

Country:	Turkmenistan
Date of submission:	November 14, 2019

Format for reporting on progress towards the implementation of the United Nations strategic plan for forests 2017–2030, the United Nations forest instrument and voluntary national contributions¹

1. The format is structured around the global forest goals and targets of the United Nations strategic plan for forests 2017–2030 and builds on the format previously used for reporting to the United Nations Forum on Forests at its eleventh session. It is largely narrative, reflecting the qualitative nature of many of the targets.

2. Only information that is not currently provided to the member organizations of the Collaborative Partnership on Forests or that is not in other international databases is requested. The information submitted will be supplemented with quantitative data, among other things, from the following international data providers:

(a) Food and Agriculture Organization of the United Nations (FAO) Global Forest Resources Assessment/collaborative forest resources questionnaires, Forest Europe, Economic Commission for Europe, International Tropical Timber Organization, Montreal Process and Observatory for the Forests of Central Africa;

(b) Reports on the state of the world’s forests, produced every two years by FAO;

(c) Statistics Division of the Department of Economic and Social Affairs of the Secretariat;

(d) Organization for Economic Cooperation and Development;

(e) Other data sources, including the Forest Stewardship Council and the Programme for the Endorsement of Forest Certification.

3. Members are kindly requested:

(a) To submit their completed national reports electronically (in Microsoft Word format) in English, French or Spanish to unff@un.org by mid-November 2019, bearing in mind that early submissions will greatly facilitate the secretariat’s preparation of the report on progress towards the goals and targets of the United Nations strategic plan for forests 2017–2030 [title and focus to be determined] to be presented to the Forum in 2021 [to be confirmed];

(b) To submit, in a separate electronic file, a scanned version of the official signed letter conveying their submission from the respective ministry, or a note verbale from their permanent mission to the United Nations in New York;

Please submit the completed format to: unff@un.org by 15 November 2019.

¹ Detailed guidelines will be prepared and discussed and will, among other things, state the purpose of reporting and how the data will be used. References to voluntary national contributions will be harmonized with the process to be put in place for announcing voluntary national contributions.

(c) In view of the cross-cutting nature of issues relating to forests and sustainable forest management, to consult experts from relevant national ministries, such as those of the environment, economic development, finance and agriculture, in completing the reporting format and to consult the national focal points for the forest resources assessments, the Rio Conventions secretariats, other member organizations of the Collaborative Partnership on Forests, criteria and indicators processes, and relevant stakeholders, where applicable. Members may also wish to consult stakeholders when preparing their report.

4. The year 2015 is used as a baseline.
5. Where possible, all terms used herein are consistent with the terms and definitions used by the FAO Global Forest Resources Assessment.
6. Wherever possible, please indicate the source of information or provide a weblink.

General information

National focal point

Name:	
Title:	
Address:	
Organization:	
Telephone:	
Email:	

Person to contact concerning the national report, if someone other than the national focal point

Name:	Mr. Nury Atamyradov
Title:	Head of Department of Scientific and technical information and projects
Address:	Turkmenistan, Ashgabat, 15, Bitarap Turkmenistan str.
Organization:	National Institute of Deserts, Flora and fauna
Telephone:	(+99312) 94 12 38
Email:	nuryatamuradov@mail.ru

Institutions involved in the preparation of the national report

Institution(s):	National Institute of Deserts, Flora and fauna
Address:	Turkmenistan, Ashgabat, 15, Bitarap Turkmenistan str.
Email:	nuryatamuradov@mail.ru

Global forest goal 1 and associated targets²

Reverse the loss of forest cover worldwide through sustainable forest management, including protection, restoration, afforestation and reforestation, and increase efforts to prevent forest degradation and contribute to the global effort of addressing climate change

Associated targets

- 1.1 Forest area is increased by 3 per cent worldwide³
- 1.2 The world's forest carbon stocks are maintained or enhanced
- 1.3 By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally
- 1.4 The resilience and adaptive capacity of all types of forests to natural disasters and the impact of climate change is significantly strengthened worldwide

Questions on goal 1

1. (a) Since 2015,⁴ what types of action have been taken (by the Government, the private sector, communities, civil society or others) in your country to advance or contribute to the achievement of targets 1.1–1.4?

