approved in General Assembly resolution 76/246 B.

^b “Non-recurrent” requirements are part of the total requirements, which applies to all similar tables in the present report.

2. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2022 or 2023.

II. Special political missions

Cross-cutting information

Gender perspective

3. Special political missions are guided by Security Council resolutions [1325 \(2000\)](#), [1820 \(2008\)](#), [1888 \(2009\)](#), [1889 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#), [2122 \(2013\)](#), [2242 \(2015\)](#), [2467 \(2019\)](#) and [2493 \(2019\)](#), which, together, constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution [75/100](#) on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
4. Specific examples of how special political missions integrate a gender perspective into their operational activities, deliverables and results are given under the individual missions in the present report.

Disability inclusion

5. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

6. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

Impact of the pandemic

7. The continuation of the coronavirus disease (COVID-19) pandemic into 2021 had an impact on the implementation of mandates in the special political missions. Specific examples are provided under the individual missions in the present report.
8. Reflecting the importance of continuous improvement and responding to the needs and requests of Member States, the proposed programme plans for the special political missions for 2023 continue to incorporate lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

1. United Nations Office for West Africa and the Sahel

(\$14,835,200)

Foreword

The West Africa and Sahel region saw a number of positive gains in 2021, including the peaceful holding of elections in Benin, Cabo Verde and the Gambia, and the peaceful resolution of political disagreements through dialogue in Senegal and Togo. However, the region also experienced some setbacks in the consolidation of democratic gains owing to an unprecedented number of unconstitutional changes in Government in 2021 and early in 2022, including in Burkina Faso, Chad, Guinea, Guinea-Bissau and Mali.

On the security front, large-scale attacks by terrorist and armed groups against military and civilian targets continued unabated. During my mission to Burkina Faso and the Lake Chad Basin countries (Cameroon, Chad, the Niger and Nigeria), I witnessed the impact of the deteriorating security situation on populations, as evidenced by the high rates of displacement and the dearth of basic social services in outlying and marginalized regions. This, coupled with the lack of employment opportunities and the negative effects of the coronavirus disease (COVID-19) pandemic, sparked protests in many countries.

In 2023, I intend to continue to utilize my good offices and mediation efforts to contribute to the conduct of peaceful, inclusive and transparent elections in Benin, Guinea-Bissau, Liberia, Mauritania, Nigeria, Sierra Leone and Togo. I also intend to deploy small multidimensional technical teams to these countries during pre-electoral periods to collaborate closely with resident coordinators and the United Nations country teams to carry out early warning assessments, which will inform my good offices.

I will also focus on enhancing partnerships, not only with subregional and regional organizations to conduct joint preventive diplomacy efforts, including throughout electoral periods, but also with United Nations entities in the region to ensure joint analysis and interventions. In addition, I plan to intensify my advocacy and use the mission's convening power to ensure the effective implementation of the United Nations integrated strategy for the Sahel, given the deteriorating security situation in the Sahel region.

(Signed) Annadif Khatir **Mahamat Saleh**
Special Representative of the Secretary-General
United Nations Office for West Africa and the Sahel

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

9. The United Nations Office for West Africa and the Sahel (UNOWAS) is responsible for conflict prevention and ensuring sustainable peace and security in West Africa and the Sahel. The mandate of UNOWAS derives from the exchanges of letters between the Secretary-General and the President of the Security Council (S/2016/88 and S/2016/89, S/2016/1128 and S/2016/1129, and S/2019/1009 and S/2020/85), as well as Security Council resolution 2349 (2017).
10. UNOWAS will continue to monitor political developments, identify emerging peace and security threats and conduct good offices activities to prevent conflict, sustain peace and consolidate peacebuilding efforts and political stability in West African and Sahelian countries; enhance regional and subregional partnerships to address cross-border and cross-cutting peace and security threats in West Africa and the Sahel; support, through political advocacy and convening, the implementation of the United Nations integrated strategy for the Sahel; and promote good governance, respect for the rule of law, human rights and the mainstreaming of gender in conflict prevention, management and resolution. In doing so, it will work closely with regional and subregional entities and will enhance its collaboration across the United Nations system.

Programme of work

Objective

11. The objective, to which this mission contributes, is to achieve peace and security in West Africa and the Sahel.

Strategy

12. To contribute to the objective, the mission will:
 - (a) Strengthen its early warning and conflict prevention, resolution and management action through preventive diplomacy, good offices and political advocacy in close partnership with national and regional partners, with a particular focus on countries that will hold elections in 2023, namely, Benin, Guinea-Bissau, Liberia, Mauritania, Nigeria, Sierra Leone and Togo, including taking steps to anticipate and address threats to social cohesion, de-escalate crises surrounding political, constitutional and reform processes, and address governance-related challenges;
 - (b) Reinvigorate internal and external partnerships, including with: (i) regional institutions such as the Economic Community of West African States (ECOWAS), the Mano River Union, the Lake Chad Basin Commission, the Liptako-Gourma Integrated Development Authority, the Gulf of Guinea Commission and the Group of Five for the Sahel, to address regional peace and security challenges; (ii) civil society organizations, including traditional and religious leaders, young people and women; and (iii) United Nations entities, in particular the Office of the Special Coordinator for Development in the Sahel, the United Nations Regional Office for Central Africa (UNOCA) and the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA), to address the root causes of instability and insecurity in the region and to reinforce the peace-security-development nexus;

- (c) Accelerate the implementation of the women and peace and security and youth, peace and security agendas, including by ensuring the promotion of gender and meaningful involvement of women and young people in political and decision-making processes and mediation initiatives; and advance the promotion of good governance and respect for human rights and the rule of law.
13. Reflecting the importance of continuous improvement and responding to the needs and request of Member States, the mission has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the coronavirus disease (COVID-19) pandemic. This includes updating risk management and contingency plans and workforce safety protocols, while exploring new ways of working. Given that a large segment of the mission's work involves travelling and engaging with national and regional partners on the ground, UNOWAS has had to adopt alternative approaches such as the utilization of virtual platforms for regional consultations and meetings. While this format has been effective in some instances, it has often proved challenging owing to poor Internet connectivity in most countries and the diverse linguistic nature of the region that requires simultaneous interpretation during meetings.
14. The above-mentioned work is expected to result in:
- (a) Prevention of conflicts, the strengthening of inclusive political dialogues and the consolidation of democracy and political stability through consensual constitutional and electoral reform processes;
 - (b) Strengthened subregional cross-border responses to challenges related to security sector reform, climate change, transnational organized crime, illicit trafficking, farmer and herder dynamics, terrorism and violent extremism conducive to terrorism;
 - (c) A more coherent, comprehensive and integrated approach to addressing the root causes of instability, intercommunal violence and conflict in the Sahel;
 - (d) Mainstreaming of gender into conflict prevention, management and resolution activities in West Africa and the Sahel;
 - (e) Promotion of good governance and respect for human rights and the rule of law.

External factors for 2023

15. The overall programme plan for 2023 is based on the following assumptions:
- (a) Terrorism, violent extremism conducive to terrorism and intercommunal violence in the Sahel, Lake Chad Basin and the Liptako-Gourma regions continue to pose a challenge to peace and stability in the subregion;
 - (b) The instability and the governance deficits caused by the series of unconstitutional changes in Government in 2021 and 2022 will also have a negative impact on other countries of the region;
 - (c) Conflicts over natural resources affecting relations between herders and farmers and other factors related to the adverse impact of climate change will continue to increase;
 - (d) Elections will be held in Benin, Guinea-Bissau, Liberia, Mauritania, Nigeria, Sierra Leone and Togo in 2023;
 - (e) The demand for the good offices of UNOWAS will remain high owing to the needs of countries undergoing political transitions that entail institutional reform processes, and to the number of elections scheduled in 2023;
 - (f) The Heads of State and Government of West Africa, ECOWAS, the Lake Chad Basin Commission, the Mano River Union, the African Union and the Group of Five for the Sahel demonstrate commitment to mobilizing resources to address challenges to peace and stability and the political will to ensure that regional peace and security mechanisms are operationalized;

