	I. Organizational structure and post distribution for 2025	183
	II. Summary of proposed changes in established and temporary posts, by component	200
	III. Overview of financial and post resources, by component and funding source	202

Overview of resources for the regular budget

- 1.1 The proposed regular budget resources for 2025 for all policymaking organs and entities under section 1, including the breakdown of resource changes, as applicable, are reflected in tables 1.1 to 1.3, and the summary of resources by component and funding source is contained in annex III. Detailed information on the proposed programme budget for 2025 is provided under each policymaking organ and entity. The proposed resource level under section 1 provides for the full, efficient and effective implementation of mandates of all relevant entities and offices.

I. Policymaking organs

1.2 The resources proposed under this component would provide for requirements relating to the General Assembly, the Advisory Committee on Administrative and Budgetary Questions, the Committee on Contributions, the Board of Auditors, the United Nations Staff Pension Committee, the Committee for Programme and Coordination and the Independent Audit Advisory Committee. Table 1.4 provides information and related resource requirements under the regular budget.

Total	204.5	259.7	(6.2)	–	–	(6.2)	(2.4)	253.5

1.7 Additional details on the distribution of the proposed resources for 2025 are reflected in table 1.8 and figure 1.I.

1.8 As shown in tables 1.7 and 1.8 (1), the overall resources proposed for 2025 amount to \$253,500 before recosting, reflecting a decrease of \$6,200 (or 2.4 per cent) compared with the approved budget for 2024. Resource changes result from technical adjustments. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.I
Distribution of proposed resources for 2025 (before recosting)

(Thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 1.9 As shown in table 1.8 (1), resource changes reflect a decrease of \$6,200, relating to the removal of non-recurrent provisions under furniture and equipment associated with the acquisition of office automation equipment for newly established general temporary assistance positions that were approved for 2024, pursuant to General Assembly resolution [78/253](#).

Extrabudgetary resources

- 1.10 As reflected in table 1.8 (2), extrabudgetary resources amount to \$2,837,200. The non-post resources would complement regular budget resources and would be used mainly to complement the programme of work and facilitate funding for a broad range of projects and activities implemented by the office, at the discretion of the Presidents of the General Assembly. In addition, the resources would be used, at the discretion of the Presidents of the General Assembly, to support the fellowship programme initiated in 2021.
- 1.11 The extrabudgetary resources under the present section are subject to the oversight of the Department for General Assembly and Conference Management, which has delegated authority from the Secretary-General.

Part I Overall policymaking, direction and coordination

1.12 Information on the advance booking for air travel is reflected in table 1.9. The office will continue its efforts to ensure the advance booking of tickets in line with the air travel policy and improve its compliance rate.

Table 1.9

Figure 1.II
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

- 1.18 As reflected in tables 1.14 (2) and 1.15 (2), other assessed resources amount to \$862,700. The resources would complement regular budget resources and provide for the requirements indicated in report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 ([A/78/746](#)).
- 1.19 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.17.
- 1.20 The compliance rate for travel of the members of the Advisory Committee to their countries of origin continues to be affected by national policies and route changes, which, in turn, affect the advance travel planning that the secretariat of the Committee usually undertakes to make travel arrangements within the specified notice period. Delays in ticketing for the Committee’s field trip in May 2023 and complexities in the onboarding of new members also affected the timely processing of travel arrangements. The Secretariat continues to review and optimize its efforts in managing the range of factors having an effect on the work of the Committee and the resulting compliance rate.

3. Committee on Contributions

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.21 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in table 1.18.

Table 1.18
Evolution of financial resources by object of expenditure
 (Thousands of United States dollars)

Object of expenditure	2023 expenditure	2024 approved	Changes				2025 estimate (before recosting)	
			Technical adjustments	New/ expanded mandates	Other	Total		Percentage
Travel of representatives	320.1	489.5	(90.8)	–	–	(90.8)	(18.5)	398.7
Total	320.1	489.5	(90.8)	–	–	(90.8)	(18.5)	398.7

- 1.22 As reflected in table 1.18, the overall resources proposed for 2025 amount to \$398,700 before recosting, reflecting a decrease of \$90,800 (or 18.5 per cent) compared with the approved budget for 2024. Resource changes result from technical adjustments.

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 1.23 As reflected in table 1.18, resource changes reflect a decrease of \$90,800, relating to the removal of non-recurrent provisions associated with the travel of representatives for the additional week of meetings scheduled for the eighty-fourth session of the Committee on Contributions, in 2024.
- 1.24 Information on the advance booking for air travel is reflected in table 1.19. The secretariat of the Committee will continue to raise the awareness of travellers on the policy for the advance purchase of air tickets.

Table 1.19

Figure 1.III
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.28 As reflected in tables 1.23 (1) and 1.24 (1), resource changes reflect a decrease of \$15,300, owing to lower provisions for other staff costs, in line with recent expenditure patterns.

Other assessed resources

- 1.29 As reflected in table 1.23 (2), other assessed resources amount to \$4,056,900. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 ([A/78/746](#)).

Extrabudgetary resources

- 1.30 As reflected in tables 1.23 (3) and 1.24 (2), extrabudgetary resources amount to \$6,619,100. The resources would complement regular budget resources and would be used mainly to provide for one post (General Service (Other level)) and non-post resources that would be used to support the audit of technical cooperation projects undertaken by the Department of Economic and Social Affairs, the regional commissions and the Office of the United Nations High Commissioner for Human Rights (OHCHR), as well as trust fund-related audits included in United Nations entities and the full range of activities, entities and programmes falling under the auspices of the Secretariat (see [A/78/5 \(Vol. I\)](#)).
- 1.31 The extrabudgetary resources under the present section are subject to the oversight of the Board.
- 1.32 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.26. The Board secretariat will continue its 100 per cent compliance with the advance booking of air travel policy.

Table 1.26
Compliance rate
 (Percentage)

^a No travel was undertaken by the Board owing to coronavirus disease (COVID-19) travel restrictions.

5. Secretariat of the United Nations Staff Pension Committee (including reimbursement from the United Nations for services provided by the United Nations Joint Staff Pension Fund)

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.33 The United Nations Joint Staff Pension Fund was established by the General Assembly in 1949 to provide retirement, death, disability and related benefits to the staff of the United Nations and such other organizations as might be admitted to its membership. In accordance with the regulations adopted by the Assembly, the Pension Fund is administered by the United Nations Joint Staff Pension Board, a staff pension committee for each member organization and a secretariat of the Pension Board and each such committee.
- 1.34 The expenses incurred by the staff pension committee in the administration of the regulations of a member organization are met by the general budget of that organization. However, given that the central secretariat of the Pension Fund grew out of the secretariat of the United Nations Staff Pension Committee, it continued to handle pension administration for the United Nations by special arrangement with the Pension Board. For those services, the United Nations reimburses the Pension Fund in accordance with the cost-sharing arrangement, as approved by the General Assembly in its resolution [75/246](#).
- 1.35 At the time that the present report was being prepared, the proposed budget of the Pension Fund for 2025 had not been finalized. The estimates will be subject to further revision in accordance with the administrative budget of the Pension Fund for 2025 and action taken by the General Assembly at its seventy-ninth session on the basis of the recommendations that the Pension Board may make in 2024 with respect to that budget. A statement of administrative and budgetary implications will be submitted to the Assembly at its seventy-ninth session should the Pension Board's recommendations involve resources different from those estimated in the present report.
- 1.36 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in table 1.27.

^a No travel was undertaken owing to COVID-19 travel restrictions.

II. Secretary-General

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.47 In accordance with Article 97 of the Charter of the United Nations, the Secretary-General, who is appointed by the General Assembly on the recommendation of the Security Council and who, in turn, appoints the staff, is the Chief Administrative Officer of the Organization. The Secretary-General also has an important political function by virtue of Article 99 of the Charter and a role in all United Nations meetings and such other functions as are entrusted to him by other principal organs of the Organization, as provided for in Article 98.
- 1.48 As the Chief Administrative Officer of the Organization, the Secretary-General is entrusted with a broad range of responsibilities under the Charter. Within the sphere of competence of the office, the Secretary-General takes action, on his own initiative, on a wide range of political, economic, social and humanitarian questions, reporting to and requesting guidance from the General Assembly and the Security Council, as appropriate. He uses his best efforts to assist in settling disputes between States and may bring to the attention of the Council any matter that may threaten the maintenance of international peace and security. Moreover, the Secretary-General plays a key role in efforts to ensure the observance of human rights. He provides policy direction to the departments, offices and other organizational units of the Secretariat in the execution of their functions and guidance and coordination to the programmes and other elements of the Organization. In addition, as Chair of the United Nations System Chief Executives Board for Coordination (CEB), the Secretary-General has a coordinating function in relation to the entire United Nations system of organizations. The activities of the Secretary-General in 2025 will be directed towards the achievement of the priorities of the Organization.
- 1.49 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.37 to 1.39.

Table 1.37

III. Executive direction and management

- 1.52 The proposed resources under executive direction and management would provide for the Executive Office of the Secretary-General and the offices of the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi. Those offices provide support to the Secretary-General in his capacity as Chief Administrative Officer of the United Nations under Article 97 of the Charter of the United Nations by assisting in: (a) the establishment of general policy and in the exercise of executive direction in relation to the work of the Secretariat, the United Nations funds and programmes and other entities within the Organization; (b) the supervision and coordination of the work of the Organization pursuant to the decisions of the Secretary-General and to the relevant directives of the intergovernmental bodies concerned; (c) relations with the press and the public; (d) inter-agency coordination functions in relation to the United Nations system of organizations, regional organizations and non-governmental organizations (NGOs); (e) relations with the principal organs of the United Nations and host Governments; and (f) contacts with Governments and delegations pursuant to Articles 98 and 99 of the Charter. Further details are provided under the relevant components. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

1. Executive Office of the Secretary-General

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.53 The Executive Office of the Secretary-General provides assistance to the Secretary-General in the establishment of general policy, in the executive direction, coordination and expeditious performance of the work of the Secretariat and of the programmes and other elements of the Organization, and in contacts with Governments, delegations, the press and the public. It provides further assistance to the Secretary-General in strategic planning, the preparation of the annual report of the Organization and the annual report on the rule of law, political, economic and inter-agency affairs, liaison and representation functions and the fulfilment of the priorities and mandates set out by the General Assembly. The resources of the Executive Office also provide for the post of Deputy Secretary-General, whose functions and responsibilities are defined in paragraph 1 of Assembly resolution [52/12 B](#).
- 1.54 The Executive Office functions as an integrated office, with reporting lines through the Deputy Secretary-General, Chef de Cabinet and the Under-Secretary-General for Policy to the Secretary-General. The Assistant Secretary-General will undertake assignments and perform functions in support of the Secretary-General's mandate. The units within the Executive Office work as a team to support the Secretary-General and the activities of the principals regardless of their direct reporting lines. The resources for the Executive Office provide for post and non-post resources in support of the activities of the Secretary-General. While the overall number of posts approved for 2024 remains unchanged, the Executive Office is proposing the reclassification of three posts in 2025, as detailed in annex II.
- 1.55 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Executive Office has continued to integrate environmental management practices into its operations to ensure resource efficiencies, waste reduction and system-wide behavioural changes across the United Nations. In 2023, the Executive Office leveraged the changes that it had initiated in 2020 with regard to lowering its carbon and resource footprint and streamlining correspondences and document processing workflows, reducing printing volumes significantly. With the adoption of Assembly resolution [77/161](#) on promoting

zero-waste initiatives to advance the 2030 Agenda, the Executive Office has also started to examine measures to implement waste reduction practices for system-wide application.

- 1.56 The Executive Office strives to make the reports of the Secretary-General issued by the Office accessible to persons with disabilities. For example, the report of the Secretary-General on the work of the Organization was published in accessible formats, including ePub and Easy Read. In addition to those formats, the report of the Secretary-General on disability inclusion in the United Nations system also included an executive summary in International Sign. In 2025, the Executive Office will continue its efforts to facilitate the issuance of reports and communications of the Secretary-General in accessible formats, where feasible. In 2023, the Executive Office also enhanced the accessibility of events. For example, the high-level “Sustainable Development Goals Action Weekend”, led by the Executive Office, included sessions supported by International Sign interpretation and live captioning, and key meeting materials were produced in ePub format. The Executive Office is also taking active steps to ensure the provision of reasonable accommodation to staff members with disabilities and will continue such efforts in 2025.

Deputy Secretary-General

- 1.57 The Deputy Secretary-General, whose functions and responsibilities are defined in paragraph 1 of General Assembly resolution 52/12 B, will place special focus on sustainable development, including the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development commitments. In this regard, specific attention will be paid to financing for development, the energy transition and food systems transformation, digital for development, education, jobs and social protection, addressing the triple planetary crises of climate change, the environment and pollution, and global health in diverse country contexts. The inclusion agenda – gender equality, young people and persons with disabilities, among others – and partnerships for acceleration of the Goals will receive priority attention across all streams of work to ensure that no one is left behind. Collaboration across humanitarian and development action and the links to peacebuilding, as well as transitions from crisis and conflict to sustainable development, migration and development, will also be critical areas of work. The Deputy Secretary-General will chair the United Nations Sustainable Development Group, including the oversight of the Development Coordination Office, and lead implementation of the repositioning of the United Nations development system. The Deputy Secretary-General directly oversees the work of the Sustainable Development Unit and chairs the Rule of Law Coordination and Resource Group.

Chef de Cabinet

- 1.58 The Chef de Cabinet supports the Secretary-General in the execution of his political role and engagements. The Chef de Cabinet acts as an interface with Member States and, on behalf of the Secretary-General, primarily with the General Assembly and the Security Council. In addition, the Chef de Cabinet oversees the administrative and management portfolio, senior leadership appointments and the implementation of the management reforms, peace and security reforms, and other reforms as requested by the Secretary-General, as well as the alignment of the various reform streams. The Chef de Cabinet also oversees the efforts of the Organization to advance equitable geographical distribution and gender parity, to prevent sexual exploitation and abuse and to address racism within the Organization. The Chef de Cabinet chairs the Management Committee, the Management Performance Board, the High-level Steering Group on preventing sexual exploitation and abuse and the Senior Emergency Policy Team. The Chef de Cabinet also oversees the work of and substantive support provided to those bodies and the Standing Principals’ Group. The Chef de Cabinet provides direction and oversees the overall management of the Executive Office and directly oversees the Political, Peacekeeping, Humanitarian and Human Rights Unit, the Strategic Communication and Speech Writing Unit, the Office of the Spokesperson and the Management and Administrative Unit.

Under-Secretary-General for Policy

- 1.59 The Under-Secretary-General for Policy supports the Secretary-General in maintaining a holistic overview and strategic oversight of policy matters across all pillars of the work of the United Nations, including, preparations for the Summit of the Future, leading and coordinating the follow-up to Our Common Agenda and overseeing the Secretary-General's Call to Action for Human Rights. The Under-Secretary-General initiates and leads horizontal and vertical integration for system-wide coherence on conflict prevention policies, tools and operations; monitors emerging global issues and brewing crises and advises the Secretary-General on appropriate options and responses; and ensures that fresh thinking and outside perspectives are introduced. The Under-Secretary-General oversees the follow-up to the High-level Panel on Internal Displacement. The Under-Secretary-General is the Secretary of the Senior Management Group and the Executive Committee and chairs the Deputies Committee and coordinates closely on matters related to CEB. The Under-Secretary-General also directly oversees the Strategic Planning and Monitoring Unit, the Rule of Law Unit and the Summit of the Future/Our Common Agenda team (which has been placed in the Under-Secretary-General's office), and ensures strategic coordination and coherence in the work of the Strategic Planning and Monitoring Unit, the Rule of Law Unit, the Summit of the Future/Our Common Agenda team, the Political, Peacekeeping, Humanitarian and Human Rights Unit, which reports to the Chef de Cabinet, and the Sustainable Development Unit, which reports to the Deputy Secretary-General.

Office of the Secretary-General

- 1.60 The Office of the Secretary-General provides support and assistance to the Secretary-General. The Office liaises with the Deputy Secretary General, Chef de Cabinet and the Under Secretary-General for Policy, and conveys the Secretary General's guidance. It reviews and clears documentation, correspondence, notes, letters, reports and statements. The Office oversees the scheduling of meetings and events, the preparation of scenarios and the travel of the Secretary-General, and is responsible for preparation for scheduled activities, including consolidating background notes, key messages, remarks and speeches, and liaising with permanent missions.

Management and Administrative Unit

- 1.61 The Management and Administrative Unit provides support to the Secretary-General and the Executive Office in the areas of human resources, financial and budgetary management and general administration. In addition, the Unit carries out advisory and liaison functions with regard to matters relating to management, oversight, conference support, safety and security, legal affairs, ethics, and conduct and discipline. The Unit, which includes the Central Records Unit, also ensures the effective management of correspondence for the Secretary-General and the Executive Office.

Office of the Spokesperson

- 1.62 The Office of the Spokesperson for the Secretary-General provides information to the media on the work of the Secretary-General and the United Nations system as a whole through daily briefings, direct responses to media enquiries, press conferences, background briefings and interviews with the Secretary-General, the Deputy Secretary-General and other senior officials. The Office provides advice on media relations to the Secretary-General, the Deputy Secretary-General and United Nations officials. Personnel of the Office travel with the Secretary-General, keep him abreast of breaking news, interact with media to ensure coverage of the activities of the Secretary-General, and ensure that all statements made are placed on record.

Political, Peacekeeping, Humanitarian and Human Rights Unit

- 1.63 The responsibilities of the Political, Peacekeeping, Humanitarian and Human Rights Unit include working closely with the relevant line departments to provide situational awareness, trend analysis and advice on emerging and ongoing issues of interest and concern across the political, peacekeeping, humanitarian and human rights portfolios; supporting senior management decision-making on country situations and relevant thematic files; ensuring effective and coordinated United

Nations system analysis, reporting and response on situations of interest and concern; ensuring policy oversight and quality assurance of various communications and reports of the Secretary-General on political, peacekeeping, humanitarian or human rights issues; providing high-quality and well-coordinated input to public and private communications; and ensuring that human rights concerns are adequately reflected in the above-mentioned work.

Rule of Law Unit

- 1.64 The Rule of Law Unit acts as a catalyst of action in strengthening United Nations activities to promote the rule of law. The Unit serves as the focal point in the Executive Office for legal questions, the rule of law, counter-terrorism and the prevention of violent extremism, international justice and accountability, organized crime and drugs, transitional justice and anti-corruption, and provides support for the system-wide coordination, coherence and quality of rule of law activities of the United Nations. It develops system-wide strategies, policy direction, best practice materials and guidance for the Organization in promoting the fundamental importance of the rule of law. Moreover, the Unit provides support to the Rule of Law Coordination and Resource Group in carrying out and implementing the tasks set out in the related report of the Secretary-General (A/61/636-S/2006/980) and leads the preparation of the Secretary-General's annual report on the rule of law.

Scheduling and Travel Unit

- 1.65 The Scheduling and Travel Unit oversees the scheduling of meetings, events and travel of the Secretary-General, handling requests for invitations and individual meetings in consultation with departments, offices and units. The responsibilities of the Unit include preparation for scheduled activities (meetings, events and travel), including the consolidation of briefing materials, the preparation of scenarios and the organization of the travel of the Secretary-General.

Strategic Communication and Speech Writing Unit

- 1.66 The Strategic Communication and Speech Writing Unit provides communications advice and support to the Secretary-General. The unit drafts speeches, video messages, op-ed articles and other materials for delivery by the Secretary-General. The Unit also works with communications colleagues and others across the United Nations system on strategic planning and crisis communications; helps to formulate key messaging; ensures that the Secretary-General's speeches and messages are disseminated as widely as possible; and provides speech support to the Deputy-Secretary General and other senior officials in the Executive Office.

Strategic Planning and Monitoring Unit

- 1.67 The Strategic Planning and Monitoring Unit provides support for strategic decision-making, priority-setting, forward planning, analysis and risk management, and ensuring strategic direction and coherence in planning frameworks; and supports analyses, reviews, assessments and plans for integrated United Nations response efforts, with a focus on crisis-affected and fragile settings, including the preparation of strategic options for engagement based on information from the United Nations system. The Unit translates the guidance of the Secretary-General into strategic directives and supports his efforts to develop new capabilities that promote agility, integration and cohesion across the United Nations system and to offer solutions to the challenges of the twenty-first century.

Sustainable Development Unit

- 1.68 The Sustainable Development Unit supports the strategic engagement on sustainable development, guided by the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development commitments, as well as the reform of the United Nations development system. In a context marked by crises and setbacks to the achievement of the Goals, the Unit supports the Secretary-General and the Deputy Secretary-General in mobilizing ambition and action and achieving policy breakthroughs, to reverse deteriorating trends relating to the Goals, and to unlock

transformative change through a repositioned United Nations development system and expanded multi-stakeholder engagement and partnerships. Financing for development, climate action and environmental protection, digital for development, jobs and social protection, global health, education, migration and development, the humanitarian-development-peace nexus and transitions from crisis and conflict to sustainable development are priority areas under the responsibility of the Unit. The inclusion agenda – gender equality, young people and persons with disabilities, among others – and partnerships for acceleration of the Goals will receive priority attention across all streams of work to ensure that no one is left behind. The Unit also provides substantive input to the Chef de Cabinet and the Under-Secretary-General for Policy for joint action on the Executive Office’s priorities and contributes to the preparations for and the integrated analysis of the material discussed during the meetings of the Executive Committee.

1.69 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.41 to 1.43.

1.70 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.44 to 1.46 and figure 1.VII.

1.71 As reflected in table 1.44 (1), the overall resources proposed for 2025 amount to \$18,840,700 before recosting, reflecting an increase of \$120,600 (or 0.6 per cent) compared with the approved budget for 2024. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

 (Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

1.72 As reflected in table 1.44 (1), resource changes reflect an increase of \$120,600, comprising:

- (a) An increase of \$70,600 under posts owing to the proposed upward reclassification of three posts (Communications Officer (from P-3 to P-4), Information Management Assistant (from General Service (Other level) to General Service (Principal level)) and Staff Assistant (from General Service (Other level) to General Service (Principal level))) (see annex II to the present report);

- (b) An increase of \$50,000 under contractual services, owing to the planned integration of Salesforce with Inspira for reference checks. The proposed requirements include one-time development costs of \$34,000 and annual maintenance and licence fees of \$16,000. The integration is essential for enhancing the reference check process during the appointment of senior leadership.

Other assessed resources

- 1.73 As reflected in tables 1.44 (2) and 1.45 (2), other assessed resources amount to \$1,323,800. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 (A/78/746).

Extrabudgetary resources

- 1.74 As reflected in tables 1.44 (3) and 1.45 (3), extrabudgetary resources amount to \$32,450,600. The resources would complement regular budget resources and would be used mainly to provide for 39 posts (1 D-2, 1 D-1, 10 P-5, 8 P-4, 9 P-3, 1 P-2, 1 General Service (Principal level) and 8 General Service (Other level)) and non-post resources that would be used to support the delivery of its mandates, including supporting the Secretary-General in his responsibilities and the Executive Office’s activities in all regions of the world, providing support for the financing of activities relating to the maintenance of international peace and security, and providing for special projects to be undertaken by the Executive Office.
- 1.75 The extrabudgetary resources under the present section are subject to the oversight of the Executive Office, which has delegated authority from the Secretary-General.
- 1.76 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.47. The vast majority of the travel undertaken in the Executive Office is in connection with the formal delegations of the Secretary-General and of the Deputy Secretary-General. The official visits of the Secretary-General and of the Deputy Secretary-General involve complex preparation and logistical arrangements with respect to the agenda and scheduling with numerous high-level government officials. Therefore, such preparations are, in many cases, finalized close to the departure date and are subject to last-minute changes. Furthermore, the official visits, in most cases, involve multiple consecutive meetings in various countries and regions in order to save financial resources that would have been otherwise incurred had the travel been to a single destination with a round trip to New York. Hence, the coordination of these multiple-leg trips with numerous high-level participants is more complex and involves additional extensive preparations with unforeseen circumstances. It should be noted that the Executive Office often works directly with the Travel Unit and reserves the tickets on the basis of a preliminary itinerary to secure the tickets at a low price, before the formal actions are recorded in Umoja, which are then completed at a later stage, once final information is confirmed. The Executive Office is mindful of and takes the utmost efforts to achieve improved compliance with the advance booking of air travel policy.

2. Office of the Director-General, United Nations Office at Geneva

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.77 The Office of the Director-General of the United Nations Office at Geneva provides executive support to the Director-General in her functions as the representative of the Secretary-General in Switzerland, as executive head of the United Nations Office at Geneva and as the designated official for security for Switzerland, as mandated and described in the Secretary-General's bulletin on the organization of the United Nations Office at Geneva ([ST/SGB/2000/4](#)). The functions of the Office of the Director-General are to:
- (a) Provide executive support to the Director-General and assist the Director-General in the overall direction and management of the United Nations Office at Geneva and the coordination of the activities of its units;
 - (b) Liaise with the Executive Office of the Secretary-General and other Secretariat units at Headquarters and other duty stations;
 - (c) Maintain contact with permanent and observer missions, including coordinating information to them;
 - (d) Provide advice and support to the Director-General in relation to communications, public relations and outreach activities;
 - (e) Provide advice and support to the Director-General in the discharge of political and representational functions with Member States and regional and other intergovernmental organizations, and liaise with relevant Headquarters departments in this area;
 - (f) Organize the observance of mandated and selected international days;
 - (g) Maintain and develop cooperation with Geneva-based United Nations entities, including arranging consultations between the Director-General and the heads of the funds, programmes and specialized agencies in Geneva, and facilitating inter-agency cooperation;
 - (h) Support the Director-General in building partnerships in support of the work of the Organization, including with civil society, the academic and research community and the private sector; liaising with relevant Headquarters departments in this area; and liaising with NGOs, first and foremost with those in consultative status with the Economic and Social Council, and facilitating their participation in United Nations activities;
 - (i) Maintain and develop cooperation with research and academic institutions, civil society, think tanks and the private sector, including organizing joint events;
 - (j) Represent the United Nations Legal Counsel at Geneva, assist the Director-General in all legal matters, provide legal advice to substantive departments and services at the United Nations Office at Geneva and to funds and programmes at Geneva, and liaise with the host country and other authorities concerning privileges and immunities, the implementation of Headquarters agreements and other questions affecting United Nations agreements;
 - (k) Carry out protocol and diplomatic liaison functions with permanent and observer missions and authorities of the host country, provide protocol advice to United Nations entities at Geneva and advise the Geneva Diplomatic Committee in its work;
 - (l) Support the implementation of the 2030 Agenda through communication and outreach activities, capitalizing on the presence in Geneva of a diversity of stakeholders directly involved in the achievement of the Sustainable Development Goals, by acting as convenor, facilitator and connector among actors in Geneva and other duty stations;
 - (m) Lead the United Nations Office at Geneva as it adapts to new realities and challenges, ensuring business continuity at the Palais des Nations during the strategic heritage plan project, while

Section 1 Overall policymaking, direction and coordination

promoting a culture of efficiency, environmental responsibility and agile work practices to meet the evolving needs of the international community.

1.78 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.48 to 1.50.

Extrabudgetary resources

- 1.81 As reflected in tables 1.51 (2) and 1.52 (2), extrabudgetary resources amount to \$533,200. The resources would complement regular budget resources and would be used mainly to provide for three posts (General Service (Other level)) to support the Office’s work in the Legal Affairs Section and the Political Affairs and Partnerships Section.
- 1.82 The extrabudgetary resources under the present section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.
- 1.83 Information on the advance booking for air travel is reflected in table 1.54. The Office of the Director-General will continue to plan its travel in order to reach 100 per cent compliance with the advance booking of air travel policy.

3. Office of the Director-General, United Nations Office at Vienna

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.84 The Office of the Director-General of the United Nations Office at Vienna provides executive support to the Director-General in her functions as the representative of the Secretary-General in Austria, as executive head of the United Nations Office at Vienna, including the United Nations Information Service, and as a designated official for security for Austria. The Office of the Director-General also maintains liaison with the host Government and other Governments and intergovernmental

Section 1 Overall policymaking, direction and coordination

organizations and NGOs in Vienna. The responsibilities of the Director-General are combined with those of the Executive Director of UNODC. The Office of the Executive Director is integrated with that of the Director-General and is supported by UNODC resources. The functions of the Office of the Director-General, as outlined in the Secretary-General's bulletin on the organization of the United Nations Office at Vienna ([ST/SGB/2004/5](#)), are to:

- (a) Provide assistance to the Director-General in the executive direction and management of the United Nations Office at Vienna and in the coordination of the activities of its units;
- (b) Cooperate with the host Government and provide protocol services to the United Nations offices in Vienna, including processing letters of credentials for the heads of permanent missions in Vienna and maintaining liaison with NGOs in consultative status with the Economic and Social Council;
- (c) Represent the United Nations Legal Counsel in Vienna and provide assistance to the Director-General on all legal matters and legal services for entities of the Secretariat in Vienna;
- (d) Arrange for representation of the United Nations at meetings and conferences held in Vienna;
- (e) Coordinate with the United Nations Industrial Development Organization, the International Atomic Energy Agency and the Preparatory Commission of the Comprehensive Nuclear-Test-Ban Treaty Organization on common policy matters affecting the entities based in Vienna;
- (f) Maintain liaison with the Executive Office of the Secretary-General and other Secretariat units at Headquarters.

1.85 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.55 to 1.57.

4. Office of the Director-General, United Nations Office at Nairobi

B. Proposed post and non-post resource requirements for 2025

Overview

1.89 The functions of the Office of the Director-General of the United Nations Office at Nairobi are outlined in the Secretary-General’s bulletin on the organization of the United Nations Office at Nairobi (ST/SGB/2009/3). The Director-General is responsible for all activities of the Office, serves as the representative of the Secretary-General and performs representation and liaison functions with

the host Government, permanent missions and intergovernmental organizations and NGOs based in Nairobi. The responsibilities also include the executive direction and management of the United Nations Office at Nairobi, including the programmes of administration and conference services, other support and common services and the United Nations Information Centre in Nairobi. The functions of the Office of the Director-General are to:

- (a) Provide assistance to the Director-General in all functions, including ad hoc responsibilities assigned by the Secretary-General;
- (b) Cooperate with the host Government and provide protocol services for the United Nations Office at Nairobi, including processing letters of credentials for the heads of permanent missions in Nairobi;
- (c) Provide legal advisory services for the United Nations Office at Nairobi, the United Nations Environment Programme and the United Nations Human Settlements Programme (UN-Habitat);
- (d) Maintain liaison with the Executive Office of the Secretary-General and Headquarters-based Secretariat units.

1.90 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.60 to 1.62.

Figure 1.X
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

1.93 As reflected in tables 1.63 (1) and 1.64 (1), resource changes reflect an increase of \$265,100, relating to the higher provision at continuing vacancy rates for the three posts (Senior Political Affairs Officer (P-5), Protocol Affairs Officer (P-3) and Protocol Affairs Officer (P-2)) established in 2024 pursuant to General Assembly resolution 78/252, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts.

Extrabudgetary resources

1.94 As reflected in tables 1.63 (2) and 1.64 (2), extrabudgetary resources amount to \$221,500. The resources would complement regular budget resources and would be used mainly to provide for one post (General Service (Other level)) and non-post resources that would be used to support the implementation of activities of the Office of the Director-General, including serving as the representative of the Secretary-General and performing representation and liaison functions with the host Government, permanent missions and intergovernmental organizations and NGOs based in Nairobi.

1.95 The extrabudgetary resources under the present section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.

1.96 Information on the advance booking for air travel is reflected in table 1.66. The Office of the Director-General continues to plan and monitor travel activities in close collaboration with processing offices, including the Travel Unit, to improve compliance with the advance booking of air travel policy.

IV. Office of the Special Representative of the Secretary-General for Children and Armed Conflict

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.97 The Special Representative of the Secretary-General for Children and Armed Conflict is responsible for the protection of children affected by armed conflict and for advocating to prevent the six grave violations against children identified by the Security Council from occurring in the first place. These six grave violations are the denial of humanitarian access for children (resolution [1261 \(1999\)](#)); the recruitment and use of children (resolution [1379 \(2001\)](#)); the killing and maiming of children (resolution [1882 \(2009\)](#)); rape and other forms of sexual violence against children (*ibid.*); attacks on schools and hospitals (resolution [1998 \(2011\)](#)); and the abduction of children (resolution [2225 \(2015\)](#)). The Office of the Special Representative works primarily in those situations of armed conflict or of concern identified in the annual report of the Secretary-General on children and armed conflict. The Office covers 25 situations in 5 geographical regions and promotes enhanced monitoring and reporting at the subregional level in the Lake Chad basin and central Sahel regions, in accordance with the report of the Secretary-General on children and armed conflict in 2023 ([A/77/895-S/2023/363](#)).
- 1.98 The mandate was established by the General Assembly in its resolution [51/77](#), in which it outlined some of the key priorities of the mandate of the Special Representative, which were further formulated and shaped in subsequent Assembly resolutions and/or decisions, including resolution [58/245](#), as well as Security Council resolution [1261 \(1999\)](#) and subsequent Council resolutions. The key elements of the mandate of the Special Representative are therefore to: (a) provide political leadership and high-level advocacy for the improved protection of children affected by armed conflict; (b) lead the collection of information and reporting on the plight of these children; (c) advocate, build awareness of and give prominence to ending and preventing grave violations; (d) work with United Nations partners, Member States, civil society and pertinent intergovernmental bodies to propose ideas, undertake research and facilitate discussions on the best approaches to enhance the protection response for children in situations of armed conflict, including through improved accountability processes; (e) undertake diplomatic engagement with parties to armed conflict and affected Member States in order to secure commitments to end and prevent violations against children; and (f) facilitate the work of operational child protection actors on the ground through the development and promotion of best practices, such as ensuring that child protection issues are included in peace processes, appropriate release procedures are in place, reintegration programmes are strengthened to avoid re-recruitment opportunities, child protection expertise and capacity are reinforced, and regional and national prevention plans and policies against the six grave violations are promoted.
- 1.99 By its resolution [76/147](#), the General Assembly recommended that the Secretary-General extend the mandate of the Special Representative for an additional period of four years, until 2025.

Programme of work

Objective

- 1.100 The objective, to which the Office contributes, is to eradicate the six grave violations committed against children in situations of armed conflict through strengthened mechanisms for the protection

of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect children in situations of armed conflict, including by ensuring that children are placed at the centre of peace negotiations and securing optimal conditions for the release and reintegration of children, thereby avoiding re-recruitment.

Strategy and external factors for 2025

- 1.101 To contribute to the objective, the Office will strengthen mechanisms for the protection of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect conflict-affected children. Specifically, the Office will:
- (a) Monitor and report on violations against children in situations of armed conflict through the reinforcement of existing child protection capacities on the ground and facilitate information exchanges to identify and mitigate trends in the use and abuse of children in, for and by armed conflict;
 - (b) Enhance its diplomatic engagement, including through direct dialogue and/or country visits by the Special Representative, with parties to armed conflict to promote ending and preventing the use and abuse of children, and continue to advocate the protection of children affected by conflict and the prevention of grave violations against them through analysis, public outreach and targeted support, as well as the development of groups of friends of the mandate in affected States and regions;
 - (c) Develop community, national, subregional and regional prevention plans, as well as other preventive measures, guided by Security Council resolutions [2427 \(2018\)](#) and [2601 \(2021\)](#), while promoting the adoption of international norms and standards for the protection of children by Member States;
 - (d) Analyse the best practices emerging from ongoing activities to stop grave violations committed against children and promote the continued roll-out of specific public awareness campaigns in all countries and regions where there is active armed conflict and, whenever possible, in all official languages of the United Nations;
 - (e) Develop curricula with partners, conduct training for defence and security personnel and assist in capacity-building for governing structures, United Nations partners, academics and civil society;
 - (f) Undertake research into the six grave violations, provide guidelines to assist in their monitoring, with a focus on the denial of humanitarian access to children and the killing and maiming of children, promote the comprehensive discussion of reintegration needs and promote the inclusion of child protection issues in peace processes;
 - (g) Organize and participate in seminars, workshops, conferences and other relevant meetings to raise awareness of child protection and prevention best practices and proposed best international standards on the protection and release of children who are victims of the six grave violations;
 - (h) Enhance data analysis and information management capacity to better capture the differentiated protection needs of children, including on the basis of age, gender and disability, and whether they are on the move, internally displaced, refugees or victims of cross-border trafficking, and the factors that can exacerbate their vulnerability, such as climate change, poverty and inequality, the proliferation of and illicit trafficking in arms, the impact of landmines, explosive remnants of war and improvised explosive devices, and the impact of new technologies.
- 1.102 The planned deliverables and activities are expected to help Member States to make progress towards the achievement of the Sustainable Development Goals, including Goals 3, 4, 5 and 8, in particular target 8.7 on the eradication of child labour, including the recruitment and use of child soldiers; Goals 10 and 16, in particular target 16.2 on ending abuse, exploitation, trafficking and all forms of

violence against and torture of children; and Goal 17, in particular target 17.18 on enhancing capacity-building support to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographical location and other characteristics. The thematic evaluation of United Nations Secretariat support for the Sustainable Development Goals, completed by the Office of Internal Oversight Services (OIOS) in 2023, has guided the proposed programme plan for 2025.

1.103 The above-mentioned work is expected to result in:

- (a) A decrease in the number of violations committed against children in armed conflict and an increase in the number of children released by armed forces and groups and reintegrated, including through repatriation and removal from situations of armed conflict, in line with the commitments agreed to in action plans, handover and release protocols, other commitments and mutually agreed practices;
- (b) Stronger national and regional protection and prevention systems and accountability mechanisms through justice, remediation and reparation processes, involving Member States, to address gaps in knowledge, common standards and procedures for dealing with children under threat;
- (c) The strengthening of efforts to protect children, including those threatened by intercommunal violence and the emergence of new parties to armed conflict, and specific groups of children at risk;
- (d) An increased mitigation capacity of Governments to prevent violations and ensure equal access to and the continuation of education in conflict;
- (e) An international political consensus that tailored, systematic and sustainable reintegration support should be provided to all released children, including those repatriated or removed from armed conflict zones, and that child protection issues should be included in all peace processes, in order to break the cycle of violence;
- (f) Enhanced capacity of Member States and United Nations country task forces on monitoring and reporting, and their equivalents in countries where there is no monitoring and reporting mechanism in place, to support children and vulnerable communities on the ground;
- (g) Increased participation of children in decision-making processes relating to issues that have an impact on them, including their protection and reintegration needs, in accordance with the Convention on the Rights of the Child.

1.104 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:

- (a) The political environment would be supportive for the improved measures put in place to end and prevent violations committed against children in situations of armed conflict in all situations of the children and armed conflict agenda;
- (b) The dynamics of contemporary armed conflict in which children are normally victimized allow for access to monitor and assist in the implementation of these measures.

1.105 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to garner support for the protection of children in armed conflict, including through engagement with Member States and groups of friends on children and armed conflict, to keep the plight of conflict-affected children high on the global political agenda and to advocate the ratification and implementation of the Convention on the Rights of the Child and its Optional Protocol on the involvement of children in armed conflict, and the endorsement of political commitments; the reinforcement of partnerships with regional and subregional actors for the adoption of measures to prevent grave violations before they occur, including with the African Union, the European Union, the League of Arab States, the Economic Community of West African States and the Economic Community of Central African States; and the engagement with mediation

actors to encourage the inclusion of child protection issues in mediation and peace processes. In addition, the Office will also continue to work closely with civil society organizations, communities, academia and research institutes to build expertise and raise awareness of the protection of children in armed conflict.

- 1.106 With regard to inter-agency coordination and liaison, the Office will continue to support country task forces on monitoring and reporting on grave violations against children and in engaging with parties to conflict to strengthen advocacy for the adoption of measures to end and prevent these violations, including through capacity-building initiatives; the development of guidelines within the Monitoring and Reporting Mechanism Technical Reference Group, an inter-agency group bringing together the Office, the United Nations Children's Fund, the Department of Peace Operations and the Department of Political and Peacebuilding Affairs to provide guidance to United Nations partners implementing the mandate in the field; and the exchange of information within the Task Force on Children and Armed Conflict at United Nations Headquarters. In addition, the Office will continue to strengthen its cooperation with the Offices of the Special Representative of the Secretary-General on Violence against Children and the Special Representative of the Secretary-General on Sexual Violence in Conflict, through information exchange, common messaging and joint events and initiatives, for a more effective and coordinated advocacy to ensure that the plight of conflict-affected children is visible on the international agenda.
- 1.107 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. In 2025, the Office will continue to mainstream a gender perspective into the Monitoring and Reporting Mechanism to strengthen its gender-sensitive analyses of grave violations against children in armed conflict, including through enhanced data analysis and support for the capacity-building activities of its field partners. In this respect, the Office will follow up on the outcomes of the specialized workshop delivered to country task forces on monitoring and reporting in 2023 through a review of the draft tipsheet for strengthening gender analysis in monitoring and reporting and examine the operationalization of the workshop's report and recommendations within the Monitoring and Reporting Mechanism Technical Reference Group, which provides guidance to field-based United Nations monitors of grave violations committed against children in armed conflict. The Special Representative will continue advocacy for the protection of girls' education from attacks, including within the framework of the endorsement and implementation of the Safe Schools Declaration. The Office will also continue to ensure that the platforms that it creates, alongside partners, for the voice of children to be heard in relevant forums will allow for the differentiated experience between girls and boys to be highlighted. Wherever possible, the Office will mainstream a gender perspective and examine the intersection between gender and other factors in the research that it conducts to collect and disseminate lessons learned and best practices on the protection of conflict-affected children.
- 1.108 In line with the United Nations Disability Inclusion Strategy, the Office will continue to strengthen its efforts to address the protection requirements of children with disabilities in armed conflict. In this respect, the Office will build on the discussion paper on the protection of children with disabilities in armed conflict published in 2023 by disseminating its conclusions and advocating with partners the implementation of its recommendations, including the strengthening of data collection on children with disabilities in armed conflict; the consultation of persons with disabilities, including children, and the organizations that represent them; and the provision of awareness-raising and capacity-building initiatives on disability inclusion. The Office will also continue its advocacy efforts to raise awareness of the plight of children with disabilities in armed conflict and mainstream disability inclusion and its intersection with other diversity factors.

Programme performance in 2023

Decrease in the number of verified incidents of military use of schools by armed forces and groups in situations of armed conflict

1.109 The military use of schools by armed forces and groups in situations of armed conflict deprives children of their right to education, as enshrined in the Convention on the Rights of the Child, and reduces the availability of safe and child-friendly spaces, further exposing children to the impacts of conflict. Out-of-school children are at higher risk of being victims of violence and abuse, including grave violations in armed conflict such as recruitment and use, killing or maiming, abduction and sexual violence. While not identified by the Security Council as one of the six grave violations against children in armed conflict, the military use of schools is monitored and reported on by the Office and its United Nations partners in the field as an issue of concern in conjunction with attacks on schools and hospitals, one of those six grave violations identified by the Council, and for the impact of this practice on children's equal access to and the continuation of education in conflict, in line with resolution 2601 (2021). After a sharp increase in 2022 due to the emergence of new conflicts and the intensification of existing conflict situations, the military use of schools by armed forces and groups decreased by nearly 30 per cent in 2023. This reflects the critical role that the children and armed conflict mandate has played through sustained engagement of the Office and its partners with Member States and parties to conflict to adopt measures to end and prevent this practice, as well as through advocacy at the international, regional and national levels for the implementation of the Convention and the endorsement and implementation of political commitments such as the Safe Schools Declaration.

1.110 Progress towards the objective is presented in the performance measure below (see figure 1.XI).

Figure 1.XI

Performance measure: verified incidents of military use of schools by armed forces and groups in armed conflict (annual)

Planned results for 2025

Result 1: increase in the signature of prevention plans, including national, regional and subregional prevention plans, and other measures to prevent grave violations against children and ensure equal access to and the continuation of education in conflict

Programme performance in 2023 and target for 2025

1.111 The Office's work contributed to the signature of one additional prevention plan to prevent grave violations against children in conflict and/or ensure equal access to and the continuation of education in conflict, for a total of five prevention plans and other preventive measures, which met the planned target.

1.112 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XII).

Figure 1.XII

Performance measure: number of prevention plans and other preventive measures to prevent grave violations against children in conflict and/or ensure equal access to and the continuation of education in conflict (cumulative)

Result 2: more children released from armed forces and armed groups

Programme performance in 2023 and target for 2025

1.113 The Office’s work contributed to the release of an estimated 10,000 children from armed forces and armed groups in 2023, which met the planned target of 200,000 released children since 2000.

1.114 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XIII).

Figure 1.XIII

Performance measure: number of released children from armed forces and armed groups since 2000 (cumulative)

Result 3: increase in the signature of action plans, handover protocols and other commitments between the United Nations and parties to conflict to end and prevent grave violations against children

Proposed programme plan for 2025

1.115 The Office engages with parties to conflict, through the direct engagement of the Special Representative or through its country task forces on monitoring and reporting in the field, to advocate and develop jointly, with parties to conflict listed in the annexes of the annual report of the Secretary-General on children and armed conflict, action plans or other commitments to end and prevent grave violations against children. This led to the signature of 43 action plans and other commitments with parties to conflict as of the end of 2023. Action plans and their implementation help to ensure that fewer children are recruited, used and abused in, for and by armed conflict, more children are released from conflict and reintegrated in their society, the criminalization of the six grave violations in national legislation is prioritized, and accountability and capacity are strengthened, therefore breaking the cycle of violence.

Lessons learned and planned change

1.116 The lesson for the Office was that a sustained focus on the protection of conflict-affected children required action plans covering all six grave violations, including more comprehensive provisions to prevent grave violations for which parties to conflict had not been originally listed. In applying the lesson, the Office will, through enhanced engagement, technical support and strategic partnerships, promote and prioritize the signature of comprehensive action plans with detailed provisions to prevent all six grave violations and of handover protocols.

1.117 Expected progress towards the objective is presented in the performance measure below (see figure 1.XIV).

Figure 1.XIV

Performance measure: number of joint action plans, handover protocols and other commitments between the United Nations and parties to conflict to end and prevent grave violations against children (cumulative)

Legislative mandates

1.118 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

51/77	The rights of the child	78/187	Rights of the child
58/245	Office of the Special Representative of the Secretary-General for Children and Armed Conflict		

Security Council resolutions

1261 (1999)	1998 (2011)
1314 (2000)	2068 (2012)
1379 (2001)	2143 (2014)
1460 (2003)	2225 (2015)
1539 (2004)	2427 (2018)
1612 (2005)	2467 (2019)
1882 (2009)	2601 (2021)

Deliverables

1.119 Table 1.67 lists all deliverables of the programme.

Table 1.67

Office of the Special Representative of the Secretary-General for Children and Armed Conflict: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	14	10	15	15
1. Annual report to the General Assembly	1	1	1	1
2. Annual report to the Security Council	1	1	1	1
3. Annual report to the Human Rights Council	1	1	1	1
4. Global horizontal notes to the Security Council Working Group on Children and Armed Conflict	4	4	4	4
5. Reports to the Security Council Working Group on Children and Armed Conflict in specific situations	7	3	8	8
Substantive services for meetings (number of three-hour meetings)	5	5	5	5
Meetings of:				
6. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
7. The Fifth Committee	1	1	1	1
8. The General Assembly	1	1	1	1
9. The Security Council	1	1	1	1
10. The Human Rights Council	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	10	10	12	12
11. Training for child protection actors and country task forces on monitoring and reporting mechanisms	10	10	12	12
Publications (number of publications)	2	2	2	2
12. Studies, reports and other publications relating to children and armed conflict	2	2	2	2

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
Technical materials (number of materials)	1	1	1	1
13. Technical guidelines on the six grave violations against children	1	1	1	1
Fact-finding, monitoring and investigation missions (number of missions)	8	8	9	9
14. Field missions to situations on the children and armed conflict agenda	8	8	9	9

C. Substantive deliverables

Consultation, advice and advocacy: briefings and consultations with Security Council Member States (15 Member States) and some 20 other Member States; briefings and consultations with some 4 regional and subregional organizations that play a role in the prevention of grave violations against children; expert advice on policy matters to national government and regional officials dealing with child protection issues; and advocacy missions in 7 locations.

D. Communication deliverables

Outreach programmes, special events and information materials: keynote speaker or presenter at an annual average of 30 high-level events, NGO and civil society events, retreats, symposiums, round tables and forums on issues relating to children and armed conflict; and multimedia communications materials, including informational brochures, targeting national government and regional officials, as well as the general public, at the global, regional and national levels.

External and media relations: 15 press releases and press conferences; interviews; and recorded statements.

Digital platforms and multimedia content: content for websites and social media accounts.

B. Proposed post and non-post resource requirements for 2025

Overview

1.120 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.68 to 1.70.

Table 1.68

Evolution of financial resources by object of expenditure

Total	12	–	–	–	–	12

1.121 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.71 to 1.73 and figure 1.XV.

1.122 As reflected in tables 1.71 (1) and 1.72 (1), the overall resources proposed for 2025 amount to \$2,904,200 before recosting and reflect no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.XV
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.123 As reflected in tables 1.71 (2) and 1.71 (2), extrabudgetary resources amount to \$2,605,600. The resources would complement regular budget resources and would be used mainly to provide for four posts (2 P-4 and 2 General Service (Other level)) and non-post resources that would be used to support the delivery of its mandates, including enhancing the capacity and expertise of the Office; supporting the country task forces on monitoring and reporting in the field to develop action plans; strengthening public outreach and launching advocacy campaigns; and enhancing analysis, assessment and responses to new and emerging trends in violations against children in armed conflict.
- 1.124 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.125 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.74. While the Office makes every effort to follow the advance booking of air travel policy, it is not always possible to comply owing to unforeseen circumstances, such as receiving invitations to high-level events hosted by Member States or regional organizations less than three weeks before the event. In addition, owing to the nature of the mandate, political opportunities and openings arise unexpectedly that require staff to travel at short notice in order to seize such opportunities and advance the implementation of the mandate. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

V. Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.126 The Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict is responsible, in line with Security Council resolution [1888 \(2009\)](#), for providing coherent and strategic leadership and promoting the coordination of efforts among relevant stakeholders, through primarily the United Nations Action against Sexual Violence in Conflict, on preventing and addressing sexual violence as a weapon of war and tactic of terrorism and for engaging with justice and security sectors, all parties to armed conflict, civil society and the survivors of such crimes.
- 1.127 The mandate derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolution [65/259](#), by which the Assembly established the Office, following the establishment of the mandate of the Special Representative pursuant to Security Council resolution [1888 \(2009\)](#). In accordance with resolution [1888 \(2009\)](#) and subsequent related resolutions and recognizing that conflict-related sexual violence remains underreported and insufficiently addressed, the role of the Special Representative and that of the Office is, among others: (a) to give victims and affected communities a voice; (b) to mobilize the political will and action of the international community, in particular to address the impunity of perpetrators of violations; (c) to foster collaboration and partnerships and broaden the circle of stakeholders on the issue; (d) to coordinate advocacy and programmatic responses, in particular in the United Nations system; (e) to ensure more reliable and comprehensive data on sexual violence in conflict as a basis for action at all levels; and (f) to disseminate information/knowledge on approaches and best practices to address sexual violence in conflict.
- 1.128 The mandate derives from the priorities established in relevant Security Council resolutions, including [1820 \(2008\)](#), [1888 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#) and [2467 \(2019\)](#), as well as relevant country-specific and sanctions resolutions that make explicit reference to sexual violence in conflict and the mandate of the Special Representative. Furthermore, the adoption of Council resolutions [2331 \(2016\)](#) and [2388 \(2017\)](#) extends the scope of work of the Office to the areas of counter-terrorism, anti-trafficking efforts and related security and justice sector engagement.

Programme of work

Objective

- 1.129 The objective, to which the Office contributes, is to prevent and eradicate sexual violence as a tactic of war and terrorism and improve the provision of multisectoral services for survivors.

Strategy and external factors for 2025

- 1.130 To contribute to the objective, the Office will continue to:
- (a) Engage with parties to conflict and other relevant stakeholders on addressing conflict-related sexual violence, with a priority focus on justice and accountability for such crimes as a key element of deterrence and prevention, including through engagement with justice and security actors in countries of concern;

- (b) Engage with Member States at the global level, including in the Security Council and the General Assembly, and foster national ownership, leadership and responsibility in addressing conflict-related sexual violence in situations of concern;
 - (c) Adopt a survivor-centred approach in the implementation of all aspects of the mandate, in line with Security Council resolution [2467 \(2019\)](#) and in coordination with survivors of sexual violence, survivors' networks, civil society, regional organizations and relevant United Nations entities, in particular at the country level;
 - (d) Strive to expand the circle of stakeholders and encourage concerted and coordinated action among a broad range of actors at the international, regional and national levels, including through the United Nations Action against Sexual Violence in Conflict network consisting of 25 United Nations entities and the Team of Experts on the Rule of Law and Sexual Violence, which work under the strategic direction of the Special Representative;
 - (e) Focus its advocacy efforts on advancing the achievement of Sustainable Development Goals 5 and 16 and on ensuring the implementation of prevention strategies, multisectoral services for survivors, reparations and redress measures.
- 1.131 The above-mentioned work is expected to result in:
- (a) Adoption of concrete and time-bound commitments to prevent and address incidents, patterns and trends of conflict-related sexual violence to ensure an enhanced security and justice sector response;
 - (b) Improved access to appropriate and good-quality services, including health care, psychosocial support, legal services, reparations and livelihood support for all survivors, as well as children born of conflict-related sexual violence.
- 1.132 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Continued high level of political will on the part of all stakeholders, in particular Member States, to work towards preventing sexual violence and ending the impunity of persistent perpetrators in situations of armed conflict and other situations of concern;
 - (b) Member States and other key stakeholders see a convergence between their strategic interests and priorities and upholding the international protection framework that has been established to prevent conflict-related sexual violence.
- 1.133 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will deepen its engagement with regional and subregional actors and multilateral institutions, including the African Union, the League of Arab States, the European Union, the Economic Community of West African States, the International Conference on the Great Lakes Region, the International Organization of la Francophonie, the Inter-Parliamentary Union and the African Development Bank, including through formal frameworks of cooperation, to outline advocacy and operational prevention and response strategies to conflict-related sexual violence.
- 1.134 With regard to inter-agency coordination and liaison, the Office will continue to work through the United Nations Action against Sexual Violence in Conflict inter-agency network, which has a membership of 25 United Nations entities and is chaired by the Special Representative. The network will continue to review the operationalization of the monitoring and reporting mechanisms on conflict-related sexual violence in priority situations to enhance their efficacy. The network will also focus on the formulation and dissemination of joint advocacy products that contain calls for parties to the conflict to exercise restraint and prevent sexual violence in situations of conflict. Coordination on justice and accountability dimensions of the mandate will be conducted through the Team of Experts on the Rule of Law and Sexual Violence in Conflict, which operates under the strategic direction of the Special Representative, and comprises the Office, OHCHR, UNDP and the Department of Peace Operations as the co-lead entities.

- 1.135 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. For example, political commitments negotiated with parties to conflict (e.g., joint communiqués, frameworks of cooperation and implementation plans) will continue to integrate the views of women’s civil society organizations and will continue to promote the meaningful participation of women and girls in countries where they are often absent in political and decision-making processes, including peace processes. Prevention strategies and response programming will reflect a tailored approach to address sexual violence against all survivors. Information, including on incidents of conflict-related sexual violence, continue to be systematically disaggregated by sex in order to offer a gender-sensitive analysis for the Security Council.
- 1.136 In line with the United Nations Disability Inclusion Strategy, the Office will incorporate issues relating to disability inclusion into policy, advocacy and key substantive aspects of its work, including programming in priority situations. The NGO-civil society advisory group of the Office includes entities representing individuals with disabilities and, through this modality, the Office will continue to engage with individuals with disabilities and with relevant organizations during the course of field missions in priority countries. The Office, in its staffing, includes those with explicit human rights expertise relating to the rights of persons with disabilities and their targeting with sexual violence in situations of armed conflict.

Programme performance in 2023

Enhanced national ownership to ensure justice and accountability for survivors of conflict-related sexual violence: the case of the Democratic Republic of the Congo

- 1.137 The security and humanitarian situation in the eastern Democratic Republic of the Congo has continued to deteriorate, owing to persistent attacks by armed groups and continued military operations. The United Nations Organization Stabilization Mission in the Democratic Republic of the Congo, the United Nations country team and the Office of the Special Representative have provided sustained support to the authorities to ensure multi-sectoral assistance to those affected by sexual violence, to hold perpetrators accountable and to deliver justice, reparations and redress to survivors. The United Nations continued to support the justice sector and victims, including through mobile courts with dedicated prosecutorial strategies and protection of victims and witnesses’ programmes during judicial proceedings, to enhance accountability for crimes of sexual violence. That support resulted in the conviction, in 2023, of an armed group leader for crimes against humanity, including rape and forced pregnancy. Moreover, the engagement by the Office of the Special Representative with national authorities has led to the review of existing national action plans by security and police forces to address conflict-related sexual violence, the establishment of a government-led task force to advance the full implementation of the 2019 addendum to the Joint Communiqué between the Government of the Democratic Republic of the Congo and the United Nations on the Fight Against Sexual Violence in Conflict and the issuance of a decree by the authorities establishing a reparations fund.
- 1.138 Progress towards the objective is presented in the performance measure below (see table 1.75).

Table 1.75
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
National authorities conduct a strategic review of the 2013 and 2019 military and police forces’ action plans to prevent and address conflict-related sexual violence	Establishment of an inter-ministerial task force to accelerate the implementation of the 2019 addendum to the Joint Communiqué to address conflict-related sexual violence	Adoption of legislation on the protection and reparation of victims of conflict-related sexual violence and other crimes against peace and security, including the establishment of a reparations fund

Planned results for 2025

Result 1: enhanced prevention through the implementation of strategies by national security and justice sector institutions

Programme performance in 2023 and target for 2025

- 1.139 The Office’s work contributed to the launch of a presidential strategic committee on the efforts to combat conflict-related sexual violence in the Democratic Republic of the Congo, as well as the implementation by the South Sudan National Police Service of its action plan to address conflict-related sexual violence, which met the planned target. The committee in the Democratic Republic of the Congo will play a critical role in ensuring the accelerated implementation of the Joint Communiqué between the authorities and the United Nations to address conflict-related sexual violence. Moreover, the work of the South Sudan National Police Service will ensure the integration of gender-sensitive provisions into security sector reform processes.
- 1.140 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.76).

Table 1.76

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Strengthened justice sector response in priority countries such as the Central African Republic and the Democratic Republic of the Congo, with accountability for sexual violence crimes as a central aspect of deterrence and prevention	Framework for the prevention of conflict-related sexual violence launched	Strategic committee on the efforts to combat conflict-related sexual violence established in the Democratic Republic of the Congo South Sudan National Police Service implements action plan to address conflict-related sexual violence	Implementation of an action plan for the armed forces on addressing conflict-related sexual violence in 1 country	Strengthened response by transitional justice mechanisms in 1 country, to deliver justice and accountability for conflict-related sexual violence

Result 2: enhanced compliance with international norms on preventing and addressing conflict-related sexual violence by parties to conflict

Programme performance in 2023 and target for 2025

- 1.141 The Office’s work contributed to a non-State armed group in the Sudan agreeing to specific time-bound commitments to address conflict-related sexual violence and the issuance of a “unilateral communiqué” by the non-State armed group in which it condemned conflict-related sexual violence and committed itself to taking effective measures to prevent and address any such violations. The planned target of Member States, United Nations entities, civil society and academia exchanging lessons and best practices for strengthening the engagement of non-State armed groups in addressing conflict-related sexual violence was not met owing to an increased number of requests for the Office’s support in various priority countries.

1.142 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.77).

Table 1.77
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Increased engagement by United Nations sanctions regimes on trends and patterns of conflict-related sexual violence	Unilateral communiqué issued by a non-State armed group outlining commitments to addressing conflict-related sexual violence	Enhanced monitoring and reporting of patterns and trends of conflict-related sexual violence by United Nations Panels of Experts in priority countries and at the regional level	Member States, United Nations entities, civil society and academia exchange lessons and best practices for strengthening engagement of non-State armed groups in addressing conflict-related sexual violence

Result 3: strengthened service provision and justice response on conflict-related sexual violence by national authorities

Proposed programme plan for 2025

1.143 Women’s protection advisers play a vital role in protecting persons at risk, providing comprehensive multisectoral assistance to survivors and supporting justice processes in holding perpetrators accountable. Women’s protection advisers are responsible for convening the monitoring, analysis and reporting arrangements on conflict-related sexual violence, which generate timely and reliable information for the Security Council. This constitutes the basis of the United Nations response programming, as well as for engagement with all parties and institutional counterparts concerned in order to provide support for the implementation of dedicated action plans to address conflict-related sexual violence. The Special Representative has stressed the need for the Council to call for unfettered access for women’s protection advisers to detention centres, displacement settings, disarmament, demobilization and reintegration cantonment sites and other hotspots, and to adequately equip United Nations field presences with specialized capacities for translating policies into practice and providing protection and support to survivors and those at risk.

Lessons learned and planned change

1.144 The lessons for the Office were the need to enhance its advocacy efforts to ensure that the roles of women’s protection advisers were assessed systematically during the planning and transition of United Nations field operations and the importance of deploying dedicated capacity in United Nations regional presences to enhance monitoring and response to cross-border patterns of sexual violence and its links to other forms of crime. In applying the lesson, the Office will reinforce its political and technical efforts on the need to leverage the pivotal role of women’s protection advisers in priority situations. The Office will also enhance its work with all United Nations sanctions regimes, notably those that have included sexual violence as part of their designation criteria, on the basis of the monitoring and reporting of women’s protection advisers in the field. In addition, it will provide tailored assistance to national authorities in holding perpetrators accountable for sexual violence crimes and providing comprehensive assistance, reparations and redress measures to those in need.

1.145 Expected progress towards the objective is presented in the performance measure below (see table 1.78).

Table 1.78
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	–	Increased understanding of regional dimensions of conflict-related sexual violence in 1 subregion (Horn of Africa)	Strengthened response by national authorities to meet the needs of survivors of conflict-related sexual violence and to deliver justice and accountability, in 1 country	Member States in 1 subregion develop justice and security sector strategies aimed at addressing conflict-related sexual violence

Legislative mandates

1.146 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolution

[65/259](#) Questions relating to the programme budget for the biennium 2010–2011 (sect. V)

Security Council resolutions

1820 (2008)	2331 (2016)
1888 (2009)	2388 (2017)
1960 (2010)	2467 (2019)
2106 (2013)	

Deliverables

1.147 Table 1.79 lists all deliverables of the programme.

Table 1.79

Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>

8. Training of national police and/or military forces on prevention of and response to conflict-related sexual violence	15	5	15	7
9. Training of national justice sector (prosecutors and judges) on investigation into and prosecution of conflict-related sexual violence	15	6	15	7
10. Workshop with women’s protection advisers on emerging threats and challenges of conflict-related sexual violence	2	1	1	2
C. Substantive deliverables				
Good offices: engagement and dialogue with parties to conflict listed in the annex to the report of the Secretary-General, including as it relates to the adoption and implementation of prevention and response measures.				
Consultation, advice and advocacy: consultations and reporting on conflict-related sexual violence trends and patterns in 18 countries.				
Databases and substantive digital materials: digital library serving as a knowledge hub of academic, think tank and civil society publications on sexual violence in conflict.				
D. Communication deliverables				
Outreach programmes, special events and information materials: 20 online and in-person events on conflict-related sexual violence that include survivors, Member States, activists, academia, experts and practitioners; and United Nations Action against Sexual Violence in Conflict “Stop Rape Now” campaign.				
External and media relations: annual press statements, and news media content such as television and newspaper interviews.				
Digital platforms and multimedia content: website and social media content to advocate and mobilize resources for the elimination of conflict-related sexual violence.				

B. Proposed post and non-post resource requirements for 2025

Overview

1.148 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.80 to 1.82.

Table 1.80

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.151 As reflected in tables 1.83 (2) and 1.84 (2), extrabudgetary resources amount to \$6,510,700. The resources would complement regular budget resources and would be used mainly to provide for 19 posts (1 D-1, 2 P-5, 8 P-4, 3 P-3, 1 P-2 and 4 General Service (Other level)) and non-post resources that would be used to support the delivery of its mandates, including the engagement of the Team of Experts on the Rule of Law and Sexual Violence in Conflict, mandated pursuant to Security Council resolution 2467 (2019), and support for the secretariat of the United Nations Action against Sexual Violence in Conflict network chaired by the Special Representative.
- 1.152 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.153 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.86. The majority of travel for the Office is related to the high-level engagements of the Special Representative with priority countries and technical missions to follow up on the formal agreements reached between the Special Representative and national authorities. While every effort is made to ensure advance planning for all official travel, the finalization of travel requests for such missions depends on visa approvals and confirmations of missions and meetings with government interlocutors by the national authorities.

VI. Office of the Special Representative of the Secretary-General on Violence against Children

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.154 The Special Representative of the Secretary-General on Violence against Children is responsible for mobilizing action and political support to prevent and eliminate all forms of violence against children. The mandate of the Office of the Special Representative derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions [62/141](#), [67/152](#), [73/155](#) and [78/187](#). While noting substantial progress achieved since establishing the mandate of the Special Representative, the Assembly has recognized the urgency of pursuing further action to ensure the protection of children from violence.

Programme of work

Objective

- 1.155 The objective, to which the Office contributes, is to accelerate action to end all forms of violence against children by 2030.

Strategy and external factors for 2025

- 1.156 To contribute to the objective, the Office will:
- (a) Promote the acceleration of efforts towards the achievement of the Sustainable Development Goals relating to addressing all forms and drivers of violence against children and gender-based violence by undertaking high-level advocacy at the global, regional and national levels in collaboration with key stakeholders, including in the context of the Special Representative's leading role in revitalizing the pathfinding country initiative to end violence against children;
 - (b) Engage and support political, legislative, programmatic and monitoring processes at the global, regional, national and local levels to accelerate action to end violence; conduct country visits in close cooperation with United Nations resident coordinators and regional or country teams; provide technical cooperation and practical guidance to Member States; share context-specific promising practices; and use social media and other communications tools to support its advocacy;
 - (c) Increase the attention given to violence against children in the United Nations system, including through leading the Inter-Agency Working Group on Violence against Children and through advocacy for the system-wide mainstreaming of child rights, including the integration of child protection into United Nations programmatic tools, such as the United Nations Sustainable Development Cooperation Frameworks;
 - (d) Promote, as Chair of the United Nations task force on children deprived of liberty, the use of the detention of children only as a measure of last resort; work towards prevention, rehabilitation and community-based alternatives to deprivation of liberty; undertake joint advocacy with key partners; and gather and report on promising practices regarding alternatives to detention and institutionalization, to be shared with Member States;

- (e) Promote the role of children as agents of change through inclusive child participation in decision-making processes and the documentation and dissemination of child-led and peer-to-peer initiatives;
 - (f) Promote investment in integrated, cross-sectoral child- and gender-sensitive protection and violence prevention;
 - (g) Promote child protection as a cross-cutting theme in global, regional and national action to address the trafficking in persons, building on the Special Representative's tenure as co-Chair of the Inter-Agency Coordination Group against Trafficking in Persons.
- 1.157 The above-mentioned work is expected to result in:
- (a) Action to prevent and respond to violence against children mainstreamed into law, policy and practice, as well as into duly resourced national development plans;
 - (b) Increased awareness of and action on key thematic and frontier issues requiring specific attention;
 - (c) Sustained investment in cross-sectoral services for children and their caregivers to prevent and respond to violence against children and gender-based violence;
 - (d) Adoption and effective implementation of prevention measures, rehabilitation and community-based alternatives to the deprivation of liberty of children;
 - (e) More effective and systematic involvement of children in decision-making processes, including through an increase in safe and empowering pathways provided by States.
- 1.158 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Governments have the political commitment and dedicate resources to accelerate action to prevent and end violence against children, in the framework of the Sustainable Development Goals;
 - (b) Civil society, faith-based organizations, local communities, the donor community and the private sector are committed to working together for and with children.
- 1.159 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to strengthen cooperation with intergovernmental regional and subregional bodies. In addition, through the establishment of an antenna presence in Geneva, the Office will increase regular engagement with United Nations entities, State partners and others, including regional organizations, based in cities such as Geneva, Paris, Vienna and Brussels. The Office will pursue strong collaboration with civil society and faith-based organizations and the private sector. Country visits will therefore remain a key element of the advocacy strategy of the Office. The visits will always be planned and implemented in close cooperation with Member States and United Nations country and regional teams, and a joint road map will be agreed upon and disseminated with all key stakeholders at the end of each visit to ensure effective follow-up.
- 1.160 With regard to inter-agency coordination and liaison, the Office continues to promote and strengthen collaboration within the United Nations system on ending violence against children, including with the members of the Inter-Agency Working Group on Violence against Children, the members of the United Nations task force on children deprived of liberty, the Special Representative of the Secretary-General for Children and Armed Conflict, the Special Representative of the Secretary-General on Sexual Violence in Conflict, the special procedures of the Human Rights Council, the human rights treaty bodies, the Special Adviser to the Secretary-General on the Prevention of Genocide, the Special Adviser to the Secretary-General on Africa, the United Nations Youth Office, the Envoy of the Secretary-General on Technology, the Department of Economic and Social Affairs and United Nations regional commissions, the United Nations resident coordinators and regional or country team members, the United Nations Global Counter-Terrorism Coordination Compact, the Inter-Agency Coordination Group against Trafficking in Persons, the United Nations Network on

Migration, the Working Group on Hate Speech and the United Nations Action Against Sexual Violence in Conflict network.

- 1.161 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate, including in its advocacy to highlight how various forms of violence affect boys and girls differently and how this must inform and shape responses. Addressing gender discrimination and harmful social norms, as well as connections between violence against women and violence against children, is crucial to preventing and responding to violence against children and will continue to constitute an integral part of the Office’s work.
- 1.162 In line with the United Nations Disability Inclusion Strategy and the principle of leaving no child behind, the Office places an emphasis on addressing some of the most vulnerable and neglected children, among whom are children with disabilities. Children with disabilities are often institutionalized, and this puts many of these children at a heightened risk of becoming victims of violence. Promoting policies and strategies for alternative means of care and inclusion will continue to be at the core of the Office’s advocacy.

Evaluation activities

- 1.163 An evaluation is planned for 2025 on a theme to be determined.

Programme performance in 2023

Enhanced protection of children from violence in the digital environment

- 1.164 The risks of exposure to various forms of violence and exploitation online are increasing, given that an increasing number of children are connecting online and at younger ages. Over the course of 2023, the Office advocated for and provided technical support for the development of stronger legal and regulatory frameworks to ensure children’s protection and privacy online, as well as facilitating peer-learning between States and acting as a bridge-builder to connect various stakeholders. The Special Representative also ensured that the views and proposals of children were included in the consultation process on the global digital compact. In addition, the Office co-led a multi-stakeholder initiative called “Protection through online participation” that brought together more than 30 partners from United Nations agencies, academia, civil society and the information and communications technology sector, including some of the world’s largest social media, gaming and video-sharing platforms. This initiative expanded existing knowledge on how the digital environment could be better utilized to allow children to have access to information and support when they were exposed to violence, including from evidence generated with data from more than 100 countries.
- 1.165 Progress towards the objective is presented in the performance measure below (see table 1.87).

Table 1.87

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	–	Children’s concerns and proposals included in the consultation process for the global digital compact and evidence gathered to improve understanding on how the digital environment could be better utilized to allow children to gain access to information and support when they experienced violence

Planned results for 2025

Result 1: sustained financing of cross-sectoral child protection and violence prevention services

Programme performance in 2023 and target for 2025

- 1.166 The Office’s work contributed to 10 countries undertaking cost-benefit analyses of financing cross-sectoral child- and gender-sensitive protection and violence prevention services, which met the planned target. The Special Representative facilitated peer-learning exchanges among ministers, including ministers for finance and planning, in various States across all regions on ways in which to assess returns on investment in integrated services to ensure children’s protection and well-being.
- 1.167 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.88).

Table 1.88
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Member States have access to promising practices and practical guidance on assessing the high return on investing in cross-sectoral child- and gender-sensitive protection and violence prevention	10 countries undertook cost-benefit analyses of financing cross-sectoral child- and gender-sensitive protection and violence prevention services	10 countries use an analysis of return on investing in violence prevention to initiate legal and policy reforms to build or strengthen integrated child- and gender-sensitive protection and prevention services	15 countries use an analysis of return on investing in violence prevention to initiate legal and policy reforms to build or strengthen integrated child- and gender-sensitive protection and prevention services

Result 2: national human rights institutions include child protection and well-being in their monitoring activities

Programme performance in 2023 and target for 2025

- 1.168 The Office’s work contributed to 10 additional national human rights institutions including child protection and well-being in their monitoring activities, which met the planned target of a total of 40 national human rights institutions. In 2023, the Special Representative engaged with 95 national human rights institutions during a meeting of the global network of national human rights institutions on their role in protecting children from deprivation of liberty, torture and other ill-treatment.
- 1.169 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XVII).

Figure 1.XVII
Performance measure: number of national human rights institutions that have included child protection and well-being as a key dimension of their monitoring activities (cumulative)

Result 3: Revitalized pathfinding country initiative (pathfinding 2.0) to end violence against children by 2030

Proposed programme plan for 2025

1.170 In October 2023, the Board of the Global Partnership to End Violence against Children decided to sunset the Partnership in its existing form and requested the Special Representative to lead the workstream on pathfinding countries. The pathfinding initiative provides a forum for Member States and partners to share experiences and be inspired by effective solutions that pave the way for a world free from violence for children.

Lessons learned and planned change

1.171 The lesson for the Office was the importance of the mandate’s role in furthering the collaborative approach of this initiative and ensuring stronger ownership by Member States. In applying the lesson, the Office will revitalize the pathfinding country initiative in close cooperation with existing pathfinder countries, the United Nations system, donors and civil society partners, to provide stronger, integrated and context-specific support in order to accelerate efforts to end violence against children by 2030. To this end, a series of consultations in the pathfinding countries is under way to take stock of progress made and remaining challenges. This participatory approach will also be extended to the development of a road map for accelerating and monitoring action to end violence against children, to outline an accountability framework and to expand the number of pathfinder countries.

1.172 Expected progress towards the objective is presented in the performance measure below (see table 1.89).

Table 1.89

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: high-level advocacy with Member States, regional organizations and other key stakeholders, including by undertaking country missions to at least 10 Member States across all regions; organization or co-organization of 10 high-level events to raise awareness, share promising practices and advocate for stronger action on ending violence against children; expert advice and tools on policy matters for Member States and other key stakeholders; and consultations with approximately 1,000 children.

Databases and substantive digital materials: global interactive database of child participation initiatives to map children’s initiatives across regions.

D. Communication deliverables

Outreach programmes, special events and information materials: communication products and information materials for targeted audiences and goals to raise awareness of the work of the mandate, provide updated information on trends and topical issues and highlight progress achieved.

External and media relations: at least 5 press conferences and 5 press releases, including opinion pieces and expert articles.

Digital platforms and multimedia content: social media campaign to raise awareness and mobilize action on the protection of children from violence; multimedia material produced and uploaded in the 6 official United Nations languages on the Office’s website; and communication material uploaded daily to the Office’s social media accounts.

B. Proposed post and non-post resource requirements for 2025

Overview

1.175 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.91 to 1.93.

Table 1.91
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

1.176 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.94 to 1.96 and figure 1.XVIII.

1.177 As reflected in tables 1.94 (1) and 1.95 (1), the overall resources proposed for 2025 amount to \$3,120,200 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.178 As reflected in tables 1.94 (2) and 1.95 (2), extrabudgetary resources amount to \$576,600. The resources would complement regular budget resources and would be used mainly to provide for two posts (P-4 and P-3) and non-post resources that would be used to support the delivery of the Office’s mandates and to carry out various activities that would enhance its impact and outreach, strengthen the implementation of its programme of work and increase the provision of technical advice and support to Member States, regional organizations and other partners.
- 1.179 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.180 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.97. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

VII. Office of the Victims' Rights Advocate

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.181 The mandate of the Victims' Rights Advocate was created as part of the strategy set out in the 2017 report of the Secretary-General entitled "Special measures on protection from sexual exploitation and abuse: a new approach" (A/71/818). The mandate derives from the priorities established in General Assembly resolutions and/or decisions, including resolutions [62/214](#), [71/278](#), [71/297](#), [75/321](#), [76/274](#) and [77/333](#). The centrepiece of the strategy is to put the rights and dignity of victims at the centre of the work to prevent and respond to sexual exploitation and abuse across the United Nations system. The Victims' Rights Advocate has a system-wide role, with her advocacy and action extending to peacekeeping, humanitarian and development settings. At Headquarters, she is supported by the Office of the Victims' Rights Advocate. In the field, her mandate is operationalized through Senior Victims' Rights Officers in the Central African Republic, the Democratic Republic of the Congo, Haiti and South Sudan.

Programme of work

Objective

- 1.182 The objective, to which the Victims' Rights Advocate contributes, is to ensure that the rights and dignity of victims of sexual exploitation and abuse are prioritized in all efforts of the United Nations system to prevent and respond to sexual exploitation and abuse by its personnel, uniformed or civilian, in peacekeeping, humanitarian and development settings and by non-United Nations troops serving under a Security Council mandate.

Strategy and external factors for 2025

- 1.183 To contribute to the objective, the Victims' Rights Advocate will:
- (a) Engage in sustained advocacy with Member States, United Nations entities, agencies, funds and programmes, other intergovernmental bodies, Governments and State structures, civil society and others to amplify awareness of the negative impact that sexual exploitation and abuse has on victims and the work of all parts of the United Nations system, and foster an integrated response with regard to victims' rights to assistance, in line with the annex to General Assembly resolution [62/214](#);
 - (b) Operationalize the imperative of placing the rights and dignity of victims at the centre on the ground through support for a network of Senior Victims' Rights Officers and focal points for victims' rights, including the three additional focal points appointed in 2023, who serve as the main point of contact for all victims of sexual exploitation and abuse, and ensure that they receive assistance and support, accompanying them through investigation and consideration of their complaints and providing them with follow-up information, including on the progress of paternity/child support claims;
 - (c) Support Member States' implementation of the 2030 Agenda, in particular the achievement of Sustainable Development Goal 5 in the public and private spheres, including in relation to trafficking and sexual and other types of exploitation, and Goal 16, which is intended, among

others, to end the abuse and exploitation of, trafficking in, all forms of violence against and torture of children;

- (d) Engage with United Nations actors across the system to develop policy and offer practical advice, including to embed a victims' rights approach in the provision of assistance to victims, and provide guidance to the Senior Victims' Rights Officers, the victims' rights focal points and other actors in the field;
- (e) Seek to strengthen complaints mechanisms and contribute to creating an environment that encourages victims to come forward, in order to counter constraints that have a negative effect on victims' capacity to report misconduct and gain access to assistance and services.

1.184 The above-mentioned work is expected to result in:

- (a) Victims assisted in accordance with their individual needs;
- (b) A deepened understanding of how to prioritize the rights and dignity of victims across the United Nations system, implementing partners and beyond;
- (c) Creation and maintenance of an environment of trust between victims and the United Nations on the ground, encouraging them to come forward with complaints of misconduct, confident that they will be respected and receive support, assistance and protection;
- (d) Stronger system-wide collaboration and cooperation between Member States and the United Nations on accountability processes, including the resolution of paternity/child support claims, and access to services for victims.

1.185 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:

- (a) New cases of sexual abuse and exploitation perpetrated by United Nations and related personnel will become known to the Victims' Rights Advocate, the Office and the Senior Victims' Rights Officers;
- (b) Cases reported earlier might not be resolved;
- (c) Measures to prevent sexual exploitation and abuse integrate a system-wide victims' rights approach;
- (d) Victims of sexual abuse and exploitation will require ongoing support and assistance to rebuild their lives;
- (e) The urgency of establishing strong partnerships focusing on a victims' rights approach will be acknowledged more extensively inside and outside the United Nations system.

1.186 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to work with the Development Assistance Committee of the Organisation for Economic Co-operation and Development. It will continue to support the Multilateral Organisation Performance Assessment Network in implementing its indicators that measure progress in the prevention of sexual exploitation, sexual abuse and sexual harassment in multilateral organizations. The Office will sustain its engagement with the Global Alliance of National Human Rights Institutions in advocacy, training and capacity-building for national actors and the provision of support for victims across States and national jurisdictions.

1.187 With regard to inter-agency coordination and liaison, the Office will continue to collaborate with the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment to integrate a strong victims' rights focus into the implementation of its plan to accelerate protection from sexual exploitation and abuse in humanitarian response. The Victims' Rights Advocate will collaborate with the United Nations Executive Group to Prevent and Respond to Sexual Harassment in the UN System, which succeeded the CEB Task Force on Addressing Sexual Harassment within the Organizations of the United Nations System in January 2024, on the

development and implementation of a victim-centred approach to this misconduct, so that this work is aligned with that on sexual exploitation and abuse.

- 1.188 The Office will continue its cooperation with the Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse. It will collaborate with the Department of Management Strategy, Policy and Compliance and the Office of Legal Affairs to facilitate the more timely and effective resolution of outstanding paternity/child support claims arising from sexual exploitation and abuse, including through the possible development of a harmonized procedure for handling such claims. The Office will coordinate with the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to facilitate official visits of the Victims' Rights Advocate to peace operation settings. The Office will consolidate its collaboration with the Development Coordination Office and resident coordinators on their roles and responsibilities with respect to victims' rights and assistance in line with the management and accountability framework of the United Nations development and resident coordinator system, including by continuing to brief newly appointed resident coordinators and provide them with advice at their request. The Victims' Rights Advocate will also engage with other entities, including the internal justice system, on her mandate and the importance of the victims' rights approach.
- 1.189 The Office integrates a gender perspective into its policy and operational activities, deliverables and results, as appropriate. The majority of victims of sexual exploitation and abuse is women and girls, and most perpetrators are men. The Victims' Rights Advocate acknowledges that entrenched discrimination against women and girls, manifested in laws and policies, power imbalance and gender inequality and harmful practices, underpins such misconduct. The Victims' Rights Advocate understands that men and boys, especially in vulnerable situations, may be victims of sexual exploitation and abuse and face barriers to reporting. The Victims' Rights Advocate emphasizes that victims may experience hurt, harm, fear, reprisals, abandonment, exclusion from their community and stigma. She urges that interventions and responses be conceptualized, designed and implemented to promote the empowerment of victims and their inclusion in all issues that concern them.
- 1.190 The Victims' Rights Advocate promotes tailored responses, given that each victim is different and may be affected by intersecting, interconnected and multiple forms of discrimination, including on the basis of race, sex, gender, sexual orientation, age, minority and/or migration status or disability, in line with the United Nations Disability Inclusion Strategy and the strategic action plan of the Secretary-General's Task Force on Addressing Racism and Promoting Dignity for All in the United Nations. The Office seeks to make its core policy documents and training as accessible as possible. The Senior Victims' Rights Officers will continue to serve as the main contact for all victims and take steps to ensure that a victims' rights, gender- and child-sensitive and non-discriminatory approach is integrated into all activities to support and assist victims.

Evaluation activities

- 1.191 An internal evaluation of the work and impact of the Office since its establishment in January 2019 commenced in 2022 and will be finalized in 2024.

Programme performance in 2023

Endorsement of the victims' rights statement by the Secretary-General's High-level Steering Group on preventing sexual exploitation and abuse

- 1.192 In May 2023, the Secretary-General's High-level Steering Group on preventing sexual exploitation and abuse endorsed the United Nations victims' rights statement. Developed by the Victims' Rights Advocate through extensive consultation across United Nations entities and with rights advocates, it is affirmed in the statement that victims of sexual misconduct are entitled to the following rights: (a) to be treated with respect; (b) to receive assistance and support; (c) to justice and accountability; (d) to decide how involved to be in United Nations processes; (e) to obtain information; (f) to be

heard; (g) to privacy and confidentiality; (h) to be protected; (i) to a remedy; and (j) to complain of the treatment received.

1.193 Progress towards the objective is presented in the performance measure below (see table 1.98).

**Table 1.98
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Increased awareness of victims of their rights and how they can claim them	Increased awareness of victims of their rights and how they can claim them United Nations system entities provided critical feedback for the development of revised guidance and tools to incorporate in full victims' perspectives and priorities	The victims' rights statement, in which the Secretary-General's policy of prioritizing the rights and dignity of victims in efforts to prevent and respond to sexual exploitation and abuse is affirmed, is endorsed by the Secretary-General's High-level Steering Group on preventing sexual exploitation and abuse

Planned results for 2025

Result 1: realizing victims' rights to accountability and remedies

Programme performance in 2023 and target for 2025

1.194 The Office's work contributed to discussions with relevant Secretariat entities on a methodology for addressing ancillary costs associated with the provision of legal assistance, which did not meet the planned target of victims in two countries with Senior Victims' Rights Officers benefiting from legal support provided by lawyers and legal aid organizations included in the roster. The target was not met because legal support could not be provided, given that solutions for addressing ancillary costs were not finalized before the end of the period.

1.195 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.99).

**Table 1.99
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Proposal of the Victims' Rights Advocate to create and maintain a roster of lawyers in consultation with the Office of Legal Affairs	Agreement by a Member State to provide funding for the costs associated with the creation and maintenance of a roster of pro bono lawyers	Discussions with Secretariat entities on addressing ancillary costs associated with the provision of legal assistance	Victims in 4 countries with Senior Victims' Rights Officers continue to benefit from legal support provided by lawyers and legal aid organizations included in the roster	Victims in 4 countries with Senior Victims' Rights Officers benefit from legal support provided by lawyers and legal aid organizations included in the roster

Result 2: adoption of a victims’ rights approach among all personnel assisting and investigating allegations of sexual exploitation and abuse

Programme performance in 2023 and target for 2025

- 1.196 The Office’s work contributed to increased number of personnel who assist victims or investigate allegations of sexual exploitation and abuse receiving briefings on the victims’ rights approach, which met the planned target.
- 1.197 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.100).

Table 1.100
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	United Nations internal justice system personnel handling allegations of sexual exploitation and abuse are briefed on the victims’ rights approach	Increased number of personnel who assist victims or investigate allegations of sexual exploitation and abuse received briefings on the victims’ rights approach	All new personnel assisting and investigating allegations of sexual exploitation and abuse receive briefings on the victims’ rights approach, as a mandatory component of their induction training	All new personnel assisting and investigating allegations of sexual exploitation and abuse complete/participate in training on the victim-centred approach to sexual exploitation, sexual abuse and sexual harassment as part of their induction and ongoing training

Result 3: strengthened system-wide implementation of the Secretary-General’s strategy of placing the rights and dignity of victims at the centre of prevention and response from sexual exploitation and abuse

Proposed programme plan for 2025

- 1.198 Reviews of the implementation of the Secretary-General’s victim-centred and victims’ rights approaches to protection from sexual exploitation and abuse show that, while the objective is accepted across the United Nations system, there is a recognized need for more work to ensure that all United Nations staff and related personnel understand and apply the practical action required to implement this approach.

Lessons learned and planned change

- 1.199 The lesson for the Office was the need to further advocate across the United Nations system for additional practical measures to implement victims’ rights-based and victim-centred approaches and address the increased demand from United Nations personnel for guidance and support in this area. Increased advocacy by the Office among United Nations personnel in peacekeeping, humanitarian and development settings on the importance of implementing the victims’ rights approach resulted in additional requests for the Victims’ Rights Advocate to undertake field visits, meet and support victims and provide guidance to United Nations staff and related personnel, military personnel and leadership. In applying the lesson, the Office will roll out the victims’ rights statement and the training module on a victim-centred approach to sexual exploitation, sexual abuse and sexual

Part I Overall policymaking, direction and coordination

harassment, making them available in all official United Nations languages, as well as local languages and accessible formats, which will be housed on a dedicated web page.

1.200 Expected progress towards the objective is presented in the performance measure below (see table 1.101).

Table 1.101
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Endorsement of the victims' rights statement and launch of a training module on a victim-centred approach	The victims' rights statement and the training module on a victim-centred approach available in all 6 official languages of the United Nations	The victims' rights statement made available in accessible, simplified and child-friendly versions

Legislative mandates

1.201 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

62/214	United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel (annex)	71/297	Special measures for protection from sexual exploitation and abuse
		76/274	Cross-cutting issues
71/278; 75/321; 76/303; 77/333	United Nations action on sexual exploitation and abuse		

Deliverables

1.202 Table 1.102 lists all deliverables of the programme.

Table 1.102
Office of the Victims' Rights Advocate: deliverables for the period 2023–2025, by category and subcategory

Technical materials (number of materials)	2	2	2	2
6. Concept notes on challenges to victims of sexual exploitation and abuse	2	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: 5 briefings to Members States, 5 briefings to United Nations system-wide entities and webinars with universities and academic institutions.				
Sustained advocacy by the Victims' Rights Advocate, including through her (a) cooperation with the Inter-Agency Standing Committee; (b) briefings to Member States and Member State groupings, to senior mission leaders, to the global meeting of resident coordinators and induction of resident coordinators and other United Nations leaders; and (c) cooperation with United Nations country teams and humanitarian country teams.				
Regular engagement with Special Representatives of the Secretary-General, resident coordinators, and national and regional protection from sexual exploitation and abuse networks, including through the Victims' Rights Advocate's country visits.				
Databases and substantive digital materials: training module for United Nations staff, non-staff personnel and implementing partners and the victims' rights first web page.				
D. Communication deliverables				
Outreach programmes, special events and information materials: awareness-raising and educational materials on victims' rights.				
External and media relations: media interviews, statements, opinion pieces, press releases and expert articles.				
Digital platforms and multimedia content: website, social media content on areas of work, intranet stories and expansion of the victims' rights first thematic web page.				

B. Proposed post and non-post resource requirements for 2025

Overview

1.203 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.103 to 1.105.

1.204 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.106 to 1.109 and figure 1.XIX.

1.205 As reflected in tables 1.106 (1) and 1.108, the overall resources proposed for 2025 amount to \$1,032,500 before recosting and reflect no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.XIX
Distribution of proposed resources for 2025 (before recosting)
 (Number of posts/thousands of United States dollars)

Other assessed resources

1.206 As reflected in table 1.106 (2), other assessed resources amount to \$50,600. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 (A/78/746).

Extrabudgetary resources

1.207 As reflected in table 1.106 (3), extrabudgetary resources amount to \$56,300. The non-post resources would complement regular budget resources and support the delivery of its mandates, including carrying out various outreach activities, and increase the provision of technical advice and support to Member States, regional organizations and other partners.

1.208 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.209 Information on the advance booking for air travel is reflected in table 1.109. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

VIII. Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.210 The Office was established in February 2016, when the Secretary-General appointed the Special Coordinator with a reporting line through the Chef de Cabinet to the Secretary-General to work across the United Nations system's offices, departments and agencies to strengthen the United Nations response to sexual exploitation and abuse, wherever it might occur, from Headquarters locations to the most remote field bases. The General Assembly, in its resolution [70/286](#), and the Security Council, by its resolution [2272 \(2016\)](#), welcomed the appointment of the Special Coordinator and the Secretary-General's continued efforts to implement and reinforce the United Nations zero-tolerance policy on sexual exploitation and abuse, in particular to strengthen the Organization's prevention, reporting, enforcement and remedial action in order to promote greater accountability. In its resolution [71/278](#), the Assembly welcomed the continued efforts of the Secretary-General to combat sexual exploitation and abuse, including the appointment of a Special Coordinator on improving the United Nations response to sexual exploitation and abuse and the establishment of a high-level task force to develop, as a matter of urgency, a clear, game-changing strategy to achieve visible and measurable improvements in the Organization's approach to preventing and responding to sexual exploitation and abuse. The Assembly also expressed its support to the Secretary-General, the Office and all relevant departments in their efforts to implement the zero-tolerance policy and, in particular, to strengthen the Organization's prevention, reporting, enforcement and response mechanisms in order to promote greater accountability, and in that regard requested the Secretary-General to continue to work in close consultation with Member States for the effective implementation of the policy.
- 1.211 The Special Coordinator drives and oversees the United Nations efforts to prevent and respond to sexual exploitation and abuse across the United Nations system. Through the development of procedures, protocols, standardized tools and support for United Nations entities and the field, the Special Coordinator continues efforts to align approaches and enhance coordination, cooperation and system-wide coherence.

Programme of work

Objective

- 1.212 The objective, to which this programme contributes, is to advance the United Nations response to sexual exploitation and abuse and to ensure a continuous focus on and sustained high-level attention to the prevention and response to sexual exploitation and abuse through a victim-centred approach.

Strategy and external factors for 2025

- 1.213 To contribute to the objective, the Office will:
- (a) Coordinate with United Nations entities, departments and offices to ensure the alignment and institutionalization of strategies to prevent and respond to sexual exploitation and abuse by developing initiatives to mitigate the risks of sexual exploitation and abuse across the United Nations system;

- (b) Promote the implementation of the Secretary-General's strategy to combat sexual exploitation and abuse across the system's more than 30 affiliated funds, programmes and specialized agencies and act as the secretariat of the Secretary-General's institutionalized standing bodies for protection against sexual exploitation and abuse, such as the High-level Steering Group on preventing sexual exploitation and abuse, convened by the Chef de Cabinet, which oversees the implementation of the Secretary-General's strategy;
 - (c) Review and address the policy and operational gaps in the United Nations handling of sexual exploitation and abuse by all categories of United Nations personnel, both uniformed and civilian, and by non-United Nations actors;
 - (d) Consult with international, regional and subregional organizations, Member States, United Nations independent human rights experts, civil society organizations, national human rights institutions, academic institutions and think tanks, as appropriate, to ensure that policies and operational efforts across the United Nations system reflect best practice;
 - (e) Monitor the Secretary-General's public reporting mechanism for allegations of sexual exploitation and abuse;
 - (f) Support an effective system-wide communications strategy to ensure a coordinated public message with respect to the United Nations response to sexual exploitation and abuse;
 - (g) Work closely with leadership across the United Nations system to provide strategic support and guidance to assist in designing and developing comprehensive strategies, system-wide policies and initiatives to combat sexual exploitation and abuse and strengthen joint United Nations programming on prevention initiatives.
- 1.214 The above-mentioned work is expected to result in:
- (a) Strengthened prevention of and responses to sexual exploitation and abuse in a cohesive and coordinated manner, including improved data collection, monitoring and analysis of performance by the United Nations system;
 - (b) Institutionalization of an organizational culture of zero tolerance for inaction for sexual exploitation and abuse, with a robust and consistent understanding among United Nations personnel of standards of conduct and the purpose of mission of the United Nations, to advance cultural change and address the underpinnings of sexual exploitation and abuse, including gender imbalances and the abuse of authority due to power differentials.
- 1.215 With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Personnel, at all levels, prioritize combating sexual exploitation and abuse within United Nations operations;
 - (b) A collective independent investigation capacity is recognized, and appropriate organizational structures are put in place to respond;
 - (c) The United Nations system supports the alignment and institutionalization of measures to prevent and respond to sexual exploitation and abuse.
- 1.216 With regard to inter-agency coordination, the Office will continue to seek cooperation with all United Nations partners, including agencies, funds and programmes, and the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment, to ensure coordination with relevant mandates and a coherent and consistent response. The Office will also continue to collaborate with the Office of the Victims' Rights Advocate, the Department of Management Strategy, Policy and Compliance and the Department of Global Communications, among other entities within the Organization, to ensure alignment of messages relating to the prevention of and response to sexual exploitation and abuse in internal and external communications. Furthermore, the Office will work closely with the Development Coordination Office and resident coordinators, globally, to support their roles and responsibilities in accordance with the management and

accountability framework of the United Nations development and resident coordinator system. The Office continues to serve as the secretariat of the Secretary-General's circle of leadership on the prevention of and response to sexual exploitation and abuse in United Nations operations, which comprises global leaders who actively support the agenda of combating sexual exploitation and abuse.

- 1.217 The Office integrates a gender perspective into its operational activities, deliverables, and results, as appropriate, recognizing the diverse identities of perpetrators, bystanders and victims. The Special Coordinator will advocate for comprehensive reforms in policy, culture and systems to mitigate discrimination, rectify power imbalances and alleviate gender disparities. Addressing the foundational factors contributing to sexual exploitation and abuse is paramount, with a specific emphasis on promoting gender equality. In recognizing that gender issues have an impact on all individuals, there is a resolute commitment to fostering inclusivity, equality, human rights and dignity across the board.
- 1.218 In line with the United Nations Disability Inclusion Strategy, the Office will identify ways to ensure the integration of disability inclusion across all projects. This involves mainstreaming disability inclusion through training and outreach material on preventing and responding to sexual exploitation and abuse, including on victim support, that is tailored to address the distinct needs and challenges of individuals with disabilities.

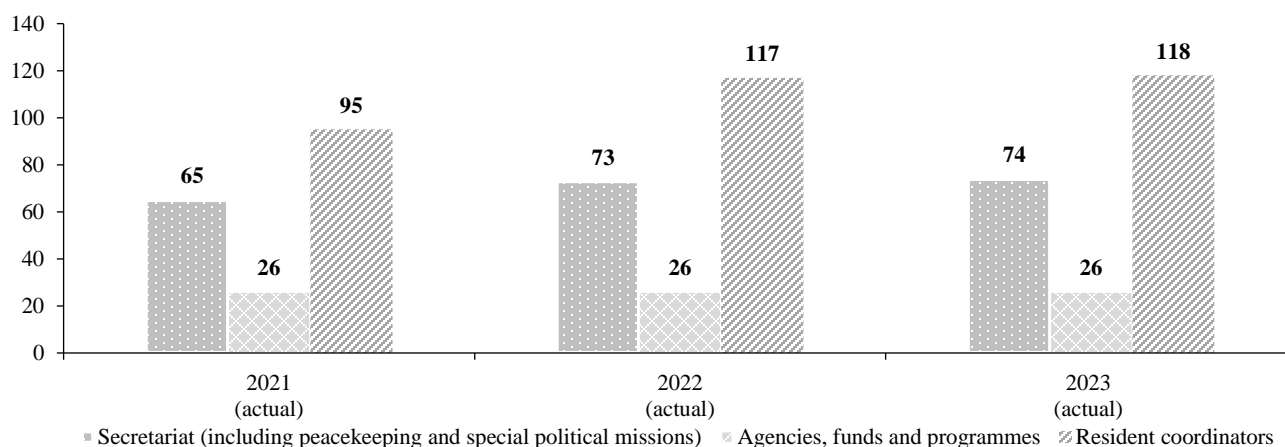

Programme performance in 2023

Strengthened system-wide approach to the prevention of and response to sexual exploitation and abuse at both the strategic and operational levels

- 1.219 The Special Coordinator operationalized the United Nations framework for the prevention of and response to sexual exploitation and abuse across the United Nations system. This included providing strategic and operational guidance and support, strengthening monitoring and risk assessments and renewing the focus on enhancing partnerships and communication.
- 1.220 Visits were conducted by the Special Coordinator to United Nations offices and settings, including development and humanitarian operations. Those official visits helped to raise awareness of the necessary standards of conduct and explore ways in which the United Nations system could enhance leadership and provide the requisite expertise and resources. Moreover, the Office consistently engaged in global dialogues at both the leadership and operational/technical levels to assess the effectiveness of mechanisms for preventing and responding to sexual exploitation and abuse.
- 1.221 Progress towards the objective is presented in the performance measure below (see figure 1.XX).

Figure 1.XX

Performance measure: number of heads of entities and resident coordinators with strategic and action plans on the prevention of and response to sexual exploitation and abuse (cumulative)

■ Secretariat (including peacekeeping and special political missions) ■ Agencies, funds and programmes ▨ Resident coordinators

Planned results for 2025

Result 1: risks of sexual exploitation and abuse across the pillars of the United Nations system (peace, development and humanitarian) mitigated and managed

Programme performance in 2023 and target for 2025

- 1.222 The Office’s work contributed to the strengthened engagement of leadership and other personnel to manage risks relating to sexual exploitation and abuse, which met the planned target.
- 1.223 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.110).

Table 1.110
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Strengthened engagement of leadership and other personnel to manage risks related to sexual exploitation and abuse, reinforce expected standards of behaviour and the prevention and response to sexual misconduct	An increased number of entities identify and plan for foreseeable risks in the protection from sexual exploitation and abuse	Integration of risk management strategies into the development of entity and country level action plans and certification through established management letters/compacts

Result 2: a reduction in operational and policy and procedural gaps in the United Nations handling of sexual exploitation and abuse perpetrated by all categories of United Nations personnel system-wide

Programme performance in 2023 and target for 2025

- 1.224 The Office’s work contributed to entities addressing policy and operational gaps, including alignment of the minimum standards on protection from and the response to sexual exploitation and abuse, which met the planned target.
- 1.225 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.111).

Table 1.111
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Entities address policy and operational gaps, including alignment of the minimum standards on protection from and the response to	An increased number of entities address policy and operational gaps, including alignment of the minimum standards on protection from and	An increased number of entities address and align policies and operational gaps, with a focus on the amalgamation of

		sexual exploitation and abuse, and entities improve data-sharing and reporting	the response to sexual exploitation and abuse, and an increased number of entities systematically share data and fulfil reporting requirements	existing policies and best practices

Result 3: One UN coordinated approach to more effectively address sexual exploitation and abuse

Proposed programme plan for 2025

1.226 The Office supports the Secretary-General in directing cohesive efforts of his High-level Steering Group on the protection from sexual exploitation and abuse, formulating and implementing policies for integrated coordination, prevention measures, response protocols to allegations and timely, appropriate follow-up strategies, including appropriate support for victims.

Lessons learned and planned change

1.227 The lesson for the Office, informed by feedback from senior leaders, was that there were practical difficulties in determining the most effective way to fulfil their roles and responsibilities for the protection from sexual exploitation and abuse in their specific context and that, although guidance was available, there was a need for more practical tools that were user-friendly and strategically oriented. In applying the lesson, the Office will finalize and disseminate a practical toolkit for senior leaders designed to support the prevention of sexual exploitation and abuse programmes. The toolkit will be tailored to United Nations senior leaders operating across the system, including resident coordinators, high commissioners, heads of mission and country representatives and directors. It is also relevant for managers and staff supporting senior leaders, such as chiefs or heads of senior leaders’ offices, and protection from sexual exploitation and abuse coordinators and focal points. The Office will develop an outreach plan that leverages existing channels to disseminate and promote the toolkit among senior leaders. This ongoing process will foster collaborative opportunities for engaging leaders, such as peer-to-peer engagement and spotlighting success stories of leaders on protection from sexual exploitation and abuse, which can also be used as lessons learned for others in the system. The Office will intensify its engagement with leadership across the United Nations system, through field visits and the provision of strategic guidance, prioritizing guidance to the field. To foster coherence at the technical level, the Office will continue to convene monthly protection from sexual exploitation and abuse working group and regular brown bag sessions in order to share information and best practice and to further the development of new initiatives, policies and protocols with regard to combating sexual exploitation and abuse. Through frequent discussions with protection from sexual exploitation and abuse practitioners, the Office aims to help to facilitate dialogue and improve understanding of the challenges relating to protection from sexual exploitation and abuse.

1.228 Expected progress towards the objective is presented in the performance measure below (see table 1.112).

Table 1.112
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	Senior leaders, in particular resident coordinators and humanitarian coordinators, as well as country directors, heads of agencies and NGOs and international NGOs, have access to a tailored and practical toolkit on the prevention of sexual exploitation and abuse	Senior leaders have access to additional resources and communications, which lead to the adoption and use of a toolkit to fulfil their protection from sexual exploitation and abuse roles and responsibilities

Legislative mandates

1.229 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

59/300; 61/267 B	Comprehensive review of a strategy to eliminate future sexual exploitation and abuse in United Nations peacekeeping operations	70/286	Cross-cutting issues
62/63	Criminal accountability of United Nations officials and experts on mission	71/278; 72/312; 73/302; 75/321; 76/303; 77/333	United Nations action on sexual exploitation and abuse
62/214	United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel	71/297	Special measures for protection from sexual exploitation and abuse

Security Council resolutions

2272 (2016)	2436 (2018)

5. Tools/manual on protection against sexual exploitation and abuse	1	1	1	2
C. Substantive deliverables				
Consultation, advice and advocacy: briefings to Members States; webinars with universities and academic institutions, think tanks; and discussions with civil society organizations.				
D. Communication deliverables				
Outreach programmes, special events and information materials: outreach and awareness-raising campaigns; educational materials, including system-wide fact sheets on the Secretary-General’s initiatives to prevent and respond to sexual exploitation and abuse; and outreach initiatives.				
External and media relations: media interviews, opinion pieces, press releases and expert articles.				
Digital platforms and multimedia content: content of the Secretary-General’s website on preventing sexual exploitation and abuse and social media posts on areas of work.				
E. Enabling deliverables				
Internal justice and oversight: annual or biannual High-level Steering Group meetings on sexual exploitation and abuse; bimonthly sexual exploitation and abuse working group meetings that include more than 30 entities/departments/offices within the United Nations system; and annual system-wide survey on facts and perceptions of United Nations personnel (civilian, police and military) to gain information on their awareness of the standards of conduct and behaviour to prevent and respond to sexual exploitation and abuse.				

B. Proposed post and non-post resource requirements for 2025

Overview

1.231 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.114 to 1.116.

Table 1.114

Figure 1.XXI
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

1.234 As reflected in table 1.117 (2), other assessed resources amount to \$56,000. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 (A/78/746).

Extrabudgetary resources

1.235 As reflected in table 1.117 (3), extrabudgetary resources amount to \$1,633,900. The resources would complement the regular budget resources and would be used mainly to provide for five posts (2 P-4, 2 P-3 and 1 General Service (Other level)) and non-post resources that would be used to support the delivery of its mandates and to support the Office in carrying out various activities, including the finalization and distribution of a manual on protection against sexual exploitation and abuse, cover official travel of staff (i.e., to the field operations) and provide for contractual services and general operating costs for gratis personnel.

1.236 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.237 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.120. While the Office makes every effort to follow the advance booking of air travel policy, it is not always possible to comply owing to unforeseen circumstances, including the need to travel to the field on short notice. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

IX. Office of the United Nations Ombudsman and Mediation Services

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.238 The Office of the United Nations Ombudsman and Mediation Services is responsible for providing confidential, impartial and independent conflict resolution services to address work-related issues of staff members and non-staff personnel, upon request. In doing so, the United Nations Ombudsman makes an essential contribution to making the Organization a productive, healthy and enabling workplace.
- 1.239 The mandate of the Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [55/258](#) and [56/253](#). The Office was further strengthened by the Assembly, pursuant to its resolutions [61/261](#) and [62/228](#), to create an integrated and geographically decentralized Office. By its resolution [73/276](#), the Assembly requested the Secretary-General to establish, within existing resources, a pilot project to offer access to informal dispute resolution services to non-staff personnel. By its resolution [78/248](#), the Assembly decided to regularize the pilot project for access by non-staff personnel to the services of the Office, within existing resources.

Programme of work

Objective

- 1.240 The objective, to which this Office contributes, is to ensure the effective functioning of the Organization by enhancing harmony in the workplace through an efficient and effective option for staff and non-staff personnel to seek redress to grievances.

Strategy and external factors for 2025

- 1.241 To contribute to the objective, the Office will:
- (a) Provide the full range of conflict resolution services to United Nations staff and non-staff personnel in three core areas: case intervention to address grievances from staff and non-staff personnel; systematic feedback to relevant stakeholders for improvements in the workplace; and capacity-building to strengthen the ability of staff and non-staff personnel to address workplace conflict effectively;
 - (b) Provide greater access to conflict resolution services to staff and non-staff personnel, irrespective of location, including through the provision of services in all six official languages of the United Nations, ensuring access for all staff and non-staff personnel to the informal pillar of the administration of justice;
 - (c) Conduct outreach efforts to raise awareness of the importance of informal dispute resolution as a preferred first step in the Organization;
 - (d) Promote and facilitate healthy dialogue among colleagues through the delivery of its workshops on “civility, communication and community”.
- 1.242 The above-mentioned work is expected to result in:
- (a) A more harmonious work environment for United Nations staff and non-staff personnel;
 - (b) More productive and more effective functioning of the Organization;

- (c) Improved understanding by staff and non-staff personnel and managers of the importance of resilience and flexibility in promoting a harmonious workplace.
- 1.243 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) All staff and non-staff personnel, including those in supervisory functions, avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;
- (b) All staff and non-staff personnel observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
- (c) Caseload trends remain stable.
- 1.244 With regard to cooperation with other entities and inter-agency coordination and liaison, the Office will continue to cooperate with the ombudsmen and mediators of the United Nations system so as to contribute to improved system-wide cohesion and impact in the area of conflict resolution in the workplace. The Office will also focus on building stronger collaboration with the formal system of the administration of justice and to explore opportunities for more referrals from the formal to the informal pillar.
- 1.245 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. For example, the Office will continue to integrate a gender perspective into the provision of conflict resolution services and the identification of systemic issues to provide feedback on gender inequities, as observed in cases brought forward. The Office also compiles gender-disaggregated data.
- 1.246 In line with the United Nations Disability Inclusion Strategy, the Office will work to ensure that it takes into account the needs of persons with disabilities, facilitating their full and effective participation in the activities of the Office, whenever applicable. The Office will work to increase the accessibility of its services, in particular ensuring that the relevant content, such as information conveyed through its online platforms, is available to persons with disabilities.

Evaluation activities

- 1.247 An evaluation of client satisfaction, conducted by the Office and completed in 2023, has guided the proposed programme plan for 2025.
- 1.248 In response to the results of the evaluation referenced above, the Office will work closely with stakeholders and staff and non-staff personnel to raise awareness of the importance of opting for the informal dispute resolution process as a first step. The Office will continue to deliver workshops aimed at increasing awareness of informal conflict resolution mechanisms and building conflict competence skills by engaging staff and non-staff personnel in dialogue and at promoting action to improve workplace behaviour, thereby helping to create a harmonious environment in which everyone can thrive in dignity and mutual respect.
- 1.249 An evaluation of client satisfaction, to be conducted by the Office, is planned for 2025.

Programme performance in 2023

Enhanced awareness of United Nations personnel of informal conflict resolution mechanisms at the workplace

- 1.250 The General Assembly, in its resolution [77/260](#), requested the Secretary-General to increase awareness among staff of the possibility of having conversations to explore informal conflict resolution, including mediation, as a first step, where feasible, prior to filing a formal complaint. The Office used both online and in-person channels to promote knowledge and awareness of its

informal conflict resolution services to all staff and non-staff personnel. In 2023, the Office increased the number of outreach activities, including presentations, information sessions, broadcasts and workshops, delivered to United Nations staff and non-staff personnel around the world, from 60 in 2022 to 260 in 2023. In addition, the Office continued to engage with individual managers, including senior leadership, and management bodies of the Organization on a regular basis to promote the use of informal dispute resolution mechanisms. These efforts have enabled United Nations personnel to develop skills and strategies to address workplace concerns and resolve conflicts in the workplace.

1.251 Progress towards the objective is presented in the performance measure below (see figure 1.XXII).

Figure 1.XXII

Performance measure: visitors to the Office of the United Nations Ombudsman and Mediation Services who indicated that they had learned about information and strategies that could help them to resolve conflict in the workplace

(Percentage)

Planned results for 2025

Result 1: increased reach to promote dignity through civility in the workplace

Programme performance in 2023 and target for 2025

1.252 The Office’s work contributed to the expansion of dignity through civility initiatives, through the increased awareness and skills of 6,675 personnel to promote the principle of dignity, as outlined in the Charter of the United Nations, in their daily interaction and their performance output, which met the planned target.

1.253 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.121).

Table 1.121

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Roll-out of global team site (online collaboration tool) with toolkits and communication materials	Increased awareness of 4,861 United Nations personnel to promote the principle of dignity, as outlined in the	Expansion of dignity through civility initiatives, through increased awareness and skills of 6,675	Increased number of staff reached through the expansion of dignity through civility initiatives	Increased number of staff and non-staff personnel reached through the expansion of dignity

Part I Overall policymaking, direction and coordination

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
	Charter of the United Nations, in their daily interaction and their performance output	United Nations personnel to promote the principle of dignity		through civility initiatives

Result 2: improved access to mediation services

Programme performance in 2023 and target for 2025

- 1.254 The Office’s work contributed to 120 mediation services conducted through a decentralized approach, which exceeded the planned target of 110 mediations.
- 1.255 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XXIII).

Figure 1.XXIII

Performance measure: number of mediation services conducted through a decentralization of services (annual)

Result 3: United Nations non-staff personnel have access to informal conflict resolution services

Proposed programme plan for 2025

- 1.256 By its resolution [78/248](#), the General Assembly decided to regularize the pilot project for access of non-staff personnel to the services of the Office within existing resources. The Office noted that non-staff personnel frequently raised concerns about their contractual terms and conditions, the responsiveness and timeliness in handling issues that they brought forward, and career opportunities, team environment, performance management and supervisory relationships. The Office provides an accessible, safe and confidential resource in the Organization. Given that non-staff personnel will remain a part of the United Nations workforce, they will benefit from continued access to ombudsman and mediation services.

Lessons learned and planned change

- 1.257 The lesson for the Office was the need to increase awareness of non-staff personnel of the organizational processes and procedures for conflict resolution, including how to gain access to available informal conflict resolution mechanisms, given that Office has observed that non-staff personnel often have limited knowledge in this area. In applying the lesson, the Office will conduct outreach to stakeholders, such as human resources officers, to inform them of the availability of the Office’s services for non-staff personnel.

1.258 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXIV).

Figure 1.XXIV

Performance measure: number of non-staff personnel utilizing informal conflict resolution services

Legislative mandates

1.259 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

E. Enabling deliverables

Capacity-building of staff and non-staff personnel through the Dignity through Civility workshops.

Internal justice and oversight: in-person and remote informal dispute resolution services for staff and non-staff personnel; analysis of the root causes of conflict and the provision of upward feedback on systemic issues for an improvement in workplace conditions; awareness-raising and conflict competence-building activities, including information sessions, thematic and interactive panel discussions and workshops; and maintenance of a website in all United Nations official languages and the distribution of printed resource materials on conflict resolution.

B. Proposed post and non-post resource requirements for 2025

Overview

1.261 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.123 to 1.125.

Table 1.123

1.262 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.126 to 1.128 and figure 1.XXV.

1.263 As reflected in tables 1.127 (1) and 1.128 (1), the overall resources proposed for 2025 amount to \$4,433,100 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.XXV
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

1.264 As reflected in tables 1.126 (2) and 1.127 (2), other assessed resources amount to \$2,860,400. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 (A/78/746).

Extrabudgetary resources

1.265 As reflected in table 1.126 (3), extrabudgetary resources amount to \$60,000. The non-post resources would complement regular budget resources and would be used mainly to support the delivery of its mandates, including the provision of conflict resolution services to the International Court of Justice and the World Meteorological Organization in accordance with the memorandum of understanding.

1.266 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.267 Information on the timely submission of documentation and advance booking of air travel is reflected in table 1.129.

X. Office of Administration of Justice

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.268 The Office of Administration of Justice is responsible for the overall coordination of the system of administration of justice and contributing to its functioning in a fair, transparent and efficient manner. The mandate of the Office derives from relevant General Assembly resolutions, including resolutions [61/261](#), [62/228](#) and [63/253](#), by which the Assembly established a new, independent, transparent, professionalized, adequately resourced and decentralized system of administration of justice and placed emphasis on the need to ensure the fair and just treatment of United Nations staff and the accountability of managers and staff alike.

Programme of work

Objective

- 1.269 The objective, to which the Office contributes, is to ensure access to justice, in particular to jurisprudence, and respect for the rights and obligations of staff members and the accountability of managers and staff members alike through the efficient and effective functioning of the system of administration of justice.

Strategy and external factors for 2025

- 1.270 To contribute to the objective, the Office will:
- (a) Provide easy access to jurisprudence through the website of the United Nations system of administration of justice, the fully searchable jurisprudence database, the improved searchable digest of case law and outreach means;
 - (b) Provide legal advice and assistance and, where appropriate, legal representation to staff;
 - (c) Enhance the case management systems and provide substantive, technical and administrative support to the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
 - (d) Raise awareness of and increased access to workplace dispute resolution mechanisms, with a focus on field missions and offices, in furtherance of General Assembly resolutions [73/276](#), [74/258](#), [75/248](#) and [76/242](#).
- 1.271 The above-mentioned work is expected to result in:
- (a) Improved decision-making by managers;
 - (b) Increased access to information on when and how to pursue a claim before the Tribunals;
 - (c) Effective dispute resolution;
 - (d) More expedient processing of cases.
- 1.272 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Staff members avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;

- (b) Staff members observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the Tribunals prior to filing applications;
 - (c) Caseload and disposal of cases remain stable;
 - (d) Staff members in remote locations have Internet connectivity to file electronically.
- 1.273 With regard to inter-agency coordination and liaison, the Office will continue to implement its comprehensive outreach strategy to provide staff with improved access to information and resources to resolve workplace grievances. To continue to implement this strategy and reach out to the largest number of staff members possible, in particular in locations away from Headquarters, the Office intends to work collaboratively with several entities and the separately administered funds and programmes. To increase the accessibility of other agencies to the jurisprudence of the Tribunals, the Office launched a fully searchable jurisprudence database in 2022 and, throughout 2023, continued to enhance it. In 2025, the Office will continue to invest in promoting outreach activities to raise awareness of this resource, including in cooperation with other agencies. The Office will also continue to coordinate the preparation of the report of the Secretary-General on the functioning of the system of administration of justice and report on trends and observations.
- 1.274 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Office will continue to identify any systemic issues concerning gender inequality in the access to the system of administration of justice and recommend remedial action. The Office's gender team will continue to support the implementation of the system-wide strategy on gender equality and the empowerment of women.
- 1.275 In line with the United Nations Disability Inclusion Strategy, the Office will maintain accessibility features on the website of the Office that benefit users with temporary or long-term disabilities, in collaboration with the Department of Global Communications.

Programme performance in 2023

Increased use and availability of resources for the system of administration of justice

- 1.276 The Office continuously aims to raise awareness of and increase access to workplace dispute resolution mechanisms, in line with its mandate, including through the use of technology, wherever possible. In 2023, the Office continued its work on the Caselaw portal, launched in October 2022, by working with the Office of Information and Communications Technology to enhance the configuration of the portal and by preparing the requirements for further enhancements that will be implemented in 2024. The Office also produced 21 new educational videos on the system of administration of justice in collaboration with the Department of Operational Support. The videos were produced in English, with French subtitles, contributing to the promotion of multilingualism and increased accessibility to the system of administration, including the Caselaw portal. The Office also launched a public-facing Office of Staff Legal Assistance dashboard.
- 1.277 Progress towards the objective is presented in the performance measure below (see figure 1.XXVI).

Figure 1.XXVI
Performance measure: number of views of the Caselaw portal (annual)

Planned results for 2025

Result 1: improved access to the system of administration of justice through enhanced information and communications technology initiatives

Programme performance in 2023 and target for 2025

- 1.278 The Office’s work contributed to increased outreach through the availability of web content in all the official languages of the United Nations on the administration of justice website, increasing usability and compliance with cybersecurity, design, accessibility and multilingualism guidelines, which met the planned target.
- 1.279 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.130).

Table 1.130
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Availability of the new court case management system for all staff and other stakeholders, and improved insights by staff into the functioning of the system of administration of justice	Improved user access through the enhanced Court Case Management System to include the French official working language for the registry module, enhancing the drafting and editing of case law summaries Improved use of data, including the new real-time case-tracking dashboard	Increased outreach through the availability of web content in all the official languages of the United Nations on the administration of justice website, increasing usability and compliance with cybersecurity, design, accessibility and multilingualism guidelines	Improved access to the system of administration of justice with the availability of a chatbot integrated into the Office’s website	Improved user access through enhancements to the real-time case-tracking dashboards, Caselaw portal and court case management system

Result 2: reduction in the timelines for the resolution of cases before the United Nations Dispute Tribunal

Programme performance in 2023 and target for 2025

- 1.280 The Office's work contributed to 14 cases before the United Nations Dispute Tribunal that were not resolved within prescribed timelines of 400 days, which did not meet the planned target of zero such cases. The target was not met owing to various reasons, including pending interlocutory appeals, the unavailability of applicants for a prolonged period and prolonged time needed to dispose of cases owing to extensive litigation.
- 1.281 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XXVII).

Figure 1.XXVII

Performance measure: number of cases before the United Nations Dispute Tribunal that are not resolved within prescribed timelines

Result 3: improved transparency of the system of administration of justice through the use of business intelligence and reporting on trend analysis

Proposed programme plan for 2025

- 1.282 Fifteen years after the inception of the current system for administration of justice at the United Nations, the implementation of the system has reached a level of maturity to allow the tracking and identification of trends with a view to supporting decision-making. The Office started an in-depth examination of possibilities for enhanced data analysis in 2023. Consolidation of data over the years established a foundation of more complex trend analysis, which would allow for the tracking of the volume and type of cases over the years, the average time required for various types of cases to go through the system and the analysis of other factors such as grade and category of staff, type of legal representation, geographical location and gender.

Lessons learned and planned change

- 1.283 The lesson for the Office was the importance of the ability to visualize, understand and analyse the data generated by the system at a more granular level, in order to anticipate, prevent and mitigate any efficiency problems and continuously improve the accessibility of the system and quality of the services provided. In applying the lesson, the Office will strengthen its business analytics systems to enhance business intelligence and reporting and allow for more advanced, richer analysis of trends and integrated analysis of data emanating from various parts of the system and across different metrics.
- 1.284 Expected progress towards the objective is presented in the performance measure below (see table 1.131).

Table 1.131
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	Increased transparency of the system of administration of justice through the public availability of a new dashboard for United Nations Appeals Tribunal cases and improvements in the dashboard of United Nations Dispute Tribunal cases	Increased transparency of the system of administration of justice through publicly available enhancements to dashboards, including reporting and trend analysis

Legislative mandates

1.285 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

59/283; 61/261; 62/228; 63/253; 73/276; 74/258; 75/248; 76/242; 77/260; 78/248	Administration of justice at the United Nations	66/106	Code of conduct for the judges of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal

C. Substantive deliverables

Databases and substantive digital materials: electronic court case management system, Office of Staff Legal Assistance database and the jurisprudential search engine.

D. Communication deliverables

Outreach programmes, special events and information materials: campaigns to raise awareness of the system of administration of justice and disseminate information about the system.

Digital platforms and multimedia content: United Nations system of administration of justice website.

E. Enabling deliverables

Legal services: legal assistance and, in cases with reasonable chance of success, representation to staff members through the Office of Staff Legal Assistance.

Internal justice and oversight: applications and appeals, including motions, received by the United Nations Dispute Tribunal and the United Nations Appeals Tribunal for processing; substantive, technical and administrative support to the Tribunals in issuing decisions; and assistance to the Internal Justice Council.

B. Proposed post and non-post resource requirements for 2025

Overview

1.287 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.133 to 1.135.

Table 1.133
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

1.288 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.136 to 1.138 and figure 1.XXVIII.

1.289 As reflected in tables 1.136 (1) and 1.137 (1), the overall resources proposed for 2025 amount to \$11,037,100 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Table 1.136

Figure 1.XXVIII
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

1.290 As reflected in tables 1.136 (2) and 1.137 (2), other assessed resources amount to \$218,700. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 ([A/78/746](#)).

Extrabudgetary resources

1.291 As reflected in table 1.136 (3), extrabudgetary resources amount to \$2,277,300. The non-post resources would complement regular budget resources and would be used mainly to support the delivery of its mandates, as well as support the Office in the provision of legal assistance to staff.

1.292 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.293 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.139. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

XI. Ethics Office

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.294 The Ethics Office was established as an independent Secretariat office and is responsible for assisting the Secretary-General in ensuring that all staff members perform their functions consistent with the highest standards of integrity, as required under the Charter of the United Nations. The mandate of the Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [60/1](#) and [60/248](#). The Office also assists the Secretary-General in reporting annually to the Assembly on the implementation of ethics policies in response to Assembly resolution [60/254](#) and on the activities of the Ethics Panel of the United Nations pursuant to Assembly resolution [63/250](#). Pursuant to Assembly resolution [77/278](#), the Office directly presents an annual report to the Assembly. Further to Assembly resolution [70/305](#), the Office has been mandated to participate in providing an induction briefing to all Presidents of the General Assembly and their offices, to review the financial disclosures of those Presidents and to vet all private contributions to the Office of the President of the General Assembly. As provided for in Assembly resolution [71/263](#), the Office aims to do its part in the swift and effective implementation of the revised policy on protection against retaliation and to cultivate an organizational culture in which staff feel free to speak up.

Programme of work

Objective

- 1.295 The objective, to which the Office contributes, is to achieve and sustain an organizational culture of integrity, accountability and transparency, wherein all staff members observe and perform their functions consistent with the highest standards of integrity required under the Charter of the United Nations.

Strategy and external factors for 2025

- 1.296 To contribute to the objective, the Office will:
- (a) Provide independent and preventive ethics advice, guidance and briefings to staff and management to ensure that ethical standards are well understood, support ethics standard-setting and promote policy coherence within the Secretariat and among the Organization's separately administered organs and programmes;
 - (b) Deliver its services in line with its terms of reference outlined in the relevant Secretary-General's bulletins ([ST/SGB/2005/22](#) and [ST/SGB/2007/11](#) and [ST/SGB/2007/11/Amend.1](#)), through the administration of the annual financial disclosure programme, the provision of guidance and confidential ethics advice (including pre-appointment disclosure reviews for senior appointments and through the ethics helpline), the conduct of ethics briefings and outreach, and the fulfilment of the Office's responsibilities regarding the protection against retaliation policy, and by ensuring policy support and coherence of ethical standards;
 - (c) Identify risks in staff engagement in outside activities, in particular in terms of potential conflicts of interest and their impact on the Organization;
 - (d) Foster a shared understanding of the standards of conduct for the international civil service through the Ethics Network of Multilateral Organizations member entities affiliated with CEB;

- (e) Support the Organization's overall strategy on risk management, including identifying and mitigating personal and organizational conflicts of interest through the financial disclosure programme and the provision of advice, and, upon request, work with the various owners of the risks identified in the enterprise risk registry in updating and implementing their response plans;
 - (f) Communicate and demonstrate the availability of measures for protection against retaliation, by continuously working within the Secretariat (with the Department of Global Communications, OIOS and the Department of Management Strategy, Policy and Compliance) and throughout the United Nations system through outreach activities.
- 1.297 The above-mentioned work is expected to result in:
- (a) Greater public trust in the integrity of the Organization through the financial disclosure exercise, retaining the foundational defence for the Organization from personal conflicts of interest and potential reputational damage;
 - (b) Awareness among a greater number of staff of ethical standards and practices and of provisions for protection against retaliation;
 - (c) Enhanced organizational culture of integrity, transparency and accountability.
- 1.298 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Staff continue to avail themselves of the services provided by the Office;
 - (b) Financial disclosure statements from staff are submitted to the Office in a timely manner;
 - (c) All necessary documentation is provided by staff when seeking protection against retaliation;
 - (d) The security and public health situations in duty stations will allow for in-person outreach missions, when required.
- 1.299 With regard to cooperation with other entities at the global, regional, national and local levels, the Office expects to participate in the 2025 annual meeting of the Ethics Network of Multilateral Organizations.
- 1.300 With regard to inter-agency coordination and liaison, the Director of the Office will continue to chair and provide functional leadership to the Ethics Panel of the United Nations to increase coherence in the work of member ethics offices, as reflected in Secretary-General's bulletins [ST/SGB/2007/11](#) and [ST/SGB/2007/11/Amend.1](#). The Office will continue to engage with the Ethics Network of Multilateral Organizations member entities affiliated with CEB in the interest of ethics policy coherence and to promote protection against retaliation in the United Nations system. It will also continue to administer the financial disclosure requirements of those system entities that have opted to outsource this requirement to the Secretariat's Ethics Office. It will further continue to review contested matters by the staff of the separately administered organs and programmes of the Ethics Panel.
- 1.301 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. It disaggregates its service data by gender, where possible. The Office has received more enquiries from women consistently over the years and has responded to them. As a practice, and when funds allow, outreach mission teams of the Office will continue to be in pairs and gender-balanced. Subject to demand from requesting entities, the Office will provide gender-disaggregated information.

Programme performance in 2023

Enhanced accountability of the Ethics Office

- 1.302 In response to the General Assembly resolution [71/263](#), the Office has been engaging with Member States on measures to strengthen the independence of the Office, as proposed by the Secretary-General in his 2022 report on the activities of the Office ([A/77/75](#)) and preceding ones. The proposed measures were supported by the Joint Inspection Unit review of the ethics function in the United Nations system ([JIU/REP/2021/5](#)), in which it urged the Assembly to approve the proposed independence measures.

Section 1 Overall policymaking, direction and coordination

Following the Assembly’s decision in its resolution [77/278](#), the Office presented its annual report covering its 2022 activities directly to the Assembly, pursuant to that resolution, as part of the fulfilment of accountability of the operations of the Office. The Office continued to engage with the Independent Audit Advisory Committee regarding its enhanced oversight role vis-à-vis the Office.

1.303 Progress towards the objective is presented in the performance measure below (see table 1.140).

Table 1.140
Performance measures

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	–	Enhanced accountability of the Office through direct presentation of the annual report to the General Assembly The Independent Audit Advisory Committee revised its terms of reference, for consideration by the General Assembly, to reflect Assembly resolution 77/278 , by which it approved the enhanced role of the Committee to strengthen the accountability of the framework of the Office

Planned results for 2025

Result 1: coherent ethical standards and their consistent application

Programme performance in 2023 and target for 2025

- 1.304 The Office’s work contributed to strengthened coherence in the development and application of ethical standards through the participation of the Secretariat and the Ethics Panel of the United Nations in the ongoing International Civil Service Commission (ICSC) review of the standards of conduct for the international civil service and the participation of the Secretariat in two working groups of the Panel for increased coherence in the areas of outside activities and gifts, which met the planned target.
- 1.305 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.141).

Table 1.141
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Increased understanding of United Nations system entities on the application of ethical standards and practices	CEB chapter of the Ethics Network of Multilateral Organizations was created, consisting of member entities affiliated with CEB Participation of the Secretariat and the Ethics Panel of the	Strengthened coherence in the development and application of ethical standards through participation in the ongoing ICSC review of the standards of conduct for the international	Secretariat and other United Nations entities of the United Nations conduct a systematic review and update of policies outlining ethical standards	Increased awareness of the Secretariat and other United Nations entities staff on the updated ICSC standards of conduct and related policies of the Organization to enhance compliance

	United Nations in the ICSC review of the standards of conduct for the international civil service	civil service, and participation in working groups of the Ethics Panel for increased coherence in outside activities and gifts	against the updated ICSC standards of conduct	with ethical standards

Result 2: reduced ethical risks arising from the conduct of outside activities

Programme performance in 2023 and target for 2025

- 1.306 The Office’s work contributed to engagement by United Nations leadership and personnel on the personal use of social media, with 34,189 participants in the 2023 Leadership Dialogue, which met the planned target.
- 1.307 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.142).

Table 1.142
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
United Nations personnel engage in scenario-based exercises on actual and potential day-to-day ethical challenges, including conflicts of interest, through interactive workshops	United Nations personnel request and receive advice on outside activities (414 queries)	Engagement by United Nations leadership and personnel on the personal use of social media, with 34,189 participants in the 2023 Leadership Dialogue	Ethics Panel of the United Nations and the Ethics Network of Multilateral Organizations member entities affiliated with CEB develop common guidance on outside activities	Ethics Panel of the United Nations and the Ethics Network of Multilateral Organizations member entities affiliated with CEB develop common guidance on outside activities

Result 3: enhanced ethical awareness and access to ethics services by field personnel

Proposed programme plan for 2025

- 1.308 In response to the request of the General Assembly in its resolution [77/278](#) for proposals to enhance the work of the Office in the field, the Office has devised and delivered outreach services tailored to specific needs and interest of personnel in the field. Such services include in-person advisory services to field personnel and services on ethics issues and on-demand, interactive workshops provided for field offices on various ethics-related themes.

Lessons learned and planned change

- 1.309 The lesson for the Office was the need for constant, close engagement with personnel in the field on ethical standards and conduct based on their local context. Ethical issues faced by personnel in the field vary on the basis of the local context. In addition, close interactions with field personnel are invaluable in building trust. The Office has observed increased requests from field offices following the conduct of outreach visits. In applying the lesson, the Office will strengthen engagement with field-based personnel, including more frequent in-person workshops and guidance, with the aim of

Section 1 Overall policymaking, direction and coordination

enhancing their ethical awareness and helping them to comply with the standing ethical standards in their day-to-day operations.

1.310 Expected progress towards the objective is presented in the performance measure below (see table 1.143).

Table 1.143
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Strengthened ethical awareness of field personnel through outreach sessions, including issue-specific workshops and training based on specific identified needs	Field personnel have access to ethics-related standards through the intranet page of the Office launched on iSeek	Field personnel have access to more interactive media materials on topics relating to ethical standards	Field personnel have access to more tailored services, including customized guidance, workshops, town halls and other outreach activities, taking into account the local context and specific circumstances of field operations	Improved access of field personnel to ethics services and support through enhanced field presence of the Office

Legislative mandates

1.311 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

60/1	2005 World Summit Outcome (para. 61 (d))	63/250; 71/263;	Human resources management
60/248	Special subjects relating to the proposed programme budget for the biennium 2006–2007	77/278	
60/254	Review of the efficiency of the administrative and financial functioning of the United Nations	70/305	Revitalization of the work of the General Assembly

Deliverables

1.312 Table 1.144 lists all deliverables of the Ethics Office.

Table 1.144
Ethics Office: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Ethics Office to the General Assembly on the activities of the Office	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	6	5	6	5
2. Meetings of the Advisory Committee on Administrative and Budgetary Questions	3	2	3	2
3. Meetings of the Fifth Committee	3	3	3	3

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: expert advice, guidance and technical assistance to staff on the United Nations standards of conduct and ethics issues.

D. Communication deliverables

Outreach programmes, special events and information materials: outreach campaigns to raise awareness of the work of the Office and information on ethics-related matters, booklets and presentations.

Digital platforms and multimedia content: website and social media.

E. Enabling deliverables

Internal justice and oversight: management of financial disclosure and declaration of interest statements at a 100 per cent compliance rate and coordination for assessment under the financial disclosure programme; expert advice to staff on the United Nations standards of conduct and ethics issues; and protection of staff members against retaliation for reporting misconduct or cooperation in duly authorized audits or investigations.

B. Proposed post and non-post resource requirements for 2025

Overview

1.313 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.145 to 1.147.

Table 1.145
Evolution of financial resources by object of expenditure

1.314 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.148 to 1.150 and figure 1.XXIX.

1.315 As reflected in tables 1.148 (1) and 1.149 (1), the overall resources proposed for 2025 amount to \$2,476,500 before recosting, reflecting an increase of \$659,200 (or 36.3 per cent) compared with the approved budget for 2024. Resource changes results from new and expanded mandates and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 1.XXIX

Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

**Explanation of variances by factor****Overall resource changes****New and expanded mandates**

- 1.316 As shown in table 1.148 (1), resource changes reflect an increase of \$429,700 pursuant to General Assembly resolution [77/278](#), as follows: (a) \$378,000 under other staff costs relating to the proposed establishment of three general temporary assistance positions to enhance the work of the Office in the field, including in-person advisory services to field personnel and services on ethics issues and on-demand, interactive workshops provided for field offices on various ethics-related themes (1 P-4 in Bangkok, 1 P-4 in Nairobi and 1 P-4 in Vienna); (b) \$34,300 under travel of staff relating to the regional travel to be undertaken by the newly established general temporary assistance positions; and (c) \$17,400 relating to the provisions associated with the proposed establishment of the three general temporary positions, including contractual services (\$4,100), general operating expenses (\$9,000), supplies and materials (\$600) and furniture and equipment (\$3,700).