Please indicate to which targets the actions relate and briefly describe the results to date (in a maximum of 250 words). For each action, please indicate whether it is continuous, planned, in progress or completed.

- (i) Legislative and policy actions

List of actions:

Since 2013, measures have been taken in Turkmenistan in accordance with the National Forestry Program. About 3 million trees and shrubs are planted annually. Decision adopted by the People's Council of Turkmenistan on the creation of a land fund for entrepreneurs for the development of private sector of country.

Description of actions:

Annually planting of 3 million seedlings in the country.

² Goal 1 and its targets support and contribute to the achievement of, among other things, targets 6.6, 12.2, 13.1, 13.3, 14.2, 15.1–15.4 and 15.8 of the Sustainable Development Goals, as well as Aichi Biodiversity Targets 5, 7, 9, 11, 14 and 15, and are supported by paragraphs 6 (o) and 7 (d) and (e) of the United Nations forest instrument.

³ Based on the Global Forest Resources Assessment 2015.

⁴ Or earlier, where relevant to capturing important action. The same applies hereafter.

(ii) Institutional actions

List of actions

Forestry Department under the Ministry of Agriculture and Environment Protection of Turkmenistan responsible for the sustainable management of all types of forests.

Description of actions:

Conservation of existing and establishing new forests. Forestry Administration and its nurseries provide enough amount of planting stock for afforestation activities

(iii) Financial actions

List of actions:

Activities on afforestation, conservation and restoration are financed from State budget, extrabudgetary financing and self-financing

Description of actions:

Financing from State budget, self-financing organizations

(iv) Technical and scientific actions

List of actions:

Growing enough amount of planting stock for afforestation activities, introducing water saving technologies for initial watering of newly established forests.

Description of actions:

Creation of forest zones by planting local species adapted to soil and climatic conditions

(b) How do the actions listed above support the implementation of the United Nations forest instrument?

Increasing forest area in country, mitigation of climate change, conservation of biodiversity, job creation.

(c) What are the main challenges in achieving goal 1 in your country?

Climate change and its consequences, introducing and using water saving technologies.

(d) If your Government has announced a voluntary national contribution or contributions relating to goal 1, please provide brief information, including target dates and the progress made thus far.

According to National Forestry Program of Turkmenistan it is established and continued activities on planting trees and bushes around settlements and remote areas.

(e) Any additional comments on goal 1:

Global forest goal 2 and associated targets⁵

Enhance forest-based economic, social and environmental benefits, including by improving the livelihoods of forest-dependent people

Associated targets

- 2.1 Extreme poverty for all forest-dependent people is eradicated
- 2.2 Increase the access of small-scale forest enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets
- 2.3 The contribution of forests and trees to food security is significantly increased
- 2.4 The contribution of forest industry, other forest-based enterprises and forest ecosystem services to social, economic and environmental development, among other things, is significantly increased
- 2.5 The contribution of all types of forests to biodiversity conservation and climate change mitigation and adaptation is enhanced, taking into account the mandates and ongoing work of relevant conventions and instruments

Questions on goal 2

2. (a) Since 2015, what types of action have been taken (by the Government, the private sector, communities, civil society or others) in your country to advance or contribute to the achievement of targets 2.1–2.5?

Please indicate to which targets the actions relate and briefly describe the results to date (in a maximum of 250 words). For each action, please indicate whether it is continuous, planned, in progress or completed.

(i) Legislative and policy actions

List of actions:

Adoption Forest Code (2011), National Forestry Program (2013), Law on Pastureland (2015). All this actions and laws regulate and manage issues and activities of forestry.

Description of actions:

According to Forest Code of Turkmenistan local people may to lease forestland for short and long-terms period

(ii) Institutional actions

List of actions:

Forestry Administration and related Institutions since the National Forestry Program ends in 2020 it is necessary to develop new program which will include best world practices on sustainable forest management.

Description of actions:

(iii) Financial actions

List of actions:

The development of entrepreneurial activity that promotes the creation of high-yielding plantations has been recently introduced.

Description of actions:

(iv) Technical and scientific actions

List of actions:

It is necessary to develop methods and techniques in growing drought tolerant species.