- (g) The ECOWAS early warning and response mechanism and other regional conflict prevention instruments, including the good governance protocol, will be fully operationalized at regional, national and local levels, in close collaboration with civil society;
 - (h) Peacebuilding and peace consolidation efforts by partners such as regional organizations, including in post-electoral contexts, will continue;
 - (i) There will be strong political commitment on the part of Member States, regional organizations and civil society organizations to work with the United Nations in the context of the United Nations integrated strategy for the Sahel;
 - (j) Countries in the region will continue to make progress in implementing their obligations under national and international human rights law and in upholding rule of law standards;
 - (k) Political and technical level engagements with UNOCA in support of the Gulf of Guinea Commission and the Interregional Coordination Centre for Maritime Safety and Security in the Gulf of Guinea will continue.
16. With regard to cooperation with other entities, UNOWAS will be an active partner of the African Union, ECOWAS, the Group of Five for the Sahel, the Mano River Union, the Lake Chad Basin Commission and the African Development Bank in developing and harmonizing regional capacities for conflict prevention, conflict resolution, peacebuilding and sustaining peace; advancing the promotion of good governance and respect for human rights and the rule of law, the promotion of gender and the active participation of women and young people in political and decision-making processes; and supporting regional responses to address cross-border threats to peace and security, including transnational organized crime, illicit trafficking, farmer and herder dynamics, terrorism and violent extremism conducive to terrorism. UNOWAS will also continue to collaborate with regional and subregional partners through joint high-level missions, as well as technical assessment and fact-finding missions. In addition, it will continue to host the secretariat and ensure coordination of the Working Group on Women, Youth, Peace and Security in West Africa and the Sahel.
 17. With regard to inter-agency coordination and liaison, UNOWAS will promote synergies with the Regional Collaborative Platform, the Development Coordination Office, and resident coordinators, humanitarian coordinators, United Nations country teams and other United Nations agencies, funds and programmes to address the multifaceted challenges facing the region. Coordination with United Nations entities, including with the Office of the Special Coordinator for Development in the Sahel, will continue within the United Nations integrated strategy for the Sahel framework and in line with the mission's convening and advocacy roles. The engagement of UNOWAS will remain consistent with the priorities of the integrated strategy, with a focus on cross-border threats to peace and security and efforts to counter radicalization. UNOWAS will work closely with the resident coordinators in its mission area on the sustaining peace agenda and other priority issues. In that context, it will strengthen its coordination with the United Nations Development Programme (UNDP) and the Peacebuilding Support Office of the Department of Political and Peacebuilding Affairs for targeted interventions. UNOWAS will deepen its engagement with UNOCA on issues affecting both West and Central Africa, including the threats posed by Boko Haram factions, as well as conflicts related to farmer-herder dynamics, piracy and maritime security in the Gulf of Guinea.
 18. In addition to raising awareness of the issues affecting the Lake Chad Basin region, UNOWAS will support efforts to advance the implementation of the Regional Strategy for the Stabilization, Recovery and Resilience of the Boko Haram-affected Areas of the Lake Chad Basin Region, through advocacy and participation in its steering committees. UNOWAS will maintain continuous links to the Lake Chad Basin Commission and the secretariat of the Regional Strategy. UNOWAS will participate in the technical and high-level meetings of the Lake Chad Basin Governors' Forum on stabilization and recovery in the region.
 19. UNOWAS integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The good offices role of the Special Representative for West Africa and the Sahel will include consultations with women's groups and young people, and UNOWAS will continue to

advocate the implementation of Security Council resolutions [1325 \(2000\)](#) and [2250 \(2015\)](#), as well as subsequent resolutions on women and youth and peace and security, through the formulation and implementation of national and regional action plans.

20. In line with the United Nations Disability Inclusion Strategy, the mission will further seek to promote disability inclusion internally through the creation of space for employment opportunities for qualified candidates. At the political level, it will continue to advocate the inclusion of the views of people with disabilities in all decision-making platforms as change agents for peace, security and sustainable development in the region.

Programme performance in 2021

Accompanying electoral processes throughout West Africa and the Sahel

21. In 2021, the Special Representative for West Africa and the Sahel conducted approximately 16 good offices and mediation missions throughout the region. Owing to four key elections in 2021, UNOWAS was faced with a high number of requests to support mediation efforts and dialogue with multiple stakeholders in the relevant countries in the periods leading up to, during and in the aftermath of the elections. This was coupled with increasing threats to peace and security posed by terrorism and violent extremism conducive to terrorism, as well as latent and active intercommunal conflicts. In response, the Special Representative intensified his preventive diplomacy engagements and undertook several pre- and post-electoral missions, including jointly with ECOWAS, to countries that held elections in 2021. During the pre-electoral period in the Gambia, the Special Representative also co-facilitated with the Inter-Party Committee, a stakeholders' forum in collaboration with ECOWAS aimed at reducing tensions and advocating the peaceful acceptance of the presidential election results. Furthermore, the Special Representative coordinated closely with resident coordinators, United Nations country teams and other United Nations entities in the context of the elections and reform processes in the region.
22. The above-mentioned work contributed to the overall peaceful and credible elections in West Africa and the Sahel.
23. Progress towards the objective is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of high-level good offices and mediation missions carried out to prevent election-related tensions and consolidate political stability

Impact of the pandemic

24. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular in the cancellation of some external events such as the annual meeting of Special Envoys for the Sahel. Some events have been rescheduled to 2022, thus allowing for progress, albeit with some delay.

Planned results for 2023

Result 1: reduced election-related tensions throughout West Africa and the Sahel

Programme performance in 2021 and target for 2023

25. In October 2021, UNOWAS, in collaboration with other United Nations entities, supported the Inter-Party Committee in organizing a national stakeholders' forum on peaceful and credible presidential elections in the Gambia. An important outcome of the forum was the signing of a "peace pledge" by political party leaders, through which they recommitted themselves and their parties to ensuring a peaceful election, free of hate speech, as outlined in the existing code of conduct and code of ethics.
26. In 2023, a series of presidential or legislative elections will be held in Benin, Guinea-Bissau, Liberia, Mauritania, Nigeria, Sierra Leone and Togo. The mission will conduct high-level good offices and mediation missions to contribute to the peaceful holding of credible elections in these countries. It will also deploy technical assessment missions to work closely with the resident coordinators and United Nations country teams, which will focus on identifying and defusing emerging peace and security threats or pre-electoral tensions.
27. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 2).

Table 2

Performance measure

<i>2019 (actual)</i>	<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (planned)</i>	<i>2023 (planned)</i>
The conduct of generally peaceful, inclusive and credible elections in Nigeria	The conduct of generally peaceful, inclusive and credible elections in five countries in West Africa	Increased good offices and mediation efforts to address election-related tensions/ disagreements throughout West Africa and the Sahel	Enhanced good offices and mediation efforts to address election-related tensions/ disagreements throughout West Africa and the Sahel	Increased good offices and mediation efforts to address election-related tensions/ disagreements throughout West Africa and the Sahel

Result 2: strengthened leadership role in support of the implementation of the United Nations integrated strategy for the Sahel

Proposed programme plan for 2023

28. UNOWAS provides political and strategic leadership towards the effective implementation of the United Nations integrated strategy for the Sahel. In this regard, the Special Representative for West Africa and the Sahel Special Representative of the Secretary-General co-chairs the biannual United Nations integrated strategy for the Sahel steering committee meetings with the UNDP Assistant Administrator and Regional Director for Africa, in close collaboration with the Special Coordinator for Development in the Sahel.
29. In 2023, it is expected that governance, resilience and peace and security challenges will continue to intensify in the Sahel region. Accordingly, the mission will increase its engagement with resident coordinators, United Nations country teams and national and international partners supporting Sahelian countries to ensure that these challenges are addressed in an integrated manner under the umbrella of the United Nations integrated strategy for the Sahel.

Lessons learned and planned change

30. A lesson learned for the mission was that the political leadership demonstrated by the Special Representative for West Africa and the Sahel Special Representative of the Secretary-General in convening United Nations entities and partners and in sustaining advocacy around the implementation of the United Nations integrated strategy for the Sahel has played an important role in accelerating implementation of the strategy. In applying the lesson, the mission will intensify its advocacy and convening role to strengthen partners' support for the implementation of the integrated strategy by increasing the number of meetings and briefings organized.
31. Expected progress towards the objective is presented in the performance measure below (see figure II).

Figure II

Performance measure: number of briefings, high-level meetings and advocacy engagements between leadership of the mission and United Nations integrated strategy for the Sahel partners**Deliverables**

32. Table 3 lists all deliverables of the mission.

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Good offices: provision of good offices, including jointly with ECOWAS and the African Union, on conflict prevention across countries of West Africa and the Sahel in consideration of human rights and gender aspects.

Consultation, advice and advocacy: monitoring missions to countries of West Africa and the Sahel to analyse developments and emerging threats and identify entry points for early warning and conflict prevention activities; monitoring missions to Burkina Faso and the Gambia to support United Nations initiatives to sustain peace; and pre- and post-electoral missions to countries conducting elections in West Africa and the Sahel to monitor tensions related to the electoral process.

Fact-finding, monitoring and investigation missions: advocacy and support for integrated subregional and cross-border responses on cross-cutting threats to peace and security, in particular election-related instability and challenges related to governance deficits, security sector reform, transnational organized crime, illicit trafficking, terrorism and violent extremism conducive to terrorism; consultations on human rights during political and electoral processes; and advocacy for the effective implementation of the United Nations integrated strategy for the Sahel and advocacy for enhanced strategic cooperation and coordination in the Sahel in fulfilment of the objectives of the integrated strategy.

D. Communication deliverables

Outreach programmes, special events and information materials: digital and print (quarterly), information campaigns, brochures, flyers, information notes to promote the good offices and the mission's activities, while enhancing the visibility of the mission.

External and media relations: media encounters, briefings, press conferences, press releases, statements and op-eds.

Digital platforms and multimedia content: dissemination of information, and promotion of the good offices and the activities of the mission through the website and social media.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Operational costs	5 007.0	5 140.2	5 429.1	–	288.9
Total (net of staff assessment)	13 608.4	14 658.6	14 835.2	–	176.6

Note: The following abbreviations are used in the tables: ASG, Assistant Secretary-General; USG, Under-Secretary-General.

Table 5
Positions

	<i>Professional and higher categories</i>									<i>General Service and related categories</i>		<i>National staff</i>				<i>Total</i>
	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>Subtotal</i>	<i>Field/ Security Services</i>	<i>General Service</i>	<i>Total inter-national</i>	<i>National Professional Officer</i>	<i>Local level</i>	<i>United Nations Volunteers</i>	
Approved 2022	1	1	–	2	9	14	10	1	38	6	–	44	9	22 ^a	–	75
Proposed 2023	1	1	–	2	9	14	10	1	38	6	–	44	9	22 ^a	–	75
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Includes one general temporary assistance position.