Other changes

- 1.317 As shown in table 1.148 (1), resource changes reflect an increase of \$229,500 under contractual services relating to provisions for additional filers for the United Nations financial disclosure programme and for the upgrade of the financial disclosure system. This is in accordance with the recommendations of OIOS, namely, to cover a larger number of staff in the financial disclosure programme, to enhance the financial disclosure system to ensure the completeness and accuracy of submitted information by staff and to improve the efficiency of the programme.

Other assessed resources

- 1.318 As reflected in tables 1.148 (2) and 1.149 (2), other assessed resources amount to \$1,097,400. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 ([A/78/746](#)).

Section 1 Overall policymaking, direction and coordination

Extrabudgetary resources

- 1.319 As reflected in table 1.148 (3), extrabudgetary resources amount to \$1,464,100. The non-post resources would complement regular budget resources and would be used mainly to support the delivery of its mandates and cover the administration of the financial disclosure programme for staff funded from extrabudgetary resources, as well as provide for ethics services for the World Meteorological Organization, subject to an extension of the established memorandum of understanding.
- 1.320 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.321 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.151. The Office will continue its 100 per cent compliance with the advance booking of air travel policy.

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.322 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in table 1.152.

Table 1.152
Evolution of financial resources by object of expenditure
 (Thousands of United States dollars)

Object of expenditure	2023 expenditure	2024 approved	Changes				Total	Percentage	2025 estimate (before recosting)
			Technical adjustments	New/expanded mandates	Other				
Consultants	60.3	120.4	(120.4)	–	–	(120.4)	–	–	
Contractual services	–	1.6	(1.6)	–	–	(1.6)	–	–	
Total	60.3	122.0	(122.0)	–	–	(122.0)	–	–	

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 1.323 As reflected in table 1.152, resource changes reflect a decrease of \$122,000 relating to the removal of non-recurrent provisions for the investigation into the conditions and circumstances resulting in the tragic death of Dag Hammarskjöld and of the members of the party accompanying him, in accordance with General Assembly resolution [77/252](#).

XIII. Resident coordinator system

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.324 General Assembly resolution [72/279](#) on the repositioning of the United Nations development system and the Economic and Social Council segment on operational activities for development guide the scope and implementation of the activities of the resident coordinator system. In line with resolutions [72/279](#), [75/233](#) and other relevant Assembly resolutions, the substantive mandates of the resident coordinator system are oriented around supporting countries in the implementation of the 2030 Agenda. The management of the resident coordinator system rests with the Development Coordination Office, with resident coordinators reporting directly to the Secretary-General. Resident coordinators are the designated representatives of the Secretary-General for development operations at the country level. At the heart of the resident coordinator system are 130 resident coordinators leading 130 United Nations country teams operating in 162 countries and territories.

Programme of work

Objective

- 1.325 The objective, to which the resident coordinator system contributes, is to accelerate Member States' progress towards achieving the Sustainable Development Goals through strengthened United Nations development leadership, robust coordination mechanisms, tools and frameworks, the effective management of joint resources and improved transparency of results to improve the impact, efficiency and effectiveness of operational activities for development at the country, regional and global levels.

Strategy and external factors for 2025

- 1.326 To contribute to the objective, the resident coordinator system will scale up partnerships-driven development support to national Governments in order to implement the 2030 Agenda by strengthening the design and implementation of United Nations Sustainable Development Cooperation Frameworks. Specifically, the resident coordinator system will:
- (a) Increase the diversity in the resident coordinator cohort, including geographical representation, professional background and language skills;
 - (b) Support, through the Development Coordination Office at the global and regional levels, United Nations country teams in delivering individual and collective results;
 - (c) Develop, as requested, global policy and guidelines in support of the United Nations Sustainable Development Group and its subsidiary groups;
 - (d) Strengthen the quality of information management systems and results reporting for full transparency and accountability of the resident coordinator system and United Nations development system efforts in support of the 2030 Agenda at the global, regional and national levels;

- (e) Accelerate the implementation of business operations strategies and the consolidation of local and global operational functions into common back offices and global shared services, and expand the number of common premises to ensure greater efficiencies at the national level;
 - (f) Continue to leverage catalytic funding provided by the Joint Sustainable Development Goals Fund to help countries to accelerate the achievement of the Goals by propelling key transitions in areas such as digitalization, food systems transformation, and social protection and jobs, with an emphasis on localization of the Goals and fostering cross-fertilization and systems-level change for the 2030 Agenda;
 - (g) In line with intergovernmental commitments, support Member States in addressing and proactively managing risks and in taking preventive action vis-à-vis increasing and compounding actual, anticipated and unforeseen crises, including cost-of-living pressures and the impact of other global crises. This approach will be anchored firmly within the United Nations Sustainable Development Cooperation Frameworks.
- 1.327 The above-mentioned work is expected to result in:
- (a) A stronger convening role for the broad system of development stakeholders to offer countries interdisciplinary, coherent and future-informed policy solutions to advance the achievement of the Sustainable Development Goals;
 - (b) A coherent and transparent approach to United Nations sustainable development operations at the national, regional and global levels, including consistent implementation of system-wide priorities, policies and approaches across United Nations Sustainable Development Group entities;
 - (c) Strengthened partnerships to accelerate the progress made by Member States in the attainment of the Sustainable Development Goals, including by attracting and leveraging public and private financing for the Goals;
 - (d) Increased financial resources and effectiveness for United Nations programme implementation through reduced costs and the increased agility of the United Nations development activities;
 - (e) The safeguarding of lives and livelihoods by continuing to address the socioeconomic and long-term impacts of multiple and interlocking crises, with attention given to those hit hardest.
- 1.328 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Adequate funding for the resident coordinator system, as well as for the Joint Sustainable Development Goals Fund and other key pooled funds;
 - (b) Continued and renewed engagement by Member States on the funding compact and the implementation of related commitments to ensure that the quality and quantity of funding allows the United Nations development system to maximize its comparative advantages and further incentivize United Nations coherence and unity of purpose;
- 1.329 With regard to inter-agency coordination and liaison, the resident coordinator system will continue to serve as the secretariat to the United Nations Sustainable Development Group and will continue to actively coordinate member United Nations entities at the principal, director and technical levels. The resident coordinators will continue to lead United Nations country teams in supporting national plans and priorities.
- 1.330 With regard to cooperation with other entities at the global, regional, national and local levels, the resident coordinator system will continue to work closely with Member States, United Nations development entities, Secretariat entities, including peacekeeping and special political missions, international financial institutions and civil society partners, to advance the Sustainable Development Goals and the 2030 Agenda.

- 1.331 The resident coordinator system integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The resident coordinator system will continue to enhance implementation of and reporting on the United Nations accountability framework on gender equality. For example, through the United Nations System-wide Gender Equality Acceleration Plan, the system will ensure the application of the United Nations country team gender equality marker to track planned investment by the country teams for gender equality and the empowerment of women and to advance gender-responsive realization of the Sustainable Development Goals.
- 1.332 In line with the United Nations Disability Inclusion Strategy, the resident coordinator system will focus on implementation of the Strategy across the resident coordinator system (as further formulated in the Development Coordination Office disability inclusion strategy for the period 2022–2025) and support United Nations country teams in implementing and reporting on the strategy, building on the 100 per cent reporting rate achieved in 2023 and progress reported by United Nations country teams.

Evaluation activities

- 1.333 The following evaluations completed in 2023 have guided the proposed programme plan for 2025:
- (a) Evaluation of resident coordinator system support for the enabling of coherent United Nations policy advice (OIOS);
 - (b) Seven evaluations conducted on United Nations Development Assistance Frameworks and United Nations Sustainable Development Cooperation Frameworks (four in the Africa region, one in the Arab States region and two in the Latin America and the Caribbean region).
- 1.334 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2025. For example, the resident coordinator system will explore greater opportunities to engage with other United Nations entities or coalitions providing policy advice and/or supporting the country teams in order to leverage system-wide policy support provided at the regional and global levels, in particular for integrated policy advice and capacity support in key transitions needed for the achievement of the Sustainable Development Goals. The programme will also examine opportunities for improving the connection of existing United Nations country team results groups covering similar topics (e.g., digital topics or the climate/environment) to policy level discussions, which would increase the effectiveness of coordination mechanisms for resident coordinators and country team members.
- 1.335 A total of 22 United Nations Sustainable Development Cooperation Framework evaluations, namely, 8 in the Africa region, 1 in the Arab States region, 5 in the Asia and the Pacific region, 2 in the Europe and Central Asia region and 6 in the Latin America and the Caribbean region, are planned for 2025.

Programme performance in 2023

Improved policy support to national Governments in Sustainable Development Goal acceleration

- 1.336 With only 15 per cent of Sustainable Development Goal targets on track to be achieved, and in response to Member States' requests for greater integration and coordination of United Nations development system support, resident coordinators have leveraged United Nations expertise – both in-country and non-resident – effectively to enable integrated policy advice and have engaged with senior levels of Government and development partners to support development policies, plans and strategies aligned to national needs and priorities. This provided host Governments with the additional capacity required to advance progress regarding the Goals, including through the development of new or revised policy frameworks. The launch at the Sustainable Development Goal Summit in 2023 of high-impact initiatives in key “transition” areas is giving renewed impetus to these efforts, in line with Member States' requests to accelerate progress on the Goals expressed in

the political declaration adopted at the 2023 high-level political forum on sustainable development (General Assembly resolution 78/1, annex).

1.337 Progress towards the objective is presented in the performance measure below (see figure 1.XXX).

Figure 1.XXX

Performance measure: host country Governments that indicate that the resident coordinator effectively leads the United Nations country team’s strategic support for national plans and priorities

(Percentage)

Planned results for 2025

Result 1: countries access integrated advice on most transformational policy levers for achievement of the Sustainable Development Goals from the United Nations and relevant partners

Programme performance in 2023 and target for 2025

1.338 The programme’s work contributed to 88 per cent of programme country Governments agreeing that the United Nations development system provided integrated policy advice tailored to national needs and priorities, which did not meet the planned target of 100 per cent. The target was not met because there were diverse expectations of Governments for, and varying capacities of United Nations country teams to deliver, tailored integrated policy advice. These lessons are informing additional ways for the resident coordinator system to help to narrow the gap in 2024.

1.339 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XXXI).

Figure 1.XXXI

Performance measure: programme country Governments that “agree” that the United Nations development system provides integrated policy advice tailored to national needs and priorities

(Percentage)

Result 2: improved transparency and accountability of United Nations country teams’ joint programmatic work on the ground

Programme performance in 2023 and target for 2025

- 1.340 The programme’s work contributed to 119 United Nations country team joint workplans being showcased through UN-Info, which did not meet the planned target of 122. The target was not met owing to unforeseen challenges in the data collection process for joint workplans.
- 1.341 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XXXII).

Figure 1.XXXII

Performance measure: number of United Nations country team joint workplans showcased through UN-Info

Result 3: increased transparency and accountability for United Nations results and the contribution to the Sustainable Development Goals through standard United Nations Sustainable Development Cooperation Framework indicators

Proposed programme plan for 2025

- 1.342 The resident coordinator system is implementing a new United Nations Sustainable Development Group policy on standardized monitoring through the United Nations Sustainable Development Cooperation Frameworks in response to General Assembly resolutions [72/279](#) and [75/233](#). In particular, the Development Coordination Office led an inter-agency consultation on a new approach to measure the United Nations development system-wide contribution to the Sustainable

Development Goals through the Cooperation Frameworks. The system-wide output indicator framework, adopted by the Group in November 2022, helps to improve the quality of cooperation framework monitoring to enable more effective programmatic decision-making, while minimizing transaction costs and reducing the reporting burden.

Lessons learned and planned change

- 1.343 The lesson for the subprogramme was that governing data at the right levels and with the right approaches allowed the United Nations to better use data as a strategic asset. In response, the capacity and accountability for data collection and input are delegated as close to the country level as possible, including accountability for data quality and use in line with system-wide and entity policies and rules. The resident coordinator office will strengthen its coordination support for the implementation of the output indicator framework. This will include a review of the relevant data captured, validating data and establishing processes for United Nations country teams to enter data into UN-Info.
- 1.344 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXXIII).

Figure 1.XXXIII

Performance measure: United Nations country teams providing data against agreed common indicators on the United Nations development system's contribution to advancing the Sustainable Development Goals (annual)

(Percentage)

Legislative mandates

- 1.345 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

70/1	Transforming our world: the 2030 Agenda for Sustainable Development	73/248 ; 74/238 ; 76/220 ; 77/184 ; 78/166	Operational activities for development of the United Nations system
71/243 ; 75/233	Quadrennial comprehensive policy review of operational activities for development of the United Nations system	76/4	Review of the functioning of the reinvigorated resident coordinator system, including its funding arrangement
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system		

Economic and Social Council resolutions

<p>2019/15; 2020/23</p>	<p>Progress in the implementation of General Assembly resolution 71/243 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system</p>	<p>2022/25; 2023/31</p>	<p>Progress in the implementation of General Assembly resolution 75/233 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system</p>
-------------------------	---	-------------------------	---

Deliverables

1.346 Table 1.153 lists all deliverables of the programme.

Table 1.153

Resident coordinator system: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Chair of the United Nations Sustainable Development Group on the Development Coordination Office, including on the contribution of the United Nations Sustainable Development Group to the Sustainable Development Goals	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Fifth Committee	1	1	1	1
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Technical materials (number of materials)	316	285	336	329
4. Common country analyses (new or annual update) to inform United Nations planning, programming and contribution to country-level implementation of the 2030 Agenda for Sustainable Development	131	102	132	132
5. United Nations country team reports to the universal periodic review	45	44	38	42
6. Evaluations of United Nations Sustainable Development Cooperation Frameworks	8	7	33	22
7. Annual reports on joint United Nations country team results	131	131	132	132
8. Annual consolidated progress report on the Joint Sustainable Development Goals Fund	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: consultation with Member States, regional organizations and the private sector on common action in support of development cooperation frameworks; and 6 substantive briefings to Member States.				
D. Communication deliverables				
Digital platforms and multimedia content: UN-Info.				
Outreach programmes, special events and information materials: at least 2 thematic windows to promote and finance thematic Sustainable Development Goal transformations.				
E. Enabling deliverables				
Administration: occupational health and safety for United Nations personnel and dependents; support for the design and implementation of the business operations strategies, common back offices, global shared services and common premises; timely issuance of Secretary-General's delegation of authority to newly appointed resident coordinators and monitoring of accountability key performance indicators.				
Legal services: negotiation on and conclusion of the legal framework to create an authorizing environment for the reinvigorated resident coordinator system with host countries.				

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.347 The proposed programme budget for 2025 (regular budget), including the breakdown of resource changes, as applicable, are reflected in table 1.154.

Table 1.154

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2023 expenditure	2024 approved	Changes			Total	Percentage	2025 estimate (before recosting)
			Technical adjustments	New/expanded mandates	Other			
Grants and contributions ^a	13 442.5	13 442.5	–	–	–	–	–	13 442.5
Total	13 442.5	13 442.5	–	–	–	–	–	13 442.5

^a Represents the Secretariat share of the cost-sharing arrangement in the United Nations Sustainable Development Group, to be disbursed as a grant.

- 1.348 Pursuant to General Assembly resolution [72/279](#), the resident coordinator system is funded through a 1 per cent coordination levy on tightly earmarked non-core contributions to United Nations system development-related activities, a cost-sharing arrangement among the entities of the United Nations Sustainable Development Group and voluntary contributions. In 2025, the Secretariat share of the cost-sharing arrangement for entities of the Sustainable Development Group will remain at \$13,442,500, proposed to be funded from the regular budget. This amount represents no change compared with the approved budget for 2024. To ensure adequate, predictable and sustainable funding for the resident coordinator system, the Secretary-General presented his report on revised estimates relating to the proposed programme budget for 2024 ([A/78/753](#)), wherein he proposed that funding through voluntary contributions be converted to funding from the regular budget (including the conversion of 801 posts), effective 1 January 2024. The report is under consideration by the Assembly.¹ Accordingly, the proposed programme budget for 2025 is presented at the same level as the approved budget for 2024 and will be revised to reflect the outcome of the decisions of the Assembly on the Secretary-General's report.
- 1.349 The methodology for the calculation of the participating entity share and the amount for each participating entity is reflected in the report of the Secretary-General on revised estimates relating to the resident coordinator system under section I, Overall policymaking, direction and coordination ([A/73/424](#)). As requested by the General Assembly in its resolution [72/279](#), the cost-sharing formula was reviewed as part of a comprehensive review of the reinvigorated resident coordinator system, including its funding arrangements, to ensure that the formula was current, fair, consistent, transparent and predictable. Consequently, the revised cost-sharing formula was adopted in 2020, reflecting the direct involvement of each agency on the basis of the proportion of services used.
- 1.350 For 2025, resources for the resident coordinator system include the special purpose trust fund and the locally mobilized resources. Under the special purpose trust fund, the resident coordinator system expects to generate \$281.8 million of pooled funding, comprising \$154 million from voluntary contributions, \$77.5 million from the cost-sharing arrangement and \$50.3 million from the 1 per cent coordination levy. The distribution of the resources is reflected in tables 1.155 and 1.156. Under the locally mobilized resources, the resident coordinator system anticipates \$8.4 million of earmarked contributions to be received at the country level for activities financed by third parties that are mobilized locally for activities that go beyond the core focus of the special purpose trust fund (reflected in table 1.155 below under country coordination component).

¹ Refers to the time of writing of the present report and the second resumed session of the seventy-eighth session of the General Assembly.

Total	209 193.9	281 826.4	–	–	281 826.4

Part I Overall policymaking, direction and coordination

- 1.351 The overall resource requirements for 2025 include \$281.8 million for the special purpose trust fund for the resident coordinator system (see table 1.156).
- 1.352 Resource requirements of \$281.8 million under the special purpose trust fund for 2025 are maintained at the same level as 2024. The increase of \$2.4 million under posts is offset in full by the decrease under non-post resources. The increase of \$2.4 million under posts reflects mainly the application of updated standard costs for posts. The net decrease of \$2.4 million under non-post resources reflects primarily a decrease of \$0.9 million under other staff costs for the revised standard costs of 10 triple-hatted resident coordinators and the removal of the costs of 2 previous triple-hatted resident coordinators (in Mali and the Sudan), which are now proposed under posts; a decrease of \$0.7 million under furniture and equipment due to the removal of the costs of one-time acquisitions; and, a net decrease of \$0.8 million resulting from the decreased demand for office automation, alteration of premises and rental of vehicles provisioned under general operating expenses and from the redeployment of resources among consultants, travel of staff, supplies and materials and contractual services relating to the use of the country-level coordination fund by the resident coordinators.
- 1.353 The estimated number of posts for the special purpose trust fund in 2025 is reflected in table 1.157. The proposed number of posts in 2025 reflects a net increase of two posts compared with 2024 owing to the establishment of two new posts, in Mali and the Sudan, at the Assistant-Secretary-General level for the resident coordinator and the humanitarian coordinator function, following the closure, respectively, of the United Nations Multidimensional Integrated Stabilization Mission in Mali and the United Nations Integrated Transition Assistance Mission in the Sudan. Additional justifications for all other changes of posts are provided under the “country coordination” component.

Executive direction and management

1.354 The proposed resources under executive direction and management would provide for the Office of the Assistant Secretary-General for Development Coordination. This Office provides strategic planning for the resident coordinator system, supports the Chair, Vice-Chair, principals and working mechanisms of the United Nations Sustainable Development Group and monitors strategic aspects of implementation and progress-tracking of the quadrennial comprehensive policy review. The Office is responsible for managing the engagement with Member States and ensuring their oversight of the resident coordinator system for increased accountability towards them, including by the General Assembly and the Economic and Social Council, and forging strategic partnerships for the mobilization of extrabudgetary resources for the system. The Office also provides substantive engagement and liaison with the highest bodies of decision-making of the United Nations and other departments to ensure greater operational coherence in delivering on the mandate of the resident coordinator system. The Assistant Secretary-General is responsible for the management and oversight of the resident coordinator system, including the resident coordinators. There is no change in the number and level of posts in 2025 compared with 2024. The distribution of resources is reflected in tables 1.159 and 1.160.

1.355 The extrabudgetary resources under the present component are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

Global coordination

1.357 Under global coordination, branches and sections of the Development Coordination Office at Headquarters work with entities and mechanisms of the United Nations Sustainable Development Group and the broader United Nations system to improve the strategic and operational coherence of operational activities for development. This is achieved by fostering system-wide approaches for integrated policy priorities that accelerate the implementation of the 2030 Agenda. The branches and sections also provide strategic guidance to United Nations country teams for joint analysis, planning, programming, monitoring and assessment of United Nations Sustainable Development Cooperation Frameworks, as well as guidance for joint communications and advocacy on the Sustainable Development Goals and the advancement of system-wide operational efficiencies. Responsibilities under global coordination are implemented by two branches and two sections: the Policy and Programming Branch, the Resident Coordinator System Leadership Branch, the Country Business Strategies Section and the Communications and Results Reporting Section. There is no change in number and level of posts in in 2025 compared with 2024.

1.358 The distribution of resources for global coordination is reflected in tables 1.163 and 1.164.

Table 1.163

Regional coordination

1.359 The regional teams of the resident coordinator system provide support for country-level coordination. They focus on day-to-day management and support for coherent and effective delivery of operational activities for development by resident coordinators and United Nations country teams through integrated policy programming and operational support, together with the regional teams of the United Nations Sustainable Development Group and the United Nations regional economic and social commissions. The regional level of the Development Coordination Office enables tailored and dedicated support to various regions around the world, being close to the point of delivery and in charge of a select number of country contexts.

1.360 The distribution of resources for regional coordination is reflected in tables 1.165 and 1.166.

Table 1.165

Country coordination

- 1.361 Country coordination consists of the work that resident coordinators undertake with the support of resident coordinator offices in leading a new generation of United Nations country teams and development system support for the implementation of the 2030 Agenda at the country level. This independent, impartial and empowered coordination function is carried out in line with national priorities, needs and planning frameworks under the ownership and leadership of programme countries, for a coherent, effective, efficient and accountable response to country-specific needs, to maximize the impact of the United Nations support and the sustainability of development results. The proposed number of posts in 2025 reflects an increase of two posts, in Mali and the Sudan, at the Assistant-Secretary-General level for the resident coordinator and humanitarian coordinator function, following the closure, respectively, of the United Nations Multidimensional Integrated Stabilization Mission in Mali and the United Nations Integrated Transition Assistance Mission in the Sudan, which were previously cost-shared with the relevant missions and planned under their staffing tables. In 2025, it is proposed that these posts be funded in full under the staffing table of the resident coordinator system. In addition, it is also proposed that the resident coordinator and humanitarian coordinator post for Ethiopia be reclassified from the D-2 to the Assistant Secretary-General level. The proposed reclassification reflects the continuing challenging in-country context and complexity and the increased demand from the United Nations country team for coordination of both development and humanitarian activities in Ethiopia.
- 1.362 The distribution of resources for country coordination is reflected in tables 1.167 and 1.168 (a) for resources under the special purpose trust fund and in table 1.168 (b) for resources under locally mobilized resources.

Programme support

1.363 Programme support services are provided by the Resident Coordinator System Business Management Branch in the Development Coordination Office, with the overall objective of managing the operations of the resident coordinator system to ensure full accountability for and oversight of the system. The Branch serves as the Executive Office of the Development Coordination Office and provides daily business services and administrative support to the Office at the global level, including on human resources, information technology, finance, travel, procurement and systems platform management. It is responsible for the development and oversight of and reporting on the Office's headquarters budget. The Branch manages the operational relationship with the service providers of the resident coordinator system. It advises and provides backstopping support on business services to the Office's regional desks and resident coordinator offices. It coordinates and oversees resident coordinator system results-based budgeting and regular reporting, including to the General Assembly. It is responsible for financial management and financial reporting on all sources of funds for the resident coordinator system. The Branch is also responsible for policy guidance on management accountability and oversight support for the Office in coordination with other offices within the Secretariat. There is no change in number and level of posts in 2025 compared with 2024.

1.364 The distribution of resources for programme support is reflected in tables 1.169 and 1.170.

XIV. United Nations Youth Office

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.365 The United Nations has long recognized that the imagination, ideals and energy of young people are vital for the continuing development of the societies in which they live. In 1965, in its resolution [2037 \(XX\)](#), the General Assembly acknowledged the Declaration on the Promotion among Youth of the Ideals of Peace, Mutual Respect and Understanding between Peoples. In 1995, the Assembly adopted the World Programme of Action for Youth to the Year 2000 and Beyond in its resolution [50/81](#), which provided a policy framework and practical guidelines to improve the situation of young people. In 2007, the Assembly adopted the Supplement to the World Programme of Action for Youth to the Year 2000 and Beyond in its resolution [62/126](#), which provided further guidance on promoting the participation of young people in social and economic development. Since 2015, the Security Council, in its resolutions [2250 \(2015\)](#), [2419 \(2018\)](#) and [2535 \(2020\)](#), has called upon all relevant actors to increase the inclusive representation of young people in the prevention and resolution of conflict, including when negotiating and implementing peace agreements.
- 1.366 In 2013, the Secretary-General appointed the first Envoy on Youth. In 2018, to strengthen the coordination and accountability of the United Nations system with regard to its work on young people, the Secretary-General launched the United Nations Youth Strategy. The General Assembly, in its resolution [76/306](#), decided to establish the United Nations Youth Office as a dedicated office for youth affairs in the Secretariat, integrating the Office of the Secretary-General's Envoy on Youth. On 27 October 2023, the Secretary-General appointed the first-ever Assistant Secretary-General for Youth Affairs to lead the Office, representing the youngest serving Assistant Secretary-General in the history of the Organization. The mandate derives from the priorities established in relevant resolutions and decisions of the Assembly and the Security Council, including Assembly resolutions [50/81](#), [62/126](#), [76/306](#), [77/336](#) and [78/179](#) and Council resolutions [2250 \(2015\)](#), [2419 \(2018\)](#) and [2535 \(2020\)](#).

Programme of work

Objective

- 1.367 The objective, to which this programme contributes, is to ensure the meaningful engagement of young people in the work of the United Nations and accelerated action at the global, regional and country levels to empower young people around the world, to promote their rights and to address their needs.

Strategy and external factors for 2025

- 1.368 To contribute to the objective, the Office will:
- (a) Lead engagement and advocacy for the advancement of youth issues across the United Nations in the areas of peace and security, sustainable development and human rights, through engagement with Member State representatives, principals of United Nations organs and senior management of United Nations entities, and in close consultation with young people;

- (b) Promote meaningful, inclusive and effective engagement of young people and of youth-led and youth-focused organizations in the work of the United Nations, in close collaboration with United Nations system entities;
- (c) Encourage greater United Nations system-wide collaboration, coordination and accountability on the advancement of youth issues, including United Nations support to Member States, as appropriate and upon request, in promoting the effective and meaningful engagement, participation and empowerment of young people;
- (d) Engage with youth-focused envoys, representatives and offices of regional organizations on advancing youth issues;
- (e) Propose innovative approaches to advance multi-stakeholder initiatives on the engagement and empowerment of young people, for the consideration of Member States, including on quality and inclusive education, decent jobs, skills development, digital transformation and youth-led innovation and solutions;
- (f) Promote and facilitate intergenerational and intercultural dialogue, collaboration and solidarity by creating opportunities for young people to not only share and collaborate among one other, but also engage with Member States, the private sector, academia and the United Nations, including through intergovernmental policy forums;
- (g) Support efforts to enhance youth representation at the United Nations, including through increasing and improving the conditions of internships and employment opportunities for young people, especially for those from developing countries and with due regard to gender balance;
- (h) Support efforts towards the mobilization of financial and technical support and investment to promote and upscale quality and inclusive education and training, skills development, capacity-building and bridging the digital divide, in tandem with job creation, for young people and creating an enabling environment for harnessing their talents and abilities to contribute to their societies;
- (i) Conduct outreach to young people and to youth-led and youth-focused organizations, through innovative means, including the use of social media, narrative storytelling and audiovisual content, with an emphasis on the creation of multilingual assets and templates, where possible, for global dissemination through United Nations country teams and United Nations information centres.

1.369 The above-mentioned work is expected to result in:

- (a) Advancement of youth issues in the areas of peace and security, sustainable development and human rights;
- (b) Greater United Nations system-wide collaboration, coordination and accountability for the advancement of youth issues;
- (c) Action by Member States and regional organizations to ensure the effective and meaningful engagement, participation and empowerment of young people;
- (d) Amplified youth voices and increased opportunities for young people to contribute to the promotion of a peaceful, just and sustainable world;
- (e) Strengthened intergenerational and intercultural dialogue, collaboration and solidarity;
- (f) Multi-stakeholder initiatives on young people, including on quality and inclusive education and training, skills development, bridging the digital divide, job creation and the empowerment of young people;
- (g) Increased and improved youth representation at the United Nations.

- 1.370 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States continue to support the advancement of the situation of young people, including in the implementation of relevant international frameworks and agreements;
 - (b) Sustained recognition by the global community of the important role that young people play in the promotion of peace and security, sustainable development and human rights;
 - (c) There is adequate allocation of resources for action on young people and meaningful youth engagement across the United Nations system, national, regional and global institutions.
- 1.371 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will collaborate with regional and national youth envoys and regional organizations. It will also prioritize the forging of new relationships and the strengthening of existing ones with relevant youth organizations, civil society organizations, academia and the private sector.
- 1.372 With regard to inter-agency coordination and liaison, the Office will continue to mobilize United Nations entities and United Nations country teams for improved coordination, collaboration and accountability on youth work across the United Nations system. It will collaborate with the Department of Global Communications and other United Nations entities through the United Nations Youth Strategy communications group. It will also work with the Department of Management Strategy, Policy and Compliance, the Department of Operational Support and other members of the Strategy task team to improve internships and employment opportunities across the United Nations system. The Office will partner with the Office of the Envoy of the Secretary-General on Technology, the United Nations Children's Fund, the International Telecommunication Union, the Department of Global Communications, the Department of Economic and Social Affairs and the Office of Information and Communications Technology to address digital transformation challenges for young people and reduce the digital divide. As part of the efforts to strengthen the youth, peace and security agenda, the Office will continue its collaboration with the Department of Political and Peacebuilding Affairs and the United Nations Population Fund, as well as with OHCHR and other relevant entities on young people's political participation and protection issues. The Office will also contribute regularly to the work of various inter-agency working groups and will provide secretariat support to the inter-agency high-level steering committee and joint working group responsible for advancing coherent action by the United Nations system on youth-related matters.
- 1.373 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate, by ensuring the meaningful participation of girls and young women in United Nations processes and intergovernmental decision-making, facilitating intergenerational discussions on women's leadership, promoting the integration of a gender perspective into youth inclusion and youth-led action and by promoting discussions on sexual and reproductive health and rights as an integral part of the youth agenda.
- 1.374 In line with the United Nations Disability Inclusion Strategy and guided by Office's research findings and recommendations on young people with disabilities, the Office will advocate for meaningful participation of young persons with disabilities in the work of the United Nations and beyond. In consultation with young people with disabilities and their networks and organizations, the Office will mainstream disability inclusion into all aspects of its work, with the aim of ensuring accessibility to opportunities, information and events, to the greatest extent possible.

Programme performance in 2023

Young people and future generations recognized by Member States as one of the key elements in the scope of the Summit of the Future

- 1.375 Young people will inherit the consequences of all action (or inaction) taken today to address pressing global issues; however, there are limited opportunities for their engagement in public policymaking and decision-making at the global, regional, national and local levels. In 2023, the Office actively

engaged in high-level advocacy to bring to the forefront the importance of meaningful engagement of young people in policy and decision-making processes. The Office led the development of the Secretary-General’s policy brief on meaningful youth engagement and engaged in consultations and advocacy with Member States, the United Nations system and youth-led and youth-focused organizations to facilitate more structured and meaningful participation of young people in decision-making, including in the context of preparations for the Summit of the Future. Those efforts contributed to the adoption by the General Assembly of decision 77/568, by which the Assembly decided that the scope of the Summit of the Future would encompass five elements and that those elements would be reflected in an outcome document, titled “A Pact for the Future”, comprising a chapeau and five chapters, of which one chapter would be dedicated to young people and future generations.

1.376 Progress towards the objective is presented in the performance measure below (see table 1.171).

**Table 1.171
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	–	Young people recognized by Member States as one the five elements of the scope of the Summit of the Future

Planned results for 2025

Result 1: strengthened system-wide action for and with young people to address their needs, amplify their voices and advance their meaningful engagement

Programme performance in 2023 and target for 2025

1.377 The Office’s work contributed to 40 per cent of United Nations country teams and 53 per cent of United Nations entities achieving a “green” performance rating for at least 80 per cent of all key performance indicators in the United Nations Youth Strategy scorecard in 2023, which did not meet the planned target of 50 and 65 per cent, respectively. The targets were not met owing to a confluence of factors, including the lack of a dedicated marker for tracking funding for young people, as well as challenges in system-wide policy coherence on internships.

1.378 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 1.XXXIV).

Figure 1.XXXIV

Performance measure: percentage of United Nations country teams and United Nations entities that achieved a “green” performance rating for at least 80 per cent of all key performance indicators in the United Nations Youth Strategy scorecard^a

^a The scorecard covers 18 key performance indicators for United Nations entities and 19 for United Nations country teams relating to United Nations Youth Strategy priority areas. A “green” performance rating for a key performance indicator indicates achievement of the established milestone.

Result 2: youth engagement at all levels: moving from quantity to quality

Proposed programme plan for 2025

- 1.379 Notwithstanding the emergence of various youth engagement opportunities, young people exert minimal influence over key decision-making areas such as sustainable development, peace and security and human rights. The Office has forged strategic partnerships within the United Nations, Member States and other organizations, and led high-level advocacy and outreach to young people and youth-led and youth-serving organizations to further institutionalize mechanisms for the meaningful engagement of young people.

Lessons learned and planned change

- 1.380 The lesson for the Office was the need to focus its advocacy on pathways to improving mechanisms for meaningful youth engagement. Consultations with young people demonstrate that young people are not content with existing frameworks for their participation in decision-making. They view these arrangements, in particular in the multilateral sphere, as ineffective and, at times, tokenistic. Young people want their input to be taken seriously and seek meaningful engagement throughout the decision-making process. In applying the lesson, the Office will focus its efforts on ensuring that meaningful youth engagement is institutionalized by working across three levels of influence: (a) intergovernmental, through advocacy with Member States and the development of standards for meaningful youth engagement; (b) the United Nations system, by coordinating the next phase of the United Nations Youth Strategy, promoting policy coherence and operational improvements in internship programmes and supporting system-wide efforts for the rejuvenation of the workforce; and (c) internally, through the establishment of a youth advisory board and the development of protocols for youth engagement to protect young people and effectively address their concerns regarding safety and protection from reprisals.
- 1.381 Expected progress towards the objective is presented in the performance measure below (see table 1.172).

Table 1.172
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	United Nations entities and country teams track indicators on meaningful youth engagement in their accountability scorecards on an annual basis	Young people, Member States and United Nations system entities participate in consultations on the key principles for meaningful youth engagement	Member States consider global standard for meaningful youth engagement

Legislative mandates

1.382 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

50/81	World Programme of Action for Youth to the Year 2000 and Beyond	76/306	Establishment of the United Nations Youth Office
62/126	Policies and programmes involving youth: youth in the global economy – promoting youth participation in social and economic development	77/336 78/179	Model United Nations Policies and programmes involving youth

Security Council resolutions

2250 (2015)	2535 (2020)
2419 (2018)	

Deliverables

C. Substantive deliverables				
Consultation, advice and advocacy: 2 briefings for all Member States; 5 country visits and bilateral meetings with ministers responsible for young people and other high-level government officials; consultation with national and regional youth envoys; annual strategic meeting of the high-level steering committee of the United Nations Youth Strategy; and advocacy and policy round tables on enhancing youth representation at the United Nations.				
Databases and substantive digital materials: United Nations Youth Strategy scorecard reporting system and dashboard; and United Nations Youth Strategy online toolkit platform.				
D. Communication deliverables				
Outreach programmes, special events and information materials: “Youth 2030 Pulse” monthly newsletter; commemoration of International Youth Day, including partner advocacy campaigns, World Youth Skills Day and other relevant international days and observances; launch events for new cohort of Young Leaders for the Sustainable Development Goals and for publications and reports of the United Nations Youth Office, and, on the road to the Summit of the Future, the curation and leading of an advocacy and communications campaign on meaningful youth engagement.				
Digital platforms and multimedia content: United Nations Youth Office website and social media accounts with regular updates on issues relevant to young people; and social media takeover campaigns with youth and youth-led networks.				

B. Proposed post and non-post resource requirements for 2025

Overview

1.384 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.174 to 1.176.

Table 1.174

1.385 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.177 to 1.179 and figure 1.XXXV.

1.386 As reflected in tables 1.177 (1) and 1.178 (1), the overall resources proposed for 2025 amount to \$2,639,200 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Extrabudgetary resources

- 1.387 As reflected in tables 1.177 (2) and 1.178 (2), extrabudgetary resources amount to \$25,400. The resources would complement regular budget resources and would be used mainly to provide for one post (P-3) for approximately one month in 2025, continuing from 2024, to support the Office in the advancement of the youth, peace and security agenda.
- 1.388 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.389 Information on the timely submission of documentation and advance booking of air travel is reflected in table 1.180.

XV. Office of Data Protection and Privacy

A. Proposed programme plan for 2025

Overall orientation

Mandates and background

- 1.390 The Office of Data Protection and Privacy was established pursuant to General Assembly resolution [78/252](#) as an independent office responsible for assisting the Secretariat in ensuring respect for data protection and privacy in the use and processing of personal data by Secretariat entities, consistent with United Nations mandates. The right to privacy in contemporary international law is enshrined in multiple international frameworks, including article 12 of the Universal Declaration of Human Rights and article 17 of the International Covenant on Civil and Political Rights. The Assembly has continued to consider this issue actively, including through its resolution [77/211](#) and preceding resolutions, by which it reaffirmed the right to privacy in the digital age, and its resolution [78/265](#), in which it advocates for the safeguard of privacy and the protection of personal data as part of promoting safe, secure and trustworthy artificial intelligence systems.
- 1.391 In furtherance of relevant resolutions and decisions of the General Assembly, the Secretary-General promulgated a bulletin by which he established a data protection and privacy policy for the Secretariat ([ST/SGB/2024/3](#)). The Office contributes to the effective implementation of data protection and privacy standards, in line with that policy, and to fostering a culture of data protection and privacy awareness across the Secretariat.

Programme of work

Objective

- 1.392 The objective, to which the Office contributes, is to ensure that, when personal data are processed by United Nations Secretariat entities, such processing is consistent with United Nations mandates and in a manner that respects the rights of individuals and groups.

Strategy and external factors for 2025

- 1.393 To contribute to the objective, the Office will:
- (a) Provide independent and impartial advice and support to the Secretary-General and United Nations Secretariat entities on the measures to be taken to ensure compliance with the data protection and privacy rules, regulations, processes and policies of the Secretariat;
 - (b) Provide assistance to entities, for example, to fulfil requests made by individuals about their personal data to ensure implementation and compliance with relevant data protection and privacy rules, regulations, processes and policies in relation to personal data that are shared across entities, including through Secretariat-wide enterprise systems, or that otherwise relate to several entities;
 - (c) Establish and maintain a reporting mechanism for receiving and disseminating requests made by individuals about their personal data;
 - (d) Monitor and report to the Secretary-General on compliance with data protection and privacy rules, regulations, processes and policies of the Secretariat;
 - (e) Foster a culture of data protection and privacy awareness across the Organization.

- 1.394 The above-mentioned work is expected to result in:
- (a) A workplace culture that recognizes the importance of data protection and privacy across the Secretariat;
 - (b) Effective prevention, identification and mitigation of data protection and privacy risks across the Organization;
 - (c) Increased transparency and accountability in the Organization's data protection and privacy practices.
- 1.395 With regard to the external factors, the overall plan for 2025 is based on the following assumptions:
- (a) United Nations Secretariat entities adopt data protection and privacy standards, in line with the data protection and privacy policy;
 - (b) United Nations Secretariat entities build dedicated capacity to ensure that personal data are processed appropriately and respect the rights of individuals and groups.
- 1.396 With regard to inter-agency coordination and liaison, the Office will participate in inter-agency networks, as appropriate, to share best practices and advance common practices for data protection and privacy system-wide.
- 1.397 The Office integrates a gender perspective into its operational activities, deliverables and results. The Office will identify any systemic issues concerning gender inequality in the Organization's operations as regards data protection and privacy aspects. The Office will also provide gender statistics, where relevant and appropriate.
- 1.398 In line with the United Nations Disability Inclusion Strategy, the Office will ensure that it takes into account the needs of persons with disabilities, both in the accessibility of its services and in its support for the implementation of the data protection and privacy requirements within the Organization. The Office will, in particular, work to ensure that any relevant content, including information conveyed online such as through privacy notices and forms, contains accessibility features that benefit persons with disabilities.

Planned results for 2025

Result 1: increased data protection and privacy across the Secretariat

Proposed programme plan for 2025

- 1.399 The Office supports the strengthening the Organization's approaches to data protection and privacy, including the implementation of the Secretary-General's bulletin by which he established the data protection and privacy policy.

Lessons learned and planned change

- 1.400 The lesson for the Office was that data protection and privacy training and awareness-raising activities had been limited in scope in the Secretariat of the United Nations. Inadequate awareness among United Nations staff and related personnel on this matter increases the risk of data protection and privacy breaches. In applying the lesson, the Office will undertake various training and awareness-raising activities, including the development of training materials and the conduct of outreach activities to raise the awareness of personnel on data protection and privacy based on the new policy. The Office will also work to facilitate understanding by personnel of data protection and privacy considerations through the provision of practical resources on appropriate personal data handling.
- 1.401 Expected progress towards the objective is presented in the performance measure below (see table 1.181).

Table 1.181
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)

XVI. United Nations Sustainable Development Group System-wide Evaluation Office

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 1.409 The United Nations Sustainable Development Group System-wide Evaluation Office is responsible for the provision of independent evaluation evidence to strengthen learning, transparency and accountability, to incentivize joint work and collective learning and to conduct and advance system-wide evaluation evidence on the United Nations development system's contribution to the implementation of the 2030 Agenda and the achievement of the Sustainable Development Goals.
- 1.410 In its resolution [70/1](#), the General Assembly called for transformative and collaborative action by the United Nations development system. To respond to that imperative, the Assembly, in its resolution [71/243](#) on the quadrennial comprehensive policy review of operational activities for development of the United Nations system, called for reform of the United Nations development system to support the achievement of the Sustainable Development Goals. The Assembly also underscored "the importance of strengthening a high-quality, independent and impartial system-wide evaluation mechanism of operational activities for development that enhances coherence and interdependence in the overall evaluation architecture of the United Nations development system".
- 1.411 The Secretary-General, in his 2017 report titled "Repositioning the United Nations development system to deliver on the 2030 Agenda: our promise for dignity, prosperity and peace on a healthy planet" ([A/72/684-E/2018/7](#)), set out proposals to the General Assembly for the repositioning of the United Nations development system, including the establishment of an independent, system-side evaluation office. The Assembly, in its resolution [72/279](#), welcomed the strengthening of independent system-wide evaluation measures by the Secretary-General, including improving capacities. The Assembly, in its resolution [75/233](#), further emphasized the need to ensure the independence, credibility and effectiveness of the system-wide evaluation office. Subsequently, in its resolution [76/4](#), the Assembly requested the Secretary-General to provide Member States with the information needed to fully support and facilitate the establishment and functioning of an independent and well-resourced evaluation office as a critical accountability tool. The Secretary-General has provided this information in his regular reports to the Assembly and the Economic and Social Council on the implementation of the quadrennial comprehensive policy review of operational activities for development of the United Nations system ([A/73/63-E/2018/8](#), [A/74/73-E/2019/14](#), [A/75/79-E/2020/55](#), [A/76/75-E/2021/57](#) and [A/77/69-E/2022/47](#)). In 2019, a transition arrangement was established that saw the launch of the work of the Office, including to produce a small number of evaluations. In 2023, the Secretary-General appointed the first Executive Director of the Office, reporting directly to the Secretary-General, and efforts have been redoubled to consolidate the foundational elements of the Office to deliver the full range of expected functions, including finalization of the system-wide evaluation policy. The Council, in its resolution [2023/31](#), noted the establishment of the Office and looked forward to updates on its functioning and work. The proposal contained in the present report is for the conversion of post and non-post resources for the Office previously funded from extrabudgetary resources to regular budget funding. The proposed conversion follows a review of the current funding arrangements, including the anticipated decrease in extrabudgetary resources and the need to ensure more predictable and stable funding to underpin two core design features of the Office: independence and transparency.

Programme of work

Objective

- 1.412 The objective, to which this Office contributes, is to advance the collective contribution of the United Nations development system to accelerate the implementation of the 2030 Agenda and the achievement of the Sustainable Development Goals.

Strategy and external factors for 2025

- 1.413 To contribute to the objective, the Office will:
- (a) Conduct relevant, timely, credible and high-quality system-wide evaluations of development system results and performance to complement the evaluation work of United Nations entities, focused on activities that cannot be adequately addressed through existing accountability mechanisms, taking into consideration a gender perspective, disability inclusion, non-discrimination, human rights and environmental dimensions, as appropriate;
 - (b) Manage the evaluation of pooled funds and joint initiatives (in which several United Nations entities are working towards a common objective);
 - (c) Promote increased collaboration on joint and system-wide evaluation, including by mapping the availability of evaluation evidence, in cooperation with the United Nations Evaluation Group, to inform the development of a multi-year rolling system-wide evaluation plan;
 - (d) Enhance collective knowledge-sharing and learning among the United Nations development system entities on using system-wide evaluation evidence to inform programme planning and the achievement of results across the United Nations development system;
 - (e) Prepare guidance to support effective system-wide evaluation, including the development of appropriate evaluation designs and data collection methods, and by developing and implementing community of practice workshops, seminars and other capacity-strengthening measures;
 - (f) Implement systems to ensure efficient and effective evaluation management and follow-up, including to support evaluation quality and adherence to United Nations Evaluation Group norms and standards;
 - (g) Work with the United Nations Evaluation Group and other partners to contribute to the strengthening of national evaluation capacities for country-led evaluation and the generation and use of evidence to inform national progress towards the achievement of the Sustainable Development Goals in line with the role of evaluation envisaged in the 2030 Agenda.
- 1.414 The above-mentioned work is expected to result in:
- (a) Increased learning and accountability of development activities at the national, regional and global levels, to contribute to consistent implementation of system-wide priorities, policies and approaches across United Nations sustainable development system entities;
 - (b) Strengthened capacities and use of system-wide evaluation evidence to inform programme planning and the achievement of results across United Nations development system entities.
- 1.415 With regard to the external factors, the overall plan for 2025 is based on the assumption that adequate voluntary contributions are available to complement regular budget resources to carry out the activities of the Office.
- 1.416 With regard to cooperation with other entities at the global, regional national and local levels, the Office will develop collaboration opportunities with other international evaluation entities.

- 1.417 With regard to inter-agency coordination and liaison, the Office will coordinate its work with OIOS, the Joint Inspection Unit and the Board of Auditors and will participate as a member of the United Nations Evaluation Group. The Office will cooperate with the United Nations System Staff College and the “evaluation practitioners exchange” seminars of the Evaluation Group, which also involve members of international, regional and national evaluation communities.
- 1.418 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate, including implementing guidance on mainstreaming a gender perspective into activities.
- 1.419 In line with the United Nations Disability Inclusion Strategy, the Office will integrate a perspective on the inclusion and empowerment of persons with disabilities into its work processes, including implementing guidance on disability inclusion in the Office’s activities.

Programme performance in 2023

System-wide evaluation evidence informs system-wide learning and investment decisions

- 1.420 In the report of the Secretary-General on the implementation of General Assembly resolution [75/233](#) on the quadrennial comprehensive policy review of operational activities for developing of the United Nations system ([A/78/72-E/2023/59](#)), the results and lessons learned from the first two evaluations conducted by the Office, namely the evaluation of the Joint Sustainable Development Goals Fund and the evaluation of the United Nations development system’s socioeconomic response to the coronavirus disease (COVID-19), were published. The evaluations made recommendations on strengthening aspects of United Nations development system reform, including greater integration of reform actions in entities’ strategic plans and on governance, management and the design of projects, and synergy across pooled funds. Management responses were published for both evaluations. In 2023, the Office completed a scoping and evaluability assessment of the Spotlight Initiative to end violence against women and girls, followed by the launch of an independent evaluation that will be completed in 2024 to meet accountability and learning needs relating to gender-based violence and development system reform.

Planned results for 2025

Result 1: increased availability and use of system-wide evaluation results

Proposed programme plan for 2025

- 1.421 The issuance of timely system-wide evaluation reports with relevant and targeted recommendations is intended to strengthen learning and accountability for development system results and performance and to improve collaboration and alignment of United Nations development system entities. The effectiveness of recommendations requires robust mechanisms that ensure not only the tracking of their implementation, but also the assessment of their impact on achieving desired outcomes within the United Nations development system.

Lessons learned and planned change

- 1.422 The lesson for the Office was the need to have a systematic and transparent approach to ensure effective planning and management of system-wide evaluations and to track and report on the implementation of recommendations issued by the Office. In applying the lesson, the Office will develop a multi-year system-wide evaluation rolling workplan and a database and reporting system to track the implementation of system-wide evaluation recommendations. This will enable effective conduct, follow-up and reporting to ensure that the recommendations of system-wide evaluations have meaningful impact.
- 1.423 Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 1.191).

Table 1.191
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	–	A multi-year rolling workplan and a database and reporting system to track system-wide evaluation recommendations in use system-wide

Legislative mandates

- 1.424 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

69/237	Building capacity for the evaluation of development activities at the country level	75/233	Quadrennial comprehensive policy review of operational activities for development of the United Nations system
70/1	Transforming our world: the 2030 Agenda for Sustainable Development	76/4	Review of the functioning of the reinvigorated resident coordinator system, including its funding arrangement
71/243	Quadrennial comprehensive policy review of operational activities for development of the United Nations system	77/283	Strengthening voluntary national reviews through country-led evaluation
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system		

Economic and Social Council resolution

2023/31	Progress in the implementation of General Assembly resolution 75/233 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system

Deliverables

1.425 Table 1.192 lists all deliverables of the programme.

Table 1.192

United Nations Sustainable Development Group System-wide Evaluation Office: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	–	–	–	1
1. Annual report of the United Nations Sustainable Development Group System-wide Evaluation Office	–	–	–	1
Substantive services for meetings (number of three-hour meetings)	–	–	2	2
2. Meetings of the Advisory Committee on Administrative and Budgetary Questions	–	–	1	1
3. Meetings of the Fifth Committee	–	–	1	1
B. Generation and transfer of knowledge				
Publications (number of publications)	–	–	2	4
4. System-wide evaluation reports and synthesis/summary reports	–	–	2	4
C. Substantive deliverables				
Databases and substantive digital materials: system-wide evaluation database and reporting system and interactive maps showcasing evaluation evidence system-wide.				
E. Enabling deliverables				
Administration: Content on communications platforms, guidance, memorandums, briefings and presentations of system-wide evaluation results and follow-up; and learning events to promote the use of system-wide evaluation results in conjunction with the United Nations system and other evaluation and evidence partners.				

B. Proposed post and non-post resource requirements for 2025

Overview

- 1.426 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 1.193 to 1.195.

Table 1.193

Evolution of financial resources by object of expenditure

1.427 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 1.196 to 1.198 and figure 1.XXXVII.

1.428 As reflected in tables 1.196 (1) and 1.197 (1), the overall resources proposed for 2025 amount to \$2,717,800 before recosting, reflecting an increase of \$2,717,800 compared with the approved budget for 2024. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Explanation of variances by factor

Overall resource changes

Other changes

1.429 As reflected in tables 1.196 (1) and 1.197 (1), the resource changes reflect an increase of \$2,717,800 owing to the proposed conversion of four posts (D-2, P-5, P-3 and General Service (Principal level)) and relevant non-post resources for the Office that were previously funded from extrabudgetary resources (see annex II to the present report). The proposed conversion follows a review of the current funding arrangements, including the anticipated decrease in extrabudgetary resources and the need to ensure more predictable and stable funding to underpin two core design features of the Office, namely, independence and transparency.

Extrabudgetary resources

1.430 As reflected in tables 1.196 (2) and 1.197 (2), extrabudgetary resources amount to \$677,900. The non-post resources would complement regular budget resources and would be used mainly to conduct system-wide evaluations of joint programmes and initiatives funded from extrabudgetary resources (i.e., funded through multi-donor trust funds) and/or the conduct of system-wide evaluation activities coordinated by the Office, supported by additional funding from the evaluation offices of development system entities.

1.431 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.432 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.199.

Organizational structure and post distribution for 2025

A. Board of Auditors

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; XB, extrabudgetary.

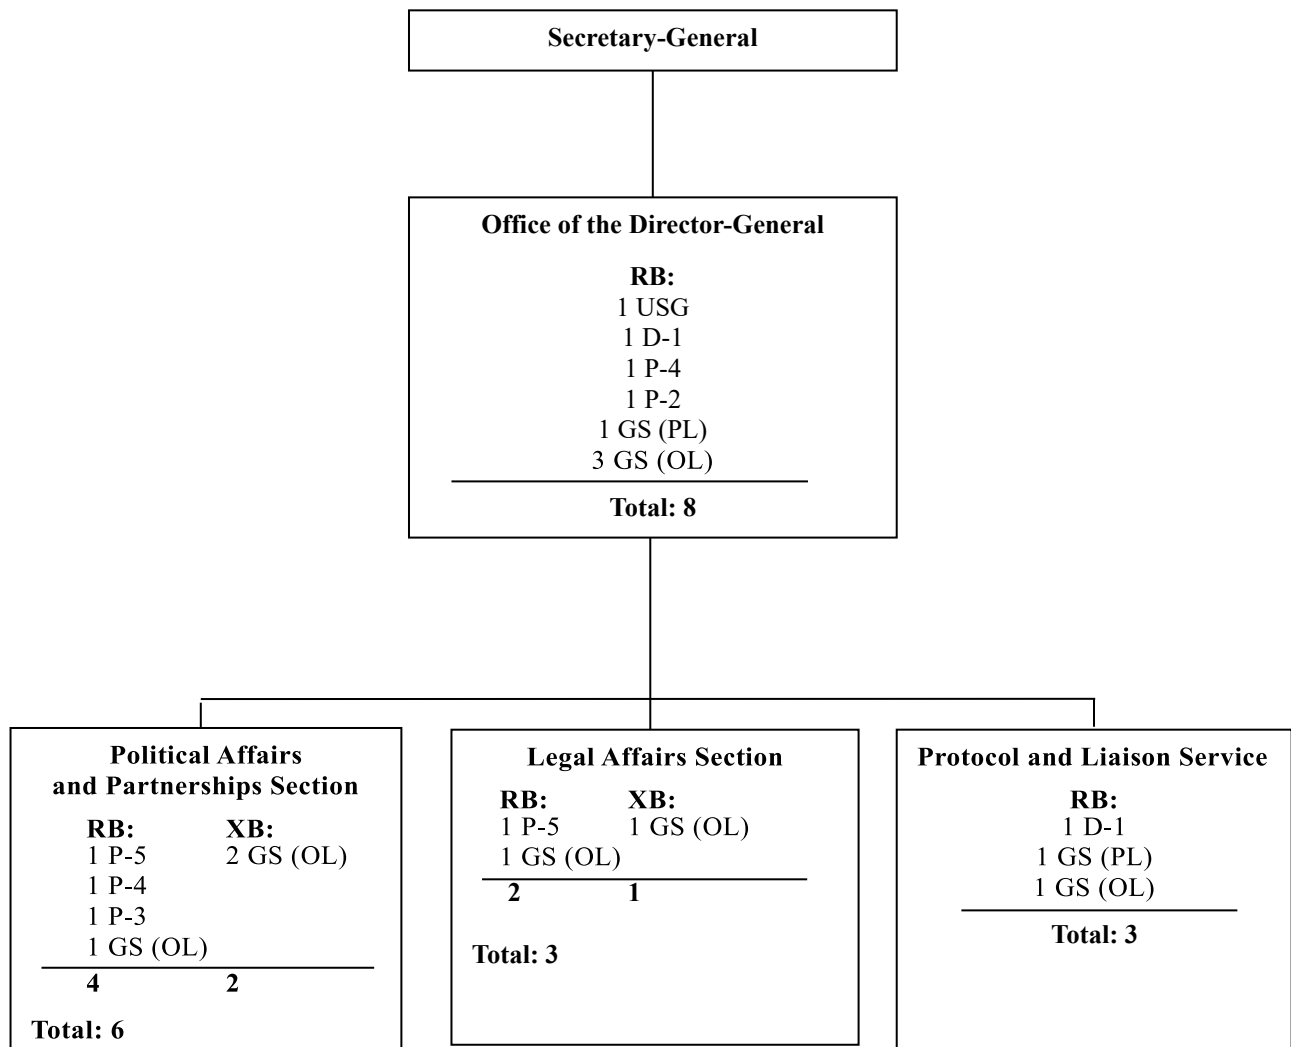

B. Secretary-General and Executive Office of the Secretary-General

Abbreviations: ASG, Assistant Secretary-General; DSG, Deputy Secretary-General; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

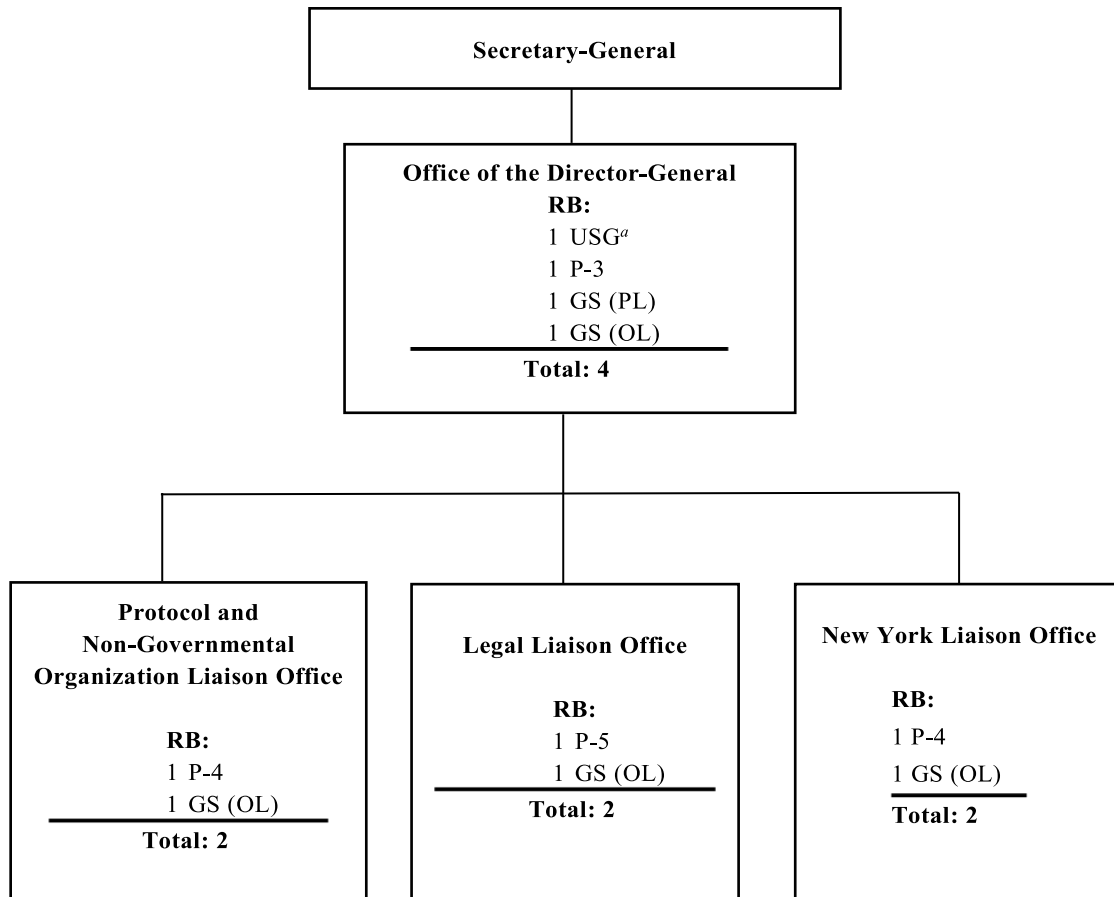

^a Reclassification.

C. Office of the Director-General, United Nations Office at Geneva

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

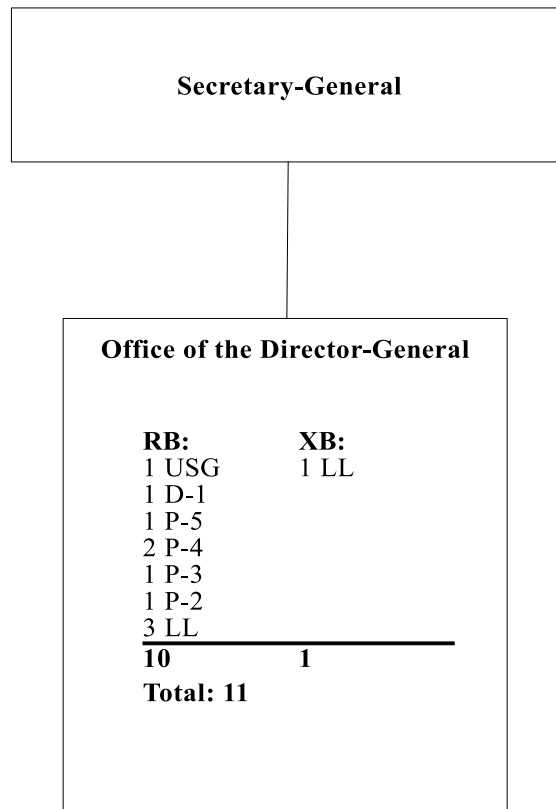

D. Office of the Director-General, United Nations Office at Vienna

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; USG, Under-Secretary-General.

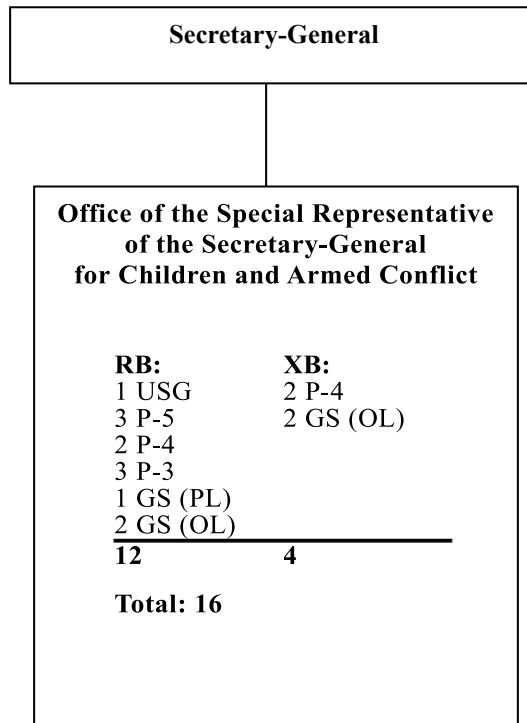

^a Reflected under the staffing complement of the United Nations Office on Drugs and Crime (sect. 16).

E. Office of the Director-General, United Nations Office at Nairobi

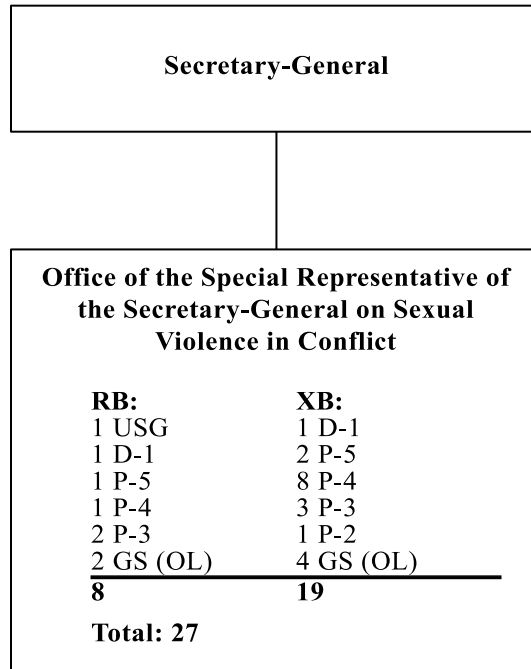

Abbreviations: LL (Local level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

F. Office of the Special Representative of the Secretary-General for Children and Armed Conflict

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

G. Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict

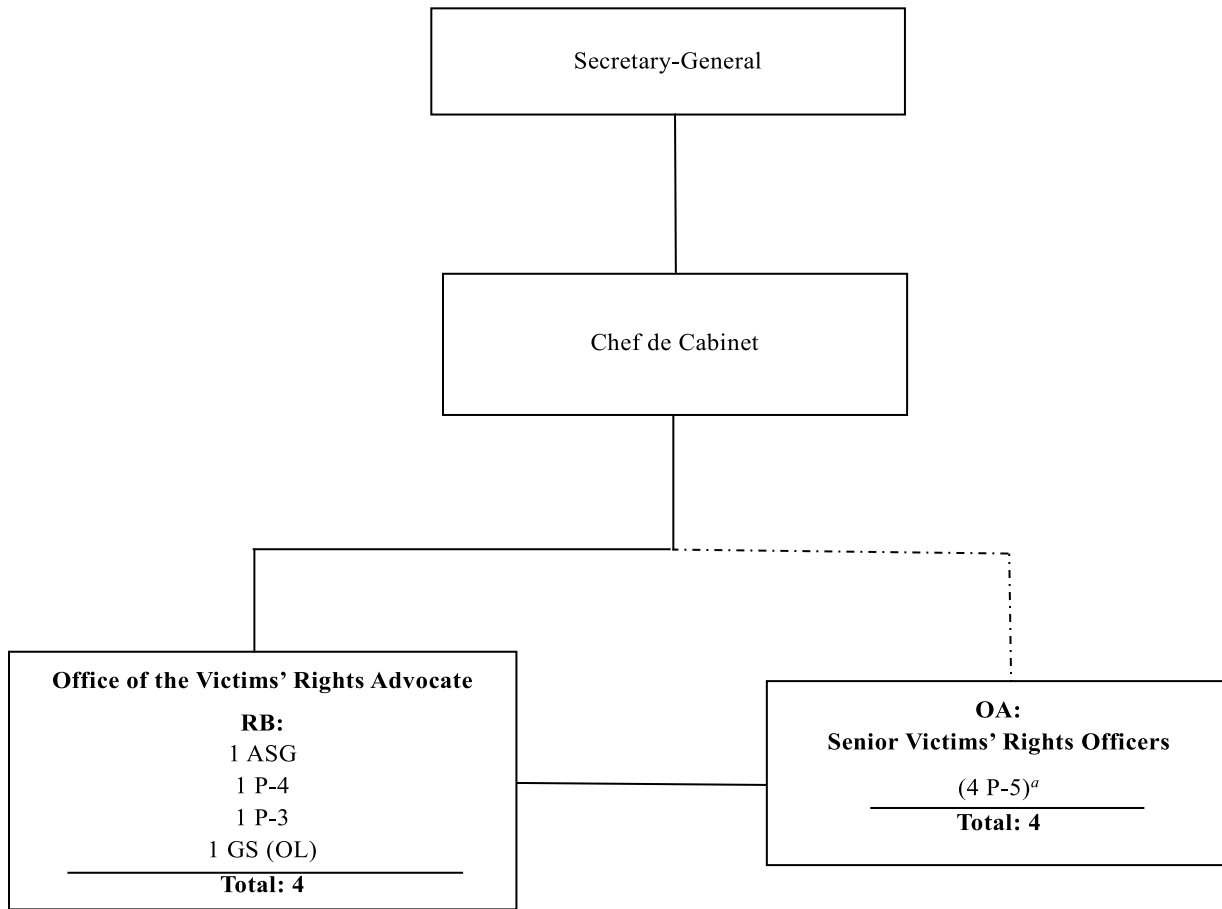

Abbreviations: GS (OL), General Service (Other level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

H. Office of the Special Representative of the Secretary-General on Violence against Children

Abbreviations: ASG, Assistant Secretary-General; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; XB, extrabudgetary.

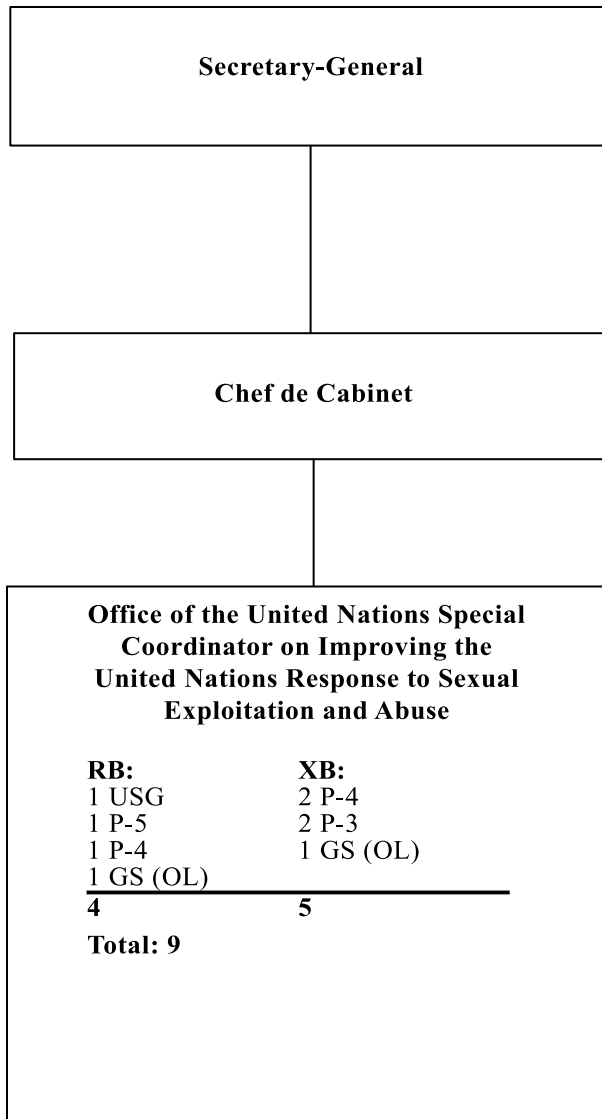

I. Office of the Victims' Rights Advocate

Abbreviations: ASG, Assistant Secretary-General; GS (OL), General Service (Other level); OA, Other assessed; RB, regular budget.

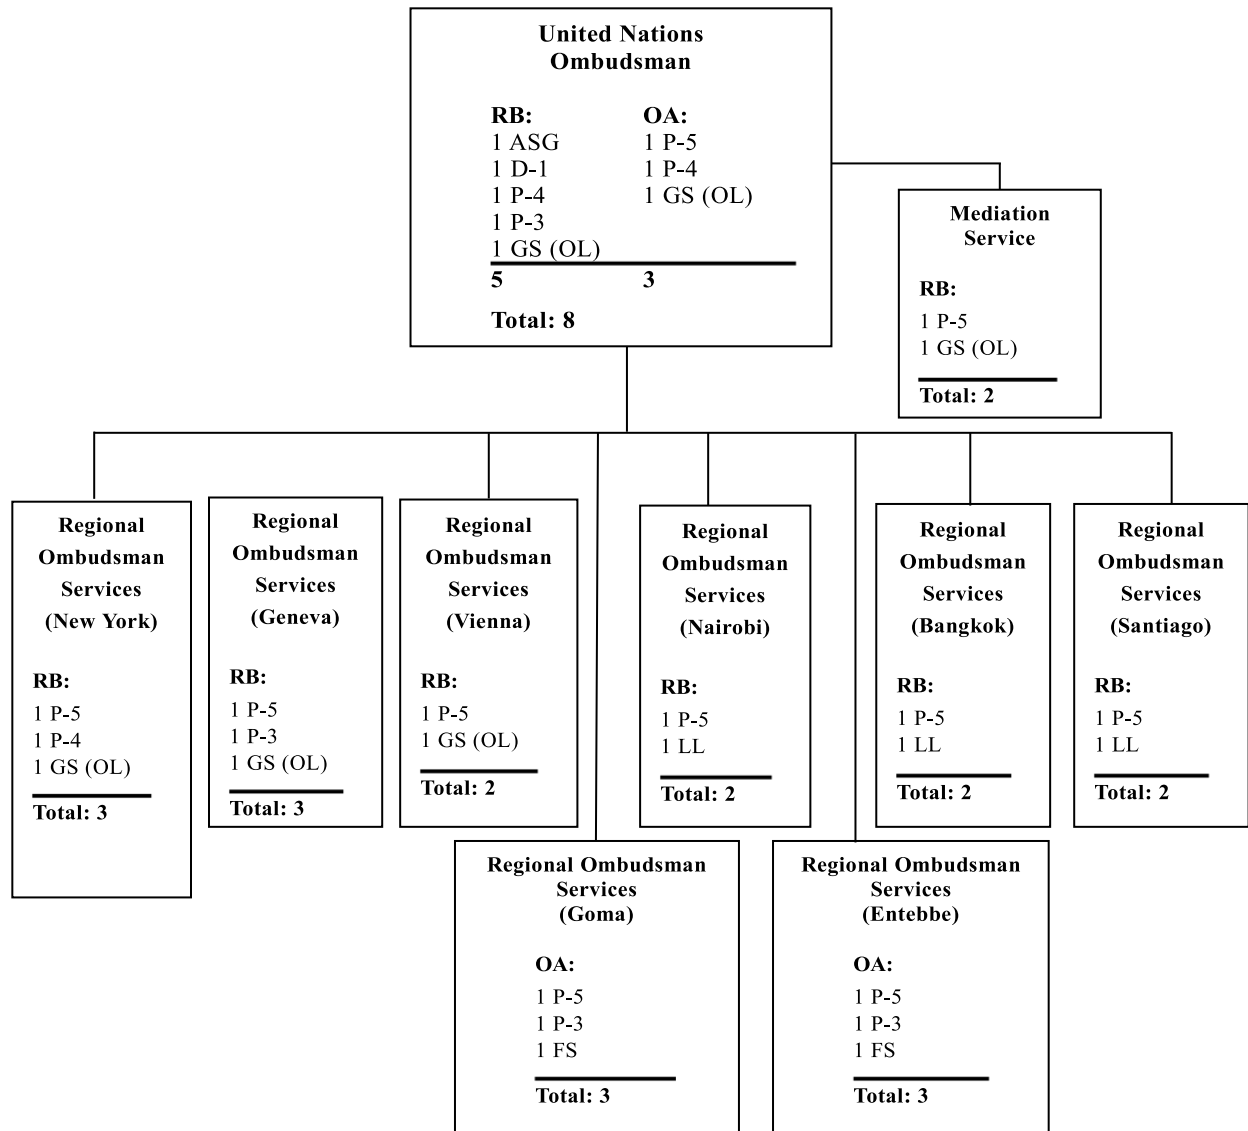

^a Four Senior Victims' Rights Officer posts/positions, reflected under the following individual peacekeeping and special political missions: the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo; the United Nations Mission in South Sudan; the United Nations Integrated Office in Haiti; and the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic.

J. Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse

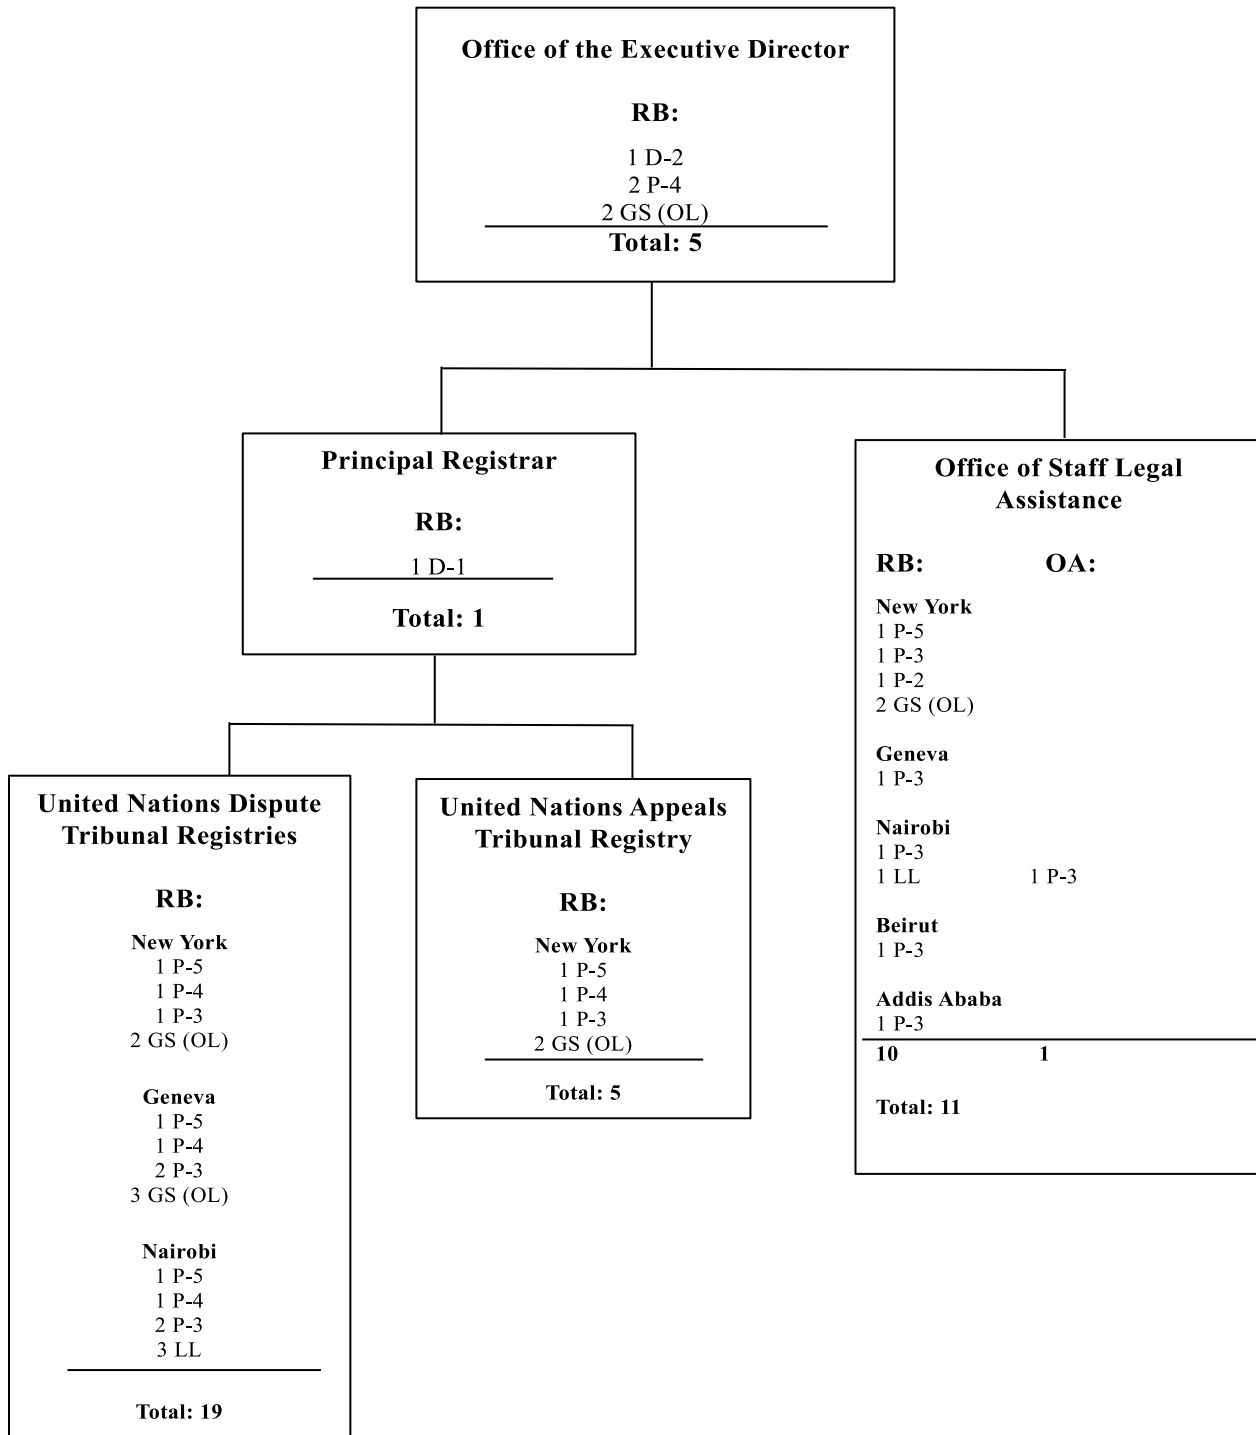

Abbreviations: GS (OL), General Service (Other level); RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

K. Office of the United Nations Ombudsman and Mediation Services

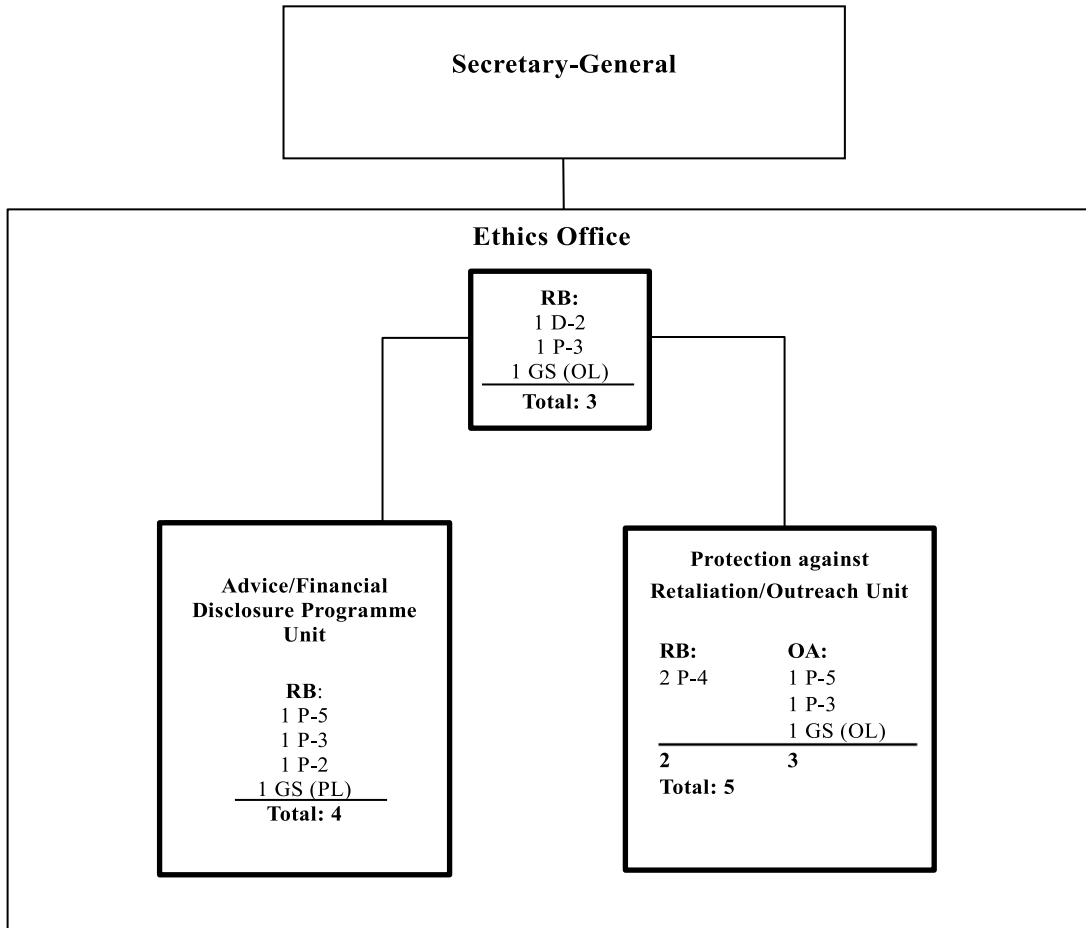

Abbreviations: ASG, Assistant Secretary-General; FS, Field Service; GS (OL), General Service (Other level); LL, Local level; OA, other assessed; RB, regular budget.

L. Office of Administration of Justice

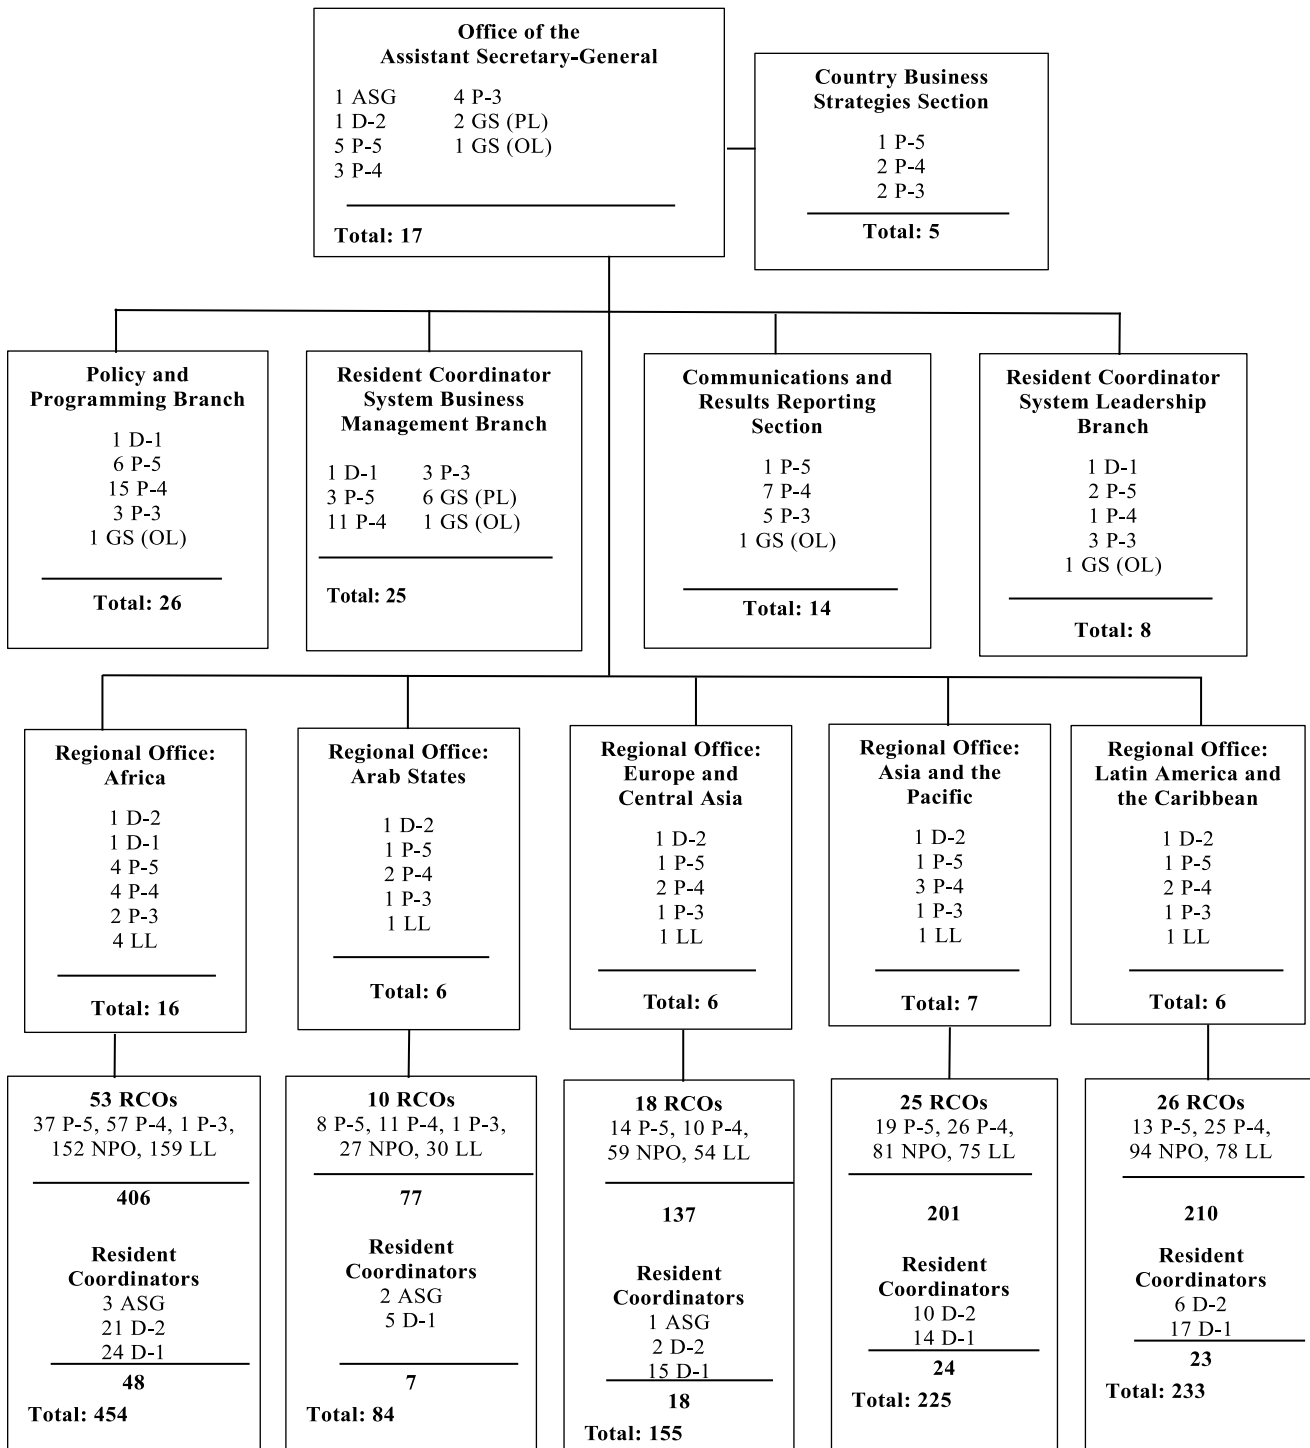

Abbreviations: GS (OL), General Service (Other level); LL, Local level; OA, other assessed; RB, regular budget.

M. Ethics Office

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); OA, other assessed; RB, regular budget.

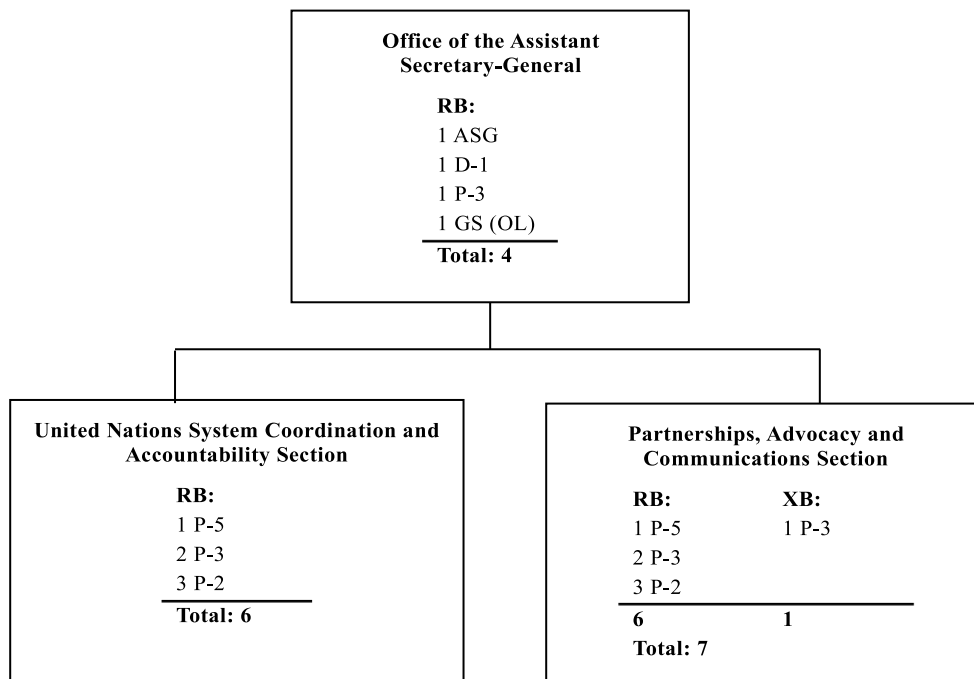

N. Resident coordinator system^a

Abbreviations: ASG, Assistant Secretary-General; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); LL, Local level; NPO, National Professional Officer; RCO, resident coordinator office.

^a The chart reflects only posts to be funded through the special purpose trust fund for the resident coordinator system during 2025. All posts at the D-1 level and above are subject to concurrence of the Advisory Committee on Administrative and Budgetary Questions.

O. United Nations Youth Office

Abbreviations: ASG, Assistant Secretary-General; GS (OL), General Service (Other level), RB, regular budget; XB, extrabudgetary.

P. Office of Data Protection and Privacy

Annex II

Summary of proposed changes in established and temporary posts, by component

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Executive Office of the Secretary-General	(1)	P-3	Reclassification of 1 post of Communications Officer (P-3) to Speechwriter (P-4)	The proposed upward reclassification relates to the need to address the increased complexity and activities of the Strategic Communication and Speech Writing Unit in producing complex and numerous speeches for the Secretary-General and the Deputy Secretary-General in the delivery of their functions. The proposed reclassification will attract profiles of candidates with the necessary acumen and practical experience in drafting quality input, incorporating diverse perspectives from a wide range of complex topics, expected at the higher-level functions.
	1	P-4		
	(1)	GS (OL)	Reclassification of 1 post of Information Management Assistant (GS (OL)) to Senior Information Management Assistant (GS (PL))	
1	GS (PL)			
(1)	GS (OL)	Reclassification of 1 post of Staff Assistant (GS (OL)) to Administrative Assistant (GS (PL))	The proposed upward reclassification relates to the need to respond to the increased and complex activities of the Office of the Chef de Cabinet. The reclassification will address the requirement through the provision of technical support, from a broad range of work processes specific to the Office and units submitting input for the approval of the Chef de Cabinet or the Secretary-General, following the review of the Chef de Cabinet.	
1	GS (PL)			
United Nations Sustainable Development Group System-wide Evaluation Office	4	1 D-2, 1 P-5, 1 P-3 and 1 GS (PL)		Conversion of 4 posts, comprising 1 post of Executive Director (D-2), 1 post of Senior Evaluation Officer (P-5), 1 post of Evaluation Officer (P-3) and 1 post Senior Administrative Assistant (GS (PL))
	1	D-2	Executive Director	The incumbent would provide leadership and strategic guidance for the system-wide evaluation function. Functions would include developing, managing and administering the programme of work of the Office; implementing systems to support evaluation quality and utility; enhancing capacities and promoting collective knowledge-sharing and learning; and ensuring coordination with United Nations oversight bodies and other entities.

Section 1 Overall policymaking, direction and coordination

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	1	P-5	Senior Evaluation Officer	The incumbent would support the Executive Director and oversee the conduct of system-wide evaluations, providing guidance to staff and consultants, ensuring timeliness, credibility and utility, managing and conducting evaluations and leading evaluation teams, as necessary, supervising the drafting of evaluation reports and providing second-level assurance, as required.
	1	P-3	Evaluation Officer	The incumbent would be responsible for managing and conducting system-wide evaluations, including planning and design; collecting, researching, analysing and interpreting data; and drafting inception papers, terms of reference and evaluation reports.
	1	GS (PL)	Senior Administrative Assistant	The incumbent would support the Office and be the focal point for the provision of administrative services necessary for the successful functioning of all required office systems, including the management of information.

Abbreviation: GS (OL), General Service (Other level); GS (PL), General Service (Principal level).

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 2.1 The mandates of the Department for General Assembly and Conference Management derive from the relevant rules of procedure and resolutions of the principal organs of the United Nations, including General Assembly resolutions [43/222 A–E](#), [50/11](#), [73/346](#), [74/303](#) and [78/245](#). The Department is responsible for:
- (a) The facilitation, through the provision of procedural and technical secretariat support and authoritative advice, of the orderly and effective conduct of the deliberations and follow-up actions of the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and various subsidiary organs, the Economic and Social Council and most of its subsidiary bodies, and special United Nations conferences;
 - (b) Assistance in the revitalization efforts of the Assembly and other United Nations bodies, including through the substantive servicing of meetings of the Ad Hoc Working Group on the Revitalization of the Work of the General Assembly and the intergovernmental negotiations on the question of equitable representation on and increase in the membership of the Security Council and other matters relating to the Council;
 - (c) Substantive and technical secretariat support to the Committee on Conferences and high-quality conference-servicing support, including multilingual meeting and documentation services, to all intergovernmental and expert bodies meeting at Headquarters and at the United Nations Offices at Geneva, Vienna and Nairobi, and other conferences and meetings held under the auspices of the United Nations at other locations, under shared responsibility with the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, taking into account the principle of equal treatment to be applied to all official languages in each organ of the Organization;
 - (d) Protocol services for the Secretary-General, the Deputy Secretary-General and visiting high-level dignitaries, as well as host country liaison services for Member States and Permanent Observers and the provision, upon request, of protocol services to the President of the General Assembly.
- 2.2 In addition, pursuant to General Assembly resolution [69/250](#), the Under-Secretary-General for General Assembly and Conference Management is responsible for Secretariat-wide coordination of multilingualism, a core value of the United Nations, and serves as system-wide lead entity on this matter in collaboration with the secretariat of the United Nations System Chief Executives Board for Coordination.
- 2.3 In accordance with General Assembly resolution [57/283 B](#), the Under-Secretary-General for General Assembly and Conference Management sets the policies, formulates standards and guidelines, manages resources under section 2 of the programme budget and oversees operations at Headquarters, while the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi are responsible for ensuring the implementation of those policies, standards and guidelines and for managing day-to-day operations at their duty stations. Furthermore, the Secretary-General has promulgated the establishment of a framework for delegation of authority (see [ST/SGB/2019/2](#)). The Secretary-General's bulletin on the organization of the Department ([ST/SGB/2021/3](#)) reflects the intergovernmental mandates confirming the division of responsibilities among the Under-Secretary-General and the Directors-General at Geneva, Vienna and Nairobi for delivering conference services in a standardized and integrated manner.

Strategy and external factors for 2025

- 2.4 The 2025 programme plan is guided by a strategy of continuous modernization and improvement in all areas. The strategy will benefit from technology, innovation, partnerships, capacity-building and continued risk management to further optimize the provision of high-quality multilingual services that

are timely, cost-effective and sustainable, while minimizing their environmental impact and enabling long-term business continuity. Effective service delivery will be ensured and risks to business continuity mitigated by adjusting and upgrading the Department's tools and aligning human resources capacities. Using its own expertise and in collaboration with other entities, such as the Office of Information and Communications Technology, the Department will continue to assess new and emerging technologies that are relevant to its work. Greater integration of systems and workflows will enhance the global coordination, planning and management of both meetings and documentation services.

- 2.5 Specifically, enhanced integration among the Department's own tools and with enterprise applications will pave the way for the establishment at all four duty stations of One-Stop Shop as a harmonized global gateway for requesting meeting rooms and services, estimating costs and generating single bills. The gText suite of applications, in particular the computer-assisted translation tool eLUNa and the documentation management system gDoc, will continue to support translation services in the implementation of the workload standards approved by the General Assembly in its resolution 75/252. In parallel, implementation of a new translation quality management framework will assist in the provision of consistently high-quality documents to Member States.
- 2.6 To expand capacity to meet the changing and increasing demand from Member States for multilingual meeting and documentation services, the Department will leverage temporary assistance to complement its in-house teams of interpreters, editors, translators, précis-writers, verbatim reporters and production editors, and conduct competitive recruitment examinations for both core and temporary staff.
- 2.7 In its succession planning efforts, the Department will be guided by the changing dynamics of the labour market, as well as by technological developments. Staff skills in all four subprogrammes will be upgraded and transformed as job requirements evolve, ensuring the availability of language staff with the right skill sets for the future. These efforts will include continued outreach to universities and training.
- 2.8 The proactive analysis of client needs and client feedback will continue to guide the Department's activities in developing its services in support of the work of the intergovernmental and expert bodies.
- 2.9 The Department will coordinate measures to enhance multilingualism in the Organization in accordance with the terms of reference of the Coordinator for Multilingualism (A/71/757, annex II).
- 2.10 With regard to inter-agency coordination and liaison, the Department will continue to provide substantive and technical secretariat support and serve as the permanent Chair of the International Annual Meeting on Language Arrangements, Documentation and Publications.
- 2.11 With regard to the external factors, the overall plan for 2025 is based on the following assumptions:
 - (a) Information on changes to the calendar of conferences and meetings, as well as to the programmes of work of intergovernmental and expert bodies, is made available in a timely manner and in conformity with the applicable rules of procedure;
 - (b) The number of non-calendar meetings does not exceed that of 2023;
 - (c) Extraordinary meetings, including special and emergency special sessions, will be scheduled with sufficient notice;
 - (d) Unforeseen high-priority documentation will be manageable;
 - (e) Stakeholders will fulfil their responsibilities and obligations in accordance with established rules for the submission of documentation and meeting requests in a predictable manner;
 - (f) Global supply chains enable the international and timely sourcing of high-quality goods, capacity and services.
- 2.12 The programme integrates a gender perspective into its operational activities, deliverables and results, as appropriate.
- 2.13 In line with the United Nations Disability Inclusion Strategy, the Department will continue to adjust and refine its systems, platforms, workflows, seating arrangements and requirements for conference

services with a view to assisting delegates and participants with disabilities in contributing on equal terms to the work of the United Nations.

Legislative mandates

2.14 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

43/222 A-E ; 77/255	Pattern of conferences	76/245	Questions relating to the proposed programme budget for 2022
50/11 ; 76/268	Multilingualism

Deliverables

2.15 Table 2.1 lists all cross-cutting deliverables of the programme.

Table 2.1
Cross-cutting deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	2	1
1. Report of the Secretary-General on the pattern of conferences	1	1	1	1
2. Report of the Secretary-General on multilingualism	–	–	1	–
Substantive services for meetings (number of three-hour meetings)	22	12	23	22
Meetings of:				
3. The General Assembly related to multilingualism	–	–	1	–
4. The Committee on Conferences, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee on the item on the pattern of conferences	16	8	16	16

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
5. The Committee for Programme and Coordination, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee related to programme planning and the budgetary process	6	4	6	6
C. Substantive deliverables				
Consultation, advice and advocacy: International Annual Meeting on Language Arrangements, Documentation and Publications, with an estimated 60 entities.				
D. Communication deliverables				
Outreach programmes, special events and information materials: 6 language days, 2 internationally recognized language celebrations and other related observances on multilingualism in accordance with General Assembly guidance.				
External and media relations: meetings with language groupings or other relevant international organizations, upon request and in line with the role of the Coordinator for Multilingualism.				
Digital platforms and multimedia content: multilingual content for websites and social media accounts of the Department for General Assembly and Conference Management, including on outreach to universities and on multilingualism.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services (110 non-parliamentary documents); and correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with Member States.				

Evaluation activities

- 2.16 The following evaluations conducted by the Department and completed in 2023 have guided the proposed programme plan for 2025:
- (a) Workflow management of General Assembly resolutions in New York (subprogramme 1);
 - (b) The impact of other duties, leave and sick leave on adherence to interpretation workload standards in Geneva (subprogramme 4);
 - (c) PaperSmart and document distribution in Vienna (subprogramme 4);
 - (d) Report-writing services in Nairobi (subprogramme 3).
- 2.17 In response to the results of the evaluations referenced above, the Department incorporated the recommendations into its programmes, as applicable. For example, the evaluation on workflow management of General Assembly resolutions in New York recommended eliminating the duplication of manual data entry, leveraging data and automating tasks in a machine-readable workflow. The Department is therefore moving towards a more automated end-to-end process for Assembly resolutions.
- 2.18 An evaluation to be conducted by the Department on workforce planning and capacity requirements for the future is planned for 2025.

Programme of work

Subprogramme 1

General Assembly and Economic and Social Council affairs

Objective

- 2.19 The objective, to which this subprogramme contributes, is to ensure efficient and effective deliberation and decision-making processes of intergovernmental and relevant expert bodies and United Nations conferences.

Strategy

- 2.20 To contribute to the objective, the subprogramme will:
- (a) Provide technical secretariat services to and coordinate substantive support for intergovernmental bodies, including the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and its various subsidiary and ad hoc bodies; the Economic and Social Council and its forums and subsidiary and ad hoc bodies; the Trusteeship Council; and conferences and other ad hoc and extraordinary meetings held under the auspices of the United Nations;
 - (b) Provide procedural advice and substantive, analytical and historical information;
 - (c) In response to requests from Member States, strengthen its core software tools, including e-deleGATE, which is available in the official languages of the United Nations and is able to capture interaction among various intergovernmental bodies, and which, along with existing e-deleGATE modules, the General Assembly, in its resolution [77/335](#), called upon its subsidiary organs to use, as much as possible.
- 2.21 The above-mentioned work is expected to result in:
- (a) The smooth conduct of meetings of the intergovernmental bodies serviced;
 - (b) Expanded availability and accessibility of secretariat support to the delegations;
 - (c) Improved user experience for delegations on the e-deleGATE portal.

Programme performance in 2023

Efficient and effective deliberation and decision-making processes at high-level meetings

- 2.22 High-level meetings are intended to bring global attention to specific issues through the participation of world leaders. The subprogramme supports the work of intergovernmental bodies not only by organizing practical aspects of those meetings, but also by servicing informal consultations during which the adopted outcomes are negotiated. In 2023, in addition to its regular workload, the subprogramme organized seven high-level meetings, including the Sustainable Development Goals Summit. Furthermore, at the seventy-seventh session of the General Assembly, the subprogramme supported 16 co-facilitator-led informal consultation processes that were initiated by the President of the General Assembly. Many of those consultations were on the modalities of high-level meetings or the outcome documents adopted at such meetings. Five informal meetings of the General Committee were also held, including with the aim of scheduling those high-level meetings and minimizing conflicts. Through the organization of the meetings and servicing informal consultations, the subprogramme contributed to the efficient and effective deliberation and decision-making processes at each of the meetings and the adoption of four outcome documents and declarations on various contemporary issues. By comparison, one outcome document was adopted on the margins of the general debate at each of the two preceding sessions.
- 2.23 Progress towards the objective is presented in the performance measure below (see figure 2.I).

Figure 2.I

Performance measure: number of high-level meetings of the General Assembly, outcome documents considered at those meetings, and informal meetings of the General Committee^a

^a The informal meeting of the General Committee at the seventy-sixth session of the General Assembly was held on 14 December 2021 but has been included under 2022 for ease of comparison across sessions.

Planned results for 2025

Result 1: increased meeting efficiency through concurrent use of time suspended for election ballot counting

Programme performance in 2023 and target for 2025

2.24 The subprogramme’s work contributed to increased meeting efficiency by using all time spent counting ballots for consideration of other matters, which did not meet the planned target of 45 minutes for the election of non-permanent members of the Security Council and 60 minutes for the election of 18 members of the Economic and Social Council. The planned target was not met because the counting of the ballots took less time than in previous years.

2.25 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.II).

Figure 2.II

Performance measure: time used for consideration of other matters while counting the ballots for the first round of balloting of the elections of non-permanent members of the Security Council and of 18 members of the Economic and Social Council

(Minutes)

Result 2: delegates and the public have access to new services that are unlocked by the intergovernmental data model for meeting proceedings

Programme performance in 2023 and target for 2025

- 2.26 The subprogramme’s work contributed to the availability of two new machine-generated versions of the schedule of the General Assembly, one in regular format and another optimized for mobile devices, which met the planned target.
- 2.27 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.2).

Table 2.2
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Delegates have access to certain reports that are provided through a single data model	Delegates and the public have access to data-driven reports for all bodies that the subprogramme services	Delegates and the public have access to 2 versions of the schedule of the General Assembly, unlocked by the intergovernmental data model	Delegates and the public have access to new services that are unlocked by the intergovernmental data model	Delegates and the public have access to additional reporting services that are unlocked by the intergovernmental data model

Result 3: standardized information on the proceedings of various intergovernmental bodies available to delegates

Proposed programme plan for 2025

- 2.28 The subprogramme, among other activities, provides data stewardship to intergovernmental decision-making. A proposal is introduced, recommended and adopted during meetings of various intergovernmental bodies. The associated information is recorded and stored in various data sets as the proposal is processed by the bodies.

Lessons learned and planned change

- 2.29 The lesson for the subprogramme was that data-driven approaches could facilitate access to more readily understandable information by standardizing both the form and content of such information. In applying the lesson, the subprogramme will design and implement new digital solutions that will facilitate access to information across the intergovernmental bodies that the subprogramme services, including a new e-deleGATE module that draws on multiple data sets to record and share information relating to proposals, amendments, resolutions and decisions. In keeping with General Assembly resolution [77/335](#), it will encourage other technical secretariats to adopt the same digital solutions.
- 2.30 Expected progress towards the objective is presented in the performance measure below (see table 2.3).

Table 2.3
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Member States have access to information on intergovernmental decision-making, but this varies in content and form from one body to another	New module, providing information on proposals, amendments, resolutions and decisions, not yet available but under development in e-deleGATE	Member States have access to new module in e-deleGATE, providing information on proposals, amendments, resolutions and decisions

Deliverables

2.31 Table 2.4 lists all deliverables of the subprogramme.

Table 2.4
Subprogramme 1: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	197	275	217	181

Conference management, New York

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.32 The objective, to which this subprogramme contributes, is to ensure efficient, effective and multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.33 To contribute to the objective, the subprogramme will, in coordination with the other duty stations:
- (a) Plan and manage meetings and documentation services in a globally coordinated manner by leveraging technologies, including gMeets, gDoc and gData, and optimizing workflows;
 - (b) Lead global innovation projects in areas related to planning and coordination, including gMeets and the *Journal of the United Nations*;
 - (c) Centrally coordinate evaluation activities and risk management, including business continuity within existing mandates, and provide high-quality and reliable data to facilitate informed managerial decision-making and performance monitoring;
 - (d) Engage in regular consultations with Member States and substantive and technical secretariats to address conference-servicing needs;
 - (e) Provide technical and substantive support to the Committee on Conferences through expanded use of the e-deleGATE portal.
- 2.34 The above-mentioned work is expected to result in:
- (a) The addressing of Member States’ needs with more responsive, timely, efficient and user-friendly conference services;
 - (b) Smooth deliberations in the intergovernmental process;
 - (c) Well-established and mature standard operating procedures complemented by information technology systems applied to all services for Member States;
 - (d) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2023

Towards a global *Journal of the United Nations*

- 2.35 In support of integrated global management and to contribute to the smooth proceeding of intergovernmental and expert meetings, the subprogramme expanded the scope of the *Journal of the United Nations*, using existing technology and in-house skills and knowledge, to include all conferences and summits held away from Headquarters in 2022. In 2023, dedicated sections covering the meetings held at the United Nations Offices at Nairobi and Vienna, as well as the hearings of the International Court of Justice, were added. As a result, the Journal now covers the meetings of all six main organs of the United Nations.
- 2.36 Progress towards the objective is presented in the performance measure below (see table 2.5).

Table 2.5
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Users of the <i>Journal of the United Nations</i> receive information only on meetings in New York	Users of the <i>Journal of the United Nations</i> receive information on meetings in New York and on conferences and summits held away from Headquarters	Users of the <i>Journal of the United Nations</i> receive information on meetings in New York, on conferences and summits held away from Headquarters, on meetings at the United Nations Offices at Nairobi and Vienna, and on the hearings of the International Court of Justice

Planned results for 2025

Result 1: efficiency gains and enhanced accountability for conference and event management services

Programme performance in 2023 and target for 2025

- 2.37 The subprogramme's work contributed to improved business processes and harmonized data structures, which did not meet the planned target of the issuance of an integrated single bill. The target was not met owing to the required technical review of the changes made in the meeting management system, gMeets, and the ongoing Umoja Conference and Event Management integration. However, the standard operating procedure for the single bill process was completed in 2023. In addition, the business requirements for changes in gMeets were identified and are being implemented.
- 2.38 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.6).

Table 2.6
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Analysis of existing supply chain and stakeholders	Areas of interoperability among conference and event management systems are determined by identifying master, transactional and reference data to support improved business processes and access to simplified and harmonized data structures within those systems and with Umoja and Inspira	Identification of business requirements and completion of standard operating procedure for the single bill process Implementation of some necessary system changes in the meetings management system (gMeets)	Streamlined processes and enhanced data consistency through expanded data integration with Umoja and Inspira	Streamlined business processes through enhanced systems integration (among Department for General Assembly and Conference Management applications and with enterprise administrative applications) that enables the single bill process

Result 2: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Programme performance in 2023 and target for 2025

- 2.39 The subprogramme’s work contributed to all indicators covering the entire span of conference management activities being available in new gData dashboards, with globally harmonized methodologies being applied to some indicators, which met the planned target.
- 2.40 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.7).

Table 2.7
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Availability of some indicators and reports for mandated reporting to Member States	All indicators available in new gData dashboards, with globally harmonized methodologies for some indicators	Mandated reporting of all indicators to Member States consistent with globally harmonized methodologies	Mandated reporting of all indicators to Member States based on gData reports

Result 3: global gateway for servicing conferences and meetings

Proposed programme plan for 2025

- 2.41 The One-Stop Shop client interface of gMeets acts as a single entry point for submitting requests for meeting services at United Nations Headquarters. To further streamline and optimize the processes for submitting and managing meeting requests, the subprogramme is working to consolidate the entry points for clients at all duty stations.

Lessons learned and planned change

- 2.42 The lesson for the subprogramme was that the process whereby clients request meeting services was highly fragmented. In applying the lesson, the subprogramme, in coordination with the other duty stations, will implement a global gateway – a client-oriented portal, based on the One-Stop Shop client interface of gMeets – that will enable requests for meeting services to be submitted through a single web interface that is integrated with local applications. This will simplify and streamline the request process, enhance coordination among service providers and lead to a harmonized request-to-invoice workflow, which will generate efficiencies in the request process and better services for Member States.
- 2.43 Expected progress towards the objective is presented in the performance measure below (see table 2.8).

Table 2.8
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Clients can request meeting services in New York through One-Stop Shop	A subset of clients can request meeting services in Nairobi through One-Stop Shop	All clients can request meeting services in Nairobi through One-Stop Shop A subset of clients can request meeting services in Vienna through One-Stop-Shop	All clients can request meeting services in Vienna through One-Stop Shop A subset of clients can request meeting services in Geneva through One-Stop Shop	All clients at all duty stations can request meeting services, obtain cost estimates and receive a single bill through One-Stop Shop

Deliverables

- 2.44 Table 2.9 lists all deliverables of the subprogramme.

Table 2.9
New York, subprogramme 2: deliverables for the period 2023–2025, by category and subcategory

12. <i>Journal of the United Nations</i>	251	251	252	251
C. Substantive deliverables				
Consultation, advice and advocacy: consultations with five Bureau members on issues relating to the Committee on Conferences; Bureau meetings and briefing for the 18 members of the Committee on Conferences; and consultations and coordination with Committees and expert bodies and other Secretariat entities to ensure the timely submission of 1,700 parliamentary documents and thereby facilitate timely issuance.				
Databases and substantive digital materials: One-Stop Shop platform for meetings and conference service requests.				
D. Communication deliverables				
Digital platforms and multimedia content: website of the <i>Journal of the United Nations</i> (daily <i>Journal</i> provided for 251 working days) and calendar of conferences and meetings website, available in all six official languages and accessible from mobile devices.				

**Subprogramme 3
Documentation services**

Objective

- 2.45 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.46 To contribute to the objective, the subprogramme will, in coordination with the other duty stations:
- (a) Deliver multilingual documentation services, including translation, editing, précis-writing, desktop publishing and correspondence services, while improving quality and timeliness by leveraging technologies, optimizing workflows, matching capacity with workload and developing staff skills through training;
 - (b) Promote the versatility of language professionals with regard to processing highly complex legal and technical documents by providing continuous subject-matter training, including by leading projects on knowledge management and training tools and by organizing briefings with substantive secretariats;
 - (c) Implement new technological solutions and maintain existing systems to manage its workload and workforce;
 - (d) Strengthen performance management and quality assurance mechanisms and manage the quality of internally and externally processed documents by applying rigorous quality-control standards;
 - (e) Enhance outreach to universities;
 - (f) Improve recruitment methods, including through remote competitive examinations;
 - (g) Lead global innovation projects and programmes in areas relating to documentation, including gText and gDoc, to improve the ability of the subprogramme to plan and process multilingual documentation within established time frames and to support the skills of linguists to satisfy the mandate on quality;

- (h) Maintain and enhance the UNTERM portal, which contains official terminology and is publicly accessible online;
 - (i) Convert categories of documents into machine-readable format to develop further information services that will leverage the wealth of the Organization's knowledge.
- 2.47 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2023

Timely delivery of high-quality draft resolutions to facilitate the deliberations of the General Assembly and its Main Committees

- 2.48 The Second Committee concluded its session in 2023 after approving 43 draft resolutions, the highest number since the seventy-fourth session of the General Assembly. The subprogramme supported that achievement, highlighted by the Chair in his closing remarks, through the commitment and timely work of editors, translators and text-processors, to process draft resolutions covering diverse topics speedily and issue them simultaneously in all official languages and to a high level of quality, processing some 410,000 words, a 17 per cent increase compared with 2022, with no detrimental impact on the overall timely processing of documentation.
- 2.49 Progress towards the objective is presented in the performance measure below (see figure 2.III).

Figure 2.III

Performance measure: timely processing of documentation; words of draft resolutions processed for the Second Committee

Planned results for 2025

Result 1: versatility and multilingualism: parliamentary documentation delivered within the mandated time frames

Programme performance in 2023 and target for 2025

- 2.50 The subprogramme's work contributed to 99 per cent of parliamentary documentation submitted on time and within the established word limits being issued in a timely manner, which did not meet the planned target of 100 per cent. The target was not met owing to a number of delayed submissions, which led to unexpected competing priorities within the overarching goal of ensuring that all documents were issued well in advance of the meeting sessions.
- 2.51 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.IV).

Figure 2.IV

Performance measure: timely processing of parliamentary documentation (annual)

(Percentage)

Result 2: innovation in action: leveraging machine-readable documents

Programme performance in 2023 and target for 2025

- 2.52 The subprogramme's work contributed to the availability of additional resolutions in enriched machine-readable format permitting not only visualizations, but also data extracts, which exceeded the planned target of having available additional resolutions in enriched machine-readable format with visualizations.
- 2.53 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.10).

Table 2.10
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Resolutions of the Security Council and Economic and Social Council available in machine-readable format and displayed in interactive reports with visualizations	Decisions of the General Assembly available in machine-readable format and displayed in multilingual reports with visualizations	Availability of additional resolutions in enriched machine-readable format with visualizations and data extracts	Availability of other categories of documents and publications in the United Nations Digital Library or other portals	Availability of further refinements, including through master data, to facilitate information retrieval by Member States
Automated compilation and accelerated publication of volumes I and III of the resolutions and decisions adopted by the General Assembly, leveraging machine-readable documents	Automated compilation of volume II of the resolutions and decisions of the General Assembly, containing the decisions adopted by the Assembly, and of the resolutions and decisions adopted by the Economic and Social Council, available in machine-readable format			

Result 3: high-quality multilingual documentation through translation quality management framework

Proposed programme plan for 2025

2.54 In its resolution [77/255](#), the General Assembly emphasized that one of the Department’s major goals was to provide high-quality documents in a timely manner in all official languages. To meet the quality expectations of Member States, the Department developed a translation quality management framework. The tenet of the framework is the fit-for-purpose approach, whereby the needs of Member States are paramount in assessing quality.

Lessons learned and planned change

- 2.55 The lesson for the subprogramme was the need to continue to meet the quality expectations of Member States, in the context of increased workload standards and technological advances. In applying the lesson, the subprogramme operationalized the framework by establishing specific quality assurance processes that could be applied to the six official languages of the United Nations. The processes contained in the framework will be applied progressively in all duty stations. Feedback mechanisms, such as the annual survey on conference services, will be reviewed and updated in line with the framework to ensure the ongoing assessment of the needs and expectations of Member States with regard to translation quality, which is key for the implementation of the framework.
- 2.56 Expected progress towards the objective is presented in the performance measure below (see table 2.11).

Table 2.11
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Member States provide feedback on their satisfaction with the linguistic quality of translated documents through the annual survey on conference services Responses received in 2023 indicate satisfaction with translation quality	Member States provide feedback through new mechanism(s) aligned with the new translation quality framework, indicating that translation quality meets their needs and expectations	Member States indicate that translation quality meets their needs and expectations to the same extent as in 2024

Deliverables

2.57 Table 2.12 lists all deliverables of the subprogramme.

Table 2.12
New York, subprogramme 3: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	223	286	223	223
Summary records of:				
1. Meetings of Security Council subsidiary bodies	18	20	18	18
2. Meetings of the General Assembly	150	212	150	150
3. Meetings of the Economic and Social Council	35	36	35	35
4. Other meetings	20	18	20	20
Documentation services for meetings (thousands of words)	133 775	125 394	116 000^a	116 000^a
Editing, translation and desktop publishing of:				
5. Documents for the Security Council	22 728	18 180	19 200	19 200
6. Documents for the General Assembly	90 440	88 375	79 300	79 300
7. Documents for the Economic and Social Council	18 557	15 833	16 400	16 400
8. Other documents	2 050	3 006	1 100	1 100
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM, comprising some 685,000 records.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services for some 36 clients (processing more than 5 million words); and correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with all Member States.				

^a Excludes editorial corrections generated by parallel processing, which is necessary to ensure timeliness.

Subprogramme 4 Meetings and publishing services

Objective

- 2.58 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.59 To contribute to the objective, the subprogramme will, in coordination with the other duty stations:
- (a) Provide multilingual verbatim reporting, interpretation, meeting support and publishing services at Headquarters and for conferences and meetings held away from Headquarters;
 - (b) Utilize data-driven methodologies to project, plan and obtain the staff and temporary workforce capacity necessary to sustain peak periods of demand at Headquarters and for meetings held away from Headquarters;
 - (c) Develop and implement good practices relating to conference support and the sustainability and accessibility of meeting and publishing services;
 - (d) Refine business continuity methodologies and tools in accordance with existing mandates.
- 2.60 The above-mentioned work is expected to result in:
- (a) Better matching of servicing capacity with expected increases in meeting demand during peak periods;
 - (b) Continued sustainability of conference support and publishing services.

Programme performance in 2023

Increased availability of interpretation services during extended peaks of activity

- 2.61 The subprogramme continued to experience heightened demand for interpretation services and for longer periods in 2022 and 2023, with the number of months of high demand (i.e. when more than 200 interpretation teams are required) rising from to five and seven, respectively, compared with only one such month in 2021. At the same time, owing to low demand in the preceding years, as well as other factors, the pool of locally available freelance interpreters to support such periods of high demand declined significantly, from the pre-coronavirus disease (COVID-19) pandemic highs of 82 to 57 in 2022 and 32 in 2023. To meet the increased demand, the subprogramme conducted extensive outreach to attract new interpreters and recruited a team on short-term appointments from the newly created examination rosters.
- 2.62 Progress towards the objective is presented in the performance measure below (see figure 2.V).

Figure 2.V
Performance measure: availability of interpretation services during months of high demand^a

^a High demand is defined as requiring approximately 200 interpretation teams per month.

Planned results for 2025

Result 1: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities that are technically accessible to all

Programme performance in 2023 and target for 2025

- 2.63 The subprogramme’s work contributed to the availability of conferencing tools and solutions to the benefit of organizers should a business continuity requirement arise, which met the planned target.
- 2.64 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.13).

Table 2.13
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Organizers benefited from fully deployed remote participation and remote simultaneous interpretation options to ensure business continuity during the prolonged pandemic	Tools/solutions deployed during the pandemic remained available for contingencies so that organizers could benefit from meeting and interpretation services that had been integrated with tools and solutions tested during the pandemic	Organizers have contingency solutions, with meeting and interpretation services that guarantee sustainable delivery in all working modalities	Organizers can benefit from contingency solutions, with meeting and interpretation services that guarantee sustainable delivery in all working modalities, should a business continuity requirement arise	Organizers can benefit from contingency solutions, with meeting and interpretation services that guarantee sustainable delivery in all working modalities, should a business continuity requirement arise

Result 2: timely processing of verbatim records of the General Assembly through the use of fit-for-purpose technologies

Programme performance in 2023 and target for 2025

- 2.65 The subprogramme's work contributed to reducing, to 34, the number of unprocessed verbatim records remaining from previous sessions of the General Assembly as of the first day of the new session, which did not meet the planned target of 10 unprocessed verbatim records. The target was not met owing to the larger-than-expected increase in activity of United Nations bodies entitled to verbatim records.
- 2.66 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.VI).

Figure 2.VI

Performance measure: number of unprocessed verbatim records remaining from previous sessions of the General Assembly as of the first day of the new session

Result 3: increased interpretation services available to meet the growing demand of Member States for meetings with interpretation

Proposed programme plan for 2025

- 2.67 With the phase-out of the business continuity measures introduced owing to the COVID-19 pandemic, 2022 and 2023 saw a rapid return to normal schedules of conferences and meetings serviced by the subprogramme. However, fewer freelance interpreters were available owing to changes in the labour market. In response, the subprogramme, in collaboration with the other duty stations, has intensified its recruitment efforts by conducting competitive examinations for language positions to recruit new staff, as well as examinations to replenish the global language register, so as to ensure sufficient core and temporary interpretation capacity to meet growing demand. Short-term appointments and intensive on-the-job mentoring are complementing efforts to bring in and train new staff swiftly.

Lessons learned and planned change

- 2.68 The lesson for the subprogramme was that, as well as further replenishing and strengthening its global interpretation capacity, it needed to further improve workforce planning and management tools and processes so as to be able to fulfil, across the four duty stations, more requests for interpretation services from bodies entitled to interpretation on an “as required” and “if available” basis. In applying the lesson, the subprogramme will continue its recruitment and training efforts and, in parallel, will refine gMeets data flows and the interpreters assignment programme, eAPG, to support capacity-planning and the global management of freelancers. This will further enhance the planning and utilization of resources to match fluctuating workloads.
- 2.69 Expected progress towards the objective is presented in the performance measure below (see figure 2.VII).

Figure 2.VII
Performance measure: global number of meetings held with interpretation

Deliverables

2.70 Table 2.14 lists all deliverables of the subprogramme.

Table 2.14
New York, subprogramme 4: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned

18. Other requesters	4 400	2 089	4 400	4 400

E. Enabling deliverables

Publishing services: publications, official records (approximately 2,600 verbatim records annually) and other materials in all official languages for hard copy and digital distribution; 20,000 parliamentary documents printed, bound and distributed; 180 publications and other materials in hard copy; and materials available in digital format.

Conference management, Geneva

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.71 The objective, to which this subprogramme contributes, is to ensure efficient, effective and multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.72 To contribute to the objective, the subprogramme will, in coordination with the other duty stations, and in addition to the activities indicated in paragraph 2.33 above:
- (a) Manage reduced room capacity and other constraints resulting from renovation works under the strategic heritage plan of the United Nations Office at Geneva by optimizing the utilization of the limited available conference facilities and the temporary conference structure on the Office's grounds;
 - (b) Maintain, in coordination with relevant entities and the strategic heritage plan, business continuity capabilities in accordance with existing mandates.
- 2.73 The above-mentioned work is expected to result in:
- (a) Improved conference services and related procedures;
 - (b) The full, effective and efficient delivery of all mandated calendar meetings and participants experiencing a conference that is comparable in quality to fully in-person meetings if the need for multiple participation modalities were to arise;
 - (c) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2023

Additional four weeks of meetings of the Human Rights Council successfully serviced

- 2.74 In October 2022, the Human Right Council adopted decision HRC/DEC/51/101, by which it extended its minimal annual meeting time by four weeks starting in 2023. Implementation of that decision presented challenges, given the reduced availability of conference facilities associated with the ongoing strategic heritage plan renovations at the Palais des Nations and the continued increase in the meeting workload in general. The subprogramme enhanced coordination with the Human Right Council and engaged in careful planning with all service providers to facilitate the smooth integration of the additional four weeks of meetings into the 2023 work programme.
- 2.75 Progress towards the objective is presented in the performance measure below (see figure 2.VIII).

Figure 2.VIII
Performance measure: meetings serviced with interpretation

Planned results for 2025

Result 1: enhancing delegates’ experience in obtaining conference services – lessons from applied innovations

Programme performance in 2023 and target for 2025

- 2.76 The subprogramme’s work contributed to 100 per cent of overall client satisfaction with the provision of conference services, which met the planned target.
- 2.77 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.IX).

Figure 2.IX
Performance measure: overall client satisfaction with the provision of conference services
 (Percentage)

Result 2: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Programme performance in 2023 and target for 2025

- 2.78 The subprogramme’s work contributed to all indicators covering the entire span of conference management activities being available in new gData dashboards, with globally harmonized methodologies being applied to some indicators, which met the planned target.
- 2.79 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.15).

Table 2.15
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Availability of some indicators and reports for mandated reporting to Member States	All indicators available in new gData dashboards, with globally harmonized methodologies for some indicators	Mandated reporting of all indicators to Member States consistent with globally harmonized methodologies	Mandated reporting of all indicators to Member States based on gData reports

Result 3: global gateway for servicing conferences and meetings

Proposed programme plan for 2025

- 2.80 To further streamline and optimize the processes for meeting requests and to consolidate the entry points for clients at all duty stations, the subprogramme will contribute to the implementation of a global gateway, in line with paragraph 2.41 above.

Lessons learned and planned change

- 2.81 In line with the lesson learned described in paragraph 2.42 above, the subprogramme, in coordination with the other duty stations, will implement a global gateway that enables requests for services to be submitted through a single web interface.
- 2.82 Expected progress towards the objective is presented in the performance measure below (see table 2.16).

Table 2.16
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	A subset of clients can request meeting services in Geneva through One-Stop Shop	All clients at all duty stations can request meeting services, obtain cost estimates and receive a single bill through One-Stop Shop

Deliverables

2.83 Table 2.17 lists all deliverables of the subprogramme.

Table 2.17

Geneva, subprogramme 2: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	12 000	8 478	12 000	9 000
1. Meetings of intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	3 750	3 449	3 750	3 750
2. Meetings of intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	2 000	1 568	2 000	1 600
3. Meetings of intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	1 950	1 181	1 950	1 250
4. Meetings of intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	700	505	700	500
5. Other	3 600	1 775	3 600	1 900
B. Generation and transfer of knowledge				
Technical materials (number of materials)	1	1	1	1
6. Annual calendar of conferences and meetings in Geneva	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: informational session for 70 permanent missions.				
D. Communication deliverables				
Outreach programmes, special events and information materials: language-day celebrations for the six official languages, the International Day of Sign Languages and International Mother Language Day.				
External and media relations: press conferences and public briefings.				

Subprogramme 3 Documentation services

Objective

2.84 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

2.85 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities indicated in paragraph 2.46 above, to:

- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide input to UNTERM and maintain its repository of Geneva-specific reference material for in-house and external language professionals;

- (b) Reinforce communication to ensure that terminology creation standards remain aligned in UNTERM, in collaboration with New York;
- (c) Continuously improve recruitment methods for temporary language staff and individual language contractors.

2.86 The above-mentioned work is expected to result in:

- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
- (b) The consistent use of official terminology in the official languages;
- (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2023

Member States benefit from more accurate legal terminology records in the United Nations Terminology Database

2.87 In its resolution [77/255](#), the General Assembly requested the Secretary-General to maintain and update the Organization's official terminology portal, UNTERM, with a view to achieving, among others, harmonization of the terminology used at all duty stations. When UNTERM was launched, legacy records were imported into the portal and were not reviewed for consistency. Some of these records belong to the "Law" domain, which is managed by the United Nations Office at Geneva.

2.88 In 2023, the subprogramme expanded the pilot project on legal terminology in the six official languages with the following priorities: (a) deleting obsolete records; (b) amending inaccurate records; and (c) establishing new records in response to feedback from users. This approach relied on close cooperation among terminologists, legal experts, translators, editors and linguistic support assistants in Geneva and across duty stations, in particular at Headquarters and in Vienna. As a result, 1,984 legal records were created or updated in UNTERM during the year, enabling the harmonization of legal terminology across duty stations.

2.89 Progress towards the objective is presented in the performance measure below (see figure 2.X).

Figure 2.X

Performance measure: number of new or updated legal records available in the United Nations Terminology Database (annual)

Planned results for 2025

Result 1: documentation needs of Member States met through succession planning

Programme performance in 2023 and target for 2025

- 2.90 The subprogramme's work contributed to meeting the documentation needs of Member States, with 99.5 per cent of documents (all but 8 of the 166 documents submitted) issued in a timely manner, which did not meet the planned target of 100 per cent of timely issuance of documents that were submitted on time and within the word limit.
- 2.91 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.XI).

Figure 2.XI

Performance measure: timely issuance compliance for documents that were submitted on time and within the word limit

(Percentage)

Result 2: innovation in action: leveraging machine-readable documents

Programme performance in 2023 and target for 2025

- 2.92 The subprogramme's work contributed to Human Rights Council resolutions and decisions being automatically generated, on a pilot basis, in machine-readable format in line with the Akoma Ntoso standard, which exceeded the planned target.
- 2.93 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.18).

Table 2.18

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated and standardized markup available for Human Rights Council resolutions in machine-readable format in line with the Akoma Ntoso standard	Human Rights Council resolutions and decisions automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	Availability of resolutions adopted by the Human Rights Council in machine-readable format in line with the Akoma Ntoso standard, with visualizations	Availability of further refinements, including through master data, to facilitate information retrieval by Member States

Result 3: high-quality multilingual documentation through a translation quality management framework

Proposed programme plan for 2025

2.94 The subprogramme, in coordination with the other duty stations, will continue to implement a translation quality management framework, as described in paragraph 2.54 above.

Lessons learned and planned change

2.95 In line with the lesson learned described in paragraph 2.55 above, the subprogramme will ensure the application of the quality assurance processes included in the framework to support the continued provision of high-quality documents to Member States.

2.96 Expected progress towards the objective is presented in the performance measure below (see table 2.19).

Table 2.19
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Member States provide feedback on their satisfaction with the linguistic quality of translated documents through the annual survey on conference services Responses received in 2023 indicate satisfaction with translation quality	Member States provide feedback through new mechanism(s) aligned with the new translation quality framework, indicating that translation quality meets their needs and expectations	Member States indicate that translation quality meets their needs and expectations to the same extent as in 2024

Deliverables

2.97 Table 2.20 lists all deliverables by the subprogramme.

Table 2.20
Geneva, subprogramme 3: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	550	587	550	580
Summary records of:				
1. Meetings of intergovernmental and expert bodies on human rights	490	508	490	520
2. Meetings of intergovernmental and expert bodies on legal affairs	35	45	35	50
3. Other meetings	25	34	25	10

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
Documentation services for meetings (thousands of words)	73 000	84 510	73 000	83 000
4. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	42 250	50 760	42 250	51 500
5. Translation and desktop publishing of documents for intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	16 000	20 088	16 000	18 500
6. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on legal affairs, including the International Law Commission	4 850	2 623	4 850	2 500
7. Translation and desktop publishing of documents for intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	3 500	3 560	3 500	3 500
8. Translation and desktop publishing of documents for intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change and the Conference of the Parties to the United Nations Convention to Combat Desertification	2 400	3 408	2 400	3 200
9. Editing, translation and desktop publishing of documents for other intergovernmental and expert bodies	4 000	4 071	4 000	3 800

C. Substantive deliverables

Databases and substantive digital materials: UNTERM, comprising some 685,000 records.