Description of actions:

The priority should be given to recovering natural forests in mountainous and desert areas

(b) What other action is being taken (by the Government, the private sector, communities, civil society or others) in your country in support of the achievement of goal 2?

With adaptation of Forest Code where articles indicate for forest management and access of citizens and community or others and lease of forestlands.

(c) How does the action listed above support the implementation of the United Nations forest instrument?

In Turkmenistan annually Increasing forest areas create new jobs, improve ecological conditions and decrease level of land degradation.

(d) What are the main challenges in achieving goal 2 in your country?

At present there are not enough experience on sustainable management of forests, afforestation and production of forestry products.

(e) If your Government has announced a voluntary national contribution or contributions relating to goal 2, please provide brief information, including target dates and the progress made thus far.

(f) Any additional comments on goal 2:

Global forest goal 3 and associated targets⁶

Increase significantly the area of protected forests worldwide and other areas of sustainably managed forests, as well as the proportion of forest products from sustainably managed forests

Associated targets

- 3.1 The area of forests worldwide designated as protected areas or conserved through other effective area-based conservation measures is significantly increased
- 3.2 The area of forests under long-term forest management plans is significantly increased
- 3.3 The proportion of forest products from sustainably managed forests is significantly increased

Questions on goal 3

3. (a) Since 2015, what types of action have been taken (by the Government, the private sector, communities, civil society or others) in your country to advance or contribute to the achievement of targets 3.1–3.3?

Please indicate to which targets the actions relate and briefly describe the results to date (in a maximum of 250 words). For each action, please indicate whether it is continuous, planned, in progress or completed.

- (i) Legislative and policy actions

List of actions:

The economic development of country and gasification of communities depending on forest resources the need for firewood or timber was significantly reduced, the area of protected forests increased

Description of actions:

⁶ Goal 3 and its targets support and contribute to the achievement of, among other things, targets 7.2, 12.2, 12.6, 12.7, 14.2, 14.5, 15.2 and 15.4 of the Sustainable Development Goals, as well as Aichi Biodiversity Targets 7, 11, 12 and 16, and are supported by paragraphs 6 (p), (q) and (x) and 7 (f) and (g) of the United Nations forest instrument.

(ii) Institutional actions

List of actions:

The Forestry Administration are regulating and monitor of all types of forests

Description of actions:

(iii) Financial actions

List of actions:

Ministry of Agriculture and Environment Protection, Forestry Administration

Description of actions:

From State budget, self-financing

(iv) Technical and scientific actions

List of actions:

With the annual increasing of forests areas, every ten years carried out forest inventory activities

Description of actions:

(b) What other action is being taken (by the Government, the private sector, communities, civil society or others) in your country in support of the achievement of goal 3?

Every year in the country in autumn and spring seasons held nationwide of planting trees. In these activities participate population, ministries, organizations, private sector and so on.

(c) How does the action listed above support the implementation of the United Nations forest instrument?

Increasing forest area, conservation, protection in country contribute for the implementation of the United Nations forest plan for the 2017-2030

(d) What are the main challenges in achieving goal 3 in your country?

Climate change and rising average air temperature, scarce of water resources limiting factors of sustainable forest management. One more thing is it is necessary to capacity building in sustainable forest management.

(e) If your Government has announced a voluntary national contribution or contributions relating to goal 3, please provide brief information, including target dates and the progress made thus far.

(f) Any additional comments on goal 3:

Global forest goal 4 and associated targets⁷

Mobilize significantly increased, new and additional financial resources from all sources for the implementation of sustainable forest management and strengthen scientific and technical cooperation and partnerships

Associated targets

- 4.1 Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation
- 4.2 Forest-related financing from all sources at all levels, including public (national, bilateral, multilateral and triangular), private and philanthropic financing, is significantly increased
- 4.3 North-South, South-South, North-North and triangular cooperation and public-private partnerships on science, technology and innovation in the forest sector are significantly enhanced and increased
- 4.4 The number of countries that have developed and implemented forest financing strategies and have access to financing from all sources is significantly increased
- 4.5 The collection, availability and accessibility of forest-related information is improved through, for example, multidisciplinary scientific assessments

Questions on goal 4

4. (a) Please describe major actions taken in your country to move towards goal 4 and its associated targets. More detailed information on actions for each target may be supplied below.

