On 13 October 2019, the Consular Section of the Embassy of the Islamic Republic of Iran in Stockholm was attacked with incendiary materials while approximately 70 clients (some with their children) as well as staff were present in the building. Fortunately, the fire was extinguished in a timely manner, and no one was physically injured.

On 11 April 2022, a group of provoked and organized protesters unleashed an attack against the Embassy of the Islamic Republic of Iran in Kabul, Afghanistan while gathering and chanting slogans which turned aggressive and violent, thereby posing a significant risk to the vicinity's building and people.

On the same day, a group of protesters with the same characteristics attacked the Iranian Consulate General in Herat, Afghanistan, which then turned to violence with so-called protesters not only setting the Consulate gate on fire but also causing significant damage to the premises.

The abovementioned incidents occurred following the subsequent failures of the relevant receiving Countries taking timely preventative measures and actions despite consecutive requests by the Islamic Republic of Iran to fortify security measures to protect its diplomatic and consular properties in due time under the Vienna Conventions on Diplomatic and Consular relations in 1961 and 1963.

It would be appreciated if the above-reported incidents are incorporated in the Report of the Secretary-General to the General Assembly at its seventy-seventh session, in accordance with paragraph 14 of the aforementioned General Assembly Resolution.