E. Enabling deliverables

Correspondence and documentation services: documentation services; approximately 300 non-parliamentary documents provided to 13 client departments; and mandated publications for the International Law Commission in the six official languages.

**Subprogramme 4
Meetings and publishing services**

Objective

- 2.98 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.99 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.59 above:
- (a) Lead innovation projects, including Indico.UN and fully automated speech-to-text (FAST) technology, and participate in full in the global innovation projects of the Department, including eAPG;
 - (b) Provide digital documentation to delegates in a structured and integrated way.
- 2.100 The above-mentioned work is expected to result in:
- (a) More effective utilization and expanded provision of the Organization’s meetings and publishing services;
 - (b) Greater access for meeting participants and end users of publishing services to United Nations products to maximize their engagement with the intergovernmental process.

Programme performance in 2023

Expanded range of accessible publishing products

- 2.101 The subprogramme, in recognizing the important role of accessible publishing products and facilitating more inclusive engagement in the intergovernmental process, increased its efforts to expand the range of publishing products, including web and print publications, videos and photos.
- 2.102 Aligning itself with the United Nations Disability Inclusion Strategy, the subprogramme applied the principles of universal design to its products, which led to the implementation of several key accessibility features, such as the use of increased font sizes and enhanced contrast that enhance the readability for those with visual impairments. Moreover, the products are designed to be visually simple and intuitive, which allows users of all abilities to navigate and understand the content with ease. Videos and photos now also contain multilingual subtitles and alt-text captions, making them more accessible to individuals with hearing impairments and those who prefer or require text-based content.
- 2.103 Progress towards the objective is presented in the performance measure below (see figure 2.XII).

Figure 2.XII

Performance measure: number of new accessible publishing products made available

Planned results for 2025

Result 1: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities technically accessible to all

Programme performance in 2023 and target for 2025

- 2.104 The subprogramme's work contributed to 18 per cent of calendar meetings with virtual document distribution, which exceeded the planned target of 10 per cent.
- 2.105 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.XIII).

Figure 2.XIII
Performance measure: percentage of calendar meetings with virtual document distribution

Result 2: automatic transcription in all languages through the use of fit-for-purpose technologies

Programme performance in 2023 and target for 2025

- 2.106 The subprogramme’s work contributed to 10,200 of hours of meeting recordings transcribed in 2023, which exceeded the planned target of 10,000 hours.
- 2.107 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.XIV).

Figure 2.XIV
Performance measure: number of hours of meeting recordings transcribed per year

Result 3: increased interpretation services available to meet the growing demand of Member States for meetings with interpretation

Proposed programme plan for 2025

- 2.108 To accommodate the rapid return to normal schedules of conferences and meetings serviced by the subprogramme, notwithstanding shortages in the labour market of freelance interpreters, the subprogramme, in collaboration with the other duty stations, has intensified its recruitment efforts in line with paragraph 2.67 above.

Lessons learned and planned change

2.109 In line with the lesson learned described in para 2.68 above, the subprogramme will continue its recruitment and training efforts and, in parallel, will refine gMeets data flows and the interpretation assignment application, eAPG, to support capacity-planning and the global management of freelancers.

2.110 Expected progress towards the objective is presented in the performance measure below (see figure 2.XV).

Figure 2.XV

Performance measure: global number of meetings held with interpretation

Deliverables

2.111 Table 2.21 lists all deliverables for the subprogramme.

Table 2.21

Geneva, subprogramme 4: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	3 200	3 056	3 200	3 200
Meetings with interpretation for:				
1. Intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	1 530	1 669	1 530	1 850
2. Intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	50	54	50	50
3. Intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	860	800	860	800
4. Intergovernmental and expert bodies on disarmament	240	252	240	250
5. Other meetings	520	281	520	250
E. Enabling deliverables				
Publishing services: design and layout of publications, multimedia products, web pages, outreach materials and other products, formatted for hard-copy and digital distribution to more than 50 client entities based in Geneva and at the request of entities outside Geneva.				

Conference management, Vienna

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.112 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.113 To contribute to the objective, the subprogramme will, in coordination with the other duty stations, and in addition to the activities indicated in paragraph 2.33 above:
- (a) Optimize capacity for meetings and documentation services in a globally coordinated manner;
 - (b) Engage in continuous dialogue and regular consultations with Member States and substantive and technical secretariats to respond early to any changing conference-servicing and documentation needs of all Vienna-based international organizations;
 - (c) Continue to develop innovative processes and best practices to meet the evolving needs of global conference servicing and leverage new technologies, including for business continuity within existing mandates.
- 2.114 The above-mentioned work is expected to result in:
- (a) The cost-effective use of conference servicing resources in the context of the mandated meetings of the client bodies;
 - (b) Responsive conference services that provide a broader range of client service modalities;
 - (c) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2023

Increased number of meetings serviced within existing resources

- 2.115 In Vienna, an increased number of meetings were serviced in 2023 within existing resources, including through the reprofiling and training of staff in other areas to perform meeting service tasks. In 2023, 6,736 meetings were held, which exceeded the number of planned meetings by 17 per cent.
- 2.116 Progress towards the objective is presented in the performance measure below (see figure 2.XVI).

Figure 2.XVI
Performance measure: number of meetings programmed, compared with number of meetings held

Planned results for 2025

Result 1: harmonized documentation and tools for stakeholders, including Member States

Programme performance in 2023 and target for 2025

- 2.117 The subprogramme’s work contributed to the timely processing and issuance of documentation for clients at all offices, which met the planned target.
- 2.118 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.22).

Table 2.22
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Documentation planning streamlined for clients at 2 duty stations through the deployment of the documentation planning module, with testing at the 2 remaining offices	Single global entry point for all documentation needs for clients at all offices through the deployment of client request module in gDoc Timely processing and issuance of documentation through the deployment of the documentation management, language, issuance and distribution modules in gDoc	Timely processing and issuance of documentation for clients at all offices through the deployment in Vienna of the gDoc issuance and distribution modules	Benefits in cost-effectiveness realized by all stakeholders from global harmonized documentation tool and workflow	Further benefits in cost-effectiveness realized by all stakeholders from technological developments in documentation workflows and planning

Result 2: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Programme performance in 2023 and target for 2025

- 2.119 The subprogramme’s work contributed to all indicators covering the entire span of conference management activities being available in new gData dashboards, with globally harmonized methodologies being applied to some indicators, which met the planned target.

2.120 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.23).

**Table 2.23
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	Availability of some indicators and reports for mandated reporting to Member States	All indicators available in new gData dashboards, with globally harmonized methodologies for some indicators	Mandated reporting of all indicators to Member States consistent with globally harmonized methodologies	Mandated reporting of all indicators to Member States based on gData reports

Result 3: global gateway for servicing conferences and meetings

Proposed programme plan for 2025

2.121 To further streamline and rationalize the processes for meeting requests and to consolidate the entry points for clients at all duty stations, the subprogramme will contribute to the implementation of a global gateway in line with paragraph 2.41 above.

Lessons learned and planned change

2.122 In line with the lesson learned described in paragraph 2.42 above, the subprogramme, in coordination with the other duty stations, will implement a global gateway that enables requests for services to be submitted through a single web interface.

2.123 Expected progress towards the objective is presented in the performance measure below (see table 2.24).

**Table 2.24
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	–	A subset of clients can request meeting services in Vienna through One-Stop Shop	All clients can request meeting services in Vienna through One-Stop Shop	All clients at all duty stations can request meeting services, obtain cost estimates and receive a single bill through One-Stop Shop

Deliverables

2.124 Table 2.25 lists all deliverables of the subprogramme.

Table 2.25
Vienna, subprogramme 2: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	5 770	6 736	5 890	4 900
1. Meetings of the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice, the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime and the ad hoc committee of the General Assembly to elaborate an international convention on the misuse of information technologies, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	2 880	3 300	3 060	2 250
2. Meetings of the International Narcotics Control Board	110	124	110	160
3. Meetings of the Committee on the Peaceful Uses of Outer Space and its subcommittees	560	606	560	560
4. Meetings of the United Nations Commission on International Trade Law and its working groups	220	175	130	160
5. Meetings of the United Nations Scientific Committee on the Effects of Atomic Radiation	90	126	90	110
6. Meetings of the United Nations Industrial Development Organization	450	446	380	390
7. Meetings of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 060	732	1 060	770
8. Other meetings	400	1 227	500	500
B. Generation and transfer of knowledge				
Technical materials (number of materials)	252	252	252	252
9. Annual calendar of conferences and meetings in Vienna	1	1	1	1
10. Daily “master final” programme of meetings of intergovernmental bodies	251	251	251	251
C. Substantive deliverables				
Consultation, advice and advocacy: informational session for 152 permanent missions in Vienna.				
D. Communication deliverables				
Outreach programmes, special events and information materials: language day celebrations of the six official languages.				

Subprogramme 3 Documentation services

Objective

- 2.125 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.126 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities indicated in paragraph 2.46 above:
- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide input to UNTERM and maintain its repository of Vienna-specific reference material for in-house and external language professionals;
 - (b) Provide guidance to producers and users of terminology to ensure that terminology creation standards remain aligned in UNTERM;

- (c) Pursue dialogue with substantive secretariats and Member States to respond to their needs, requirements and priorities, and rigorously plan and coordinate documentation workflows and capacity.
- 2.127 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2023

Simultaneous issuance of draft provisions to Member States for their multilingual negotiation of the cybercrime convention

- 2.128 In preparation for the second session of the Ad Hoc Committee to Elaborate a Comprehensive International Convention on Countering the Use of Information and Communications Technologies for Criminal Purposes, in 2022 Member States submitted numerous lengthy draft provisions, which were based on existing legal instruments and contained sensitive legal terms. Given that those contributions would form the building blocks of the future convention, it was important that the subprogramme, in editing and translating them, ensure consistency between the proposed draft provisions and the existing legal instruments, as well as consistency among the provisions themselves, in the six official languages. However, because the contributions had been submitted at short notice owing to the impact of COVID-19-related uncertainties on the organization of the session, the subprogramme processed them urgently to avoid compromising simultaneous issuance and could not engage in consistency work usually done to prepare for the next session.
- 2.129 In 2023, the subprogramme undertook intensive preparations in advance of the sessions, researching and comparing existing legal instruments, preparing terminology and translation guidelines and interacting closely with the substantive secretariat on drafting matters. This preparatory work allowed the subprogramme to consistently edit and translate the large volume of draft provisions submitted in 2023 without this affecting the simultaneous issuance of documentation in the six official languages, enabling smooth multilingual negotiations among Member States.
- 2.130 Progress towards the objective is presented in the performance measure below (see figure 2.XVII).

Figure 2.XVII

Performance measure: simultaneous issuance of documents in the six official languages

(Percentage)

Planned results for 2025

Result 1: sustainable quality for the benefit of intergovernmental processes

Programme performance in 2023 and target for 2025

- 2.131 The subprogramme's work contributed to consistent satisfaction of Member States with documentation quality by piloting a common framework of best practices, which met the planned target.
- 2.132 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.26).

Table 2.26

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Increase in translation workload standards implemented	Sustainable quality assurance and quality control of self-revised translation enabled by the establishment of a quality framework comprising common best practices	Consistent satisfaction of Member States with documentation quality by piloting a common framework of best practices	Consistent satisfaction of Member States with documentation quality by drawing on the lessons learned from piloting and as needed, to update a common framework of best practices	Consistent satisfaction of Member States with documentation quality through implementation of translation quality management framework

Result 2: innovation in action: leveraging machine-readable documents

Programme performance in 2023 and target for 2025

- 2.133 The subprogramme's work contributed to United Nations Commission on International Trade Law (UNCITRAL) summary records being automatically generated in a machine-readable format on a pilot basis in line with the Akoma Ntoso standard, which met the planned target.
- 2.134 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.27).

Table 2.27

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated through an assessment of the feasibility of converting certain UNCITRAL document types into machine-readable format	UNCITRAL summary records automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	Availability of UNCITRAL model laws and conventions in machine-readable format in line with the Akoma Ntoso standard, with visualizations	Availability of further refinements, including through master data, to facilitate information retrieval by Member States

Result 3: high-quality multilingual documentation through a translation quality management framework

Proposed programme plan for 2025

2.135 The subprogramme, in coordination with the other duty stations, will continue to implement the translation quality management framework, as described in paragraph 2.54 above.

Lessons learned and planned change

2.136 In line with the lesson learned described in paragraph 2.55 above and building on the best practices mentioned in para 2.131 above, the subprogramme will ensure the application of the quality assurance processes included in the framework, to provide consistently high-quality documents to Member States.

2.137 Expected progress towards the objective is presented in the performance measure below (see table 2.28).

Table 2.28
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Member States provide feedback on their satisfaction with the linguistic quality of translated documents through the annual survey on conference services Responses received in 2023 indicate satisfaction with translation quality	Member States provide feedback through new mechanism(s) aligned with the new translation quality framework, indicating that translation quality meets their needs and expectations	Member States indicate that translation quality meets their needs and expectations to the same extent as in 2024

Deliverables

2.138 Table 2.29 lists all deliverables of the subprogramme.

Table 2.29
Vienna, subprogramme 3: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	24 400	24 360	26 400	25 180
1. Editing, translation and desktop publishing of documents for the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	10 300	9 705	11 300	10 300
2. Editing, translation and desktop publishing of documents for the International Narcotics Control Board	3 600	3 100	4 200	3 150
3. Editing, translation and desktop publishing of documents for the Committee on the Peaceful Uses of Outer Space and its subcommittees	2 400	2 500	2 800	2 550

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
4. Editing, translation and desktop publishing of documents for the United Nations Commission on International Trade Law and its working groups	6 000	6 400	6 030	6 575
5. Editing, translation and desktop publishing of documents for the United Nations Scientific Committee on the Effects of Atomic Radiation	100	105	70	105
6. Translation and desktop publishing of documents for the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 000	850	1 000	1 000
7. Translation and desktop publishing of documents for the United Nations Industrial Development Organization	1 000	1 700	1 000	1 500

C. Substantive deliverables

Databases and substantive digital materials: UNTERM, comprising some 685,000 records.

E. Enabling deliverables

Correspondence and documentation services: documentation services of more than 5 million words of non-parliamentary documents and publications in all official languages.

Subprogramme 4 Meetings and publishing services

Objective

- 2.139 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.140 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.59 above:
- (a) Provide interpretation and publishing services in the official languages for United Nations entities and governing bodies operating from Vienna, as well as for other Vienna-based organizations;
 - (b) Utilize data-driven methodologies to ensure maximum responsiveness to client needs, including by increasing the pool of freelance interpreters;
 - (c) Ensure the sustainability and accessibility of publishing services, including by expanding the array of e-publishing products.
- 2.141 The above-mentioned work is expected to result in:
- (a) Optimized interpretation services that are responsive to new and emerging conference services needs;
 - (b) Member States receiving visually informative content that is processed and distributed with minimal environmental impact.

Programme performance in 2023

More efficient use of interpretation resources

- 2.142 The subprogramme continued to experience heightened demand for interpretation services. The subprogramme met 100 per cent of requests for interpretation services. Through the optimization of interpreters' workload and the harmonization of recruitment practices across duty stations, the subprogramme serviced more meetings with interpretation than in 2022.

2.143 Progress towards the objective is presented in the performance measure below (see figure 2.XVIII).

Figure 2.XVIII

Performance measure: percentage of requests for meetings with interpretation services met/number of interpretation teams deployed (annual)

Planned results for 2025

Result 1: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities technically accessible to all

Programme performance in 2023 and target for 2025

2.144 The subprogramme’s work contributed to the availability of a broader spectrum of client-responsive formats for presenting data, which met the planned target.

2.145 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.30).

Table 2.30

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Initial meetings held with substantive secretariats of Vienna-based organizations to present modern formats for conveying data to Member States	Modern data presentation and innovative e-book formats were piloted and fine-tuned	Broader spectrum of client-responsive formats is available for presenting technical data to Member States	Greater accessibility of publications and availability of more client-driven content and formats	Consistent visualization elements and functions for presenting technical data are available to Member States

Result 2: improved discoverability and accessibility of publications through the use of fit-for-purpose technologies

Programme performance in 2023 and target for 2025

2.146 The subprogramme’s work contributed to improving the accessibility and discoverability of publications by including improved accessibility elements, such as alternative text descriptions for tables and figures for key publications, which met the planned target.

2.147 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.31).

Table 2.31
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Vienna-based organizations have metadata included in their publications to improve discoverability, along with a social media product to support the online promotion of their publications	Alternative text descriptions for tables and figures for some publications available to support accessibility and updated metadata guidelines to improve discoverability	Improved discoverability of publications in all six official languages	Improved digital publications and metadata with higher levels of accessibility and discoverability

Result 3: increased interpretation services available to meet the growing demand of Member States for meetings with interpretation

Proposed programme plan for 2025

2.148 To accommodate a rapid return to normal schedules of conferences and meetings serviced by the subprogramme, notwithstanding the shortage of freelance interpreters in the labour market, the subprogramme, in collaboration with the other duty stations, has intensified its recruitment efforts in line with paragraph 2.67 above.

Lessons learned and planned change

2.149 In line with the lesson learned described in para 2.68 above, the subprogramme will continue its recruitment and training efforts and, in parallel, will refine gMeets data flows and the interpretation assignment application, eAPG, to support capacity-planning and the global management of freelancers.

2.150 Expected progress towards the objective is presented in the performance measure below (see figure 2.XIX).

Figure 2.XIX
Performance measure: global number of meetings held with interpretation

Deliverables

2.151 Table 2.32 lists all deliverables of the subprogramme.

Table 2.32

Vienna, subprogramme 4: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	815	856	702	786
Meetings with interpretation for:				
1. The Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	340	254	322	276
2. The International Narcotics Control Board	60	57	60	60
3. The Committee on the Peaceful Uses of Outer Space and its subcommittees	60	102	60	60
4. The United Nations Commission on International Trade Law and its working groups	130	96	70	100
5. The United Nations Scientific Committee on the Effects of Atomic Radiation	10	8	10	10
6. The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	60	71	60	70
7. The International Atomic Energy Agency	100	151	90	180
8. The United Nations Industrial Development Organization	55	63	30	30
9. Other	–	54	–	–
E. Enabling deliverables				
Publishing services: correspondence for 7 United Nations entities; and layout and design of publications, multimedia products, web pages, outreach materials and other products in the 6 official languages for hard-copy and digital distribution to the Vienna client group, and at the request of entities outside Vienna.				

Conference management, Nairobi

Subprogramme 2

Planning and coordination of conference services

Objective

2.152 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

2.153 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities indicated in paragraph 2.33 above:

- (a) Provide substantive and organizational support to the main intergovernmental bodies headquartered in Nairobi and to other non-calendar intergovernmental bodies, such as those under the substantive coordination of the United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat);

- (b) Optimize capacity for meetings and documentation services in a globally coordinated manner;
- (c) Engage in regular consultations with Member States and substantive and technical secretariats to respond immediately to any changing conference-servicing and documentation needs of the Nairobi-based clients;
- (d) Contribute to innovative processes and best practices to meet the evolving needs of global conference servicing and leverage new technologies, including for business continuity within existing mandates;
- (e) Streamline workflows relating to conference service requests.

2.154 The above-mentioned work is expected to result in:

- (a) An increased number of meetings of intergovernmental bodies provided with adequate conference services;
- (b) An enhanced user experience, in particular with regard to the advance planning of events, including better budgeting, resulting in improved deliberations and decision-making processes of the bodies and organs serviced;
- (c) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2023

Effective consultations of bodies entitled to meeting services on an “if available” basis

2.155 In 2023, the subprogramme received a significantly higher-than-expected number of meeting requests from bodies entitled to meeting services on an “if available” basis, which required coordination with clients to tailor programmes of work so that these could be met. The surge in demand was generated by the new intergovernmental processes mandated by the United Nations Environment Assembly in 2022 aimed at establishing a legal instrument on plastic pollution and a science policy panel on chemicals and waste, and by the unforeseen hosting in Nairobi of the intersessional bodies and a resumed Conference of the Parties to the Convention on Biological Diversity.

2.156 Progress towards the objective is presented in the performance measure below (see figure 2.XX).

Figure 2.XX

Performance measure: number of meetings serviced on an “if available” basis

Planned results for 2025

Result 1: planning process for meetings and events automated and simplified to improve user experience

Programme performance in 2023 and target for 2025

- 2.157 The subprogramme's work contributed to the launch of the gMeets/One-Stop Shop interface for all clients in Nairobi and the finalization of the development and testing of the pre-meeting request planning tool, including its automated scenario planning feature, which met the planned target.
- 2.158 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.33).

Table 2.33

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Identification of areas for automation in the process prior to the submission of meeting requests	Availability of a pilot gMeets/One-Stop Shop interface for clients Pre-meeting request planning tool for clients and meetings/events planners developed and tested by users	Improved user experience through implementation of automated scenario planning tool that reduces iterations for requests from 6 to 4 Integrated One-Stop Shop interface available to all clients	Availability of further refinements and functionality improvements to One-Stop Shop and the automated scenario planning tool based on survey and analysis of user experience	Single bill for each meeting/event obtained through One-Stop Shop

Result 2: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Programme performance in 2023 and target for 2025

- 2.159 The subprogramme's work contributed to all indicators covering the entire span of conference management activities being available in new gData dashboards, with globally harmonized methodologies being applied to some indicators, which met the planned target.
- 2.160 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.34).

Table 2.34

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Availability of some indicators and reports for mandated reporting to Member States	All indicators available in new gData dashboards, with globally harmonized methodologies for some indicators	Mandated reporting of all indicators to Member States consistent with globally harmonized methodologies	Mandated reporting of all indicators to Member States based on gData reports

Result 3: global gateway for servicing conferences and meetings

Proposed programme plan for 2025

2.161 To further streamline and optimize the processes for meeting requests and to consolidate the entry points for clients at all duty stations, the subprogramme will contribute to the implementation of a global gateway, in line with paragraph 2.41 above.

Lessons learned and planned change

2.162 In line with the lesson learned described in paragraph 2.42 above and the need for efficient cost consolidation of all Nairobi-based meeting services, the subprogramme will refine its local cost estimation tool and work to link it to the global gateway, in line with paragraph 2.157 above.

2.163 Expected progress towards the objective is presented in the performance measure below (see table 2.35).

Table 2.35

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	A subset of clients can request meeting services in Nairobi through One-Stop Shop	All clients can request meeting services in Nairobi through One-Stop Shop	All clients can obtain cost estimates for meeting services in Nairobi through local applications	All clients at all duty stations can request meeting services, obtain cost estimates and receive a single bill through One-Stop Shop

Deliverables

2.164 Table 2.36 lists all deliverables of the subprogramme.

Table 2.36

Nairobi, subprogramme 2: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	3 275	5 295	5 000	5 500
1. Meetings of the United Nations Environment Assembly and subsidiary bodies	75	84	250	200
2. Meetings of the UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	50	255	150	235
3. Meetings of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	20	73	50	70
4. Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	50	218	100	80
5. Meetings on the Basel Conventions on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal, the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade and Stockholm Convention on Persistent Organic Pollutants.	105	264	120	130
6. African Ministerial Conference on the Environment	10	48	–	10
7. Conference of the Parties to the Minamata Convention on Mercury	20	69	–	50

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
8. Conference of the Parties to the Convention on Biological Diversity	10	232	50	50
9. Meetings of regional and other groupings of Member States	200	885	450	600
10. Meetings of other intergovernmental or expert bodies and on programme delivery facilitation	2 735	3 167	3 830	4 075

C. Substantive deliverables

Consultation, advice and advocacy: informational services and advice to the Bureau of the UN-Habitat Executive Board, the Committee of Permanent Representatives to UNEP and the United Nations Environment Assembly; and orientation sessions for new members of the Committee of Permanent Representatives to UNEP and of the Committee of Permanent Representatives to UN-Habitat.

**Subprogramme 3
Documentation services**

Objective

- 2.165 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.166 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities indicated in paragraph 2.46 above:
- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide input to UNTERM and maintain its repository of Nairobi-specific reference material for in-house and external language professionals;
 - (b) Pursue dialogue with substantive secretariats and Member States to respond to their needs, requirements and priorities, and rigorously plan and coordinate documentation workflows and capacity;
 - (c) Provide report-writing services for substantive secretariats of various multilateral environmental agreements.
- 2.167 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents for the United Nations.

Programme performance in 2023

Parliamentary documents held in Nairobi since the 1970s digitized to enrich intergovernmental debate and retain historical knowledge and information

- 2.168 The Division of Conference Services in Nairobi holds a wealth of archival material of resolutions and reports of multilateral processes involved in the protection of the environment. These include documents of: the United Nations Conference on the Human Environment held in 1972, which led

to the establishment of UNEP; the UNEP Governing Council since its inception in 1973; and the Governing Council of the United Nations Human Settlements Programme dating back to 1978. In line with paragraph 79 of General Assembly resolution 77/255, in September 2023 the subprogramme began to digitize that archival material for publishing on the Official Document System. The digitization work is expected to be completed by mid-2024.

2.169 Progress towards the objective is presented in the performance measure below (see table 2.37).

Table 2.37
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	–	More than 400 documents available in digital format on the Official Document System to retain historical knowledge and information

Planned results for 2025

Result 1: new mastheads for templates available to secretariats of meeting bodies on an online platform

Programme performance in 2023 and target for 2025

2.170 The subprogramme’s work contributed to the preparation of 815 mastheads, all of them integrated into an online platform, which exceeded the planned target of 707 completed mastheads and 212 mastheads integrated into an online platform.

2.171 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.XXI).

Figure 2.XXI
Performance measure: number of mastheads available on online platform

Result 2: innovation in action: leveraging machine-readable documents

Programme performance in 2023 and target for 2025

2.172 The subprogramme’s work contributed to United Nations Environment Assembly resolutions being automatically generated in machine-readable format, on a pilot basis, in line with the Akoma Ntoso standard, which met the planned target.

2.173 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.38).

**Table 2.38
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated through a feasibility assessment consisting of converting United Nations Environment Assembly resolutions into a machine-readable format	United Nations Environment Assembly resolutions automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	Availability of United Nations Environment Assembly resolutions generated in machine-readable format in line with the Akoma Ntoso standard, with visualizations	Availability of further refinements, including through master data, to facilitate information retrieval by Member States

Result 3: high-quality multilingual documentation through a translation quality management framework

Proposed programme plan for 2025

2.174 The subprogramme, in coordination with the other duty stations, will continue to implement a translation quality management framework, as described in paragraph 2.54 above.

Lessons learned and planned change

2.175 In line with the lesson learned described in paragraph 2.55 above, the subprogramme will ensure the application of the quality assurance processes included in the framework to consistently provide high-quality documents to Member States.

2.176 Expected progress towards the objective is presented in the performance measure below (see table 2.39).

**Table 2.39
Performance measure**

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	–	Member States provide feedback on their satisfaction with the linguistic quality of translated documents through the annual survey on conference services Responses received in 2023 responses indicate satisfaction with translation quality	Member States provide feedback through new mechanism(s) aligned with the new translation quality framework, indicating that translation quality meets their needs and expectations	Member States indicate that translation quality meets their needs and expectations to the same extent as in 2024

Deliverables

2.177 Table 2.40 lists all deliverables of the subprogramme.

Table 2.40

Nairobi, subprogramme 3: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	9 400	10 847	9 000	9 250
Editing, translation and desktop publishing of documents for:				
1. The United Nations Environment Assembly and subsidiary bodies	500	34	600	100
2. The UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	1 500	1 255	800	1 250
3. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	700	689	800	800
4. The Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	1 200	1 632	900	900
5. The Conference of the Parties to the Basel, Rotterdam and Stockholm Conventions on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal, on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade, and on Persistent Organic Pollutants	1 500	3 120	1 800	1 800
6. The African Ministerial Conference on the Environment	100	75	50	100
7. The Conference of the Parties to the Minamata Convention on Mercury	1 000	936	–	1 000
8. The intergovernmental negotiating committee on plastic pollution to develop an international legally binding instrument on plastic pollution, including in the marine environment	600	288	600	–
9. The ad hoc open-ended working group on a science-policy panel to contribute further to the sound management of chemicals and waste and to prevent pollution	800	140	600	–
10. Other intergovernmental bodies	1 500	2 678	2 850	3 300
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM, comprising some 685,000 records.				

Subprogramme 4 Meetings and publishing services

Objective

2.178 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

2.179 To contribute to the objective, the subprogramme will, in coordination with the other duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.59 above, provide meeting and publishing services to the main intergovernmental bodies headquartered in Nairobi and to other non-calendar-intergovernmental bodies or secretariats requesting interpretation and publishing services.

2.180 The above-mentioned work is expected to result in:

- (a) Servicing capacity aligned with expected increases in meeting demand;

- (b) Enhanced accessibility and continued sustainability of publishing services and of conference support services for meetings participants.

Programme performance in 2023

All requests for interpretation of non-calendar meetings of technical and expert bodies met, notwithstanding in-house capacity being exceeded

- 2.181 In 2023, the subprogramme received competing requests to provide interpretation services for non-calendar technical and expert meetings of bodies that exceeded in-house capacity. The subprogramme, in consultation with the requesting secretariats, provided interpretation to those bodies on a fully reimbursable basis by deploying a larger number, compared with previous years, of teams comprising only of freelance interpreters (44, compared with 35 in 2022 and 1 in 2021). Quality control was performed by the Chief Interpreter through spot-checks of sound recordings and consultations with requesting secretariats.
- 2.182 Progress towards the objective is presented in the performance measure below (see figure 2.XXII).

Figure 2.XXII
Performance measure: percentage of requests met for interpretation at non-calendar meetings of technical and expert bodies

Planned results for 2025

Result 1: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities that are technically accessible to all

Programme performance in 2023 and target for 2025

- 2.183 The subprogramme’s work contributed to the training of 14 new freelance interpreters in the use of remote simultaneous interpretation platforms for business continuity purposes, which did not meet the planned target of 80 freelance interpreters trained. The target was not met because, other than those 14 interpreters, all the freelance interpreters who have worked for the United Nations Office at Nairobi and are on the global language register had been trained in previous years.
- 2.184 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 2.XXIII).

Figure 2.XXIII

Performance measure: number of freelance interpreters trained in the use of remote simultaneous interpretation platforms for contingencies and business continuity purposes (annual)

Result 2: enhanced accessibility and usability of publications through the use of defined best practices and fit-for-purpose digital technologies

Programme performance in 2023 and target for 2025

- 2.185 The subprogramme's work contributed, through the application of accessibility guidelines, to a small subset of publications being updated to enhance their discoverability and accessibility, which met the planned target.
- 2.186 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 2.41).

Table 2.41

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	A small subset of publications updated that apply the guidelines to enhance their discoverability and usability	Improved discoverability and usability of publications in all official languages	Improved digital publications and metadata with higher levels of accessibility and discoverability

Result 3: increased interpretation services available to meet the growing demand of Member States for meetings with interpretation

Proposed programme plan for 2025

- 2.187 To accommodate a rapid return to normal schedules of conferences and meetings serviced by the subprogramme, notwithstanding a shortage of freelance interpreters in the labour market, the subprogramme, in collaboration with the other duty stations, has intensified its recruitment efforts in line with paragraph 2.67 above.

Lessons learned and planned change

2.188 In line with the lesson learned described in paragraph 2.68 above, the subprogramme will continue its recruitment and training efforts and, in parallel, will refine gMeets data flows and the interpretation assignment application, eAPG, to support capacity-planning and the global management of freelancers.

2.189 Expected progress towards the objective is presented in the performance measure below (see figure 2.XXIV).

Figure 2.XXIV

Performance measure: global number of meetings held with interpretation

Deliverables

2.190 Table 2.42 lists all deliverables of the subprogramme.

Table 2.42

Nairobi, subprogramme 4: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>

E. Enabling deliverables

Publishing services: Design and layout of publications, multimedia projects such as motion-graphic videos, outreach and visibility materials, formatted for both hard copy and digital distribution provided to more than 40 client entities in Nairobi.

B. Proposed post and non-post resource requirements for 2025

Overview

2.191 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 2.43 to 2.45.

Table 2.43

Overall: evolution of financial resources by object of expenditure

(Thousands of United States dollars)

2.192 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 2.46 to 2.48 and figure 2.XXV.

2.193 As shown in tables 2.46 (1) and 2.47 (1), the overall resources proposed for 2025 amount to \$370,661,600 before recosting, reflecting a decrease of \$1,095,100 (or 0.3 per cent) compared with the approved budget for 2024. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Overall resource changes

Technical adjustments

2.194 As shown in table 2.46 (1), resource changes reflect a decrease of \$6,304,100 as follows:

- New York, subprogramme 2, Planning and coordination of conference services.** The decrease of \$3,925,100 under other staff costs relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly;
- New York, subprogramme 4, Meetings and publishing services.** The decrease of \$216,800 under other staff costs relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly;
- New York, programme support.** The decrease of \$5,100 under contractual services relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly;
- Geneva, subprogramme 2, Planning and coordination of conference services.** The net decrease of \$884,600 under other staff costs relates to the removal in 2025 of non-recurrent provisions associated with the resolutions in support of mandates from the General Assembly, including resolutions and decisions adopted by the Human Rights Council (\$1,921,000), offset in part by adjustments relating to the consolidation of resources to implement mandates of the Council pursuant to paragraph 7 of resolution [78/252](#), in which the Assembly endorsed the recommendations of the Advisory Committee on Administrative and Budgetary Questions contained in its report ([A/78/7](#)) (\$1,036,400);
- Vienna, conference management.** The decrease of \$541,000 under grants and contributions relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly;
- Nairobi, subprogramme 2, Planning and coordination of conference services.** The decrease of \$731,500 under other staff costs relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly.

New and expanded mandates

2.195 As shown in table 2.46 (1), resource changes reflect an increase of \$5,255,200, as follows:

- (a) **New York, subprogramme 1, General Assembly and Economic and Social Council affairs.** The increase of \$68,100 under other staff costs relates to additional requirements for the development of an online searchable repository in support of the revitalization of the work of the General Assembly (resolution [77/335](#));
- (b) **New York, subprogramme 3, Documentation services.** The increase of \$1,870,800 under other staff costs relates to additional documentation requirements in support of mandates from the General Assembly on:
 - (i) Political declaration of the General Assembly high-level meeting on pandemic prevention, preparedness and response (\$24,500; resolution [78/3](#));
 - (ii) Mental health and psychosocial support (\$24,500; resolution [77/300](#));
 - (iii) Through-life conventional ammunition management (\$148,600; resolution [78/47](#));
 - (iv) Youth, disarmament and non-proliferation (\$30,800; resolution [78/31](#));
 - (v) Reducing space threats through norms, rules and principles of responsible behaviours (\$338,000; resolution [78/20](#));
 - (vi) Achieving gender equality and empowering all women and girls for realizing all Sustainable Development Goals (\$43,200; resolution [78/150](#));
 - (vii) Strengthening cooperation for integrated coastal zone management for achieving sustainable development (\$24,500; resolution [78/159](#));
 - (viii) Inclusive policies and programmes to address homelessness, including in the aftermath of the coronavirus disease (COVID-19) (\$24,500; resolution [78/172](#));
 - (ix) Policies and programmes involving youth (\$11,000; resolution [76/137](#));
 - (x) Responsibility of States for intentionally wrongful acts (\$46,100; resolution [77/97](#));
 - (xi) Oceans and the law of the sea (\$804,900; resolution [75/239](#));
 - (xii) Transparency in armaments (\$201,200; resolution [77/69](#));
 - (xiii) Further modalities of the fourth International Conference on Financing for Development (\$149,000; resolution [78/271](#));
- (c) **New York, subprogramme 4, Meetings and publishing services.** The increase of \$390,400 under other staff costs relates to additional interpretation requirements in support of mandates from the General Assembly on:
 - (i) Through-life conventional ammunition management (\$79,500; resolution [78/47](#));
 - (ii) Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly (\$11,200; resolution [78/182](#));
 - (iii) Transparency in armaments (\$172,500; resolution [77/69](#));
 - (iv) Further modalities of the fourth International Conference on Financing for Development (\$127,200; resolution [78/271](#));
- (d) **Geneva, subprogramme 2, Planning and coordination of conference services.** The increase of \$1,266,800 under other staff costs relates additional requirements pursuant to resolutions adopted by the Human Rights Council (\$482,000) and additional requirements in support of mandates from the General Assembly (\$784,800), as follows:

Human Rights Council resolutions before 2023 (\$169,500)

- (i) The question of the death penalty (\$46,200; resolutions [26/2](#) and [48/9](#));
- (ii) Human rights and unilateral coercive measures (\$35,100; resolution [27/21](#) and [Corr.1](#));
- (iii) Cultural rights and the protection of cultural heritage (\$27,100; resolution [49/7](#));
- (iv) Prevention of genocide (\$27,100; resolution [49/9](#));
- (v) From rhetoric to reality: a global call for concrete action against racism, racial discrimination, xenophobia and related intolerance (\$34,000; resolution [51/32](#));

Human Rights Council resolutions from the fifty-second to fifty-fourth regular sessions (\$312,500)

- (i) Question of the realization in all countries of economic, social and cultural rights (\$12,500; resolution [52/11](#));
- (ii) Promotion and protection of human rights and the implementation of the 2030 Agenda for Sustainable Development (\$23,400; resolution [52/14](#));
- (iii) Cooperation with regional human rights organizations (\$26,800; resolution [52/15](#));
- (iv) Birth registration and the right of everyone to recognition everywhere as a person before the law (\$23,400; resolution [52/25](#));
- (v) Child, early and forced marriage: ending and preventing forced marriage (\$10,000; resolution [53/23](#));
- (vi) Accelerating efforts to eliminate all forms of violence against women and girls: preventing and responding to all forms of violence against women and girls in criminal justice detention (\$23,400; resolution [53/27](#));
- (vii) Ensuring quality education for peace and tolerance for every child (\$30,400; resolution [54/5](#));
- (viii) Preventable maternal mortality and morbidity and human rights (\$36,800; resolution [54/16](#));
- (ix) Contribution of the implementation of the objectives of the International Year of the Family and its follow-up processes in the promotion and protection of human rights (\$79,000; resolution [54/17](#));
- (x) Promoting and protecting economic, social and cultural rights within the context of addressing inequalities (\$23,400; resolution [54/22](#));
- (xi) Question of the death penalty (\$23,400; resolution [54/35](#));

General Assembly resolutions (\$784,800)

- (i) Further practical measures for the prevention of an arms race in outer space (\$568,000; resolution [78/238](#));
- (ii) Reducing space threats through norms, rules and principles of responsible behaviours (\$216,800; resolution [78/20](#));
- (e) **Vienna, conference management.** The increase of \$951,100 under grants and contributions relates to additional requirements in support of the follow-up to the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice and preparations for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice (resolution [78/223](#));
- (f) **Nairobi, subprogramme 2, Planning and coordination of conference services.** The increase of \$708,000 under other staff costs relates to additional requirements in support of the seventh session of the United Nations Environment Assembly, in 2025, pursuant to General Assembly resolution [73/260](#) and Environment Assembly draft decision 6/L.3.

Other changes

2.196 As shown in table 2.46 (1), resource changes reflect a net decrease of \$46,200, as follows:

- (a) **Policymaking organs.** A net decrease of \$26,800 comprises a decrease of \$28,800 under contractual services, offset in part by an increase of \$2,000 under furniture and equipment, and reflects a more optimal distribution of conference service requirements by redeploying resources to programme support, as explained in paragraph 2.196 (i);
- (b) **Executive direction and management.** A net decrease of \$48,100 comprises decreases of \$52,000 under other staff costs, \$3,900 under contractual services and \$18,000 under general operating expenses, offset in part by increases of \$13,400 under travel of staff, \$5,400 under supplies and materials and \$7,000 under furniture and equipment in line with expenditure patterns in prior years. In addition to the realignment of resources among budget classes within this component, the proposal reflects a more optimal distribution of conference service requirements by redeploying resources to programme support, as explained in paragraph 2.196 (i);
- (c) **New York, subprogramme 2, Planning and coordination of conference services.** A net decrease of \$363,500 comprises decreases of \$180,900 under other staff costs, \$33,500 under general operating expenses, \$126,400 under supplies and material and \$29,200 under furniture and equipment, offset in part by an increase under contractual services of \$6,500, and reflects a more optimal distribution of conference service requirements by redeploying resources to programme support, as explained in paragraph 2.196 (i);
- (d) **New York, subprogramme 3, Documentation services.** The proposed cost-neutral realignment of resources comprises a decrease of \$182,000 under posts reflecting the abolishment of two General Service (Other level) posts (Language Reference Assistant and Administrative Assistant), offset by a corresponding increase of \$182,000 under other staff costs, as explained in annex II to the present report; a decrease of \$1,823,100 under contractual services, offset by a corresponding increase of \$1,823,100 under other staff costs as an internal realignment of resources between the temporary assistance for meeting language capacity and contractual capacity based on expenditure patterns in prior budget periods; and increases of \$800 under supplies and materials and \$1,600 under improvement of premises relating to the Albano building, offset by a further decrease of \$2,400 under other staff costs;
- (e) **New York, subprogramme 4, Meetings and publishing services.** A decrease of \$153,100 under posts reflects the proposed outward reassignment of one P-2 post of Associate Publishing Officer to programme support, as explained in annex II. The cost-neutral realignment of resources within the subprogramme includes decreases of \$552,500 under other staff costs and \$133,800 under general operating expenses, offset by increases of \$679,500 under contractual services, \$4,700 under supplies and materials and \$2,100 under furniture and equipment, reflecting expenditure patterns in the prior budget period;
- (f) **Geneva, subprogramme 2, Planning and coordination of conference services.** A net increase of \$225,600 comprises an increase of \$271,800 under contractual services, offset in part by a decrease of \$46,200 under other staff costs relating to the redeployment of resources to Administration, Geneva (section 29E) for the provision of technical support to meetings and conferences requiring accessibility services. The increase under contractual services, which offsets the proposed decreases under posts under subprogrammes 3 and 4 in Geneva, would enhance flexibility and supplement core staff capacity during peaks in the meetings and conferences calendar;
- (g) **Geneva, subprogramme 3, Documentation services.** A decrease of \$135,900 under posts reflects the abolishment of one post of Editorial and Desktop Publishing Assistant (General Service (Other level)), as explained in annex II;
- (h) **Geneva, subprogramme 4, Meetings and publishing services.** A decrease of \$135,900 under posts reflects the abolishment of one post of Documents Management Assistant (General Service (Other level)), as explained in annex II;
- (i) **New York, Programme support.** A net increase of \$591,500 comprises an increase of \$153,100 under posts resulting from the inward reassignment of a P-2 post as Associate

Information Systems Officer from subprogramme 4 in New York, as outlined in annex II, as well as increases of \$68,600 under other staff costs and \$438,500 under contractual services, offset in part by decreases of \$28,400 under general operating expenses, \$35,700 under supplies and materials and \$4,600 under furniture and equipment. The net increase under programme support reflects the cost-neutral redeployment of resources from policymaking organs, executive direction and management and subprogrammes 2 and 4 in New York, as noted above, and reflects a more optimal distribution of conference service requirements by redeploying resources to the Global Innovation and Data Analytics Service under programme support to facilitate the continuous effort by the Service to design, develop, deploy and maintain innovative information technology solutions for delegates in New York, provide timely client-oriented and critical responses to the needs of Member States and maintain up-to-date information and communications technology platforms.

Extrabudgetary resources

- 2.197 As reflected in tables 2.46 (2) and 2.47 (2), extrabudgetary resources amount to \$27,304,400, including provisions for 78 posts, and reflect no change compared with the estimate for 2024. The extrabudgetary resources complement the regular budget resources and would be used mainly to provide documentation processing and meeting services in relation to the non-calendar meetings on a cost-recovery basis in four locations. The extrabudgetary resources also support technological solutions support planning, the management and delivery of conference services, and the digitization project implemented in partnership with the Department of Global Communications. The extrabudgetary resources under the present section are subject to the oversight of the Department for General Assembly and Conference Management, in accordance with the delegation of authority by the Secretary-General.
- 2.198 Extrabudgetary resources include the trust fund for German language translation, established in 1974 to provide resources to issue in German the resolutions and decisions of the General Assembly, as well as the other supplements to its official records, and the resolutions and decisions of the Security Council and the Economic and Social Council. The requirements funded from the trust fund include provisions for 10 posts and related operating expenses.
- 2.199 The extrabudgetary resources in the four duty stations supplement training funds to ensure service delivery of the highest quality and to support the implementation of the United Nations Secretariat Learning Strategy for the period 2021–2025 by the Department in all four duty stations.

Policymaking organs

- 2.200 The resources proposed under this component would provide for the policymaking organs as shown in table 2.49. With regard to the Economic and Social Council, resources for technical secretariat support and conference services for meetings are provided for under conference management, New York.

Table 2.49

Policymaking organs

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Additional information</i>	<i>2024 approved</i>	<i>2025 estimate (before recosting)</i>

Executive direction and management

- 2.202 The executive direction and management component comprises the Office of the Under-Secretary-General and the Protocol and Liaison Service. The Under-Secretary-General for General Assembly and Conference Management is responsible for all the activities of the Department, as well as its administration, and represents the Secretary-General in meetings relating to the functions of the Department and in intergovernmental organs and expert bodies, as required. The Under-Secretary-General is also responsible for guiding integrated global conference management involving Headquarters and the United Nations Offices at Geneva, Vienna and Nairobi, which includes managing the conference-servicing resources at Headquarters and providing policy guidance with regard to the utilization of the conference-servicing resources, the authority for which has been subdelegated to the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, with a view to achieving the highest possible level of cohesion, synergy and efficiency. The Under-Secretary-General also chairs the International Annual Meeting on Language Arrangements, Documentation and Publications.
- 2.203 The Protocol and Liaison Service provides protocol support to the Secretary-General, the Deputy Secretary-General and, upon request, the President of the General Assembly. It also supports the

protocol requirements of high-level dignitaries participating in United Nations meetings and conferences, whether at United Nations Headquarters or at conferences away from Headquarters. The Service ensures the timely registration of both mission personnel and conference participants, liaises with the host country and permanent missions and observer offices and provides protocol guidance on the United Nations system.

- 2.204 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. In 2019, the Department maintained International Organization for Standardization (ISO) 14001 certification for its publishing operations in Geneva, Nairobi and Vienna. The Department continued the ISO certification process at Headquarters in 2023 and finalized the first part of the procurement process. Owing to the liquidity constraints in the second half of 2023, the Department paused the process for the remainder of the year.
- 2.205 Information on the timely submission of documentation and advance booking for air travel is reflected in table 2.51. The Department will continue to implement measures to improve the compliance rate through the advance purchasing of air tickets, the advance planning and nomination of travellers, advance planning for the onboarding of staff with contingencies in place and communicating with staff and managers to raise awareness of the requirement.

Table 2.51
Compliance rate

- 2.206 The proposed regular budget resources for 2025 amount to \$4,112,900 and reflect a decrease of \$48,100 compared with the approved budget for 2024. The proposed change is explained in paragraph 2.196 (b). Additional details on the distribution of the proposed resources for 2025 are reflected in table 2.52 and figure 2.XXVII.

Conference management, Vienna

- 2.214 The General Assembly, in its resolution [49/237](#), requested the Secretary-General to establish a unified conference-servicing facility at the Vienna International Centre under the management of the United Nations. Accordingly, the Conference Management Service in Vienna provides services not only to the United Nations Office at Vienna and the United Nations Office on Drugs and Crime, but also to the International Atomic Energy Agency, the United Nations Industrial Development Organization and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization.
- 2.215 For 2025, the servicing of the above-mentioned non-Secretariat client organizations is estimated to account for approximately 36 per cent of the interpretation workload, 24 per cent of the meeting-servicing workload and 10 per cent of the documentation-servicing workload, including translation, editing and desktop publishing.

United Nations share (net budget)

- 2.216 The requirements of the conference services at Vienna are budgeted on a net basis, whereby the appropriation under the United Nations programme budget is made for the United Nations share of relevant activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for consideration and approval by the General Assembly. Thus, the estimates that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.60.

Table 2.60

Vienna, programme of work: evolution of requirements on a gross and net basis

(Thousands of United States dollars)

	2023	2024	2025 estimate (before recosting)
Conference services, Vienna (gross budget)	30 855.9	33 287.5	33 697.6
Reimbursement by IAEA, UNIDO and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization	5 115.4	5 659.0	5 659.0
United Nations (net budget)	25 740.5	27 628.5	28 038.6

Abbreviations: IAEA, International Atomic Energy Agency; UNIDO, United Nations Industrial Development Organization.

2.217 As shown in table 2.60, the regular budget resource requirements for 2025 are estimated at \$28,038,600, which represents 83.2 per cent of the gross requirements.

Conference services, Vienna (gross budget)

Overall resource changes, Vienna (gross budget)

Technical adjustments

2.218 As shown in table 2.61, resource changes reflect a decrease of \$541,000, as follows:

- (a) **Vienna, subprogramme 3, Documentation services.** The decrease of \$541,000 under other staff costs relates to the removal in 2025 of non-recurrent provisions in support of new and expanded mandates from the General Assembly.

New and expanded mandates

2.219 As reflected in table 2.61, resource changes reflect an increase of \$951,100 under subprogrammes 2, 3 and 4, as follows:

- (a) **Vienna, subprogramme 2, Planning and coordination of conference services.** The increase of \$82,000 under other staff costs relates to additional requirements for the planning and coordination of conference services in support of the follow-up to the Fourteenth United Nations Congress on Crime Prevention and Criminal Justice and preparations for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice (resolution [78/223](#));

- (b) **Vienna, subprogramme 3, Documentation services.** The increase of \$627,600 under other staff costs relates to additional requirements for documentation services relating to resolution 78/223;
- (c) **Vienna, subprogramme 4, Meetings and publishing services.** The increase of \$241,500 under other staff costs relates to additional requirements for interpretation services relating to resolution 78/223.

Other changes

2.220 As reflected in table 2.61, proposed cost-neutral changes under subprogrammes 2 and 4 are as follows:

- (a) **Vienna, subprogramme 2, Planning and coordination of conference services.** The increase of \$102,500 relates to the proposed inward redeployment of one post of Meeting Services Assistant (General Service (Other level)) from subprogramme 3, as explained in annex II;
- (b) **Vienna, subprogramme 4, Meetings and publishing services.** The decrease of \$102,500 relates to the proposed outward redeployment of one post of Language Service Assistant (General Service (Other level)) to subprogramme 3, as explained in annex II.

**Subprogramme 2
Planning and coordination of conference services**

2.221 The proposed regular budget resources for 2025 amount to \$6,419,600 and reflect an increase of \$184,500 compared with the approved budget for 2024. The proposed change is explained in paragraphs 2.219 (a) and 2.220 (a). Additional details on the distribution of the proposed resources for 2025 are reflected in table 2.62 and figure 2.XXXV.

**Programme support**

- 2.227 The programme support component comprises the Executive Office in New York, as well as the Global Innovation and Data Analytics Service, consisting of the Chief of Service based in New York and heading a Global Technical Team in Vienna and the Business Analysis Section in New York. In 2025, the Global Innovation and Data Analytics Service will continue to provide enterprise conference management solutions to all conference management operations in the four duty stations and United Nations common system entities. The Service will deliver technological solutions and applications, enabling delivery of the integrated global conference services, including the functionalities of eAPG, gMeets and gDoc systems, which would be further enhanced and maintained by the Service on the basis of user requirements formulated by business users and substantive offices of the Department. Together, the products comprise the conference and events management suite of applications implemented in alignment with the enterprise priorities of the United Nations. Together with gText, the above applications facilitate efficient document processing and meeting services.
- 2.228 The Global Innovation and Data Analytics Service will continue to focus on rationalizing and streamlining all operational support activities and its technology portfolio and focus on data management to support decision-making and the delegation of authority framework. The Chief of Service will continue to coordinate the work of the Service with the Office of Information and Communications Technology and the Enterprise Resource Planning Solution Division to ensure integration of the conference and events management suite of applications developed in-house by the Department with the United Nations enterprise systems such as Umoja and Inspira.
- 2.229 The Chief of Service also provides guidance to the Information Technology and Business Analysis Unit and the Evaluation, Analysis and Monitoring Section based in Geneva and the Information Technology Unit in Nairobi. Both Units are responsible for maintaining, enhancing, supporting and advancing enterprise technology solutions and local information technology support that are critical to the delivery of effective and cost-efficient conference services to clients.

Part I Overall policymaking, direction and coordination

- 2.230 The Executive Office provides central administrative services and policy advice to the Department in the areas of resource planning, human resources management, financial management, contracts, trust fund management and general administration. As the functional experts in these areas, the Executive Office develops user requirements for modules in relation to administrative services and ensures that solutions developed and rolled out by the Global Innovation and Data Analytics Service comply with the policy framework of the Organization and are developed in the context of the enterprise environment. In the context of the integrated global management of conference services, the Executive Office is responsible for standardizing and harmonizing the administrative, budgetary and cost-recovery methodologies of the conference-servicing components at all four conference-servicing duty stations and for coordinating workforce and succession planning, staff development and performance management, harmonization and standardization of a notional cost, and the implementation of audit recommendations.
- 2.231 The Executive Office works closely with the Department of Management Strategy, Policy and Compliance and the Department of Operational Support to ensure that the human resources policies and guidelines take into account specifics of the language services and language staff, and ensures their equal treatment in line with relevant General Assembly resolutions. The Executive Office also provides administrative support and policy guidance to the Office of the President of the General Assembly and ensures that staff and other personnel of the Office are recruited annually before a new Assembly session begins its work.
- 2.232 The proposed regular budget resources for 2025 amount to \$19,516,500 for all duty stations and reflect a net increase of \$586,400 compared with the approved budget for 2024. The proposed change is explained in paragraph 2.194 (c) and 2.196 (i). Additional details on the distribution of the proposed resources for 2025 are reflected in table 2.68 and figure 2.XLI.

United Nations share (net budget): information technology support, Vienna

2.233 The requirements relating to information technology support for conference services in Vienna are budgeted on a net basis, whereby the appropriation under the programme budget is made for the United Nations share of those activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for the consideration and approval of the General Assembly. Thus, the estimates for information technology that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.69.

Table 2.69

 (Thousands of United States dollars)

	2023	2024	2025 estimate (before recosting)
Conference services, Vienna (gross budget)	1 083.7	1 460.5	1 460.5
Reimbursement by IAEA, UNIDO and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization	110.3	289.4	289.4
United Nations (net budget)	973.4	1 171.1	1 171.1

Abbreviations: IAEA, International Atomic Energy Agency; UNIDO, United Nations Industrial Development Organization.

2.234 As shown in table 2.69, the regular budget resource requirements for 2025 are estimated at \$1,171,100, which represents 80.2 per cent of the gross requirements.

Resource requirements (gross budget): information technology support, Vienna

2.235 The proposed resources on a gross basis for 2025 amounts to \$1,460,500 and reflect no change compared with the approve level for 2024. Additional details on the distribution of resources for 2025 are reflected in table 2.70 and figure 2.XLII.

Annex II

Summary of proposed post changes, by component and subprogramme

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
New York: subprogramme 3, Documentation services	(2)	GS (OL)	Abolishment of 1 Language Reference Assistant and 1 Administrative Assistant	<p>The functions of the two posts in the English Translation and Editorial Service have become obsolete owing to the merger of translation and editorial services as a result of the continuous modernization of the working methods in the Documentation Division, in particular the consolidation of the Text-Processing Units within relevant translation services of the Division.</p> <p>The related resources would be reallocated for temporary assistance for meetings and facilitate the recruitment of temporary language professionals and specialists on an as-needed basis during the high workload periods. The Documentation Division would continue to complement in-house core staff capacity with temporary staff on a full-time and when-actually-employed basis, as well as with contractual translation personnel. Therefore, the redeployment of resources within the subprogramme would ensure that the core staffing capacity across the language services can be complemented on an as-needed basis with temporary language capacity to maintain an equitable distribution of the language capacity to ensure the simultaneous processing of the documentation in six languages.</p>
New York: subprogramme 4, Meetings and publishing services	1	GS (PL)	Reassignment of 1 Documents Distribution Assistant as Senior Information Systems Assistant	<p>The responsibilities of the incumbent, within the Meetings Support Section, would include support for digital printing, meetings rooms and content production systems, as well as support in developing, programming, updating and maintaining systems, applications and computerized procedures for the optimum utilization of information technology by the Section. The Senior Information Systems Assistant would also be responsible for training users on the use of new technologies rolled out within the Section. In line with the United Nations Secretariat Learning Strategy, the incumbent would support the Chief in the planning and implementation of training activities aimed at skills upgrade and knowledge acquisition, as prioritized by the Department in line with the workforce strategy, to ensure effective operations and the successful delivery of mandates for meetings and publishing services.</p>
New York: subprogramme 4, Meetings and publishing services	(1)	P-2/1	Reassignment of Associate Publishing Officer as Associate Information Systems Officer	<p>In support of further centralization of the information technology resources of the Department, it is proposed that a P-2 post be reassigned as Associate Information Systems Officer to the Global Innovation and Data Analytics Service. Given that the Service is responsible for planning, management and oversight of conference-related applications, services and tools, the incumbent would contribute to achieving the coherent organizational design of the Department and streamlining the functions assumed by the Service with its establishment in 2023. The Associate Information Systems Officer would work closely with the Global Technical Team and the Business Analysis Section and serve as an interlocutor for substantive project leads for the global technology projects and support the Chief of Service in the capacity of a secretary of the Department's Programme and Project Review Board.</p>

Part I Overall policymaking, direction and coordination

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
New York: Programme support	1	P-2/1		To support the Chief of Service in the delivery of the Department's mandate through continuous modernization and innovation, it is envisioned that the Associate Information Systems Officer would also conduct research on emerging technologies and best practices, contribute to pilot programmes and coordinate user testing of new tools and processes. The incumbent would support the Chief in training activities and change management support during the roll-out of new system modules and functionalities. The incumbent would also support the Chief in establishing the client relations management framework across the Department as a service provider of conference services by gathering feedback from clients, identifying areas for improvement, and enhancing user experiences through an effective help desk.
Geneva: subprogramme 3, Documentation services	(1)	GS (OL)	Abolishment of Editorial and Desktop Publishing Assistant	The proposed abolishment is in line with the continued enhancement of language technologies and improvements in working methods. The related resources would be reallocated to contractual services to allow for flexibility and to supplement the core staff capacity during peaks in the meetings and conferences calendar.
Geneva: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Abolishment of Documents Management Assistant	The proposed abolishment is in line with the decreased demand for the physical distribution of parliamentary documentation. The related resources would be reallocated to contractual services to allow for flexibility and to supplement the core staff capacity during peaks in the meetings and conferences calendar.
Geneva: subprogramme 4, Meetings and publishing services	1	P-5	Reassignment of Senior Programme Management Officer as Chief of Section, Conference Services	The proposed reassignment is in line with the restructuring of the Production and Support Service and alignment of similar functions across the Department's duty stations. The Chief of Section/Service would oversee and manage the work of the Service to: (a) embrace new and enhance the utilization of existing technologies in conference management; (b) harness innovation in publishing; and (c) continue to implement the accessibility standards in publishing.
Vienna: subprogramme 3, Documentation services	(1)	GS (OL)	Redeployment of Editorial and Desktop Publishing Assistant as Meetings Services Assistant	The proposed post change is the outcome of a gradual and persistent increase in the number of meetings and the scope of the activities delivered. The redeployment serves to strengthen the capacity of meetings services and to align capacity of language sections to ensure equal treatment of the six languages.
Vienna: subprogramme 2, Planning and coordination of conference services	1	GS (OL)		
Vienna: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Redeployment of Desktop Publishing Assistant as Language Service Assistant	The proposed post change addresses the need for administrative support for the stand-alone English Translation and Editorial Service, to ensure that equal support is provided for all language sections and to further support the organizational change that was approved for 2024.
Vienna: subprogramme 3, Documentation services	1	GS (OL)		

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level).

I. Department of Political and Peacebuilding Affairs

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 3.1 The Department of Political and Peacebuilding Affairs is responsible for all Secretariat matters related to the prevention, management and resolution of conflicts at the global level. The Department is the lead entity of the United Nations for good offices, political analysis, mediation, electoral assistance, peacebuilding support and political guidance as they relate to the Organization's efforts towards, inter alia, preventive diplomacy, peacemaking, peacebuilding and sustaining peace. The Department oversees the work of missions under its responsibility, including special envoys and regional offices. It also provides support to peacekeeping operations in the areas of mediation, electoral assistance and peacebuilding, as well as to resident coordinators. It provides substantive support and secretariat services to the Security Council and its subsidiary bodies, as well as to relevant subsidiary organs of the General Assembly, including the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Committee on the Exercise of the Inalienable Rights of the Palestinian People. The Department also provides strategic, substantive and technical support to the work of the Peacebuilding Commission, manages the Peacebuilding Fund on behalf of the Secretary-General and draws together the expertise of the United Nations system to facilitate coherent system-wide action in support of peacebuilding and sustaining peace and to build on linkages to the 2030 Agenda for Sustainable Development.
- 3.2 The mandate of the Department derives from the Charter of the United Nations and the priorities established in relevant General Assembly resolutions and decisions, including resolution [46/232](#), in which the Assembly established the Department of Political Affairs, and, more recently, resolution [72/262 C](#), in which the Assembly established the Department of Political and Peacebuilding Affairs. The proliferation of the number and intensity of conflicts over the past few years and their immense human and material cost confirms the importance of conflict prevention and resolution through inclusive political solutions, peacebuilding and sustaining peace.

Strategy and external factors for 2025

- 3.3 The Department has global responsibility for political and peacebuilding issues and manages a spectrum of tools and engagements across the conflict continuum to ensure a coherent and effective approach to conflict prevention and resolution, electoral assistance, peacebuilding and sustaining peace. Given its global mandate for conflict prevention and peacemaking, the Department will play a lead role within the United Nations in formulating and implementing comprehensive regional strategies that address cross-boundary issues, in cooperation with regional and subregional organizations.
- 3.4 In order to achieve these goals, the Department will rely on its expertise at Headquarters and its network of field presences, in particular, special political missions, regional offices and liaison presences with regional and other organizations, and the capacities of the United Nations peace and security pillar, which has been restructured since 2019.
- 3.5 The Department will continue to provide advice and substantive services to the Security Council, its subsidiary organs and the Military Staff Committee; assist and support the Peacebuilding Commission; provide advice and substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial

Countries and Peoples, as well as to other relevant intergovernmental bodies; and continue to provide support to the Committee on the Exercise of the Inalienable Rights of the Palestinian People.

- 3.6 With regard to cooperation with other entities at the global, regional, national and local levels, under Chapter VIII of the Charter, the Department, through its special political missions and its liaison offices, will continue to strengthen partnerships with regional and other organizations in the field of peace and security. The Department is also expanding its partnerships with other relevant actors, including civil society and local communities, in particular in support of women and young people.
- 3.7 With regard to inter-agency coordination and liaison, the Department will continue to participate in the Executive Committee established by the Secretary-General and chair a number of inter-agency task forces to coordinate and increase the coherence of United Nations system engagement in specific countries or regions, in accordance with entities' mandates, as well as various thematic inter-agency mechanisms. The Peacebuilding Fund, by nature a cross-pillar tool of financial support, will continue to work with and through agencies, funds and programmes in-country and at Headquarters. Under the United Nations-World Bank Partnership Framework for Crisis-Affected Situations, the Department will continue to work to strengthen partnerships with the World Bank and other international financial institutions to make international engagement in crisis-affected situations more coherent, effective and sustainable. The Department will maintain the Partnership Facility to support field teams' joint data, analysis and operational collaboration with the World Bank Group.
- 3.8 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) Unity among Member States, in particular the Security Council, including in critical situations in which the United Nations is engaged;
 - (b) Existence of entry points for United Nations engagement to mitigate tensions and prevent conflict;
 - (c) Commitment of the parties to a conflict to engaging in a process towards the peaceful settlement of disputes.
- 3.9 The Department integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In 2023, the Department updated its 2019 policy on women and peace and security to include a set of indicators measuring progress towards its objectives and new focus areas, such as the impact of climate change and new technologies. The policy builds on good practices across the Department and special political missions and is intended to ensure that priorities are integrated into the daily work of the Department and special political missions. These priorities, in line with the mandates entrusted to the Organization in the area of women and peace and security, encompass gender-sensitive analysis, promoting the inclusion of women in peacemaking, peace-sustaining and peacebuilding efforts, and their participation in electoral and political processes. The policy also addresses such issues as preventing and assessing conflict-related sexual violence and post-conflict planning and financing. In addition, the Department supports the efforts of the Peacebuilding Commission to mainstream a gender perspective in all aspects of its work, including through the implementation of the Commission's gender strategy and by keeping track of progress through the submission of annual reports. The strategy of the Peacebuilding Fund also prioritizes women's engagement.
- 3.10 In line with the United Nations Disability Inclusion Strategy, the Department will implement a joint Department of Political and Peacebuilding Affairs-Department of Peace Operations action plan for disability inclusion with a view to reinforcing an organizational culture that supports the inclusion of persons with disabilities and further advancing disability inclusion in strategic planning and management, knowledge and information management. The Department will also foster engagement with government counterparts and civil society organizations to promote the inclusivity of political processes, including in addressing the needs of people with disabilities.

Legislative mandates

- 3.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

Charter of the United Nations

Articles 33 and 99

General Assembly resolutions

46/232	Revitalization of the United Nations Secretariat	69/9 ; 73/267 ;	Cooperation between the United Nations and the League of Arab States

Deliverables

3.12 Table 3.1 lists all cross-cutting deliverables of the programme.

Table 3.1
Cross-cutting deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
Meetings of the:				
1. Fifth Committee	1	1	1	1
2. Committee for Programme and Coordination	1	1	1	1
3. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with 24 regional and subregional organizations; and support for special political missions, including provision of mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States, regional and subregional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases and data sets on international peace and security issues, including manuals and guides on issues related to international peace and security.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exhibits and other communications products about the work of the Department.				
External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products on issues related to international peace and security.				

Evaluation activities

- 3.13 The following evaluations completed in 2023 have guided the proposed programme plan for 2025:
- (a) Office of Internal Oversight Services (OIOS) thematic evaluation on the youth, peace and security agenda: youth participation ([E/AC.51/2023/7](#));
 - (b) Evaluation of the training portfolio of the Department of Political and Peacebuilding Affairs;
 - (c) Peacebuilding Fund evaluation of projects under \$1.5 million;
 - (d) Peacebuilding Fund portfolio evaluations (Chad, El Salvador and the Gambia).
- 3.14 In response to the results of the evaluations referenced above, the Department has started to implement the recommendations and consider the lessons learned for the proposed programme plan for 2025. For example, in response to the OIOS recommendation of increasing the Peacebuilding Fund's allocation to build the capacity of civil society organizations and youth-led organizations, the Department reviewed its Youth Promotion Initiative guidelines and improved the monitoring of the requirement that 40 per cent of requested project budgets be allocated to national and local civil society organizations as implementing partners. In response to the results of the evaluation on its training portfolio, the Department explored options to fill the gap between the current training portfolio and its core training needs, drafted a revised training strategy and integrated a gender perspective in a cross-cutting manner.
- 3.15 The following evaluations are planned for 2025:
- (a) Evaluation of the Department's liaison presences;
 - (b) Peacebuilding Fund portfolio evaluations.

Programme of work

Subprogramme 1

Prevention, management and resolution of conflicts

Objective

- 3.16 The objective, to which this subprogramme contributes, is to advance the prevention, management and resolution of conflicts by peaceful means.

Strategy

- 3.17 To contribute to the objective, the subprogramme will:
- (a) Support the pacific settlement of disputes, under Chapter VI of the Charter, through the use of the tools of preventive diplomacy, peacemaking, peacebuilding and sustaining peace;
 - (b) Work in close cooperation with a wide array of actors, in particular regional and subregional organizations, including under Chapter VIII of the Charter;
 - (c) Promote a more effective and cohesive response to help to prevent, mitigate, manage and resolve conflicts by:
 - (i) Responding in a timely manner to conflict situations;
 - (ii) Providing timely and accurate information, analysis and policy recommendations;
 - (iii) Making available and providing substantive and technical support to the good offices of the Secretary-General, including through formal mediation, where appropriate;

- (iv) Providing substantive, political and technical support to the Secretary-General in the discharge of his functions and in his relationships with Member States;
 - (v) Building the capacity of regional and subregional organizations;
 - (vi) Providing substantive support and guidance to special political missions;
 - (vii) Strengthening the Department's capacity, expertise and partnerships with other United Nations and subregional, regional and international organizations in order to address peace and security challenges more effectively;
 - (viii) Monitoring and evaluating the impact and the cost-effectiveness of key conflict prevention and mitigation initiatives;
 - (ix) Developing coherent strategies for crisis prevention and peacebuilding, linking diplomatic, security, humanitarian and development efforts by the United Nations system, including United Nations country teams, and other international and regional actors;
 - (x) Enhancing political and operational links with the wider United Nations system, in particular with United Nations country teams, on prevention and peacebuilding issues;
 - (xi) Operationalizing the women and peace and security and the youth and peace and security agendas to promote the full, equal and meaningful participation of women, as well as the constructive engagement of young people, in political and peacebuilding processes.
- 3.18 The above-mentioned work is expected to result in the improved capacity and capability of Member States to identify, prevent and address conflict situations.

Programme performance in 2023

Launch of the Secretary-General's policy brief on A New Agenda for Peace

- 3.19 The subprogramme led the development, drafting and preparation of the Secretary-General's policy brief on A New Agenda for Peace ([A/77/CRP.1/Add.8](#)), issued to the General Assembly on 3 July 2023 as an input to its deliberations in the context of the Summit of the Future. The policy brief outlined the Secretary-General's vision for multilateral action for peace and security. To inform its preparation, the subprogramme organized extensive consultations with Member States in different formats, as well as with other stakeholders, such as regional and other organizations, civil society organizations and research institutions, with a specific focus on geographical representation.
- 3.20 Progress towards the objective is presented in the performance measure below (see table 3.2).

Table 3.2

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	Member States, regional and subregional organizations, civil society organizations and research institutions provided inputs for the comprehensive consultative process for the development of the policy brief on A New Agenda for Peace	Consultations with Member States were held in different formats. The policy brief on A New Agenda for Peace was finalized and submitted to the General Assembly

Planned results for 2025

Result 1: improved responses for countering hate speech and incitement to violence

Programme performance in 2023 and target for 2025

- 3.21 The subprogramme’s work contributed to the development of regional strategies, in partnership with relevant Member States, regional and subregional actors and special political missions, for endorsement by regional organizations to address hate speech in Central Africa and the Horn of Africa, and the establishment of a monitoring platform by the High National Elections Commission of Libya to monitor hate speech against women, which met the planned target.
- 3.22 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.3).

Table 3.3
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Inter-agency exchange of knowledge and best practices on countering hate speech through the community of practice in South and South-East Asia	Strengthened capacity to counter hate speech in conflict and post-conflict situations, including in the Pacific, Horn of Africa and South Asia	Development of regional strategies to address hate speech in Central Africa and the Horn of Africa Establishment of a monitoring platform to monitor hate speech against women in support of the High National Elections Commission of Libya	Special political missions incorporate good practices and lessons learned into hate speech-related work International Day for Countering Hate Speech provides opportunities to raise awareness of hate speech dynamics in conflict and post-conflict situations	Special political missions continue to incorporate good practices and lessons learned into hate speech-related work
Strengthened hate speech monitoring through new technologies for the analysis of open-source information	Availability of guidance to all United Nations entities (for their engagement with Member States) on addressing hate speech in conflict and post-conflict situations			

Result 2: Member States have access to broadened and strengthened political analysis to inform the prevention, management and resolution of armed conflicts

Programme performance in 2023 and target for 2025

- 3.23 The subprogramme’s work contributed to comprehensive analysis on various topics, including integration of an economic lens into analysis and incorporation of a gender perspective and the views of young women and men, as relevant, in reports to the General Assembly and the Security Council, which met the planned target.
- 3.24 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.4).

Table 3.4
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Reports to the General Assembly and the Security Council included more comprehensive analysis on topics, including socioeconomic development and gender equality, as relevant	Reports to the General Assembly and the Security Council included more comprehensive analysis on topics, including socioeconomic development, gender equality and youth engagement, as relevant	Reports to the General Assembly and the Security Council include more comprehensive analysis on topics, including socioeconomic development, gender equality, youth and climate change, as relevant	Reports to the General Assembly and the Security Council include more comprehensive analysis on topics, including socioeconomic development, gender equality, youth and climate change, as relevant

Result 3: reduced threats to international peace and security

Proposed programme plan for 2025

- 3.25 As the Secretary-General indicated in his policy brief on A New Agenda for Peace, Member States are facing interlocking threats to peace and security that require collective action. Diplomatic action and peacemaking remain crucial for reducing the risks of conflict and carving out spaces for cooperation. The subprogramme has intensified its engagement with Member States to provide increased support for peacemaking efforts, including political analysis and technical support, when requested, to political processes.

Lessons learned and planned change

- 3.26 The lesson for the subprogramme was that its analysis would benefit from further incorporating the perspectives of different countries and regions. In applying the lesson, the subprogramme will further integrate such perspectives with a view to facilitating greater consensus on causes of threats and appropriate responses to them.
- 3.27 Expected progress towards the objective is presented in the performance measure below (see table 3.5).

Table 3.5
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Reopening of the coastal road and adoption of the 5+5 Joint Military Commission action plan in Libya Advances made in transitional justice processes in Colombia	United Nations-brokered nationwide truce in Yemen between April and October 2022 Progress in the implementation of the 5+5 Joint Military Commission action plan in Libya	Nationwide bilateral and temporary ceasefire took effect on 3 August 2023 in Colombia Advances made in the peace process in Mozambique, including the completion of the first two phases of the disarmament, demobilization and reintegration strategy	Member States have greater access to tools and expertise to prevent, manage and resolve conflicts	Member States have greater access to tools and expertise to prevent, manage and resolve conflicts

Deliverables

3.28 Table 3.6 lists all deliverables of the subprogramme.

Table 3.6

Subprogramme 1: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	68	68	70	68
Reports of the Secretary-General:				
1. On cooperation between the United Nations and regional and other organizations for the General Assembly	–	–	1	–
2. On matters related to peace and security for the General Assembly	16	16	16	16
3. Pursuant to Security Council resolution 2240 (2015) for the General Assembly	–	1	1	1
4. On matters related to peace and security for the Security Council	50	50	50	50
5. On regional confidence-building measures for the United Nations Standing Advisory Committee on Security Questions in Central Africa	2	1	2	1
Substantive services for meetings (number of three-hour meetings)	105	174	105	105
6. Meetings and/or informal consultations of the General Assembly and its subsidiary organs	16	27	16	16
7. Meetings and/or informal consultations of the Security Council and its subsidiary organs	80	138	80	80
8. Meetings and/or informal consultations of the United Nations Standing Advisory Committee on Security Questions in Central Africa	4	4	4	4
9. High-level side events on issues relating to the prevention and resolution of conflicts during the General Assembly	5	5	5	5
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	195	195	195	195
10. Seminars, training events and academic meetings on advancing preventive diplomacy, peacemaking and peacebuilding	195	195	195	195
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with more than 24 regional organizations; and strategic assessment missions and support for an estimated 21 special political missions with a good offices role, including mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States from all regions, international and regional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases such as the Peace and Security Data Hub, United Nations Peacemaker and Diplomatic Pulse.				
D. Communication deliverables				
External and media relations: communications products about the work of the Department, such as <i>Politically Speaking</i> , Diplomacy for Peace and accounts on relevant social media platforms.				

Subprogramme 2 Electoral assistance

Objective

3.29 The objective, to which this subprogramme contributes, is to strengthen the existing capacity of requesting Member States to organize and conduct inclusive, transparent and peaceful elections that enjoy public confidence and that contribute to stability and security, especially in transitional and post-conflict situations.

Strategy

- 3.30 To contribute to the objective, the subprogramme will continue to provide timely electoral support to Member States upon their request or pursuant to a mandate from the General Assembly or the Security Council, in close coordination with other relevant United Nations entities under the leadership of the United Nations focal point for electoral assistance matters. Specifically, the subprogramme will:
- (a) Deploy technical experts and various types of electoral missions in support of requesting Member States, including on designing and establishing election management bodies, designing or reforming electoral frameworks and systems, developing voter education and voter registration activities and promoting the participation of women, young people and persons with disabilities in electoral and political processes;
 - (b) Develop and strengthen partnerships and provide capacity development support to regional organizations, including by co-organizing, with regional organizations and in coordination with other relevant United Nations entities, training events for Member States in various regions, including on gender equality and elections, enhancing the credibility, inclusivity and integrity of electoral processes and preventing election-related violence;
 - (c) Develop new internal policies on electoral assistance, or update the existing ones, in close cooperation with other relevant United Nations entities, and review and provide input to initiatives and documents of other United Nations entities that intersect with elections;
 - (d) Maintain and manage the United Nations single roster of electoral experts and the United Nations electoral institutional memory.
- 3.31 The above-mentioned work is expected to result in:
- (a) More inclusive, peaceful and transparent electoral processes;
 - (b) Strengthened election management bodies;
 - (c) More effective electoral frameworks and systems;
 - (d) Enhanced voter education and voter registration activities;
 - (e) Increased participation of women, young people, persons with disabilities and those who are underrepresented and/or marginalized, including people in rural areas lacking infrastructure, in electoral and political processes;
 - (f) Strengthened electoral capacity of regional organizations;
 - (g) Consistent, coherent and coordinated electoral assistance to Member States.

Programme performance in 2023

Member States conduct elections with support from the United Nations

- 3.32 The subprogramme provided timely and effective responses to a 7 per cent increased demand for United Nations electoral support from Member States compared to 2022. In total, 60 Member States received United Nations technical support in 2023. United Nations support primarily took the form of technical assistance and initiatives to strengthen the capacity of national electoral authorities and institutions and to assist Member States in improving their electoral processes, frameworks and systems, including with regard to promoting inclusive, peaceful and transparent electoral processes. In 2023, the subprogramme provided technical support to Member States in planning and conducting 21 elections, including presidential and parliamentary elections, as well as referendums.
- 3.33 Progress towards the objective is presented in the performance measure below (see figure 3.I).

Figure 3.I
Performance measure: number of elections organized by Member States with United Nations technical support

Planned results for 2025

Result 1: Member States receive timely responses to requests for electoral assistance

Programme performance in 2023 and target for 2025

- 3.34 The subprogramme’s work contributed to 91 per cent of Member States receiving an initial response within four weeks of the receipt of their request for United Nations electoral assistance, which exceeded the planned target of 90 per cent.
- 3.35 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.II).

Figure 3.II
Performance measure: percentage of Member States receiving an initial response within four weeks of a request for technical electoral assistance

Result 2: increased regional training opportunities for Member State electoral officials

Programme performance in 2023 and target for 2025

- 3.36 The subprogramme’s work contributed to the participation of 60 representatives from Member States in regional electoral training sessions organized or supported by the United Nations, which exceeded the planned target of 56 representatives.
- 3.37 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.III).

Figure 3.III
Performance measure: number of participants from Member States attending regional electoral training sessions organized or supported by the United Nations in partnership with regional and subregional organizations

Result 3: increased representation of women in electoral and political processes

Proposed programme plan for 2025

3.38 Women remain underrepresented in electoral and political processes, with the proportion of women parliamentarians worldwide at 26.7 per cent as of December 2023. The subprogramme continues to promote the participation of women in electoral and political processes as a guiding principle for all United Nations electoral assistance activities, policies and projects. All United Nations electoral needs assessments include an analysis of the political and electoral participation of women, and, where appropriate, the assessments incorporate dedicated recommendations on temporary special measures, including quotas. The subprogramme also continues to support initiatives at the national, regional and global levels that contribute to increasing women’s participation and representation in electoral and political processes.

Lessons learned and planned change

3.39 The lesson for the subprogramme was that a combination of existing technical assistance and increased good offices functions and advocacy can further enhance the effectiveness of the Organization’s efforts in promoting gender equality in electoral and political processes. In applying the lesson, the subprogramme will ensure that in countries where the Organization works, a combination of these approaches will be employed in encouraging national authorities to promote the political participation and representation of women.

3.40 Expected progress towards the objective is presented in the performance measure below (see figure 3.IV).

Figure 3.IV
Performance measure: percentage of women in parliaments in countries receiving United Nations electoral assistance

Deliverables

3.41 Table 3.7 lists all deliverables of the subprogramme.

Table 3.7

Subprogramme 2: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	–	1
1. Report of the Secretary-General to the General Assembly on strengthening the role of the United Nations in enhancing periodic and genuine elections and the promotion of democratization	1	1	–	1
Substantive services for meetings (number of three-hour meetings)	1	1	–	1
2. Plenary of the General Assembly	1	1	–	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	31	32	33	36
3. For the deployment of international election observers at the request of Member States and other organizations	1	1	1	1
4. On electoral assistance to Member States	30	31	32	35
Seminars, workshops and training events (number of days)	22	25	23	26
5. Training events and workshops for electoral administrators and staff at the regional and national levels on key electoral matters, including gender equality and elections, elections and violence, and election observation	22	25	23	26
Technical materials (number of materials)	6	6	7	7
6. Technical guidelines and reference materials on electoral processes, the electoral legal framework and the organization and administration of elections	6	6	7	7
Electoral missions (number of missions)	30	32	32	34
7. Technical, advisory and review missions for electoral processes	30	32	32	34
C. Substantive deliverables				
Consultation, advice and advocacy: technical advice for electoral processes to an estimated 50 Member States, particularly in the areas of electoral systems and frameworks, mainstreaming a gender perspective, voter registration and electoral operations; consultations, including with Governments, United Nations entities and civil society organizations, including women's organizations.				
Databases and substantive digital materials: United Nations single electoral roster of experts; records on the provision of electoral assistance for preserving United Nations electoral institutional memory.				

Subprogramme 3 Security Council affairs

Objective

3.42 The objective, to which this subprogramme contributes, is to ensure the effective discharge by the Security Council of its responsibility for the maintenance of international peace and security.

Strategy

3.43 To contribute to the objective, the subprogramme will facilitate the full, complete and timely execution of the work of the Security Council and its subsidiary bodies, including by:

- (a) Assisting the monthly presidency of the Council in carrying out its official functions, particularly the preparation and conduct of the Council's monthly programme of work, and

- providing procedural and substantive advice to the monthly presidency, Council members and other Member States regarding the conduct of meetings and Council activities;
- (b) Coordinating the timely and accurate issuance of the official documentation of the Council, including its outcomes and other documents, as well as other correspondence from the Secretariat, Member States and entities;
 - (c) Supporting the work of the subsidiary bodies of the Council, including sanctions committees, other committees and working groups, as well as their associated monitoring teams, groups and panels, including by providing procedural and substantive advice to Chairs and other Council members;
 - (d) Supporting missions of the Council and Chairs of its subsidiary bodies to countries and regions in connection with matters on the Council's agenda;
 - (e) Supporting the design and implementation of the Council's sanctions regimes, including by conducting assessments of regimes upon the Council's request;
 - (f) Organizing training sessions for incoming members of the Council, and Chairs and members of sanctions committees, and engaging with the broader United Nations system and Member States to enhance the effective functioning of sanctions committees as well as to promote deeper understanding and implementation of Council sanctions;
 - (g) Disseminating the United Nations Security Council Consolidated List to Member States, the United Nations system, other regional and international organizations and the private sector immediately following the adoption of Council and sanctions committee listing and delisting decisions;
 - (h) Providing to Member States specialized research and analyses regarding the practice and procedures of the Council, through publications such as the *Repertoire of the Practice of the Security Council*, the *Highlights of Security Council Practice* and other information and data resources on specific areas of practice of the Council;
 - (i) Responding to specific requests for research and advice from Member States and convening dedicated information sessions, upon request; and contributing to the publicly available joint Peace and Security Data Hub of the Departments of Political and Peacebuilding Affairs and Peace Operations.
- 3.44 The above-mentioned work is expected to result in:
- (a) The Security Council being able to fulfil its responsibilities under the Charter of the United Nations;
 - (b) The Council and its sanctions committees being able to implement targeted sanctions;
 - (c) Member States being able to rely on up-to-date and comprehensive information concerning the practice and procedures of the Council, allowing them to be better equipped to participate in the work of the Council and to actively contribute to its effective functioning.

Programme performance in 2023

Participation of Member States in Security Council processes enhanced through technology

- 3.45 In order to improve its responsiveness to the needs of the Security Council members and the wider United Nations membership, the subprogramme expanded its digital communication tools in 2023 by leveraging the available functionalities of the e-deleGATE platform. The subprogramme introduced a live list of speakers feature for Security Council open debates, updated in real time, which was subsequently welcomed by the General Assembly in its resolution [77/335](#). The subprogramme also rolled out the Security Council eSponsorship module, which streamlines the co-sponsorship process for Security Council draft resolutions.

3.46 Progress towards the objective is presented in the performance measure below (see table 3.8).

Table 3.8
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Member States inscribed on the list of speakers for Security Council open debates via email	Over 700 inscriptions for Security Council open debates received through the e-deleGATE portal	Over 1,450 inscriptions for Security Council open debates received through the e-deleGATE portal
Member States registered for co-sponsorship of Security Council resolutions via email	Over 180 requests by Member States to co-sponsor Security Council resolutions registered through the e-deleGATE portal	Over 300 requests by Member States to co-sponsor Security Council resolutions registered through the e-deleGATE portal
		20 open debates conducted with a live list of speakers accessible via a link/Quick Response code to e-deleGATE

Planned results for 2025

Result 1: Member States have access to up-to-date and contemporaneous analytical information on the practice and work of the Security Council

Programme performance in 2023 and target for 2025

3.47 The subprogramme’s work contributed to 10,849 visits to the Security Council data sets available on the Peace and Security Data Hub, which exceeded the planned target of 700 visits.

3.48 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.V).

Figure 3.V
Performance measure: number of visits to the Security Council data sets available on the Peace and Security Data Hub (annual)

Result 2: Security Council members receive timely information on the implementation of sanctions measures

Programme performance in 2023 and target for 2025

- 3.49 The subprogramme's work contributed to the receipt by sanctions committees of expert panel proposals within two weeks of the renewal of a mandate, or within six weeks of the establishment of a new mandate, in 76 per cent of cases, which did not meet the planned target of 100 per cent. The target was not met owing to challenges in identifying qualified candidates, particularly in specialized areas of expertise, such as arms, armed groups or natural resources.
- 3.50 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.VI).

Figure 3.VI

Performance measure: percentage of expert panel proposals received by sanctions committees within two weeks of the renewal of a mandate or within six weeks of the establishment of a new mandate

Result 3: enhanced engagement with Member States on the Security Council's work

Proposed programme plan for 2025

- 3.51 The subprogramme conducts outreach to Member States to ensure that they have the necessary information to engage on Security Council matters. In past years, the subprogramme had focused on preparing incoming Security Council members for their Council memberships through customized induction workshops.

Lessons learned and planned change

- 3.52 The lesson for the subprogramme was the need to enhance its engagement with the United Nations membership, and in particular incoming Security Council members, as strong interest in detailed training, including on Security Council sanctions matters, continues to be expressed. In applying the lesson, the subprogramme will improve the training offered, including the induction workshops, in particular on Security Council sanctions matters, on the basis of feedback received from Member State participants.
- 3.53 Expected progress towards the objective is presented in the performance measure below (see figure 3.VII).

Figure 3.VII

Performance measure: percentage of participants in the induction workshops for incoming Security Council members expressing satisfactory, good or excellent degrees of satisfaction

Deliverables

3.54 Table 3.9 lists all deliverables of the subprogramme.

Table 3.9

Subprogramme 3: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	54	54	54	54
1. Notifications under Article 12 (2) of the Charter of the United Nations	1	1	1	1
2. Lists of communications from private individuals and non-governmental bodies pursuant to paragraph A of the appendix to the provisional rules of procedure of the Security Council	1	1	1	1
3. Summary statement on matters of which the Security Council is seized and of the stage reached in their consideration	52	52	52	52
Substantive services for meetings (number of three-hour meetings)	400	531	400	400
4. Meetings of the Security Council and its subsidiary bodies and related deliberations, including support to the issuance of resolutions, presidential statements, press statements and other outcomes/decisions of the Council and its subsidiary bodies	400	531	400	400

9. Compendium of Security Council mandates and reports to the Council	12	12	12	12
10. Compendium of mandates relating to cross-cutting issues; women and peace and security; children in armed conflict; and protection of civilians in armed conflict	3	3	3	3
11. <i>Highlights of Security Council Practice</i>	1	1	1	1
12. Statistics of Security Council deliberations	12	12	12	12

C. Substantive deliverables

Consultation, advice and advocacy: consultation, advice and advocacy to the Security Council in the preparation of the report of the Security Council for the General Assembly; tailored research for Member States on Security Council practice and procedure, current and historic.

Databases and substantive digital materials: database of Council procedures, practices and working methods, including data on over 200 public meetings convened annually, covering approximately 50 agenda items; roster of experts for Council subsidiary bodies, and the United Nations Security Council Consolidated List of sanctions in all official languages provided to Member States, the private sector and other stakeholders; interactive dashboards on representation of women at the Council, membership of the Council, Chairs and Vice-Chairs of its subsidiary organs and Arria-formula meetings; data sets related to the work of the Council published on the Peace and Security Data Hub.

D. Communication deliverables

Digital platforms and multimedia content: website of the Security Council and its subsidiary bodies in the six official languages of the United Nations for Member States and the wider public; social media posts and articles linking the activities of the Council to relevant constitutional and procedural aspects captured in the *Repertoire of the Practice of the Security Council*.

Subprogramme 4 Decolonization

Objective

- 3.55 The objective, to which this subprogramme contributes, is to promote the decolonization process in accordance with the Charter and relevant resolutions of the General Assembly of the 17 Non-Self-Governing Territories so as to bring about the complete eradication of colonialism.

Strategy

- 3.56 To contribute to the objective, the subprogramme will:
- (a) Provide substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Fourth Committee, including the preparation of Secretariat working papers and mandated reports of the Secretary-General, and inputs for the annual report of the President of the Economic and Social Council on the implementation of the Declaration by the specialized agencies and the international institutions associated with the United Nations;
 - (b) Provide advice, briefing materials and substantive support to the meetings, annual regional seminars and visiting missions of the Special Committee, and meetings of the Fourth Committee and the Economic and Social Council, in close coordination with the Department for General Assembly and Conference Management;
 - (c) Maintain contact with the representatives of the Non-Self-Governing Territories and United Nations agencies, funds and programmes and work with the Department of Global Communications, the Department for General Assembly and Conference Management and the Office of Information and Communications Technology in disseminating information on decolonization, including through the enhancement of the United Nations and decolonization website.

- 3.57 The above-mentioned work is expected to result in:
- (a) Advancement of specific proposals to bring about an end to colonialism;
 - (b) Programmes of work developed on a case-by-case basis for the decolonization of the Non-Self-Governing Territories;
 - (c) Timely and informed decision-making by the Special Committee when considering the situation in the Non-Self-Governing Territories.

Programme performance in 2023

The Special Committee holds the Pacific regional seminar

- 3.58 The Special Committee, as part of its programme of work, holds regional seminars to receive and disseminate information on its work and to facilitate the participation of the Non-Self-Governing Territories. The subprogramme contributed to the organization of the Pacific regional seminar in Bali, Indonesia, through the provision of substantive support and the facilitation of the adoption of its report by consensus. The subprogramme also facilitated the drafting of and negotiations on the conclusions and recommendations agreed by the participating members of the Special Committee. In November 2023, the subprogramme conducted the first client survey with the Bureau of the Special Committee to assess client satisfaction with the substantive support provided in 2023.
- 3.59 Progress towards the objective is presented in the performance measure below (see table 3.10).

Table 3.10
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	–	The Pacific regional seminar on decolonization was held, with 100 per cent of Bureau members expressing satisfaction with the support provided

Planned results for 2025

Result 1: increased reach and awareness on decolonization through new multilingual content

Programme performance in 2023 and target for 2025

- 3.60 The subprogramme’s work contributed to Member States, the Non-Self-Governing Territories, relevant stakeholders and the general public having access to new content on the United Nations decolonization website, including an interactive timeline of the regional seminars on decolonization organized since 1990 and a new infographics section entitled “UN Decolonization in Numbers”, which met the planned target.
- 3.61 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.11).

Table 3.11
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Availability of content on the website in the six official languages of the United Nations	Availability of the messages of the Secretary-General to the regional seminars from 2005 to 2022 on the website in the six official languages of the United Nations	Availability of new content on the website, including an interactive timeline of regional seminars held since 1990 and a new section entitled “UN Decolonization in Numbers”, in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations

Result 2: the Special Committee has access to information on the status of implementation of the 2030 Agenda in the Non-Self-Governing Territories

Programme performance in 2023 and target for 2025

- 3.62 The subprogramme’s work contributed to the inclusion of information in the working papers on the implementation of the Sustainable Development Goals in the Non-Self-Governing Territories, on a case-by-case basis, and based on available data from official sources, which met the planned target.
- 3.63 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.12).

Table 3.12
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	The Special Committee had access to information on the economic, social and environmental conditions in the Non-Self-Governing Territories	The Special Committee had access to information, on a case-by-case basis, related to the status of implementation of the Sustainable Development Goals in the Non-Self-Governing Territories	The Special Committee has access to updated and timely information on the status of implementation of the Sustainable Development Goals in the Non-Self-Governing Territories	The Special Committee has access to updated and timely information on the status of implementation of the Sustainable Development Goals in the Non-Self-Governing Territories

Result 3: the Special Committee has access to an up-to-date list of qualified experts on decolonization

Proposed programme plan for 2025

- 3.64 The subprogramme is responsible for establishing and maintaining a list of experts on decolonization to facilitate the selection of experts to be invited to the annual regional seminars on decolonization in accordance with the guidelines and procedures adopted by the Special Committee.

Lessons learned and planned change

- 3.65 The lesson for the subprogramme was the need to manage the list of experts effectively to ensure that the Special Committee has access to qualified experts with the necessary expertise in areas relevant to its work and considering the need for a multidisciplinary approach, as well as gender balance and geographical representation. In applying the lesson, the subprogramme will review the procedures and criteria for nominations of experts to improve the process of maintaining the list of experts.
- 3.66 Expected progress towards the objective is presented in the performance measure below (see table 3.13).

Table 3.13
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	The Special Committee had access to a list of experts on decolonization from which the Bureau selected the experts invited to the Pacific regional seminar	The Special Committee has access to a list with an increased number of qualified experts, which contributes to the list of qualified experts on decolonization having improved gender balance, geographical representation and area of expertise representation	The Special Committee has access to a list with an increased number of qualified experts, which contributes to the list of qualified experts on decolonization having improved gender balance, geographical representation and area of expertise representation

Deliverables

- 3.67 Table 3.14 lists all deliverables of the subprogramme.

Table 3.14
Subprogramme 4: deliverables for the period 2023–2025, by category and subcategory

15. Meetings of the Economic and Social Council	2	1	2	1
B. Generation and transfer of knowledge				
Fact-finding, monitoring and investigation missions (number of missions)	1	–	1	1
16. Missions to the Non-Self-Governing Territories pursuant to relevant General Assembly resolutions	1	–	1	1
D. Communication deliverables				
Digital platforms and multimedia content: the United Nations decolonization website in all official languages of the United Nations, for the benefit of the 17 Non-Self-Governing Territories, Member States and the general public.				

Subprogramme 5 Question of Palestine

Objective

- 3.68 The objective, to which this subprogramme contributes, is to ensure the effective and efficient implementation of the programme of work of the Committee on the Exercise of the Inalienable Rights of the Palestinian People to promote the realization of the inalienable rights of the Palestinian people.

Strategy

- 3.69 To contribute to the objective, the subprogramme will:
- (a) Organize Committee and Bureau meetings, conduct observances globally of the International Day of Solidarity with the Palestinian People, including a high-level event in New York, and outreach with United Nations entities and Member States on the question of Palestine, and hold other advocacy and awareness-raising activities, events and international conferences;
 - (b) Develop and expand the digital advocacy of the Committee, including its website and social media channels supported by the subprogramme, and the online United Nations Information System on the Question of Palestine and publications;
 - (c) Liaise and cooperate with civil society and parliamentarians on the question of Palestine;
 - (d) Implement the Committee's capacity-building activities for Palestinian officials, with a focus on strategic communications and diplomatic protocol.

- 3.70 The above-mentioned work is expected to result in:
- (a) Mobilization of the diplomatic community, through the work of the Committee, in support of the realization of the two-State solution, the inalienable rights of the Palestinian people and a just, comprehensive and lasting solution to the question of Palestine;
 - (b) The general public, civil society and the media being informed about the question of Palestine and the work of the Committee;
 - (c) Stronger institutional capacity of the Government of the State of Palestine in areas such as strategic communications and diplomatic protocol.

Programme performance in 2023

Commemoration of the seventy-fifth anniversary of the Nakba

- 3.71 In response to the request of the General Assembly in its resolution [77/23](#), during 2023 the subprogramme organized two major events to commemorate the seventy-fifth anniversary of the Nakba. On 15 May, with the support of the subprogramme, the Committee organized a cultural event in the General Assembly Hall and also held a high-level special meeting. The subprogramme’s work facilitated an increase in the Bureau’s meetings to 14 during 2023. The subprogramme’s work also supported six events on various thematic issues about the question of Palestine, which mainstreamed the commemoration of the Nakba.
- 3.72 Progress towards the objective is presented in the performance measure below (see table 3.15).

Table 3.15
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	The General Assembly adopted resolution 77/23	<p>The seventy-fifth anniversary of the Nakba was commemorated, including through a high-level special meeting of the Committee on the Exercise of the Inalienable Rights of the Palestinian People</p> <p>The Committee organized a virtual event on the margins of the sixty-seventh session of the Commission on the Status of Women</p>

Planned results for 2025

Result 1: strengthened engagement between the Committee and civil society

Programme performance in 2023 and target for 2025

- 3.73 The subprogramme’s work contributed to the participation of civil society organizations in six events with 32 civil society speakers, of whom 60 per cent were female speakers, which met the planned target. The target of seven events was not met as there were fewer opportunities to engage with civil society organizations in the fourth quarter.
- 3.74 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.VIII).

Figure 3.VIII
Performance measure: strengthened engagement between the Committee and civil society

Result 2: increased digital advocacy and public engagement by the Committee on the question of Palestine

Programme performance in 2023 and target for 2025

- 3.75 The subprogramme’s work contributed to the development and expansion of the Committee’s digital advocacy, including through its website and its social media channels, with 135 videos published and 617,192 website views, in part through the release of the Committee’s legal study as an e-book for wider public access, which exceeded the planned target of 65 videos and 100,000 views.
- 3.76 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.IX).

Figure 3.IX
Performance measure: access to videos published on the question of Palestine
 (Number of views and number of videos)

Result 3: enhanced public outreach by the Committee on the question of Palestine

Proposed programme plan for 2025

3.77 The subprogramme has been contributing to targeted outreach, including to Member States and Security Council members, and organizing Committee events, in line with its mandate, to advocate for a just, lasting and comprehensive settlement of the question of Palestine, to promote critical humanitarian support and to contribute to recovery and reconstruction efforts.

Lessons learned and planned change

3.78 The lesson for the subprogramme was the growing demand from the public for information from reliable sources, such as the United Nations, in a context of rapid and at times contradictory flows of information. In applying the lesson, the subprogramme will improve the Committee’s outreach about critical issues related to the Israeli-Palestinian conflict and foster a better understanding among Member States and the international community.

3.79 Expected progress towards the objective is presented in the performance measure below (see figure 3.X).

Figure 3.X

Performance measure: number of press statements of the Bureau of the Committee on the Exercise of the Inalienable Rights of the Palestinian People

Deliverables

3.80 Table 3.16 lists all deliverables of the subprogramme.

12. Studies, information notes and newsletters on the Committee and the work of the subprogramme, and selected aspects of the question of Palestine	2	2	4	4
C. Substantive deliverables				
Databases and substantive digital materials: database of over 2,000 experts and some 1,500 non-governmental organizations working on the question of Palestine.				
D. Communication deliverables				
Outreach programmes, special events and information materials: International Day of Solidarity with the Palestinian People and other special events at the discretion of the Committee reaching all Member States and the public at large; annual Palestinian exhibit or cultural event in connection with the International Day of Solidarity at United Nations Headquarters reaching all Member States and the public at large; briefings for United Nations officials, visitors, non-governmental organizations and others; information-sharing, outreach efforts and participation in meetings of civil society.				
External and media relations: communiqués, press statements, press conferences and other communication materials for the media and other external entities before, during and after the Committee's activities.				
Digital platforms and multimedia content: website of the subprogramme/Committee and its social media accounts.				
Library services: United Nations Information System on the Question of Palestine.				

Subprogramme 6 Peacebuilding Support Office

Objective

- 3.81 The objective, to which this subprogramme contributes, is to strengthen the effective role of the Peacebuilding Commission in bringing attention to peacebuilding needs, convening key actors and proposing peacebuilding strategies; and to strengthen country- and region-owned and -led peacebuilding efforts and United Nations system-wide coherence on the ground through the Peacebuilding Fund, and strengthen partnerships with international financial institutions in support of efforts to build and sustain peace.

Strategy

- 3.82 To contribute to the objective, the subprogramme will:
- (a) Organize visits of the Peacebuilding Commission, provide technical and substantive advice regarding the Commission meetings and advance partnerships between the Commission and international financial institutions and regional and subregional organizations, civil society and the private sector;
 - (b) Through the Peacebuilding Fund, support nationally-led peacebuilding programmes, prioritizing transition contexts, subregional and cross-border contexts and the empowerment of women and young people, in particular those in vulnerable situations and situations of armed conflict;
 - (c) Spearhead policy development related to peacebuilding and lead relevant coordination and integration mechanisms within the United Nations system and with the World Bank and other international financial institutions.
- 3.83 The above-mentioned work is expected to result in:
- (a) A deeper commitment to sustaining peace by Member States and regional and international partners, including international financial institutions;
 - (b) Synergistic, coordinated and effective national peacebuilding actions;
 - (c) Improved alignment of policy responses for peacebuilding needs, with increased involvement of regional and international partners, including international financial institutions;
 - (d) Improved coordination among Member States and regional and international partners to prioritize transition contexts, subregional and cross-border contexts and the empowerment of women and young people.

Programme performance in 2023

Investments in building and sustaining peace at the regional, national and local levels

- 3.84 In 2023, through the Peacebuilding Fund, the subprogramme facilitated peacebuilding initiatives worth \$202.5 million in 36 countries and territories through 18 different United Nations agencies, funds and programmes. Between 2021 and 2023, the subprogramme, through its advocacy efforts, broadened the donor base and increased the number of multi-year agreements. While voluntary funding will remain the primary source of funding, the subprogramme’s work also contributed to the adoption by the General Assembly of resolution [78/257](#), pursuant to which assessed contributions will be provided to the Peacebuilding Fund starting in 2025.
- 3.85 Progress towards the objective is presented in the performance measure below (see table 3.17).

Table 3.17
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
38 donors, of which 7 had multi-year agreements	32 donors, of which 8 had multi-year agreements	36 donors, of which 11 had multi-year agreements
Contributions of top 3 donors representing 58 per cent of total contributions	Contributions of top 3 donors representing 62 per cent of total contributions	Broadened donor base, with contributions of top 3 donors representing 47 per cent of total contributions
\$177 million in voluntary contributions to the Peacebuilding Fund	\$170 million in voluntary contributions to the Peacebuilding Fund	\$132 million in voluntary contributions to the Peacebuilding Fund

Planned results for 2025

Result 1: increased attention on and resourcing for women and youth in peacebuilding

Programme performance in 2023 and target for 2025

- 3.86 The subprogramme's work contributed to supporting the engagement of women and youth in peacebuilding through the Gender and Youth Promotion Initiative, with \$54 million worth of financing by the Peacebuilding Fund, which did not meet the planned target of \$70 million. The target was not met owing to the overall voluntary contributions to the Fund being below target.
- 3.87 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.XI).

Figure 3.XI

Performance measure: support by the Peacebuilding Fund for women and youth in peacebuilding through the Gender and Youth Promotion Initiative

(Millions of United States dollars)

Result 2: increased participation of women and youth in peacebuilding in meetings of the Peacebuilding Commission

Programme performance in 2023 and target for 2025

- 3.88 The subprogramme's work contributed to 35 per cent and 10 per cent of meetings with participation of women and youth, respectively, in peacebuilding from civil society organizations, which did not meet the targets of 60 per cent and 22 per cent of meetings with participation of women and youth, respectively. The target was not met owing to a decrease in the number of meetings and the type of meetings convened; however, the Peacebuilding Commission also met with women and youth peacebuilders during its field visits, including to the Central African Republic, Ethiopia, Guinea-Bissau and Mozambique.
- 3.89 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.XII).

Figure 3.XII
Performance measure: increased rate of participation of women and youth in peacebuilding in meetings of the Peacebuilding Commission^a

^a The planned targets for 2024 and 2025 reflect the percentage of participation of women and youth in peacebuilding. The number of meetings will be reflected in the programme performance for the respective periods.

Result 3: increased focus on mission transitions

Proposed programme plan for 2025

3.90 There has been increased demand for peacebuilding initiatives, including those arising from the transition and closure of United Nations special political missions and peacekeeping operations. The subprogramme focuses on supporting opportunities to consolidate peace gains in transition settings and help special political missions, peacekeeping operations and United Nations country teams to implement relevant mandates related to peacebuilding. The midterm review of the Peacebuilding Fund’s strategy for the period 2020–2024 also recommended that attention to the work in transition settings supported by the Fund be increased.

Lessons learned and planned change

3.91 The lesson for the subprogramme, based on risks to consolidating peace gains during mission transitions, was the need to increase focus and investment by the Fund in transition settings. In applying the lesson, the subprogramme will aim to fully meet the strategy target of 35 per cent of investment being focused in transition settings and improve the strategic connection between financing and official transition plans. For example, in the Democratic Republic of the Congo, financing efforts will focus on provinces from which the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo will withdraw.

3.92 Expected progress towards the objective is presented in the performance measure below (see figure 3.XIII).

Figure 3.XIII
Performance measure: financing by the Peacebuilding Fund of initiatives in transition settings

Deliverables

3.93 Table 3.18 lists all deliverables of the subprogramme.

Table 3.18
Subprogramme 6: deliverables for the period 2023–2025, by category and subcategory

---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: guidance and advice to country-level and regional recipients of funding from the Peacebuilding Fund on priority-setting and programming; promotion of partnerships in the form of regular dialogue, operational and strategic consultation between the United Nations and the World Bank, the International Monetary Fund and other international financial institutions in seven countries and/or subregions; consultation, advice and advocacy with regional and subregional organizations (including through the annual informal consultation between the Peacebuilding Commission and the Peace and Security Council of the African Union), civil society organizations, think tanks, academia and the private sector on peacebuilding issues; strategic guidance and advice in support of the delivery of the mandate of the Peacebuilding Commission and the formulation and delivery of the priorities and the workplan of the Peacebuilding Commission; support, including advice, for approximately 21 submissions by the Peacebuilding Commission to other intergovernmental bodies and peacebuilding forums; information-sharing, guidance and strategic advice to Member States, the United Nations system and key stakeholders on policy issues related to the implementation of the sustaining peace framework, including the 2025 review of the peacebuilding architecture; policy support and advice to all members of the Peacebuilding Commission and Peacebuilding Fund donors and all recipient Governments on peacebuilding and sustaining peace and on women and young people in peacebuilding.

D. Communication deliverables

External and media relations: press statements of the Peacebuilding Commission; four newsletters on peacebuilding.

Digital platforms and multimedia content: United Nations Peacebuilding website and social media platforms; multimedia content, including short videos highlighting the results and impact on the ground.

Subprogramme 7 Cooperation between the United Nations and the League of Arab States

Objective

- 3.94 The objective, to which this subprogramme contributes, is to strengthen cooperation between the United Nations and the League of Arab States (LAS).

Strategy

- 3.95 To contribute to the objective, the subprogramme will:
- (a) Identify areas of work of joint interest and strengthen relationships with LAS through the pursuit of the common goals and objectives of the League and the United Nations;
 - (b) Contribute to efforts by LAS and its member States to make progress on achieving Sustainable Development Goal 16 and their commitments to building effective, accountable and inclusive institutions at all levels;
 - (c) Promote the Charter of the United Nations, in particular Chapter VIII;
 - (d) Deliver capacity-building exercises and staff exchanges and increase channels of communication.
- 3.96 The above-mentioned work is expected to result in:
- (a) Enhanced partnership and expanded outreach with LAS in the area of international peace and security, including conflict prevention, peacemaking and peacebuilding;
 - (b) Improved capacity of LAS on issues such as conflict prevention, peacemaking and peacebuilding;
 - (c) Improved coordination with LAS on cooperation activities.

Programme performance in 2023

First regional youth, peace and security strategy adopted by the League of Arab States

- 3.97 The subprogramme provided technical support to the LAS General Secretariat and LAS member States, leading to the adoption of the first regional strategy on the implementation of the youth,

peace and security agenda, the Arab Strategy for Youth, Peace and Security (2023–2028), by the League’s Arab Youth and Sports Ministers Council in September 2023. The subprogramme also facilitated the League’s participation at the meeting of the Peacebuilding Commission on youth, peace and security held in June 2023.

3.98 Progress towards the objective is presented in the performance measure below (see table 3.19).

Table 3.19
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	–	LAS adopted the Arab Strategy for Youth, Peace and Security (2023–2028)

Planned results for 2025

Result 1: strengthened engagement with the General Secretariat of the League of Arab States and the League’s member States

Programme performance in 2023 and target for 2025

- 3.99 The subprogramme’s work contributed to the enhancing of mutual understanding and analysis, as well as improved political coordination and strengthened cooperation, through 40 meetings with LAS officials and 20 meetings with representatives of the diplomatic community, United Nations entities and other partners, including regular meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials, which exceeded the planned targets of 20 and 10 meetings, respectively. The subprogramme’s work also contributed to improved cooperation through its support for the biennial United Nations-LAS sectoral meeting.
- 3.100 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.20).

Table 3.20
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Enhanced mutual understanding and analysis on political developments in the Arab region and issues related to elections, disarmament, women and peace and security, youth and peace and security, and counter-terrorism through 50 meetings with LAS officials	Enhanced mutual understanding and analysis on political developments in the Arab region, as well as other issues of mutual concern, through 36 meetings with LAS officials	Enhanced mutual understanding and analysis on political developments in the Arab region, as well as other issues of mutual concern, through 40 meetings with LAS officials	Enhanced mutual understanding and analysis on political developments in the Arab region, including the Occupied Palestinian Territory, the Syrian Arab Republic and Yemen, as well as other issues of mutual concern, through 30 meetings with LAS officials	Enhanced mutual understanding and analysis on political developments in the Arab region and other issues of mutual concern
Improved political coordination with Arab permanent	Improved political coordination through 12 meetings with representatives of the diplomatic community, United Nations entities and other partners	Improved political coordination through 20 meetings with representatives of the diplomatic community, United Nations entities and other partners	Improved political coordination on political	Improved political coordination on political developments with representatives of the diplomatic community, United Nations entities and other partners

Section 3 Political affairs

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
representatives to LAS and other Arab diplomats on political developments in the region and ways to support the League on peace and security issues through 17 meetings Strengthened cooperation between LAS and United Nations entities on issues of mutual concern and areas of cooperation related to peace and security through 39 meetings	Improved overall cooperation through the biennial general cooperation meeting between the United Nations and LAS Improved cooperation on good offices and peace efforts in the Arab region through seven meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials	Improved cooperation through the biennial United Nations-LAS sectoral meeting	developments through 15 meetings with representatives of the diplomatic community, United Nations entities and other partners	Improved cooperation through the biennial United Nations-LAS sectoral meeting

Result 2: strengthened United Nations-League of Arab States partnership in advancing conflict prevention and sustaining peace in the Arab region

Programme performance in 2023 and target for 2025

- 3.101 The subprogramme’s work contributed to strengthening the partnership between the United Nations and LAS on conflict prevention and sustaining peace through training sessions and meetings on disarmament, demobilization and reintegration and on strategic foresight between experts and representatives of the League, which met the planned target.
- 3.102 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.21).

Table 3.21
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	Agreement by LAS and the United Nations during their biennial general cooperation meeting to collaborate in the areas of conflict prevention and sustaining peace through jointly identifying strategies and programmes	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace through identifying ways to expand initiatives and training opportunities for LAS staff and member States	Strengthened engagement between the United Nations, LAS and its member States on conflict prevention and sustaining peace through initiatives to implement the regional strategy on youth, peace and security, among others

Result 3: progress on preventive diplomacy, mediation and analysis by the League of Arab States

Proposed programme plan for 2025

3.103 The United Nations and LAS collaborate on advancing regional peace and security and maintaining effective coordination in ongoing peace processes through preventive diplomacy efforts. The subprogramme’s work contributes to capacity-building of LAS staff and the League’s member States through training seminars and consultations, including on topics related to preventive diplomacy, mediation and analysis.

Lessons learned and planned change

3.104 The lesson for the subprogramme was that engaging representatives of LAS member States in initiatives such as training on mediation for the Arab Women Mediators Network was a useful practice that can facilitate future efforts. Raising awareness among LAS member States on preventive diplomacy and mediation tools can foster engagement for advancing United Nations-LAS cooperation. In applying the lesson, the subprogramme will, as appropriate, include participants beyond staff of the LAS General Secretariat in capacity-building programmes and other initiatives.

3.105 Expected progress towards the objective is presented in the performance measure below (see table 3.22).

Table 3.22
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)

3.108 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 3.27 to 3.29 and figure 3.XIV.

3.109 As reflected in tables 3.27 (1) and 3.28 (1), the overall resources proposed for 2025 amount to \$105,112,400 before recosting, reflecting a net increase of \$49,794,200 compared with the approved budget for 2024. Resource changes result from technical adjustments, new and expanded mandates, and cost-neutral other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XIV
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

3.110 As reflected in table 3.27 (1), the proposed decrease of \$205,800 under executive direction and management reflects the removal of non-recurrent requirements related to the conduct of an independent strategic and civilian staffing review of the United Nations Office to the African Union in 2024, pursuant to General Assembly resolution [77/262](#).

New and expanded mandates

3.111 As reflected in table 3.27 (1), the proposed increase of \$50,000,000 under subprogramme 6, Peacebuilding Support Office, would fund the Peacebuilding and Recovery Facility of the

Peacebuilding Fund, including programme support costs for Fund management, in accordance with the terms of reference of the Fund, pursuant to General Assembly resolution [78/257](#).

Other changes

3.112 As reflected in table 3.27 (1), cost-neutral changes are proposed, as follows:

- (a) **Subprogramme 3, Security Council affairs.** The proposed increase of \$1,900 under travel of staff would cover orientation and capacity-building travel for incoming members of the Security Council and its subsidiary organs;
- (b) **Programme support.** The proposed decrease of \$1,900 under general operating expenses reflects reduced requirements for miscellaneous services, taking into account prior expenditure experience.

Extrabudgetary resources

3.113 As reflected in tables 3.27 (2) and 3.28 (2), extrabudgetary resources amount to \$36,650,800. The resources would complement regular budget resources and would be used mainly to provide for 93 posts (3 D-1, 12 P-5, 28 P-4, 25 P-3, 2 P-2/1, 6 General Service (Principal level) and 17 General Service (Other level)) and non-post resources that would be used mainly to support substantive activities, including in the areas of preventive diplomacy, conflict resolution, mediation, peacemaking, electoral assistance missions and political analysis in support of the good offices of the Secretary-General. The resources would also support the multi-year appeal programme, the overall management of the Peacebuilding Fund and the annual regional seminar on decolonization, as well as visiting missions to the Non-Self-Governing Territories.

3.114 The authority to oversee the use of extrabudgetary resources rests with the Department of Political and Peacebuilding Affairs, in accordance with the delegation of authority from the Secretary-General.

Policymaking organs

3.115 The resources proposed under this component would provide for the policymaking organs as shown in table 3.30.

Figure 3.XV

Policymaking organs: distribution of proposed resources for 2025 (before recosting)

(Thousands of United States dollars)

**Executive direction and management**

- 3.117 The executive direction and management component comprises the Office of the Under-Secretary-General for Political and Peacebuilding Affairs, Chief of Office, and focal points for regional and thematic divisions, the coordination and oversight of planning and budgets for special political missions, the coordination of briefing materials for the leadership of the Organization, and monitoring and evaluation.
- 3.118 The overall responsibilities of the component include the following functions:
- (a) Provide the overall direction, supervision and management of the Department in the implementation of its mandates and its approved programme of work;
 - (b) Provide the Secretary-General with advice and support on all political matters in coordination with the Under-Secretary-General for Peace Operations, as necessary;
 - (c) Oversee and provide political guidance and instructions to special political missions under the Department's purview, including special and personal envoys and representatives of the Secretary-General;
 - (d) Direct and manage, on behalf of the Secretary-General, diplomatic activities relating to the prevention, control and resolution of conflicts and disputes, including preventive diplomacy, political mediation, peacemaking, peacebuilding and sustaining peace;
 - (e) Act as the United Nations focal point for all matters related to electoral assistance and direct the provision of substantive support and secretariat services to the Security Council (including on special political missions in thematic cluster II, which includes sanctions monitoring teams, groups and panels, and other entities and mechanisms), the General Assembly and relevant subsidiary organs;
 - (f) In close consultation with the Under-Secretary-General for Peace Operations, the Under-Secretary-General for Political and Peacebuilding Affairs provides direction and strategic guidance to the Assistant Secretaries-General with regional responsibilities on matters under the purview of the Department.
- 3.119 The component also includes small teams that handle strategic communications and donor relations. In line with requests from the United Nations system, the component provides direction to ensure close cooperation and coordination with Secretariat entities, agencies, funds and programmes in the area of peace and security.

Part II Political affairs

- 3.120 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. In 2025, the Department will continue to reduce its greenhouse gas emissions by delivering capacity-building activities for field personnel in their immediate region, relying more systematically on electronic records and communications to reduce printing and photocopy paper and more frequently on videoconferences as a possible replacement for travel. The Department also plans to improve e-waste management to facilitate the environmentally friendly disposal of expendable e-waste.
- 3.121 Information on the timely submission of documentation and advance booking for air travel is reflected in table 3.32. The Department continues to sensitize all staff to various forms of communication on the importance of early planning for travel. Managers are required to implement preventive and corrective measures. The travel certification process has been standardized and streamlined, with the certification of travel decentralized to the divisions. With respect to travel that is linked closely to conflict prevention, good offices and crisis response, the planning for such travel often takes place shortly before departure or requires last-minute cancellations or changes of itinerary or destination. In 2023, the Department continued to submit nearly all its documents within the prescribed timelines.

Table 3.32
Compliance rate
(Percentage)

	2021 actual	2022 actual	2023 actual	2024 planned	2025 planned
Timely submission of documentation	93	82	97	100	100
Air tickets purchased at least two weeks before the commencement of travel	38	21	36	100	100

- 3.122 The proposed regular budget resources for 2025 amount to \$1,798,200 and reflect a decrease of \$205,800 compared with the approved budget for 2024. The proposed change is explained in paragraph 3.110. Additional details on the distribution of the proposed resources for 2025 are reflected in table 3.33 and figure 3.XVI.

Programme support

3.130 The programme support component comprises the Executive Office of the Department. The Executive Office provides the central administrative and programme support functions necessary for the implementation of the mandated activities of the Department. It assists the Under-Secretary-General in the preparation of the programme plans, the preparation and monitoring of the implementation of the programme budget, the management of trust funds and extrabudgetary resources, relevant support services for the efficient utilization of human resources and the planning, control and coordination of requirements related to general office administration. In addition, it provides administrative and logistical support to a number of special representatives and envoys of the Secretary-General, including some special political missions grouped under thematic clusters I and II. The Executive Office also provides logistical support to the Department, including property management, office space management and user applications.

3.131 The proposed regular budget resources for 2025 amount to \$3,218,200 and reflect a decrease of \$1,900 compared with the approved budget for 2024. The proposed change is explained in paragraph 3.112 (b). Additional details on the distribution of the proposed resources for 2025 are reflected in table 3.41 and figure 3.XXIV.

II. Special political missions

Resource requirements: \$711,280,600

- 3.132 The proposed resource requirements for the 39 special political missions for 2025 amount to \$711,280,600, which would be supplemented by extrabudgetary resources, estimated at \$43,548,500. These resources would provide for the full, efficient and effective implementation of the mandates for the special political missions. Further details on the proposed resources for 2025 are contained in the relevant reports of the Secretary-General on the special political missions ([A/79/6 \(Sect. 3\)/Add.1-6](#)).

III. Office of the United Nations Special Coordinator for the Middle East Peace Process

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 3.133 The Office of the United Nations Special Coordinator for the Middle East Peace Process is responsible for serving as the Organization's focal point for the Middle East peace process, for ensuring the coordinated work of the United Nations system to adequately respond to the needs of the Palestinian people and for mobilizing financial, technical and economic assistance. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including Assembly resolutions [48/213](#) and [49/88](#) and Security Council resolutions [1860 \(2009\)](#) and [2334 \(2016\)](#). The unresolved Israeli-Palestinian conflict remains at the core of the instability prevailing in the Middle East and continues to threaten international peace and security. As violence and tensions persist across the Occupied Palestinian Territory, the Office continues to engage diplomatically to mitigate and prevent armed conflict, address the humanitarian and development challenges, including recovery and reconstruction efforts in Gaza, and engage the parties and the international community with a view to making political progress towards a two-State solution.

Programme of work

Objective

- 3.134 The objective, to which the Office contributes, is to achieve a comprehensive, just and lasting resolution to the Israeli-Palestinian conflict based on the two-State solution and to improve the socioeconomic conditions of the Palestinian people.

Strategy and external factors for 2025

- 3.135 To contribute to the objective, the Office will:
- (a) Intensify engagement with regional and international actors, including with members of the Middle East Quartet, to work towards a resolution of the Israeli-Palestinian conflict;
 - (b) Increase engagement with the parties and relevant partners to reduce tensions and violence, and to strengthen the Palestinian Authority, including by supporting the parties to update their economic and administrative relationships and to enact policy reforms;
 - (c) Intensify diplomatic efforts to mitigate and prevent further escalation in Gaza, the occupied West Bank and the region;
 - (d) Continue to work with the parties to uphold their obligations under United Nations resolutions and international law, including reporting to the Security Council on resolution [2334 \(2016\)](#);
 - (e) Support efforts, as part of the recovery and reconstruction of Gaza, to enable the Palestinian Authority to govern effectively across the Occupied Palestinian Territory, of which Gaza remains an integral part, which is critical to achieving the two-State solution;
 - (f) Support the Palestinian Authority in advancing its State-building agenda and strengthening its institutions, including the preparation and conduct of local council, legislative, presidential and Palestinian National Council elections;

- (g) In collaboration with the United Nations country team, continue to coordinate United Nations support to recovery and reconstruction efforts in the Occupied Palestinian Territory, including engaging with relevant international and regional development institutions on coordinated fundraising and priority-setting, improved movement and access for people and goods, and the precarious financial situation of the United Nations Relief and Works Agency for Palestine Refugees in the Near East.
- 3.136 The above-mentioned work is expected to result in:
- (a) Advancement of meaningful negotiations aimed at resolving the Israeli-Palestinian conflict on the basis of the two-State solution and internationally recognized parameters on the final status issues;
 - (b) Implementation of comprehensive conflict prevention activities;
 - (c) Increased economic and institutional stability and governance capacity of the Palestinian Authority and mitigation of the effects of the dire fiscal situation;
 - (d) Provision and distribution of adequate humanitarian assistance to meet the needs of the Palestinian people, including recovery and reconstruction efforts in Gaza;
 - (e) Advancement of a single, democratic, national Palestinian governing authority administering both Gaza and the occupied West Bank;
 - (f) Mobilization of political, financial and technical support for the Occupied Palestinian Territory, including recovery and reconstruction efforts in Gaza.
- 3.137 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The two-State solution remains viable, in line with relevant United Nations resolutions and bilateral agreements;
 - (b) A cessation of hostilities is in place and all parties support de-escalation efforts across the Occupied Palestinian Territory;
 - (c) Governance and security arrangements are in place to enable recovery and reconstruction in Gaza;
 - (d) Israeli and Palestinian interlocutors and regional and international stakeholders continue to engage in meaningful dialogue and cooperation with the Office and the United Nations country team in the performance of their functions;
 - (e) There is increased political support from Member States and financial support from donors;
 - (f) The security situation in the Occupied Palestinian Territory allows for the implementation of humanitarian and development programmes;
 - (g) There is positive progress towards a single, democratic, national Palestinian governing authority;
 - (h) The parties begin to take tangible steps to improve the situation on the ground, as outlined in the recommendations of the Quartet report of 1 July 2016 ([S/2016/595](#), annex).
- 3.138 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue its active engagement, including preventive diplomacy and coordination efforts with key partners, to advance a two-State solution to the Israeli-Palestinian conflict. The Office will remain an active participant in and contributor to the Ad Hoc Liaison Committee for the Coordination of the International Assistance to the occupied Palestinian territory and will continue to coordinate with other Committee members to ensure the efficacy of the forum in recommending tangible actions to both parties. The Office will maintain multilateral cooperation with international partners to support the Palestinian people in the West Bank and Gaza.
- 3.139 With regard to inter-agency coordination and liaison, the Office will continue to lead the coordination of more than 20 United Nations resident and non-resident agencies, funds and programmes in responding to the development and humanitarian needs of the Palestinian people.

The Office will promote policies to improve movement and access for people and goods throughout the Occupied Palestinian Territory. The Office will continue to facilitate inter-agency collaboration, including by promoting and participating in sectoral and thematic working groups, identifying opportunities for improving the socioeconomic conditions in the West Bank, coordinating recovery and reconstruction efforts in Gaza and jointly implementing the United Nations Sustainable Development Cooperation Framework. The Office will coordinate with regional United Nations entities, such as the regional Development Coordination Office, the regional offices of United Nations agencies, funds and programmes and the Economic and Social Commission for Western Asia, to leverage expertise and identify opportunities.

- 3.140 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including through more systematic engagement with women’s and youth groups in support of the implementation of Security Council resolution 1325 (2000). The Office will continue to participate in high-level dialogues on women and peace and security with civil society organizations, Member States and United Nations agencies. The Office will also encourage and support the increased membership and participation of women in Palestinian institutions and as candidates in elections, and will support programmes implemented by the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) and other United Nations entities.
- 3.141 In line with the United Nations Disability Inclusion Strategy, the Office will advocate for the full inclusion of individuals with disabilities in all aspects of United Nations programmes in the Occupied Palestinian Territory.

Programme performance in 2023

Enabling the entry of humanitarian assistance into Gaza

- 3.142 Following the outbreak of hostilities on 7 October 2023 and a complete halt in the movement of people and goods into and out of Gaza, the Office, through its good offices, deepened its engagement with Israeli and Egyptian authorities and the international community to urgently open crossings and enable the delivery of limited humanitarian aid into Gaza. This contributed to the Rafah border crossing opening for limited humanitarian assistance and later the opening of the crossing at Karem Abu Salem/Kerem Shalom, amid further ongoing efforts for the increased entry of humanitarian assistance into Gaza.
- 3.143 Progress towards the objective is presented in the performance measure below (see table 3.42).

Table 3.42
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
–	–	The entry of humanitarian assistance into Gaza was enabled following a complete halt in the movement of people and goods into and out of Gaza, with a daily average of 20 trucks entering Gaza in October, increasing to 84 in November and 100 until 16 December 2023. As from 17 December 2023, the number of trucks entering Gaza increased to a daily average of over 150 trucks

Planned results for 2025

Result 1: improved social and economic linkages across the Occupied Palestinian Territory

Programme performance in 2023 and target for 2025

- 3.144 The Office’s work contributed to 3,718 trucks carrying goods exiting Gaza prior to a complete halt in the movement of people and goods into and out of Gaza following the outbreak of hostilities on 7 October 2023, which exceeded the planned target of 3,000 trucks.
- 3.145 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.XXV).

Figure 3.XXV

Performance measure: number of trucks carrying goods exiting Gaza

^a The performance targets for 2024 and 2025 reflect the current assessment given the situation on the ground.

Result 2: improved Palestinian access to and development across the Occupied Palestinian Territory, including in Area C

- 3.146 The Office’s work contributed to strengthened engagement, including more coordination among stakeholders and with the parties, to address the socioeconomic and development needs in the Occupied Palestinian Territory until September 2023, which did not meet the planned target of collective international efforts to urge both parties to constructively engage to address improved access and development needs in the Occupied Palestinian Territory, in particular the occupied West Bank, including Area C. The target was not met because of intensified movement and access restrictions in Area C.
- 3.147 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.43).

Table 3.43

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Strengthened engagement to address the development needs in the Occupied Palestinian Territory, including Area C	Constructive engagement with both parties to address the development needs in the Occupied Palestinian Territory, including Area C	Stakeholders formulate plans and promote positive steps in Area C, including easing of movement and access restrictions, with a view to improving Palestinian use of productive resources in Area C

Result 3: progress towards a single Palestinian Government administering both Gaza and the occupied West Bank, within the framework of a negotiated two-State solution

Proposed programme plan for 2025

3.148 The renewed hostilities between Israel and Hamas have underscored the urgent need for progress towards a single Palestinian Government that administers both Gaza and the occupied West Bank, within the framework of a negotiated two-State solution based on relevant United Nations resolutions. The reunification of Gaza and the West Bank under a single, democratic, national Government is critical to Palestinian efforts to lead recovery and reconstruction in Gaza and to the advancement of a political process that will end the conflict.

Lessons learned and planned change

3.149 The lesson for the Office was that the criticality of establishing a single Palestinian Government that administers both Gaza and the West Bank within the framework of a two-State solution has to remain at the forefront of the good offices efforts and advocacy of the United Nations. In applying the lesson, the Office will continue and intensify engagement with key partners to promote efforts to advance a two-State solution, including through the establishment of a single Palestinian Government. In particular, this perspective and objective will be integrated across the Office's programmes, including in early recovery and reconstruction efforts in Gaza.

3.150 Expected progress towards the objective is presented in the performance measure below (see table 3.44).

Table 3.44
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	Tangible political and administrative steps taken to ensure that a single Palestinian Government administers the entire Occupied Palestinian Territory, including Gaza	A single Palestinian Government administers the entire Occupied Palestinian Territory, including Gaza

Legislative mandates

3.151 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

48/213 ; 78/121	Assistance to the Palestinian people	78/11	The Syrian Golan
49/88	Middle East peace process	78/77	The occupied Syrian Golan
77/25	Peaceful settlement of the question of Palestine		

Security Council resolutions

- [1860 \(2009\)](#)
- [2334 \(2016\)](#)

Deliverables

3.152 Table 3.45 lists all deliverables of the Office.

Table 3.45

Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	3
1. Report of the Secretary-General to the Security Council on the implementation of Security Council resolution 2334 (2016)	2	2	2	2
2. Report of the Secretary-General to the General Assembly on assistance to the Palestinian people	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	15	24	15	15
3. Security Council briefings on the situation in the Middle East, including quarterly reporting on Security Council resolution 2334 (2016)	12	21	12	12
4. Meeting of the Fifth Committee	1	1	1	1
5. Meeting of the Committee for Programme and Coordination	1	1	1	1
6. Meeting of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Technical materials (number of materials)	2	2	2	2
7. On recommended actions to bring about positive changes on the ground (reports to the Ad Hoc Liaison Committee)	2	2	2	2
C. Substantive deliverables				
Good offices: good offices visits to countries in the region, as well as regular teleconferences for regional de-escalation efforts, enabling of provision and distribution of humanitarian assistance, and recovery and reconstruction efforts in Gaza, and renewed political initiatives to find more durable political solutions to the conflict.				
Consultation, advice and advocacy: consultations with and advocacy to Governments and their accredited representatives, relevant parties, non-governmental and civil society organizations, academia and think tanks to identify and implement strategies to address the deteriorating political, security and economic situation in the occupied West Bank, including East Jerusalem; consultations with the parties and other relevant actors for a cessation of hostilities, to de-escalate tensions in the region and enable the provision and distribution of humanitarian assistance at scale in Gaza; advocacy with the parties and other relevant actors, including key regional actors and members of the Middle East Quartet, on actions and measures to mobilize assistance and resources, advance a political process to return to a path of meaningful negotiations and promote the administration of both Gaza and the West Bank by a single Palestinian Government and advance the two-State solution; advice to Israeli and Palestinian interlocutors on the easing of movement and access constraints in Gaza and the West Bank, including for recovery and reconstruction efforts, and on the implementation of the package of humanitarian and economic interventions for Gaza approved by the Ad Hoc Liaison Committee; and advice to the Palestinian Central Elections Commission.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exchange of information and partnerships with some 80 civil society organizations, academic institutions and non-governmental organizations, and civil society organizations in Israel and the Occupied Palestinian Territory.				
External and media relations: daily press reviews, press conferences in the presence of some 35 international media outlets (television, radio and print); and public statements and press releases for more than 1,500 stakeholders, including diplomatic missions, civil society organizations, think tanks and media personnel.				
Digital platforms and multimedia content: the Office’s website and social media accounts.				

B. Proposed post and non-post resource requirements for 2025

Overview

3.153 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 3.46 to 3.48.

Subtotal	50	–	–	8	8	58	58
Total	68	–	–	10	10	78	78

3.154 Additional details on the distribution of the proposed resources for 2025 are reflected in table 3.49 and figure 3.XXVI.

3.155 As shown in table 3.49, the overall resources proposed for 2025 amount to \$11,095,100 before recosting, reflecting an increase of \$1,015,500 (or 10.1 per cent) compared with the approved budget for 2024. Resource changes result from technical adjustments and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXVI
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

3.156 As shown in table 3.49, resource changes reflect an increase of \$73,700, related to the higher provision at continuing vacancy rates for one Political Affairs Assistant (Local level) and one Close Protection Assistant (Local level) established in 2024 pursuant to General Assembly resolution [78/252](#), which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts.