For the annually afforestation and other forestry activities Turkmenistan is mobilizing sources mainly from State budget and self-financing instruments. And also through international cooperation such as joint projects in forestry fields

(b) If your Government has announced a voluntary national contribution or contributions relating to goal 4, please provide brief information, including target dates and the progress made thus far.

⁷ Biodiversity Target 19, and are supported by paragraphs 6 (n), (l), (m), (r) and (s) and 7 (a)-(c) and (l)-(q) of the United Nations forest instrument.

Progress towards targets 4.1 and 4.2

(c) Since 2015, has your country (the Government, the private sector, communities, civil society or others) been able to mobilize significantly increased financial resources for the implementation of sustainable forest management?

Yes No

If yes, please specify the sources:

- Public domestic funding
- Private domestic funding
- Public international funding, including official development assistance
- Private international funding
- Blended financing

Please describe the main challenges in mobilizing funds in a maximum of 250 words:

As forestry is long-term process and growing trees take quite long time it is a limited amount of funds is allocated. And also, in Turkmenistan Forestry Administration self-financing organizations which are earning money from realizing seedlings and other agricultural products and also from forestry by products.

Progress towards target 4.3

(d) Is your country (the Government, the private sector, communities, civil society or others) engaged in international cooperation to promote sustainable forest management?

Yes No

If yes, please specify the entity or entities with which your country is cooperating: *UNDP, UNEP, FAO, GIZ, TIKA, CAREC, UN Conventions CCD, CBD, UNFCCC.*

- Governments
- Intergovernmental organizations/processes
- Private sector
- Non-governmental organizations
- Other

Types of cooperation:

- North-South
- South-South
- North-North
- Triangular
- Technical
- Financial
- Other (please specify):

Areas of cooperation:

- Forests and climate change
- Forest biodiversity
- Valuation of the ecosystem services provided by forests
- Socioeconomic issues, including livelihoods
- Forest degradation and rehabilitation
- Scientific cooperation
- Forest monitoring/data collection
- Technology transfer and capacity development
- Production of timber or non-timber products
- Other (please specify):

Progress towards target 4.4

(e) Since 2015, has your Government developed or implemented financing strategies to achieve sustainable forest management and to implement the United Nations forest instrument?

Yes No

If yes, what is the time frame for these strategies (multiple answers possible, if there is more than one strategy)?

- 2–5 years
- 5–10 years
- 10–20 years
- More than 20 years

Global forest goal 5 and associated targets⁸

Promote governance frameworks to implement sustainable forest management, including through the United Nations forest instrument, and enhance the contribution of forests to the 2030 Agenda for Sustainable Development

Associated targets

5.1 Number of countries that have integrated forests into their national sustainable development plans and/or poverty reduction strategies is significantly increased

5.2 Forest law enforcement and governance are enhanced, including through significantly strengthening national and subnational forest authorities, and illegal logging and associated trade are significantly reduced worldwide

5.3 National and subnational forest-related policies and programmes are coherent, coordinated and complementary across ministries, departments and authorities, consistent with national laws, and engage relevant stakeholders, local communities and indigenous peoples, fully recognizing the United Nations Declaration on the Rights of Indigenous Peoples

5.4 Forest-related issues and the forest sector are fully integrated into decision-making processes concerning land use planning and development

Questions on goal 5

5. (a) Please describe major actions taken in your country to move towards goal 5 and its associated targets. More detailed information on actions for each target may be supplied below.

Since all forests of Turkmenistan have protective functions there is no commercial wood supply from forests. Forests of this area play crucial role in protection land from degradation, dust storms, water resources conservation, mitigating climate change.

⁸ Goal 5 and its targets support and contribute to the achievement, among other things, of targets 1.4, 2.4, 5.a, 15.9, 15.c, 16.3, 16.5–16.7, 16.10 and 17.14 of the Sustainable Development Goals, as well as Aichi Biodiversity Targets 2 and 3, and are supported by paragraphs 6 (a), (c), (k), (l), (n) and (w) and 7 (c) and (h)–(j) of the United Nations forest instrument.

(b) If your Government has announced a voluntary national contribution or contributions relating to goal 5, please provide brief information, including target dates and the progress made thus far.