33. The proposed resource requirements for 2023 for UNOWAS amount to \$14,835,200 (net of staff assessment) and would provide for the deployment of one military adviser and one police adviser (\$113,500), salaries and common staff costs (\$9,292,600) for 44 international positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 2 D-1, 9 P-5, 14 P-4, 10 P-3, 1 P-2 and 6 Field Service) and 31 national positions (9 National Professional Officer and 22 Local level), as well as operational costs (\$5,429,100), comprising the costs for consultants and consulting services (\$128,300), official travel (\$774,200), facilities and infrastructure (\$297,800), ground transportation (\$74,500), air operations (\$2,691,300), communications and information technology (\$680,300), and other supplies, services and equipment (\$782,700).
34. It is proposed that one general temporary assistance position of Finance and Budget Assistant (Local level) be continued in 2023 to ensure segregation of duties and maintain internal control governing the financial transactions of the mission.
35. A vacancy rate of 16 per cent has been applied to the estimates for international positions, and 8 per cent for national positions, based on the most recent incumbency and projected deployment. The estimates for military and police advisers are based on an assumption of full incumbency.
36. The increase in requirements for 2023 compared with the appropriation for 2022 is attributable mainly to: (a) increased requirements for international staff, owing to the increase in the post adjustment in Senegal; (b) an increased share of costs of the new United Nations House in Dakar, in which the mission will be accommodated as from 2023; and (c) the acquisition of laptops due for replacement in 2023 and the costs for the transition of communications and information technology services from the previous premises to the new United Nations House, offset by decreases in requirements for national staff due to the application of a lower percentage of common staff costs, based on recent expenditure patterns.

Extrabudgetary resources

37. In 2022, extrabudgetary resources in the amount of \$464,000 are estimated to support activities aimed at the following: building the capacity of women in politics; promoting gender equality and women's empowerment in the security sector; combating hate speech and divisive discourse in the Mano River Basin; convening a regional forum of peace and development advisers of West Africa and the Sahel; strengthening conflict prevention, regional analysis and coordination in the Sahel; addressing various threats to peace and security in the region, including climate change, extremism and impunity; and promoting social inclusion and cohesion in West Africa and the Sahel.
38. In 2023, extrabudgetary resources in the amount of \$500,000 are projected, to continue to support activities aimed at achieving peace and security in West Africa and the Sahel.
39. The increase in the estimates projected for 2023 compared with the estimates for 2022 is attributable primarily to expected higher implementation rates.

2. United Nations Assistance Mission in Somalia

(\$97,045,500)

Foreword

The year 2023 offers an opportunity for renewed momentum in the efforts of Somalia towards achieving peace, stability and sustainable development, following the anticipated establishment of a new Government in 2022. Over the course of 2023, the newly elected Federal Government of Somalia is expected to strengthen dialogue with the federal member states, leading to meaningful progress on the country's national priorities, including the constitutional review process, inclusive politics, deepening federalism and reconciliation efforts. Strengthening the country's federal and state-level institutions and advancing preparations for one-person, one-vote elections in 2025 (the first in Somalia since 1969), including a nationwide voter registration exercise and supporting subnational elections, will be a cornerstone of this agenda. The security transition will constitute another key priority for 2023, with a reconfigured African Union Transition Mission in Somalia supporting and enabling the increasingly capacitated Somali security forces. Al-Shabaab will remain the greatest threat to the security of Somalia and the extension of State authority. In addition, Somalia is expected to face recurring and protracted humanitarian challenges, including recurrent climatic shocks, such as drought and flooding, and related insecurity and displacement. While the country will continue to confront broader challenges on its path towards peace and State-building, the United Nations Assistance Mission in Somalia and the United Nations family will sustain their unwavering commitment to Somalia and its people, ensuring coherence and collaboration in their support for peace and reconciliation efforts, as well as humanitarian and development assistance.

(Signed) James **Swan**

Special Representative of the Secretary-General for Somalia and
Head of the United Nations Assistance Mission in Somalia

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

40. The United Nations Assistance Mission in Somalia (UNSOM) is responsible for providing: (a) good offices to support the advancement of Somali Government-led inclusive political processes and reconciliation; (b) technical, operational and logistical support for inclusive universal elections with the representation and participation of women; (c) assistance in security sector reform and improvements in rule of law institutions, as well as support for the comprehensive approach to security and implementation of the Somalia Transition Plan; and (d) promotion and protection of human rights and system-wide support for the implementation of the human rights due diligence policy. The Mission also provides strategic advice and support to bolster the Government's ability to deliver services, attract investment and advance the 2030 Agenda for Sustainable Development, in close collaboration with the United Nations country team and international financial institutions. The UNSOM mandate is defined in Security Council resolutions [2102 \(2013\)](#), which established the Mission, and renewed in subsequent resolutions [2158 \(2014\)](#), [2221 \(2015\)](#), [2232 \(2015\)](#), [2275 \(2016\)](#), [2358 \(2017\)](#), [2408 \(2018\)](#), [2461 \(2019\)](#), [2516 \(2020\)](#), [2540 \(2020\)](#) and [2592 \(2021\)](#), the latter of which reflected the Council's extension of the Mission's mandate until 31 May 2022.
41. The Security Council, by its resolution [2592 \(2021\)](#), also requested UNSOM to continue to coordinate United Nations efforts to maximize joint approaches and programming. This includes supporting elections in accordance with the framework agreed on 27 May 2021 at the federal member state and district levels; continuing advocacy for progress in the women and peace and security agenda; promoting cooperation with the Federal Government and federal member states, such as in response to the adverse impact of climate change; and working closely with the United Nations country team and other key stakeholders to ensure that international support to Somalia is conflict-sensitive, maximizes coherence and is based on a shared understanding of risks and opportunities for peace and development.

Programme of work

Objective

42. The objective, to which this Mission contributes, is to achieve peace, security, political stability, and national reconciliation in Somalia through the delivery of the mandate established by the Security Council and in line with the priorities of the Federal Government of Somalia.

Strategy

43. To contribute to the objective, the Mission will:
- (a) Support the Government in achieving its national priorities, through outreach, good offices and strategic advice, in coordination with partners, towards the completion of the constitutional review process and parliamentary adoption of an amended constitution, and deepening federalism and inclusive politics;
 - (b) Support the reform of the security sector, advancing implementation of the Somalia Transition Plan and facilitating delivery of the comprehensive approach to security in compliance with the human rights due diligence policy, in coordination with the Government, the African Union Transition Mission in Somalia and partners; aligning stabilization initiatives with priorities

- identified in the Transition Plan; and further enhancing the ability of Somali authorities to mitigate the threat from explosive hazards;
- (c) Provide strategic advice and technical assistance to the legislature in revising legislation for direct parliamentary elections, and to the elections management bodies in conducting federal voter registration and preparations for direct federal and subnational elections;
 - (d) Advocate inclusive political agreements on outstanding issues and support Somali-led initiatives towards the peaceful resolution of local conflicts, in line with the national reconciliation framework;
 - (e) Provide strategic advice on the development of a federated justice system, strengthening the rule of law and coordinating capacity-building support, including through community dialogue;
 - (f) Provide technical support to the Federal Government to deliver on its commitments made during the universal periodic review process;
 - (g) Provide strategic advice, in coordination with partners, to women leaders, civil society and the Federal Government and federal member states to ensure women's participation and representation in public spheres, leadership and decision-making.
44. In addition, UNSOM will continue to exercise its convening role by supporting the Federal Government of Somalia in coordinating international partners around the national priorities of Somalia, building consensus and advocating joint messaging and programmatic approaches. The Mission will integrate cross-cutting themes such as human rights, gender, young people, inclusivity, climate change and resilience into its activities.
45. For 2023, the Mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include support for the needs of the Federal Government and federal member states related to the COVID-19 response, including the vaccination campaign, good offices to ensure the free movement of people and goods across international borders, and upon request, support for government-led COVID-19 related communications campaigns.
46. Reflecting the importance of continuous improvement and responding to Member States' needs, the Mission defined a set of best practices on the basis of experiences during the COVID-19 pandemic. This includes hybrid platforms allowing for online and in-person participation in capacity-building initiatives. However, noting the limitations of online and hybrid platforms, which restrict outreach and inhibit trust-building or discussion on sensitive issues, UNSOM has increased its number of in-person meetings since 2021, while implementing COVID-19 risk mitigation measures.
47. The above-mentioned work is expected to result in:
- (a) Meeting the Mission's commitments set out in the United Nations Sustainable Development Cooperation Framework for the period 2021–2025, aligned with the national priorities on inclusive politics, security, rule of law, development and economic growth;
 - (b) Support for the Somali Government in the implementation of the national development plan;
 - (c) Advancing the security transition, in close coordination with the reconfigured African Union Transition Mission in Somalia.