Other changes

- 3.157 As shown in table 3.49, resource changes reflect an increase of \$941,800, as follows:
- (a) An increase of \$745,800 under posts, related to the proposed establishment of 10 posts (2 Political Affairs Officers (P-3), 1 Security Officer (Field Service), 1 Close Protection Officer (Field Service), 1 Coordination Officer (National Professional Officer), 1 Assistant Development Coordination Officer/Data Management and Results Monitoring and Reporting (National Professional Officer), 1 Staff Assistant (Local level), 1 Political Affairs Assistant (Local level), 1 Security Assistant (Local level) and 1 Driver (Local level)); and the upward reclassification of two posts (1 Head of Gaza Office from P-5 to D-1, and 1 Coordination Officer from P-3 to P-4) (see annex II);
 - (b) An increase of \$38,600 under travel of staff, related to the expected increase in regional travel, including to Lebanon, Saudi Arabia, the United Arab Emirates, Qatar, Egypt and Gaza, to support regional de-escalation efforts and recovery efforts in Gaza, including the return of Palestinian government institutions, and to prevent escalation in the West Bank;
 - (c) An increase of \$10,800 under contractual services, mainly reflecting the requirement for enhancing the Internet bandwidth to secure better performance;
 - (d) A net increase of \$13,000 under general operating expenses, mainly reflecting requirements for security maintenance and utilities at Government House, which is maintained by the United Nations Truce Supervision Organization;

- (e) An increase of \$21,100 under supplies and materials, owing to the increased need for fuel for generators in Gaza, given the anticipated extended power outages following the destruction of the power station during the hostilities;
- (f) A net increase of \$112,500 under furniture and equipment, related mainly to the proposed acquisition of one additional armoured vehicle to support the Office’s operations in Gaza given the escalating security threats, where movement is allowed only in armoured vehicles (\$142,200), partly offset by the deferment of the replacement of some office furniture and equipment, reflecting efforts to reprioritize the Office’s needs.

Other information

- 3.158 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office is integrating environmental management practices into its operations. The Office remains committed to reducing its environmental footprint and integrating environmental management practices into its operations. Once the situation permits, the mission will focus its efforts on utilizing photovoltaic solar energy to reduce dependency on fossil-fuel generators, reduce demand on the overburdened local grid and reduce greenhouse gas emissions; improving building efficiency in terms of energy and water usage through the upgrading of wall insulation and the installation of environmentally-friendly fixtures; and continuing to raise environmental awareness among staff members.
- 3.159 Information on the timely submission of documentation and advance booking for air travel is reflected in table 3.50. The low actual rate in 2023 reflects the escalating tensions prior to the outbreak of hostilities and challenges faced after 7 October, including the rapidly deteriorating situation on the ground, which resulted in the need for urgent travel and confirmations at short notice for meetings with international and regional interlocutors. The Office will continue its efforts to improve the compliance rate by asking managers to implement preventive and monitoring corrective measures to this effect, where possible.

IV. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 3.160 The United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory is responsible for recording, in documentary form, the damage caused to all natural and legal persons concerned as a result of the construction of the wall by Israel in the Occupied Palestinian Territory, including in and around East Jerusalem. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolution [ES-10/17](#). The Assembly, in its resolution [ES-10/17](#), called for the Register of Damage to remain open for registration for the duration of existence of the wall in the Occupied Palestinian Territory, including in and around East Jerusalem.

Programme of work

Objective

- 3.161 The objective, to which the Office of the Register of Damage contributes, is to establish and maintain a Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory, thus contributing to the protection of the legal rights of the Palestinian natural and legal persons affected by the construction of the wall.

Strategy and external factors for 2025

- 3.162 To contribute to the objective, the Office will:
- (a) Process and review the previously collected but not processed claims and present them to the Board of the Register of Damage for its decision;
 - (b) Undertake outreach and claim intake activities in the Occupied Palestinian Territory in relation to public claims and claims of natural persons, by maintaining a presence in the area of operation;
 - (c) Work on promoting the rule of law at the national and international levels, helping Member States to ensure equal access to justice for all claimants in the Occupied Palestinian Territory and make progress towards achieving Sustainable Development Goal 16.
- 3.163 The above-mentioned work is expected to result in:
- (a) An increased number of efficiently processed claims, leading to a reduction in the gap between collected and unprocessed claims;
 - (b) Submission of new claims from Palestinian institutions and individuals;
 - (c) Processed claims decided upon by the Board and included in the Register.
- 3.164 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) There is political will and cooperation on the part of all parties concerned;

- (b) Extrabudgetary resources are available for maintaining a needed presence on the ground;
 - (c) The overall security situation on the ground and in the region allows for the mandate of the Register of Damage to be carried out.
- 3.165 With regard to inter-agency coordination and liaison, the Office will continue to cooperate closely with the United Nations Office for Project Services, which is the key provider of logistical, human and financial resources services in the implementation of outreach and claims collection activities funded by extrabudgetary resources. In addition, the Office will continue its close cooperation with the Department of Political and Peacebuilding Affairs, the United Nations Truce Supervision Organization and the Office for the Coordination of Humanitarian Affairs.
- 3.166 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, consultations will be conducted with local women’s committees in all communities in which outreach and claim intake activities are planned. The Office will continue to pay special attention to informing potential female claimants of the possibility of and requirements for submitting claim forms and will provide them with assistance and guidance in the preparation of their claims, noting that 37 per cent of all claimants are female.
- 3.167 In line with the United Nations Disability Inclusion Strategy, the Office will continue to make special arrangements for the intake of claims from claimants with disabilities. These arrangements include on-site support of claimants, which allows claimants with disabilities to file their claims without having to travel.

Programme performance in 2023

Increased awareness of Palestinian mayors and other officials about public claims

- 3.168 In 2023, the Office of the Register of Damage delivered an online training session on public claims for mayors and other officials of communities affected by the construction of the Wall, which was conducted by the Office’s staff in Vienna with logistical support from the Palestinian National Committee for the Register of Damage. This approach allowed the Office to train and communicate with relevant Palestinian officials, taking into account security risks and movement restrictions on the ground. While it is not envisaged that such online training sessions will replace in-person training in the future, they have proven to be an effective alternative during times when movement in the Occupied Palestinian Territory is restricted or the security situation would not allow for in-person training.
- 3.169 Progress towards the objective is presented in the performance measure below (see figure 3.XXVII).

Figure 3.XXVII

Performance measure: number of Palestinian mayors and other officials with increased awareness about public claims through online training (annual)

Planned results for 2025

Result 1: optimized damage claims review process for faster servicing of claimants

Programme performance in 2023 and target for 2025

3.170 The Office’s work contributed to 3,846 damage claims being processed by the Office, which did not meet the planned target of 4,000 claims. The target was not met due to the increased complexity of damage claims processed. While in the past, the majority of claims processed related to agricultural claims, the Office has been increasingly processing complex public and employment claims.

3.171 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.XXVIII).

Figure 3.XXVIII

Performance measure: number of damage claims processed by the Office of the Register of Damage (annual)

Result 2: decision-making by the Board strengthened by a harmonized submission process

Programme performance in 2023 and target for 2025

3.172 The Office’s work contributed to 6,101 claims having been decided by the Board, which exceeded the planned target of 4,000 claims.

3.173 Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure 3.XXIX).

Figure 3.XXIX

Performance measure: number of claims decided by the Board of the Register of Damage

Result 3: reduced number of unprocessed claims

Proposed programme plan for 2025

3.174 From its inception until 2016, the Office collected more claims annually than it had the capacity to process, thus creating a gap between collected and unprocessed claims over the years. The processing of collected damage claims includes the scanning, data entry, translation, legal review and, when necessary, rectification of claims that require further information from the claimant. Once a claim is fully processed it can be presented to the Board of the Register of Damage for its decision on the inclusion of the claim in the Register. While the gap between collected and unprocessed claims has been decreasing since 2017, the Office continues to undertake efforts to increase the efficiency and effectiveness of the processing of claims.

Lessons learned and planned change

3.175 The lesson for the Office was the need to seek ways to streamline the process, in particular on complex public and employment claims. In applying the lesson, the Office will further develop technical manuals for the legal review of claims in an effort to harmonize and increase the efficiency of the claims review process, and will increase the functionalities of the Register database.

3.176 Expected progress towards the objective is presented in the performance measure below (see figure 3.XXX).

Figure 3.XXX

Performance measure: reduced number of unprocessed claims outstanding for the decision of the Board (annual)

Legislative mandates

3.177 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolution

Figure 3.XXXI
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 3.182 As reflected in table 3.55 (2), extrabudgetary resources amount to \$200,000. The resources would complement regular budget resources and would enable the Office to maintain a presence in the Occupied Palestinian Territory to perform claim intake, outreach and rectification activities. Two Claim Intakers would provide assistance to claimants with the completion of claims forms, outreach by informing potential claimants of the possibility of and requirements for filing a claim, and follow-up with existing claimants if and when additional information is required.
- 3.183 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Other information

- 3.184 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office is integrating environmental management practices into its operations. The Office will strive to tighten environmental management practices by creating awareness among staff regarding individual responsibilities. The Office will also continue to reuse office stationery, such as binders, when feasible, and make efforts towards creating a paperless office environment.
- 3.185 Information on advance booking for air travel is reflected in table 3.58. The Office ensures a high rate of compliance by planning air travel carefully and setting realistic schedules and timelines. In addition, the Office cooperates constructively with its service provider, the United Nations Office at Vienna, thus ensuring an efficient workflow in relation to official travel.

V. United Nations Office to the African Union

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 3.186 The United Nations Office to the African Union was established on 1 July 2010 pursuant to General Assembly resolution [64/288](#). The mandate of the Office is to enhance the partnership between the United Nations and the African Union in the area of peace and security; provide coordinated and consistent United Nations advice to the African Union on long-term capacity-building and short-term operational support matters; and enhance coherence and efficiency in delivering United Nations assistance to the African Union. In its resolutions [2033 \(2012\)](#), [2167 \(2014\)](#), [2320 \(2016\)](#), [2378 \(2017\)](#) and [2457 \(2019\)](#), the Security Council called upon the United Nations to strengthen the cooperation between the United Nations and the African Union, including in the areas of mediation, capacity-building and, in particular, the operationalization of the African Peace and Security Architecture and implementation of the Silencing the Guns initiative.
- 3.187 The Office provides a mechanism for cooperation at the regional level, primarily with the African Union and subregional organizations throughout Africa. It seeks to build a common United Nations-African Union understanding of the causes and drivers of armed conflicts and potential armed conflicts, from which collaborative initiatives to prevent, manage and resolve armed conflicts can be developed.

Programme of work

Objective

- 3.188 The objective, to which the Office contributes, is to strengthen the United Nations-African Union partnership for peace and security in Africa.

Strategy and external factors for 2025

- 3.189 To contribute to the objective, the Office will:
- (a) Support the implementation of the priorities of the African Peace and Security Architecture and the African Governance Architecture, and their operationalization, through conflict prevention, crisis/conflict management, post-conflict reconstruction and peacebuilding, a focus on strategic security issues, and coordination and partnership;
 - (b) Support regular, formal and informal engagements between the policy organs of the African Union, including the Peace and Security Council and the Permanent Representatives Committee, with the United Nations, including the Security Council and the Peacebuilding Commission;
 - (c) Engage with the African Union at senior and operational levels on political and operational priorities through the United Nations-African Union annual conference, the United Nations-African Union Joint Task Force on Peace and Security, and the annual United Nations-African Union consultative meeting on prevention and management of conflicts;
 - (d) Conduct good offices missions to address peace and security challenges, including with regard to dispute resolution and elections, upon request by the African Union;
 - (e) Maintain regular interaction between the United Nations and the African Union, regional economic communities and regional mechanisms, as well as with Member States, on thematic and country-specific situations, including in support of the African Union early warning mechanism;

- (f) Build institutional capacities of the African Union Commission to prevent, manage and respond to armed conflicts and address root causes of conflict in Africa, including by strengthening the capabilities of the African Union with regard to early warning and mediation;
 - (g) Support African Union efforts to advance implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security, including by supporting efforts in addressing conflict-related sexual violence and enhancing the participation of women in peace and security processes;
 - (h) Support the implementation of the African Union Continental Framework for Youth, Peace and Security, including its Ten-Year Implementation Plan for 2020–2029;
 - (i) Support African Union efforts in advocating for the effective operationalization of relevant accountability frameworks for parties involved in armed conflict;
 - (j) Collaborate with the African Union to implement Security Council resolution [2719 \(2023\)](#).
- 3.190 The above-mentioned work is expected to result in:
- (a) Strengthened strategic coherence and collaboration between the African Union, the United Nations and other partners in addressing Africa’s peace and security challenges, including the root causes of conflicts;
 - (b) Strengthened ability of the African Union, the African Union Commission, the regional economic communities and the regional mechanisms with regard to conflict prevention, management and resolution, including the capacity of the African Union to plan and manage its peace operations.
- 3.191 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) There is continued political will and commitment by the United Nations and the African Union in promoting cooperation with regional and subregional organizations in peace and security;
 - (b) The African Union will continue to develop the human and financial capacity necessary to effectively deliver on mandates to address peace and security challenges in Africa;
 - (c) Extrabudgetary funding is available.
- 3.192 With regard to cooperation with other entities at the global, regional and national levels, the Office will maintain relationships with external partners and stakeholders, taking into consideration priorities expressed in Agenda 2063: The Africa We Want and relevant policy documents, the 2030 Agenda and the Joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security. The Office will further maintain regular interaction on thematic and country-specific issues and advance common United Nations and African Union positions, while enhancing coordination and synergies between key partners, such as the European Union, regional economic communities and regional mechanisms.
- 3.193 With regard to inter-agency coordination and liaison, the Office will continue to lead or support coordination mechanisms with United Nations entities to ensure coherence in delivering assistance to the African Union. The Office will also engage with relevant opportunities and issue-based coalitions of the Regional Collaborative Platform for Africa.
- 3.194 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. A key focus will be on strengthening cooperation with the United Nations and the African Union to institutionalize gender-sensitive policymaking and programming. The Office will continue to support the full, equal and meaningful participation of women in preventive diplomacy, mediation, elections and early warning systems, and the deployment of women in peace support operations. This includes further mainstreaming the women and peace and security agenda in joint initiatives with the African Union Commission and subregional organizations.
- 3.195 In line with the United Nations Disability Inclusion Strategy, the Office will provide support to the African Union to enhance the inclusion of persons with disabilities in regional and national peace and security initiatives.

Programme performance in 2023

Progress on the adoption of key African Union policies to align its peace support operations with international standards

- 3.196 The African Union, with the technical support of the United Nations Office to the African Union, has aligned its peace support operations with international standards, through the adoption of key policies by the African Union Specialized Technical Committee on Defence, Safety and Security, such as the policy on selection and screening of personnel for African Union peace support operations, the African Union policy on protection of civilians, and the African Union strategic framework for compliance and accountability in peace support operations and the conduct and discipline policy. These ensure that personnel deployed in these operations are well prepared and adhere to stringent criteria that prioritize the safety and protection of civilians. The Office supported the African Union, including by sharing best practices and technical assistance in the development of these policies. Their adoption marks a milestone in fostering safer environments for civilians and promoting peace and security.
- 3.197 Progress towards the objective is presented in the performance measure below (see table 3.59).

Table 3.59

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)

Planned results for 2025

Result 1: strengthened implementation of the women and peace and security agenda

Programme performance in 2023 and target for 2025

- 3.198 The Office's work contributed to the advancement by the African Union of the women and peace and security agenda through the development of a draft curriculum on integrating a gender perspective into security sector reform, which met the planned target.
- 3.199 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.60).

Table 3.60

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Increased public awareness of the women and peace and security agenda through the “She Stands for Peace” podcast series (22 episodes)	Further integration of the women and peace and security agenda into African Union peace support operations, with mainstreaming of a gender perspective as an integral element and prerequisite for all	Advancement by the African Union of the women and peace and security agenda, through the development of a draft curriculum on integrating a gender perspective into	Implementation of Security Council resolution 1325 (2000) in the areas of protection, recovery and resolution	Implementation by the African Union of Security Council resolution 1325 (2000), emphasizing women's roles in peacebuilding

Section 3 Political affairs

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Improved capacity of the African Union to provide training on violence against women and girls	training, including the African Standby Force	security sector reform		
Enhanced capacity of African Union Commission experts on mediation and gender-sensitive conflict analysis	The African Union, other partners and the general public have access to a third series of the “She Stands for Peace” podcast and a second “She Stands for Peace” publication			

Result 2: progress towards predictable and sustainable funding for African Union peace support operations

Programme performance in 2023 and target for 2025

- 3.200 The Office’s work contributed to the consideration by the Security Council of issues on the financing of African Union peace support operations (see [S/2023/303](#)), which met the planned target. Subsequently, the Council adopted resolution [2719 \(2023\)](#). The Office’s work also contributed to the development of draft joint African Union-United Nations planning guidelines and the adoption by the African Union of a consensus paper on predictable, adequate and sustainable financing for African Union peace and security activities, which met the planned targets.
- 3.201 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.61).

Table 3.61
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	The Security Council requested ^a an update on progress made so far by the United Nations and the African Union to fulfil the commitments as set out in Security Council resolutions 2320 (2016) and 2378 (2017) , and recommendations on moving forward that reflect good practices and lessons learned, with a view to securing predictable, sustainable and flexible resources	Consideration by the Security Council of issues on the financing of African Union peace support operations (see S/2023/303), and adoption of Security Council resolution 2719 (2023) Development of draft joint African Union-United Nations planning guidelines Adoption by the African Union of a consensus paper on predictable, adequate and sustainable financing for African Union peace and security activities	Implementation of the joint planning guidelines The African Union takes further steps to implement recommendations of the Security Council	Establishment of a joint United Nations-African Union operational framework for the implementation of Security Council resolution 2719 (2023)

^a [S/PRST/2022/6](#).

Result 3: advanced youth involvement in peace and security initiatives in Africa

Proposed programme plan for 2025

3.202 The Office works closely with the African Union to enhance the role of young people in peace efforts through the Joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security. The Office supports the African Union in the implementation of youth-focused programmes, such as the Continental Framework for Youth, Peace and Security and the Youth Ambassadors for Peace initiatives, to protect the rights of young people and amplify their voices in peacebuilding.

Lessons learned and planned change

3.203 The lesson for the Office was that engaging with youth and helping to ensure that their voices are heard in relevant processes is important for the sustainability of peace and political processes. In applying the lesson, the Office will strengthen its support for African Union efforts to engage Africa’s youth in conflict prevention and resolution and harness the continent’s demographic dividend for peacebuilding. The Office will support the WiseYouth initiative and the Youth for Peace programme of the African Union and provide technical assistance to the African Union in support of its member States for the development of national action plans on youth, peace and security.

3.204 Expected progress towards the objective is presented in the performance measure below (see table 3.62).

Table 3.62
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	The African Union adopted the Bujumbura Declaration on youth, peace and security in Africa	The African Union supported its member States to integrate the Continental Framework for Youth, Peace and Security into national policies and processes	Induction and training by the African Union of the second cohort of the African Youth Ambassadors for Peace to support the Youth for Peace programme	10 African Union member States develop national action plans on youth, peace and security

Legislative mandates

3.205 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

52/220	Questions relating to the proposed programme budget for the biennium 1998–1999	65/274; 67/302	Cooperation between the United Nations and the African Union
60/268	Support account for peacekeeping operations	71/270	Review of the United Nations Office to the African Union
64/288	Financing of the United Nations Office to the African Union		

Security Council resolutions

1325 (2000)	2378 (2017)
2033 (2012)	2457 (2019)
2167 (2014)	2710 (2023)
2250 (2015)	2719 (2023)
2320 (2016)	

Deliverables

3.206 Table 3.63 lists all deliverables of the Office.

Table 3.63

United Nations Office to the African Union: deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Secretary-General to the Security Council on strengthening the partnership between the United Nations and the African Union on issues of peace and security in Africa, including the work of the United Nations Office to the African Union	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	15	10	10	11
2. Annual joint consultative meeting of the Security Council and the African Union Peace and Security Council	2	2	2	2
3. Coordination meetings of the Security Council and the African Union Peace and Security Council	10	5	5	6
4. Meetings of the Fifth Committee	1	1	1	1
5. Meetings of the Committee for Programme and Coordination	1	1	1	1
6. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	116	135	100	100
7. United Nations-African Union training course on conflict analysis and mediation	28	28	–	–
8. Training events for the African Union Mediation Support Unit on current methods and trends in mediation	9	10	10	10
9. Training events for the secretariat of the African Union Peace and Security Council on current issues and trends in peace and security	5	5	10	10
10. Media workshop on the Joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security for press attachés and local/regional/international media practitioners	6	1	–	–
11. Training events for African Union peace support operations on military, police and civilian strategic support concepts	48	71	60	60
12. Seminars and workshops for experts and officials of African Union member States on mediation, post-conflict reconstruction and development, security sector reform, disarmament, demobilization and reintegration, election, and border programmes of the African Union	20	20	20	20
Technical materials (number of materials)	13	17	8	13
13. Joint United Nations-African Union technical review of and assessment reports on African Union peace support operations	6	6	1	6
14. Policies and guidance documents in support of the African-led peace support operations	5	8	5	5
15. Peace and security-related policies and guidelines in support of the implementation of the African Peace and Security Architecture and conflict prevention, management and resolution	2	3	2	2
C. Substantive deliverables				
Good offices: support for the African Union in mediation and conflict prevention efforts; and one joint regional visit by the representatives of the African Union, the United Nations and regional economic communities for conflict analysis and early intervention.				

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

Consultation, advice and advocacy: advice, in collaboration with the African Union Commission, to five regional economic communities and regional mechanisms on the development and harmonization of the African Peace and Security Architecture; advisory services and support to advance the implementation of the youth, peace and security and the women and peace and security agendas; 20 briefings to the African Union Peace and Security Council on peace and security issues; advice to the African Union and relevant stakeholders on processes to support the financing of African Union peace support operations, including the implementation of Security Council resolution [2719 \(2023\)](#); advice and advocacy to the Open-ended Group of Friends of the United Nations-African Union partnership; and substantive and technical advice to the Peace Fund.

D. Communication deliverables

Outreach programmes, special events and information materials: International Women’s Day, International Youth Day, Africa Day, International Day of United Nations Peacekeepers and International Day of Peace; information materials, flyers, roll-up banners and infographic documents; quarterly public newsletter of the Office; and information circular submitted every two weeks to the African Union Peace and Security Council on relevant Security Council resolutions and decisions.

Digital platforms and multimedia content: website and social media accounts; and online platform showcasing United Nations-African Union partnership activities.

B. Proposed post and non-post resource requirements for 2025

Overview

3.207 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 3.64 to 3.66.

Table 3.64

Overall: evolution of financial resources by object of expenditure

Total	6	–	–	–	–	–	6

3.208 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 3.67 to 3.69 and figure 3.XXXII.

3.209 As shown in tables 3.67 (1) and 3.68 (1), the overall resources proposed for 2025 amount to \$1,392,200 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Total		6	–	–	–	–	6

Figure 3.XXXII
Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

3.210 As reflected in tables 3.67 (2) and 3.68 (2), other assessed resources amount to \$9,851,100. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2024 to 30 June 2025 (A/78/746).

Extrabudgetary resources

3.211 As reflected in tables 3.67 (3) and 3.68 (3), no extrabudgetary resources are expected in 2025 due to the discontinuation of donor funding.

Other information

3.212 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office is integrating environmental management practices into its operations. The Office will continue to integrate environment-friendly management practices by continuing to deploy printers with energy-efficient technological capacity and levels, thus providing a low energy footprint, and by installing software on printers for monitoring printing levels.

3.213 Information on advance booking for air travel is reflected in table 3.70. The majority of official travel by the Office is in support of joint initiatives with the African Union, the regional economic communities and other partners. Notification or approval of such travel is often not received within time frames that would comply with the United Nations stipulations on travel. The Office will continue to endeavour to ensure that notification or approval of travel in support of joint activities with strategic partners is received within timelines that would enable compliance with the stipulated requirements. The Office will also continue to raise awareness of this obligation among its strategic partners.

VI. Office of Counter-Terrorism

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

- 3.214 Pursuant to General Assembly resolution [71/291](#), and as reaffirmed by the Assembly in its resolution [77/298](#), on the eighth review of the United Nations Global Counter-Terrorism Strategy, the Office of Counter-Terrorism is responsible for five main functions: providing leadership on the General Assembly counter-terrorism mandates entrusted to the Secretary-General; enhancing coordination and coherence across the United Nations system to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; strengthening delivery of United Nations counter-terrorism capacity-building assistance to Member States; improving the visibility of, and advocacy and resource mobilization for, United Nations counter-terrorism efforts; and ensuring that due priority is given to counter-terrorism across the United Nations system and that work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy.
- 3.215 The United Nations Global Counter-Terrorism Strategy (General Assembly resolution [60/288](#)) is composed of four pillars, in the form of measures to: address the conditions conducive to the spread of terrorism; prevent and combat terrorism; build States' capacity to prevent and combat terrorism and to strengthen the role of the United Nations system in this regard; and ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism. The mandate of the Office derives from the priorities established in the Strategy and subsequent review resolutions adopted by the General Assembly, including resolution [75/291](#), and other relevant General Assembly and Security Council resolutions, including Security Council resolution [2617 \(2021\)](#).
- 3.216 The Office acts as secretariat for the United Nations Global Counter-Terrorism Coordination Compact, which promotes action-oriented collaboration within the United Nations system and serves as a platform for joint programming, coherent monitoring and evaluation, and facilitation of joint resource mobilization and outreach to donors. This enhanced coordination, cooperation and coherence supports the Secretary-General's "all-of-United Nations" approach.

Programme of work

Objective

- 3.217 The objective, to which the Office contributes, is to prevent and counter terrorism in all its forms and manifestations, as well as violent extremism as and when conducive to terrorism, in compliance with international law.

Strategy and external factors for 2025

- 3.218 To contribute to the objective, the Office, guided by its strategic plan for the period 2022–2025, will:
- (a) Provide leadership for the General Assembly counter-terrorism mandates entrusted to the Secretary-General and convene high-level international and regional conferences and outreach events for Member States, international and regional organizations, and civil society to exchange information, expertise and resources, develop partnerships and collectively address a range of counter-terrorism issues;

- (b) Enhance coordination and coherence across the Compact entities to support the counter-terrorism efforts of Member States, including by strengthening the response to technical assistance needs identified by the Counter-Terrorism Committee Executive Directorate and to requests from various Member States;
 - (c) Provide technical and capacity-building assistance to requesting Member States, including through its presences away from Headquarters, in a focused, integrated and coordinated manner, and reinforce resource mobilization activities with donors;
 - (d) Conduct research, identify and disseminate new and innovative programme management methodologies, best practices and lessons learned, and embed evidence-informed delivery as a foundation for its technical assistance work;
 - (e) Strengthen the capacity of Member States to ensure respect for human rights and the rule of law while countering terrorism, in accordance with the fourth pillar of the United Nations Global Counter-Terrorism Strategy;
 - (f) Support parliamentarians and strengthen outreach to civil society organizations, including youth and women's organizations, in preventing and countering terrorism and violent extremism conducive to terrorism.
- 3.219 The above-mentioned work is expected to result in:
- (a) Multilateral cooperation against terrorism, and strengthened partnerships with and among Member States, international and regional organizations, civil society, the private sector and academia for a whole-of-society approach to counter-terrorism and the prevention of violent extremism conducive to terrorism;
 - (b) Implementation by Member States of relevant General Assembly and Security Council resolutions related to countering terrorism and preventing violent extremism conducive to terrorism, including by building greater resilience and reinforcing responses to terrorist threats and attacks;
 - (c) Enriched international and multisectoral policy discourse in support of greater prioritization and coherence on counter-terrorism and the prevention of violent extremism conducive to terrorism;
 - (d) Integration of human rights norms and standards in relevant measures taken in the context of preventing and countering terrorism and violent extremism conducive to terrorism, in requesting Member States.
- 3.220 With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States will continue to request support from the United Nations in preventing and countering terrorism and violent extremism conducive to terrorism;
 - (b) Extrabudgetary resources for capacity-building support for Member States will be available;
 - (c) Member States, supported by the Office, will grant the necessary official approvals and access to enable implementation and delivery of this support.
- 3.221 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to cooperate with the Global Counterterrorism Forum and specialized international and regional organizations, such as the African Union, the Association of Southeast Asian Nations, the Caribbean Community, the Collective Security Treaty Organization, the Anti-Terrorism Centre of the Commonwealth of Independent States, the European Union, the League of Arab States, the North Atlantic Treaty Organization, the Organization of American States, the Organization for Security and Cooperation in Europe, the Organization of Islamic Cooperation and the Regional Anti-Terrorist Structure of the Shanghai Cooperation Organization. The Office will continue to implement existing and develop new partnership frameworks to support joint approaches

to promote the implementation of the United Nations Global Counter-Terrorism Strategy and regional counter-terrorism strategies.

- 3.222 With regard to inter-agency coordination and liaison, the Office leads the United Nations Global Counter-Terrorism Coordination Compact, which includes 47 entities, including 43 United Nations entities and the International Criminal Police Organization, the Financial Action Task Force, the Inter-Parliamentary Union and the World Customs Organization, as member or observer entities. The Compact comprises eight thematic working groups specialized in priority areas relating to preventing and countering terrorism and violent extremism conducive to terrorism, aligned with the four pillars of the United Nations Global Counter-Terrorism Strategy. The Office will continue to strengthen the coordination of counter-terrorism efforts through consultative inter-agency efforts with the United Nations country teams and resident coordinators, in cooperation with respective host countries, and use its coordination role to strengthen existing partnerships and initiate new ones for multi-stakeholder collaboration at the national, regional and global levels. The Office will continue to advocate an approach that prioritizes joint programming with other United Nations partners to maximize the use of resources and deliver more coherent and expert capacity-building activities, including in the field, in close coordination with the resident coordinator system.
- 3.223 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including through the implementation of its policy and action plan for gender mainstreaming. The Office will provide technical assistance in line with the women and peace and security agenda and the United Nations Global Counter-Terrorism Strategy and its reviews, and informed by gender-sensitive analysis.
- 3.224 In line with the United Nations Disability Inclusion Strategy, the Office will integrate disability inclusion within its programmatic and policy functions, including modalities to reflect disability considerations in programme design and the implementation of evaluations.

Evaluation activities

- 3.225 A midterm independent joint evaluation of the United Nations Countering Terrorist Travel Programme, managed by the Office of Counter-Terrorism and the United Nations Office on Drugs and Crime and completed in 2023, has guided the proposed programme plan for 2025.
- 3.226 In response to the results of the evaluation referenced above, the Countering Terrorist Travel Programme developed a dedicated scenario-based training module for national counterparts on integrating a gender perspective into the handling of advance passenger information and passenger name record data and systems. In response to a recommendation to improve engagement with funding partners, the Programme convened a dedicated meeting with all donors during the third Counter-Terrorism Week, in June 2023, to discuss Programme and donor priorities, as well as funding needs, and streamline reporting requirements. The Office of Counter-Terrorism will continue this collective dialogue with funding partners on an ongoing basis, including through subsequent Counter-Terrorism Weeks and other outreach activities.
- 3.227 The following evaluations are planned for 2025:
- (a) Midterm evaluation of the Global Counter-Terrorism Investigations Programme;
 - (b) Final evaluation of the project on enhancing the capacity of selected counter-terrorism entities in Africa to prevent and counter terrorism and use national-level inter-agency coordination mechanisms under the Global Fusion Cells Programme;
 - (c) Midterm evaluation of the European Union-United Nations Global Terrorism Threats Facility.

Programme performance in 2023

Member States establish national inter-agency coordination mechanisms

- 3.228 Connecting pieces of information from different parts of the Government in a timely manner is a critical aspect of addressing terrorism threats. In line with relevant Security Council resolutions, including 2462 (2019) and 2482 (2019), and in response to Member States' requests for support relating to intra- and inter-agency cooperation on intelligence, analysis and investigations, the Office launched in 2020 a multi-year global programme on national inter-agency coordination mechanisms (the Global Fusion Cells Programme).
- 3.229 The Programme has developed a compendium of good practices and related guidelines on establishing and operating a national inter-agency coordination mechanism, including seven study guides, and a 13-week modular training portfolio offering 12 courses to Member State analysts. Since 2020, the Programme has provided training to over 1,400 participants from 32 African intelligence and law enforcement agencies, and, based on its post-training assessment, 100 per cent of trainees' managers indicate that their trained staff are performing better as a direct result of the training programme.
- 3.230 The Office has also expanded its support for inter-agency coordination mechanisms in Africa, culminating in 2023 in the Marrakesh Platform, a meeting of 37 African heads of counter-terrorism and security agencies, co-chaired by the Office and Morocco.
- 3.231 Progress towards the objective is presented in the performance measure below (see figure 3.XXXIII).

Figure 3.XXXIII

Performance measure: number of national inter-agency coordination mechanisms established by Member States in Africa (cumulative)

Planned results for 2025

Result 1: enhanced protection and assistance for victims of terrorism

Programme performance in 2023 and target for 2025

- 3.232 The Office's work contributed to the launch of the pilot project on the Model Legislative Provisions to Support the Needs and Protect the Rights of Victims of Terrorism in one Member State, and the initiation of the formal discussions with another Member State, which did not meet the planned target of increased capacity in two additional Member States to develop national comprehensive assistance plans for victims anchored in legal frameworks. The target was not met due to the need for further discussions to identify candidates for assistance.
- 3.233 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.71).

Table 3.71
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Increased awareness of Member States on the importance of anchoring national plans into legal frameworks to ensure holistic and victim-centric approaches in counter-terrorism efforts	First United Nations Global Congress of Victims of Terrorism to review existing practices and make recommendations to better protect victims' rights and needs Member States have access to the Model Legislative Provisions to Support the Needs and Protect the Rights of Victims of Terrorism	Launch of the pilot project on the Model Legislative Provisions to Support the Needs and Protect the Rights of Victims of Terrorism in one Member State Initiation of the formal discussions with another Member State	International conference on victims of terrorism to review progress made in implementing recommendations from the first United Nations Global Congress of Victims of Terrorism Two Member States develop national comprehensive assistance plans for victims anchored in legal frameworks	Victims of terrorism have access to tools and guidance on their rights, and assistance and support mechanisms available to them, through the Office's victims of terrorism associations network

Result 2: enhanced coordination and coherence among United Nations Global Counter-Terrorism Coordination Compact entities, regional organizations and other partners to support the counter-terrorism efforts of Member States

Programme performance in 2023 and target for 2025

- 3.234 The Office's work contributed to strengthened cooperation between the Global Counterterrorism Forum and the United Nations Global Counter-Terrorism Coordination Compact through direct interaction between respective working groups; the participation by members of the Compact working groups at the twenty-first and twenty-second meetings of the Global Counterterrorism Forum Coordinating Committee and the thirteenth Ministerial Plenary Meeting of the Forum; and the convening of two joint Partnership Consultations, which met the planned target.
- 3.235 Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 3.72).

Table 3.72
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
The seventh meeting of the Coordination Committee of the United Nations Global Counter-Terrorism Coordination Compact approved the seven practical steps for working groups to enhance	Enhanced engagement between United Nations Global Counter-Terrorism Coordination Compact entities and Member States, with information exchange between over 1,000 focal points from 45 Compact entities,	Strengthened cooperation between the Global Counterterrorism Forum and the Compact, as evidenced by direct interaction between respective working groups	Strengthened engagement by civil society organizations and other actors, as evidenced by their increased participation in each of the eight United Nations Global Counter-Terrorism	Strengthened engagement by regional and subregional organizations on issues covered by the Compact working groups

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
regional coordination through the Compact	136 Member States and 13 regional organizations		Coordination Compact working groups	

Result 3: Member States advance their efforts in countering terrorist use of weapons

Proposed programme plan for 2025

3.236 In line with the United Nations Global Counter-Terrorism Strategy, adopted by the General Assembly in its resolution [60/288](#), and other relevant resolutions, including resolution [77/298](#) on the most recent review, the Office’s Global Programme on Countering Terrorist Use of Weapons supports Member States to prevent terrorists from accessing and using weapons, materials or components and seeks to ensure that Member States are better prepared for, and can more effectively respond to, a terrorist attack involving weapons of mass destruction, nuclear, chemical, biological or radiological weapons or materials, small arms and light weapons, improvised explosive devices and unmanned aircraft systems. From 2021 until the end of 2023, the Programme reached more than 5,000 representatives from over 100 Member States through capacity-building and awareness-raising. The Office has also developed a global training portfolio with 20 courses and implemented 10 multi-year projects at the global, regional and national levels. Achievements in 2022 and 2023 included the development by one Member State of a national crisis response plan, which included the response to terrorist use of chemical, biological, radiological and nuclear weapons and materials, and was tested through three field exercises with 2,500 participants. Furthermore, two Member States ratified the International Convention for the Suppression of Acts of Nuclear Terrorism following advocacy events with national parliaments organized under the Programme.

Lessons learned and planned change

3.237 The lesson for the Office was the need to enhance cooperation and information-sharing among national and regional stakeholders on efforts to counter terrorist use of weapons, as well as to provide targeted support to Member States on the basis of identified threats and risks. In applying the lesson, the Office will implement national and regional activities under the Programme, bringing together the relevant entities to enable the sharing of best practices and close information gaps.

3.238 Expected progress towards the objective is presented in the performance measure below (see figure 3.XXXIV).

Figure 3.XXXIV

Performance measure: number of Member States reporting increased capacities to prevent, prepare for and respond to terrorist use of conventional and non-conventional weapons (annual)

Legislative mandates

3.239 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the Office.

General Assembly resolutions

60/288; 62/272; 64/297	United Nations Global Counter-Terrorism Strategy	73/305	Enhancement of international cooperation to assist victims of terrorism
66/10	United Nations Counter-Terrorism Centre	75/291	The United Nations Global Counter-Terrorism Strategy: seventh review
66/282; 68/276; 70/291; 72/284	The United Nations Global Counter-Terrorism Strategy Review	77/64	Countering the threat posed by improvised explosive devices
70/254	Secretary-General's Plan of Action to Prevent Violent Extremism	77/243	International Day for the Prevention of Violent Extremism as and when Conducive to Terrorism
71/291	Strengthening the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy	77/298	The United Nations Global Counter-Terrorism Strategy: eighth review
72/165	International Day of Remembrance of and Tribute to the Victims of Terrorism		

Security Council resolutions

1373 (2001)	2395 (2017)
1540 (2004)	2396 (2017)
2322 (2016)	2462 (2019)
2341 (2017)	2482 (2019)
2368 (2017)	2617 (2021)
2370 (2017)	

Deliverables

3.240 Table 3.73 lists all deliverables of the Office.

Office of Counter-Terrorism: deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	4	3	2	2
Report of the Secretary-General to:				
1. The General Assembly on the implementation of the United Nations Global Counter-Terrorism Strategy by the United Nations system	1	1	–	–
2. The Security Council on the threat posed by Islamic State in Iraq and the Levant (ISIL, also known as Da'esh)	2	2	2	2
3. The General Assembly on progress made by the United Nations system in supporting Member States in assisting victims of terrorism	1	–	–	–
Substantive services for meetings (number of three-hour meetings)	42	38	17	17
4. Meeting of the General Assembly on the review of the United Nations Global Counter-Terrorism Strategy	26	26	–	–
5. Briefings to the General Assembly on the work of the Office of Counter-Terrorism	4	3	4	4
6. Briefings to the Security Council	2	2	2	2

Part II Political affairs

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
7. Briefings to the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism (Counter-Terrorism Committee)	2	2	4	4
8. Briefings to the Advisory Board of the United Nations Counter-Terrorism Centre	5	2	4	4
9. Meetings of the Fifth Committee	1	1	1	1
10. Meetings of the Committee for Programme and Coordination	1	1	1	1
11. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	545	450	833	520
12. High-level conference on issues relating to counter-terrorism	7	9	9	3
13. Regional conferences on technical issues relating to counter-terrorism	32	8	23	15
14. Capacity-building training and workshops on technical thematic issues	506	433	801	502
Technical materials (number of materials)	11	6	34	14
15. On lessons learned, best practices and thematic topics in implementing the United Nations Global Counter-Terrorism Strategy	11	6	34	14
C. Substantive deliverables				
Consultation, advice and advocacy: advocacy initiatives; consultations with an estimated 110 Member States on global, regional and national priorities and strategies; quarterly briefings to Member States; Counter-Terrorism Week.				
Databases and substantive digital materials: United Nations Global Counter-Terrorism Coordination Platform, connecting focal points of 47 United Nations Global Counter-Terrorism Coordination Compact entities (United Nations and non-United Nations entities), 137 Member States and 14 regional organizations; “Connect & Learn” platform, with online training and communities of practice for approximately 4,300 members.				
D. Communication deliverables				
Outreach programmes, special events and information materials: three regional conferences, as well as special commemorative events, launch events, side events and exhibitions; monthly newsletters on the work of the Office, bimonthly newsletters and annual newsletter and report on the United Nations Global Counter-Terrorism Coordination Compact, and other promotional materials.				
External and media relations: approximately 50 press releases, media interviews and other engagement with media.				
Digital platforms and multimedia content: content for the Office’s website and social media accounts, including approximately 100 web stories and 20 videos.				

B. Proposed post and non-post resource requirements for 2025

Overview

3.241 The proposed regular budget resources for 2025, including the breakdown of resource changes, as applicable, are reflected in tables 3.74 to 3.76.

Table 3.74

Overall: evolution of financial resources by object of expenditure

3.242 Additional details on the distribution of the proposed resources for 2025 are reflected in tables 3.77 to 3.79 and figure 3.XXXV.

3.243 As shown in tables 3.77 (1) and 3.78 (1), the overall resources proposed for 2025 amount to \$11,094,500 before recosting, reflecting no change compared with the approved budget for 2024. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXXV

Distribution of proposed resources for 2025 (before recosting)

(Number of posts/thousands of United States dollars)

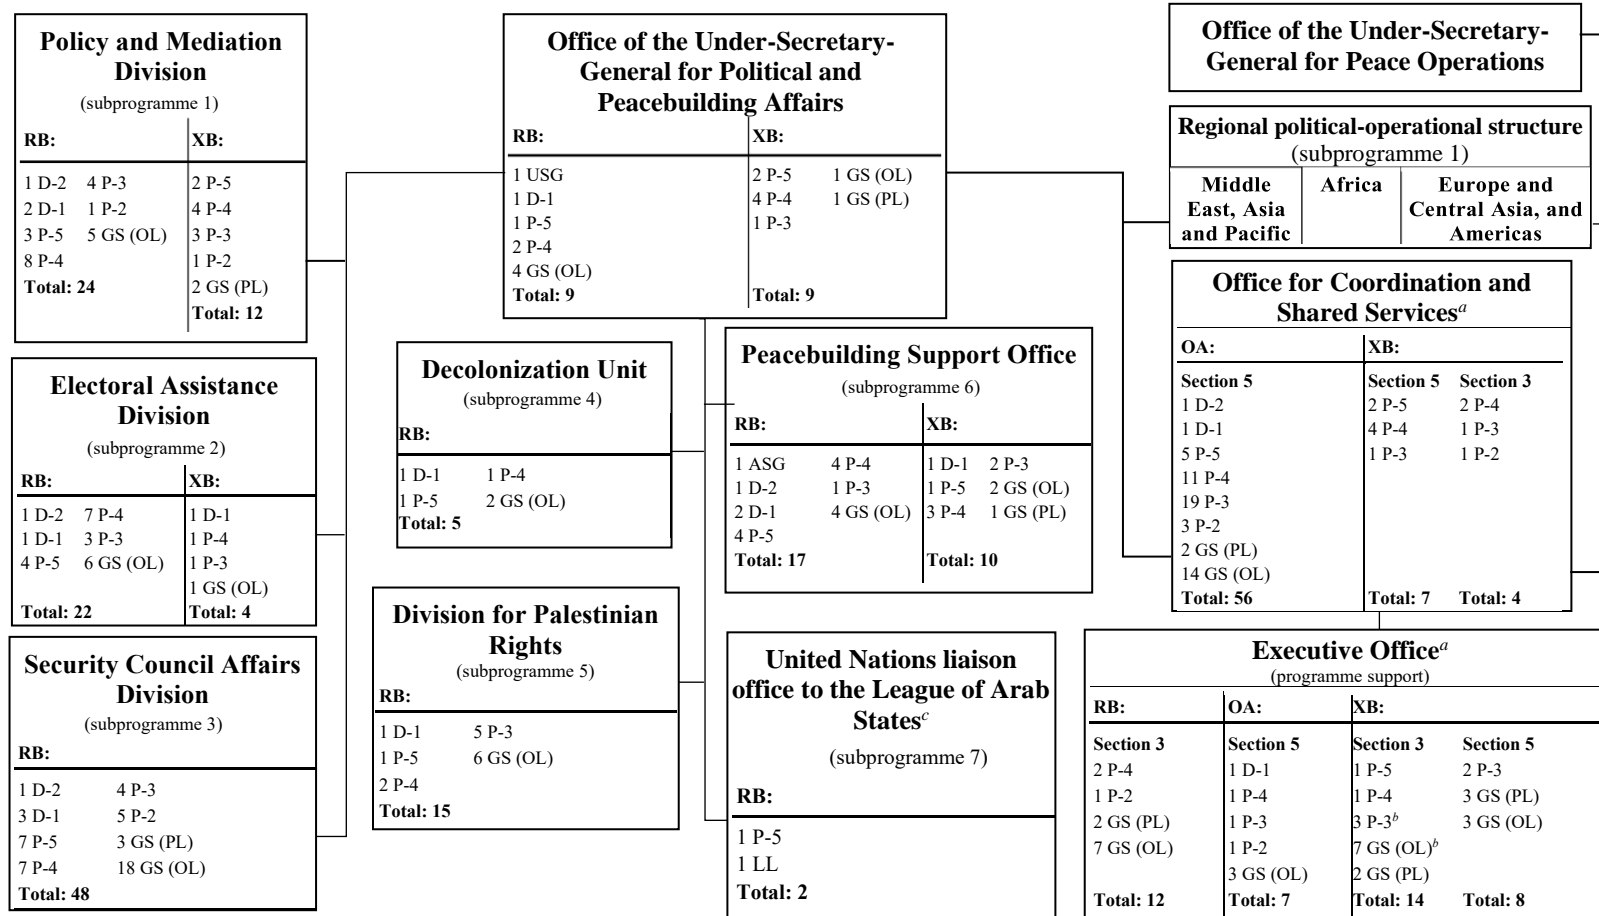

Extrabudgetary resources

- 3.244 As reflected in tables 3.77 (2) and 3.78 (2), extrabudgetary resources amount to \$37,190,900. The resources would complement regular budget resources and would be used mainly to provide for 140 posts (1 D-1, 13 P-5, 41 P-4, 41 P-3, 8 P-2/1, 6 National Professional Officer, 1 General Service (Principal level) and 29 General Service (Other level)) and non-post resources that would be used mainly to strengthen the Office's field presence and support to Member States and would also continue to be used to develop innovative ways to deliver capacity-building assistance to Member States.
- 3.245 The Office also receives in-kind voluntary contributions, including for office space, furniture and equipment, parking and operational services, with an approximate value of \$520,500.
- 3.246 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Annex I

Organizational structure and post distribution for 2025

A. Department of Political and Peacebuilding Affairs

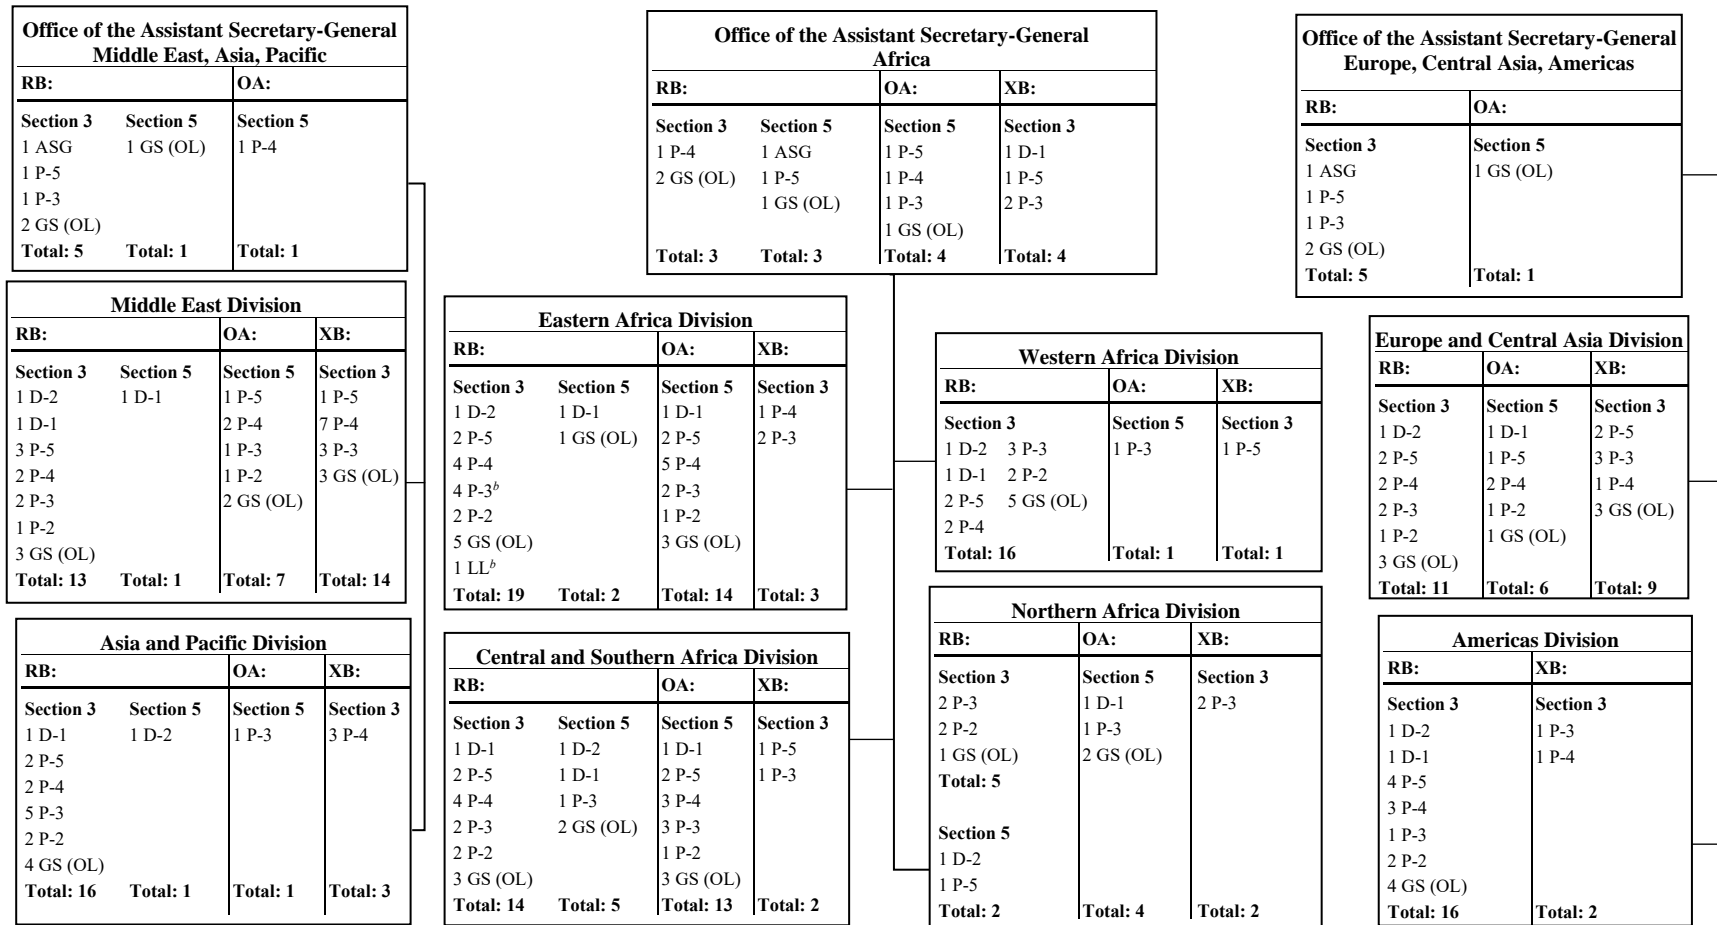

^a Pursuant to General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources under section 5 is provided for information purposes.

^b 2 P-3, 1 GS (PL) and 2 GS (OL) funded from extrabudgetary resources of the Office of Counter-Terrorism are located in the joint Executive Office of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to support the Office of Counter-Terrorism.

^c The office is located in Cairo and reports to the Under-Secretary-General for Political and Peacebuilding Affairs through the Director of the Middle East Division.

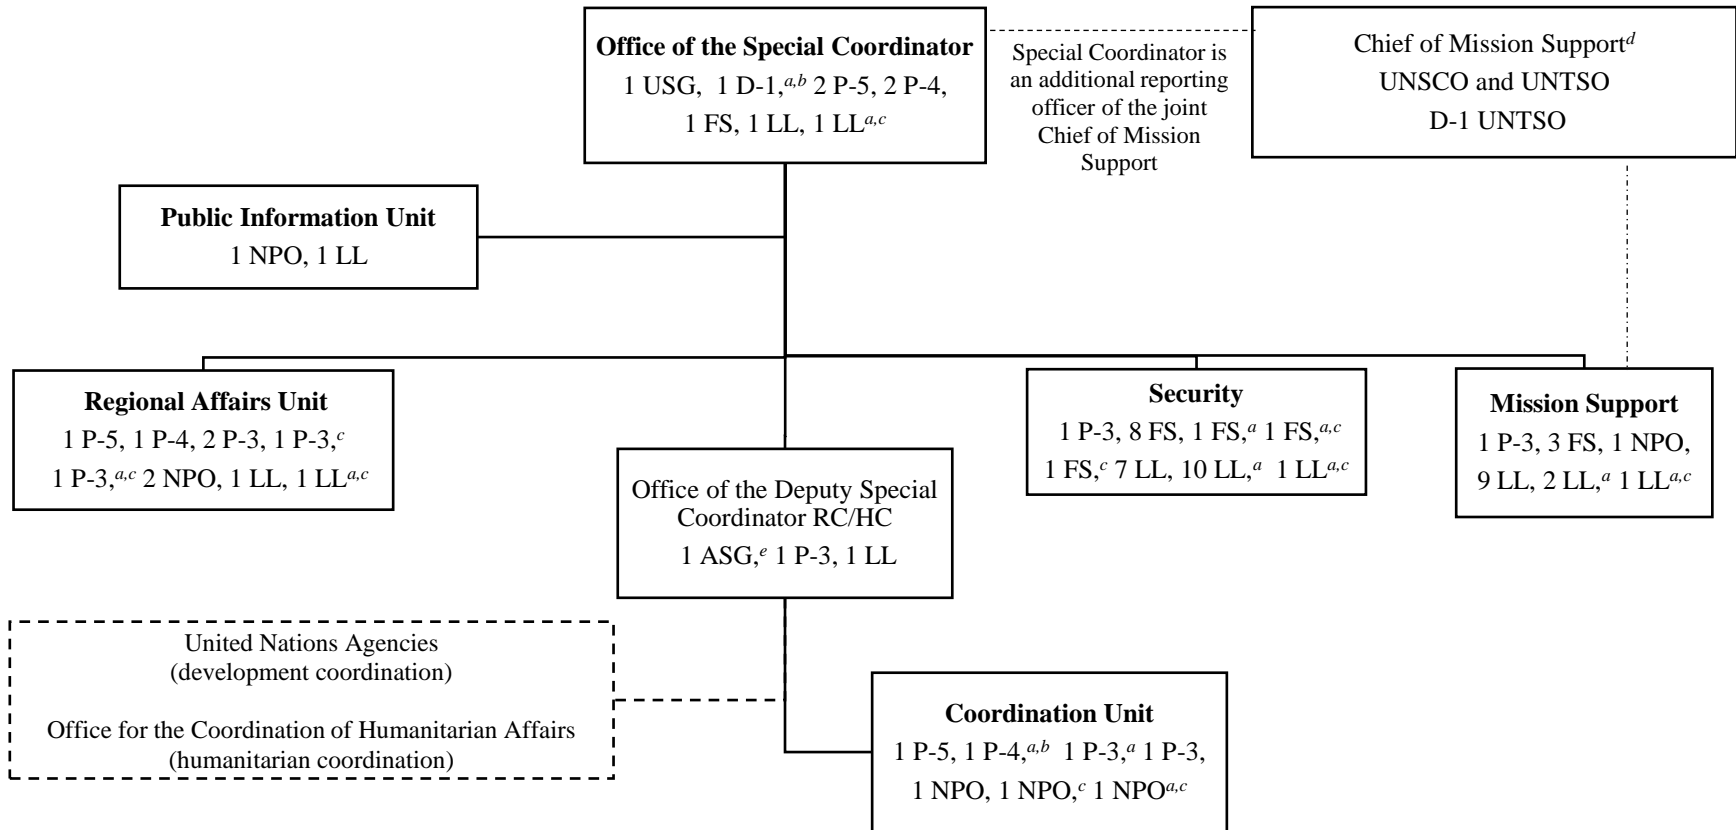

B. Regional political-operational structure^a

^a Pursuant to General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources under section 5 is provided for information purposes.

^b 1 P-3 and 1 LL are based in Nairobi.

C. Office of the United Nations Special Coordinator for the Middle East Peace Process

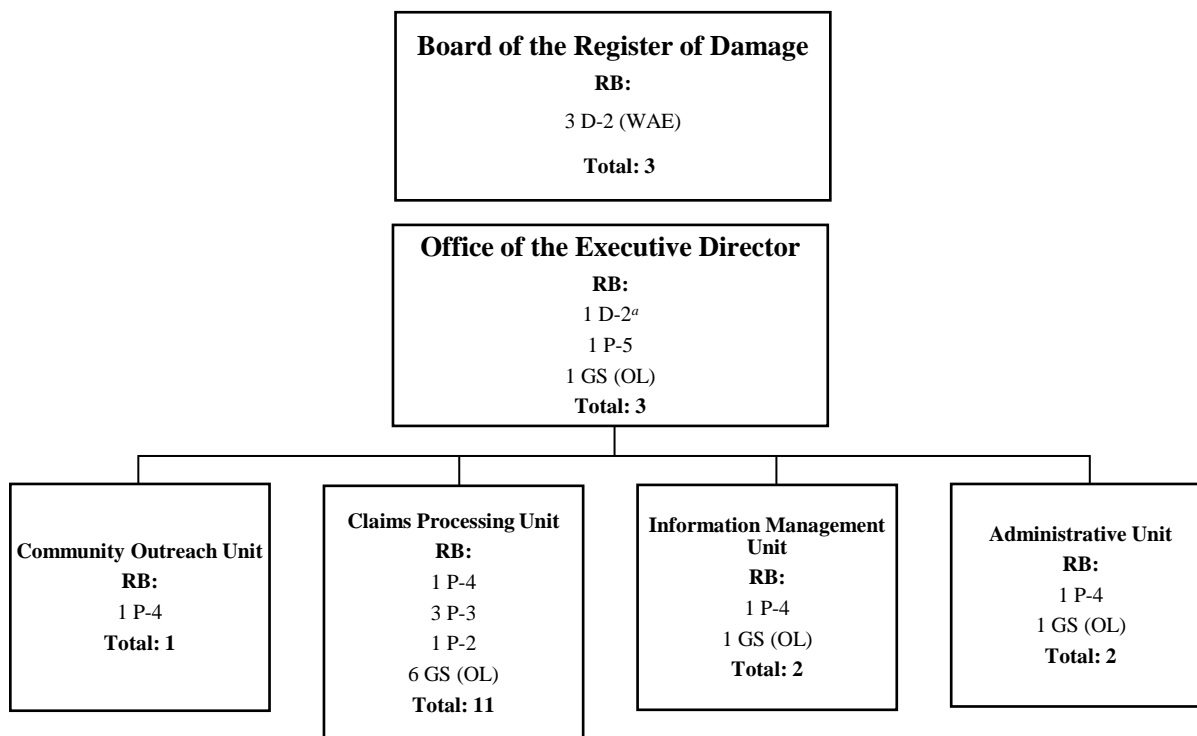

^a Position located in Gaza.

^b Reclassification.

^c Establishment.

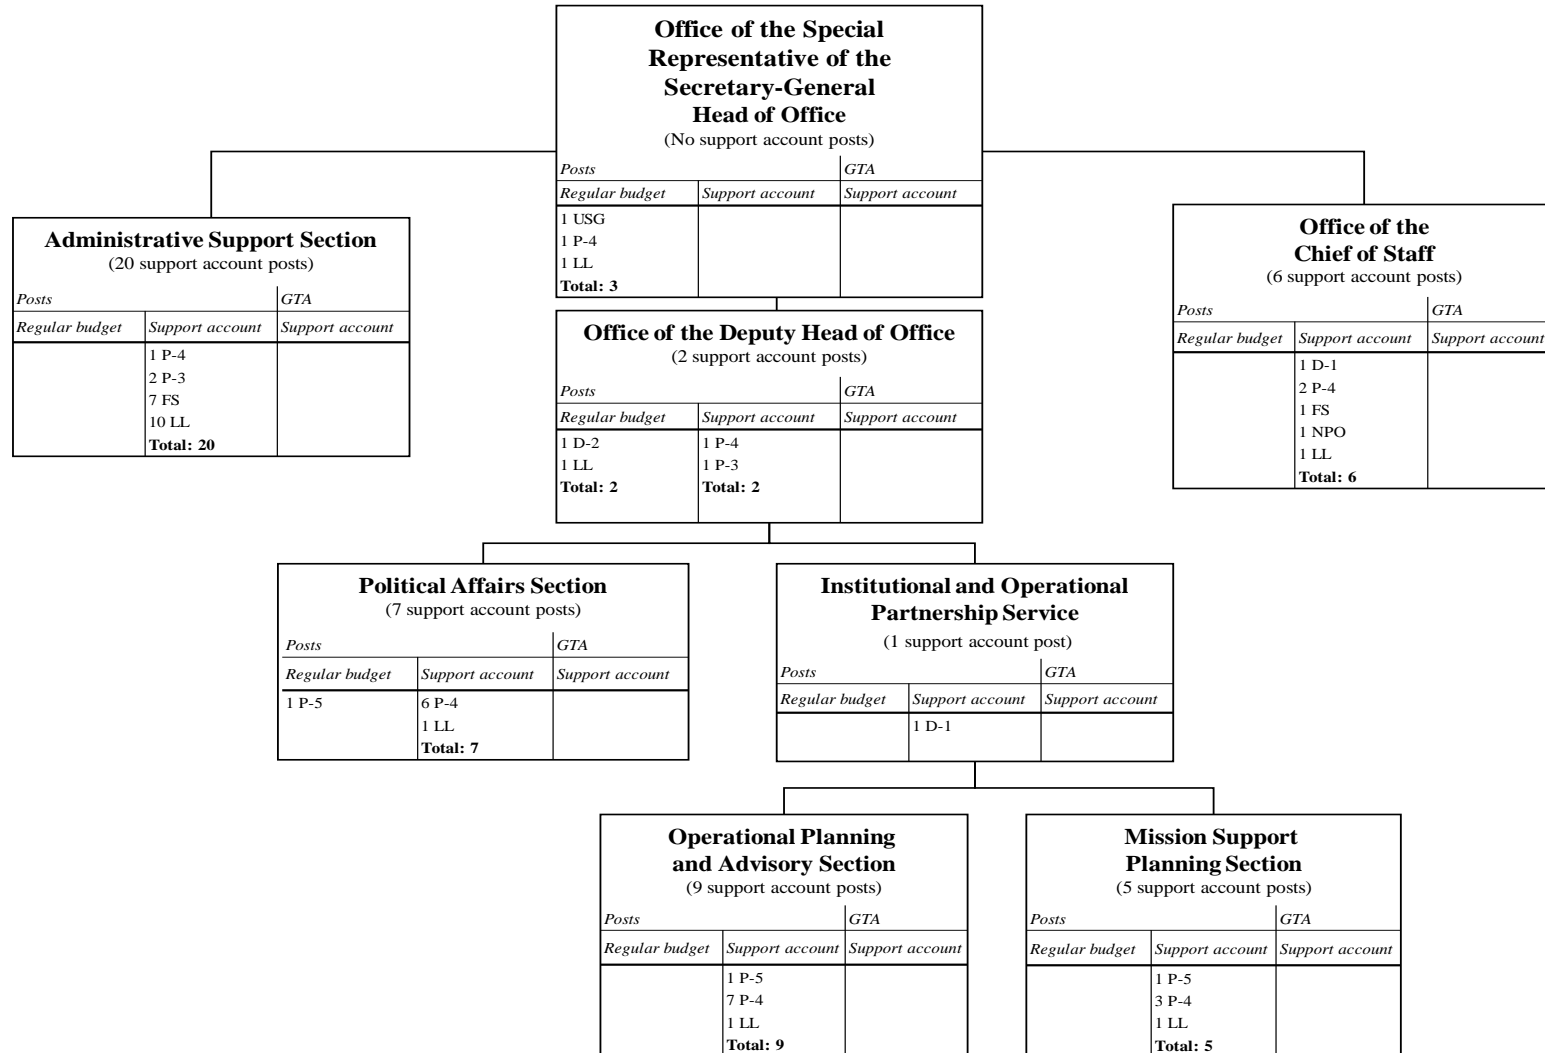

^d The joint UNTSO and UNSCO Chief of Mission Support position is budgeted under the UNTSO structure.

^e Post costs are shared at 50 per cent between UNSCO and the Development Coordination Office.

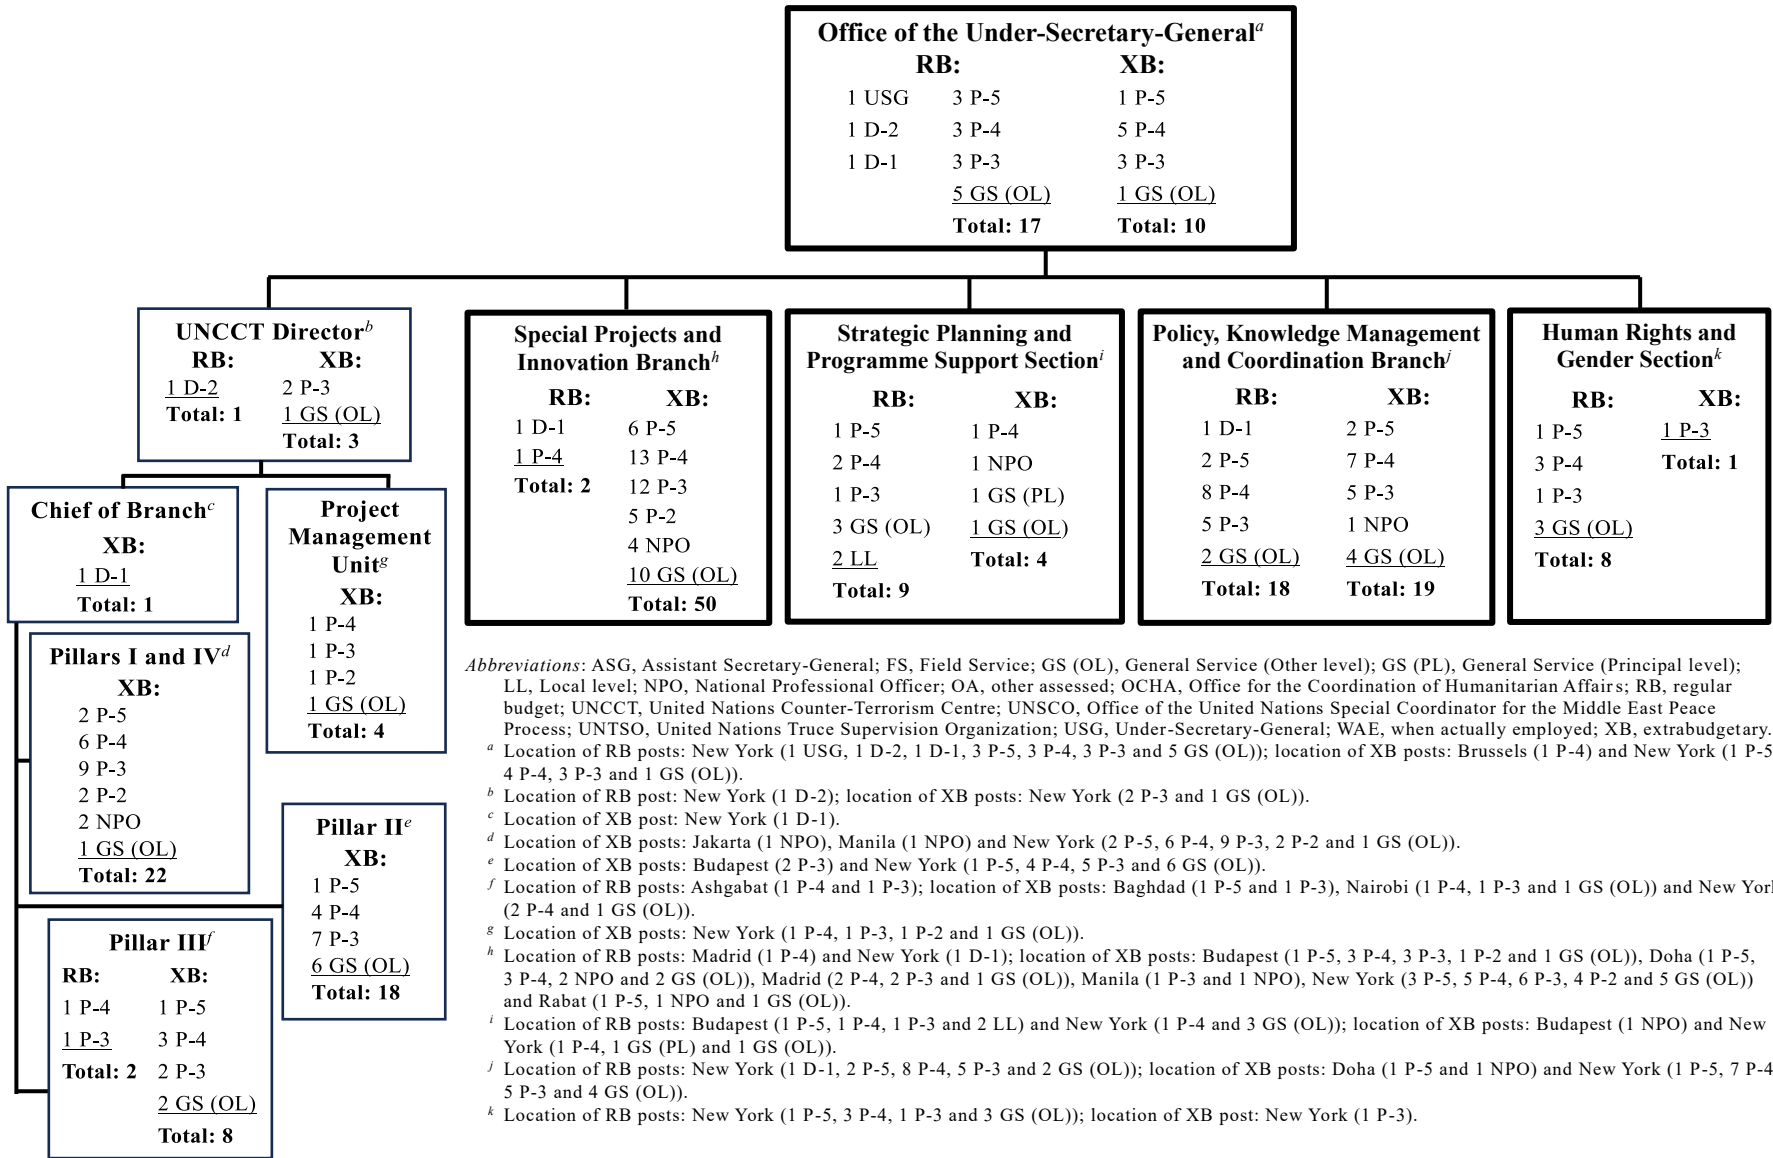

D. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

^a The Executive Director of the Office of the Register of Damage acts as ex officio member of the Board.

E. United Nations Office to the African Union

F. Office of Counter-Terrorism

Abbreviations: ASG, Assistant Secretary-General; FS, Field Service; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); LL, Local level; NPO, National Professional Officer; OA, other assessed; OCHA, Office for the Coordination of Humanitarian Affairs; RB, regular budget; UNCCT, United Nations Counter-Terrorism Centre; UNSCO, Office of the United Nations Special Coordinator for the Middle East Peace Process; UNTSO, United Nations Truce Supervision Organization; USG, Under-Secretary-General; WAE, when actually employed; XB, extrabudgetary.

^a Location of RB posts: New York (1 USG, 1 D-2, 1 D-1, 3 P-5, 3 P-4, 3 P-3 and 5 GS (OL)); location of XB posts: Brussels (1 P-4) and New York (1 P-5, 4 P-4, 3 P-3 and 1 GS (OL)).

^b Location of RB post: New York (1 D-2); location of XB posts: New York (2 P-3 and 1 GS (OL)).

^c Location of XB post: New York (1 D-1).

^d Location of XB posts: Jakarta (1 NPO), Manila (1 NPO) and New York (2 P-5, 6 P-4, 9 P-3, 2 P-2 and 1 GS (OL)).

^e Location of XB posts: Budapest (2 P-3) and New York (1 P-5, 4 P-4, 5 P-3 and 6 GS (OL)).

^f Location of RB posts: Ashgabat (1 P-4 and 1 P-3); location of XB posts: Baghdad (1 P-5 and 1 P-3), Nairobi (1 P-4, 1 P-3 and 1 GS (OL)) and New York (2 P-4 and 1 GS (OL)).

^g Location of XB posts: New York (1 P-4, 1 P-3, 1 P-2 and 1 GS (OL)).

^h Location of RB posts: Madrid (1 P-4) and New York (1 D-1); location of XB posts: Budapest (1 P-5, 3 P-4, 3 P-3, 1 P-2 and 1 GS (OL)), Doha (1 P-5, 3 P-4, 2 NPO and 2 GS (OL)), Madrid (2 P-4, 2 P-3 and 1 GS (OL)), Manila (1 P-3 and 1 NPO), New York (3 P-5, 5 P-4, 6 P-3, 4 P-2 and 5 GS (OL)) and Rabat (1 P-5, 1 NPO and 1 GS (OL)).

ⁱ Location of RB posts: Budapest (1 P-5, 1 P-4, 1 P-3 and 2 LL) and New York (1 P-4 and 3 GS (OL)); location of XB posts: Budapest (1 NPO) and New York (1 P-4, 1 GS (PL) and 1 GS (OL)).

^j Location of RB posts: New York (1 D-1, 2 P-5, 8 P-4, 5 P-3 and 2 GS (OL)); location of XB posts: Doha (1 P-5 and 1 NPO) and New York (1 P-5, 7 P-4, 5 P-3 and 4 GS (OL)).

^k Location of RB posts: New York (1 P-5, 3 P-4, 1 P-3 and 3 GS (OL)); location of XB post: New York (1 P-3).

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	Posts	Grade	Description	Reason for change
Office of the United Nations Special Coordinator for the Middle East Peace Process				The proposed establishment of 10 posts and upward reclassification of 2 posts takes into account the escalation of the crisis and outbreak of hostilities on 7 October 2023. The unresolved Israeli-Palestinian conflict remains at the core of the instability prevailing in the Middle East and continues to threaten international peace and security. As violence and tensions persist across the Occupied Palestinian Territory, the Office continues to engage diplomatically to mitigate and prevent armed conflict, address the humanitarian and development challenges, including recovery and reconstruction efforts in Gaza, and engage the parties and the international community with a view to making political progress towards a two-State solution.
	1	D-1	Reclassification of	
	-1	P-5	Head of Gaza Office (P-5) as Head of Gaza Office (D-1)	The proposed reclassification would allow the Office's Head of the Gaza office to deepen engagement and coordination with senior national and international partners, including aligning United Nations actors on the ground in Gaza to the political direction of efforts supported by the Office. The incumbent would represent the Special Coordinator in senior-level meetings in and about Gaza with a view to ensuring that efforts in Gaza align with the overall objective of achieving a two-State solution, of which Gaza is an integral part.
	1	LL	Establishment of Staff Assistant	The incumbent would support the Head of Gaza Office and both the political and coordination teams – as well as visiting delegations from the Office of the Special Coordinator – by providing logistical, access and administrative services in the context of post-hostilities Gaza.
	1	P-3	Establishment of Political Affairs Officer	The incumbent, who would be based in Gaza, would develop and enhance relationships with key and emerging local political actors, gather information and provide analysis and reporting on the evolving political and security dynamics and broader developments in post-hostilities Gaza.
	1	P-3	Establishment of Political Affairs Officer	The incumbent, who would be based in Jerusalem, would focus on engaging with all relevant interlocutors – Palestinian, Israeli and international – with the aim of enhancing RAU political analysis, supporting outreach efforts and good offices, and reporting, including on political developments linking the West Bank and Gaza in anticipation of a return of the Palestinian Authority's governance role in Gaza.
	1	LL	Establishment of Political Affairs Assistant	The incumbent, who would be based in Gaza, would support the team to monitor, analyse and report on rapidly evolving political and socioeconomic developments on the ground, including engagement with a broader range of stakeholders, particularly at the local level, including civil society in Gaza.
	1	NPO	Establishment of Coordination Officer	The incumbent, who would be based in Jerusalem, would reinforce the Coordination Unit's liaison with Israeli counterparts to identify areas of cooperation between the parties, particularly those related to bilateral agreements, including access, movement and trade, fiscal and economic files, infrastructure development, water and energy, and to support reconstruction, recovery and development efforts and United Nations programmes, in particular through their link to the Palestinian Authority and as it relates to engagement between the parties.

Part II Political affairs

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
	1	NPO	Establishment of Assistant Development Coordinator	The incumbent would be based in Gaza and would provide analysis of and information on access, movement and trade and the operation of crossings that would be included in the Ad Hoc Liaison Committee reports, as well as in various Security Council briefings and advice that the Office provides to partners and the Palestinian authorities.
	1 -1	P-4 P-3	Reclassification of Coordination Officer (P-3) as Coordination Officer (P-4) in the Coordination Unit in Gaza	In an operational context in Gaza that has become infinitely more complex, the proposed reclassification would allow the Coordination Officer (P-4) to enhance the Office's capacity to coordinate United Nations efforts to support Palestinian State-building and strengthen Palestinian institutions and recovery and development efforts in Gaza, and align humanitarian and development efforts and activities with political efforts engaging the parties, while engaging with relevant authorities and donors to facilitate and mobilize support for United Nations programmes.
	1	FS	Establishment of Security Officer	The incumbent would be based in Gaza and would reinforce the security team's capacity to address the anticipated heightened security challenges in post-hostilities Gaza. The incumbent would liaise with the Department of Safety and Security of the Secretariat and other security counterparts in the region to ensure coordinated security response efforts.
	1	LL	Establishment of Security Assistant	The incumbent would be based in Gaza and would reinforce the Office's security team in order to assist the Security Officer (Field Service) in addressing the anticipated heightened security challenges in post-hostilities Gaza.
	1	FS	Establishment of Close Protection Officer	The incumbent would be based in Jerusalem and would enhance the Office's close protection capacity to protect the Special Coordinator and Deputy Special Coordinator in their increasing engagements in the field in both Gaza and the West Bank, while the security situation has significantly deteriorated.
	1	LL	Establishment of Driver	The incumbent would be based in Gaza and would provide much-needed support for the Office's team, as well as visiting United Nations officials, to be driven in armoured vehicles while delivering humanitarian, reconstruction and political duties in a high-risk security environment.

Abbreviations: FS, Field Service; LL, Local level; NPO, National Professional Officer.

Annex III

Projects proposed for funding from the Peacebuilding Fund

Proposed projects, objectives and budget

Central African Republic: \$10,000,000^a

A. Conflict dynamics transformation and stabilization in the “triangle area” of the Central African Republic

Objective: To contribute to the stabilization of the “triangle area” of the Central African Republic (Ouadda – Sam Ouandja – Ouadda-Djallé) by restoring State authority through the resumption of basic services delivery, improving security for the population, facilitating the return and reintegration of displaced people and refugees and accelerating the relaunch of economic activities.

B. Strengthening community security and restoring the social fabric to support the reconciliation process in the Central African Republic

Objective: To rebuild local and grass-roots capacities to restore trust among the communities, mitigate the risk of violence, including gender-based violence, and reduce inequalities by promoting human rights, preventing and managing security risks, facilitating access to justice, strengthening social cohesion and supporting the decentralization process of peace agreements (through the prefectorial peace committees), with a strong gender- and youth-sensitive approach and the contribution of local actors (local authorities, civil society organizations, conflict resolution mechanisms and early warning systems).

Democratic Republic of the Congo: \$10,000,000^a

A. Support to the MONUSCO transition through the strengthening of State authority in the eastern provinces

Objective: To support three United Nations country team joint programmes (the joint police reform programme, the joint justice programme and the Disarmament, Demobilization, Community Recovery and Stabilization Programme) and inter-agency projects focused on the protection of civilians. Programmatic decisions will be made on the basis of priorities arising from transition planning and the identification of gaps at the provincial level.

B. Support to infrastructure for peace in the Democratic Republic of the Congo

Objective: To strengthen national peace infrastructure as an instrument for promoting mediation and dialogue to prevent, manage and resolve conflict at the local and national levels. This initiative will build on previous national efforts to establish local conflict prevention, mediation and early warning mechanisms at the community level in Kasai and in Tanganyika and other eastern provinces and help strengthen their effectiveness and links to national institutions for better sustainability. It will also help integrate gender and youth lenses into peace infrastructure at the local and national levels.

C. Conflict reduction and peacebuilding through improved land governance in the Democratic Republic of the Congo

Objective: In line with the common country analysis and the United Nations Sustainable Development Cooperation Framework for the period 2025–2029 for the Democratic Republic of the Congo, this initiative will aim to strengthen land governance and management in order to address widespread land conflict and disputes over customary power. The project will promote local land governance and human security mechanisms through a more inclusive approach and accountability of local authorities, and through the use of multi-stakeholder participatory processes for conflict prevention, management and resolution.

Haiti: \$10,000,000^a

A. Support the redeployment and presence of State authority and services in Port-au-Prince, including the strengthening of the capacity and credibility of public institutions to support the return to stability and social peace, building on a sustained decrease in violence and investing in prevention

Objective: To strengthen (a) institutional capacities and facilitate the redeployment of public institutions and services by building or restoring vital public and community infrastructure, such as sports and cultural centres, community roads, health centres, and schools, among other infrastructure, which will lay the ground to increase State presence and improve access to government services and the development of the population's trust in public institutions; and (b) institutional capacities of relevant public institutions (at the national and decentralized levels), including to strengthen their stabilizing role in response to the growing demand for public sector governance and to demonstrate the ability to effectively absorb international support, including through increased coordination and leadership.

B. Supporting social and civic responses to prevent violence and promote justice and social cohesion through grass-roots engagement

Objective: To expand community-based engagement to prevent violence, promote justice and foster social cohesion by: (a) promoting social and civic initiatives, with a focus on gang-affected areas, to prevent violence through grass-roots engagement; (b) fostering better relations with law enforcement agencies (such as the community and education police and justices of the peace); (c) supporting victims of violence by offering trauma and counselling support, in order also to prevent future violence and to support social cohesion; and (d) enhance (civic) participation in the political process, leading to the restoration of democratically elected institutions, including through capacity-building and support to dialogue initiatives across the country, creating safe spaces for the participation of women, youth and marginalized communities.

C. Promoting a revitalized and rapid socioeconomic recovery to increase stability and resilience in the most affected departments

Objective: To enhance and broaden social protection systems, create and foster employment opportunities (in both the formal and informal sectors) and enhance the entrepreneurial dynamics for women and youth at risk of returning to and/or being involved in criminal activities, with a view to strengthening the basis for socioeconomic opportunities in select and particularly impacted departments (e.g. Port-au-Prince, Artibonite, Grand-Anse and South), thereby fostering more inclusive and just socioeconomic growth.

Mali: \$10,000,000^a

A. Prevention of violence related to terrorism and international organized crime and strengthening of community resilience in central Mali

Objective: To contribute to the return of lasting peace and the end of cycles of violence by strengthening the resilience of populations to the risks of radicalization and ensuring the prosecution of perpetrators and effective care for victims of terrorism and international crimes.

B. Strengthening collaboration between traditional authorities, the civil administration and the Malian Defence and Security Forces for the consolidation of peace in Gao and Ménaka

Objective: To build peace and strengthen trust and collaboration between the Malian Defence and Security Forces, the civil administration and newly recognized traditional authorities through the promotion of cooperation and intercommunal dialogue, with a view to preventing and resolving conflicts at the local level.

C. Prevention of violence related to conflicts around natural resources in San and Koutiala

Objective: To promote, in the resolution and prevention of natural resources-related violence, the active participation of local communities in the governance bodies and initiatives related to the management of natural resources in contexts exacerbated by the effects of climate change, and to support economic activities with rapid impacts that are respectful of the sustainable management of natural resources in sectors with high potential for income-generating employment.

South Sudan: \$10,000,000^a

A. Young people's engagement in community-level peacebuilding

Objective: To empower young people in South Sudan to actively participate in community-level peacebuilding initiatives, thereby fostering social cohesion, reconciliation and sustainable peace. By providing youth with the necessary skills, knowledge and opportunities to engage in dialogue, advocacy and conflict resolution, the project aims to amplify their voices as agents of positive change and contribute to building resilient and inclusive communities.

B. Borderlands community security and conflict resolution initiative in South Sudan

Objective: To enhance community security, protection, conflict prevention and dispute resolution systems in South Sudan, specifically focusing on areas affected by the influx of refugees and returnees from neighbouring countries. By strengthening local capacities, supporting dialogue and promoting peaceful coexistence, the project aims to mitigate tensions and promote stability in border regions.

C. Support to women's organizations and networks that work on women's protection, empowerment and peacebuilding

Objective: To support women's organizations and networks in South Sudan that work on women's protection, empowerment and peacebuilding. By strengthening the capacity of these organizations, promoting women's leadership and facilitating their participation in peace processes, the project aims to enhance the protection of women's rights, promote gender equality, strengthen resilience and livelihoods, and contribute to sustainable peace and development in the country.

Abbreviation: MONUSCO, United Nations Organization Stabilization Mission in the Democratic Republic of the Congo.

^a Pursuant to General Assembly resolution [78/257](#), this amount is inclusive of programme support costs for Fund management, in accordance with the terms of reference of the Peacebuilding Fund.

Seventy-ninth session

Item 139 of the preliminary list*

Proposed programme budget for 2025

Proposed programme budget for 2025

Part II

Political affairs

Section 3

Political affairs

Special political missions

Estimates in respect of special political missions

Summary

The present report relates to actions taken by the General Assembly and/or the Security Council regarding special political missions, including good offices and preventive diplomacy and post-conflict peacebuilding missions, on the basis of requests from Member States and/or recommendations of the Secretary-General.

The report is the first addendum to the report of the Secretary-General on the proposed programme budget for 2025 under section 3, Political affairs, and contains information on the overall resource requirements of 36 continuing special political missions authorized by the General Assembly and/or the Security Council. Detailed information in respect of each special political mission is contained in five addenda to section 3, Political affairs ([A/79/6 \(Sect. 3\)/Add.2](#), [A/79/6 \(Sect. 3\)/Add.3](#), [A/79/6 \(Sect. 3\)/Add.4](#), [A/79/6 \(Sect. 3\)/Add.5](#) and [A/79/6 \(Sect. 3\)/Add.6](#)).

The overall proposed resource requirements of special political missions amount to \$711,280,600 (net of staff assessment). The requirements include \$2,308,400 to provide for the share of special political missions for the financing of the budget of the Regional Service Centre in Entebbe, Uganda, for the period from 1 July 2024 to 30 June 2025.

I. Introduction

1. The present report contains the overall proposed resource requirements for 36 continuing special political missions for 2025, in connection with the actions taken or expected to be taken by the General Assembly and/or the Security Council on the basis of requests from Member States and/or recommendations of the Secretary-General.
2. Pursuant to General Assembly resolution [77/267](#), the budget requirements of special political missions are presented in thematic clusters, while the requirements of the United Nations Assistance Mission in Afghanistan (UNAMA) and the United Nations Assistance Mission for Iraq (UNAMI) are presented individually in separate reports. In addition to in the present report, further details on the resource requirements of the individual missions are presented in the following reports, each of which constitutes an addendum to section 3, Political affairs, of the proposed programme budget for 2025:
 - (a) Thematic cluster I: special and personal envoys, advisers and representatives of the Secretary-General ([A/79/6 \(Sect. 3\)/Add.2](#));
 - (b) Thematic cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms ([A/79/6 \(Sect. 3\)/Add.3](#));
 - (c) Thematic cluster III: regional offices, offices in support of political processes and other missions ([A/79/6 \(Sect. 3\)/Add.4](#));
 - (d) UNAMA ([A/79/6 \(Sect. 3\)/Add.5](#));
 - (e) UNAMI ([A/79/6 \(Sect. 3\)/Add.6](#)).
3. Pursuant to paragraph 7 of General Assembly resolution [77/267](#), in which the Assembly reaffirmed the established budgetary procedures and practices, the reports on the proposed resource requirements for special political missions comprise two parts: (a) the proposed programme plan for 2025 and programme performance in 2023, submitted for consideration by the General Assembly; and (b) the proposed post and non-post resource requirements, submitted through the Advisory Committee on Administrative and Budgetary Questions for consideration by the Assembly.
4. The overall proposed resource requirements of the 36 continuing special political missions for 2025 amount to \$711,280,600. These resources would be supplemented by projected extrabudgetary resources amounting to \$43,548,500, comprising \$10,540,700 from voluntary contributions and \$33,007,800 from cost-recovery resources.
5. Any adjustments to the resource requirements emanating from additional mandates or changes in mandates will be presented to the General Assembly as additional reports of the Secretary-General on estimates resulting from such mandates or changes of mandates.
6. Given the volatility of the security and operating environments of special political missions, should any changes from such environments significantly alter the planning assumptions and costing parameters applied in the current budget, and if such changes cannot be absorbed from existing resources, the consequent changes to either resource or staffing requirements will be brought to the attention of the General Assembly, as appropriate, in accordance with established practices and procedures, and pursuant to the financial regulations and rules of the United Nations.

A. Status of the extension or renewal of mandates

7. Of the 36 continuing special political missions, 13 missions have open-ended mandates, 7 missions have mandates extended into 2025 or later, 1 mission has a mandate ending in 2025 and 15 missions have mandates expiring in 2024 that are expected to be renewed or extended into 2025 or later by the General Assembly or the Security Council, as detailed below:
 - (a) Special political missions with open-ended mandates:
 - (i) Office of the Special Adviser to the Secretary-General on Cyprus;

- (ii) Office of the Special Adviser to the Secretary-General on the Prevention of Genocide;
 - (iii) Personal Envoy of the Secretary-General for Western Sahara;
 - (iv) Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution [1559 \(2004\)](#);
 - (v) United Nations Representative to the Geneva International Discussions;
 - (vi) Office of the Special Envoy of the Secretary-General for Syria;
 - (vii) Office of the Special Envoy of the Secretary-General for the Horn of Africa;
 - (viii) Office of the Special Envoy of the Secretary-General for the Great Lakes Region;
 - (ix) Office of the Special Envoy of the Secretary-General for Yemen;
 - (x) Support to the Security Council Committee established pursuant to resolution [1718 \(2006\)](#);¹
 - (xi) United Nations Regional Centre for Preventive Diplomacy for Central Asia;
 - (xii) United Nations support for the Cameroon-Nigeria Mixed Commission;
 - (xiii) Office of the United Nations Special Coordinator for Lebanon;
- (b) Special political missions with mandates renewed or extended into 2025 or later:
- (i) Panel of Experts on the Sudan;
 - (ii) Panel of Experts on Libya;
 - (iii) Panel of Experts pursuant to resolution [2713 \(2023\)](#);²
 - (iv) Counter-Terrorism Committee Executive Directorate;
 - (v) United Nations Office for West Africa and the Sahel (UNOWAS);
 - (vi) UNAMA;
 - (vii) Support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction;
- (c) Special political mission with a mandate ending in 2025:
Implementation of Security Council resolution [2231 \(2015\)](#);
- (d) Special political missions with mandates expiring in 2024 that are expected to be renewed or extended into 2025 or later:
- (i) Office of the Special Envoy of the Secretary-General on Myanmar;
 - (ii) Group of Experts on the Democratic Republic of the Congo;
 - (iii) Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities;
 - (iv) Office of the Ombudsperson established pursuant to Security Council resolution [1904 \(2009\)](#);
 - (v) Panel of Experts on the Central African Republic;
 - (vi) Panel of Experts on Yemen;
 - (vii) Panel of Experts on South Sudan;

¹ Reflects a change in title from the "Panel of Experts on the Democratic People's Republic of Korea". For further explanation, please see paragraph 11 of the present report.

² Reflects a change in title from the "Panel of Experts on Somalia" in accordance with Security Council resolution [2713 \(2023\)](#).

- (viii) Panel of Experts on Haiti;
- (ix) United Nations Regional Office for Central Africa (UNOCA);
- (x) United Nations Assistance Mission in Somalia (UNSOM);
- (xi) United Nations Support Mission in Libya (UNSMIL);
- (xii) United Nations Verification Mission in Colombia;
- (xiii) United Nations Mission to Support the Hudaydah Agreement (UNMHA);
- (xiv) United Nations Integrated Office in Haiti (BINUH);
- (xv) UNAMI.

B. Discontinuing or discontinued missions

8. The mandate of the Panel of Experts on Mali expired on 30 September 2023. All personnel have been separated from service and the activities of the Panel ceased in 2023.
9. The mandate of the United Nations Integrated Transition Assistance Mission in the Sudan (UNITAMS) was terminated effective 3 December 2023 pursuant to Security Council resolution [2715 \(2023\)](#). After a period of transition and drawdown, liquidation commenced on 1 March 2024 and is currently under way. Field-based liquidation activities are scheduled to be concluded by 31 August 2024. The General Assembly, in its resolution [78/274](#), approved an amount of \$22,162,600 (which superseded the previously authorized \$21,500,000 in commitments approved in resolution [78/253](#)) for the drawdown and liquidation of UNITAMS during 2024. No resource requirements were identified beyond 2024. Further details on the transition, drawdown and liquidation of UNITAMS are provided in paragraphs 44 to 50 of the present report.
10. The mandate of the United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD) is set to expire on 17 September 2024 pursuant to Security Council resolution [2697 \(2023\)](#). The Secretariat is planning the timeline and required tasks for the liquidation of the mission. Should any resource requirements arise beyond the 2024 appropriation, they will be brought to the attention of the legislative bodies.
11. The mandate of the Panel of Experts on the Democratic People's Republic of Korea expired on 30 April 2024. The experts were separated from service in April 2024, while the affected support staff are in a period of drawdown and transition. Although the Panel's mandate has expired, that of the Security Council Committee established pursuant to resolution [1718 \(2006\)](#) is open-ended, and the Committee will continue overseeing the implementation of the sanctions regime. Accordingly, for 2025, the title of the mission has been adapted from the "Panel of Experts on the Democratic People's Republic of Korea" to "Support to the Security Council Committee established pursuant to resolution [1718 \(2006\)](#)", and the proposed budget for 2025 represents the level of resources and staffing required to continue supporting the Committee.
12. The mandate of the mission for the implementation of Security Council resolution [2231 \(2015\)](#) will expire on 18 October 2025. As specified in paragraph 8 of resolution [2231 \(2015\)](#), all provisions of that resolution shall be terminated on the date 10 years after Adoption Day³ of the Joint Comprehensive Plan of Action, provided that the provisions of the previous Council resolutions on the Iranian nuclear issue have not been reinstated in the interim. The Council will then have concluded its consideration of the Iranian nuclear issue, and the item "Non-proliferation" will be removed from the list of matters of which the Council is seized. The budget presented for 2025 for this mission reflects a phased drawdown, with the proposed abolishment of three posts effective 1 January 2025, and the abolishment of the remaining two posts effective 1 November 2025, marking the end of the mission.

³ Adoption Day occurred on 18 October 2015.

C. Performance information

13. In 2023, the United Nations commemorated the seventy-fifth anniversary of the establishment of the first special political mission, the United Nations Mediator in Palestine, mandated by the General Assembly on 14 May 1948. Since then, special political missions have continued to play a vital role in the maintenance of international peace and security by contributing to the prevention and resolution of violent conflict and to peacebuilding in some of the world's most complex contexts. Special political missions undertake a wide spectrum of critical functions, from engaging in preventive diplomacy and supporting the implementation of peace agreements, to assisting Member States in the promotion of human rights, enhancing the meaningful participation of women, and advancing the engagement of youth and other marginalized constituencies in political and peace processes. They also play a key role in strengthening the partnerships between the United Nations and regional and subregional organizations. Across all these areas, special political missions cooperate closely with United Nations development, human rights and humanitarian entities to implement integrated and effective responses.
14. The various special envoys and advisers appointed by the Secretary-General, presented under thematic cluster I, continued to offer good offices and to facilitate negotiations, including through greater use of technology, with a view to brokering peace agreements. The Special Envoy of the Secretary-General for Yemen engaged with a range of Yemeni stakeholders, with the aim of launching an inclusive, multitrack political process to end the conflict. Despite the expiration in October 2022 of the truce brokered by the United Nations, levels of violence remained at their lowest since the onset of the conflict in 2015. Many elements of the truce continued to benefit the population, in particular the entry of fuel and goods into the Hudaydah ports and the resumption of commercial flights from Sana'a airport. The Special Envoy of the Secretary-General for Syria focused on building trust and confidence, encouraging constructive international diplomacy among key stakeholders in support of the process, unblocking obstacles to reconvening the Constitutional Committee and addressing its substantive challenges. The Office of the Special Envoy of the Secretary-General for the Great Lakes Region supported the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, including through shuttle diplomacy and by providing support to the Regional Oversight Mechanism. The Special Envoy of the Secretary-General for the Horn of Africa collaborated with the Intergovernmental Authority on Development, the African Union and other partners in supporting mediation processes and enhancing subregional capacities to address cross-border and cross-cutting issues.
15. The various sanctions monitoring teams, groups and panels, presented under thematic cluster II, continued to provide substantive support to the Security Council in the implementation of its respective sanctions regimes. The Panel of Experts on Mali established pursuant to resolution [2374 \(2017\)](#) ended its work, as the sanctions measures expired on 31 August 2023. The Panel of Experts on Somalia was renamed the Panel of Experts pursuant to resolution [2713 \(2023\)](#). By resolution [2701 \(2023\)](#), the mandate of the Panel of Experts on Libya was renewed until 15 February 2025. On 30 November 2023, the Secretary-General submitted the first report ([S/2023/936](#)) to the Security Council pursuant to Council resolution [2684 \(2023\)](#) related to the authorization for inspection on the high seas off the coast of Libya of vessels bound to or from Libya in order to ensure the strict implementation of the arms embargo. By its resolution [2683 \(2023\)](#), the Council extended the mandate of the Panel of Experts on South Sudan until 1 July 2024. On 28 April 2023, following a request by the Security Council in its resolution [2577 \(2021\)](#), the Secretary-General provided the Council with an assessment of the progress achieved on the key benchmarks established in that resolution ([S/2023/300](#)). The mandate of the Panel of Experts on Haiti was extended by resolution [2700 \(2023\)](#) of 19 October 2023 for a period of 13 months to monitor the implementation of the travel ban, asset freeze and territorial arms embargo, in particular with regard to incidents relating to the source and routes of arms and other trafficking to Haiti and incidents undermining peace, security and stability in that country, as well as to provide information relevant to the potential designation of individuals and entities to the Council.

16. Included under thematic cluster III, the United Nations Verification Mission in Colombia continued to support the parties that signed the Final Agreement for Ending the Conflict and Building a Stable and Lasting Peace to implement that agreement. In line with Security Council resolution [2673 \(2023\)](#), the Mission monitored the implementation of sections 1 and 6.2 of the Final Agreement related to comprehensive rural reform and the ethnic chapter. As a result of peace talks between the Government and the Ejército de Liberación Nacional (National Liberation Army), a ceasefire agreement entered into effect on 3 August 2023. Pursuant to a request by the Government and the Ejército de Liberación Nacional, the Council, in its resolution [2694 \(2023\)](#), mandated the Mission to monitor and verify the implementation of the ceasefire. The Mission continued to support the transitional justice system to put innovative measures in place to attain peace, reconciliation and the truth and to protect the lives of former combatants and communities. The Mission further strengthened its engagement with the Special Jurisdiction for Peace, with victims and with national and local authorities, and provided support for the work of the Truth Commission.
17. In Libya, UNSMIL continued to facilitate an inclusive Libyan-led and Libyan-owned political dialogue process to reach an agreement on a constitutional framework that is in accordance with international standards. UNSMIL deployed constitutional, electoral and gender expertise to support the “6+6” committee jointly established by the House of Representatives and the High State Council to finalize the country’s electoral laws. In June 2023, the Mission intensified its engagement with Libyan stakeholders to reach a compromise on the remaining contentious issues in the draft laws. The Mission also engaged with key military and security actors across Libya through a series of dialogues with the 5+5 Joint Military Commission to discuss, inter alia, the withdrawal of foreign fighters, foreign forces and mercenaries, the reunification of military institutions and the creation of a security environment conducive to elections.
18. In Somalia, UNSOM supported the Federal Government of Somalia in implementing its key State-building priorities. It also advocated for the advancement of the ongoing constitutional review process through a consensus-based, inclusive approach that ensures that the voices of women, young people and marginalized communities are reflected. UNSOM further provided good offices assistance to the Federal Government and the federal member States. It supported Somalia in strengthening the rule of law and security institutions and provided technical support to the Federal Government to protect and promote human rights.
19. In West Africa and the Sahel, UNOWAS advanced preventive diplomacy and conflict prevention in the region, in close cooperation with the Economic Community of West African States (ECOWAS), and supported the implementation of the United Nations integrated strategy for the Sahel. In the context of the unconstitutional change of government that unfolded in the Niger after 26 July 2023, UNOWAS provided good offices support in finding a peaceful and diplomatic solution to the crisis. In addition, the Office facilitated consultations and consensus-building among political actors in the lead-up to national elections and remained engaged in countries currently in transition, namely Burkina Faso, Guinea and Mali. UNOWAS also worked with Member States in the region to promote good governance, the rule of law, human rights and the participation of women and youth in political and peace processes.
20. In Haiti, BINUH continued to encourage Haitian political, civil society and economic actors to unite to address the country’s political and security crises, and supported the efforts undertaken by the Caribbean Community and the engagement of its Eminent Persons Group, including with regard to the establishment of the Transitional Presidential Council. BINUH continued its efforts to tackle community violence, protect and promote human rights and continue building the Haitian National Police. BINUH also supported the police in developing a strategic development plan for the period 2022–2025 focused on strengthening institutional and operational capacities, promoting the rule of law and improving security.
21. In Afghanistan, UNAMA continued to engage with the de facto authorities to advocate unimpeded humanitarian access, the protection of fundamental rights and freedoms, including for women, the formation of an inclusive administration reflecting the diversity of the Afghan people, and resolute actions to counter the threat of terrorism. This included outreach to the de facto authorities and other

stakeholders to understand their positions and advocate for an articulated political and policy agenda supported by the de facto Cabinet and its leadership in Kandahar, and the facilitation of outreach and community engagement with the de facto authorities, religious leaders, youth, civil society and business actors. Outreach was affected by restrictions on women, including female United Nations national personnel. Despite restrictions on women, UNAMA continued countrywide consultations and created space for women to frame their agenda for dialogue with the de facto authorities. It also supported their engagement with the de facto authorities on the political and economic participation and empowerment of women.

22. In Iraq, UNAMI encouraged the development and implementation of a government programme that prioritizes continued State-building, including socioeconomic reform and related efforts, and advocated for inclusive political dialogue, as well as national and community-level reconciliation. UNAMI made use of its good offices and provided technical advice in preparing for the Kurdistan Region of Iraq parliamentary elections, which had been postponed to 2024. By its resolution [2682 \(2023\)](#), the Security Council requested an independent strategic review to assess current threats to the peace and security of Iraq, as well as the continued relevance of the Mission's tasks and priorities, and to provide recommendations to optimize the mandate of UNAMI and its mission structure and staffing to support the Government of Iraq in addressing the challenges of peace and security. The review is due to be considered by the Security Council in the context of the mandate renewal of UNAMI before 31 May 2024.

D. Operational environment and key policy issues related to special political missions

1. Women and peace and security

23. In line with the commitment of the Secretary-General to promoting tangible results for the women and peace and security agenda, special political missions continue to play an important role in advancing the full, equal and meaningful participation of women in peace and political processes and in supporting gender-responsive conflict prevention, peacemaking and peacebuilding efforts. Gender advisers and gender focal points working in special political missions continue to play an essential role in providing targeted and strategic advice and support to the special representatives and special envoys of the Secretary-General, including on multitrack approaches and targeted measures to advance the political participation of women, make peace processes and prevention efforts more inclusive and help to ensure that a gender perspective is incorporated into the political work of the United Nations.
24. Building on the 2023 commitment of the Secretary-General that the United Nations would advocate for a minimum of one third of participants in mediation and peace processes being women, with no more than two thirds of participants of any one sex, while continuing to aim for an increase towards a 50/50 gender balance in political and electoral processes, special political missions continue to advocate and support targeted measures to advance the full, equal and meaningful participation of women in peace and political processes and to use their convening power to mobilize efforts towards that end. In line with Security Council resolution [2493 \(2019\)](#), special political missions continue to champion the full and effective implementation of the women and peace and security agenda, from Colombia to Cyprus, Iraq, Yemen and elsewhere. Special political missions around the world continue to identify new entry points and opportunities to advance the full and effective participation of women in mediation and peace processes. As noted in the Secretary-General's policy brief on A New Agenda for Peace, this entails work towards transforming gendered power structures, which stand in the way of progress on gender equality and the full, equal and meaningful participation of women in political and public life.
25. Special political missions are also working to pave the way for more inclusive peacemaking and peacebuilding in all their priorities and activities, with due consideration of a gender perspective. In Lebanon, for example, the Office of the United Nations Special Coordinator for Lebanon supported 11 local women's mediation networks involved in maintaining stability and fostering grass-roots

mediation. Efforts to enhance the access of women to decision-making within political parties gained traction. In addition, an informal two-track dialogue process was carried out between senior-level women from political parties and emerging political groups. In Central Africa, UNOCA and the Economic Community of Central African States (ECCAS) provided technical support to regional women mediator network initiatives, which resulted in an ECCAS network of women mediators and a Central African women mediators network steering committee, as well as the adoption of the 2024 action plan of the Central African women mediators network. In Haiti, BINUH facilitated gatherings of women leaders from the political, civil society and justice sectors to discuss their perspectives on the political process, conflict violence reduction, governance and electoral reform, and their role in the justice system, to enable women to meaningfully engage in public debates despite the deterioration of the security situation. In Liberia, UNOWAS convened a stakeholder forum for women in politics ahead of the 10 October 2023 general elections, which increased awareness of and compliance with the national protocol on violence against women in elections and politics.

2. Youth, peace and security

26. Almost nine years after the adoption of Security Council resolution [2250 \(2015\)](#), the inclusion and meaningful participation of young people in peace and security is still lagging behind, despite increased efforts. Persistent challenges remain, such as growing mistrust between young people and governments. In August 2023, the Security Council held an Arria-formula meeting on reinforcing the implementation of the youth, peace and security agenda in Africa, at which the importance of integrating youth perspectives in the mandate of special political missions was reiterated.
27. Special political missions continue to support the meaningful engagement of diverse youth groups in political and peace processes, and to strengthen their engagement with young women and men to harness their potential as agents of peaceful change. The United Nations Verification Mission in Colombia supported the Agency for Reintegration and Normalization in providing training on conflict resolution to young people and security forces, and promoting comprehensive, gender-responsive reintegration approaches to political, economic and environmental initiatives. In Libya, UNSMIL launched the “Training future leaders of Libya” initiative in September 2023, through which 30 young Libyan women developed their skills in human rights, legislation and policies to promote the participation of women and to counter hate speech. To increase media and information literacy, UNAMA enhanced the risk mitigation capacities of young people by providing information on digital security and safety in Afghanistan.
28. Special political missions are increasingly supporting youth engagement in environmental peacebuilding initiatives. In Iraq, UNAMI fostered collaboration between young people and the Government through consultations, which resulted in policy papers addressing climate change and key social and political concerns that affect young people. In Cyprus, the Office of the Special Adviser to the Secretary-General on Cyprus helped young people across the divide to unite around shared concerns over environmental sustainability and to prepare joint positions for the twenty-eighth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, held in December 2023.

3. Safety and security

29. Most field special political missions operate in complex, highly volatile and unpredictable security environments. Such missions implement their mandates while mitigating risks related to terrorism and high-intensity military conflicts involving significant kinetic activity, as well as insurgency, social unrest and armed groups openly challenging established authorities. The examples of UNMHA, UNAMA, UNAMI, UNSOM, UNSMIL and, most recently, BINUH clearly illustrate the security challenges faced daily. In some contexts, even if the country situation is stable overall, specific areas where special political missions are mandated to operate present significant safety and security challenges.
30. Mission personnel face considerable risks of becoming collateral targets, while assets and premises are also exposed to security risks. BINUH is facing a highly volatile security environment

characterized by extreme gang violence, which is challenging and, in some cases, results in the overpowering of local security forces. The eruption of renewed conflict in the Sudan in April 2023 had a dramatic effect on the security situation and resulted in the relocation and evacuation of United Nations personnel before the mandate and operations of UNITAMS eventually ceased as per Security Council resolution 2715 (2023). UNSOM continues to face security challenges that are becoming more acute as Somalia anticipates the drawdown and transition of the African Union Transition Mission in Somalia in the period ahead.

31. Such very high-risk contexts directly challenge the ability of special political missions to stay and deliver on their mandates. These risks require continuous assessment, as well as proactive preventive and mitigating measures. Where identified, risks need to be factored into the staffing and operational requirements of the missions. While the United Nations relies primarily on host Governments to guarantee the security of mission personnel, in some contexts they have insufficient capacity to deliver security services. The Department of Political and Peacebuilding Affairs and the leadership of special political missions engage continuously with the Department of Safety and Security to review risk management strategies in order to adapt and minimize any possible impact on mandate delivery for all missions, including panels or groups of experts supporting Security Council committees.
32. To operate in such environments, special political missions have had to employ significant security mitigation measures, identified and enhanced through a continuous risk management process. Such measures include the deployment of United Nations armed civilian security personnel, the deployment of guard units provided by Member States and the employment of armed private security companies where such requirements were identified as needed through the security risk management processes.

4. Electoral assistance

33. During the reporting period, special political missions continued to provide electoral assistance to Member States, where mandated or requested to do so. In her capacity as the focal point mandated by the General Assembly for electoral assistance matters, the Under-Secretary-General for Political and Peacebuilding Affairs receives requests for targeted medium- and long-term expert assistance aimed at supporting and strengthening the existing capacities of national electoral institutions. United Nations technical assistance and capacity-building activities were provided in an integrated manner and, in many cases, alongside preventive diplomacy and other conflict prevention activities, to foster consensus in establishing electoral legal frameworks, focusing on inclusion and non-discrimination, and encouraging broad participation. Special political missions that have electoral mandates continue to ensure that all electoral assistance policies, projects and activities take into consideration the key guiding principles of respect for sovereignty, national ownership and sustainability and promote the political participation of women, youth, people with disabilities and other marginalized groups.
34. For instance, in Somalia, the UNSOM-United Nations Development Programme (UNDP) Integrated Electoral Support Group provided technical assistance to the Transitional Puntland Electoral Commission for the Puntland district council elections held in May 2023. UNSOM and UNDP also provided technical and operational support to the newly established Galmudug Independent Electoral Commission. Technical support included assisting in the drafting of the Galmudug legal framework on elections. The Mission engaged with the Ministry of Interior, Federal Affairs and Reconciliation on the draft legal framework for federal and federal member State elections. Working sessions focused on the primary electoral legislation, consisting of the Electoral Management Body Law, the Electoral Law and the Political Party Law. The primary legislation will be submitted to Parliament in 2024 following the parliamentary discussion on the amendments to the Provisional Constitution of Somalia.
35. In Libya, UNSMIL provided technical advice and assistance to the High National Elections Commission in preparing for national and local elections. This support, provided in close collaboration with UNDP, included support in the areas of institutional capacity-building, legislative reform, the development of national voter registers, public outreach, electoral operations (including

electoral procurement and logistics), the participation of women, youth and persons with disabilities, civic and voter education, and the coordination of international electoral assistance.

36. In Iraq, the Independent High Electoral Commission, with the support of UNAMI, prepared for and organized the Governorate Council elections on 18 December 2023, held for the first time in 10 years and the first in Kirkuk Governorate since 2005. UNAMI provided high-level policy advice and technical assistance to the Commission in developing the operational, logistics and security plan, finalizing the electoral regulations and procedures, recruiting and training staff and enhancing systems for the voter registry and election results management. UNAMI also supported the Commission in launching an outreach campaign, using both traditional and social media channels, to educate and motivate voters to exercise their right to vote. Following the elections, UNAMI worked with the Commission to review the processes and harness lessons and recommendations for future elections. On the legislative elections in the Kurdistan Region of Iraq, UNAMI engaged with the regional authorities and the Commission to advance discussions to determine the election date and move forward with preparations for the elections. UNAMI continued to provide support to the Commission in preparing for other regional legislative elections, including in the areas of overall election management, planning, operations and logistics, information technology, training and procedures, legal frameworks, election security, the political participation of women, public outreach and communications.

E. Evaluation activities

37. The Department of Political and Peacebuilding Affairs continued to support evaluations and audits by oversight entities such as the Office of Internal Oversight Services (OIOS), while also conducting its own evaluations. When relevant, the key findings and lessons learned from these departmental self-evaluations are communicated to special political missions.
38. In 2023, OIOS conducted an evaluation of the incorporation of climate-related security risks by United Nations peace operations, with a focus on UNAMA, UNSOM and UNOWAS, among others. Most special political missions operate in environments that are highly vulnerable to climate change, which can have profound implications on mandate implementation. In implementing the recommendations contained in the evaluation, the Department provided training sessions on climate, peace and security for special political missions and other partners. The Department also mobilized voluntary contributions to provide selected special political missions with a dedicated climate, peace and security capacity.
39. In 2023, the Department of Political and Peacebuilding Affairs also supported the OIOS evaluation of the United Nations Verification Mission in Colombia and its thematic evaluation of the youth, peace and security agenda on youth participation.

F. Lessons learned from the closure of missions and transition planning

40. In 2023, there were lessons learned from the decisions to close the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) and UNITAMS in difficult operating contexts.
41. With the adoption of resolution [2690 \(2023\)](#), the Security Council decided to immediately terminate the mandate of MINUSMA under resolution [2640 \(2022\)](#), at the request of the Malian transitional authorities. The Council further requested the Secretary-General to engage with the transitional Government of Mali to articulate a plan for the transfer of the tasks of MINUSMA, bearing in mind the possible contribution of the United Nations country team, UNOWAS and other stakeholders, including in support of the Agreement on Peace and Reconciliation in Mali. In line with the Council's request, the Secretary-General issued a letter dated 18 August 2023 to the President of the Security Council on the plan for the transfer of the Mission's tasks ([S/2023/611](#)).
42. The Department of Peace Operations, the Department of Operational Support and MINUSMA established overarching governance arrangements to manage the withdrawal process, due to its complexity and scope and the challenging environment in which it was undertaken. This withdrawal

process entailed drawing down the mission from 13 to 2 locations, repatriating more than 12,000 uniformed personnel and managing the reassignment or separation of over 1,700 staff. The security environment posed significant challenges to the conduct of the drawdown, but this phase of the Mission's closure was successfully completed with no loss of life. The Department of Operational Support remains engaged with the MINUSMA liquidation entity, which is due to complete its in situ work in the 2024/25 period.

43. In Mali, UNOWAS is undertaking preventive diplomacy and good offices efforts and providing political mediation support, in line with its mandate, including support to the political transition process, as well as the end-of-transition elections, while continuing to focus on the regional aspects of its good offices mandate. UNOWAS may also take on other tasks specific to Mali, such as support for the implementation of the Agreement on Peace and Reconciliation in Mali, to be identified in consultation with the Malian authorities, other signatory parties, the international mediation team and ECOWAS.
44. On 1 December 2023, the Security Council adopted resolution [2715 \(2023\)](#), in which it terminated the mandate of UNITAMS effective 3 December 2023. In that resolution, the Council requested the Mission to immediately start on 4 December the cessation of its operations and the process of the transfer of its tasks, where appropriate and to the extent feasible, to United Nations agencies, funds and programmes, with the objective of completing this by 29 February 2024. It further decided that the liquidation of UNITAMS would commence on 1 March 2024 and called on the Mission to establish with the United Nations country team the requisite financial arrangements enabling the United Nations to oversee the residual activities of programmatic cooperation previously initiated by UNITAMS, as appropriate.
45. Against this backdrop, UNITAMS initiated drawdown and transition planning in coordination with the Resident Coordinator's Office and the United Nations country team to identify tasks and knowledge that could be transferred from UNITAMS to relevant agencies and other partners, and gaps that could be created with the closure of the Mission on 29 February 2024. The transition process also provided an opportunity for the United Nations to safeguard the work done jointly as an integrated United Nations presence in the Sudan for the past three years with regard to human rights, the protection of civilians, peacebuilding and other programmatic activities.
46. With respect to liquidation, UNITAMS established a road map for the drawdown of staff, which included a staff-management group as per the Secretariat's administrative instruction on downsizing or restructuring resulting in the termination of appointments ([ST/AI/2023/1](#)) and was supported by a dedicated team of human resources experts from the Department of Operational Support. That process informed the finalization of the staff retention and drawdown plan, and termination notifications for most staff were subsequently issued. The majority of the Mission's staff were separated by 29 February 2024. A total of 64 positions had been identified for the liquidation team, starting on 1 March and ending on 31 August 2024, to carry out the field-based liquidation tasks. Thereafter, the United Nations Logistics Base at Brindisi, Italy, will carry out residual liquidation activities such as asset reconciliation, the completion of the derecognition and deactivation of property records, the preparation of inputs for the final disposition of assets and the completion of environmental monitoring and reporting. The Regional Service Centre in Entebbe, Uganda, on the other hand, will complete the processing of outstanding financial and human resources transactions. At the Headquarters level, the Department of Operational Support will lead the overall monitoring and analysis of the progress of the completion of the residual liquidation activities. The Department of Management Strategy, Policy and Compliance will coordinate the preparation and finalization of financial and budget performance reporting.
47. With respect to mine action activities, the National Mine Action Authority of the Government of the Sudan had requested that the United Nations continue to provide mine action support after the drawdown of UNITAMS. On that basis, the Mine Action Service of the Department of Peace Operations decided to remain in the Sudan to continue mine action activities (funded from the United Nations voluntary trust fund for assistance in mine action) in support of the Sudanese people and the United Nations and humanitarian actors in their delivery of humanitarian assistance.

48. In November 2023, the Secretary-General appointed Ramtane Lamamra of Algeria as his Personal Envoy for the Sudan. The Security Council, in resolution [2715 \(2023\)](#), welcomed the appointment of the Personal Envoy to use his good offices with the parties and the neighbouring States, complementing regional peace efforts, including those of the African Union and the Intergovernmental Authority on Development, and called on all parties to extend their cooperation in furtherance of his tasks.
49. Since then, the Personal Envoy has engaged with key stakeholders with the objective of supporting and helping to bring coherence to the various mediation initiatives to end the war in the Sudan. During its transition phase, UNITAMS engaged intensively with the Personal Envoy to transfer its analysis, institutional memory and contacts. At the strategic level, the roles played by the Personal Envoy (who took over good offices functions from UNITAMS) and the Resident and Humanitarian Coordinator (who coordinates United Nations operations on the ground and is the most senior United Nations official in the country) are well established and complementary. At the operational level, the Personal Envoy and the country team ensure close collaboration through agreed liaison mechanisms on substantive files.
50. To ensure support for the Personal Envoy, the remaining substantive capacity of UNITAMS provided support in terms of situational awareness and political analysis until 29 February 2024, when such capacities ended in accordance with the drawdown plan of UNITAMS. Since then, the Personal Envoy has relied on his own team, currently funded from unforeseen and extraordinary expenses under the terms of General Assembly resolution [78/255](#), with support from the respective regional divisions in the Department of Political and Peacebuilding Affairs and the Department of Peace Operations, and inputs from the Peace and Development Adviser deployed in the Resident Coordinator's Office, as well as other United Nations partners on the ground. In this regard, the Secretariat is developing a proposal to be presented under cluster I for the establishment of a support structure for the Personal Envoy to effectively carry out his work in line with resolution [2715 \(2023\)](#).
51. In the case of UNITAD, the mission has started developing its drawdown plan. Discussions have been taking place, coordinated through the Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator for Iraq, on capacity-building activities related to the mandate of UNITAD that could be carried out by United Nations system entities based in Iraq following the conclusion of the UNITAD mandate, in agreement with the Government of Iraq. The mission is also finalizing the calendar for concluding its substantive activities, and developing a staff drawdown plan, inclusive of holding information sessions for all affected staff and organizing the staff-management group process, to be concluded by the end of May 2024. UNITAD works closely with UNAMI, which has provided important assistance in the development of the plan for drawdown and closure, and will support the execution of liquidation activities. It is expected that a small liquidation team of UNITAD will be needed after the mission's closure on 17 September 2024 to complete these activities, in close operation with UNAMI, for a limited duration and to be funded from the 2024 appropriation of UNITAD.

G. Reporting requirements related to special political missions emanating from the General Assembly and from the recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

1. **Contribution of extrabudgetary resources to mandate implementation in special political missions**
52. Extrabudgetary resources, in particular voluntary contributions, continue to be used for backstopping, surge requirements for good offices, crisis situations and other activities related to the mandates of special political missions. Such resources have also been critical for support for inter-mission activities and for visits by desk officers and senior officials to missions.
53. Voluntary contributions have been important in enabling special political missions to implement targeted projects in pursuit of the implementation of their mandates. In the Great Lakes region, the

Office of the Special Envoy of the Secretary-General utilizes extrabudgetary resources to support the effective implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region through various projects under different thematic areas in the region. The United Nations Regional Centre for Preventive Diplomacy in Central Asia utilized extrabudgetary resources to support the relaunching of a project for regional cooperation on transboundary water management, with a renewed scope of activities, and for support for the Central Asian Women Leaders' Caucus to provide influential leadership within and among the countries of the region. The annual meeting of Central Asian deputy ministers for foreign affairs, as well as activities under the Preventive Diplomacy Academy project, and the holding of the sixth meeting of the Central Asian expert forum, were also funded through extrabudgetary resources. United Nations support for the Cameroon-Nigeria Mixed Commission continues to utilize extrabudgetary resources to support land boundary demarcation and to implement socioeconomic projects for the benefit of populations in the vicinity of the demarcation exercise. UNOWAS uses extrabudgetary resources to deepen preventive diplomacy efforts and enhance partnerships at the local, national, subregional and international levels, including with women and youth, to promote peace and stability in West Africa.

54. Voluntary contributions also bolster backstopping capacity at Headquarters, including through regular visits to the field, thereby enabling the development of a closer working collaboration with the missions. Such visits have facilitated a better understanding and analysis of the context in which missions are operating and how they can be better supported to implement their mandates.
55. In addition, voluntary contributions fund specific mission initiatives. The Office of the Special Envoy of the Secretary-General for Syria utilized extrabudgetary resources in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition and with civil society, including women's groups and regional and international stakeholders. The Office of the Special Envoy of the Secretary-General on Myanmar used extrabudgetary resources to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar. Furthermore, the Counter-Terrorism Committee Executive Directorate has used funds to organize several new and follow-up workshops in accordance with the work programme approved by the Counter-Terrorism Committee, to conduct research on strategic, political, legal, institutional and security issues relating to counter-terrorism and to support international cooperation in counter-terrorism.
56. In addition, cost-recovery revenue in some missions, such as UNAMA and UNAMI, enabled those missions to provide shared common services to other agencies, funds and programmes in the same location, to benefit from economies of scale. This is in line with the General Assembly's direction of consolidating support services at the country level and the requirement for integrated support across the United Nations system for the 2030 Agenda for Sustainable Development. Cost recovery is governed by rule 105.11 of the Financial Regulations and Rules of the United Nations, in addition to policy guidance issued by the Controller.
57. Extrabudgetary resources (including both voluntary contributions and cost-recovery revenue) are estimated at \$43.6 million for 2025, compared with an estimated \$46.3 million in 2024. The projected decrease of \$2.8 million is attributable to the anticipated conclusion or non-extension of some projects or activities, as well as to lower contributions for 2025 based on current projections. Extrabudgetary resources have been important in enabling special political missions to implement targeted projects in pursuit of their mandates. However, while missions continue to engage actively in fundraising activities, it remains a challenge to secure funding or pledges for 2025 sufficiently in advance to enable projections to be made with greater certainty.
58. Annex IV to the present report provides mission-by-mission amounts of projected expenditure funded from extrabudgetary resources, while further details of the purposes and utilization of such resources are provided in the proposed budget reports of the respective thematic clusters.

2. Regional Service Centre in Entebbe, Uganda

59. The Regional Service Centre in Entebbe, established in July 2010, currently supports five peacekeeping missions and the United Nations Support Office in Somalia (UNSOS), eight special political missions and the United Nations Office to the African Union. The 15 clients of the Centre receive the full range of non-location-dependent services, such as invoice processing, financial services for year-end closing, payroll processing, education grant processing, human resources transactional services and travel management and processing, as well as functions such as the primary regional solution for supply chain management and information and communications technology (ICT) services. These 15 clients manage annual budgets amounting to a total of approximately \$4.5 billion, making the services of the Centre an essential part of their support operations. The Regional Service Centre will also carry out residual liquidation functions for UNITAMS after the completion of its field-based liquidation phase, and for the United Nations Integrated Peacebuilding Office in Guinea-Bissau (UNIOGBIS) and the Office of the Special Envoy of the Secretary-General for Burundi, the mandates of which expired in prior periods, with some administrative support requirements remaining. Surge capacity support provided by the Centre for UNITAMS liquidation is included under the liquidation budget for the Mission.
60. In 2025, eight Africa-based special political missions will receive support from the Regional Service Centre: the Office of the Special Envoy of the Secretary-General for the Horn of Africa, the Office of the Special Envoy of the Secretary-General for the Great Lakes Region, the Panel of Experts pursuant to resolution [2713 \(2023\)](#), UNOWAS, UNSOM, United Nations support for the Cameroon-Nigeria Mixed Commission, UNOCA and UNSMIL.
61. The proposed budget for the Regional Service Centre for the 2024/25 period (see [A/78/722](#)) is currently under consideration by the General Assembly at the second part of its resumed seventy-eighth session. In that budget, resources in the amount of \$48,202,400 are proposed by the Secretary-General for the maintenance of the Centre for the period from 1 July 2024 to 30 June 2025, to be apportioned on a pro rata basis among the budgets of the Centre's active client peacekeeping operations, as well as special political missions financed under section 3, Political affairs, of the regular budget. Towards this end, an amount of \$2,308,400 has been included in the proposed programme budget for 2025, representing the share of special political missions. This provision will be subject to a final adjustment to be made in accordance with the decision to be taken by the Assembly in the context of the budget of the Regional Service Centre for the 2024/25 period, which is expected by the end of June 2024.

3. Kuwait Joint Support Office

62. In its resolution [65/259](#), the General Assembly noted the intention of the Secretary-General to establish a support office in Kuwait for UNAMA and requested him to explore possibilities for cost-sharing between UNAMA and UNAMI. Following a period of assessment, in October 2012 the Secretary-General informed the Assembly that the Kuwait Office would include a Kuwait Joint Support Office, which would integrate UNAMA and UNAMI functions in the areas of finance and human resources (see [A/67/346/Add.4](#)). The Kuwait Joint Support Office was launched in December 2012 as the back office to provide mission support services on a shared basis to UNAMA and UNAMI.
63. The client base of the Kuwait Joint Support Office has gradually increased over time. It currently supports eight field missions⁴ with transactional services related to finance and human resources, while 10 other field missions⁵ receive more limited dedicated support only for education grant and

⁴ UNAMA, UNAMI, BINUH, Office of the Special Envoy of the Secretary-General for Syria, Office of the Special Envoy of the Secretary-General for Yemen, UNITAD, United Nations Regional Centre for Preventive Diplomacy and UNMHA.

⁵ United Nations Interim Force in Lebanon (UNIFIL), United Nations Disengagement Observer Force, United Nations Logistics Base at Brindisi, Italy, United Nations Interim Administration Mission in Kosovo, United Nations Peacekeeping Force in Cyprus, United Nations Truce Supervision Organization, United Nations Military Observer Group in India and Pakistan, Office of the United Nations Special Coordinator for the Middle East Peace Process, Office of the United Nations Special Coordinator for Lebanon and United Nations Verification Mission in Colombia.

payroll processing requirements. As a back office for the various clients, the Office offers a stable operating environment for providing transactional non-location-dependent services in finance and human resources, while leveraging process standardization and centralizing time-sensitive tasks such as payroll and education grant processing for all its client missions. The role of the Office has proven to be very valuable in providing support to its client missions.

64. The Kuwait Joint Support Office functions without an independent staffing structure or annual budget. Currently, funding for its staffing costs comes from 8 of its 18 client missions, comprising peacekeeping and special political missions, with UNAMA and UNAMI providing 87 per cent of the Office's staffing resources. These posts remain on the staffing table of the respective client missions, while operationally they are deployed to the Office and work under the supervision of the chief of the Office.

4. Promoting national capacities

65. Encouraging the use of national capacities has been a core area of focus in human resources management in special political missions. In line with the request of the General Assembly in its resolutions [61/276](#) and [66/264](#) for greater utilization of national staff, special political missions reviewed the functions performed by international staff in the Professional and Field Service categories and by United Nations Volunteers that would provide an opportunity to contribute to national capacity-building and have proposed the conversion of relevant posts to the National Professional Officer and Local level categories commensurate with the requirements of the missions and their respective mandates.
66. In December 2021, the Department of Operational Support issued a guide on planning nationalization of the workforce. The guide provides practical information for conducting nationalization in the context of operational workforce planning at the entity level and is aimed at setting consistent standards and approaches on nationalization across entities.
67. Pursuant to the issuance of the guide, the Department continues to promote and encourage the nationalization of international posts through engagement with client entities. A round-table event was held in the workforce planning and organizational design network in September 2023 to share best practices and lessons learned in order to encourage concentrated efforts to improve nationalization by the respective missions.
68. In recent years, special political missions have made steady progress in the nationalization of posts. A total of 12 posts were nationalized in 2016, 1 in 2017, 2 in 2018, 5 in 2019, 7 in 2020, 4 in 2021, 19 in 2022, 9 in 2023 and 5 in 2024. For 2025, it is proposed that 1 post be nationalized and additional national posts established, including:
- (a) One post in the Office of the Special Envoy of the Secretary-General for Syria, reflecting the conversion of one Political Affairs Officer from P-3 to National Professional Officer;
 - (b) Eleven posts (National Professional Officer) are proposed to be established in UNSOM to support and improve monitoring and engagement with the local communities, build local capacity and provide strategic advice to mission leadership on local dynamics and programme activities.

5. Gender parity and geographical representation

69. The Organization remains committed to ensuring the equal representation of women in peace operations, acknowledging that their active participation is crucial to the success of these efforts. Current initiatives focus mainly on accelerating progress in special political missions through policy guidance, targeted outreach and measures to create enabling environments. The Office of Human Resources is actively supporting these initiatives across various areas. Recently, a Secretary-General's bulletin was issued on gender focal points in the Secretariat ([ST/SGB/2023/3](#)). This bulletin outlines the roles and responsibilities of gender focal points, enhancing their capacity to support their respective entities more effectively. In addition, the introduction of a new mobility

framework is designed to equitably distribute the challenges associated with working in difficult and demanding contexts by limiting the duration of service in such contexts, thereby making field roles more attractive.

70. Creating supportive environments is essential for the recruitment and retention of women, and the Organization is dedicated to improving conditions in the field. It continues to apply targeted measures across the six thematic areas outlined in the Field-specific Enabling Environment Guidelines for the United Nations System. The enforcement of high standards of conduct through a zero-tolerance policy for sexual offences remains a priority. The 2023 launch of a United Nations system-wide knowledge hub on addressing sexual harassment represents a significant step forward in the strategy. This hub consolidates resources from across the United Nations system, enhancing transparency and providing all United Nations personnel, Member States and civil society with easier access to crucial documents. Furthermore, the mental health and well-being of personnel are of utmost importance. In recognition of the Secretariat's duty of care, in 2023 the Organization launched an updated United Nations System Mental Health and Well-being Strategy for 2024 and beyond, complemented by a survey aimed at better understanding the specific needs of personnel. Targeted outreach is essential for maintaining a consistent flow of female applicants, and the Organization is continually exploring innovative methods to achieve this goal.
71. Missions also seek to integrate a gender perspective in their operational activities, deliverables and results. In its engagement with the de facto authorities and political stakeholders, UNAMA promotes gender mainstreaming into programmes and structures to strengthen the representation of women. The Mission supports the implementation of Security Council resolutions [1325 \(2000\)](#) and [2493 \(2019\)](#), in particular with regard to gender equality, the empowerment of women and girls and their human rights. Despite the challenges, UNAMA continues its advocacy on the full and meaningful participation of women in political processes at the local, national, regional and international levels. In view of the consistent low percentage of female national staff within the Mission, UNAMA undertakes efforts to address the issues, which are deeply interwoven in the systematized patriarchal society of Afghanistan, through capacity-building of women. With the support of the Department of Political and Peacebuilding Affairs, since 2019 the Mission has been implementing a national youth United Nations Volunteers project aimed at female national university graduates and young professionals to create entrance-level job opportunities. This project serves as a critical tool to help address the imbalance in gender representation among national staff, becoming a pipeline for young Afghan women to enter the workforce and thereby contributing to improved gender balance. In October 2022, the General Assembly approved the conversion of 20 national United Nations Volunteer positions from extrabudgetary to regular budget funding. In continuation of those efforts, it is proposed to convert an additional 16 national United Nations Volunteer positions from extrabudgetary resources to regular budget funding in 2025. These positions play a critical role in UNAMA activities and are required in the longer term for mandate delivery and related operations.
72. In paragraph 23 (a) of its resolution [77/278](#), the General Assembly decided to update the system of desirable ranges with effect from 1 January 2024, widening the number of posts subject to the system to all posts funded by the regular budget at the Professional and higher categories, including in special political missions and peacekeeping operations, excluding language posts. The Organization remains committed to working towards equitable geographical distribution in geographical posts and recruiting staff on as wide a geographical basis as possible for non-geographical posts in special political missions and peacekeeping operations.
73. To support these efforts, and based on lessons learned, the Secretariat is structuring its efforts to focus on three streams: (a) attracting talent, (b) selecting talent and (c) engaging talent. These streams will be complemented by a robust enabling ecosystem of leadership and commitment, strategic communications and, most importantly, purposeful partnerships with Member States, the United Nations system and other networks. The Secretariat seeks ways to intensify cooperation with unrepresented and underrepresented Member States, through targeted outreach, to attract qualified candidates to job openings in the Secretariat. Through purposeful partnerships, Member States can play a critical role in positioning the United Nations as a top employer for their nationals by creating

awareness among the local population, providing data to the Secretariat concerning labour market trends and available skills, and leveraging national resources and networks to reach qualified candidates. This approach will be critical for increasing the reach and impact of targeted talent outreach initiatives conducted by the Secretariat. In alignment with the approach, the Office of Human Resources partners with the Development Coordination Office to connect with the resident coordinator system and with the Department of Global Communications to engage systematically with the United Nations information centres globally in unrepresented and underrepresented Member States. In addition, the Secretariat conducts proactive and targeted outreach to nationals from unrepresented and underrepresented Member States, women and youth through career events, webinars, weekly dissemination of job openings to the permanent missions, professional associations and social media campaigns around the globe.

