ANNEX 4

INTEGRATED ACTION PLAN FOR THE SOCIAL INTEGRATION OF GYPSIES

Axis 1: Structures

Housing (YP.ES.D.D.A.): Permanent residence for all Greek Roma, and improvement of their living conditions. The housing actions eligible to be implemented are divided into permanent and temporary ones (with prospects of permanence). More specifically, we would like to note the following:

I) Actions of permanent housing rehabilitation:

A) Programme of housing loans to Greek Roma.

B) Construction of whole settlements or/and purchase of building plots in the framework of organized housing building implemented by the Municipalities of the country. More specifically, by means of:

free and with full ownership yield, of municipality and community estate ensuring the minimum specifications to build houses by Local Government Organisations (O.T.A.).

II) Housing actions of temporary character aiming at the improvement of living conditions in the existing settlements till the achievement of a sustainable solution of permanent housing rehabilitation. (translocation of temporary settlements, building health structures, civilisation and education structures, etc.).

Axis 2: Services

Education (Ministry of Education and Religious Affairs): A goal is to integrate the total population of Roma children in the educational system, to increase the children's rate attending elementary school, to increase the children's rate going on in secondary education, and to reduce student drop-out from school. Specific measures that have been implemented:

Teachers' training (about 3.000)
Preparation of special teaching material
Roma children's training
Card of emigrating student

In cooperation with the below mentioned Ministries of Employment and Social Protection, and Health & Social Solidarity, **the actions of Socio-medical Centres is implemented**, and, in cooperation with the Ministry of Civilisation, **the action of Civilisation Houses and Club-houses.**

Health (Ministry of Health and Social Solidarity): Implementation of programmes of preventive medicine and vaccinations for those living in camps. For this reason, three mobile socio-medical units operate (one unit of precautionary gynaecological examinations) for persons living in camps, but, also, socio-medical centres targeting at gypsies living at organized settlements (through the Regional Business Programmes), and provide services of precaution, basic elementary health care and social care, as well as facilitating the access of Greek Gypsies to the National Health System, their familiarisation with public services, and their social integration. The National Centre of Social Solidarity also participates in the programme, with social workers and psychologists.

Employment (Ministry of Employment and Social Protection): A goal is to integrate Greek Roma in the labour market, to prevent and reduce unemployment. In the framework of the Business Plan «Training – Employment» and the Regional Business Plans, programmes of integrated interventions are implemented for socially vulnerable population groups, learning of the Greek language (pre-training), general vocational training of unemployed / mainstreaming, accompanying and supporting services, financing new workplaces and young free-lancers in socially vulnerable groups. The benefiting are estimated to be 1.800 persons. Relevant works are also implemented in the framework of the Community Initiative Equal (combating racism, sensitisation of citizens, promotion to employment).

Civilisation – Athletics (Ministry of Civilisation): Recording and promotion of the cultural heritage of Roma, as well as promotion of participation in mass sports' programmes. Specific actions that have been implemented:

- Intercultural workshop (educational programmes of traditional music, creative occupation, theatre and dance for gypsies aged 6-16 years)
- Museum stuff on Roma culture, to inform pupils in the last classes of Elementary School (35-40 persons benefit annually)
- Educational programmes, guided tours in museums, and attending theatre performances (2.800 and 1.300 benefiting persons).
- Photography workshops.
- Participation in mass sport's programmes.

For the most effective implementation of the actions of the Integrated Action Plan, there is close cooperation with the Roma representatives.

Administrative procedures: A significant step towards eliminating social exclusion, and combating discriminations, has also been the introduction of alternative administration procedures, taking into account the particular living conditions of socially vulnerable groups of population, among which the population of Greek Roma, too.

In the framework of ensuring the right to access in information, it is worth-noting that Greek Roma have daily access to public services, at central and local level (YP.ES.D.D.A, Local Government Organisations - O.T.A., Citizen Service Centres), for their information about programmes concerning them, relevant legislation, and about process – handling their affairs (facing any problems during handling their affairs etc.).