External factors for 2023

48. The overall programme plan for 2023 is based on the following assumptions:
- (a) Political dialogue between the Federal Government of Somalia and federal member states is expected to resume in full and focus on advancing national priorities;

- (b) The new administration will commit itself to implementing the road map for the completion of Somalia's State-building process, in accordance with the annex to the agreement of 27 May 2021;
 - (c) Progress on the constitutional review process will be achieved, with some contentious issues still requiring attention;
 - (d) Somalia will progressively assume responsibility for security matters, with the Federal Government and federal member states making progress towards building security and justice institutions as outlined in the national security architecture and the Somalia Transition Plan;
 - (e) Human rights violations by parties to the conflict will remain of concern;
 - (f) Al-Shabaab will continue to pose the greatest threat to Somalia's security and stability, followed by clan violence;
 - (g) Somali young people will remain vulnerable to radicalization and recruitment by extremist groups, in particular Al-Shabaab;
 - (h) Women and girls will continue to be disproportionately affected by inequality and by violations of international humanitarian law and violations and abuses of human rights;
 - (i) The country will face recurring climate-related shocks, including drought and flooding;
 - (j) The Security Council, the African Union Peace and Security Council and the wider international community will continue to support the security transition in Somalia.
49. With regard to cooperation with other entities, UNSOM will continue to work closely with the African Union Transition Mission in Somalia in alignment with strategic and operational priorities, including through the Senior Leadership Coordination Forum comprising the Heads of the Transition Mission, UNSOM, the United Nations Support Office in Somalia (UNSOS) and other coordination mechanisms. Human rights due diligence policy coordination and cooperation will also continue to ensure compliance, the promotion of accountability and the implementation of prevention and response mitigation measures on human rights issues. This cooperation will be particularly important in the context of a progressive transfer of security responsibilities to Somali security forces.
50. With regard to inter-agency coordination and liaison, UNSOM continues its efforts to further advance integration and cooperation with United Nations agencies, funds and programmes, and to advance priorities outlined in the United Nations Sustainable Development Cooperation Framework (2021–2025), and support the new Government's priorities, which are expected to be based on the ninth national development plan (2020–2024) on inclusive politics, security and justice, and social and economic development.
51. The Mission continues to integrate gender perspectives in its activities, deliverables and results, as appropriate, including support for the increased participation of women in the political sphere, economic life and reconciliation and peacebuilding efforts.
52. In line with the United Nations Disability Inclusion Strategy, UNSOM, in partnership with UNSOS, developed a joint action plan in 2021. The missions will review progress in its implementation and identify lessons learned in 2022 to update the plan, as appropriate.

Evaluation activities

53. The OIOS evaluation of women and peace and security in field-based missions, with respect to elections and political transitions, completed in 2021, has guided the proposed programme plan for 2023.
54. An evaluation on digital transformation, in line with the Secretary-General's vision for the "United Nations 2.0", is planned for 2023.

Programme performance in 2021

Construction of an elections data and a dispute resolution centre in support of the conduct of elections

55. Construction of the National Independent Election Commission's permanent headquarters, including an electoral dispute resolution centre and an electoral assets management centre, separate from any government complex, began in 2020 and major works were completed in 2021. This compound will enable the Commission, currently located in the Villa Somalia government complex, to be fully functional and independent and allow for greater public access for stakeholders in a secure and neutral environment. The Commission is scheduled to relocate its headquarters to the new facilities in 2022.
56. The Federal Government of Somalia appointed ad hoc committees, instead of the National Independent Election Commission, including the Electoral Dispute Resolution Committee, in October 2020 to deal with electoral complaints. These were supported by the United Nations and partners as a key component of the ongoing indirect electoral process to reinforce transparency and credibility and mitigate sources of tension. While disagreements among political stakeholders resulted in some delays, the upper house elections of the federal Parliament were completed on 13 November 2021.
57. Progress towards the objective is presented in the performance measure below (see table 6).

Table 6
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
–	<p>Provision of support to the National Independent Election Commission initiated in the construction of an enhanced security infrastructure, including a secure warehouse</p> <p>Construction of the electoral dispute resolution centre, with the support of the Peacebuilding Fund, initiated</p>	<p>Construction completed of the National Independent Election Commission compound, including offices for the Commission and secretariat, a data-processing centre, an electoral dispute resolution centre and an electoral assets management centre</p> <p>Electoral Dispute Resolution Committee was functional, and three electoral complaints were adjudicated in 2021</p>

Impact of the pandemic

58. The continuation of the COVID-19 pandemic into 2021 had an impact on the implementation of mandates, in particular in the following areas: (a) consultations and workshops/working sessions with counterparts on negotiation, mediation and reconciliation, and policy dialogues for women civil society leaders and women members of Parliament and senators; (b) capacity-building workshops for civil society on human rights monitoring and reporting regarding the performance of Somali security forces; (c) workshops on peacebuilding, conflict prevention, conflict resolution, mediation and the constitutional review process; and (d) training on the protection of civilians. The planned activities were adversely affected owing to movement restrictions. Wherever practical, the Mission reconfigured seminars, workshops and other capacity-building events to allow for their delivery online or in a hybrid format.
59. In addition, UNSOM supported the logistical needs of the Federal Government and federal member states related to the COVID-19 response. This included support for the vaccination campaign, good

offices to ensure the free movement of people and goods across international borders, and government-led COVID-19-related communications campaigns. UNSOM supported the Somali Police Force and the five state police services in developing police operational procedures on COVID-19. This resulted in the continued delivery of basic policing services and consistent awareness-raising messages to reduce the risk of infections. In addition, United Nations support assisted the Federal Government in managing both the restrictions imposed on movement and gatherings while contributing to the health and well-being of the police.

Planned results for 2023

Result 1: engendering public confidence in security and justice institutions during and post-security transition

Programme performance in 2021 and target for 2023

60. The Mission's work, in coordination with partners, contributed to capacity-building and force generation efforts in support of the Somali security forces, which met the planned target of the gradual transfer of security responsibilities from the African Union Mission in Somalia to the Somali security forces. The Mission's work also contributed to the development of the United Nations rule of law strategy. However, the planned target of reaching a political agreement on a justice and corrections model was not met, given the protracted political stalemate on the elections. The appointment of Judicial Service Commission members and the establishment of the Constitutional Court were delayed for the same reason.
61. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 7).

Table 7
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	<p>Revision of the Somalia Transition Plan</p> <p>Community dialogue on justice, security and land issues launched in each federal member state capital</p> <p>Capacity-building and institutional development plan in support of the executive and legislative structures of the Federal Government and federal member states to improve civilian oversight of the security sector</p>	<p>Somalia Transition Plan revised and issued, and technical coordination achieved through comprehensive approach to security structures</p> <p>Joint rule of law and security governance programmes ensured that the executive and legislative structures of the Federal Government and federal member states support Somalia Transition Plan implementation</p> <p>Somalia's weapons and ammunition management</p>	<p>Able, acceptable, affordable and accountable Somali security forces protect the civilian population</p> <p>External civilian oversight bodies exercise control over security forces</p> <p>Strategic coordination mechanisms within the security sector are functional, with the expansion of the federated policing model</p> <p>Community dialogue on justice and the rule of law informs promotion</p>	<p>Additional prioritized locations and tasks are handed over to the Somali security forces and institutions by the African Union Transition Mission in Somalia</p> <p>Ammunition stockpiles control mechanisms at the federal and state levels are strengthened, in accordance with the national weapons and ammunition management strategy</p> <p>Increased coordination among stakeholders in the</p>

	Development of Somalia's maritime governance structures and women's engagement in the maritime sector to support wider blue economy efforts	structures ensured reporting compliance with the Security Council Committee pursuant to 751 (1992) concerning Somalia Somalia's maritime governance institutions established domestic regulatory frameworks, and Federal Government and federal member states agree on the women in the maritime sector strategy	of a new justice and corrections model Improved maritime law enforcement, and adoption and enactment of a national weapons and ammunition management strategy and national arms control legislation, as well as amnesty legislation	implementation of the National Programme for the Treatment and Handling of Disengaged Combatants in Somalia Community dialogue on justice ongoing in all federal member state capitals

Result 2: progress and challenges of the constitutional review process in Somalia

Programme performance in 2021 and target for 2023

62. The Mission's work contributed to the development of handover notes by the Independent Constitutional Review and Implementation Commission, the Ministry of Constitutional Affairs and the Joint Oversight Committee of the Federal Parliament to facilitate the resumption of the constitutional review process once a new Federal Government has been formed. The planned target of the adoption of the reviewed Provisional Federal Constitution by the eleventh Parliament was not met owing to disagreements between the Federal Government and federal member states over power-sharing and fiscal federalism. In addition, the President issued a decree in December 2020 suspending the constitutional review process until the formation of a new post-election Parliament.
63. Progress towards the objective and the target for 2023 are reflected in the performance measure below (see table 8).

Table 8
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	Technical review of the 15 chapters of the provisional Constitution completed and the draft of the reviewed provisional Constitution finalized by the three mandated institutions	Handover notes were developed by the Independent Constitutional Review and Implementation Commission, the Ministry of Constitutional Affairs and the Joint Oversight Committee of the Federal Parliament to facilitate the	Adoption of amended articles by the Parliament and harmonization of the constitutional framework between the Federal Government and federal member states	The majority of the constitutional review process is completed, with some contentious issues still requiring attention

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
		resumption of the constitutional review process once a new Government has been formed		

Result 3: alternative dispute resolution and inclusive community dialogue initiatives to reduce conflict and provide space to expand access to basic justice and security services

Programme performance in 2021 and target for 2023

64. Through the comprehensive approach to security framework, UNSOM supported the Federal Government and some federal member states in implementing the national stabilization strategy and state stabilization plans, respectively. In addition, it continued to provide technical support for and advice on preventing violent extremism conducive to terrorism. In areas newly recovered from Al-Shabaab, namely, in Lower Shabelle, the local administration's lead role in community engagement allowed for successful interventions by security and stabilization actors, focusing on early recovery, governance and access to justice following military operations.