74. To deliver the mandates of special political missions in changing operational environments, including technological transformations, and in alignment with the long-term priorities and objectives of the Organization, a set of workforce capabilities will be reinforced over the coming years. Building data expertise, innovation capacity, digital dexterity and strategic foresight, and nurturing behavioural science, are priorities, along with strengthening capabilities in strategic communications and climate security. New generic job profiles covering these capabilities have been developed or are under development. Proposals for reclassification and reassignment of existing functions in missions using these new profiles, especially when leveraging opportunities from upcoming retirements to create more junior-level posts to rejuvenate the workforce, are vital elements in advancing a workforce transformation that provides for the skills, knowledge and abilities needed to effectively and efficiently deliver mandates today and in the foreseeable future.
75. Efforts continue to ensure that human resources policies are responsive to the needs of entities with a field presence. Specifically, the Office of Human Resources develops and revises administrative issuances, streamlined policies and procedures to respond to the needs of field entities and provides authoritative policy interpretation and advice on all human resources policies applicable to field entities, including in emergency and crisis situations, as well as during downsizing and reduction-of-staff exercises. The Office remains actively engaged in the work of the Human Resources Network Standing Committee on Field Duty Stations and the International Civil Service Commission's tripartite Working Group for the Review of Conditions of Life and Work in Field Duty Stations, which monitor matters related to the conditions of service of staff in the field, including rest and recuperation, danger pay, hardship classification and non-family designation of duty stations. As part of the Office's participation in discussions of the International Civil Service Commission, ongoing reviews are carried out for key field entitlements, including hardship allowance, non-family service allowance, mobility incentive, relocation package, danger pay and security evacuation allowance, as well as the methodology for setting post adjustment in the field duty stations. The Office is actively engaged in the comprehensive review of the United Nations common system compensation package being conducted by the International Civil Service Commission following a request by the General Assembly in its resolution [77/256 B](#), which includes a full review of the compensation package for staff in field locations. The Office also conducts periodic salary surveys to establish and update salary scales for staff in locally recruited categories in field duty stations.
76. Annexes XVIII and XIX of the present report provide information on the gender distribution of civilian staff and experts and geographical representation among international civilian staff and experts, respectively, as at 31 March 2024.

6. Strengthening coherence and collaboration between pillars in special political missions

77. Depending on the context of the country and mission, the Deputy Special Representatives of the Secretary-General may have triple functions to perform, also serving as resident coordinators and humanitarian coordinators. The staffing complements of six special political missions, namely UNSOM, the Office of the United Nations Special Coordinator for Lebanon, UNSMIL, BINUH, UNAMA and UNAMI, include Deputy Special Representatives of the Secretary-General, or Deputy Special Coordinators, who have the triple functions and serve also as resident coordinators and

humanitarian coordinators in complex, multidimensional contexts. These deputies constitute the link between the political work of the special political mission and the United Nations entities implementing development and humanitarian activities in coordination with the mission. As Resident Coordinator, the incumbent is responsible for coordinating operations and activities relating to the United Nations country team and United Nations development activities, for ensuring that the activities of the United Nations country team are aligned with national priorities, as captured in United Nations cooperation frameworks, for providing oversight and transparency on joint activities of the United Nations country team and for mobilizing partnerships and financing in support of country efforts towards the achievement of the Sustainable Development Goals. The office of the resident coordinator supports those functions. As Humanitarian Coordinator, the incumbent is responsible for coordinating humanitarian plans and operations and for maintaining links with Governments and other parties, donors and the broader humanitarian community. The salaries and common staff costs related to the posts of Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator are budgeted at 50 per cent of the total cost in the 2025 budgets of the respective special political missions, pursuant to General Assembly resolutions [59/296](#) and [72/279](#), with the other 50 per cent funded through the Development Coordination Office.

78. The previous main report on estimates in respect of special political missions (see [A/78/6 \(Sect. 3\)/Add.1](#), paras. 73–77) underscored the important function of the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator within an integrated multidimensional mission and the ongoing efforts to ensure that the Office of the Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator is able to effectively support mandate-related functions performed by that person. In this regard, and in line with Security Council resolution [2594 \(2021\)](#), the Secretariat continues to strengthen coherence and collaboration between the respective pillars in mission settings.
79. Appropriately sized and dedicated capacity in the mission structure is required to support the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator in carrying out his or her cross-pillar function within the respective mission and to provide sufficient support to that person's role in coordinating the work of the various units reporting to him or her. To ensure predictable and stable capacity and building on the initial review (*ibid.*, para. 77), the Secretariat undertook an in-depth study of 11 field missions to formulate a common approach to objectively assessing the enhanced managerial and coordination support requirements for the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator at both peacekeeping and special political missions. The study showed that, while a dedicated senior staff member providing support to the Office of the Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator was required, the level of that position should be differentiated, depending on: (a) the number of units reporting to him or her; and (b) the number of substantive mandate points assigned to the office. Peacekeeping and certain cluster III special political missions (UNAMA and UNSOM) have a larger and comparable number of mandate points and reporting units, and hence Deputy Special Representatives of the Secretary-General, Resident Coordinators and Humanitarian Coordinators at these missions require the support of a Principal Coordination Officer (D-1). The Secretariat will apply those two criteria in ascertaining the level of support capacity for the Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator. For the 2025 budget period, it is proposed to establish one post of Principal Coordination Officer/ Head of Integrated Office (D-1) in UNSOM and one post of Senior Coordinator Officer (P-5) in UNAMI through the reclassification of an existing post at the P-4 level. Both proposals are aimed at providing the dedicated support to align the mission capacity with these findings.

7. Mine action activities

80. The Secretariat continued to implement the recommendations of the Board of Auditors (see [A/75/5 \(Vol. II\)](#) and [A/76/5 \(Vol. II\)](#)) by reviewing and redesigning the delivery of mine action mandates in UNAMA and UNSMIL. The redesign shifts delivery from implementation in partnership with the United Nations Office for Project Services (UNOPS) to direct delivery by the Secretariat. This shift

improves governance by providing a direct reporting line from the mine action personnel to the Chief of the Mine Action Programme and empowering the Secretariat to fulfil its responsibilities to undertake programme design, operational planning, implementation, reporting and representation.

81. The Secretariat undertook the reviews of the United Nations Interim Force in Lebanon and the United Nations Interim Security Force for Abyei for 2024/25 and of UNAMA and UNSMIL for 2025 within existing resources to initiate the generation of data on comparative mine action delivery models. As the Secretary-General stated in his report on the summary of the findings and recommendations of the independent review of the delivery model of the United Nations Mine Action Service (see [A/77/747](#), paras. 36–37 and 47) and as noted by the Advisory Committee on Administrative and Budgetary Questions in its report on observations and recommendations on cross-cutting issues related to peacekeeping operations (see [A/78/744](#), para. 58), the Mine Action Service and the Secretariat must be adequately resourced at Headquarters and in the field to carry out current programme design, monitoring and reporting functions, undertake a phased review of all mine action programmes in peacekeeping missions and special political missions, and implement the revised delivery models.
82. The budgets of UNAMA and UNSMIL for 2025 reflect the substantive changes made to ensure effectiveness, strengthen governance and achieve cost-efficiency. The proposed revisions also result in savings for UNAMA and UNSMIL.

8. Backstopping support at Headquarters

83. Special political missions rely on Headquarters for backstopping support for a wide range of functions. The Department of Political and Peacebuilding Affairs is leading and providing substantive backstopping to 33 of the 36 continuing special political missions by ensuring regular and effective communication between the missions and United Nations entities in New York and regular liaison with Member States through their permanent missions to the United Nations and preparing a wide range of substantive material, including briefing material for the Security Council and regular reports of the Secretary-General, among a wide range of functions. Administrative support is being provided by the joint Executive Office of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to 15 of those missions.
84. Special political missions also benefit from operational support and advisory services in the areas of human resources and supply chain management provided by the Department of Operational Support, budgetary and financial services, asset and property management policy support and assistance with accountability systems provided by Department of Management Strategy, Policy and Compliance, and information technology support delivered by the Office of Information and Communications Technology. Special political missions also rely on support from Headquarters in thematic and operational areas such as constitution-making, electoral assistance, mediation, best practices, military and police planning/force generation, rule of law and security institutions.
85. Annex III to the present report contains consolidated information on positions at Headquarters for backstopping support funded from special political mission budgets proposed for 2025, including the total number of backstopping posts for different departments, along with the functional titles of the posts. In 2024, a total of 49 such posts (1 D-1, 9 P-5, 20 P-4, 8 P-3, 1 P-2 and 10 General Service (Other level)) are being funded from special political missions. In 2025, a total of 43 posts (1 D-1, 7 P-5, 18 P-4, 7 P-3, 1 P-2 and 9 General Service (Other level)) are proposed, reflecting a reduction of 6 posts due to the discontinuation of UNITAMS and UNITAD.
86. While the resources included in the budgets of special political missions for backstopping support are fundamental for the Secretariat to provide support to special political missions, the regular budget and extrabudgetary resources of the Department of Political and Peacebuilding Affairs are often also required to ensure adequate support. Similarly, the regular budget and extrabudgetary resources of the Office for Disarmament Affairs are used to provide administrative support to the mission in support of the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction.

9. Ratios for vehicles and information technology equipment

87. Ordinarily, vehicle holdings should directly and proportionally reflect the number of staff, whereas operational requirements should be prioritized on the basis of supporting mileage, frequency of use and usage patterns. This forms the principal guidance from Headquarters to field missions on the management of an efficient vehicle fleet. As part of its efforts to further improve vehicle fleet management, the Secretariat has promulgated a standard ratio for light passenger vehicles for field missions, to be used as a guide when assessing ground transportation needs, subject to the relevance to operations in any given Secretariat entity. Whereas field missions are responsible for determining the overall requirement for vehicles, the Secretariat undertakes vehicle acquisition on behalf of all its entities to ensure efficiency gains by procuring cost-efficient vehicles available under Headquarters global systems contracts established through competitive bidding exercises. Such deliberate actions allow for the implementation of the guidance without putting missions at risk with regard to their operational needs.
88. The vehicle and information technology equipment holdings of special political missions have been reviewed and aligned by each mission, where possible, in accordance with the Standard Cost and Ratio Manual issued by the Department of Operational Support. The missions continue to monitor excess holdings of vehicles and expect to dispose of vehicles when they meet the criteria in terms of life expectancy or write-off or to recommend inter-mission transfers where feasible and cost-efficient.
89. In the above context, the holdings of vehicles and information technology equipment are proposed on the basis of the anticipated personnel incumbency levels planned for 2025, as opposed to the full authorized level of personnel. Table 1 provides the ratios for vehicles for all special political missions that have vehicle holdings, while table 2 provides the ratios for information technology equipment for all special political missions.

United Nations Verification Mission in Colombia	636	556	153	150	(2.0)
UNMHA	171	78	19	49	160.4
BINUH	188	165	58	62	6.9
Subtotal	2 465	2 126	410	497	21.3
UNAMA and UNAMI					
UNAMA	488	448	96	144	50.0
UNAMI	404	351	84	157	86.9
Total	3 565	3 083	634	829	30.8

^a Includes United Nations international staff, National Professional Officers, international United Nations Volunteers, military and police personnel (military observers, military police and civilian police officers), Government-provided personnel and contractors.

^b Includes armoured vehicles except those earmarked or required for the exclusive use of close protection and certain security tasks. Excludes guard-forces-carrying and utility vehicles, buses and electric carts.

^c Based on standard equipment as outlined in the Standard Cost and Ratio Manual.

90. The total proposed vehicle holdings for special political missions are 30.8 per cent above the standard allocation based on the Standard Cost and Ratio Manual. Explanations for vehicle holdings that are higher than the standard allocation in specific missions are as follows:
- The vehicle holdings for the United Nations Representative to the Geneva International Discussions are 33.3 per cent, or one vehicle, higher than the standard allocation, and reflect the operational needs both in Tbilisi and Zugdidi, Georgia;
 - The vehicle holdings for United Nations support for the Cameroon-Nigeria Mixed Commission are higher than the standard allocation by 60.0 per cent, which reflects the need for dedicated transportation to support the movement of the joint technical teams and their security personnel along with all their logistics equipment while in the field. The presence of these vehicles allows for flexibility and the ability to move freely within the areas of operations, many of which are isolated and hard to reach and have limited infrastructure and unsafe conditions;
 - The vehicle holdings for UNSMIL are 30.5 per cent higher than the standard allocation, which is attributable to: (i) an operational requirement for a pool of vehicles to support the United Nations Guard Unit; and (ii) reserves to support movements in Tunis and Benghazi. UNSMIL operates in two countries (Libya and Tunisia) and in five official locations (Tripoli, Benghazi, Sabha, Sirte and Tunis). The security risk assessment for each location governs the vehicles' usage at each location;
 - The vehicle holdings for UNMHA are higher than the standard allocation by 160.4 per cent, which reflects the operational requirement for a pool of vehicles to support convoy movements between Hudaydah and Sana'a and between Aden and southern districts;
 - The vehicle holdings for BINUH are 6.9 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement to have a pool of duty vehicles for medical, security, information technology and engineering personnel to enable them to quickly respond to emergencies; (ii) the need for frequent maintenance and repair caused by poor road conditions and the extensive time needed for repairs at outsourced workshops; and (iii) the need for vehicles to conduct driver testing;
 - The vehicle holdings for UNAMA are 50.0 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement for a pool of vehicles for Kabul to provide dispatch transportation for all staff in the Mission; (ii) provision of airport shuttle services; and (iii) vehicles to conduct driver testing;

- (g) The vehicle holdings for UNAMI are 86.9 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement for a pool of vehicles to support the United Nations Guard Unit; (ii) provision of airport shuttle services; (iii) reserves to support movements in the various regions in Iraq; and (iv) vehicles to conduct driver testing.

^a Includes desktop computers, laptops and netbook computers.

^b Includes international and national staff, United Nations Volunteers, United Nations police, United Nations military observers, government-provided personnel, military staff officers, international contractors and duty station-based experts.

^c Based on standard requirements as outlined in the Standard Cost and Ratio Manual.

91. The total proposed computing device holdings for special political missions are 8.3 per cent higher than the standard allocation. Explanations for computing device holdings that are higher than the standard allocation in specific missions are as follows:

- (a) The computing device holdings at the Office of the Special Envoy of the Secretary-General for Syria are 11.7 per cent higher than the standard allocation and relate to equipment needed for training purposes, maintenance of servers and systems for closed-circuit television monitoring, identity cards and access control;
- (b) The computing device holdings at the Office of the Special Envoy of the Secretary-General for Yemen are 10.2 per cent higher than the standard allocation, which is attributable to requirements for conference and meeting rooms, security monitoring systems, and servers;
- (c) The computing device holdings at UNOWAS are 9.2 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for training purposes, conference and meeting rooms, and the CarLog system;
- (d) The computing device holdings at the United Nations Regional Centre for Preventive Diplomacy for Central Asia are 9.3 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for data transmission and connectivity and servers;

- (e) The computing device holdings for United Nations support for the Cameroon-Nigeria Mixed Commission are 14.3 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for training and meeting rooms;
 - (f) The computing device holdings at UNOCA are 7.4 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for data transmission and connectivity and servers;
 - (g) The computing device holdings at UNSMIL are 3.9 per cent higher than the standard allocation, which is attributable to requirements for the CarLog system, data transmission and connectivity and servers for the United Nations Guard Unit;
 - (h) The computing device holdings at the United Nations Verification Mission in Colombia are 2.5 per cent higher than the standard allocation, which is attributable to requirements for training purposes, meeting rooms, servers and data transmission systems;
 - (i) The computing device holdings at UNMHA are 5.7 per cent higher than the standard allocation, which is attributable to requirements for training purposes, the CarLog system and servers;
 - (j) The computing device holdings at BINUH are 3.3 per cent higher than the standard allocation, which is attributable to requirements for training purposes and servers;
 - (k) The computing device holdings at UNAMA are 9.4 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for training purposes, the CarLog system and servers, as well as provision for other personnel, including contractors;
 - (l) The computing device holdings at UNAMI are 27.6 per cent higher than the standard allocation, which is attributable to additional holdings required for training purposes, maintenance of servers, information technology for medical support, systems for closed-circuit television monitoring, identity cards and access control, and the CarLog system, as well as provision for other staff;
92. The holdings are influenced by factors such as the need to provide for consultants and individual contractors, training facilities, Internet booths, information technology maintenance services, CarLog systems, programming of radios and fieldwork. Furthermore, based on the lessons learned during the coronavirus disease (COVID-19) pandemic, which saw a substantial increase in the use of virtual communications and remote working, it is critical to ensure the reliability of information technology equipment and infrastructure and their accessibility to all personnel, both staff and non-staff, to enable business continuity, mandate delivery and the safety and security of staff members, especially in the harsh environments where many special political missions operate.

10. Air operations

93. In 2024, the total resources approved for air operations for the 36 continuing missions amount to \$45.4 million, with planned utilization of approximately 8,492 flight hours (5,582 for fixed-wing aircraft and 2,910 for rotary-wing aircraft). In 2025, an amount of \$40.8 million is proposed for a total of 6,084 flight hours (4,474 for fixed-wing aircraft and 1,610 for rotary-wing aircraft). Resource requirements for air operations in seven missions (UNOWAS, UNSOM, UNSMIL, the United Nations Verification Mission in Colombia, UNMHA, UNAMA and UNAMI) represent 96.8 per cent of the overall air operation resource requirements for 2025.
94. For the 36 continuing missions, the proposed resources for air operations in 2025 represent a decrease of \$4.6 million, or 10.1 per cent, compared with 2024, while the flight hours proposed for 2025 represent a reduction of 2,408 hours, or 28.4 per cent, compared with 2024.
95. The above-mentioned decrease is the result of: (a) a decrease for UNMHA due to conscious efforts to explore cost-efficient alternatives, resulting in the termination of the contract for a rotary-wing aircraft in Djibouti that had previously been deployed for casualty and medical evacuation needs, as the Mission moved to relying on national health facilities; (b) a decrease for UNSMIL owing to the application of a 50 per cent deployment factor to the rental and operations of one not-yet-deployed rotary wing aircraft, as well as the lower number of flight hours budgeted, taking into account usage patterns; (c) a decrease for UNAMA owing primarily to lower anticipated costs for the rental and

operational cost of one fixed-wing aircraft, as well as a reduction in the planned number of flight hours based on recent usage patterns; (d) a decrease in UNOWAS due to lower consumption of fuel, offset in part by higher requirements for the rental and operation of one fixed-wing aircraft owing to a new contract awarded in 2024; (e) reduced requirements for the Office of Special Envoy of the Secretary-General for Yemen due to a change in arrangement from sharing the costs of one fixed-wing aircraft with UNAMI to the use of special flights with UNMHA. The decrease is offset in part by: (a) increased requirements for UNSOM due to higher costs per flight hour; (b) increased requirements for UNAMI due to higher contractual costs for the rental and operation of the Mission's two fixed-wing aircraft; and (c) increased requirements for the United Nations Verification Mission in Colombia based on the latest contractual prices for helicopters, offset in part by reduced flight hours, taking into account usage patterns.

96. Annex IX to the present report provides, by mission, information on appropriations and expenditure for 2023, the approved budget for 2024 and the proposed resources for 2025 for air operations, as well as actual flying hours for 2023, budgeted flying hours for 2024 and planned hours for 2025.

11. Travel

97. The total resources proposed for official travel amount to \$12.8 million, reflecting a decrease of 9.6 per cent compared with the approved budget of \$14.1 million for 2024. Annex XV to the present report sets out information on the approved resources for 2024 and proposed resources for 2025 for official travel under each mission, including a summary explanation for the variances.
98. For 2025, the travel plans are based on the principle that official travel will be undertaken only where it cannot be substituted by other means of communication, including videoconferencing. For the sanctions monitoring teams, groups and panels, the proposed budget for official travel of staff for 2025 takes into account the frequency of travel by the Chairs of relevant sanctions committees to countries and regions relevant to their respective sanctions regime, which requires support from Secretariat staff. The proposed budget for all sanctions expert groups or panels not based in New York provides for one trip by one Secretariat staff member to the relevant region to assist the Chair and/or the group or panel, as well as two trips by one staff member to assist the group or panel during the drafting of interim or midterm and final reports. In addition, the proposed budget for four of the groups or panels that are not based in New York includes one more trip by two Secretariat staff to a country relevant to the sanctions regime to conduct Security Council-mandated sanctions assessment missions.
99. The programme plans of the special political missions, as presented in the proposed programme budget under the thematic clusters, provide further information on how special political missions have incorporated good practices and increased the use of technology in their work, while also reflecting upon the challenges experienced where technology meets its limits and in-person travel is needed to meet demand and fill coverage gaps. Travel to provide good offices and mediation, conduct fact-finding and monitoring activities, verify compliance and conduct outreach, as well as provide training or capacity-building to national and local partners, remains an indispensable tool in carrying out the work of the special political missions in 2025.
100. With respect to the rates of compliance of special political missions with the policy of 16-day advance booking of tickets, the missions are fully aware of the observations and recommendations of the Advisory Committee on Administrative and Budgetary Questions with respect to the need to put measures in place to enhance compliance. The Department of Management Strategy, Policy and Compliance continues to monitor compliance with the advance purchase policy as part of its quarterly report on key performance indicators of the delegation of authority accountability framework. Heads of mission have easy access to detailed data and their real-time performance to identify and address issues. The Department's Business Transformation and Accountability Division has started to conduct more in-depth analysis to facilitate targeted monitoring and follow-up actions, based on compliance trends, travel types and the identification of causal factors. In a memorandum dated 27 December 2023 from the Under-Secretary-General for Management Strategy, Policy and Compliance, the heads of all Secretariat entities, including special political missions, were reminded of the importance of complying with the advance purchase policy, as well as informed of the General Assembly decision in resolution [77/263 B](#) that compliance with the advance purchase policy for travel is a prerequisite to undertaking

any travel above economy class for all staff below the level of Assistant Secretary-General, with exceptions made for delayed travel documents, when appropriate.

101. Full compliance with the policy also depends on external factors. Such factors encompass frequent shifts in mission security and political environments; the necessity to respond to sudden or escalating crises; interruptions arising from distinct logistical arrangements for travel that require special flights or escorts, leading to last-minute bookings for commercial travel; last-minute requests for revisions to meeting schedules and participant lists with multiple stakeholders, such as regional Governments, intergovernmental partners and civil society organizations, outside the control of missions and often at short notice; and late notifications from the organizers of training and learning activities.
102. Annex XVI provides information on the rates of compliance of special political missions with the policy of 16-day advance booking of tickets for the past five years (2019–2023). While further efforts are still needed, there was a continued improvement in 2023. The overall compliance rate for all special political missions increased from 18 per cent in 2019, 22 per cent in 2020, 21 per cent in 2021 and 27 per cent in 2022 to 28 per cent in 2023. For the 36 continuing special political missions, 27 missions (representing 75 per cent of the missions) have shown improved compliance rates in 2023 as compared with 2022.

12. Expert panels for recruitment for generic job openings

103. Recruitment from rosters enables timely recruitment while giving due consideration to organizational imperatives on gender parity and geographical diversity in the interest of having qualified and diverse candidates available to deploy quickly to achieve field mission mandates. Expert panels established pursuant to the administrative instruction on the staff assessment system (ST/AI/2010/3/Rev.3) are an integral part of the roster-based recruitment system. The expert panels assess and recommend candidates who have applied for generic job openings for posts in field missions in order to reduce the administrative burden on individual hiring managers and enhance the quality, consistency and integrity of the recruitment process by centralizing the assessment. They also assist the Human Resources Services Division in the Department of Operational Support in undertaking the assessment of applicants for generic job openings. Expert panels are similar in constitution to an assessment panel and will continue to convene in 2025 to assess and recommend candidates who have applied for generic job openings for positions in the field. As outlined in the administrative instruction on the staff selection system, the expert panels are normally comprised of at least three members, with two being subject matter experts at the same or higher level of the job opening, at least one being a woman and one being from outside the work unit where the job opening is located, who will undertake the assessment of applicants for a job opening.
104. In 2025, the Department of Operational Support will continue to pursue roster-based recruitment and manage generic job openings with a view to establishing new rosters that reflect gender balance, geographical diversity and multilingualism.

II. Analysis of resource requirements for special political missions

A. Budget formulation: efforts, methodology and presentation

1. Building and strengthening a culture of efficiency

105. Special political missions constitute a major part of the programme budget and expenditure, accounting for approximately 20 to 23 per cent of the entire regular budget since 2010. With the termination or expiration of the mandates of UNITAMS and UNITAD, the proposed budget for special political missions for 2025 accounts for approximately 20 per cent of the regular budget.
106. In formulating the 2025 budget, the Secretariat has been cognizant of the importance of building and strengthening a culture of efficiency in its request for and use of Member State resources for the implementation of activities. This is in continuation of the same approach taken during the formulation of the peacekeeping budgets for the 2024/25 financial period.

107. The Secretariat seized the important opportunity provided during budget formulation to focus attention on the issues of cost-efficiency and resource optimization towards effective mandate delivery. Guided by the Controller's budget instructions, the Field Operations Finance Division of the Department of Management Strategy, Policy and Compliance enhanced its policy guidance to assist missions in appropriately formulating their requirements. Where necessary, further assistance was provided to missions in fine-tuning their proposals. Review was also undertaken to look at historical consumption and utilization patterns to inform budgeting, and to apply planning assumptions grounded in judicious and realistic considerations. Key to this effort was strengthening a data-driven approach to cost-efficiency in the budget formulation process. The Division standardized its new budget policies on the basis of deployment and expenditure data. Missions were requested to take into account their stock levels, acquisition history and deployment patterns, which provide useful indicators of a mission's implementation capacity.
108. For air operations, missions were requested to take into account a minimum two-year expenditure and utilization pattern for their proposals regarding flight hours and to consider, as applicable, any period of disrupted operations, as well as the impact of the COVID-19 pandemic on their underutilization in prior years. For air assets not yet deployed, a delayed deployment factor of 50 per cent has been applied to the proposed resources.
109. With regard to ICT, all resource requirements in special political missions underwent review and technical clearance by the Office of Information and Communications Technology as part of due diligence in order to ensure that the requirements were valid and cross-cutting, did not conflict with the ICT strategy and complied with the governance framework, and that there were no proposals that duplicate Secretariat-wide initiatives.
110. With the aim of building and strengthening a culture of efficiency, the Secretariat rigorously looked for ways to achieve sustained cost reductions and cost avoidance. Efficiency measures were initiated across a range of areas: (a) the improved delivery model for mine action programmes in UNAMA and UNSMIL; (b) more efficient ground transportation arrangements in the United Nations Verification Mission in Colombia; (c) the adoption of cost-efficient alternatives in lieu of deploying dedicated aircraft for the provision of casualty and medical evacuation services for urgent and critical medical care in UNMHA; (d) the leveraging of renewable energy towards environmentally friendly and cost-saving facilities in UNAMI; (e) a reduction in the need for ICT equipment in UNAMI through the transfer of such assets from UNITAD; (f) the optimization of organizational structure, resulting in the merger of two mission support pillars in UNAMA, generating cost savings while improving operating efficiency; and (g) the application to UNAMA of the experience gained in UNAMI of outsourcing some staff counselling services. The quantifiable savings and costs avoided amount to approximately \$9.3 million in 2025, representing 1.3 per cent of the 2024 appropriation for these 36 continuing missions. Additional information is provided in table 3.

Table 3
Savings achieved and costs avoided in the proposed budget for 2025

(Thousands of United States dollars)

<i>Mission</i>	<i>Budget class</i>	<i>Amount</i>	<i>Initiative</i>
United Nations Verification Mission in Colombia	Ground transportation	1 406.5	As a result of a cost-benefit analysis, the Mission has updated its arrangement for ground transportation and now uses the UN fleet lease contract to provide the vehicle fleet needed for the Mission. UN fleet is a collaboration between the Office of the United Nations High Commissioner for Refugees (UNHCR) and the World Food Programme (WFP) and offers safe, efficient and sustainable fleet services to the entire United Nations system in Colombia
UNSMIL	Other supplies, services and equipment	922.0	Redesign of the delivery of mine action mandates in UNSMIL, shifting delivery from implementation in partnership with UNOPS to direct delivery by the Secretariat
UNSMIL	Communications and information technology	150.0	Replacement of network security equipment to be achieved through transfers from closing and downsizing missions

<i>Mission</i>	<i>Budget class</i>	<i>Amount</i>	<i>Initiative</i>
UNMHA	Air operations	5 230.0	The Mission actively explored cost-efficient alternatives to the previous arrangement of deploying a helicopter in Djibouti. It decided to terminate the contract for the helicopter, which had low utilization in previous years. Instead, the Mission will rely more on national health facilities, rather than Djibouti, for hospital care, referral, and casualty and medical evacuation services for urgent and critical medical and surgical cases
UNMHA	Civilian personnel	23.8	Abolishment of one post of Air Operations Assistant (Local level) based in Djibouti owing to the termination of the rotary-wing aircraft contract in Djibouti
UNAMI	Facilities and infrastructure	126.8	Installation of solar photovoltaic systems on buildings in Baghdad, Erbil and Kirkuk, with a total annual production of approximately 5 gigawatts per hour, reducing the cost of electricity consumption by \$126,800
UNAMI	Communications and information technology	240.0	Replacement of 100 laptops and 9 servers to be achieved through transfers from UNITAD
UNAMA	Other supplies, services and equipment	94.4	Redesign of the delivery of mine action mandates in UNAMA, shifting delivery from implementation in partnership with UNOPS to direct delivery by the Secretariat
UNAMA	Civilian personnel	274.9	Abolishment of one post of Chief, Supply Chain Management (P-5), in view of the consolidation of the Supply Chain Management pillar with the Service Delivery Management pillar, drawing on the experience gained in UNAMI
UNAMA	Civilian personnel; medical	191.8	Restructuring of personnel in connection with the proposed partial outsourcing of staff counsellor services, drawing on the experience gained in UNAMI
UNAMA	Civilian personnel	634.1	Abolishment of 17 posts of Driver resulting from the further streamlining of activities
Total		9 294.3	

111. Last but not least, the Field Operations Finance Division undertook an effort to streamline all budget reports for 2025, achieving a reduction of 13 per cent in the overall document length of the six addenda for special political missions. Readability was enhanced, while important information and data were preserved.

2. Consistent application of the latest standard rates

112. With regard to international staff costs in field locations, the budgetary rates for net salary and staff assessment for 2025 were determined for each grade level and for each special political mission according to the following methodology:

- (a) With regard to international staff, the most recent salary scale, effective 1 January 2023 as approved by the General Assembly in its resolution [77/256 B](#), was used for net salary and staff assessment for each level in the Professional and higher categories. The most recently revised net base salary scale for staff in the Field Service category was also most recently revised effective 1 January 2023 (see [ST/IC/2023/5](#)). Further, the salary rates for the Field Service categories have been refined to provide salary rates for each level from Field Service level 4 to Field Service level 7 for 2025, rather than the average rate applied to all levels for 2024, in line with the practice applied for the budgets for peacekeeping operations for the 2024/25 period;
- (b) The step levels selected for each grade are based on the actual average step levels for each mission as at 31 December 2023, using actual incumbency data for international staff;
- (c) The post adjustment multiplier for each duty station as of April 2024 was applied to the net base salary rates.

113. With regard to national staff, the most recent salary scales as of April 2024 were used for net salary and staff assessment, with common staff costs as a percentage of net salaries, based on actual expenditure for the period from 1 January to 31 December 2023, applied to the average grade and step of national staff.

114. With regard to common staff costs, the actual expenditure from 1 January to 31 December 2023 was used to calculate common staff costs as a percentage of net salaries (inclusive of post adjustment but net of staff assessment) to determine the percentage of common staff costs for 2025.
115. For United Nations Headquarters, offices away from Headquarters and the regional commission duty stations (New York, Geneva, Nairobi, Addis Ababa, Bangkok and Beirut), the standard costs for salaries and common staff costs for the programme budget were used, which were adjusted to reflect the post adjustment multiplier as of April 2024 for those locations.
116. With regard to military contingents (United Nations Guard Units), the latest single rate of reimbursement to countries contributing contingent personnel to United Nations field operations in the amount of \$1,448 per person per month effective 1 July 2022, and the recreation leave allowance of \$11.50 per day for up to 15 days of leave taken during each six-month period, as approved by the General Assembly in its resolutions [76/274](#) and [76/276](#), were applied. Further, the cost also reflects the cessation of the temporary reimbursement of \$4.90 per person per month for common and essential additional costs related to mandatory predeployment COVID-19 testing, approved by the Assembly in its resolution [76/276](#). Further, the Assembly decided, in its resolution [77/303](#), to adopt new reimbursement rates for contingent-owned equipment, taking into account the report of the 2023 Working Group on Contingent-Owned Equipment. The updated rates have been applied in the proposed resources for 2025.
117. With regard to military advisers, observers, United Nations police and government-provided personnel, the latest applicable mission subsistence allowance rates for each country and mission area effective from 1 January 2024 and the one-time transitional measure, where applicable, were applied, as per the rates promulgated by the Office of Human Resources in December 2023.
118. With regard to the cost-of-living allowance for non-home-based experts in the Security Council sanctions committee panels and other support mechanisms, the latest monthly rates of \$6,600 (New York) and \$4,800 (Nairobi) as approved by the Office of Human Resources, which took effect from 1 March 2023, have been applied to the four missions⁶ that have such requirements.
119. With regard to rental of premises in New York, the latest unit rate of \$15,000 per person per year, which reflects a reduction from the standard rate of \$16,000 applied in the 2024 budget and will take effect as of 1 January 2025, has been applied to those missions accommodated on the Headquarters premises in New York.
120. With respect to fuel costs, the average price per litre for the different types of fuel in the six-month period from October 2023 to March 2024 have been used as the basis for calculating the provisions for fuel costs under the respective budget classes for 2025.

3. Standardized methodology of budgeted vacancy rates

121. The Field Operations Finance Division provided guidance to all special political missions to improve the accuracy and consistency of the vacancy rate factors applied in the proposed budgets for 2025, to ensure that the proposed vacancy rates are based, as much as possible, on actual rates.
122. The proposed vacancy rates applied in the budget for 2025, for all types of personnel, have taken into account the experience to date. The assumptions considered for the proposed vacancy rates include the 12-month average vacancy rate in 2023 and the actual vacancy rate as at 31 March 2024. The lower of the two was used as the budgeted vacancy rate.

⁶ Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities; Office of the Ombudsperson established pursuant to Security Council resolution [1904 \(2009\)](#); Panel of Experts pursuant to resolution [2713 \(2023\)](#); and support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction.

123. For proposed establishment of new posts or positions, or posts or positions proposed for reassignment, a vacancy rate of 50 per cent has been applied in the calculation of costs of such posts. In addition, a vacancy rate of 50 per cent has been used for posts proposed for conversion.
124. In addition, all special political missions were requested to take into full consideration the recommendations of the Advisory Committee on Administrative and Budgetary Questions and requests from the General Assembly that vacant posts and positions should be filled expeditiously. While efforts continue to fill vacant posts as expeditiously as possible, the current liquidity situation also requires careful planning of recruitment and onboarding to minimize the financial impacts.
125. In addition, the Field Operations Finance Division provided guidance to all special political missions to take the opportunity offered during the preparation of the 2025 budget to critically review long-vacant posts with a view to abolishing vacant posts that can be covered by existing capacities, or to propose reassignment or abolishment with the aim of facilitating the establishment of another function to address a more critical need, or to propose conversion to a national post.
126. Information on all posts vacant for more than two years and posts encumbered through special post allowances for more than one year is included in the supplementary information under each thematic cluster, which details the vacancy or special post allowance start dates, level and functional title of the posts, organizational unit and current status of recruitment, and provides justification for the retention of long-vacant posts.

4. Simplified and standard proposals for post actions

127. The Secretariat has borne in mind the view of the Advisory Committee on Administrative and Budgetary Questions that proposals for combined reassignments and redeployments should be presented as abolishments and establishments (see [A/77/7/Add.4](#), para. 36). The Secretariat has ensured that in such instances proposals are made to abolish the post no longer required and to establish a new post with full justification. Accordingly, no proposals have been made in the 2025 budget to reassign, reclassify or redeploy posts in a combined fashion, in line with the guidance received from the Advisory Committee.
128. In addition, the Secretariat has ensured that all general temporary assistance positions are fully justified under the respective missions, providing the reasons for the proposed retention in 2025. In addition, no proposals have been made to convert these positions to regular posts. The additional mine action positions in UNAMA and UNSMIL have been proposed as general temporary assistance positions in keeping with the practice taken for the peacekeeping budgets, as well as in line with the modality for the already existing positions of Chief of Mine Action Programme. Should future assessment lead to a determination that such capacities should be regularized, proper proposals will be made in future budgets.

5. More meaningful information

129. Enhanced performance reporting for air operations, mine actions and construction projects for field-based special political missions under thematic cluster III, UNAMA and UNAMI has been included in the supplementary information for those missions, similar to for peacekeeping operations, in response to the recommendations of the Advisory Committee on Administrative and Budgetary Questions (see [A/78/7/Add.1](#), para. 56).
130. Additional information on the evolution of financial resources by mission over the most recent five years is provided in a new table 7 of the present report. Additional information on the evolution of financial resources for each mission, broken down by budget class, over that period, including both appropriation and expenditure, is provided in the supplementary information for each thematic cluster (including UNAMA and UNAMI), similar to for the rest of the regular budget, in response to the recommendations of the Advisory Committee on Administrative and Budgetary Questions (see [A/78/7](#), para. 7).

B. Financial resources

131. The total proposed resource requirements for 2025 relating to the 36 continuing special political missions covered in the present report amount to \$711.3 million net of staff assessment and inclusive of the provision for the share of special political missions in the budget of the Regional Service Centre in Entebbe. Overall, the resource level for 2025 reflects a decrease of \$30.7 million, including the impact of discontinued missions (with a decrease of 142 posts) compared with the appropriation for 2024. Details of the financial resource requirements by cluster, by mission and by category of expenditure are presented in tables 4 to 6, while the evolution of resources over the most recent five years is provided in table 7.

Table 4

Overview of financial resources by cluster

(Thousands of United States dollars)

	2024 appropriation ^a	2025 requirements	Variance	
			Amount	Percentage
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)
Cluster I	47 093.0	47 674.7	581.7	1.2
Cluster II	39 421.9	36 842.9	(2 579.0)	(6.5)
Cluster III	380 086.3	395 132.7	15 046.4	4.0
UNAMA	127 324.7	126 119.3	(1 205.4)	(0.9)
UNAMI	98 126.5	103 202.6	5 076.1	5.2
Subtotal (net of staff assessment)	692 052.4	708 972.2	16 919.8	2.4
Discontinuing and discontinued missions ^b	47 835.7	–	(47 835.7)	(100.0)
Provision for the share of special political missions for the Regional Service Centre	2 128.8	2 308.4	179.6	8.4
Total (net of staff assessment)	742 016.9	711 280.6	(30 736.3)	(4.1)

^a The 2024 appropriation of \$742,016,900 includes an amount of \$692,052,400 for the 36 continuing special political missions, an amount of \$25,673,100 for UNITAD and an amount of \$2,128,800 for the share of special political missions in the budget of the Regional Service Centre, approved by the General Assembly in resolution 78/253, as well as an amount of \$22,162,600 approved by the Assembly for UNITAMS in resolution 78/274.

^b The category of discontinuing and discontinued missions refers to: (a) UNITAD, the mandate of which will expire in September 2024; (b) UNITAMS, the mandate of which was terminated in December 2023 and which is currently in liquidation; (c) the Panel of Experts on Mali, which ended its work in 2023; (d) the Office of the Special Envoy of the Secretary-General for Burundi, which was closed in 2021; and (e) UNIOGBIS, which was closed in 2021.

Variance analysis

Cluster I

132. The proposed resource requirements for the 10 missions under cluster I for 2025 amount to \$47.7 million, representing a net increase of \$0.6 million (1.2 per cent) compared with 2024. The overall increase principally reflects increased requirements for: (a) the Office of the Special Envoy of the Secretary-General for Syria, attributable mainly to updated standard costs; (b) the Office of the Special Envoy of the Secretary-General for the Horn of Africa, attributable mainly to the application of lower vacancy rates and the proposed establishment of a post of Climate, Peace and Security Adviser (P-4); (c) the Office of the Special Adviser to the Secretary-General on the Prevention of Genocide, attributable mainly to increased costs as a result of five new posts and positions proposed for establishment, as well as a higher post adjustment multiplier for New York. The increased requirements would be offset in part by reduced requirements for official travel.

Cluster II

133. The proposed resource requirements for the 14 missions under cluster II for 2025 amount to \$36.8 million, representing a net decrease of \$2.6 million (6.5 per cent) compared with 2024. The overall decrease reflects the result of a decrease under the 13 groups or panels of experts and support mechanisms to Sanctions Committees, attributable to the reduced staff costs resulting from the abolishment of three posts and all experts providing support to the Security Council Committee established pursuant to resolution 1718 (2006) (previously the Panel of Experts on the Democratic People's Republic of Korea, the mandate of which expired in April 2024) and the phased abolishment of posts for the implementation of Security Council resolution 2231 (2015), the mandate of which will expire in October 2025, offset in part by the application of the most recent vacancy rates, updated salary rates and the latest percentage of common staff costs and post adjustment multipliers, as well as updated experts' fees, and an increase under the Counter-Terrorism Committee Executive Directorate, attributable mainly to the application of a lower vacancy rate and updated salary rates, and the proposed establishment of two new posts.

Cluster III

134. The proposed resource requirements for the 10 missions under cluster III for 2025 amount to \$395.1 million, representing a net increase of \$15.0 million (4.0 per cent) compared with 2024. The overall increase is attributed to: (a) \$22.7 million from the application of the latest salary scales, post adjustment multipliers, common staff costs and vacancy rates for all missions, as well as the delayed financial impact of new posts approved for 2024 and previously budgeted with a 50 per cent vacancy rate (including 88 for the United Nations Verification Mission in Colombia and 33 for BINUH); and (b) \$4.4 million for the refurbishment of and security enhancements to mission premises in Hudaydah and Tripoli. The increase is offset by a reduction of \$12.1 million, due mainly to: (a) lower requirements for air operations as a result of the termination of the contract for one helicopter in UNMHA, the application of a 50 per cent deployment factor for a helicopter in UNSMIL and an overall lower number of flight hours; (b) lower ground transportation requirements, reflecting a more cost-efficient UN fleet leasing option in the United Nations Verification Mission in Colombia and the non-acquisition of vehicles in some missions that received them from liquidating missions; (c) the change in the mine action delivery model in UNSMIL, from UNOPS to the Mission, resulting in cost-efficiencies; and (d) lower ICT requirements in most missions.

United Nations Assistance Mission in Afghanistan

135. The proposed resource requirements for UNAMA for 2025 amount to \$126.1 million, representing a net decrease of \$1.2 million (0.9 per cent) compared with the 2024 appropriation. The overall decrease is due mainly to reduced costs for security and maintenance services, as well as lower fuel costs; lower rental and operational costs for one fixed-wing aircraft; lower costs for shared medical services; higher vacancy rates for national staff; and the abolishment of 32 posts, offset in part by

higher international staff costs owing to lower vacancy rates, based on the latest incumbency rates, as well as a higher post adjustment multiplier for Afghanistan.

United Nations Assistance Mission for Iraq

136. The proposed resource requirements for UNAMI for 2025 amount to \$103.2 million, representing a net increase of \$5.1 million (5.2 per cent) compared with the 2024 appropriation. This reflects the net result of: (a) an increase of \$5.9 million in civilian personnel costs, due mainly to the application of higher common staff costs for international staff and updated salary scales for national staff; (b) a reduction of \$0.3 million under military personnel due to lower requirements for travel on personnel emplacement, rotation and repatriation, and for rations; (c) a reduction of \$0.5 million under operational costs due mainly to lower requirements under facilities and infrastructure (reflecting fewer facilities projects and lower expenditure on utilities and waste disposal services), and lower costs for ICT and vehicle acquisition (due to the planned transfer of assets from UNITAD, the mandate of which will expire on 17 September 2024), offset in part by higher costs for air operations, reflecting contractual prices for the two fixed-wing aircraft.

Share of the cost of the Regional Service Centre in Entebbe

137. The share of special political missions for the cost of the Regional Service Centre reflects an increase of \$0.2 million, attributable mainly to an increase of the share of special political missions in the cost of the Centre, from 4.92 per cent in the 2023/24 period to 4.99 per cent in the 2024/25 period, and an increase in the proposed budget for the Centre of \$4.6 million, or 10.4 per cent, compared with the 2023/24 period, due mainly to: (a) the proposed establishment of 31 posts transitioning from the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo, (b) the projected decrease in vacancy rates, from 10.4 per cent in the 2023/24 period to 9.8 per cent in the 2024/25 period for international staff, from 7.9 per cent to 7.6 per cent for National General Service staff and from 16.7 per cent to 0.0 per cent for international United Nations Volunteers, and (c) the application of revised salary rates for national staff, which are 9.3 per cent higher than the rates applied in the approved budget for the 2023/24 period. The increased requirements for civilian personnel are offset in part by (a) the proposed abolishment of 29 posts; (b) the application of a lower common staff costs rate for international staff compared with the rates applied in the approved budget for the 2023/24 period, (c) a projected increase in vacancy rates from 10.5 per cent in the 2023/24 period to 15.4 per cent in the 2024/25 period for the National Professional Officer category, and (d) the application of the exchange rate of 3,814 Ugandan shillings to 1 United States dollar, compared with the rate of 3,735 Ugandan shillings applied in the approved budget for the 2023/24 period, which has an impact on the requirements for national staff.
138. The variance analysis of each mission is further provided in table 8.

Table 8
Variance analysis, by mission

(Thousands of United States dollars)

Mission	2024	2025	Variance		Main contributing factors
	appropriation	requirements	Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
Cluster I					
1. Office of the Special Adviser to the Secretary-General on Cyprus	3 056.5	2 998.4	(58.1)	(1.9)	The decrease is attributable mainly to reduced requirements for travel and other supplies, services and equipment, offset in part by increased requirements for civilian personnel as a result of higher salary costs
2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide	2 815.7	3 257.4	441.7	15.7	The increase is attributable mainly to increased requirements for civilian personnel as a result of the proposed establishment of new posts and positions, as well as a higher post adjustment multiplier, offset in part by reduced requirements for official travel
3. Personal Envoy of the Secretary-General for Western Sahara	561.8	509.6	(52.2)	(9.3)	The decrease is attributable mainly to the reduced requirements for civilian personnel due to the application of a 12.5 per cent vacancy rate, compared with the rate of zero per cent applied for 2024, as well as reduced requirements for consultants and consulting services and other supplies, services and equipment based on the expenditure pattern of previous years
4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	414.2	363.6	(50.6)	(12.2)	The decrease is attributable mainly to the application of a higher vacancy rate of 16.7 per cent, compared with the vacancy rate of zero per cent applied for 2024, as well as reduced requirements for official travel, ground transportation, and other supplies, services and equipment based on the expenditure pattern of previous years
5. United Nations Representative to the Geneva International Discussions	2 032.1	1 931.6	(100.5)	(4.9)	The decrease is attributable to reduced requirements for official travel, communications and information technology and other supplies, services and equipment. The decrease in operational costs is offset in part by increased requirements for civilian personnel costs, owing to higher common staff costs based on recent expenditure
6. Office of the Special Envoy of the Secretary-General for Syria	13 660.7	14 194.8	534.1	3.9	The increase is attributable mainly to increased requirements for civilian personnel costs, due to higher salary and common staff costs on the basis of recent expenditure
7. Office of the Special Envoy of the Secretary-General for the Horn of Africa	1 638.1	2 154.3	516.2	31.5	The increase is attributable mainly to the application of a zero per cent vacancy rate for international staff, compared with the vacancy rate of 20.0 per cent applied for 2024, as well as the increased cost for the one post proposed for establishment
8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region	4 977.8	4 953.8	(24.0)	(0.5)	The decrease is attributable mainly to reduced requirements for air operations due to the increased availability of commercial flights, as well as to reduced requirements under civilian personnel resulting from lower common staff costs for international posts and lower costs for local staff as a result of the application of the latest salary scales

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
9. Office of the Special Envoy of the Secretary-General for Yemen	16 570.8	16 341.0	(229.8)	(1.4)	The decrease is attributable mainly to reduced requirements for civilian personnel resulting from the application of higher vacancy rates of 23.6 per cent for international staff and 42.9 per cent for National Professional Officers, respectively, compared with the budgeted rates of 21.3 per cent and 33.4 per cent, respectively, in 2024. The decreased requirements under civilian personnel are offset in part by increased requirements for facilities and infrastructure and ground transportation due to a new contract for storage and distribution points for the mission's fuel reserve in Yemen; increased requirements for communications and information technology due to an increase in contract prices for maintenance and support services; and an increase in other supplies, services and equipment due to increased requirements for contract services
10. Office of the Special Envoy of the Secretary-General on Myanmar	1 365.3	970.2	(395.1)	(28.9)	The decrease is attributable mainly to decreased requirements for civilian personnel costs owing to lower common staff costs and the application of a vacancy rate of 25.0 per cent, compared with the rate of zero per cent applied for 2024
Subtotal, cluster I	47 093.0	47 674.7	581.7	1.2	
Cluster II					
11. Group of Experts on the Democratic Republic of the Congo	1 556.7	1 549.7	(7.0)	(0.4)	The decrease is attributable primarily to lower requirements under civilian personnel costs owing to the application of a higher vacancy rate compared with the rate applied for 2024, lower requirements for experts' fees owing to a lower average monthly rate based on changes in the composition of the panel, and the removal of provision for satellite imagery, as the required images will be obtained through a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The decrease is offset in part by a higher percentage of common staff costs based on recent expenditure patterns and a new requirement for the subscription to the geospatial database
12. Panel of Experts on the Sudan	1 151.5	1 132.6	(18.9)	(1.6)	The decrease is attributable primarily to lower requirements for experts' fees owing to a change in the composition of the panel, reduced requirements for rental of premises based on the application of the latest standard rate, and the removal of provision for satellite imagery, as the required images will be obtained through a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The decrease is offset in part by higher requirements under civilian personnel costs, attributable mainly to a higher post adjustment multiplier and the application of a higher percentage of common staff costs based on recent expenditure patterns and a new requirement for the subscription to the geospatial database
13. Support to the Security Council Committee established pursuant to resolution 1718 (2006)	3 407.9	591.3	(2 816.6)	(82.6)	The decrease is attributable to lower requirements under civilian personnel costs resulting from the proposed abolishment of three posts, the application of a lower percentage of common staff costs and a higher vacancy rate, as well as lower requirements under operational costs owing to the expiration of the mandate of the Panel of Experts on the Democratic People's Republic of Korea, resulting in the discontinuation of related provisions

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
14. Panel of Experts on Libya	1 456.2	1 376.4	(79.8)	(5.5)	The decrease is attributable to lower requirements under civilian personnel costs resulting from the application of a higher vacancy rate based on the actual average vacancy rate for 2023 compared with that applied for 2024, lower requirements for experts' fees owing to a change in the composition of the Panel, and the removal of provision for satellite imagery, as the required images will be obtained through a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The decrease is offset in part by higher common staff costs based on recent expenditure patterns and a new requirement for the subscription to the geospatial database
15. Panel of Experts on the Central African Republic	1 281.6	1 300.7	19.1	1.5	The increase is attributable primarily to higher requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a lower vacancy rate compared with the rate applied for 2024 and of a higher percentage of common staff costs based on expenditure patterns, and a new requirement for a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by lower requirements for experts' fees resulting from a change in the composition of the Panel and the removal of provision for satellite imagery, as the required images will be obtained through the subscription to the geospatial database
16. Panel of Experts on Yemen	2 307.7	2 389.0	81.3	3.5	The increase is attributable primarily to higher requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a higher percentage of common staff costs for international staff posts based on recent expenditure patterns, as well as increased requirements for experts' fees resulting from higher average monthly fees owing to a change in the composition of the Panel, and a new requirement for a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by lower salaries for international staff, owing to the application of a higher vacancy rate of 13.9 per cent, compared with the rate of 8.4 per cent applied for 2024, and removal of provision for satellite imagery, as the required images will be obtained through the subscription to the geospatial database
17. Panel of Experts on South Sudan	1 246.0	1 435.4	189.4	15.2	The increase is attributable primarily to higher requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a lower vacancy rate of zero per cent, compared with the rate of 30.5 per cent applied for 2024, higher requirements for experts' fees resulting from a change in the composition of the Panel, and a new requirement for a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
18. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	6 516.9	6 162.8	(354.1)	(5.4)	The decrease is attributable to lower requirements under civilian personnel costs, owing primarily to the application of a higher vacancy rate of 17.5 per cent compared with the rate of 1.3 per cent applied for 2024 and reduced requirements for rental of premises based on the application of the latest standard rate. The decrease is offset in part by higher requirements for experts' fees owing to a change in the composition of the Team and a new requirement for a subscription to a new monitoring service which will enable experts to access an extensive and complete database covering listed entities and individuals in local languages
19. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	711.1	729.8	18.7	2.6	The increase is attributable to increased requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a higher percentage of common staff costs, based on recent expenditure patterns. The increase is offset in part by reduced requirements for rental of premises based on the application of the latest standard rate
20. Implementation of Security Council resolution 2231 (2015)	1 190.4	355.4	(835.0)	(70.1)	The decrease is attributable to reduced requirements under civilian personnel costs and operating expenses resulting from the proposed abolishment of three posts effective 1 January 2025 and the remaining two posts effective 1 November 2025, in reflection of the anticipated expiration of the mandate in October 2025, offset in part by the application of higher common staff costs of 43.9 per cent compared with 42.2 per cent applied in 2024 based on expenditure patterns
21. Panel of Experts pursuant to resolution 2713 (2023)	1 963.2	1 960.2	(3.0)	(0.2)	The decrease is attributable primarily to lower requirements under civilian personnel costs owing to the application of updated salary rates for General Service staff, offset in part by the application of higher common staff costs based on expenditure patterns, lower requirements for experts' fees owing to a change in the composition of the Panel, reduced requirements for rental of premises based on the application of the latest standard rate, lower requirements under other supplies, services and equipment based on expenditure patterns from previous years, and removal of provision for satellite imagery, as the required images will be obtained through a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The decrease is offset by a new requirement covering satellite imagery needs under the subscription to the geospatial database
22. Panel of Experts on Haiti	1 548.5	1 571.4	22.9	1.5	The increase in requirements is attributable primarily to higher requirements for experts' fees resulting from a change in the composition of the Panel, additional requirements under official travel owing to the expansion of the mandate to cover the territorial arms embargo, which was previously limited to armed groups, and a new requirement for a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by lower requirements under civilian personnel costs owing to the application of a higher vacancy rate of 33.3 per cent compared with the rate of 25.0 per cent applied for 2024, reduced requirements for rental of premises based on the application of the latest standard rate, reduced requirements under ground transport based on expenditure patterns, and removal of provision for satellite imagery as the required images will be obtained through the subscription to the geospatial database

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
23. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	3 415.1	3 472.5	57.4	1.7	The increase is attributable mainly to higher requirements under civilian personnel costs resulting from the application of a higher post adjustment multiplier and a higher percentage of common staff costs based on recent expenditure patterns. Operational costs for 2025 will be lower than those for 2024 due primarily to reduced requirements for communications and information technology owing to lower estimates based on previous expenditure, offset in part by increased requirements for experts' fees due to a higher monthly rate based on changes in the composition of the group of experts.
24. Counter-Terrorism Committee Executive Directorate	11 669.1	12 815.7	1 146.6	9.8	The increase is attributable primarily to higher requirements under civilian personnel costs owing to the application of a lower vacancy rate of 9.6 per cent for 2025 compared with the rate of 13.6 per cent applied for 2024, a higher post adjustment multiplier and the proposed establishment of two new posts
Subtotal, cluster II	39 421.9	36 842.9	(2 579.0)	(6.5)	
Cluster III					
25. UNOWAS	15 900.1	15 822.9	(77.2)	(0.5)	The decrease is attributable mainly to lower requirements for: (a) international staff, attributable to the application of a higher vacancy rate of 12.3 per cent compared with the rate of 11.4 per cent applied for 2024, and the application of a lower percentage of common staff costs than applied for 2024; (b) emplacement, rotation and repatriation travel for military and police advisers; (c) consultants and consulting services owing to provision for fewer consultants; (d) facilities and infrastructure, attributable primarily to lower costs for security guards and lower requirements for utilities and waste disposal services and petrol, oil and lubricants; (e) aviation fuel, offset in part by higher requirements for the rental and operation of one fixed-wing aircraft owing to a new contract; (f) communications and information technology due to reduced requirements for the acquisition of communications and information technology equipment, rate adjustments for satellite transponder charges and lower requirements for public information and publication services; and (g) other supplies, services and equipment due mainly to the absence of provision for training fees, lower freight costs and decreased requirements for other services. The decrease in requirements is offset in part by higher requirements for National Professional Officer and Local level posts, as well as for petrol, oil and lubricants for vehicles
26. UNSOM	101 136.8	104 646.3	3 509.5	3.5	The increase is attributable mainly to: (a) an increase under civilian personnel costs, owing mainly to the application of a lower vacancy rate of 13.1 per cent for international posts, compared with the rate of 13.9 per cent applied for 2024, as well as a higher post adjustment multiplier of 55.0 in April 2024 compared with 45.6 for April 2023, a lower vacancy rate of 8.0 per cent for National Professional Officer posts, compared with 11.5 per cent for 2024, and a lower vacancy rate of 13.3 per cent for Local level posts, compared with 20.0 per cent for 2024, as well as the proposed establishment of 1 D-1 and 11 National Professional Officer posts; and (b) an increase under operational costs owing to (i) an increase in air operations for fixed-wing and rotary-wing aircraft and an increase in the cost per flight hour from \$255 in

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
					2024 to \$360 in 2025 based on the latest contract; and (ii) higher requirements for other supplies, services and equipment due to freight costs related to the acquisition of equipment, spares and supplies. The increase was offset in part by (a) a decrease under military and police personnel costs due to the absence of requirements for death and disability compensation in military contingents and United Nations police, lower costs for round-trip tickets and the abolishment of five United police positions; and (b) the abolishment of six government-provided personnel and two international posts.
27. United Nations Regional Centre for Preventive Diplomacy for Central Asia	3 233.2	3 555.9	322.7	10.0	The increase is attributable primarily to: (a) increased requirements for international staff owing to the application of a zero vacancy rate for 2025, compared with the rate of 12.5 per cent applied for 2024, and the application of a higher percentage of common staff costs than applied in the 2024 budget; (b) increased requirements for National Professional Officers due to updated salary scales for National Professional Officers; (c) new requirements for three consultants to support the mission's mandated work in fostering cooperation on transboundary water management and trust-building efforts; (d) higher requirements for official travel, attributable to additional travel requirements with respect to a meeting of deputy foreign ministers; and (e) higher requirements under other supplies, services and equipment. The increase is offset in part by lower requirements for facilities and infrastructure and communications and information technology
28. United Nations support for the Cameroon-Nigeria Mixed Commission	3 821.7	3 742.7	(79.0)	(2.1)	The decrease is attributable mainly to lower requirements for: (a) international staff owing to the application of a lower percentage of common staff costs, offset in part by higher requirements owing to the application of a zero vacancy rate, compared with the rate of 3.7 per cent applied for 2024; (b) emplacement, rotation and repatriation travel for military observers; (c) aviation fuel, offset in part by higher requirements for the rental and operation of one fixed-wing aircraft owing to a new contract; and (d) communications and information technology, attributable to a realignment of requirements for software, licences and fees, and public information and publication services, in line with historical expenditure patterns, and rate adjustments for satellite transponder charges. The decrease in requirements is offset in part by higher requirements for national staff, facilities and infrastructure, and other supplies, services and equipment
29. Office of the United Nations Special Coordinator for Lebanon	11 303.4	11 122.6	(180.8)	(1.6)	The decrease is attributable to decreased requirements under civilian personnel costs, resulting mainly from the application of a higher vacancy rate for international staff of 10.2 per cent compared with the rate of 5.6 per cent applied for 2024
30. UNOCA	8 410.5	7 875.9	(534.6)	(6.4)	The decrease is attributable mainly to lower requirements for: (a) international staff, attributable to the application of updated salary rates, a higher vacancy rate of 20.2 per cent compared with the approved rate of 18.2 per cent for 2024, and a lower percentage of common staff costs than applied for 2024; (b) national staff (Local level), attributable to the application of a higher vacancy rate of 12.5 per cent compared with the rate of zero per cent applied for 2024; (c) consultants, taking into account actual expenditure patterns; (d) official travel, due mainly to a reduction in the number of days and staff; (e) facilities and infrastructure, due

Mission	2024 appropriation	2025 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
					primarily to reductions under security services and stationery and office supplies; (f) communications and information technology, due mainly to rate adjustments for satellite transponder charges; and (g) other supplies, services and equipment, as the provisions related to the contribution to common services for compound management and security were moved under facilities and infrastructure to align with actual recorded expenditure, as well as lower requirements for individual contractors. The decrease in requirements is offset in part by higher requirements for National Professional Officers
31. UNSMIL	87 763.6	94 141.5	6 377.9	7.3	The increase is attributable mainly to an increase in civilian personnel costs, owing to the application of a lower vacancy rate of 23.4 per cent for international staff compared with the rate of 29.6 per cent applied for 2024, and a higher post adjustment multiplier for Libya, which increased from 31.8 in April 2023 to 40.0 in April 2024, as well as the proposed establishment of seven general temporary assistance positions. The increase is offset in part by decreased requirements under operational costs owing to lower requirements under: (a) other supplies, services and equipment owing to the transfer of the mine action capacity to the Mission's staffing table as noted above; (b) air operations, owing to the application of a 50 per cent deployment factor to the rental and operations of the helicopter to provide air operations support to the ceasefire monitoring component and to carry out medical evacuations to support casualty and medical evacuation services operations within the mission area, as well as a reduction in the number of flight hours to 575, compared with 700 flight hours provided for in the approved 2024 budget; and (c) communications and information technology, owing to a reduction in acquisitions due to the anticipated receipt of equipment from downsizing missions, as well as reduced requirements for telecommunications and network services and spare parts
32. United Nations Verification Mission in Colombia	78 336.7	86 855.1	8 518.4	10.9	The increase is attributable mainly to: (a) increased requirements for civilian personnel as a result of the application of the latest rates for salaries and common staff costs, including the increase in the post adjustment multiplier for Colombia from 24.9 in April 2023 to 50.8 in April 2024, as well as the delayed impact of 88 new posts and positions approved in the 2024 budget for new mandates; (b) increased requirements for military observers, attributable mainly to higher mission subsistence allowance due to the application of updated rates for Colombia, as well as the delayed impact of 68 new observer positions approved in the 2024 budget for the new mandates; (c) higher requirements for facilities and infrastructure, reflecting the latest contractual prices for rental of premises and security services; (d) higher requirements for air operations, reflecting higher contractual prices for helicopters, offset in part by reduced requirements for petrol, oil and lubricants due to the application of reduced flight hours based on recent trends and the application of the latest six-month-average fuel prices. The increase is offset in part by: (a) lower requirements for ground transportation due to reduced rental costs for soft-skin vehicles; (b) lower requirements for communications and information technology, due mainly to the absence of requirements for the one-time acquisitions for communications and information technology equipment in the 2024 budget in connection with the new mandates; and (c) lower requirements under other supplies, services and equipment, due mainly to lower requirements for meeting facilitation services, and individual contractor and freight costs, due to the lower level of acquisitions

	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
33. UNMHA	33 640.2	31 606.8	(2 033.4)	(6.0)	The decrease is attributable mainly to: (a) a decrease under military observers due to the absence of provision for death and disability compensation, and reduced requirements under rations due to the acquisition of adequate stock in previous periods; (b) a decrease under civilian personnel costs due to a lower common staff costs rate for staff and higher vacancy rates for international and national staff; (c) a decrease under air operations due to the termination of the contract for a rotary-wing aircraft in Djibouti to rely on national health facilities rather than Djibouti for hospital care, referral and casualty and medical evacuation services for urgent and critical medical and surgical cases. The decreased requirements are offset in part by: (a) an increase under facilities and infrastructure due to the refurbishment of and security enhancements to new premises in southern Hudaydah, and the replacement of windows to reduce heat transmittance; (b) an increase in rental of premises related to a higher percentage amount in the cost-share arrangement for the use of premises in Mukha'; (c) an increase in petrol, oil and lubricants related to service fees for storage, maintenance and distribution points of generator fuel reserves; (d) an increase under ground transportation due to storage and distribution fees for the diesel fuel reserve, as well as spare parts and repairs and maintenance; (e) an increase under communications and information technology due to maintenance costs for services, including support services; (f) an increase under medical services due to an increase in the number of contracted medical personnel from three to five; and (g) higher requirements under other supplies, services and equipment, due mainly to an increase in freight and related costs
34. BINUH	36 540.1	35 763.0	(777.1)	(2.1)	The decrease is attributable to reduced requirements under operational costs as follows: (a) a reduction under ground transportation due to the absence of requirements for the acquisition of vehicles, given that the revised estimates for the previous year included 10 additional light passenger vehicles, 5 armoured vehicles, one armoured ambulance and one mobile workshop; (b) a reduction under other supplies, services and equipment due to lower requirements for freight charges and related charges related to the removal of the one-time provision for the acquisition of vehicles and equipment in 2024; (c) a reduction under facilities and infrastructure due to an absence of requirements for construction, alteration, renovation and major maintenance for the installation of prefabricated facilities undertaken in the previous period, as well as the absence of requirements for the acquisition of prefabricated facilities, furniture, and electrical and fuel distribution equipment acquired in previous periods; (d) a decrease in communications and information technology equipment due to the acquisition of adequate stock in the previous period; and (e) a reduction under consultancy services due to reliance on in-house capacity. The decrease is offset in part by an increase under civilian personnel costs due to (a) the delayed impact of 33 new posts and positions approved for 2024; (b) the revised salary scales for national staff promulgated in April 2024; and (c) the increase in the post adjustment multiplier in Haiti from 60.9 in April 2023 to 62.8 in April 2024. Furthermore, the increased requirement under United Nations police is due to the delayed impact of the 27 additional police positions approved in the 2024 revised estimates

UNAMA and UNAMI					
35. UNAMA	127 324.7	126 119.3	(1 205.4)	(0.9)	The decrease is due mainly to (a) reduced costs for security and maintenance services, as well as lower fuel costs; (b) lower rental and operational costs for one fixed-wing aircraft; (c) lower costs for shared medical services; (d) higher vacancy rates for national staff; and (e) the abolishment of 32 posts. The decrease is offset in part by higher international staff costs owing to lower vacancy rates, based on the latest incumbency, as well as a higher post adjustment multiplier for Afghanistan, which increased from 38.7 in April 2023 to 48.0 in April 2024
36. UNAMI	98 126.5	103 202.6	5 076.1	5.2	The increase reflects: (a) an increase of \$5.9 million in civilian personnel costs, due mainly to the application of higher common staff costs for international staff and the updated salary scales for national staff; (b) a reduction of \$0.3 million under military personnel due to lower requirements for travel on personnel emplacement, rotation and repatriation, and for rations; (c) a reduction of \$0.5 million under operational costs, due mainly to lower requirements under facilities and infrastructure (reflecting fewer construction projects and reduced requirements for utilities and waste disposal services), communications and information technology and vehicle acquisitions (due to the planned transfer of assets from UNITAD after its mandate expires on 17 September 2024), offset in part by higher costs for air operations, reflecting contractual prices for two fixed-wing aircraft

Subtotal, continuing missions					
Discontinuing and discontinued missions					
UNITAD	25 673.1	–	(25 673.1)	(100.0)	The mission's mandate is set to expire in September 2024. Discussions are ongoing within the Secretariat to determine the time frame for and tasks involved in the liquidation of the mission
UNITAMS	22 162.6	–	(22 162.6)	(100.0)	The Mission's field-based liquidation is scheduled for completion by 31 August 2024
Provision for the share of special political missions for the Regional Service Centre in Entebbe	2 128.8	2 308.4	179.6	8.4	The increase is attributable mainly to an increase of the share of special political missions in the cost of the Centre, from 4.92 per cent in the 2023/24 period to 4.99 in 2024/25, and an increase in the proposed budget for the Centre of \$4.6 million, or 10.4 per cent, compared with the 2023/24 period

C. Human resources

139. The number of civilian personnel proposed for 2025, including international and national staff, United National Volunteers and general temporary assistance positions, reflects an overall decrease of 142 posts and positions, from 4,415 to 4,273. Details of the human resources requirements by cluster, by mission and by category of personnel are presented in tables 9 to 12.

Table 9

Note: The posts for UNITAMS have been proposed for phased abolishment in 2024, in the context of the liquidation budget of the mission (A/78/6 (Sect.3)/Add.8), as approved by the General Assembly in its resolution 78/274. Accordingly, UNITAMS is not included in the 2024 baseline of total number of posts.

Note: Posts indicated in table 12 are those funded or projected to be funded from extrabudgetary resources in the current and for the coming year, based on the latest information available and projections made at the time of reporting. In keeping with established practice, the table does not include extrabudgetary general temporary assistance positions, positions that are billed to a third party or project posts that are not expected to be funded continuously for more than one year.

Annex I

Summary of follow-up action taken to implement decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Advisory Committee on Administrative and Budgetary Questions (A/78/7/Add.1), as endorsed by the General Assembly in its resolution 78/253 A

The Advisory Committee recommends that the General Assembly request the Secretary-General to ensure that the air fleets in the missions are used in the most effective and efficient manner and that consideration is given to any possibility of inter-mission cooperation, including with peacekeeping missions, and provide an update in the next budget submission (para. 36).

Missions continue to make efforts to ensure that their air operations requirements are fulfilled in the most effective and efficient manner, including through inter-mission cooperation with other special political missions or peacekeeping missions, when possible.

Despite facing challenges such as geographical remoteness and limited fleet capacity, missions like the United Nations Assistance Mission in Afghanistan (UNAMA) have actively considered opportunities for collaboration. The unique location of UNAMA, however, characterized by its considerable distance from other missions, not only affects the timeliness of support but also increases operational costs, thereby reducing the feasibility of sharing air assets in a manner that would be considered efficient and effective.

Similarly, the United Nations Assistance Mission for Iraq (UNAMI) has ensured that its shared fixed-wing aircraft are utilized as efficiently as possible and in line with the initiative to enhance the cost-effectiveness of aviation. In 2024 and prior years, UNAMI has had cost-sharing arrangements with other missions such as the United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD), the Office of the Special Envoy of the Secretary-General for Yemen and the United Nations Office for West Africa and the Sahel (UNOWAS). The Mission will continue to explore and expand inter-mission cooperation as feasible, including with peacekeeping missions.

Missions like UNOWAS and United Nations support for the Cameroon-Nigeria Mixed Commission have successfully engaged in sharing air assets with other missions to maximize utilization. This has included partnership with the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) in previous years, showcasing a collaborative approach to resource management. Furthermore, missions such as the United Nations Support Mission in Libya (UNSMIL) have implemented proactive

The Advisory Committee reiterates its expectation that consolidated information on backstopping positions at Headquarters will continue to be provided in future budget submissions. The Committee trusts that the existing backstopping positions at Headquarters will be reviewed annually, on the basis of workload analysis, in order to realign the capacities when changes in the mandates of the missions occur with a view to achieving more efficiency in backstopping support (para. 41).

The Advisory Committee trusts that information on the assessment of the posts/positions in special political missions and peacekeeping operation will be provided to the General Assembly during its consideration of the present report and in the next budget submission, along with a breakdown by mission of the positions/posts subject to geographical distribution (para. 89).

measures to enhance aircraft utilization efficiency, including periodic reviews of flight demand and fleet configuration adjustments.

While the challenges of inter-mission cooperation are acknowledged, missions remain dedicated to exploring feasible avenues for collaboration, showing a commitment to maximizing the utilization of air assets and supporting missions' objectives effectively. Moving forward, close collaboration with missions will continue to be prioritized to identify opportunities for cooperation and ensure that air fleets are utilized optimally.

The Secretary-General reviews backstopping capacity on an annual basis during the preparation of the budget submissions. Mandate changes and the evolution of complex situations on the ground, such as in Afghanistan, Colombia, Haiti, Libya and Somalia, have rendered situations more challenging, necessitating the continued availability of backstopping positions to support and assist special political missions from Headquarters in New York.

Administrative support may also differ, but consideration is given, whenever possible, to reliance on existing capacities and resources to ensure synergies and maximum efficiency. In this context, it is important to note, however, that administrative backstopping requires dedicated capacity and support. For example, the Panel of Experts on Haiti is administered along with other such panels or groups of experts from New York, even if some support and coordination is necessary from the United Nations Integrated Office in Haiti (BINUH) in Haiti. Other field missions also draw on a variety of other support capacities, such as on the Economic and Social Commission for Asia and the Pacific (for the Office of the Special Envoy of the Secretary-General on Myanmar) and the United Nations Office at Geneva (for the Office of the Special Envoy of the Secretary-General for Syria and the United Nations Representative to the Geneva International Discussions).

Attaining equitable geographical distribution is a high priority of the Secretary-General, and concerted efforts have been made over the years to accelerate progress.

The positive outcome of the changes to the system of desirable ranges as per General Assembly resolution [77/278](#), effective as at 1 January 2024, presents a unique opportunity to renew ongoing efforts to apply robust strategies for improving the geographical distribution and work towards bringing each unrepresented and underrepresented Member State within its desirable range by 2030.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

The new desirable range system includes all regular budget-funded posts in the Professional and higher categories in special political missions and peacekeeping operations, excluding language posts. The updated ranges increased the number of geographical posts.

The Office of Human Resources conducted an analysis of the geographical posts in the peacekeeping missions and special political missions that have been added to the system of desirable ranges to understand the impact.

The entities with the highest number of new geographical posts are the Counter-Terrorism Committee Executive Directorate, the United Nations Assistance Mission in Somalia (UNSOM), UNSMIL, the United Nations Verification Mission in Colombia, BINUH, UNAMA and UNAMI.

The job profile of Political Affairs Officer has the highest number of posts among the geographical posts in peacekeeping and special political missions, followed by Human Rights Officer posts. The majority of the posts belong to the political affairs job family under the political job network.

The Secretariat is proactively supporting the entities with the changes to the system of desirable ranges. As a first step, briefing sessions were held in October and December 2023 ahead of the changes to create awareness and introduce the changes to the system. At these sessions, the implications were explained to peacekeeping and special political missions, ensuring the successful translation of these changes into effective talent acquisition opportunities. These interactions will be critical to future targeted talent outreach initiatives conducted by the entities for unrepresented and underrepresented Member States.

Between August and November 2023, the Secretariat engaged with entities, including peacekeeping and special political missions, through the Management Client Board feedback loop mechanism. This collaborative effort was aimed at gaining a deeper understanding of the challenges and expectations regarding what would be required to attract and select more talent from unrepresented and underrepresented Member States. These interactions provided a better understanding of intricacies in unrepresented and underrepresented Member States and helped better position the United Nations as a top employer for their nationals.

Furthermore, peacekeeping and special political missions have been brought up to speed and have been participating in various talent outreach initiatives

The Advisory Committee trusts that information on the status of geographical appointments by Heads of special political missions starting from 1 January 2024 will be included in the main report of the Secretary-General on special political missions, including in a consolidated annex, by mission and cluster, in all future budget submissions (para. 90).

The Advisory Committee recalls that, in its resolution [75/253](#) A (sect. XVIII), the General Assembly has requested the Secretary-General to make stronger efforts to improve geographical representation and gender balance in special political missions. Furthermore, in its resolution [76/246](#) A (sect. X), the Assembly has also requested the Secretary-General to take measures, including through the recruitment of new staff and by strengthening the accountability framework of the managers, to improve geographical representation and gender balance in all the special political missions and provide an update in future budget submissions, including on geographical representation by nationality (para. 92).

designed to help accelerate equitable geographical distribution for geographical posts across the Secretariat.

Information about progress in achieving equitable geographical distribution and related actions is provided in the reports of the Secretary-General on human resources management, including the report on the composition of the Secretariat: staff demographics and the report on the overview of human resources management reform for the period 2023–2024 to be submitted to the General Assembly at the first part of its resumed seventy-ninth session.

Special political missions have taken measures to strengthen efforts to achieve equitable geographical representation and gender balance in their workforce. In many missions, hiring managers are required to demonstrate the impact of their hiring recommendation, using the current data on geographical and gender representation. The revised template of the selection memorandum allows hiring managers to review, before a candidate is selected, whether the proposed selection improves the geographical and gender representation of the mission. The data are also monitored on a quarterly basis through the management dashboard to guide the course of recruitment actions.

Several missions have outlined their strategies and initiatives to address these directives. For example, BINUH actively engages with candidates from unrepresented and underrepresented countries, encouraging female applicants in particular. The Mission's Human Resources Unit collaborates closely with hiring managers to prioritize candidates from such backgrounds, aligning recruitment efforts with organizational priorities related to geographical representation and gender parity.

Similarly, the Counter-Terrorism Committee Executive Directorate is dedicated to achieving gender parity and broad geographical representation among its staff. The mission aims for at least 50 per cent of appointments to come from unrepresented or underrepresented Member States, demonstrating a commitment to diversity and inclusivity in recruitment practices.

Moreover, missions such as the Office of the Special Adviser to the Secretary-General on Cyprus and the Office of the Special Envoy of the Secretary-General for the Great Lakes Region have made improvements with regard to promoting gender parity and geographical diversity within their respective staff composition, actively recruiting from underrepresented regions to enhance geographical diversity.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

The Committee also reiterates its recommendation that the General Assembly request the Secretary-General to ensure that more detailed justification for the retention of long-vacant posts for 24 months or longer or a proposal for their repurposing or abolishment is systematically provided in future budget submissions (para. 23).

The Advisory Committee has recognized the progress made in the nationalization of positions in special political missions and trusts that continued efforts will be made. The Committee recalls that, further to its resolutions 61/276 and 66/264, the General Assembly, in its resolution 74/263, requested the Secretary-General to continue his efforts to promote the nationalization of positions, whenever appropriate, as well as to build local capacity within the special political missions and to report thereon in the context of future budget submissions (A/77/7/Add.1, para. 28) (para. 19).

Despite challenges such as turnover and the liquidity situation, missions like UNAMA and UNSOM remain committed in their efforts to meet the directives of the General Assembly. UNAMA has intensified recruitment efforts from unrepresented and underrepresented countries, while UNSOM places importance on promoting fair, inclusive and transparent recruitment processes to ensure geographical diversity and gender balance.

Special political missions continue to prioritize geographical representation and gender balance in line with the General Assembly resolutions. Efforts are ongoing to strengthen recruitment practices, prioritize underrepresented candidates and ensure that mission staff reflect the diverse regions and countries they serve.

The geographical representation, by country, of international staff posts in all special political missions is provided centrally in annex XIX to the present report.

Special political missions make strong efforts to recruit and fill vacant posts in accordance with the staff selection policy. Recruitment exercises may, however, be affected and inadvertently delayed due to external factors such as visa restrictions, the availability of qualified candidates in the duty stations and temporary restrictions on hiring as part of efforts to mitigate financial challenges facing the Organization (i.e. the liquidity situation), which adversely affect the ability of missions to fill vacant posts. Despite these challenges, missions will continue to make every effort to fill all current and future vacancies as expeditiously as possible. Further, missions will also engage in extensive review to include proposals to abolish long-vacant posts and positions in their budget submissions, when appropriate, demonstrating proactive measures to optimize staffing resources.

Information on the status of recruitment of long-vacant posts is presented in the supplementary information for each thematic cluster.

Special political missions continue to make efforts to ensure that the Advisory Committee's recommendations regarding the nationalization of posts are addressed. BINUH, despite facing significant turnover among national staff due to security concerns and migration, remains committed to maintaining a complement of all categories of staff and attracting qualified candidates from various channels, including the Haitian diaspora. At the same time, the Office of the Special Adviser to the Secretary-General on Cyprus is strategically reviewing posts for potential nationalization, mindful of mandate requirements. UNAMA, amid contracting operations and a more

While noting the improvements made in the compliance rates during 2022 by 24 missions with their overall compliance rates and 12 missions reaching compliance rates of 50 per cent or higher, the Advisory Committee shares the view expressed in the report of the Secretary-General that further efforts are still needed to improve the compliance rates by the special political missions. The Committee recalls that the General Assembly, in its resolution [74/262](#), expressed concern at the low rate of compliance with the advance purchase policy directive and requested the Secretary-General to make stronger efforts to further enhance the rate of compliance with the advance purchase policy directive across all travel categories, taking into account the patterns and nature of official travel and the reasons for non-compliance by each department, office and field mission (*ibid.*, para. 39) (para. 33).

restrictive environment, continues to evaluate posts for nationalization, balancing the need for mandate delivery with operational constraints, including gender-related restrictions for national staff given the policies of the de facto authorities.

Similarly, UNOWAS and United Nations support for the Cameroon-Nigeria Mixed Commission are committed to building local capacity while acknowledging the necessity of certain international posts given the context and mandate. The United Nations Verification Mission in Colombia, having already achieved a considerable percentage of national posts, continues to prioritize local hiring to optimize resources and have a positive impact on the local job market. The dedication of missions to nationalization aligns with the resolutions of the General Assembly, reflecting a shared commitment to building sustainable local capacity within special political missions.

Moving forward, missions will continue to explore opportunities for nationalization, taking into account operational needs, security considerations and the availability of skilled local talent. By fostering national expertise and ownership, missions not only enhance their effectiveness but also contribute to the long-term stability and development of the regions they serve.

To improve the rates of compliance of special political missions with the policy of 16-day advance booking of tickets, missions have taken the following actions: (a) broadcasting of messages and continual awareness-raising among all personnel of the mandatory requirement to submit travel requests at least 21 calendar days prior to the commencement of travel; (b) requiring the provision of justification with supporting evidence for travel requests that did not meet the mandatory deadline of 21 calendar days prior to travel; (c) following up actively with various stakeholders (such as Governments and United Nations country teams) to receive confirmation of the schedule of and participant lists for meetings and conferences in a timely manner; and (d) encouraging approving officers to reduce the processing time for travel requests by as much as possible.

Full compliance with the policy also depends on external factors. Such factors encompass the frequent shifts in mission security and political environments; the necessity to respond to sudden or escalating crises; interruptions arising from distinct logistical arrangements for travel that requires special flights or escorts, leading to last-minute bookings for commercial travel; last-minute requests for revisions to meeting schedules and participant lists from

Brief description of the recommendation or request

Action taken to implement the recommendation or request

The Advisory Committee trusts that special political missions will build on the most impactful projects to plan for quick impact projects in order to enhance the engagement with the local communities, as appropriate, and provide an update in the next budget submission (para. 38).

While acknowledging the diverse mandates, scopes and operational modalities of the special political missions, the Advisory Committee considers that there is a need to enhance the performance information for field-based special political missions under thematic cluster III, especially those that undertake activities similar to peacekeeping missions, such as air operations, mine actions and construction projects. The Committee recommends that the General Assembly request the Secretary-General to explore ways to enhance performance reporting for field-based special political missions in line with that of peacekeeping operations, as appropriate, under thematic cluster III (para. 56).

While noting the understanding of the Secretariat that the spending reviews of the programme budget and civilian staffing reviews of peacekeeping operations are not applicable to special political missions, the Advisory Committee is of the view that regular reviews of financial and human resource requirements should be conducted for special political missions as well. The Committee trusts that more information will be provided in the next budget submission (para. 76).

multiple stakeholders, such as Governments in the region, intergovernmental partners and civil society organizations, outside the control of missions and often at short notice; and late notifications from the organizers of training and learning activities. In addition, during the COVID-19 pandemic, restrictions on air travel made the availability of air tickets extremely limited and air routes highly unpredictable, with cancellations and changes being frequent, thereby limiting the ability of missions to achieve higher compliance rates, despite all of the aforementioned efforts.

The United Nations Mission to Support the Hudaydah Agreement (UNMHA) actively plans for quick impact projects, building on its most impactful initiatives, and continues to ensure that quick impact projects will result in tangible benefits for local communities. Although the Mission's quick impact projects programme was established only in 2023, the tangible benefits are already evident. Discussions around the identification of quick impact projects have served as an entry point for engagement with local representatives, non-governmental organizations, community leaders and civil society, in line with the mandate of UNMHA, which stresses the importance of community engagement. Through these quick impact projects, UNMHA is providing much-needed support to the local community and local authorities, which in turn is helping to build trust in the work of the Mission.

In response to the recommendations of the Advisory Committee, enhanced performance reporting for air operations, mine actions and construction projects for field-based special political missions under thematic cluster III, UNAMA and UNAMI has been included as part of the supplementary information submitted under the respective clusters and missions, similar to that for peacekeeping operations.

Even though the spending review (as requested by the General Assembly in its resolution [77/262](#)) and the civilian staffing review (as encouraged in resolution [76/274](#)) are both not applicable to special political missions, the Secretariat has ensured in the latest round of budget preparation that attention was given by all special political missions to reviewing their budget performance in the prior period, as well as to assessing staffing needs through workforce planning with the aim of identifying opportunities for nationalization,

The Advisory Committee trusts that special political missions and peacekeeping operations working in the same country or region will strengthen their coordination, identify areas of complementarity and avoid duplication of resources, while carrying out their distinct mandates in addressing the same peace and security situation. The Committee trusts that information on efforts to achieve efficiencies through coordination among special political and peacekeeping missions will be provided in the report of the Secretary-General on the overview of peacekeeping operations and his main report on special political missions in the context of the next budget submission (para. 79).

rejuvenation, abolishment of long-vacant posts and further optimization of staffing structure.

For example, in 2023, BINUH established a task force to conduct an in-depth analysis of its mission support mandated tasks, existing resources and expected output and to make recommendations to align the mission support functions to appropriate levels and numbers in consideration of workload, Umoja roles and segregation of duties, and driven by the mandate and the established structures for similarly sized missions. The recommendations of this review, intended to streamline the mission support structure to enhance operational efficiency in the provision of enabling services by responding to the changed context on the ground since the Mission's inception in 2019, capitalized on both the existing and new staffing resources.

Overall, regular reviews of financial and human resource requirements are essential for enhancing operational efficiency, transparency and accountability across special political missions. The commitment of missions to conducting these reviews in close coordination with relevant stakeholders reflects a shared commitment to optimal resource utilization and mandate delivery.

Owing to the variance in and diversity of special political missions, their cooperation with peacekeeping operations will range according to the type of mandates that they are requested to implement. Since the reform of the peace and security pillar in 2019, the ability of the Secretariat to ensure close collaboration between all missions operating in the same region has been significantly strengthened, as they are now backstopped by the shared regional structure of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations at Headquarters.

Given their different mandates, special political and peacekeeping missions can play complementary roles while addressing the same peace and security situation, when Member States deem it necessary to distinguish between the political and security tracks. For example, when the Security Council mandated the deployment of the United Nations Peacekeeping Force in Cyprus (UNFICYP) to Cyprus through resolution [186 \(1964\)](#), it also recommended that the Secretary-General deploy a mediator "for the purpose of promoting a peaceful solution and an agreed settlement of the problem confronting Cyprus", which has led to the establishment of the Office of the Special Adviser of the Secretary-General on Cyprus.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

In other situations, a special political mission with a regional mandate may work closely with a country-based peacekeeping operation to address regional issues that might have an impact on the area of operation of the peacekeeping mission. For example, the Special Envoy of the Secretary-General for the Great Lakes Region has a mandate to advance the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, and to undertake good offices to strengthen relations between the signatories of the Framework, foster agreements to revitalize the implementation of existing accords that promote regional economic integration and promote the free movement of goods and people. In carrying out this mandate, the Special Envoy works closely with the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo.

In other cases, sanctions panels and monitoring groups are mandated to support Security Council sanctions regimes that might pertain to the situations in which peacekeeping operations are deployed, such as in the Central African Republic, the Democratic Republic of the Congo and South Sudan.

In Cyprus and Lebanon, peacekeeping operations continue to work closely with special political missions that lead on political strategies for the countries in question. The United Nations Interim Force in Lebanon (UNIFIL) and the Office of the United Nations Special Coordinator for Lebanon collaborate closely in implementing Security Council resolution 1701 (2006). UNIFIL continues its high-tempo and visible presence, as well as its de-escalation, liaison and coordination role between Israel and Lebanon, including through the Force's tripartite mechanism. In Cyprus, UNFICYP is charged with maintenance of peace and stability, working closely with the Office of the Special Adviser to the Secretary-General on Cyprus to support this overarching goal and to create conditions conducive to a peace process. The peacekeeping mission works to ensure that the situation on the ground remains calm and stable and that law and order is maintained, thus creating space for a political process. Both missions also support the technical committees, bodies formed in the context of the peace process which work to improve the daily lives of both Greek Cypriots and Turkish Cypriots.

The United Nations Mission for the Referendum in Western Sahara has continued to monitor, investigate and report on developments in and affecting Western Sahara with a view to creating an enabling environment for the political process, led by the

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Personal Envoy of the Secretary-General for Western Sahara. Such efforts have become even more critical as low-intensity hostilities have continued.

UNSOM logistical and operational support is provided by the United Nations Support Office in Somalia (UNSOS). The range of services includes office and residential accommodation, medical support, supply of fuel, travel on UNSOS aircraft on a seat-available basis, airport security services and grounds passes. UNSOM also cost-shares three fixed-wing and two rotary-wing aircraft with UNSOS. For information and communications technology (ICT) resources, UNSOS provides back-end and end-user support as required, with common ICT services.

In certain cases, special political missions (including sanctions panels and monitoring groups) with regional mandates may work closely with a country-based special political mission and/or peacekeeping operations to address regional issues that might have an impact in their area of operation. In these cases, ad hoc operational support and the respective recovery or sharing of costs is provided on an as-needed basis, ensuring coordination for transportation, security and other administrative matters.

Annex II

Lead department and mandates of special political missions

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
Cluster I: special and personal envoys, advisers and representatives of the Secretary-General			
1. Office of the Special Adviser to the Secretary-General on Cyprus	DPPA	Security Council resolutions 186 (1964), 367 (1975), 1250 (1999), 1475 (2003), 1758 (2007) and 2723 (2024)	Open-ended
2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide	OSAPG	Security Council resolution 1366 (2001); S/2004/567 and S/2004/568	Open-ended
3. Personal Envoy of the Secretary-General for Western Sahara	DPPA	S/1997/236, S/2005/497, S/2005/498, S/2009/19, S/2009/20, S/2017/462 and S/2017/463; Security Council resolutions 1813 (2008), 2099 (2013) and 2468 (2019)	Open-ended
4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	DPPA	Security Council resolution 1559 (2004); S/PRST/2006/3	Open-ended
5. United Nations Representative to the Geneva International Discussions	DPPA	S/2009/254, S/2010/103, S/2011/279, S/2018/665 and S/2018/666	Open-ended
6. Office of the Special Envoy of the Secretary-General for Syria	DPPA	General Assembly resolution 66/253; Security Council resolutions 2118 (2013), 2254 (2015), 2268 (2016) and 2336 (2016)	Open-ended
7. Office of the Special Envoy of the Secretary-General for the Horn of Africa	DPPA	S/2011/474, S/2011/475, S/2016/258, S/2016/259; S/2018/955 and S/2018/979	Open-ended
8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region	DPPA	Security Council resolutions 2098 (2013), 2147 (2014), 2211 (2015), 2277 (2016), 2348 (2017), 2409 (2018), 2502 (2019) and 2556 (2020)	Open-ended
9. Office of the Special Envoy of the Secretary-General for Yemen	DPPA	S/2016/488 and S/2016/489; Security Council resolutions 2216 (2015), 2266 (2016), 2342 (2017), 2402 (2018), 2451 (2018), 2452 (2019), 2456 (2019) and 2505 (2020)	Open-ended
10. Office of the Special Envoy of the Secretary-General on Myanmar	DPPA	General Assembly resolutions 72/248 and 78/219	

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
Cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms			
11. Group of Experts on the Democratic Republic of the Congo	DPPA	Security Council resolution 2688 (2023)	1 August 2024
12. Panel of Experts on the Sudan	DPPA	Security Council resolution 2725 (2024)	12 March 2025
13. Support to the Security Council Committee established pursuant to resolution 1718 (2006)	DPPA	Security Council resolution 1718 (2006)	Open-ended
14. Panel of Experts on Libya	DPPA	Security Council resolution 2701 (2023)	1 February 2025
15. Panel of Experts on the Central African Republic	DPPA	Security Council resolution 2693 (2023)	31 August 2024
16. Panel of Experts on Yemen	DPPA	Security Council resolution 2707 (2023)	15 December 2024
17. Panel of Experts on South Sudan	DPPA	Security Council resolution 2683 (2023)	1 July 2024
18. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	DPPA	Security Council resolutions 2610 (2021) and 2716 (2023)	17 June 2024 and 17 December 2024
19. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	DPPA	Security Council resolution 2610 (2021)	17 June 2024
20. Implementation of Security Council resolution 2231 (2015)	DPPA	Security Council resolution 2231 (2015)	18 October 2025
21. Panel of Experts pursuant to resolution 2713 (2023)	DPPA	Security Council resolution 2713 (2023)	15 January 2025
22. Panel of Experts on Haiti	DPPA	Security Council resolution 2700 (2023)	19 November 2024
23. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	ODA	Security Council resolutions 1673 (2006) , 1810 (2008) , 1977 (2011) , 2055 (2012) , 2325 (2016) and 2663 (2022)	30 November 2032
24. Counter-Terrorism Committee Executive Directorate	CTED	Security Council resolution 2617 (2021)	31 December 2025

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
Cluster III: regional offices, offices in support of political processes and other missions			
25. United Nations Office for West Africa and the Sahel	DPPA	S/2016/88, S/2016/89, S/2016/1128 and S/2016/1129; Security Council resolution 2349 (2017); S/2023/70 and S/2023/71	31 January 2026
26. United Nations Assistance Mission in Somalia	DPPA	Security Council resolutions 2158 (2014), 2592 (2021) and 2705 (2023)	31 October 2024
27. United Nations Regional Centre for Preventive Diplomacy for Central Asia	DPPA	S/2007/279 and S/2007/280	Open-ended
28. United Nations support for the Cameroon-Nigeria Mixed Commission	DPPA	S/2020/1322, S/2020/1323; S/2021/1069 and S/2021/1070	Open-ended
29. Office of the United Nations Special Coordinator for Lebanon	DPPA	Security Council resolutions 1701 (2006) and 1773 (2007); S/2007/85, S/2007/86, S/2012/34, S/2012/35 and S/PRST/2015/7	Open-ended
30. United Nations Regional Office for Central Africa	DPPA	S/2009/697, S/2010/457, S/2018/789, S/2018/790, S/PRST/2019/10 and S/2021/720	31 August 2024
31. United Nations Support Mission in Libya	DPPA	Security Council resolutions 2486 (2019) and 2702 (2023)	31 October 2024

Notes:

- (a) The numbers in this table reflect the projected expenditure for the respective period.
- (b) The explanation for the variance between 2025 and 2024 projected extrabudgetary expenditure of each mission is provided in the proposed programme budget reports for the respective thematic clusters ([A/79/6 \(Sect.3\)/Add.2](#), [A/79/6 \(Sect.3\)/Add.3](#), [A/79/6 \(Sect.3\)/Add.4](#), [A/79/6 \(Sect.3\)/Add.5](#) and [A/79/6 \(Sect.3\)/Add.6](#)).
- (c) Given the uncertainties and difficulties in making projections for 2024 expenditure, some missions have used their 2024 projected expenditure as an indicator for 2025 where no better estimation could be made at time of preparing the present report.

Annex V

Support for special political missions provided free of charge by host countries in 2024 and 2025

(Thousands of United States dollars)

<i>Mission</i>	<i>Contributor</i>	<i>Description of contribution</i>	<i>Approximate annual value</i>
Cluster I

Notes:

- The table presents estimates of spendable revenue from cost-recovery activities for special political missions that have an approved cost plan for fiscal year 2024 at the time of issuance of the present report. Spendable revenue is revenue that will be spent based on the approved cost plan. Projected expenditure under the cost plans of the respective missions is presented in annex VIII.
- Non-spendable revenue is unpredictable in nature. If received, such revenue would be collected and transferred to the assessed fund (i.e. the regular budget general fund in the case of the special political missions) for credit back to the Member States that funded the assessed budget.

Annex VIII

Projected expenditure from cost-recovered revenue of special political missions

(Thousands of United States dollars)

<i>Object of expenditure</i>	<i>United Nations Assistance Mission in Afghanistan</i>	<i>United Nations Assistance Mission for Iraq</i>	<i>United Nations Office for West Africa and the Sahel</i>
Military and police personnel			
Military contingents	–	2 622.1	–
Subtotal	–	2 622.1	–
Civilian personnel			
International staff	1 305.5	–	–
National staff	3 337.6	–	–
United Nations Volunteers	1 363.8	162.9	–
General temporary assistance	–	2 627.0	–
Subtotal	6 006.9	2 789.9	–
Operational costs			
Official travel	105.0	28.2	–
Facilities and infrastructure	7 268.1	3 237.1	22.6
Ground transportation	8 256.5	427.1	1.0
Air operations	130.0	–	30.0
Communications and Information technology	128.8	657.4	2.4
Medical	1 519.1	26.4	–
Other supplies, services and equipment	59.6	491.6	–
Subtotal	17 722.2	4 867.8	56.0
Total	23 729.0	10 279.8	56.0

Note: The figures presented in this table are based on the respective mission's approved cost plan for expenditure to be incurred against cost-recovery revenue for fiscal year 2024 at the time of issuance of the present report. Owing to the timeline followed by the cost-recovery process, cost plans for fiscal year 2025 will become available only towards the end of 2024.

Annex XI**Resources for acquisition of satellite imagery for special political missions, 2024 and 2025**

(Thousands of United States dollars)

<i>Mission</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>	<i>Justification</i>
Group of Experts on the Democratic Republic of the Congo	1.8	29.4	The provisions cover a subscription to a geospatial database which will allow experts to access near-real-time, high-resolution temporal and spatial satellite imagery and related services and which will be used to better document the implementation of the Security Council mandates
Panel of Experts on the Sudan	2.6	29.4	
Support to the Security Council Committee established pursuant to resolution 1718 (2006)	230.2	–	
Panel of Experts on Libya	6.2	29.4	
Panel of Experts on the Central African Republic	2.6	29.4	
Panel of Experts on Yemen	3.0	29.4	
Panel of Experts on South Sudan	2.6	29.4	
Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	1.5	–	
Panel of Experts pursuant to resolution 2713 (2023)	2.9	29.4	
Panel of Experts on Haiti	3.0	29.4	
United Nations Support Mission in Libya	1.8	1.8	The provision is to support the Mission's situational awareness with geospatial information, which will be used to analyse situations within the mission area and will assist in keeping the mission leadership informed for better strategic planning
United Nations Mission to Support the Hudaydah Agreement	150.0	120.0	The Mission requires high-resolution satellite imagery to perform image analysis in support of monitoring areas of responsibility, image analysis reports and hotspot visualization products, allowing, inter alia, the extraction of features of interest, spatial and terrain analysis, the planning of military and security patrols, the production of operational maps and the production of value-added products for the Joint Operations Centre

Annex XII

Communications and information technology resources for special political missions, 2024 and 2025

(Thousands of United States dollars)

Mission	Number of posts related to communications and information technology		Other communications and information technology-related resources		Remarks

Annex XIV

Medical services and service providers for special political missions, 2024 and 2025

(Thousands of United States dollars)

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>
Office of the Special Envoy of the Secretary-General for Syria	Clinical service	United Nations Office at Geneva	Cost-shared budget with United Nations agencies	7.8	7.8
Office of the Special Envoy of the Secretary-General for the Horn of Africa	Medical clinic	United Nations Office at Nairobi	United Nations service providers	3.8	3.8
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	Joint medical service provided to staff	United Nations Office at Nairobi	United Nations service providers	14.0	19.7
Office of the Special Envoy of the Secretary-General for Yemen	1. Joint medical clinics in Yemen 2. Medical evacuation and mortuary services	1. UNDP 2. Private service provider	1. Cost-shared budget with United Nations country team in Yemen 2. Established contract	198.0	197.0
Office of the Special Envoy of the Secretary-General on Myanmar	ESCAP provides medical services for the mission. The services include consultancy, supplies of medication, vaccines and travel medical clearance	ESCAP	ESCAP provides administrative services to the mission, including medical services	1.0	0.6
Panel of Experts on Yemen	1. Joint medical clinic and response to the COVID-19 pandemic 2. Specialist medical consultations and laboratory services 3. Medical evacuation and mortuary services	1. UNDP 2. Local private hospitals 3. Private service provider	1. All United Nations entities in Yemen share the cost of UNDP-managed medical clinics in Yemen and joint response for COVID-19 2. For specialist services not available at the UNDP clinics 3. Emergency medical requirement	8.0	8.0
Panel of Experts pursuant to resolution 2713 (2023)	Joint medical service	United Nations Office at Nairobi	United Nations service providers	3.8	3.8
United Nations Assistance Mission in Somalia	Clinical, diagnostic, preventive and promotive medical and surgical services, including occupational health and safety, medical and casualty evacuations, hospitalizations and disease outbreak responses	Private service providers and contracted medical facilities	Service providers were chosen following a competitive procurement process, which was advertised locally and internationally	927.4	865.7

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>
Office of the United Nations Special Coordinator for Lebanon	The Office receives medical services from UNIFIL on the basis of a memorandum of understanding	UNIFIL	Memorandum of understanding	–	–
United Nations Support Mission in Libya	Aeromedical evacuations, specialist consultation services, specialist x-ray and laboratory	Private service providers and local hospitals	Letter of agreement	396.2	314.6
United Nations Verification Mission in Colombia	<ol style="list-style-type: none"> 1. Medical clinic, specialist medical consultations and laboratory services 2. Hospitalization and surgery 3. Aeromedical evacuation 4. Ambulance services for medical evacuation 	<ol style="list-style-type: none"> 1. Local hospitals 2. Private service providers 3. National Centre for Personnel Rescue of the Colombian Air Force 4. Private service providers 	Quality and availability of services at the local level and emergency medical requirements	532.3	535.2
United Nations Mission to Support the Hudaydah Agreement	<ol style="list-style-type: none"> 1. Forward medical team 2. Joint medical clinics in Yemen 3. Medical evacuation and mortuary services 	<ol style="list-style-type: none"> 1. Private service provider 2. UNDP 3. Private service provider 	<ol style="list-style-type: none"> 1. The Mission is using the services of a contracted medical team and health-care personnel in Hudaydah, provided by private contractors selected using the United Nations solicitation and procurement process, which was open to all international and national eligible vendors. Criteria for the selection of the service provider were developed in coordination with the Division of Health-Care Management and Occupational Safety and Health and the Procurement Division 2. Cost-shared budget with the United Nations country team in Yemen 3. Established contract 	713.3	1 116.0
United Nations Integrated Office in Haiti	Aeromedical evacuations; specialist consultation services; specialist x-ray and laboratory; hospitalization in non-mission hospital; mortuary services	Private service providers	Established contracts	286.1	285.3

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>
United Nations Assistance Mission in Afghanistan	1. Forward surgical team and aeromedical evacuation team	Private service providers	1. The contracted surgical facility in Kabul was established to provide emergency trauma care and stabilization before evacuation. The team is made up of a forward surgical team and a team of aeromedical evacuation specialists	595.3	568.5
	2. Joint medical services and medical emergency response team	UNAMA	2. United Nations medical services in Afghanistan comprise a level I clinic in Kabul and forward medical posts in the field offices. No specialist consultations are provided and, although there is some capacity within the Mission, referrals for specialist consultations and evacuations often take place outside of the Mission using its air assets, commercial airlines, or air ambulance services		
	3. Staff counselling services	Contracted to a private service provider	3. The contracted service provider will work in close collaboration with the integrated UNAMA and Department of Safety and Security stress counsellors to provide remote counselling services		
	4. Aeromedical evacuation and specialist consultations	Private service providers	4. Emergency cases that cannot be managed in the Mission are evacuated to neighbouring countries. Staff requiring specialist consultations not available in the Mission are referred out to avail themselves of these services		
United Nations Assistance Mission for Iraq	1. Hospitalization in non-Mission hospital, specialist consultation services, scanning, laboratory and mortuary services, aeromedical evacuations and dental treatment	Private service providers, United States Department of State medical facility	The UNAMI clinic is a level I facility. The service providers are delivering level II, III and IV care to all United Nations personnel that need a higher level of treatment according to international standards. Both national and international medical providers are given consideration for medical	172.5	223.2

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>
			services to the Mission. The Mission has two types of medical service providers for casualty/medical evacuation requirements, with criteria focused primarily on accessibility, availability and urgency. Currently, there is one national and one international medical service provider, mainly providing medical evacuation and referral centres		
	2. Staff counselling services	Contracted to a private service provider	Established contract		

Abbreviations: ESCAP, Economic and Social Commission for Asia and the Pacific; UNAMA, United Nations Assistance Mission in Afghanistan; UNAMI, United Nations Assistance Mission for Iraq; UNDP, United Nations Development Programme; UNIFIL, United Nations Interim Force in Lebanon.

Annex XV

Official travel resources for special political missions, 2024 and 2025

(Thousands of United States dollars)

Mission	Approved	Proposed	Variance	Variance	Explanation for variance
	2024	2025	amount	percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
Cluster I: special and personal envoys, advisers and representatives of the Secretary-General					
Office of the Special Adviser to the Secretary-General on Cyprus	90.3	70.0	(20.3)	(22.5)	Reduction in requirements to align with actual pattern of utilization in previous years
Office of the Special Adviser to the Secretary-General on the Prevention of Genocide	245.1	211.9	(33.2)	(13.5)	Reduction in requirements to align with actual pattern of utilization in previous years
Personal Envoy of the Secretary-General for Western Sahara	74.7	74.7	–	–	
Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	33.2	26.6	(6.6)	(19.9)	Reduction in requirements to align with actual pattern of utilization in previous years
United Nations Representative to the Geneva International Discussions	189.0	125.4	(63.6)	(33.7)	Reduced travel requirements for participants due to only three rounds of the Geneva International Discussions planned for 2025, compared with four rounds planned in 2024
Office of the Special Envoy of the Secretary-General for Syria	824.4	824.4	–	–	
Office of the Special Envoy of the Secretary-General for the Horn of Africa	92.4	92.4	–	–	
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	295.7	296.0	0.3	0.1	The mission has maintained a similar level of resources for 2025 as compared with the approved budget for 2024
Office of the Special Envoy of the Secretary-General for Yemen	407.7	407.7	–	–	
Office of the Special Envoy of the Secretary-General on Myanmar	135.4	135.4	–	–	
Subtotal	2 387.9	2 264.5	(123.4)	(5.2)	
Cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms					
Group of Experts on the Democratic Republic of the Congo	24.0	24.0	–	–	
Panel of Experts on the Sudan	15.9	15.9	–	–	
Support to the Security Council Committee established pursuant to resolution 1718 (2006)	17.3	17.3	–	–	
Panel of Experts on Libya	16.8	16.8	–	–	
Panel of Experts on the Central African Republic	33.2	33.2	–	–	
Panel of Experts on Yemen	65.3	65.3	–	–	

<i>Mission</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>	<i>Variance amount</i>	<i>Variance percentage</i>	<i>Explanation for variance</i>
<i>(1)</i>	<i>(2)</i>	<i>(3)=(2)-(1)</i>	<i>(4)=(3)/(1)</i>		
Panel of Experts on South Sudan	40.2	40.2	–	–	
Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	89.2	89.2	–	–	
Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	34.3	34.3	–	–	
Implementation of Security Council resolution 2231 (2015)	34.9	15.0	(19.9)	(57.0)	The decrease in requirements for 2025 compared with 2024 is attributable to the anticipated expiration of the mandate in October 2025 and the proposed abolishment of three staff posts by 1 January 2025 and two staff posts by 1 November 2025, leading to reduced requirements for official travel
Panel of Experts pursuant to resolution 2713 (2023)	38.5	38.5	–	–	
Panel of Experts on Haiti	170.9	180.7	9.8	5.7	The increase in requirements for 2025 compared with 2024 is attributable to the expansion of the mandate to cover the territorial arms embargo, which was previously limited to armed groups
Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	131.2	131.2	–	–	
Counter-Terrorism Committee Executive Directorate	742.4	742.4	–	–	
Subtotal	1 454.1	1 444.0	(10.1)	(0.7)	
Cluster III: regional offices, offices in support of political processes and other missions					
United Nations Office for West Africa and the Sahel (UNOWAS)	868.6	868.6	–	–	
United Nations Assistance Mission in Somalia	1 008.5	987.7	(20.8)	(2.1)	The decrease in requirements for 2025 compared with 2024 is attributable to the reduction in the number of days per trip and lower requirements for training travel
United Nations Regional Centre for Preventive Diplomacy for Central Asia	206.6	230.1	23.5	11.4	The increase in the requirements for 2025 compared with 2024 is attributable to higher costs for airfare, and higher terminal expenses and daily subsistence allowance, as well as additional travel requirements with respect to the meeting of deputy foreign ministers
United Nations support for the Cameroon-Nigeria Mixed Commission	236.4	236.4	–	–	
Office of the United Nations Special Coordinator for Lebanon	164.5	167.6	3.1	1.9	The increase is attributable mainly to an increase in terminal expenses in 2025 compared with 2024

<i>Mission</i>	<i>Approved 2024</i>	<i>Proposed 2025</i>	<i>Variance amount</i>	<i>Variance percentage</i>	<i>Explanation for variance</i>
	<i>(1)</i>	<i>(2)</i>	<i>(3)=(2)-(1)</i>	<i>(4)=(3)/(1)</i>	
United Nations Regional Office for Central Africa	568.1	535.9	(32.2)	(5.7)	The decrease in requirements for 2025 compared with 2024 is attributable to a reduction in the number of days and the number of staff members per trip and lower requirements for training travel, as some of the training in the field of capacity-building will be offered virtually
United Nations Support Mission in Libya	1 029.6	1 059.5	29.9	2.9	The increase in requirements is due to additional travel for meetings and consultations, as well as internal travels to provide programme oversight, monitoring, coordination, resource mobilization and technical assistance with partners in connection with the Mission's mine action programme, which was previously funded through UNOPS
United Nations Verification Mission in Colombia	2 215.2	2 217.1	1.9	0.1	The Mission has maintained a similar level of resources for 2025 compared with 2024
United Nations Mission to Support the Hudaydah Agreement	534.7	534.7	–	–	
United Nations Integrated Office in Haiti	327.7	374.7	47.0	14.3	The increase in requirements of \$47,000 for 2025 compared with the appropriation for 2024 is attributable mainly to the higher cost of airfare and an increase in provision for security-related training, including mandatory firearms recertification and close protection refresher training
Subtotal	7 159.9	7 212.3	52.4	0.7	
UNAMA and UNAMI					
United Nations Assistance Mission in Afghanistan	994.7	994.5	(0.2)	(0.0)	The Mission has maintained a similar level of resources for 2025 compared with 2024
United Nations Assistance Mission for Iraq	1 014.6	844.4	(170.2)	(16.8)	The decrease is attributable mainly to increased utilization of hybrid videoconferencing services to the extent possible for within-Mission consultations and for training
Subtotal	2 009.3	1 838.9	(170.4)	(8.5)	
Subtotal, continuing missions	13 011.2	12 759.7	(251.5)	(1.9)	
Discontinuing missions	1 097.5	–	–	–	
UNITAD	540.0	–	–	–	
UNITAMS	557.5	–	–	–	
Total	14 108.7	12 759.7	(1 349.0)	(9.6)

^a Includes staff in the Professional and higher categories and Field Service and General Service staff.

^b Includes National Professional Officers and Local level staff.

^c Includes international and national United Nations Volunteers.

Note: The following abbreviations are used in the tables: ASG, Assistant Secretary-General; FS, Field Service; GS, General Service; LL, Local level; NPO, National Professional Officers; USG, Under-Secretary-General.

2. The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include the 12-month average vacancy rate in 2023 and the actual vacancy rate as at 31 March 2024. The lower of the two was used as the budgeted vacancy rate. This is in line with the policy guidance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2025 and to ensure that the proposed vacancy rates are based, as much as possible, on actual rates. A vacancy rate of 50 per cent has been applied in the calculation of costs for the proposed establishment of new posts and positions, or posts and positions proposed for reassignment or conversion.
3. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2024 or 2025.

II. Cross-cutting information

Gender perspective

4. Special political missions are guided by Security Council resolutions [1325 \(2000\)](#), [1820 \(2008\)](#), [1888 \(2009\)](#), [1889 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#), [2122 \(2013\)](#), [2242 \(2015\)](#), [2467 \(2019\)](#) and [2493 \(2019\)](#), which together constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution [75/100](#) on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
5. Specific examples of how special political missions integrate a gender perspective into their operational activities, deliverables and results are given under the individual missions in the present report.

Disability inclusion

6. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

7. The Department of Political and Peacebuilding Affairs of the Secretariat will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

III. Special political missions

1. Office of the Special Adviser to the Secretary-General on Cyprus

(\$2,998,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

8. The mandate of the mission derives from the priorities established in relevant Security Council resolutions and decisions and an exchange of letters between the Secretary-General and the President of the Security Council (S/2008/456 and S/2008/457). In resolution 1818 (2008), the Council welcomed the intention of the Secretary-General to appoint a Special Adviser at the appropriate time. In a letter addressed to the President of the Security Council (S/2008/456), the Secretary-General announced his intention to appoint his Special Adviser on Cyprus as from 14 July 2008. Relevant Security Council resolutions from which the mandate derives include resolution 186 (1964) and various subsequent Council resolutions, the latest being resolution 2723 (2024).
9. The Secretary-General, in his latest report (S/2024/13), encouraged the two leaders to be open to mutually acceptable modalities for dialogue at their level and stressed that meaningful initiatives or gestures were also critical for creating momentum towards dialogue and building trust. He underlined the importance of genuine progress towards reaching a consensus starting point for meaningful, results-oriented negotiations leading to a mutually acceptable settlement.
10. In its resolution 2723 (2024), the Security Council noted the need for further progress towards restarting formal negotiations, and fully supported the Secretary-General's ongoing engagement with the sides and encouraged further rounds of informal talks. The Council urged the sides to engage actively and without further delay with the Secretary-General and his team.

Programme of work

Objective

11. The objective, to which this mission contributes, is to achieve a comprehensive settlement of the Cyprus issue.

Strategy and external factors for 2025

12. To contribute to the objective, the mission will:
 - (a) Use its best endeavours with the two leaders and the guarantor powers to promote a peaceful solution and to assist them, should they jointly agree, in the conduct of full-fledged negotiations;
 - (b) Regularly conduct bilateral meetings and facilitate joint meetings between the leaders, negotiators/representatives and their teams, working groups and experts;
 - (c) Intensify support for the implementation of confidence-building measures and the work of the technical committees to help both sides make progress towards promoting just, peaceful and inclusive societies.

13. The above-mentioned work is expected to result in:
 - (a) Continuation of dialogue towards an enduring, comprehensive and just settlement of the Cyprus issue. Should significant progress be achieved, the United Nations may be called upon to intensify its support, possibly also by convening the stakeholders to address substantive issues;
 - (b) Implementation of confidence-building measures;
 - (c) Empowerment and facilitation of the work of the technical committees.
14. With regard to cooperation with other entities, the mission, if so requested by the sides, will continue to coordinate the engagement of international financial institutions in support of the process, in particular, the European Central Bank, the International Monetary Fund and the World Bank. In addition, the mission will cooperate and coordinate activities with the European Commission as relevant to its support for the peace process.
15. With regard to inter-agency coordination and liaison, the mission, the United Nations Peacekeeping Force in Cyprus (UNFICYP) and the United Nations country team will continue to maximize synergies and ensure coherent and effective support for United Nations peace efforts.
16. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) Continued and sustained political commitment of the parties to the political process and the implementation of confidence-building measures;
 - (b) Continued and sustained international support for the peace process.
17. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The mission supports activities by both sides, the work of the Technical Committee on Gender Equality and women's civil society platforms in both communities to advance gender-related issues and provides support for greater civic engagement towards a more inclusive peace process. In accordance with best practice, the mission will support the involvement of underrepresented groups, including women, minorities, youth and persons with disabilities, in discussions pertaining to the Cyprus issue and in the peace process.
18. In line with the United Nations Disability Inclusion Strategy, the mission will further seek to promote disability inclusion internally by creating the space for employment opportunities for qualified candidates. At the political level, it will continue to advocate for inclusion of the views of persons with disabilities in decision-making platforms, including the technical committees, as change agents for peace, security and sustainable development. In order to mainstream disability inclusion into the design, implementation, monitoring and evaluation of their activities, as well as targeted measures where appropriate, UNFICYP and the Office of the Special Adviser to the Secretary-General on Cyprus have been working together to develop a joint action plan for the implementation of the Strategy.

Programme performance in 2023

Consistent engagement, conflict prevention and efforts to reach common ground on the way forward on the Cyprus issue

19. In 2023, the Secretary-General met separately with the two leaders and held meetings with the guarantor powers. The Under-Secretary-General for Political and Peacebuilding Affairs visited Cyprus in March, followed by visits by United Nations officials at the Assistant Secretary-General level to the island and the guarantor powers in August and September. The leaders met three times in 2023, in February, July and December, which sent important positive political signals. The mission continued its engagement with the sides, including by facilitating weekly meetings, supporting the work of the technical committees and interacting with a broad network of interlocutors. While regional dynamics remained complex in 2023, the rapprochement between Türkiye and Greece continued, which helped create a more positive environment among the two guarantor powers.

20. Progress towards the objective is presented in the performance measure below (see table 3).

Table 3
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Continued engagement with the two leaders and their teams and provision of the required support for senior-level engagement, including an informal five-plus-one meeting convened by the Secretary-General in Geneva and an informal lunch for the Greek Cypriot and Turkish Cypriot leaders hosted by the Secretary-General in New York	Engagement with the two leaders and their teams and support for senior-level engagement, including separate meetings between the Greek Cypriot and Turkish Cypriot leaders with the Secretary-General, three visits of the Assistant Secretary-General for Europe, Central Asia and the Americas to Cyprus and one to each of the guarantor powers, and two meetings of the leaders in Cyprus	Engagement with the two leaders and their teams, including separate meetings between the Greek Cypriot and Turkish Cypriot leaders, as well as of the guarantor powers with the Secretary-General, the Under-Secretary-General for Political and Peacebuilding Affairs and the Assistant Secretary-General for Europe, Central Asia and the Americas, respectively; and three meetings of the leaders in Cyprus

Planned result for 2025

Continued dialogue to assist in the search for common ground

Programme performance in 2023 and target for 2025

21. In 2023, the mission's work contributed to the holding of 98 bilateral and joint meetings with the leaders and their representatives and 416 meetings of the technical committees and working groups, which partially met the planned target of 140 bilateral meetings and exceeded the target of 410 meetings of the technical committees and working groups, respectively. This was due primarily to the absence of active negotiations. In 2025, the mission will continue its engagement to support efforts to find common ground on the way forward. The mission will continue its support for the implementation of confidence-building measures, the work of the 12 technical committees and greater civic engagement, including with women, minorities, youth and persons with disabilities, to support a more inclusive peace process.

Lessons learned and planned change

22. The lesson for the mission was that the peace process requires continued political commitment and sustained international support, as well as continued engagement with the sides and the guarantor powers. Mutually agreed confidence-building measures and the work of the technical committees remain critical to building trust and reducing tensions across the island. Engagement with civil society representatives, including women's and youth groups, is key to ensuring the inclusivity of the peace process, as requested by the Security Council. In applying the lesson, the mission will continue weekly coordination meetings with the sides to further empower the work of the technical committees, and will organize events to broaden the participation of civil society actors.
23. Expected progress towards the objective is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of bilateral and joint meetings with the leaders and their negotiating teams and number of meetings of working groups and technical committees

Deliverables

24. Table 4 lists all deliverables of the mission.

Table 4

Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				
Good offices: provision of good offices through engagement and bilateral and joint meetings with the Greek Cypriot leader and the Turkish Cypriot leader and other stakeholders in both communities as well as the three guarantor powers towards a settlement of the Cyprus issue. Conduct and facilitation of bilateral and joint meetings with the leaders and their teams and facilitation of the technical committees and working groups.				
Consultation, advice and advocacy: provision of advice on procedural, legal, technical and substantive issues towards a settlement of the Cyprus issue; coordination, management and facilitation of advisory meetings on issues related to the peace process; and advocacy on gender equality and encouragement of participation by women, youth and persons with disabilities in the peace process, and public support for the peace process.				
D. Communication deliverables				
External and media relations: interviews and press releases to inform the public about the peace process.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 5

Financial resources

(Thousands of United States dollars)

	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	1 ^a	–	–	1	3	5	1	–	4	1 ^b	16	–	5	5	–	–	
Proposed 2025	1 ^a	–	–	1	3	5	1	–	4	1 ^b	16	–	5	5	–	–	–	21
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a when-actually-employed contract.

^b Other level, unless otherwise stated.

25. The proposed resource requirements for 2025 for the Office of the Special Adviser to the Secretary-General on Cyprus amount to \$2,998,400 (net of staff assessment) and would provide for salaries and common staff costs (\$2,654,800) for the continuation of 21 posts (1 Under-Secretary-General, 1 D-1, 3 P-5, 5 P-4, 1 P-3, 4 Field Service, 1 General Service (Other level) and 5 Local level), as well as operational costs (\$343,600), comprising costs for consultants and consulting services (\$24,200), official travel (\$70,000), facilities and infrastructure (\$96,000), ground transportation (\$47,800), communications and information technology (\$75,200), medical (\$300) and other supplies, services and equipment (\$30,100).
26. In 2025, no change is proposed to the number and levels of the posts.
27. A vacancy rate of 12.5 per cent has been applied to the estimates for international posts, based on the vacancy rate in March 2024. A vacancy rate of 20.0 per cent has been applied to Local level posts for 2025, based on the vacancy rate in March 2024.
28. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable to reduced requirements for travel and other supplies, services and equipment; offset in part by increased requirements for civilian personnel as a result of higher salary costs.

2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide

(\$3,257,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

29. The mission is mandated to collect information on massive and serious violations of human rights and international humanitarian law of ethnic and racial origin that, if not prevented or halted, may lead to genocide; to act as a mechanism of early warning to the Secretary-General and, through him, to the Security Council, by bringing to their attention situations that could potentially result in genocide; to make recommendations to the Council, through the Secretary-General, on action to prevent or halt genocide; and to liaise with the United Nations system on activities for the prevention of genocide and on work to enhance the capacity of the United Nations to analyse and manage information regarding genocide or related crimes.
30. The mandate derives from the invitation of the Security Council to the Secretary-General in its resolution [1366 \(2001\)](#) to refer to the Council information and analysis from within the United Nations system on cases of serious violations of international law, including international humanitarian law and human rights law. The Special Adviser on the Prevention of Genocide was appointed through an exchange of letters between the Secretary-General and the President of the Security Council ([S/2004/567](#) and [S/2004/568](#)). The responsibilities of the Special Adviser were listed in the letter of the Secretary-General ([S/2004/567](#)). The mandate has been reaffirmed through various resolutions of the Security Council, the General Assembly and the Human Rights Council, most recently in General Assembly resolution [77/318](#), in which the Assembly noted the role of the Special Adviser as part of efforts to address and counter hate speech.
31. With regard to the responsibility to protect, the General Assembly, in paragraphs 138 and 139 of its resolution [60/1](#) on the 2005 World Summit Outcome, addressed the responsibility of Member States and the international community to protect populations. The Security Council reaffirmed the provisions of paragraphs 138 and 139 of that resolution in its resolutions [1674 \(2006\)](#) and [1706 \(2006\)](#). Through an exchange of letters ([S/2007/721](#) and [S/2007/722](#)), the Special Adviser to the Secretary-General on the Responsibility to Protect was appointed and charged with the conceptual, institutional and operational development of the principle and with continuing a political dialogue with Member States on its implementation. The Assembly, in resolution [75/277](#), included an item on the responsibility to protect on its agenda and requested the Secretary-General to report annually on that item.
32. In its resolutions [2150 \(2014\)](#) and [2171 \(2014\)](#), the Security Council recalled the important role of the Special Advisers on the Prevention of Genocide and on the Responsibility to Protect, and noted that their functions included acting as an early warning mechanism to prevent situations that could result in genocide, crimes against humanity, war crimes and ethnic cleansing. The prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, together with the realization of the Sustainable Development Goals, remains a key part of the broader prevention strategy of the Secretary-General, as well as of his call to action for human rights on 24 February 2020.

Programme of work

Objective

33. The objective, to which this mission contributes, is to advance national, regional and international efforts to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity and their incitement.

Strategy and external factors for 2025

34. To contribute to the objective, the mission will:
- (a) Raise awareness of the causes and dynamics of genocide through predictive and action-oriented analysis, enhanced by the collection and sharing of information from field missions and regional offices in accordance with the early warning mandate;
 - (b) Alert relevant actors with respect to the risk of genocide, through the implementation of the United Nations Strategy and Plan of Action on Hate Speech, capacity-building and advocacy. This includes implementing other key policy products, including the Plan of Action for Religious Leaders and Actors to Prevent Incitement to Violence that could lead to genocide, war crimes, ethnic cleansing and crimes against humanity; the policy paper entitled “Combating Holocaust and genocide denial: protecting survivors, preserving memory, and promoting prevention”; the plan of action for women in communities to counter hate speech and prevent incitement to violence that could lead to genocide and related atrocity crimes; the “Game Plan” on the role of sports leagues in addressing and countering hate speech; and the policy guide entitled “Countering and addressing online hate speech: a guide for policy makers and practitioners”;
 - (c) Advocate and mobilize for appropriate action to prevent the risk of genocide through engagement within the United Nations and with external partners;
 - (d) Strengthen community-level efforts for prevention, including by assisting locally led initiatives aimed at bringing communities together;
 - (e) Harness technology to enhance prevention and counter its negative impacts, as outlined in Human Rights Council resolution [49/9](#);
 - (f) Increase female participation in decision-making roles and support implementation of the plan of action for women in communities to counter hate speech and prevent incitement to violence that could lead to genocide and related atrocity crimes;
 - (g) Prioritize action against Holocaust and genocide denial and the glorification of war crimes and criminals;
 - (h) Support the universal ratification of the Convention on the Prevention and Punishment of the Crime of Genocide, and support efforts towards its implementation at the national level through legislation and implementation mechanisms.
35. The above-mentioned work is expected to create conditions conducive to increased action by United Nations intergovernmental bodies, Member States and regional and subregional organizations to prevent and mitigate the risk of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement.
36. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Continued commitment of Member States, the Security Council and other intergovernmental bodies to engage with the mission to advance the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity and enhance efforts aimed at conceptualizing the principle of the responsibility to protect;

- (b) Active engagement of Member States and regional and other organizations to develop preventive capacity and take appropriate action for the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement.
37. With regard to cooperation with other entities, the mission will continue to work and partner with regional organizations, including the African Union, the International Conference on the Great Lakes Region, the Economic Community of West African States, the Association of Southeast Asian Nations (ASEAN), the Organization of American States and the European Union, as well as with civil society, including religious leaders, traditional leaders, academia and traditional media.
38. With regard to inter-agency coordination and liaison, the mission works with the Department of Peace Operations, the Office for the Coordination of Humanitarian Affairs, the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of Legal Affairs, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict, the Office of the Special Representative of the Secretary-General on Violence against Children and the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, as well as with relevant mechanisms of the Human Rights Council. In addition, the mission works closely with and supports United Nations country teams on the implementation of the United Nations Strategy and Plan of Action on Hate Speech. The mission also works in close collaboration with the United Nations Children's Fund, the United Nations Development Programme (UNDP), the United Nations Educational, Scientific and Cultural Organization and the Office of the United Nations High Commissioner for Refugees (UNHCR) in relation to the collection of information for early warning purposes, policy development and activities aimed at the prevention of genocide and related crimes.
39. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. This includes reflecting the gender dynamics in its monitoring and analysis and striving for the equal participation of women in its capacity-building events and workshops. In 2023, the mission launched a specific plan of action for women in communities to counter hate speech and prevent incitement to violence that could lead to genocide and related atrocity crimes. The plan of action looks at strengthening the role of women as agents of change in the prevention of genocide and related crimes.
40. In line with the United Nations Disability Inclusion Strategy, the mission has developed an internal guidance note on integrating disability inclusion in its programmes and activities, and has drafted a guidance note on persons with disabilities and the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity and on addressing hate speech to support mental health, which will be launched in 2024. Additionally, the mission continues to review and examine the United Nations Strategy and Plan of Action on Hate Speech with a view to further advancing disability inclusion, including in its programmatic and policy activities.

Programme performance in 2023

Collection of information for early warning on and prevention of the risk of genocide and related crimes

41. In May 2023, at the invitation of the Government of Brazil, the Special Adviser conducted a mission to hold consultations with senior government officials, the United Nations country team, civil society representatives, community leaders and other relevant actors on enhancing the protection of the Indigenous Peoples of Brazil, in particular the Yanomami and Guarani Kaiowá communities, Brazilians of African descent, and other groups at risk. The mission contributed to the decision of the Government of Brazil to enhance physical protection of the Yanomami peoples and to remove illegal miners from the area. The mission also contributed to assist government and civil society efforts to reaffirm the inviolability of Indigenous lands and the demarcation of those lands, especially for the Guarani Kaiowá peoples. It also resulted in the raising of awareness in civil society on understanding the risk factors for genocide and related crimes and hate speech. Civil society organizations are in the process of developing a national action plan to address and counter hate speech.

42. The Special Adviser also conducted several other fact-finding missions to assess early warning systems and share prevention recommendations, including a mission to refugee camps in Chad, which led to an assessment of risks against the Masalit population from West Darfur. This mission built on sustained early warning and advocacy engagement by the Special Adviser on the situation in the Sudan, as expressed in successive statements raising international attention on the ongoing crisis.
43. Progress towards the objective is presented in the performance measure below (see table 7).

Table 7
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	No comprehensive analysis of risk of genocide, war crimes, crimes against humanity and ethnic cleansing	Consultations with civil society representatives, community leaders, government representatives and other relevant national actors are held; and an analysis of the risk of genocide, war crimes, crimes against humanity and ethnic cleansing is developed, with relevant recommendations shared with the Secretary-General, the Government and civil society

Planned result for 2025

Collecting and processing information, providing early warning, raising awareness, building capacities and making recommendations to Member States and regional and subregional organizations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement

Programme performance in 2023 and target for 2025

44. The mission's work advanced national, regional and international efforts to protect populations from genocide and related crimes, which exceeded the planned target of 20 follow-up actions taken by Member States and regional organizations to mitigate the risk of such crimes. In 2023, the Special Adviser undertook six official visits, issued 19 public statements and sent 11 internal notes to the Secretary-General. The Special Adviser also briefed the Human Rights Council and the Peace and Security Council of the African Union. The mission conducted 41 workshops and eight technical assistance initiatives, supported the development of context-specific action plans on countering and addressing hate speech for five United Nations country teams and one subregion, and highlighted the voices of community-level actors, including through a "Champions of prevention" initiative. In 2023, the mission also organized a year-long commemoration of the seventy-fifth anniversary of the Convention on the Prevention and Punishment of the Crime of Genocide, which included consultations and side events with Member States, civil society and experts on the legacy of the Convention, as well as outreach campaigns, culminating in a high-level event on 8 December which included the presentation of recommendations for the effective implementation of the Convention.

Lessons learned and planned change

45. A lesson for the mission was the importance of partnerships with United Nations field entities, country teams and peace operations, which are instrumental to strengthening the Office's assessment and response capacity in multiple locations. In applying the lesson, the mission will intensify its

efforts to build the capacity of the United Nations country teams and peace operations on elements relevant to the prevention of genocide and related crimes.

46. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see figure II).

Figure II

Performance measure: number of follow-up actions taken by Member States, regional and subregional organizations and civil society actors to prevent genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement, as a result of early warning and recommendations provided by the Office of the Special Adviser on the Prevention of Genocide

Deliverables

47. Table 8 lists all deliverables of the Office.

C. Substantive deliverables

Consultation, advice and advocacy: advice on the risk of genocide, war crimes, ethnic cleansing and crimes against humanity and on preventive measures; advocacy and consultations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity; briefings on country situations and thematic areas relevant to prevention.

D. Communication deliverables

Outreach programmes, special events and information materials: commemoration of the International Day of Commemoration and Dignity of the Victims of the Crime of Genocide and of the Prevention of This Crime; anniversary of the adoption of the Convention on the Prevention and Punishment of the Crime of Genocide; commemoration of the International Day for Countering Hate Speech.

External and media relations: public statements by the Special Adviser on situations of concern, on commemorative events and upon the conclusion of high-level missions; media briefings; editorial opinions (op-eds).

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Proposed 2025	1	1 ^a	–	–	2	4 ^b	2	3 ^b	–	2 ^c	15	–	–	–	–	5	5	20
Change	–	–	–	–	–	–	–	2	–	–	2	–	–	–	–	3	3	5

^a The Assistant Secretary-General is on a \$1-per-year contract.

^b Includes one P-4 position and one P-2 position approved as general temporary assistance.

^c Other level, unless otherwise stated.

48. The proposed resources for 2025 for the mission amount to \$3,257,400 (net of staff assessment) and would provide for salaries and common staff costs (\$2,713,600) for 15 posts and positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 2 P-5, 4 P-4, 2 P-3, 3 P-2 and 2 General Service (Other level)) and 5 national United Nations Volunteer positions, as well as operational costs (\$543,800), comprising costs for consultants and consulting services (\$10,000), official travel (\$211,900), facilities and infrastructure (\$228,000), ground transportation (\$3,600), communications and information technology (\$41,500) and other supplies, services and equipment (\$46,800).
49. For 2025, the following posts and positions are proposed for establishment:
- Two Associate Political Affairs Officers (P-2) to strengthen the mission's capacity-building and awareness-raising efforts. The Associate Political Affairs Officers will support the programmatic work of the mission by supporting the design and implementation of programmes in support of Member States, regional organizations and civil society on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity;
 - One Political Affairs Officer (national United Nations Volunteer) in Beirut, which will enable the mission to broaden and scale up its capacity-building and awareness-raising efforts on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing with partners in the Middle East region, in particular on the role of education in prevention, with and in support of Member States, subregional organizations and other stakeholders. The position will also enable the mission to build and enhance its cooperation with relevant regional organizations, including the League of Arab States;
 - One Political Affairs Officer (national United Nations Volunteer) in Santiago, which will enable the mission to broaden and scale up its capacity-building and awareness-raising efforts on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing with partners in the Americas region, in particular on the role of education in prevention, with and in support of Member States, subregional organizations and other stakeholders. The position will also enable the mission to build and enhance its cooperation with the Organization of American States and other relevant regional organizations;
 - One Political Affairs Officer (national United Nations Volunteer) in Dakar, which will enable the mission to broaden and scale up its capacity-building and awareness-raising efforts on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing with partners in Western Africa, in particular on the role of education in prevention, with and in support of Member States, subregional organizations and other stakeholders. The position will also enable the mission to build and enhance its cooperation with relevant regional organizations, in particular the Economic Community of West African States.

