Permanent Mission of the Republic of Latvia to the United Nations

No. UN-N-10384

The Permanent Mission of the Republic of Latvia to the United Nations in New York presents its compliments to the Secretariat of the Committee established pursuant to Security Council Resolution 1540 (2004) and has the honour to refer to the Committee's communication from 10 December 2025 concerning preparations for the forthcoming Comprehensive Review of the status of implementation of resolution 1540 (2004).

In this regard, the Permanent Mission of the Republic of Latvia has the honour to transmit the updated national report on the Republic of Latvia's implementation of resolution 1540 (2004).

The Permanent Mission of the Republic of Latvia to the United Nations in New York avails itself of this opportunity to renew to the Secretariat of the Committee established pursuant to Security Council Resolution 1540 (2004) the assurances of its highest consideration.

Enclosure: The updated national report on the Republic of Latvia's implementation of Security Council Resolution 1540 (2004).

New York, 28 May 2026

DRAFT 1540 COMMITTEE MATRIX

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to inter-governmental organizations. The matrices are prepared under the direction of the 1540 Committee.

The 1540 Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council Resolution 1540.

The matrices are not a tool for measuring compliance of States in their non-proliferation obligations but for facilitating the implementation of Security Council Resolutions 1540 (2004), 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) and 2325 (2016). They do not reflect or prejudice any ongoing discussions outside of the Committee, in the Security Council or any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution 1540 or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution 1540 (2004) and its successor resolutions. Thus:

An “X” in any data field signifies only that the 1540 Committee considers that a State has taken the steps required, and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An “X” against any data field does not necessarily signify that a State has met in full its 1540 obligations for that data field.

A “?” in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A “NA” (Not Applicable) in any data field signifies that the data field is not applicable to that State where through legally binding instruments States specified that they do not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an “X” or “?” against a particular data field.

4	Action taken to work with and inform industry	Financial Intelligence Unit of Latvia (FIU Latvia) regularly engages with other relevant state institutions on matters concerned by Committee 1540. FIU Latvia welcomes questions from the industry regarding any topic in the scope of FIU Latvia's mandate, to which answers are provided in a swift manner. Control Committee of Strategic Goods regularly informs firms dealing with import, export and transit of their obligations and provides updates with regard to amendments in legislation or in appropriate lists. In addition to that, Latvia also regularly organises seminars for entrepreneurs dealing with the circulation of strategic goods. Latvian State security service has participated in the International Atomic Energy Agency's activities in the field of nuclear security, as well as in trainings on radioactive materials and sources of ionizing radiation outside the control of regulators organized by the National Nuclear Security Administration, Office of Nuclear Smuggling Detection and Deterrence (NSDD) of the United States Department of Energy. State security service has participated in working groups organized by the European Commission in the field of CBRN.
5	Action taken to work with and inform the public	There is a section on import, export or transit of strategic goods on the website of the Ministry of Foreign Affairs. FIU Latvia has drafted several guidelines on different topics, including "Guidelines on the Prevention of Terrorism and Proliferation Financing", which are publicly available on the FIU Latvia's website. FIU Latvia organizes various types of trainings on different matters within the scope of FIU Latvia's mandate and for different audiences based on what they would find useful.