Lessons learned and planned change

65. The lesson for the Mission was that, while military operations and stabilization activities remain critical to implementing the Somalia Transition Plan, they require complementary efforts. In applying the lesson, UNSOM, with its partners, will support local-level dispute resolution and dialogue initiatives. Support for a pilot project in Baidoa focusing on alternative dispute resolution has yielded encouraging results, including the participation of women leaders in conflict resolution efforts. Similar initiatives are planned for other locations and are intended to support the implementation of the revised national strategy on preventing violent extremism conducive to terrorism while complementing stabilization and peacebuilding efforts.
66. The work is expected to contribute to the active engagement of Somali stakeholders in implementing the revised national strategy and action plan for preventing and countering violent extremism and the recalibrated defector rehabilitation programme, which is intended to promote dialogue, tolerance and conflict transformation.
67. Expected progress towards the objective is presented in the performance measure below (see table 9).

Table 9
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
–	Government-led whole-of-government approach to stabilization and preventing and countering violent extremism	Information-sharing and joint planning among stabilization stakeholders established for areas to be recovered under the Somalia Transition Plan	Coordination mechanisms and joint planning among security and stabilization actors are an established way of working and taking different actors and political dynamics into consideration, with increasing soft	Somali stakeholders are actively engaged in implementing the revised national preventing and countering violent extremism strategy and the recalibrated defectors rehabilitation programme

38. Study report on Somali women's experience and aspiration in peace and politics in the country	–	–	1	1

C. Substantive deliverables

Good offices: assist in resolving post-election differences among stakeholders; facilitate political dialogue between electoral stakeholders, including the Federal Government, federal member states and electoral aspirants, and provide support to the Federal Government, the federal member states and other stakeholders in advancing the national priorities, in line with the annex to the agreement of 27 May 2021, including the constitutional review process and implementation of the national security architecture; and facilitate reconciliation between the Federal Government and federal member states.

Consultation, advice and advocacy: consultations with civil society on federalization, constitutional review process, local conflict management and resolution, and the national reconciliation process; advice on drafting the revised Constitution; strategic and technical advice to electoral management bodies at the federal and subnational levels, Parliament and other stakeholders on revisions to the electoral legal framework and on electoral processes; advocacy with federal and state authorities, the Somali National Consultative Council and other stakeholders, including clan elders, electoral committees, politicians and the council of presidential candidates for women's enhanced participation and representation in leadership and decision-making political processes in general, in the upcoming election and in its results, and participation in political leadership roles in governance institutions; advice to the Government on the compliance of national legislation with international human rights law, including policies addressing sexual violence in conflict and children in armed conflict; advice to and advocacy with ministries of women and human rights development, women leaders, human rights defenders, civil society actors, legislators and parliamentary committees to strengthen the national protection framework and institutionalize accountability mechanisms, including through human rights due diligence policy mechanisms, on the implementation of human rights commitments, on recommendations emerging from the 2022 human rights universal periodic review process, on human rights due diligence assessments, and on addressing violations committed by international and national forces; advice to Parliament, the Federal Government of Somalia and federal member states on security sector legislation, reforms and budgetary measures, including the sustainable financial management of the security sector; consultations with the Federal Government and federal member states' security institution stakeholders on the legal framework to implement national security architecture, including a calibrated disarmament, demobilization and reintegration-related programme; coordination mechanisms and the sustainability of stabilizations activities and advocacy joint planning between security forces and stabilization actors in recovered areas; consultations, planning and advocacy with the Federal Government's and federal member states' justice stakeholders for the establishment of functioning, independent and accountable rule of law institutions, as part of wider reform efforts; advice to the Ministry of Ports and Marine Transport on the maritime economy, enhancement of Somali maritime administration and women in the maritime sector; and policy and technical advice to Federal Government and federal member states' counterparts on explosive hazard threat mitigation, and on weapons and ammunitions management, along with weapons and ammunitions management initiatives.

Fact-finding, monitoring and investigation missions: human rights monitoring, reporting and investigations, including conflict-related sexual violence and child protection; and monitoring of and follow-up on incidents involving security forces supported by the United Nations, through the human rights due diligence policy.

D. Communication deliverables

Outreach: four long-term strategic messaging campaigns targeting Somali audiences communicating on United Nations work in Somalia, including on thematic issues through chairing the United Nations Communications Group – Somalia, harmonizing communications and taking the lead in joint messaging campaigns; collaborate with civil society (e.g., media associations and youth groups) for the holding of events to mark official United Nations observances relevant to the Somali context, and amplify United Nations messaging goals; communications support and multimedia coverage on visits of high-level United Nations officials to Somalia, as required; and support and guide targeted outreach activities, as required, on an ad hoc basis.

External and media relations: build working relationships with Somali and international media to help to ensure a better understanding of the work of the United Nations in Somalia and development of the Somali communications sector through capacity-building programmes for the media and government communications offices; and organize at least two press conferences for United Nations leadership and arrange for interviews and other media coverage with United Nations officials.

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
--------------------------	-----------------	----------------	-----------------	-----------------

Digital platforms and multimedia content: four digital platforms (social and digital media) that produce multilingual and multimedia content, with at least 200 items (including cards, infographics and videos) for dissemination on social media and online channels; for traditional platforms, produce Somali-language radio programming, with at least 50 episodes of the “Path to peace” programme and at least 25 episodes of the “Taakulo” programme, targeting Somali audiences; produce a series of radio programmes on high-priority topics on an ad hoc basis, such as on United Nations support for the drought response; four English-language United Nations quarterly updates, highlighting the work of the United Nations system in Somalia, aimed at Somali government partners, international partners and donors; and design and production support for a range of digital newsletters highlighting work of the United Nations.

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Proposed 2023	1	2 ^a	1	8 ^b	30	51	38	1	132	57	–	189	86	45	19	339
Change	–	–	–	–	–	1	1	1	3	–	–	3	1	–	1	5

^a One position is funded at 50 per cent and cost-shared with the Development Coordination Office.

^b Includes one general temporary assistance position.

69. The proposed resource requirements for 2023 for UNSOM amount to \$97,045,500 (net of staff assessment) and would provide for the deployment of 625 United Nations Guard Unit personnel and 14 United Nations police officers (\$16,305,200), salaries and related costs (\$41,996,900) for 189 international positions (1 Under-Secretary-General, 2 Assistant Secretary-General, 1 D-2, 8 D-1, 30 P-5, 51 P-4, 38 P-3, 1 P-2 and 57 Field Service), 131 national positions (86 National Professional Officer and 45 Local level), 19 United Nations Volunteers and 23 government-provided personnel, as well as operational costs (\$38,743,400), comprising the costs for consultants and consulting services (\$694,800), official travel (\$1,249,800), facilities and infrastructure (\$19,511,700), ground

transportation (\$1,148,100), air operations (\$6,585,900), communications and information technology (\$5,876,500), medical (\$1,282,100), and other supplies, services and equipment (\$2,394,500).

70. A vacancy rate of 15 per cent has been applied to the estimates for continuing international positions, while a vacancy rate of 50 per cent has been applied for the five positions that are proposed for establishment in 2023. Vacancy rates of 14 and 17 per cent have been applied to the estimates for National Professional Officer and Local level positions, respectively. A vacancy rate of 11 per cent has been applied to the estimate for United Nations Volunteers and 13 per cent for government-provided personnel. Taking into account the actual average deployment of 2022 and the projected deployment schedule for 2023, the estimates for the United Nations Guard Unit personnel are based on the assumption of full deployment, and a delayed deployment factor of 20 per cent has been applied to the estimates for United Nations police personnel.
71. In 2023, the proposed staffing complement includes the establishment of five positions, as detailed below:

*Office of the Deputy Representative of the Secretary-General/Resident Coordinator/
Humanitarian Coordinator*

- (a) Establishment of one position of Environmental Affairs Officer (P-4) in Mogadishu. The position would focus on delivering the environmental components of the UNSOM mandate in accordance with paragraph 15 of Security Council resolution [2592 \(2021\)](#), in close collaboration with UNSOS and the United Nations country team. There is a growing need for environmental and climate change-related advice due to the increased impact of climate change on Somalia and related requests for support from the Federal Government and the federal member states. The position would support the Mission's leadership on all environmental and climate change-related issues, including providing up-to-date analysis of the environmental causes and consequences of conflict and insecurity and providing risk assessments and risk management strategies;
- (b) Establishment of one position of Programme Management Officer (P-3) in Mogadishu. Somali young people constitute approximately 70 per cent of Somalia's population, and their inclusion is essential to achieving sustainable peace. The position would advise mission leadership on the inclusion and engagement of young people in politics, conflict reduction and peacebuilding issues, and coordinate with the United Nations country team on youth-related issues. The position would also support the implementation of the United Nations youth strategy for Somalia (2022–2026) and Youth 2030: The United Nations Strategy on Youth for Somalia;

Office of the Chief of Staff

- (c) Establishment of one position of Associate Evaluation Officer (P-2) in Mogadishu in the Office of the Chief of Staff. The Mission is completing its evaluation policy. The position would report directly to the Chief of Staff and ensure dedicated capacity to undertake annual self-evaluations. These evaluation activities would allow the Mission to identify cross-cutting issues of concern and benefit from insights gained through evaluation findings, with a view to advancing organizational improvement and change management commitments in line with the Secretary General's vision;

Community Recovery and Extension of State Authority and Accountability Unit

- (d) Establishment of one position of Associate Coordination Officer (National Professional Officer) in Beledweyne. With the transition from AMISOM to the African Union Transition Mission in Somalia and the anticipated progress in implementing the Somalia Transition Plan, the Community Recovery and Extension of State Authority and Accountability Unit's workload is expected to increase in areas newly recovered from Al-Shabaab. The position would support the capacity of the Hirshabelle Ministry of Interior and its ability to coordinate stabilization actors on the ground. In addition, the Associate Coordination Officer would also provide

assistance to the Ministry in effectively developing, sequencing and implementing stabilization activities in line with the Transition Plan;