50. It is also proposed that two existing general temporary assistance positions be continued in 2025, as follows:
- (a) One Political Affairs Officer (P-4) to enable the mission to continue its support to the implementation of the United Nations Strategy and Plan of Action on Hate Speech in a context where the global rise and spread of hate speech continue to pose a challenge worldwide. The continuation of this position would allow the Office to continue providing sustained assistance in response to requests from Member States, regional organizations and United Nations field presences for technical assistance and capacity-building in the development and implementation of context-specific action plans to address and counter hate speech;
 - (b) One Associate Political Affairs Officer (P-2) to strengthen the analysis capacity of the mission and support campaigns of the Office on Holocaust denial, countering hate speech and ratification of the Convention on the Prevention and Punishment of the Crime of Genocide. The position will continue to focus on data analytics and use new technologies to research and gather information, including online trends of hate speech, as a key indicator of risk and potential trigger of genocide, war crimes, ethnic cleansing and crimes against humanity, which will enable the Office to respond to these new challenges and trends in the prevention of these crimes.
51. A vacancy rate of 10.9 per cent has been applied to international posts based on the actual average vacancy rate in 2023. A vacancy rate of 50 per cent has been applied for the two Associate Political Affairs Officers (P-2) and three national United Nations Volunteers proposed for establishment.
52. The increase in requirements for 2025 compared with the appropriation for 2024 is mainly attributable to increased requirements for civilian personnel costs as a result of the new posts and positions proposed for establishment, as well as a higher post adjustment multiplier. The increase is offset in part by reduced requirements for official travel.

Extrabudgetary resources

53. In 2024, extrabudgetary resources amounting to approximately \$750,500 are to be utilized mainly for the staff costs of two posts (1 P-5 and 1 P-3), the capacity-building and technical assistance programme and the preparation of the 2024 report of the Secretary-General on the responsibility to protect.
54. For 2025, extrabudgetary resources in the estimated amount of \$251,400 would provide for one post (1 P-3) as well as the capacity-building and technical assistance programme.
55. The decrease in the estimated extrabudgetary resources to be utilized in 2025 compared with 2024 is due mainly to the completion of some projects supporting capacity-building and technical assistance work as well as decreased unarmarked contributions.

3. Personal Envoy of the Secretary-General for Western Sahara

(\$509,600)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

56. The Personal Envoy of the Secretary-General for Western Sahara is responsible for assisting the parties, Morocco and the Frente Popular para la Liberación de Saguía el-Hamra y de Río de Oro (Frente POLISARIO), in finding a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations.
57. The mandate derives from the communications between the Secretary-General and the President of the Security Council dated 17 March 1997 (S/1997/236), 1 October 2021 (S/2021/851) and 5 October 2021 (S/2021/852), as well as from the priorities established through various Security Council resolutions. Most recently, in its resolution 2703 (2023), the Council expressed its full support for the Personal Envoy and his efforts to advance the political process. The Council called upon the parties to resume negotiations under the auspices of the Secretary-General without preconditions and in good faith, and to demonstrate political will and work in an atmosphere propitious for dialogue. The Council reaffirmed its commitment to assist the parties to achieve a just, lasting and mutually acceptable political solution, based on compromise, which would provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations.

Programme of work

Objective

58. The objective, to which this mission contributes, is to advance the parties' efforts to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara.

Strategy and external factors for 2025

59. To contribute to the objective, the mission will:
 - (a) Encourage the parties to continue the discussion on the question of Western Sahara in order to identify elements of convergence, through bilateral consultations, including with the neighbouring countries of Algeria and Mauritania, conduct visits to the region to meet with key interlocutors and engage in shuttle diplomacy and other activities deemed useful in that regard;
 - (b) Consult with members of the Security Council and the Group of Friends on Western Sahara, both in their capitals and in New York, as well as with regional organizations, towards a solution;
 - (c) Work towards organizing two international meetings on Western Sahara.
60. The above-mentioned work is expected to result in:
 - (a) Building additional trust and strengthening involvement by the parties in the political process;
 - (b) Maintaining support by the international community for the political process.

61. With regard to cooperation with other entities, the mission regularly meets with representatives of regional organizations and other relevant stakeholders to exchange views on the United Nations-led political process.
62. With regard to inter-agency coordination and liaison, the mission receives support for visits and information on developments in Western Sahara from the United Nations Mission for the Referendum in Western Sahara. It also coordinates and liaises with UNHCR with respect to visits to the refugee camps and on confidence-building measures and maintaining close contact with OHCHR in Geneva on issues related to the human rights situation in its area of responsibility.
63. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) All concerned show willingness to meet for direct negotiations;
 - (b) The security situation remains conducive to the mission's objective for the region.

Programme performance in 2023

Resumed engagement with all concerned

64. In 2023, the Personal Envoy continued his efforts to engage all concerned stakeholders. From 27 to 30 March, the Personal Envoy invited the senior representatives of all concerned, as well as members of the Group of Friends on Western Sahara, to informal bilateral consultations in New York. In September, the Personal Envoy travelled to the region for engagements with the President of Mauritania and the Ministers for Foreign Affairs of Morocco, Algeria and Mauritania. The Personal Envoy also engaged with the Frente POLISARIO Secretary-General in New York. From 5 to 7 September, the Personal Envoy undertook his first visit to the Territory of Western Sahara, where he held consultations with Moroccan officials and representatives of women's organizations and civil society.
65. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: number of rounds of engagement with all concerned

Planned result for 2025

Advancing the process on Western Sahara

Programme performance in 2023 and target for 2025

66. In 2023, the mission's work, including through the informal bilateral consultations and high-level engagement by the Personal Envoy, contributed to meeting the planned target of continued engagement between the parties and neighbours towards advancing the political process.

67. In 2025, the mission will continue to advance the political process through consultations with all concerned, visits to the region to meet key interlocutors, including representatives of civil society and women's organizations, and other measures deemed useful in this regard. It will also continue to hold consultations with Member States in their capitals and in New York, as appropriate. In addition, the mission will continue to liaise with relevant United Nations entities in Geneva and other locations to discuss various aspects related to the conflict. The mission will also meet regularly with representatives of relevant regional organizations to exchange views on the United Nations-led political process.

Lessons learned and planned change

68. The lesson for the mission was the importance of maintaining the momentum in the political process. In applying the lesson, the mission will continue to engage regularly with all concerned to resume the discussion on the question of Western Sahara in order to identify elements of convergence, with a view to achieving a mutually acceptable political solution to the question of Western Sahara.
69. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 11).

Table 11
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Resumed engagement between the parties and neighbours	Continued engagement between the parties and the neighbours	Continued engagement between the parties and the neighbours	Two international meetings	Two international meetings

Deliverables

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a when-actually-employed contract.

71. The proposed resource requirements for 2025 for the Personal Envoy of the Secretary-General for Western Sahara amount to \$509,600 (net of staff assessment) and would provide for salaries and common staff costs (\$340,500) for the continuation of the two posts (1 Under-Secretary-General, on a when-actually-employed contract, and 1 P-3), as well as operational costs (\$169,100), comprising costs for consultants and consulting services (\$8,700), official travel (\$74,700), facilities and infrastructure (\$51,000), communications and information technology (\$11,100) and other supplies, services and equipment (\$23,600).
72. In 2025, no change is proposed to the number and levels of the posts. A vacancy rate of 12.5 per cent has been applied to the posts based on the actual vacancy rate in 2023.
73. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to the reduced requirements for civilian personnel due to the application of a 12.5 per cent vacancy rate compared with the approved rate of zero per cent in 2024, as well as reduced requirements for consultants and consulting services and other supplies, services and equipment.

4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)

(\$363,600)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

74. On 14 December 2004, the Secretary-General appointed his Special Envoy for the implementation of Security Council resolution 1559 (2004) to enable him to report to the Council every six months on the implementation of Council resolution 1559 (2004), as requested by the Council in its presidential statement of 19 October 2004 (S/PRST/2004/36). In carrying out this mandate, the mission consults with political interlocutors in Lebanon, the Council and other Member States to prepare the semi-annual reports of the Secretary-General. The mandate derives from the priorities established in relevant Council resolutions and decisions, including resolution 1559 (2004), and the statement by the President of the Security Council dated 19 October 2004 (S/PRST/2004/36).
75. In its resolution 1680 (2006), the Council reiterated its call for the full implementation of the provisions of resolution 1559 (2004), and strongly encouraged the Government of the Syrian Arab Republic to respond positively to the request made by the Government of Lebanon, in line with the agreements of the Lebanese national dialogue, to delineate their common border, especially in those areas where the border was uncertain or disputed.
76. In its resolution 1701 (2006), the Council emphasized the importance of the extension of the control of the Government of Lebanon over all Lebanese territory in accordance with the provisions of resolutions 1559 (2004) and 1680 (2006), and of the relevant provisions of the Taif Accords. The Council requested the Secretary-General to develop, in liaison with relevant international actors and the parties concerned, proposals to implement the relevant provisions of the Taif Accords and resolutions 1559 (2004) and 1680 (2006), including with respect to disarmament and the delineation of the international borders of Lebanon. It also requested the Secretary-General to report to the Council on a regular basis on the implementation of resolution 1701 (2006).
77. In subsequent resolutions on Lebanon, including, most recently, resolution 2650 (2022), the Council continued to urge all parties to make tangible progress towards all outstanding issues in the implementation of resolutions 1701 (2006), 1680 (2006) and 1559 (2004), and other relevant Council resolutions. On 25 May 2022, the Council issued a press statement to reaffirm the Council's strong support for the stability, security, territorial integrity, sovereignty and political independence of Lebanon. In 2016, the Under-Secretary-General for Political Affairs was tasked by the Secretary-General with assuming the responsibility of reporting on the implementation of resolution 1559 (2004), an arrangement that has been maintained to date.
78. The outbreak of hostilities between Israel and Hamas and other groups in Gaza in October 2023 has heightened tensions in the region. Daily exchanges of fire between Hizbullah, other non-State armed groups and Israel across the Blue Line since October 2023, including in civilian areas, have led to casualties, displacement and material damage. The exchanges of fire by Lebanese and non-Lebanese militias across the Blue Line have highlighted the continued presence of weapons outside of the Lebanese State's control and affected security and stability. The precarious socioeconomic situation in the country has been compounded by the protracted political crisis, including the continued vacuum in the presidency and caretaker Government since May 2022.

Programme of work

Objective

79. The objective, to which this mission contributes, is to ensure full implementation of Security Council resolution 1559 (2004) and all subsequent related resolutions of the Council.

Strategy and external factors for 2025

80. To contribute to the objective, the mission will:
- (a) Explore ways to foster consensus on a Lebanese-led and Lebanese-owned national dialogue, which is expected to result in progress on addressing the maintenance of weapons outside State authority;
 - (b) Produce two semi-annual reports of the Secretary-General to the Security Council on developments of relevance to the implementation of Security Council resolution 1559 (2004). The reports will address a number of key issues, such as the sovereignty, territorial integrity, unity and political independence of Lebanon; the extension of control of the Government of Lebanon over all Lebanese territory; and the disbanding and disarmament of Lebanese and non-Lebanese militias. Reporting on these categories, the Secretary-General will inform the Council on political and security developments during the reporting period, violations of Lebanese sovereignty and the maintenance of weapons by Lebanese and non-Lebanese militias.
81. The above-mentioned work is expected to result in informed Security Council deliberations on possible opportunities for Lebanon to make progress on the outstanding provisions of Council resolution 1559 (2004).
82. With regard to inter-agency coordination and liaison, the mission coordinates and works closely with the Office of the United Nations Special Coordinator for Lebanon, in particular in the process of developing the reports of the Secretary-General ahead of and during the visits to Lebanon by the staff of the mission.
83. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The tense and volatile regional environment affects Lebanon's stability and security;
 - (b) Presidential election and government formation continue to be challenging and the current economic and financial crisis remains a source of instability and social unrest;
 - (c) There is limited political will on the part of the parties concerned to address the disbanding and disarmament of Lebanese and non-Lebanese militias;
 - (d) The political goodwill of Member States has limited influence on the parties concerned;
 - (e) Tensions between Lebanon and other States in the region are somewhat eased.

Programme performance in 2023

Enhanced understanding of Security Council members on developments of relevance to the implementation of resolution 1559 (2004)

84. The mission undertook one trip to Lebanon in March 2023, which informed the drafting of the April 2023 report of the Secretary-General on the implementation of resolution 1559 (2004). However, a trip to Lebanon planned for September 2023 did not take place due to a vacancy in the core capacity of the mission.

85. The above-mentioned work contributed to the understanding of Security Council members on developments of relevance to the implementation of the outstanding provisions of Security Council resolution [1559 \(2004\)](#).

Planned result for 2025

Informed Security Council deliberations through analytical reports of the Secretary-General Programme performance in 2023 and target for 2025

86. The mission's work contributed to informing Security Council deliberations on developments of relevance to the implementation of the outstanding provisions of Council resolution [1559 \(2004\)](#). It met the planned target of Council discussions on the two semi-annual reports to reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority.
87. In 2025, the mission will continue to report to the Security Council semi-annually on progress in the implementation of the resolution, in particular the disbanding and disarmament of Lebanese and non-Lebanese militias.

Lessons learned and planned change

88. The lesson for the mission is that in-person consultations are necessary to contribute to the achievement of results. In applying the lesson, the mission will further leverage engagement with United Nations entities both at United Nations Headquarters and among the United Nations country team in Lebanon, in addition to maintaining its network of interlocutors in the country.
89. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 15).

Table 15
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a \$1-per-year contract.

^b Other level, unless otherwise stated.

91. The proposed resource requirements for 2025 for the mission amount to \$363,600 (net of staff assessment) and would provide for salaries and common staff costs (\$299,100) for the continuation of three posts (1 Under-Secretary-General, 1 P-4 and 1 General Service (Other level)), as well as

operational costs (\$64,500), comprising costs for official travel (\$26,600), facilities and infrastructure (\$30,500), and communications and information technology (\$7,400).

92. In 2025, no change is proposed to the number and level of posts. A vacancy rate of 16.7 per cent has been applied to posts based on the actual average vacancy rate in 2023.
93. The decrease in requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to the application of a higher vacancy rate of 16.7 per cent compared with the budgeted vacancy rate of zero per cent in 2024, as well as reduced requirements for official travel, ground transportation, and other supplies, services and equipment.

5. Office of the United Nations Representative to the Geneva International Discussions

(\$1,931,600)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

94. The mission is mandated to support the Geneva International Discussions and the Incident Prevention and Response Mechanism under United Nations auspices in Gali, Georgia, by facilitating the participation of the United Nations in the international discussions in Geneva and the Gali Incident Prevention and Response Mechanism, and by liaising and coordinating with the relevant actors. The mission is also responsible for preparing, convening and facilitating, in consultation with the other Co-Chairs, the European Union and the Organization for Security and Cooperation in Europe (OSCE), the sessions of the Geneva International Discussions as well as the periodic meetings of the Gali Incident Prevention and Response Mechanism.
95. The United Nations has continued to support the Geneva International Discussions on security and stability and the return of internally displaced persons and refugees, which commenced on 15 October 2008 in Geneva in accordance with the six-point agreement of 12 August 2008 and the implementing measures of 8 September 2008 following the hostilities of August 2008 (S/2009/254). In its resolution 1866 (2009), the Security Council welcomed the beginning of the discussions and requested the Secretary-General, through his Special Representative, to continue to fully support the process.
96. Against the background of the “Proposals for joint incident prevention and response mechanisms”, agreed to in Geneva on 18 February 2009, the Secretary-General, on 28 September 2009, addressed a letter to the President of the Security Council in which he stated that the United Nations would continue to support the Geneva International Discussions and the Mechanism through a limited number of personnel with the task of facilitating the United Nations participation in the international discussions in Geneva and in the Mechanism, and liaising and coordinating with the relevant actors.
97. In a letter dated 28 December 2009 addressed to the President of the Security Council, the Secretary-General noted that the United Nations would continue to provide support for the Geneva International Discussions and the work of the Mechanism. In a letter dated 25 February 2010 addressed to the President of the Security Council (S/2010/103), the Secretary-General conveyed his intention to appoint a United Nations Representative responsible for United Nations support for the Geneva International Discussions and the Mechanism. In 2010, 2011 and 2018, there were additional exchanges of letters between the Secretary-General and the President of the Security Council regarding plans to appoint a United Nations Representative.

Programme of work

Objective

98. The objective, to which this mission contributes, is to advance the main agenda items of the Geneva International Discussions, including the non-use of force/international security arrangements and addressing the issue of internally displaced persons and refugees, in the context of the Discussions and the Gali Incident Prevention and Response Mechanism.

Strategy and external factors for 2025

99. To contribute to the objective, the mission, in close partnership with the offices of the other Co-Chairs, will continue to step up efforts to maintain the Geneva International Discussions and to revitalize them, and to resume the regular meetings as result-oriented platforms for dialogue and conflict prevention.
100. The above-mentioned work is expected to result in:
 - (a) Contributing to the objective of transitioning the Discussions from a conflict management to a conflict transformation and resolution process;
 - (b) Addressing and making progress on central issues, including the non-use of force/international security arrangements and internally displaced persons and refugees.
101. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) All stakeholders will continue to support the International Discussions in Geneva and the Gali Incident Prevention and Response Mechanism and the continued engagement of the United Nations;
 - (b) All relevant stakeholders and participants in the Geneva International Discussions will continue to support efforts to help to revitalize the Discussions and enhance their effectiveness;
 - (c) The three organizations that serve as Co-Chairs will continue to collaborate closely to fulfil the mandate of the Discussions.
102. With regard to cooperation with other entities, the mission takes a proactive approach to ensure close and regular coordination and information-sharing with the European Union and OSCE Co-Chairs and their teams. The mission maintains close contact with the European Union Monitoring Mission in Georgia and OSCE, which jointly facilitate the Ergneti Incident Prevention and Response Mechanism. In addition, the mission pursues contacts with international non-governmental organizations (NGOs) and think tanks in the fields of conflict resolution, mediation and women and peace and security.
103. With regard to inter-agency coordination and liaison, the mission cooperates closely with entities within the United Nations system, such as the Resident Coordinator Office in Georgia, UNHCR, UNDP, the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), OHCHR and the World Health Organization, and other actors so as to coordinate and strengthen the role and contribution of the United Nations within the framework of the Geneva International Discussions and the Gali Incident Prevention and Response Mechanism.
104. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including engaging in advocacy for gender equality and promoting the participation of women in the peace process, as well as their direct involvement in development programmes. In close cooperation with the other Co-Chairs and their focal points on women and peace and security, the mission continues to promote the role of women in conflict resolution and peacebuilding, including within the framework of the Co-Chairs' joint strategy and action plan on women and peace and security adopted in 2019.

Programme performance in 2023

Continuation of efforts to achieve concrete results on key issues on the agenda of the Geneva International Discussions

105. Three rounds of the Geneva International Discussions took place in 2023, on 4 and 5 April, 11 and 12 July and 5 and 6 December, respectively, co-chaired by the representatives of the United Nations, the European Union and OSCE, which all participants attended. In 2023, the Co-Chairs organized

three visits to Tbilisi and two visits to Moscow, Sukhumi and Tskhinvali; and held one online meeting for pre-round consultations. In May 2023, the Co-Chairs paid a visit to Washington, D.C., and held discussions with officials of the United States of America. In New York, they met with United Nations officials and other relevant stakeholders. The Co-Chairs made their annual presentation to the OSCE Permanent Council in Vienna on 16 November 2023. Throughout the year, the mission undertook trips to Tbilisi, Zugdidi, Gali and Sukhumi to engage with relevant authorities, civil society actors and international NGOs. In 2023, no meetings of the Gali Incident Prevention and Response Mechanism took place.

106. Progress towards the objective is presented in the performance measure below (see table 19).

Table 19

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Four in-person rounds of the Geneva International Discussions took place	One round of the Geneva International Discussions took place	Three in-person rounds of the Geneva International Discussions took place
Two information sessions on “Comprehensive/human dimension of security”, one technical meeting of medical experts on COVID-19 and a sub-working group on “Freedom of movement and other related aspects” were organized.	No information sessions took place	No information sessions took place

Planned result for 2025**Revitalizing the Geneva International Discussions to achieve practical results****Programme performance in 2023 and target for 2025**

107. In 2023, the mission’s joint work with the European Union and OSCE Co-Chairs contributed to ensuring the commitment of all participants to continue engagement in the Geneva International Discussions and to help prevent the resumption of hostilities. The mission did not meet the target of progress by the stakeholders on the substantive issues of the Geneva International Discussions agenda, owing to a complex geopolitical context and persisting differences among the participants.
108. In 2025, the mission, in cooperation with the other Co-Chairs, will hold the regular rounds of the Geneva International Discussions and continue efforts to achieve progress on substantive agenda items. The mission will also continue its efforts to work with all participants to ensure the resumption of the meetings of the Gali Incident Prevention and Response Mechanism on the basis of the existing principles and practices.

Lessons learned and planned change

109. The lesson for the mission was the need to adapt alternative modes of engagement with the participants of the Geneva International Discussions and the participants of the Gali Incident Prevention and Response Mechanism. In applying the lesson, the mission will continue to use virtual and alternate methods as appropriate.
110. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 20).

Table 20
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Four rounds of the Geneva International Discussions took place. No progress was made on substantive agenda items	One round of the Geneva International Discussions took place. No progress was made on substantive agenda items	Three rounds of the Geneva International Discussions took place	Progress achieved by the stakeholders on the substantive issues of the Geneva International Discussions agenda and in the work of the Gali Incident Prevention and Response Mechanism to promote peace and stability on the ground	Progress achieved by the stakeholders on the substantive issues of the Geneva International Discussions agenda and in the work of the Gali Incident Prevention and Response Mechanism to promote peace and stability on the ground
No meetings of the Gali Incident Prevention and Response Mechanism took place during the period	No meetings of the Gali Incident Prevention and Response Mechanism took place during the period	No progress was achieved by the stakeholders on the substantive issues of the Geneva International Discussions agenda items		
		No meetings of the Gali Incident Prevention and Response Mechanism took place		

Deliverables

111. Table 21 lists all deliverables of the mission.

Table 21
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	10	3	10	9
1. Rounds of the Geneva International Discussions	4	3	4	3
2. Meetings of the Gali Incident Prevention and Response Mechanism	6	–	6	6
B. Generation and transfer of knowledge				
Technical materials (number of materials)	2	–	2	2
3. Thematic non-papers prepared by the Co-Chairs on non-use of force, freedom of movement, internally displaced persons and other issues related to the Geneva International Discussions agenda	2	–	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: consultations on thematic issues on the Geneva International Discussions agenda related to peace and security and humanitarian issues; advice through information sessions on specific thematic issues on the agenda for participants in the Geneva International Discussions; advocacy through information sessions on areas of interest to the participants related to the Geneva International Discussions agenda.				
D. Communication deliverables				
External and media relations: three press communiqués of the Co-Chairs after the three Geneva International Discussions rounds and six press releases after each meeting of the Gali Incident Prevention and Response Mechanism.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 22

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2025 vs. 2024 Increase/(decrease)	
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	1 488.4	1 519.1	1 589.7	1 605.9		16.2
Operational costs	461.6	251.3	442.4	325.7		(116.7)
Total (net of staff assessment)	1 950.0	1 770.4	2 032.1	1 931.6		(100.5)

Table 23

Human resources

	International staff											National staff			United Nations Volunteers			Total	
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal		
	Approved 2024	–	1	–	–	1	2	2	–	–	1 ^a	7	–	–	–	–	–		–
Proposed 2025	–	1	–	–	1	2	2	–	–	1 ^a	7	–	–	–	–	–	–	–	7
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

112. The proposed resource requirements for 2025 for the mission amount to \$1,931,600 (net of staff assessment) and would provide for salaries and common staff costs (\$1,605,900) for the continuation of six posts based in Geneva (1 Assistant Secretary-General, 1 P-5, 2 P-4, 1 P-3 and 1 General Service (Other level)) and one post based in Zugdidi, Georgia (P-3), as well as for operational costs (\$325,700), comprising costs for consultants and consulting services (\$4,400), official travel (\$125,400), facilities and infrastructure (\$134,700), ground transportation (\$23,400), communications and information technology (\$21,300) and other supplies, services and equipment (\$16,500).
113. In 2025, no change is proposed to the number and levels of the posts. A vacancy rate of 3.6 per cent has been applied based on the actual average vacancy rate in 2023.
114. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable to reduced requirements for official travel, communications and information technology and other supplies, services and equipment. The decrease in operational costs is offset in part by the increased requirements for civilian personnel costs, owing to higher common staff costs based on recent expenditure.

6. Office of the Special Envoy of the Secretary-General for Syria

(\$14,194,800)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

115. On 16 February 2012, the General Assembly, in its resolution [66/253 A](#), requested the Secretary-General and all relevant United Nations bodies to support the efforts of the League of Arab States aimed at promoting a peaceful solution to the conflict in the Syrian Arab Republic, including through the appointment of a special envoy.
116. The mission is responsible for facilitating an inclusive, comprehensive and credible Syrian-owned and -led political solution to the conflict in the Syrian Arab Republic that will meet the legitimate aspirations of the Syrian people for dignity, freedom and justice based on the principles of equality and non-discrimination. The mandate derives from the priorities established by the Security Council in resolutions [2118 \(2013\)](#), [2254 \(2015\)](#), [2268 \(2016\)](#) and [2336 \(2016\)](#), as well as by the General Assembly in resolution [66/253 A](#).
117. The conflict in the Syrian Arab Republic, now in its fourteenth year, has caused enormous humanitarian suffering, a record number of refugees and internally displaced persons and vast destruction in the country. Amid the continued presence of foreign armies in the Syrian Arab Republic and Security Council-listed terrorist groups, the conflict continues to pose significant risks to regional and international security. Accordingly, it is critical to continue to work towards an inclusive, credible and comprehensive political solution to the conflict that sees the full implementation of Security Council resolution [2254 \(2015\)](#).

Programme of work

Objective

118. The objective, to which this mission contributes, is to advance the full implementation of all the relevant General Assembly and Security Council resolutions towards an inclusive, credible, comprehensive Syrian-owned and -led political solution to the conflict in the Syrian Arab Republic that meets the legitimate aspirations of the Syrian people for dignity, freedom and justice, based on the principles of equality and non-discrimination and with the full and meaningful participation of women.

Strategy and external factors for 2025

119. To contribute to the objective, the mission will:
 - (a) Engage with the Government of the Syrian Arab Republic and the opposition Syrian Negotiation Commission, as well as all key regional and international stakeholders, on all aspects of the political process;
 - (b) Continue efforts to resume meetings of the Syrian-led, Syrian-owned, United Nations-facilitated Constitutional Committee at the earliest possible date, and work with the parties to improve the substance and working methods of the Committee and to catalyse a wider positive dynamic to move the political process forward, including working to create the conditions for inclusive, free and fair elections administered under United Nations supervision, with all Syrians, including members of the diaspora, eligible to participate;

- (c) Continue efforts to advance a step-for-step confidence-building process via coordinated, reciprocal and verifiable actions, based on proposals already aired and any further ideas in that regard; seek to maximize coherence, coordination and complementarity among diplomatic efforts under way; and lay the ground for a realistic and comprehensive multilateral approach inclusive of all actors and all issues of concern to relevant parties;
 - (d) Advocate for progress addressing ongoing protection concerns and the creation of conditions for a safe, calm and neutral environment conducive to advancing an inclusive, comprehensive and credible political settlement, first and foremost by seeking progress on the file of the detained, the disappeared and the missing at a scale commensurate with the problem;
 - (e) Engage with the members of the Task Force on the Ceasefire of the International Syria Support Group to try to advance the long-standing goal of a nationwide ceasefire and find a cooperative approach towards countering terrorist groups listed by the Security Council, in line with international law;
 - (f) Engage with the members of the Task Force on Humanitarian Access to address urgent humanitarian priorities throughout the country;
 - (g) Promote inclusive Syrian-Syrian dialogue and the exchange of knowledge, expertise and ideas by regularly engaging with the widest spectrum of Syrian civil society representatives and Syrian women, including through the Syrian Civil Society Support Room and the Syrian Women's Advisory Board.
120. The above-mentioned work is expected to result in:
- (a) Sustained, regular and substantive negotiations and discussions among relevant stakeholders on all issues outlined in Security Council resolution [2254 \(2015\)](#);
 - (b) Enhanced trust and confidence among the Syrian parties as well as regional and international stakeholders;
 - (c) Strengthened international consensus to advance the political process across all elements of Security Council resolution [2254 \(2015\)](#), notably the establishment of a credible, inclusive and non-sectarian governance, the setting of a schedule and process for drafting a new constitution, as well as free and fair elections, pursuant to the new constitution, to be administered under United Nations supervision and to the highest international standards of transparency and accountability, with all Syrians, including members of the diaspora, eligible to participate.
121. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) All national, regional and international stakeholders will cooperate with the Special Envoy;
 - (b) International consensus with regard to the Syrian Arab Republic will continue to be difficult to achieve and sustain;
 - (c) The security situation will remain volatile in 2025, posing a threat to regional and international peace and security;
 - (d) The conflict will continue to severely affect civilians, especially women and children, risking more civilian casualties and further destruction of civilian infrastructure as well as human rights violations. Lack of accountability for grave human rights violations will hamper genuine reconciliation among the parties.
122. With regard to cooperation with other entities, in line with its mandate, the mission partners with the international community and international NGOs to facilitate and support the work of the Syrian Civil Society Support Room and the Syrian Women's Advisory Board. In the context of its work on the file of the detained, the disappeared and the missing, the mission liaises with specialized international organizations and institutions, such as the International Committee of the Red Cross and the Independent Institution on Missing Persons in the Syrian Arab Republic.

123. With regard to inter-agency coordination and liaison, the mission cooperates with the resident coordinators and the agencies, funds and programmes of the United Nations operating in the Syrian Arab Republic and the region. In addition, agencies working in the Syrian Arab Republic are represented within the Inter-Agency Task Force on the country, which ensures the coordination and coherence of United Nations political, humanitarian, human rights and other efforts in the country.
124. The mission integrates gender perspectives in its operational activities, deliverables and results, as appropriate, including by consulting regularly with the Syrian Women’s Advisory Board and diverse women representatives from civil society to hear their perspectives on a sustainable and inclusive political solution.

Programme performance in 2023

Advancement of a credible, inclusive and comprehensive political process consistent with Security Council resolution 2254 (2015)

125. The Special Envoy continued to carry out the Secretary-General’s good offices, prioritizing engagement with the Government of the Syrian Arab Republic and the opposition Syrian Negotiation Commission on various aspects of the political process, including on proposals for step-for-step confidence-building measures and possible ways to unblock the work of the Constitutional Committee. The Special Envoy also continued to consult broadly with regional and international stakeholders to seek to maximize coherence, coordination and complementarity among diplomatic efforts under way and to foster a constructive multilateral approach to a political solution in line with resolution 2254 (2015).
126. In 2023, the mission convened 11 plenary meetings of the Task Force on Humanitarian Access of the International Syria Support Group and one ad hoc meeting to address pressing humanitarian issues, including in the aftermath of the devastating earthquakes that struck the northern Syrian Arab Republic on 6 February 2023. In addition, one plenary meeting of the Task Force on the Ceasefire and five ad hoc meetings were convened to discuss worrisome security-related developments on the ground, including spillover effects from the developments elsewhere in the region.
127. Progress towards the objective is presented in the performance measure below (see table 24).

Table 24
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Constitutional Committee started discussions, based on its terms of reference, to find agreement on basic constitutional principles, while international engagements on other elements of the political process, in accordance with Security Council resolution 2254 (2015), were deepened	Constitutional Committee discussed draft constitutional texts. The Office shared ideas with the Committee’s Co-Chairs on ways to expedite the work and produce results and continued progress. Opportunities to advance a step-for-step confidence-building process in line with Security Council resolution 2254 (2015) were explored with national, regional and international stakeholders	No consensus was found on a venue for resuming the Constitutional Committee or on ways to address substantive challenges facing the Committee. Proposals to advance step-for-step confidence-building measures in line with Security Council resolution 2254 (2015) were tabled, and consultations on the matter continued with national, regional and international stakeholders

Planned result for 2025

Promoting a constructive, coherent and comprehensive multilateral approach and continuous progress towards an inclusive, sustainable political solution in line with Security Council resolution 2254 (2015)

Programme performance in 2023 and target for 2025

128. The mission continued efforts to unblock obstacles to convening a ninth session of the small body of the Constitutional Committee, including seeking regional alternatives. In the absence of a consensus on a venue in the region, the Special Envoy appealed to all stakeholders to find a pragmatic way forward. Against this backdrop, the target for 2025 is to have regular meetings of the Committee, to improve its working methods and to produce results and continuous substantive progress. A broader aim is to engage across a comprehensive set of issues of concern to relevant parties and to lay the ground for a realistic and comprehensive multilateral approach inclusive of all actors and all the issues.

Lessons learned and planned change

129. The lesson for the mission was the need to continue to expand its engagement beyond the traditional interlocutors, including international stakeholders, firstly to broaden national ownership over the political process, and secondly to expand the scope of issues that are addressed in the political process. In applying the lesson, the mission will work with a wider range of stakeholders to ensure a comprehensive and holistic approach towards the implementation of Security Council resolution 2254 (2015).
130. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 25).

Table 25
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Constitutional Committee made progress in its discussions, based on its terms of reference, in tandem with progress on the broader political process in accordance with Council resolution 2254 (2015)	Constitutional Committee discussed draft constitutional texts. The Office shared ideas with the Committee's Co-Chairs on ways to expedite the work for continued progress. Opportunities to advance a step-for-step confidence-building process in line with Security Council resolution 2254 (2015) were explored with national, regional and international stakeholders	No consensus was found on a venue for resuming the Constitutional Committee or on ways to address substantive challenges facing the Committee. Proposals to advance step-for-step confidence-building measures in line with Security Council resolution 2254 (2015) were tabled and consultations on the matter continued with national, regional and international stakeholders	Constitutional Committee resumes and produces results and continued progress in tandem with further progress on the broader political process in accordance with Security Council resolution 2254 (2015)	Constitutional Committee meets regularly and produces results and continued progress in tandem with the implementation of step-for-step confidence-building measures and constructive engagement by all stakeholders across a comprehensive set of issues of concern to relevant parties in accordance with Security Council resolution 2254 (2015)

Deliverables

131. Table 26 lists all deliverables of the mission.

Table 26

Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	144	30	140	142
1. Meetings of the Security Council	12	12	12	12
2. Meetings of the Task Force on the Ceasefire of the International Syria Support Group	–	6	4	6
3. Meetings of the Task Force on Humanitarian Access of the International Syria Support Group	20	12	12	12
4. Meetings of the large body of the Constitutional Committee	12	–	12	12
5. Meetings of the small body of the Constitutional Committee	100	–	100	100
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	8	27	8	28
6. Workshops for all Syrian stakeholders on topics relating to the peace talks, such as governance, constitution, elections, security governance/counter-terrorism and confidence-building measures	8	27	8	28
C. Substantive deliverables				
Good offices: provision of good offices to facilitate an inclusive Syrian-led and -owned political solution to the Syrian conflict, in line with Security Council resolution 2254 (2015) , which will meet the legitimate aspirations of the Syrian people to dignity, freedom and justice based on the principles of equality and non-discrimination.				
Consultation, advice and advocacy: consultation, advice and advocacy in support of the political process with Member States and regional and international organizations; consultations and advice in support of the activities of the Independent Institution on Missing Persons in the Syrian Arab Republic, once the latter is established, and as a member of the Working Group on the release of detainees/abductees, the handover of bodies and the identification of missing persons; consultations in support of the political process with representatives of civil society organizations; consultations in support of the political process with women's representatives and women's organizations.				
D. Communication deliverables				
External and media relations: press statements, interviews, video messages and briefings stressing the importance of political dialogue, the end of violence, human rights violations, humanitarian access and the role of women in the peace process.

^a Other level, unless otherwise stated.

132. The proposed resource requirements for 2025 for the mission amount to \$14,194,800 (net of staff assessment) and would provide for salaries and common staff costs (\$8,783,700) for 86 posts (1 Under-Secretary-General, 1 Assistant Secretary-General, 1 D-2, 3 D-1, 7 P-5, 13 P-4, 9 P-3, 8 Field Service, 8 General Service (Other level), 2 National Professional Officer and 33 Local level), inclusive of the proposed nationalization of one post, explained in paragraph 133 below, as well as operational costs (\$5,411,100), comprising costs for consultants and consulting services (\$109,000), official travel (\$824,400), facilities and infrastructure (\$2,542,000), ground transportation (\$268,200), air transportation (\$356,000), communications and information technology (\$396,400), medical (\$18,000) and other supplies, services and equipment (\$897,100).
133. For 2025, the conversion of a Political Affairs Officer (P-3) to Associate Political Affairs Officer (National Professional Officer) in the Damascus Office is proposed, with the aim of further strengthening the liaison and outreach with all national stakeholders in the Syrian Arab Republic and developing a deeper understanding of conflict dynamics, which will be better served by a National Professional Officer.
134. A vacancy rate of 32.7 per cent has been applied to estimates for international posts based on the actual vacancy rate in March 2024. A vacancy rate of 50 per cent has been applied to the post proposed for conversion. A vacancy rate of 4.0 per cent has been applied to Local level posts on the basis of the actual average vacancy rate in 2023.
135. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to increased requirements for civilian personnel costs, due to higher salary and common staff costs on the basis of recent expenditure.

Extrabudgetary resources

136. In 2024, extrabudgetary resources of \$279,000 are projected to fund a Senior Human Rights Officer (P-5) and support the mission in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition, civil society, including women's groups, and regional and international stakeholders, as well as other activities.
137. For 2025, extrabudgetary resources of \$279,000 are projected to fund a Senior Human Rights Officer (P-5) and continue to support the mission in its role of facilitating the Constitutional Committee.

7. Office of the Special Envoy of the Secretary-General for the Horn of Africa

(\$2,154,300)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

138. The mandate of the mission derives from an exchange of letters between the Secretary-General and the President of the Security Council ([S/2018/955](#) and [S/2018/979](#)), when the remit of the mandate of the former Special Envoy of the Secretary-General for the Sudan and South Sudan was expanded to cover the entire Horn of Africa region, following previous exchanges of letters (including [S/2016/258](#) and [S/2016/259](#)). In line with the letters of 2018, the mission also continues to carry out the functions previously performed by the Special Envoy for the Sudan and South Sudan relating to the maintenance of good and peaceful neighbourly relations between the Sudan and South Sudan, established pursuant to the exchange of letters between the Secretary-General and the President of the Security Council in 2011 ([S/2011/474](#) and [S/2011/475](#)). The mandate includes cooperation with the African Union High-level Implementation Panel in efforts to implement Security Council resolution [2046 \(2012\)](#), in which the Council called upon the Sudan and South Sudan to reach an agreement on critical issues, including: (a) the full and urgent advancement of all outstanding issues from the Comprehensive Peace Agreement; and (b) the easing of tensions and the facilitation of the resumption of negotiations on post-secession relations and the normalization of their relations.
139. The mission works closely with and supports member States of the Intergovernmental Authority on Development (IGAD), in line with the Joint Framework for Cooperation between the United Nations and IGAD signed in Djibouti on 17 November 2015, and other regional organizations in promoting peace and security across the Horn of Africa. The region faces major challenges, including long-standing civil conflicts and unrest, poverty and vulnerability to climate change. The region also possesses significant opportunities, however, including rapid economic growth in several countries, a young and dynamic population and new momentum for regional cooperation. Realizing the region's enormous potential requires a collective approach, tackling shared challenges in a coordinated manner. The task of the mission is to support the region at this critical juncture and ensure that it benefits from the full range of the expertise and capacities of the United Nations.

Programme of work

Objective

140. The objective, to which this mission contributes, is to establish and maintain good and peaceful neighbourly relations between the countries of the Horn of Africa region, encompassing Djibouti, Eritrea, Ethiopia, Kenya, Somalia, South Sudan, the Sudan and Uganda, with a view to consolidating and sustaining gains in peace and security and enhancing regional conflict prevention.

Strategy and external factors for 2025

141. To contribute to the objective, the mission will:
- (a) Promote regional peace and security, socioeconomic development and integration, inclusive and responsive governance, and awareness of linkages between climate and peace and security. This will be done by providing political leadership for the United Nations engagement in these

areas and ensure joined-up action and system-wide ownership of outcomes through the regional prevention and integration strategy for the Horn of Africa;

- (b) Support IGAD in strengthening the link between early warning and early response, increasing its capacity to respond to and resolve conflicts, including through mediation and improving information-sharing and knowledge management by learning from good practices in the region and beyond. This will be done by deploying the Secretary-General's good offices and leveraging the collective influence of IGAD member States to support dialogue and joint initiatives among the countries;
 - (c) Work closely with and support the African Union and other relevant regional organizations in addressing recent and emerging security threats. This will be done through information-sharing, the convening of regular meetings with relevant partners and other special envoys in the Horn of Africa region and the development of appropriate messages and approaches for supporting regional peace and security. This will also include working with the African Union, IGAD and other partners in supporting efforts to address issues related to the Sudan conflict and in supporting the Ethiopian peace process, in particular, the implementation of the Cessation of Hostilities Agreement.
142. The above-mentioned work is expected to result in:
- (a) Strengthened subregional capacities, improved relations and enhanced mutual trust and confidence between countries of the region to address the root causes of conflicts;
 - (b) Strengthened synergies between partners in the region and the alignment of interventions and responses with the respective strategic frameworks of the United Nations, IGAD and the African Union;
 - (c) Reviewing and operationalizing the implementation plan of the regional prevention and integration strategy.
143. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Opportunities exist to address long-standing sources of tension, particularly through shuttle diplomacy;
 - (b) IGAD and the African Union continue to be fully engaged in the maintenance of peace and security in the region, paying particular attention to Ethiopia, Somalia, the Sudan and South Sudan;
 - (c) States in the region continue to engage constructively with the Special Envoy and continue to work with the United Nations in the area of capacity-building, in particular in the area of mediation and conflict prevention and resolution;
 - (d) South Sudanese parties, with support from the region, progressively show commitment to the implementation of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan and are prepared to consolidate gains;
 - (e) The relationship between the Sudan and South Sudan remains constructive despite the war in the Sudan, enabling direct negotiations between the two countries on outstanding bilateral issues, including the situation of Abyei and its final status.
144. With regard to cooperation with other entities, the mission works closely with IGAD and its member States, as well as other organizations such as the African Union and the European Union, to address the regional dimensions of crises and conflicts in the Horn of Africa, focusing on their cross-border and regional implications. The mission cooperates with the African Union High-level Implementation Panel to support the bilateral negotiations between the Sudan and South Sudan to resolve outstanding issues, including finding a settlement to the issue of the final status of Abyei. The mission works closely with the African Union, IGAD, the troika and other Member States supporting political cooperation and regional integration. The mission works with other United Nations entities to provide technical and advisory support to the IGAD secretariat.

145. With regard to inter-agency coordination and liaison, the mission engages with special representatives of the Secretary-General, resident coordinators and peace and development advisers in the countries of the region, and with United Nations agencies, funds and programmes that are active in the areas identified as collective priorities by the United Nations system.
146. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, in its good offices and planned missions, including seminars and workshops, through the inclusion of gender-sensitive and focused activities. Much of the Horn of Africa region's potential hinges on the meaningful involvement of women and youth in its efforts to promote stability and prosperity. The mission works with relevant stakeholders to promote inclusive messaging to enhance the participation of women in all political and peace processes, and actively engages in regional and global meetings to lobby for the acceleration of the implementation of the women and peace and security agenda.

Programme performance in 2023

Enhanced collective action in implementing the prevention agenda in the Horn of Africa and deepened partnership in the region through collaboration with the Intergovernmental Authority on Development

147. In 2023, to enhance regional prevention, the mission led the review of the comprehensive regional prevention strategy, leading to a new prevention and integration strategy informed by the priorities of IGAD and reflecting current challenges. The mission continued to coordinate the implementation of the strategy with joint activities, including the publication of three joint regional analysis reports, the establishment of a climate, peace and security hub and the finalization of a policy on countering hate speech. The Special Envoy carried out good offices, including continuing to focus on the peace process in Ethiopia, engaging with stakeholders on the crisis in the Sudan and engaging with relevant officials on relations between the Sudan and South Sudan, including on the issue of Abyei.
148. Progress towards the objective is presented in the performance measure below (see table 29).

Table 29

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
IGAD capacity to address cross-border and cross-cutting issues was strengthened, creating the conditions for joint action taken by IGAD member States on the prevention of conflict and on regional initiatives to reduce vulnerability and address the root causes of crises	IGAD-United Nations partnership strengthened and IGAD capacity to address issues related to climate, peace and security and women and peace and security enhanced through the development of the regional action plan for women and peace and security and a regional climate security coordination mechanism	Revision of regional prevention and integration strategy completed and endorsed, leading to more focused priorities for engagement of the United Nations system in the Horn of Africa, informed by IGAD priorities, and increased collaboration and cooperation among United Nations entities

Planned result for 2025

Enhanced collective action in implementing the prevention agenda in the Horn of Africa

Programme performance in 2023 and target for 2025

149. In 2023, the mission's work contributed to deepened collaboration in addressing peace and security issues between IGAD, the African Union and the United Nations, including through the revision of the regional prevention and integration strategy, which met the planned target.

150. In 2025, the mission will continue to carry out the good offices, including supporting ongoing peace processes and political transitions within the Horn of Africa region, by working with the African Union, IGAD and respective member States, as well as other regional actors. This will result in improved regional approaches to the prevention of crises and conflict by enhancing support to and strengthening the capacity of IGAD to address emerging security threats. The mission will continue to coordinate the implementation of the revised regional prevention and integration strategy.

Lessons learned and planned change

151. The lesson for the mission was the need to review and adjust the action plans to include emerging threats as well as to enhance implementation. In applying the lesson, the mission will continue to engage IGAD, the African Union and United Nations agencies, funds and programmes to ensure that the priorities are still relevant in the current context and that the comprehensive regional prevention and integration strategy reflects an all-of-United Nations approach.
152. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 30).

Table 30
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Regional capacity to address and prevent conflict and crisis in the region enhanced	Implementation of the action plan through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union	Revision and implementation of the prevention and integration strategy through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union	Implementation of the prevention strategy through partnerships and strengthened collaboration with other United Nations entities, as well as IGAD and the African Union, within the revised framework	Coordination of the prevention strategy, focusing on outcomes and impact on the ground, through closer collaboration with United Nations entities, IGAD and other relevant stakeholders

Deliverables

153. Table 31 lists all deliverables of the mission.

Table 31
Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				

Good offices: provision of good offices through engagement on issues related to peace consolidation and conflict prevention, including the implementation of bilateral agreements and negotiations on outstanding bilateral issues; engagements with the authorities in the Sudan and South Sudan on their bilateral relations, as well as other leaders, officials and stakeholders in the region regarding regional peace and security issues.

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
Consultation, advice and advocacy: consultations and advice on consolidating recent gains in peace and security in the Horn of Africa region; advice on enhancing subregional capacities to address cross-border and cross-cutting issues.				
D. Communication deliverables				
External and media relations: social media outreach and briefings to raise awareness of key developments and promote support for addressing challenges to peace and security in the region.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 32

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–		–
Civilian personnel costs	1 583.7	1 639.4	1 444.7	1 960.9		516.2
Operational costs	170.8	166.2	193.4	193.4		–
Total (net of staff assessment)	1 754.5	1 805.6	1 638.1	2 154.3		516.2

Table 33

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
Approved 2024	1	–	–	1	–	2	1	–	–	–	5	2	2	4	–	–	–	9
Proposed 2025	1	–	–	1	–	3	1	–	–	–	6	2	2	4	–	–	–	10
Change	–	–	–	–	–	1	–	–	–	–	1	–	–	–	–	–	–	1

154. The proposed resource requirements for 2025 for the mission amount to \$2,154,300 (net of staff assessment) and would provide for salaries and common staff costs (\$1,960,900) for the continuation of nine posts (1 Under-Secretary-General, 1 D-1, 2 P-4, 1 P-3, 2 National Professional Officer and 2 Local level) and one new post (P-4) proposed for establishment; as well as operational costs (\$193,400), comprising costs for official travel (\$92,400), facilities and infrastructure (\$32,000), ground transportation (\$9,700), communications and information technology (\$40,100), medical (\$3,800) and other supplies, services and equipment (\$15,400).
155. For 2025, a post of Climate, Peace and Security Adviser (P-4) is proposed for establishment. Climate, peace and security-related issues constitute one of the pillars of the comprehensive regional prevention and integration strategy for the Horn of Africa for the period 2024–2029. As a result, and in collaboration with the United Nations Environment Programme and the Department of Political and Peacebuilding Affairs, the mission has established the first regional United Nations climate, peace and security hub for the Horn of Africa. To maximize the opportunities that the hub presents,

the establishment of the Climate, Peace and Security Adviser (P-4) is proposed for 2025, as a dedicated resource and capacity responsible for the implementation of relevant tasks.

156. A vacancy rate of zero per cent has been applied to estimates for continuing international posts based on the actual vacancy rate in March 2024. A vacancy rate of 50 per cent has been applied to the P-4 post proposed for establishment. For National Professional Officer and Local level posts, a vacancy rate of zero per cent has been applied based on the actual vacancy rate in March 2024.
157. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to the application of a zero per cent vacancy rate for international staff compared with the budgeted vacancy rate of 20.0 per cent in 2024, as well as the increased cost for the one post proposed for establishment.

Extrabudgetary resources

158. In 2024, extrabudgetary resources amounting to approximately \$1,284,200 are being utilized to provide for five posts (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level), and for operational costs.
159. In 2025, extrabudgetary resources in the estimated amount of \$1,284,200 will continue to provide for the continuation of five posts (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level) and one United Nations Volunteer, as well as for operational costs.

8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region

(\$4,953,800)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

160. The mandate of the mission derives from Security Council resolution [2098 \(2013\)](#) and various subsequent Council resolutions, the latest being resolution [2717 \(2023\)](#). Established in 2013, the mission is responsible for supporting the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, which was signed on 24 February 2013 by Angola, Burundi, the Central African Republic, the Congo, the Democratic Republic of the Congo, Rwanda, South Africa, South Sudan, Uganda, the United Republic of Tanzania and Zambia, as well as representatives of the United Nations, the African Union, the International Conference on the Great Lakes Region and the Southern African Development Community, acting as guarantor institutions. On 31 January 2014, Kenya and the Sudan also signed the Framework. The Framework outlines national, regional and international commitments required to end the recurring cycles of violence in eastern Democratic Republic of the Congo and address the root causes of conflict in the region.
161. In relevant press statements issued in 2022 and 2023, the Council emphasized the importance of commitments undertaken by the region under the Peace, Security and Cooperation Framework, reiterated its support for the regional efforts under way with regard to the East African Community-led Nairobi process and the African Union-mandated Luanda process, and encouraged the Special Envoy to pursue engagements with regional leaders in support of those peace initiatives.
162. The United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region, developed by the mission following extensive consultations and published on 4 December 2020, is designed to provide the political and operational framework for United Nations action to support the implementation of the commitments under the Peace, Security and Cooperation Framework. It is structured around three pillars: peace, security and justice; sustainable development and shared prosperity; and resilience to long-standing and emerging challenges. The action plan to implement the Strategy, covering the period from 2024 onwards (as a follow-up to the action plan for the period 2021–2023), is under development.
163. In 2025, the mission will continue supporting the implementation of the Strategy and its action plan as well as the region's efforts to implement the revitalized Peace, Security and Cooperation Framework, including on security, economic and judicial cooperation and the rule of law. The mission will continue its efforts to support the women and peace and security agenda, as well as promote the economic empowerment and inclusion and political participation of youth in matters of regional relevance.
164. The gradual, responsible and sustainable withdrawal of the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), initiated in line with Security Council resolution [2717 \(2023\)](#), is expected to have an impact on the implementation of the mandate of the mission, particularly with a view to the mission's initiatives that rely on the implementation capacities of MONUSCO. The mission will therefore step up its strategic engagements with regional and international partners to sustain the momentum on regional confidence-building efforts.

Programme of work

Objective and external factors for 2025

165. The objective, to which this mission contributes, is to advance the effective implementation of the Peace, Security and Cooperation Framework by supporting and facilitating political, security and economic engagements among and between the signatory countries, while ensuring coherent and coordinated support from regional and international organizations and other partners, in line with the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region and its action plan.
166. To contribute to the objective, the mission will:
- (a) Provide the Secretary-General's good offices, including discreet and shuttle diplomacy, support regional dialogue and peace efforts, collaborate closely with the guarantor institutions of the Peace, Security and Cooperation Framework and other subregional organizations involved in the ongoing diplomatic and military efforts, and reinforce coordination with international partners, including the International Contact Group for the Great Lakes Region and international financial institutions;
 - (b) Support signatory countries in efforts to implement the recommendations emanating from the revitalization process of the Peace, Security and Cooperation Framework;
 - (c) Support the implementation of a regional non-military approach against armed groups; facilitate confidence-building consultations between the chiefs of military and civilian intelligence and security services from concerned countries; help strengthen existing security cooperation mechanisms, taking into account the decisions taken under the Nairobi and Luanda peace processes and related follow-up efforts by countries in the region, as applicable; and promote the repatriation and reintegration of former combatants, in line with international standards;
 - (d) Advocate for and support the effective participation of civil society organizations, women and youth in political and peace processes;
 - (e) Promote regional economic integration through cross-border investments and responsible trade projects, including by furthering the implementation of the recommendations and decisions of the high-level workshop on natural resources held in 2021 in Khartoum;
 - (f) Promote the rule of law and regional judicial cooperation, as well as the protection of human rights, including by supporting targeted initiatives towards supporting Member States in implementing the 2019 Nairobi Declaration on Justice and Good Governance and the 2022 Kinshasa Declaration on Enhancing Judicial Cooperation in the Great Lakes Region.
167. The above-mentioned work is expected to result in:
- (a) Effective implementation of the recommendations emanating from the revitalization process of the Peace, Security and Cooperation Framework as endorsed by the Heads of State of signatory countries;
 - (b) Progress in resolving the current security crisis, including concrete steps taken by concerned stakeholders to address issues of contention, as outlined in the decisions of the Luanda and Nairobi peace processes;
 - (c) Restoration of trust and improved relations between countries of the region;
 - (d) Enhanced cooperation among concerned countries to neutralize armed groups and increased support for regional disarmament, demobilization, repatriation, resettlement and reintegration initiatives through the activities of the Contact and Coordination Group on non-military measures and its operational cell;
 - (e) Joint initiatives on comprehensive regional non-military measures against armed groups, including the role of civil society organizations, women and youth in peacebuilding processes;
 - (f) Increased number of civil society organizations, women and youth participating in and contributing to regional peace and political processes;

- (g) Strengthened regional judicial cooperation through the Great Lakes Judicial Cooperation Network, as evidenced by an increase in the number of mutual legal assistance and extradition requests;
 - (h) Increased bilateral and multilateral economic cooperation and support for concrete initiatives to curb the illicit exploitation of and trade in natural resources, with a focus on artisanal gold;
 - (i) Increased mobilization and harmonization of support from the Peace, Security and Cooperation Framework guarantor institutions, international partners and other stakeholders.
168. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The signatory countries of the revitalized Peace, Security and Cooperation Framework will demonstrate increased political will to implement national and regional commitments, including commitments made as part of the revitalization process of the Framework and in ongoing regional processes, to better address the root causes of instability in the eastern Democratic Republic of the Congo and tensions among neighbouring countries, as well as to strengthen regional cooperation;
 - (b) Continued security challenges in the eastern Democratic Republic of the Congo will remain linked to the activities of local and foreign armed groups;
 - (c) Regional political processes, supported by the United Nations in collaboration with relevant regional organizations, will contribute to promoting dialogue among all stakeholders on a political settlement in the eastern Democratic Republic of the Congo;
 - (d) In line with the joint disengagement plan of MONUSCO, which was launched in December 2023, the gradual, responsible and sustainable withdrawal of the Mission will have progressed, resulting in a gradual handover of core mandated tasks to the Government of the Democratic Republic of the Congo and a reconfigured United Nations country presence, which will have implications for the delivery of the mandate of the mission;
 - (e) There will be continued support for and focus on the Great Lakes region by Member States and international partners, including coordinated action and support for signatory countries.
169. With regard to cooperation with other entities, the mission cooperates with and supports signatory countries of the Peace, Security and Cooperation Framework and regional organizations on the revitalization of the Framework and on priority political, security and socioeconomic initiatives aimed at ensuring the implementation of national and regional commitments under the Framework and promoting peace in the region. This will include enhanced coordination with the International Conference on the Great Lakes Region to support the complementarity of approaches under the Framework and the Pact on Security, Stability and Development in the Great Lakes Region. To further align approaches and strengthen partnerships as outlined in the United Nations Strategy for the Great Lakes Region, the Special Envoy participates in the International Contact Group and engages in regular exchanges with other special envoys for the Great Lakes region. In support of the Framework's economic focus, the Special Envoy cooperates with financial institutions, including the World Bank Group, the African Development Bank and other relevant partners. The mission will advance efforts to create a group of friends among Member States to enhance political momentum towards the establishment of a dedicated Great Lakes donor group in support of the implementation of the Strategy.
170. With regard to inter-agency coordination and liaison, the mission works closely with MONUSCO, including in the context of the joint disengagement plan agreed on by MONUSCO and the Government of the Democratic Republic of the Congo, in support of efforts by the Government to achieve its national commitments under the Peace, Security and Cooperation Framework. The senior policy group, which is chaired by the Special Envoy, along with its implementation support mechanism, both established to facilitate the implementation of the United Nations Strategy for the Great Lakes Region, will continue to ensure alignment among United Nations entities in the region, including, among others, the United Nations Regional Office for Central Africa, MONUSCO and the United Nations Office to the African Union, in addition to regional coordinators and representatives of the Office for the Coordination of Humanitarian Affairs, OHCHR, UNHCR, the Economic Commission for Africa and other United Nations agencies, funds and programmes.

171. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In addition to high-level advocacy meetings and missions by women leaders throughout the region, the mission supports the Advisory Board for Women, Peace and Security in the Great Lakes Region in its efforts to advocate for women's participation and representation in peacebuilding, political and electoral processes, to strengthen the monitoring and evaluation capacities of the mechanisms on sexual and gender-based violence of the International Conference on the Great Lakes Region and to support cross-border communities in the prevention and resolution of conflict and election-related violence.

Programme performance in 2023

Ten-year assessment of the impact of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, and recommendations for revitalization efforts

172. In 2023, following the request by the Regional Oversight Mechanism of the Peace, Security and Cooperation Framework, the mission commissioned an in-depth evaluation in consultation with all concerned stakeholders to take stock of the progress achieved, identifying the remaining key challenges, and to develop recommendations to strengthen the Framework's effectiveness. The mission, in cooperation with the African Union, convened representatives from guarantor institutions, the Technical Support Committee, MONUSCO, regional civil society organizations and regional experts in Durban, South Africa, on 31 October and 1 November 2023. The assessment report, together with the recommendations from the meeting, provided the basis for discussions around the development of a road map for the revitalization of the Peace, Security and Cooperation Framework, to be presented at the next high-level meeting of the Regional Oversight Mechanism in 2024 for endorsement by Heads of State of the region.
173. Progress towards the objective is presented in the performance measure below (see table 34).

Table 34
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
<p>Following the endorsement of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region by the Secretary-General in 2020, the senior policy group for the Strategy adopted its action plan in July 2021</p> <p>The mission supported the organization of the high-level regional workshop on natural resources in the Great Lakes region, which resulted in 31 recommendations geared towards disrupting the link between the smuggling of high-value minerals and the financing of armed groups</p>	<p>Political engagement of the Special Envoy on the need for a renewed consensus among signatory countries on the pertinence of the Framework and ways to address the political and security crisis in the region</p> <p>Joint high-level advocacy efforts led by the mission and the International Conference on the Great Lakes Region towards partners in Europe and the United Arab Emirates to support the accelerated implementation of the recommendations of the Khartoum workshop on natural resources</p> <p>Advocacy efforts for national and regional ownership of the Regional Initiative against the Illegal Exploitation of Natural Resources</p>	<p>An independent assessment on the Framework's impact was conducted on the basis of in-depth consultations with regional and international stakeholders and presented to the signatory countries and guarantor institutions</p> <p>Recommendations for the revitalization of the Framework were developed</p> <p>Support was provided for the organization in September 2023 in Kinshasa of the regional forum on artisanal and small-scale gold mining in the region, which recommended the swift implementation of the regional artisanal and small-scale gold mining strategy and the roll-out of a chain of custody tracking system in all member States of the International Conference on the Great Lakes Region</p>

Planned result for 2025

A revitalized Peace, Security and Cooperation Framework contributes to a resolution of the recurrent crises in the Great Lakes region

Programme performance in 2023 and target for 2025

174. In 2023, the mission provided political and technical support to both the Nairobi and Luanda peace processes, spearheaded by the continuous good offices efforts of the Special Envoy throughout the region. This engagement contributed to efforts to ensure greater coordination among the regional processes, led by the African Union. The mission further supported a mission of the operational cell of the Contact and Coordination Group to Burundi, Rwanda and Uganda to assess requirements and needs related to the reception and reintegration of foreign armed group members to be repatriated. The mission also continued to cooperate with the International Conference on the Great Lakes Region in support of the transparent management of natural resources in the region. The mission supported the holding of joint engagements and several workshops aimed at strengthening the capacities of women and youth in the mining sector and ongoing peace efforts.

Lessons learned and planned change

175. A lesson for the mission was the need for sustained political will by signatory countries and guarantor institutions to fully implement the Peace, Security and Framework. In applying the lesson, the mission will strengthen its interactions with stakeholders from the region at all levels, including civil society, women and youth, to further bolster the Special Envoy's engagement at the political level.
176. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 35).

Table 35
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Enhanced consultations, coordination and joint action among the guarantor institutions in support of the Peace, Security and Cooperation Framework	Enhanced consultations, coordination and joint action among the guarantor institutions in support of the Peace, Security and Cooperation Framework Initiatives taken by regional and subregional organizations and signatory countries of the Peace, Security and Cooperation Framework to support peaceful, inclusive and credible political and electoral processes	Initiatives under the second and third phases of the action plan of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region were implemented, including flagship initiative 2, providing an assessment of the impact and future path of the Peace, Security and Cooperation Framework	Implementation of the road map for the revitalization of the Peace, Security and Cooperation Framework is launched Initiatives under the second and third phases of the action plan of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region are implemented	Implementation of the road map for the revitalization of the Peace, Security and Cooperation Framework A revitalized Peace, Security and Cooperation Framework effectively supports well-coordinated regional political and diplomatic engagement towards a durable political settlement of tensions and instability in the Great Lakes region

Deliverables

177. Table 36 lists all deliverables of the mission.

Table 36

Deliverables for the period 2023–2025 by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	5	3	5	5
2. Meetings of the Security Council, the Security Council Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo and the Peacebuilding Commission	5	3	5	5
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	3	2	3	3
3. Projects on economic cooperation, land and conflict	2	1	2	2
4. Projects to promote cross-border trade and investment	1	1	1	1
Seminars, workshops and training events (number of days)	9	11	8	11
5. Workshop on exchange of lessons learned from elections and political processes	1	4	1	4
6. Workshop on economic cooperation, natural resources and conflict	3	2	2	2
7. Workshops on resolving existing challenges in the implementation of the Peace, Security and Cooperation Framework	2	3	2	2
8. Workshop on youth employment and engagement on peace and security	1	1	1	1
9. Advisory Board for Women, Peace and Security in the Great Lakes Region annual meetings to support national/regional-level initiatives to empower women and achieve 30 per cent women's representation	2	1	2	2
Fact-finding, monitoring and investigation missions (number of missions)	6	2	8	8
10. Missions of the operational cell of the Contact and Coordination Group on non-military measures	6	2	8	8
C. Substantive deliverables				
Good offices: provision of good offices through engagement, including shuttle and discreet diplomacy, as well as through the facilitation of direct exchanges with regional leaders and senior representatives of signatory countries and co-guarantors of the Framework; support to regional peace efforts, notably the Nairobi and Luanda processes; provision of good offices to the efforts of the Contact and Coordination Group on non-military measures for the repatriation of foreign armed groups operating in the eastern Democratic Republic of the Congo; good offices to enhance coordination and cooperation against the armed groups in the eastern Democratic Republic of the Congo; good offices to sustain international support for the implementation of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region and its action plan.				
Consultation, advice and advocacy: consultations on the situation in the region; consultations and advice on regional human rights and humanitarian trends in the Great Lakes region; consultation and advice on delinking armed groups from natural resources revenues; advocacy to facilitate political conversation and agreement on regional integration with natural resources; advocacy to advance gender equality in the region; advocacy to promote a concerted approach on the way forward in the region.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 37

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)	
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	4 838.3	3 802.1	4 133.0	4 129.6		(3.4)
Operational costs	899.6	870.8	844.8	824.2		(20.6)
Total (net of staff assessment)	5 737.9	4 672.9	4 977.8	4 953.8		(24.0)

Table 38

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	1	–	1	1	5	7	5	–	1	1 ^a	22	1	7	8	–	–	
Proposed 2025	1	–	1	1	5	7	5	–	1	1 ^a	22	1	7	8	–	–	–	30
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

178. The proposed resource requirements for 2025 for the mission amount to \$4,953,800 (net of staff assessment) and would provide for salaries and common staff costs (\$4,129,600) for the continuation of 30 posts (1 Under-Secretary-General, 1 D-2, 1 D-1, 5 P-5, 7 P-4, 5 P-3, 1 Field Service, 1 General Service (Other level), 1 National Professional Officer and 7 Local level), as well as operational costs (\$824,200), comprising costs for consultants and consulting services (\$29,300), official travel (\$296,000), facilities and infrastructure (\$29,400), ground transportation (\$22,700), air operations (\$48,400), communications and information technology (\$135,100), medical (\$19,700) and other supplies, services and equipment (\$243,600).
179. For 2025, the one post of Human Rights Officer (P-4) is proposed for reassignment as a Judicial Affairs Officer (P-4). This reassignment would allow the mission to better support the implementation of the commitments under the Peace, Security and Cooperation Framework related to the fight against impunity and to judicial cooperation through the Great Lakes Judicial Cooperation Network. The proposed reassignment would better align the profile of prospective candidates with the actual work to be performed.
180. A vacancy rate of 19.3 per cent has been applied to estimates for international posts on the basis of the actual average vacancy rate in 2023. A vacancy rate of 50.0 per cent has been applied to the estimates for the National Professional Officer post on the basis of the expected recruitment timeline for the post, and a vacancy rate of zero per cent has been applied to the Local level posts on the basis of the actual vacancy rate in March 2024.
181. The decrease in requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to reduced requirements for air operations, due to increased availability of

commercial flights, as well as to reduced requirements under civilian personnel costs, resulting from lower common staff costs for international posts and lower costs for local staff as a result of the application of the latest salary scales.

Extrabudgetary resources

182. In 2024, extrabudgetary resources in the amount of \$2,050,000 are estimated to support the implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
183. In 2025, extrabudgetary resources in the amount of \$1,800,000 are estimated to support the implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
184. The decrease in the estimated extrabudgetary resources to be utilized in 2025 as compared with 2024 is due to lower projected contributions.

9. Office of the Special Envoy of the Secretary-General for Yemen

(\$16,341,000)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

185. The mission is responsible for carrying out the good offices of the Secretary-General to enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition process that meets the legitimate demands and aspirations of the Yemeni people, including women and youth, for peaceful change and meaningful political, economic and social reform, as set out in the Initiative of the Gulf Cooperation Council and its implementation mechanism and the outcomes of the comprehensive National Dialogue Conference. The mandate derives from Security Council resolution [2014 \(2011\)](#) and from subsequent Council resolutions, the latest being resolution [2691 \(2023\)](#).
186. To ensure the full and effective implementation of Security Council resolutions [2014 \(2011\)](#) and [2051 \(2012\)](#), together with the political transition agreed in November 2011 under the Initiative of the Gulf Cooperation Council and its implementation mechanism for the political transition process in Yemen, the Secretary-General established the Office of the Special Adviser to the Secretary-General on Yemen, in accordance with an exchange of letters with the President of the Security Council in June 2012, which was then subsumed into the Office of the Special Envoy ([S/2012/469](#) and [S/2012/470](#)).
187. In line with Council resolution [2216 \(2015\)](#), as well as other Council resolutions on Yemen, including resolutions [2014 \(2011\)](#), [2051 \(2012\)](#), [2140 \(2014\)](#), [2201 \(2015\)](#), [2451 \(2018\)](#), [2452 \(2019\)](#) and [2722 \(2024\)](#), and the letter from the Secretary-General addressed to the President of the Security Council ([S/2016/488](#)), the Special Envoy of the Secretary-General for Yemen will continue to mediate between the parties with a view to ending the conflict. The mission will provide facilitation and technical advice on the negotiation and design of interim political, economic and security arrangements, including towards the resumption of an inclusive, intra-Yemeni political process, under United Nations auspices, and enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition process.
188. The mission's efforts are geared towards reaching an agreement between the Government of Yemen and the Houthis that would initiate a phased multitrack process, with political, economic and military/security tracks, aimed at resuming the political transition, which began in 2011 and was interrupted by the current conflict. The 2022 United Nations-mediated truce ushered in a step change. For the first time in years, large-scale violence drastically decreased, providing an environment conducive to the holding of constructive discussions, even beyond the formal expiry of the truce. Following the parties' agreement to a set of commitments in December 2023, the Special Envoy is continuing to engage the parties to establish a road map under United Nations auspices that will operationalize these commitments and support their implementation.

Programme of work

Objective

189. The objective, to which this mission contributes, is to achieve a negotiated political settlement between the parties to end the conflict in Yemen and enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition that will lead Yemenis towards a path of sustainable peace.

Strategy and external factors for 2025

190. To contribute to the objective, the mission will:
- (a) Utilize negotiations, consultations and shuttle diplomacy to achieve an agreement between the parties to end the conflict in Yemen and resume the political transition;
 - (b) Support the Yemen peace process by providing political, technical and logistical support, including in supporting the parties to identify long-term measures and immediate priorities related to political, security and economic issues to resume the political process, implement the Stockholm Agreement and de-escalate the conflict at the local, national and regional levels;
 - (c) Work on a consultative process, which will include, among others, women, civil society and youth, including assessing the sentiments, views and recommendations of Yemenis and integrating gender-responsiveness and youth engagement in its multitrack diplomacy and peace negotiations on the peace agreement and post-transition process;
 - (d) Foster continued regional and international support for resolving the conflict in Yemen, notably through awareness-building and frequent dialogue and information exchange;
 - (e) Continue to adapt its posture and positioning to respond to the changing and evolving political context and operational environment in order to strengthen mandate implementation, with a focus on the mission's balanced representation and capacity in the territories controlled by each side.
191. The above-mentioned work is expected to result in:
- (a) A peace agreement between the parties that includes political, economic and military/security measures that will improve the living conditions in Yemen and usher in a sustainable, peaceful and inclusive transitional period;
 - (b) Enhanced engagement of diverse political and social Yemeni stakeholders, including women and youth, to inform the track 1 United Nations-facilitated political process;
 - (c) Increased confidence of the parties and engagement in the United Nations-facilitated peace process towards a resumption of political negotiations;
 - (d) Increased confidence of the parties towards a resumption of political talks, including through focusing on political, security and economic elements;
 - (e) Refined security governance options at both the national and local level;
 - (f) Effective and transparent implementation of negotiated transitional security arrangements;
 - (g) Development of an inclusive transitional agenda that will be informed by women's and gender perspectives and will include implementation mechanisms and bodies;
 - (h) Continued implementation of the Stockholm Agreement, including the uninterrupted flow of commercial imports, including fuel, into the Hudaydah ports, and further prisoner exchanges;
 - (i) Women's and gender perspectives informing all substantive areas, agreements, arrangements and implementation mechanisms, when relevant.
192. With regard to cooperation with other entities, the mission engages closely with international and regional organizations, including the League of Arab States, the Gulf Cooperation Council, the European Union and other international partners. Furthermore, the mission pursues joint efforts with international financial institutions to facilitate joint response strategies for post-agreement planning, including recovery and peacebuilding activities.
193. With regard to inter-agency coordination and liaison, the mission cooperates with the Resident/Humanitarian Coordinator and the United Nations country team in Yemen. The mission consults and coordinates closely with the Department of Political and Peacebuilding Affairs and special political missions in the region, as appropriate. In line with Security Council resolution [2452 \(2019\)](#), the mission closely coordinates with the United Nations Mission to Support the Hudaydah Agreement

- (UNMHA), which reports to the Secretary-General through the Special Envoy and the Under-Secretary-General for Political and Peacebuilding Affairs, and shares an integrated support structure with UNMHA.
194. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Despite a more complex mediation environment due to the dynamics in the region, the parties to the conflict will continue to engage in discussions on the way forward with the Special Envoy, with the aim of reaching a comprehensive negotiated political settlement;
 - (b) The mission will have greater access to key Yemeni stakeholders, albeit with some restrictions imposed by the parties and the security situation on the ground;
 - (c) The mission will strengthen its presence inside Yemen, including through consultations with women and youth, and will expand its outreach to Yemeni constituencies inside and outside the country through digital tools and specific outreach missions and visits.
195. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The mission engages with initiatives at the national and local levels that promote women's political participation and representation, their full citizenship rights and the incorporation of women's human rights, security needs and concerns in the planning and preparation for the transition and early recovery, conflict resolution and peacebuilding processes. The Mission also addresses the shrinking civic space and the climate emergency to ensure inclusion and environmental issues in political, economic and security consultations.

Programme performance in 2023

Continuation of decreased hostilities in the absence of a formal truce

196. The United Nations-mediated truce ushered in a period of decreased hostilities that continued despite the formal expiration of the truce in October 2022 and was in place for most of 2023. The relative calm allowed for the continuation of arrangements effective under the truce, including the continued flow of fuel into Hudaydah port and commercial flights between Sana'a, Yemen, and Amman. The mission utilized this favourable environment to intensify discussions with the parties, as well as regional and international stakeholders, on the way forward. In December 2023, these efforts culminated in the parties' agreement to a set of commitments that aimed to improve living conditions in Yemen, establish a nationwide ceasefire and resume the political process. The mission continued to work towards a road map under United Nations auspices to operationalize and implement the commitments. The mission engaged with the Government of Yemen and military coordination committees, having held three meetings of the Military Coordination Committee in 2023, to introduce the ceasefire concept, foster dialogue with the Government of Yemen and plan the implementation of a ceasefire, including technical discussions on the ceasefire mechanism.
197. Progress towards the objective is presented in the performance measure below (see table 39).

Table 39

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	The United Nations-mediated truce lasted from 2 April to 2 October 2022, and represented the longest period of calm in the eight-year conflict. The truce contributed to a significant reduction of violence and civilian casualties. It started	Despite the formal expiry of the 2022 truce, hostilities remained limited. Throughout 2023, flights between Sana'a and Amman continued, and the continued opening of Sana'a airport facilitated the mobility of Yemenis, including for

2021 (actual)	2022 (actual)	2023 (actual)
	providing relief to Yemenis as a result of regular commercial flights between Amman and Sana'a and an increase in fuel imports through Hudaydah port	humanitarian and medical reasons. Fuel shipments and deliveries of non-food/non-medicine cargo and construction materials into the ports of Hudaydah also continued after the expiry of the truce

Planned results for 2025

Result 1: mobilize the international community in support of implementing a Yemeni-led, inclusive peace process

Programme performance in 2023 and target for 2025

198. In 2023, the mission continued its emphasis on updating the international community on its ongoing efforts on the ground and in interactions with Yemeni interlocutors in the region aimed at encouraging exchanges with Member States on ways to support a Yemeni-led political process that focuses on inclusivity, with a wide range of Yemeni partners. The mission continued to work with a variety of track 2 (economic track) organizations to broaden its outreach and develop options on different political, economic and military/security issues of relevance to the peace process.
199. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 40).

Table 40
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Implementation of joint outcome documents, including specific mechanisms that involve diverse Yemeni perspectives	Expansion of the mission's political engagement and consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace	Mobilization of the international community to identify ways to engage with Yemenis and move towards a sustainable peace process	Increased focus of the international community in seeking the views of diverse groups of Yemenis across various geographical locations in Yemen and within the diaspora	Continued engagement of the international community to ensure consistent support and accompaniment of the Yemeni peace process. Regular consultations with a diverse range of Yemeni stakeholders to ensure the inclusion of their priorities in the peace process

Result 2: expanding political engagement and consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace

Proposed programme plan for 2025

200. The mission will continue efforts to expand political consultations to integrate diverse perspectives with the objective of supporting a Yemeni-led political process leading to a peaceful resolution. The

mission's work is expected to contribute to efforts to broaden inclusion in the peace process, including through greater and more diversified outreach to civil society and consultations with Yemeni women and youth and different Yemeni political actors through the mission's offices in Aden, Amman and Sana'a. The mission will continue its engagement with a broad range of Yemeni stakeholders in Yemen and the region, including through field visits.

Lessons learned and planned change

201. The lesson for the mission was the need to leverage its presence in Yemen more effectively to engage with stakeholders in building a more inclusive peace process. In applying the lesson, the mission will seek additional opportunities to engage directly with diverse Yemeni representatives. The mission will also continue to engage with Yemeni and international interlocutors through the use of information technology whenever required.
202. Expected progress towards the objective is presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of formal consultations with Yemeni interlocutors

Deliverables

203. Table 41 lists all deliverables of the mission.

Table 41

Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	12	12	12	12
Meetings of the Security Council	12	12	12	12
C. Substantive deliverables				
Good offices: provision of good offices to end the conflict.				
Consultation, advice and advocacy: consultations and advice on political and security proposals aimed at mediating an agreement to end the conflict and enable the completion of the political transition.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 42

Financial resources

(Thousands of United States dollars)

Operational costs	5 560.1	5 451.0	5 545.1	5 742.2		197.1
Total (net of staff assessment)	17 051.3	16 087.0	16 570.8	16 341.0		(229.8)

Table 43

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	1	–	1	1	6	15	10	–	24	1 ^a	59	14	28	42	–	–	
Proposed 2025	1	–	1	1	6	15	10	–	24	1 ^a	59	13	29	42	–	–	–	101
Change	–	–	–	–	–	–	–	–	–	–	–	(1)	1	–	–	–	–	–

^a Other level, unless otherwise stated.

204. The proposed resource requirements for 2025 for the mission amount to \$16,341,000 (net of staff assessment) and would provide for salaries and common staff costs (\$10,598,800) for 101 continuing posts (1 Under-Secretary-General, 1 D-2, 1 D-1, 6 P-5, 15 P-4, 10 P-3, 24 Field Service, 1 General Service (Other level), 13 National Professional Officer and 29 Local level), including the proposed staff changes below, as well as operational costs (\$5,742,200), comprising costs for official travel (\$407,700), facilities and infrastructure (\$3,084,800), ground transportation (\$399,200), air operations (\$578,700), communications and information technology (\$786,000), medical (\$203,300) and other supplies, services and equipment (\$282,500).
205. In 2025, the following changes are proposed for staffing:
- Abolishment of one Associate Human Resources Officer (National Professional Officer) in Sana'a, considering that the nature of the functions requires the post to be physically located in the Amman office as a duty station to work closely with the rest of the human resources team and hiring managers;
 - Establishment of one Associate Human Resources Officer (National Professional Officer) in Amman, jointly with the abolishment proposed above. The Associate Human Resources Officer will support the Chief of Unit with the full range of workforce planning activities. Since most of the hiring managers are located in the mission headquarters in Amman, this proposal will enable liaison by the Associate Human Resources Officer directly with and in support of hiring managers;
 - Abolishment of one Administrative Officer (National Professional Officer) in Aden, to achieve a more balanced structure in the current mission support team in Aden. The team currently has

three National Professional Officers but does not have any support staff; therefore, the proposal is to replace one National Professional Officer with a support staff post to allow for a more efficient structure;

- (d) Establishment of one Administrative Assistant (Local level). Jointly with the abolishment proposed above, the proposed establishment of one Administrative Assistant (Local level) will provide the necessary administrative, logistical and operational support to the existing team in order to meet the increasing demands but also to enhance operational agility.
206. Vacancy rates of 23.6 per cent, 42.9 per cent and 16.7 per cent have been applied to the estimates for international, National Professional Officer and Local level posts, respectively, based on the actual average vacancy rates in 2023.
207. The decrease in requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to reduced requirements for civilian personnel, resulting from the application of higher vacancy rates of 23.6 per cent for international staff and 42.9 per cent for National Professional Officers, respectively, compared with the budgeted rates of 21.3 per cent and 33.4 per cent, respectively, in 2024. The decreased requirements under civilian personnel costs are offset in part by increased requirements for facilities and infrastructure and ground transportation due to a new contract for storage and distribution points for the mission's fuel reserve in Yemen; increased requirements for communications and information technology due to an increase in contract prices for maintenance and support services; and increased requirements for other supplies, services and equipment due to increased requirements for contract services.

Extrabudgetary resources

208. In 2024, extrabudgetary resources in the amount of \$94,000 will be used to support activities and relevant initiatives focused on women's inclusion in the political process, including consultations and capacity-building workshops.
209. In 2025, extrabudgetary resources in the estimated amount of \$94,000 are projected to support the continuation of these projects.

10. Office of the Special Envoy of the Secretary-General on Myanmar

(\$970,200)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

210. The mission is responsible for the provision of the Secretary-General's good offices through discussions involving all relevant stakeholders and assistance to Myanmar. The mandate was defined by the General Assembly in its resolution [72/248](#) and renewed on a yearly basis since, most recently in resolution [78/219](#). In its first resolution on Myanmar, resolution [2669 \(2022\)](#), the Security Council reinforced the urgent need to end the human suffering, provided further guidance on the scope of work of the Special Envoy, and called for, inter alia, close coordination between the Special Envoy of the Secretary-General and the Special Envoy of the ASEAN Chair on Myanmar. The Special Envoy will continue to listen carefully to and engage with all stakeholders and communities on the ground to support durable peace and national reconciliation and build regional and international coherence based on an accurate assessment of the situation.
211. The mission continues to provide the good offices of the Secretary-General in a conflict environment that has expanded since the military takeover on 1 February 2021, and which has compounded pre-existing challenges facing vulnerable communities such as the Rohingya. The mission will focus on supporting a Myanmar-led process reflective of the will of the people to find a political solution to the conflict, advocating for the rights and voices of the Rohingya as integral to an inclusive and stable future for Myanmar and addressing those systemic inequalities affecting all marginalized people. Accountability for those responsible for mass atrocities and human rights violations and abuses, the promotion of human rights more broadly and the meaningful participation of women in all decision-making processes will remain key cross-cutting priorities. This will require the Special Envoy to work in close and trusted partnership with all stakeholders, local communities and civil society, and regional partners, notably the Government of Bangladesh, ASEAN and neighbouring countries, while keeping the broader membership of the United Nations informed of the Special Envoy's activities and their impact.

Programme of work

Objective

212. The objective, to which the mission contributes, is to support a Myanmar-led democratic and peaceful nation-building process and to support the creation of the conditions necessary for the voluntary, safe, dignified and sustainable return and reintegration of Rohingya in Myanmar.

Strategy and external factors for 2025

213. To contribute to the objective and address the deterioration of the situation in Myanmar, the mission will:
- (a) Implement a multitrack approach, including strengthening cooperation between the United Nations and ASEAN to address humanitarian and other critical needs on the ground without discrimination. In close partnership with the ASEAN Special Envoy, the Special Envoy of the Secretary-General, in close coordination with relevant United Nations partners, will seek to facilitate the delivery of assistance to affected communities through all existing channels and address the multiple priority needs of the people across the country, including civilian

protection, food security, socioeconomic resilience and humanitarian assistance. The Special Envoy will complement regional efforts to support effective implementation of the five-point consensus of the ASEAN Leaders' Meeting in alignment with the will of the people of Myanmar, and coordinate a coherent system-wide support that will help strengthen application of the norms and values of the United Nations to this process;

- (b) Advocate for a Myanmar-led process towards a peaceful, democratic and inclusive future. In support of this, the Special Envoy will help promote a coherent international approach based on regional unity. The mission will facilitate initiatives in support of a process led by Myanmar to end the violence and return to the path of democracy. The mission will continue to initiate inclusive and participatory approaches with minorities, youth and women, whose voices and empowerment are critical to fostering social cohesion and developing a viable way out of the current political crisis and in line with the will of the people;
 - (c) Continue efforts to create a conducive environment for the voluntary, safe, dignified and sustainable return to Rakhine State of the forcibly displaced Rohingya in the region, including in Bangladesh. To that end, the Special Envoy will continue to promote a political solution in consultation with the Rohingya to help ensure that solutions are aligned with their needs, and with other key stakeholders, so as to improve the conditions of Rohingyas on the ground, in line with the recommendations of the Advisory Commission on Rakhine State. The Special Envoy will also continue to amplify the voices of the Rohingya and support ongoing dialogue with leaders of regional countries and the international community to promote burden-sharing, including scaling up humanitarian assistance, educational and skill development opportunities and durable solutions for refugees.
214. The above-mentioned work is expected to result in:
- (a) Improved conditions for the safe, voluntary, dignified and sustainable return of forcibly displaced populations;
 - (b) Creation of conducive conditions for a de-escalation of violence and an increase in trust among communities;
 - (c) Greater international and regional political support towards improved humanitarian assistance for populations in need, whose conditions have dramatically worsened countrywide since the military takeover;
 - (d) Contribution to the establishment of a Myanmar-led process with key stakeholders to advance discussions on restoring democratic and human rights norms as part of a negotiated political solution.
215. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The grave impact on civilians and communities across Myanmar from the continued intensification of violence and repression since the military takeover, serious human rights violations and the need for civilian protection will remain a significant challenge in securing a coherent policy, notably for narrowing the trust deficit towards national reconciliation;
 - (b) The plight of Rohingya refugees will continue to require concrete actions for their safe, dignified, voluntary and sustainable return and reintegration in Myanmar. The rights and security of the Rohingya people need to be guaranteed and embedded in Myanmar-led solutions towards a peaceful, democratic and inclusive future;
 - (c) Illicit activities and related financial flows, closely linked to the conflict in Myanmar and the downfall of the formal economy, will continue to hamper conflict resolution and impede the strengthening of rule of law, institution-building, socioeconomic and development efforts.
216. With regard to cooperation with other entities, the mission works in partnership with ASEAN, especially the ASEAN Special Envoy, other key regional organizations, such as the Organization of

Islamic Cooperation (OIC) and the European Union, neighbouring countries and international donors to mobilize constructive support to facilitate the delivery of humanitarian assistance through all available channels, support dialogue among all concerned parties and facilitate refugee returns.

217. With regard to inter-agency coordination and liaison, the mission coordinates closely with the United Nations system through established inter-agency channels, in close consultation with the Resident Coordinators in Myanmar and Bangladesh. The Special Envoy of the Secretary-General continues to carry out the good offices mandate in close cooperation with the United Nations country team and Headquarters, as well as various human rights mechanisms on Myanmar mandated by the Human Rights Council.
218. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and will support efforts to strengthen the capacity of Myanmar women leaders to participate regionally and globally in women and peace and security engagements and to amplify the voices of the most marginalized women and advance their protection agenda.

Programme performance in 2023

Safe, dignified and voluntary repatriation

219. The previous Special Envoy maintained close contact with all stakeholders, including local communities in Rakhine, until the end of her mandate in June 2023. The Special Envoy regularly engaged with civil society, community leaders, women's groups, human rights activists and other key stakeholders in Myanmar, including in Rakhine. She mobilized support from international and regional partners towards addressing the root causes of conflict in Rakhine State to enable returns when the conditions are conducive. The ongoing conflict and broad humanitarian crisis complicated the prospects for the return of Rohingya refugees. The mission continued its engagement with key ethnic armed organizations and other stakeholders with a view to promoting an inclusive Myanmar-led process. As the widening conflict continued to displace communities across the country, driving many to seek refuge in the region, the Special Envoy actively advocated for their protection and assistance.
220. Progress towards the objective is presented in the performance measure below (see table 44).

Table 44

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Preparation for repatriation was disrupted by the military takeover and the interventions had to be reformulated taking into consideration the changing political dynamics	Repatriation was further delayed by the escalating violence throughout Myanmar, including in Rakhine State	Repatriation was further delayed due to the devastation caused by Cyclone Mocha in May 2023 and the escalating violence throughout Myanmar, including in Rakhine State, where fighting between the Arakan Army and the Myanmar armed forces resumed in November 2023

Planned result for 2025

Progress towards improved humanitarian conditions and a Myanmar-led inclusive, democratic and peaceful nation-building process

Programme performance in 2023 and target for 2025

221. In 2023, the mission's work contributed to advocacy efforts towards sustainable solutions for the Rohingya, but the planned target of facilitating local initiatives in support of social cohesion was not

met, due to the deterioration of security conditions in Myanmar, including in Rakhine State, where fighting between the Arakan Army and the Myanmar armed forces resumed in November 2023. The mission continues to focus on improving the conditions of Rohingya remaining in Rakhine State by engaging key stakeholders to build confidence and improve the reintegration prospects of the returning refugees. In 2025, the mission, in close cooperation with ASEAN, will concentrate its efforts on improving the security and humanitarian situation in Myanmar in line with the ASEAN five-point consensus.

Lessons learned and planned change

222. A lesson learned for the mission was the importance of close cooperation and engagement with key regional organizations, namely ASEAN and OIC. To this end, the mission will strengthen cooperation with ASEAN and the ASEAN Special Envoy to garner regional support for concrete initiatives that support Myanmar-led solutions towards a peaceful, democratic and inclusive future for the country.
223. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 45).

Table 45
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
The military takeover and ensuing broader conflict and humanitarian crisis forced the Special Envoy to reformulate her strategy on Rohingya repatriation	The Special Envoy elevated international engagement on the Rohingya through a visit to Bangladesh and by reinforcing cooperation with OIC	The Special Envoy deepened coordination with ASEAN and OIC, including on addressing the situation of the Rohingya, and engaged neighbouring States during visits to India and China	The Special Envoy moves forward with concrete initiatives on the inclusive humanitarian forum, women and peace and security, education for Rohingya refugees and host communities and regional refugee protection mechanisms	The Special Envoy engages key actors advocating for a cessation of violence and improved humanitarian access and conditions, including in Rakhine State, to support conditions conducive to the return of refugees

Deliverables

224. Table 46 lists all deliverables of the mission.

Table 46
Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Reports of the Secretary-General for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	4	4	4	4
2. Meetings of the Security Council	2	2	2	2
3. Meetings of the General Assembly	2	2	2	2

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	6	5	6	6
4. Workshops supported by the mission on social cohesion and anti-discrimination; women's political empowerment; strengthening of the rule of law and accountability for serious human rights violations; fundamental freedoms; and implementation of the recommendations of the Advisory Commission on Rakhine State	6	5	6	6
C. Substantive deliverables				
Good offices: good offices engagements with Myanmar stakeholders, civil society, ethnic armed organizations and countries in the region in support of: a return to democratic reforms, peace and stability at the national, subnational and local levels, and humanitarian access to help support the more than 18 million people in need of assistance in Myanmar; and the voluntary, safe, dignified and sustainable repatriation of the Rohingya and durable solutions and reintegration of forcibly displaced persons.				
Consultation, advice and advocacy: consultations with Myanmar stakeholders, civil society, key regional organizations, including ASEAN and OIC, and the international community, including all ASEAN member States, on electoral and constitutional issues; accountability for serious human rights violations and cooperation with international accountability mechanisms; good governance and the strengthening of the rule of law; human rights issues, including fundamental freedoms, civilian protection, child rights, the elimination of discrimination and violence against minorities; the promotion of gender equality; and the involvement of women and youth in peace initiatives.				
D. Communication deliverables				
Outreach programmes, special events and information materials: outreach activities with local communities, government partners, opinion leaders, the media, civil society and other agents of change to support the implementation of the Office's mandate.				
External and media relations: press conferences, statements, advisories, backgrounders, interviews and other media engagements related to the Office's objective, and the development of additional communication capacities, including a dedicated website.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
Approved 2024	1	-	-	1	1	1	-	-	-	-	4	-	1	1	-	-	-	5
Proposed 2025	1	-	-	1	1	1	-	-	-	-	4	-	1 ^a	1	-	-	-	5
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Includes one Local level position proposed to be established as a general temporary assistance position in 2025.

225. The proposed resource requirements for 2025 for the mission amount to \$970,200 (net of staff assessment) and would provide for salaries and common staff costs (\$694,300) for the continuation of four posts (1 Under-Secretary-General, 1 D-1, 1 P-5 and 1 P-4) and the proposed abolishment of one Local level post and establishment of one Local level general temporary assistance position, set out below, as well as operational costs (\$275,900), comprising costs for official travel (\$135,400), facilities and infrastructure (\$20,700), ground transportation (\$7,000), communications and information technology (\$25,500), medical (\$600) and other supplies, services and equipment (\$86,700).
226. After a security assessment conducted by the Department of Safety and Security of the Secretariat in early 2022, all international staff were temporarily relocated from Nay Pyi Taw to Bangkok and are currently sharing office space with the regional office of the Department of Political and Peacebuilding Affairs hosted in the compound of the Economic and Social Commission for Asia and the Pacific.
227. In 2025, the following changes are proposed for staffing:
- Abolishment of one post of Administrative Assistant (Local level) in Nay Pyi Taw, since the post cannot be filled in Myanmar in view of the current security and operational situation;
 - Establishment of one general temporary assistance position of Administrative Assistant (Local level) in Bangkok. The establishment of the general temporary assistance position in Bangkok would provide necessary administrative support to the mission's international staff, who are temporarily relocated to Bangkok.
228. Vacancy rates of 25.0 per cent have been applied to the estimates for international posts on the basis of the actual average vacancy rates in 2023. A vacancy rate of 50.0 per cent has been applied to the one Local level general temporary assistance position proposed for establishment.
229. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to decreased requirements for civilian personnel costs owing to lower common staff costs and the application of a vacancy rate of 25.0 per cent compared with the budgeted rate of zero per cent in 2024.

Extrabudgetary resources

230. In 2024, extrabudgetary resources in the amount of \$527,400 will be used to support activities and relevant initiatives aimed at promoting the implementation of General Assembly resolution 76/180 and would provide for one P-5 post and one P-4 post. These activities and initiatives include: (a) coordinating a system-wide response in addressing the vulnerabilities of those affected by the ongoing multifaceted crisis and working closely with ASEAN in supporting efforts to de-escalate the situation towards an inclusive political solution; (b) support towards the return of Rohingya refugees and internally displaced persons; (c) intercommunal dialogues; (d) anti-discrimination and countering hate speech; and (e) national reconciliation.

231. In 2025, extrabudgetary resources in the estimated amount of \$346,000 are projected to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar.
232. The projected decrease in extrabudgetary resources in 2025 is due to the outstanding donor agreements that would be solidified in the fourth quarter of 2024 in line with the mission's single-year donor agreements practice.

Annex I

Summary of follow-up action taken to implement decisions and requests of the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/78/7/Add.2](#)

The Advisory Committee trusts that the vacant positions, including long-vacant ones, will be filled expeditiously and that an update on the recruitment status of all vacant positions will be provided to the General Assembly at the time of its consideration of the present report and in the next budget submission. The Committee also trusts that the Secretary-General will propose appropriate budgetary actions in the next budget submission for any long-vacant positions that have not been recruited (para. 13).

The Committee also trusts that an update on the lease of premises of the Office of the Special Envoy of the Secretary-General for Yemen will be provided to the General Assembly at the time of the consideration of the present report and in the next budget submission (para. 18).

The Advisory Committee trusts that the Secretary-General will provide, in the next budget submission, a full accounting of the resources dedicated to hate speech across the United Nations, along with a description of the respective areas of responsibility, as well as cooperation mechanisms among different entities (para. 22).

Information on the status of recruitment of long-vacant posts is presented in annex I of the supplementary information for each thematic cluster.

The missions under cluster I make strong efforts to recruit and fill vacant posts in accordance with staff selection policy. Recruitment exercises, however, may be affected and inadvertently delayed due to external factors, including visa restrictions; availability of qualified candidates in the duty stations; and temporary restrictions on hiring in efforts to mitigate financial challenges facing the Organization (i.e. liquidity pressure), which adversely impacts the missions' ability to fill vacant posts. Despite these challenges, missions will continue to make every effort to fill all current and future vacancies as expeditiously as possible.

The previous plans of the Office of the Special Envoy of the Secretary-General for Yemen to move to new premises in Amman did not materialize. Therefore, there was no change in the budgeted amount for rental of premises in the proposed budget for 2025 for the mission.

The Office of the Special Adviser to the Secretary-General on the Prevention of Genocide is the United Nations system-wide focal point on hate speech and coordinates the implementation of the United Nations Strategy and Plan of Action on Hate Speech, launched by the Secretary-General in 2019. The Office also leads policy and guidance development related to countering and addressing hate speech and relevant topics.

Another key function of the Office as focal point is providing technical assistance and capacity-building support to United Nations field presences, in particular United Nations country teams and peace operations, to develop context-specific action plans to implement the Strategy. This is done through the deployment of Office staff to the relevant United Nations field presences to work with the teams to develop such action plans. The Office has three staff to support its efforts to counter and address hate

*Brief description of the recommendation**Action taken to implement the recommendation*

speech. This includes a Senior Political Affairs Officer (P-5), who coordinates the Office's work on countering hate speech, and two general temporary assistance positions (one Political Affairs Officer (P-4) and one Associate Political Affairs Officer (P-2), who support the Office's efforts to implement the Strategy, in particular by providing technical assistance and support to United Nations field entities and Member States. These positions also enable knowledge management and the sharing of good practices on tackling hate speech across the United Nations system.

The Office's role as global focal point includes coordinating the Working Group on Hate Speech, which comprises some 20 United Nations entities and is led at the principal level by the Special Adviser on the Prevention of Genocide. While there is no dedicated funding within the United Nations system towards countering and addressing hate speech, different United Nations entities also implement initiatives in line with their specific mandates linked to countering and addressing hate speech, the coordination of which is under the auspices of the Working Group on Hate Speech led by the Office.

As part of the Secretariat, other departments, such as the Department of Political and Peacebuilding Affairs, the Department of Peace Operations and the Department of Global Communications, have focal points working on topics linked to countering and addressing hate speech, but overall do not have teams dedicated exclusively to addressing this issue. The Department of Political and Peacebuilding Affairs, for example, addresses hate speech and disinformation as part of its core conflict prevention and peacebuilding mandates, including by taking into account how hate speech affects different issues under the Department's purview, such as electoral assistance, preventive diplomacy and mediation. The focal point of the Department of Global Communications for the Working Group on Hate Speech helps to lead the "#NoToHate" campaign in cooperation with other members. Furthermore, other United Nations entities, such as the United Nations Development Programme and the United Nations Educational, Scientific and Cultural Organization, implement specific interventions, as part of their mandates, to counter hate speech through the development of media and information materials, advocacy and technical support to Member States.

Further details on the resources addressing hate speech, areas of responsibility and cooperation mechanisms are presented in the supplementary information for cluster I.

Brief description of the recommendation

The Advisory Committee trusts that updated information on cost-sharing arrangements will be included in all future budget submissions (para. 24).

The Advisory Committee trusts that special political missions under cluster I will take into consideration lessons learned and best practices for proven fundraising strategies, including those of other United Nations entities, with a view to strengthening their efforts to obtain sufficient, predictable and sustained levels of voluntary contributions, including unearmarked funding, as necessary. The Committee looks forward to an update thereon in the next budget submission (para. 25).

The Advisory Committee trusts that efforts will be intensified to achieve a more equitable geographical representation of Member States and gender balance among the staff of the special political missions under thematic cluster I and that an update will be provided in future programme budget submissions (para. 26).

Action taken to implement the recommendation

The cost-recovery and cost-sharing arrangements of all special political missions will be centrally presented in annexes VI and VII to the report on estimates in respect of special political missions (A/79/6 (Sect. 3)/Add.1) to facilitate a consolidated review.

The missions under cluster I engage in different fundraising efforts to encourage donors to finance flagship initiatives to accelerate the implementation of their respective mandates. Despite these efforts, achieving significant success in this regard remains a challenge.

For example, the Office of the Special Adviser on the Prevention of Genocide has over the past several years issued regular global appeals for voluntary contributions, outlining its priorities and needs. The most recent global appeal was published in January 2024. The mission will continue this practice and continue its regular engagement with Member States on priorities and needs related to voluntary contributions.

The Office of the Special Envoy of the Secretary-General for the Great Lakes Region diligently engages with its primary donors to secure voluntary contributions in support of the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region. Among its donors are the United Nations peace and development trust fund, Norway, Switzerland, Belgium, France, China and the Kingdom of the Netherlands. These committed partners play a crucial role in advancing peace and stability in the Great Lakes region.

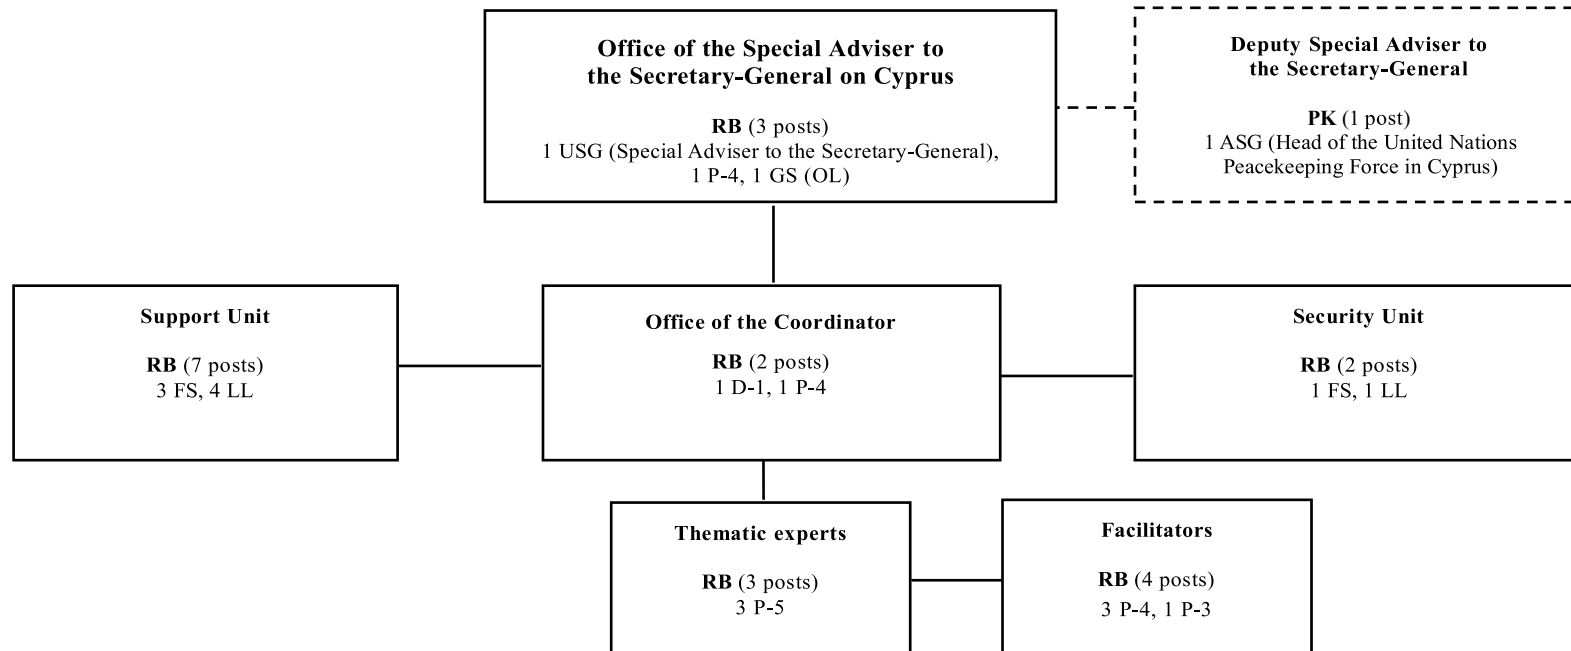

Special political missions have taken measures to strengthen efforts to achieve equitable geographical representation in their workforce. In many missions, hiring managers are required to demonstrate, using the current data on geographical representation, the impact of such recommendations. The revised template of the selection memorandums now allows hiring managers to review, before a candidate is selected, whether the proposed selection improves the geographical representation of the mission. The data are also monitored on a quarterly basis through the management dashboard to guide the course of recruitment actions.

The geographical representation, by country, of the international staff posts in all special political missions is provided centrally in annex XIX to document A/79/6 (Sect. 3)/Add.1.

- The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include the 12-month average vacancy rate in 2023 and the actual vacancy rate as at 31 March 2024. The lower of the two was used as the budgeted vacancy rate. This is in line with the policy guidance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2025 and to ensure that the proposed vacancy rates are based, as much as possible, on actual rates. A vacancy rate of 50 per cent has been applied in the calculation of costs for the proposed establishment of new posts and positions, or posts and positions proposed for reassignment or conversion.
- For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2024 or 2025.

II. Cross-cutting information

Gender perspective

- Special political missions are guided by Security Council resolutions [1325 \(2000\)](#), [1820 \(2008\)](#), [1888 \(2009\)](#), [1889 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#), [2122 \(2013\)](#), [2242 \(2015\)](#), [2467 \(2019\)](#) and [2493 \(2019\)](#), which, together, constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution [75/100](#) on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
- The sanctions monitoring teams, groups and panels, the missions for the implementation of Security Council resolution [2231 \(2015\)](#) and the support to the Security Council Committee established pursuant to resolution [1718 \(2006\)](#) integrate a gender perspective into their operational activities, deliverables and results, as appropriate, and as guided by the relevant Council resolutions. Gender balance is taken into consideration in the recruitment and rostering of experts and the Ombudsperson, as well in the recruitment of related staff. It is requested in the terms of reference for experts in sanctions monitoring teams, groups and panels that experts incorporate gender perspectives into their substantive areas of responsibility. These missions are also guided by the gender strategy of the Department of Political and Peacebuilding Affairs, including in the provision of available gender training to staff and sanctions-specific gender training to all experts. To further diversify the geographical and gender composition of sanctions monitoring teams, groups and panels, the Department participated, in June 2023, in a virtual career fair for nationals from the

Middle East and North Africa region and, in October 2023, in a virtual career fair for women in senior positions, hosted by a career web platform specializing in humanitarian and international jobs. A total of 355 women registered for the career fair, of whom 58 (from 20 countries across all regional groups) visited the Department's virtual booth containing presentations, fact sheets, videos and information on job openings. In addition, in July 2023 the Department briefed representatives of the African Group on the recruitment process of members of sanctions monitoring teams, groups and panels.

Disability inclusion

6. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

7. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

III. Special political missions

1. Group of Experts on the Democratic Republic of the Congo

(\$1,549,700)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

8. The Group of Experts on the Democratic Republic of the Congo is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and transport and customs measures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution [1533 \(2004\)](#), and renewed in its subsequent resolutions, including, most recently, [2688 \(2023\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Democratic Republic of the Congo.

Programme of work

Objective

9. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic Republic of the Congo, which includes an arms embargo on all non-governmental entities and individuals operating in the territory of the Democratic Republic of the Congo, an asset freeze and a travel ban.

Strategy and external factors for 2025

10. To contribute to the objective, the Group of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1533 \(2004\)](#) concerning the Democratic Republic of the Congo.
11. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
12. With regard to cooperation with other entities, the mission cooperates with, among others, Member States and the International Conference on the Great Lakes Region to request information relevant to its investigations into the implementation and/or violations of the sanctions regime concerning the Democratic Republic of the Congo.
13. With regard to inter-agency coordination and liaison, the Group of Experts cooperates with, among others, the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Group of Experts cooperates with the Mission, the Department of Safety and Security and the United Nations Development Programme (UNDP).

14. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Group of Experts;
 - (b) The security situation allows the Group of Experts to conduct missions, as needed.

Programme performance in 2023

Enhanced understanding by the Security Council of the illegal exploitation of natural resources in the Democratic Republic of the Congo

15. The Group of Experts reported on the involvement of armed groups and criminal networks in destabilizing activities in the Democratic Republic of the Congo in the form of the illegal exploitation of or trade in natural resources. The mission stressed the need to counter the smuggling of natural resources from the Democratic Republic of the Congo, including in transit and destination countries. It recommended that the Government of the Democratic Republic of the Congo ensure that the supply chain of minerals originating from North Kivu adhere to the due diligence guidelines set forth in 2010.
16. The above-mentioned work contributed to the Security Council and the Committee receiving updated information on armed groups and criminal networks' involvement in the illicit exploitation of and trade in natural resources.
17. Progress towards the objective is presented in the performance measure below (see table 3).

Table 3
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Security Council and the Committee received updated information on the illicit exploitation of natural resources, recruitment by armed groups and sexual violence	Security Council and the Committee continued to receive updated information on the illicit exploitation of or trafficking in natural resources and considered adjusting the designations of individuals and/or entities	Security Council and the Committee received updated information on the illicit exploitation of or trafficking in natural resources and considered amendments to the list entries, as well as new designations

Planned result for 2025

Enhanced understanding by the Security Council and the Committee of the illegal activities of armed groups in the Democratic Republic of the Congo

Programme performance in 2023 and target for 2025

18. In 2023, the work of the Group of Experts contributed to the full implementation of the sanctions regime, which met the planned target. The Group of Experts documented multiple violations of international humanitarian law and human rights abuses by several armed groups, as well as cases of violations of the arms embargo. In that regard, the Committee added two individuals to the Committee's sanctions list for having engaged in or provided support for acts that undermined the peace, stability or security of the Democratic Republic of the Congo.

Lessons learned and planned change

19. In view of the volatile security situation, the lesson for the Group of Experts was the need to further strengthen the preparation of security aspects of its field missions to the eastern Democratic Republic of the Congo. In applying the lesson, the mission will continue to contribute to the preparation of

mission-specific programme assessments and implement mitigation measures recommended by the Department of Safety and Security.

20. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 4).

Table 4
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Security Council and the Committee continued to receive updated sanctions-related information on the illicit exploitation of natural resources	Security Council and the Committee considered information on individuals who had supported armed groups or criminal networks involved in destabilizing activities in the Democratic Republic of the Congo through the illicit exploitation of or trafficking in natural resources	Committee considered adjusting list entries of individuals and/or entities in connection with illicit exploitation of or trafficking in natural resources	Committee considers adjusting the designations of individuals and/or entities in connection with human rights violations and other illegal activities committed by armed groups	Committee considers new designations and adjusts the designations of individuals and/or entities in connection with human rights violations and other illegal activities committed by armed groups

Deliverables

21. Table 5 lists all deliverables of the mission.

Civilian personnel costs	388.7	338.4	415.2	391.7	–	(23.5)
Operational costs	1 135.5	1 028.4	1 141.5	1 158.0	–	16.5
Total (net of staff assessment)	1 524.2	1 366.9	1 556.7	1 549.7	–	(7.0)

Table 7

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	–	–	–	–	–	–	2	–	–	–	2	–	–	–	–	–	
Proposed 2025	–	–	–	–	–	–	2	–	–	–	2	–	–	–	–	–	–	2
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

Note: The following abbreviations are used in the tables: ASG, Assistant Secretary-General; FS, Field Service; GS, General Service; LL, Local level; NPO, National Professional Officers; USG, Under-Secretary-General.

22. The proposed resource requirements for the Group of Expert for 2025 amount to \$1,549,700 (net of staff assessment) and would provide for the salaries and common staff costs (\$391,700) for the continuation of two posts (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,158,000) comprising expert fees (\$730,500) and travel (\$264,600) of the six experts, official travel of staff (\$24,000) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$138,900).
23. For 2025, no change is proposed to the number and level of posts for the Group of Experts. A vacancy rate of 16.7 per cent has been applied to the staff costs on the basis of the average vacancy rate in 2023.
24. The decrease in the requirements for 2025 compared with the appropriation for 2024 is attributable primarily to lower requirements under civilian personnel costs, owing to the application of a higher vacancy rate compared with the rate applied in 2024, lower requirements for the experts' fees owing to a lower average monthly rate based on changes in the composition of the Group of Experts, and the removal of provision for satellite imagery because the required images will be obtained through a geospatial database subscription. The decrease is offset in part by a higher percentage of common staff costs based on recent expenditure patterns and a new requirement for a subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services.

2. Panel of Experts on the Sudan

(\$1,132,600)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

25. The Panel of Experts on the Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate is defined in Security Council resolution [1591 \(2005\)](#). The sanctions regime is one of the tools used by the Council to address the conflict in Darfur and is aimed at preventing threats to the stability in Darfur and the region, towards a peaceful settlement of the conflict in Darfur. In its resolution [2725 \(2024\)](#), the Council extended the mandate of the Mission until 12 March 2025.

Programme of work

Objective

26. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Sudan, which includes an arms embargo, an asset freeze and a travel ban, as well as to report on the possible threats to the peace and stability of Darfur, including the current conflict.

Strategy and external factors for 2025

27. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1591 \(2005\)](#) concerning the Sudan.
28. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the Sudan sanctions regime.
29. With regard to cooperation with other entities, the Panel of Experts cooperates with, among others, Member States and the African Union.
30. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the Office for the Coordination of Humanitarian Affairs, the United Nations Children's Fund and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, UNDP and the World Food Programme (WFP).
31. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Committee received updated information on Darfuri armed groups in Darfur and Libya and their integration into security forces in accordance with the Juba Peace Agreement

32. In 2023, the Panel of Experts reported on the positioning of the Darfurian armed groups in the current conflict, identified new arms supply routes of those groups running through Chad, Libya and South Sudan, and analysed financing of the conflict. The Panel also monitored the military operations and activities of the Sudanese Armed Forces and the Rapid Support Forces and determined that, in 2023, Darfur experienced its worst violence since 2005.
33. Progress towards the objective is presented in the performance measure below (see table 8).

Table 8
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Security Council and the Committee received updated information regarding the peace process and Darfuri armed groups, their financing and their role in destabilizing the country and the region	Security Council and the Committee received updated information on Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Peace Agreement	Security Council and the Committee received updated information on the Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Peace Agreement
With that information, the Committee issued guidance to Member States on the implementation of the sanctions regime and convened a meeting with the Sudan and regional States on the implementation of the sanctions measures		

Planned result for 2025

Updated information on the ongoing conflict in Darfur and its impact on the wider region

Programme performance in 2023 and target for 2025

34. In 2023, the work of the Panel of Experts contributed to enhancing the Committee's and the Security Council's understanding of the Darfuri armed groups' activities in Darfur and Libya, of possible threats to peace and stability of Darfur and of the impact of the wider conflict in the Sudan.

Lessons learned and planned change

35. The lesson for the Panel of Experts was the need to adapt its investigations owing to the security situation relating to the outbreak of violence in the Sudan in April 2023. In applying the lesson, the Panel will report on the conflict, on peace initiatives to stop the ongoing conflict in Darfur and on possible outcomes within the parameters of the sanctions regime on Darfur.
36. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 9).

Table 9
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Security Council and the Committee received reporting from the Panel of Experts on activities of Darfuri armed groups in Libya and the Sudan	Security Council and the Committee received reporting from the Panel of Experts on activities of Darfuri armed groups in Libya and the Sudan	Security Council and the Committee received updated information on the Darfuri armed groups in Darfur and Libya and their integration	Security Council and the Committee receive updated information on the Darfuri armed groups in Darfur and Libya and their integration following the signing of the Juba Peace Agreement, and information on the impact of the wider conflict in the Sudan on Darfur	Security Council and the Committee receive updated information on the situation in Darfur, on Darfuri armed groups and on implementation of possible peace initiatives to address the current conflict in the Sudan

Deliverables

Approved 2024	–	–	–	–	–	–	1	–	–	–	1	–	–	–	–	–	–	1
Proposed 2025	–	–	–	–	–	–	1	–	–	–	1	–	–	–	–	–	–	1
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

38. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,132,600 (net of staff assessment) and would provide for the salaries and common staff costs (\$212,900) for the continuation of one post (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$919,700) comprising expert fees (\$589,300) and travel (\$235,000) of the five experts, official travel of staff (\$15,900) and other operational and

logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$79,500).

39. For 2025, no change is proposed to the number and level of posts for the Panel of Experts. A vacancy rate of zero per cent has been applied to the staff costs on the basis of the average vacancy rate in 2023 and the actual vacancy rate in March 2024.
40. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to lower requirements for experts' fees owing to a change in the composition of the Panel of Experts, reduced requirement for rental of premises based on the application of the most recent standard rate, and the removal of provision for satellite imagery because the required images will be obtained through a geospatial database subscription. The decrease is offset in part by higher requirements under civilian personnel costs, attributable mainly to a higher post adjustment multiplier and the application of a higher percentage of common staff costs based on recent expenditure patterns and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services.

3. Support to the Security Council Committee established pursuant to resolution 1718 (2006)

(\$591,300)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

41. While the Security Council did not renew the mandate of the Panel of Experts on the Democratic People's Republic of Korea beyond 30 April 2024, the sanctions regime concerning the country remains in place. Its aim is to ensure that the Democratic People's Republic of Korea abandons all nuclear weapons and its existing nuclear programme, as well as any other existing weapons of mass destruction and ballistic missile programmes, in a complete, verifiable and irreversible manner.
42. The sanctions regime concerning the Democratic People's Republic of Korea is the most comprehensive and complex of all United Nations sanctions regimes in effect. It includes 26 sanctions measures. In addition to an arms embargo and an embargo relating to nuclear, ballistic missile and other weapons of mass destruction programmes, a travel ban and/or asset freeze on designated individuals and entities, it includes a range of maritime provisions for designating vessels for involvement in prohibited activities and restrictions on various commodity transfers, such as refined petroleum products, minerals, metals, heavy machinery, transportation vehicles, luxury goods, seafood, textiles and more. It also includes restrictions on transportation and on financial services, as well as on overseas workers. Furthermore, to ensure that the measures that it imposed do not have adverse humanitarian consequences for the civilian population, the Security Council adopted a wide range of humanitarian and other exemptions.
43. The Security Council Committee established pursuant to resolution 1718 (2006) will continue to oversee the implementation of the sanctions regime. The mandate of the Committee includes:
 - (a) Examining and taking appropriate action on information regarding alleged violations of sanctions measures;
 - (b) Seeking from all States information regarding the actions taken by them to implement effectively the sanctions measures and whatever further information it may consider useful;
 - (c) Considering and deciding on notifications and requests for exemptions from the sanctions measures;
 - (d) Reviewing reported violations and taking action, as appropriate, including through designating individuals and entities meeting the listing criteria as contained in the relevant resolutions;
 - (e) Promulgating guidelines, as may be necessary, to facilitate the implementation of the measures imposed pursuant to resolution 1718 (2006);
 - (f) Intensifying efforts to promote the full implementation of the relevant resolutions and presidential statements;
 - (g) Examining the Member States' reports submitted pursuant to relevant resolutions;
 - (h) Reporting every 90 days to the Security Council;
 - (i) Conducting outreach activities.
44. The support of the Secretariat will continue to be required in all areas of the Committee's mandate, including in specific areas in which the Secretariat has been mandated by the Security Council.

Moreover, the significant workload of the Committee is expected to increase in 2025, including as a result of the Chair's intention to increase the number of meetings to be organized. Without a Panel of Experts, more Member States are expected to liaise directly with the Committee for guidance on or assistance in implementing provisions of relevant resolutions. The Committee is expected to receive a greater volume of information on alleged violations of the sanctions measures, which was previously communicated to the Panel of Experts. In addition, the Chair and its Committee may undertake increased outreach activities to promote better understanding and implementation of the relevant resolutions, including of the various exemptions processes. Moreover, the anticipated reopening of the borders of the Democratic People's Republic of Korea, closed since the beginning of the coronavirus disease (COVID-19) pandemic, is expected to lead to a significant increase in humanitarian and other exemption requests being submitted to the Committee.

45. The increased workload for the Chair and the Committee will require the Secretariat to possess sufficient capacity to provide timely substantive and administrative support to the Committee and its Chair. In general, this support encompasses organizing and staffing the meetings of the Committee, managing all incoming and outgoing communications of the Committee and assisting the Chair in corresponding with Member States on behalf of the Committee. It will also include supporting the Committee's awareness-raising activities, which may necessitate the travel of the Chair and Committee members. Moreover, it involves assisting in the preparation of proposed designations, delisting or amendments to the Committee sanctions lists; updating and maintaining the website of the Committee and the Committee sanctions lists, including its vessels list, in the six official languages; maintaining the informal Korean-language version of the list of designated entities and individuals; assisting the Committee with respect to specific measures on designated vessels; and updating and maintaining information on the supply, sale or transfer of all refined petroleum products on the Committee website on a real-time basis.
46. Furthermore, the Secretariat may be tasked by the Committee with specific responsibilities previously entrusted to the Panel of Experts through the Committee's annual programme of work. For example, the Committee may decide to call upon the Secretariat to assist in responding to information requests from Member States on the various sanctions measures and their exemptions, which had previously been handled by the Panel.

Programme of work

Objective

47. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic People's Republic of Korea, which includes an arms embargo, an embargo relating to nuclear, ballistic missile and other weapons of mass destruction programmes, an asset freeze, a travel ban, maritime and financial measures, a ban on petroleum products and crude oil, a coal ban and sanctions measures in other sectoral areas.

Strategy and external factors for 2025

48. To contribute to the objective, the mission will continue to support the work of the Security Council and the Committee in relation to the implementation of the sanctions regime with regard to the Democratic People's Republic of Korea.
49. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee conducive to overseeing and promoting the full implementation of the Council sanctions measures concerning the Democratic People's Republic of Korea.
50. With regard to inter-agency coordination and liaison, the mission will continue to cooperate with the resident coordinator's office and the Office for the Coordination of Humanitarian Affairs and other United Nations agencies carrying out humanitarian assistance and relief activities in the Democratic

People's Republic of Korea, including the Food and Agriculture Organization of the United Nations, the United Nations Population fund, the United Nations Children's Fund, WFP and the World Health Organization, as well as other non-United Nations agencies carrying out such activities. The mission will also continue to cooperate with other United Nations and non-United Nations entities carrying out activities involving the Democratic People's Republic of Korea in guiding them through the intricate sanctions measures and exemption procedures in place to ensure sanctions compliance. In the context of safety and security, information technology security and logistics, the mission cooperates with the Department of Safety and Security and the Office of Information and Communications Technology.

51. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States will comply with the resolutions of the Security Council and continue to cooperate with the sanctions committee;
 - (b) The Chair and the Committee are adequately supported to perform their functions as mandated by the Security Council.

Programme performance in 2023

Committee continues to receive assistance to improve sanctions implementation

52. In 2023, the mission provided administrative, procedural and substantive support to the Security Council, the Committee, Member States, United Nations entities and other international, regional, subregional and non-governmental organizations on various sanctions measures in place in relation to the Democratic People's Republic of Korea, and exemption and notification procedures.
53. The above-mentioned work contributed to the Committee's and Member States' and other relevant actors' enhanced understanding of the sanctions regime and enabled appropriate action, including the Committee informing Member States of existing humanitarian exemptions.
54. Progress towards the objective is presented in the performance measure below (see table 13).

Table 13

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support on sanctions implementation through the mission's guidance, Committee meetings, the Chair's periodic reports to Security Council and the Committee's open briefings to Member States	Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support on sanctions implementation through the mission's guidance, Committee meetings, the Chair's periodic reports to Security Council and the Committee's open briefings to Member States	Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support on sanctions implementation, including exemption and notification procedures, through the mission's guidance, Committee meetings, the Chair's periodic reports to Security Council and the Committee's open briefings to Member States

Planned result for 2025

Maintaining the continuous support to the Security Council Committee established pursuant to resolution 1718 (2006)

Programme performance in 2023 and target for 2025

55. In 2023, the mission's work contributed to the effectiveness of the work of the Committee that oversees the implementation of the most complex United Nations sanctions regime. The Committee met the planned target of improved implementation and compliance at the international and national levels, and enhanced understanding of the complex sanctions measures and the procedures in place for exemption requests and notifications to the Committee.

Lessons learned and planned change

56. The lesson for the mission was the need to raise awareness of sanctions measures and encourage reporting by Member States on the implementation of the sanctions regime, which includes 26 sanctions measures, for example, its restrictions on a large range of commodity transfers, on transportation services, on various areas within the financial sector, on overseas workers and on other proscribed activities. In applying the lesson, the mission will reach out to Member States and other stakeholders through open and regional group briefings, special meetings on important thematic and regional topics and on Member States' implementation challenges, and other outreach activities to enable effective implementation by Member States and to enhance their understanding of the sanctions measures and the Committee's procedures relating to exemption requests and notifications.
57. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 14).

Table 14

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Enhanced understanding of the complex sanctions regime and improved implementation at the international and other levels and thorough national implementation reports	Enhanced understanding of the complex sanctions regime and improved implementation at the international and other levels	Enhanced understanding of the complex sanctions regime and improved implementation at the international and other levels	Security Council and the Committee are supported in carrying out their mandate in overseeing the implementation of sanctions by providing guidance to Member States and other relevant actors within and outside United Nations system	Continuous support provided to the Security Council and the Committee to oversee the implementation of resolution 1718 (2006) and subsequent resolutions, through provision of guidance to Member States and other relevant actors within and outside United Nations system

Deliverables

58. Table 15 lists all deliverables of the mission.

Table 15
Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>

^a Comprising one Principal level.

59. The proposed resource requirements for the mission for 2025 amount to \$591,300 (net of staff assessment) and would provide for salaries and common staff costs (\$507,400) for the continuation of three posts (1 P-4, 1 P-3 and 1 General Service (Principal level)) to provide substantive and administrative support to the sanctions committee in relation to the sanctions regime, and operational costs (\$83,900) comprising official travel of staff (\$17,300) and other operational and logistical support requirements, including the rental of premises, communications and information technology services and other supplies, services and equipment (\$66,600).
60. Following the non-renewal of the Panel of Experts and in the light of the revised planning assumptions regarding the work of the Committee and the Secretariat, it is proposed that the following three posts be maintained:
- One Political Affairs Officer (P-4) to provide substantive support to the Chair, members of the Committee and other Member States, United Nations senior leadership and the United Nations system at large on all matters relating to the implementation of the 26 sanctions measures, including the various exemption and notification processes. In this regard, s/he will assist the Chair and the Committee in:
 - Managing the implementation of the sanctions measures. This includes reviewing and preparing draft response to Member States and providing information on alleged violations of the sanctions measures or on their implementation of and compliance with the sanctions measures;
 - Managing all the exemption provisions of the regime. This includes providing substantive guidance to Member States, international and non-governmental organizations carrying out humanitarian assistance and relief activities, as well as to organizations conducting

activities in or with the participation of the Democratic People's Republic of Korea; reviewing their requests for exemptions and notifications to the Committee to ensure compliance with the existing Committee procedures, and providing substantive advice to the Chair and the Committee regarding the approval of such exemption requests; and providing substantive guidance regarding the use of correspondent accounts for the transfer of funds to the Democratic People's Republic of Korea and the sale or transfer of all of refined petroleum products to the country;

- (iii) Its outreach activities or in undertaking such activities on behalf of the Chair and the Committee, when requested. This may include drafting substantive briefings, presentations and reports of the Chair; assisting the Chair in corresponding with Member States concerning the provision of general guidance regarding sanctions compliance; and the preparation and updating of all implementation assistance notices and other guidance materials posted on the Committee's website;
- (b) One Political Affairs Officer (P-3) to provide procedural and administrative support to the sanctions committee and its Chair. In this regard, s/he will support the Chair and the Committee in:
 - (i) Providing procedural guidance and substantive support in formal and informal meetings of the Committee;
 - (ii) Drafting speaking notes of the Chair for Committee meetings and meetings of the Security Council;
 - (iii) Receiving and processing all incoming and draft outgoing communications of the Committee;
 - (iv) Managing the list established and maintained by the Security Council established pursuant to resolution [1718 \(2006\)](#) with respect to individuals, entities, groups or undertakings. This work includes the preparation of designation and delisting proposals submitted by Member States to the Committee or amendments proposed to the Committee's lists of designated individuals and entities and lists of vessels; updating and keeping the Committee sanctions lists, including its vessels list, up to date at all times in the six official languages, as well as maintaining up to date the informal Korean-language version of the list of designated entities and individuals; and supporting the annual review of the Committee's sanctions lists;
 - (v) Keeping the website of the Committee up to date in the six official languages. This includes all relevant material on the website of the Committee, in particular regarding the applicable exemptions in effect and specific time-sensitive information that has to be available in real-time, such as the information on the supply, sale or transfer of all refined petroleum products (as directed by the Council in paragraph 5 of its resolution [2397 \(2017\)](#)¹ or the Committee exemption approval letters for assistance or relief activities in the Democratic People's Republic of Korea, which are central to the ability of Member States to effectively implement the sanctions regime;
- (c) One General Service (Principal Level) staff member to provide the following substantive research and administrative support to the Chair and the Committee in the following areas:

¹ The Security Council, in paragraph 5 of its resolution [2397 \(2017\)](#), directed the Committee Secretary to notify all Member States when the aggregate amount of refined petroleum products sold, supplied or transferred to the Democratic People's Republic of Korea reached 75, 90 or 95 per cent of the yearly aggregate amount of 500,000 barrels during a period of 12 months. This work includes the conversion of information received from Member States using the Committee-approved conversion rate, to the extent necessary, and ensures that the total amount of refined petroleum products sold, supplied or transferred to the Democratic People's Republic of Korea by month and by source country is updated on a real-time basis on the Committee website. The Council, in directing the performance of this function, also, in paragraph 5 of its resolution, requested the Secretary-General to make the arrangements necessary to that effect and provide additional resources for that work.

-
- (i) Catalogue, digitize and securely archive all the research and investigative material, unpublished reports and documents relating to the substantive work of the former Panel of Experts, which spans 15 years, to ensure that this material is available to the Chair and Committee members, upon request, to support their work;
 - (ii) Provide research support to the Chair and the Committee, as well as Member States, requesting support on any issue specific to the 1718 sanctions regime that had been previously worked on by the Panel of Experts. This is necessary, given the abrupt nature of the non-renewal of the Panel's mandate;
 - (iii) Design and generate reports, statistical tables, charts, graphs and other background materials and notes for the Chair and the Committee in furtherance of their work;
 - (iv) Provide administrative support (e.g., conference organization, circulation of documents and note-taking) in the organization of Committee meetings, briefings by the Chair and other outreach activities, including providing administrative support to the travel of the Chair and Committee members, as required;
 - (v) Track all activities and documents of the Committee to ensure that they are managed, stored and archived, and draft the annual report on the work of the Committee to the Security Council.
61. Owing to the mandate expiration of the Panel of Experts on 30 April 2024, the following changes are proposed to the staffing for the mission for 2025:
 - (a) Abolishment of one Political Affairs Officer (P-3) in New York;
 - (b) Abolishment of two General Service staff (Other level) staff in New York.
 62. A vacancy rate of 13.9 per cent has been applied to the staff costs on the basis of the average vacancy rate in 2023.
 63. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable to lower requirements under civilian personnel costs, resulting from the proposed abolishment of three posts, the application of a lower percentage of common staff costs and a higher vacancy rate, as well as lower requirements under operational costs due to the expiration of the mandate of the Panel of Experts, resulting in the discontinuation of related provisions.

4. Panel of Experts on Libya

(\$1,376,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

64. The Panel of Experts on Libya is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and measures in relation to attempts to illicitly export petroleum, and for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [1973 \(2011\)](#), [2009 \(2011\)](#) and [2017 \(2011\)](#), and renewed by its subsequent resolutions, including, most recently, [2701 \(2023\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Libya, including obstructing or undermining the successful completion of the political transition. In its resolution [2684 \(2023\)](#), the Council requested the Secretary-General to report on the implementation of the arms embargo on the high seas off the coast of Libya within 6 months and 11 months after the adoption of the resolution. The Secretary-General submitted his first report on 30 November 2023 ([S/2023/936](#)) and the second on 30 April 2024 ([S/2024/352](#)).

Programme of work

Objective

65. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Libya, which includes an arms embargo, an asset freeze, a travel ban and measures in relation to attempts to illicitly export petroleum.

Strategy and external factors for 2025

66. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and to the Security Council Committee established pursuant to resolution [1970 \(2011\)](#) concerning Libya.
67. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
68. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States and the European Union, in particular its military operation in the Mediterranean.
69. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Support Mission in Libya and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, the Mission and UNDP.
70. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

- (b) The security situation allows the Panel of Experts to conduct missions in the field.

Programme performance in 2023

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo

71. In its final report (S/2023/673), the Panel of Experts highlighted that armed groups had an impact on the security situation, influenced national politics, controlled aspects of socioeconomic life, conducted criminal activities, violated international humanitarian and human rights laws and committed human rights abuses. It provided a detailed analysis of maritime, air and ground violations of the arms embargo, along with findings on the implementation of the targeted sanctions measures imposed on entities and individuals. The Panel also recommended that the Committee update the list entries of several individuals on its sanctions list and consider the listing of additional individuals meeting the designation criteria.
72. Progress towards the objective is presented in the performance measure below (see table 18).

Table 18

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Security Council and the Committee continued to receive information on instances of non-compliance with the arms embargo, and the mission provided further information on individuals and entities acting in violation of the arms embargo	Security Council and the Committee continued to receive information on instances of non-compliance with the arms embargo and considered follow-up action to address violations of the arms embargo	Security Council and the Committee received information on instances of non-compliance with the arms embargo and considered follow-up action on reported arms embargo violations, and possible listings of individuals and entities

Planned result for 2025

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo and human rights abuses

Programme performance in 2023 and target for 2025

73. In 2023, the work of the Panel of Experts contributed to the implementation of this sanctions regime, meeting the planned target of provision of information on individuals and entities acting in violation of the arms embargo. This enabled the Security Council and the Committee to consider follow-up action in response to such violations, including the possible listing of additional individuals and entities.

Lessons learned and planned change

74. The lesson for the Panel of Experts was the need for improved coordination and information-sharing among the Panel, the Government of Libya, relevant international bodies and regional actors. In applying the lesson, the Panel will continue to use relevant communication technologies to enhance information exchange and improve cooperation among all relevant stakeholders.
75. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 19).

Table 19
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>

Operational costs	1 176.4	1 021.0	1 153.5	1 201.7		48.2
Total (net of staff assessment)	1 410.4	1 178.3	1 456.2	1 376.4		(79.8)

Table 22

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
Approved 2024	–	–	–	–	–	–	1	–	–	1 ^a	2	–	–	–	–	–	–	2
Proposed 2025	–	–	–	–	–	–	1	–	–	1 ^a	2	–	–	–	–	–	–	2
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

77. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,376,400 (net of staff assessment) and would provide for salaries and common staff costs (\$174,700) for the continuation of two posts (1 P-3 and 1 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,201,700) comprising expert fees (\$724,000) and travel (\$333,800) of the six experts, official

travel of staff (\$16,800) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$127,100).

78. For 2025, no change is proposed to the number and level of posts for the Panel of Experts. A vacancy rate of 45.8 per cent has been applied to the staff costs on the basis of the average vacancy rate in 2023.
79. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable to lower requirements under civilian personnel costs, resulting from the application of a higher vacancy rate based on the actual average vacancy rate of 2020, compared with that applied in the 2024 budget, as well as lower requirements for the expert fees owing to a change in the composition of the Panel of Experts, and the removal of the provision for satellite imagery because the required images will be obtained through a geospatial database subscription. The decrease is offset in part by higher common staff costs based on recent expenditure patterns and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services.

5. Panel of Experts on the Central African Republic

(\$1,300,700)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

80. The Panel of Experts on the Central African Republic is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution [2127 \(2013\)](#), and renewed in its subsequent resolutions, including, most recently, [2693 \(2023\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Central African Republic. On 15 May 2023, following a request by the Council in its resolution [2648 \(2022\)](#), the Secretary-General provided an update ([S/2023/356](#)) on progress achieved by the authorities of the Central African Republic on key benchmarks established in the statement of the President of the Council dated 9 April 2019 ([S/PRST/2019/3](#)). On 27 July 2023, by its resolution [2693 \(2023\)](#), the Council requested the Secretary-General to conduct, no later than 15 May 2024, a further assessment of the progress achieved by the authorities of the Central African Republic on the key benchmarks mentioned above.

