CONCEPT NOTE

ECOSOC Chamber, United Nations Headquarters, New York,
9-10 October 2024

1. Background

On 28 April 2004, the United Nations Security Council unanimously adopted resolution 1540 (2004) under Chapter VII of the United Nations Charter which affirms that the proliferation of nuclear, chemical and biological weapons and their means of delivery constitutes a threat to international peace and security. The resolution obliges States, inter alia, to refrain from supporting by any means non-State actors from developing, acquiring, manufacturing, possessing, transporting, transferring or using nuclear, chemical or biological weapons and their means of delivery.

Among the conclusions and recommendations of the latest comprehensive review of the implementation of resolution 1540 (2004), periodic open briefings were identified as important to the outreach of the 1540 Committee, as well as to enhance dialogue on implementation and assistance with Member States, among others.

Paragraph 26 of resolution 2663 (2022) directs the 1540 Committee to convene regular open briefings, at least once a year or as needed, for Member States and international, regional and subregional organizations, inter alia, on the margins of the relevant sessions of the General Assembly.