Integrated Gender Office

- (e) Establishment of one position of Gender Affairs Officer (United Nations Volunteer) in Mogadishu. The position would report to the Senior Gender Advisor (P-5) and help to meet the increased demands of the Office to advance the implementation of the UNSOM strategic objectives related to the women and peace and security agenda and United Nations internal gender mainstreaming and parity-related efforts. Moreover, the Gender Affairs Officer would coordinate closely with the national Associate Gender Affairs Officers in the field to strengthen the impact of the Mission's gender-related work at the state level.
72. In 2023, a change is proposed to the organizational structure, namely, a change in the reporting of field and liaison offices to be done through the Chief of Staff to the Special Representative of the Secretary-General. UNSOM implements its mandate at the subnational level through field offices in the federal member states of Somalia, as well as a liaison office in Nairobi. The field offices are headed by Heads of Office, who serve as the most senior United Nations representative in their relevant federal member state and are responsible for ensuring system-wide coherence between UNSOM, UNSOS and United Nations agencies, funds and programmes at the state level. The Head of Office is responsible for leading the transformation of UNSOM field offices into integrated hubs from which the United Nations in Somalia implements agreed strategic priorities and localized approaches. The field offices are also expected to serve as a platform for the international community to facilitate cooperation among all stakeholders at the state level. While the Heads of Offices continue to receive overall guidance from and report to the Special Representative of the Secretary-General, it is proposed that they report to the Special Representative of the Secretary-General through the Chief of Staff, who has overall responsibility for integrated structures and processes. The Deputy Special Representative of the Secretary-General, Political and the Special Representative of the Secretary-General/Humanitarian Coordinator/Resident Coordinator will serve as additional reporting officers for the Heads of Offices, providing strategic guidance and direction on issues under their area of responsibility. The proposed change in the reporting line is expected to ensure continuity in strategic guidance, while improving integrated approaches, the timeliness of support and effective oversight of the field offices.
73. It is also proposed that one general temporary assistance position of Chief, Programme Management (D-1), in the Office of the Deputy Special Representative of the Secretary-General/Rule of Law and Security Institutions Group, be continued in 2023 to oversee the UNSOM mine action component, leading strategic and operational planning, advising UNSOM leadership on mine action issues, supervising the implementation of the workplan, and leading engagement with the national authorities, the United Nations country team and other stakeholders involved in mine action.
74. The decrease in requirements for 2023 compared with the appropriation for 2022 is attributable mainly to reduced requirements for operational costs under: (a) air operations, due mainly to lower guaranteed costs of the fleet as a result of the new fleet contract, as well as lower operations and maintenance fees; (b) lower requirements for petrol, oil and lubricants under air operations, facilities and infrastructure, as well as ground transportation, due to the exclusion of a one-time mobilization fee for petrol, oil and lubricants that was incurred in 2022 with the new contract; (c) facilities and infrastructure, due to lower security services costs as a result of increased cost-sharing with the United Nations country team of the armed mobile protection convoys in Mogadishu and a planned reduction in monthly convoys in 2023 compared with 2022, based on historical trends and operational requirements, and lower requirements for safety and security equipment due to adequate stocks on hand; and (d) other supplies, services, and equipment, due to lower requirements for mine detection and mine-clearing services, welfare and other services. The reduced requirements for operational costs are offset in part by increased requirements under civilian personnel costs, owing mainly to: (a) higher salary costs for international staff; (b) increased costs for United Nations

Volunteers; and (c) the proposed establishment of three international staff positions (1 P-4, 1 P-3 and 1 P-2), one National Professional Officer and one United Nations Volunteer.

Extrabudgetary resources

75. In 2022, extrabudgetary resources in the amount of \$173,100 are estimated to support planned activities related to peace and reconciliation in Somalia.
76. In 2023, extrabudgetary resources in the amount of \$100,000 are projected to continue to support peace and reconciliation activities.
77. The decrease in the estimated extrabudgetary resources in 2023 compared with 2022 is due to expected reductions in donor funding.

3. United Nations Regional Centre for Preventive Diplomacy for Central Asia

(\$3,292,700)

Foreword

Political and socioeconomic challenges notwithstanding, including COVID-19 and the developments in neighbouring Afghanistan, bilateral and multilateral cooperation in Central Asia continued to strengthen and expand over the past year. The States of the region continued their efforts to further advance regional interaction vis-à-vis common risks, threats and challenges.

In an important milestone, on 6 August 2021 the five Central Asian leaders gathered for their third consultative meeting, demonstrating a clear commitment to entrenching the positive dynamics in the region. I had the privilege of attending that meeting and conveying the firm support of the United Nations to regional cooperation, emphasizing the progress made in addressing common challenges such as terrorism and violent extremism conducive to terrorism, drug trafficking and climate change. I reaffirmed United Nations support for the ongoing regional efforts in implementing the youth, peace and security and the women and peace and security agendas.

With the new challenges posed by the situation in Afghanistan, tensions at the border between Kyrgyzstan and Tajikistan, environmental degradation, and continuing institutional and legislative reforms in the countries of the region, there is a steady demand for the support and expertise of the United Nations Regional Centre for Preventive Diplomacy for Central Asia. In 2023, the Regional Centre will galvanize its work to promote regional dialogue on transboundary water use and the climate, to implement regional initiatives on counterterrorism and to advance the women and peace and security and the youth, peace and security agendas in Central Asia.

The Regional Centre will be convening its regional formats, including meetings of deputy foreign ministers, facilitating cooperation, dialogue and trust among the regional countries.

(Signed) Natalia **Gherman**
Special Representative of the Secretary-General
Head of the United Nations Regional Centre for Preventive Diplomacy for Central Asia

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

78. The United Nations Regional Centre for Preventive Diplomacy for Central Asia is responsible for supporting national authorities in identifying and addressing existing and emerging threats to regional peace and security. The open-ended mandate was defined through an exchange of letters between the Secretary-General and the President of the Security Council (S/2007/279 and S/2007/280).
79. The Regional Centre plays a central role in preventive diplomacy efforts in Central Asia and provides a platform for regional dialogue on the most pressing challenges to security and stability. The Special Representative of the Secretary-General and Head of the Regional Centre provides good offices in Central Asia to promote regional cooperation through meetings with authorities, civil society and other stakeholders.
80. The main function of the Regional Centre is to strengthen United Nations capacity for conflict prevention in Central Asia through liaising with the Governments of the region and, with their concurrence, engaging with other concerned parties on issues relevant to preventive diplomacy; monitoring and analysing the situation on the ground and providing the Secretary-General with up-to-date information related to conflict prevention efforts; maintaining contact with relevant regional organizations, encouraging their peacemaking efforts and initiatives and facilitating coordination and information exchange, with due regard to their specific mandates; providing a political framework and leadership for the preventive activities of the United Nations country teams in the region and supporting the efforts of the resident coordinators and representatives of the United Nations system, including the Bretton Woods institutions, in promoting an integrated approach to preventive diplomacy and humanitarian assistance; and maintaining close contact with the United Nations Assistance Mission in Afghanistan (UNAMA) to ensure a comprehensive and integrated analysis of the situation in the wider region.
81. The Regional Centre's current work is guided by a five-year programme of action for the period 2021–2025, which was adopted at the annual meeting of deputy ministers for foreign affairs in December 2020.

Programme of work

Objective

82. The objective, to which this mission contributes, is to enhance regional security and stability in Central Asia.

Strategy

83. To contribute to the objective, the mission will:
 - (a) Engage regularly with the region's capitals, regional organizations and relevant Member States. The Regional Centre will also carry out good offices functions for preventive diplomacy in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan, as well as monitor and analyse regional developments, while maintaining contact with regional organizations and other parts of the United Nations system on behalf of the Secretary-General. Using its extrabudgetary funding, the Centre will implement activities such as meetings of senior officials, expert forums, workshops and training sessions to support cooperation among the countries of the region and increase capacity on issues related to preventive diplomacy;

- (b) Convene preparatory expert forums to inform the annual consultative meetings of the Central Asian Heads of State. It will continue to organize an annual meeting of deputy ministers for foreign affairs of Central Asia. The Regional Centre, in cooperation with UNDP, will also promote the increased political participation of women in the region through the engagement of senior women political leaders on issues relevant to preventive diplomacy through the Central Asia Women Leaders' Caucus regional platform;
 - (c) Promote arrangements on transboundary water management in the region. Specifically, the Regional Centre will focus its work on fostering and supporting initiatives on water, energy and environmental and climate cooperation. The Regional Centre's water strategy for the period 2022–2025 is being implemented with the close involvement of all five States of the region. Through convening a series of seminars and workshops, the Regional Centre will work to increase decision makers' knowledge of international water law, best practices from around the world and possible options for regional arrangements tailored to the specific needs and circumstances of Central Asia;
 - (d) Implement the fourth phase of the joint project with the Office of Counter-Terrorism on the basis of the new Joint Plan of Action for the implementation of the United Nations Global Counter-Terrorism Strategy in Central Asia. In addition, through the preventive diplomacy academy project, the Centre will continue its efforts to engage young people in some of the region's most marginalized areas. The Regional Centre will continue to partner with relevant United Nations entities and regional organizations on the implementation of projects to promote preventive diplomacy in the region. The threats of terrorism and violent extremism, the lack of an agreement on transboundary water management, the developing effects of climate change and a growing youth population seeking new opportunities remain key challenges for stability and security in the region;
 - (e) Support the five States of Central Asia in addressing emerging threats to security and stability and humanitarian assistance during emergency situations, especially in the context of the COVID-19 pandemic and the complex humanitarian situation in Afghanistan. Relevant proposals will be developed and put forward for discussions at the meeting of deputy ministers for foreign affairs in 2023.
84. Reflecting the importance of continuous improvement and responding to the needs of Member States, the mission has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. The Regional Centre will continue to implement its mandate in the key priority areas relevant to maintaining peace and stability in the region, adjusting to the extent possible its operations using online platforms and other innovative tools.
85. The above-mentioned work is expected to result in:
- (a) Improved regional cooperation among the national Governments in addressing transnational threats of terrorism, violent extremism conducive to terrorism, drug trafficking and organized crime, as well as coping with regional challenges concerning the management of water and natural resources;
 - (b) Enhanced preparedness of the Governments of the Central Asian States, through enhanced cooperation and trust-building in the region, for deeper engagements in promoting sustainable peace and stability in the region, including on high-level platforms such as a consultative meeting of Heads of State.