Programme of work

Objective

81. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Central African Republic, which includes a territorial arms embargo that no longer applies to the security forces of the Central African Republic, as well as an asset freeze and a travel ban.

Strategy and external factors for 2025

82. To contribute to the objective, the Panel of Experts will continue to provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2127 \(2013\)](#) concerning the Central African Republic.
83. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime, in particular by non-governmental entities and individuals providing support to armed groups or criminal networks through the illicit exploitation of or trade in natural resources, including diamonds, gold, wildlife and wildlife products in or from the Central African Republic.
84. With regard to cooperation with other entities, in the context of information-sharing the Panel of Experts cooperates with, among others, Member States, the African Union, the European Union Common Security and Defence Policy Advisory Mission in the Central African Republic, the Economic Community of Central African States, the International Conference on the Great Lakes Region and the Central African Economic and Monetary Community.
85. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Multidimensional Integrated Stabilization Mission in the Central African

Republic, the United Nations Institute for Disarmament Research, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, the Mission and UNDP.

86. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Better understanding by the Security Council and the Committee of the illicit exploitation of and trafficking in natural resources

87. In accordance with its mandate, the Panel of Experts reported on the support provided to armed groups or criminal networks through the illicit exploitation of and trafficking in natural resources, which continue to fuel the conflict in the Central African Republic. In particular, gold mining sites have become targets of attacks by armed groups. The Panel noted that the gold trade from the Central African Republic was increasing and had surpassed the diamond trade in value. The Panel delivered on its objective, although delays in the appointment of experts narrowed the comprehensiveness of its reporting.
88. Progress towards the objective is presented in the performance measure below (see table 23).

Table 23

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Security Council and the Committee received evidence on violations of the sanctions measures and considered designating individuals and entities for natural resources trafficking	Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and arms embargo violations, and acted on Panel of Experts recommendations	Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and arms embargo violations

Planned result for 2025

Better understanding by the Security Council and the Committee of the illicit exploitation of and trafficking in natural resources and sexual violence in conflict

Programme performance in 2023 and target for 2025

89. The work of the Panel of Experts contributed to the full implementation of the sanctions regime concerning the Central African Republic, which met the planned target. The Panel called upon the Committee to consider designating individuals involved in sexual and gender-based violence, arms trafficking and incitement to violence on the basis of previous statements of case provided by the Panel. The Panel also documented arms embargo violations involving the transfer of military aircraft and vehicles to the Central African Republic, as well as acts of sexual violence.

Lessons learned and planned change

90. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods in an increasingly challenging security environment. In applying this lesson, the Panel will continue to utilize relevant communication technologies to conduct research, including the use of databases and subscriptions procured by the United Nations, and work closely with relevant United Nations bodies.
91. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 24).

Table 24
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Security Council and the Committee received more detailed information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council and the Committee received comprehensive information on the illicit exploitation of and trafficking in natural resources, with recommendations for action	Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and acted on the Panel's recommendations	Security Council and the Committee receive further updated relevant information on the illicit exploitation of and trafficking in natural resources and sexual violence in conflict and consider designating individuals and entities	Security Council and the Committee receive further updated relevant information on the illicit exploitation of and trafficking in natural resources and sexual violence in conflict, and consider designating individuals and entities

Deliverables

92. Table 25 lists all deliverables of the mission.

Table 25
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	8	3	8	4
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	8	3	8	4
Substantive services for meetings (number of three-hour meetings)	10	8	10	10
2. Meetings of sanctions committee	8	6	8	8
3. Chair's briefings to Member States	2	2	2	2

Military and police personnel costs	–	–	–	–		–
Civilian personnel costs	241.0	232.0	290.0	322.4		32.4
Operational costs	952.2	658.6	991.6	978.3		(13.3)
Total (net of staff assessment)	1 193.2	890.6	1 281.6	1 300.7		19.1

Table 27
Human resources

	<i>International staff</i>											<i>National staff</i>			<i>United Nations Volunteers</i>			<i>Total</i>
	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>	<i>Subtotal</i>	
Approved 2024	-	-	-	-	-	-	1	-	-	1 ^a	2	-	-	-	-	-	-	2
Proposed 2025	-	-	-	-	-	-	1	-	-	1 ^a	2	-	-	-	-	-	-	2
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

93. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,300,700 (net of staff assessment) and would provide for salaries and common staff costs (\$322,400) for the continuation of two posts (1 P-3 and 1 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$978,300) comprising expert fees (\$592,500) and travel (\$248,500) of the five experts, official travel of staff (\$33,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$104,100).
94. For 2025, no change is proposed to the number and level of posts. A vacancy rate of zero per cent has been applied to the posts on the basis of the actual vacancy rate in March 2024.
95. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to higher requirements under civilian personnel costs, resulting from a higher post adjustment multiplier and the application of a lower percentage of vacancy rate compared with 2024, the application of a higher percentage of common staff costs based on expenditure patterns, and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by lower requirements for experts' fees resulting from a change in the composition of the Panel of Experts and the removal of provision for satellite imagery because the required images will be obtained through the geospatial database subscription.

6. Panel of Experts on Yemen

(\$2,389,000)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

96. The Panel of Experts on Yemen is responsible for monitoring the implementation of the asset freeze, travel ban and targeted arms embargo on designated individuals and entities, as well as for providing information relevant to the potential designation of such individuals and entities. The mandate is defined in Security Council resolution [2140 \(2014\)](#), as modified in resolution [2216 \(2015\)](#) and extended, most recently, in resolution [2707 \(2023\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Yemen.

Programme of work

Objective

97. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Yemen, which includes a targeted arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2025

98. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2140 \(2014\)](#).
99. The above-mentioned work is expected to result in the enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
100. With regard to cooperation with other entities, in the context of information-sharing the Panel of Experts cooperates with, among others, Member States, the Combined Maritime Forces and the International Criminal Police Organization (INTERPOL).
101. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the World Bank, the International Monetary Fund, WFP, the International Organization for Migration, the United Nations Verification and Inspection Mechanism for Yemen and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Office of the Special Envoy of the Secretary-General for Yemen, the Department of Safety and Security and UNDP.
102. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Further enhanced awareness of the trafficking in arms and components

103. In 2023, the Panel of Experts reported on large-scale violations of the targeted arms embargo, involving heavy weaponry, improvised explosive devices, small arms and vehicles converted for military use. The materiel analysed by the Panel showed a reinforcement of the Houthis' military capacity. The Panel also noted the flourishing of black-market sales of small arms and light weapons in Houthi-controlled areas, including man-portable air-defence systems. The Panel continued to raise awareness of the continuous flow of arms and related materiel, including through black-market activities, in the country.
104. Progress towards the objective is presented in the performance measure below (see table 28).

Table 28

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Security Council and the Committee received detailed information from the Panel of Experts on the commercially available components used to assemble weapons systems and on violations of human rights and international humanitarian law	Security Council and the Committee awareness of the use of commercially available civilian components in some military applications in Yemen resulted in enhanced vigilance with regard to the export of such items	Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking of arms and related material

Planned result for 2025

Further enhanced awareness of the trafficking in arms and commercial components for use in certain military applications

Programme performance in 2023 and target for 2025

105. In 2023, the work of the Panel of Experts contributed to the full implementation of the sanctions regime concerning Yemen, which met the planned target. The Panel will continue to provide information on the trafficking in arms and commercially available components used in certain military applications.

Lessons learned and planned change

106. The lesson for the Panel of Experts was the need to further enhance information collection on weapons and materiel used by the Houthis. In applying the lesson, the Panel will continue to engage with all relevant stakeholders to conduct inspections, collect data and use databases and subscriptions procured by the United Nations to strengthen analysis.
107. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 29).

Table 29
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Security Council and the Committee received detailed information on the trafficking in arms and commercially available components used in certain military applications in Yemen	Security Council and the Committee awareness of the use of commercially available civilian components in certain military applications in Yemen resulted in enhanced vigilance with regard to the export of such items	Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee receive comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee receive comprehensive information from the Panel of Experts on the trafficking in arms and related materiel

Deliverables

108. Table 30 lists all deliverables of the mission.

Table 30

	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>	<i>Subtotal</i>	
Approved 2024	–	–	–	–	–	–	1	–	5	–	6	–	2	2	–	–	–	8
Proposed 2025	–	–	–	–	–	–	1	–	5	–	6	–	2	2	–	–	–	8
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

109. The proposed resource requirements for the Panel of Experts for 2025 amount to \$2,389,000 (net of staff assessment) and would provide for the salaries and common staff costs (\$1,045,000) for the continuation of eight posts (1 P-3, 5 Field Service and 2 Local level) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,344,000) comprising expert fees (\$705,900) and travel (\$232,500) of the five experts, official travel of staff (\$65,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical services and other supplies, services and equipment (\$340,300).

110. For 2025, no change is proposed to the total number of posts for the Panel of Experts. A vacancy rate of 13.9 per cent has been applied to international staff costs, while national staff costs are based on the assumption of full incumbency, both based on the average vacancy rates in 2023.

111. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to higher requirements under civilian personnel costs, resulting from a higher post adjustment multiplier and the application of a higher percentage of common staff costs for international staff posts based on recent expenditure patterns, as well as the increased requirements for experts' fees resulting from higher average monthly fees owing to a change in the composition of the Panel of Experts, and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by the lower salaries for international staff owing to the application of a higher vacancy rate of 13.9 per cent compared with the 8.4 per cent applied in 2024 and removal of the provision for satellite imagery because the required images will be obtained through the geospatial database subscription.

7. Panel of Experts on South Sudan

(\$1,435,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

112. The Panel of Experts on South Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution [2206 \(2015\)](#), and renewed in its subsequent resolutions, including, most recently, [2683 \(2023\)](#). The sanctions regime is aimed at, but not limited to, targeting spoilers of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan, which was signed on 12 September 2018. On 15 April 2024, following a request by the Council in its resolution [2683 \(2023\)](#), the Secretary-General provided the Council with an assessment of the progress achieved on the key benchmarks established in resolution [2577 \(2021\)](#) (S/2024/309).

Programme of work

Objective

113. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning South Sudan, which includes a territorial arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2025

114. To contribute to the objective, the Panel of Experts will provide updated information, including on the potential impacts of elections currently scheduled in December 2024 on the overall situation in South Sudan, to the Security Council and the Security Council Committee established pursuant to resolution [2206 \(2015\)](#) concerning South Sudan.
115. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
116. With regard to cooperation with other entities, in the context of information-sharing the Panel of Experts cooperates with, among others, Member States, the African Union and the Intergovernmental Authority on Development.
117. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Mission in South Sudan, the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel cooperates with the Mission, the Department of Safety and Security and UNDP.

118. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Committee members receive an update on progress achieved in the implementation of the Revitalized Agreement and on actions that threaten the peace, security and/or stability of South Sudan

119. The Panel of Experts provided the Security Council and the Committee with information and strategic analysis. The Panel reported on the slow pace of progress in the implementation of the Revitalized Agreement, especially its chapter II, on transitional security arrangements, as well as on the continued political, security and humanitarian challenges threatening the peace, security and/or stability of South Sudan. The Panel submitted for the Committee's consideration two statements of case regarding two individuals who had committed serious abuses of human rights and violations of applicable international human rights law or international humanitarian law.
120. Progress towards the objective is presented in the performance measure below (see table 33).

Table 33

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Security Council received updated information on the progress achieved in implementing the Revitalized Agreement and established benchmarks to review the arms embargo	Security Council and the Committee received updated information on the progress of implementation of the Revitalized Agreement and the benchmarks for the adjustment of the arms embargo	Security Council and the Committee received updated information on the progress of implementation of the Revitalized Agreement and reviewed the arms embargo on the basis of the progress achieved on the key benchmarks

Planned result for 2025

Update on the implementation of the Revitalized Agreement and on the progress of implementation of the arms embargo key benchmarks

Programme performance in 2023 and target for 2025

121. In 2023, the work of the Panel of Experts contributed to the full implementation of the sanctions regime concerning South Sudan, which met the planned target. This work contributed to the decision of the Security Council to ease the arms embargo through its resolution [2683 \(2023\)](#) by exempting the supply, sale or transfer of non-lethal military equipment for the security forces of the South Sudan. In the same resolution, the Council reiterated its readiness to further review the arms embargo measures on the basis of the progress achieved on the key benchmarks.

Lessons learned and planned change

122. The lesson for the Panel of Experts was the continued need to collect and validate information for the preparation of its reports, given the difficulty in gaining access to some individuals, facilities and areas in South Sudan owing to the security situation. In applying the lesson, the Panel continued

to use relevant communication technologies, databases and subscriptions provided by the United Nations, as well as confidential sources in locations accessible to the Panel, including outside of South Sudan.

123. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 34).

Table 34
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Security Council and the Committee received updated information on the progress achieved in implementing the Revitalized Agreement and established benchmarks to review the arms embargo	Security Council and the Committee received information on the progress achieved on the established key benchmarks and considered the review of the arms embargo	Security Council and the Committee reviewed the arms embargo on the basis of updated information regarding progress achieved on the established key benchmarks	Security Council and the Committee further review the arms embargo based on updated information regarding progress in implementing the Revitalized Agreement as well as on the established key benchmarks	Security Council and the Committee further review the arms embargo on the basis of updated information regarding progress in implementing the Revitalized Agreement and on the established key benchmarks

Deliverables

124. Table 35 lists all deliverables of the Panel of Experts.

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

125. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,435,400 (net of staff assessment) and would provide for salaries and common staff costs (\$431,900) for the continuation of three posts (1 P-3 and 2 General Service (Other level)) to provide substantive,

administrative and security support in relation to the sanctions regime, and operational costs (\$1,003,500) comprising expert fees (\$583,200) and travel (\$267,400) of the five experts, official travel of staff (\$40,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$112,700).

126. For 2025, no change is proposed to the number and level of posts for the Panel of Experts. A vacancy rate of zero per cent has been applied to the staff costs on the basis of the actual vacancy rate in March 2024.
127. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to higher requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a lower vacancy rate of zero per cent compared with 30.5 per cent applied in 2024, higher requirements for the experts' fees resulting from a change in the composition of the Panel of Experts and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services.

8. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities

(\$6,162,800)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

128. The Analytical Support and Sanctions Monitoring Team, which supports the work of both the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, and the Security Council Committee established pursuant to resolution 1988 (2011), is responsible for assisting in and reporting on the implementation of the asset freezes, travel bans and targeted arms embargoes on designated individuals and entities. The mandate is derived from the priorities established in the relevant Council resolutions, including resolution 1267 (1999), and renewed in its subsequent resolutions, including, most recently, 2716 (2023). The sanctions regimes are aimed at strengthening the Council's response to threats to international peace and security caused by terrorist acts and at contributing to the peace, stability and security of Afghanistan.

Programme of work

Objective

129. The objective, to which this mission contributes, is to ensure the full implementation of sanctions regimes concerning Da'esh, Al-Qaida and the Taliban, which include targeted arms embargoes, asset freezes and travel bans.

Strategy and external factors for 2025

130. To contribute to the objective, the Monitoring Team will provide updated information to the Security Council, the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, and the Security Council Committee established pursuant to resolution 1988 (2011).
131. The above-mentioned work is expected to result in an enhanced capacity of the Council and the Committees to take follow-up action on alleged violations of the sanctions regimes.
132. With regard to cooperation with other entities, in the context of information-sharing the Monitoring Team cooperates with, among others, Member States, the International Air Transport Association, the International Civil Aviation Organization, the World Customs Organization the Financial Action Task Force and INTERPOL.
133. With regard to inter-agency coordination and liaison, the Monitoring Team cooperates with, among others, the Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism, the mission assisting the Security Council Committee established pursuant to resolution 1540 (2004), the

Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009), the United Nations Office on Drugs and Crime (UNODC), the United Nations Assistance Mission in Afghanistan, the United Nations Assistance Mission for Iraq and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Monitoring Team cooperates with the Department of Safety and Security, the Office of Information and Communications Technology, United Nations field missions and UNDP, as appropriate.

134. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Monitoring Team;
 - (b) The security situation allows the Monitoring Team to conduct missions, as needed.

Programme performance in 2023

Strengthening analysis capacities to follow an evolving threat

135. To assist in addressing the global terrorism threat posed by Da'esh and Al-Qaida and the threat posed by the Taliban to the peace, stability and security of Afghanistan, and to fully implement sanctions measures, the Monitoring Team submitted seven reports to the Security Council or the Committees in 2023 providing analysis of global terrorism threat and one report on the situation in Afghanistan. The Monitoring Team collected information through its engagement with Member States, regional organizations and other stakeholders and used databases and subscriptions procured by the United Nations to conduct research.
136. Progress towards the objective is presented in the performance measure below (see table 38).

Table 38

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Committees had comprehensive information on the terrorist threat and adjusted the sanctions regime, and the Committees considered exemptions, amendments to listings and new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban, and the Committees considered exemptions, amendments to listings and new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban, and the Committees considered exemptions, amendments to listings and new designations

Planned result for 2025

Enhanced analysis to follow an evolving threat

Programme performance in 2023 and target for 2025

137. Through its engagement with Member States and with other stakeholders, the Monitoring Team met the planned target. In 2023, three individuals and one entity were added to the Islamic State of Iraq and the Levant (Da'esh) and Al-Qaida sanctions list and two individuals were removed from that list. The Committees approved amendments to the existing entries of 157 individuals and 12 entities on their sanctions lists. In 2023, the Committees also approved exemptions from existing sanctions measures.

Lessons learned and planned change

138. The lesson for the Monitoring Team was the need to sustain in-person engagements, in addition to virtual meetings using relevant communication technology, with national authorities and regional organizations to gather sensitive and confidential information. In applying the lesson, the Monitoring Team will continue to plan its country visits, regional meetings and participation in multilateral meetings to sustain in-person discussions on sensitive and confidential issues with national authorities and regional organizations. In addition, the Monitoring Team will continue to use relevant databases and subscriptions procured by the United Nations to conduct research.
139. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 39).

Table 39
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>

Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

141. The proposed resource requirements for the Monitoring Team for 2025 amount to \$6,162,800 (net of staff assessment) and would provide for salaries and common staff costs (\$2,832,800) for the continuation of 19 posts (1 P-5, 4 P-4, 6 P-3 and 8 General Service (Other level)) to provide substantive and administrative support to the sanctions regimes, and operational costs (\$3,330,000) comprising expert fees (\$2,076,700) and travel of experts (\$401,700), official travel of staff (\$89,200) and other operational and logistical support requirements, including the rental of premises, communications and information technology services and other supplies, services and equipment (\$762,400).
142. For 2025, no change is proposed to the number and level of posts for the Monitoring Team. A vacancy rate of 17.5 per cent has been applied to the staff costs on the basis of the actual vacancy rate in March 2024.
143. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable to lower requirements under civilian personnel costs owing primarily to the application of a higher vacancy rate of 17.5 per cent compared with the 1.3 per cent applied in 2024 and reduced requirement for rental of premises based on the application of the most recent standard rate. The decrease is offset in part by higher requirements for the fees of the experts owing to a change in the composition of the Monitoring Team and a new requirement for the subscription to a new monitoring service that will enable experts to gain access to an extensive and complete database covering listed entities and individuals in local languages.

9. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)

(\$729,800)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

144. The Office of the Ombudsperson to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities is responsible for reviewing delisting requests from individuals or entities inscribed on the related sanctions list. The mandate is defined in Council resolution 1904 (2009), and it was renewed in its subsequent resolutions, including, most recently, 2610 (2021).

Programme of work

Objective

145. The objective, to which this mission contributes, is to provide an independent review of delisting requests of individuals, entities and undertakings on the Islamic State in Iraq and the Levant (Da'esh) and Al-Qaida sanctions list. In doing so, it ensures that listed individuals, entities and undertakings have access to fair and clear procedures for the administration of requests for removal (delisting) from the sanctions list.

Strategy and external factors for 2025

146. To contribute to the objective, the Office will fairly and expeditiously consider and process all requests for delisting and travel to interview each petitioner in person in the petitioner's country of residence, whenever possible.
147. The above-mentioned work is expected to result in informed decision-making by the Committee on the Ombudsperson's analysis and recommendation on the delisting request contained in a comprehensive report on each case.
148. With regard to cooperation with other entities, including in the context of information-sharing, the Office cooperates with, among others, Member States, the European Union, academic institutions, think tanks and international law associations.
149. With regard to inter-agency coordination and liaison, the Office cooperates with, among others, UNDP, OHCHR, the Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism, the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism, and the Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities. In the context of safety and security, information technology security and logistics, the Office cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

150. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Office;
 - (b) The security situation allows the Office to conduct missions, as needed.

Programme performance in 2023

Fair and expeditious review of delisting requests

151. In 2023, the Ombudsperson advanced the consideration of all petitions before the Office, which included the presentation of six cases to the Committee, the submission of five comprehensive reports and two interviews with petitioners. The Ombudsperson also undertook extensive inquiries and independent research to gather information on each petition, including among Member States and the Monitoring Team. A total of 4 new petitions were accepted by the Office in 2023, bringing the total number of petitions accepted by it since its inception to 109. The above-mentioned work contributed to the Committee receiving comprehensive reports from the Office in a timely manner.
152. Progress towards the objective is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of comprehensive reports submitted by the Ombudsperson to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities

Planned result for 2025

Ensuring fair and expeditious review of delisting requests

Programme performance in 2023 and target for 2025

153. In 2023, the Ombudsperson independently reviewed delisting requests of individuals, entities and undertakings on the Islamic State in Iraq and the Levant (Da'esh) and Al-Qaida sanctions list, which met the planned target of five comprehensive reports on the delisting request submitted to the Islamic State in Iraq and the Levant (Da'esh) and the Al-Qaida sanctions committee.

Lessons learned and planned change

154. The lesson for the Office was the need to adapt its investigative and research methods to take into account the increased complexity of information-gathering, in particular in the light of greater interconnections between completed and new cases and an increased number of repeated requests. In applying the lesson, the Office will continue to diversify its research methods, including using

relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations, as well as developing a database search tool.

155. Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure II).

Figure II

Performance measure: number of comprehensive reports submitted by the Ombudsman to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities by the Ombudsperson

Deliverables

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

157. The proposed resource requirements for the Office for 2025 amount to \$729,800 (net of staff assessment) and would provide for salaries and common staff costs (\$359,000) for the continuation of two posts (1 P-4 and 1 General Service (Other level)) to provide substantive and administrative support to the Office, and operational costs (\$370,800) comprising fees (\$229,600) and travel (\$28,400) of the Ombudsperson, official travel of staff (\$34,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology and other supplies, services and equipment (\$78,500).

158. For 2025, no change is proposed to the number and level of posts for the Office. A vacancy rate of zero per cent has been applied to staff costs on the basis of the actual vacancy rate in March 2024.
159. The increase in requirements proposed for 2025 compared with the appropriation for 2024 is attributable to increased requirements under civilian personnel costs resulting from a higher post adjustment multiplier and the application of a higher percentage of common staff costs, based on recent expenditure patterns. The increase is offset in part by reduced requirement for rental of premises based on the application of the most recent standard rate.

10. Implementation of Security Council resolution 2231 (2015)

(\$355,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

160. The mission is responsible for supporting the work of the Security Council and its Facilitator in relation to the implementation of resolution 2231 (2015) and as set forth in the note by the President of the Security Council of 16 January 2016 (S/2016/44). In its resolution 2231 (2015), the Council endorsed the Joint Comprehensive Plan of Action, urged its full implementation and called upon all Member States and regional and international organizations to support its implementation.
161. In addition, the restrictive measures established in annex B to resolution 2231 (2015) are aimed at improving transparency and creating an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action. The last of these restrictive measures (nuclear-related transfers and activities (through the procurement channel)) will expire in October 2025. Also foreseen in October 2025, provided that the provisions of the previous Security Council resolutions on the Iranian nuclear issue have not been reinstated in the interim, all the provisions of resolution 2231 (2015) shall be terminated and the Council will have concluded its consideration of the Iranian nuclear issue.

Programme of work

Objective

162. The objective, to which this mission contributes, is to ensure the full implementation by all Member States and regional and international organizations of resolution 2231 (2015), including the restrictive measures established in annex B to the resolution.

Strategy and external factors for 2025

163. To contribute to the objective, the mission will continue to support the work of the Security Council and its appointed Facilitator and to report regularly, as mandated, to the Council on the implementation of the resolution until the end of the mandate in October 2025.
164. The above-mentioned work is expected to result in improved transparency, an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action and an increase in cooperation on alleged actions inconsistent with the remaining annex B restrictive measures.
165. With regard to cooperation with other entities, the mission liaises and cooperates with, among others, Member States and the Procurement Working Group of the Joint Commission established in the Joint Comprehensive Plan of Action for the processing of nuclear and nuclear-related dual-use proposals through the procurement channel. The mission also cooperates with Member States on various issues relating to the implementation of resolution 2231 (2015), including alleged actions inconsistent with its remaining annex B restriction. In addition, the mission liaises and cooperates with the International Atomic Energy Agency.

166. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Continued diplomatic efforts by participants in the Joint Comprehensive Plan of Action to ensure that all participants remain committed to its full and effective implementation;
 - (b) The Joint Comprehensive Plan of Action, its implementation and that of resolution [2231 \(2015\)](#) continue to enjoy the full support of the broader international community.

Programme performance in 2023

Maintaining the continuous implementation of resolution [2231 \(2015\)](#)

167. The mission continued to provide information relating to resolution [2231 \(2015\)](#), including the restrictive measures established in its annex B, through the reports of the Secretary-General and briefings to the Security Council. It raised awareness among relevant stakeholders of the restrictive measures contained in annex B to the resolution, in particular because some of those measures (missile-related, asset freeze) expired in October 2023. With respect to monitoring and reporting on the implementation of resolution [2231 \(2015\)](#), the mission continued in-person consultations with Member States and continued to utilize some of the practices established during the COVID-19 pandemic, such as virtual consultations.
168. The above-mentioned work contributed to the Security Council, Member States and international organizations being informed of the status of implementation of resolution [2231 \(2015\)](#), as well as to the preparation of reports of the Secretary-General and briefings to the Council.
169. Progress towards the objective is presented in the performance measure below (see table 46).

Table 46
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Continuous implementation of resolution 2231 (2015) , including through reporting to the Security Council and the use of the procurement channel	Continuous implementation of resolution 2231 (2015) , including through reporting to the Security Council and the use of the procurement channel	Continuous implementation of resolution 2231 (2015) , including through reporting to the Security Council and support for the work of the Facilitator

Planned result for 2025

Maintaining the continuous implementation of resolution [2231 \(2015\)](#)

Programme performance in 2023 and target for 2025

170. In 2023, the mission met the planned target of regular reporting by the Secretary-General and support for the work of the Facilitator. The mission's work raised awareness of resolution [2231 \(2015\)](#), including the restrictive measures established in its annex B.

Lessons learned and planned change

171. The lesson for the mission was the need to provide continuous updates to Member States on the applicable restrictive measures of annex B to resolution [2231 \(2015\)](#). In applying the lesson, the mission will continue to consult early and regularly with Member States.
172. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 47).

Table 47
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015), through reporting to the Security Council and support for the work of the Facilitator

Deliverables

173. Table 48 lists all deliverables of the mission.

Table 48
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2

Change	–	–	–	–	(1)	(2)	(1)	–	–	(1)	(5)	–	–	–	–	–	–	(5)

^a Other level, unless otherwise stated.

174. The proposed resource requirements for the implementation of Security Council resolution [2231 \(2015\)](#) for 2025 amount to \$355,400 (net of staff assessment) and would provide for salaries and common staff costs (\$299,000) for the continuation of two posts (1 P-4 and 1 General Service (Other level)) for a 10-month period, until 31 October 2025, and operational costs (\$56,400), which includes official travel of staff (\$15,000), and other operational and logistical support requirements, such as the rental of premises, communications and information technology and other supplies, services and equipment (\$41,400).
175. The mission has undertaken another review of its staffing structure and resource requirements and, in this regard, it is proposed that the following three posts be abolished effective 1 January 2025: Senior Political Affairs Officer (P-5); Political Affairs Officer (P-4); and Political Affairs Officer (P-3).
176. Following the expiration on 18 October 2025 of the remaining restrictive measures established in annex B to resolution [2231 \(2015\)](#), as specified in paragraph 8 of the same resolution, all the provisions of that resolution shall be terminated on the date 10 years after Adoption Day (18 October 2015) of the Joint Comprehensive Plan of Action, provided that the provisions of the previous Security Council resolutions on the Iranian nuclear issue have not been reinstated in the interim. The Council will then have concluded its consideration of the Iranian nuclear issue and the item

“Non-proliferation” will be removed from the list of matters of which the Council is seized. The remaining two posts are proposed to be abolished effective 1 November 2025: Political Affairs Officer (P-4); and Meeting Services Assistant (General Service (Other level)).

177. A vacancy rate of zero per cent has been applied to the staff costs on the basis of the actual vacancy rate in March 2024.
178. The decrease in requirements for 2025 is attributable to reduced requirement under civilian personnel costs and operating expenses, resulting from the proposed abolishment of three posts effective 1 January 2025 and the remaining two posts effective 1 November 2025, in respect of the anticipated expiration of mandate in October 2025, offset in part by the application of a higher common staff cost of 43.9 per cent compared with 42.2 per cent applied in 2024 based on expenditure patterns.

11. Panel of Experts pursuant to resolution 2713 (2023)

(\$1,960,200)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

179. The Panel of Experts pursuant to resolution 2713 (2023) is responsible for monitoring the implementation of the asset freeze, the travel ban, the targeted arms embargo and the territorial arms embargo focused on Al-Shabaab, the charcoal ban and the improvised explosive device components ban, as well as for providing information relevant to the designation of individuals and entities. Its mandate is referenced in Security Council resolution 2444 (2018), renewed in subsequent resolutions, including, most recently, 2713 (2023), in which the Council changed the name of the Panel of Experts on Somalia to the Panel of Experts pursuant to resolution 2713 (2023). The sanctions regime is aimed at supporting the efforts of the Somali authorities to deliver stability and security in Somalia, to prevent any flows of weapons and ammunition to Somalia in violation of the arms embargo and to disrupt the activities of Al-Shabaab, including its finances.
180. On 15 September 2023, following the request by the Security Council in its resolution 2662 (2022), the Secretary-General provided an update (S/2023/676) on progress against each indicator set out in the benchmarks contained in the technical assessment report (S/2022/698). On 1 December 2023, by its resolution 2713 (2023), the Council requested the Secretary-General to provide an update by 15 October 2024 on progress against each indicator set out in the benchmarks contained in the technical assessment report.

Programme of work

Objective

181. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Al-Shabaab, which includes an asset freeze, a travel ban, targeted and territorial arms embargoes, a charcoal ban and an improvised explosive device components ban.

Strategy and external factors for 2025

182. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee pursuant to resolution 2713 (2023) concerning Al-Shabaab.
183. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
184. With regard to cooperation with other entities, in the context of information-sharing the Panel of Experts cooperates with, among others, Member States, INTERPOL, the African Union and the European Union. It also cooperates with the African Union Transition Mission in Somalia.
185. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the World Bank, the International Monetary Fund, the International Civil Aviation Organization, the United Nations Assistance Mission in Somalia, the United Nations Support Office in Somalia, the United Nations Office at Nairobi, UNODC and other sanctions monitoring teams,

groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security and security teams of the United Nations Office at Nairobi, the United Nations Assistance Mission in Somalia, the United Nations Support Office in Somalia and UNDP.

186. With regard to external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Enhanced capacity of the Security Council, the sanctions committee and Member States to counter Al-Shabaab financing

187. In 2023, the Panel of Experts continued to investigate the financing of Al-Shabaab and its military operations and capacity. In its final report (S/2023/724), the Panel assessed the financial disruption strategy of the Federal Government of Somalia to counter the financing of Al-Shabaab and reported that Al-Shabaab had continued to raise funds through various extortion mechanisms and illicit or parallel taxation systems, including the extortion of businesses and the illicit taxation of livestock and agricultural products.
188. Progress towards the objective is presented in the performance measure below (see table 51).

Table 51

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Security Council and the Committee refined the sanctions regime, with a specific focus on degrading Al-Shabaab, including by targeting its illicit finances	Security Council and the Committee received information from the Panel of Experts on the finances of Al-Shabaab, as well as recommendations on how to disrupt them	Security Council and the Committee received information from the Panel of Experts on Al-Shabaab's financing and efforts to disrupt it

Planned result for 2025

Enhanced capacity of the Security Council, the Committee and Member States to degrade the threat posed by Al-Shabaab

Programme performance in 2023 and target for 2025

189. In 2023, the work of the Panel of Experts contributed to the implementation of the sanctions regime concerning Al-Shabaab, which met the planned target. The Panel also contributed to an assessment provided to the Security Council and the Committee on compliance by the Federal Government of Somalia with the arms embargo. The Panel's work and the assessment of progress against the arms embargo benchmarks are expected to contribute to the full implementation of the sanctions regime concerning Al-Shabaab.

Lessons learned and planned change

190. The lesson for the Panel of Experts was the need to gain access to and document in a timely manner weapons captured from Al-Shabaab and in the possession of the Federal Government of Somalia and

neighbouring countries. In applying the lesson, the Panel will continue to engage and cooperate with the Federal Government of Somalia and the relevant national, regional and international stakeholders and use databases and subscriptions procured by the United Nations.

191. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 52).

Table 52
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Security Council and the Committee received a detailed analysis of Al-Shabaab's revenue sources and specific recommendations on how to reduce the revenues of Al-Shabaab, as part of a "disruption plan" developed with the Federal Government of Somalia and UNODC; and the Council received the information needed to adjust the sanctions regime	Security Council and the Committee received a detailed analysis of Al-Shabaab's revenue sources, as well as specific recommendations on how to reduce the group's finances	Panel of Experts focused on Al-Shabaab's use of the banking system of Somalia and the Security Council or the Committee considered designating individuals involved in the financing of the group	Security Council and the Committee continue to receive from the Panel of Experts information on exploitation by Al-Shabaab of the banking system of Somalia, and the Council and the Committee continue to consider designating individuals involved in the financing of the group	Security Council and the Committee continue to receive from the Panel of Experts information on exploitation of the banking system of Somalia, on violations of the arms embargo and human rights by Al-Shabaab, and the Council and the Committee continue to consider new designations

Deliverables

192. Table 53 lists all deliverables of the mission.

Table 53
Deliverables for the period 2023–2025, by category and subcategory

	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>	<i>Subtotal</i>	
Approved 2024	-	-	-	-	-	-	1	-	-	1 ^a	2	-	4	4	-	-	-	6
Proposed 2025	-	-	-	-	-	-	1	-	-	1 ^a	2	-	4	4	-	-	-	6
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

193. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,960,200 (net of staff assessment) and would provide for salaries and common staff costs (\$446,800) for the continuation of six posts (1 P-3, 1 General Service (Other level) and 4 Local level) to provide substantive, administrative, security and logistical support in relation to the sanctions regime, and operational costs (\$1,513,400) comprising expert fees (\$1,058,800) and travel (\$208,900) of the six experts, official travel of staff (\$38,500) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical and other supplies, services and equipment (\$207,200).
194. For 2025, no change is proposed to the number and level of posts for the Panel of Experts. A vacancy rate of zero per cent has been applied to international and national staff costs, both on the basis of the actual vacancy rates in March 2024.
195. The decrease in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to lower requirements under civilian personnel costs due to the application of updated salary rates for general service staff, lower requirements for experts' fees owing to a change in the composition of the Panel of Experts, reduced requirement for rental of premises based on the application of the most recent standard rate, lower requirement under other services and supplies based on expenditure pattern from past years, and removal of the provision for satellite imagery because the required images will be obtained through a geospatial database subscription. The decrease is offset in part by the application of higher common staff costs based on expenditure patterns and a new requirement covering the satellite imagery needs under the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services.

12. Panel of Experts on Haiti

(\$1,571,400)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

196. The mandate of the Panel of Expert on Haiti derives from Security Council resolution [2653 \(2022\)](#) of 21 October 2022, in which the Council decided to establish a Committee of the Council concerning Haiti and requested the Secretary-General to create a group of four experts (the Panel). The mandate of the Panel was extended in resolution [2700 \(2023\)](#) of 19 October 2023 for a period of 13 months from the adoption of the resolution.
197. In accordance with paragraph 21 of resolution [2653 \(2022\)](#), as amended pursuant to resolution [2699 \(2023\)](#), the Panel of Experts is mandated to monitor the implementation of the travel ban, asset freeze and territorial arms embargo, in particular incidents regarding the source and routes of arms and other trafficking to Haiti and incidents of undermining peace, security and stability in Haiti, as well as for providing information relevant to the potential designation of individuals and entities to the Security Council. By its resolution [2700 \(2023\)](#), the Council requested the Secretary-General to conduct, no later than 1 October 2024, an assessment of progress achieved on the key benchmarks established in the resolution.

Programme of work

Objective

198. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Haiti, which includes a travel ban, an asset freeze and a territorial arms embargo.

Strategy and external factors for 2025

199. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2653 \(2022\)](#) concerning Haiti.
200. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
201. With regard to cooperation with other entities, in line with paragraph 22 of resolution [2653 \(2022\)](#), the Panel of Experts will cooperate with, among others, Member States, in particular neighbouring countries, and regional and subregional organizations, such as the Caribbean Community, including the Eminent Persons Group appointed by the Caribbean Community, the Organization of American States and the multinational security support mission in Haiti.
202. With regard to inter-agency coordination and liaison, the Panel of Experts will cooperate with, among others, the United Nations Integrated Office in Haiti, UNODC and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel will cooperate with the Department of Safety and Security, the Integrated Office and UNDP.

203. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel of Experts to conduct missions, as needed.

Programme performance in 2023

Full implementation of the sanctions regime concerning Haiti

204. In 2023, the Panel of Experts provided interim and final reports to the Security Council, in which the Panel recommended that the Council replace the targeted arms embargo with a territorial arms embargo. The Panel also submitted periodic updates in between the reports and provided the Committee with information on individuals and entities that met the designation criteria. On the basis of the Panel's recommendations, the Council imposed a territorial arms embargo through its resolution 2699 (2023) and the Committee added four individuals to its sanctions list.
205. Progress towards the objective is presented in the performance measure below (see table 56).

Table 56

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	Establishment of a group of 4 experts, which will assist the Committee in carrying out its mandate, gather, examine and analyse relevant information, provide an interim and a final report to the Council, and assist the Committee in refining and updating information on listed individuals and entities	Security Council and the Committee received the mandated reports and information on individuals and/or entities meeting the designation criteria; Council adjusted sanctions measures on the basis of the recommendation of the Panel of Experts and the Committee designated additional individuals

Planned result for 2025

Full implementation of the sanctions regime concerning Haiti

Programme performance in 2023 and target for 2025

206. The Panel of Experts contributed to the full implementation of the sanctions regime, which met the planned target. The Panel's work contributed to the Security Council and the Committee receiving reports and providing the Committee with information on individuals and entities meeting the designation criteria, which resulted in the Council imposing a territorial arms embargo on Haiti and the Committee updating and designating new individuals to its sanctions list.

Lessons learned and planned change

207. The lesson for the Panel of Experts was that, owing to the volatile security environment in Haiti, the Panel faced risks that needed to be mitigated through several security measures recommended by the Department of Safety and Security. In applying the lesson, the Panel will work to ensure the implementation of all necessary security risks mitigation measures.
208. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 57).

Table 57
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Establishment of a group of 4 experts (Panel of Experts), which will assist the Committee in carrying out its mandate, gather, examine and analyse relevant information, provide an interim and a final report to the Security Council, and assist the Committee in refining and updating information on listed individuals and entities	Security Council and the Committee receive the mandated reports and information on individuals and/or entities meeting the designation criteria	Security Council and the Committee continue to receive information on individuals and/or entities threatening the peace, security or stability of Haiti and consider designating additional individuals and entities	Security Council and the Committee continue to receive information on individuals and/or entities threatening the peace, security or stability of Haiti and consider designating additional individuals and entities

Deliverables

209. Table 58 lists all deliverables of the mission.

Table 58
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	5	5	5
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	3	5	5	5
Substantive services for meetings (number of three-hour meetings)	9	7	7	7
2. Meetings of sanctions committee	7	6	5	5
3. Chair's briefings to Member States	2	1	2	2
Conference and secretariat services for meetings (number of three-hour meetings)	9	7	7	7
4. Meetings of sanctions committee	7	6	5	5
5. Chair's briefings to Member States	2	1	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	12	7	7
6. Induction seminar for new members of the Panel of Experts and other training sessions	5	12	7	7
Fact-finding, monitoring and investigation missions (number of missions)	10	11	10	10
7. Missions to gather information relating to compliance with the sanctions regime	10	11	10	10

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Consultation, advice and advocacy: recommendations concerning adjustments to individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; and consultations and advice to broaden engagement with international, regional, subregional and other organizations.

Databases and substantive digital materials: archives of documents collected by the Panel of Experts.

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 59

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–		–
Civilian personnel costs	300.3	329.6	428.8	403.3		(25.5)
Operational costs	1 105.4	1 073.0	1 119.7	1 168.1		48.4
Total (net of staff assessment)	1 405.7	1 402.6	1 548.5	1 571.4		22.9

Table 60

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
Approved 2024	–	–	–	–	1	–	1	–	–	1 ^a	3	–	–	–	–	–	–	3
Proposed 2025	–	–	–	–	1	–	1	–	–	1 ^a	3	–	–	–	–	–	–	3
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level unless otherwise stated.

210. The proposed resource requirements for the Panel of Experts for 2025 amount to \$1,571,400 (net of staff assessment) and would provide for the salaries and common staff costs (\$403,300) for the continuation of three posts (1 P-5, 1 P-3 and 1 General Service (Other level)), and operational costs (\$1,168,100) comprising expert fees (\$502,200) and travel (\$225,200) of the four experts, official travel of staff (\$28,300) and travel of Close Protection Officers (\$152,400) from various United Nations entities to support the experts while travelling in Haiti, and other operational and logistical

support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment (\$260,000).

211. For 2025, no change is proposed to the number and level of posts for the Panel of Experts. A vacancy rate of 33.3 per cent has been applied to the staff costs on the basis of the actual vacancy rate in March 2024.
212. The increase in the requirements for 2025 compared with the appropriation for 2024 is attributable primarily to the higher requirements for experts' fees resulting from a change in the composition of the Panel of Experts, the additional requirements under official travel owing to the expanded mandate to cover the territorial arms embargo that was previously limited to arms groups, and a new requirement for the subscription to the geospatial database, allowing experts to gain access to near real-time, high-resolution temporal and spatial satellite imagery and related services. The increase is offset in part by lower requirements under civilian personnel costs owing to the application of a higher vacancy rate of 33.3 per cent compared with the 25.0 per cent applied in the 2024 budget, reduced requirements for rental of premises based on the application of the most recent standard rate, reduced requirements under ground transport based on expenditure pattern, and removal of the provision for satellite imagery because the required images will be obtained through the geospatial database subscription.

13. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction

(\$3,472,500)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

213. The mission in support of the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction is responsible for the provision of substantive, administrative and logistical support to assist the Committee in achieving the aims of the resolution. The mandate derives from Council resolution 1540 (2004) and from its subsequent resolutions, including, most recently, 2663 (2022).
214. By its resolution 2663 (2022), the Security Council extended the Committee's mandate until 30 November 2032. The Council reiterated its decisions in resolution 1540 (2004) and re-emphasized the importance of all Member States fully implementing that resolution. In line with its renewed mandate, the mission assists interested Member States in their national implementation efforts through country-specific visits and dialogues, national round tables, workshops and peer reviews, with the objective of building capacity, facilitating technical assistance and identifying and disseminating effective practices for the implementation of resolution 1540 (2004). The mission further supports the activities of the Committee through the organization of regional and subregional workshops on the implementation of the resolution and through country-specific missions and activities, cooperation between international and regional bodies, and the facilitation of outreach and effective partnerships with civil society and the private sector.

Programme of work

Objective

215. The objective, to which this mission contributes, is to prevent non-State actors from developing, acquiring, manufacturing, possessing, transporting, transferring or using nuclear, chemical or biological weapons and their means of delivery.

Strategy and external factors for 2025

216. To contribute to the objective, the mission will:
- (a) Facilitate assistance to Member States, upon their request, which includes support for national reviews of the status of implementation of resolution 1540 (2004), support for the development of national implementation action plans, and capacity-building of government officials and national outreach activities to raise the awareness of key stakeholders relevant to the implementation of resolution 1540 (2004);
 - (b) Promote regional cooperation on the implementation of resolution 1540 (2004) by conducting regional and subregional activities, including regional training, for points of contact for resolution 1540 (2004), peer review exercises relating to the resolution, and regional outreach workshops for Governments and civil society;

- (c) Follow up on the result of the 2022 comprehensive review of the status of implementation of resolution 1540 (2004), conduct outreach activities to raise awareness of the outcome of the review, develop projects to support the implementation of the recommendations of the review and mobilize resources to effectively support the renewed mandate of the Committee.
217. The above-mentioned work is expected to result in:
- (a) Enhanced national capacity to implement the obligations under resolution 1540 (2004);
 - (b) An increased number of reports and national implementation action plans submitted to the Committee;
 - (c) Increased awareness and visibility of resolution 1540 (2004) and the risks posed by non-State actors acquiring access to weapons of mass destruction and their means of delivery;
 - (d) Increased cooperation among regional peers in implementing resolution 1540 (2004);
 - (e) Successful implementation of the recommendations as contained in the Committee's report on its 2022 comprehensive review of the status of implementation of resolution 1540 (2004).
218. With regard to cooperation with other entities, the mission cooperates with various Governments, international, regional and subregional organizations and civil society organizations on organizing outreach activities, including to industry and academia, to raise awareness of the requirements of resolution 1540 (2004) and to facilitate assistance to Member States, upon their request, to build capacity and draft legislation to enhance the implementation of the resolution.
219. With regard to inter-agency coordination and liaison, the mission works closely with other relevant United Nations entities, such as UNODC, the Office of Counter-Terrorism, the United Nations Interregional Crime and Justice Research Institute and the International Atomic Energy Agency. The mission also cooperates with the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism and its Executive Directorate, as well as the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, as well as the Analytical Support and Sanctions Monitoring Team supporting that Committee.
220. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The proliferation of weapons of mass destruction and their means of delivery to non-State actors remains a threat to international peace and security;
 - (b) The political environment in the Security Council continues to enable the Committee to reach consensus on the implementation of planned activities;
 - (c) Member States continue to cooperate with the Committee;
 - (d) Member States will have the need for assistance to comply with their obligations under resolution 1540 (2004).
221. The mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate, and is guided by the gender policy of the Office for Disarmament Affairs. It recognizes that various segments of the population are affected differently by weapons, including weapons of mass destruction.
222. In line with the United Nations Disability Inclusion Strategy and guided by the disability inclusion action plan of the Office for Disarmament Affairs, the mission, in support of the Committee, promotes diversity and inclusion and ensures inclusive programming throughout its work, including the inclusion of disability perspectives. The mission promotes an inclusive work environment that enables all stakeholders to participate fully and effectively in disarmament forums and processes. The mission takes an intersectional approach to disability inclusion that considers other related and reinforcing factors, such as gender and age.

Programme performance in 2023

Technical cooperation to enhance the capacity of States to fully implement resolution 1540 (2004)

223. In 2023, the mission continued to support Member States in implementing the resolution by facilitating technical assistance, capacity-building and outreach activities. It also organized national capacity-building events and workshops in support of the development of voluntary national implementation action plans. Outreach was undertaken and included efforts to disseminate information on the successful conclusion of the 2022 comprehensive review. This work contributed to the submission of three additional national reports to the Committee. At the end of 2023, 185 of 193 Member States had submitted at least one national report, as required pursuant to resolution 1540 (2004).
224. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: submission of voluntary national implementation action plans by Member States to the Committee

Planned result for 2025

Enhanced regional cooperation on implementing resolution 1540 (2004)

Programme performance in 2023 and target for 2025

225. In 2023, the mission contributed to the successful conduct of 19 regional workshops that promoted a regional approach towards the full implementation of resolution 1540 (2004). This exceeded the planned target of two regional workshops, originally planned for 2023, attributable to the renewed momentum following the successful conclusion of the comprehensive review and increased outreach by the regional coordinators to support States in the implementation of resolution 1540 (2004).

Lessons learned and planned change

226. The lesson for the mission was the importance of ensuring adequate and tailored support and follow-up to all efforts by Member States, which is pivotal in sustaining the political will and interest required for the long-term task of implementation. In applying the lesson, the mission will focus on strengthening cooperation with its partners and organizing joint activities that allow for comprehensive and quality deliverables for Member States and the Committee, while maximizing resources to enhance the effectiveness of regional cooperation. The mission will also continue to strengthen its provision of support by leveraging its regional coordinators to oversee and facilitate regional cooperation in the implementation of resolution 1540 (2004). This will include establishing regular feedback loops with Member States to foster improved responsiveness and support.

227. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of regional workshops supporting the implementation of resolution 1540 (2004)

Deliverables

228. Table 61 below lists all deliverables of the mission.

Civilian personnel costs	765.8	872.5	865.7	966.8	966.8	101.1
Operational costs	2 369.7	1 407.6	2 549.4	2 505.7	2 505.7	(43.7)
Total (net of staff assessment)	3 135.5	2 280.1	3 415.1	3 472.5	3 472.5	57.4

Table 63

Human resources

	<i>International staff</i>											<i>National staff</i>			<i>United Nations Volunteers</i>			<i>Total</i>
	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS^a</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>	<i>Subtotal</i>	
	Approved 2024	–	–	–	–	1	–	2	–	–	3	6	–	–	–	–	–	
Proposed 2025	–	–	–	–	1	–	2	–	–	3	6	–	–	–	–	–	–	6
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

229. The proposed resource requirements for the mission for 2025 amount to \$3,472,500 (net of staff assessment) and would provide for salaries and common staff costs (\$966,800) for the continuation of six posts (1 P-5, 2 P-3 and 3 General Service (Other level)), and operational costs (\$2,505,700) comprising expert fees (\$1,899,000) and travel (\$158,600) of the nine experts of the Committee, official travel of the members of the Committee and staff (\$131,200), facilities and infrastructure (\$228,200) and communications and information technology (\$88,700).

230. For 2025, no change is proposed to the number and levels of the posts for the mission. A vacancy rate of 6.7 per cent has been applied to the staff costs on the basis of the average vacancy rate in 2023.

231. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable mainly to higher requirements under civilian personnel costs, resulting from the

application of a higher post adjustment multiplier and a higher percentage of common staff costs based on recent expenditure patterns. Operational costs for 2025 will be lower than those of 2024 owing primarily to reduced requirements for communications and information technology due to lower estimates based on previous expenditure, offset in part by the increased requirement for experts' fees due to higher monthly rate based on changes in the composition of the experts.

Extrabudgetary resources

232. In 2024, extrabudgetary resources in the amount of \$1,000,000 will be used to organize or support a number of activities in support of resolution [1540 \(2004\)](#), including country visits, facilitation of the participation of Member States in events relating to the resolution, and other country-specific activities. The resources will also cover the continuous work of two Regional Coordinators (P-4) stationed in Africa and Asia, along with a Political Affairs Officer (P-3) responsible for project implementation globally. The Regional Coordinators and the Political Affairs Officer are responsible for communicating and organizing regional events in support of the resolution [1540 \(2004\)](#) mandate.
233. In 2025, extrabudgetary resources in the amount of \$1,000,000 are projected to be used to organize or support a number of activities relating to resolution [1540 \(2004\)](#), including country visits, facilitation of the participation of Member States in events relating to the resolution and other country-specific activities. The resources will also cover the continuous work of the two Regional Coordinators (P-4) stationed in Africa and Asia, along with the Political Affairs Officer (P-3) responsible for project implementation globally.

14. Counter-Terrorism Committee Executive Directorate

(\$12,815,700)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

234. The Counter-Terrorism Committee Executive Directorate is mandated to support the Counter-Terrorism Committee in its work to monitor, promote and facilitate the implementation by Member States of the relevant Security Council resolutions on terrorism. The mandate derives from Council resolution [1373 \(2001\)](#) and was renewed in its subsequent resolutions, including, most recently, [2617 \(2021\)](#), which extended the mandate until 31 December 2025. In addition, the United Nations Global Counter-Terrorism Strategy and the 2022 Delhi Declaration on countering the use of new and emerging technologies for terrorist purposes set forth several tasks for the Executive Directorate with respect to facilitating the delivery of technical assistance, assessing the capacities of Member States to counter the use of new and emerging technologies for terrorist purposes, including by developing a set of non-binding guiding principles, compiling good practices on the opportunities offered by the same set of technologies to counter the threat, producing a gaps analysis, and promoting good counter-terrorism practices.

Programme of work

Objective

235. The objective, to which this mission contributes, is to enhance and consolidate Member States' counter-terrorism legislation and policies, institutions and operations by ensuring the full and effective implementation by Member States of Security Council resolution [1373 \(2001\)](#) and other relevant Council resolutions, to inform the efforts of United Nations entities and other implementing agencies to provide related capacity-building and technical assistance and to analyse new and emerging terrorism threats, trends and challenges.

Strategy and external factors for 2025

236. To contribute to the objective, the Executive Directorate will:
- (a) Assist Member States in identifying and addressing implementation and capacity gaps in accordance with the requirements of resolution [1373 \(2001\)](#) and subsequent Security Council resolutions on terrorism, through assessment visits and stocktaking assessment tools such as the electronic detailed implementation survey (e-DIS) and the overview of implementation assessment, and make technical recommendations to Member States on ways to strengthen their implementation of the relevant resolutions;
 - (b) Strengthen its assessment process relating to countering the financing of terrorism, including through targeted and focused follow-up visits as complements to its comprehensive assessments, as well as to annual assessments of gaps and areas requiring more action to implement key provisions of the relevant Security Council resolutions relating to countering the financing of terrorism for the purpose of designing targeted technical assistance and capacity-building efforts by relevant partners;

- (c) Organize follow-up meetings at the Committee level to highlight priority technical assistance needs of visited Member States, with a view to encouraging and facilitating the delivery of related technical assistance activities, with the participation of relevant international partners and the donor community;
 - (d) Contribute to identifying and assessing emerging issues, trends and developments relating to relevant resolutions. In this respect, it will prepare and publish analytical materials, reference tools and guidelines and promote Security Council and Committee policy papers, relevant international standards, codes and effective practices.
237. The above-mentioned work is expected to result in the strengthening of Member States' capacities to:
- (a) Combat terrorism and achieve the full and effective implementation of resolution 1373 (2001) and other relevant resolutions;
 - (b) Build resilience among all sectors of society to terrorism and violent extremism that is conducive to terrorism;
 - (c) Operationalize their obligations pursuant to resolution 1373 (2001) and other relevant resolutions by facilitating acceptance and understanding of the international effective practices, techniques and tools available to combat terrorism.
238. With respect to cooperation with other entities, the Executive Directorate cooperates with a wide range of international, regional and subregional organizations such as the Organization of Islamic Cooperation, the Council of Europe, the European Union, the Regional Anti-Terrorist Structure of the Shanghai Cooperation Organization and the Organization for Security and Cooperation of Europe to raise awareness of international requirements on counter-terrorism at the national and regional levels. It leverages and diversifies its Global Counter-Terrorism Research Network to bring together policymakers and researchers from around the world, and engages and enhances its partnerships with international, regional and subregional organizations, civil society organizations, think tanks and academic organizations and the private sector in order to assist the Committee in identifying national, regional and thematic challenges, developments and trends.
239. With respect to inter-agency coordination and liaison, the Executive Directorate works closely with other United Nations entities, within the framework of the United Nations Global Counter-Terrorism Coordination Compact, and by chairing or co-chairing the relevant Global Compact working groups. The Executive Directorate will continue to collaborate with the Office of Counter-Terrorism and UNODC on relevant issues. It works closely with other subsidiary bodies of the Security Council and their expert groups to enhance information-sharing. It maintains strong cooperation with OHCHR and the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism.
240. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Consent of Member States to receive assessment visits and subsequently brief the Committee on progress made in implementing Committee recommendations;
 - (b) Ability to organize and conduct visits in accordance with United Nations safety and security measures;
 - (c) Participation of technical experts from international and regional organizations in country visit assessments conducted by the Executive Directorate on behalf of the Committee;
 - (d) Commitment of implementing partners to deliver technical assistance pursuant to Committee findings.
241. The Executive Directorate integrates a gender perspective into its operational activities, deliverables and results, as appropriate, and works with the United Nations Global Counter-Terrorism Coordination Compact Working Group on Adopting a Gender-Sensitive Approach to Preventing and Countering Terrorism.

Programme performance in 2023

Better alignment of United Nations technical assistance with gaps identified by the Counter-Terrorism Committee

242. In 2023, the work of the Executive Directorate contributed to the identification of the capacity gaps in the implementation of Security Council resolution 1373 (2001) and subsequent resolutions by the nine Member States that hosted on-site assessment visits. The Executive Directorate also completed the filing of 12 Member States' overviews of implementation assessment and e-DIS. A total of 8 of the planned 10 technical materials providing guidance to Member States on the implementation of relevant Security Council resolutions were produced. The Executive Directorate contributed to 22 planned capacity-building workshops, meetings, consultations and activities, which did not meet the planned target of 25 workshops.
243. Progress towards the objective is presented in the performance measure below (see figure V).

Figure V

Performance measure: country assessment reports, surveys and overviews of implementation assessment and capacity-building workshops, meetings, consultations and activities

Planned results for 2025

Result 1: improving effectiveness, timeliness and impact of country visits, assessments and recommendations on the counter-terrorism policies and practices of Member States

Programme performance in 2023 and target for 2025

244. In 2023, the Executive Directorate facilitated constructive dialogue between the Committee and Member States by enabling States' representatives to attend relevant Committee meetings and provide briefings on implementing the recommendations of the assessment. Three Member States briefed the Committee in that respect. In 2025, it is anticipated that six Member States will engage in briefing the Committee.
245. The Committee visit is one component of the monitoring mandate, which also includes a stocktaking assessment exercise (overview of implementation assessment and e-DIS). Although it did not meet the 2023 planned target of 15 visits owing to requests for postponement by several host States due to domestic political considerations and exigencies such as election preparations and the need for additional preparatory work by relevant government officials, the Executive Directorate will facilitate further follow-up by Member States on measures taken to implement the relevant resolutions and recommendations contained in the overviews of implementation assessment.

246. Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure VI).

Figure VI

Performance measure: number of Member States receiving assessment visits

Result 2: identification of trends and provision of advice on practical ways for Member States to implement resolution 1373 (2001) and subsequent Security Council resolutions

247. The Executive Directorate generates trend analysis, in part on the basis of data contained in the overviews of implementation assessment and e-DIS, to raise awareness of technical standards, codes and good practices in implementing relevant Security Council resolutions on counter-terrorism. It also produces analytical reports, with qualitative and quantitative data, on the compliance of Member States with Council resolutions on counter-terrorism.

Lessons learned and planned change

248. The lesson for the Executive Directorate was the need to enhance its role at identifying and assessing emerging issues, trends and developments relating to relevant resolutions and promoting Security Council policies by broadening and deepening its partnerships. In applying the lesson, and in accordance with relevant Security Council resolutions and the Delhi Declaration on countering the use of new and emerging technologies for terrorist purposes, the Executive Directorate developed, on behalf of the Committee, the Abu Dhabi Guiding Principles and will draft non-binding guiding principles on countering the use of information and communications technology (ICT) and related new and emerging technologies for terrorist purposes.
249. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see figure VII).

Figure VII

Performance measure: number of technical materials providing guidance to Member States on the implementation of relevant Security Council resolutions

Deliverables

250. Table 64 below lists all deliverables of the mission.

Table 64

Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	17	17	18	18
1. Meetings of the Counter-Terrorism Committee	11	11	11	11
2. Briefings to Member States	6	6	7	7
B. Generation and transfer of knowledge				
Technical materials (number of materials)	10	6	10	10
3. Reports on trends and developments relating to the implementation of Security Council resolutions on counter-terrorism	6	4	5	5
4. Guidance, compendiums and good practice documents	4	2	5	5
Fact-finding, monitoring and investigation missions (number of missions)	15	9	15	15
5. Assessment visits relating to the implementation of Security Council resolutions on counter-terrorism	15	9	15	15
C. Substantive deliverables				
Consultation, advice and advocacy: facilitation of technical assistance delivery and capacity-building activities (approximately 25 per year) relating to the implementation of all relevant United Nations counter-terrorism resolutions and development of guidelines for Member States to assist them in responding to new and emerging challenges.				
Databases and substantive digital materials: database on stocktaking of Member States' implementation of Security Council resolutions on counter-terrorism.				
D. Communication deliverables				
External and media relations: fact sheets, folders, publications and flash drives to be distributed to Member States, the media, civil society and non-governmental organizations to promote the work of the Committee and the Executive Directorate.				
Digital platforms and multimedia content: maintenance and updating of the Committee's website, newsletter and all social media platforms.

251. The proposed resource requirements for the Executive Directorate for 2025 amount to \$12,815,700 (net of staff assessment) and would provide for salaries and common staff costs (\$11,041,600) for the continuation of 52 posts (1 Assistant Secretary-General, 1 D-2, 2 D-1, 9 P-5, 20 P-4, 8 P-3, 3 P-2 and 8 General Service) and the establishment of 2 new posts (P-3), and operational costs (\$1,774,100) comprising official travel of mission staff (\$742,400), facilities and infrastructure (\$830,600), communication and information technology (\$190,100) and other supplies, services and equipment (\$11,000).
252. For 2025, it is proposed that the following posts be established:
- Establishment of one Information Management Officer (P-3): the Executive Directorate's information management mandates and needs have evolved significantly. In its resolution [2395 \(2017\)](#), the Security Council directed the Executive Directorate to produce an updated version of the global implementation survey and to provide the Counter-Terrorism Committee with a report to improve its utility. In its resolution [2617 \(2021\)](#), the Council requested the Executive Directorate to review and provide recommendations on the effectiveness, timeliness and impact of its country visits. The proposed post will provide the strengthened technical expertise that is currently inadequate to develop data strategies for the most effective use of qualitative and quantitative data, develop new software and use internal and external data for analysis to fulfil the Executive Directorate's mandate, improve record-keeping and enhance document management systems;
 - Establishment of one Legal Officer (P-3): the Security Council has mandated the Executive Directorate to work on a growing list of increasingly complex and technologically advanced issues relating to terrorists' exploitation of ICT and has broadened the Executive Directorate's scope through the Delhi Declaration on countering the use of new and emerging technologies for terrorist purposes and resolution [2713 \(2023\)](#). Pursuant to these, the Executive Directorate is tasked with addressing emerging technologies, building new partnerships and providing new levels of support to Member States. The proposed establishment of a Legal Officer will bolster the ability of the Executive Directorate to deliver on these expanded and increasingly high-level and public-facing ICT mandates. The additional post would fulfil the additional obligations placed upon the Executive Directorate pursuant to resolution [2713 \(2023\)](#) and the Delhi Declaration by supporting the Counter-Terrorism Committee on matters regarding ICT and emerging technologies, with a specific focus on artificial intelligence. Responsibilities include providing analysis and reporting on the misuse of ICT by Al-Shabaab and other terrorist organizations, assessing Member States' abilities to counter terrorists' use of ICT in compliance with Council resolutions and producing assessment reports, facilitating capacity-building, fostering new partnerships and engaging with the private sector, furthering the mainstreaming of ICT across the Executive Directorate's workstreams, and participating in the Executive Directorate's special projects relating to ICT and emerging technologies in collaboration with key partners.

253. A vacancy rate of 9.6 per cent has been applied to the estimates for the 52 continuing posts on the basis of the average vacancy rate in 2023. A vacancy rate of 50 per cent has been applied to the estimates for the two new posts proposed for establishment.
254. The increase in the requirements proposed for 2025 compared with the appropriation for 2024 is attributable primarily to higher requirements under civilian personnel costs due to the application of a lower vacancy rate of 9.6 per cent for 2025 compared with 13.6 per cent applied for 2024, a higher post adjustment multiplier and the proposed establishment of two new posts.

Extrabudgetary resources

255. In 2024, extrabudgetary resources in the amount of \$385,000 are projected to be used to support the activities and relevant initiatives aimed at promoting the implementation of resolutions [1373 \(2001\)](#), [1624 \(2005\)](#), [2178 \(2014\)](#), [2396 \(2017\)](#), [2462 \(2019\)](#), [2482 \(2019\)](#) and [2617 \(2021\)](#), including a project on strengthening counter-terrorism and forensic science capacities and the United Nations Countering Terrorist Travel Programme.
256. In 2025, extrabudgetary resources in the amount of \$300,000 are projected to be used to organize meetings in accordance with the programme of work approved by the Committee and support international cooperation in counter-terrorism.
257. The decrease in the estimates projected for 2025 compared with the estimates for 2024 is attributable primarily to the anticipated completion of the project on strengthening counter-terrorism and forensic science capacities and the United Nations Countering Terrorist Travel Programme.

Annex I

Summary of follow-up action taken to implement the decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions (A/78/7/Add.3)

The Advisory Committee takes note of the transitional nature of the Implementation of Security Council resolution 2231 (2015) mission's mandate and is of the view that resource levels should be commensurate. The Committee trusts that the 2025 budget proposal will reflect the anticipated mission closure. The Committee further recommends that detailed justification of all five remaining positions, including workload statistics, be provided to the General Assembly in the next budget submission (para. 10).

The Advisory Committee trusts that updated information on the recruitment status of vacant positions will be provided to the General Assembly during the consideration of the present report and in the next budget submission (para. 14).

The mission will need to continue to deliver on its core activities^a as defined in Security Council resolution 2231 (2015) and the note by the President of the Security Council dated 16 January 2016 (S/2016/44) until the Council has concluded its consideration of the Iranian nuclear issue on 18 October 2025.^b Taking into account the continuing mandated responsibilities and drawdown activities relating to the mission's closure, the mission has undertaken another review of its staffing structure and resource requirements and, for 2025, proposes the abolishment of three posts (1 P-5, 1 P-4 and 1 P-3) as from 1 January 2025. As regards the workload statistics, the workload relating to the core tasks of the mission has remained consistent since 2016, while the processing of proposals through the procurement channel has decreased gradually. In preparation for the mission's closure in October 2025, staffing resources will be dedicated to the following activities: assisting the Facilitator, including in preparing for meetings in the 2231 format and corresponding with Member States; consultations and coordination with all relevant stakeholders, including the Procurement Working Group of the Joint Comprehensive Plan of Action Joint Commission; providing advice to Member States in response to their queries; developing and promoting publicly available information relating to the termination of the resolution; and the archiving of all information and documents relating to the implementation of the resolution, including the Council's website.

There were no long-vacant posts for missions under cluster II at the time of drafting of the present report.

The missions under cluster II make strong efforts to recruit and fill vacant posts in accordance with the staff selection policy. Recruitment exercises, however, may be affected and inadvertently delayed owing to external factors, including visa restrictions, availability of qualified candidates in the duty stations and temporary restrictions on hiring in efforts to mitigate financial challenges facing the Organization (i.e., liquidity pressure) that have an adverse impact on the missions' ability to fill vacant posts. These

*Brief description of the recommendation**Action taken to implement the recommendation*

The Advisory Committee trusts that efforts will continue to be made to improve the gender balance of thematic cluster II entities and that updated information regarding gender representation and the related recruitment efforts will be provided in the context of all future budget submissions (para. 25).

The Advisory Committee trusts that efforts will be made to achieve equitable geographical representation of Member States among the staff and experts in thematic cluster II and that updated information thereon will be included in all future budget submissions (para. 26).

challenges notwithstanding, missions will continue to make every effort to fill all current and future vacancies as expeditiously as possible.

To enhance gender balance, missions within cluster II have taken steps to integrate gender perspectives into their operational activities and have actively engaged in virtual career fairs aimed at specific regions and demographic groups. The deliberate consideration of gender balance in recruiting and rostering experts and staff, along with the integration of gender perspectives into their substantive responsibilities, showcases a proactive commitment towards fostering gender equity and inclusivity. This commitment is further underscored by the statistical analysis of gender balance within civilian staff posts. As of April 2024, among the 14 continuing missions under cluster II, the ratio of female to male staff stood at an equitable 50:50, compared with 47:53 in April 2023. This tangible progress reflects efforts to promote gender representation.

The missions have taken measures to strengthen efforts to achieve equitable geographical representation in their workforce. In many missions, hiring managers are required to demonstrate, using the current data on geographical representation, the impact of such recommendations. The revised template of the selection memorandums now allows hiring managers to review, before a candidate is selected, whether the proposed selection improves the geographical representation of the mission. The data are also monitored on a quarterly basis through the management dashboard to guide the course of recruitment actions.

The geographical representation, by country, of the international staff posts in all special political missions is provided centrally in annex XIX of the main report (A/79/6 (Sect. 3)/Add.1).

^a These include: (a) monitoring and reporting to the Security Council every six months on the implementation of the resolution; and (b) supporting the work of the Council and its Facilitator by (i) assisting the Facilitator in the organization and staffing of informal meetings of the Council relating to the implementation of the resolution; (ii) managing all incoming and outgoing communications relating to implementation of the resolution and assisting the Facilitator in corresponding with Member States on behalf of the Council; (iii) drafting correspondence, speaking notes and briefings of the Facilitator relating to the implementation of the resolution; (iv) maintaining and archiving all information and documents relating to the Council's work relating to the implementation of the resolution; (v) maintaining and promoting publicly available information on the restrictions from the Council, including through the Council's website and outreach; (vi) providing administrative support for the Council's review of Joint Commission recommendations; and (vii) performing any other task, upon request from the Council, to support the implementation of resolution 2231 (2015).

^b As specified in resolution 2231 (2015), 10 years from Adoption Day of the Joint Comprehensive Plan of Action, provided that the provisions of the previous Security Council resolutions have not been reinstated in the interim, that all the provisions of resolution 2231 (2015) shall be terminated and that the Council will have concluded its consideration of the Iranian nuclear issue and the item "Non-proliferation" will be removed from the list of matters of which the Council is seized. Adoption Day of the Plan of Action occurred on 18 October 2015.

I. Resource overview

1. The proposed resource requirements for 2025 for the 10 special political missions grouped under thematic cluster III amount to \$394,976,300 (net of staff assessment). Tables 1 and 2 provide a comparison between the financial and human resources proposed for 2025 and such resources for 2024 as approved by the General Assembly in its resolution 78/253.

Table 1

^b Includes National Professional Officers and Local level staff.

^c Includes international and national United Nations Volunteers.

2. The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include the 12-month average vacancy rate in 2023 and the actual vacancy rate as at 31 March 2024. The lower of the two was used as the budgeted vacancy rate. This is in line with the policy guidance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2025 and to ensure that proposed vacancy rates are based, as much as possible, on actual rates. A vacancy rate of 50 per cent has been applied in the calculation of costs for the proposed establishment of new posts and positions, or posts and positions proposed for reassignment or conversion.
3. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2024 or 2025.

II. Cross-cutting information

Gender perspective

4. Special political missions are guided by Security Council resolutions [1325 \(2000\)](#), [1820 \(2008\)](#), [1888 \(2009\)](#), [1889 \(2009\)](#), [2122 \(2013\)](#), [2242 \(2015\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#), [2467 \(2019\)](#) and [2493 \(2019\)](#), which, together, constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution [75/100](#) on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
5. Specific examples of how special political missions integrate a gender perspective into their operational activities, deliverables and results are given under the individual missions in the present report.

Disability inclusion

6. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts undertaken by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

7. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

III. Special political missions

1. United Nations Office for West Africa and the Sahel

(\$15,822,900)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

8. The United Nations Office for West Africa and the Sahel (UNOWAS) is responsible for conflict prevention and ensuring sustainable peace and security in West Africa and the Sahel. Its mandate derives from the exchanges of letters between the Secretary-General and the President of the Security Council ([S/2016/88](#) and [S/2016/89](#), [S/2016/1128](#) and [S/2016/1129](#), [S/2019/1009](#) and [S/2020/85](#) and [S/2023/70](#) and [S/2023/71](#)), as well as Council resolution [2349 \(2017\)](#). The mission's current mandate will expire on 31 January 2026.
9. UNOWAS will continue to monitor political, socioeconomic and security developments, identify emerging peace and security threats and provide good offices to prevent conflict, sustain peace and consolidate peacebuilding and political stability in West African and Sahelian countries; enhance regional and subregional partnerships to address cross-border and cross-cutting peace and security threats; support, through political advocacy and convening, implementation of the United Nations integrated strategy for the Sahel; and promote good governance, respect for the rule of law, human rights and gender mainstreaming in conflict prevention, management and resolution. In doing so, it will work closely with regional and subregional entities and enhance its collaboration across the United Nations system.
10. Following the termination of the mandate of the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA), UNOWAS assumed the country-specific and regional aspects of its good offices mandate in Mali. The withdrawal of MINUSMA, the political transitions in Burkina Faso, Guinea, Mali and the Niger and the announcement by Burkina Faso, Mali and the Niger of their withdrawal from the Economic Community of West African States (ECOWAS), compounded by the fast-evolving regional security context, will require intensive UNOWAS monitoring and good offices engagement to promote inclusive dialogue, the restoration of constitutional order and the re-establishment of good relations between those countries and ECOWAS.

Programme of work

Objective

11. The objective, to which this mission contributes, is to achieve peace and security in West Africa and the Sahel.

Strategy and external factors for 2025

12. To contribute to the objective, the mission will:
 - (a) Strengthen its early warning and conflict prevention and resolution and management action with relevant partners, with a focus on countries undergoing political transitions (Burkina Faso, Guinea, Mali and the Niger) and those scheduled to hold elections in 2025 (Côte d'Ivoire,

- Guinea-Bissau and Togo); de-escalate crises relating to social cohesion and political reforms and address governance-related challenges; lead regional and international diplomatic engagements to build consensus on regional responses; support regional solutions to cross-cutting threats to peace and security; and monitor and assess political developments in the region;
- (b) Enhance partnerships with regional institutions to address regional peace and security challenges, together with civil society organizations and United Nations entities, with a focus on the root causes of instability and insecurity in the region, while reinforcing the peace-security-development nexus; and conduct high-level advocacy to facilitate humanitarian assistance and emergency education to affected populations;
 - (c) Accelerate the implementation of the women and peace and security and youth, peace and security agendas through the promotion of meaningful involvement of women and young people in political and decision-making processes and mediation initiatives; and advance the promotion of good governance and respect for human rights and the rule of law;
 - (d) Intensify its analytical work, such as on the adverse implications of climate change, energy poverty, ecological change and natural disasters.
13. The above-mentioned work is expected to result in:
- (a) Prevention and mitigation of conflicts, consensual political processes, the consolidation of democracy and political stability, including restoration efforts in the countries undergoing political transitions, peaceful and inclusive electoral processes, and conflict prevention mechanisms;
 - (b) Strengthened subregional cross-border responses and coherent, comprehensive and integrated approaches to challenges relating to climate change, transnational organized crime, illicit trafficking, farmer and herder dynamics, intercommunal violence, terrorism and violent extremism;
 - (c) Mainstreaming of gender into conflict prevention, management and resolution activities in West Africa and the Sahel;
 - (d) Curbing of the trend of serious violations of human rights and of international humanitarian law during counter-terrorism military operations and electoral crises, reducing the instances of manipulation of the justice system, and improving security sector governance and humanitarian assistance to vulnerable groups.
14. With regard to cooperation with other entities, UNOWAS partners with the African Union, ECOWAS, the Mano River Union, the Lake Chad Basin Commission, the Accra Initiative, the Liptako-Gourma Authority, the Gulf of Guinea Commission, the African Development Bank, national human rights institutions and other human rights groups in the region to strengthen and harmonize regional capacities for conflict prevention and resolution, peacebuilding and sustaining peace; advance good governance and respect for human rights and the rule of law and the participation of women and young people in political and decision-making processes; and support regional responses to address cross-border threats to peace and security.
15. With regard to inter-agency coordination and liaison, UNOWAS works with the Development Coordination Office and resident coordinators, humanitarian coordinators, United Nations country teams, United Nations agencies, funds and programmes based in Dakar and other United Nations partners to address the multifaceted challenges facing the region. Coordination with United Nations entities, including with the Special Coordinator for Development in the Sahel, continues within the United Nations integrated strategy for the Sahel framework and in line with the mission's convening and political advocacy role. The engagement of UNOWAS is aligned with the priorities of the integrated strategy, with a focus on cross-border threats to peace and security and efforts to counter radicalization. UNOWAS works closely with the Peacebuilding Support Office of the Department of Political and Peacebuilding Affairs in relation to joint interventions. It coordinates with the United Nations Regional Office for Central Africa (UNOCA) on transregional issues affecting West and Central Africa, including the threats posed by terrorist factions in the Lake Chad Basin and conflicts relating to farmer-herder dynamics, climate security, piracy and maritime security in the Gulf of Guinea.

16. In relation to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) There is a high demand for UNOWAS good offices to facilitate political dialogue and ease political tensions and to support countries undergoing political transitions, institutional reforms, elections and peacebuilding;
 - (b) The Heads of State and Governments of West Africa, ECOWAS, the Lake Chad Basin Commission, the Mano River Union, the African Union, the Gulf of Guinea Commission and the Accra Initiative demonstrate their commitment to mobilizing resources to address challenges to peace and stability, as well as the political will to sustain regional peace and security mechanisms; And the ECOWAS early warning and response mechanism and other regional conflict prevention instruments are operationalized in full at the regional, national and local levels;
 - (c) The international community remains committed to supporting the countries of the region and regional and subregional organizations in addressing governance and security challenges; and peacebuilding and peace consolidation efforts by regional and subregional organizations and other partners continue;
 - (d) There is strong political commitment on the part of Member States, regional organizations and civil society organizations to work with the United Nations in the context of the United Nations integrated strategy for the Sahel;
 - (e) Political and technical level engagements with UNOCA in support of the Gulf of Guinea Commission and the Interregional Coordination Centre for Maritime Safety and Security in the Gulf of Guinea continue;
 - (f) Governments in the region remain open to engage with UNOWAS and other partners to improve the human rights and rule of law situation.

Programme performance in 2023

Reduction in electoral-related tensions and resumption of dialogue in transition countries throughout West Africa and the Sahel

17. In 2023, UNOWAS led 38 good offices and mediation interventions in the region to create favourable conditions for peaceful and inclusive presidential polls and accompany regional leaders in implementing political reforms and addressing security challenges. In the countries undergoing political transitions, the mission maintained close contact with host authorities, advocating for inclusive transition processes and, in the case of the Niger following the 26 July military takeover, advocating for a political solution to the crisis. The mission's engagements with regional and international partners to build consensus and break the political deadlock culminated in a decision by ECOWAS to lift travel bans and other targeted sanctions. Following the decision of the Security Council, at the request of the Malian transition authorities, to terminate the mandate of MINUSMA, the mission actively engaged the Malian authorities and regional partners to explore the role of the United Nations in supporting implementation of the Agreement on Peace and Reconciliation in Mali and pursued regional diplomacy to stabilize the situation and prevent the spillover of insecurity across the region.
18. In the context of the presidential elections held in 2023, UNOWAS led good offices and preventive diplomacy initiatives, including jointly with ECOWAS, to ease tensions, facilitate dialogue and instil public trust in electoral management bodies. In Liberia, the mission intensified diplomatic engagement with presidential candidates amid heightened tensions, while, in Sierra Leone, it played an instrumental role in creating conditions for the signing of an agreement that ended the post-electoral stalemate. UNOWAS also engaged with national stakeholders in Guinea-Bissau to encourage peaceful cohabitation and the advancement of key national reforms.
19. Progress towards the objective is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of high-level good offices and mediation missions carried out to prevent election-related tensions and consolidate political stability

Planned results for 2025

Result 1: strengthened regional partnership and leadership role in support of the implementation of the United Nations integrated strategy for the Sahel

Programme performance in 2023 and target for 2025

20. In 2023, the UNOWAS work contributed to reinforcing existing partnerships to advance the implementation of the United Nations integrated strategy for the Sahel. Its engagement with international partners in support of sustained attention on the Sahel led to crucial policy changes relating to aid delivery and dialogue with the authorities of transition countries. UNOWAS also organized a regional conference on education in situations of conflict and participated in high-level events on transnational organized crime and migration. The mission maintained strong ties with the Special Coordinator for Development in the Sahel, providing strategic leadership support to guide United Nations interventions amid regional political shifts. In that regard, the mission was able to undertake 14 high-level meetings, exceeding the planned target of 10.
21. For 2025, UNOWAS will intensify its engagement with existing and new regional partners, when opportunities arise. It will aim to address governance deficits and enable more effective political, humanitarian, development and peacebuilding interventions, prioritizing national ownership. It will step up efforts to generate and sustain political will and build national capacities of key regional and national institutions and actors that are critical for addressing the growing governance and rule of law deficit, including institutions responsible for the electoral systems and security sector reform.
22. Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure II).

Figure II
Performance measure: number of briefings, high-level meetings and advocacy engagements between leadership of the mission and regional partners in the Sahel

Result 2: reduction in electoral-related tensions and resumption of dialogue on transition countries throughout West Africa and the Sahel

Programme performance in 2023 and target for 2025

23. For 2025, UNOWAS will conduct high-level good offices and political advocacy in countries that are scheduled to hold elections to help to create the conditions for peaceful, inclusive and credible electoral processes, reinforcing collaboration with regional partners and resident coordinators and United Nations country teams. It will also accompany countries in undertaking critical institutional reforms to consolidate democratic governance and political stability.

Lessons learned and planned change

24. The lesson for UNOWAS was that, to ensure sustainable outcomes, investment in inclusive and nationally owned mediation and conflict prevention processes must be made, anchoring United Nations efforts in the aspirations of people across the region. To this end, the mission will prioritize national and regional dialogue and mediation and facilitation initiatives while also pursuing collaboration with a broad range of stakeholders to address governance deficits and address security challenges.
25. Expected progress towards the objective is presented in the performance measure below (see table 3).

Table 3

Performance measure: number of high-level good offices and mediation missions carried out to prevent election-related tensions and consolidate political stability

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Increased good offices and mediation efforts to address election related tensions/ disagreements throughout West Africa and the Sahel	Enhanced good offices and mediation efforts to address election related tensions/ disagreements throughout West Africa and the Sahel	Increased high-level good offices and mediation missions carried out to prevent election-related tensions and consolidate political stability	Peaceful electoral processes and political reforms throughout West Africa and the Sahel	Continued high-level good offices and mediation missions carried out to prevent election-related tensions and consolidate political stability

Deliverables

26. Table 4 lists all deliverables of the mission.

Table 4

Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	15	18	17	17
3. Workshops on peace and security, including terrorism, violent extremism conducive to terrorism, transnational organized crime, human rights and the implementation of Security Council resolution 1325 (2000) and subsequent resolutions on women's rights	15	18	17	17
Technical materials (number of materials)	4	7	6	6
4. Issue papers on peace and security, human rights, gender and young people	4	7	6	6
Fact-finding, monitoring and investigation missions (number of missions)	15	16	27	27
5. Advocacy and support for integrated subregional and cross-border responses on cross-cutting threats to peace and security, in particular election-related instability and challenges related to governance deficits, security sector reform, transnational organized crime, illicit trafficking, terrorism and violent extremism conducive to terrorism; consultations on human rights during political and electoral processes; and advocacy for the effective implementation of the United Nations integrated strategy for the Sahel and advocacy for enhanced strategic cooperation and coordination in the Sahel in fulfilment of the objectives of the integrated strategy	15	16	27	27
C. Substantive deliverables				
Good offices: provision of good offices, including jointly with ECOWAS and the African Union, on conflict prevention across countries of West Africa and the Sahel in consideration of human rights and gender aspects.				
Consultation, advice and advocacy: monitoring missions to countries of West Africa and the Sahel to analyse developments and emerging threats and identify entry points for early warning and conflict prevention activities; monitoring missions to Burkina Faso and the Gambia to support United Nations initiatives to sustain peace; and pre- and post-electoral missions to countries conducting elections in West Africa and the Sahel to monitor tensions related to the electoral process.				
D. Communication deliverables				
Outreach programmes, special events and information materials: digital and print, information campaigns, brochures, flyers, and information notes to promote the good offices and the mission's activities while enhancing the visibility of the mission.				
External and media relations: media encounters, briefings, press conferences, press releases, statements and op-eds.				
Digital platforms and multimedia content: dissemination of information and promotion of the good offices and the activities of the mission through its website and social media.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Operational costs	5 429.1	5 327.2	5 557.3	5 208.7		(348.6)
Total (net of staff assessment)	14 835.2	14 806.1	15 900.1	15 822.9		(77.2)

Table 6

Human resources

	International staff										National staff			United Nations Volunteers			Total	
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National		Subtotal
	Approved 2024	1	1	–	2	9	16	13	1	6	–	49	9	22 ^a	31	–		–
Proposed 2025	1	1	–	2	9	16	13	1	6	–	49	9	22 ^a	31	–	–	–	80
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Includes one general temporary assistance position.

27. The proposed resource requirements for 2025 for UNOWAS amount to \$15,822,900 (net of staff assessment) and would provide for the deployment of one military adviser and one police adviser (\$108,900), salaries and common staff costs (\$10,505,300) for 49 international posts (1 Under-Secretary-General, 1 Assistant Secretary-General, 2 D-1, 9 P-5, 16 P-4, 13 P-3, 1 P-2 and 6 Field Service), 30 national posts (9 National Professional Officer and 21 Local level), and 1 Local level position (general temporary assistance), as well as operational costs (\$5,208,700), comprising the costs for consultants and consulting services (\$131,800), official travel (\$868,600), facilities and infrastructure (\$241,800), ground transportation (\$83,600), air operations (\$2,405,700), communications and information technology (\$649,400) and other supplies, services and equipment (\$827,800).
28. In 2025, no change is proposed to the number and levels of the posts.
29. The mission's approved 2024 staffing table includes one general temporary assistance position. It is proposed that this position, Finance and Budget Assistant (Local level), be continued in 2025, to support and maintain internal control over the financial transactions of the mission.
30. Vacancy rates of 12.3 per cent for international posts and 8.3 per cent for National Professional Officer posts, based on the actual average vacancy rates in 2023, and a vacancy rate of zero per cent for Local level posts and position, based on the actual vacancy rate in March 2024, have been applied

The following abbreviations are used in the tables: ASG, Assistant Secretary-General; FS, Field Service; GS, General Service; NPO, National Professional Officer; USG; Under-Secretary-General.

to the estimates. A vacancy rate of zero per cent has been applied to the estimates for military and police advisers on the basis of the actual vacancy rate in March 2024.

31. The decrease in requirements for 2025 compared with the appropriation for 2024 is attributable mainly to: (a) decreased requirements for international staff attributable to the application of a higher vacancy rate of 12.3 per cent compared with the approved rate of 11.4 per cent for 2024, and the application of a lower percentage of common staff costs of 63.3 per cent compared with 71.5 per cent applied in 2024, offset in part by an increase in the post adjustment multiplier for Senegal from 38.6 in April 2023 to 44.3 in April 2024; (b) lower requirements for emplacement, rotation and repatriation travel for military and police advisers, offset in part by higher requirements for the mission subsistence allowance; (c) lower requirements for consultants and consulting services due to the provisioning of fewer consultants than in 2024; (d) decreased requirements for facilities and infrastructure attributable primarily to lower requirements for security services due to actual lower costs of security guards and lower requirements for utilities and waste disposal services and for petrol, oil and lubricants; (e) lower requirements for aviation fuel, offset in part by the higher requirements for the rental and operations of the fixed-wing aircraft based on a new contract awarded in April 2024; (f) lower requirements for communications and information technology due to less acquisition of communications and information technology equipment, rate adjustments for satellite transponder charges, and lower requirements for public information and publication services due to less printing and fewer reproductions and magazine subscriptions; and (g) lower requirements for other supplies, services and equipment due mainly to the non-provisioning of training fees, lower freight costs and decreased requirements for other services. The decrease in requirements is offset in part by: (a) higher requirements for National Professional Officer and Local level posts attributable to the updated salary rates and lower vacancy rates of 8.3 per cent for National Professional Officers and zero per cent for Local level posts, compared with 11.1 and 4.5 per cent, respectively, applied in 2024, offset in part by the application of a lower percentage of common staff costs of 30.5 and 31.8 per cent compared with 35.1 and 33.6 per cent, respectively, applied in 2024; and (b) higher requirements for petrol, oil and lubricants for vehicles due to the expected distance to the new United Nations House in Diambiadio (45 km from Dakar) requiring increased fuel consumption and toll gates charges to support movement between the office and Dakar.

Extrabudgetary resources

32. In 2024, extrabudgetary resources in the amount of \$565,700 are estimated, comprising the following:
 - (a) Voluntary contributions of \$493,700, which are projected to be used to support preventive diplomacy efforts and enhance partnerships at the local, national, subregional and international levels (including with women and young people) to promote peace and stability in West Africa, and to support early conflict and crisis prevention action, notably in countries undertaking crucial political reforms and those gearing up for elections. Furthermore, these funds also be intended to enhance the mission's prevention, mediation and sustaining peace engagements to accompany Burkina Faso, Guinea, and Mali towards a timely and inclusive return to constitutional order and to rapidly address the situation in the Niger;
 - (b) Cost-recovery resources of \$72,000, which are projected to be used to cover the costs of the United Nations Educational, Scientific and Cultural Organization (UNESCO) in Dakar for utilities and maintenance services and the United Nations Office on Drugs and Crime (UNODC) for rental and utilities services under the office-sharing arrangements with the UNOWAS Liaison Cell Office in Mauritania and the UNOWAS Liaison Cell Office in Abuja.
33. In 2025, extrabudgetary resources estimated in the amount of \$549,700 (comprising voluntary contributions of \$493,700 and cost-recovery resources of \$56,000) are projected to be used to continue the above-mentioned supporting activities aimed at achieving peace and security in West Africa and the Sahel, as well as activities funded from cost recovery.
34. In 2025, the reduction in cost-recovery resources is due to the expected relocation of the office to a new building, where cost recovery from UNESCO would not be applicable.

2. United Nations Assistance Mission in Somalia

(\$104,646,300)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

35. The United Nations Assistance Mission in Somalia (UNSOM) is responsible for providing: (a) good offices to support the advancement of Federal Government of Somalia-led inclusive political processes and reconciliation; (b) technical, operational and logistical support for inclusive universal elections with the representation and participation of women; (c) assistance in security sector reform and improvements in rule of law institutions, as well as support for the comprehensive approach to security and implementation of the Somalia Transition Plan; and (d) promotion and protection of human rights and system-wide support for the implementation of the human rights due diligence policy. The Mission also provides strategic advice and support to bolster the Government's ability to deliver services, attract investment and advance the 2030 Agenda for Sustainable Development, in close collaboration with the United Nations country team and international financial institutions. The mandate is defined in Security Council resolution [2102 \(2013\)](#), by which the Council established the Mission, and was renewed in subsequent resolutions, including, most recently, resolution [2705 \(2023\)](#), by which the Mission's mandate was extended until 31 October 2024.
36. In its resolution [2705 \(2023\)](#), the Security Council requested the Mission to maintain and strengthen its presence across Somalia in consultation with the Federal Government of Somalia and federal member states, and to strengthen its cooperation with Somalia and the African Union, subject to United Nations security measures, and as the security situation allowed, and recognized that the political and security context in Somalia would affect the Mission's ability to fulfil its mandate. The Council encouraged the Mission to continue to coordinate United Nations efforts, maximize joint approaches and joint programming in relevant areas, in full cooperation with the Government and federal member states, and requested it to continue to provide support to the Government in its efforts to pursue inter- and intra-clan reconciliation at the local, regional and national levels towards the peaceful resolution of the dispute in Laascaanood and the surrounding areas. In addition, the Council called for the timely implementation of the recommendations of the strategic review of the Mission ([S/2022/716](#)), including planning to develop a road map for the eventual transition of the Mission to the United Nations country team.

Programme of work

Objective

37. The objective, to which this Mission contributes, is to achieve peace, security, political stability and national reconciliation in Somalia through the delivery of the mandate established by the Security Council and in line with the priorities of the Federal Government of Somalia.

Strategy and external factors for 2025

38. To contribute to the objective, the Mission will:
- (a) Support the Federal Government of Somalia and the federal member states in the complete delivery of successful one-person, one-vote elections at the district and federal member state

levels. This will involve good offices to help to broker agreement on the electoral model and technical support to establish electoral institutions and programmatic support to deliver inclusive elections with broader representation of marginalized groups (women, young people, people living with disabilities and clans);

- (b) Increase women's participation and representation in government at national and subnational electoral processes, including delivery of the 30 per cent quota enshrined in law, and increase women's participation in reconciliation and mediation processes, public spheres, leadership and decision-making;
- (c) Support the Federal Government of Somalia and the federal member states in strengthening their dialogue and cooperation to foster agreement on a new constitution, and, to achieve this, support, in particular, a new model of fiscal federalism that secures buy-in from all federal member states, including Puntland;
- (d) Provide good offices to help to resolve inter- and intra-federal member state conflicts, including in Laascaanood, with Puntland, and between Somalia and "Somaliland";
- (e) Provide good offices and strategic advice to support the implementation of the national security architecture and the security sector development plan, in coordination with partners, with a focus on security sector governance and institutional capacity-building;
- (f) Build the capability of Somali defence forces to mitigate the threat from explosive ordnance, including improvised explosive devices, effectively manage weapons and ammunition and coordinate mine action response;
- (g) Support the Federal Government of Somalia and federal member states in accelerating implementation of the national stabilization strategy, state-level stabilization plans and local reconciliation initiatives, as well as efforts in countering violent extremism. This will also entail support for the national defector rehabilitation programme through good offices, strategic advice and technical assistance;
- (h) Provide good offices, strategic advice and technical assistance for the development of a federated justice system, judicial structures and enhanced access to justice, including in newly or recently recovered areas, and leverage joint programming to this end, and support efforts to enhance cooperation and coordination across the justice chain at various levels of government; provide technical support to the Federal Government of Somalia to deliver on its commitments made during the universal periodic review process; and provide technical support to the Government in enhancing its engagement with international human rights mechanisms;
- (i) Support the establishment of the human rights commission to advance the protection and promotion of human rights in Somalia; provide technical support to the Federal Government of Somalia to deliver on its commitments made during the universal periodic review process; and provide technical support to the Government in enhancing its engagement with international human rights mechanisms;
- (j) Support the Federal Government of Somalia in the implementation of the two action plans regarding children associated with the Somali National Armed Forces and to eliminate the killing and maiming of children in contravention of international law (2012) reiterated by the Government in its commitments made in the road map on children and armed conflict in 2019;
- (k) Support the Federal Government of Somalia in implementing the joint communiqué on ending and preventing sexual violence in conflict;
- (l) Advance the Mission's implementation of the strategic review as mandated by the Security Council, including the preparation for an eventual transition of the Mission in line with Council mandates.

39. The above-mentioned work is expected to result in:

- (a) Contributing to national priorities on inclusive political processes, security, the rule of law and economic and social development in line with objectives in the United Nations Sustainable Development Cooperation Framework for the period 2021–2025;
 - (b) Support for the Federal Government of Somalia in implementing its national transformation plan and finalizing its Centennial Vision 2060;
 - (c) Support for the Federal Government of Somalia in advancing the security transition, in particular towards the strengthening of the Somali security sector.
40. With regard to cooperation with other entities, the Mission will work closely with any mandated security presence after the withdrawal of the African Union Transition Mission in Somalia. The Mission will continue to ensure compliance with the human rights due diligence policy with regard to United Nations support that may be provided to any non-United Nations entities in Somalia.
41. With regard to inter-agency coordination and liaison, the Mission will further enhance the integration of its activities with United Nations agencies, funds and programmes in Somalia, including through four joint programmes, and advance the implementation of the priorities outlined in the United Nations Sustainable Development Cooperation Framework for the period 2021–2025 in support of the Federal Government of Somalia’s national transformation plan.
42. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) The Federal Government of Somalia and federal member states will have achieved agreement on an electoral model and progress will have been made in delivering credible inclusive one-person, one-vote elections at the district level in 2024;
 - (b) The constitutional review process will have agreed on the broad outline of the revised constitution, but some contentious issues will still need to be addressed;
 - (c) Somalia will progressively assume responsibility for security, with the Federal Government of Somalia and federal member states making progress towards building able, accountable, acceptable and affordable security institutions as outlined in the constitution, national security architecture and the security sector development plan;
 - (d) Somali security forces are increasingly able to effectively hold territory, rendering ongoing stabilization efforts more sustainable;
 - (e) Human rights violations by parties to the conflict will remain a concern;
 - (f) Al-Shabaab will remain the greatest threat to security and stability in Somalia, followed by clan violence and localized disputes, and young Somalis will remain vulnerable to radicalization and recruitment by extremist groups, in particular Al-Shabaab;
 - (g) Women and girls will continue to be disproportionately affected by inequality, sexual violence, violations of international humanitarian law and violations and abuses of human rights;
 - (h) The risk of discrimination and exclusion facing minorities, marginalized communities and internally displaced persons will persist;
 - (i) Freedom of expression and civic space will face challenges, and the risk of human rights violations and protection risks to civilians will persist;
 - (j) Grave violations against children by parties to the conflict will remain a concern;
 - (k) The country will face recurring climate-related shocks, including drought and flooding;
 - (l) The United Nations presence in Somalia in 2025 will remain dependent on adequate security arrangements acceptable under the established United Nations security management system;
 - (m) Planning towards a road map for the eventual transition from the Mission to the United Nations country team with the Federal Government of Somalia will have been completed in 2024.

43. The Mission integrates a gender perspective into its activities, deliverables and results, as appropriate, including support for the increased protection of women and girls, as well as the participation and representation of women in the political sphere, economic life and reconciliation and peacebuilding efforts.
44. In line with the United Nations Disability Inclusion Strategy, the Mission, in partnership with the United Nations Support Office in Somalia, has developed a two-year joint action plan for the period 2023–2025. The plan for implementing the Strategy in Somalia was signed by both missions in December 2023. Importantly, it builds on the previous plan (2021–2022) by integrating the recommendations of an accessibility audit exercise conducted in 2022.

Programme performance in 2023

Electoral support for Puntland’s one-person, one-vote district elections in 2023

45. In May 2023, the Transitional Puntland Electoral Commission organized one-person, one-vote district elections in 30 of the planned 33 districts, with a voter turnout of 72 per cent and without major security incidents. These were the first one-person, one-vote elections in Puntland and in Somalia in more than 50 years. Electoral results were accepted in large part and the professionalism of the Commission in planning and implementing the process, with international support, was recognized. The Mission, in collaboration with the United Nations Development Programme (UNDP), played a key role in accompanying the electoral process by mobilizing resources, building the technical and operational capacity of the Commission and facilitating the coordination and delivery of international technical support. The technical and operational support complemented the good offices provided by the Mission to address political tensions during the electoral process.
46. Progress towards the objective is presented in the performance measure below (see table 7).

Table 7

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
Initial contact made with the Transitional Puntland Electoral Commission to identify areas in which UNSOM could provide capacity-building and technical and operational support pertaining to the holding of Puntland voter registration and direct district elections	<p>Technical capacity of the Transitional Puntland Electoral Commission staff in various thematic fields was reinforced and technical support in planning for voter registration and electoral operations was provided by UNSOM, in collaboration with UNDP</p> <p>A comprehensive electoral budget, including funds from donors and the Puntland authorities covering voter registration and district elections, was developed with the support of UNSOM, in collaboration with UNDP</p> <p>The operational capacity of the Transitional Puntland Electoral Commission in support of the planned voter registration and electoral operations was reinforced through international resources</p>	<p>UNSOM provided technical and financial support to the Transitional Puntland Electoral Commission in planning and conducting its voter registration and electoral operations, culminating in the one-person, one-vote district elections in May 2023</p> <p>UNSOM provided good offices to the process to ensure a conducive environment for the elections by mitigating political tensions</p>

Planned results for 2025

Result 1: effective and coordinated stabilization and complementary strategies and action plans, in support of the Somali authorities in newly recovered areas

Programme performance in 2023 and target for 2025

47. In 2023, the Mission enhanced its engagement with key federal and state ministries and institutions, supporting coordination on stabilization, including the development of plans for newly recovered areas and on preventing and countering violent extremism conducive to terrorism. It promoted a peacebuilding approach through increased engagement with religious scholars and the Ministry of Endowment and Religious Affairs at the federal and state levels. It supported the Federal Government of Somalia in recalibrating its national defector rehabilitation programme, as well as dialogue initiatives to foster community engagement with justice institutions.
48. In 2025, the Mission will enhance its support to the Federal Government of Somalia through good offices, encouraging greater cooperation with the federal member states in implementing the national stabilization strategy and related action plans. The implementation of the 2019 road map on children and armed conflict and the joint communiqué on ending and preventing sexual violence will be key. In newly recovered areas, the Mission will also support capacity-building efforts to enable reconciliation, justice and security arrangements.
49. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 8).

Table 8
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Information-sharing and joint planning are established for areas to be recovered under the transition plan, and the national strategy on preventing and countering violent extremism and the plan for implementing the strategy are both revised	Strategic advice and coordination support provided towards the revision and finalization of the national stabilization strategy, the review and recalibration of the national defector rehabilitation programme, and the finalization of the counter-terrorism strategy, ensuring a coherent approach between security and peacebuilding priorities	Support for and advice on coordination and planning processes contributed to Somali stakeholders implementing the national stabilization strategy, in particular in newly recovered areas Launch of alternative dispute resolution initiatives in additional locations Promulgation by the Federal Government of Somalia of a new draft counter-terrorism strategy focusing on high-level defectors from Al-Shabaab	Increased coordination efforts to advance implementation of the national stabilization strategy and action plans, the recalibrated national defector rehabilitation programme, as well as the revised national preventing and countering violent extremism strategy	Collaborative approach between the Federal Government of Somalia and federal member states in implementing the national stabilization strategy and action plans Increased engagement with Somali stakeholders on implementing the recalibrated national defectors rehabilitation programme Enhanced peacebuilding efforts towards preventing violent extremism

Result 2: resolution of outstanding issues of federalization through Federal Government and federal member state dialogue, enabling progress on the constitutional review and other state-building objectives

Programme performance in 2023 and target for 2025

50. In 2023, the Mission supported the convening of three National Consultative Council meetings for dialogue efforts between the Federal Government of Somalia and the federal member state leadership to advance progress towards achieving national priorities, including agreements on aspects of the constitutional review process, the fight against Al-Shabaab and proposals for the electoral calendar at the national and subnational levels. The Mission supported the Office of the Prime Minister in ensuring the integration of a gender perspective and inclusion of women into the Council processes. It also supported the capacity-building of parliamentarians to strengthen their participation in the constitutional review process, including the harmonization of federal and state-level constitutions and rules of procedure for the parliamentary process. It further increased its support for security sector development, including further implementation of the national security architecture, which is central to the federalization of security.
51. In 2025, the Mission will support national partners in creating an enabling environment for consultations on and the operationalization of an inclusive Somali-owned national constitutional review process. It will also exercise its good offices and provide technical support to foster political agreements on contentious issues relating to the constitutional framework.
52. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 9).

Table 9
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Federal Government of Somalia convened the National Consultative Council three times (without Puntland), covering priority areas, including security/fight against Al-Shabaab, elections, stabilization, constitutional review and power-sharing Technical work between the Federal Government of Somalia and federal member states in preparation for or follow-up to meetings of the National Consultative Council (or an equivalent platform) progressed and included women	Federal and state level leaders continue to engage in dialogue on key issues; federalization and state-building objectives are advanced Contentious issues relating to federalization and state-building at the federal and state levels are identified and resolution is sought at the technical and political levels	Federal and state level leaders agree on progress towards implementation of national State-building priorities Consultations take place as part of the constitutional review process inclusive of diverse perspectives of women, youth and marginalized groups’ representatives Agreement on the constitutional review process and a timetable for constitution

Result 3: strengthened priority capabilities of Somali rule of law and security institutions at the federal and state levels

Programme plan for 2025

53. In 2025, the Mission will support Somali rule of law and security institutions through strategic, policy and technical advice and the coordination of partners. This will include advancing implementation of the revised national security architecture, including the establishment of the National Security Council, and the security sector development plan, as well as the development and implementation of legal frameworks relating to rule of law and security sector governance. In addition, it will support existing coordination forums on force generation, training and accountability initiatives, as well as the development of a national maritime security strategy. The Mission will coordinate the implementation of the policing, as well as justice and corrections models, and promote the independence of the judiciary, civilian oversight and accountability, to strengthen access to justice, including in fragile and recovered areas. Furthermore, it will support the coordination of the recalibrated national defector rehabilitation programme and promote violence reduction through piloting of adapted disarmament, demobilization and reintegration tools.

Lessons learned and planned change

54. A need for increased coordination and cooperation with both national and international partners was among the main findings from phase I of the joint police programme. The United Nations police will aim to foster closer collaboration with UNDP during the next phase. Similarly, pilot projects of enhancing justice and policing services in newly recovered areas revealed coordination challenges and the need for improved collaboration and understanding between formal and informal justice providers. In newly recovered areas, alternative dispute resolution training was identified as crucial to resolving potential disputes. However, the absence of Somali police has hindered sustained rule of law support. The new administration shifted its focus towards force generation to enable military operations against Al-Shabaab. Joint technical assessments of the African Union Transition Mission in Somalia drawdown were conducted in 2023 and 2024 to inform subsequent phases and ensure a seamless handover of security responsibilities to Somali security forces.
55. Expected progress towards the objective is presented in the performance measure below (see table 10).

Table 10
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
Somalia Transition Plan revised and issued, and technical coordination achieved through comprehensive approach to security structures	Capacities of accountable, affordable and able Somali security forces protecting the civilian population strengthened	Somali security sector development plan adopted and national security architecture revised	Phase 2 of joint police programme commenced	Technical support provided to strengthen Somali security forces' capabilities towards their full assumption of security responsibilities
Joint rule of law and security governance programmes ensured that the executive and legislative structures of the Federal Government of Somalia and federal member states	Strategic coordination between national and international stakeholders in the security sector strengthened	Joint justice and corrections programme adopted	Security legislation developed and adopted	Support for the implementation of the security sector development plan and the revised national security architecture is coordinated with stakeholders, facilitating tangible progress
	Progress made on legislation to improve external	Phase 2 of joint police programme designed	Capacity-building of national institutions and implementation of initial stages of the joint justice and corrections programme implemented	
		Coordination of maritime security stakeholders strengthened		

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
supported Somalia Transition Plan implementation	civilian oversight over security forces Hirshabelle State Police Act enacted, and four police bills developed and consulted Partners coordination mechanism on maritime security established	National defector rehabilitation programme revised Baseline assessment of national counter-improvised explosive device framework conducted	Workstreams on defence, police, rule of law and public financial management established for the implementation of the security sector development plan	Independence of the judiciary is promoted through implementation of the next phase of the joint justice and corrections programme Implementation of the national weapons and ammunition management strategy is effective at the federal and state levels Maturity level of the national counter-improvised explosive device capability is strengthened

Deliverables

56. Table 11 lists all deliverables of the Mission.

Table 11
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	4	3	3	3
1. Reports of the Secretary-General for the Security Council	4	3	3	3
Substantive servicing of meetings (number of documents)	4	3	3	3
2. Meetings of the Security Council	4	3	3	3
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	2	2	–	4
3. Joint programmes on state-building and reconciliation support, joint justice and corrections, human rights and electoral support programme	2	2	–	4
Seminars, workshops and training events (number of days)	297	301	264	275
4. Seminars to support the implementation of child protection laws	12	–	6	6
5. Seminars on the coordination and implementation of federated political agreements on rule of law and on rightsizing the Somali security forces	4	3	4	6
6. Seminars on security and justice-focused public expenditure	2	2	2	2
7. Workshops on addressing conflict-related sexual violence (protection of women)	8	8	8	8
8. Workshops, seminars, training events on capacity-building of human rights institutions	6	6	6	6
9. Thematic workshops on human rights issues with civil society, such as those dealing with minorities, people with disabilities, women and children, civil society engagement and basic human rights obligations, and on monitoring and reporting on the human rights performance of Somali security forces and their ability to foster trust and confidence in communities	14	14	14	14

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
10. Workshops for the country task force on monitoring and reporting on violations against children, including children and armed conflict	12	12	12	12
11. Workshops to enhance the capacity and harmonize the implementation of the recalibrated national defector rehabilitation programme	2	6	2	4
12. Workshops on advocating and capacity-building to establish an affordable justice system and the roll-out of the federated justice and corrections model	20	20	16	16
13. Workshops for the custodial corps on prison management	20	25	16	16
14. Workshops on civilian oversight of security institutions	8	3	5	6
15. Workshops on implementation of maritime priorities in accordance with the Somali national maritime security strategy and blue economy strategy, strengthening legislation and opportunities for women based on the women in the maritime sector strategy	5	5	5	8
16. Workshops to support institutional capacity-building towards the implementation of the national security architecture and the Somalia security sector development plan	6	7	6	6
17. Workshops on integrity system to enhance anti-corruption capacities of national authorities, local authorities, and civil society organizations	1	1	2	2
18. Workshops, training and capacity-building on comprehensive approach to stabilization to review implementation of the national stabilization strategy and plan and to review, develop and update state stabilization plans	7	9	7	7
19. Workshops at federal and state levels on preventing violent extremism conducive to terrorism, including with international partners	6	9	2	4
20. National youth seminar, held in partnership with the Federal Government of Somalia/federal member states' ministries of youth and sports, on youth priorities for Somalia	7	1	1	1
21. Workshops, assessments, consultations and/or training to support Federal and federal member state-level institutions with advice on weapons and ammunition management to reduce risk to the civilian population	40	41	40	40
22. Training on protection of civilians	12	12	12	12
23. Workshops/seminars/training activities for the National Independent Electoral Commission and electoral management bodies at the state level on jointly identified thematic areas	20	24	20	15
24. Workshops on prevention of and response to electoral violence against women leaders	2	2	–	–
25. Workshops/seminars/training activities for the National Independent Electoral Commission and electoral management bodies at the state level on legal frameworks and inclusive dialogue with stakeholders	10	2	10	10
26. Workshops/seminars/training activities in journalism, social media and coverage of election campaign	16	31	16	20
27. Miscellaneous workshop/seminars/training activities by Rule of Law and Security Institutions Group of UNSOM on implementation of Somalia security sector development plan/new policing model/comprehensive approach to security	16	23	16	16
28. Workshops, seminars or capacity building/training events in support of relevant government institutions at the federal and state level on inclusive politics	6	6	5	5
29. Workshops, seminars or capacity-building/training events on peacebuilding, mediation, and conflict resolution	5	5	5	5
30. Workshops seminars or capacity-building/training events on the constitutional review process	5	5	5	5
31. Technical workshops to assist the Somali National Youth Council/Youth Advisory Board	6	–	2	4
32. Workshops to build the capacity of civil society for monitoring and reporting on the human rights performance of Somali security forces and their ability to foster trust and confidence in communities, including with regard to conflict -related sexual violence	4	4	4	4

C. Substantive deliverables

Good offices: provide support to the Federal Government of Somalia, the federal member states and other stakeholders in advancing the national priorities, including concrete movement towards the conclusion of the constitutional review process, enhanced women's political participation, implementation of the national security architecture and progressing political processes towards 2026 elections; and provide support to Somali stakeholders in addressing clan and localized conflicts, including in recently recovered areas.

Consultation, advice and advocacy: consultations with civil society on deepening federalism, constitutional review process, local conflict management and resolution and the national reconciliation process; advice on drafting the revised constitution; strategic and technical advice on revisions to the electoral legal framework and on inclusive electoral processes; advocacy for women's enhanced participation and representation in leadership and decision-making political processes and in electoral processes, and participation in political leadership roles in governance institutions; advice on the compliance of national legislation with international human rights law, including policies addressing sexual violence in conflict and children in armed conflict; advice and advocacy to strengthen the national protection framework and institutionalize accountability mechanisms on the implementation of human rights commitments, on recommendations emerging from the human rights universal periodic review process, on human rights due diligence assessments and on addressing violations committed by international, national and government affiliated forces; advice on security sector legislation and budgetary measures, including the sustainable financial management of the security sector; consultations on the legal framework to implement national security architecture; advocacy for increased joint planning between security forces and stabilization actors in recovered areas and link to more development orientated services; strategic advice and advocacy towards the establishment of independent and accountable security and rule of law institutions; enhancement of Somali maritime administration and women in the maritime sector; and policy and technical advice to coordinate the mine action response, mitigate the threat posed by explosive ordnance and effectively manage weapons and ammunitions.

D. Communication deliverables

Outreach: two long-term strategic messaging campaigns targeting Somali audiences communicating on the work of the United Nations in Somalia, including on thematic issues, and through chairing the United Nations Communications Group – Somalia, which involves harmonizing communications and taking the lead or main support role in joint messaging campaigns; collaborate with civil society (e.g., media associations and youth groups) for events to mark official United Nations observances relevant to the Somali context, and amplify United Nations messaging goals; communications support and multimedia coverage on visits of high-level United Nations officials to Somalia, as required; and support and guide targeted outreach activities, as required, on an ad hoc basis.

External and media relations: build working relationships with Somali and international media to help to ensure a better understanding of the work of the United Nations in Somalia and development of the Somali communications sector through capacity-building programmes for the media and government communications offices, both at the national and subnational levels; and organize at least two press conferences for United Nations leadership and arrange for interviews and other media coverage with United Nations officials, as required.

Digital platforms and multimedia content: four digital platforms (social and digital media) that produce multilingual and multimedia content, with at least 250 items (including cards, infographics and videos) for dissemination on social media and online channels; for traditional platforms, produce Somali-language radio programming, with at least 50 episodes of the "Path to peace" programme and, as required, the continuation of long-term awareness campaigns centred on radio programming, targeting Somali audiences; produce a series of radio programmes on high-priority topics on an ad hoc basis; production of 12 monthly updates (both English and Somali) highlighting the work of the United Nations system in Somalia; four English-language United Nations quarterly updates, highlighting the work of the United Nations system in Somalia, aimed at Somali government partners, international partners and donors; and design and production support for a range of digital newsletters highlighting work of the United Nations.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 12

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)

Proposed 2025	1	2 ^a	1	9 ^b	30	51 ^b	37	–	55	–	186	98	45	143	18	1	19	348
Change	–	–	–	1	–	–	–	–	(2)	–	(1)	11	–	11	–	–	–	10

^a One position is funded at 50 per cent and cost-shared with the Development Coordination Office.

^b Includes one D-1 and one P-4 general temporary assistance position.

57. The proposed resource requirements for 2025 for the Mission amount to \$104,646,300 (net of staff assessment) and would provide for the deployment of 625 United Nations Guard Unit personnel and 9 United Nations police personnel (\$16,194,500), salaries and related costs (\$48,541,500) for 186 international posts (1 Under-Secretary-General, 2 Assistant Secretary-General, 1 D-2, 9 D-1, 30 P-5, 51 P-4, 37 P-3 and 55 Field Service), 143 national posts (98 National Professional Officer and 45 Local level), 19 United Nations Volunteers and 17 government-provided personnel, as well as operational costs (\$39,910,300), comprising the costs for consultants and consulting services (\$475,100), official travel (\$987,700), facilities and infrastructure (\$19,987,200), ground transportation (\$1,564,300), air operations (\$7,752,200), communications and information technology (\$5,202,100), medical (\$1,329,700) and other supplies, services and equipment (\$2,612,000).
58. A vacancy rate of zero per cent has been applied to the estimates for military contingents on the basis of the actual vacancy rate in March 2024. A vacancy rate of zero per cent has been applied to the estimates for United Nations police on the basis of the assumption of full deployment in 2025, taking into account the abolishment of five United Nations police positions in 2025. A vacancy rate of 13.1 per cent has been applied to the estimates for international posts on the basis of the average vacancy rate for 2023. Vacancy rates of 8.0 and 13.3 per cent have been applied to the estimates for National Professional Officer and Local level posts, respectively, on the basis of vacancy rates in March 2024. A vacancy rate of 12.0 per cent has been applied for government-provided personnel, taking into account the abolishment of six government-provided personnel positions in 2025. A vacancy rate of 25.0 per cent has been applied to the estimate for international United Nations Volunteers on the basis of the average vacancy rate in 2023. A vacancy rate of 50.0 per cent continued

to be applied to the estimate for one position of national United Nations Volunteer approved in 2023, which is vacant.

59. In 2025, the proposed staffing complement includes the establishment of 12 posts, as well as the abolishment of 2 posts, 6 government-provided personnel positions and 5 United Nations police personnel, as follows:

Office of the Deputy Special Representative of the Secretary-General/Resident and Humanitarian Coordinator

- (a) Establishment of 1 post of Chief, Principal Coordination Officer (D-1) in Mogadishu to head the integrated office of the Deputy Special Representative of the Secretary-General/Resident and Humanitarian Coordinator. The incumbent will play a pivotal role in supporting the Mission by fostering joint programmes and approaches across the Mission and United Nations agencies, funds and programmes in alignment with the Mission's broad mandate;
- (b) Establishment of 2 posts of Associate Coordination Officers (National Professional Officer) in the Community Recovery and Extension of State Authority and Accountability Team in Baidoa and Jowhar, to provide support and advice to the relevant ministry of interior in these states on the development of the state stabilization plan in the areas of community recovery, local governance, social cohesion and reconciliation and security;

Integrated Electoral Support Group

- (c) Abolishment of 1 Administrative Assistant (Field Service) in the Integrated Electoral Support Group that has been vacant for 33 months and whose functions are assessed to have been adequately covered by other posts;

Strategic Communications and Public Affairs Group

- (d) Establishment of 1 post of Public Information Officer (National Professional Officer) in Beledweyne to support and improve monitoring and engagement with local developments and ensure equitable support and effective dissemination of United Nations messages across all regions;

Political Affairs and Mediation Group

- (e) Establishment of 1 post of Associate Political Affairs Officer (National Professional Officer) in Beledweyne to support the Hirshabelle field office, which will be instrumental in aiding Hirshabelle State's governance, state-building and peacebuilding efforts;

Human Rights and Protection Group

- (f) Establishment of 1 post of Human Rights Officer/Child Protection Officer (National Professional Officer) in Garoowe to support the monitoring, reporting, advocacy and capacity-building relating to children's rights and protection in Somalia;

Justice and Correction Section

- (g) Establishment of 1 post of Judicial Affairs Officer (National Professional Officer) in Jowhar to support the joint justice and corrections programme in Aadan Yabaal and Muqakoori, as well as the leadership in Hirshabelle;
- (h) Establishment of 2 posts of Rule of Law Officer (National Professional Officer), 1 each in Dhuusamarreeb and Garoowe, to provide strategic advice and support to justice leadership, focusing on clan dynamics and programme activities in Baxdo and Hardheere.
- (i) Abolishment of five government-provided personnel positions in regions such as Hargeysa, Somaliland, Beledweyne, Hirshabelle and Galmudug. This reconfiguration is driven by the need to reallocate resources more effectively in alignment with the Mission's strategic objectives;

Security Sector Reform Section

- (j) Abolishment of 1 government-provided personnel position of Military Adviser in Hargeysa, which has remained unfilled for one year;
- (k) Establishment of 1 post of Security Sector Reform Officer (National Professional Officer) for the defence sector in Mogadishu;

Police Section

- (l) Establishment of 2 posts of Associate Police Coordination Officer (National Professional Officer) to be based in Mogadishu and Beledweyne, to strengthen liaison efforts with key national counterparts, including the Somali police force and the Ministry of Internal Security;
 - (m) Abolishment of 1 post of Administrative Assistant (Field Service), which has been vacant for 28 months and whose functions are assessed to have been adequately covered by other posts;
 - (n) Abolishment of 5 United Nations police positions in tandem with an effort aimed at increasing the national component of the Mission's staffing, thereby enhancing the effectiveness and contextual relevance of the support provided.
60. The Mission's approved 2024 staffing table includes two general temporary assistance positions. It is proposed that the positions be continued in 2025:
- (a) Chief, Programme Management (D-1), in the Office of the Deputy Special Representative of the Secretary-General/Rule of Law and Security Institutions Group, which would continue to be required to oversee the UNSOM mine action component, leading strategic and operational planning, advising the UNSOM leadership on mine action issues, supervising the implementation of the workplan, and leading engagement with the national authorities, the United Nations country team and other stakeholders involved in mine action;
 - (b) Environmental Affairs Officer (P-4), which would continue to be required to focus on delivering the environmental components of the UNSOM mandate in accordance with Security Council resolutions [2592 \(2021\)](#) and [2657 \(2022\)](#), in close collaboration with the United Nations Support Office in Somalia and the United Nations country team. There is a sustained need for environmental and climate change-related advice owing to the increased impact of climate change on Somalia and related requests for support from the Federal Government of Somalia and the federal member states. The position continues to support the Mission's leadership on all environmental and climate change-related issues, including providing up-to-date analyses of the environmental causes and consequences of conflict and insecurity and providing risk assessments and risk management strategies.
61. The increase in requirements for 2025 compared with the appropriation for 2024 is attributable primarily to: (a) a decrease under military and police personnel costs due to non-requirements for death and disability compensation in military contingents and United Nations police, the lower cost of round-trip tickets and the abolishment of 5 police personnel positions; (b) an increase under civilian personnel costs, due mainly to the application of a lower vacancy rate of 13.1 per cent for international posts compared with 13.9 per cent in 2024, as well as the higher post adjustment multiplier of 55.0 in April 2024 compared with 45.6 in April 2023, a lower vacancy rate of 8.0 per cent for National Professional Officer posts compared with 11.5 per cent in 2024 and a lower vacancy rate of 13.3 per cent for Local level posts compared with 20.0 per cent in 2024, as well as the proposed establishment of 11 National Professional Officer posts, offset in part by the abolishment of 6 government-provided personnel; and (c) an increase under operational costs due to (i) an increase in air operations for fixed-wing and rotary-wing aircraft and the higher cost per flight hour, from \$255 in 2024 to \$360 in 2025, based on the most recent contract, and (ii) a higher requirement for other supplies, services and equipment due to freight costs relating to the acquisition of equipment, spares and supplies. The increase is offset in part by decreased requirements under facilities and infrastructure mainly in petrol, oil and lubricants, decreases under communications and

information technology and ground transportation due to fewer vehicles to be replaced, and reductions under official travel, consultants and consulting services, and medical services.

Extrabudgetary resources

62. In 2024, extrabudgetary resources in the amount of \$1,210,600 are projected to be utilized to support planned activities relating to peace and reconciliation in Somalia.
63. In 2025, extrabudgetary resources in the amount of \$1,210,600 are projected to be utilized to continue to support peace and reconciliation activities.

3. United Nations Regional Centre for Preventive Diplomacy for Central Asia

(\$3,555,900)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

64. The United Nations Regional Centre for Preventive Diplomacy for Central Asia is responsible for supporting national authorities in identifying and addressing existing and emerging threats to regional peace and security. The open-ended mandate was defined through an exchange of letters between the Secretary-General and the President of the Security Council ([S/2007/279](#) and [S/2007/280](#)). The mission plays a central role in preventive diplomacy efforts in Central Asia and provides a platform for regional dialogue on the most pressing challenges to security and stability.
65. The main function of the Regional Centre is to strengthen United Nations capacity for conflict prevention in Central Asia through liaising with the Governments of the region and, with their concurrence, engaging with other concerned parties on issues relevant to preventive diplomacy; monitoring and analysing the situation on the ground and providing the Secretary-General with up-to-date information relating to conflict prevention efforts; maintaining contact with relevant regional organizations, encouraging their peacemaking efforts and initiatives and facilitating coordination and information exchange, with due regard to their specific mandates; providing a political framework and leadership for the preventive activities of the United Nations country teams in the region and supporting the efforts of the resident coordinators and representatives of the United Nations system, including the Bretton Woods institutions, in promoting an integrated approach to preventive diplomacy and humanitarian assistance; and maintaining close contact with the United Nations Assistance Mission in Afghanistan to ensure a comprehensive and integrated analysis of the situation in the wider region.
66. The Regional Centre's current work is guided by a five-year programme of action for the period 2021–2025, which was adopted at the annual meeting of deputy ministers for foreign affairs in December 2020.

Programme of work

Objective

67. The objective, to which this mission contributes, is to enhance regional security and stability in Central Asia.

Strategy and external factors for 2025

68. To contribute to the objective, the mission will:
 - (a) Carry out good offices functions for preventive diplomacy in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan, as well as monitor and analyse regional developments, while maintaining contact with regional organizations and other parts of the United Nations system;

- (b) Convene expert forums to advise the annual consultative meetings of the Central Asian Heads of State and organize an annual meeting of deputy ministers for foreign affairs of Central Asia. The Regional Centre will also promote political participation of women through the engagement of senior women political leaders through the Central Asia Women Leaders' Caucus regional platform;
 - (c) Promote arrangements on transboundary water management in the region, support initiatives on water, energy and environmental and climate cooperation, and help to address challenges relating to transboundary water and climate change;
 - (d) Implement the joint project with the Office of Counter-Terrorism on the basis of the new Joint Plan of Action for the implementation of the United Nations Global Counter-Terrorism Strategy in Central Asia. In addition, through the preventive diplomacy academy project, the Centre will continue its efforts to engage young people;
 - (e) Support the Central Asian States in addressing emerging threats to security and stability, as well the other external risk factors, including the complex situation in Afghanistan.
69. The above-mentioned work is expected to result in:
- (a) Improved regional cooperation in addressing transnational threats of terrorism, violent extremism conducive to terrorism, drug trafficking and organized crime, as well as coping with regional challenges concerning the management of water resources and climate change;
 - (b) Improved preparedness of the Governments of the Central Asian States for deeper engagements in promoting peace and stability, through enhanced cooperation and trust-building in the region, including on high-level platforms such as the consultative meeting of Heads of State.
70. With regard to cooperation with other entities, the mission maintains contact with the Commonwealth of Independent States, the European Union, the Organization for Security and Cooperation in Europe and the Shanghai Cooperation Organization, as well as other relevant organizations, such as the International Fund for Saving the Aral Sea. The Regional Centre will continue exchanges with the Conference on Interaction and Confidence-building Measures in Asia and the Collective Security Treaty Organization on topics of common interest. It cooperates with relevant actors, including international financial institutions such as the World Bank.
71. With regard to inter-agency coordination and liaison, the Centre cooperates closely with the resident coordinators in the five countries, the Development Coordination Office and the entities represented in the United Nations country teams, including UNDP, the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), UNODC, the Office of Counter-Terrorism, UNESCO and the Economic Commission for Europe. The mission regularly shares information and coordinates activities with the United Nations Assistance Mission in Afghanistan.
72. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The continued commitment by the five Governments of the region and national stakeholders to preventive diplomacy and regional cooperation;
 - (b) The five countries of the region continue to monitor developments in Afghanistan and enhance preparedness regarding the existing and potential threats and risks of violent extremism and terrorism, drug trafficking and a potential refugee crisis. They continue to provide and advocate for humanitarian assistance to Afghanistan.
73. The mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. It encourages the participating countries to ensure gender balance in their delegations and include gender-related issues in the agendas of regional expert-level workshops on promoting preventive diplomacy and confidence-building for officials from the Central Asian States.

Programme performance in 2023

Constructive and strengthened relations among the Central Asian States in specific areas

74. The Regional Centre contributed to regional security and stability through continuous engagement with Member States on issues of shared concern for the region, including through addressing the potential impact of the situation in Afghanistan on water management in the region. In 2023, the mission's work also contributed to the establishment of the Counter-Terrorism Early Warning Network for Central Asia, which is designed to improve the exchange of information and to coordinate the work of various national and regional entities. The mission organized a forum under the auspices of the regional Women Leaders' Caucus in conjunction with the fifth consultative meeting of the Heads of State and the International Fund for Saving the Aral Sea summit in Dushanbe. The mission continued to promote the youth, peace and security agenda by developing a regional alumni network of the Preventive Diplomacy Academy participants in Central Asia.
75. Progress towards the objective is presented in the performance measure below (see table 14).

Table 14
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
The mission ensured further involvement of additional groups to create more inclusive discussions by key stakeholders in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan on the basis of the new initiatives and entry points of the Regional Centre	The mission contributed to an enhancement of regional security and stability in Central Asia by supporting action to promote peace and trust in the region through more inclusive and open discussions and new initiatives of the countries of the region and the Regional Centre	The mission contributed to strengthening of regional cooperation in Central Asia by supporting initiatives to promote peace and trust in the region and providing more inclusive regional platforms to discuss issues of shared concern

Planned result for 2025

Enhanced regional interaction in Central Asia to address current and emerging risks and threats to peace and security

Programme performance in 2023 and target for 2025

76. In 2023, the mission contributed to enhanced regional security and stability in Central Asia through preventive diplomacy by supporting action to promote trust and cooperation in the region through more inclusive dialogue and partnerships, which met the planned target.
- Lessons learned and planned change*
77. The lesson for the mission was that the in-person exchanges among counterparts facilitated meaningful outcomes. In applying the lesson, the mission will strive to conduct regular meetings, as well as support regional platforms such as the International Fund for Saving the Aral Sea, including participation in various regional events.
78. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 15).

Table 15
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
The Regional Centre ensures further involvement of additional groups to create more inclusive discussions by key stakeholders in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan on the basis of the new initiatives of the Centre	The Regional Centre contributes to an enhancement of regional security and stability in Central Asia by supporting action to promote peace and trust in the region through more inclusive and open discussions and new initiatives of the States of the region and the Centre	The Regional Centre contributes to an enhancement of regional interaction in Central Asia to address threats to regional peace and security through initiatives aimed at promoting peace and trust and creating inclusive regional platforms for discussions	Regional interaction is further spurred, to ensure peace and stability in Central Asia by addressing risks and threats to peace and security through expressed commitments by the States of the region on closer cooperation, an inclusive dialogue and trust-building on the basis of existing and new initiatives	The Regional Centre helps the Central Asian States to further strengthen regional peace and security through support in enhancing partnerships, promoting dialogue, and trust-building on the basis of the countries' needs and initiatives

Deliverables

79. Table 16 lists all deliverables of the mission.

Table 16
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
1. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	3	3	3	3
2. Workshops on preventive diplomacy and confidence-building	3	3	3	3
C. Substantive deliverables				
Good offices: provision of good offices on issues relating to preventive diplomacy, such as water, energy, environmental and climate cooperation, drug trafficking and counter-terrorism.				
Consultation, advice and advocacy: consultations on political and security developments in the region and to seek areas for closer cooperation, including the organization of annual meeting of deputy ministers for foreign affairs of the Central Asian States; and consultations and advice on implementing the Joint Plan of Action for the United Nations Global Counter-Terrorism Strategy in Central Asia.				
D. Communication deliverables				
Outreach programmes, special events and information materials: brochures and information kits on the activities of the mission; and publication of the Aral Sea Basin Transboundary Water Early Warning Bulletin and other publications as part of the Preventive Diplomacy Academy project.				
External and media relations: press conferences and press releases on the activities of the mission.				
Digital platforms and multimedia content: dissemination of information through the mission's website; matrix of activities on counter-terrorism and preventing extremism website; and maintaining and updating the "Water Unites" portal as a source of information for regional water and climate activities.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 17

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2025 vs. 2024 Increase/(decrease)	
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	2 646.3	2 665.9	2 466.2	2 807.7		341.5
Operational costs	646.4	578.2	767.0	748.2		(18.8)
Total (net of staff assessment)	3 292.7	3 244.1	3 233.2	3 555.9		322.7

Table 18

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	–	1	–	–	1	2	2	–	2	–	8	4	18	22	–	–	
Proposed 2025	–	1	–	–	1	2	2	–	2	–	8	4	18	22	–	–	–	30
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

80. The proposed resource requirements for 2025 for the Regional Centre amount to \$3,555,900 (net of staff assessment) and would provide for salaries and common staff costs \$2,807,700 for the continuation of 30 posts (1 Assistant Secretary-General, 1 P-5, 2 P-4, 2 P-3, 2 Field Service, 4 National Professional Officer and 18 Local level), as well as operational costs of \$748,200, comprising the costs for consultants and consulting services (\$16,800), official travel (\$230,100), facilities and infrastructure (\$96,800), ground transportation (\$29,000), communications and information technology (\$215,200), medical supplies (\$2,200) and other supplies, services and equipment (\$158,100).
81. For 2025, no change is proposed to the number and levels of the posts. A vacancy rate of zero per cent has been applied to the estimates for international staff, National Professional Officers and Local level positions, taking into account the actual average vacancy rates in March 2024.
82. The increase in requirements for 2025 compared with the appropriation for 2024 is attributable primarily to: (a) increased requirements for international staff due to the application of a zero per cent vacancy rate for 2025 compared with the approved rate of 12.5 per cent for 2024, and the application of a higher percentage of common staff costs of 51.5 per cent compared with 46.2 per cent in the 2024 budget; (b) increased requirements for National Professional Officers due to updated salary scales for the National Professional Officers in Kyrgyzstan and Uzbekistan; (c) new requirements for three consultants to support the Regional Centre's mandated work in fostering cooperation on transboundary water management and trust-building efforts; (d) higher requirements for official travel attributable to additional travel requirements with respect to a meeting of deputy foreign ministers; and (e) higher requirements under other supplies, services and equipment attributable primarily to (i) higher requirements for training fees and supplies associated with

organizing annual staff retreat, (ii) new requirements for hospitality and catering expenditure associated with a series of thematic meetings, seminars and workshops on transboundary water management and related topics, and a meeting of deputy foreign ministers, (iii) higher bank fee charges, (iv) higher provision for rations and (v) higher requirements for language service translation, interpretation and meeting facilitation services.

83. The increase is offset in part by: (a) lower requirements for national staff (Local level) attributable mainly to the application of the updated salary rates; (b) lower requirements for facilities and infrastructure due to the reduced acquisition of various items of equipment, furniture, spare parts and supplies, and sanitation and cleaning materials; (c) lower requirements for ground transportation due to decreased requirements for spare parts and petrol, oil and lubricants; (d) lower requirements for communications and information technology due to lower requirements for communications and information technology equipment, transponder charges and network services; and (e) lower requirements for medical due to the reduced acquisition of emergency trauma bags and the non-provisioning of equipment and supplies that were procured in 2024.

Extrabudgetary resources

84. In 2024, extrabudgetary resources in the amount of \$232,900 were projected for the project for Central Asian regional cooperation on transboundary water management, with an updated scope of activities, and for support for the Women Leaders' Caucus to provide influential leadership on the issues pertaining to gender equality, woman and peace and security and women's empowerment within and among the countries of the region. The annual meeting of the Central Asian deputy ministers of foreign affairs, as well as activities under the preventive diplomacy academy project, and the meeting of the sixth Central Asian expert forum were also funded through extrabudgetary resources. Many of the meetings were held in a hybrid format.
85. In 2025, extrabudgetary resources in the amount of \$248,000.00 are projected, to continue to support the Women Leaders' Caucus in providing influential leadership on women's engagement in the countries of the region, as well as activities under the preventive diplomacy academy project, and the Centre's strategy in support of water, energy and environmental and climate cooperation in the region for the period 2022–2025.
86. The increase in the estimates projected for 2025 compared with the estimates for 2024 is attributable primarily to the increased travel requirements for in-person and hybrid-format meetings.