Progress towards target 5.1

(c) In your country, have forests been integrated into national sustainable development plans and/or poverty reduction strategies?

Yes No

If yes, please specify if integrated into:

- National sustainable development plans and/or
- Poverty reduction strategies

Progress towards target 5.2

(d) Since 2015, has your Government taken steps to prevent and reduce illegal international trafficking in forest products, wildlife and other biological resources?

Yes No

If yes, please specify the type of action:

- New legislation
- Improved enforcement of existing legislation
- Export controls
- Import controls
- Bilateral agreements between exporting/importing countries
- Other action, for example, public procurement policies and public-private partnerships. Please list below:

Progress towards target 5.3

(e) Are mechanisms in place to ensure cross-sectoral coordination among government agencies?

Yes No

Ministry of Agriculture and Environment Protection of Turkmenistan and Forestry Administration under the ministry coordinate afforestation activities, management and protection of forests. Joint with Cabinet of Ministries of Turkmenistan ministry is allocates lands for afforestation activities. In Turkmenistan all the ministries, organizations involved in Sustainable management of forests resources and they have forest plots.

If yes, please specify in a maximum of 250 words:

(f) What types of mechanism are in place to involve stakeholders in forest/ sustainable forest management policy formulation, planning and implementation?

In Forest Code and National Forestry Program of Turkmenistan developed by active participation of international experts are foreseen short- and long-term lease of forests plots. In these plots for tenants is prohibited cutting trees or bushes. But allowed agroforestry activities and improvement of forestlands by planting trees.

Please specify in a maximum of 250 words:

Progress towards target 5.4

(g) Are mechanisms in place to involve the forest sector in cross-sectoral coordination among government agencies in charge of land use planning and development?

Yes No

If yes, please specify in a maximum of 250 words:

The mechanism of forest sector in involving to cross-sectoral coordination are annually plan for establishing afforestation area are divided between ministries and organizations which are responsible for the further management of these areas.

Global forest goal 6 and associated targets⁹

Enhance cooperation, coordination, coherence and synergies on forest-related issues at all levels, including within the United Nations system and across member organizations of the Collaborative Partnership on Forests, as well as across sectors and relevant stakeholders

Note: targets 6.1 and 6.2 are not included in this section of the reporting format as they address actions taken by the international community, and not those taken at the national level

Associated targets

6.3 Cross-sectoral coordination and cooperation to promote sustainable forest management and halt deforestation and forest degradation are significantly enhanced at all levels

6.4 A greater common understanding of the concept of sustainable forest management is achieved and an associated set of indicators is identified

6.5 The input and involvement of major groups and other relevant stakeholders in the implementation of the strategic plan and in the work of the Forum, including intersessional work, is strengthened

⁹ Goal 6 and its targets support and contribute to the achievement of, among other things, target 17.14 of the Sustainable Development Goals and are supported by paragraphs 6 (b), (c), (g), (m) and (w) and 7 (r) and (s) of the United Nations forest instrument.

Questions on goal 6

6. (a) Please describe major actions taken in your country to move towards goal 6 and its associated targets. More detailed information on actions for each target may be supplied below.

According to National Forestry program of Turkmenistan all stakeholders, major groups participating in afforestation or forestry activities are described. And they annually increase them forest area by planting and enriching.

(b) If your Government has announced a voluntary national contribution or contributions relating to goal 6, please provide brief information, including target dates and the progress made thus far.

Progress towards target 6.4 (criteria and indicators)

(c) Are criteria and indicators for sustainable forest management used in your country?

Yes No

If yes, please specify which sets are used:

- National or subnational
- Regional or international¹⁰
- Other (please specify):

For which of the following purposes are they used? (Multiple answers possible)

- To generate information for national reports on forest conditions and management
- To monitor and assess forest conditions and management
- To review and develop national forest policies and tools for sustainable forest management
- To communicate with society and carry out dialogue with stakeholders
- To report on forests to regional and international organizations (please specify):

¹⁰ For instance, those used by the International Tropical Timber Organization, Forest Europe, the Montreal Process and the Tarapoto Proposal on Criteria and Indicators for Sustainability of Amazonian Forests.