External factors for 2023

86. The overall programme plan for 2023 is based on the following assumptions:
- (a) The continued commitment by the five Governments of the region and national stakeholders to preventive diplomacy and regional cooperation;

- (b) The five countries of the region continue to monitor developments in Afghanistan and enhance preparedness to existing and potential threats and risks of violent extremism and terrorism, drug trafficking, and a refugee crisis. They continue to provide and advocate humanitarian assistance to Afghanistan.
87. The Regional Centre integrates a gender perspective in its operational activities, deliverables, and results, as appropriate. It encourages participating countries to ensure gender balance in their delegations and include gender-related issues in the agendas of three regional expert-level workshops on issues related to preventive diplomacy and confidence-building for officials from the Central Asian States and Afghanistan. The Regional Centre also pays due attention to incorporating such cross-cutting topics as the youth, peace and security agenda and climate and security into its programmatic activities, as well as continuing to implement the United Nations Disability Inclusion Strategy for the entity.
88. With regard to cooperation with other entities, the Regional Centre maintains contact with the Commonwealth of Independent States, the European Union, the Organization for Security and Cooperation in Europe, the Shanghai Cooperation Organization and other relevant organizations. The Regional Centre will follow the exchanges with the Conference on Interaction and Confidence-building Measures in Asia and the Collective Security Treaty Organization on topics of common interest. The Regional Centre will continue the useful practice of convening “troika” coordination meetings among the Centre, the Organization for Security and Cooperation in Europe and the European Union.
89. With regard to inter-agency coordination and liaison, the Regional Centre cooperates closely with the resident coordinators in the five countries, the Development Coordination Office and the entities represented in the United Nations country teams, including UNDP and the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) on gender issues, the United Nations Office on Drugs and Crime on illicit drug trafficking, the Office of Counter-Terrorism on counterterrorism, the United Nations Educational, Scientific and Cultural Organization on water issues, and the Economic Commission for Europe on water, environment and climate. The Regional Centre provides overall policy guidance to the United Nations country teams in the field of preventive diplomacy to ensure the coherence and complementarity of efforts in conflict prevention and peacebuilding. It will also continue to cooperate with relevant actors, including international financial institutions such as the World Bank. On Afghanistan related issues, the Regional Centre regularly shares information and coordinates activities with UNAMA.

Programme performance in 2021

Sustaining positive regional momentum and mobilizing political will

90. In 2021, the Regional Centre continued to support the positive regional dynamics at various levels of society, including through the implementation of regional initiatives aimed at fostering a culture of prevention among young men and women, supporting the implementation of the United Nations Global Counter-Terrorism Strategy in Central Asia, as well as through the launch of the high-level platform for dialogue, the Central Asia Women Leaders’ Caucus. A landmark forum of the Caucus was convened back-to-back with the third consultative meeting of the Central Asian Heads of State, demonstrating the growing importance of the participation of women in the region. In partnership with the Central Asian States, the Regional Centre has developed its new strategy in support of water, energy and environmental and climate cooperation in the region for 2022–2025 as a platform for enhancing regional dialogue and trust-building.
91. In December 2021, the Regional Centre conducted the eleventh annual meeting of deputy ministers of foreign affairs, which explored avenues to further support efforts of the countries of the region in areas related to preventive diplomacy. The meeting was marked by the launch of the fourth phase of the project on countering terrorism and preventing violent extremism conducive to terrorism. On the margins of the meeting, the Regional Centre conducted the third dialogue between the Governments and young people of Central Asia under the preventive diplomacy academy project.
92. Progress towards the objective is presented in the performance measure below (see table 13).

Table 13
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
Involvement of diversified key stakeholders in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan was increased through the new youth initiative and water project	Involvement of additional groups was expanded to create more inclusive, structured discussions by key stakeholders in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan through the Central Asia Women Leaders' Caucus	The Regional Centre ensured further involvement of additional groups to create more inclusive discussions by key stakeholders in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan on the basis of the new initiatives and entry points of the Centre

Planned result for 2023

Enhanced regional interaction in Central Asia to address current and emerging risks and threats to peace and security

Programme performance in 2021 and target for 2023

93. The Regional Centre's work contributed to enhanced regional security and stability in Central Asia through preventive diplomacy, which met the planned target of ensuring further involvement of additional groups to create more inclusive discussions among the five Governments of Central Asia in addressing the threats of terrorism, drug trafficking and organized crime, as well as regional challenges concerning water and natural resources management.

Lessons learned and planned change

94. The lesson for the Regional Centre was that online meetings with authorities became less open and interactive. In applying the lesson, the mission will strive to increase the number of meetings held in a hybrid format, as feasible, including participation in different regional events.
95. The Regional Centre will continue to support the Central Asian States in taking concrete steps to promote peace and trust, creating more inclusive and open discussions on the basis of the new initiatives.
96. Progress towards the objective and the target for 2023 are presented in the performance measure below (see table 14).

Table 14
Performance measure

Deliverables

97. Table 15 lists all deliverables of the mission.

Table 15
Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
1. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	3	3	3	3
2. Workshops on preventive diplomacy and confidence-building	3	3	3	3
C. Substantive deliverables				
Good offices: provision of good offices on issues related to preventive diplomacy, such as water, energy, environmental and climate cooperation, drug trafficking and counter-terrorism.				
Consultation, advice and advocacy: consultations on political and security developments in the region and to seek areas for closer cooperation; and consultations and advice on implementing the Joint Plan of Action for the United Nations Global Counter-Terrorism Strategy in Central Asia.				
D. Communication deliverables				
Outreach programmes, special events and information materials: brochures and information kits on the activities of the mission; and publication of the <i>Aral Sea Basin Transboundary Water Early Warning Bulletin</i> , publication of the annual <i>Water Yearbook: Central Asia and around the Globe</i> and publications as part of the Preventive Diplomacy Academy project.				
External and media relations: press conferences and press releases on the activities of the mission				
Digital platforms and multimedia content: dissemination of information through the mission's website; matrix of activities on counter-terrorism and preventing extremism website (https://unrcca.unmissions.org/mapping-pvect-activities-5); and maintaining and updating the "Water Unites" portal as a source of information for regional water and climate activities.				

B. Proposed post and non-post resource requirements for 2023

Resource requirements (regular budget)

Operational costs	551.0	690.4	646.4	–	(44.0)
Total (net of staff assessment)	3 016.9	2 894.2	3 292.7	–	398.5

Table 17

Positions

	Professional and higher categories								General Service and related categories		National staff				Total	
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	Subtotal	Field/ Security Services	General Service	Total inter-national	National Professional Officer	Local level		United Nations Volunteers
Approved 2022	–	1	–	–	1	2	2	–	6	2	–	8	4	18	–	30
Proposed 2023	–	1	–	–	1	2	2	–	6	2	–	8	4	18	–	30
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

98. The proposed resource requirements for 2023 for the Regional Centre amount to \$3,292,700 (net of staff assessment) and would provide for salaries and common staff costs (\$2,646,300) for the continuation of 30 positions (1 Assistant Secretary-General, 1 P-5, 2 P-4, 2 P-3, 2 Field Service, 4 National Professional Officer and 18 Local level) as well as operational costs (\$646,400), comprising the costs for official travel (\$184,000), facilities and infrastructure (\$88,100), ground transportation (\$30,300), communications and information technology (\$251,500), medical supplies (\$2,500) and other supplies, services and equipment (\$90,000).
99. For 2023, no change is proposed to the number and levels of the positions. A vacancy rate of 5 per cent has been applied to the estimates for all positions.
100. The increase in requirements for 2023 compared with the appropriation for 2022 is attributable primarily to increased requirements for civilian personnel costs, owing to: (a) the increase in the post adjustment multiplier in Turkmenistan; and (b) the application of a higher percentage of common staff costs for national staff, based on recent expenditure patterns, offset by reduced requirements for operational costs under ground transportation, owing to the exclusion of a provision for the acquisition of vehicles.

Extrabudgetary resources

101. In 2022, extrabudgetary resources in the estimated amount of \$420,000 were projected for the meeting of Central Asian deputy ministers of foreign affairs, a Central Asian expert forum aimed at preparing recommendations for the consultative meeting of the Central Asian Heads of State and a

series of activities under the preventive diplomacy academy project aimed at fostering a culture of preventive diplomacy and conflict resolution among young people in Central Asia, with the overall goal of assisting and supporting Governments in building conflict prevention capacities.