4. United Nations support for the Cameroon-Nigeria Mixed Commission

(\$3,742,700)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

87. The Cameroon-Nigeria Mixed Commission is responsible for facilitating the implementation of the judgment of the International Court of Justice of 10 October 2002 on the Cameroon-Nigeria boundary and territorial dispute. Its responsibilities include supporting the demarcation of the land boundary and the delineation of the maritime boundary; facilitating the withdrawal of troops and transfer of authority in identified areas along the boundary; addressing the situation of affected populations; and making recommendations on confidence-building measures to support them.
88. The current mandate of the United Nations support team to the Cameroon-Nigeria Mixed Commission derives from the exchange of letters between the Secretary-General and the President of the Security Council ([S/2017/78](#) and [S/2017/79](#)) and subsequent exchanges of letters, including, most recently, [S/2024/42](#) and [S/2024/43](#). The mandate is open-ended.

Programme of work

Objective

89. The objective, to which this mission contributes, is to achieve an orderly and peaceful implementation of the judgment of 10 October 2002 of the International Court of Justice delineating the course of the land and maritime boundary between Cameroon and Nigeria.

Strategy and external factors for 2025

90. To contribute to the objective, the mission will:
- (a) Facilitate cooperation between the parties to resolve the remaining three points of disagreement in the demarcation of the land boundary;
 - (b) Support the parties in constructing additional boundary pillars along the land boundary;
 - (c) Produce the draft maps to graphically record the demarcation of the boundary and have them validated by experts from the parties during joint working sessions;
 - (d) Organize and moderate meetings of the drafting committee to finalize a boundary statement at the conclusion of the final mapping;
 - (e) Regularly monitor the situation of populations affected by the demarcation and promote cross-border development projects as confidence-building measures, including livelihood support, access to potable water, capacity-building, green energy and security;
 - (f) Continue fundraising efforts among international donors and multilateral partners to finance the demarcation activities and confidence-building projects for populations affected by the demarcation;
 - (g) Enhance subregional cooperation and good practices in the management of international boundaries by disseminating lessons learned from the Mixed Commission.

91. The above-mentioned work is expected to result in:
 - (a) Consensus on the course of the boundary, as well as how the boundary will be physically demarcated;
 - (b) Physical demarcation of the land boundary shared by Cameroon and Nigeria through the construction and emplacement of boundary pillars;
 - (c) Delivery of final geospatial maps of the complete land and maritime boundary;
 - (d) Production of a boundary statement recording the field coordinates of the emplaced pillars;
 - (e) Enhanced support for the demarcation work and improved living conditions of the affected populations;
 - (f) Consensus on best practices with respect to border management.
92. With regard to cooperation with other entities, the mission cooperates with the national authorities of Cameroon and Nigeria towards the resolution of the border dispute between Cameroon and Nigeria through the holding of meetings, the conduct of field assessments and the construction of boundary pillars along the border.
93. With regard to inter-agency coordination and liaison, the mission cooperates with the United Nations country teams in Cameroon and Nigeria to jointly develop confidence-building measures in accordance with the needs of the populations living along the land boundary, and to ensure the conditions for peace, security and sustainable cross-border development. The secretariat of the Mixed Commission is hosted within the UNOWAS premises in Dakar. UNOWAS provides administrative and logistical support to the Mixed Commission. The Head of UNOWAS serves as Chair of the Mixed Commission.
94. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
 - (a) The two States parties, Cameroon and Nigeria, will continue to adhere to the judgment of the International Court of Justice and the workplan adopted by the Mixed Commission;
 - (b) Safety, security and climate conditions will permit field operations to continue unimpeded;
 - (c) Extrabudgetary resources, including additional voluntary contributions, will continue to be made available for border demarcation, pillar construction and confidence-building initiatives.
95. The Mixed Commission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. Examples include targeting women and youth groups for the implementation of community development projects in the areas of potable water, capacity-building for employment and community access to the electricity network.

Programme performance in 2023

Political commitment to continued dialogue to resolve remaining disagreement areas

96. In 2023, the Chair of the Mixed Commission held consultations to advance the resolution of the three outstanding areas of disagreement. As a result, the two parties recommitted themselves to settling their differences through dialogue instead of referring the matter back to the International Court of Justice for clarification on the interpretation of the text. To advance the demarcation process, the Mixed Commission met in Lagos, Nigeria, in September to discuss planning of the pillar construction, the final mapping process and the boundary statement. This resulted in the production of three draft maps and an agreement on the terms of reference of the boundary statement.
97. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: remaining number of areas of disagreement

Planned result for 2025

Achievement of consensus between Cameroon and Nigeria

Programme performance in 2023 and target for 2025

98. In 2023, the mission's work contributed to the construction of a cumulative amount of 2,213 pillars, representing 82 per cent of the demarcated boundary, which did not meet the planned target of 2,221. The target was not met owing to security challenges and resistance from local populations, which limited access to some areas along the border. In addition, the Mixed Commission and the Subcommission on Demarcation sessions were not held as a result of the late nomination of the heads of the delegations.

Lessons learned and planned change

99. The lesson learned for the mission was that the good offices of the Chair to engage the leadership of the two delegations in bilateral meetings contributed to bringing the parties to consensus earlier and to cooperative resolutions. In applying the lesson, the mission will hold more high-level meetings to engage the leadership and technical experts of the States parties to advance towards settling the three remaining areas of contention. The Mixed Commission will also ensure the continued implementation of security protocols adopted by both parties, including raising the awareness of the local authorities and populations, to facilitate access to construction sites and to mitigate the security risks in the areas of emplacement of additional pillars.
100. Progress towards the objective and the target for 2025 are presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of pillars constructed (cumulative)

Deliverables

101. Table 19 lists all deliverables of the mission.

Table 19

Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>

Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
B. Generation and transfer of knowledge				
Technical materials (number of materials)	9	5	7	7
3. Communiqué of the Cameroon-Nigeria Mixed Commission	2	–	1	1
4. Report on the Subcommission on Demarcation	3	1	2	2
5. Report of the project steering committee and technical monitoring team	4	4	4	4
Fact-finding, monitoring and investigation missions (number of missions)	3	3	3	3
6. Field assessment including data and map validation	1	1	1	1
7. Sensitization of local population including monitoring the well-being of affected populations along the land boundary	1	1	1	1
8. Security assessment	1	1	1	1
C. Substantive deliverables				
Good offices: provision of good offices on issues relating to the peaceful implementation of the judgment of the International Court of Justice, including on demarcation and cross-border cooperation; and good offices to build consensus on the border demarcation process.				
Consultation, advice and advocacy: technical advice to experts from Cameroon and Nigeria to facilitate resolution of areas of disagreement; advocacy for cross-border cooperation and socioeconomic projects benefiting 177,000 affected people; and raising awareness of affected local communities in the Cameroon and Nigeria border area.				
Databases and substantive digital materials: production of digital geospatial material on an estimated 6,117 agreed positions depicting the Cameroon-Nigeria boundary.				
D. Communication deliverables				
Outreach programmes, special events and information materials: brochures, flyers, information kits and special events to promote the activities of the mission, notably the demarcation process, as well as to enhance its visibility.				
External and media relations: press conferences, press releases and media interviews on the activities of the mission.				
Digital platforms and multimedia content: dissemination of information relating to the mission on social media platforms.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 20

Financial resources

(Thousands of United States dollars)

Operational costs	1 793.3	1 785.4	1 876.8	1 865.3	(11.5)	
Total (net of staff assessment)	3 781.3	3 542.3	3 821.7	3 742.7	(79.0)	

Table 21

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	-	-	-	-	2	6	-	-	1	-	9	-	2	2	-	-	
Proposed 2025	-	-	-	-	2	6	-	-	1	-	9	-	2	2	-	-	-	11
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

102. The proposed resource requirements for 2025 for the Mixed Commission amount to \$3,742,700 (net of staff assessment) and would provide for the deployment of one military observer (\$56,500), salaries and common staff costs (\$1,820,900) for nine international posts (2 P-5, 6 P-4 and 1 Field Service) and two national posts (Local level), as well as operational costs (\$1,865,300) comprising the costs for consultants and consulting services (\$525,700), official travel (\$236,400), facilities and infrastructure (\$151,700), ground transportation (\$53,500), air operations (\$183,400), communications and information technology (\$437,600) and other supplies, services and equipment (\$277,000).
103. In 2025, no change is proposed to the number and levels of the posts.
104. A vacancy rate of zero per cent has been applied to the estimates for international posts on the basis of the actual vacancy rate in March 2024. A vacancy rate of 12.5 per cent has been applied to the estimates for Local level posts on the basis of the actual average vacancy rate in 2023.
105. The decrease in requirements for 2025 compared with the appropriation for 2024 is attributable mainly to: (a) decreased requirements for international staff due to the application of a lower percentage of common staff costs of 50.4 per cent compared with 65.3 per cent in 2024, offset in part by the higher requirements owing to the application of a zero vacancy rate compared with 3.7 per cent in 2024, and the increase in the post adjustment multiplier for Senegal from 38.6 in April 2023 to 44.3 in April 2024; (b) lower requirements for emplacement, rotation and repatriation travel for observers, offset in part by higher requirements for the mission subsistence allowance; (c) lower requirements for aviation fuel, offset in part by higher requirements for the rental and operation of the fixed-wing aircraft (cost-shared with UNOWAS) owing to a new contract awarded in April 2024; and (d) lower requirements for communications and information technology, attributable to the

realignment of requirements for software, licences and fees, and public information and publication services in line with the historical expenditures pattern, and rate adjustments for satellite transponder charges. The decrease in requirements is offset in part by: (a) higher requirements for national staff, attributable mainly to the application of the updated salary rate, offset in part by the application of a higher vacancy rate compared with 2024, as well as a lower percentage of common staff costs; (b) higher requirements for facilities and infrastructure, attributable mainly to an increase in costs of waste disposal and utilities, security services and sanitation and cleaning materials; and (c) higher requirements for other supplies, services and equipment due to new requirements for workshops for communities such as on confidence-building and peaceful cohesion.

Extrabudgetary resources

106. In 2024, extrabudgetary resources in the amount of \$1,400,000 are projected to be used to support the construction of 262 pillars along the border between Cameroon and Nigeria.
107. In 2025, extrabudgetary resources in the amount of \$1,500,000 are projected to be used to continue to support the pillar emplacement project, with a target of 323 pillars to be constructed. The Mixed Commission will continue fundraising activities to implement socioeconomic projects for the benefit of populations in the vicinity of the demarcation exercise.
108. The increase in the extrabudgetary resources projected to be used in 2025 compared with 2024 is due to a higher number of pillars anticipated for construction in 2025.

5. Office of the United Nations Special Coordinator for Lebanon

(\$11,122,600)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

109. The mandate of the Office of the United Nations Special Coordinator for Lebanon stems from Security Council resolution [1701 \(2006\)](#), as well as subsequent decisions of the Council, including [S/2007/85](#) and [S/2007/86](#), [S/PRST/2015/7](#) and [S/PRST/2016/10](#). The Special Coordinator is the representative of the Secretary-General to the Government of Lebanon, political parties and the diplomatic community based in Lebanon and provides political guidance and promotes coherence across the Organization's activities. The Deputy Special Coordinator/Resident Coordinator/Humanitarian Coordinator leads the United Nations country team and humanitarian country team and is responsible for planning and coordinating United Nations humanitarian and development activities in Lebanon.
110. The Security Council, in its resolution [2433 \(2018\)](#), stressed the need for enhanced cooperation between the Office and the United Nations Interim Force in Lebanon (UNIFIL), with the goal of improving the effectiveness and efficiency of the two missions. The Secretary-General outlined his recommendations in a letter to the Council ([S/2018/1182](#)) and in his report on the assessment of the continued relevance of UNIFIL resources and options for improving the efficiency and effectiveness between the two missions ([S/2020/473](#)). The Council, in its resolutions [2591 \(2021\)](#), [2650 \(2022\)](#) and [2695 \(2023\)](#), requested the Secretary-General to implement the recommendations of the assessment report according to the Secretary-General's detailed plan and as appropriate.
111. In line with the priorities adopted by the International Support Group for Lebanon and the Secretary-General's vision on prevention, the Office structures its engagement on the basis of three strategic pillars of intervention: (a) peace and security; (b) stability; and (c) stabilization and development support. In 2022, the United Nations Sustainable Development Cooperation Framework with the Government of Lebanon was launched, in complementarity to the Lebanon Crisis Response Plan and the joint United Nations-European Union-World Bank Reform, Recovery and Reconstruction Framework and the emergency response plan.
112. Amid a deteriorating security situation, a worsening economic and financial crisis, and a prolonged political stalemate that has eroded State institutions and precluded the urgently needed recovery and reform measures, the good offices of the Special Coordinator and United Nations system-wide support remain critical. A continued United Nations political presence remains essential to supporting Lebanese and international efforts to create an enabling environment for the implementation of resolution [1701 \(2006\)](#). Within the territory of Lebanon, the continued maintenance of armed personnel, assets and weapons other than those of the Government of Lebanon continues to undermine the authority of the Lebanese State and pose a risk of reigniting conflict, as witnessed in the period 2023–2024. Continued violations by Israel of Lebanon's sovereignty, on land and by air, also impede efforts to work towards a permanent ceasefire between the parties. Those challenges are magnified in a volatile regional context that poses further risks of escalation and spill-over into Lebanon.

Programme of work

Objective

113. The objective, to which this mission contributes, is to prevent and mitigate conflict between Israel and Lebanon and work towards an eventual permanent ceasefire, and to extend and consolidate State authority in support of the territorial integrity, sovereignty and political independence of Lebanon.

Strategy and external factors for 2025

114. To contribute to the objective, the mission will:
- (a) Exercise its good offices between the parties to pursue confidence-building opportunities, defuse tensions through shuttle diplomacy, address violations of resolution 1701 (2006) before they escalate into conflict and promote de-escalation where conflict does arise;
 - (b) Continue efforts to help to resolve outstanding obligations of both parties under resolution 1701 (2006) towards a permanent ceasefire and long-term solution to the conflict;
 - (c) Advocate for Lebanon's political leadership to ensure the uninterrupted functioning of State institutions, in particular, effective, transparent and accountable policymaking and decision-making in the Cabinet and parliament;
 - (d) Urge the Government of Lebanon to adopt an equitable macroeconomic stabilization and reform programme that addresses the ongoing financial and economic crisis, in line with the commitments made under the April 2022 staff-level agreement with the International Monetary Fund (IMF) and any future IMF programme, as well as the Reform, Recovery and Reconstruction Framework of 2021;
 - (e) Advocate for good governance and anti-corruption measures, the independence of the judicial system, transparency and accountability, and more effective and efficient public service delivery countrywide, including through the mobilization of urgent international support for State security institutions and for meeting Lebanon's increasing socioeconomic and humanitarian needs.
115. The above-mentioned work is expected to result in:
- (a) Restoration of the cessation of hostilities and upholding the commitments of the parties towards its preservation;
 - (b) Creation of an environment conducive to dialogue to address outstanding obligations under resolution 1701 (2006) towards an eventual permanent ceasefire;
 - (c) Establishment by Lebanon's political leadership of State institutions capable of delivering comprehensive structural reforms to put the country on the path to recovery and exercise effective authority over all Lebanese territory in accordance with resolution 1701 (2006).
116. With regard to cooperation with other entities, the mission coordinates with the League of Arab States, the European Union and international financial institutions such as the World Bank and IMF to mobilize support for Lebanon's stability and sovereignty. The mission convenes members of the International Support Group for Lebanon for coordinated messaging and advocacy with Lebanon's political leadership. The Special Coordinator engages regional stakeholders as part of her good offices mandate, to help to build trust and defuse tensions, and mobilize the broadest possible support for Lebanon's stability.
117. With regard to inter-agency coordination and liaison, the mission cooperates closely with UNIFIL in the implementation of resolution 1701 (2006). Both missions continue to deepen collaboration and joint engagement with national and international stakeholders to maintain the cessation of hostilities and to strengthen the security sector and the extension of State authority across all of

Lebanon's territory. Under a memorandum of understanding between UNIFIL and the mission, UNIFIL supports the mission in finance, procurement, engineering, communications, medical services, transport and logistics. The mission also leverages the presence of other United Nations entities, bringing all the United Nations political, security and development tools to bear in support of Lebanon's stability. The mission contributes to the formulation of the common country analysis of the United Nations country team and contributes to the United Nations Sustainable Development Cooperation Framework, including leading its peace and governance results group.

118. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) International consensus with regard to Lebanon, while present, will continue to be challenged;
 - (b) Political stalemate may hinder effective decision-making and undermine the implementation of meaningful economic, fiscal and monetary reforms, and prevent the conclusion of an agreement with IMF, to the detriment of the sustainable and inclusive recovery of the country;
 - (c) The deteriorating socioeconomic situation and its humanitarian repercussions will continue to have an impact on Lebanon and will require a multi-year recovery and reform programme;
 - (d) Lebanon's protracted economic and financial crisis has eroded State institutions, diminishing their ability to provide essential public services and to consolidate State authority across the country. Continuing high inflation, currency depreciation, protracted unemployment, growing poverty and humanitarian challenges will remain sources of instability and social unrest;
 - (e) The tense and volatile regional environment will continue to affect Lebanon's internal stability and security;
 - (f) The continued presence of large numbers of Palestine and Syrian refugees will remain a contentious and potentially destabilizing factor;
 - (g) The cessation of hostilities between Lebanon and Israel will be restored following the large-scale hostilities during the period 2023–2024, but will be fragile and prone to conflagration at the slightest trigger, therefore underlining the imperative for engagement of the parties in a political process to address the underlying causes of the conflict within the framework of resolution [1701 \(2006\)](#);
 - (h) Violations of resolution [1701 \(2006\)](#) will continue to be perpetrated by the parties and tensions will persist, including over the prevalence and proliferation of weapons in Lebanon outside the authority of the State, as well as violations of Lebanese sovereignty and territorial integrity;
 - (i) Increased extension of State authority south of the Litani River and along the borders will continue to be affected by the law-and-order requirements elsewhere in the country, and financial constraints and logistical challenges faced by the State security institutions in expanding the presence of the Lebanese Armed Forces.
119. The mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The mission is working to enhance women's participation and representation in political life through a range of initiatives, including the development of gender quota proposals and special temporary measures, targeted support for women electoral candidates, campaigns around voting practices and coalition-building for electoral reform, and initiatives that originated in the context of the 2022 parliamentary elections in coordination with UNDP and UN-Women. The mission has established an active network of women parliamentarians, leading media persons and civil society actors to foster women's empowerment. To advance the youth, peace and security agenda, the mission is expanding its engagement with youth groups through various platforms to advocate for the empowerment of young people and their integration into political and decision-making processes.

Programme performance in 2023

Efforts to contain the outbreak of hostilities and restore calm along the Blue Line

120. In 2023, in the context of the Israel-Hamas war in Gaza, the outbreak of prolonged hostilities between Hizbullah and associated armed groups in Lebanon on the one side and Israel on the other, the mission undertook intensive diplomatic engagements to press for a restoration of the cessation of hostilities. In close coordination with UNIFIL, the mission intensified advocacy efforts and multiplied engagements with political, security and diplomatic stakeholders to prevent further escalation, contain the scope of the conflict and urge all parties to halt offensive military activities and recommit themselves to resolution 1701 (2006), as well as to pursue a political road map for addressing the underlying causes of the conflict towards a permanent ceasefire.
121. Progress towards the objective is presented in the performance measure below (see table 22).

Table 22

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	–	<p>Exercise of good offices to de-escalate tensions and restore the cessation of hostilities between Lebanon and Israel</p> <p>Full-scale war between Lebanon and Israel avoided and skirmishes contained in large part along the Blue Line</p> <p>United Nations assistance to communities affected by the conflict in southern Lebanon ongoing</p>

Planned results for 2025

Result 1: facilitate increased international support for State security institutions through expedited assistance in the most critically required areas

Programme performance in 2023 and target for 2025

122. In 2023, the mission met its target of continued support for the Lebanese Armed Forces and Internal Security Forces in compliance with the human rights due diligence policy. The donor-funded United Nations mechanism established under the auspices of the mission and operated by UNDP facilitated the livelihood support programme for the Lebanese Armed Forces and the Internal Security Forces as emergency support in line with Security Council resolution 2695 (2023) and the United Nations human rights due diligence policy. This contributed significantly to security and stability in Lebanon amid the dire political and economic crisis in the country and in a highly volatile regional context. With the outbreak of hostilities across the Blue Line between Hizbullah and Israel in October 2023, the expansion of the presence of the Lebanese Armed Forces along the Blue Line garnered increased international and domestic focus.
123. For 2025, the mission will prioritize efforts to support the restoration of a cessation of hostilities and progress towards a permanent ceasefire between Lebanon and Israel. The mission will pursue expanded international support to enable the deployment of additional Lebanese Armed Forces personnel south of the Litani River, including by enabling the Internal Security Forces to take over some of the internal security responsibilities from the Lebanese Armed Forces elsewhere in Lebanon.

To this end, the mission will seek to mobilize and coordinate additional international assistance to the Lebanese Armed Forces and the Internal Security Forces, including in response to their capabilities development plan.

124. Expected progress towards the objective is presented in the performance measure below (see table 23).

Table 23

Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
–	The Office of the United Nations Special Coordinator for Lebanon and UNDP developed a cash transfer mechanism for emergency assistance to Lebanese Armed Forces and Internal Security Forces compliant with the human rights due diligence policy	Roll-out of the United Nations donor-funded mechanism for emergency assistance to the security forces Continued support for Lebanese Armed Forces and Internal Security Forces in compliance with the human rights due diligence policy	Support to further strengthen state security institution capabilities, beyond emergency assistance	Increased presence of Lebanese Armed Forces south of the Litani River as a key element for preserving the cessation of hostilities and progressing towards a permanent ceasefire

Result 2: support fully functioning State institutions and the exercise of effective State authority throughout Lebanon

Programme performance in 2023 and target for 2025

125. In 2023, the mission advocated the fulfilment of Lebanon's outstanding constitutional obligations, including the election of a new President and the holding of municipal elections. However, disagreements among political parties over the presidency left Lebanon with a leadership void, impeding the mission's objective of supporting the effective functioning of State institutions. The eruption of major hostilities between Lebanon and Israel in October 2023 set back the governance and reform agenda further and compelled the mission to direct its focus towards de-escalating tensions and enabling a return to the cessation of hostilities.
126. For 2025, the mission will continue to advocate the strengthening of Lebanon's State institutions through support for long-delayed imperatives, such as the strengthening of governance structures at the municipal level, enhanced functioning of State institutions at all levels and delivery on the economic and governance reform track.

Lessons learned and planned change

127. The lesson for the mission was the importance of overcoming growing international fatigue and disengagement in order to sustain the political and financial support of international partners. In applying the lesson and to generate political traction through unified messaging and advocacy, the mission will leverage its convening power to mobilize the International Support Group for Lebanon, among other forums, to ensure that Lebanon's stability, security and economic recovery remain a priority area of focus for the international community.
128. Expected progress towards the objective is presented in the performance measure below (see table 24).

Table 24
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
	–	<p>Polarized polity perpetuated executive vacuum at the highest institutional levels</p> <p>Parliament extended the tenure of heads of security agencies by one year, ensuring continuity and stability</p>	<p>State institutions duly empowered to deliver to all citizens</p> <p>Adoption of 2024 State budget within constitutional deadline</p> <p>Women and youth engagement in governance matters is enhanced</p>	<p>Fully functioning State institutions promoted</p> <p>Start of planning for the 2026 parliamentary elections</p> <p>Governance and reform agenda is furthered</p> <p>Women and youth engagement in governance matters is enhanced</p>

Deliverables

129. Table 25 lists all deliverables of the mission.

Table 25
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	3
1. Report of the Secretary-General on the implementation of Security Council resolution 1701 (2006)	3	3	3	3
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
2. Meetings of the Security Council	3	3	3	3

C. Substantive deliverables

Good offices: provision of good offices in support of the prevention of conflict and the extension and consolidation of State authority; good offices on elections, peace and stability, including with respect to economic issues; intensive engagement with the Lebanese Armed Forces and the Internal Security Forces, as well as the donor community, to facilitate continued assistance to the security forces; and confidence-building measures between Israel and Lebanon, including with respect to the maritime boundary.

Consultation, advice and advocacy: consultations with Lebanese and Israeli interlocutors on the implementation of resolution 1701 (2006); consultations with the International Support Group for Lebanon and other regional stakeholders on ensuring Lebanon's stability; consultations on the economic and governance reform agenda and development priorities; advice on government accountability, governance policy formulation and public administration reforms; advocacy with international partners in support of Lebanon's efforts for an extension of State authority, including strengthened State security agencies; consultations on integrated border management on the Lebanon-Syrian Arab Republic border; advocacy on key human rights standards and protections that could have an impact on long-term security and stability and the strengthening of human rights institutions in Lebanon; advocacy on the political participation and representation of women and young people; and advocacy with international partners in support of Lebanon for continued donor involvement and resources as Lebanon responds to the presence of Palestine and Syrian refugees, taking into account the needs of refugees and host communities.

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
--------------------------	-----------------	----------------	-----------------	-----------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach activities to support the implementation of resolution 1701 (2006) and other key priorities relating to Lebanon's sustainable peace, development and human rights agenda; activities to strengthen the relationship with key Lebanese partners and stakeholders; engaging with young people, including university students, and supporting women's empowerment and representation, in particular in the parliamentary elections; and outreach activities through special events to communicate more effectively with local stakeholders and to spread broader knowledge of the work being undertaken by the mission, through information materials and joint outreach activities with other United Nations entities for the promotion of United Nations system-wide priorities such as the Sustainable Development Goals.

External and media relations: press conferences, press statements, background briefings, interviews, op-eds and other media engagements to communicate strategically on the implementation of resolution 1701 (2006); and press statements of the International Support Group for Lebanon on safeguarding Lebanon's security, stability and sovereignty and the implementation of resolution 1701 (2006).

Digital platforms and multi-media content: materials to deepen local and national understandings of and support for the mission and its support for the implementation of resolution 1701 (2006) on websites or social media.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 26

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)	
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	8 861.8	9 635.3	9 992.1	9 812.0		(180.1)
Operational costs	1 321.3	1 288.7	1 311.3	1 310.6		(0.7)
Total (net of staff assessment)	10 183.1	10 924.0	11 303.4	11 122.6		(180.8)

Table 27

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	1	1 ^a	–	1	2	6	1	–	6	–	18	5	60	65	–	–	
Proposed 2025	1	1 ^a	–	1	2	6	1	–	6	–	18	5	60	65	–	–	–	83
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Post is funded at 50 per cent and cost-shared with the Development Coordination Office.

130. The proposed resource requirements for 2025 for the mission amount to \$11,122,600 (net of staff assessment) and would provide for salaries and common staff costs (\$9,812,000) for 18 international posts (1 Under-Secretary-General, 1 Assistant Secretary-General, 1 D-1, 2 P-5, 6 P-4, 1 P-3 and 6 Field Service) and 65 national posts (5 National Professional Officer and 60 Local level), as well

as operational costs (\$1,310,600), comprising the costs for consultants and consulting services (\$7,300), official travel (\$167,600), facilities and infrastructure (\$670,100), ground transportation (\$73,400), communications and information technology (\$289,700) and other supplies, services and equipment (\$102,500).

131. In 2025, no change is proposed to the number and levels of positions.
132. A vacancy rate of 10.2 per cent has been applied to the estimates for international staff on the basis of the average vacancy rate in 2023. A vacancy rate of zero per cent has been applied to the estimates for National Professional Officer posts and a vacancy rate of 6.7 per cent has been applied to the estimates for Local level posts, both on the basis of the actual vacancy rates in March 2024.
133. The decrease in requirements for 2025 compared with the appropriation for 2024 is attributable to the decreased requirements under civilian personnel costs, resulting mainly from the application of a higher vacancy for international staff costs of 10.2 per cent compared with 5.6 per cent approved in 2024.

6. United Nations Regional Office for Central Africa

(\$7,875,900)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

134. UNOCA is responsible for the prevention of conflicts and the consolidation of peace and security in Central Africa. The mandate derives from an exchange of letters between the Secretary-General and the President of the Security Council (S/2009/697 and S/2010/457). In another exchange of letters (S/2021/719 and S/2021/720), the mandate was extended until 31 August 2024.
135. The mandate for 2021–2024 encompasses four objectives, namely: (a) monitor political and security developments in Central Africa and carry out good offices on behalf of the Secretary-General in order to prevent and resolve conflicts, to help to sustain peace and to advise the Secretary-General and United Nations entities in the region on sustaining peace issues in Central Africa; (b) enhance subregional capacities for conflict prevention and mediation in countries of the subregion, with due attention given to the principles of the Charter of the United Nations, including human rights and gender dimensions; (c) support and enhance United Nations efforts in the subregion, as well as regional and subregional initiatives on peace and security, including from human rights and gender perspectives; and (d) enhance coherence and coordination in the work of the United Nations in the subregion on peace and security.
136. The mission also hosts the secretariat of the United Nations Standing Advisory Committee on Security Questions in Central Africa, coordinates the implementation of the United Nations regional strategy to address the threat and impact of the Lord's Resistance Army and supports the implementation of the regional strategy and plan of action on counter-terrorism and the non-proliferation of small arms and light weapons in Central Africa.

Programme of work

Objective

137. The objective, to which this mission contributes, is to prevent conflict and consolidate peace and security in the Central Africa subregion.

Strategy and external factors for 2025

138. To contribute to the objective, the mission will:
- (a) Engage in good offices activities to help countries to prevent political crises and election-related violence and peacefully resolve conflicts and crises stemming from political processes, including political transitions, and promote inclusive, peaceful and credible elections;
 - (b) Build regional and national capacities for conflict prevention and sustaining peace, including by providing support for national institutions and platforms for political dialogue. Where such institutions and platforms are absent, the mission will advocate their establishment and mobilize relevant United Nations entities and other partners to support their operationalization;
 - (c) Leverage its partnership with subregional organizations, especially the Economic Community of Central African States (ECCAS) in conflict prevention, mediation and early warning,

ensuring the participation of women, young people and other actors in inclusive peacebuilding and sustaining peace efforts, including the implementation of the regional strategy on hate speech, and addressing the adverse effects of climate change on peace and security;

- (d) Address cross-regional peace and security challenges, including farmer-herder dynamics, the crisis in the Lake Chad Basin and maritime piracy in the Gulf of Guinea, in close coordination with United Nations entities in Central and West Africa.
- (e) Carry out regular early warning analysis to inform preventive diplomacy and good offices efforts for peace and security in Central Africa, and mobilize support for preventive diplomacy, in collaboration with ECCAS and United Nations entities;
- (f) Enhance the coherence of the work of the United Nations on peace and security issues in Central Africa through regular consultations with relevant United Nations entities in the subregion, coordinate the efforts of United Nations entities geared towards the implementation of the regional conflict prevention framework and support the country teams in adopting and/or rolling out national sustaining peace strategies aligned with the framework;
- (g) Support the regular ministerial meetings of United Nations Standing Advisory Committee on Security Questions in Central Africa as a platform for confidence-building between Member States to discuss threats and challenges to regional peace and security, with a view to preventing or addressing conflicts, crises or inter-State tensions.

139. The above-mentioned work is expected to result in:

- (a) Peaceful and credible electoral processes in the subregion, with relevant prevention mechanisms in place for potential election-related violence;
- (b) Prevention and mitigation of election-related violence, as well as the initiation or continuation of inclusive political dialogue processes, assisted by joint early-warning and good offices by the Mission and ECCAS in countries holding elections, facing a political crisis or undergoing a political transition;
- (c) Progress made by ECCAS towards the adoption of a regional humanitarian strategy for Central Africa and the set-up of the ECCAS parliament;
- (d) Holding successful ministerial meetings of the United Nations Standing Advisory Committee on Security Questions in Central Africa and field visits to selected countries to focus on topical issues relating to regional peace and security in Central Africa;
- (e) A shared understanding of key peace and security challenges and priorities among United Nations entities in Central Africa, integrating emerging drivers of conflicts, including the impact of climate change and environmental degradation;
- (f) Enhanced coordination of United Nations efforts in support of regional and subregional initiatives on peace and security and governance;
- (g) Adoption and implementation of national sustaining peace strategies aligned with the regional conflict prevention framework;
- (h) Improved interregional coordination of efforts between Central and West Africa on maritime security in the Gulf of Guinea, farmer-herder dynamics and the crisis in the Lake Chad Basin region.

140. With regard to cooperation with other entities, the mission carries out joint analyses and activities on cross-regional peace and security challenges with other regional and subregional organizations. Early warning analysis and good offices are carried out, to the extent possible, jointly or in consultation with ECCAS.

141. With regard to inter-agency coordination and liaison, the mission works closely with the Office of the Special Envoy of the Secretary-General for the Great Lakes Region, UNOWAS, the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic, the

United Nations Organization Stabilization Mission in the Democratic Republic of the Congo and other relevant United Nations entities with respect to cross-border and transregional challenges to peace and security, in order to avoid duplication and ensure coherence in United Nations activities in the subregion. Country-specific early warning and good offices activities are carried out in close coordination with the resident coordinators concerned.

142. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) ECCAS institutional reform becomes increasingly more operational, with all peace and security institutions and mechanisms established and provided with adequate resources for their functioning.
 - (b) UNOCA and ECCAS maintain or strengthen their cooperation and regular consultations, and adopt and roll out a joint plan of action, within the framework of a new memorandum of understanding between ECCAS and the United Nations on peace and security issues;
 - (c) ECCAS member States remain committed to establishing a regional governance framework, work towards the adoption and implementation of regional governance standards and mechanisms and solicit or accept the support of UNOCA and regional and international partners;
 - (d) The political landscape remains polarized in several countries of the subregion, against the backdrop of growing demands for the opening of political space and the improvement in electoral frameworks, increasing the risks of political violence or conflict while distrust in public institutions persists, prompting some stakeholders to demand neutral platforms for discussion on key political, electoral and institutional reforms;
 - (e) The elections scheduled in the countries of the region, including in the countries undergoing political transitions, are held according to the constitutional and legal time frames or agreed-upon transitional timelines and the countries concerned accept the political engagement of UNOCA and ECCAS to defuse tensions, prevent election-related violence and resolve election-related crises;
 - (f) Tensions erupt, persist or heighten between several countries of the subregion over cross-border security issues, warranting an increased role for regional institutions and mechanisms, which is accepted by the States concerned and supported by international partners, to lower tensions, build trust and resolve disputes peacefully;
 - (g) ECCAS and its member States show a genuine commitment to the involvement of civil society actors, including the regional Coalition of Civil Society Organizations for Peace and Conflict Prevention in Central Africa, the coalition of young people for peace and security in Central Africa and women organizations, in the activities of ECCAS in the realm of peace and security, including early warning, conflict prevention and peacebuilding. The Coalition becomes fully operational, with adequate human resources, and is supported by ECCAS member States and partners;
 - (h) ECCAS member States adopt and begin to implement a regional regulation on pastoralism and transhumance in Central Africa, support national and local mechanisms in preventing and peacefully addressing farmer-herder conflicts, and take collective measures to promote peaceful cross-border transhumance.
143. The mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate, including support for the implementation of the regional action plan on Security Council resolution [1325 \(2000\)](#) and the adoption and rolling out of national action plans. It continues its advocacy on the reinforcement of the role of women in conflict prevention and sustaining peace, as well as adequate representation of women in decision-making positions at both the national and regional levels. It works with other relevant United Nations entities and external partners to reinforce the capacities of women in decision-making and in mediation. It will support the operationalization and build the capacity of the ECCAS network of women mediators established in December 2021

and endorsed by the Heads of State in January 2022. In its analysis and reporting, the mission ensures that data and information are disaggregated by gender and that analyses and recommendations give due consideration to the specific situation, needs and roles of women. During fact-finding and good offices visits, the mission ensures adequate consultation and engagement with women and women's groups. Human rights aspects, including the protection of women's rights, are also integrated into conflict analysis and the early warning and preventive diplomacy work of the mission.

144. In line with the United Nations Disability Inclusion Strategy, the mission advocates for political and electoral processes in the region to be disability-sensitive, by encouraging Member States to take appropriate measures to facilitate the participation of persons with disabilities. The mission also encourages and supports experience-sharing between the States of the region on disability inclusion, thus facilitating the adoption of measures that take into consideration the specificities of the regional and national contexts. The mission integrates the situation of persons with disabilities into its analysis and reporting and ensures proper consultation and engagement with organizations representing persons with disabilities during fact-finding, early warning and good offices activities.

Programme performance in 2023

Reduced tensions in electoral contexts

145. In 2023, four countries of the region held various elections (Cameroon, the Congo, Equatorial Guinea and Gabon). UNOCA undertook 10 early warning and good offices missions in all countries of the region, also including Chad and Gabon, which are in processes of political transition. UNOCA monitored the situation closely in the lead-up to the elections. It encouraged political dialogue, including through standing or ad hoc platforms, with a view to creating conditions for inclusive, peaceful and credible elections. The mission also worked with the United Nations country teams and civil society organizations in Angola, Gabon and São Tome and Principe to promote women's political participation in elections.
146. Progress towards the objective is presented in the performance measure below (see table 28).

Table 28

Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
Reduction in election-related incidents and an increase in the number of constructive and inclusive dialogue initiatives in the subregion	Early warning and good offices missions conducted by UNOCA and ECCAS to States holding elections Elections in Central Africa generally peaceful, with no or low level of violence	Ten early warning and good offices missions conducted by UNOCA and ECCAS to States of the region contributed to peaceful elections, with no or low level of violence

Planned result for 2025

Election-related violence is prevented or mitigated in line with the Malabo Declaration on democratic elections

Programme performance in 2023 and target for 2025

147. In 2023, UNOCA good offices initiatives contributed to peaceful and inclusive electoral processes in Cameroon, Chad and Gabon. Following the unconstitutional change in the Government in Gabon, UNOCA advocated for the establishment of inclusive political dialogue frameworks, promoted inclusive processes and enhanced confidence in electoral frameworks and the institutions involved

in the organization of elections. UNOCA also deployed technical assessment missions to work with the resident coordinators and United Nations country teams, which focused on identifying and defusing emerging peace and security threats or election-related tensions. UNOCA also supported the Coalition of Civil Society Organizations for Peace and Conflict Prevention in Central Africa in holding its General Assembly in Douala, Cameroon. In line with the Malabo Declaration, adopted at the fiftieth meeting of the United Nations Standing Advisory Committee on Security Questions in Central Africa, the mission will continue to provide support through early warning and good offices initiatives aimed at contributing to peaceful and inclusive electoral processes.

Lessons learned and planned change

148. A lesson for the mission was that early warning, good offices initiatives and political dialogue frameworks contributed to peaceful and inclusive electoral processes. In applying the lesson, UNOCA plans to work closely with United Nations country teams and national stakeholders to design and implement activities aimed at ensuring the greater participation of young people and women in elections.
149. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 29).

Table 29
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Reduction in election-related incidents and increase in the number of constructive and inclusive dialogue initiatives in the subregion	Early warning and good offices missions conducted by UNOCA and ECCAS to States holding elections Peaceful elections took place in Angola, the Congo, Equatorial Guinea and São Tome and Principe, with no or low levels of violence	Ten early warning and good offices missions conducted by UNOCA and ECCAS to States of the region contribute to peaceful elections, with no or low levels of violence Progress is achieved in the implementation of the United Nations Standing Advisory Committee on Security Questions in Central Africa Malabo Declaration and towards the adoption of a regional protocol on elections	Six early warning and good offices missions conducted by UNOCA and ECCAS to States of the region contribute to peaceful elections, with no or low levels of violence Progress is achieved in the implementation of the United Nations Standing Advisory Committee on Security Questions in Central Africa Malabo Declaration and towards the adoption of a regional protocol on elections	Five early warning and good offices missions conducted by UNOCA and ECCAS to States of the region contribute to peaceful elections, with no or low levels of violence Progress is achieved in the implementation of the United Nations Standing Advisory Committee on Security Questions in Central Africa Malabo Declaration and towards the adoption of a regional protocol on elections

Deliverables

150. Table 30 lists all deliverables of the mission.

Table 30
Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	4	3
1. Reports of the Secretary-General to the Security Council	2	2	2	2
2. Report of the Secretary-General on the activities of the United Nations Standing Advisory Committee on Security Questions in Central Africa	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	12	12	12	12
3. Meetings of the Security Council	2	2	2	2
4. Ministerial meeting of the United Nations Standing Advisory Committee on Security Questions in Central Africa	10	10	10	10
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	70	18	26	18
5. Workshop on conflict prevention, mediation, human rights and women's empowerment	45	16	20	15
6. Workshop for journalists/media on their role in conflict prevention and protection of civilians	25	2	6	3
Fact-finding, monitoring and investigation missions (number of missions)	–	–	30	30
7. Field visits to Member States to gather information, consult stakeholders and coordinate action on issues relating to subregional peace and security, activities monitoring and data collecting	–	–	30	30
C. Substantive deliverables				
Good offices: good offices, preventive diplomacy and mediation, high-level diplomatic missions and meetings, including jointly with regional organizations (ECCAS and the African Union), regional and subregional summits, forums and high-level meetings to promote peace and stability, maritime safety and human rights.				
Consultation, advice and advocacy: strategic coordination meetings and round tables with regional and subregional organizations on regional integration, peace and security, human rights and counterterrorism (including addressing security threats in the Lake Chad Basin and the Democratic Republic of the Congo in the context of the withdrawal of the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo).				
D. Communication deliverables				
Outreach: collaborate with civil society (e.g., media associations and women's and youth groups), ECCAS and other key stakeholders for the holding of events to raise awareness of the UNOCA mandate and activities; collaborate with the media to support the public's better understanding of UNOCA good offices and mediation work; and support joint activities with the United Nations Communications Group – Gabon joint activities, harmonizing communications and messaging campaigns.				
External and media relations: capacity-building programmes for the media and communications stakeholders in the subregion, especially in the context of national elections and other key political processes; build and maintain working relationships with the media at the national, subregional and international levels to help to ensure a better understanding of the work of UNOCA; organize at least 2 press conferences for UNOCA leadership; and arrange for interviews and other media coverage with UNOCA political affairs staff.				
Digital platforms and multimedia content: 3 online platforms (social and digital media) to disseminate multilingual content; produce and disseminate various materials to reflect UNOCA activities for peace and stability in the subregion; produce and disseminate various digital materials (cards, infographics, videos and digital newsletters) and multimedia content to reflect UNOCA activities for peace and stability in the subregion; and produce a podcast programme on high-priority areas of the UNOCA mandate.				

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 31

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2025 vs. 2024	Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)	
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	7 238.0	6 559.8	6 610.2	6 286.5		(323.7)
Operational costs	1 836.1	1 598.7	1 800.3	1 589.4		(210.9)
Total (net of staff assessment)	9 074.1	8 158.5	8 410.5	7 875.9		(534.6)

Table 32

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2024	1	–	–	2	5	12	6	–	7	–	33	4	12	16	–	1	
Proposed 2025	1	–	–	2	5	12	6	–	7	–	33	4	12	16	–	1	1	50
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

151. The proposed resource requirements for 2025 for the mission amount to \$7,875,900 (net of staff assessment) and would provide for salaries and common staff costs (\$6,286,500) for the continuation of 33 international posts (1 Under-Secretary-General, 2 D-1, 5 P-5, 12 P-4, 6 P-3 and 7 Field Service), 16 national posts (4 National Professional Officer and 12 Local level) and 1 national United Nations Volunteer, as well as operational costs (\$1,589,400), comprising the costs for consultants (\$9,800), official travel (\$535,900), facilities and infrastructure (\$189,500), ground transportation (\$61,200), air operations (\$146,100), communications and information technology (\$504,900) and other supplies, services and equipment (\$142,000).
152. Vacancy rates of 20.2 per cent for international posts, 22.9 per cent for National Professional Officer posts, 12.5 per cent for local level posts and zero per cent for national United Nations Volunteers have been applied to the estimates on the basis of the actual average vacancy rates in 2023.
153. The decrease in requirements for 2025 compared with the appropriation for 2024 is attributable mainly to: (a) decreased requirements for international staff attributable to the application of a higher vacancy rate of 20.2 per cent compared with the approved rate of 18.2 per cent for 2024, the application of a lower percentage of common staff costs of 61.4 per cent compared with 63.8 per cent applied in 2024, offset in part by the increase of the post adjustment multiplier in Gabon from 49.4 in April 2023 to 56.5 in April 2024; (b) decreased requirements for national staff (Local level) posts attributable to the application of a higher vacancy rate of 12.5 per cent compared with the approved rate of zero per cent for 2024, offset in part by the application of a higher percentage of common staff costs of 40.4 per cent compared with 38.1 per cent applied in 2024; (c) decreased requirements for the national United Nations Volunteer position due mainly to lower pro forma costs for United Nations Volunteers in Gabon; (d) lower requirements for consultants, taking into account the actual average expenditures of 2022 and 2023; (e) lower requirements for travel due mainly to a

reduction in the number of days and number of staff members per trip and lower requirements for training travel because some of the training in the field of capacity-building will be offered virtually; (f) lower requirements for facilities and infrastructure due primarily to reductions under security services and stationary and office supplies in line with the actual expenditure for the past three years; (g) lower requirements for communications and information technology with respect to telecommunications and network services due to rate adjustments for satellite transponder charges, offset in part by an increase in the rate for the renewal of support and maintenance for the centrally managed licences; and (h) lower requirements for other supplies, services and equipment because the provisions relating to the contribution to common services for compound management and security moved under facilities and infrastructure in line with the actual recorded expenditure, as well as lower requirements for individual contractors. The decrease in requirements is offset in part by: (a) higher requirements for National Professional Officer posts attributable to the most recent salary scale, the application of a lower vacancy rate of 22.9 per cent compared with 25 per cent applied in 2024 and the application of a higher percentage of common staff costs of 36.8 per cent compared with 29.6 per cent applied in 2024; and (b) higher requirements for petrol, oil and lubricants for vehicles due to an increase in the market price of fuel.

Extrabudgetary resources

154. In 2024, extrabudgetary resources in the amount of \$713,500 are projected to be used to continue to support regional capacities to prevent, mitigate and resolve election-related crises and violence in the Central Africa subregion, including through the strengthening of electoral governance and support for the adoption of a regional protocol on democratic elections, and the continuation of one post of Political Affairs Officer (P-4).
155. In 2025, extrabudgetary resources in the amount of \$713,500 are projected to be utilized to support regional capacity to prevent, mitigate and resolve election-related crises and violence in the Central Africa subregion, including through the strengthening of electoral governance and support for the adoption of regional norms and mechanisms on democratic elections; support for the effective functioning of a regional women's platform for peace and security in the Central Africa subregion; support for ECCAS in strengthening its conflict prevention and resolution capacities, with a view to enhancing its effectiveness in early warning; and the strengthening of the role of media organs as a catalyst for peace and security, as well as social cohesion. The funding will also provide for the continuation of one post of Political Affairs Officer (P-4).

7. United Nations Support Mission in Libya

(\$94,141,500)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

156. The United Nations Support Mission in Libya (UNSMIL) was established by the Security Council in its resolution [2009 \(2011\)](#) to support the country's transition and post-conflict efforts, including through an inclusive national dialogue and a constitution-drafting process. Following the signing of a nationwide ceasefire agreement on 23 October 2020 that ended the armed conflict that began in April 2019, the Council, in its resolution [2570 \(2021\)](#), further mandated UNSMIL to provide support to the 5+5 Joint Military Commission and the Libyan-led and Libyan-owned ceasefire monitoring mechanism, including through the facilitation of confidence-building measures and the scalable and incremental deployment of UNSMIL ceasefire monitors. By its resolution [2702 \(2023\)](#), the Council extended the mandate of UNSMIL until 31 October 2024.

Programme of work

Objective

157. The objective, to which this Mission contributes, is to support an inclusive political process and rights-based national reconciliation, conflict prevention and peacebuilding efforts, transitional justice processes and State-building efforts, including the provision of support to optimize readiness for planning and implementing credible, transparent and inclusive elections, the advancement of human rights, gender equality and women's political participation, and support for the reform of the security sector and the implementation of the October 2020 ceasefire agreement.

Strategy and external factors for 2025

158. To contribute to the objective, the Mission will:
- (a) Provide mediation and good offices to advance an inclusive Libyan-led and Libyan-owned political process, facilitated by the United Nations and supported by the international community, to reach an agreement that will enable the holding of national elections, enabling the peaceful transfer of power to an elected Government. The Mission will engage with a wide spectrum of Libyan stakeholders at all levels, including women and young people, throughout Libya in processes relating to democratic transition and reconciliation efforts;
 - (b) Provide technical assistance to the High National Elections Commission to deliver transparent and inclusive national presidential and parliamentary elections, as well as local elections across Libya;
 - (c) Support all actors, notably the African Union, in continuing to engage in inclusive, victim-centred and rights-based national reconciliation process on the basis of the principles of transitional justice and the principles of the 2030 Agenda, with a view to ensuring a Libyan-led and Libyan-owned inclusive political process contributing to lasting peace;
 - (d) Provide support and good offices within the area of rule of law, to support the judiciary and prosecutorial system, including their critical role in ensuring justice for all;

- (e) Promote and protect human rights, ensure the monitoring and reporting of abuses and violations of human rights and international human rights and humanitarian law, including sexual violence in conflict and violations against migrants, and advocate on the humanitarian situation and support the delivery of humanitarian assistance in the country;
 - (f) Provide good offices and work with national authorities on reforming the country's security sector, reinforcing the role of civil society organizations in civilian oversight, including support for mine action, support for laying the groundwork for a disarmament, demobilization and reintegration process and facilitating operational planning with national stakeholders on issues of process design, institutional set-up and economic aspects of disarmament, demobilization and reintegration and support for coordinating the provision of technical expertise, training and equipment, and assist the ongoing efforts on the unification of military and security institutions;
 - (g) Support the 5+5 Joint Military Commission in the full implementation of the nationwide ceasefire agreement, including through the work of the UNSMIL ceasefire monitoring component in support of the Libyan ceasefire monitoring mechanism, working towards the withdrawal of foreign fighters, foreign forces and mercenaries, and supporting trust-building measures and the reunification of the military institutions through the establishment of professional, unified and accountable defence and security forces;
 - (h) Support economic policy reform, in close cooperation with Member States and international financial institutions, including reunification and reform of the country's banking system, a decentralization policy and the establishment of an inclusive revenue management and oversight mechanism that ensures transparent, equitable and accountable management of revenue across the country;
 - (i) Promote the rights of women and support the institutional capacity of governmental and non-governmental organizations, advocate for women's representation in political processes, including national reconciliation efforts, and ensure that their concerns are incorporated into national agendas and national dialogue;
 - (j) Engage with neighbouring countries, including sub-Saharan African countries, to ensure that their views and concerns in support of peacebuilding and sustaining peace in the country and the region are taken into consideration.
159. The above-mentioned work is expected to result in:
- (a) An inclusive Libyan-led and Libyan-owned political process that leads to elected, unified, functional and representative government institutions, including economic institutions, contributing to political and economic stability and rights-based reconciliation;
 - (b) Enhanced accountability of institutions, promotion of the rule of law throughout the country, and reconciliation and transitional justice processes promoting and protecting human rights;
 - (c) Unified security sector institutions operating under civilian oversight, including professional, unified and accountable defence and security forces, as well as a maintained ceasefire supported through the full implementation of the provisions of the ceasefire agreement, including the withdrawal of foreign fighters, foreign forces and mercenaries.
160. With regard to cooperation with other entities, the Mission works with relevant local, national and international partners and regional organizations, including the African Union, the League of Arab States and the European Union, as part of a unified, comprehensive and coherent approach towards supporting the country's successful political transition to sustain peace in the country and the region. The Mission also works as part of the United Nations-African Union-European Union tripartite task force on the situation of stranded migrants and refugees in Libya.
161. With regard to inter-agency coordination and liaison, the Mission and the United Nations country team have taken steps towards enhancing integration, including through the implementation of the United Nations Sustainable Development Cooperation Framework for the period 2023–2025, and will continue to operationalize the Secretary-General's focus on the humanitarian-development-

peace nexus to facilitate long-term peace, security and sustainable development, in order to enhance the impact of United Nations interventions in support of all people in Libya.

162. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) The Libyan Political Agreement of December 2015, Security Council resolution [2510 \(2020\)](#), by which the Council endorsed the conclusions of the Berlin Conference on Libya, the October 2020 ceasefire agreement, relevant provisions of the Libyan Political Dialogue Forum Tunis road map and accompanying outputs, and resolutions [2542 \(2020\)](#), [2570 \(2021\)](#), [2629 \(2022\)](#), [2656 \(2022\)](#) and [2702 \(2023\)](#), as well as the comprehensive approach to enabling elections, will remain the guiding framework for United Nations support in Libya;
 - (b) Libyan institutions will resolve outstanding politically contested issues pertaining to elections on the basis of the constitutional and legal framework, with a clear road map for elections, which will culminate in an inclusive and transparent electoral process that will restore the legitimacy of the Libyan institutions;
 - (c) The Libyan ceasefire agreement of October 2020, including the withdrawal of foreign forces, foreign fighters and mercenaries, will be gradually implemented, and consensus will be reached among relevant security and political actors in Libya on the way forward to reform and unify security institutions, including the establishment of conditions conducive to the launch of a disarmament, demobilization and reintegration process;
 - (d) The human rights situation in Libya will remain very challenging, especially with respect to enhancing the rule of law and protecting and promoting civic space for all people in Libya to exercise their fundamental rights, in particular civil and political rights. Intentional marginalization and the poor representation of women in political and reconciliation processes will continue to pose a challenge to peacebuilding;
 - (e) Existing divisions among national actors and institutions will continue to benefit the proponents of the status quo in Libya, preserving existing power structures and personal interests that impede efforts towards the organizing and holding of elections;
 - (f) Institutional weaknesses and divisions among the country's security actors will continue to enable violent extremist organizations to benefit from the resulting power vacuum and ungoverned spaces, thus inadvertently fostering an environment conducive to terrorism;
 - (g) The overall humanitarian situation will continue to improve, proportional to the stabilization of the security situation, with a steady decrease in the number of people in need of humanitarian assistance and the number of internally displaced persons. Meanwhile, continued support for protection needs of migrants and refugees, including support for Sudanese refugees, as well as recovery and reconstruction for the people affected by the floods in Darnah and the surrounding areas, will be provided;
 - (h) The economic sector of Libya will continue to suffer from a lack of oversight and transparent management over the use of public funds, while efforts towards the reunification of the Central Bank will continue as part of the implementation of the road map and independent audit recommendations for reunification;
 - (i) Strategic partnerships will continue between the members of the international community, including regional organizations and the United Nations, in support of a Libyan-led and Libyan-owned political process adhering to the United Nations sanctions regime.
163. The Mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. It continues to implement the three-year action plan "Inclusive mediation and peacebuilding processes in Libya: protection and participation of women (2023–2025)". As part of the plan, UNSMIL continues to promote women's participation in the political and reconciliation processes and representation in government institutions, including to ensure effective gender mainstreaming into the constitution-making and electoral processes. In order to safeguard equal

rights and opportunities for women, the Mission and the country team jointly promote women's equal enjoyment of their political, civil, economic and social rights. Such efforts include the provision of technical assistance to national institutions and civil society members; support for government efforts on legislation and policies that protect women from all forms of violence; addressing the gaps in service provision; addressing and preventing violence against women and girls, in particular those in vulnerable situations, including displaced, migrant and refugee women and girls; and identifying the impact of extremism conducive to terrorism on women in Libya. The Mission and the country team continue to improve prevention and protection efforts to support relevant institutions to deliver their mandate in promoting and protecting women and girls.

Evaluation activities

164. A review of the United Nations Guard Unit was carried out in 2023 by the Office for the Peacekeeping Strategic Partnership, which provided an assessment on the Guard Unit and reviewed all operational, technical, support and governance frameworks around it, along with providing findings towards improving various aspects of the Guard Unit in UNSMIL. The Mission will continue to implement the recommendations, including those focused on adjustments to the statement of unit requirements, as well as in extremis arrangements, and enhancements regarding the provision of perimeter security and the helicopter landing zone in the Oea compound.
165. Further to this, in 2025, the Mission will continue its efforts to enhance programme planning, monitoring and reporting on programme performance as an element of self-assessment. As part of these efforts, the implementation of the United Nations Sustainable Development Cooperation Framework for the period 2023–2025 includes a monitoring, evaluation and learning plan and the UN-Info tool, which will be used by UNSMIL to monitor progress in the implementation of its peacebuilding objectives.

Programme performance in 2023

Addressing contested issues on elections through a political process initiative

166. Since the postponement of national elections in December 2021, the Mission has continued its efforts towards convening the main Libyan stakeholders to facilitate a political settlement that would pave the way for the holding of transparent and inclusive presidential and legislative elections. In February 2023, the Special Representative announced the launch of an elections-enabling initiative focused on: (a) providing technical support to the “6+6” committee of the House of Representatives and High Council of State to complete the legal framework for elections; (b) undertaking shuttle diplomacy among the main Libyan actors to garner buy-in and reach a consensus for the electoral process; (c) facilitating dialogue among the main security actors to secure a conducive security environment for elections; and (d) engaging with a wide spectrum of Libyan society, including civil society organizations, women, young people, political parties, notables and cultural components, to amplify their voices and views to ensure an inclusive political process. Following the adoption of the electoral laws by the House of Representatives in October 2023, the Special Representative formally invited the main Libyan institutional stakeholders to a dialogue to address the remaining contested elements pertaining to elections.
167. Progress towards the objective is presented in the performance measure below (see table 33 below).

Table 33
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>
National elections scheduled for 24 December 2021 were postponed	United Nations-facilitated talks between the House of Representatives and the High Council of State failed to reach agreement on a constitutional framework for elections	Constitutional and legal framework for elections in place, with United Nations technical support, and assessed technically implementable by the High National Elections Commission; politically contested issues remain outstanding The Mission's elections-enabling initiative addressed the remaining politically contested issues by seeking to convene the five key Libyan institutional stakeholders

Planned results for 2025

Result 1: strengthened rule of law institutions and transitional justice process protecting the rights of all people in Libya

Programme performance in 2023 and target for 2025

168. In 2023, UNSMIL continued to support an inclusive national reconciliation process in Libya by providing support to civil society and victims' groups through targeted advocacy efforts to ensure that their voices were reflected in the future reconciliation mechanisms.
169. In 2025, UNSMIL will continue to support government institutions to protect and promote human rights, transitional justice, rights-based reconciliation and the rule of law, with an emphasis on opening civic spaces, including promoting the role of civil society in the political and security tracks, eliminating arbitrary detention, enforced disappearances and torture, addressing the situation of migrants and refugees, advancing transitional justice and national reconciliation, guaranteeing women's rights and eliminating conflict-related sexual violence. UNSMIL will continue to strengthen civil society networks and human rights mechanisms by supporting an enabling environment and protection strategy.
170. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 34).

Table 34
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>

judiciary and prosecutorial systems	Establishment of a joint consultation forum, strengthening civil society monitoring, analysis and reporting of human rights abuses and violations Continuation of a high-level committee on arbitrary detention, representing the Attorney General, the military prosecution, the police, and intelligence and judicial institutions	draft law by members of the legislative committee, and women's block of the House of Representatives Members of the public prosecution were trained as part of efforts to strengthen the rule of law institutions to investigate, prosecute, adjudicate and prevent abuses and violations of human rights	finalize the drafting of a new national reconciliation law Rule of law institutions strengthened to investigate, prosecute, adjudicate and prevent abuses against and violations of human rights of Libyans, migrants and asylum-seekers Civil society networks are facilitated, strengthened and developed, while monitoring and reporting capacities of civil society organizations are enhanced and protection mechanisms for victims of sexual and gender-based violence are established	finalize the drafting of a new national reconciliation law Rule of law institutions strengthened to investigate, prosecute, adjudicate and prevent abuses against and violations of human rights of Libyans, migrants and asylum-seekers Civil society networks are facilitated, strengthened and developed, while monitoring and reporting capacities of civil society organizations are enhanced and protection mechanisms for victims of sexual and gender-based violence are established

Result 2: unified security institutions promoting progress on security sector reform and the implementation of the ceasefire agreement, including an effective Libyan ceasefire monitoring mechanism

Programme performance in 2023 and target for 2025

171. In 2023, the Mission continued its support for the unification of security institutions and reform of the security sector through a series of workshops and the engagement of civil society organizations, security actors and legislative bodies on the security track. This resulted in increased trust between key security stakeholders, which is a critical component of conflict prevention and a step towards the unification of security institutions. UNSMIL efforts also contributed to strengthening the engagement between members of the 5+5 Joint Military Commission through the facilitation of a meeting on the implementation of the ceasefire agreement of October 2020.
172. In 2025, UNSMIL will continue efforts towards making progress on the unification of the security institutions, in support of the implementation of the ceasefire agreement, as well as progress on security sector reform and disarmament, demobilization and reintegration. The Mission's efforts will focus on inclusive engagement of all security actors, including civil society, and support for the development of strategic security policies and frameworks. The Mission, through its ceasefire monitoring component, will also contribute to developing the Libyan ceasefire monitoring mechanism capacity by providing and implementing training programmes.
173. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 35).

Table 35
Performance measure

<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (actual)</i>	<i>2024 (planned)</i>	<i>2025 (planned)</i>
Trust built between the parties to the ceasefire agreement led to the signing by the 5+5 Joint Military Commission on 8 October of an action plan for the withdrawal of mercenaries, foreign fighters and foreign forces from Libya 5+5 Joint Military Commission signed action plan for the withdrawal of foreign forces, foreign fighters and mercenaries	Maintenance of the ceasefire agreement Consensus built among stakeholders for the implementation of the action plan for the withdrawal of foreign forces, foreign fighters and mercenaries, including the establishment of a joint operations room and capacity-building programme for the local monitors Endorsement of the terms of reference for the establishment of a disarmament, demobilization and reintegration committee by the 5+5 Joint Military Commission to categorize armed groups Activation of a liaison and communication committee endorsed in meetings held in Cairo in November 2022 with neighbouring countries for the withdrawal of foreign fighters and mercenaries The 5+5 Joint Military Commission agreed on the terms of reference of the joint military force	Maintenance of the ceasefire agreement and development and consultation of the code of conduct for all security actors, as led by the Ministry of Defence Libyan ceasefire monitoring mechanism operationalized Engagement and coordination with the Libyan liaison committee and liaison committees from neighbouring countries	Unified security sector institutions under civilian oversight, including functional, professional and accountable military and police forces Continued implementation of the capacity-building programme for the Libyan monitors Comprehensive security sector reform initiatives, including disarmament, demobilization and reintegration of non-State armed groups through effective and inclusive mechanisms established by a national disarmament, demobilization and reintegration committee	National security/military institutions unified under civilian oversight Full implementation of the remaining articles of the ceasefire agreement, including the withdrawal of foreign fighters, foreign forces and mercenaries National and inclusive security sector reform initiatives established National disarmament, demobilization and reintegration committee set up and operational and a national disarmament, demobilization and reintegration plan developed

Result 3: unified, elected, legitimate, inclusive and functional government institutions contributing to political stability and reconciliation

Programme performance in 2023 and proposed programme plan for 2025

174. In 2023, UNSMIL intensified its engagement with political, security and civil society actors, including women and young people, across the country to facilitate a political process that would lead Libya to hold presidential and legislative elections as soon as possible. In parallel, UNSMIL launched the Ra'idat training programme for 30 young women from across Libya, upskilling them in communications, leadership and advocacy skills. To mark International Human Rights Day, a model United Nations simulation was held in Misratah with 50 young men and women from the city at which they addressed current foreign policy challenges.
175. In 2025, UNSMIL will continue to provide good offices, strategic advice and technical support to attain more representative and inclusive government institutions that will contribute to political stability and reconciliation, in line with its policy on inclusive mediation and peacebuilding processes in Libya. UNSMIL will continue to support the High National Election Commission's plans to start the conduct of 106 municipal elections for those councils whose mandates already expired or are expiring in 2024. The current target is to initiate voter registration for these municipalities in June 2024 and to conduct the first batch of municipal council elections during 2024 and 2025. Efforts are ongoing to prepare for those elections, which await the Government of National Unity to provide the necessary funds.

Lessons learned and planned change

176. The lesson learned for the Mission was that meaningful engagement with women and young people in the political and national reconciliation process required a focused engagement strategy that addressed their heightened vulnerability and leveraged their potential to contribute to building an inclusive, stable and reconciled society. In applying the lesson, the Mission will prioritize engagement with young women and men, as well as those with disabilities, to enhance their meaningful participation in political processes and reconciliation efforts. Lessons learned from survey evaluations of the youth participants at mission engagements and meetings has led to a meeting format shift, with a workshop-based approach now being implemented to help to guide participants on offering practical recommendations to senior leadership and having these recommendations recorded and communicated publicly. The efforts will also have a focus on capacity-building through the Ra'idat programme, which, in year two, is intended to train 35 young Libyan women on strategic communication, advocacy and leadership, as well as on building their knowledge on human rights and electoral and legislative process in Libya.
177. Expected progress towards the objective is presented in the performance measure below (see table 36).

Table 36

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	Increased consultations with young people and women on reconciliation efforts and political processes	Enhanced participation and contribution of young people and women in reconciliation efforts and political processes

Deliverables

178. Table 37 lists all deliverables of the Mission.

Table 37

Deliverables for the period 2023–2025, by category and subcategory

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	3
1. Report to the Security Council	3	3	3	3
Substantive services for meetings (number of three-hour meetings)	6	6	6	6
2. Meeting of the Security Council	6	6	6	6
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	16	16	17	17
3. Projects relating to arms, ammunition management, counter-proliferation and humanitarian mine action	16	16	17	17
Seminars, workshops and training events (number of days)	138	140	130	130
4. Seminars and workshops on the political process, confidence-building, constitution-making, legislative and economic reform, electoral management and campaigning, mediation and conflict resolution, prevention of and response to incitement to violence and hatred, media, young female social media activists, digital Libyan dialogue, unification of the army, and demobilization of armed groups; monthly coordination meetings with mine action implementing partners; 4 mine action-related workshops/training events to build national capacities on weapons and ammunition management and explosive ordnance response management	138	140	130	130
Fact-finding, monitoring and investigation missions (number of missions)	35	35	40	40
5. Monitoring missions of the UNSMIL ceasefire monitoring component in support of the efforts of the Libyan ceasefire monitoring mechanism, to record and report on any alleged violation of the ceasefire, as well as analysis and reporting on the most recent developments in Libya, including periodic threat assessments of the overall situation that could have an impact on the ceasefire monitoring capacity-building programme established for the international monitors, Libyan monitors and the 5+5 Joint Military Commission (3 workshops); missions to support mine action efforts with regard to ammunition management; monitoring missions on the human rights situation, with visits to 6 prisons and detention centres, subject to access guarantees by official counterparts, including makeshift and secret detentions and other types of places where there are deprivations of liberty, such as women's shelters and reformatories; monitoring of and reporting on some 60 cases of abuse and violations of human rights and violations of international humanitarian law, including sexual violence in conflict, and monitoring protection issues, with a focus on women and children; and monitoring of protection issues with a victim-centred approach and focus on women, children and migrants, reaching up to 30 beneficiaries who are referred to embassies concerned and/or legal and psychological aid for smooth integration into society	35	35	40	40
Electoral missions (number of missions)	224	224	224	224
7. Electoral assistance missions to the High National Elections Commission headquarters in Tripoli or its field offices, providing technical advice and capacity-building to the electoral management body and to electoral counterparts	224	224	224	224
C. Substantive deliverables				
Good offices: provision of good offices to further an inclusive political, security and economic dialogue through engagement with Libyan institutions and political parties and activities with civil society, women and young people, including meetings of the various subcommittees aimed at the unification of the military to address, among other things, disarmament, demobilization and reintegration and strategic security policy and frameworks (reaching some 20 beneficiaries); meetings between the UNSMIL ceasefire monitoring component, Libyan monitors and 5+5 Joint Military Commission (once per month); meetings with the liaison committees to support the establishment and maintenance of the database on foreign fighters, foreign forces and mercenaries (once per month), and implementation of the capacity-building programme for international monitors, Libyan				

<i>Category and subcategory</i>	<i>2023 planned</i>	<i>2023 actual</i>	<i>2024 planned</i>	<i>2025 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

subcommittees and the 5+5 Joint Military Commission (4 workshops in 2025); provision of good offices to support accountability and transitional justice and strengthen national capacities through the provision of direct technical advice and capacity-building programmes to 100 lawyers and prosecutors/judges, and provision of good offices to support the judiciary and prosecutorial system on the modernization/digitalization of the work of the public prosecution, sustainable rule of law and access to justice and fair trials; provision of good offices to support the judiciary and prosecutorial system through technical support on best practices for accountability in post-conflict settings; and provision of good offices to advance the recognition and enjoyment of women's rights, in line with the Convention on the Elimination of All Forms of Discrimination against Women, and advocacy on the institutionalization of systems, policies, procedures and mechanisms relating to the protection and empowerment of women victims of violence, as well as women's access to equitable justice and the prioritization of the protection of women's and children's rights, including through meetings with women empowerment units at the police force, the High National Elections Commission and the women's unit at the Presidential Council (1 Libyan youth training programme for 35 young women will include capacity-building to engage in elections and their local communities).

Consultation, advice and advocacy: support for subsequent phases of the Libyan political process, electoral assistance, information-sharing and coordination meetings with international electoral assistance partners and embassies, reaching 100 beneficiaries, as well as advice to advance the constitution-making process and referendum; provision of daily advice to the High National Elections Commission on technical electoral matters; assistance in strengthening the electoral management body institutional capacity; coordination of international electoral assistance; support for electoral security planning through work with local electoral stakeholders; support for rebuilding Libya's national polity by addressing roots of grievances through an inclusive, victim-centred and rights-based national reconciliation process and transitional justice mechanisms, with workshops and seminars reaching 50 beneficiaries; provision of advice to the 5+5 Joint Military Commission and the Libyan-led and Libyan-owned ceasefire monitoring mechanism, including legal advice, where required, to establish an effective monitoring mechanism that coordinates and assesses progress on the withdrawal of foreign forces and mercenaries; provision of advice on security policy and frameworks, including a capacity-building programme for the international and Libyan monitors, other subcommittees and the 5+5 Joint Military Commission implemented pursuant to the ceasefire monitoring agreement; provision of advice to the Libyan Mine Action Centre, and national and international mine action organizations, entities and stakeholders on the control of heavy weapons, arms and ammunition management, including advice on the survey and clearance of explosive remnants of war, booby traps, improvised explosive devices and mines; conduct of advocacy and provision of advice on international arms control and disarmament instruments; 1 conference for the commemoration of the international Day of Mine Awareness and Assistance in Mine Action organized in collaboration with LibMAC (reaching 50 partners); confidence-building sessions with 50 participants from national and local authorities, and civil society organizations in support of reconciliation dialogue initiatives; advocacy on and implementation of the human rights due diligence policy framework, including the monitoring, reporting and communication strategy; advocacy on respect for civic space/freedom of assembly and freedom of expression, involving 30 participants and 4 local institutions, including the Ministry of Justice, the Ministry of Interior, the prosecutor's office and the High Judicial Council, for the release of individuals detained without a legal basis; provision of advice and consultations with the Libyan Political Dialogue Forum and House of Representatives women's caucus and civil society and women's groups, reaching approximately 500 women; setting up of an advocacy plan for the law on violence against women; support for security sector governance, reform and development, including reintegration of non-State armed groups and supporting the increased presence of women in the police force; advocacy on women's rights by facilitating discussions among institutions and actors working on women's rights and advising on laws and policies that promote gender equality; advice on violence against women and gender-based violence linked to the electoral process; and advice and support to reinforce the capacity of 30 human rights defenders and women human rights defenders on the Monitoring, Analysis and Reporting Arrangements Technical Working Group; advocacy for the rights and protection of migrants and asylum-seekers and their access to justice, accountability and redress mechanisms, regardless of status; and advocacy and capacity-building to amplify the voices of young people and their meaningful participation in reconciliation efforts and political processes.

D. Communication deliverables

Outreach programmes, special events and information materials: media and communications campaigns and messaging through traditional and social media outlets promoting the United Nations good offices and peace process, as well as developing content promoting reconciliation, social cohesion and the respect for humanitarian and human rights law, to a range of Libyan audiences and 20 official media entities and counterparts; targeted meetings, events and leadership field visits in the east, south and west, engaging with young people and women activists from all parts of Libya to promote their key role in peacebuilding and the peace process in Libya; development and delivery of the Ra'idat training programme for 35 young women from across Libya to increase advocacy and communication skills that will continue from 2024 and support the Ra'idat alumni network of women across Libya to work together on advocacy programmes; delivery of Model United Nations simulations across Libya to engage 150 young people in the United Nations and its mechanisms; development of a Deputy Special Representative of the Secretary-General youth tour to reach young people in areas where the Mission does not usually visit to build trust and engagement; implementing the outcomes of misinformation and disinformation awareness course developed in 2024 with Libyan universities; promotion of the Mission's outreach activities and engagement with local communities, building trust and support for UNSMIL leadership and high-level officials in their international tours and meetings with Member States and diplomatic corps; reinvoke the United Nations Communication Group to ensure One UN communication around key issues

Category and subcategory	2023	2023	2024	2025
	planned	actual	planned	planned

and priorities, including pertaining to the relevant Sustainable Development Goals in Libya; giving voice to the voiceless among Libyan social groups (women, young people and cultural components) and non-Libyans, primarily migrants; and support for the High National Elections Commission in effective communication and media relations for the widest possible reach.

External and media relations: press conferences, statements and interaction with top-tier international and regional media outlets in Arabic, English and French, as well as select national media; frequent engagement with local media from all parts of Libya; establishment of partnerships with social media platforms to strengthen efforts in countering hate speech, fake news and misinformation, including supporting local fact-checking initiatives; monitoring reports and quarterly social media monitoring; reporting on the human rights situation and acting as a public resource; and the holding of a large-scale public perception survey across Libya.

Digital platforms and multimedia content: maintenance of social media channels and United Nations information platforms in Arabic and English to create, develop and disseminate information relating to the Mission's mandate and the United Nations country team; development, with the help of the Department of Political and Peacebuilding Affairs Innovation Cell, of a digital public perception survey and the holding of digital dialogues; and social media analysis and evaluation of communications impact and trends in Libya to inform senior mission leadership decision-making.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 38

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2025 vs. 2024 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)

Change	–	–	–	–	–	3	1	–	–	–	4	3	–	3	–	–	–	7

^a One post is funded at 50 per cent and cost-shared with the Development Coordination Office.

^b Includes one position approved as general temporary assistance position.

^c Includes the establishment of three general temporary assistance position for the mine action programme.

^d Includes the establishment of one general temporary assistance position for the mine action programme.

^e Other level, unless otherwise stated.

^f Includes the establishment of three general temporary assistance positions for the mine action programme.

179. The proposed resource requirements for 2025 for UNSMIL amount to \$94,141,500 (net of staff assessment) and would provide for the deployment of 234 United Nations Guard Unit personnel (\$6,744,100), salaries and related costs (\$50,124,000) for the deployment of 278 international posts and positions (1 Under-Secretary-General, 2 Assistant Secretary-General, 7 D-1, 18 P-5, 46 P-4, 47 P-3, 2 P-2, 154 Field Service and 1 General Service) and 138 national posts and positions (20 National Professional Officers and 118 Local level), 6 international United Nations Volunteers and 7 government-provided personnel, as well as operational costs (\$37,273,400) comprising the costs for consultants and consulting services (\$104,200), official travel (\$1,059,500), facilities and infrastructure (\$25,650,600), ground transportation (\$206,700), air operations (\$5,360,500), communications and information technology (\$2,587,200), medical (\$432,100) and other supplies, services and equipment (\$1,872,600).
180. A vacancy rate of 23.4 per cent has been applied to the estimates for international staff on the basis of the actual vacancy rate in March 2024. Vacancy rates of 47.1 and 32.2 per cent have been applied for National Professional Officers and Local level staff, respectively, on the basis of the actual vacancy rates in March 2024. A vacancy rate of 50.0 per cent has been applied for the seven positions (3 P-4, 1 P-3 and 3 National Professional Officer) proposed for establishment. A vacancy rate of 16.7 per cent has been applied to the estimates for United Nations Volunteers positions and a vacancy rate of 57.1 per cent has been applied to the estimates for government-provided personnel on the basis of the actual vacancy rate in March 2024. The estimates for United Nations Guard Unit personnel are based on the assumption of full deployment, based on the actual incumbency in March 2024.

Review of long vacant posts

181. As at 30 April, the Mission had 62 long-vacant posts, of which 39 were posts approved for establishment at the end of March 2022 in the context of the 2022 revised estimates to support the ceasefire monitoring mandate. Of the 23 remaining posts, the recruitment for 4 have been subsequently completed and the posts are now filled, 4 are in onboarding status, while the onboarding process for 5 is on hold owing to the liquidity challenges, 4 are in an advance stage of recruitment and the remaining 6 are in the early stages of recruitment. The recruitment for the vacant posts to support the ceasefire monitoring component has been characterized mainly by the slow pace of operationalization of the ceasefire monitoring in Sirte, resulting in more posts remaining vacant. Notwithstanding, in line resolution [2702 \(2023\)](#), UNSMIL remains mandated to support the 5+5 Joint Military Commission in the full implementation of the nationwide ceasefire agreement, including through the work of the UNSMIL ceasefire monitoring component in support of the Libyan ceasefire monitoring mechanism. Consequently, the retention of these posts in 2025 has been assessed as required on the basis of the need to avail the Mission of the capacity necessary, once conditions are conducive, to implement such mandated tasks.
182. In 2025, the proposed staffing complement includes the establishment of seven general temporary assistance positions, as detailed below:

Office of the Deputy Special Representative of the Secretary-General, Political

183. The Mine Action Service provides mine detection and mine-clearing services to UNSMIL through its long-standing partnership with the United Nations Office for Project Services (UNOPS) in accordance with the umbrella memorandum of understanding between the United Nations and UNOPS. The Office of Internal Oversight Services recommended in its audit on the monitoring and evaluation mechanism of the Mine Action Service that it strengthen its control environment and increase financial monitoring, as well as monitoring and evaluation. The Board of Auditors, in its audit of the United Nations peace operations ([A/75/5 \(Vol. II\)](#), para. 175), recommended that the Mine Action Service reduce its dependency on UNOPS and evaluate the benefits of implementing a specific share of mine action activities itself.
184. In this context, it is proposed that seven new temporary positions (3 P-4, 1 P-3 and 3 National Professional Officer) be established, to advance the UNSMIL mine action objectives in the most effective, cost-efficient and transparent manner. The establishment of these positions will replace

the previous arrangement of using UNOPS in delivering such services, for which resources for eight posts and other operating expenses were formerly budgeted under the “other supplies, services and equipment” budget class.

185. This approach will improve the governance and transparency of the delivery of the mine action programme by providing a direct reporting line for mine action personnel to the existing Chief of Mine Action Section (P-5) as referenced in paragraph 187 below. It will improve the effectiveness of programme delivery by ensuring that the core functions are performed by UNSMIL personnel. In addition, cost-efficiency will be achieved through the streamlining of functions and programme support costs from the previous implementation modality with UNOPS that are no longer applicable, as outlined in table 40 below.

Table 40
New delivery model of mine action programme

(Thousands of United States dollars)

<i>Category</i>	<i>Amount</i>	<i>Initiative</i>
The estimated efficiency is achieved by streamlining functions and programme support costs that are no longer applicable, previously budgeted under “other supplies, services and equipment – mine detection and mine-clearing services”, as follows:		
Other supplies, services and equipment	1 595.3	8 personnel (5 international and 3 national) (\$1,391,100), and travel and other operational costs (\$85,300), UNOPS programme service costs and administrative costs (\$118,900), which are no longer applicable
General temporary assistance	(600.6)	7 temporary positions (3 P-4, 1 P-3 and 3 National Professional Officer) transferred to the UNSMIL staffing table at a vacancy rate of 50 per cent. In subsequent periods, in terms of full cost, the annual cost estimate would be \$1,201,200
Official travel	(35.3)	Increased costs for official travel for meetings and consultations, as well as internal travel to provide programme oversight, monitoring, coordination, resource mobilization and technical assistance with partners, previously funded through UNOPS
Other services	(37.4)	Increased costs for conference meetings and training costs, previously funded through UNOPS
Total	922.0	Estimated cost-efficiencies of \$922,000 in 2025. In subsequent periods, in terms of full cost, the estimated annual cost-efficiencies would be approximately \$321,400

Abbreviations: UNOPS, United Nations Office for Project Services; UNSMIL, United Nations Support Mission in Libya.

186. The functions of the seven positions are as follows:
- (a) Establishment of three positions of Programme Management Officer (P-4) in Tripoli to:
 - (i) provide capacity-building support to the Libyan mine action authorities in developing a sustainable and effective national capacity to address explosive ordnance risks in Libya, including streamlining accreditation processes for the Libyan Mine Action Centre and other mine action organizations and overseeing compliance with the national mine action standards, as well as facilitating coordination with all relevant stakeholders and partners in the mine action sector; (ii) provide technical advice and capacity-building to Libyan authorities for the safe and effective management of arms, ammunition and explosives, to avoid weapons proliferation in the region; and (iii) work closely with the UNSMIL Ceasefire Monitoring Component and the 5+5 Joint Military Commission to lead the coordination and support for the subcommittee on demining through the provision of technical advice, risk assessments and explosive ordnance risk awareness;
 - (b) Establishment of one Programme Management Officer (P-3) in Tripoli to support the development of the UNSMIL mine action programme strategy, annual workplan and the workplan budget; monitoring and liaison with relevant stakeholders;
 - (c) Establishment of one Associate Administrative Officer (National Professional Officer) in Tripoli to provide capacity with respect to facility management, asset and inventory

management, administration and logistics. The incumbent would also be responsible for providing support for meetings, conferences and training events;

- (d) Establishment of one Data Analysis Officer (National Professional Officer) in Tripoli to provide capacity-building support to the Libyan Mine Action Centre and mine action partners on the management of the Information Management System for Mine Action and data analytics, including the preparation of maps, charts and reports;
 - (e) Establishment of one Associate Programme Officer (National Professional Officer) to provide support in planning, monitoring and reporting and other support to programmatic processes.
187. It is also proposed that the existing general temporary assistance position of Chief of Mine Action Section be continued to lead the UNSMIL mine action component, advise the UNSMIL leadership on mine action issues, supervise the implementation of the workplan and lead engagement with the national authorities, the United Nations country team and other stakeholders involved in mine action activities.
188. These resource requirements were reviewed by the Mine Action Service Programme Review Committee, composed of Headquarters and mission personnel, to ensure that the mine action programme in UNSMIL is designed to support the delivery of the Mission's mandate efficiently and effectively.
189. The increase in requirements for 2025 compared with the approved resources for 2024 is attributable mainly to an increase in civilian personnel costs, owing to the application of a lower vacancy rate of 23.4 per cent for international staff compared with 29.6 per cent applied in the 2024 approved budget, a higher post adjustment multiplier for Libya, which increased from 31.8 in April 2023 to 40.0 in April 2024, and the proposed establishment of seven general temporary assistance positions. The increase is offset by decreased requirements under operational costs owing to lower requirements under: (a) other supplies and services, due to the transfer of the mine action capacity to the Mission's staffing table as noted above; (b) air operations, due to the application of a 50 per cent deployment factor to the rental and operations of the helicopter to provide air operations support for the ceasefire monitoring component and to carry out medical evacuations to support MEDEVAC/CASEVAC operations within the mission area, and the lower number of 575 flight hours compared with 700 flight hours provided for in the approved 2024 budget; and (c) communications and information technology, due to fewer acquisitions because of the anticipated receipt of equipment from downsizing missions, as well as reduced requirements for telecommunications and network services and spare parts.

Extrabudgetary resources

190. In 2024, extrabudgetary resources in the amount of \$76,700 are projected to be used to organize a conference focused on an inclusive and victim-centred transitional justice in Libya, as well as capacity-building on human rights.
191. No extrabudgetary resources are projected for 2025 owing to the conclusion of project activities in 2024.

8. United Nations Verification Mission in Colombia

(\$86,855,100)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

192. The United Nations Verification Mission in Colombia is mandated to verify five key aspects of the Final Agreement for Ending the Conflict and Building a Stable and Lasting Peace, adopted in 2016 by the Government of Colombia and the former Revolutionary Armed Forces of Colombia – People’s Army (FARC-EP), comprising: (a) the reintegration of FARC-EP members into political, economic and social life (sect. 3.2 of the Agreement); (b) the implementation of personal and collective security and protection measures for ex-combatants, and comprehensive security and protection programmes for the communities and organizations in the territories (sect. 3.4 of the Agreement), since 2021; (c) compliance with and implementation of the sentences issued by the Special Jurisdiction for Peace (sect. 5.1.2 of the Agreement); since 2023 (d) the verification of the comprehensive rural reform (sect. 1 of the Agreement); and; (e) the implementation of the ethnic chapter (sect. 6.2 of the Agreement).
193. Moreover, the Security Council, in its resolution [2694 \(2023\)](#), mandated the Mission to verify and monitor the implementation of the Bilateral, National and Temporary Ceasefire Agreement between the Government of the Republic of Colombia and the Ejército de Liberación Nacional (ELN).
194. The Mission’s mandate is defined in Security Council resolutions [2366 \(2017\)](#), [2574 \(2021\)](#), [2673 \(2023\)](#) and [2694 \(2023\)](#). By its resolution [2704 \(2023\)](#), the Council renewed the mandate until 31 October 2024.

Programme of work

Objective

195. The objective, to which the Mission contributes, is to advance the effective implementation of the provisions of the Final Agreement concerning reintegration, security guarantees, restorative sentences, comprehensive rural reform and the ethnic chapter, and to advance the Ceasefire Agreement.

Strategy and external factors for 2025

196. To contribute to the objective, the Mission will:
- (a) Apply a proactive and inclusive approach to verification, which includes advocacy, good offices and close engagement with the parties to the Final Agreement, the Ceasefire Agreement, and relevant institutions and authorities at the international, national, regional and local levels;
 - (b) Conduct independent verification and participate, jointly with the parties, in key forums and institutions created for the implementation of the Final Agreement;
 - (c) Promote constructive dialogue and trust-building between the Government and the Comunes party to address pending issues relating to peace implementation, and maintain constant coordination and dialogue with key interlocutors, including actors across the political spectrum, civil society, ethnic organizations, the private sector and the international community, to foster support for the implementation of the Final Agreement;

- (d) Conduct independent verification of the implementation of the ceasefire as outlined in the Ceasefire Agreement through its role within the Monitoring and Verification Mechanism, as part of broader efforts to build trust between the Government and ELN, by providing good offices to permanently accompany the dialogue between the parties.
197. The above-mentioned work is expected to result in:
- (a) Increased trust between the parties to the Final Agreement; sustainability of the reintegration process, with a specific focus on security guarantees for former combatants, social leaders and communities; sustained progress on tangible issues that impede successful reintegration; the promotion of gender-sensitive reintegration; the provision by the Government of more sustainable solutions for former combatants' training and reintegration; progress in the implementation of key components of the comprehensive rural reform; increased capacity to prevent and address land-related conflict; progress in the reduction in inequalities in terms of access to land; and progress in the implementation of development plans with a territorial focus in prioritized areas, with the active participation of local communities;
 - (b) Enhanced State capacity and responsiveness to better prevent and investigate attacks against former combatants, social leaders and communities, as well as increased trust and understanding between the parties through tripartite coordination mechanisms, while taking into consideration the specific needs of women, children and former combatants of ethnic origin and other communities at risk;
 - (c) Enhanced trust in the transitional justice system; the reinforced ability of the Special Jurisdiction for Peace to ensure compliance with and implementation of its restorative sentences and of the Government to provide the conditions necessary for such compliance; and contributions to the realization of victims' rights to truth, justice, reparation and non-repetition and their full inclusion in the reparative system;
 - (d) Strengthened implementation of the ethnic provisions of the Final Agreement guided by the priorities set by the Government and the pact for the implementation of the ethnic chapter signed in November 2023 to accelerate its implementation; enhanced trust and collaboration between government institutions, ethnic authorities and their organizations to attain a comprehensive implementation of the ethnic chapter and increased engagement of the international community, including the United Nations system;
 - (e) Increased trust in the process and among the parties to the Ceasefire Agreement to ensure its sustainability and continuity, thus contributing to the reduction in violence and improvements in the humanitarian situation in conflict-affected regions and to increased public confidence in the ongoing dialogue between the Government and ELN; and contributing to advances in the peace efforts.
198. With regard to cooperation with other entities, the Mission engages extensively with international, national and local actors supporting the implementation of its mandate. At the international level, the Mission's close engagement with the diplomatic community and regional organizations helps to identify synergies and areas of mutual interest and support for peace consolidation. At the national and local levels, the Mission strengthens ties with a broad range of political, civil society and private sector actors, including community, religious, youth, women, ethnic, and lesbian, gay, bisexual, transgender, queer and intersex organizations, and the transitional justice institutions. The Mission continues to bolster its relationships with departmental and local authorities, particularly as they gain more responsibilities with regard to the reintegration process, ensuring security guarantees for communities and supporting society's participation in the peace process.
199. With regard to inter-agency coordination and liaison, the Mission will continue to work closely with the United Nations country team and the resident coordinator office, guided by the United Nations Sustainable Development Cooperation Framework. Through coordination in joint mechanisms at various levels, the Mission shares political analyses and encourage coherent action and engagement across the peace and security and the development pillars.

200. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Continued international support for the close engagement of the United Nations and the Mission in the peace process;
 - (b) The national Government and legislature will remain focused on the implementation of the Final Agreement, including their commitment to advancing implementation of the comprehensive rural reform and the ethnic chapters;
 - (c) National and local authorities, State entities and mechanisms tasked with preventing, addressing and investigating security incidents in conflict-affected areas, including the Office of the Attorney General, will remain committed to strengthened collaboration with the Mission;
 - (d) Continued progress in the transitional justice system, resulting in the issuance and implementation of restorative sentences;
 - (e) The Government and ELN remain committed to the peace dialogue and the implementation of the Ceasefire Agreement and its protocols, including to fostering the participation of society in the peace process and advancing other agreements that may be reached in the framework of the talks.
201. The Mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Mission works to ensure the adequate implementation of its gender directive and gender parity strategy and that the specific needs of female former FARC-EP members are fully incorporated into programme design, implementation and monitoring, and give priority to the security guarantees of female leaders and former combatants. The Mission ensures the adequate inclusion of a gender perspective in the verification of restorative sentences, in particular concerning case 11 and others relating to sexual and gender-based violence, in rural reform aspects, with a specific focus on the needs of peasant and ethnic women, and in the ethnic chapter. The Mission promotes the implementation of the women and peace and security agenda, including as part of its monitoring and verification of the Ceasefire Agreement, as well as the active and meaningful participation of women in peacemaking.

Programme performance in 2023

Increased trust in the Ceasefire Agreement between the Government of Colombia and the Ejército de Liberación Nacional contributed to a de-escalation of violence in conflict-affected areas

202. The Mission's monitoring of the Ceasefire Agreement through its participation in the Monitoring and Verification Mechanism contributed to building trust in the process. Its presence in the Mechanism at the national, regional and local levels enabled it to help to disseminate the protocols for the ceasefire and the work of the Mechanism, including developing a guide on gender mainstreaming and addressing sexual and gender-based violence. The Mission carried out on-site verification of possible violations, as requested by the parties. The implementation of the Ceasefire Agreement has successfully prevented or resolved direct armed confrontation between public security forces and ELN, thereby helping to de-escalate violence for the benefit of those communities living in affected regions. The Mission also provided technical advice to the National Participation Committee and direct support to conduct meetings with specific sectors of civil society to define the methodology for society's participation in the peace process, promoting inclusivity and thus contributing to the trust-building process.
203. Progress towards the objective is presented in the performance measure below (see table 41).

Table 41
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	–	The Mission contributed to the establishment of the Monitoring and Verification Mechanism at the national, regional and local levels, enhanced communication between the Government and ELN in the framework of the ceasefire, promoted adherence by the parties to the ceasefire and its protocols, conducted monitoring and verification activities in response to incidents of possible violations, and issued recommendations to the parties

Planned results for 2025

Result 1: timely and effective implementation of the restorative sentences issued by the Special Jurisdiction for Peace

Programme performance in 2023 and target for 2025

204. In 2023, the Mission continued to engage with entities responsible for the implementation of the sentences and for their monitoring and verification. It fine-tuned the verification methodology for general trends and patterns and selected individual cases for closer monitoring and verification purposes. It strengthened risk analysis and the monitoring of cases affecting participants in the Special Jurisdiction for Peace. It also engaged with State institutions responsible for ensuring that the conditions for the implementation of the restorative sentences were fulfilled.
205. In 2025, the Mission will monitor and verify compliance with the restorative sentences issued in cases 1 and 3 and advocate with State institutions to ensure that the conditions are met for the implementation of the restorative sentences. The Mission will carry out these tasks, including through the Monitoring and Verification Mechanism with the Special Jurisdiction for Peace.
206. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 42).

Table 42

Result 2: progress in the effective implementation of comprehensive rural reform and ethnic chapters

Programme performance in 2023 and target for 2025

207. In 2023, the Mission completed one year of verifying the implementation of the comprehensive rural reform and ethnic chapters. It collaborated closely with government institutions, civil society and ethnic peoples and organizations, farmers and women's platforms to identify challenges and determine a course of action. It established priorities for advocacy and provided support to ensure comprehensive and coordinated implementation of the comprehensive rural reform, supported government institutions in advancing land delivery and promoted the implementation of national rural reform plans and development-focused plans. The Mission delivered sound recommendations regarding priority action for the ethnic chapter implementation. Efforts resulted in the development and signing of the pact for the implementation of the ethnic chapter by government institutions and its endorsement by the High-level Forum of Ethnic Peoples.
208. In 2025, the Mission will continue to advocate for priority areas that remain central to the comprehensive implementation and sustainability of the rural reform. It will take stock of the progress made in achieving the goals outlined in both the Final Agreement and the Government's national development plan. The Mission will support institutions in charge of the ethnic chapter implementation in order to advance goals outlined in the pact for the implementation of the ethnic chapter.
209. Progress towards the objective and the target for 2025 are presented in the performance measure below (see table 43).

Table 43
Performance measure

–	–	<p>Security guarantees, verification guidelines and risk analysis developed in support of the rural reform and ethnic chapter</p> <p>Verification of delivery of land to peasants and ethnic groups, with the Government formalizing the acquisition and transfer of tenure</p> <p>Progress made in the planning of the development programme with a territorial focus for a comprehensive and high-impact approach, with civil society participation</p> <p>Implementation of a coordination mechanism between all relevant stakeholders for the ethnic chapter</p> <p>Establishment of priorities and targets for through the signing of the pact for the implementation of the ethnic chapter</p>	<p>Increase in the number of landless farmers, women and victims who received land (or were granted land titles) through mechanisms provided for in the Final Agreement</p> <p>Comprehensive and inclusive implementation of the development programme with a territorial focus and the national plan for rural reform</p> <p>Establishment of a coordination mechanism between the Government and State institutions in charge of the implementation of the ethnic chapter</p> <p>Establishment of a dialogue mechanism among relevant institutions, ethnic peoples, private sector entities and other stakeholders</p> <p>High-level Forum of Ethnic Peoples is strengthened</p>	<p>Implementation of development programmes with a territorial focus is accelerated</p> <p>Increase in the delivery of land to rural reform beneficiaries, including ethnic groups, as well as goods and services, ensuring land productivity</p> <p>Strengthened institutions in charge of implementing the ethnic chapter</p> <p>Enhanced collaboration between government entities implementing the ethnic chapter and Afro-Colombian and Indigenous leaders and their organizations, private sector and other stakeholders</p> <p>Progress in the targets set in the pact for the implementation of the ethnic chapter is on track</p>

Result 3: strengthened security conditions for communities in conflict-affected areas through advances in the implementation of the Final Agreement and effective implementation of the Ceasefire Agreement between the Government and the Ejército de Liberación Nacional

Proposed programme plan for 2025

210. The Government has made significant efforts towards peacemaking in Colombia. However, violence in municipalities, which had seen improvements following the signing of the Final Agreement, is of concern, highlighting the need for a swift State-wide response. In 2023, the Mission advised the Government in terms of its fulfilment of commitments from the Final Agreement, including approving security measures for former combatants and implementing a public policy to dismantle

illegal armed groups. With respect to the dialogue between the Government and ELN, the Mission's work contributed to a de-escalation of violence in the regions.

Lessons learned and planned change

211. The lesson for the Mission was that an improvement in security conditions for communities and former combatants was key to building a sustainable peace. In applying the lesson, the Mission will continue to engage with the Government to improve the State presence in territories. In addition, continued adherence to the Ceasefire Agreement and the resulting reduction of violence have a positive impact on the population in conflict-affected areas. The Mission will continue to engage with the parties and civil society to build trust in peace efforts in Colombia.
212. Expected progress towards the objective is presented in the performance measure below (see table 44).

Table 44
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	–	–	<p>Progress in the implementation of the Ceasefire Agreement between the Government and ELN</p> <p>Ceasefire agreements and protocols are enhanced, including through technical support provided by the Mission within its participation in the Monitoring and Verification Mechanism</p> <p>Reduction in violent clashes between public forces and illegal armed groups</p> <p>Improved security conditions for communities in conflict-affected areas as a result of the ceasefire</p>

Deliverables

213. Table 45 lists all deliverables of the Mission.

25. Events with government officials on the Mission's mandate and advocacy on the implementation of the Final Agreement	4	4	11	9
26. Regional events with Final Agreement stakeholders, including former combatants, on its implementation	4	4	4	4
27. Workshop for regional reintegration focal points on the implementation of new approaches to the verification of social, political and economic reintegration	1	1	2	3
28. Workshop for regional reintegration and rural reform focal points on the implementation of new approaches to the verification of social, political and economic reintegration and rural reform	–	–	1	3
29. Workshop with government stakeholders regarding the implementation of the national agrarian reform system	–	–	1	2
30. Event with local and regional community members and national authorities to take stock of progress made in the implementation of the development plans with a territorial focus	–	–	1	3
31. Workshop to take stock of community-based reintegration initiatives	–	–	1	3
32. Workshop with LGBTQI former combatants	–	–	–	1
33. Workshop on capacity-building for Indigenous and Afro-Colombian guards with regional stakeholders	–	–	1	–
34. Seminar on illicit crops and ethnic communities	–	–	1	–
35. Event to strengthen ethnic organizations at the local level	–	–	1	–
36. National event with High-level Forum of Ethnic Peoples	–	–	1	–
37. National gathering of ethnic former combatants	–	–	1	–
38. Workshops at the national and regional levels to strengthen the implementation of the mandate pursuant to resolution 2694 (2023)	–	–	9	9
39. Workshops at the national and regional levels to strengthen society participation in the peace processes	–	–	–	9
40. Workshops on gender-sensitive approaches to monitor and verify the Ceasefire Agreement between the Government and ELN	–	–	–	2
41. Events with the ethnic authorities and representative organizations and Government bodies on the implementation of ethnic chapter and peace processes	–	–	–	15

C. Substantive deliverables

Good offices: good offices to implement provisions in the Final Agreement, including for the implementation of the relevant gender provisions; good offices and advocacy on the establishment and strengthening of spaces and forums that bring together relevant counterparts and stakeholders for productive dialogue and decision-making; good offices and advocacy on visits from key stakeholders to reintegration areas and relevant locations where former combatants are developing productive projects and community-based initiatives, including support for reinforcing the role of the technical working group on gender within the National Reintegration Council; good offices for the implementation of the women and peace and security agenda as part of the implementation of the Final Agreement, including advancing women's participation; good offices to support the dialogue between the Government and the ELN, to accompany meetings, facilitate communication between the parties and support the implementation of relevant agreements reached at the negotiating table; good offices to support implementation of the commitment to foster participation of society in the peace process; and good offices to advance other dialogue efforts of the Government to consolidate peace in Colombia.

Consultation, advice and advocacy: consultations and advice to identify, prevent or resolve challenges in the conditions for increased political participation by the Comunes political party, reintegration of former combatants, improving security and protection measures and conditions; advice and support to advance implementation of the comprehensive rural reform and ethnic chapter advocacy for the full implementation of the gender provisions within the Final Agreement, including support for government counterparts and regular consultation with women's organizations and female and LGBTQI former combatants; support for the information management mechanisms of the Special Jurisdiction for Peace to facilitate information-sharing; and consultations and coordination with relevant stakeholders of the dialogue between the Government and ELN.

Category and subcategory	2023	2023	2024	2025
	planned	actual	planned	planned

Databases and substantive digital materials: platforms to manage information relating to the ceasefire; platform for the verification of restorative sentences; increased scope for the platform from incident reporting on challenges relating to security guarantees for former FARC-EP combatants, social leaders and communities to cover violence more broadly affecting other aspects of the Final Agreement verified by the Mission; information system for indicators relating to reintegration; integrated tools for verification of rural land reform based on geostatistical models and methodologies for prioritization, advances and follow-up; verification reporting system at the regional level; tripartite platform on organizations engaged in economic reintegration projects and productive projects; and tripartite database of transit to legality of former FARC-EP combatants.

D. Communication deliverables

Outreach programmes, special events and information materials: Strengthening of the Mission's public image through production of information materials, special events and activities to explain progress in the implementation of the Mission's mandate and promote its importance to a lasting peace.

External and media relations: Partnerships with radio and television broadcasting networks, in local, regional and national media; host regular conferences with key media partners; organize press conferences with senior leadership; press briefings and media field visits; monitor media coverage; and prepare media briefing products to boost the knowledge about the Mission's work in support of the Colombian peace process.

Digital platforms and multimedia content: maintenance of social media channels and United Nations information platforms to create, develop and disseminate information relating to the Mission's mandate; and implementation of various strategies and actions to address misinformation and disinformation and hate speech for early warning and response.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 46

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance

Change	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	

^a Other level, unless otherwise stated.

214. The proposed resource requirements for 2025 for the Mission amount to \$86,855,100 (net of staff assessment) and would provide for the deployment of 188 military observers (\$4,166,400), salaries and common staff costs (\$48,979,800) for 182 international posts (1 Under-Secretary-General, 1 Assistant Secretary-General, 6 D-1, 26 P-5, 38 P-4, 58 P-3, 2 P-2, 49 Field Service and 1 General Service), 217 national posts (113 National Professional Officer and 104 Local level) and 183 United Nations Volunteers (153 international and 30 national), and operational costs (\$33,708,900), comprising the costs for consultants and consulting services (\$539,000), official travel (\$2,217,100), facilities and infrastructure (\$8,932,400), ground transportation (\$3,176,400), air operations (\$10,607,500), marine operations (\$177,000), communications and information technology (\$5,440,200), medical (\$584,800) and other supplies, services and equipment (\$2,034,500).
215. A vacancy rate of 20.3 per cent has been applied to the estimates for international posts, taking into account the actual average vacancy rates in 2023; 21.8 per cent for National Professional Officer posts on the basis of the actual vacancy rate in March 2024; 13.1 per cent for Local level posts on the basis of the actual vacancy rate in March 2024; 10.1 per cent for military observers on the basis of the vacancy rate in March 2024; and 5.0 per cent for international United Nations Volunteers and 8.0 per cent for national United Nations Volunteers, taking into account the actual average vacancy rates in 2023. A vacancy rate of 50 per cent has been applied to the estimates for the posts proposed for reassignment.
216. With a view to ensuring the effective delivery of its mandate, a number of changes to the organizational and staffing structure are proposed for 2025, including the realignment of an organizational unit, the reassignment of two posts and the redeployment of five posts, as detailed below:

Office of the Special Representative of the Secretary-General

- (a) Realignment of the Political Affairs Office, comprising six posts (1 D-1, 1 P-4, 1 P-3 and 3 National Professional Officer), from the Office of the Deputy Special Representative of the Secretary-General to the Office of the Special Representative of the Secretary-General. This is proposed to maximize the reach of the Office to monitor political developments, provide recommendations and respond to increased political demands at the national level within Colombia's peace processes, including in relation to ceasefire monitoring tasks;
- (b) Redeployment of one post of Senior Information Analyst, Political Affairs (P-5) and three posts of Associate Information Analyst, Political Affairs (National Professional Officer) from the Reporting and Analysis Unit to the Political Affairs Office, to optimize processes and ensure that analytical work and reporting frameworks are aligned with Office guidance. With the proposed redeployment of staff, the Reporting Unit will merge with the Office and operate as a single reporting unit;

Office of the Deputy Special Representative of the Secretary-General

- (c) Reassignment of one post of Assistant Information System Officer (National Professional Officer) as Assistant Public Information Officer (National Professional Officer) in the Information Management Unit, to enhance communication, outreach activities, campaigns and the development of specific public information products and data visualization, as well as research, information-gathering and analysis of current events taking place in the field offices;

Office of the Chief of Mission Support

- (d) Reassignment of one post of Administrative Officer (P-4) in the Mission Support Unit to Chief of Unit, Logistics Officer (P-4) to improve the effectiveness and efficiency of all mission logistics operations, matching the knowledge and experience required for this function. The incumbent will be responsible for managing and supervising all logistics support required, ensuring adequate logistics assistance to security, mission support and substantive components of the Mission;
- (e) Redeployment of one post of Administrative Officer (Field Service) from the Mission Support Unit to the Office of the Chief of Mission Support to address the increased workload resulting from the increasingly complex and challenging geographical area of operations.

217. The increase in requirements for 2025 compared with the appropriation for 2024 is attributable mainly to: (a) increased requirements for civilian personnel as a result of the application of the most recent rates for salaries and common staff costs, including the increase in the post adjustment multiplier in Colombia from 24.9 in April 2023 to 50.8 in April 2024, as well as the delayed impact of 88 new posts and positions approved in the 2024 budget for the new mandates; (b) increased requirements for military observers, attributable mainly to higher mission subsistence allowance due to the application of updated mission subsistence allowance rates for Colombia, as well as the delayed impact of 68 new observers approved in the 2024 budget for the new mandates; (c) higher requirement for facilities and infrastructure, reflecting the most recent contractual prices for rental of premises and security services; and (d) higher requirement for air operations, reflecting the most recent higher contractual prices for helicopters, offset in part by reduced requirements for petrol, oil and lubricants owing to the application of flight hours based on recent trends, with 555 hours budgeted for fixed-wing aircraft and 995 hours budgeted for rotary-wing aircraft compared with 780 and 1,800 hours, respectively, provided for in the approved 2024 budget, and the application of the most recent six-month average fuel prices, from October 2023 to March 2024. The increase is offset in part by: (a) lower requirements for ground transportation due to reduced rental costs for soft skin vehicles; (b) lower requirements for communications and information technology due mainly to non-requirements for the one-time acquisitions for communications and information technology equipment in the 2024 budget in connection with the new mandates; and (c) lower requirements under other supplies, services and equipment due mainly to for lower requirements for meeting facilitation services, and individual contractor and freight costs due to the lower level of acquisitions.

Extrabudgetary resources

218. In 2024, extrabudgetary resources in the amount of \$361,700 are projected to be used to provide for three main initiatives: promote women and peace and security and youth, peace and security efforts; strengthen conditions for reconciliation and restorative sentences; and implement the ethnic chapter. Resources are also intended to promote dialogue facilitation and enhance the Mission's good offices in support of ongoing dialogue efforts between the Government and various armed groups.
219. In 2025, extrabudgetary resources in the amount of \$361,700 are projected to be used to provide to further support the continuation of successful projects that have been instrumental in gaining political space for the implementation of the mandates and new proposals focusing on victims and communities.

9. United Nations Mission to Support the Hudaydah Agreement

(\$31,606,800)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

220. The United Nations Mission to Support the Hudaydah Agreement is responsible for supporting the parties to the Stockholm Agreement ([S/2018/1134](#), annex) in implementing the provisions of the Agreement on the City of Hudaydah and the Ports of Hudaydah, Salif and Ra's Isa (Hudaydah Agreement), and their commitments in accordance with the Hudaydah Agreement. The mandate derives from Security Council resolution [2452 \(2019\)](#) and was extended in subsequent resolutions, most recently in resolution [2691 \(2023\)](#).
221. The mandate of the Mission is to: (a) lead, and support the functioning of the Redeployment Coordination Committee, assisted by a secretariat staffed with United Nations personnel, to oversee the Governorate-wide ceasefire, the redeployment of forces and mine action operations; (b) monitor the compliance of the parties with the ceasefire in Hudaydah Governorate and the mutual redeployment of forces from the city of Hudaydah and the ports of Hudaydah, Salif and Ra's Isa; (c) work with the parties so that local security forces assure the security of the City of Hudaydah and the ports of Hudaydah, Salif and Ra's Isa in accordance with Yemeni law; and (d) facilitate and coordinate United Nations support to assist the parties to fully implement the Hudaydah Agreement.
222. In November 2021, the unilateral withdrawal of the Government of Yemen-aligned joint forces from Hudaydah city to the southern districts of Hudaydah shifted the front line more than 100 km to the south. Limited hostilities continue in these areas, with daily exchanges of fire between the parties, but have remained primarily tactical in nature.
223. The positive impacts of the truce (from 2 April to 2 October 2022) brokered by the United Nations could be observed in Hudaydah. Notwithstanding its formal expiry, the truce continued on a de facto basis with the parties still observing its central tenets. This brought a nascent stability and a sense of normalcy to Hudaydah. However, the increased freedom of movement enjoyed by the civilian population also led to a major increase in casualties relating to landmines and explosive remnants of war as people return to their places of residence or work.
224. Maintaining the civilian nature of the ports of Hudaydah Governorate is of paramount importance. Systematic mission patrols to the ports found no evidence of military objects or manifestations during 2023, which saw a significant increase in the number of vessels using the ports and the flow of goods into Yemen. However, until a durable political settlement is reached, armed confrontation for the control of these strategic ports remains a possibility.
225. The period of relative stability that emerged in 2022 and continued into 2023 enabled the Mission to act upon new opportunities. This included monitoring visits to conflict-affected districts on both sides of the front line, joint monitoring visits conducted with members of the United Nations country team and the implementation of quick-impact projects. The Mission intends to expand such activities and its physical presence in the southern part of the Governorate in support of the implementation of the Hudaydah Agreement and be ready to make any necessary adjustments as may be required by developments on the ground.

Programme of work

Objective

226. The objective, to which the Mission contributes, is to support the parties in the implementation of the Hudaydah Agreement on the City of Hudaydah and the Ports of Hudaydah, Salif and Ra's Isa, and their commitments in accordance with the Agreement.

Strategy and external factors for 2025

227. To contribute to the objective, the Mission will:
- (a) Adapt to the evolving environment across Hudaydah Governorate to ensure it is best positioned and structured to advance its mandate, which will include establishing and operating a presence in the territory of the Government of Yemen south of the front lines, in conjunction with the operation of its base in Hudaydah city, to ensure equal representation in the territories of both parties;
 - (b) Lead and support the sustained operation of the Redeployment Coordination Committee as the key oversight body of the Hudaydah Agreement, holding meetings at a location mutually agreed to by both parties with the intent of reinstating dialogue and liaison mechanisms to oversee and ensure implementation of the redeployment of forces, the Governorate-wide ceasefire and the provision of security by local security forces within Hudaydah city and its ports in accordance with Yemeni law;
 - (c) Strengthen and realign the joint structures previously agreed as part of the framework of the Redeployment Coordination Committee to address shifted realities and conflict-affected areas in the evolved environment, including de-escalation;
 - (d) Maintain increased monitoring capacity within the authorized ceiling to expand and strengthen monitoring of the ports with regular patrols to all port installations, with a view to monitoring the redeployment of all military forces from such locations, and the removal of military manifestations, in accordance with the mandate. On-the-ground patrolling will also be expanded in the territories held by the parties on either side of the front lines, including conflict-affected areas;
 - (e) Provide technical expertise and support to advance mine action efforts in Hudaydah Governorate, in close coordination with partners and in accordance with the priorities identified by both sides, with a focus on locations posing a high risk to civilians;
 - (f) Advance assessment and coordination to implement community-focused projects in key locations on either side of the front lines, with a focus on vulnerable groups, including conflict-affected groups, women, young people and children, and in coordination with and fully complementary to wider development action that supports the local population, de-escalates tensions between communities, strengthens social cohesion and enhances stability.
228. The above-mentioned work is expected to result in:
- (a) Enhanced mutual trust, confidence and dialogue between the parties to strengthen the implementation of the Hudaydah Agreement as a key contribution to the broader peace process;
 - (b) Equal and sustained access and dialogue across both sides in the relevant shifted territories of the parties in Hudaydah Governorate;
 - (c) Strengthened ceasefire implementation across the Governorate and improved security of the local population, including a reduction in casualties resulting from ceasefire violations;
 - (d) Maintenance of the security of Hudaydah city and its ports, and assurance that military forces are redeployed from such locations, remaining military manifestations are removed and

- security responsibilities are assumed by local security forces in accordance with Yemeni law in these locations;
- (e) Reduced violence in Hudaydah Governorate due to the de-escalation of tensions between the parties, enhanced stability and strengthened measures to protect the local population;
 - (f) Advancement in demining in Hudaydah city, its ports and other priority locations, reducing the risk of civilian casualties caused by improvised explosive devices or other explosive remnants of war;
 - (g) An enhanced and inclusive process to ensure implementation of the Hudaydah Agreement on the basis of strengthened community participation.
229. With regard to cooperation with other entities, the Mission liaises with the parties to ensure the safety and security of mission personnel and premises, and the unhindered movement of mission personnel and equipment, provisions and essential supplies into and within Yemen. The Mission engages, where possible, with local stakeholders, partners and other bodies within Hudaydah Governorate to ensure a unified approach in supporting the Hudaydah Agreement and its implementation and identifying opportunities to enhance stability and confidence in this process while increasing awareness of its mandate. The Mission maintains its comprehensive engagements with regional actors that can have a positive influence on progress towards mandate implementation.
230. With regard to inter-agency coordination, the Mission coordinates closely with the Office of the Special Envoy of the Secretary-General for Yemen. The two entities share information and analysis, coordinate movements and briefings to the Security Council and align messaging, while sharing a mission support structure and premises in common locations. The Mission also facilitates the support provided by United Nations agencies, funds and programmes and other partners to assist the parties in fully implementing the Hudaydah Agreement, as appropriate. The Mission maintains close working relationships with the Resident and Humanitarian Coordinator and members of the United Nations country team, in particular the World Food Programme, UNDP and the Office for the Coordination of Humanitarian Affairs, as well as other development and humanitarian actors operating in Hudaydah Governorate. The Mission consults and coordinates, as necessary, with the Office of the United Nations High Commissioner for Human Rights and UN-Women to strengthen ceasefire implementation, achieve de-escalation and ensure access to areas of need.
231. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) There is sufficient political will and engagement from domestic, regional and international stakeholders to enable the implementation of the Hudaydah Agreement;
 - (b) Efforts to attain a nationwide durable ceasefire, led by the Office of the Special Envoy of the Secretary-General for Yemen will continue to progress;
 - (c) Major combat operations between the parties will not recommence in Hudaydah Governorate, nor will there be sustained military impediments that would preclude the use of the main supply routes to and from the Mission's areas of operation;
 - (d) A political environment exists that facilitates the work of the Redeployment Coordination Committee and its subsidiary joint mechanisms, enabling the parties to advance full redeployment and activate the local security forces;
 - (e) The parties resume their full participation in the activities of the Redeployment Coordination Committee and commit themselves to a revived dialogue process and participation in subsidiary joint mechanisms to monitor the ceasefire and foster de-escalation, confidence-building and collaborative demining efforts;
 - (f) The Government of Yemen agrees to and cooperates in facilitating the establishment of a mission presence in areas to the south of the new front lines to ensure the Mission's equal access to both parties and enable the full deployment and ongoing unimpeded functioning of the Mission;

- (g) A suitably safe, secure and permissive operating environment exists, and sufficient confidence is established between the parties and other partners to generate sustained support for and participation in the activities of the Mission;
 - (h) Continued operational cooperation exists with effective command and control structures within both parties to enable engagement at all levels;
 - (i) The parties facilitate the Mission's full access and freedom of movement to all areas required for the effective observation and monitoring of the ports of Hudaydah, Ra's Isa and Salif to enable daily access to all port installations and to conflict-affected areas across the Governorate, including in the southern districts in the vicinity of the shifted front lines;
 - (j) The parties provide the access and cooperation required to advance demining in Hudaydah city, the ports and areas of priority in other districts to enhance the protection of the local population in the Governorate's shifted context.
232. The Mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The implementation of quick-impact community projects, which began in 2023, continues to include partnering with groups working to support women and girls in Hudaydah Governorate. This is maintained by broader consultations to promote women's participation in the implementation of the Hudaydah Agreement. The Mission will work to reduce the disproportionate impact of landmines and explosive remnants of war on women and children throughout the Governorate, supporting risk awareness campaigns tailored to women and children. In addition, the Mission will promote equal rights and opportunities for women by actively considering gender perspectives in planning and implementing mission activities and those undertaken by the parties. The Mission established a gender parity working group to progress and monitor the gender parity action plan on internal issues relating to gender parity, from recruitment and retention to conducive work environments and an empowering work culture. Specific attention is given to the needs and concerns of female national staff.
233. In line with the United Nations Disability Inclusion Strategy, the Mission has developed a mission-specific disability inclusion strategy and action plan. Implementation of the action plan progressed well in 2023, with improvements made in the physical accessibility of mission premises in Yemen and Jordan, as well as the mainstreaming of disability inclusion across numerous aspects of the Mission's work. This has included capacity-building opportunities for staff, promoting an inclusive organizational culture and amplifying the stories of people with disabilities in the Mission's public communications (specifically the victims of landmines and explosive remnants of war).

Programme performance in 2023

Joint monitoring visits to conflict-affected districts improved coordination with the United Nations country team

234. In 2023, the Mission increased the number of joint monitoring visits with United Nations country team members to frontline districts in the south of Hudaydah Governorate. That work supported increased access for humanitarian actors in conflict-affected districts through the conduct of visits in areas either previously unserved or underserved by humanitarian assistance and the broadening of awareness of humanitarian needs in those areas. It also helped to further strengthen coordination between the Mission and the United Nations country team, including on the Mission's implementation of quick-impact projects and on shared situational awareness and analysis with country team actors.
235. Progress towards the objective is presented in the performance measure below (see table 48).

Table 48
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)
–	Improved situational awareness and analytical products supported partner planning and programming in Hudaydah Governorate	Increased joint monitoring visits with United Nations country team members enhanced coordination in conflict-affected districts

Planned results for 2025

Result 1: raised community confidence in the Hudaydah Agreement and related United Nations activities

Programme performance in 2023 and target for 2025

236. In 2023, the Mission began to implement its first quick-impact projects, which were concentrated in the southern districts of Hudaydah Governorate in the areas affected by the conflict. The Mission supported the distribution of educational equipment and supplies at three schools across Hays and Khawkhah districts, improving the learning environment for more than 5,000 children. Two additional projects were also under implementation, both of which related to increasing the capacity of women's groups in conflicted-affected districts to support initiatives in their community. Specifically, these projects support development of new skills for women in the fishing sector and capacity development for a women-led civil society organization.
237. In 2025, the Mission plans to continue to implement quick-impact projects in target areas as part of a wider approach that supports community-led peacebuilding. It will coordinate with the United Nations country team and facilitate humanitarian and development programming in areas that had previously been unreached or underserved. During quick-impact project implementation, there will be a strong emphasis on the delivery of a balanced programme across both sides of the frontline.
238. Expected progress towards the objective and the target for 2025 are presented in the performance measure below (see table 49).

Table 49
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	–	Two women's groups benefited from capacity development initiatives and 5,073 school children have an improved learning environment	Improved availability of services and income-generating opportunities for men and women in conflict-affected districts	Enhanced environment for socioeconomic and peacebuilding projects to be delivered in conflict-affected districts

Result 2: establishment of a physical mission presence in Government of Yemen-controlled territory in Hudaydah Governorate

Proposed programme plan for 2025

239. In 2025, the Mission will redouble its efforts to establish a physical presence in Government of Yemen-controlled areas of Hudaydah Governorate. It has already made considerable progress through the prior establishment of an operations hub in Mokha that has supported the increase in

monitoring and patrolling into the south of Hudaydah Governorate and frontline locations. These efforts have been bolstered by the implementation of quick-impact projects in these areas and the facilitation of joint visits with agencies, funds and programmes from the United Nations country team. It will further expand its presence in Government of Yemen-controlled territory in the Governorate, in order to be equally available to both parties for its good offices and to continue to effectively monitor the Governorate-wide ceasefire.

Lessons learned and planned change

240. The lesson for the Mission was that, in order to sustain and expand regular patrolling in southern Hudaydah Governorate, an established and sustainable presence was required to improve the Mission's responsiveness in order to be able to create a platform for the delivery of the Mission's mandated priorities, such as mine action, civil affairs and collaboration with the United Nations country team. In applying the lesson, the Mission will advance its comprehensive planning process to include adaptable measures and flexibility in establishing a presence in Government of Yemen-controlled territory. This could include exploring options for team sites and day bases in order to progress towards establishing a permanent presence incrementally. This will make the Mission equally available to both parties for its good offices and allow it to effectively monitor the Governorate-wide ceasefire.
241. Expected progress towards the objective is presented in the performance measure below (see table 50).

Table 50
Performance measure

2021 (actual)	2022 (actual)	2023 (actual)	2024 (planned)	2025 (planned)
–	Establishment of the Mukha' hub for operations in southern Hudaydah Governorate	Regular monitoring visits to southern Hudaydah Governorate	Team site established in southern Hudaydah Governorate	Permanent physical premises established

Deliverables

242. Table 51 lists all deliverables of the Mission.

Table 51
Deliverables for the period 2023–2025, by category and subcategory

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Letters of the Secretary-General to the Security Council	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	36	38	36	36
2. Meetings of the Security Council, Security Council Informal Expert Group on Women and Peace and Security	12	12	12	12
3. Redeployment Coordination Committee meetings	9	11	9	9
4. Bilateral meetings with regional political stakeholders	15	15	15	15
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	16	3	8	8
5. Workshops with local community representatives on Hudaydah Agreement implementation	8	3	4	4

Category and subcategory	2023 planned	2023 actual	2024 planned	2025 planned
6. Workshops with political/civil stakeholders on Hudaydah Agreement implementation	8	–	4	4
Fact-finding, monitoring and investigation missions (number of missions)	108	118	108	108
7. Monitoring missions and patrols conducted	108	118	108	108

C. Substantive deliverables

Good offices: provision of good offices in the context of the efforts of the parties to fully implement the Hudaydah Agreement, including meetings with local political actors in Hudaydah and from both parties in Aden and Sana'a, as well as regional and international interlocutors.

Consultation, advice and advocacy: consultations with the relevant Yemeni, regional and international stakeholders to comprehensively understand the challenges at hand and to provide advice to the parties in their efforts to implement the Hudaydah Agreement; advocacy among Yemeni, regional and international stakeholders in support of the implementation of the Agreement and enhancement of the ceasefire in the Governorate; launch of a public opinion poll among the public in Hudaydah Governorate, focusing on the impact of the conflict and ceasefire violations on the civilian population, to better understand the experiences of the civilian population, with specific reference to marginalized groups and women and young people; provision of technical advice to the parties on mine action, oversight and coordination of mine action initiatives among partners in Hudaydah; and advocacy for international mine action non-governmental organizations to operate in the Governorate.

D. Communication deliverables

Outreach programmes, special events and information materials: development and maintenance of strategic relationships with partners, including the United Nations Communications Group, to ensure alignment in United Nations common messaging and cooperation across various levels; development and regular updating of the Mission's key messages transmitted publicly and in response to developments on the ground; outreach events to enable the Mission to adequately consult various community-level interest groups, prominent religious figures, civil society, and youth and women's organizations to broaden participation and ensure an inclusive process on the implementation of the Agreement; and localized sentiment analysis and media monitoring in areas where the Mission seeks to expand its physical presence.

External and media relations: press releases, messages and audiovisual material on the Mission's activities and key messages; relationships developed with media partners to ensure accurate coverage of the Mission's messaging and activities; timely answers to media enquiries; and strengthened informal interaction and relationships with media partners.

Digital platforms and multimedia content: website establishment and frequent updates on the Mission's activities and public statements; regular updates through social media channels on the Mission's activities and public statements; and photographs and videos shared promoting the Mission's activities and key messages on all digital platforms.

B. Proposed post and non-post resource requirements for 2025

Resource requirements (regular budget)

Table 52

Financial resources

(Thousands of United States dollars)

Category of expenditure	2023		2024		2025	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2025 vs. 2024 Increase/(decrease)	
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	2 342.1	405.3	678.5	584.7		(93.8)
Civilian personnel costs	13 448.0	13 817.6	15 666.9	15 452.3		(214.6)
Operational costs	20 281.5	18 647.8	17 294.8	15 569.8		(1 725.0)
Total (net of staff assessment)	36 071.6	32 870.7	33 640.2	31 606.8		(2 033.4)

Proposed 2025	-	1	1	1	6	11a	20a	1	31	-	72	13	79	92	-	-	-	164
Change	-	-	-	-	-	-	1	-	-	-	1	(1)	(1)	(2)	-	-	-	(1)

^a Includes one P-4 and one P-3 general temporary assistance position.

243. The proposed resource requirements for 2025 for the Mission amount to \$31,606,800 (net of staff assessment) and would provide for the deployment of 75 United Nations monitors (\$584,700), salaries and common staff costs (\$15,452,300) for 72 international staff posts (1 Assistant Secretary-General, 1 D-2, 1 D-1, 6 P-5, 11 P-4, 20 P-3, 1 P-2 and 31 Field Service), 92 national staff posts (13 National Professional Officer and 79 Local level) and 5 government-provided personnel, and operational costs (\$15,569,800), comprising the costs for official travel (\$534,700), facilities and infrastructure (\$6,385,700), ground transportation (\$615,300), air operations (\$4,385,100), communications and information technology (\$1,461,700), medical (\$1,137,600), other supplies, services and equipment (\$749,700) and quick-impact projects (\$300,000).
244. A vacancy rate of 87.3 per cent has been applied to the estimates for United Nations monitors on the basis of the actual average vacancy rates in 2023. A vacancy rate of 25.4 per cent for international staff posts has been applied on the basis of the actual vacancy rate in March 2024. Vacancy rates of 25.8 per cent for National Professional Officers and 17.7 per cent for Local level posts have been applied on the basis of the average vacancy rates in 2023. A vacancy rate of 90.0 per cent has been applied to the estimates for government-provided personnel. For proposed new and reassigned posts, a vacancy rate of 50.0 per cent has been applied.
245. With a view to ensuring the effective delivery of its mandate, the following staffing changes are proposed for 2025, including the abolishment of two posts (1 National Professional Officer and 1 Local level), the establishment of one post and the reassignment of one post, as detailed below:

Office of the Chief of Mission Support

- (a) Abolishment of one post of Air Operation Assistant (Local Level) based in Djibouti due to the termination of the rotary-wing aircraft contract in Djibouti;
- (b) Reassignment of one post of Associate Staff Counsellor (National Professional Officer) as an Associate Engineer (National Professional Officer) in the Engineering and Facilities and Management Unit in Hudaydah. Currently, there are nine facilities spread across four cities in Yemen and one city in Jordan, with only four posts managing them (3 Field Service and 1 National Professional Officer). The duty stations are located far from each other and require a specialized technical capacity to oversee the proper functioning of the facilities and related infrastructure. The expected workload of the post involves working on various aspects of projects relating to the maintenance or repair of various structures such as buildings, flood control systems, water treatment equipment, electrical power generation and distribution systems, and environmental control systems;

Political Affairs Section

- (c) Abolishment of one post of a Data Analyst (National Professional Officer) in the Political Affairs Section, given the volatile, complex and politically sensitive environment in which the Mission operates, which calls for the role performed by an international staff member;

Office of the Chief of Staff

- (d) Establishment of one post of a Data Analyst (P-3) in the Office of the Chief of Staff, who will be responsible for collecting, analysing and documenting ceasefire violations data submitted by the parties, while supporting the Chief of Staff in implementing the data strategy, in particular by enhancing a data-driven approach and information security across the Mission.
246. The Mission's approved 2024 staffing table includes two general temporary assistance positions. It is proposed that these positions be continued in 2025:
- (a) Programme Management Officer (P-4) in the Office of the Deputy Head of Mission and Coordination in Hudaydah, who would be required to continue to provide advice to the head of mission and senior leadership on landmine, explosive remnant of war, improvised explosive device and sea mine contamination, the associated risks to the United Nations and civilians, and preventive measure in place to ensure the safe mandate implementation by mission staff in Hudaydah Governorate;
- (b) Finance and Budget Officer (P-3) in the Field Operations Finance Division of the Department of Management Strategy, Policy and Compliance in New York, who would perform backstopping support and continue to be essential in ensuring sufficient capacity at Headquarters for the management of financial resources, the preparation of budgets and the provision of services to the legislative bodies during their review of the proposed budgets for special political missions.
247. The decrease in requirements for 2025 compared with the appropriation for 2024 is attributable mainly to: (a) a decrease under military observers due to non-provisions for death and disability compensation and reduced requirement under rations due to adequate stock acquired in previous periods; (b) a decrease under civilian personnel costs due to a lower common staff rate for staff and higher vacancy rates for international and national staff; and (c) a decrease under air operations due to the termination of the contract of a rotary-wing aircraft in Djibouti to rely on national health facilities rather than Djibouti for hospital care, referrals and CASEVAC/MEDEVAC services for urgent and critical medical and surgical cases. The decreased requirements are offset in part by: (a) an increase under facilities and infrastructure due to the refurbishment and security enhancements of new southern premises in Hudaydah and the replacement of windows to reduce heat transmittance, an increase in rental of premises relating to the higher amount in the cost-share arrangement for the use of premises in Mukha', and an increase in petrol, oil and lubricants relating to service fees for storage, maintenance and distribution points of generator fuel reserves; (b) an increase under ground transportation due to storage and distribution fees for the diesel fuel reserve, as well as spare parts and repairs and maintenance; (c) an increase under communications and information technology due to maintenance costs for services, including support services; (d) an increase under medical services due to increases in the number of contracted medical personnel from three to five; and (e) higher requirements under other supplies, services and equipment due mainly to an increase in freight and related costs.

10. United Nations Integrated Office in Haiti

(\$35,763,000)

A. Proposed programme plan for 2025 and programme performance in 2023

Overall orientation

Mandates and background

248. The United Nations Integrated Office in Haiti (BINUH) is responsible for advising the Government of Haiti in promoting and strengthening political stability and good governance, including the rule of law; restoring a peaceful and stable environment, including through supporting an inclusive inter-Haitian national dialogue; and protecting and promoting human rights. Its mandate derives from the priorities established in relevant Security Council resolutions and decisions, in particular resolution [2476 \(2019\)](#). By its resolution [2692 \(2023\)](#), the Council extended the mandate of the mission to 15 July 2024.
249. On 5 March 2024, amid widespread gang violence that immobilized the international airport and Haiti's main commercial port, the Prime Minister, Ariel Henry, returning from a working visit to Nairobi, was unable to return to Haiti and landed instead in Puerto Rico. A Heads of State emergency meeting called by the Caribbean Community on 11 March resulted in a commitment by Haitian stakeholders to establish a transitional presidential council, composed of seven voting members representing seven diverse groups (Montana Accord, 21 December agreement, Collectif du 30 janvier, Fanmi Lavalas, Pitit Desalin, RED/EDE/Compromis historique and business associations), and two observers (civil society and inter-faith communities). On 12 April, the outgoing Government issued an executive order establishing the Council and providing the new institution with a non-renewable mandate to appoint a new Prime Minister, form a new Government and lead the country to elections for the swearing-in of an elected President no later than 7 February 2026. On 16 April, the Government published another executive order appointing the designated seven voting members and the two observers of the Council.

Programme of work

Objective

250. The objective, to which the mission contributes, is to strengthen political stability and good governance, including accountability and the rule of law; restore a peaceful and stable environment; protect and promote human rights; and strengthen gender equality in Haiti.

Strategy and external factors for 2025

251. To contribute to the objective, the Mission will:
- (a) Advance and facilitate a Haitian-led, Haitian-owned political process aimed at reaching an urgent agreement on a road map for elections;
 - (b) Reinforce the capacity of the Haitian National Police, including through training on human rights and crowd control, to respond to gang violence and sexual and gender-based violence, and to maintain public order;
 - (c) Improve Directorate of Penitentiary Administration management and oversight of prison facilities to ensure proper treatment of inmates in accordance with international standards;

- (d) Address human rights abuses and violations and promote compliance with international human rights obligations;
 - (e) Develop an inclusive and comprehensive approach with all sectors of society to reduce community violence, in particular gang violence;
 - (f) Address human rights abuses and violations with dedicated capacity to address sexual and gender-based violence and comply with international human rights obligations;
 - (g) Take on child protection as a cross-cutting issue throughout its mandate and assist the authorities in the protection of children, including through prioritizing advisory support on child protection;
 - (h) Work with UNODC and relevant United Nations agencies to support Haitian efforts in combating illicit financial flows, the trafficking in arms and enhancing the management and control of borders and ports;
 - (i) Strengthen the criminal justice sector, including by promoting key reforms; support government efforts to improve internal oversight and accountability as they relate to corruption; address prolonged pre-trial detention; and ensure merit-based judicial appointments and the timely renewal of judicial mandates;
 - (j) Include available information on cases of gang violence, criminal activities and human rights abuses in Haiti, collected in carrying out the BINUH mandate, as an annex to the report of the Secretary-General to the Security Council;
 - (k) Cooperate with the Security Council Committee established pursuant to resolution [2653 \(2022\)](#) concerning Haiti and its Panel of Experts and use the good offices of the Secretary-General to encourage the Government to implement resolution [2653 \(2022\)](#).
252. With regard to cooperation with other entities, BINUH collaborates with the Organization of American States, the Caribbean Community and planners on the ground for the Multinational Security Support Mission in Haiti. The mission also engages closely with the diplomatic community, when appropriate.
253. With regard to inter-agency coordination and liaison, BINUH works with the United Nations country team, mainly the resident coordinator, the Office for the Coordination of Humanitarian Affairs, UNODC and the Office of the United Nations High Commissioner for Human Rights through the United Nations Sustainable Development Cooperation Framework for the period 2023–2027. The Office also supports the in-country requirements of the Panel of Experts on Haiti.
254. With regard to the external factors, the overall plan for 2025 is based on the following planning assumptions:
- (a) Political polarization continues to undermine the parties' ability to achieve consensus required to advance tangible initiatives to implement political, legal and economic reforms;
 - (b) The fragile security situation continues to seriously affect both the pace and the sustainability of political, legal and economic reforms;
 - (c) The Government of Haiti further develops the capacities of the Haitian National Police and its Directorate of Prison Administration, including through the ongoing provision of sufficient budget allocation, complemented by external contributions through a multi-donor basket fund managed by UNDP;
 - (d) Delays in the operational deployment of the Multinational Security Support Mission in Haiti curtail political gains significantly;
 - (e) The impact of hurricanes and earthquakes cannot be discounted;
 - (f) The international donor community and national authorities agree to implement stronger coordination arrangements to advance the 2030 Agenda.

255. The mission integrates a gender perspective into its planning, operations, deliverables and results, as appropriate, and encourages the meaningful participation of women in political processes, dialogues and negotiations, as well as their representation in decision-making positions. Its reporting includes disaggregated data on the impact of human rights violations and abuses on women, and on accountability and justice for crimes of violence against women and girls. In addition, the mission works with civil society actors focusing on gender and human rights in the context of the implementation of recommendations issued by the Committee on the Elimination of Discrimination against Women in 2016 and the second universal periodic review cycle for Haiti, in 2016, on the human rights situation.

Programme performance in 2023

National police authorities improved police performance and enhanced security in Haiti
