National Report to the 11th Session of the United Nations Forum on Forests

Background

The eleventh session of the United Nations Forum on Forests (UNFF11) will be held from 4 to 15 May 2015 in New York. In accordance with the Forum's Multi-Year Program of Work for 2007-2015, the overall theme of UNFF11 is *Forests: progress, challenges and the way forward on the international arrangement on forests (IAF)*. Specifically, UNFF11 will:

1. Review the effectiveness of the IAF and consider all future options,
2. Review progress towards the achievement of the Global Objectives on Forests (GOFs) and implementation of the Non-Legally Binding Instrument on All Types of Forests (hereinafter referred to as the "Forest Instrument"), and
3. Review the contribution of forests and the IAF, including the Forest Instrument, to the internationally agreed development goals, including the Millennium Development Goals (MDGs).

The submission of voluntary national reports by UNFF Member States on items (2) and (3) above will provide crucial input to the Forum's deliberations. Based on national reports, as well as globally available information, the UNFF Secretariat (UNFFS) will prepare an analytical report on the progress and trends in the above areas which will be submitted to UNFF11.

At its tenth session the Forum requested the UNFF secretariat (UNFFS) to: "*Further streamline the guidelines and format for voluntary national reporting to the eleventh session of the Forum including a technical discussion on reporting methodology with relevant experts of Collaborative Partnership on Forest member organizations, taking into account types of information provided to Collaborative Partnership on Forest member organizations and through criteria and indicators and other regional processes and balanced regional workshops depending on available resources.*" (WG1 Resolution)²

Accordingly, the UNFFS in collaboration with the CPF member organizations and consultations with countries revised and streamlined the reporting format. The revised format builds on and further simplifies the UNFF10 reporting format, including by asking Member States to submit only information currently not provided to CPF member organizations or unavailable in international data bases.

The attached draft reporting format is presented as a set of questions in two parts. Part I includes questions related to the progress on the implementation of the Forest Instrument, including achievement of the GOFs. Part II includes questions on the contribution of forests and SFM to the achievement of Millennium Development Goals (MDGs).

¹ This draft is a work in progress. After consultations with countries this document will be revised and finalized by the UNFFS.

The information submitted by countries to the UNFFS will be supplemented with quantitative data from the following international data providers:

- FAO, Forest Resources Assessment (FRA)/Collaborative Forest Resources Questionnaire (CRFQ) - FAO, Forest Europe, UNECE, ITTO, Montreal Process and OFAC
- Joint Forest Sector Questionnaire (JFSQ) – FAO, ITTO, UNECE, EUROSTAT
- FAO, State of the World's Forests (SOFO) 2014
- Organization for Economic Co-operation and Development (OECD)
- Forest Stewardship Council (FSC) and Programme for the Endorsement of Forest Certification (PEFC).

Reporting Guidelines and Format

Member States are kindly requested to:

1. Submit their completed national reporting format **electronically (in word processing software) in English, French or Spanish to unff@un.org**, at the latest, by **30 September 2014**. Early submissions will greatly facilitate the Secretariat's preparation of the analytical Secretary-General's report to UNFF11.
2. Submit in a separate electronic file of a **scanned version of the signed letter from their UNFF Focal Point** [or respective Permanent Mission to the United Nations in New York] conveying their submission.
3. Submit any **graphic elements** included in their completed reporting questionnaire in a separate electronic file.

In view of the cross-cutting nature of issues related to forests and sustainable forest management (SFM), respondents may need to consult with experts from a variety of national ministries to complete the reporting questionnaire, including, for example, the ministries of environment, economic development, finance and agriculture. The respondents are also strongly encouraged to consult with the national focal points for the FAO Forest Resources Assessment (FRA), the Rio Conventions, other CPF member organizations and C&I processes, where applicable.

For questions that have multiple choice components, please check all boxes that apply. We encourage countries to fill in the descriptive parts as these parts provide context and background information in addition to the "Yes" or "No" answers. At the same time, please note that space provided for the descriptive parts is limited to 250 words, to keep the analytical efforts within reasonable bounds.

Year 2007 – the year of the adoption of the Forest Instrument (2007) is used as a baseline throughout the document.

All terms used in this document follow the FAO/FRA Working Paper 180 "Terms and definition FRA 2015": <http://www.fao.org/docrep/017/ap862e/ap862e00.pdf>