102. In 2023, extrabudgetary resources in the estimated amount of \$715,000 are projected for the relaunching of a project for Central Asia regional cooperation on transboundary water management, with a renewed scope of activities, and for support for the Central Asian Women Leaders' Caucus to provide influential leadership within and among the countries of the region. The annual meeting of Central Asian deputy ministers of foreign affairs, as well as activities under the preventive diplomacy academy project, will also be funded through extrabudgetary resources. Many of the meetings are to be held in a hybrid format.
103. The increase in the estimated extrabudgetary resources to be utilized in 2023 compared with 2022 is due to increased travel for in-person and hybrid format meetings and to more activities under the new Regional Centre strategy in support of water, energy and environmental and climate cooperation in the region for 2022–2025.

4. United Nations support for the Cameroon-Nigeria Mixed Commission

(\$3,781,300)

Foreword

Upon assuming responsibilities as Chair of the Cameroon-Nigeria Mixed Commission in April 2021, I immediately commenced consultations with both parties to advocate the convening of a session of the Mixed Commission to resolve the remaining areas of dispute along their shared land boundary. As a result of that intensive engagement, the Mixed Commission met in November 2021 for the first time in seven years and agreed to the resolution of two of the six remaining disputed areas. I personally witnessed the goodwill and strong commitment of the heads of delegations during the “tête-à-tête” meetings that I organized before the session, which allowed for frank and fruitful discussions with a view to finding compromise solutions.

I intend to continue my engagement with the parties to build on the momentum with the aim of reaching a conclusive resolution of all remaining areas of disagreement and towards the finalization of the pillar emplacement project. Furthermore, I will do my utmost to mobilize bilateral and multilateral donors to fund socioeconomic projects in favour of the populations affected by the demarcation and continue my advocacy efforts to ensure the implementation of joint economic ventures and cross-border development projects that will enhance confidence and cooperation between the two countries.

The support provided by my office to ensure the full implementation of the International Court of Justice judgment of 2002, as well as of cross-border and confidence-building initiatives, is making a significant contribution to the prevention of potential disputes along the border of both countries and to the enhancement of stability in the subregion.

(Signed) Annadif Khatir **Mahamat Saleh**
Chair of the Cameroon-Nigeria Mixed Commission

A. Proposed programme plan for 2023 and programme performance for 2021

Overall orientation

Mandates and background

104. The Cameroon-Nigeria Mixed Commission is responsible for the implementation of the judgment of the International Court of Justice of 10 October 2002 on the Cameroon-Nigeria boundary and territorial dispute. Its responsibilities include support for the demarcation of the land boundary and the delineation of the maritime boundary; facilitating the withdrawal and transfer of authority in the Lake Chad area, along the boundary and in the Bakassi Peninsula; addressing the situation of affected populations; and making recommendations on confidence-building measures.
105. The current mandate of the United Nations support team to the Cameroon-Nigeria Mixed Commission derives from the following exchanges of letters between the Secretary-General and the President of the Security Council: [S/2017/78](#) and [S/2017/79](#), [S/2018/1130](#) and [S/2018/1131](#), [S/2019/1012](#) and [S/2019/1013](#), [S/2020/1322](#) and [S/2020/1323](#) and, most recently, [S/2021/1069](#) and [S/2021/1070](#).

Programme of work

Objective

106. The objective, to which this mission contributes, is to achieve an orderly and peaceful implementation of the judgment of 10 October 2002 of the International Court of Justice regarding the land and maritime boundary between Cameroon and Nigeria.

Strategy

107. To contribute to the objective, the mission will:
 - (a) Facilitate cooperation between the parties to resolve the remaining four points of disagreement in the demarcation of the land boundary;
 - (b) Support the parties in constructing additional boundary pillars along the land boundary;
 - (c) Produce the draft maps to graphically record the demarcation of the boundary and have them validated by experts from the parties during joint working sessions;
 - (d) Organize and moderate meetings of the drafting committee to finalize a boundary statement at the conclusion of final mapping;
 - (e) Regularly monitor the situation of populations affected by the demarcation and promote cross-border development projects as confidence-building measures, including livelihood support, access to potable water, capacity-building, green energy and security;
 - (f) Continue fundraising efforts among international donors and multilateral partners to finance the demarcation activities and confidence-building projects for populations affected by the demarcation;
 - (g) Enhance subregional cooperation and good practices in the management of international boundaries by disseminating lessons learned from the Mixed Commission.
108. For 2023, the mission's planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include raising the awareness of border communities during routine preparations for pillar construction and

engagement with the two parties, Cameroon and Nigeria, to ensure compliance with COVID-19 measures, including the vaccination of experts working in the field.

109. The above-mentioned work is expected to result in:
- (a) Consensus on the course of the boundary, as well as how the boundary will be physically demarcated;
 - (b) Physical demarcation of the land boundary shared by Cameroon and Nigeria through the construction and emplacement of boundary pillars;
 - (c) Final maps of the boundary, after which a boundary statement recording the field coordinates of the pillars will be prepared;
 - (d) Enhanced support for the demarcation work and improved living conditions of the affected populations;
 - (e) Consensus on best practices with respect to border management.

External factors for 2023

110. The overall programme plan for 2023 is based on the following assumptions:
- (a) The two States parties, Cameroon and Nigeria, will continue to adhere to the judgment of the International Court of Justice, as well as the workplan adopted by the Mixed Commission;
 - (b) Safety and security conditions will permit field operations to continue unimpeded;
 - (c) Extrabudgetary resources, including additional voluntary contributions, will continue to be made available for border demarcation, pillar construction and confidence-building initiatives.
111. The Mixed Commission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. Examples include targeting women's groups for the implementation of community development projects in the areas of potable water, capacity-building for employment and community access to the electricity network. The Mixed Commission will continue regular field visits along the land boundary to monitor respect for the legal rights and the well-being of the affected populations, with a special focus on women and young people, as well as other vulnerable groups.
112. With regard to inter-agency coordination and liaison, the mission cooperates with the United Nations country teams in Cameroon and Nigeria to jointly develop confidence-building measures in accordance with the needs of the populations living along the land boundary and to ensure the conditions for peace, security and sustainable cross-border development. The secretariat of the Mixed Commission is hosted within the UNOWAS premises in Dakar. UNOWAS provides administrative and logistical support to the Mixed Commission.
113. In line with the United Nations Disability Inclusion Strategy, the Mission will further seek to integrate disability inclusion into its activities by identifying and addressing their needs among the affected population through awareness-raising.

Programme performance in 2021

Political agreement on border reached, allowing for the drafting of the final boundary statement to commence

114. During 2021, the Chair of the Mixed Commission held intensive consultations with the heads of the Nigerian and Cameroonian delegations to reconcile divergent positions on specific points of contention. This led to both delegations reaching an agreement to hold a Mixed Commission session in Yaoundé on 19 and 20 November to advance a resolution of the contested areas. During the session, agreement was reached on two of the six points of disagreement. In addition, the parties agreed to the terms of reference to facilitate the field assessment of the four remaining disputed areas.

115. Confidence-building projects in favour of populations affected by the demarcation planned for both countries include improving food security, access to potable water, capacity-building for employment, access to energy and enhanced security. The mission collaborated with the United Nations country teams in both countries to identify areas of cooperation for joint initiatives to assist the populations affected by the demarcation.
116. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: number of points of disagreement**Planned result for 2023****Achievement of consensus between Cameroon and Nigeria****Programme performance in 2021 and target for 2023**

117. The mission's work contributed to the resolution of and agreement on 9 of 13 areas of disagreement along the land boundary between Cameroon and Nigeria, and to the construction of an additional 329 pillars, representing 62 per cent of the demarcated boundary. The annual target was not met in full owing to divergent interpretations by the parties of certain paragraphs in the International Court of Justice judgment.

Lessons learned and planned change

118. The lesson learned for the mission is that engaging the leadership of the two delegations in bilateral meetings and holding a Mixed Commission session leads to the earlier resolution of areas of disagreement between the parties. In applying the lessons, the mission will hold more regular Mixed Commission meetings and continue to intensively engage the leadership and technical experts of the States parties to make further progress towards settling the four remaining areas of contention. The Mixed Commission will also ensure the continued implementation of security protocols adopted by both parties to allow for enhanced access to work sites for the emplacement of pillars.
119. Progress towards the objective and the target for 2023 are presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of pillars constructed (cumulative)

Deliverables

120. Table 18 lists all deliverables of the mission.

Table 18

Deliverables for the period 2021–2023, by category and subcategory

Category and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge

4. Report on the subcommission on demarcation	3	3	3	3
5. Report of the project steering committee and technical monitoring team	16	16	4	4
C. Substantive deliverables				
Good offices: provision of good offices on issues related to the peaceful implementation of the judgment of the International Court of Justice, including on demarcation and cross-border cooperation; and good offices to build consensus on the border demarcation process.				
Consultation, advice and advocacy: technical advice to experts from Cameroon and Nigeria to facilitate resolution of areas of disagreement; advocacy for cross-border cooperation and socioeconomic projects benefiting 177,000 affected people; and raising awareness of affected local communities in the Cameroon and Nigeria border area.				
Fact-finding, monitoring and investigation missions: fact-finding and regular monitoring mission on the implementation of the construction of boundary pillars; field data and map validation; and two monitoring missions on human rights and well-being of the affected populations along the land boundary.				
Databases and substantive digital materials: production of digital geospatial material on an estimated 6,117 agreed positions depicting the Cameroon-Nigeria boundary.				
D. Communication deliverables				
Outreach programmes, special events and information materials: brochures, flyers, information kits and special events to promote the activities of the mission, notably the demarcation process, as well as to enhance its visibility.				
External and media relations: press conferences, press releases and media interviews on the activities of the mission.				
Digital platforms and multimedia content: dissemination of information related to the mission on social media platforms.