Progress towards target 6.4 (communication and awareness)

(d) Since 2015, have actions been taken (by the Government, the private sector, communities, civil society or others) in your country to communicate and promote a greater understanding and awareness of sustainable forest management?

Yes No

If yes, please specify in a maximum of 250 words:

On regular a basis informing through mass media, ecological education in secondary schools, universities, photo exhibitions, actions carried out of Turkmen Society of Nature Protection. Society regularly engage among community awareness of sustainable management of forest resources.

Progress towards target 6.5

(e) Have actions been taken by your Government to involve major groups and other relevant stakeholders in the implementation of the United Nations strategic plan for forests 2017–2030?

Yes No

Annual afforestation activities in Turkmenistan is contribute to the UNFF plan by increasing forest areas and sustainable management. Representatives from Turkmenistan should actively participate in UNFF activities, that's why we proposing keep regularly contact.

If yes, please specify in a maximum of 250 words:

Other questions

7. (a) Since 2015, has your country taken action to promote gender equality in the forest sector?

Yes No

If yes, please indicate action taken with regard to the following:

- Women's effective access to the control and use of forest resources
- Women's effective participation in decision-making at the household and community levels
- Women's effective participation and representation in forest management institutions
- Other

Women's actively participate in management forest resources, so they on the level of community making decision on management of non-timber forest products, collection and marketing. Also participating and managing establishing forestry plantations. Women's also working in scientific institutions and universities as leading specialist.

Please provide a brief description:

(b) What action has been taken (by the Government, the private sector, communities, civil society or others) in your country in observance of the International Day of Forests?

- Cultural activities (for example, art, music, film and theatre)
- Educational activities (for example, workshops and symposiums)
- Media activities (for example, newspapers, magazines, television and radio)
- Social media activities
- Other

Please provide two to three examples and, if possible, a weblink or weblinks to relevant documentation:

So, 21st March in Turkmenistan celebrated National Holiday Nowruz (which means: Beginning of spring) at these days carried out activities on planting trees in throughout the country. There also cultural activities art, music, and so on.

Success stories

8. Do you have any success stories relating to the implementation of the United Nations strategic plan for forests 2017–2030 in your country? If so, please provide a brief description, with references (such as weblinks, publications and articles), showing how the action contributed to achieving the goals and targets and specifying which goals and targets are relevant. Please provide a maximum of three success stories.

<p>Success story 1</p> <p>Action taken:</p> <p>Goals and targets addressed:</p> <p>Outcome and results achieved:</p>

Annex II

Draft global core set of forest-related indicators

<i>Indicator</i>	<i>Thematic element</i>	<i>Unit</i>	<i>Tiera</i>	<i>Data supplier</i>	<i>Linkages to globally agreed goals and targets</i>
1. Forest area as a proportion of total land area	1. Extent of forest resources	Percentage	1	FAO Global Forest Resources Assessment	Measures progress towards target 15.1 of the Sustainable Development Goals and global forest goal 1. Sustainable Development Goal indicator 15.1.1
2. Forest area annual net change rate	1. Extent of forest resources	Percentage	1	FAO Global Forest Resources Assessment	Measures progress towards target 15.2 of the Sustainable Development Goals and target 1.1 of the United Nations strategic plan for forests 2017–2030. Subindicator of Sustainable Development Goal indicator 15.2.1
3. Net greenhouse gas emissions (source)/ removals (sink) of forests, and carbon balance of harvested wood products	1. Extent of forest resources 4. Productive functions of forest resources	Kilotons of carbon dioxide emissions per year	2	United Nations Framework Convention on Climate Change secretariat	Measures progress towards targets 1.2 and 2.5 of the United Nations strategic plan for forests 2017–2030. Linkages with Sustainable Development Goal 13 and measuring, reporting and verifying requirements under the United Nations Framework Convention on Climate Change
4. Proportion of forest area located within legally established protected areas	2. Forest biological diversity	Percentage	1	FAO Global Forest Resources Assessment	Measures progress towards target 15.2 of the Sustainable Development Goals, targets 2.5 and 3.1 of the United Nations strategic plan for forests 2017–2030 and Aichi Biodiversity Target 11. Subindicator of Sustainable Development Goal indicator 15.2.1
5. Change in area of primary forests	2. Forest biological diversity	Hectares	1	FAO Global Forest Resources Assessment	Measures progress towards target 1.3 of the United Nations strategic plan for forests 2017–2030 and Aichi Biodiversity Target 5. Linkages with Sustainable Development Goal 15
6. Proportion of forest area disturbed	3. Forest health and vitality	Percentage of forest area	2	FAO Global Forest Resources Assessment	Measures progress towards target 1.4 of the United Nations strategic plan for forests 2017–2030
7. Area of	3. Forest health and vitality	Hectares	3	FAO Global Forest Resources Assessment	Measures progress towards target 1.3 of the United Nations strategic plan for forests 2017–2030

