The Permanent Mission of the Republic of Türkiye to the United Nations presents its compliments to the Security Council Committee established pursuant to resolution 1540 (2004), and with reference to the Note Verbale of the Committee no: SCA/5/20(03) dated 2 March 2020, has the honour to convey the National Implementation Matrix of Türkiye, which contains comments and additional information provided by relevant Turkish authorities based on the updated draft matrix which was prepared by the Committee by using the new matrix template.

The Permanent Mission of the Republic of Türkiye to the United Nations avails itself of this opportunity to renew to the Security Council Committee established pursuant to resolution 1540 (2004) the assurances of its highest consideration.

New York, 28 November 2025

Encl: As stated.

The Security Council Committee
established pursuant to resolution 1540 (2004)
New York

DRAFT 1540 COMMITTEE MATRIX

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to inter-governmental organizations. The matrices are prepared under the direction of the 1540 Committee.

The 1540 Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council Resolution 1540.

The matrices are not a tool for measuring compliance of States in their non-proliferation obligations but for facilitating the implementation of Security Council Resolutions 1540 (2004), 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) and 2325 (2016). They do not reflect or prejudice any ongoing discussions outside of the Committee, in the Security Council or any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution 1540 or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution 1540 (2004) and its successor resolutions. Thus:

An “X” in any data field signifies only that the 1540 Committee considers that a State has taken the steps required, and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An “X” against any data field does not necessarily signify that a State has met in full its 1540 obligations for that data field.

A “?” in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A “NA” (Not Applicable) in any data field signifies that the data field is not applicable to that State where through legally binding instruments States specified that they do not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an “X” or “?” against a particular data field.
