

Regional Perspectives on Implementing an Ambitious, Transformative, Sustainable Development Agenda

A side event by the UN Regional Commissions

Keynote Address by Professor Joseph Stiglitz Nobel Laureate

Roundtable Discussion with Ministers of Finance from the regions and Executive Secretaries of the Regional Commissions

The roundtable will address:

Planning and public expenditure frameworks for effective mobilization and utilization of resources; Channeling private financial flows in support of sustainable development including through effective PPP and blending finance; Encouraging institutional investors to deploy their liquidity towards the development of domestic capital markets, including the strengthening and deepening of regional capital markets; Reducing illicit financial flows and addressing tax evasion for international commercial transactions, including through global, inter-regional and regional cooperation; Innovative sources of finance, including through innovative instruments and special purpose vehicles to finance sustainable development. Encouraging cities and subnational governments to take a larger and more pro-active role in mobilizing and accessing resources for sustainable development.