<i>Indicator</i>	<i>Thematic element</i>	<i>Unit</i>	<i>Tiera</i>	<i>Data supplier</i>	<i>Linkages to globally agreed goals and targets</i>
degraded forest vitality				Resources Assessment	plan for forests 2017–2030. Linkages with target 15.3 of the Sustainable Development Goals, as well as Aichi Biodiversity Target 15. Linkages to strategic objective 1 of the 10-year strategic plan and framework to enhance the implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa (2008–2018), and the United Nations Framework Convention on Climate Change
8. Above-ground biomass stock in forest	4. Productive function of forest resources	Tons per hectare	1	FAO Global Forest Resources Assessment	Measures progress towards target 15.2 of the Sustainable Development Goals and targets 1.2 and 2.5 of the United Nations strategic plan for forests 2017–2030, as well as Aichi Biodiversity Target 7. Subindicator of Sustainable Development Goal indicator 15.2.1
9. Volume of wood removals	4. Productive function of forest resources	Cubic metres	1	ECE/FAO/International Tropical Timber Organization/Eurostat joint forest sector questionnaire	Measures progress towards target 2.4 of the United Nations strategic plan for forests 2017–2030
10. Wood-based energy share of total final energy consumption	4. Productive function of forest resources	Percentage	2	ECE and FAO	Linked to target 7.2 of the Sustainable Development Goals
11. Forest area with a designated management objective to maintain and enhance its protective functions	5. Protective function of forest resources	Hectares	1	FAO Global Forest Resources Assessment	Linked to target 1.4 of the United Nations strategic plan for forests 2017–2030
12. Employment related to the	6. Socioeconomic functions of forest	Number of full-time	2	FAO Global Forest	Measures progress towards target 2.4 of the United Nations strategic

<i>Indicator</i>	<i>Thematic element</i>	<i>Unit</i>	<i>Tiera</i>	<i>Data supplier</i>	<i>Linkages to globally agreed goals and targets</i>
forest sector	resources	equivalents		Resources Assessment	plan for forests 2017–2030
13. Number of forest-dependent people in extreme poverty	6. Socioeconomic functions of forest resources	Number	3	FAO and United Nations Forum on Forests	Measures progress towards global forest goal 2 and target 2.1 of the United Nations strategic plan for forests 2017–2030
14. Contribution of forests to food security	6. Socioeconomic functions of forest resources	To be decided	3	FAO and United Nations Forum on Forests	Measures progress towards global forest goal 2 and target 2.3 of the United Nations strategic plan for forests 2017–2030
15. Financial resources from all sources for the implementation of sustainable forest management	6. Socioeconomic functions of forest resources	United States dollars	3	OECD, World Bank	Measures progress towards global forest goal 4 and targets 4.1 and 4.2 of the United Nations strategic plan for forests 2017–2030. Linkages with targets 15.a and 15.b of the Sustainable Development Goals
16. Existence of national or subnational policies, strategies, legislation, regulations and institutions that explicitly encourage sustainable forest management	7. Legal, policy and institutional framework	References	1	FAO Global Forest Resources Assessment	Measures progress towards global forest goal 5 of the United Nations strategic plan for forests 2017–2030
17. Existence of national or subnational forest assessment process	7. Legal, policy and institutional framework	References	1	FAO Global Forest Resources Assessment	Measures progress towards target 4.5 of the United Nations strategic plan for forests 2017–2030
18. Existence of national or subnational stakeholder platform for participation in forest policy development	7. Legal, policy and institutional framework	References	1	FAO Global Forest Resources Assessments	Measures progress towards target 4.5 of the United Nations strategic plan for forests 2017–2030
