### **Q&A Segment:**

- Interactive discussion with panelists

**Background:**

The 6<sup>th</sup> Committee has a close relationship with the International Law Commission, which assists the General Assembly in the essential role of encouraging the promotion of the progressive development of international law and its codification.

In that regard, the new composition of the International Law Commission for the period 2023-2028 offers the opportunity to reflect on the upcoming work and the perspectives of improvement of the methods of work of both, the ILC and the 6<sup>th</sup> Committee and how to produce and deliver legal solutions to pressing issues of international interest.

The event will provide an informal occasion to delegations to interact with newly appointed special rapporteurs, both on new topics of the agenda and of topics that are in the process of drafting.

**Objective:**

- Create opportunities to strengthen the interaction between the ILC and delegations of States, and for discussing ideas to take full advantage of a future session of the ILC in New York in 2026.
